## ARRIVAL OF THE ARABIA AT HALIFAX.

### FIRST DESPATCH.

The Steamship Arabia arrived at Halifax at 10 1/2 yesterday morning, with Liverpool dates to the 19th.

The Garibaldi expedition attracts much attention. Nothing authentic is known relative to his movements, but it was believed they were successful. Great Consternation at Naples. Every symptom of an approaching insurrection.

The Sayers and Heenan difficulty is settled by awarding them a belt apiece. Sayers returns from the ring.

Theodore Parker is dead.

### SECOND DESPATCH.

Intelligence relative to the Garibaldi expedition is still meagre and conflicting. The reports generally concur in stating that he was making good progress. Some say he had captured the most important positions in Sicily, except Messina and Palermo, after having landed at Marsa di M. Neapolitan. The British Government has imposed for the protection of English residents.

An important announcement is made via Madrid, that the King of Naples had applied for foreign intervention. Among other questionable statements was one that a treaty offensive and defensive had been concluded between Rome, Austria and all the deposited Italian Sovereigns.

The latest accounts from Naples represent the utmost consternation there. The troops were dispirited and tumultuous manifestations were taking place. The Royal family were packing up all their jewels and valuables, and other strong indications were that a great insurrection was looked for at any moment.

The latest Italian news is that the forces were being sent to Palermo.

Sayers and Heenan had held a meeting at 10 1/2 yesterday morning, and it was generally expected that they would be fought on the 19th.

The British Government had issued a proclamation against the Garibaldi expedition, and the British officers at Genoa had been ordered to suppress it.

The English fleet, under Admiral Inglefield, was in the Gulf of Genoa, and it was expected that they would be sent to Palermo.

there are steam engines and powerful machinery for the purpose of reducing them to a granular state.

The principal market for the product thus prepared is Dorchester in the centre of a rich agricultural region, whose farmers use them to manure their lands. The only substance gradually evolving as the bone calcines, makes a more substantial manure than almost any other substance.

It has been ascertained beyond a doubt, by actual experiment on an extensive scale, that a dead soldier is a most valuable article of commerce, and it is more than probable that the farmers of Yorkshire and other parts of England owe the rich fertility of their lands, and their daily bread, to the bones of their children, who perished on the Continent in the Crimea, or in India.

It is a singular fact that Great Britain should have sent out from time to time, such a multitude of soldiers to fight her battles, and then should import their bones as articles of commerce and agricultural profit.

Alas, alas, the poor soldier! To convert himself into a target, to be shot at for a shilling a day, and be killed in battle, to have his bones made an article of commerce!—It is most horrible to think of!—[Pleasure Boat.]

### FROM THE WEST INDIES.

The mail steamer Merion, at Halifax from Bermuda, brings late West Indian news. The want of rain had been severely felt in several of the islands. The total quantity of potatoes shipped at Bermuda this season up to May 15th was 17,782 bbls.

The Post Office department in Jamaica has been transferred from the Imperial to the local Government. The measure met with some opposition in the Assembly from Mr. Lewis, in consequence of which Governor Darling removed him from the office of Adjutant General of Militia. Lewis, who also held other salaried situations, was reminded by the Governor that, however necessary opposition was to Representative Government, it must not spring from paid servants and supporters of the Crown and its dignity.

William Girard, editor of the *Colonial Standard*, police magistrate for the colony of Kingston, and one of the most respected citizens in the community, was detected in extensive forgery on the island banks, and had been sentenced to imprisonment in the general penitentiary for three years.

Single stocks of a cartridge had been felt in Jamaica, but the damage done was trifling when compared with that done in Hayti. In Port au Prince the stocks were so violent that it was thought, and it continued a second longer, not a house in the place would have been left standing. In the town of M'Assa-a-Veau, in the South, 124 houses have been destroyed.

Antigua papers notice a despatch from the Duke of Newcastle calling upon the Colony to pay the sum of £330 1s. 7d. for conveying troops in the R. M. Steamer from the colonies to Antigua in 1858, at the time of the visit in the latter. The Duke says: "As the presence of the detachment of H. M. Troops was required in aid of the Civil Power during the Riots, this is an expense which must be borne by Colonial and not by Imperial Funds." This is the first time that such a charge was ever made upon a Colony; and it shows that the Imperial Government is resolved that all expenses of local defence shall be borne by Colonies.

A bill has passed the Assembly to prevent all games of chance, which included. Prevailing drought was causing great privations to man and beast.

