### FIRST GUN ASSURED FROM CAMPBELLTON

Over One Thousand Dollars Has Been Subscribed to Machine Gun Fund

Subscriptions to the Machine Gun Fund are still coming in, the amount now standing over one thousand dollars and much more has yet to come in. There seems little doubt that two guns will be given by subscription and private gifts will also probably give guns, so that there is almost a surety that six guns will be sent from Restigouche County. In addition to the list printed below we are informed that the employees of Miller's Mill will give a day's pay to the fund which will average about \$125.

The master of contributing a machine gun from Dalhousie was brought up at the Town Council meeting there last evening, and interviewing Mayor Montgomery, the Graphic was informed that the question was talked over at the meeting, but action was deferred until a full meeting of the board was held. Mayor Montgomery said there was little doubt but that a gun would be sent from Dalhousie, the matter of collection being looked into by the Council and interested parties.

The following is a list of contributions to date:

### HAVE RETURNED FROM GOOD MUSICAL TOUR

Miss DeCorrevont and Miss Ferguson Were Well Received in Concert Series

Miss F. DeCorrevont of Campbellton and Miss Ferguson of Dalhousie, have returned home last Thursday evening per the Gaspeian, from an extended concert tour on the Gaspe Coast.

At the several places visited in the counties of Bonaventure and Gaspe, the young ladies were particularly well received, in all giving seven secular concerts during their trip. In addition to the above the ladies gave three sacred concerts in aid of the Red Cross Funds; the proceeds of these amounting to \$60. This amount has been apportioned as follows: Campbellton, \$25.00; New Carlisle, \$15.00; Gaspe, \$12.00; and Cape Cove, \$12.00.

We understand Miss DeCorrevont and Miss Ferguson will give a sacred concert in Matapedia Presbyterian Church on Sunday evening the 15th inst. at 8 p. m., when a silver collection will be taken for Red Cross purposes.

### BAND CONCERT ON WEDNESDAY EVENING

Musicians in Their New Uniforms Make Good Showing. List of Subscriptions

Last evening the newly organized band gave a concert in the field opposite Ed. Alexander's building. A goodly crowd gathered round and enjoyed the music, although they were very tired in their appearance. The players looked very epic and span in their new uniforms, which were recently purchased by public subscriptions. The suits were supplied by Messrs. Ferguson Bros. at cost price to the band, and for the funds to provide these uniforms, as well as purchase music instruments, etc., the following subscriptions have been received:

Havelock Sansom	\$12.00
D. A. Stewart	5.00
Alex. McLennan	5.00
M. A. Kelly	5.00

P. Matheson	1.00
Lazare Roy	.50
A. McDonald	.50
<b>Total</b>	<b>\$74.00</b>

Further subscriptions when received will be acknowledged in these columns. The program last evening was in a measure patriotic and the various numbers were rendered in good style, showing careful attention to practice, which has been very short. The following pieces composed the program:

Pioneer	March
French National Hymn	The Marseillaise
Canadian Songs	O Canada
The Maple Leaf	The Rambler
Popular Song Never let the old flag fall	The Conservator
The Oarsman	March
Flagship Connecticut	God Save the King.

### GREAT CHANGE IN ARMY REGULATIONS

Wives and Parents Can no Longer Stop Husbands and Sons From Enlisting

Ottawa Aug. 9.—Objections of wives and parents to husbands and sons taking service no longer will have effect in Canada. The regulations have been changed. When enlistment for overseas service began General Hughes announced that he would take no man from a wife and no junior son from parents without their consent. A regulation was made to give this declaration effect and it has been strictly lived up to during the year of war.

The regulation has produced considerable hard feeling. A good many men, eager to take service, have failed to obtain the consent of their wives. In many cases where they enlisted without that consent, wives have written protests to the department and the men immediately have been sent home.

With minors there has been even more trouble. Boys of eighteen and over, burning to enlist, have failed to obtain the consent of parents. Numbers have run away and enlisted under fictitious names and incorrect ages.

Time after time regiments in training have been combed for fugitive junior patriots. Many boys have been found and sent home, many have not.

