

Port Daniel

Mr. L. Knight, who has been to Montreal on a business trip, returned on Friday.

William Adamson (above) is the new secretary of state for Scotland in Premier Macdonald's cabinet.

Some of the young ladies enjoyed a snow-shoe tramp on Saturday P. M.

The Graphic \$2.00 year.

Port Daniel Centre

In your issue of January 31st, we had the pleasure of seeing some Port Daniel news, an account of the hockey match between New Carlisle and Port Daniel.

I am very sorry to say that this article has caused quite a bad feeling among the players and that two of them were certainly not pleased up, or the goals they scored referred to as accidents, which they certainly were.

Correctly Described. "Your son must be the idol of his family."

The Provincial Bank of Canada. HEAD OFFICE: 7 and 9 Place d'Armes Square, MONTREAL, Canada. Incorporated by Act of Parliament July 1900. Capital Authorized: \$5,000,000.00. Capital Paid Up and Surplus: \$4,500,000.00 (as at November 30th, 1923).

Report Submitted by the Board of Censors for the Fiscal Term 1922-23. Gentlemen: We have the honor to submit that in compliance with the duties imposed on us by the last General Annual Meeting...

THE PROVINCIAL BANK OF CANADA. PROFIT AND LOSS ACCOUNT as on November 30th, 1923.

Table with columns for CREDIT and DEBIT. CREDIT includes Balance at credit of Profit and Loss account, Profits for the year, and various interest and dividend items. DEBIT includes Appropriated as follows, Five quarterly dividends, and various tax and interest items.

BONAVENTURE MAN WRITES SOME IMPORTANT TRUTHS

Our Retail Merchants Should Read this Letter Carefully and Figure Out the Remedies.

The Graphic has accomplished something if it should not publish another editorial or article on the question of "Buying at Home."

Read the following letter and you will see our merchants will agree that it deals with facts and ideas that can be answered in a very practical manner.

The master of a public market for Campbellton has from time been discussed in the Graphic. Here we have an outsider's views on this great question.

This letter is timely and the Graphic hopes more of a like nature will be received.

Fleasant, Ross, Co. Qm.
Jan. 15, 1924

Editor Graphic
Dear Sir:

If you can spare me space in your very enterprising paper would be grateful to you as I wish to make a few comments and also a suggestion in reference to your Editorial in the last issue of the Graphic advising people to "buy at home" and encouraging home industry. Well I must say that I consider it a very commendable policy and I think the Graphic is to be congratulated for broaching the subject, and therefore my motive for writing this article is not intended as a criticism of the Editorial in question but rather as a supplement to it. Now speaking from a farmer's point of view, I believe that 90% of them would be delighted to patronize the home merchant providing there was not too great a margin between their prices and the Mail Order Houses. I think it only fair to be frank and say that rightly or wrongly that up to very lately Campbellton had the name of changing more for similar goods than any other town in the Province, but I am glad to say there has been a tendency this last year or two, to be more moderate in prices. And which I believe will be of mutual benefit to both merchants and customers, and while the farmers in the surrounding districts are, or should be anxious to see their Home Town thriving, they cannot understand why they should be discriminated against in regard to selling beef in the towns as they are at present. We want only Western beef in the cry you will hear most everywhere you apply. It matters not how fat or clean the carcass is. If it has not a Western label on it, it is condemned without trial. I suppose in the West they put an Eastern label on it in order to charge a bigger price and much the same way. Of course the meat dealers are not alone to blame for this state of affairs. It is rather the fault of their customers who have a fallacy that the cold storage beef of the West is superior to the freshly dressed meat of the home producer. And while no doubt it suits the Westerners to sell their beef to the people of the East and then

WIDER SCOPE FOR GAME OFFICIALS

Recommend Provincial Officials as Ex-officio Officers of Adjoining Provinces

Fredericton, Feb. 11.—An important change in the regulations governing duties of game officials of the provinces of the Dominion has been recommended as a result of an inter-provincial conference of game authorities held last week at Ottawa. It is proposed that all game officials should be appointed ex officio officials of adjoining provinces in order to permit of greater efficiency in following out their duties.

Such a change would permit game officials to greater leeway in carrying out their duties, particularly in cases of inter-provincial transactions, and would permit seizures to be made by officials of one province across the provincial boundaries in adjoining provinces if necessary. At present a game official of one province cannot extend his duties beyond the bounds of his own province and must rely on co-operation by the game authorities of the adjoining provinces, particularly in connection with the export and import of furs. This recommendation was one of the particular features of the conference, according to G. F. Burden, of the Department of Lands and Mines, who represented Chief Game Warden L. A. Gagnon at the conference attended by representatives of all the provinces of the Dominion.

Owing to the fact that the merganser, a species of wild duck, held in New Brunswick to be exceedingly destructive to salmon and trout, are protected by the migratory game bird regulations because elsewhere these birds are considered as edible food, no changes were considered with respect to the present protection of the species. Extermination by special local license may be carried out, however, in localities where the birds create havoc with the stock of angling streams.

Mr. Burden returned on Saturday from Ottawa, the conference having lasted for three days.

A WONDERFUL ESCAPE FROM DEVIL'S ISLAND

For Four Years He Suffered the Horrors of the Worst Penal Settlement in the World—How He Managed to Reach New York.

Edinburgh, Feb. 6.—One of the most remarkable episodes in criminal history is recorded by a claim made to the Edinburgh police by a man arrested as a suspected person.

The prisoner first gave his name as Edward Thomas Garin, but he afterwards claimed to be Eddie Guerin the man who made the sensational escape from Devil's Island, French Guiana, in 1919.

The Edinburgh police, it is reported believe the man's statement that he is Guerin.

The arrest followed an exciting scene in one of the leading hotels in Edinburgh the previous afternoon, when a woman visitor discovered a man trying to force open a trunk containing valuables, with a chisel. She called her husband who rushed with the man, but he broke loose and rushing down the stairway, dashed into the street. A porter then gave chase and after a struggle handed the man over to the police.

It has yet to be proved in court that Guerin is none other than Guerin. Guerin was born of Irish parents in Chicago. He afterwards migrated to France, where he became associated with "Chicago May", a woman who was described some time later at the Old Bailey as one of the most notorious criminals in Europe.

The two were arrested in Paris and convicted of robbing the American Express Company of \$30,000 dollars and of a previous robbery of 50,000 dollars from the bank of Lyons. Guerin was sentenced to life imprisonment on Devil's Island, the French penal settlement off the coast of Dutch Guiana, where Dreyfus suffered so long.

Four years he suffered there all the horrors of the worst penal settlement in the world, and then, in 1919, he determined to try to escape. He found two other prisoners of the same mind, and a confederate by some means secured for them an old dug-out canoe about 20 ft. long by 8 ft. beam.

This was provisioned with some biscuits and a tin of corned beef, and consisted of robbing the American Express Company of \$30,000 dollars and of a previous robbery of 50,000 dollars from the bank of Lyons.

Once on board their trail and unseaworthy craft they paddled for dear life down the Maroni river. Towards dawn they landed and hid in the forest, and at nightfall paddled out through the shark-infested waters to the open sea.

At dawn on the men stood up, with the remark he was blind, and falling overboard was devoured by the sharks.

The next day the others reached Dutch Guiana, lived in the forest for six weeks, and then reached Georgetown, Demerara, where Guerin managed to get money and take steamer for New York.

CONVENT SISTERS HAD CLOSE CALL

Sacred Heart School and Convent of Sisters of Mercy Destroyed by Flames

St. Leonards, Feb. 6.—Incendiarism is strongly suspected as the origin of a fire which early yesterday destroyed the large Sacred Heart school and the convent of the Sisters of Mercy of the Good Samaritans at Van Buren, directly across the St. John river from St. Leonards. No lives were lost, but the Sisters who teach in the school just had time to escape before the flames spread throughout their residence. The financial loss is estimated at nearly \$200,000. The Sisters lost most of all their belongings. The property was owned by the Bishop of Portland as a corporation sole, whose jurisdiction extends all along the western and northern banks of the St. John.

From the school building the flames leaped to the residence of the Sisters of Mercy and the 16 inmates of the home were obliged to make a hasty departure. From neither building was it possible to remove any amount of the furnishings.

