The evidence showed that Goodman had offered money to some of the ratepayers on the street, in fact he dmitted that he did, but he claimed that in return for the money the ratepayers were to get out and work for the payement and thus would be paid by him for their work in furthering his interests on the street. Mr. Lewis claimed that it was not a bribe because Goodman would receive value for the money he expended and the people also would receive value in the pavement.

Mr. Houston in opening the proceedings stated that the promotor, acting for the company, gave bribes in order to get enough signatures to carry his petition, and called upon his first witness, Hector McGregor.

Hector McGregor, a resident of the street, sworn said; Mr. Goodman came to me and wanted me to sign a petition for a bitulithic pave-ment and offered me two cents a yard on all of the street and enough dirt to fill up the front, and I told him I would not eign any patition and he would also give me work for my team. This was about three weeks ago. I always told him that I did not want a pavement. This was before the first petition.

To Mr. Lewis he said he had been living on the street very long and his word went pretty well with the other residents on the street. It was hard to convert him to have a pavement. He did not know that Mr. Goodman wanted him to help get other signatures.

Mr. Lewis-Did you tell Goodman that the asphalt people would give

you \$230 ?
Witness—No, I did not.
Mr. Lewis—Did you show him a
paper with \$230 written on it?

Mr. Lewis-What did you do that

Witness—I wanted to get rid of him.

Mr. Lewis—Did you say anything about asphalt block?

Witness—No.

Mr. Lewis—Well, what did you show him the paper for?

Witness—I tell you I wanted to get rid of him.

Mr. Lewis repeated the question re asphalt block, but witness repeated over and over again that he "wanted to get rid of him."

Chas. Moore testified that he had been offered \$20—his share of the first year's assessment on the pavement—if he would sign.

Miss Ryan said that she had been offered \$20—his share of the first year's assessment on the pavement—if he would sign.

Miss Ryan said that she had been offered a free granolithic sidewalk if she would sign the petition. She signed at first and afterwards withdrew her name. This was the first petition. She did not sign the last.

Amanda Brown said an offer had been made to her son on the first petition. Mr. Goodman had told her that he would renew that offer and give her \$10 if she would sign the last petition.

Mr. Lewis—Onsequently not for Goodman on earth (laughter).

It turned out that although Mr. Lewis—Consequently not for Goodman on earth (laughter).

It turned out that although Mr. Houston assured Mr. Lewis that the son had an interest in the property his name does not appear at the Registry Office, Here Mr. Houston—Fing on your trouble."

Mr. Houston—Bring on your trouble.

Mr. Lewis—It is not bribery.

Mr. Houston—His on the term ad-

Mr. Houston—I use the term advisedly.

Mr. Lewis—It was stated to us that opposition contractors secured the services of men and we also got the services of men to help us promote the street.

Another woman on the street said that Goodman had offered her first a good position for her husband on the electric railway, and at another time offered her 310 if she would sign the petition. She did not sign the last petition.

Another woman spid that she had been offered \$20 to sign the petition.

Buildings Unreofed, Fences Swept

Little short of a tornado was the terrific storm that swept over Raleigh Township last evening, unroofing barns and buildings, carrying away outhouses, 'oracking off huge trees and sweeping cattle through the air like chaff. The grounds, moreover, were simply covered with water like a huge sheet.

"It was the worst storm I ever witnessed," said County Commissioner James E. Chinnick this morning, "fences were sweept right across the road and limbs of trees were blown 200 feet in the air, A great deal of damage was done."

The district which suffered most severely included the Frederick farm, Mounteer's slaughter, house, Payne's

The rain fell in torrents and the whole district was literally flooded for several hours, \* The electric storm broke in all its wildness, but fortunately no homes in the district were struck by lightning. The damage, however, from the wind and rain will be very material.

earth that man is who says he would give any amount of money to secure the last name on a petition," said Mr. Heuston.

He thought there was fraud because people signed that petition supposing that the other people who signed would have to pay just as much as they would for the pavement. This man gives the money to the son just so that the people cannot get at him for bribery. He did not have much faith in a man who works for a company and then asks the company to repudiate him. He claimed that the petition was nulled through this man's actions.

the afternoon. It did not reach Chatham but passed north on either side.

Chatham experienced a severe storm about six o'clock which came from the northwest and considerable damage was done in town.

This storm was also accompanied by severe thunder and lightning and in many cases window glass was broken, fences and trees damaged, and telephone wires deranged.