In Canada, to-day, there are not a few fathers and mothers grieving for

### LETTER RECEIVED FROM MAJ. ANDERSON

Mrs. Ferguson Receives Word of Her Son Byron, From Commander of Battery

The following letter has been received by Mrs. Steven Ferguson from Major Anderson in regard to injuries received by her son Byron.

24-7-15  
Dear Mrs. Ferguson:—

I have been making a number of inquiries. Your son, B. W. Ferguson was a valued member of my battery. At Festubert where we went after leaving Ypres, he was not feeling well, he had symptoms of fever. But as he had been inoculated, we did not expect anything serious. But I had him reported to the doctor and asked the doctor to send him to a hospital if he was not up to the mark, as a change and good clean place would help him as much as anything.

He was sent to a hospital in company with another man who was also sick. On their way to hospital your son was hit by a piece of shell that exploded near them. (The German's like to shell roads). When reported to me, it was his arm that received the blow, but since he was taken to England I have not had the opportunity of finding out the exact details. He lost the use of his arm, but the force of the blow is so great that those big shells that the same piece that hit his arm, might also break a rib.

I am going to tell you one incident of your son's at Ypres during one of the fiercest attacks made by the Germans. I was using your son as a messenger to carry messages from me to the Brigade (Colonel) and from Brigade to me. He had to go back and forth on foot as it was only a mile across the field or perhaps not more than 1000 yards the way he went. That afternoon we were under an awful shell fire by the enemy. Ferguson came back with a message for me, his coat was spotted with blood and he looked awfully bad. I asked him what the trouble was, if he was wounded. He said he did not wish to be sent home, he had started out with messages for their respective batteries, a shell burst over them, the other two were killed and he was knocked over. I told him to lie down on a blanket and rest and not to think of the sight he saw. He lay down but such suffering. He moaned and talked and got up and down, but the next day he was as good as ever.

He was good stuff and I was glad to have him as a member of the battery. He was one of the Headquarters Party and I therefore saw a lot of him. As soon as I can find out just how he is I will let you know. There is one thing that you can be assured of, and that is that your son has done his share of duty in this terrible war.

Yours sincerely,

S. B. ANDERSON, Major

missing sons, and wondering whether they are in Flanders or under the sod. They know the boy wanted to go and that permission was withheld, that one day he disappeared and search failed to discover him. There has been no word from Salisbury or France from the boy. To-day many parents are wondering if their missing boy is alive or has died under a fighting name.

Had General Hughes been here is it doubtful that the regulations would have been altered, but the change having been made it will stand. The old provision, under which a private could buy his discharge for \$15, has been done away with. It has further been decided that desertion will be followed by court martial and punishment. These changes bring the Canadian regulations into conformity with British practice.

### NEW PRESS

The Graphic has made an addition to its already large plant by the installing of a new pony press, capable of turning out 5000 impressions per hour. The Graphic is now in a position to turn out high class color and half tone work of all kinds.

The machine, which is manufactured by the American Autopress Coy. of New York, is the first of its kind in New Brunswick.

We are better prepared than ever to turn out first class commercial printing at short notice. Our plant is now the most up-to-date north of Moncton. Good paper, with best workmanship combine to make first class printing. Our prices are as low as the city offices.

### Young Girl Dies at Camp

From the Accidental Discharge of Shot Gun

The young daughter of John Lavoie of Chandler died in the Hotel Dieu Hospital as a result of an accident at Chandler on Tuesday evening. From meagre information received, it appears that Mr. Lavoie had been visiting a neighbors house with his little girl eleven years old. A man about the place was preparing to go to the woods and had a shot gun loaded in his possession. During the evening this man's wife called him to do some errand for her and he stood the gun against the kitchen wall. While he was away the weapon either fell or was knocked to the floor, causing the gun to discharge the full charge of shot entering the little girls left leg. Medical aid was summoned, but it was thought better to remove her to the hospital here, which was done last evening, being brought up to town on Wednesday's train. The wound was a serious one, the bone being shattered and it was considered advisable to amputate the limb. Unfortunately the little one did not survive the operation and died at the hospital this morning.