The Sacred Heart school was a large four-story brick building of modern construction fully equipped and with accommodations for some 60 pupils, who did not reside in the building. The residence of the sisters of Mercy was a three-story brick building erected about five years ago.

The school building was pre-let by Father Morel, who went to Van Buren in 1869 and completed under the pastorate of Fr. Jamison.

The High Cost of Middlemen. (From the New York Herald)

Farmers at Imber, Ore., gave the nation something to think about when they dined well on fresh swine products at a cost of sixteen cents each, while the same menu was being served in Portland, Ore., restaurants at \$1.55 a plate. The sixteen cents included the cost of preparing and serving the meal in addition to cost of the raw food.

Imber and Portland are approximately 250 miles apart, with regular rail communication. Yet between the farms of Imber and the restaurant tables of Portland a single meal rose in price \$1.39.

There are many items massed in that \$1.39—freight, commission, costs of handling and storage wholesale and retail profits, merchandising rent, restaurant rent, preparation of food, and service to say nothing of the restaurateur's profit. These charges represent, in theory, just compensation for each of the factors involved in getting Imber's produce to Portland's tables; and the consuming public suffers only when those charges are exorbitant when compared with service rendered.

Not Her Weakness. "Did my wife speak at the meeting yesterday?" "I don't know your wife, but there was a tall, thin lady who rose and said she could not find words to express her feelings."

"That wasn't my wife!"

OBITUARY

William Marceux

Another citizen of Balmoral, William Marceux, passed away at his home on Sunday morning. The deceased had been failing in health for over four months. He suffered much but was patient until the end. He was fifty-nine years of age. Besides a sorrowing widow he leaves to mourn for him three daughters, Mrs. Ethel LeBlanc, Mrs. Paul LeBlanc, and Bertha at home; two sons, Edward, who died at the front and much the same way. Of course the meat dealers are not alone to blame for this state of affairs. It is rather the fault of their customers who have a fallacy that the cold storage beef of the West is superior to the freshly dressed meat of the home producer. And while no doubt it suits the Westerners to sell their beef to the people of the East and then

NOTICE OF SALE

To Archibald F. Ferguson, of the Town of Campbellton in the County of Westmorland and Province of New Brunswick, Executor of the will of Robert L. Duncan, late of the said Town of Campbellton, and all others whom it may concern:

NOTICE IS HEREBY GIVEN that under and by virtue of a power of sale contained in a certain Indenture of Mortgage, bearing date the Ninth day of May A. D. 1916, and made between Robert L. Duncan of the Town of Campbellton in the County of Westmorland and Province of New Brunswick, Farmer, of the one part, Mortgagee, and Joseph Pichette, of the same place, Sewing-machine agent, of the second part, Mortgagee, recorded in the County of Westmorland in the Records of the County of Westmorland as No. 15, 717 on pages 227 to 231 of Book "L" of the said Records.

These will, for the purpose of satisfying the moneys secured by the said Indenture of Mortgage, default having been made in payment of principal and interest thereon, be sold in front of the Post Office in the Town of Campbellton in the County of Westmorland, on MONDAY the THIRTY-FIRST DAY OF MARCH A. D. 1924, at the hour of twelve o'clock at noon, all the lands and premises described in the said Indenture of Mortgage, bounded and described as follows:

Beginning on the southerly side line of the Intervale Railway lands at the northwesterly angle of lands heretofore conveyed by the said Robert L. Duncan to the said Joseph O. Pichette, thence running Southerly (south five degrees and thirty minutes west) One Hundred and thirty three feet to a point with feet James Macleod in parallel with the southerly side line of said Railway lands, one hundred feet, thence the dividing line between the said James Macleod and the said Joseph O. Pichette, thence Southerly following said dividing line (south five degrees and thirty minutes west) until it strikes the southerly side line of the Intervale Road, commonly called, thence Westerly following the western course of the said southerly side line of the said Intervale Road, thence North five degrees and thirty minutes east, along said Christopher line till it reaches the said southerly side line of said Intervale Railway lands; thence Easterly along same to the place of beginning.

TOGETHER WITH all buildings and improvements thereon and the rights, privileges and appurtenances to the said land and premises being or in any manner appertaining.

DATED at Campbellton in the County of Westmorland this Twenty-eighth day of December A. D. 1923. (Sgd.) Joseph O. Pichette, Mortgagee.

(Sgd.) Kelly & Gilbert, Solicitors for Mortgagee.

Notice of Legislation

Notice is hereby given that an application will be made at the next session of the Legislature of the Province of New Brunswick for the passing of an Act:

(a) Authorizing the Town of Campbellton to borrow temporarily, or until the rates and taxes are collected in each year, a sum or sums not exceeding in all the sum of Fifty Thousand Dollars (\$50,000.00).

(b) To amend 51 Victoria, Chapter 81, Section 8, by striking out the words, "and shall have paid all such rates and taxes due previous to such election" and insert in lieu thereof the words "and shall have paid on or before the Friday next previous to such election all such rates and taxes due."

(c) That every person carrying on business in the town be deemed an inhabitant thereof for the purpose of assessment of property within the town.

H. A. CARL, Solicitor for the Town of Campbellton.

ASPIRIN

Beware of Imitations!

When you see the "Bayer Cross" on a package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years.

Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Fever.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Drugists also sell boxes of 24 and 100. Aspirin is the trade mark registered in Canada of Bayer Manufacturers of Monocacetylsalicylic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to satisfy the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Starting The Incubator

(By G. H. Chealey)

Before telling how to start the incubator it may be well to give the reasons for using the incubator at all. Of course, it is less work to hatch chicks with hens, and, if but few are wanted, and those at a time when the hens will set, by all means use the old hen. However, the man who wants a considerable number of chicks and wants them early must use artificial means of incubation. You cannot get many chicks in March or earlier if you are obliged to depend on the hen. It is necessary more work to take care of chicks hatched in an incubator, but, on the other hand, eggs should be set as early as possible in raising a flock of pullets. When you get the incubator, read the rules for running it carefully, and follow them religiously. It matters little whether the machine be of the hot-water or hot-air type. Start the machine and see that it runs properly and holds the requisite degree of heat. It should be said that the machine must be carefully levelled as this is of considerable importance in maintaining even temperatures. Have the machine with the proper temperature when the eggs are put in. The temperature will drop at once, but you should be able to get it hours.

For the first ten days after the eggs are placed in the incubator, I try to keep the temperature between 102 degrees and 103 degrees. In the latter half of the hatching period, the heat should not run below 104 and may go as high as 105 without serious results. However, I would try not to allow it to run above 104 for the best results. When chicks begin to hatch the temperature will naturally run high. It will have to be regulated by turning down the light.

As to ventilation and moisture, the different types of machine employ different devices, and no advice can be given to take the place of the maker's directions. The matter of cooling and turning eggs is probably a result of man's effort to imitate nature. The hen leaves her nest nearly every day, and frequently moves the egg about. I have not always followed this rule strictly, but in general it may be said that eggs should be cooled and usually turned in my hatching, I have not attended to filling and trimming the lights in the afternoon, and some time previous the eggs have been turned and attended to. Never handle the egg immediately after attending to the lights, as it is a difficult matter to get the hands entirely free from the keroseene at once. Clean hands are important when handling eggs.

POULTRY
KEEP THE LITTER CLEAN

Scratching litter in the poultry house, if kept clean and dry, is an aid to egg production, but if the litter is permitted to become damp or filthy it is a fruitful source of disease.

The cause of roup, colds, and cholera is often traceable to damp, unclean litter. A bale of musty straw used as litter has often caused the death of hens.

How often the old litter should be removed and replaced by new depends on the number of birds in the house, and dryness of the floor.

If each bird has four square feet of floor space all the litter should be removed once a month. Two weeks after new litter is put on the floor it should be forked over so as to sift out the fine material, which is swept up and removed. Some fresh material is then added to the old.

If the floor is damp the litter should be removed every week. The floor should be covered with four to six inches of litter at all times.

Serious loss of poultry is often due to the use of moldy straw for scratching litter. In such cases, as pointed out by D. C. Kennard, specialist in poultry at the Ohio experiment station, the birds affected breathe with difficulty and often wheeze or gasp for air.

The symptoms are similar to a cold in the windpipe or bronchitis. The respiratory system of a chicken is so complicated that an excessive amount of dust of any kind is injurious and especially is this true of the dust from moldy straw.

