U. M. W. President Says International Organization Supporting District In 100 Per Cent. Walkout

BESCO DENIES CHARGE OF LOCKOUT

Will Ask For Usual Protection of Property, Says Vice-President McLurg—War Veterans Call Upon Provincial Government to Extend Relief to Workers.

HALIFAX, N. S., March 6.—(By Canadian Press) At one o'clock this afternoon Premier E. H. Armstrong wired J. W. McLurg, district president of the U. M. W. of A., at Glace Bay, as follows: "While we deplore outcome of negotiations with company as intimated in your telegram yesterday, just you and your executive will exert your good offices in safeguarding public interests."

This message was despatched following a meeting of the government at which the situation precipitated by the decision announced by the coal miners of the British Empire Steel Corporation yesterday, to cease work at 11 o'clock tonight, was thoroughly canvassed, and indicates that no eleventh hour attempt will be made to avert the tie-up.

At Glace Bay today horses were being removed from the mines and pumps in a number of cases dismantled, preparatory to the stoppage of work.

Get International Support.

At Sydney Vice-president J. E. McLurg announced that the corporation intended to maintain their collieries to the best of their ability and might have to appeal for assistance. District President J. W. McLurg of the U. M. W. reiterated his contention that the district had the support of International headquarters in the action taken.

Measures for the relief of destitution in the coal fields are receiving the attention of various bodies throughout the province.

Support Mine Workers.

TRURO, N. S., March 6.—At the annual convention of the provincial command of the Great War Veterans Association, now in session here, the following resolution was passed last night:

"Whereas ninety per cent. of the employees of Cape Breton are employed in and dependent upon the British Empire Steel Corporation, and whereas during the past several years a recurring state of industrial warfare has obtained between the corporation and its mine employees which during the last few months has reached an acute stage, occasioning unemployment and a consequent condition of destitution and want among these employees, their wives and children, which condition has been further accentuated by the action of the corporation in withdrawing credit from all their unemployed workers at their stores, thus depriving them of their only source of obtaining the bare necessities of life, and whereas these employees, men, having given the best years of their lives to the service of our country.

Urging Granting of Relief.

"We, the Provincial Command of the Great War Veterans Association in Nova Scotia, in convention assembled, do demand that the provincial and federal authorities take immediate action toward granting adequate relief to all unemployed workmen in the areas affected.

"Be it further resolved that copies of this resolution be telegraphed to the Hon. E. H. Armstrong, Premier of Nova Scotia, W. L. Mackenzie King, Premier of Canada, C. G. McNeil, Dominion Secretary G. W. V. A. and to the press."

Hope To Work Pits.

SYDNEY, N. S., March 6.—(By Canadian Press)—"We intend to maintain our collieries to the best of our ability," said J. E. McLurg, vice-president of the British Empire Steel Corporation this morning, characterizing a report from Glace Bay that the management were undecided as to the drawing of the three at several of the mines as "poppy-cock."

Will Ask For Protection.

The vice-president added that the fans and pumps should be operated by officials and if interference were encountered, an appeal would be made for protection.

"We are without protection now," said Mr. McLurg, "and have appealed for none to date."

When asked if he anticipated trouble, he replied: "We do not know what to expect, but if trouble develops we will have to have protection."

No Reply to U. M. W.

He stated further that the notification by the miners' executive of a complete tie-up commencing at 11 o'clock tonight, required no reply and stated he had had no further communication with the provincial government.

This morning a meeting of the finance committee of the county council was being held here for the purpose of discussing relief.

Industrial disputes in Cape Breton during the last few years have always been featured by the presence of the militia in the strike areas. Mr. McLurg in his statement this morning intimates that the corporation will ask

GERMAN FIRM GETS BIG SHIP CONTRACT

British Shipbuilders Lose Order From Furness-Witby Owing to High Prices.

LONDON, March 6.—A contract for the construction of five 10,000 ton cargo motorships at prices so much lower than those quoted by British shipyards, as to be almost sensational, has been given by Furness, Witby and Company, to Deutsche Werft, a Hamburg firm.

British Prices Too High.

The prices named by the British builders were so high that Furness, Witby did not consider the ships could even earn depreciation. The quotations by the German firm were more than \$200,000 lower per ship.

Furness, Witby and Company then offered to give the contract to any British firm which would name a price for each ship \$100,000 higher than the German figures. Even this proved impossible. It has caused a great stir in British shipbuilding circles.

WAR OR TREATY

Russia Anxious For Peace And Understanding With Great Britain, Says Minister

TIFLIS, March 6.—Foreign Minister Tchitcherin, speaking before the Soviet controlling executive committee here, summed up the world situation and declared Britain still remains the most influential power, militarily and financially as that country. He said, on the ground that a new factor is arising from the growing self-determination aspirations of the British dominions.

These dominions, he said, do not want to be drawn into questions which do not concern them, and they are looking hostile on the Soviet policy of equality of nationalities and races.

SAY HUGHES WILL SEEK PRESIDENCY

Washington Expects Former Secretary of State to be Candidate in 1928.

WASHINGTON, March 6.—Is Hughes going or coming? This question agitated political circles here today.

Instead of departing from public life, Hughes is headed for the Presidency or the Chief Justiceship of the Supreme Court, it is believed. His return to private law practice is understood as only temporary, enabling him to recoup his private fortunes quickly and at the same time detaching him from active connection with the Administration sufficiently to permit a running start for higher office.

