

FINANCIAL AND COMMERCIAL A DISCORDANT NOTE.

Mr. Harriman's Observations on the Outlook, as They Appear to Wall Street

By the Stock Exchange. Mr. Harriman's valedictory interview of last Monday, on the financial situation, was accepted as a "bull point" pure and simple. It predicted a rise in stocks, and forthwith the "Harriman stocks" joined with the "Morgan specialties" in the rise. Yet the Harriman interview had some curious qualifications; they were thus expressed: "The business of the country is now on a very suitable basis. If we have favorable weather and correspondingly large crops, I look for happy times. There will be a big bull speculation and a rise in the price of everything, but these will quickly grade down from the top to whatever level the crops will make logical."

CEBERG SENDS SMALL SCHOONER TO BOTTOM

Schooner Geists Collided With Huge Iceberg Fifty Miles Off Newfoundland Coast. St. John, N.B., June 7.—A collision with an iceberg, fifty miles off shore today sent the schooner Geists to the bottom. The schooner had previously collided with another ice pillar, and when the second struck the vessel the crew of six men had their boats in readiness and lowered them. The vessel reported the ice in the afternoon and the ice was reported meeting the first ice nearly 100 miles off shore.

DRIVE THE MICROBES OF CATARRH FROM YOUR SYSTEM

Say to your druggist "I want Hyomei" (High-o-me), and you will have started the only sensible method to cure catarrh. Satisfying the stomach with vile drugs and obnoxious nostrums never cured catarrh. They don't reach the spot. Sprays and douches and the like may give temporary relief, but they never cure the spot. In order to cure catarrh, you must reach the affected part, and you must reach it with something that, when passing over the entire inflamed and germ ridden membrane, will kill every catarrh germ along the route. You can't cure catarrh without killing the catarrh germs, and you can't kill the germs unless you get the killer where the germs are. Hyomei is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane, from the mouth and nose deep in to the cells of the lungs. Hyomei brings the Australian forests of pine and eucalyptus to your home. It is

THE CALL TO THE SUFFRAGETTES

The 41st Annual Convention of the National American Woman Suffrage Association, to be held in Seattle in July. The call for the convention was issued by the National American Woman Suffrage Association, at Seattle, July first to sixth, 1909. In entering upon the fifth decade of its work for the enfranchisement of women in the United States, the National American Woman Suffrage Association invites to share in its councils all those who believe that the help of women is needed by the government. It is a grave mistake of statesmanship to continue to ignore the wisdom of the thousands of our women citizens, who, by their education and home interests, are anxious to help solve the many and vital problems upon which our country's future safety and prosperity depend.

Ex-Ald. J. B. Hamm

Had been a patient for some eleven weeks. He had been gradually sinking for a considerable while, and it was realized that his death was only a question of a short time. Today would have marked his 79th birthday. When the end came last night Mrs. Hamm and his son Arthur G., with his wife, were at his bedside. He seemed just to fall asleep, so peacefully, and the funeral will be held Wednesday afternoon at 3 o'clock from the residence of his son, 114 Elliott Row, Joseph B. Hamm was born at Grand Bay, Kings county, on June 8th, 1830. He was a son of Captain David and Sarah B. Hamm. He was descended from Charles Hamm, who settled in Jersey City (N. J.) prior to the American revolution, and who was among those who sided with the revolutionary cause.

Miss Alice Doherty

The death of Miss Alice Doherty, daughter of Pilot Joseph Doherty, occurred Monday at the residence of Samuel Currie, 143 Belmont street, St. John, N. B., at 10:30 p. m. Besides her father and her mother she is survived by one brother, Pilot Robert B. Doherty, and one sister, Miss Mary, at home. There will be general regret because of her death and many sympathies will be extended to Mr. and Mrs. Doherty in their loss.