Recent reports of heavy losses of pullets from this cause have been made. A heavy loss of birds may result in a few hours, it seems, and one bale of moldy or musty straw used for scratching litter may mean a serious loss of birds.

Ready for a Change.
"I wish," said the little invalid, who was being washed in bed, "that I need never, never have to be washed again."

"N'm afraid," said mamma gently, "that as long as you have me to take care of you'll have to reconcile yourself to be washed thoroughly every day."

The invalid pondered for a moment. "Then," said she, "I shall wash myself every day."

Should Have a Large Practice.
"If you think there's something wrong with your heart, why don't you go to a doctor?"

"I'm afraid he would say it was something fatal."

"Oh, nonsense! He wouldn't; he's an awful good sort!"—Boston Transcript.

GILLET'S 100% PURE FLAKE LYE

This famous household cleaner and disinfectant is now made in Crystal Flakes instead of powder. It is the best household lye on the market. Use it for cleaning and disinfecting sinks, closets, drains, etc.; destroying vermin; greasy pots and pans, etc.; removing paint, etc.

Avoid inferior and dangerous substitutes. Get the genuine article in cans as reproduced below.

I never turn eggs until the third day, hence they do not have any cooling until that time. Do not worry about eggs getting too cool. I have had a good hatching a lamp had gone out and the machine had become practically stone cold. However, it would not be safe to consider that as a rule to follow. The turning, in the ordinary machine, is a question of removing one row of eggs and rolling all the others over one turn.

I test the eggs twice. With brown-shelled eggs the first test is made the eighth day, while with white eggs the test can be made the fourth or fifth. Infertile eggs appear as nearly clear, while those with live germs have spider-like developments within. The second test is made at the end of two weeks, and is for the purpose of removing dead germs, that is, those which started to develop and failed to survive.—Indiana Farmers' Guide.

SELECTING A FERTILIZER

Compared with many other countries Canada is a low consumer of commercial fertilizers. The general system of mixed farming followed over much of the older parts of the country is no doubt responsible for this, as the rearing of live stock coupled with the growing of leguminous feed crops and the feeding of the coarse grains on the farms keeps up the fertility of the land to a great extent. It may be, however, that for greatest profit, too much dependence is placed on the returns made to the soil in this way, but with low returns from ordinary farming operations, few care to spend money on fertilizers, and it is only when one is producing a crop of relatively high value and when no stock is kept that the risk will be taken. And it has been a risk in many cases because of a general lack of assurance that purchasable fertilizer pays. That fertilizers do pay and pay well, particularly for garden and fruit crops, many who have learned by experience to distinguish between formulas and brands, can testify. The appearance of a fertilizer is no indication of value, nor is the odor, which sometimes suggests great strength. The latter as a guide to plant food content, is unreliable, and it is after all the nourishment content that gives a fertilizer its value. It will be well for the Canadian crop grower when they can so distinguish brands and understand formulas as to be able to purchase with discrimination, and with the same confidence as when buying certified seed of a required variety. A long step has been taken in this direction by the passing of the new Fertilizers Act and the adoption of the inspection system administered by the Seed Branch at Ottawa. A report of official analyses of more than four hundred fertilizer samples made during the past year shows a wide divergence of quality in the brands. This report, which is issued as Pamphlet No. 41 of the Department of Agriculture at Ottawa, is an enlightening document for those who desire to study the subject.

Campbellton, N. B. Feb. 14, 1924

LET US PATRONIZE OURSELVES

One of our Sackville contemporaries, The Tribune, in noting that there is a great deal being written to-day regarding the rights of the Maritime Provinces—and rightly so—asks if we always stop to think how much of the necessity of the Maritimes depends upon individual action. In regard to increasing the trade of the Maritimes, do we buy Maritime-made goods as often as we might do. There are many things manufactured in the home provinces which are just as good value for the money (if not better) as can be obtained elsewhere; yet people will persist in sending money to other parts of the continent, rather than trade in their own community. Remember that it is good business to trade at home, whenever the goods can be obtained to the same advantage. Money sent abroad is lost to the community whereas, money spent at home goes to build up the home town.

This is a very pertinent argument. Provinces should patronize those industries within their borders whenever possible. If we can buy as good articles next door at prices only nearly as good as goods we should patronize our neighbor. We do not have sufficient confidence in ourselves. We send to the Upper Province, for our life insurance; we go there for the feeds for our farmers; we do not raise enough grain here to supply ourselves; and although this should be a meat-raising country we too often are not content with anything except western beef. Many of us buy our lacrosse from Chicago firms, others from cold storage corporations, in Toronto. As The Tribune hints, we are not loyal to ourselves. We complain about there being lack of business and we do not give ourselves the business that there is. This is a subject that might well be discussed by our business men, our governments and by every public body that wants to see the Maritimes stand upon their own feet and go ahead without finching. The Tribune in conclusion asks our people to remember that in sending abroad for goods that can be bought just as well at home, you are depriving a fellow countryman of the wages which would be expended in producing goods that can be bought just as well at home. Build up the home industry, the home community, and people will be glad to remain in the old home town.

In the matter of printing, we may say that there is no office in the province that is better fitted for turning out all kinds of commercial printing, nor more expert mechanics than THE GRAPHIC office and therefore our merchants should patronize us and not go abroad for any of their work, as we have evidence from the imprints on their orders sent away from the town. Give us a chance to figure on your orders before going elsewhere.

OUR MILK SUPPLY
In connection with the campaign of the Montreal Star against tuberculosis most valuable information on the matter of milk supply is being presented to the public. In a recent issue of that paper there appears an article by Principal Harrison of MacDonald College on the city's milk supply and the danger to the health of the community due to impurities and insanitary handling. The milk supply in Campbellton, something that might bear a little investigation by the proper authorities. This suggestion is not meant as a criticism.

to reflect on the Board of Health here. Splendid work is undoubtedly being done. But certain facts of which we are aware lead us to believe that the milk supply of the town is not just what it ought to be. To point to specific cases of disease having impure milk as their source is more than we can do. We make no charge against those who bring milk into town nor against restaurants or stores that sell it but we do know, from actual experience with pure milk several times within the past few weeks, that in a number of instances there has been gross negligence somewhere. When the family milk pail is found to contain foreign matter of a decidedly obnoxious nature it is time some investigation was begun. It is altogether likely that if the several avenues of Campbellton's milk supply were given a little attention the possibility of the spread of disease through impure milk would be greatly lessened. No doubt milk dealers would heartily co-operate with the health officers. They must realize that the consumer is paying enough to secure not only an edible commodity but one free from disease-spreading bacteria.

SOME PERTINENT VIEWS

ON A TIMELY SUBJECT
Canadian business men are coming out strongly for the policy of manufacturing the raw materials of the Dominion within the country, according to the Financial Post, which quotes C. Howard Smith, President of the Manufacturers' Association, Sir Lomer Gouin and Hon. James Lyons, Minister of Lands and Forests in the Ontario Government. Mr. Smith says that no country can get rich while exporting its raw material to be manufactured elsewhere. He points out that Canada's exports to the United States consist largely of raw material and the imports from the country of finished products.

Canada controls the world's asbestos supply, and last year the United States paid \$7,000,000 for raw asbestos that was developed by manufacturers on the other side of the line to almost \$80,000,000 in finished articles. Sir Lomer Gouin, in a recent review of the growth of the pulp and paper industry in Canada since the passing of legislation in certain provinces forbidding exportation of pulpwood, disclosed that the production of pulp and paper in Canada had grown from 700,000 tons up to 3,500,000 tons. In 1923 Canada exported pulpwood valued at \$13,500,000. Manufactured in Canadian mills \$67,000,000 would have been shared in the labor provided, while other thousands would have benefited directly or indirectly. The manufacture of our raw material in Canada would mean the investment of many millions in industrial development, providing employment for thousands of people and inspiring the building of thousands of permanent homes.

This is a wide market for agricultural products and the revenues of our railroads, our governments, our manufacturers and our merchants.

A REVIEW OF 1923.
(The Cincinnati Enquirer)
There was no improvement in jazz. The craziest song in history made a fortune for its writer. Automobiles killed the most people. Bootleg whiskey came next in deadliness.