The same ambition which led him to resign from the Supreme Court to run for the Presidency in 1916 has been stimulated rather than dissipated by his four years as chief cabinet officer, according to those who know him well. It is recognized, however, that unless Mr. Coolidge runs again in 1928, the President is apt to pick his successor.

THE MAN FROM KISH FIRST KNOWN LIAR

Scientists Exploring Long Buried City Make Humorous Discovery

LONDON, March 6.—Who is the earliest recorded liar? Answer: The man from Kish. At least the Wedd-Bismell and Field Museum expedition which has been excavating the long-buried city of Kish—4000 B. C. and eight miles east of Babylon—thinks that the humorous baked-clay tablet which has been unearthed there describes the most ancient liar thus far known to history. He was a hunter and the tablet testified him in the act of telling a "wall story" about his prowess in the hunting field; or it is barely possible that he is being lampooned as a "natural faker." At any rate, a Sumerian artist has caught and immortalized him in the act of pulling a yarn that nobody can or will believe.

EACH SIDE TO PAY LIBEL CASE COSTS

Court Delivers Judgment Today in Hanson-Gleaner Ltd., Action.

Special to The Times-Star. FREDERICTON, N. B., March 6.—The appeal division Supreme Court met here this morning to hear argument on the motion on behalf of the plaintiff in the case of R. B. Hanson, K. C. M. P., vs. The Gleaner Limited, to appeal to the Supreme Court of Canada. The court was composed of Mr. Justice Gritmer, Mr. Justice LeBlanc and Mr. Justice Byrne.

Each to Pay Costs. When the court handed down judgment, February 20, allowing new trial, nothing was stated in judgment with regard to costs. This morning Mr. Justice Gritmer stated that his opinion was that there should be no costs and his brother Judge, Mr. Justice LeBlanc had expressed like opinion to him. The judgment of the court was that there be no costs. Judgment means that each party pays his own costs.

In a former appeal from a judgment of Mr. Justice LeBlanc costs were against the appellant Hanson. Owing to the absence of J. B. M. Baxter, K. C. M. P., who is to argue in support of the appeal to the Supreme Court of Canada, adjournment was made until 2 p. m. awaiting Mr. Baxter's arrival from Ottawa.

The judgment from which it is desired to take an appeal to Ottawa was that granting a new trial after R. B. Hanson, K. C. M. P., had obtained a verdict against the Gleaner Ltd. for libel in February last.

ST. JOHN, N. B., MARCH 6, 1923

### NATIONAL, NOT SECTIONAL.

The fact that the problems of the Maritime Provinces are national rather than sectional problems is being more and more widely recognized as public discussion of the recent delegation to Ottawa proceeds. The Toronto Star says that while there is discontent in both the Maritime Provinces and the West, the "speakers for the delegation that visited Ottawa did not talk sectionally. They talked about what they thought could be done for them within the Dominion." The Star observes that in Parliament today the utterances of any public man is condemned in advance because of the party colors he wears. "If he is a Progressive from the West he is called a professional Jeremiah. If he is a Conservative from Toronto or Montreal he is supposed to be thinking chiefly of the interests of the high protectionists. If he is a Liberal he is accused of thinking only of keeping in good working order the relations between the ministry and the Progressives of that Ontario Star, frankly recognizes that Ontario has arrived at a broader attitude toward Maritime and Western problems. And it adds:

"Somebody must say useful things to be listened to, and a great deal of sensible discussion has and forth will be needed before Canada from ocean to the other can be got into shape for pulling together. The Maritime provinces and the Maritime provinces have views on the tariff and freights that are not the views of Ontario and Montreal—and they never will be. The fact is, these people are placed, not situated, as we are, they have problems which we can't solve for Ontario to expect them to solve them because they mean nothing to us. They mean everything to them."

Ontario can hardly believe that the problems of the Maritimes and of the West mean nothing to its people. They mean a great deal. The remedies called for are national, not sectional. Ontario, in the centre of Canada, would have little to hope for if the West and the Maritimes were to be condemned to discontent and lack of reasonable prosperity because the policies of Canada were dictated by those who thought and legislated only for the centre and who regarded the eastern and western divisions as merely tributary territories. The Star recognizes that Canada has more reason to desire a united and harmonious Dominion than Ontario, but it intimates that Ontario is not yet awake to its own interests, and has yet to realize how much the being of the West and the Maritimes. The Star thinks a conference of representatives men from all corners of Canada, meeting in a non-partisan way, might accomplish what "getting together" finding out what we all are driving at."

Parliament should be able to act without waiting for any such non-partisan conference, which, though it may be necessary, would have to be decided and desired to Parliament. In the matter of national policies that are required, as in connection with transportation, no partisan interest of any sort in Parliament should prevent that body from meeting national requirements. Keeping Canadian trade in Canadian channels is not a partisan question. Giving the Maritimes and the prairie district their full chance for development is not a partisan question, but one that should appeal equally to members of all parties at Ottawa.

### CANADA AND EUROPE.

"Canadian sentiment about European problems is increasingly isolationist," says the Manitoba Free Press. "We doubt whether any possible development in Europe would move this country to spend a dollar or risk a man."