Mrs. John S. Rowe

Mrs. Mercey Rowe died on Saturday at the residence of her son-in-law, J. S. Rowe, a prominent lawyer in this city, who removed to Lawrence (Mass.) after the death of her husband. She was survived by six daughters, Mrs. John N. Hay and Mrs. W. R. Miles, of this city; Mrs. T. Williams, of Dorchester; Mrs. E. D. T. L. of St. John; Mrs. M. J. of St. John; Mrs. M. J. of St. John; Mrs. M. J. of St. John.

Mrs. James A. Campbell

The death of Mrs. James A. Campbell took place at Westfield yesterday morning at 10:30 a. m. She was 77 years old, and besides her husband, leaves two daughters and one son. Mrs. Campbell was born in St. John, N. B., and was the daughter of Mr. John O'Donnell and James J. Conley, all of whom reside in Boston.

Reflections of a Bachelor

The only thing that can try a woman's patience more than being married is not being. Most people are more concerned with keeping out of ball than with getting into heaven. A woman is always proud to say she has a fashionable dressmaker, especially if she has one. The first time a man makes love he's afraid the girl won't believe him; ever afterward he's afraid she will. Practically every man has a streak of suspicion that there's something dishonest in being useful.—New York Press.

THE FUTURE OF THE CONSERVATIVE PARTY

Le Canada's Montreal Liberal French organ says the only element blind to the future of the Conservative party is the party itself. The party is a fair way to some serious division in the party, the industrial element in the east, being in favor of the tariff protection, while the agricultural element of the west favors Free Trade. Le Canada quotes the Toronto Globe as saying that the Conservative party is abandoning the protectionist policy in order to conclude the party in the west. But then, it says, the party is not to remain united. The party is not to remain united. The party is not to remain united. The party is not to remain united.

WEDDINGS

MacDonald-Chimo

St. John's (Stone) church, at 6:15 this morning, was the scene of a very interesting event, when the Rev. G. A. Kubring united the holy bonds of matrimony Miss Constance, eldest daughter of Harold Climo, and Wm. S. MacDonald, traveler for the American Tobacco Company, of this city. The bride was beautifully gowned in a suit of white serge, wore a picture hat to match, and carried a shower bouquet of white bridal roses. The bridegroom wore a suit of gray, and carried a bouquet of pink carnations. Mr. Charles H. MacDonald graciously fulfilled the obligation of best man. After the ceremony a sumptuous breakfast was served at the home of the bride, 107 St. John's street. The young couple were the recipients of many handsome and useful remembrances from their friends and relatives. They will be absent about one week on their return to their summer residence at Woodman's Point.

Wasson-Estey

A very pretty wedding was celebrated at 7 o'clock this morning in the St. John's Baptist church, when Miss Edith May Estey and Charles R. Wasson were united in marriage. The bride was a very becoming traveling costume of Alice blue and wore a large blue picture hat to match. The bridegroom wore a suit of gray and carried a bouquet of pink roses. The ceremony was performed by Rev. G. A. Kubring. The young couple were the recipients of many handsome and useful remembrances from their friends and relatives. They will be absent about one week on their return to their summer residence at Woodman's Point.

Donaldson-Smith

An interesting event takes place at 8:30 this evening at the residence of Miss Maud Watson, 33 Winter street, when Miss Maud Watson, sister of the groom, made a very pretty bridesmaid, fittingly gowned in a suit of cream serge, wearing a large cream picture hat, adorned with pink ribbons. The bridegroom wore a suit of gray and carried a bouquet of pink roses. The ceremony was performed by Rev. G. A. Kubring. The young couple were the recipients of many handsome and useful remembrances from their friends and relatives. They will be absent about one week on their return to their summer residence at Woodman's Point.

Landry-Graves

A wedding of interest to people in this province will take place today in Edmonville, Alberta, when Hector L. Landry, son of Mr. Justice Landry, of Dugre, and Madeline M. Graves, the newly-wedded couple will come to New Brunswick on a honeymoon trip.