Ordinary diseases came a poor third. The saxophone continued to grow in unpopularity. No new circus words for owners of second-hand flippers or for golf players were invented. Long skirts learned the truth of "they never come back." An unconfirmed rumor says one pair of cotton stockings were sold during the year. One million mortgages were put on homes to enable owners to buy cars. Green and red shoes added a bit of color to the year. Many barbers retired after cleaning up fortunes bobbing hair. The miners and clocks struck as usual. Other things ran to form also.

MISSING—LANARK

SHIRE FARMER
Mr. Thomas D. Allan of Parkhouse, Thankerton, Lanarkshire, is still missing. He left home on the 17th Dec. and was last seen in Lanark, Scotland, about mid-day that day. He is 37 years, 5 feet 11 inches, sandy fair hair, blue grey eyes, clean shaven. Was wearing a grey tweed suit and overcoat and a waterproof and a grey tweed hat. Left home dispirited as many farmers have at present.

Should he see this he is urged to communicate with his family who are carrying on until he returns.

News of anyone answering this description will be gratefully received by his family. It is thought he may take work in connection with farming, but possibly under another name.

Mr. Allan was held in a team and is assured of a hearty welcome by his family, his neighbors and his many friends if he will return.

BUSINESS MEN IN PUBLICITY

CAMPAIGN FOR HOME TOWN

First of a Series of Advertisements and Special Articles Appear in This Issue—Will Continue for Full Year.

The progressive merchants and manufacturers of Campbellton are conducting a "Buy at Home" or a community advertising campaign, and for twelve months, once each month, there will appear in the Graphic a page advertisement giving some of the reasons why our people should be loyal to their home town. This series of advertisements are a little different from anything of this kind heretofore published and designed by an expert in this line. A series of editorial and news articles will supplement these display pages, and we would ask our subscribers to read them all carefully, and live up to the principles set forth as fully as possible.

In looking over the names of the merchants and manufacturers you cannot but be struck by the fact that these are the individuals and firms which are always to the fore when there is anything to be undertaken in the best interests of the town. They are always ready to put their shoulders to the wheel and help along a good cause. Whether it is the Board of Trade or any other organization, you will see their names inscribed upon its roll.

This being a fact about our citizens give the firms represented their trade. They show their interest and are asking you to trade one with another for the welfare of Campbellton. Again we ask you to impress these names upon your memory and give them your business.

OUTCOME OF CARNIVAL ANNOUNCED TOMORROW NIGHT

(Continued from page 1)
questioned to attend the dance in the same costume and wearing their masks thus helping to add to the enjoyment of the occasion.

Tonight's game with Bathurst to-night a moccasin dance will be held in the rink. The ladies of the hospitals will also serve refreshments. It is hoped that a great crowd will attend and that all will patronize the ladies and thus help to compensate them for their energetic work.

Just what measure of success will attend the carnival is hard to say. A winter sport event of the nature still remains to be seen, but there are a few facts which can be made known at this time. It is quite evident that the project has been deplorably confused and the original idea practically forsaken. Whatever success is attained will be due entirely to Mr. J. B. Connolly of Moncton and the ladies representing our two local hospitals. Mr. Connolly originally organized the undertaking and supplied all the better ideas which have been carried out on the programme. Had the procedure which he outlined been followed out as at first intended there is no doubt that the carnival would have been a remarkable success. The ladies of both hospitals have in this instance, as in all others, been energetic workers and it is for this reason that all should lend their sympathy and hearty support to make the last two events as successful in every way as possible.

The opening of the carnival which took place in the town hall on Thursday evening last was a pleasing affair. A great crowd thronged the building and the evident enthusiasm with which each item on the programme was carried out contrived to give the occasion that buoyant atmosphere which is so much to be desired at an opening ceremony of any kind.

"Miss Moncton" accompanied by her chaperone Mrs. G. J. Thompson, arrived on the Ocean limited for the opening of the Carnival. At the depot the celebrated young lady was met by a reception committee accompanied by the Citizens' band which played suitable airs with its usual fine rhythm and finish. At the Town Hall His Worship Mayor

McKay, presiding, formally welcomed the Queen of the Hub City. Mr. J. B. Connolly of Moncton who organized the Winter Carnival here and who was instrumental in having Moncton's popular queen present for the opening, responded to His Worship's address, with very appropriate remarks. Other addresses of welcome followed and after this a musical programme was carried out. A feature of this was a vocal selection by Mr. Connolly whose ability as a singer obviously approximates that of many highly paid professionals. Following the reception the evening was given over to dancing. Delicious refreshments served by a number of local ladies added to the unalloyed enjoyment of the evening.

Friday and Saturday
Two other very enjoyable events were on the Winter Carnival programme were the afternoons of outdoor sport engaged in on the hills to the rear of the town on Friday and Saturday. Both events were well attended and tobogganing, snowshoeing and skiing made the occasions most enjoyable for all who participated. On both days a large number of school children were on hand for the sports and on Saturday a liberal treat of candy and other goodies added much to their pleasure. At the close of the outdoor activities on Saturday afternoon a real old-fashioned bonnet supper and dance took place at the Princess Tea Rooms at which Miss Moncton and the chaperones were present.

Miss Moncton's stay in town was longer than expected, her visit being prolonged at the special invitation of her hostess Mrs. O. J. Klein. While here this celebrated young lady made many friends and impressed all whom she met as being a vivacious young woman of refinement and most pleasing personality. On her departure Sunday morning she left behind her many acquaintances who will look forward to the occasion of her next visit to Campbellton.

Monday's Event
An exhibition hockey match between the locals and the fast Chatham team was Monday's event on the carnival programme. The game was well advertised and drew a large crowd of spectators. The contest was a lively one although the local team exhibited a fine brand of hockey, the visiting team walked off with the honors by a score of 2 to 1.

This country is faced by many serious problems, caused by varying fits in the body politic and all the time seems to be ignoring the remedy provided, viz. Eat More Fish.

Flatlands
We have been enjoying lovely weather for the past week. Miss Olive Matthew spent the week end in town. Miss Kathleen MacHardy was in town on Saturday. Messrs Menon Ward, Herbert Cooling and Gordon Spira attended the hockey match in Campbellton on Monday evening. Mrs. Earl Lutes and daughters Otter and Valsey are the guests of Miss John Gray. Miss Marie Koutings spent the week end at the home of Mrs. J. H. Henderson and son Walter of Bel River are visiting her daughter, Mrs. H. Ward. Mr. Nathan MacDavid accompanied by his wife and daughter Mrs. N. B. MacDavid, are visiting Mrs. J. H. Henderson.

After Inventory Clearance Sale

We have just completed inventory for the year and are putting on sale the balance of our stock of Winter Goods at greatly reduced prices in order to make room for our new Spring Stock.

We find a great many odd lines which will be put on sale at prices to clear.

We are now receiving daily shipments of new Spring Goods.

Sporting News of the Week

CAMPBELLTON LOSES LAST LEAGUE GAME

Locals Severely Whitewashed—Final Game of Northern Section of M. P. A. H. A. at Bathurst Friday Night.

Campbellton went down to defeat in the final game of the Northern Section of the M. P. A. H. A. at Bathurst on Friday night. The locals were completely outclassed except in one thing. They certainly used their combination and even if it didn't get them into the score it showed that they were something of a team. The locals seemed unable to skate to advantage. It didn't seem any trouble for their opponents to overwhelm them anywhere that they wished. The Bathurst team although they excelled in individual work and minor combination stunts have been practicing hard. They are able to check back, tried time after time to get away but he was so closely checked that he was stopped before he could get into the game. The Bathurst team is just a team of stars who know nothing of combination but just rely on locomotive speed, together with good stickhandling, to win for them. The locals were in real poor form Friday. They played their worst game of the season and there is no doubt if all had been a team they did here against Campbellton a week from last Monday, the score would have been different. However, they didn't put up an honest fight that they lost.

First Period
Time 3:14
Ryan started off with a rush and it was surprising how fast he got away but McKenna saved. McLean carried down and lost to R. Cripps who came back and shot. McKenna recovered and carried down, passed to Laviolette who shot wild. Laviolette carried up and shot but McKenna saved. So far Bathurst had the better of the play. Laviolette made a sensational rush but was offside. The forward line Thomas, Laviolette and Wilkins pulled off a good advantage. Campbellton's defence was kept busy. Wilkins carried down and passed to Laviolette who shot wild. Laviolette carried up and shot but McKenna saved. Ryan carried down and shot but McKenna saved. Ryan carried down and shot but McKenna saved. Ryan carried down and shot but McKenna saved.

