Rennes, Aug. 3.-The witnesses summoned in behalf of Capt. Alfred Dreyfus include Capt. Lebrun-Renault, to whom the prisoner is alleged to have made a confession which has since been denied; Senator Scheurer-Kestner, formerly vice-president of the senate; M. Trarieux, formerly minister of justice; M. Bourgeois, formerly premier and minister of the interior; Maj. Hartmann, of the 22nd Artillery; Capt. Freystaetter, Maj. Forzinetti, and other officers and journalists. It is also said MM. Labori and Demange will invite the court martial to examine by commission all persons alleged by Quesnay de Beaurepaire to be able to prove the guilt of Dreyfus in order

to throw the fullest light on the af-The Pall Mall Gazette says that the choice of Salle de la Manutention at Rennes as the place of holding the Dreyfus court martial is a veritable calamity. The ceiling of the room is low, being only 8½ feet high, and nobody except the members of the court and the witnesses will be able to hear a word. The journalists will be ranged in sixteen rows behind the witnesses, and owing to the execrable acoustics of the hall, only those in the first row or two can hope to follow the proceedings, making it practically impossible to report the trial. There is still time, the Gazette says, to change the place of trial to the Lycee, which is close to the prison, and handy in other respects, as well as being commodious and comfortable, and it is ped the authorities will listen to the

prayers of the press for this change. A CONTINENTAL KICK. M. Delcasse, minister, of foreign affairs, has gone to St. Petersburg to return the visit of Count Muravieff. It is reported that Delcasse proposes to arrange the details of the czar's visit to the Paris Exhibition of 1900, and newspapers intimate that he may raise the question of continental action in the event of Great Britain de-

claring war against the Transvaal.

The Republique Francaise renews the attack on the Franco-American treaty, declaring reductions obtained on French products are insignificant, while France, it adds, has granted considerable concessions, entailing large industrial sacrifices, especially,

for example, on machinery. There is no truth in the statement published by a New York newspaper today that strained relations exist between Russia and France owing to President Loubet having failed to telegraph to the czar his condolences on the death of the czarewitch. The president did telegraph expressions of sympathy to the czar upon the occasion referred to, and also sent a wreath to be deposited on the tomb of

the czarewitch. Various rumors are in circulation regarding the reason of M. Delcasse's visit to St. Petersburg. One has it that the foreign minister's visit is connected with rapprochement between France and Germany and the declining health of the Austrian emperor.
BELGIANS ANXIOUS.

London, Aug. 3.—Premier Van den Peereboom and the Belgian cabinet resigned because of the rejection in committee of the government's electoral bills. With the fall of Premier Van den Peereboom the Ultramontane party has been overthrown, and the turn has come for the Moderate Catholics, who probably will soon be superseded by a

semi-Liberal, semi-Socialist cabinet. Belgium is going to try proportional representation, so that parliament may be the absolute mirror of public opin-ion. At least, such is the platform of the new cabinet, which M. de Smet de

Naeyer is called on to form. The question is whether the present parliament provides a sufficient majority for passing such a reform bill. There is a regular split on the question in the Clerical party, many of whom will not hear of the representation of minorities. There is also a

GEN. PAREJA'S DEFENSE. Madrid, Aug. 3.-Counsel for Gen. Pareja received telegrams at today's sitting of the courtmartial, that were exchanged with the commander in chief, showing that Guantananio had only capitulated on orders from a superior officer, and that the town was without either provision or means of defense. The other officers advanced a similar defense. The judgment of the

court-martial was deferred. WILLIE MAY WED.

The decision is founded upon the fact that no subsequent order-in-council was passed affirming the action of the provincial secretary in entering into the contract. Le Indorses the Government's Railway Subsidies,

Sefore Leaving for England-The Welland Canal Expenditure.

Ottawa, Aug. 3.—Between the views the Conservative press and the Conervative leaders on an important question there is a marked difference. Since the government announced its inten-tion of making ample provision for bonuses for new railways the Conservative press, or a large section thereof, has done all that in it lay to persuade the country that the moneys proposed to be spent would be wasted utterly. Yesterday the leader of the opposition indersed as strongly as any Liberal could indorse the government's attitude in respect of railway subsidies. In ing season. Sir Charles' words of commendation, there was not a hesitant syllable. It is true that he repeated the charge that the government had followed the Conservative policy in this as in other respects, but he did not state that on this account he deprecated the government's judgment in the premises. Sir Charles said he did not intend to offer any opposition to railway subsidies, although he felt that the government had made a serious mistake in not taking steps to secure railway communication with Hudson Bay. He approved of the bonus to Ontario and Rainy River Railway. He was also glad to see the grant to the Quebec bridge, but reiterated his opinion that the govern-ment had made a serious blunder in not using the bridge route and North Shore Radway from Quebec to Mon-treal for the I. C. R. extension. Sir Wilfrid Laurier maintained that

CANAL IMPROVEMENTS. The finance minister, on the item of \$150,000 to construct an extension to the breakwater at the entrance to the Welland Canal at Port Colborne, said the estimated cost of the entire breakwater, when completed, would be \$560,000; but if this work could be done at the same time as the dredging was being done, some \$88,000 could be

Dr. Montague said that the vote asked for was a small one. He had seen the report of the engineers on the whole scheme, and they estimated the total cost at \$5,200,000. Part of the scheme was to make Port Colborne a port of refuge. He thought the house should carefully consider this scheme before they undertook a work involving this large expenditure.

Mr. Fielding said the government was submitting no such scheme. It was true a report had been made such as the one to which Mr. Montague had referred, but the government had not adopted that plan. The vote was asked for an extension to the outer end

of the present breakwater.

Mr. Bennett said it was rumored that the government proposed to operate a grain route to the seaboard over the l. C. R. and the Ottawa, Amprior and Parry Sound Railway. This work of deepening the all-water route via the great lakes and St. Lawrence canals would in his opinion kill Mr. Booth's enterprise. It was time, he thought, that the government gave the house some indication as to what its policy was on this transportation problem.

Mr. Fielding said there was no large scheme in the minds of the members of the government. work was proposed to be done than what he had already stated. There was no intention of erecting elevators at Port Colborne.

Haggart said the construction of the breakwater would be of no use, unless \$250,000 more was expended in dredging inside to make a harbor of

Mr. Fielding said that it was not the intention to do any dredging inside the breakwater. It was simply to protect vessels entering the canal.

After a lengthy discussion, Mr.Fielding declined to promise that the expenditure would not be made part of the larger scheme; but engaged that if the five-million plan were ultimately adopted its merits would be passed by the house.

Difficulty Regarding the Jacques Cartier Bank Not Serious.

Ottawa, Aug. 3.-There were no new developments yesterday in the finan-cial trouble of La Banque Jacques Cartier, in so far as the local branch of the institution was concerned. With the assurance given out, and considering the securities possessed by the bank, as well as the exceptional circumstances under which it was compelled to suspend, the depositors feel confident that the difficulty is only of a temporary character. Mr. Arthur Charbonneau, the local manager, has returned from Montreal. He states that matters have calmed down considerably in that city, and the bank expects very shortly to reopen its loors and be prepared to meet all of but the Nationalist members, encour-

its obligations. Among the depositors there is a feeling of easiness. Business is being carried on as usual, except the paying out of money. The manager of La Banque Nationale states that there has been no run on his agency, but that several accounts will be transferred to this bank owing to the suspension of the Ville Marie and Jacques Cartier Banks.

SEVENTY-FIVE THOUSAND MIN-ERS REPRESENTED.

Indianapolis, Ind., Aug. 3.-There met in this city yesterday the executive board of the United Mine Workers of America. The board represents all the mining districts of the United States, and within its jurisdiction are over 75,-000 union miners. Each member of the board gave a report as to the progress the unions are making toward increas-ing their strength in the various districts. The national body has several strikes on hand, and these difficulties were also talked over. There are 600 miners striking in the Indiana fields, and nearly as many in the central part of Pennsylvania. But the largest strike now on is in the Indian Territory district, where there are about 8,000 men out. Members of the board say the national organization has stood, and

will continue to stand, by all the strikers of the country. THE OTTAWA IMPROVEMENTS.