THE PREVALENCE OF PROFANITY

Hull, N. S., June 5, 1909. To the Editor of the Times: Dear Sir,—I have seen many cases, both in the United States and Canada, calling attention to how profane our language is becoming among boys. The truth of this cannot be denied by any one who happens to come in contact with the groups of boys who frequent public places and on the streets. This is really a sad state of affairs, and if such a habit is to be allowed to continue and to become a fixed one among the coming youth, it cannot be otherwise than eventually lead to the ruin of the nation. The class of youths who seem to become most addicted to this habit, are those ranging in age from 12 to 20, who seem to believe that an oath, or some other form of bad language, makes them appear more manly. What is most shocking of all is the way in which they can be heard calling on the name of "Jesus" in a profane manner, or calling upon God to "damn" everything. Blasphemous and other degrading language has become very common of late, and it is among the lower class of life, which seems almost incredible, seeing that such a low habit of profanity swears no good purpose, and can only be an indication that the people who do so are naturally inclined to fall into low and degrading habits. The reason of this practice becoming so epidemic among the boys who claim to be decent and some education, has been used by the elders in the past, but it must be credited owing to the strong opposition that has been brought against it by the press, the Church, the Holy Name Societies, etc., etc. that it has been greatly lessened among the men, but I do not believe it will have the desired effect among the youths where the seed of 100 years ago has been sown, and who are practically innocent of its evil. It has been stated that the schools might assist greatly in checking this habit among the children, but I do not believe that they can accomplish very much without its use being discontinued by the older people and by their parents in their homes. Yours truly, GEORGE WRIGHT.

SWEARING BOYS

It is remarkable that profanity is not in the least out of the ordinary, where a group of boys in 15 years is to be gathered upon the streets or in any open space to play a game of ball, to hear their language, and to hear the tongues of the most proverbial fisher or costermonger, but which are shocking when falling from the tongues of the tender years. Of all stupid and ill-advised professions, one of the worst and most profane is a simple statement of fact is much stronger than any statement embellished with swear words, and no life is made any more believable by being profane. Profanity among men seems to be growing less and less, at least in public places and among those who claim to be decent and some education. But the habit seems to have firmly fixed itself upon a great many of the boys, who claim to be decent and some education. It is profane among men, between the east and west, and a profane, which will be in the nature of a compromise to the liberal party.

EQUITY COURT CASE OVER KERR WHARF

An interesting suit was commenced yesterday in the equity court before Chief Justice Barron, when A. A. Wilson, K. C. and A. E. Earle, K. C., applied for an injunction in behalf of Robert Seely, trustee for J. Frederick Seely and others to restrain Francis Kerr & Co., Ltd., from erecting a wharf on the south side of the plaintiffs' premises. The suit arises out of the action of the common council recently granting permission to Francis Kerr & Co., Ltd. to build a wharf for the accommodation of their common council business south of the property owned by D. J. Seely & Son in Lower Cove. The Kerr Company had a lease of the Seely property, which expired on May 1st. The plaintiffs now seek to restrain the defendant company from building their proposed wharf to the south, on the ground that the plaintiffs have a right to the wharf, which was built on the site of the plaintiffs' wharf. Mr. Seely further urged through his counsel that his riparian rights accruing through the lease gave him the right of access to deep water. It was said that the plaintiffs in title have occupied the wharf for more than fifty years, the original lease having been drawn in 1888 and that in view of this the city had no right to permit the defendant to occupy it in the manner they always have done.

PERIOD OF PROPERTY PREDICTED IN REPORT

New York, June 7.—The end of the Boettw administration, quiet settlement of the tariff and the resumption of normal conditions are the three-fold basis for prophesying the approval of a report of the national property in the annual report of the consolidated stock exchange. The report proposes the plan of an amended brokerage house of Egan and Smith to resume business on a basis of 100 per cent. cash payment on its debt, while ample assets are on hand to secure the firm's notes for the remaining 80 per cent.