The merry-go-round, which has been causing so much smusement near the Mantana House for both young and old, is not running today, being put out of business by the storm.

The smokestack of the M. Wilson Cordage Company was struck and badly damaged. The lightning was very close, and W. K. Merrifield, who was at the C. P. R. crossing on King street when it happened, could feel the effects of the shook. The bolt went down the smokestack, came out the furnace door and struck a nearby telephone pole. Other damage was also done, all of a trivial character.

WHY WHITNEY HAS GROWN

Courage, in the sight of Hon. G. W. Ross, was the pestilence that stalketh at midnight.

Aggressive honesty, also, in the sight of Mr. Ross, was the destruction that wasteth at noonday.

When Mr. Ross contemplates all that sincerity and courage have done for J. P. Whitney he must be amazed that he did not give these virtues a fair trial in his own career.-Toronto Telegram.

#### AN HONEST GOVERNMENT.

Premier Whitney and his colleagues are doing what honest men abould do in their administration of the province, and the public is simbly bewildered with delight. People find it hard to realize that Ontario had a premier who does not heartate to say "No" to scaly transactions and to corporation influences. The intensity of the popular pleasure in Ontario over the clean Whitney Government is not wholly complimentary to Ontario because it indicates that honest politicians are very rare birds indeed .- Brockville Times.

#### STRAY HORSE FOUND

Mr. Brown, a farmer residing in Raleigh about three miles down the river, woke up yesterday morning to find a horse and buggy in his yard, Mr. Brown could not bring himself to believe that some one intended to present him with the horse and to present him with the horse and thuggy, so he sent word to the police in town. The horse is a bay, and was attached to a square top buggy. The animal is at present receiving three square meals a day in Mr. Brown's stable, and will continue to do so until the owner arrives and pays the price of the meals. W. T. Prangley and daughter, Miss Ellen, of Dresden, were visitors in the city on Saturday. Isaac Brown and W. J. O'Brien, Blenheim, were registered at t Rankin House on Saturday.

WHOOPING COUGH IN JAMAICA Mr. J. Riley Bennett, a chemist of Brown's Town, Jamaica, West India Islands, writes: "I cannot speak too highly of Chamberlain's Cough Remedy. It has proved itself to be the best remedy for whooping cough, which is prevalent on this end of the globe. It has never failed to relieve in any case where I have recommended it, and grateful mothers, after using it, are daily thanking me for advising them." This remedy is for sale by All Druggists. Lost!—A gold stick pin with opal stone and heart with pearls. A reward will be paid to the finder at the King Edward Grocery.

#### A RARE GOIN

Dan Simmons, one of the men working on the excavations for the electric railway power house, made a very interesting find on Saturday. e digging about six feet be While digging about six feet below the ground surface he came upon an old Upper Canada cent, which are a rare thing, having gone out of circulation some time ago. On one side of the coin is St. George and the dragon and on the other side is stamped the horn of Plenty.

Chief of Police John Holmes re-

the dragon and on the other side is stamped the born of Plenty.

Chief of Police John Holmes remembers when he was a young man these coins used to be all the go, but he has not seen one in years. At that time there was the Upper Canada cent and the Bank of Montreal cent. This latter had a picture of the Bank of Montreal stamped on it. These are also getting to be a very rare coin.

Mr. Simmons is quite proud of his find and will keep the coin as a pocket piece.

#### WANT MORE MONEY

A deputation composed of A. J. Dolsen, S. L. Wellwood, John Houston, F. Suitor, A. Langstaff, Wm. McGetchie, Jos. M. Smith, W. W. Everitt and John Clements will wait upon the County Council on Wednesday next in the interests of the Agricultural Society.

Heretofore the Peninsular Fair has received a bonus of only \$50 from the County. The surnounding counties fill get more—Essex receiving \$300, Lambton \$400, and some counties, such as Carlton, receiving as high as \$600. The Agricultural Society Teels that it should receive more aid from the county, especially this year when they are making an attempt to decrease their mortgage. Secretary Robinson promises that, if assured of support, the directors will materially increase the prize list in order to induce more farmers to display. People with Weak Stomachs in a Continual State of Danger

-If the stomach and digestive pregams be weak, so that food does not readily digest, they will contain a sour, alimy fermenting mass, an ideal spot for the disease germs to grow and spread through the whole system.

People with a weak stomach are in a continual state of danger, and they should use the best means, Miona, to strengthen that organ and tone up the whole digestive system. This remedy is a certain cure for all diseases of the stomach excepting cancer. Used before each meal, it so strengthens the whole digestive systems.