The Japanese and Chinese.—A San Francisco correspondent of the New York Times, thus describes the different peculiarities of the two great Asiatic races:—

"The Chinese shave their heads from below up to the crown. The hair is then combed of back braced with silk and worn in a tail that just clears the ground. The Japanese shave their heads, then gathering the ciclet of black hair together, bind it with a string over the crown, and wear the surplus in a short tail flying on the top of the head like a piece of candle, pointing forward. They are abundant in the use of the pomatum, the only exception being the captain of the corvette, who ties his frizzed shock in a knot above and lets the tail take care of itself, and the marines and sailors, who look as if they had been fired after their national fashion the day that they had left Japan, and had not been disturbed by barbers since. Then again, the Chinese universally wear wooden-soled shoes; the Japanese wear simple sandals, fastened by a thong passing up between the great and middle toe, and then splitting to surround the ankles. As for their superior intelligence, I confess I cannot see where their admirers discover it."

A contemporary noting that somebody had gone to Havana for his health, wonders how it got there!

## QUEEN'S BIRTH DAY AT ST. GEORGE.

### PRESENTATION OF COLOURS

To the "Rifle Volunteer Company."

[To the Editor of the Standard.]

Sir,—Thursday the 24th, being the anniversary of Her Majesty's Birth Day, we had quite a demonstration in our village. It being understood, that in addition to the customary formalities on such occasions, that a Banner or Flag, about to be presented to the Rifle Volunteers, by the Ladies of St. George, a goodly number had assembled from the outskirts, to witness the interesting ceremony. At half-past two, the Company was drawn up by Capt. Wetmore, the commanding officer; and after performing several evolutions, were formed in line.

The flag, a most splendid one, bearing the National emblem; viz: the Red Cross of St. George in the centre, Union Jack in the appropriate corner, a Lion "en rampant," Harp and Thistle, beautifully designed and embroidered was laid on the drum head.

The solemn and very impressive service of consecration, was performed by the Rev. J. McGovern, rector, amidst the most profound attention. The flag was then unfurled, and the presentation to Ensign D. J. Wetmore, made by the lady of Charles C. Ward, Esq., prefaced by the following address.

SAINT GEORGE VOLUNTEERS:—On behalf of the Ladies of St. George, I have great pleasure in presenting you this colour. The readiness with which you came forward, and the zeal with which you have applied yourselves to the study and discharge of your self-imposed duties, assure me, that this colour will be confided into trustworthy hands. Take it—and remember that it behooves you to guard and defend it faithfully, by strict and unhesitating obedience to your commanding officers, and by cheerful submission to discipline to raise and sustain the character of your corps, and keep unsullied the honor of the colour.

To which Lieutenant Campbell made the following reply.

LADIES:—On behalf of the Company, I return our sincere thanks for the honor you have conferred upon us, by presenting us with this splendid color; and it shall ever be our pride and glory, to defend it, unsullied, by strict attention to the calls of duty, and to the commands of our superior officers.

A salute of Artillery followed, three deafening cheers for the Queen, announced that the emblem of our country's pride, was deposited for future protection and safe keeping into the hands of the first Rifle Volunteer Company organized in Charlotte County, there to remain as a pledge of loyalty and attachment to Her, under whose banner we enjoy the inestimable blessings of freedom, and have our rights and privileges secured and defended. The remainder of the evening was spent in performing different military manoeuvres, several volleys of blank cartridge were fired with great dexterity, which showed that the men and officers had not been idle, but had attained an extensive proficiency in military tactics.

At night McCready's Liberator Hotel was beautifully illuminated, a Military Ball, on quite an extensive scale was got up,—to which several of our civilians were invited, and had the pleasure of spending a few hours in pastime and amusement. It would be preposterous to particularize any of the ladies who took a part in this presentation, as all seemed to vie with each other in the good cause; we are not surprised at what they have done, it is nothing rare or uncommon, or more than was anticipated. Descended as many of them are from those who sacrificed their all for a "Home in British Land," the same patriotic spark which animated their forefathers in 1783 sheds forth an occasional ray and remains unextinguished. We trust that other Companies throughout the Province will have the pleasure of acknowledging a similar gift, and that the flag presented on the 24th, to the Rifle Volunteer Company, St. George, will never be tarnished, that its last remaining shred will be handed down to posterity without spot, stain or blemish.

Yours, A SPECTATOR.  
St. George, May 29, 1860.

## WEIGHTS AND MEASURES.

We have been requested to publish the following sections from the law for the regulation of "Weights and Measures," from the Public Statutes. As there appears to be an intention to carry out the provisions of the Act, it would be advisable for all interested to govern themselves accordingly.

4. The dry measure shall be the Winchester-bushel of two thousand one hundred and fifty cubic inches and forty two hundredths of a cubic inch.