### RECRUITING MEETING HERE MONDAY

Grand Rally Will be Held on the School Grounds if Weather is Favorable

Next Monday evening the 16th inst., a grand recruiting rally will be held here. The meeting will start at 8 p.m., and will be held in the open air if the weather is favorable, if not the Assembly Hall of the school will be used. This meeting will be addressed by Lieut. Brooks of the 55th, Judge McLatchy, and Mr. A. T. LeBlanc. The Campbellton Band will be in attendance, and a full attendance of citizens is looked for.

An earnest appeal will be made for more recruits as the drafts taken from the 55th still have that regiment much under strength and Campbellton is once more looked to to provide more than her quota.

Have you thought the matter over? Is there any real reason why you should not enlist? Your King and Country need you now,—more than ever. "Do your bit".

The name Dalhousie is one of frequent occurrence throughout varied parts of Canada. No less than 11 times it is found applied to villages, lakes and settlements and to a body of water in the Algoma district, Ont. The shiretown of Restigouche Co., N. B., near the palm however of being the most populous and beautifully situated of all that bear this honored name. Sixteen miles from Campbellton and 52 from Bathurst is located this thriving town and busy mart. A large trade is carried on in fish in Dalhousie and a branch of the I. C. R. runs into the town. The Restigouche and its branches drain at least 4,000 square miles of fertile country abounding in timber and other valuable resources the whole of which must find its way to the set by the port of Dalhousie.

In the early history of northern New Brunswick the Rev. James Stevens a faithful pioneer came from Scotland 84 years ago, and rocked the cradle of Presbyterianism in Campbellton. He travelled over a wide field underwent considerable sacrifice coupled with anxious toil to supply the scattered settlers with Gospel privileges. The varied districts to which he ministered with more or less regularity now comprise 5 different congregations. At the outset Dalhousie depended upon him for a dispensation of zealous labors. Presbyterianism became rooted and established. It has had a marked development and its sturdy branches now spread over a wide region. For 24 years, Dalhousie received a portion of Mr. Stevens' services and in 1855 his ministerial labors were confined to Campbellton. Varied attempts were made to secure a laborer through the Colonial Committee of Scotland. Their efforts however were not crowned with success.

In 1855 a church was erected by a few steadfast Presbyterians one of whom donated the gift of a fine bell. Eighty years ago this building sheltered the band of worshippers who gathered on the Sabbath from Dalhousie and surrounding districts. Through the cycles of time there has been growth and now the Miramichi Presbytery reckons it as one of its strong congregations numbering 170 families and over 200 communicants. For the long period of 24 years the Rev. Mr. Stevens went in and out among the

people administering ordinances at certain intervals. In 1855 his ministerial labors were confined to Campbellton, and Dalhousie formed a separate congregation. There was a vacancy for a time though it was not a long protracted one. Attempts were made to secure a pastor from Scotland, but the Macedonian cry for a season prevailed. Though they suffered disappointment yet patiently waiting with prayerful effort brought about the desired result. Their eyes again saw their teacher in the first minister settled over them as a new congregation.

The Rev. Alex. Forbes who had been officiating for one year received a call to become their pastor. On acceptance of the call he was installed and entered upon the discharge of his duties in 1855. He labored with acceptance and though his ministry was of short duration yet it tended to growth and consolidation. In 1858 he removed and was settled in Inverness, Quebec Presbytery, where he remained until he retired from the active duties of the ministry.

He was succeeded by the Rev. Wm. Murray who labored for several years in Northern New Brunswick. Mr. Murray left Scotland his native land in 1855. He was sent out from the Fatherland to take charge of the congregation of Moncton then in its infant state. Here he labored for a time with considerable zeal and perseverance before this New Brunswick town had assumed the prominence it does today as a railway centre. Having resigned charge of Moncton, he was called to Dalhousie in Jan. 1859 and entered into this congregation an active ministry of 6 years. During his pastorate and largely through his exertions a very large and convenient manse was built and outbuildings were erected free of debt. In 1865 he removed and became the pastor of St. Andrew's Church, Campbellton, where he was inducted early in 1869.