Miss Lela Brook, in winning the ladies' half mile race on Friday evening in 1 minute 40 1-5 seconds, broke the world record 1:48 1-4 established by Miss Gladys Robinson at Lake Placid on Feb. 11, 1921.

The results:
Junior boys, under 12, 440 yards—1, Jack E. Marr, Toronto, 2, G. Lewis, Toronto, 3, E. Taylor, unattached. Time 55 4/5 seconds.
Boys under 15, 1 mile, final—1, Roy Brown, Toronto; 2, W. Smith, Montreal, Time, 5 minutes 9 3/5 seconds.
Senior, 440 yard final—1, L. Roe, Toronto; 2, F. Garnett, St. John; 3, Murray Roe, Toronto, Time, 59 3/5 seconds.
Boys under 14, 440 yards—1, H. Smythe, Moncton; 2, G. A. Fowler, West St. John; 3, Reggie Fielding, Toronto. Time, 48 seconds.
Senior ladies, 440 yards open final—1, Kathleen Macrae, Toronto; 2, Lela Brooks, Toronto; 3, Ruby Johnson, Toronto, Time, 48 2/5 seconds.
800 yards, boys under 16—1, Leslie Burt, Toronto; 2, Norman Buckley, West St. John, N. B.; 3, Harold Hunter, Toronto. Time, 1 minute 27 2/5 seconds.
Senior three-quarter mile, open final—1, Percy Johnston, Toronto; 2, Eddie Gloster, St. John, Toronto; 3, F. Garnett, St. John. Time, 2 min. 9 4/5 sec.
Senior ladies, open, 1 mile, final—1, Peggy McIntosh, Toronto; 2, Kathleen Macrae, Toronto; 3, Lela Brooks Toronto. Time 4:25 1-5.
Senior, open, 3 miles—Gloster, Toronto, and Gayton, St. John, dead heat; third, Garnett, St. John, Time, 9:40.

27 FANATICS DIE

Killed in Riot in Java Over Attempt To Set up a New Kingdom.
Batavia, Java, Feb. 12.—A Dutch police officer and twenty-seven native religious fanatics were killed, and many wounded, in the course of a riot Sunday at Tanagerang, near Weltevreden. The trouble began when forty-one fanatics armed with swords and knives declared they wished to proclaim a new kingdom of Mount Odeh. Severe fighting occurred before the police gained the upper hand.

ABOUT THE WAY OF IT

Young Bridegroom—Do you understand this marriage system? Another—Rather. They send you new furniture, and you pay so much a month for it. By the time you have it—It's yours.
SKATING AT TORONTO
Walter Gayton, a St. John youngster skating for the first time in a senior company on the big circuit furnished the surprise of the national skating championship at Toronto on Saturday, in tying Gloster for first place in the three-mile race. Gayton was third.

CERAIN DUCKS MUST NOT BE SHOT

Although Known to Destroy Salmon and Trout Fry the Merganser is Protected.
Fredericton, Feb. 11—George F. Burden has returned from Ottawa where he represented Chief Game Warden L. A. Gagnon at the Dominion Game Conference held last week at Ottawa. Owing to a late departure from this city and delay at other nice pieces of combination but not Mott captured the disc and carried down and lost to Crosby who was packed in front of our net. Ryan scores first goal five minutes after start of play, 3:16.
McLean broke away but cannot do a thing, so closely he checked that he was unable to combine with Crosby, Lawlor and R. Cripps were the features.
Laviolette and Thomas carried down but lost to McKenna. Bathurst used numerous substitutes to good advantage. Campbellton's defence was kept busy. Wilkins carried down and passed to Laviolette who shot wild. Laviolette carried up and shot but McKenna saved. Ryan carried down and shot but McKenna saved. Ryan carried down and shot but McKenna saved. Ryan carried down and shot but McKenna saved.

ALL THE NEWS DALHOUSIE, THURSDAY, FEBRUARY 14, 1924 EVERY WHERE

SOCIAL AND PERSONAL NEWS

Dr. J. R. Diabrow lost a valuable horse recently.

Mrs. A. G. McKenzie and child, Frances, spent the week-end in Matapedia with friends.

Mrs. Milton Doherty of Bathurst, was a visitor to town last week.

Rev. R. J. Coleman conducted divine service on Sunday at Uplalquich and also at Dawsonville. The first time Mr. Coleman preached in St. Paul's church, Dawsonville, was twenty-one years ago this coming June.

Her many friends regret to hear of the illness of Mrs. W. H. Priest.

Miss Mary McKay entertained a few of her friends on Friday at afternoon tea.

Rev. E. J. Shaw exchanged pulpits on Sunday with Rev. Mr. Yates of Matapedia.

Mrs. Carr's friends are sorry to hear of her sickness.

James Duncan's friends are much pleased to see him out again after his recent illness.

Mr. Frank McEvoy, Sydney, N. S., spent the week-end with his family in Dalhousie.

Miss Lucienne Samson left last week for Montreal where she will be the guest of her cousins the Misses Allan for a few weeks.

Miss E. Theriault and Miss Bernadette Hayes, Bathurst, were visitors to Dalhousie on Sunday and were the guests of the Misses Audry and Eileen Troy.

Miss Mary Farrell, Principal of the School at Atholville, was in town on Saturday and was the guest of Mrs. Joseph Barthe.

Mr. F. K. St. Laurent, Whites Brook, spent the week-end in the shiretown and was the guest of his son, Dr. St. Laurent.

Many old Bay Chaleur friends of Mr. F. J. Plante, the genial traveller for many years for Messrs Greensfield Ltd., Montreal, will regret to learn of his passing away. His funeral took place in St. Roch, Quebec, and was one of the largest seen for a long time in that division of the city.

Mrs. Reginald H. Dean, formerly Miss Isabel Lock of Montreal, received for the first time since her marriage on Saturday, Feb. 9th at her residence Apt. 5-440, Mount Stephen Avenue, Montreal.

Mrs. Reginald Dean is the son of the late John E. Dean who owned the Inca Arran House at Dalhousie.

The young man who did splendid work during the war (in which a brother was killed) and who took an active part at the 1919 Tourist Meeting in St. John, N. B., to have the Annual Convention of 1920, held at the Inca Arran House, Dalhousie, which was so successful, will have the best wishes of many Restigouche people.

Miss Rose Noel went to Bathurst on Friday where she attended the funeral of her aunt, Mrs. Nellie Vienneau, who passed away at East Bathurst on Wednesday, Feb. 6th.

Rev. Father Allard, formerly P. P. at Val D'Amour, conducted the funeral service. Miss Noel returned home on Saturday evening.

Mr. David Roy, Campbellton, returned home on Monday, after spending a few days in the shiretown, the guest of his friends Mr. and Mrs. Isidore Allain.

Mr. and Mrs. O. J. Klein, Campbellton, who accompanied Miss Moncton to Dalhousie on Friday evening, met with a hearty welcome from their shiretown friends.

Mrs. Albert Boudreau paid a visit to her Bathurst friends last week.

Mrs. J. E. Dean is expected home this week from a trip to Montreal, Boston and New York.

Mrs. Ivan Dawson, Dalhousie Junction, was the guest of her parents Mr. and Mrs. John Campbell on Monday evening.

Miss Bernice LeBlanc, Campbellton, spent Sunday at her old home here the guest of her parents, Postmaster A. J. and Mrs. LeBlanc.

Mr. Gregory McKenzie arrived home on Thursday's Limited from Montreal, where he enjoyed a few days vacation.

C. W. LEAGUE IS A BUSY SOCIETY

Preparations For Next Summer's Grand Bazaar Well Under Way

Dalhousie, N. B., Feb. 12.—The regular monthly meeting of the C. W. L. was held at the home of Mrs. Ed. Canon, on Friday evening, Feb. 8th. Miss Mary Farrell, the President, occupied the chair. She exhorted the members to continue the good work.