5. A complete and properly verified set of the standard weights and measures, shall be procured by the Governor, and shall constitute the standard by which all weights and measures shall be tried, proved and stamped.

7. Each Clerk of the Peace, at the expense of his County, shall procure from the Secretary a complete set of the duplicate weights and measures proved by the standards, and marked with a stamp kept by the Secretary for that purpose.

9. The Clerk of the Market and where there are none, the Town Clerk, shall keep a complete set of weights and measures, which when duly proved and marked by the Clerk of the Peace with a figure of the Crown and the letters "N. B." shall be held as standards.

10. The Clerk of the Market or of the Town, may enter all places of business, and all ships and vessels, in their respective districts, in day time, and examine all weighing apparatus, and all weights and measures therein; any person refusing admittance to them, or obstructing the examination, shall forfeit a sum not exceeding ten pounds.

12. The Clerk of the Market or of the Town, shall seize as forfeited all imperfect weights, measures, and apparatus for weighing; the person from whom seized shall forfeit a sum not exceeding ten pounds.

14. The standard bushel of clean wheat or Indian corn shall be sixty pounds; of clean barley or buckwheat, fifty pounds; of clean rye fifty six pounds; of clean oats, thirty six pounds; of clean timothy seed forty pounds; of all other grains, fifty six pounds; of potatoes, and all edible roots, fifty six pounds.

15. Coals shall be sold by the ton weight of two thousand two hundred and forty pounds avoirdupois, and its subdivisions.

16. Penalties imposed by this Chapter shall be applied, one half to the party prosecuting, the other half to the Poor of the Parish where the offence may be committed.

From the *Armsbrook Pioneer*, May 29.

NEW BRUNSWICK AND CANADA RAILROAD A deputation sent by this company, composed of Messrs. Henry Osburn, Civil Engineer, delegate from the Legislative board of directors; F. C. Bradley, railroad contractor, Fort Hope, C. W.; H. M. G. Gardin, Railway Company's Land Agent, and W. M. Buck, Chief Engineer, were here last week, seeking information with regard to the probable results, so far as this section of the country is concerned, of the completion of the St. Andrews Railroad, so called, to Grand Falls, thence to Riverview, and on to connect with the Canada road, which is completed to that place.

Mr. Osburn is recently from England, and brings assurances that the work will be prosecuted to completion. He expressed much surprise at the extent of our agricultural and mineral resources, which need only the advantages afforded by railroad communication to become developed, and render this country, in point of enterprise, second to none in the State.

A PICTURE OF THE TURKISH SULTAN.

A little man in a dark coat a dark red cap, with a long black tassel, on his head, and a pale unpleasing countenance, comes down the steps with as little dignity as a shopman. Can that really be the sultan? Yes it must be the sultan, because the elder military personages by his side reply with an expression of deep reverence to some remarks of the little man, and the stout lady with the little children, step hastily forward into his path, as if she would stop his further advance.

He starts, makes a half step backward, and contracts his eyebrows most threateningly. Yet he listens to what she has to say, but listens with a gloomy expression, and then casts an enquiring glance on his brother-in-law, the admiral. He utters a few words of explanation, brugging his shoulders, and then another word or two, which seem to say, "What do I know about your husband?" motions the stout lady out of the way, and walks off.

I was told, "because within the last few years he has drunk something stronger than champagne, and this has given him strength. Besides, he was to-day in a very good humor; but he generally looks very gloomy. For the rest Abdul Medjid has the Turkish family features, oval countenance, with somewhat prominent cheek bones, the nose broad at the nostrils and arched. The dark brown, well cut, but not large eyes, and the finely penciled eye-brows. They struck me as finest when their threatening expression and the countenance then appeared most significant. If they could contract with a grave earnestness, Abdul Medjid would be a man of high character. Naturally mild of disposition, a good son, good brother, unwilling, although a despot, to sign a death warrant, Abdul Medjid is not wanting in the softer feelings. That which he wants is real earnestness, real strength. So at least, it seems to me. He does not throw himself seriously into anything, but lets all go as it may and will. 'Allah, Kerim!'—F. Bremer.

ST. ANDREWS, JUNE 6, 1860.

## THE RAILWAY.

The Amroostook Times of the 1st inst., alluding to the visit of Mr. Osburn, delegate from the English Board of Directors, Mr. F. C. Bradley, Railway Contractor from Canada, and Mr. Buck, Chief Engineer, at Houlton from River du Loup, in connection with an exploration of the line of Railway says: "Mr. Osburn is sent out in behalf of the Stockholders in England, to perfect a contract under negotiation between the Railway Co. and a Company in Canada, who, in connection with the other gentlemen named, contemplate closing a contract for building the Road."