After a short vacancy the Rev. James Murray was inducted in Nov. 1865. Mr. Murray was sent out by the Colonial Committee in connection with the Church of Scotland in 1852. Previous to his arrival here he labored as an assistant in a parish of Scotland, and spent several years in four different congregations of the Miramichi Presbytery. With great fidelity and acceptance he discharged the duties of his office until the spring of 1874. He was associated with him whilst laboring at Dalhousie Mr. George Haddow who for a long time was the indefatigable superintendent of the Sunday School which now has an enrolment of 170 scholars. On the 17th of Feb. 1906, Mr. Murray passed away from earth having spent 53 years in the ministry and labored in three of the Maritime Provinces.

The Rev. Alex. Russell was ordained on the 22nd of February, 1867. Mr. Russell was a native of Scotland, and came to Nova Scotia in 1842. His intellectual endowments coupled with educational advantages in the home land fitted him for the work of a teacher in our public schools. Hence after his arrival in this Province he spent several profitable years as a pedagogue in Truro and the Musquodoboit Valley. His great work was as an agent of the British and Foreign Bible Society. As an official of that time honored institution he travelled extensively and was everywhere heard with pleasure and profit in advocacy of its claims. Frequently he exercised his gifts in the pulpit. His work and reports to the Society created considerable interest. One individual receiving a copy for the first time immediately returned by mail a \$5 contribution. Late in life he was induced to exercise his gifts in the ministry. By leave of Synod he was licensed by the St. John Presbytery on the 10th September 1875, and he was settled at Dalhousie on the 22nd February, 1876.

Though late in life he entered upon his work in the Miramichi Presbytery yet his ministerial life of 12 years was crowned with eminent success. He died quite suddenly on the 11th of August, 1888.

After the death of Mr. Russell there was a vacancy of nearly a year when the Rev. George Fisher was inducted, on the 9th of April 1889. Mr. Fisher's pastorate extended over 3 years. His resignation took effect on the 30th November, 1902. Whilst pastor of the congregation he was the efficient pastor of the Miramichi Presbytery. He was never settled again in the Maritime Provinces and is now laboring in British Columbia within the bounds of the Presbytery of West-

### BERRIES PLENTIFUL

The children are much in evidence these days with their kettles of raspberries. The crop is unusually large along the country roads and the pickers are plentiful.

### KILLED ON I. C. R.

Newcastle, Aug. 8.—Mrs. Margaret Quilty, aged 40 years, of Barnaby River, was instantly killed there on Saturday when she attempted to cross the track in front of an Intercolonial shunter.

### PITTY PILFERING

One of the large employers of labor in the town had been annoyed by pilfering of stamps lately, and set a watch using marked stamps. One day the stamps were checked up and the chief of Police called in when the marked stamps were found on an employee who was suspected. He was immediately dismissed.

**RAILWAY CONTRACT AWARDED**  
A contract has been awarded to the John W. McManus Company, Ltd., Memramcook, N. B., for the construction of a spur line of railway from a point on the main-line of the Intercolonial, about 1.8 miles east of the station at Bathurst, N. B., to a point at or near the Bathurst Lumber Company's mill, a distance of a little over two miles. The contract is to be completed by October 1, 1916.

### VETERAN PUBLISHER

Mr. James J. Anslow, a veteran newspaper man and for many years associated with his brother in the publication of the Union Advocate, Newcastle, is in town the guest of his nephew, Mr. H. B. Anslow. Last July Mr. Anslow transferred the Hunt Journal business in Windsor to his nephew, Harold, and is now enjoying a well earned rest, after spending fifty-eight years steadily in the newspaper business.

Rev. J. A. Cooper, Rector of St. George's Church, left on Monday for a four week's vacation. No services will be held in St. George's Church the next two Sundays, but on the 29th, Rev. Canon Smithers will occupy the pulpit.

**WHAT'S IN A ROAD?**  
(From the Gloucester Northern Light)  
Mr. G. T. O'Brien went to Bathurst last week by the new road which is in bad shape and the 40 miles took him five hours to cover. He returned by the shore road which is in good shape and the 120 miles only took 6 1/2 hours.