"Any possible development" is a pretty large order. The Free Press is discussing the Geneva protocol, to which Great Britain and the Overseas Dominions will evidently refuse to commit themselves in its present form. The Free Press goes on to say: "Here in Canada the European aspects of the Geneva protocol do not greatly affect us—pretty well protected by the geographical limitation of responsibility. The performance of the European nations since the war has sickened this country of the whole European problem; and if war breaks out—as is predicted by advocates of the Protocol, in the event of its abandonment—they can fight it out among themselves so far as we in Canada are concerned. This may be deplorable, but it is a hard fact. Canada's questioning attitude toward the Geneva protocol rests on other grounds. First, the Japanese amendment, which will have to be explained away or withdrawn before Canada can give her consent. Secondly, the possibility of the British nations being involved, through the operations of the Protocol, in war with the United States. Needless to say, this possibility, which is quite existent as the Protocol stands, must be made an impossibility. There can be no European developments that will drive a wedge between the English-speaking nations."

The objections urged by the Free Press are largely those which caused the British Government to make haste very slowly in this matter. The Free Press, however, overlooks some things when it speaks of the isolation in which this country is a part of the Empire. While its people may fight or decline to fight at all, in theory, they are open to attack the moment Great Britain is at war. However, it will not be necessary for Canada to subscribe to the protocol as it now stands. The British government has in preparation a substitute agreement, which is designed to meet the objections of both the United Kingdom and the overseas Dominions, and although it will be admittedly difficult to give the League the power to deal with any bellicose nation without committing its members to the enforcement of its decree, it is anticipated that further negotiations and discussion will limit the responsibility of members in proportion to their direct interest in any dispute and to their distance from the scene of disturbance.

### HOME BANK RELIEF.

Newspaper opinions as to parliamentary relief for the Home Bank depositors differ widely, but the history of the case since relief became a live issue shows that opinion in the House of Commons, while not unanimous, has been clearly in favor of some measure of aid among a large majority of the members.

It has been intimated that the relief to be given will amount to about one-third of the deposits, and it is estimated that another third may be obtained from the assets of the defunct bank, including payment by stockholders of their double liability, and if this turns out to be correct, the depositors would be recovering about two-thirds of their money. If they do as well as that, the general verdict will be that they are in luck, considering all the circumstances, and inevitably their good fortune will be compared with that of depositors in other institutions in previous years who had to take heavy losses.

Those who assert that there is no more justification for relief in the Home Bank case than there was in previous instances differ at least from the finding of the committee of the House of Commons last session, which reported that the Government had a moral responsibility in connection with the Home Bank losses. The committee in reaching this conclusion was guided in part by the report of Commissioner McKewen, who investigated the Home

to them by the provincial development at Musquash. If that possibility is kept in mind the way of the future—a future that is inevitable—might be greatly simplified. It is a safe prediction that the prospects of such a conference ever reaching a friendly agreement is not advanced by court proceedings, no matter who wins or loses.

 (New York Times.)  
 Extract from Brig-Gen. William Mitchell's "History of the United States" (New York, 1931).  
 "Shortly before dawn on Feb. 26, 1881, the people of Boston were roused from their sleep by a sudden outburst of thunder and a flame-lit sky. It was the long impending Central Asian invasion. Five hundred 2,000-ton bombers were assailing the city, manned by Kurds, Wahabis, Yemencis, Lelebs, Turkomans, Aazyro-Chaldeans, Sarts, Semoyeds, Chukchis and other races hitherto supposed to exist only in the remotest two plates for every inhabitant of Fiji, but somehow they had managed it while America modded supreme. America averted for peace and paid ten billion dollars in gold, ceded Hollywood and the railroad to the Tia Juana, and agreed to destroy all the South Sea literature in the public libraries."  
 "Still the lesson was not learned. On July 4, 1896, New York was bombarded by the Fujian air fleet of 300 squadrons comprising 5,000 fighting planes. This meant two plates for every inhabitant of Fiji, but somehow they had managed it while America modded supreme. America averted for peace and paid ten billion dollars in gold, ceded Hollywood and the railroad to the Tia Juana, and agreed to destroy all the South Sea literature in the public libraries."  
 "In 1941 came the Bantu Invasion and the end. The sky over the national capital was dark with the Zulu host in more than one sense. The invaders' peace demands were beyond our capacity. In despair the President, supported by the House of Representatives, agreed to the annexation of the United States by the Eskimo Confederation in

YOUNG BANKER ENDS HIS LIFE WITH ICE PICK

Body Is Found in Locked Room of Exclusive New York Club

LIVED THREE HOURS AFTER STABBING

Was Looked Upon as Successful Man Without Any Cares.

NEW YORK, March 6.—While the bureau of missing persons conducted a quiet hunt for Morris K. Parker, vice-president of the Equitable Trust Company, his body, with an ice pick imbedded near the heart, was discovered in a locked room of the exclusive University Club. The verdict was suicide. According to physicians it was fully three hours from the time he stabbed himself until he died.

Wife Prostrated. His wife, with whom he occupied a large apartment near Fifth avenue, while their 10-year-old daughter Alice attended a private school at Camden, N. J., was prostrated at news of his death.

Friends declared the Parkers were "ideally happy." Wall street considered him one of the most promising financiers of the generation. At the many social and business clubs of which he was a member, he was looked upon as a prosperous and successful person without a serious care. He was 48 years old and a graduate of the class of '01 at Yale.