HINTS IN TASTEFUL FURNISHING AND DECORATION.

The Window Bench a Holp In Salv-ing the Senting Problem — A Rook on the Stairs — Increased Space Ef-fect—Floor and Wall Covering.

A common mistake in fitting up a ture. In rooms of no very capacious extent the seating problem is often a difficult one. Enough chairs for the family may be provided, but great in-

convenience is often caused by intro ducing extra seats for visitors. A window bench is in such cases a good sub-stitute for a sofa, or an angle of the wall may be fitted with a seat of wood that is covered with a thin hair cush-ion. A built in seat is also an advantage in a narrow hall or on the stair landing as a reading or sewing nook. In one tiny home a low screen which formed part of a bedroom equipment was also a complete little sewing and work table, with pockets and shelves for holding thread, buttons, tape, needles and patterns. The screen was light enough to be easily handled and so compact as to take a minimum amount of space when unfolded. Another space saving device was originated in a sitting room with an unused nated in a sitting room with an unused fireplace, as here pictured. Without the application of hammer or nails a bookshelf was laid between the columns that supported the mantel.

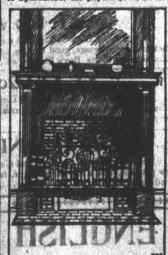

One way to give the appearance of space to small dwellings is to lay the floors of connecting rooms and passage-ways with a plain or small patterned. ways with a plain or small patterned carpet and to cover all the walls alike in a plain paper or one that is printed in two tones of the same color. The Louisville Courier-Journal of-fered five prizes for the best suggestions for advertising the city. The theory has lately been advanced, and with a measure of acceptance, that a city needs to be advertised as much as a business does. The judges decided that the most effective plan proposed was the raising of a sufficient amount of money to advertise the city's advantages in the leading newspapers pub-lished in the territory from which the city expects to draw trade and popula-tion, followed up by advertising in the leading journals of the country. All the proposals had reference to some form of newspaper advertising.

THE MIRROR OF FATE

A VENETIAN LEGEND OF THE DAYS OF THE DOGES.

cated With the Vision of Her Own Loveliness and the Statue In the Church of San Giorgis Maggiere. Here is a legend which I heard in

Venice. I offer it to all among you who are fond of solitude and silence.

who are fond or softtine and sheare.

I offer it to you as I would offer a
flower which has blossomed amid somber shadows on a sleeping lagoon:
Ghita Gherardini was the niece of the doge. Poets whose names we have forgotten, but who were renowned at that time, had composed innumerable songs in her honor. They praised in them the tresses of the young girl, black as night in which pearls gleamed like milk white stars. They also sang about the radiance of her dark violet eyes and about the two roses which formed her lips. In truth, Ghita Gherardini was very beautiful. She had, however, lis-tened too earnestly to the passionate words of the singers, and an immense pride took possession of her young soul. One night she heard beneath her window the yearning sob of a lute. Standing in a motionless gondola, a lovesick page was singing to her. Tender was the music, and the water and the dark-ness added something to the sweetness of the strains and to the passion in the voice of the singer. The young page was glorifying her as the most radiant

among all women.

Ghita heard him, and a delightful remor ran through her. Without waiting to light the torches, which had gone out, she took her mirror and ran to the window, through which the moonlight shone into her room. Thereupon in this mysterious light she saw that she was strangely beautiful; that her beauty was indeed almost supernatural. The moonlight revealed her pale and transparent, like the princess of a poem. Intoxicated with her charms, she let the seductive mirror slip from her hand, and a sigh of admiration and of

ecstasy escaped her as she cried:
"I am beautiful! I am beautiful!" Thenceforth Ghita Gherardini spent all her time marveling at her own beau-ty. She did not desire to fall in love, for she fancied that there was no man living who was worthy of her. Those songs which had no words of praise for her eyes and her hair she treated with contempt, and to the mysteries of reli-

gion she never gave a thought.

She went to high mass solely for the purpose of being seen by the people and of being flattered by them as they whispered to one another about her. The restless eyes were never turned toward the altar.

She thought of nothing save her own She thought of nothing save her own triumphant beauty and of the jewels which set it off in sumptuous fashion.

One day Ghita Gherardini slipped a little mirror beside the first page of her mass book, which had been delicately illuminated by a pious artist. And while her attitude of devotion edicied the multitude she studied her face ensurined in the book of prayer.