**AN APPEAL**  
The Women's Institute of Dalhousie is anxious to make up a case of preserved fruit to be sent to the soldiers through the Red Cross Society. At this season, while making up their own supply of preserves, perhaps the ladies of the town and vicinity could spare a jar or two to vary the monotonous fare of our brave Canadian heroes. Any gifts of this kind may be left at St. Mary's Hall on the afternoon or evening of Tuesday, August 17th. Of course the fruit must be put up in gem jars, carefully sealed to insure safe transportation.

**APPOINTED RECRUITING OFFICERS**  
(From the Gloucester Northern Light)  
Major Armstrong of the 55th Battalion was in town last week, and while here officially appointed P. J. DeWolfe recruiting officer for Bathurst, and J. Theo. Doucet for the rest of the County. Both of the appointees have been working industriously for some time along this line, and the recent large number of enlistments is largely due to their efforts.

**FARM LABORERS' EXCURSIONS TO THE WEST**  
With the promise of a bumper crop in the west, the Governments of Manitoba, Saskatchewan and Alberta have called upon Eastern Canada for thirty thousand harvest help laborers to assist them in saving the harvest. The Canadian Government Railways will sell harvesters tickets to Winnipeg from all stations in the Maritime Provinces, Tuesday, August 17th, and Tuesday, August 24th, to Winnipeg, at very low rates, the fare from Moncton to Winnipeg being \$18.95, and the fares from other stations will be in proportion.

The route will be via the Intercolonial to Montreal, Grand Trunk to North Bay, Temiskaming and Northern Ontario to Cochrane, thence Transcontinental to Winnipeg.  
Fares based on half a cent per mile may be obtained at Winnipeg to all points west in Manitoba, Saskatchewan and Alberta. Returning tickets will be issued to bona-fide excursionists at very low rates.

## THE ASSESSMENTS

The assessment lists have now been completed and handed to the Town Treasurer for collection. The total assessable value of property in the town amounts to \$2,516,800.00, which brings the rate to \$1.40 per cent. Last year the rate was \$1.45 the value being \$2,456,400.00.

In conversation with travellers we are informed that the rate here is the lowest they have found in either New Brunswick or Nova Scotia, for which we ought to be thankful, in these days of storm and stress. Nevertheless the rate small as it is, bears unjustly on the poorer man in this town, and there is much room for adjustment. In the assessing of income we claim that the man earning \$1.60 and \$1.75 per day is assessed on income beyond what he is able to pay, while others whose income is in the thousands are not assessed proportionately. Why should a man whose income is over \$2000 be assessed on only \$600 and \$800. By the act the assessors are empowered to assess income, then let them do so in a proper way, making an exemption of a certain amount and levying taxes on the balance. This is the way income is taxed in Britain on a graduated scale, the sum exempt being \$800.

It has been claimed by some who have heard this proposal that a working man having no real estate and living in a rented house, whose income did not come up to the exempted sum would pay no taxes. Such indeed we claim should be the case, but to obviate that difficulty so that everyone should pay a proportionate amount of taxation, he should be assessed on half the yearly rental of the house he occupies, the owner paying the other half. This amount added to the poll tax would make an adequate assessment on any laboring man.

We have long since passed the stage when the antiquated system of assessing now obtaining was suitable for a small country village. Campbellton is now of a size to require the services of a resident assessor, who should be appointed to have a proper survey of the town, and the assessment act changed to meet the needs of a large town.

We are growing all the time, and we have sufficient faith that our town and community will yet expand and there is no better time than now to make preparation for that increase.

## "MAKE HAY"

Farmers generally have taken advantage of the almost perfect hay-making weather of the past three weeks, and the great bulk of the hay crop of the country is now safely stored in excellent condition. Those who did not "make hay while the sun shined" this year cannot blame the weather at any rate, for their failure to make good in that line.