They have visited different localities in this vicinity and appear highly pleased with the future prospects of the country. They are firm in the belief that the road will soon become a source of revenue to the Stockholders after it is completed to Richmond, and anticipate soon a connection by a branch to this place.

Mr. Osburn in speaking of Amroostook County, says that it bears a stronger resemblance to Great Britain in its geological formation and soil, than any country he has visited. We hope that the arrangement for a speedy construction of the road will be consummated at this time.

The ex-Postmaster General, Mr. Connell, has published a reply to the Executive Council's letter, in which he asserts his reason for resigning, was not as stated in the Minutes of Council, the refusal of his colleagues in the Government to advise your Excellency to issue the five cent postage stamp, and unhesitatingly declares "the statement to be incorrect." He also expresses the management of the Board of Works department. His next paragraph refers to our Railway, he says:

"Your Excellency's advisers must be aware that I urged that a request made by the Managers of the St. Andrews and Quebec Railroad for the survey of the whole of the lands that the Company would be ultimately entitled to, by the Government should be complied with. Instead of this, only a survey of the side lines beyond the Howard Settlement near Eel River, and 20,000 acres which never were granted was made; and the consequences forced by the manager in case of non-compliance with his request have followed. The works have been suspended."

With all due respect to Mr. Connell, we beg to state, that it was currently reported, and very generally believed too, that the Council would have complied with the request made by the Railway company for a survey of all the land they were entitled to, but that Mr. Connell, insisted that the company give a guarantee that the road should run directly into the town of Woodstock, and that unless it did, he would oppose the application: the result was, that the company did not get their land, and the consequences are but too apparent. We await the rejoinder of the Council to ascertain the truth of these reports.

It is really time that an effort be made towards securing land for a Cemetery. The Roman Catholics, with a praise-worthy zeal, obtained a site last year, which was purchased and laid out. Why cannot the other denominations in town unite for a similar purpose; the grave yards in town are fast filling up, and land in the vicinity of the town suitable for a Cemetery, is neither scarce nor high priced. We throw out these hints with the hope that some action may be taken without delay. We learn that the friends of many buried in town would have their remains removed to a Cemetery when it is purchased and laid out.

Poems and Lays by Wm. Murdock, Barnes and Co., St. John.

A copy of this neat volume of Poems has been received. The letter press and binding are highly creditable to Messrs. Barnes & Co.

The author is a resident of St. John, and we need scarcely add a native of Scotland—as any one might easily be assured of, who will read his "Address to my auld Blue Bonnet"—"The Two Owls"—"Epistle to Mr. Walter Watson," and other pieces, which vividly bring out our memory many scenes, and friends now no more. Mr. Murdock's verse stamp him as a Poet; the ease, grace, and accuracy of his language give evidence of a cultivated taste; and many of his poems will compare favorably with Scott's bard—Burns. Every Scotchman in the Province should purchase a copy of these Poems, they are well worth the price. Besides they

would be aiding a fellow-countryman who has incurred a heavy expense in their publication.

The unusually dry weather which has prevailed during the Spring, kept the grass and root crops back; but since the refreshing rains which fell on Friday and Saturday last, the grass fields look quite green and the grain and root crops are coming rapidly forward.

The Steamship City of Baltimore, which sailed from Liverpool on the 23d May, arrived off Cape Race at noon on the 1st inst.

RETURNED AFTER CAPTIVITY OF THIRTEEN YEARS.—Mr. Geo. Brubaker, a citizen of Lancaster county, Pa., reached our city yesterday, on his way home. He was captured by a band of Camanches while on his way to California in 1847, thirteen years ago and has just escaped from them. There were but three of the party captured alive. George Richardson, of Selkirk, and Peter Demy, of Canby county, Pa., both of whom were afterwards burnt at the stake for attempting to escape from the savages. After becoming acquainted with the language and habits of the Indians, he was made a medicine man, and in that capacity did a great deal of good among them, preaching to them, and has succeeded in converting over two hundred to the Christian religion. It was only after the most solemn promise that he would return that they allowed him to depart, and he will go back as soon as he has seen his family, who have mourned him for years as dead. He lectured last night to a number of our citizens in the N. S. Presbyterian Church.—[St. Joseph Journal 10th.

THE SICILIAN INSURRECTION.—Ginipa May 18.—Advices from Naples to the 15th state that Garibaldi's disembarkation had caused great agitation. It was rumored that some regiments of chassiers which had set out for Palermo against Garibaldi had been completely destroyed.