The doze's niece had formatten that

The doge's niece had forgotten that the Creator alone is worthy of worship and not any of his creatures. She had also forgotten that pride is an abominable sin—aye, perhaps the most perilous of all sins—since it was the cause of the rebellion of the archangels and the downfall of Lucifer.

One day Chita Gherardini was in-

gels and the downfall of Lucifer.
One day Ghita Gherardini was intently studying her face in the little micror between the holy leaves of her mass book, and suddenly she uttered a loud cry of terror. Through the large building it rang, drowning the solemn voice of the priest, the responses of the congregation and the sonerous murmur of the organ. And straightway the doge's niece fell to the ground in a faint. She had seen reflected in the guilty mirror, the sacrilegious mirror, not her own countenance, but that of not her own countenance, but that of

goes that this statue is the work of a famous sculptor, but the people believe—and their legends contain a good deal of truth—that it was once Chita Gherardini herself and that her body was turned into stone by the terrible vision.

To all those who love the allence of dead cities I offer this legend. I found it at Venice as one occasionally finds a flower which has blossomed amid somber shadows on a sleeping lagoon.—Helene de Zuylen de Nyevelt in European Edition New York Herald.

A great ape which makes its home in Borneo is the gibbon, which is a small animal compared with the orang, weighing only about forty or fifty pounds. It is very frail in its bodily makeup. The head is set squarely on the shoulders, and it looks upward. When walking on the ground it bal-ances itself along like a walker on a tight rope. Its remarkable power of grasp and dexterity in using its hands are equally with the shape of its cranium indexes of its superior intelligence, perhaps because it is able to take, hold of a greater number of things and examine them. The gibbons go in droves, whereas orangs live by families, and one of the most interest ing spectacles imaginable is to see a troop of them crossing a great gap in the forest by throwing themselves in succession through the air, each one taking a swing or two to gather momentum before launching himself. So great is their agility that in executing feats of this sort they seem like birds.

Board Gives Recognition to Worthy Staff—Other Business Trans-acted by Trustees

That the members of the C. C. I. Board appreciate and are prepared to encourage the good work being done by efficient teachers was evidenced at yesterday afternoon's meeting, when the entire staff was offered reengagement, some of them at an increased salary.

A lively discussion occurred over the question of discipline maintained by two of the teachers, and the hope was expressed that they would use increased effort to live up to the higher standard of organization and discipline which had characterized the school during the past year. Many kind words were said of the capability and efforts of all the teachers and much pleasure was expressed over the report of the inspector, which showed decided improvement in all the departments. Col. Rankin took occasion to pay a high tribute to the work and worth of Primbipal Twohey, whose recognition from the Trustees will be heartily endorsed.

In so doing the Colonel spoke in the highest terms of Mr. Twohey's good work and said the Inspector had reported, the school in better condition than ever before. The resolution was carried.

Three suggestions for dealing with the modern language teacher's salary were submitted. Rev. Dr. Battisby and Mr. Harrington moved for re-engagement at the same salary;

Both Messrs. Thompson and Jennings were accorded \$100 increase and the Trustees were very hearty in expressions of confidence in these teachers and their good work.

Quite a discussion arose in connection with the lady teacher on the staff and it was finally decided, on motion of Col. Rankin and Mr. Liddy, to increase Miss Lafferty's salary by \$100.

All the other members of the staff were offered re-engagement at the same salary.

Dr. Thornton said the Inspector had paid a high compliment to the enterprise of the Central School in securing so many excellent pictures for their halls. He suggested the Collegiate do likewise.

The Property Committee was authorized to go shead with the improvements ordered by the Inspector.

W. W. Scane addressed the Board in the interests of a floor oil manufactured for schools.

# HOUSE ABOUT DESERTED

Members Desert Their Posts For North Oxford and London.

Of Twenty-Seven Members Present on Monday Only Ten Were Government Supporters-Harrowing Details of Fisher's Seed Bill and Concurrence In Supplementary Estimates Were the Subjects Discussed,

Ottawa, June 5.—The exodus of members of both political parties to London and North Oxford is now in full swing. The House yesterday was practically deserted, just a sufficient number to establish a quorum being present.

present.