A ton of hay made early is worth more as a food for animals than 4 or 5 tons of over-ripe and withered woody fibre cut and gathered later on. The theory that the grass is still "making at the bottom" has been exploded. The fact is that the upper part of the stalk is actually shrinking up and withering while the bottom grass is practically remaining at a stand still.

## NOT OVERSUBSCRIBED

In order to allay any fears as to the Machine Gun Fund being over-subscribed, the following item is taken from the Moncton Transcript:

St. John, N. B., Aug. 11.—In order to set at rest rumors to the effect the machine gun fund had been fully subscribed, Mayor Frink yesterday wired Ottawa for information. He received the following reply:—His Worship Mayor Frink, St. John.—Government has not indicated that machine gun fund is oversubscribed.

## CONSTIPATIANTS

Read This—

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning.

The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 60c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

## THE NATION'S BUSINESS.

Hon. Mr. Lougheed, leader of the Senate, who is temporarily acting as Minister of Militia, is setting an example which is worth following by other members of the Cabinet and by leading public officials. On several occasions recently he has given out very important information of the work being done in his department, presenting it in a simple, straightforward style. Evidently Senator Lougheed recognizes that he is the servant of the people of Canada, and that they have a right to know what is being done with their money, and what the men they have employed to spend it and administer the departments are doing. Most of our Ministers and public servants are ultra-conservative in this respect and refuse to give the people of Canada, through the press, the information they are entitled to have. In the case of most Ministers, the neglect to supply the press with important information of the progress of the work of their department is due to preoccupation or oversight. Others, however, are very uncommunicative to the press and difficult of approach, and quite overlook the fact that the correspondents at Ottawa represent the people of Canada, not the owners of their individual papers. We trust that Mr. Lougheed will not fall into the habit of some of his colleagues.—National Leadership.

During the last ten days newspapers supporting the Government have had excellent editorials on the subject which has been so persistently discussed in The Financial Post for the past nine months—the development of Canadian trade and industry. It is most encouraging to find such papers as The Mail and Empire and the Hamilton Spectator dealing seriously with this big question. Unfortunately they feel their work is done when they advise the farmers, the workers, the manufacturers, the miners and lumbermen of Canada that it is their duty to the nation to go ahead and produce more. They are like the Yankee general who told his soldiers that where they led he would follow. What Canada needs today—what The Financial Post has been contending for—is national leadership, not advice. We have Ministers of Trade, Agriculture and Labor—high-principled, delightful, good-intentioned men all of them—but they are not leaders in their respective fields. The Toronto News apologizes for them, saying they are available for advice. The Mail and Empire is owned by the Riordan and The Spectator by the Southans. Both families are identified with the upholding and conduct of some of the most important industries in Canada. They are good business men, and we would suggest that these editors discuss the business situation with them and then strongly advocate the policies they recommend. We are sure that the big men in the Riordan and Southan organizations will tell the editors that what every business needs is capable leadership, not advice; that what Canada needs to-day is capable leaders in the Department of Trade, Labor, Agriculture; and that when personal friendship for Ministers and public duty, public interests should prevail.

## AN ENGLISH PERDITION.

There has been many severe attacks in England on Lord Kitchener, principally from Lord Northcliffe's papers, and due, in the opinion of many persons, to further the plan of forcing conscription on the country. Naturally, the Secretary for War has many defenders, not alone from among his admirers, but from that large number of persons who consider criticism in the present condition of affairs unwise. One of the first class, probably, is Mr. A. G. Hales, a well-known journalist and author, who in a contribution to the press praises the War Secretary for his great work and makes the following prediction:

"His hour is passing, with great sorrow. It will not be long before our need will grow from want to want, and a splendid story of triumph and daring, and men will bare their heads

and thank God for giving us the grim granite man who sits like a sphinx at the heads of our armies, and works night and day with locked mouth, for his country's salvation. I have searched the pages of history, and searched in vain, for a man parallel to him. He is and may put a gigantic new strain on the world's resources, and he is the most superhuman effort. The spirits behind the attacks may be one of mistaken patriotism—I hope it is."