In Graduate Dead. With the finding of his body it developed that Parker had gone to the University Club before noon and engaged a room for the day. He carried a brief-case, said club attendants.

B. W. I. SERVICE NOT TO BE INTERRUPTED

Likely Continue Present Service Until After Trade Conference in May.

OTTAWA, March 6.—(Canadian Press).—Request for the continuation of the present freight and passenger service from Canada to the West Indies, for a period of six months or more under the terms of the present contract which expires on March 31st next, has been forwarded by cable, by Hon. T. A. Low, Minister of Trade and Commerce, to the head office of the Royal Mail Steam Packet Company, while a reply will not likely be received for two or three days. It is intimated that Mr. Low has no reason to think that there will be any interruptions of the present service.

SOME WEEKS ago, it is stated, the minister asked the head office of the company in London, what it proposed to do upon the expiration of the present contract. The reply was a proposal for a new and improved passenger and freight service, which involved a large expenditure by the government, in the way of an increased subsidy. The minister submitted the proposal to the respective governments of the West Indies, and a suggestion was made that the whole question should be referred to stand in abeyance until representatives from West Indies conferred with the Canadian Government in May.

Measure Should Apply to Individual and Church, Says Sponsor of Measure.

OTTAWA, March 5.—A bill which would prohibit raffles of all kinds from being held was introduced in the House of Commons this afternoon by L. H. Martell, Liberal, Hants county, as an amendment to the Criminal Code. The bill was given a third reading.

Mr. Martell explained that under the Criminal Code, as it existed, churches were permitted to hold raffles for prizes not to exceed \$50, but there was a maxim which said that "the Church is the teacher of laws, and the dictator of moral discipline."

What applied to the individual should also apply to the Church, said Mr. Martell in introducing the bill.

Galway Prophetess Excites Peasants

DUBLIN, March 6.—The good peasantry of Creagh, in Galway, are excited. A prophetess has appeared and has declared:

"Take heed and warning from me, for I know things which are fore-shadowed in the near future. Out of the West will come war, and the Catholics shall cry for their parents which answer not, neither will son answer father, for the day foretold by the sainted Colmkill is at hand, and the bold shall take, the while the weak shall suffer."

No one has ever seen her, traveling by train or car from place to place, yet there are many who swear that she appeared near the town of Moate at 4:30 p.m. and at 6 p.m. the same day she had appeared in Galway, a city distant more than 50 miles from Moate.

Dark Races Squeezing Out Whites In World

LONDON, March 6.—The dark race of the world outnumbered the white by two to one. If the high negro birth rate is maintained the black population of the United States of America will be 40,000,000 in the year 2070. No European nation could rule India if the people were united against it.

These are some of the alarming facts and opinions expressed by Professor J. W. Gregory in a book entitled "The Menace of Color" which has just been published.

In his opinion the white race will be unable, in the long run, to hold its own against the increasing numbers of negroes and Latins of mixed blood on the western continent, and the yellow races and Indians in Asia.

**FEWER TYPHOID CASES LAST YEAR**

Board of Health Figures Show That Deaths During Year Fell Off.

The actual money saving to the city in the reduction of typhoid cases and typhoid deaths during the last two years through public health measures has been greater than the total amount expended by the sub-district Board of Health, is shown in statistics recently compiled. There was an average of 67 fever cases of typhoid in 1923 and 1924; the actual figures being 28 cases in 1924; 27 cases in 1923; 96 cases in 1922 and 99 cases in 1921.

**Deaths Fewer.**  
The number of deaths from typhoid shows an equally large reduction, none having taken place in 1923 and only one in 1924, while in 1922 there were three deaths from typhoid and in 1921 there were nine, making a total of 12 for the two years preceding compulsory pasteurization of milk, and a total of one for the two years following.

**ALL ROOMS FILLED.**  
Routine business was dealt with at the meeting of the Board of Directors for the Home for Incurables held yesterday afternoon at the Home with J. S. Gregory in the chair. The requests for admission received could not be complied with as only cases that are quite incurable can be admitted. There were reported to be two vacancies in the Home, both for female patients, one in the public ward and one in semi-private ward. All of the rooms in the Home were filled.

**A Floor Your Friends Admire**

There is something wonderfully attractive about Dominion Linoleum floors. They look so bright and cheerful and home-like and blend so beautifully with furnishings and hangings. They transform the dulllest rooms; make the whole house colorful and cosy, warm and friendly.

You can have this flooring comfort at surprisingly little cost. Decide on the rooms that need improving; then select the necessary Dominion Linoleum from the wide range of attractive designs and colorings. Then you'll not only have beautiful floors, but amazingly practical floors, too.

You have no idea how easy it is to clean Dominion Linoleum. No tiresome beating or sweeping. Just a few mop or brush strokes instead and it's bright and fresh as ever. Dominion Linoleum is firm, smooth and non-absorbent. Spilled liquids or grease cannot hurt it; it repels dirt and germs—features that are particularly welcome where kiddies play.

Dominion Linoleum costs little to buy and is easy to lay. It wears well and looks well for years and years.

**Dominion Linoleum Rugs**

You will like Dominion Linoleum Rugs, too. They have all the beauty and practical advantages of Dominion Linoleum and lie flat on the floor without tacking. Made in all the popular sizes.