There was a good attendance of members. Reports were made by the several committees. A sewing circle is working under the auspices of the C. W. L. and good progress is being made, in order to be prepared for the grand Bazaar, to be held next summer, to realize funds to prepare for the building of the new church. A communication was read from the Diocesan President, Mrs. J. P. Byrne, who extended greetings for the New Year and encouraged the members. A resolution was passed thanking Mrs. Canon for the use of her house for the meeting.

MANY LETTERS RECEIVED FROM PROSPECTIVE VISITORS EVERYWHERE

One American Pleads for "Log-Cabin" Hotel With Wide Verandas and Homey Restful Atmosphere—Stresses Importance of Fresh Vegetables, Etc., For Table.

Dalhousie, N. B., Feb. 12.—The announcement made in the Graphic recently, that building lots were available in Dalhousie to build cottages for the use of pleasure and health seekers, has resulted in correspondence being carried on with the large centres, from people who desire seeing our great salmon and lobster fishing, besides enjoying our healthy salt water bathing etc. etc. Inquiries are being made about the price of lots, location, town regulations about building facilities for tourists to be taken to witness the great fishing by net and trap, etc.

A person who has travelled all over America writes the following: "Will your new hotel be a 'log cabin' with big, yawning fire places—wide verandas and a garden all over? Don't have it a modern modernity whatever you do for people want, crave and like best, the old-fashioned home air, restful and quiet. I do hope when your big hotel is opened you will have local garden stuffs for the table."

The men about fresh vegetables is a very important one, and it is encouraging to be able to answer the inquiry favorably, as the farmers of Point La Nim, Summerside and Maguana, can supply all the needs of two large hotels and more. With one or two Tourist Hotels in the shiretown, and several cottages, there would be a grand market for vegetables, small fruits, eggs, butter, poultry, fresh fish, etc.

With this energetic tourist movement so auspiciously begun it would seem that Dalhousie is about to enter a new era of activity and prosperity.

WAVE HAIR BY WIRELESS

Women will soon be able to wave their hair permanently wavy at home with the greatest ease and without any risk. An invention by a young Australian is now being perfected for this purpose.

It is claimed that the new permanent waving machine will do away with the use of electric wires in heating the curlers.

The latter are heated by steam, and the heat by means of which the wave is effected never reaches boiling point. For this reason even dyed hair can be waved successfully.

When the hair has been wound round each curler and fastened with a patent clasp instead of with strings it is enclosed in a velvet-covered cushion through which the heat is conducted.

Wireless waving machines have been installed in many hairdresser's saloons, and small sets may be had for the home. For the purpose of heating the water, these are connected to a small gas ring.

DALHOUSIE WON IN FAST GAME

Handed Campbellton Boys a Goose-Egg in Interesting Match Here Recently

According to the final score and general aspect of the game, a team of players from the intermediate league in Campbellton got fairly well whitewashed here recently in a spirited clash with a team of picked locals. Before an enthusiastic crowd of spectators the shiretown hockeyists rolled up a score of 9 to 0.

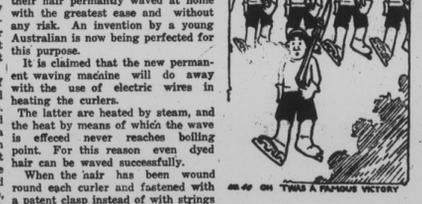

Dalhousie's forward line comprised of Ed. Edinger, Geo. Williams and L. Blanchard showed an abundance of speed both in combination play and individual rushes and made it mighty interesting for the Campbellton goal tender. However, through all the bombardment this individual kept cool and did splendid work. The locals scored twice in the first period.

In the second period the visiting players showed a better brand of hockey than in the opening stanza in territorial play. This however was of no avail for G. Simpson and H. Deacon on the defence succeeded in frustrating their many spirited attacks. Trudelle in goal was warmed up a bit in this period, several dangerous

TRAPPED IN A BOX CAR

Every year, as surely as the wheat harvest itself, there is a new crop of adventures in the histories of the Canadian West and North. Men go there, for one purpose or another, and before they come out again things happen to them. This past season has had enough of such happenings to prove the rule.

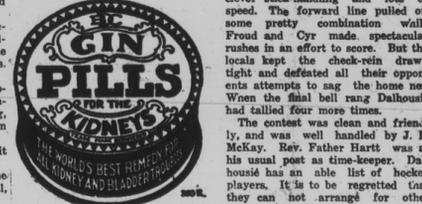

The adventure of John McBrade began in the West and ended in the East, but is very nearly ended in another world. McBrade had an August excursion across half the continent that didn't cost him a cent but almost cost his life. He crawled into a box car standing in the railway yards in Edmonton and went to sleep on top of the coal with which it was loaded. When he awakened the car was in motion, the door was fastened tight, and he was trapped. He beat frantically upon the door, but with no result except to lacerate his hands and wear out his boots. And the train went on and on. Ten days later it came to a stop in London, Ont., where the car was opened, and McBrade saw daylight again. He was too far gone to get out of the car alone, and men who saw him said he looked like the picture of death. It had been a black 'ole, starvation ride all the way from Edmonton, and if the car of Albert's coal had been billed to somewhere in Eastern Ontario, instead of to London, there would most likely have been no more of John McBrade.

shots going close; but on each occasion Dalhousie's veteran of the net cleverly side-tracked the rubber. The locals were more fortunate and added four more goals to their previous score.

The third period supplied a breezy climax to an interesting game. The Campbellton players showed some clever stick-handling and lots of speed. The forward line pulled off some pretty combination while Froud and Cyr made spectacular rushes in an effort to score. But the locals kept the check-rein drawn tight and defeated all their opponents attempts to sag the home net. When the final bell rang Dalhousie had tallied four more times.

The contest was clean and friendly, and was well handled by J. B. McKay. Rev. Father Hart was at his usual post as time-keeper. Dalhousie has an able list of hockey players. It is to be regretted that they can not arrange for other games with outside teams.

PLEASANT AFFAIR AT SKATING RINK

Carnival and Dance Held Friday Last—"Miss Moncton" Present

At a carnival and dance on Friday evening before a large number of skaters and spectators in the skating rink, which was nicely decorated for the occasion, His Worship Mayor Barberie, of Dalhousie, introduced "Miss Moncton" to the people of the shiretown. This opening ceremony was followed by an hour of skating on splendid ice, in which "Miss Moncton" participated. The visitors then enjoyed a lunch at the Queen Hotel, and the skating continued till their return. The rink hand furnished the music for the skating.

The next thing on the programme was the dancing which was much enjoyed. The Woo Ho Orchestra of the shiretown furnished excellent music. There was a pause after the first dance, and Mr. J. B. Connolly, of Moncton, explained the object of "Miss Moncton's" visit to the North Shore Towns, and asked the young ladies, who would consent to enter a contest, to select a "Miss Dalhousie", etc. He called upon Mr. LeBillets, who spoke about winter sports, as he had seen them in his younger days, in the great cities of Quebec and Montreal, and said that the town of Dalhousie, for its size could furnish a lot of young ladies, that would do credit to the shiretown of Restigouche Co. The names of eighteen young ladies were mentioned. The names of Sevelen, who were present, were handed in to the chaperones during the rest of the evening.

As the young ladies have since declined to enter the contest, it is not probable that any "Miss Dalhousie" will be chosen this winter. The evening was a most enjoyable one however and Mr. Trudelle, the proprietor of the rink is being congratulated on having made arrangements for such a pleasant affair.

PROTEST AGAINST EXPRESS RATES

North Shore Shippers of Fish Say High Cost Will Cripple Business

Moncton, Feb. 6.—Protests against proposed increases in express rates were made at the session of the Dominion Railway Commission in City Hall here this morning. A deputa-tion representing North Shore ship-pers of fish insisted that higher rates would cripple their business.

Raymond Lager, president of the Moncton Board of Trade, and P. E. Dunsin, co-president of the board, were also heard in opposition to the proposed increases.

The hearing opened about 10 o'clock with Hon. F. C. Carter, chief commissioner, presiding. Among others present were Commissioners C. Lawrence and Hon. Frank Oliver and R. Richardson of Ottawa, secretary.

At the opening of the session Mr. Phlopp, counsel for the Express Traffic Association, brought up the matter of miscellaneous commodity rates on butter, eggs and packing house products, which apply mostly in Ontario. It was explained that by virtue of the various rates, these miscellaneous commodity rates have been thrown out of line.