The minister of finance proposed the board will not take up the question of miners' wages, and as this is determined every year at a conference be-

COLLIERS ON STRIKE. Wilkesbarre, Pa., Aug. 3.—The employes of five big collieries in the anthracite region have gone on strike. The main grievance is alleged to be excessive dockage. It is estimated that mearly 2,500 men are idle. At the Nan-ticoke colliery of the Susquehanna Coal Company, 1,000 have stopped work, and at the Keystone, at Mill Creek, 500 are out. The latter have several grievances. At the Babylon mine at Duryea 500 men are on strike for an increase of wages, and the same humber stopped work yesterday at the Exeter shaft at West Hymston. Several other collieries are threatened with shutting down a result of dissatisfaction among their employes.

IN CLEVELAND.

Cleveland, Aug. 3.-Mr. Everett states that he is receiving applications from some of the strikers for reinstatement, and that a number of union men have already been put to work. He was asked if he would receive a committee of the strikers, should one call upon him. "The company has always said," replied the Big Consolidated president, "that it is willing to receive a committee of its employes, but the strikers are no longer in the employ of the company." The strike leaders, on the other hand insist that not a single desertion has occurred, and that their ranks remain unbroken. There is no indication, so far, of any

check in the boycott movement.

A striking conductor has been arrested on suspicion of implication in the wrecking of cars with dynamite.

G. T. P. TRACKMEN. Toronto, Aug. 3 .- The executive of the G. T. R. trackmen have received some replies to the circular they sent out to the different unions asking for advice as to the action of the management in raising the wages of a part but not of the whole of the men, but not enough replies to come to any conclusion yet.

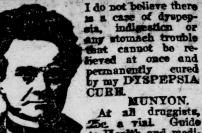

TWO HOUSES

Friction Between the Lords and the Commons.

Novel Situation Arises-Conservatives Representing the Government Opposing the Upper House.

London, Aug. 3 .- The dying embers of parliamentary debate were fanned to a flame yesterday by the friction between the House of Lords and the House of Commons. We have the spectacle now of Conservatives representing the government taking an attitude in opposition to the lords. About a month ago the commons passed a private bill for bringing five townships into the Dublin corporation, the object being to make these suburban townships, which live upon the life of Dublin, bear a proper share of taxation. On that occasion Mr. Healy made his famous speech, in which he compared the suburbs to warts which drop off a corpse, thus shocking the taste of parliament, but at the same time carrying so much conviction that by his speech alone he won the day for the Dublin corporation.

AMENDED BY THE LORDS. The lords have amended the bill so as to include only one suburban township. When the bill came back to the commons yesterday Mr. Healy proposed to reject the amendment. Mr. Carson, Conservative member for Dublin, speaking on the government side, begged the house not to wreck the bill altogether by rejecting the amendment,

aged by Mr. Healy's eloquence, refused to compromise. They demanded the whole bill or nothing. The result of the amendment was that the lords' amendand Many Unionists voted with the Nationalists.

CONSERVATIVES AGAINST UPPER HOUSE. It is only private legislation-not a

government measure—but its import-ance is admitted, and the action of the individual members of the government give great weight to the issue between the lords and commons. For once members of the Conserva-

tive Government are found opposing the lords on an important question. The lords evidently mean to fight, for an urgent whip was sent out to keep the Irish peers in London. The whole opposition to the bill

comes from wealthy Dublin men, who have made fortunes in the city, and now live in the suburbs. They object in sharing in the city taxation. This class naturally has influence in the House of Lords. The struggle, therefore, lies between self-interest in the House of Lords and justice in the commons, with the Conservative Government distinctly opposed to the

▲ Cemetery Devastated and Its Corpses Unearthed-Two Men Killed by Lightning.

New York, Aug. 3.-The damage wrought by the tornado in Elizabeth, N. J., is estimated at \$100,000. The townspeople are still amazed that no one was killed or badly hurt. \$300,000 DAMAGE.

The loss by last night's fire in the power house and car sheds at Newark, N. J., the property of the South Orange division of the North Jersey Railway Company, is now estimated at \$300,000. Nearly 80 cars were destroyed, 34 of which were large box cars, and 28 open cars, while the others were the ordinary small trolley cars. Two palace cars, owned by the directors, which cost \$5,000 each, were also destroyed.

There is little doubt that the fire was caused by lightning, which struck that portion of the building where oils, paints, etc., were stored.

CEMETERY DEVASTATED. The graveyard of the historic Presbyterian Church in Elizabeth, N. J., presented a sad appearance today after the severe storm of yesterday. Here were buried the bones of revolutionary heroes, and over them waved the boughs of oaks, some of them nearly 200 years old. These trees were uprooted by the wind, and as they fell their roots, which had extended into the grayes, dragged to the surface the graves, dragged to the surface the bones of the dead. The heavy rain which followed the windstorm washed them clean, and they lay EXPOSED IN GREWSOME CONFU-

SION. The sexton of the church and his assistants have begun to bury them. New graves were dug for some, while were placed temporarily in vaults, the owners of which had hastened to grant the necessary permission in person or by telegraph from their summer homes or from resorts, where they had read of the storm and of its effects. The damage done to buildings in the town is estimated at

Mr. Blair Speaks on the Railway Resolutions.

Report on the Manitoba Election Cases Presented.

Lively Scenes at the Privileges and Elections Committee Meeting-Col. Sam Hughes' Impudence Resented by Mr. Britton-A Fistic Encounter Narrowly Averted.

[Special to The Advertiser per C. P. R.] Ottawa, Aug. 3.-Mr. Blair made a speech on the railway resolutions in the house today, showing that the amount ment was rejected by a large majority. house today, showing that the amount several members of the government to be voted was not out of proportion to what was generally given by previous governments, and that there was nothing in the resolutions inconsistent with the Liberal policy. He spoke of the new regulations, and said that the roads to be subsidized west would form part of a great transcontinental high-

MANITOBA ELECTION CASES.

There was a meeting of the public There was a meeting of the public accounts committee today to close up its business for the session. Mr. Cowan (Essex) presented a report, which he read and moved. It first dealt with Manitoba election frauds cases, and said that the money used in probing these was not only justified, but well expended. In the case of Sam Hughes, M.P., against Mr. McLaughlin, Lindsay, it was said that the charges Lindsay, it was said that the charges were not well founded. As to the Christie-Casgrain case, the report said that Mr. Christie failed to prove his charges. It admitted that Mr. Casgrain had made mistakes but that he was had made mistakes, but that he was amply punished for the errors he had Referring to the Domville case, the report said that the evidence showed conclusively that Mr. Domville had done nothing to injure his reputation as an officer or a gentleman or member

IMPUDENCE RESENTED. Matters reached a climax at the privileges and elections committee today, when two members of parliament

came to blows.

Maitland Whitley was under examination at the time. He was being cross-examined by Mr. Britton, who asked him if he was a married man and kept a house.
"No; I am single," was the reply of

witness. "How many children have you got?" asked Mr. Sam Hughes.
Mr. Britton retorted that he had no right to ask such a question as he was not a member of the committee, but with his usual impudence he had done

Mr. Hughes replied that Mr. Britton had no right to address him. An appeal was made to the chair by Mr. Britton. The chairman reminded Col. Hughes

that he was not a member of the com-mittee. He could only address it on being asked to do so. Mr. Hughes said that Mr. Britton

was impudent. Mr. Britton retorted that he (Hughes) was a man of great impudence, a perfect scoundrel. A KNOCK-OUT IMMINENT.

Col. Hughes made a dash at Mr. Britcolonel drew back to strike and Mr. Britton squared to receive the blow, saying, "I dare you to do it." Mr. Sifton and other members of the committee rushed between the two

and prevented a fight. Mr. Britton wanted the chairman to take some action towards excluding Col. Hughes, but Mr. Fortin said there was nothing before the committee, and that ended it.

It was decided to send for thirteen more witnesses by telegraph. A few witnesses were examined, but nothing new elicited.

Danger Lurks in Drinking Water.

Bad Water One of the Most Fertile Sources of Diarrhea, Dysentery and Cholera Morbus.