GREAT CONSTERNATION IN NAPLES.—The Paris correspondent of the Times says that the telegraphic despatches received from Naples are to the effect that the utmost consternation prevailed in that city; that increased means to protect the French residents had been called for; that the plate, jewels, and other valuable articles belonging to the royal family had been packed up; and that fugitives continued to arrive in Sicily that manifestations of a rather tumultuous description had taken place; that the troops had become dispirited, and some say refused to march; that the police agents had fired on the groups, and killed or wounded several; and that every thing presaged a great insurrection. On the whole, the news, though rather vague, is a thorough gloomy and even the least depending or alarmist, is of opinion that the whole of the Italian peninsula will be convulsed before long.

## MILITIA GENERAL ORDER.

FREDERICTON, 18th March, 1852.

His Excellency the Lieutenant Governor has been pleased to make the following Promotion:

3rd Battalion Charlotte County Militia.

Captain Thomas Moses to be Major, vice Hatheway, promoted.

By Command R. HAYNE Lt. Col.

A. G. M.

## MILITIA GENERAL ORDERS.

FREDERICTON, May 23, 1860.

His Excellency the Lieutenant Governor and Commander in Chief has been pleased to make the following promotions and appointments, viz:—

Third Battalion Charlotte County Militia.

Major James Brown to be Lieutenant Colonel, vice Hatch deceased.

Captain Moses to be Major, vice Brown, promoted.

Lieut. Warren Ingersoll to be Captain, vice Dogget, deceased.

Lieut. Joseph Patch to be Captain, vice Leeman, appointed Adjutant.

Ensign Owen Parker to be Lieutenant, vice Patch, promoted.

Ensign James Leonard to be Lieut. vice Ingersoll, promoted.

Lake Byrne, Gent. to be Ensign, vice Parker, promoted.

W. D. Hart, Gent. to be Ensign, vice Leonard, promoted.

Simeon Leonard, Gent. to be Ensign, vice Cummins, left the Province.

Captain John Leeman to be Adjutant, vice Moses, promoted.

John Kay, Gent. to be Quarter Master, vice Geo. Kay, deceased.

Charles Gem, formerly 3rd Battalion York County Militia, to be Surgeon, vice M'Stay, deceased.

Letters dated at Salt Lake City on the 15th inst., say the investigation into the affairs of Dr. Forney the Superintendent of Indian Affairs, charged with malfeasance in office, was progressing, and was creating considerable excitement among the Gentiles, and no little merriment among the "Saints." Twelve days had already been expended in the investigation, but nothing it was alleged had been elicited to sustain the charges.—The news of the organization of the New Mormon Church by young Joe Smith had reached Utah, and did not cause any considerable excitement among the elders, who contend that young Smith's mother is at the

head of the movement. A heavy snow storm occurred at Salt Lake and vicinity during the early part of this month; snow fell to the depth of eight inches, which caused several hundred thousand dollars damage to the fruit trees and crops. The Indians of the northern part of the Territory, in the Bear River Region, who have been for a long time troublesome to the whites, have sent a delegation to propose terms of peace. A fatal row occurred at an amateur theatre at Camp Floyd, on the 7th inst., when a general fusillade of small arms took place, and several men were fatally injured.

"FORM RIFLEMAN FORM."—We have understood with much pleasure that Milltown, a place by the way to which people elsewhere have not generally ascribed a superabundance of loyalty, has lately led off in their section of County in the organization of a Rifle Company; that some forty volunteers have already come forward, and others to a sufficient number, can easily be obtained; that the officers have been elected and guns sent for, and that a general enthusiasm prevails in that vicinity, which, while we know it to be most creditable, we hope will be contagious, and awaken us in the lower part of St. Stephen to a similar exhibition of spirit. The officers, elect are: Albert Hiltz, Captain; Andrew McAdam, 1st Lieutenant; W. G. Murchie, 2nd Lieutenant. The meeting for the election of officers was well attended, Major Abbott, John McAdam Esq., M. P. P., and others being present.—[Herald.

A writer in the Chronicle gives a charming picture of Cambridge. He says—"Go out and walk through the streets. You shall see the apple trees one rosy mass of sweet blossom—the stately horse chestnuts a pyramidal pile of rich flowers—the cherries whose snow white petals have scarcely fallen have already set their green fruit,—the peaches yet glow with rose and purple,—the elms are airy and gracefully arrayed in their first tender leaders,—the ashbuds are no longer black but tender green, the mountain ash is dotted with its fern-like leaves, and the oaks are putting forth their dark green foliage. The stately sycamores give signs of health and vigorous life, and the maples that long ago with red clippings hung every bough to welcome spring, are now robed in summer dress."