IMPORTANT CONFERENCE

A great conference will open in Buffalo tomorrow, and continue for a week. Indeed some meetings connected with it began yesterday. It is the National Conference of Charities and Correction. The Toronto News says of it: "Canadians interested in child rescue and other social problems will find this meeting a source of inspiration. A wide field of philanthropic effort will be discussed by a number of experts in their own departments. The subjects upon the programme include the handling of the immigrant, the integrity of the family as it bears on the welfare of the children, the morals of small cities and rural communities, juvenile courts, industrial insurance, the care of the insane and feeble-minded, public schools, night schools, camp schools, racial problems, the difficulties of dependent children, child labor, the adjustment of industry to the surplus and unskilled labor, the relative functions of state and private charities, the responsibility of parents for their children's delinquencies, the protection of aliens against unfair exploitation and the inequalities of the law, the consumption of narcotics, and the support of charitable relief. Canadian contributions to the discussions will include papers by Dr. P. H. Bryce and J. J. Kehoe. There are to be exhibits of labor-saving devices in the conduct of charities."

ROADS IN QUEBEC

The following paragraph relating to the roads of Quebec province is taken from the annual report of the minister of agriculture for that province: "If the want of good roads be admitted, the difficulties encountered in so vast a province as that of Quebec, but whose populations is still small, cannot, however, be overlooked in raising the necessary means to carry out permanent works that will assure us such roads as we desire. There is no doubt that the imposition of the taxes indispensable for the attainment of this object would place too heavy a burden upon some municipalities. The government has therefore decided to more equitable and practical to undertake an educational campaign among our farmers in favor of good roads and to assist them by paying a share of the cost of the works done in conformity with the provisions of the law. This campaign has already borne fruit. There are actually over forty municipalities which have taken their summer roads under their own control and responsibility. Applications for grants for permanent macadamizing or graveling works have been sent into the department by more than fifty municipalities. Most of these works were executed last summer and the grants have been paid."

BRITISH POLITICS

The London correspondent of the New York Tribune sends that paper an interesting letter on the present attitude of the British government toward the labor question. We quote: "Winston Churchill is the evangel of radical socialism, proclaiming electoral reform and defending the budget of free trade at Manchester. The prime minister himself has supplied him with cues in a speech remarkable for lucidity and fighting power, but the younger man is in close touch with the labor party and is expected to arrange a close coalition with it. The ministers are bent upon remaining in office for at least two years and proving that they have a sincere determination to work out their series of social reforms and find the money required for financing them without the abandonment of free trade. Mr. Churchill's labor exchange bill will be supported by all parties and easily acted. That will open the way for the more hazardous scheme of insurance against unemployment, with the workmen supplying one-third of the premiums, and

the rest being divided between the employers and the treasury. This class of insurance has been tried on a small scale in a few German cities, with unsatisfactory results. Apparently it will be made compulsory for a group of large industries in which 2,500,000 men are employed. It is a long leap in the dark. Sickness funds and invalidity pensions are also fore-shadowed by Mr. Asquith and David Lloyd-George, and these, too, are likely to follow German lines, and be financed by the workmen, the employers and the state. These measures will keep liberalism in close alliance with trade unionism and the lords will not be likely to oppose them. Radicalism is steadily becoming more democratic, and Mr. Churchill is looming up as a possible prime minister in the course of a decade." On the other hand the Conservatives are exceedingly confident, and the Tribune correspondent declares that they "are brilliantly led by Mr. Balfour," who "has never spoken with more authority and dexterity than he did on Friday last." The Canadian journalists are visiting the United Kingdom at a particularly interesting time, so far as British politics are concerned.

Quebec proposes to stop the export of pulpwood from crown lands. In an address last week the premier, Sir Homer Gouin, said that the forests of the United States had become so depleted that the pulp manufacturers on the other side of the line were obliged to come to Canada for their raw material. He believed the time had now arrived to put a stop to this policy, although, of course, they could not prevent private owners from doing as they liked with their property; but the government had now decided that in the near future all pulpwood coming of the public domain and destined to the United States would have to be manufactured on this side of the line. Certain private interests, perhaps, he said, would suffer, but he believed it would be necessary in the interests of the province to adopt a similar policy to that of Ontario.