The express companies filed with the board notices that the rates would be abrogated, with the understanding that the cancellation notices will be suspended.

By direction of the board the express companies are to confer with the shippers' representatives in an endeavor to agree on new rates on a proper basis.

MOTHER AND DAUGHTER RE- JOICE IN HEALTH.

Mrs. Oram and daughter badly run down—find lasting relief in Dreo—cannot praise it enough.

No one is more enthusiastic about Dreo than the fortunate sufferers who have found relief in its wonder-ful, health building properties. Since in their gratitude, what more natural than they should recommend it to their own dear ones. Thus is Dreo rapidly becoming a family remedy, a constant protection in the home against stomach, kidney, liver and kindred complaints as instanced in the case of Mrs. Fred Oram, and daughter, of 13 Erin Street, St. John, N. B.

"I was badly run down," says Mrs. Oram. "I suffered severely with stomach trouble and indigestion and everything I ate made me dizzy and very sick. I was very nervous. Then I heard of Dreo and decided to try it. It made a new woman of me. My daughter was also very nervous and eating hardly anything, but Dreo gave her the same splendid benefit it gave me. We have only taken three bottles of this wonder-ful remedy, but both of us are feel- ing fine and give it our heart-felt praise."

Do not despair of your condition. Dreo has helped thousands of men and women suffering the torture of indigestion and disorders of the stomach and liver. It can help you similarly if you will but give it the chance. Dreo contains no mercury, potash or habit forming drugs.

Dreo is being specially introduced in Campbellton by Wren's Drug Store, and is sold by a good drug- gist everywhere.

BACK UP HOME STORES
A gentleman who resides in this town but who has no business inter-ests here, says that he has instructed his family to do all their shopping with the town stores. He says there is just one way to make a town pro- perous, and that is by backing up the merchants in the place where you reside.

The Graphic \$2.00 year.

ARE WE TRUE TO OUR TOWN?

Do We Treat Campbellton Mer- chants Fairly in regard to Buying at Home

If our merchants and their sales clerks were not a mighty good-natured bunch of folks whose rough edges have been worn down by much contact with human nature, they would have reason to get quite grouchy at times. There are some persons who will go, or send, to more or less distant cities and make important purchases of hardware, furniture, etc. Then, when they want some little article in a hurry, and must have it for some pressing need they rush to the home store and demand that it must be supplied to them right away, and some- times ask that it be charged. They expect their home store to keep stocked up with cargoes of goods, yet fall to supply their share of the patronage that would warrant their keeping such a stock. A group of retail stores links up a town with a wonderful system for distributing modern products for home commu- nities. Your home merchant brings to your door the comforts of ad- vanced civilization, where you can examine and see what you want. Are you doing what you should to en- courage them? The men who own and conduct the stores of Campbell- ton are mostly a loyal, force, work- ing to build up this community, help- ing by paying taxes and providing modern facilities to improve its civic advantages and promote its prosper- ity. When you deal with them you back up and help them in making Campbellton a bigger and better town. Think of these things the next time you take your pen in hand to sign a check or P. O. money or- der to order goods from some place that has no more interest in Camp- bellton than they do in Asia, Europe or Africa.

MRS. MISENER'S AGES AND PAINS

Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branston, Ont.—'When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken. I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctors for several years without getting any benefit, when I started to take your medicine."—Mrs. GOLDWIN MISENER, Branston, Ont.

Write to the Lydia E. Pinkham Medi- cine Co., Coburn, Ontario, for a free copy of Lydia E. Pinkham's Private Test- Book upon "Allments of Women."

SCOTT'S EMULSION

DODGE BROTHERS' 1924 MODELS

Bodies of All Types Have Been Designed to Give Appearance and Greater Comfort

Since January 1, 1924, Dodge Brothers Motor Cars for sale in Canada have been assembled at the Company's new plant at Walkerville, Ontario. The major chassis units will still be manufactured at the Detroit plant as heretofore with the exacting care characteristic of Dodge Brothers production, and as such will be shipped to the Walkerville factory. All bodies are shipped direct to the Walkerville factory and all enameled, painting and upholstery- ing will be done there.

Canadian hand buffed leather is used in the upholstery and springs and other component material in seats and cushions in purchased and fabricated, to Dodge Brothers' stand- ard and dimensions in Canada. Tires, tops for open models, lighting and all electrical equipment is of Cana- dian manufacture. Dodge Brothers have not simply brought out a com- plete new line of motor cars; they have done something infinite better than that.

They have brought new beauty, new riding ease and new mechanical perfection to the product on which their reputation as builders has been founded.

They have built a better and more desirable line of motor cars—yet basically the identity of their prod- uct remains the same.

The same sturdy engine is under the hood; the same dependable Chas- sis, improved in numerous details, underlies the body.

The rear springs—now underlaid—have been materially lengthened. The wheelbase is longer and the combined result is a notable improve- ment in riding qualities.

Bodies of all types have been de- signed to give improved appearance and greater comfort. Lower, longer, with deeper seats and more leg room, the lines of these new cars are low-swinging and graceful. The inter- iors are comfortable and roomy.

New head-lamps and fenders espe- cially designed by Dodge Brothers conform to the general lines of the car—a long straight hood and owl effect—longer and wider run- ning boards—unusually wide doors—combination stop signal and tail lamp—and instruments attractively mounted on raised panel—are a few of the numerous body innovations common to all types of Dodge Broth- ers Cars.

For full information as to prices write C. Gordon Anslow or S. W. Dimock, Campbellton.

NOTICE OF APPLICATION FOR LEGISLATION

NOTICE is hereby given that ap- plication will be made to the Legis- lative Assembly of the Province of New Brunswick, at the next session thereof, for an Act making provision for the completion of the union of the Presbyterian Church in Canada, the Methodist Church, and the Congre- gational Churches of Canada, to form the United Church of Canada; for the vesting of the general property of the said churches in The United Church of Canada; for the holding, use and administration of the prop- erty of congregations entering the said union, and for the holding of the property of congregations voting not to concur therein; for the trusts relating to general and congregational property; and generally for the carrying of the said union into effect.

IVAN C. RAND, Bank of Nova Scotia Building, Moncton, N. B. On behalf of the Applicants. DATED this 1st day of February, 1924. Feb. 7 4 wks.

How Do You Know You Haven't Neurasthenia?

"Never before in the world's history has there been such an excess of cases of run-down constitutions where the nerves of both men and women alike show the need of an up- building tonic. The condition known as neurasthenia being the most com- mon and most widely known ailment—makes you feel miserable and de- pressed—have the "Blues" and exist- ence is nothing short of misery.

This is the clipping referred to in the following letter from Mr. Moore:

"As a user of your tonic known as Carnol, I wish to state that it is the leader of all tonics. That's the way I speak of it. The clipping enclosed is just the way my wife felt, she could not eat or relish a meal. Now she is always ready for her meals and work is no burden. I have tried all kinds of tonics but none did what Carnol has done. It was recommend- ed to me and it is a pleasure for me to recommend it to others because of what it did for my wife. Anyone who is in need of a tonic or body builder should use Carnol. You can use my recommendation anywhere or any way you like. That's how much faith I have in Carnol. Excuse me writing to you, also accept my thanks for the tonic known as Carnol."— Moore, 18 Koyat St., Toronto. 17-9 Carnol is sold by all good druggists everywhere.

OUT FOR BANDITS

Toronto, Feb. 5.—Chief of Police Dickson is planning to erect observa- tion booths on all main highways at the city limits, manned by two con- stables, with motor cycles, to check the escape of bandits in automobiles. Chief Dickson stated that he is figur- ing on 12 booths. Each booth is to be equipped with a telephone connect- ing with the police signal system, also a shot gun.

A Gentle Hint.

"That's a tactful waitress. Yester- day she said to me as I was leav- ing—'Please remind me tomorrow that you didn't pay your bill today.'"

MOMENTS WE'D LIKE TO LIVE OVER—THE BOX TRAP YOU MADE ALL BY YOURSELF.

SOCIAL & PERSONAL

Mr. W. G. Mott spent Saturday in St. John.

Mrs. Walter Glover spent Wednesday in Campbellton.

Mr. Wm. Patterson of St. John spent the week-end in town.

Miss Ruth Robinson of St. John is the guest of Miss Isabel Wran.