CLEARING LAND.—This is just the time to clear land, and farmers are improving it. Every acre of land cleared and brought under cultivation adds to the aggregate wealth of the community. Every settler ought to get as large an amount of land cleared as possible. There will no doubt be thousands of acres more land brought into a state of cultivation, in this part of the country, the present season, than there were last year.—This is truly an encouraging indication.—The productiveness of the soil is such that it is not only capable of sustaining a large population here, but that it could be made to yield an immense amount of produce for exportation.—[Amroostook Pioneer.

BUILDING.—Those who were burned out by the recent conflagration are erecting dwellings and places of business. It will be but a short time before Presque Isle will rise phoenix-like from her ashes.—There is in this community a class of citizens possessing such indomitable perseverance that it would take far greater obstacles than they now have to contend with to discourage them. Many buildings must and will be erected here this season, not only to accommodate the sufferers by the fire, but also to afford accommodations to the in-rushing tide of immigrants.—[Id.

RECEPTION OF THE PRINCE OF WALES. At a meeting of the Common Council held yesterday, it was resolved to levy a tax of £1,500 on the Citizens for the purpose of raising a fund to entertain His Royal Highness the Prince of Wales, the tax be levied only on those who pay taxes to the amount of £5 and upwards. This will no doubt be cheerfully borne by our wealthy inhabitants.

The Government have made arrangements to obtain the residence of the late Chief Justice Chipman, at the head of Presque Bay street, as the residence for the Prince during his stay in this City.

The Engine house located near Gilbert's lane, is to be fitted up for a ball room, and the car house for a supper room.—[New Brunswick.

Major General Trollope, Commander in Chief of the Forces in the lower Provinces on Thursday evening last inspected the Artillery Companies under command of Captains Peck and Peters, and Rifle Company under command of Captain Stockton. At the conclusion, Gen. Trollope, in a neat speech complimented the Companies on their efficiency.—[Id.

ACCIDENT TO THE STEAMER REIN DEER ON THE ST. JOHN RIVER.—We learn that on Tuesday last, as the steamer Rein Deer was making her upward trip, unfortunately got into shoal water near Eel River, and struck against a rock staving a hole in her side. She immediately filled and sank.—The passengers, numbering about one hundred, on board at the time, were shortly afterwards taken by the steamer Tobique. There has been some competition between these boats this season, and it seems the Rein Deer and Tobique had previously been trying their speed. The latter had also a slight accident befall her, caused by a log getting entangled in the stern wheel, which detained her an hour or more but came along in time to take the passengers from the Rein Deer.

assisted. We are further informed there was but little freight on board and the only loss is the delay and damage done the boat.—[Amroostook Times.

NEW POTATOES.—On Thursday last (the 24th inst.) we were presented by Mr. Joseph R. Raymond, of Beaver River, with a quantity of new potatoes raised in the open air this season, from seed planted last autumn in the bog in the vicinity of Messrs. Raymond's ship-yard. By loyalty dining, of them the same day, we contrived at one and the same time to testify our respect for our Sovereign and our appreciation of the present.—[Yarmouth (N. S.) Tribune.

SINGULAR INCIDENT.—A curious circumstance, says the Rochester Democrat of May 1, occurred on a freight train going from this city to Buffalo, last Tuesday evening. The train was drawn by the locomotive Ladyard W. W. Rogers engineer. About four miles west of Batavia, while the train was running at good speed, suddenly a crash occurred, forward, and the head light was extinguished. After the first surprise subsided Mr. Rogers directed his fireman to go and relight the light, but subsequently concluded to wait till he arrived at Alden, for fear an accident might occur to the man. On reaching the place a wild pigeon was found inside the lantern, dying. The glass in front, three-sixteenths of an inch in thickness, had a hole broken through it, just large enough for the bird to enter and the aperture was similar to that usually made when a rifle ball is shot through glass. It is supposed that the train encountered a flock of pigeons, and that one of them blinded by the powerful head lamp, dashed at it and was caught as above related.

A CINCINNATI CONFIDENCE GAME.—One Hudson advertised for a partner with \$100 capital. Of course a number of persons answered. The advertiser appointed an interview and bodily states to the applicant that his business is counterfeiting. He declares that the United States Mint was recently robbed of several quarter-eagle dies, and that these dies are in the possession of parties now engaged in manufacturing, who will sell the coin for forty-five cents on the dollar.—One of these victims of confidence, named Hoffman, had Hudson arrested, when it was found that he had already a genuine two-dollar-and-a-half gold piece, that would have been palmed off as a counterfeit.—Of course an effort to pass it would have been successful—a sure way to delude their victim. At a given time Hoffman meeting Hudson would have received a box purporting to contain the requisite number of pieces and would have handed Hoffman in return the \$100. The box is examined, and instead of counterfeit two-dollar-and-a-half gold pieces, contains a little sand and a lump of lead. Hoffman, from his complicity, could not have "preached," and Hudson goes on his way rejoicing, to seek another. The above is what is termed the "box game."