**"Buy only pure laundry soap— it's real economy—"**

says Mrs. Experience

"Many women, I've found, choose their laundry soap merely because it is extra hard or because the bar is big and bulky—regardless of the soap's quality.

"As for myself, I always insist on Sunlight Soap, because I learned many years ago that it is more economical to use only pure laundry soap, and I believe that Sunlight is the only pure laundry bar soap made in Canada. Every bar of Sunlight carries a \$5,000 Guarantee of Purity.

"And as every bit of Sunlight is pure cleansing soap, it cleans quickly with very little rubbing, and a little of it goes a long way. For washing clothes, dishes and general housework give me Sunlight every time. Sunlight doesn't make the hands rough and red, either." Lever Brothers Limited, Toronto, make Sunlight.

**PREPARE SIMPLE BURIAL LEAGUE SECURITY PACT**  
Chamberlain To Tell Diplomats Protocol Unacceptable  
**POLAND AROUSED**  
Call German Offer Clever Political Manoeuvre To Outwit Entente

British United Press.  
LONDON, March 6.—Austen Chamberlain, Minister of Foreign Affairs, left today for Geneva, where, it was believed, he would prepare a simple burial for the League of Nations' security pact.

In conferring with Premier Herriot it is expected Chamberlain will pave the way for initiation to the League Council that the protocol will be unacceptable.

**Denounce German Offer.**  
While in Geneva Chamberlain hopes to confer with various Allied leaders on Germany's latest security proposals. There is a possibility that Chamberlain before leaving Paris will see Count Skrzynski, Polish Foreign Minister, who is reported bitterly opposed to the German offer.

Polish circles in London denounce the German offer as a clever tactical manoeuvre designed to reopen boundaries which the Poles fear will be considered closed by treaties.

Germany may possibly agree to participate in a safety pact covering western Europe, but is believed determined to endeavor to rearrange existing boundaries which the Poles fear will sooner or later lead to a serious Central European configuration.

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. **VOTE \$1,440,000 TO FARMING STATIONS**  
Motherwell Says Government May Have Experimental Farm on Hudson Bay Line.  
OTTAWA, March 6.—(Canadian Press).—The establishment of experimental stations at points on the Hudson Bay Railway was urged in the House of Commons last evening when a vote of \$1,440,000 covering the administration of experimental farms, was under discussion.  
R. A. Hoey, Progressive member of Springfield, suggested to Hon. W. R. Motherwell, Minister of Agriculture, that seed for experimental purposes should be sent to Fort Nelson, the terminus of the Hudson Bay Railway.  
Mr. Motherwell informed the House that he had been considering the establishment of a station on the Hudson Bay line. He said Mr. Hoey's suggestion was an excellent one, and it would be glad to accept it. Shortly after midnight, the item was carried.

**Young Married Women Need Mother's Advice**  
MRS. PEARL STEELE  
AGREED many women after childbirth get up too soon and too weak to care for the child and perform their household duties, often bring on serious derangements.  
Lydia E. Pinkham's Vegetable Compound is a splendid tonic to take at this time; it is an excellent restorative, contains no harmful drugs, and can be taken in safety by nursing mothers. Thousands of mothers advise their daughters to take this grand old root and herb medicine for such conditions because of their own favorable experience with it.  
Following We Publish an Interesting Letter from Mrs. Steele of Warrensburg, Mo. which should interest every mother in the Land:  
Warrensburg, Mo.—"When my second child was born I got up too soon as my mother was able to do for me. I could not stand on my feet without being dizzy and my back would ache so badly that I would have to lie down at times through the day. My mother had taken Lydia E. Pinkham's Vegetable Compound and had a bottle of it at the time, so she begged me to take it, which I did and I cannot tell you how much better I felt after taking it. Then a year later my husband got back from overseas and we went to keeping house by ourselves and I got all run down again. I couldn't work long at a time but would have to sit down and rest. My husband kept begging me to take the Vegetable Compound again and I thought you might like to know what it has done for me."—MRS. PEARL M. STEELE, 203 Main Street, Warrensburg, Mo.  
Ontario Woman's Interesting Case  
Mount Forest, Ontario—"I am proud today to think I have a fine big baby boy, as healthy as a trout, and I never felt better myself. Before I took your medicine I felt weak and miserable and had pains all through me. After taking Lydia E. Pinkham's Vegetable Compound I began to get stronger and those pains all left me. I am glad I found out about this medicine. I think there is none other equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—MRS. W. M. RUDOLPH, E. R. # INVESTIGATE AMATEUR STANDING OF MARITIME BOXING CHAMPS. STATUS OF BUDDIE LEWIS AND MCEACHERN IS QUESTIONED

## Weeding Out of Rookies at Major League Training Camps

### Y. M. C. I. Officials Ordered To Hold Up Cups Won by Them—New Brunswick Championships Allotted

CHARGES of professionalism are said to have been preferred against Cape Breton boxers, who took part in the recent Maritime Amateur Championships in St. John, and are being investigated by officials of the Y. M. C. I. of C. A. U. of C.

The championship cups, won by Buddie Lewis, 135 pounds, and Francis McEachern, 147 pounds, both of Glace Bay, are being held up pending the result of the investigation.