In the meantime the House is tell-

In the meantime the House is telling an expectant country all the harrowing details of Mr. Fisher's seed bill, and the proposed reduction of the seed of the proposed reduction. At 5 o'clock yesterday afternoon there were exactly 27 members in the chamber, 17 of whom were Conservatives. It has been an inspired sort of day. Sydney Fisher has been explaining some of his pet estimates, and the Speaker spent about an hour in concurring in the supplementary estimates for the current year. Two items were passed on condition that explanation is given later on by the Minister of Railway. They were \$2,000,000 for the I. C. R. and \$60,000 for Prince Edward Island Railway.

I. C. R. and \$60,000 for Prince Edward Island Railway.

Sir Wilfrid Laurier, in reply to Mr. Leonard of Laval, said that the Government was aware that the leading Boards of Trade of the country had adopted resolutions asking for the abolition of trading stamps. Many deputations had been met by the Government, and their recommendations in the matter were now receiving consideration.

abolition of trading stamps. Many deputations had been met by the Government and their recommendations in the matter were now receiving consideration.

No Reduction In Militia.

When the Government notices of metions were called, Sir Frederick Borden moved that on Tuekday the Heuse go into committee of the whole to discuss the following resolution: "That it is expedient to provide that the salary of the commandant of the Royal Military College shall not exceed \$3,500 a year, and that the salaries of the staff adjutant, professors, instructors, assistant instructors and staff shall se fixed and may be readjusted from time to time by the Gevernor-in-Council." Another resolution reads: "That it is expedient to amend the Militia Act, and to provide that the permanent ferce may be increased to 5,000 men."

Sir Frederick Borden said he preferred to wait until Tuesday to explain the resolutions, when he would have all the papers in regard to the matter. He would, however, make this explanation, that there was no real reduction of the militia. There had been a reduction in training establishments, but not reductions in the general establishment of the militia. There had been a reduction in training establishments, but not reductions in the general establishments. As compared with the situation last year, there was no station proposed this year. He made this statement to offset many reports that were abroad.

Col. Tisdale asked several questions but Sir Frederick Borden asked that the matter be defarred until "odds," when he would be in poissension of all the memoranda prepared by the active members of the Militia Council. The matter then dropped.

Mr. Fleher's Busy Time.

The time of the House last night was occupied with certain items in the main estimates. Sydney Fisher had much explaining to 6 as nearly all the estimates were in the Department of Agriculture. The vote of \$220,000 was divided, as follows: Commissioner \$50,000; leaving a balance of \$5000 to be distributed over the various services as their demands req

proposal.

Mr. Foster: "What about clause 18 of the autonomy bill?"

Sir Wilfrid: "I think the Minister of Justice will be in his place on Thursday next, and the debate on this question will be resumed on that date."

The House rose at 10.45 p. m.

## WHERE G. T. P. WILL BEGIN.

First Work to Be Done Near Kakabeka, New Ontario.

Ottawa, June 5.—The first construction work on the Grand Trunk Pacific will begin near Kakabeka, station on the branch which will connect the national transcontinental line with Port Arthur, Fort William and the great lakes. Kakabeka is 19 miles west of Fort William. The Canadian Pacific, will run alongside the G. T. P. at this point, and in this way supplies can be secured easily for the new road.

The location plan was approved by the Railway Commission yesterday and gives the qompany authority to build inree and four miles east and west of Kakabeka.

The Railway Commission has also asproyed of a route map showing the seneral direction of the whole branch from Fort William northward over 200 miles to a point where it will connect with the main line, save 50 miles north of the Village of Wabagoon.

Toronto, June 6.—The Ontario Government has signified its willingness to join with the Dominion Government in an appeal to the Privy Council to determine the question of jurisdiction in Lord's Day legislation. The decisions of the Supreme Court have left many important matters in such a confused state that this appeal is necessary. It will probably be argued next month.

#### DROWNED

Themas Whalen Supposed'y from Chatham Met his Death in the Detroit River

from Detroit to Windsor on the ferry.

The Chief was called up last night by the police of Detroit and asked if he knew Whalen, but he did not. Whalen was supposed by the Detroit police to be a workman from a beet sugar factory.

This morning James Whalen, who is working on some new buildings near the Grand Trunk, called up Mr. Holmes and said he had a brother, Thomas Whalen, who has been working for farmers in the country. It is supposed that this is the same man and James Whalen will at once make enquiries from the Detroit police and obtain possession of the body if it turns out to be his brother.

DERED.