THE KEY TO THE WEATHER.—A letter of M. Connick to the *Courier des Hautes* is exciting great attention in France. It will be remembered that Marshal Bugeaud proclaimed the discovery of an ancient Spanish manuscript, in which the natural laws which govern the atmosphere were so clearly laid down that nothing was left to chance, and projects could be made with the greatest security. These calculations, based upon 50 years' experience comprising 600 revolutions of the moon, had enabled the author to forecast the weather to a nicety, and the Marshal, struck by the confidence with which the theory was broached, after taking some little trouble to practice the same rule of calculation, found it unerring likewise.—M. de Connick now comes forward with his experience also, and at length we can boast of possessing a key to the pranks of the moon, which will henceforth render them completely harmless. This it is: The weather, eleven times out of twelve, is exactly the same during the whole moon as on the fifth day if on the sixth it resembles the fifth; and nine times out of twelve it is exactly the same as the fourth day if the sixth day resembles the fourth. This rule, says M. de Connick, is found invariably eight months in the year. The calculations have hitherto been October, February, March and April.

## Ship News.

### PORT OF ST. ANDREWS

#### Arrived.

May 31.—Schr. Fanny, Meloney, Boston, ballast.

—Schr. Wren, Wren, New York, flour, master.

—Schr. Jane, Clark, Boston; sundries; H. C. Bradbury.

June 1.—Schr. Spray, Shaw, New York; flour, pork, &c.; J. Bolton & J. B. Bradford.

2.—Schr. Only Son, Cogswell, Calais, flour; J. R. Bradford.

5.—Schr. Shainrock, Smith, St. John, ballast.

—Schr. Georgianna, W. Waycott, Boston; meal, cordage, &c.; W. Whitlock.

—Schr. Gipsy, J. Waycott, New York; flour and pork; W. Whitlock.

—Schr. Spartan, Morrison, St. John, gen. cargo.

C. C. Bank, April 9, 1860.

THE PECULIAR ARRANGEMENTS OF THE Life Association of Scotland.  
CONFERS facilities and privileges on the Policy-holders which, it is believed, CANNOT be obtained from any other Assurance Office.

FRANKED FROM DISASTERS.—The Policies now being issued are unusually free from Restrictions (as commonly imposed by other Companies), and confer important privileges. These relate to Non-payment of Premiums—Indisputability—Limits of Residence and Occupation—Military and Naval Service, &c.; and afford in most cases almost complete protection against forfeiture.

SURETY AND PENALTY.—The Association now of Force "One Year's" standing, is one of the most extensive and successful Life Offices, and thus possesses an element of safety and permanency not contained in smaller Institutions.

RIGHTS OF PARTNERSHIP.—The Policy-holders are wholly exempt from the liabilities of Partnership, and the Sum Assured is guaranteed.

PROFIT SHARING.—A Share of Profits is allocated yearly to every Policy-holder of five years standing at the preceding annual balance and is applied so as to reduce the present outlay for his Policy.

HALF CREDIT SYSTEM.—Policies of £500 and upwards may be effected and kept up by payment of only One-half the Premiums for the first six years, with Interest on the other half.

VOLUNTARY CORPS.—The Assured are permitted without extra payment, to serve in Volunteer Corps within Great Britain and Ireland during Peace or War.

THERE IS A SPECIAL ADVANTAGE in securing the above-mentioned Plan of the House for the 21st ANNUAL BALANCE; One Year's earlier participation in Profits will thus be secured. Applications will be received until 5th April.

HEAD OFFICE FOR NEW BRUNSWICK,  
74, Saint John Street, S. John.

LOCAL DIRECTORS.  
Francis Ferguson, Esq. (Hon. J. A. Street,

THANKFUL for the liberal patronage bestowed on this establishment since it was opened, the undersigned begs to announce, that he has for sale a fresh supply of

Extra Ohio FLOUR, Corn Meal, PORK, DRY FISH,  
TEAS, SUGARS, MOLASSES,  
SOAP, CANDLES, BOOTS AND SHOES, RUBBERS,

together with all other articles to be found in a Grocery store, which will be sold at the lowest market prices.