The Y. M. C. I. officials who conducted the meet, have been advised by the M. P. B. A. U. of C. officers to hold the championship cups, won by Lewis and McEachern, and the local organization has acted in compliance with this request.

Lewis and McEachern are alleged to be professionals, having taken part in preliminary bouts at pro boxing shows in Cape Breton. Lewis had an amateur card in 1924, but when the Cape Bretoners first sent their entries for the amateur tournament a few weeks ago, not on number of four boys who came had been registered with the M. P. B. A. U. of C. However, the Y. M. C. I. officials had the amateur standing of the quartette vouched for by the M. P. B. representative in Cape Breton and arrangements were made whereby Lewis, McEachern, Horncaster and Digt were permitted to take part in the tournament.

Equally Being Made. After the tourney was completed, it is said Nova Scotia officials of the M. P. B. A. U. of C. inquired of Lewis and McEachern as to why they had not been registered and this inquiry is now being conducted by the amateur sport governing body in the Maritime.

New Brunswick Meet. The New Brunswick boxing championships will be held under the auspices of the Y. M. C. I. early in April at the Maritime Branch of the A. A. U. of C. At a meeting of the amateur officials held here yesterday the matter of allotting the meet came up and it was decided that the Y. M. C. I. was the only club to send an application they were given permission to conduct them.

An early announcement that this city will give local boys a splendid opportunity to get in condition. Considerable importance is attached to the New Brunswick titles and it is expected that keen rivalry will exist among the amateur stars.

The St. Mary's Club of Halifax was given permission to conduct the Nova Scotia championships.

### Along the Sport Trail

By RAY HANSEN

NEWS OF THE doings of the major leagues in the southern training camps is beginning to dominate the sport pages and baseball is back again with as much prominence as ever, despite the Dolan-O'Connell scandal last fall. There will always be a feeling that the real facts of the case never came to light, but it does not seem fair to even suspect that any of the officials attempted to hide the truth. Among ball players there seems to be an unanimous belief that it was a practical joke, but it is hard for fans to believe any such thing. Such jokes would make a dangerous form of amusement and a few more would result in a lasting injury on this great pastime. There is only one team that may have to suffer from the taint of scandal and the burden of suspicion and that is the New York Giants. They will in all probability have to stand a lot of razing from the fans, especially while they are on the road. This may or may not have an effect on the morale of the team.

NEXT TO BEING a champion heavyweight or a star ball player, a position as a jockey would seem about the most lucrative form of occupation for those who are not "in the know" in Wall street. Last week Clarence Kummer, one of the cleverest jockeys in the States, signed a contract to ride one horse this year for \$5,000 and 10 per cent. of the money his mount wins. If the colt, Master Charlie, which is owned by William Daniels, the Chicago colt merchant, wins a place in half of the stakes he is expected to, Kummer will receive at least \$20,000. Last year Master Charlie was considered the best juvenile in the south. He is entered in stakes worth nearly \$200,000 and his owner and trainer expect he will clean up about \$100,000 at least. Kummer sprang into prominence last year after Earle Sande was injured. It will be recalled that he piloted Larkin to win over Epinar last September.

THE PUNISHMENT that Battling Nelson absorbed while he was defending his title of lightweight champion of the world is evidently coming back on him. On Tuesday he registered for treatment at the Mayo clinic in Rochester, Minn., in the eye, ear, nose and throat department. Poor old Nelson has probably got a couple of cauliflower ears, a few bones broken in his nose and other ailments.

STUFFY MCINNIS, first baseman of the Boston Braves, has joined the ranks of the hold-outs. He has refused to sign his contract because of a cut in his salary. The remaining members of the team are at Petersburg, Fla., working out. The way Stuffy played last year showed that he was still one of the cleverest first sackers in the major leagues and it is a surprise to learn that a slice was taken from his salary. It would seem that it was done so as to cause him to become dissatisfied and then trade him off to some other club. It is an open secret that the Braves have secured a youngster player who gives promise of developing into a star. This may be the reason why they would like to get rid of Stuffy or it may be that they fear he is becoming too slow on the paths and is not worth as much to the team. However it should not be long before his case is definitely settled one way or another.

REPORTS FROM the Scandinavian countries—Norway, Sweden, Denmark and Finland—say that an effort will be made by them to have a reduction made in the programme for the next Olympic games. They contend that the length of the lists place smaller countries at a big disadvantage, as they are unable to command larger funds to support the games. The programme does seem rather lengthy, and it might be well for England, France, United States and Canada, to seriously consider their suggestions.

Phil Rosenberg Wins Bout From Nat Pincus

### ST. JOHNS AND BATHURST PLAY FAST TIE GAME

#### Work Of The Goal Tenders Was One Of Features

The fans who braved the elements to witness the hockey match in the Arena last evening between the St. Johns and Bathurst were well repaid. The game ended 1-1 after 60 minutes of hard, fast playing. Unfortunately the ice became soft during the afternoon and great difficulty was experienced by members of both teams in handling the puck. The rubber would stick to the ice and passing was next to impossible as it was necessary to lift it or roll it from one to the other. This caused great confusion and time after time the illusive rubber would roll or bounce over the sticks and well meant efforts went for naught.