humiliation will be utter and complete. \* \* \* Knowing what I do know, I can write to-day more in pity than in anger, concerning Lord Kitchener's enemies within the gate; they are going to drink of the cup of derision which the British people will fill to the brim, and they will have to drain it to the dregs, whilst a wondering world shrugs its head at the quivering aches. There are no sands in Britain deep enough for them to hide their faces."

as her soul in patience—the world's greatest soldier has not been sleeping; he did not need people of untrained intelligence to teach him a soldier's duties; he may not have secured the kind of shells to meet their views, but it will be found that he has ready to his hand all that will be required to satisfy the German soldiers and their leaders. The foregoing, which was written two weeks ago, has an air of mystery about it. It is possible that Mr. Hales is the possessor of information not given to the public, and that great events are impending.—St. John Globe.

This year, the Studebaker announcement is more significant than ever before. It demonstrates more conclusively than ever Studebaker's leadership in the industry. For once again, Studebaker is announcing new cars at prices that completely recast all standards of value in the automobile industry. And never before has a dollar bought so much as it buys in these new Studebakers. They are the best car in every detail that Studebaker ever built.

But while the prices are remarkably low, Studebaker has made no effort to manufacture a small, low-price car, to compete purely on a price basis.

Campbellton, Aug. 10th, 1915.  
Mr. Editor:—

Regarding machine guns for our Canadian Overseas Contingent. Why are the people called upon to supply these guns for our troops by popular subscription?

When the government decided to send troops to the front in this war, it was stated in Parliament, that they would be equipped in every particular for this service.

Members of our Dominion government have been to Great Britain ostensibly to obtain information as to ways and means for the most efficient manner in which Canada could contribute to the success of the allies. Our Minister of Militia has been in consultation with the imperial authorities in regard to the equipment of our troops. Sir Robt. Borden has just lately been on the field of battle in consultation with the military leaders of France and Great Britain.

Surely the government must now be in possession of sufficient information to enable them to determine exactly what equipment our troops should possess.

In view of these facts why are these machine guns not being furnished by the militia department along with their other equipment?

Does our military authorities not see the importance of these guns? If with all the information the department is supposed to possess as to the requirements of our troops, and they do not see the necessity of furnishing these guns, what warrant have private parties got that they should provide them?

That there is a real need for them there is no question and the military authorities must be aware of it.

No one can minimise the importance of this arm in the present conflict, as well as every other invention that will aid our men to meet the enemy on anything like even ground.

Why then, since the Dominion Parliament without practically a dissenting vote authorized the government to provide all requirements needed for our forces, do they not provide these guns?

If the government want more money for war purposes, why not call Parliament together and our representatives no doubt will sanction a loan for all that is needed for every purpose in connection with the war.

There are many objects, more and more will develop as the war progresses, for the use of all the voluntary subscriptions that can be raised, such as the Patriotic Red Cross, Hospital, Belgian and other Funds.

We know our soldiers need the machine guns as well as other equipment, all of which should be the very best that can be procured, but let there be some system of supplying these necessary requirements to our troops.

Public voluntary contributions as a rule are spasmodic at best, and liable to drop off at the time when most needed.

This business of furnishing our soldiers with guns and ammunition is far too serious a matter to be left to popular enthusiasm and should be taken in hand by the authorities, whose business it is, with a determined resolution to prosecute it to a successful issue.

They now have the authority from Parliament. Let the people insist that they do it. Yours respectfully  
**PATRIOTIC.**

I love to lie and dream upon  
Deeds of the mighty dead,  
And picture forth the famous field  
Where bold Bourassa bled.

The pen is mightier than the sword,  
And safer, too, I think,  
'Twas not his life's red stream that flowed,  
But merely printer's ink.

W. C. T. U. in the Trenches.  
Among all the men giving themselves in behalf of others and for "The Christ" we can truly say, there will be none more heroic, faithful and self-sacrificing, than Oscar D. Irwin.