Mrs. J. Jamieson is the guest of her daughter, Mrs. A. I. Tower, Bathurst.

Mr. Geo. C. Bellenger of Montreal is the guest of his daughter, Mrs. A. F. Bisson.

Mr. Morton Irving left on Wednesday's limited for Detroit, where he will take a course at the M. S. Auto School.

A number of the friends of Master Jimmy Crockett tendered him a surprise party at his home on Friday evening last.

Master Gordon Carr was host to a number of friends Tuesday afternoon at a Valentine party, the occasion being his sixth birthday.

The many friends of Mrs. E. B. Reid, of New Richmond, who has been ill at the Soldiers' Memorial Hospital here for the past few days will be pleased to hear that her condition is reported as slightly improved.

The many friends of Mr. R. W. MacKenzie, Travelling Auditor, C. N. R., Campbellton, will be pleased to learn that he is progressing favorably in the Montreal General Hospital where he has gone to undergo treatment.

Mrs. James Evans entertained at a delightful bridge Monday evening. The prize was won by Mrs. Duncan McNutt. The guests were Mrs. Geo. T. Harding, Mrs. D. J. McNutt, Mrs. E. A. Washburn, Mrs. S. H. Lingley, Mrs. Geo. G. McKenzie, Mrs. Allen McEae, and Miss Mildred Richards.

Among those attending the Bathurst and Campbellton Hockey Match on Friday last were Misses Jessie Smith, Gladys Wyers, Phyllis Fitzmaurice, Isabel McBeath, Hope Quinn, Gertrude Devereux, Gladys Duncan, Nora Chandler (Woodstock) Beatrice Miles, Mrs. Fred Thomas, Mrs. Geo. Wilkins and Elizabeth Anslow.

Miss Jean Fitzmaurice was hostess in honor of her guest, Miss Elizabeth Nicholson of Newcastle, at a bridge of four tables Tuesday afternoon. The guests were Miss Elizabeth Nicholson, Edith Lunan, Robert Tittus, Marie Thompson, Gertrude Thompson, Isabel Wran, Ruth Robinson (St. John), Sophie Metzler, Mona McLennan, Alma Wetmore, Jean McDonald, Mrs. W. G. Mott, Mrs. E. P. Mowat, Mrs. Hubert Henderson, Mrs. J. Wesley McDonald, and Mrs. Jas. Sansom.

Mrs. H. A. Carr entertained at a bridge of five tables on Friday evening last. The prize winners were Mrs. Geo. G. McKenzie, Mrs. A. Martineau, and Mrs. S. H. Lingley, consolation. The guests were Mrs. (Dr.) L. G. Pinault, Mrs. Jas. Evans, Mrs. H. H. Lunan, Mrs. W. R. Fitzmaurice, Mrs. S. H. Lingley, Mrs. Geo. G. McKenzie, Mrs. A. Martin, Mrs. A. T. LeBlanc, Mrs. Allen McEae, Mrs. Geo. T. Harding, Mrs. Jas. Morton, Mrs. R. B. Rossborough, Mrs. F. E. Shephard, Mrs. M. M. Mowat, Mrs. Thos. Wran, Mrs. D. J. McNutt, Mrs. D. A. Stewart, Mrs. J. Wesley McDonald and Mrs. Jasper Davidson.

Miss Frances Robinson spent the week-end in New Carlisle.

Mr. and Mrs. Howard Lake have returned to their home in Bathurst.

Mrs. Wm. Richards has returned from a trip to Toronto.

Mr. George Wallace is visiting friends in Ottawa.

The friends of Mrs. R. D. McNair will be sorry to learn that she is confined to her home with injuries received by a fall.

Mr. and Mrs. J. J. Bernier are receiving congratulations on the arrival of a son, Charles Murray.

Mrs. D. A. Lawlor of Matapedia spent Tuesday in Cross Point, the guest of Mrs. M. E. Murray.

The many friends of Mrs. Harry Foster are pleased to see her out again after her recent illness.

Mrs. Janet Scott left on last Friday's limited on an extended visit to Niagara Falls, N. Y., and other cities.

Congratulations are being extended to Mr. and M. J. Renault on the arrival of a baby boy at the Hotel Dieu Hospital on Saturday, Feb. 9th.

The friends and relatives of Clarence Glover will regret to hear that he is in the hospital with blood poison in his hand.

Mr. F. J. McCarlyle left on Monday's limited for St. John, where he will attend the annual meeting of the N. B. Telephone Workers Association.

Mr. H. B. Hadley for the past year and a half Accountant at the Royal Bank of Canada here, has been transferred to the General Manager Department of Montreal.

Mrs. Wm. R. Milligan was hostess at the tea hour on Saturday afternoon to about one hundred guests.

Mrs. Milligan received her guests in the drawing-room, which was decorated beautifully with daffodils. She was assisted in receiving by Miss Mary F. Bliss. In the dining-room Mrs. R. B. Rossborough presided over the dainty tea table which had a central decoration amply forming a heart and encircling a silver candelabra, holding yellow candles. Daffodils were also artistically arranged among the china and silver.

Mrs. F. E. Shephard and Mrs. J. J. MacPherson assisted in serving. Mr. W. H. Miller replenished and Miss Maxine Milligan opened the door. During the afternoon Mrs. Fred Campbell played pleasing piano selections.

Potato Inspection and Certification Standard For

These while not greatly varying from those previously adopted make provision for the combination of Leaf Roll, Curly Dwarf, Crinkle, Spindling, Sprout and Streak under the head of Leaf Roll with a combined tolerance of 6 per cent. The proposed field inspection standard is as follows:

Black Leg	Per cent
Leaf Roll (Curly Dwarf)	2
Mosaic	2
Wilt	2
Providing that in no case a total of more than 6 per cent be allowed.	
The following is the standard proposed for tuber inspection:	
Bacterial Rot or Wilt	Per cent
Late Blight and Dry Rot	2
Common Scab and Rhizoctonia	2
Severe	2
Powdery Scab	1
Providing that in no case shall a total of more than 10 per cent be allowed. Not more than 2 per cent of the tubers shall be of type or damaged by rot, cuts, cracks, bruises, insect injury, etc.	

ASKING EXTENSION OF SMELT SEASON

An Extension of 10 Days Desired by the Maritime Fishermen

Ottawa, Feb. 12.—Numerous requests have been received by the Department of Marine and Fisheries for the extension of the smelt fishing season, which ends on Feb. 15th. An extension of from 10 to 15 days is being asked for. The requests come particularly from Nova Scotia, Prince Edward Island, but some have come from the North Shore of New Brunswick. There have also been some protests received against an extension, chiefly from fish dealers. The Department is awaiting further information before taking action.

Religious fishermen have engaged less than a month's fishing this year, and certainly should have an extension to enable them to earn enough to make a fair winter's wage.

SHOT WHILE MAKING CALL ON NEIGHBOR

Montreal, Feb. 12.—Albert Turcotte, 24, was shot through the lungs and probably fatally wounded on Saturday at St. Andre d'Avellan, 89 miles from Montreal. He was unable to say who shot him. He was calling at the house of a neighbor when a rifle shot rang out and he fell wounded.

LOCALS AGAIN DEFEATED BY CHATHAM LEAGUE TEAM

(Continued from page 1)

time game. He is always around when wanted.

McMahon and Duncan are the stars for Chatham. Duncan carried down and shot from in front of net but McKenzie saved wonderfully.

Wilk and Lavoilet carried down but Lavoilet lost the shot. Mathews carried down and passed to Lavoilet who missed. Hard luck. McMahon carried back but trips and lost to Wilk who lost to Duncan who shot to Mathews who shot and hit the goal post. That was the hardest luck of the game. Play then kept around Chatham end till the goal.

Third Period.

This was more like the hockey played a week ago. Both teams were playing under a full head of steam. Lavoilet shoots two hard ones at Carvel who saved. Lavoilet one minute for tripping McMahon. Wilk takes the puck from McMahon and shot at Carvel who saved. The local forwards work hard and keep the puck down around Chatham goal. Lavoilet passed back to Mott who lost to Mills. Mills carried down and passed to McMahon who missed the shot.

McLean carried down and lost to Duncan. Duncan passed to McMahon who carried down in his usual speedy manner and shot—but McKenzie saved a hard one. McLean