At this time of the year, when the wells are low and the water in many sections of the country bad, there is always great danger of diarrhea, dysentery, cholera morbus, cholera infantum, and all kinds of bowel dis-

eases. Even the water supplied to towns and cities by a system of waterworks, shows by chemical and microscopic analysis to contain more disease germs and impurities now than at any other

season. People who suspect the water they drink to be bad, can prevent disease by adding about 15 drops of Dr. Fowler's Extract of Wild Strawberry to every glass.

It does not impart any perceptible taste to the water, or render it unpal-

It does, however, destroy those germs and microbes which produce the severest and most dangerous types of bowel

Those who have neglected this simple precaution and are suffering from diarrhea, dysentery, cholera morbus, or any bowel trouble through drinking impure water, will find this remedy give them prompt relief from pain, and effect a speedy cure.

There is just one word of caution

we would give. See that the full name Dr. Fowler's Extract of Wild Straw. berry, is on every bottle. Worms cause feverishness, moaning

and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your drug-gist has none in stock, get him to procure it for you. It usually takes about five years to

tan the skin of an elephant. Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera and all summer complaints, seasickness, etc. It promptly gives relief, and never fails to effect a positive cure. BASEBALL.

The double-header at Tecumseh Park yesterday afternoon resulted disastrously for the Maple Leafs. In the first game they barely escaped a shutout, and were downed after a hard fight for the second game. Manager Black tried three pitchers, and finally got into the game himself in his efforts to break even with the home team. Umpire Mckeever made his first

apearance here, and did good work. Damoth was hit hard by the Londons Four times the ball was sent over the bicycle track near the right or left foul line. On three of these occasions the London batter reached third base, pleted the circuit. Seiver pitched a Mohler a pass and hit Reed. Jones was great game. Hamilton, Ont., Aug. 3.—The Syracuse team of the Eastern League, and the Hamiltons, of the Canadian League, played an exhibition game of ball here yesterday. It was a good contest, and was won by Syracuse by 6 to 5 in ten innings. McCann, of the Hamiltons, innings. shut the Stars out for five innings, and then Bradford went in to pitch for Hamilton. Bradford has been off for a month with a sore hand, and was a little wild. However, he had the game little wild. However, he had the game well in hand, two men being out in the ninth, and two strikes, with no balls, being called on Kimble. Then Bradford hit Kimble with a pitched ball, and the next man made a home run and tied the score. The Stars won in the tenth by hitting. Score:

THE WORLD'S MEET-WHY ZIM-MERMAN AND BALD WILL NOT BE THERE.

Montreal, Aug. 3.—The "match race" at Valisburg, N. Y., on Sunday, which turned out to be one of the most barefaced fakes ever perpetrated on a confiding public, was, it will be remembered, between E. C. Bald and Arthur Zimmerman. These are not the style of racers and racing that is wanted at the world's meet in Montreal from Aug. 7 to 12. Fakes, counterfeits and outlaws are let go by the board, notwithstanding the dire threats made in a few newspapers by agents of the moribund N. C. A. In a recent lengthy epistle sent out by Mr. Gerrie, the question was asked, "How the world's cycling championship could be called such without such men as Bald and Zimmer-

These gentlemen have answered the question themselves. The "guaranteed purse" of \$1,000 and gate receipts was about as big a bluff previous to a throw-down that has been done in cycling circles in many moons. If the C. W. A. or the board of control of the world's meet were to even accept the entries of these men after the melancholy and stupid exhibition of Sunday, they would be making not only a grave mistake, but would be unworthy the confidence of the public. Zimmerman was palpably off color, and either

The Sweating System.

The sweating system was under dis-Cussion in the House of Commons on Tuesday. The contract for the militia clothing had been awarded to Workman & Company upon the firm signing the anti-sweating clause and paying the scale of wages asked by organized labor. On this condition the company were paid \$2,000 more than a competing firm who would not conform to the anti-sweating proviso. The Workman Company have all along lived up to the terms of the contract, but recently received a rush order which they could not fill in time without subletting the work in a manner not contemplated in their agreement. The Minister of Militia and Mr. Mulock explained these exceptional circumstances to Mr. Bergeron, who had raised the point. From the tenor of the remarks made by Sir Charles Tupper, Mr. Foster, Dr. Montague and Mr. Bergeron, one would infer that they consider the anti-sweating clause undesirable. Mr. Mulock and Dr. Borden pointed out that the clause had been inserted at the earnest request of the representatives of labor, and was a guarantee that those employed on the militia clothing contract would be paid fair wages, with reasonable hours of labor and proper sanitary surroundings. Mr. Mulock considered it worth paying \$2,000 more, in order to secure these conditions for the garment

It is probable that the members who opposed the anti-sweating clause have not given the subject due attention. Some time ago Mr. King, a graduate of Toronto University, who has made a special study of these questions, was appointed by the Government to investigate the sweating system in Canada. He published a comprehensive report, showing a deplorable state of plied from the beginning Canada affairs, especially in Montreal and vicinity, where garment makers worked under conditions which were a disgrace to civilization and humanity. Much of the evil was created by subcontracting, which is one of the practices prohibited by the anti-sweating clause in the Government contracts. This clause is devised, as far as possible to eliminate slavery methods from public work. Those who attack It are doing a bad turn for the work-

workers.

The Bank Flurry.

Mr. Fielding gives the assurance that the Government are alive to the unfortunate bank situation in Montreal, and are disposed to heed its lessons. The Canadian banking system, In its stability and elasticity, is one of the best in the world, and is frequently held up as a pattern by the American banking interests; but there should be some provision against the recurrence of such disturbances as Montreal has suffered this week. The saspension of the Banque Ville Marie, through the defalcations of employes, threw an utterly unjustifiable suspicion on other French-Canadian banks. They were besieged by depositors, clamoring for their money. The Jacques Cartier Bank, a perfectly solvent institution, could not meet the run, and suspended temporarily, infficting a severe hardship on scores of small traders, who will be unable to finance their business in the meantime. The Banque d'Hochelaga managed to stem the tide, having plenty of funds available. By employing extra paying tellers, and piling up gold and bills in full view of the excited depositors, confidence was partially restored. The absurdity of the panic is evident by a glance at the monthly statement which shows the assets of the Hochelaga Bank to be \$7,884,472, gainst deposits on demand of \$967,016 and deposits on notice of \$3,850,885. La Banque Nationale, equally strong, was affected, though to a much less degree. The stock market was violentagitated, and some of the best securities fell several points.

One of the most admirable features the Canadian Banking Act is the bestute security of the note circulaon. Every Canadian bank note is good as gold, even if the bank of ie becomes a wreck. Every chartd bank deposits with the Governa sum in cash, equal to 5 per of its note circulation; and out this fund the notes of any insolvent ank are redeemable. It should be

banking interests to protect any chartered bank of unquestioned solvency from the effects of a groundless panic. Banks usually volunteer this assistance, but it might be made compulsory. Such an assurance would, of course, operate to prevent a run on any solvent bank. The Government will, at the next session, introduce some banking legislation, which may cover the points developed by the Montreal

The Public's Inning.

Since Confederation the people of the Dominion have spent \$155,627,346 in railway subsidies. Not a cent of this has been paid back, except in so far as the subsidized railways have aided in developing the country and in promoting the general well-being. This system, pursued for over thirty years, the Dominion Government, has extravagant and wasteful to the of recklessness. The Dominion not only spent over one hundred and fifty millions for the private advantage of promoters and charter mongers (with incidental public advantage), but is today paying a heavy annual tax in the shape of interest on the money borrowed to pay these railsubsidies. Nor is this all. The Government, for the carriage of mails, militia, and the supplies, have annually paid out large sums to these railways which have received public aid. The amount so disbursed last year was

The conditions attached to the railway subsidies this year are so simple and yet mark so radical a change in the public interest, that it is surprising they were never mooted before. All these years the Government have been paying the raflways full rates for services which the railways should, pro tanto, render the Government for past favors. By the new regulations, the railway subsidies will be no longer free gifts. The railways, in return, will carry the mails, the militia, and the public supplies free of charge to the extent of three per cent of the amount of the subsidies granted them this year. The Government can borrow money at 2% per cent, thus turning subsidies over at a profit. principle been apwould today be millions in pocket.

