No. 222 SAINT JOHN, N. B., WEDNESDAY EVENING, SEPT. 11, 1872. VOL. I. HOUSE MANCHESTER Watchmaking in Switzerland. LEMONS. LEMONS. 52 Prince William Street. NOTICE. WE have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de-Saus ure, and are now able to furnish some further details. Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevase manufacturers, and none but those adopted for poaket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal nossible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crown-NEW GOODS. FALL IMPORTATIONS. Ship Paoperty—The improved condition of the market for ship property, noted in my last, has continued through the past month, with a continued steady inquiry, and a firm feeling on the part of owners. The freight reports from all quarters of the world, in some of which there is an actual scarcity of tonnage, and likely to be for a considerable time, together with the sound condition of our own markets, and a reasonable certainty of good cotton freights the prevent season, afford great encouragement to the ship-owning interest; of the country. There is little or no tonnage offering for sale at present, and desirable vessels, especially the larger bottoms, can be readily placed at full values. The following are the sales of last month: Ships Arkwright, 1266 tons register, built at Portsmouth NH 1855, metalled Feb, 1872, \$25,000; Nereus, 10:6 tons register; built at New York, metalled July, 1870, \$20,000; built at New York, metalled, about \$50.0.0; barks Antioch, 695 tons register, built at Castine, Me, 1852, metalled, at auction, \$10,000; brig Surfi, 1860, tons register, built at Castine, Me, 1852, metalled, \$5,500: sebrs Tampico, 132 tons register, built at Canden, Me, 1832, metalled, \$5,500: sebrs Tampico, 132 tons register, built at New York, and 1870, metalled May, 1870, at auction, \$7050; Petronilla, 130 tons register, built at New York, Ree Horse, 101 tons register, built at New York, Ree Horse, 101 tons register, built at New York, Sept 2, Mey 1980, Mey 1980 Ladies' Fashionable Shoe Store H.