The Montreal Gazette does not sympathize with the view of some Conservative papers that Canada should retaliate against the United States merely because that country is raising the duties on some articles. The Gazette takes the right view of the situation. It says: "The manner in which the United States Senate is raising the customs duties on articles of Canadian export has led to the suggestion that Canada should retaliate by increasing her tariff so as to strike United States exports. This sort of thing is natural, rather than commendable. It is in accord with the spirit of the old Adam which would meet a blow with a blow. Business care for a matter that seriously affects business suggests that the tariff should be shaped first consideration of what will promote Canada's commercial and national interests, and these alone."

The Presbyterian General Assembly is engaged in a somewhat bitter controversy over the question whether church union or church federation is most desirable. In Chicago a daring thinker has been invited to withdraw from the Baptist church. In Methodist circles there is trouble over Scriptural interpretation. In all the churches, as usual, the man of advanced thought is assailed as an enemy of true religion. But traditionalism is losing ground.

Mr. J. B. Ham has been for so many years a familiar figure in St. John that the news of his death causes widespread regret. The business in which he was engaged for a lifetime suffered severely with the advent of the street cars. He was a man of blunt speech but kindly heart, and had a wide circle of friends.

The policy of improving the service of civic departments by simply increasing the cost appears to be very popular with the city council. Will the country market be kept any cleaner and its by-laws any better observed as a result of the increase in the salaries of two officials? Nova Scotia has very little crown land compared with New Brunswick, but it proposes to have a forest map. That province has a progressive government. Chief Kerr and Chief Clark are not worth any more money to the city than they were last week. They should take lessons from Director Wisely and Mr. Dunham. There will be a quick response in the neighboring state to the cry of need from Presque Isle, where a thousand people were made homeless by the flames yesterday. Fredericton calls for tenders for street paving. St. John continues to increase and bump along over country roads. The discussion at the imperial press conference should advance the cause of cheaper cable service. TOO HER AT HER WORD. "I'll never tell another man I'd rather dance than eat." "Why not?" "He kept me waiting until all the restaurants were closed."

The first consignment of blocks for the Moncton main street pavement arrived there by steamer on Thursday last, and the principal will be celebrated at 10 o'clock on Monday. The blocks are being purchased from C. T. White & Co. of Apple River, and the firm's tug brought up as the first cargo about 20,000 all ready for use.

In the police court at Moncton on Saturday morning, John Ware was charged with stealing one hundred and sixty-six pounds of turkey from the firm of B. Tombs & Son. It appeared that Mr. Tombs gave White the turkeys to sell for him in the city market and to keep a certain percentage of the profits, and he now accused White with keeping the turkeys and not handing in any proceeds.

WEDDINGS

Nisbet-Beattie. Susex, N. B., June 7.—A wedding of much local interest, and one that somewhat surprised the people of Susex, was solemnized this evening at 6 o'clock at the home of the bride's parents, when Alma E., only daughter of Mr. and Mrs. Richard C. Beattie, was married to Charles T. Nisbet, local manager of the N. B. Telephone Company, at East Florenceville. Rev. Mr. Saunders performed the ceremony. The parlors were decorated for the occasion. The bride, who was given away by her father, was beautiful. She wore a white satin de chine with pearl trimmings. Only the immediate relatives were present. The presents were numerous and valuable, the groom's present to the bride was a gold watch and chain.

Mr. and Mrs. Nisbet will take a short trip before leaving for their future home in East Florenceville. The bride is one of Susex's well known young ladies who has been connected with the N. B. Telephone Company for four years as chief operator, and was considered by the management as one of the best employees in the service. Mr. Nisbet was a former local manager of the company here, and during his stay here made many friends.