The visitors looked to be one of the fastest teams appearing here this year and had the ice been hard there is no doubt fans would have been given a real treat. All appeared to be good shots and clever stick handlers, as well as fast and tricky skaters. In the first period they jumped into the lead when they closed in on the St. John net and beat Bidlake by a fast low shot. From that on they kept shooting at the goal and then depending on closing in to catch a rebound. After their first score they never had another chance for Bidlake turned in one of the best games of his career and turned away shot after shot, adding to the lead when he scored, apparently realizing that his opponents were depending on rebounds to win out.

Finnegan of the visitors also played a stellar game and his work in goal was a feature. Time after time the St. John boys broke through the visitors' defense and drove the puck at Finnegan, but only once did he fail to turn sure to clear, the exception came when Brad Gilbert sent a wicked knee high drive into one of the corners, which tied the score.

Many Mix-Ups. It is doubtful if fans ever witnessed more mix-ups on a local rink. The players realizing that puck handling was next to impossible would all charge for the rubber and crashes between team mates came frequently. Bidlake was a victim on three occasions and got two nasty tumbles. The visitors also came together an more than one occasion, but they did not take it as good naturedly as the local star.

When the third period ended the puck was tied and the fans refused to move wanting to see one side or the other win out. It was at first agreed to play an extra five minutes would be played, but later the Bathurst boys decided they had enough as they were scheduled to play their fourth game this week in Amherst tonight.

Bill Hay of Sussex handled the whistle and in his quiet way kept the game clean. He only had to send two men off the ice for minor offenses. Bill is one of the most competent officials brought here this year and is a great favorite with fans.

### AXE FALLS ON HEADS OF YOUNG BALL PLAYERS

#### Managers Have Task Of Trimming Down Their Squads

NEW YORK, March 6.—The axe has begun to fall and the heads of several hopeful rookies lie in the basket with the promise of many more to follow, as the weeding out process in the training camps of the Major League Baseball clubs get under way.

Two notable members of the Chicago White Sox fell victims of the axe yesterday. They were Clyde Rentrow, a shortstop, and Johnny Tyranny, a semi-pro utility man.

Manager Bill Killefer of the Cubs has the problem of trimming his squad of thirteen pitchers, to eight.

McGraw Has Troubles. Manager McGraw is occupying an unhappy throne as manager of the New York Giants. He is, among other things, without a first baseman. Bill Terry hit the first home run of the Giant season yesterday at the camp in Saratoga; but Bill has not signed up and the home run will make him more stubborn. George Kelly has not reported, neither has he signed, although he is expected to do both next week.

Bob Meusel and Miller Huggins exchanged ululations at the American League camp at St. Petersburg yesterday. The wind blew so mightily across the field that only John Levi, bulky Indian recruit, was not tossed from his moorings. Babe Ruth disappointed by not appearing at all.

Babe Ruth Excused. Ruth, it was announced, was excused on several counts. These included a slight indisposition, two bolts on the back of the neck and a flock of catfishes on what are politely known among athletic gentlemen as "Dogs" or so-called feet. Urban Shooker spent the day in bed with a cold. Tom McInry, Boston College infielder pulled up lame with a "Charley Horse."

"Squire" Ebbers of Brooklyn heard the salary dispute case of Dutch Henry, southpaw hurler, at Clearwater, after which Henry signed. The case of Vance is still being considered and the court announced that purely technical differences prevent Vance from delivering his signature. Wheat brought some joy to the heart of the magistrate on reporting and hitting a homer on the first day of training.

The Athletics, divided into two squads, have played two six inning games this week, with the regulars, and Yannisians each winning one. Yesterday's contest went to the Yannisians who came from behind in the final inning.

NEW YORK, March 6.—After considerable delay and much discussion and revision of plans, four juries, each of twelve men and women, have been drawn to put into execution the play system for regulating New York theatres.

The procedure of the juries was not explained. Mr. Enright said, however, each jury would contain both women and men, but the jurors will not be aware of the identities of their colleagues.

AN ELOQUENT ADDRESS**

Words of Praise in Memory  
of One of N. B.'s Great-  
est Public Men

A resolution expressing the sincere regret of the St. John Law Society over the death of Hon. Dr. William Pugsley, K. C., was adopted at a special meeting of the society at noon today in the chair in the absence of the president, Judge H. O. McInerney, through illness. Daniel Mullin, K.C., prepared and moved the resolution which was seconded by Dr. J. Roy Campbell, K.C. Chief Justice Sir Douglas Hazen spoke briefly but eloquently on the loss sustained through Dr. Pugsley's passing.

In moving the resolution, Mr. Mullin spoke as follows:

"Announcement of the death of the Honorable William Pugsley, D.C.L., K.C., P.C., a distinguished member of the bar of this province and long recognized as one of the ablest lawyers in the Dominion, came as a sudden blow not only to his hosts of friends but to the public generally with whom his name was a household word. He was an ever genial, unassuming, kind and courteous to all with whom he came in contact, he lived with his family in warm place in the popular heart, and his death, though it did not come until after the Palmist's allotted span, has evoked deep sorrow.

"Admitted an attorney in June 1872 and called to the bar the following year, he at once entered upon an active and extensive practice and soon forged to the front as a well-read, capable lawyer of winning manners.

A Successful Lawyer.