American Competition.

[British Journal of Commerce.] Much has been heard of late in reference to the competition which British manufacturers are meeting at the hands of the United States. It has een maintained, and not entirely without foundation, that the Americans were taking much of our trade and were likely to get hold of it still more. But it was not a lasting phase, and it has already begun to pass away.

Bachelor Peers. Lord Kitchener is the fourth bachelor who has been raised to the peerage in recent years. Sir Henry James, now Lord James of Hereford, Henry Matthews, now Viscount Llandaff, and David Plunket, now Lord Rathmore, are all unmarried. Previously to the peerage of Lord James of Hereford and Lord Llandaff in 1892, no bachelor has been created a peer for upward of twelve years—since May, 1880—when Montague Corry, Lord Beaconsfield's private secretary, was raised to the peerage as Lord Rowton,

Seldon's Ideal Newspaper. [Literature.]

The conclusion of the whole matter is, therefore, not, of course, that Christianity shall be unrepresented on the press, but rather that the advocates of a Christian daily newspaper have so far failed to prove that such a newspaper (if it is purported to be anything more than the organ of a few faddists) would differ in any essential particular from the best of the daily newspapers already in existence. Christianity of Mr. Sheldon, which includes abstinence from tobacco, and the Christianity of M. Drumont, which is another name for anti-Semitism, may not be mirrored in the editorial columns of the great English dailies nor conspicuous save by their absence in our own newspapers here in the United States. But, if broader views of the Christian religion be taken, then many of our leading metropolitan and provincial journals may announce themselves as Christian daily newspapers tomorrow, and defy the world to prove the designation a misnomer.

Co-operative Communities.

[Pittsburg Dispatch.] If the Ruskin experience teaches anything it is that co-operative communities to be successful must first obtain a location suitable to production instead of buying land so barren that agriculture had avoided it; next, that any enterprise requires hard work in-stead of permitting a large portion of

possible to apply this principle, in some form, to such a contingency as that in Montreal, by requiring all the Ruskin case was a division among the members, and every one knows that a division of the sort that goes to law, in either a corporation or partnership, is likely to have the same result.

Of co-operative communities as a social solution neither success nor failure in a single case proves anything. Or rather we should say that the successes prove that they are not true solutions. That co-operation for certain purposes, leaving the individual free to work out his own life, may be of great value no one can deny. But any man who impartially studies the characteristics produced by a lifetime as a common member of such a communtty as that of Noyes or Henrici will recognize that there is more chance for the development of real character in the hurly-burly of ordinary life.

Is Windsor-700 Marriages in One Year-Rev. James Livingstone as the Champion Knot-Tier.

Windsor, Aug. 3.-The report of Registrar Lusted shows that nearly 700 marriages were performed in Windsor during the year ending July 15. This number is out of all proportion to the city's population. The fact that many people from Michigan and adjoining states are married in Windsor is responsible for the big list. About 75 per cent of the marriages during the period covered by the registrar's report were those of people living out-

side of the city.

Detroit furnishes by far the major portion of the "foreign trade." Marriage licenses are not published in Ontario, and two souls across the river, anxious to be converted into one without the union gaining undesired publicity, find an easy and happy solu-tion of the problem by crossing to Windsor and having their hearts handcuffed there. The law says that applicants for licenses from outside the county must subscribe to a declaration that the marriage is not performed away from their homes to avoid publicity, but the local issuers save prospective grooms many a twinge of conscience by conveniently omitting this clause. To insert the clause in the affidavit would ruin business, one is-

suer explains. But all people from acro's the river who are married in Windsor are not attracted by the secrecy it affords. Being married in "Canady" has the charm of novelty for the Michigan rural couple, and the license issuer looks for a big day's business whenever country excursions are run to

Windsor's big list of marriages is a soft thing for the local clergymen, who clean up a nice little pile in fees every year. Rev. James Livingstone, Windsor Avenue Methodist Church, is, perhaps, the premier marrying minister in Windsor. During the past year he tied the nuptial knot 175 times, and has performed as many as a half dozen marriages in one day. Rev. D. H. Hind, pastor of St. John's Church, Sandwich, has also a big list to his credit. The registrar's report shows that he has performed 108 marriages during the last half year, but as the bulk of the marriages take place

CRICKET.

AUSTRALIANS WON. London, Aug. 2.-The Marylebone cricket club, in the match with the Australian eieven, were all out today in their second inning for 151 runs. In their first inning the Marylebone players made 258 runs. The Australians, in their first inning, made 319 runs, and won by nine wickets.

AQUATIC.

WILLIAM'S BOAT WINS AGAIN. Cowes, Aug. 3 .- Yesterday was the second day's racing in the regatta of the Royal Yacht Squadron. The prize competed for was \$500, and the course sailed over was the Queen's cup course. A grand start was made, the yachts crossing the line in the following order: Meteor, Britannia, Bona, Satanita and Rainbow. Britannia drew ahead, but on returning from the westward Meteor led, with Bona following and Britannia close up. Meteor won. She finished the first round at 1:25:05. Bona finished at 1:55:01. Britannia gave up the race. Kiel, Aug. 3 .- Emperor William, on the receipt of the news of the victory of his yacht, Meteor, for the Queen's cup, off the Isle of Wight, communicated the information to the warships by flashlight from the imperial yacht

Hohenzollern. THE SHAMROCK. Greenock, Aug. 3.—Capt. Hamilton, of the Allan Line, will navigate the cup challenger Shamrock to New York. Shamrock started from here with the flood tide. Her departure was witness-

ed by thousands of persons lining tie GLENCAIRN WINS.

Montreal, Aug. 3 .- The fourth of the series of races for the Seawanhaka cup for small boats, which was sailed on Lake St. Louis yesterday afternoon, was won by the Canadian defender, Glencairn III., sailed by Duggan, which defeated the American challenger, Constance, sailed by Crane, over a triangular course of four miles, sailed three times over. The Glencairn finished 5 minutes and 39 seconds ahead of the Constance. The breeze was very variable, and at one time a storm broke on the lake and the rain poured down. Duggan was behind a couple of seconds at the start, but quickly overhauled the Constance, and rounded the first buoy 1 minute and 50 seconds ahead. From this to the end he had the race practically won, maintaining his lead at each round of the course.

Out of the four roses sailed Constance. Out of the four races sailed Constance won two and Glencairn two, so that today's return will decide the fate of the cup. If Duggan wins it will stay in the possession of the Royal St. Lawrence Club, but if Crane wins it will be returned to the Seawanhaka-Corinthian Yacht Club, of New York, the original owners.

tary officers in Germany and Austria-Hungary have often caused surprise to strangers. To native civilians the sentiments evoked are not confined to surprise, for the results are some-times more than disagreeable, and complaint to the authorities does not always elicit satisfaction. Occasion-ally downright insult has provoked a quarrel in which perhaps the civilian has found himself unequally matched with a trained swordsman, and within the last few years there have been encounters that have resulted fatally. Doubtless the braggart and bully who takes pleasure in insulting others, is generally able to pick out a victim from the class least at for ing lasting disgrace on the name of the non-combatant. Probably it is only of the most flagrant cases of

monplace for repetition. Sometimes the unexpected happens in Germany and Austria-Hungary as well as in France, and it is of the Bateman's Point, R. I., Aug. 2.—The America's cup defender, Columbia, and Defender started yesterday in a trial backers that Hungarian society has backers that Hungarian society has for some time past been conversing. At Komoran, on his way to Vienna, when the rest had backer that Hungarian society has for some time past been conversing. officer who sat at a table with some ladies ordered him roughly to remove his hat. The young man did not think it necessary under the circumstances—having only called for a mo-ment. The officer insisted, threatening violence, and suited action to word. Thereupon he received a smart cuff in the ear that made him stagger. A second officer drew his sword, but the traveler defended himself suc-cessfully with a chair. He then returned to the railway carriage, but soon came back with an older gentleman and the pair handed their cards to the aggressors. They proved to be Baron Fiath, a man of high social and official rank, and his son, aged 20. A double duel with sabers was arranged and it was with very real sympathy that the public learned the issuethe civilians having escaped unhurt, while one of the bullies was badly wounded. The press stigmatized the cowardice of the second aggressor in drawing his sword upon an unarmed man. The position of Baron Fiath has given an importance to the incident which, had the assailed civilians been of humbler rank, would perhaps have passed with little notice. It is to be hoped that the military authorities may make it the starting point of a much needed reform. It is not in France only that De Gallifets are needed.