WEDDINGS

Nisbet-Beattie. Susex, N. B., June 7.—A wedding of much local interest, and one that somewhat surprised the people of Susex, was solemnized this evening at 6 o'clock at the home of the bride's parents, when Alma E., only daughter of Mr. and Mrs. Richard C. Beattie, was married to Charles T. Nisbet, local manager of the N. B. Telephone Company, at East Florenceville. Rev. Mr. Saunders performed the ceremony. The parlors were decorated for the occasion. The bride, who was given away by her father, was beautiful. She wore a white satin de chine with pearl trimmings. Only the immediate relatives were present. The presents were numerous and valuable, the groom's present to the bride was a gold watch and chain.

Anderson-Allen

Fredrick, N. B., June 7.—Arthur Anderson, of the post office staff, and Miss Barbara Allen, second daughter of E. H. Allen, were quietly married here this afternoon at the residence of the groom's aunt, Mrs. Wm. Brodie, Saunders street. The ceremony was performed by Rev. Dr. Smith. The happy couple left by steamer Hamstead for Gagetown and upon their return they will reside at Kingsclere.

CHOSEN FRIENDS WILL NOT INCREASE RATES

LATE LOCALS

The estimates for the Transcontinental Railway for work in the province during May, were \$423,547.25.

Between 1 and 2 o'clock a water main burst at Marsh Bridge and Patrolman Ross notified the water works department, who are repairing the leak.

The Swedish steamship Eeta, Captain Horn Dahl, sailed at 1 o'clock today from this port for Bow Head for orders, with a large cargo of deals.

Nova Scotia schooner Unique, Captain O'Hara, cleared today for St. Pierre, Miquelon, with a cargo of lumber and shingles, shipped by Murray & Gregory.

Furness steamship Shenandoah, Captain Healey, will go to sea probably this afternoon, bound for London via Halifax, with a general cargo.

Graham and Cunningham are reported by Patrolman Belyas for permitting six wagons to impede traffic on Peters street this morning in front of their premises.

Hon. H. A. McKeown and J. H. Barry, K. C., the newly appointed judges to the supreme court of New Brunswick, will be sworn in before Chief Justice Barker at Fredericton on Friday morning.

Most all the deck load of lumber has been replaced on the steamship Verastan at No. 2 berth, west end. The steamer will call at a coal port before she proceeds to Buenos Ayres.

The Lunenburg, N. S., schooner Muriel B. Walters, Captain Walters, cleared today for Antigua, B. W. I., with a cargo of lumber. She will return to this port with a cargo of molasses for the Crosby Molasses Company.

Hazen McCavour, the 14 year old son of John J. McCavour, was knocked down by a bicycle ridden by his brother, Allen McCavour, aged 18, yesterday afternoon at the corner of Church street. The lad was rendered insensible for a time.

Charles Lennihan, a seven-year-old boy, disappeared from his home at 235 Brunswick, on Friday afternoon, and has not returned. His father has solicited the aid of the police to search for the boy. He was attired in a tweed coat and boy's length white trousers.

Donaldson line steamship Kastalia, now at St. John's, Nfld., discharging a cargo of salt from Cadiz, will probably leave that port about the 10th for Sydney, C. B., to take on bunker coal. From there she goes to Grindstone Island to load deals for the west coast of England.

Immigration Inspector Thomas P. H. O'Neill of the local U. S. immigration office has been transferred for the summer to St. John, N. B., and will leave at an early date for his new post. Deputy Inspector O'Neill was at St. John last summer.—Portland Argus, June 7.

Harry Noakes and Roland Lemon, the two boys sentenced to the Boys' Industrial Home for one year each by Judge Forbes on Saturday for larceny, will be conveyed to the institution this afternoon to commence their terms. Since Saturday morning they have been detained at their homes, as the judge would not permit the police to confine them in cells. Noakes was escorted to police headquarters this morning by his father and Reserve Officer Gosline accompanied the boy to Judge Forbes, who ordered that he and Lemon commence their terms today. Lemon is through a misunderstanding, yet at his home.