We first met Mr. Irwin in Old Knox College, Toronto, where he was preparing himself for the Christian ministry. We beheld him still, as straight as an arrow, his fair face lighted up with a quaint smile, a touch of humor over-spreading all. Though he had just entered "college halls at Toronto University and Knox, he was already making good. Rev. J. A. Crouston (his pastor) then of Collingwood, had spoken to me regarding this intrepid youth. By nature he was of a scientific and mechanical bent. Railroad engineering attracted him, but he had to begin on the bottom rung. Thither he had climbed and climbed step by step. When he came to his last exams he was not twenty-one years of age. He was at once given his engine and immediately broke all previous records for speed upon that special line of road.

His run was near his home. One day he took Mr. Crouston with him in his cab and it was then he whispered a longing that had been growing, to study for the Christian ministry. That same enthusiasm seen upon his engine, characterized Mr. Irwin as a student and in one year at Collingwood Collegiate Institute he matriculated for Toronto University. His first student summer days were spent in running a threshing engine upon the prairie—pretty tame work when compared with a railroad engine.

The next time I met the subject of this sketch, was when the Knox College Student Band, of which Mr. Irwin was a member, visited Exeter, conducting one week's Evangelistic services. As one of that group of College men, Mr. Irwin is still remembered, for his bright, crisp addresses and his sweet tenor voice in such songs as "I Surrender All, All To Thee, Blessed Saviour," and "Shadowed No Need of Shadows, when at last we gain the Victor's Crown". Were not these prophetic of both the man's future and of his service which he must surely render?

Mr. Irwin is especially fitted for work among young men. He spent some time as assistant in Victoria Presbyterian Church, West Toronto. And, now, though he has one year or more of theology yet ahead of him (having graduated in Arts at Toronto University) where else would you expect to find such a young man? When the Empire is endangered and men are needed in strategic places, we rejoice that Canada has such stalwarts—men, "who do not count life dear unto themselves," but declare, "Here am I, send me." The W. C. T. U. is to be congratulated upon having such a

# 1916 Maxwell \$925

Including Electric Starter and Electric Lights  
F. O. B. Windsor

## The Wonder Car

### All Low "First-Cost" Records Broken

The new 1916 Maxwell shatters all low "first-cost" records for a real automobile. Think of it—a full 5-passenger car—an absolutely complete car, with electric starter, electric lights, high-tension magneto, and every refinement—a luxurious car—a beautiful car—a powerful 50-mile-an-hour-car,—yet a light-weight real economy car—for \$925.

### All Low "After-Cost" Records Broken

The "first cost" of an automobile is a big consideration to any sane man, but the "after cost" is an even bigger consideration to any man who wants to remain sane in his automobile investment.

The "after cost" or upkeep is what a car costs you to maintain, run, and enjoy, after you have bought it, and it is mighty hard to enjoy an automobile if it costs you too much to run.

The Maxwell has lowered all economy records for:

- 1st—Miles per set of tires
- 2nd—Miles per gallon of gasoline
- 3rd—Miles per quart of lubricating oil
- 4th—Miles lowest year-in-and-out repair bills

### 1916 Maxwell High-Priced-Car Features, all included for \$925

**McCLUSKEY—HAYES**

A quiet but pretty wedding was celebrated at the Roman Catholic Church, St. Leonards, Tuesday, Aug. 3rd, when Miss Lizzie A. Hayes, adopted daughter of Mr. and Mrs. J. B. Hayes was married to Francis J. McCluskey of the firm of McCluskey and Powers of Grand Falls, N. B. The petite bride looked charming in a handsome travelling suit of navy blue with hat to match, and carried a pearl rosary. She was attended by Miss Almada Cyr as bridesmaid, who wore a Belgian blue suit and large pleasure hat. Mr. Leonard Akersley supported the groom. The bridesmaid was a beautiful ring set with sapphires, to the groomsmen a pearl stick pin. The ceremony was performed by Rev. Fr. Comeau with nuptial High Mass, full choir in attendance. Breakfast was served at the home of the bride's parents, after which the happy couple left on an auto trip through Maine. On their return they will reside at Grand Falls. Miss Hayes' many Campbellton friends wish her every happiness in her new life.

**Deafness Cannot be Cured**

by local applications, as they cannot reach the diseased portion of the ear. What is by constitutional remedies, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