"Dr. Pugsley was one of the most successful, outstanding, active and energetic members of the legal profession, having been engaged as leader on one side or the other in practically all important litigation for a period of over a quarter of a century. His predominant characteristics as a lawyer may be summed up as: uniform courtesy, fairness, with a conciliatory manner, quality of mind, and an uncommon amount of common sense. He was recognized as having introduced a new era in legal conduct indicated by the phrase 'sweetness and light'; this great quality coupled with his abundant resources, ever-ready legal knowledge, remarkable ability as a cross-examiner, and great reasoning and persuasive powers, made him a lawyer not only always gracious and considerate opponent.

"Early in his career he made his mark in Provincial politics. Elected as one of the members for Kings county in 1888 he immediately took an active and prominent part in the debate in the House of Assembly, and was chosen Speaker in 1897, a position which he filled with eminent distinction, until he entered the Government of Hon. Andrew G. Bazeley as Solicitor-General, subsequently becoming Attorney-General and later Prime Minister of his native province.

"Having received a numerous signed requisition from the electors of the city and county of St. John (prior to which he had retired from the Premiership) he became a candidate for Parliament and was unanimously elected in 1907 when he entered the Government of Sir Wilfrid Laurier as Minister of Public Works.

Great Public Man.

"It soon became recognized that the new member was a man of superior attainments and outstanding ability, and his career as Minister and Parliamentarian added fresh laurels to his already brilliant reputation, and he became known all over the Dominion as one of the foremost public men in Canada, a reputation which he sustained with undimmed lustre.

"Later he was chosen Governor of New Brunswick, and held that distinguished position for over five years; then, retiring, he was later appointed Royal Commissioner for the investigation of War Claims against Germany. Thus he rounded out a career of splendid usefulness, filled as it was with the honors which crowned his achievements.

"Universally esteemed, the enthusiasm of youth was ever with him, combined with a sound understanding and a clear, calm judgment. He was of indomitable energy, high ideals, a man of intellect, of heart, and of kindly human instincts. Such a life is a great gift to humanity and remains an imperishable memorial to posterity. His friendship was capacious and enduring.

"The late Governor of New Brunswick was a man of great breadth of sympathy and keen appreciation of human needs. He was a man of high and noble aspirations, of wonderful ability and industry, of unrelenting and successful labor. Always master of the situation he was a man well fitted for any post in the state, and whatever position he filled he always acquitted himself with distinction.

Loss Is Deplored.

"Those who knew him well deplore the loss of an ideal leader, singularly in touch with his time—a friend with people, of the happiest and kindest nature, of the rarest urbanity and strength of character; he was indeed a man whose like we never shall see again! He was ever a staunch champion of the rights of the Maritime Provinces, and, in the broader field, of the whole Dominion. Saint John undoubtedly has lost one of its forces that made for her best and highest interests.

"One of the mighty indeed has fallen and his passing is the occasion for deep and sincere mourning.

"THEREFORE RESOLVED that the members of the Saint John Law Society here assembled,

**Land Pirate Reaps Harvest of  
Liquor and Cash on C. P. Train**

"All the bootleggers and their pious friends don't live in Cuba and run row," said a St. John man who was on the Maritime delegation to Ottawa to a Times-Star reporter today. "Not by a jugful. Listen to this one. The train that left Montreal for here last Sunday night was boarded at a station in Maine by a man dressed as a United States customs official who demanded that all liquor on board be turned over to him together with a fine of \$5. This was quite a tall order but the official looked as though he meant business and as there was a heavy penalty fixed if liquor was found

after the search, the guilty ones hastened to comply.

"It was a mournful and plum-looking crew by the time he had finished gathering in the five-spots and the bottles. He went through two coaches in this manner and then left the train at the next station. When it was discovered that the official was a fake, there was much wailing and gnashing of teeth. The only consolation left was the hope that if he is caught this during land pirate will face a stiff term in the Federal penitentiary."

The Times-Star informant made haste to explain that none of the St. John contingent were numbered among the victims.

recognizing his distinguished ability as exemplified in forensic and public forum, desire to bear testimony to the great qualities of mind of their lamented brother the Honorable William Pugsley, K.C., one who never ceased to take an active interest in their common profession and to the public life of Canada; they further desire to record the sense of profound regret with which the news of his death was received by his legal associates by whom he was so greatly admired and with a place upon the roll of expression of their appreciation of his high character and legal attainments and his preeminent distinction as a public man of unceasing vigilance ever manifested in his devotion to his country and to the betterment of the Maritime Provinces and his own City of Saint John.

AND FURTHER RESOLVED that these resolutions be inscribed in the minutes and that a copy be forwarded to Mrs. Pugsley and copies also be sent to Honorable Dr. Pugsley's son, William G. Pugsley, Esq., of Ottawa and John A. Pugsley of this city, to all of whom the sympathy of the members is respectfully extended.

Next September will see the new contest for the cup, and it is planned to have the competition changed for one dealing with nature tests, yet defined by the board having the matter in hand. There have been competitors in public speaking and other subjects. The idea is to develop the girls in an all round efficiency. Mrs. James McLean, secretary of the board, said this morning.

The money was lost between Haymarket Square and Johnston's paint shop, Princess street. The latter called at City Hall and received his half month's pay, \$80, put it in his pocket and walked along as far as the Canada Permanent Building, when he found that the entire sum was missing. Up to noon today neither had recovered the money lost.
