COAL .- Persons who have reside coal districts of the Old Country. quently remarked in our hearing, that sandstone abounding in St. Andrews, rably certain indication of the presen tuminous coal in our immediate vicin have also, the authority of Dr. Gesne opinion. Who knows, but that at so and not very distant period, this useful tible may be obtained here and shipper Port of St. Andrews. Our local adva a shipping port are before either S Pictou. Would it not be worth while ward a geological description of the l neighbourhood, to some one of the scientific societies in Britain, with a seiting information upon this highly subject? There is no necessity for re penditure, in search of an ignis fata the salutary lesson taught us by the of Sir Arthur Wardour in the Antiqu vidly before cur imagination. But k now a days is so easily and cheaply p the true meaning of geological indica it is worth while to obtain it, even s possession of it, be not quite as gra we had reason to anticipate.