St. Andrews, Sep. 28, 1859. J. R. BRADFORD, AGENT.

MRS. WINSLOW  
An experienced Nurse and Female Physician  
presents to the attention of mothers, her  
SOOTHING SYRUP,  
FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation, and will allay ALL PAIN and spasmodic action and is  
SURE TO REGULATE THE BOWELS.  
Depend upon it, mothers, it will give rest to yourselves, and  
RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in CONFIDENCE and TRUTH, that it what we have never been able to do of any other medicine.  
NEVER HAS  
IS A STRONG  
TO EFFECT A  
timely used.  
We know an  
dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this manner WHAT WE KNOW, after ten years experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPPING IN THE BOWELS AND WIND COLIC and overcome  
convulsions, speedily to death. We best and surest Remedy in all cases of dysentery and DIARRHŒA in children, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your Prejudices, nor the Prejudices of others, stand between you and your suffering child, and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle.

No one genuine unless the face-smile of Curtis & Perkins, New York, is on the outside wrapper. Sold by Druggists throughout the world.  
Principal Office 13 Cedar Street, N. Y.  
Price only 25 cents per Bottle.  
For sale by Donald Clark St. Andrews.

The 20th Annual Meeting of the LIFE ASSOCIATION Of Scotland—Founded 1838,  
EMPOWERED by Royal Charter and Act of Parliament, was held at the Head Office, on the 9th Aug. 1859, when a highly satisfactory state of the affairs was reported.

DURING the last year the applications for New Life Assurances £1200, for £81,618 8 were  
Of which the Directors accepted £1011, for £486,639 4  
There were only 18 Deaths during the year amongst the Assured, £33,231 10 covered by 100 Policies for  
(ACCORDING to the Mortality Table there should have fallen, during the year, 133 Policies for £57,610.)

The ASSOCIATION have paid to the Representatives of deceased Policy-holders Sum Assured of £279,62 10 4  
The Annual Income is now £151,078 15 2  
The Progressive Increase of the Business has been as follows:—

Assurance since December 1838, Annual Income.  
5th April, 1841 149 for £75,699 £2,706  
" 1847 893 " 489,917 14,430  
" 1853 6,094 " 2,320,738 67,539  
" 1859 12,220 " 6,356,643 151,078

The ASSETS and LIABILITIES having been carefully valued, the usual Annual Allocation of Profits amongst the Policy-holders has been made, and the Directors are fully warranted in declaring a REDUCTION of 57 PER CENT, for 7s. 6d. per £1. on the Premiums payable in the year ending 5th April, 1860, on Participating Policies opened on or before 5th April, 1854. This Reduction is 24 per cent. greater than in any former year. Policy-holders whose Premiums are £50, £20 or £10, will thus be called on to pay only £31 6s., £12 10s., or £6 5s., respectively.

## Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alternative power as to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCURFULA AND SCROFULOUS COMPLAINTS, Eruptions and Eruptive Diseases, ULCERS, PIMPLES, DITTORES, TUMORS, SALT RHEUM, SCALD HEAD, SPITTELS AND SYMPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NERVOUS OR THE DOG-DISEASE, DEBRILITY, DYSPPEPSIA AND INDIGESTION, RHEUMATISM, ROSS OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fever in the blood at that season of the year. By the timely expulsion of them many ranking disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcers, a sore, through which the system will strive to rid itself of corruption, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the vitiated blood whenever you find it impure, bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with a purulent of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we sell this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY  
DR. J. C. AYER & CO.,  
LOWELL, MASS.

Price, \$1 per Bottle; Six Bottles for \$5.

## Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

## Ayer's Cathartic Pills,

FOR THE CURE OF  
Constipation, Jaundice, Dyspepsia, Indigestion, Biliousness, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetters, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

These are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best in the world for all the purposes of a family physic.

Price 25 cents per Box; Five boxes for \$1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers who offer preparations they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

All our Remedies are for sale by  
S. J. D. D.

Odell & Turner, and Messrs. Hannah & Co. St. Andrews; E. P. Knight, St. George; W. Mr. Allister, St. David; A. H. Thompson, St. Stephens; and by all Druggists.

## CRAMP & PAIN KILLER

THE world is astonished at the wonderful cure performed by the CRAMP AND PAIN KILLER prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of Spinal Complaints, Cramps of the Limbs and Stomach, Rheumatism in all its forms, Billious Colic, Chills and Fever Burns, Scar Throat, and Gravel. It is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine, are as circulars in the hands of Agents.

## Notice.

THE Subscribers announce to the Inhabitants of St. Andrews and the County generally that they have commenced business as