HAMILTON'S SEED STORE

IS THE PLACE TO BUY BINDER TWINE.

Local Market.

Thursday, Aug. 3. The attendance this morning was fair. Market Clerk Wilson, acting on the instructions he received last night from No. 3 committee, compelled the transient fruit dealers to keep within their confines, west of the produce market. A few berries and currants were offered, but they have almost wholly given way to apples and peaches. Among the debutantes in the vegetable row were the cauliflower and vegetable marrow. Green corn is rapidly coming in. Butter is still on the incline, but the advance was slight. Eggs and meat were unchanged. The prices for fruit were: Huckleberries, per basket, 65c to 90c; red raspberries, per box, 6c to 8c; thimble berries, 6c to 7c; black currants scarce, 60c to a basket; gooseberries, per quart, 2c to 4c; peaches, per basket, 35c to 60c; apples, 60c to 90c a bushel; watermelons, 20c to 30c each; musk melons, 10c to 20c each.

CHICAGO, Aug. 2.- A rally in foreign markets and estimates of a considerably smaller spring wheat crop than a year ago stopped the deckine in wheat today, and sent prices to a point %c to %c above yesterday's close. Coarse grains were also strong. Corn closed %c higher, and oats %c higher. Provisions advanced 2½c to 5c. Wheat was firm at the opening. Damaging hail and rain storms were reported all over the Northwest, while complaints of drought also came in from sections of the wheat belt. Northwest receipts \$4.75; continued to show a falling off, and the proportion of new wheat arrivals were much smaller than a week ago. Minneapolis and Duluth reported 237 cars, against 385 last week and 75 a year Chicago receipts were 118 cars, ago. Chicago receipts were 118 cars, 13 of contract grade. Of the local receipts 44 cars were new wheat. A year ago they were about 100. Liverpool also showed some advance, due to unfavorable weather in England and parts of the continent. September opened 4c to %c higher, at 69%c to 69½c, with some demand from shorts. The market eased off to 69%c to 69%c, and ralled from 69%c to 69%c. The large clearances from Atlantic ports-a total of nearly 900,000 bu from all points

-caused considerable skepticism as to the reports that famine was imminent in India, on account of the absence of the usual monsoon rains, caused the market to become quite strong late in the session. A factor in the advance was the estimate of a crop expert putting the spring wheat yield at 239,000,-000 bu, or 36,000,000 bu less than previous estimates. The European shortage, compared with previous crops, was also put at 106,000 000 bu. Total primary re-celpts were put at 723,000 bu. September advanced to 70c, and closed firm at 69%c to 70c.

The leading futures closed as follows: Wheat

A MOTHER'S TERRIBLE DEED

World-Weary, She Poisons Her Child ren and Herself.

Detroit, Aug. 3 .- "Oh, I'm so tired. I'm going upstairs to sleep. If I'm not up at dinner time, don't wake me." With these words a world-weary woman, deserted and despondent, took her two young daughters to an up-stairs bedroom at 203 Clinton street and deliberately prepared to end her heartache and the dreary problem of existence that faced her little ones. Four hours afterwards the three were found sleeping side by side on the bed. The oldest girl had passed to the eternal sleep, and the mother and youngest child were on the borderland of life and death.

Joseph Andres and family live at the above number, Clinton street, and Mrs. Mary Stevenson, his niece, and her two children, have been with him since July 2. Mrs. Stevenson's story is the oft-told tale of neglect and desertion. Sol Stevenson, formerly of Bay City, became careless in the treatment of his family, and suddenly went away to Chicago. Having no means, Mrs. Stevenson was obliged to seek a home with her relatives. Tuesday morning Mrs. Stevenson left home, ostensibly to look for work. About 10:30 she returned home tired and heartsick, and told her cousin, Rose Andres, of her intention to take a nap. Shortly after three o'clock Rose decided to awaken them. She broke open the door, and found Ella, the 6-year-old girl, already dead. The other two showed signs of returning life, and when they were carried away in the ambulance to Harper Hospital it was believed that they had an even chance for recovery. The child, however, shared the fate of her sister. dying at the hospital shortly after five o'clock. Mrs. Stevenson's death followed shortly after midnight. Mrs. Steven-

son has a sister in Chatham.

LIFE SAVED—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a LIFE SAVED-Mr. James Bryson to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good.

COLOR LINE IN CHURCH. Hillsboro, Texas, Aug. 3.-F. P. Works, president of the State Epworth League, says Southern Leaguers contemplate a meeting at some southern city, to consider the advisability of organizing a southern convention. The principal object of this convention will be to exclude the negro from participation in the international league meetings. At Toronto and Indianapolis the negro was very much in evidence, and it is the wish to further avoid any appearance of social equality.

Pute 68 %. Calls 69 %. A DINNER PILL. - Many persons suffer excruciating agony after par-taking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healing nutriment, it becomes a poison system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidaty, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigeration.

MAY LOSE AN EYE

Charley Perry Hurt by the Exploding of a Pop Bottle.

Charley Perry, the young son of Charles E. Perry, of 46 Stanley street, met with a peculiar accident that will destroy the sight of one eye. Young Perry and two playmates, Gerald Murray and Roy Lawson, were playing in a tent on the lawn at the back of Mr. Frank Lawson's residence on Stanley street, and they had a couple of bottles of pop, which they had bought at a grocery store. One of the bottles exploded with great violence, making a noise like the explosion of a giant firecracker. Several pieces of the broken glass penetrated Perry's eye, and his face was badly cut. Drs. Wilson and Ovens were called, and attended to his injuries. They said the sight of the eye could not be saved.

THE BIOGRAPH

Pleasant Open Air Exhibition at Tecumseh Park.

The biograph exhibition in the open air at Tecumseh Park last evening was a great success. There was a good attendance, and the audience was delighted. The weather conditions were perfect, and those present saw one of the finest collections of biograph pictures in the world. Many of the pictures elicited much applause. A number of new ones were shown in addition to those shown at the Grand Opera House last season. Among them is a picture of Lord Herbert Kitchener returning from the Soudan, and the 21st Lancers before Omdurman. Other good ones were the cable car crossing Brooklyn bridge, the famous railway journey approaching Castle Conway,the launching of the Oceanic, the largest steamship afloat, the Gordon Highlanders, the Scotch Grays, and the military review before the Queen and the Prince of Wales. Previous to the biograph exhibition Master Frank Lawrence gave a clever exhibition of trick riding. The programme will be repeated this evening.

Notes of the Strike.

OBLIGATORY ARBITRATION. Were the dispute at an end tomorrow,

the Company would have had a lesson as to the power of public opin- London Juniors, West and Underhill; ion they are not likely to forget for many a year to come. But the impression that has sunk most deeply into the public mind, is the absolute necessity for some legislative provision which, in the case of companies operating public streets under what can only be termed semi-public franchises, shall protect the interests of the mass of the people Babbit did good work as a pitcher by providing for obligatory arbitration.

Had the company expended, on efforts to meet the men in reasonable arbitration, one-tenth part of the money and effort and ingenuity that have been expended in opposite and devious directions, they would have reaped a bounteous harvest in gold and good will, instead of a crop of very different character.

The next session of the Ontario Legislature should not be allowed to close until such a measure, providing for obligatory arbitration where semipublic franchises are involved. been placed upon the statute book. London's experience will not then have been altogether in vain.

DEFINITION IN AN ENGLISH COURT.