REPAIR WORK ON C. P. R. Considerable work is being done this spring on the Atlantic division of the C. P. R. For some weeks about one hundred Italian laborers have been employed between Fairville and Welsford in laying new rails and ballasting. Seventeen miles of new track is being laid, the new rails being five pounds heavier than those formerly used. They are 85 pounds to the yard. The rails that are being removed will be placed on the branch lines, they being heavier than those now in use on the branches. In all, about fifty-three miles of track will be laid and some 30 or 40 miles of ballasting done.

A KITCHEN SHOWER Dr. and Mrs. W. F. Roberts were pleasantly surprised last evening when friends to the number of about fifty or sixty called upon and presented them with a "kitchen shower" in recognition of their recent wedding anniversary. Rev. David Hutchinson, in a neat address, made the presentation of the gifts to the "bride and groom" and the latter replied appropriately thanking the donors for their gifts and good wishes. The evening was very pleasantly spent with games and music and refreshments were served.

DEATHS ROYBRIE—Suddenly, in Madison, Me., on Saturday, June 5th, 1909, Sarah (Sadie) M. Roybrie, beloved wife of Wm. J. Roybrie, and daughter of the late John and Elizabeth Hamblin of Millard, N. B., leaving a sorrowing husband, one son, one sister, and three brothers to mourn their sad loss. Boston and San Francisco papers please copy.

COMMUNICATIONS BEFORE THE COUNCIL

Many Citizens Write on Many Subjects, But All Are Referred to the Various Boards for Consideration.

The communications sent in to the common council yesterday and referred to the various boards and committees have to do with a variety of matters.

The Canadian Federation of Boards of Trade and Municipalities through the secretary, Arthur J. Forward, of Ottawa, asks the council to pass a resolution urging upon the government the advisability of having the Georgian Bay canal construction started in 1909. The advantages of the canal from the standpoint of the maritime provinces are set forth at some length.

The commissioners of the Great March, through Chairman Thomas Poits, send a communication to say that when they approved of the plan to rebuild the Marsh Bridge, they understood that with the three great interests involved, the city, the provincial government and the I. C. R. they thought a substantial and adequate structure would be built, whereas the present plans, according to their views are "only a piece of patch work, and a poor patch work at that," and they consider it their duty to state that they consider it supreme folly to spend \$20,000 to repair and patch up an old structure when the same amount, properly expended, would in their opinion produce a new first-class substantial one.

The board of trade write urging the council to take action toward arranging for elevator facilities at berths 5, 6, and 7 in time for the coming shipping season. They ask also to be furnished with particulars about the proposed transfer of land to the C. P. R. and a copy of any agreement that might be entered into before it is confirmed.

R. J. Graham, president of the N. B. Cold Storage Co. asks that a reduction be made in the charge against the company for water used in their condensers. He sets forth that they are spending large sums of money in the city and are hardly meeting expenses as yet. He agrees to pay for water for boilers and domestic use at regular rates.

J. M. Prie, barrister, asking what action the city proposes to take regarding the arrest of Mr. Robertson for unpaid taxes, he claiming that his indebtedness to the city had all been paid at the time of his arrest.

Amos A. Wilson, K. C., writes that John McCracken retained him to take proceedings against the city for false arrest made by Wm. Gramson, who claimed Mr. McCracken was indebted to the city for large. He states that unless satisfactory arrangements are made proceedings will be taken to recover damages.

The Dominion Chair Co., of Bas River, N. S., writes to ask if there is any way in which wharfage charges on shipments of their goods can be reduced or done away with. They state that they ship considerable goods through this port by steamer and schooner, and that wharfage charges put them at a great disadvantage.

Sarah M. Hea and Galla F. Cowan, of 101 Adelaide street, in a communication to the Dominion Chair Co., of Bas River, N. S., write to ask if there is any way in which wharfage charges on shipments of their goods can be reduced or done away with. They state that they ship considerable goods through this port by steamer and schooner, and that wharfage charges put them at a great disadvantage.