At a conspiracy trial held in England the prosecuting counsel gave the following definition of a scab:

"A scab is to his trade what a traitor is to his country, and though both may be useful in troublesome times, they are detested, when peace returns, by all; so when help is needed, a scab is the last to contribute assistance, and York club, and the consideration is the first to grasp a benefit he never lasaid to have been \$1,500. Andrews is bored to procure. He cares only for himself; he sees not beyond the extent of a day, and for a monetary approbaa small scale, who first sells the jour-neymen and is himself afterwards sold in his turn by his employer, until at last he is despised by both and detested by all. He is an enemy to himself, to the present age, and to posterity."

TORONTO UNIONS HELP. Toronto World: A large and influential delegation from the street car strikers of London waited upon the Plasterers' Laborers' Union at their meeting, held in Temperance Hall last night. The object of the visit was to request the union to assist them financially in their struggle with the company. A special meeting of the builders' laborers was held in Temperance Hall last night for the purpose of making all final arrangements for their annual picnic. The union also subscribed \$25 towards assisting the striking street car men in London. THE COMPANY LOSING MONEY.

The operating expenses of the company in 1897 were \$58,451 93, or \$1,124 per week. Their gross earnings were \$101,365 94, or \$1,949 34 per week. Assuming that the company would be doing the same amount of business at the same expense in 1899 as in 1897. their weekly loss is \$3,073, or \$13,830 per month. Their present actual receipts do not pay for the private detactives and special constables. tectives and special constables.

ARBITRATION.

Strikes often arise from misunder-standings, from the inability of each of the parties to regard the dispute from the point of view of the other. When they don't arise from that cause they are caused by willful injustice on the one side, and a realization of that injustice, and a determination to obtain relief from it, on the other side. Whatever the cause, whether from misunderstanding or injustice, the only reasonable way to settle a prolonged strike in which neither party will yield to the other, is to have the dispute referred to impartial arbitrators.-Hamilton Herald.

A NEUTRAL'S SUGGESTION. A citizen who has taken a neutral position during the trouble, requests insertion of the following suggested solution: "Let a board of conciliation be formed; the board of conciliation to be three in number; one to be appointed by the company; one by the men; and the third by the two so appointed; or, failing agreement, such third arbitrator to be appointed by any judge selected by the two; and all suspensions and dismissals of the men, and all changes in the rules and regu-lations shall from time to time be approved by such board before the same shall go into force. The members of the board of conciliation to make a statutory declaration to decide all matters promptly and impartially after hearing both the company and the

R. lorry on Richmond street a few days ago, and badly damaged his car, had a similar accident on Rectory street this morning. This time he struck a Grand Trunk lorry. The car will be laid up for repairs for some time. The lorry didn't suffer much.

STRIKE NOTES. There has been a big boggle over recognizing the employes in their collective aggerated purposely. Opinion is general that the greatest difficulty in the way of a fair and reasonable settle-ment is to be found in the disposition of the Company.

Price will go to his home in Windsor, Ill.

FOR THE FANS. Hamilton Herald: Hagerman, who has certainly gone back, will probably be released, and Jimmy Dean, who is said to be in good pitching form, will be added to the Hams' twirling staff. Leslie Snyder, the speedy infielder of the defunct Chatham team, has come to terms with the local management, and will join the team today. He will be stationed at short for the present.

Pitcher Esper, of Hartford, jumped his contract Saturday and went to his home in Philadelphia. He will be suspended, and cannot play again without Manager Barnie's consent. The only reason assigned for Esper's leaving was the pounding he received at the hands of Worcester, and his childishness.

THE UPRISING

At Least 1,000 Well-Armed Warriors Concentrating.

Troops Suffer Severely in the Skirmishes With the Indians.

El Paso, Texas, Aug. 8.—Reports from the Yaqui Indian country indicate that many American miners have been murdered during the last few days and that the uprising is general with at least a thousand well-armed warriors, concentrating in the mountains overlooking the Yaqui River valley. During the skirmishes that have already occurred the

TROOPS HAVE SUFFERED SEVERELY.

while the Indians retired to cover with capacity. The difficulty has been ex- but slight loss. The warriors fight from ambush and are rarely overtaken in the open. The mountains are cove ered with dense verdure and afford an excellent rendezvous for the savages. Americans who have traveled among the Yaqui and are familiar with their characters say that the Mexican Government is likely to have another ten years' war on its hands.

It is learned from Hermsillo, Mexico, that three regiments of cavalry, four regiments of infantry and two battalions of artillery will constitute the army which is going to the Yaqui sronghold in the Batucco mountains. All are ordered to move by Friday. The Yaquis are moving in small detachments from place to place, ravaging the country. All the tribes are headed for the Batucco mountains. MEXICAN SOLDIERS HURRYING

TO THE SCENE. Nogales, Arizona, Aug. 3.-Two Gatling guns and a detachment of artillery soldiers from the City of Mexico, via El Pazo have been hurried southward en route to the scene of the Yaqui war. Troops are being marched across the country from points in the state to Chihuahua and Durango to join the forces now in the field, and reinforcements are being rushed from all quarters.

GEN. TORRES WOUNDED. St. Louis, Mo., Aug. 8.—A special to the Globe-Democrat from Los Angeles, Cal., says: A dispatch from L. Torres has been received to the effect that his father, the famous Gen. Louis E. Torres, was wounded, but not killed by the Yaquis. The wounded general is now at Tobin, the Yaqui capital.

It is reported that messages have been sent by the Yaqui leaders to ranches and mines all over the state of Sonora, where any men of the tribe are at work, calling them to arms with their compatriots already in the field. and many Yaquis who were employed in the big mining camps and haciendas as laborers have disappeared. Even in this vicinity, 300 miles distant from the scene of hostilities, the Yaquis employed in various kinds of work are in a state of disquiet. quitting their employment and going away, and those coming here from outside points in Arizona, where there have been many Yaqui laborers, report the same condition of affairs. They usually travel by night, and nightly small squads are reported passing through the town or along the road near by, all going in a southerly

direction. Some fears are expressed of a raid upon the town similar to that of Auguse, 1896, when an attacking party took possession of the Mexican custom house in the early hours of the morning, and were dislodged only after a severe battle, in which they left nine men dead on the field and carried away some twenty wounded. In that fight Company G of the Arizona militia participated, and it is from motives of revenge that the Yaquis now on the warpath have killed the Americans whose deaths have been reported. In the former wars they have always respected Americans, never molesting

them. The situation is here considered so grave that Mayor Overton has communicated to Governor Murphy a request to ask the war department to end a troop of cavalry Huachuaca for the protection of the

St. Petersburg, Aug. 3 .- The Official Messenger today publishes a government communique reviewing lengthily the result of The Hague peace con-

After referring to the "sympathetic reception the powers accorded the czar's magnanimous appeal for peace,"

it proceeds: "The results of the conference have fully come up to the expectations of the government. It has been found necessary for the conference to postpone a definite settlement of the complicated question of the suspension of armaments until fully elucidated by the different governments. On the other hand, the labors of the conference will doubtless exercise influence in regulating the customs of war and cruelties. The various states have agreed to use their resources in favor of the maintenance of peace and the

Unostentatious Funeral of the Late Sir James Edgar, Speaker of the House of Commons.

[Special to The Advertiser per G.N.W.] Toronto, Aug. 3.-The funeral of the late speaker of the House of Commons, Sir James Edgar, this morning, was one of the simplest and most private character. It was attended only by relatives and a few personal friends. A short service was read by Rev. Mr. Plummer, of St. Thomas' Church, at 11 o'clock, and then the hearse, followed by a few carriages, was taken to St, James' Cemetery, where the interment

JESSAMINE.

Thank you. They are very sweet, ery beautiful! How does the jessamine thrive?"

"Not so well as it should-ungrateful little thing!" touching the leaves of a stunted vine, which was honored with china flower-pot and the sunniest stand in the window. "I am afraid it cannot flourish in this high latitude. It needs warmer earth, less fitful sun-shine. Or it may be, that I am killing it with kindness," she added, shaking

her head pensively.

Roy detected another meaning in her thoughtfulness. Ungenial influences unwelcome assiduity of attention, ere sapping her vitality, and the analogy between her lot and that of her fading favorite was wearing upon his imagination.

We will try again." He had to clear his throat before he could speak. Jessie smiled slightly, with no misgiving of the communication that awaited her. She even stooped to pick off a few withered leaves that had previously escaped her notice. The two were side by side within the recess; so near together that the warm breeze blew the light folds of the wife's dress over the husband's arm; but she recked no more of the wretchedness kept down by his strong will than if a thousand leagues of ocean divided them.

I have been thinking seriously all the way home of taking you to Dun-dee, and leaving you in Eunice's charge for a time," continued Roy, presently. "You are not so rosy and presently. "You are not so rosy and lightfooted here as you were among the mountains. And the sudden variations of our climate affect the human Jessamine also! You shall have change and without delay?

"I am very well-entirely contented!" she interposed, reddening vivid-

"You are kind to say so." gratefully. "But there are other reasons why you should anticipate the date originally set for your visit to your old home. Eunice has been very self-denying and patient, and she should have her ward. While you are regaining health and strength, winning back your lost roses, you can accumulate a plentiful supply of seeds and roots of all descriptions, besides studying floraculture with your sister-if it be true, as you would make me believe, that she excells you in skill. For in your abshall have a real conservatory built back of this room, and our longtalked of oriel run out here."

Jessie made a desperate effort to lest away the discussion. Oh, as to the oriel, I have quite abandoned the project since Mrs. Wyllys told me having-having learned from the Provosts that we meditated something of the sort-that oriels had 'gone out entirely; that no stylish house nowadays is disfigured by them.' The only thing resembling the obsolete excrescences that would be admitted into a modern 'establishment' is a mullioned window, my good sir! I should never hold up my head in Hamilton again if I were to offend so boldly against the rules of art governing the

best society.' The toss of her head and her tones were Mrs. Orrin's to the life. But Roy had hard work to smile. In his state of mind, badinage was like jest-ing over a death bod over a death-bed.

Mrs. Wyllys must look the other way, then-at the majestic proportions of her cupola, if she likes, for the oriel is to be a fact next month. The work will be better done if I am on the ground to oversee operations, and it would not be pleasant for you to re-main in the house while it is in confusion, not to mention the risk of taking cold from the damp walls and open room, while the wall is down. It will be a convenience all round, you see.' If you really think that I will be

in the way-"
"I did not say that," the correction was so prompt as to sound sharp. "But my judgment tells me that the plan I suggest is the best for both of us. My mind will be easier with regard to you if you are safe and happy in Eunice's care."

Jessie had turned her face quite away, and seemed to be gazing at some object in the street.' "I see," she said, finally. "When do

you wish me to go?" Whenever it suits your convenience. If you desire my escort, we had better leave Hamilton on Saturday of this or next week"

'I can travel alone easily if it is not convenient for you to leave your classes. If you go on Saturday you lose Monday also. This is Tuesday. I can be ready by Thursday morning. If the change be as needful as you suppose. the sooner it is made the better. to an escort, a lady needs none where there is no change of cars."

Rov pinched the succulent stems of his flowers until the perfume was hot and sickly. How impatient she was to be gone! She had gasped when he opened the door of escape from her cage, as if she already saw "wild and winged liberty" beyond.

"You do not think it necessary to notify Eunice of your coming, then?" he inquired.

"You can telegraph on Thursday morning, when you are fairly rid of me. Euna is always at home, and al-

ways ready and glad to see me. My visit will make her very happy." The rising tears broke through her assumed lightness. She struggled to drive them back, and failing, walked abruptly from the room. And thus the question was settled.

Jessie began to pack that afternoon;

working so diligently as to be wan and appetiteless by supper time. Fanny Provost and her betrothed, Lieut. Averill, who was in Hamilton on furlough, called in the evening. Warren Provost and Selina Bradley came in afterward, and the hostess revived visibly in their society. Her eyes and color were bril-

liant; her laugh ready; her repartee pointed and felicitous. The young people regretting the near prospect of her departure, fell to rallying her for her partiality for country life, and she defended the preference with spirit. Then, at Fanny's earnest request, she told the authentic legend of Dundee and "Auld Vavie," appearing to for-

"The women fought, too!" ejeculated Selina, when it was finished. "They were made of different stuff from me, or any other young lady of this generation that I know. I go into convul-sions at the sight of an empty gun." "They were warring for home and freedom!" rejoined Jessie. "To avoid captivity I would fight in the open fields in the ranks. And so would you. But the love of liberty is oftener a passion with us mountaineers, than with lowlanders."

She caught her breath strangelysomething between a sob and a laugh -which she tried to cover with a cough.

"A sad and ceaseless sigh!"

repeated the haunting demon in Roy's The hilarious talk went on unchecked by his occasional fits of abstraction. Jessie was like another being in the

anticipation of liberation.
"Heartlessly cheerful!" said Selina, with her usual aptitude for making un-

lucky observations.
"One would think you two were tired of each other already!" she subjoined. "And you haven't been married more that half a year! I shall tell this to papa. He raved over your mutual attachment and your devoted attentions to Mr. Fordham when he was sick.

"Say at the same time, that she does not go of her own accord!" said Roy -"but because I try to be as careful of her health as she was of mine. Although, if you had ever visited Dundee, you would not be scandalized by her desire to revisit it."

Fanny, observing Jessie's quick, hot blush and averted eyes, and divining that something was ajar, came to the relief of the hardly-pressed couple. "Did Jessie ever tell you, Mr. Fordham," she said in her livelist tone-"of the astounding poetical effort put forth by her admirer, Mr. Lowndes, the rich student, they used to call him -entitled "Jessie, the Flower o' Dundee!" The graceless youths of his class set it to the good old Scotch tune of that name. It was in a different metre-very uncommon, I believe, and the fun of the joke was in fitting the words in, after the manner of 'Ancient Uncle Edward.' I will get you a copy, and Warren here shall teach you how to sing it."

CHAPTER XXVI.

The weather changed on the morrow. Coming home at nightfall, Rey found Jessie standing at the western window, surveying sorrowfully the unfavorable aspect of the heavens.

"It will be very unpleasant travela portentous bank of clouds. And the wind is veering to the storm-quarter."

"The signs portend nothing worse than April showers, I hope," he encouraged her to believe. "Or, should there be a steady rain, you will soon run out of it into the region of blue skies and milder airs. I see no reason for altering your arrangements. You

will be sheltered and dry in the care." "True," she answered musingly, returning to the contemplation of the un-

promising horizon. She was perturbed, however, and unusually taciturn while they were at supper; dull and spiritless during the hour they spent together in the sittingroom; arousing herself with apparent effort to reply to his remarks, and rareoffering one of her own accord. Roy's attempts at cheerful conversation were less evenly sustained than was customary with him in her pres-It was not his intention that this last evening should be one of gloomy constraint, but it approximated this more nearly every moment. Both were abstracted, and each was unwilling that the other should discover the direction in which his and her thoughts were straying. So the pauses in the sluggish flow of talk became more and more frequent, until, at nine o'clock, Jessie arose with a

sigh of relief. (To be Continued.)

Americans and Mexicans Shot Down.

Two Pitched Battles in Which Many Indians Were Killed.

Chicago, Aug. 2.- A special from the City of Mexico says: News from the Lower Yaqui River country today is that roving bands of Indians are killing both Mexicans and Americans, and "Auld Vavie," appearing to forget herself and her slavery (thought Roy) in her enthusiasm.

"The women fought, too!" ejeculated ready been slaughtered. On the 22nd of last month, signs of the present trouble became apparent, and Chief Tetapiate, always peaceably inclined, ordered the tribe to remain quiet, and ordered five of the principal disturbers, shot.

MASSACRED THEIR CHIEF. The Indians fell upon their chief and beat him to death with clubs. A large band then massacred soldiers in the barracks at Bacum, slaughtered Carlos Hale, a prominent merchant of Guaymas, and went down the river murdering and plundering. The noted frontier general, Lorrezo Torres, commander of the military zone of Zonora, with only 200 men. marched from Potan to Bacum, and threw himself on the assembled Yaqui forces. A battle was waged for two days, in which 40 Yaquis and 11 soldiers perished.