INTER-SCHOLASTIC SPORTS TOMORROW

Contests on Every Day Club Grounds Should Be Full of Interest

Tomorrow, June 9th, will be a big day on the Every Day Club grounds if the weather man casts a favorable glance on the inter-scholastic sports.

A strong list of entries has been received from Rollins Collegiate School, Moncton, and the St. John High School. The Fredericton boys would seem to be dissatisfied with the arrangements made as the following quotation from a letter received from them will show:

"Owing to dissatisfaction on account of the arrangements as to the date and place of the meet and other reasons, we shall be unable to send a team to represent our school. Rather than lose the cup by default, however, we shall send three men to defend it."

Moncton and Rollins are each sending a strong team, and are confident of victory, but the local boys are just as confident, so some lively and interesting contests will undoubtedly be the result.

The following entries have been received for the various events:

100 yds. dash—Sterns, McQueen, MacDonald, Sears, Barry, F. Smith, R. Smith, 200 yds.—Sterns, McQueen, MacDonald, Barry, Ryan, F. Smith, R. Smith.

440 yds.—Atkinson, MacDonald, Sears, Ryan, McKay, West, Finley, McGarvey, One mile—Fennell, Gilmore, Armstrong, Leblanc, Atkinson, Walsh, Melrose.

High jump—Teed, Gilmore, Lean, Lockhart, MacDonald, Barry, Finley, McGarvey. Pole Vault—Lean, Lockhart, MacDonald, Hall, Gilbert, McGarvey, Finley.

Shot put—Hall, Teed, McDougall, Leblanc, MacDonald, Finley, Smith. Broad jump—Sears, Leblanc, F. Smith, Finley, MacDonald, Sterns, Hea.

Hammer throw—McDougall, Ryan, Finley, Smith, Hall, Teed, MacDonald, Barry, Hurdles—MacDonald, R. Smith, Lockhart, Armstrong, Sterns, Gilmore.

Judging from the list, these sports tomorrow should be very interesting and exciting, and should draw a large crowd of spectators. Each of the outside teams will have its numerous "rooters," and the local boys will not be without their admirers, so there should be a good crowd present to encourage the young athletes.

Certificates have been received from the principals of the different schools testifying that the athletes to be sent from their schools are bona fide pupils.

MEN'S OUTING SUITS The M. R. A. Kind are Dressy and Comfortable. Single Breasted Style. The Prevailing Shades in Nobby Homespun, Worsteds and Saxons.

The outing suit should have a place in every man's summer wardrobe. We are showing some extremely neat models in Homespun, Cheviots, Worsteds and Saxons.

Costs are single breasted, with two or three buttons, long, roomy easy feeling garments, lined full length, wide deep lapels and close fitting collar. Trousers are made snug at waist, full in thighs and with belt strap. These suits possess an abundance of real smartness, and are just the thing to afford solid outing comfort.

They come in sizes to fit any figure, in shades of grey, lawn, brown and olive. Prices range from \$5.00 to \$17.00.

MEN'S FANCY VESTS We have an assortment of Fancy Vests which it would be hard to equal for nice variety and exceeding good taste. The colorings are right to match the present popular suit. All are single-breasted style with four, five or six buttons. Stripes, checks and figured patterns in light, medium and dark shades of Tan, Olive, and Gray; also in Taupe, Plain White, and White with Fancy Spots and Figures.

Materials are Pique, Bedford Cord, Linen, Flannel, Cheviots, Silks and Mercerized materials. One of the new novelties is a four-button waistcoat with a woven stripe down front and with embroidered spots. Another very pretty creation is a Tattersal with woven edge down front and on pocket flaps.

These vests are from the best English, Canadian and American makers and represent the finest and dressiest models procurable. We should be pleased to have you look them over. CLOTHING DEPARTMENT Manchester Robertson Allison, Ltd.