MANY INDIANS BITE THE DUST. The Yaquis were pushed back towards the mountains, and on the third day another fight took place, in which 43 Yaquis and 4 chiefs were killed. The Yaquis were dispersed and driven farther into the hills. State troops were gathered from all over Zonora by Gov. Toral. About 1,500 men in all were mobilized and pursued the Yaquis into their mountain fastnesses. The army was joined by artillery, which had been rushed from Chihuahua. The Yaquis took a position on the peak of Cuestaalta, and the latest report is that a battle was fought on July 29, and that the troops were gaining the advantage.

FIGHTING AMONG THEMSELVES. The Indians have been fighting among themselves for five days about Diccan. A large portion of them were dissatisfied about the rising. The present out-break was precipitated largely by the rush of prospectors to the country thrown open in 1898 by treaty. The Yaquis were then assigned a large stretch of territory for their exclusive use. Recently the prospectors were given permission by the government to invade the domain set aside for the Indians, and many Americans took advantage of the concession.

Announcement is made that Mr. J. E. Dairymple, division freight agent of the Grand Trunk Railway, with headquarters in Hamilton, is transferred to a similar position with office in Detroit. He will have charge of through traffic via Detroit eastbound, and via Buffalo westbound. In addition to his duties as division freight agent. Mr. Dalrymple is also appointed manager of the Grand Trunk dispatch, the fast freight line operating over the Grand Trunk Railway and West Shore Railway. Mr. J. H. Hanna, division freight agent of the Grand Trunk Railway at Stratford, will succeed Mr. Dalrymple here.

Russia will push her trans-Siberian railroad as far as possible into China, says Alexander Verclunsky, who, with Vernad Ishard, inspectors of the great road, is touring this country, inspecting the railroad systems and the troleum fields in the interests of their government. The trans-Siberian system employs 250,000 Chinese laborers; has already cost Russia \$175,000,000, and will be finished in 1901.

THE QUEEN'S KISS SOCIETY

Death of the Last Survivor of a Famous Band of Girls.

London, Aug. 3.-There has just died in Essex, according to the Evening News, the last survivor of the fam-ous band of girls who formed them-Selves into the "Queen's Kiss Society."

The society had its origin when the Queen was only about a year old.

The little princess was being wheeled about the park by her nurse, when she was suddenly surrounded by a group of laughing school girls, who re-cognized the royal infant, and in-sisted upon kissing her. The nurse's scruples soon yielded to the persua sion of the shillings which the girls displayed. Each maiden offered her a coin for a kiss. Permission being granted the royal babe was almost smothered with the children's hearty caresses, while stowed away in the back of the perambulator was the forty shillings which were the nurse's kissing fees.

There was, however, a great commotion in the Duchess of Kent's house-hold when the affair became known. The erring maid was deposed from her proud position.

The maidens subsequently formed a grade propositions.

became Queen they recalled the incident. "We are," they wrote the first of your subjects from whom your Majesty received homage." On the occasion of important festivities they addressed expressions of allegiance to the Queen, but the members have gradually died. With the death of this aged lady, the "Society of the Queen's Kiss" passes from existence.

SWALLOWED A LIZARD. Birmingham, Mich., Aug. 3.-Miss Jennie Paulard, one of a party of Macomb county campers at Walnut Lake, drank a glass of water drawn from a spring after dark. In swallowing the water she felt a peculiar sensation in her throat, but, paying no further attention to the matter, she went back to the tent. Shortly afterwards the tickling in her throat became extremely unpleasant, and the young woman grew frightened. A doctor was called, and a powerful emetic soon relieved the

A TORNADO

Women, Boys and Horses Carried Through the Air Unharmed.

John B. Musick, of Kirksville, Missouri, thus describes, in the August Century, certain madcap pranks of a tornado which passed through that city on April 27:

Many strange freaks were played by the tornado. It a tree-top was found a woman's hair, supposed to have been blown from her head as she was carried through its branches, yet no person was found-near it. A human scalp was found three miles from the city limits, under a bridge. Notes, letters and papers were blown from the city into Iowa. One promissiory note of \$400 was found in a field near Grinnell, Iowa, nearly one hundred miles away, while clothing and papers were scat-

tered along the entire distance. One woman was decapitated by & tin roof, and her child was killed near her. Some persons who were outside the rotating current were killed or injured by flying timbers, which, like bolts from the catapult of Jove, flew with deadly force for a great distance, while others, in the very center of the storm, escaped with little or no in-

Perhaps the most remarkable experinence were those of Miss Moorehouse, Mrs. Webster and her son. The three were caught up in the storm and were carried beyond the Catholic Church, nearly one-fourth of a mile, and let down on the common so gently that none were killed. Mrs. Webster had some slight cuts about the head, her son had one arm fractured, and Miss Moorehouse was uninjured.

"I was conscious all the time I was flying through the air," said Miss Moorehouse, "and it seemed a long time. I seemed to be lifted up and whirled round and round, going to a great height, at one time far above the church steeples, and seemed to be carried a long distance. I prayed to the Lord to save me, for I believed he could save me, even on the wings of the tornado, and he wonderfully preserved my life. As I was going through the air, being whirled about at the sport of the storm, I saw a horse soaring and rotating about with me. It was a white horse, and had a harness on. By the way it kicked and struggled as it was hurled about I knew it was alive. I prayed God that the horse might not come in contact with me, and it did not. I was mercifully landed upon the earth unharmed, saved by a miracle."

Young Webster says he saw the horse in the air as he was being borne along by the storm. "At one time it was directly over me, and I was very much afraid I would come in contact with its flying heels." The horse, it is said, was caught up and carried one mile through the air, and, according to the account of reputable witnesses, at times was over 200 feet high, passing over a church steeple. Many were not in the storm say that they saw horses flying in the wind. Beyond being well plastered with mud, the white horse was uninjured by his aerial flight.

A BRAVE WOMAN. How a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER.

She writes:—"I had for a long time been thinking of trying the Samaria Prescrip-

tion treatment on my husband for his drinking habits, but I was afraid he would iscover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent. I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for our Samaria Prescription and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me—a praceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases

STORY OF A CAVE. It is reported that a cave has been discovered on Mr. J. Pocock's property, opposite Springbank. Some boys found what they supposed to be a ground-hog's hole. They began to dig the ground-hog out, and stumbled on a cave. Leading from the entrance is a tortuous passage of some 30 feet in length, which widens out into a hall of considerable size, in which is a large sheet of water. On the right side of the hall is another passage, but how far it extends has not yet been ascertained. Such is the unverified report. BAND CONCERT TONIGHT.

VOYAGE OF THE NANCY

Rescued Two People From Drowning and Was Deserted by Part of Her Crew.

The Nancy, Dr. Hutchinson's sailing yacht, had a very eventful cruise on Sunday last, when she took a party of

from Port Stanley. The excitement of the journey started soon after the boat left the Port Stanley lighthouse, when a small rowboat, containing two youths named Thorn and Stanton, of the Port, was seen to esters' Trumpet Band, of Toronto; capsize. Capt. Hal Hutchinson ordered two of the crew away in the "dingy" to the rescue. When the rowboat was reached its erstwhile occupants were seated astride of the upturned craft in

a wet and forlorn condition. They were taken aboard the dingy and their boat righted, and the work of towing them into the harbor commenced, when to the satisfaction of all concerned the lifeboat was seen approaching. A transfer was quickly made, and the original rescuers made for their yacht, which was quickly tacked around and brought up to the wind by her skipper. The rest of the voyage to Port Burwell was a fast and pleasant sail, and after a hearty dinner the party started back. A heavy sea had come up, the wind was dead ahead, and after a hard effort to reach Port Stanley it was decided to put back to Port Burwell until the wind and sea went down. It was this attempt that caused a couple of the party to come to the con-clusion that yachting was not always pleasant, and that it would be safer

rather than to the fickle wind and a frail boat in a rough sea. It was a case of "Mr. Captain, stop the ship. I want to get out and walk." And walk they did. It was 25 miles to Port Stanley, but the ground was nice and solid underfoot. After they had tramped thirteen miles of the 25, their courage rose, or they got tired, and. happening on a friendly tug, they again ventured on the vasty deep and made the last twelve miles of their nocturnal journey with comfort of body and some little trepidation of soul. Those of the party who stood