It is estimated this sum was wasted last year by people trying to find a cure for eatarn't. Foolish for sufferers to experiment when it's so well known that "Catarrhozone is the only remedy that cures permanently. Other treatments only relieve, but Catarrhozone cures and prevents the disease from ever acturning. "I had Catarrh in its worst form," writes G. F. Fadden, of Royan, Que. "I was so bad that ordinary medicine didn't even relieve; but Cattarrhozone cured perfectly." No chance of disappointment with Cattarrhozone—it's certain as death to cure your Catarrh—just try it.

Strike Leaders Arrested.

Chicago, June 6.—Cornelius H. Shea, President of the International Brotherhood of Teamsters, and leader in the strike which has existed in Chicago for the last two months, and Hugh McGee, President of the Truck Drivers' Union, were arrested and taken to jail last night, on caplases issued on indictments charging conspiracy. They were later released on ball. Negotiations looking toward a settlement of the teamsters' strike were recommended last night, with some prospect that a tangible result might be reached some time within the next 48 hours.

### LABOR TROUBLE

Local Working Men Engaged by Electric Railway Make a Complaint \*\*\*\*\*\*

The city laborers were under the impression that the company's contract with the city stipulated that only local labor should be used within the city. The Asting Mayor gave them a counteous reception, but pointed out that the contract with the city did not hind the city to see that only local labor was employed and that the matten is entirely between the company and its employes. The company claims that they are quite willing to hire all the local laborers available at fifteen cents an hour. They then reserve the right of placing them at whatever is to be done—a contention which seems quite reasonable.

Bright and early this morning a deputation from the laborers of the city called apon Acting Mayor Austin to enlist the aid of the city in an attempt to prevent the use of outside labor in the work the Electric Railway Company has to do in the city.

It seems that the Company hires men at fifteen cents an hour, putting them at whatever work is to be done. The city laborers elaëm extra pay for dock work. The imported laborers do not object to doing this work for the usual pay and are, therefore, being lused.

The city laborers were under the impression that the company's contractive with the company's contractive the fact that the blood circulates at all was not known until three city at the fact that the blood circulates at all was not known until three city laborers of the fact that the blood circulates at all was not known until three city at all was not known until three city laborers of the fact that the blood circulates at all was not known until three city is until the use was made of the discovery before the tacty at the fact that the blood circulates at all was not known until three city is until the west and entire tago, and seemingly very little use was made of the discovery before the tacty at at all was not known until three city at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not known until three city is at all was not kn

The newest kind of voile is called linon voile and has a narrow stripe, which gives it a distinction from last season's weave. A useful dress for an alderly woman is made of black voile of this new variety. Emma Cole Says that Lydia E kham's Vegetable Compound has yed Her Life and Made Her Well

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Girls' modesty and oversensitiveness often puzzle their mothers and baffle physicians, because they withhold their confidence at this critical period.

A mother should come to her child's aid and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change and start the menstrual period in a young girl's life without pain or irregularities.

Miss EmmaColeof Tullahoma, Tenn., writes:

Writes;
Dear Mrs. Pinkham;
"I want to tell you that Lam enjoying better health than I have for years, and I owe
it all to Lydia E. Pinkham's Vegetable Com-

vrites:

if all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three
years I had soreness and pain in my side,
headaches and was dizzy and nervous, and
doctors all failed to help me.

"Lydis E. Pinkham's Vegetable Compound
was recommended, and after taking it my
health hegan to improve rapidly, and I think
it asved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood for I know
your Compound will do as much for them."

If you know of any yourne girl whole your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood.

In this here life. But, goodness land,
It strikes me as a rule
There ain't enough o' circus and
There's too blame much o' school.

It's mighty tryin' in the spring
To have to settle down.
I'm thinkin' bout the sawdust ring
And wishin' fur the clown.
I long to hear the big brass band
And see the (ricky mule.
There ain't enough o' circus and
There's too blame much o' school.

But dad he says I might as well
Git used to feelin' so.
He says, the Fronest truth to tell,
He's shorely like to go

# Red Rose

Because of the care in Selection and Blending.

My agents in the east are expert tea tasters, and every lot of tea that is sent down from the Gardens has to pass their inspection. They take samples from the chests and carefully taste them, then if the tea is fully up to the Red Rose standard, it is accepted and shipped; if not it is rejected.

The most important test of all, however, is when the tea arrives here, as during the passage through the Red Sea, the very great heat often affects the Tea very seriously. Immediately on arrival, samples are taken from each lot and subjected to the most rigid tests, and only those teas which have retained all their original flavor and strength are used for Red Rose (the balance is jobbed off in bulk).

When blended and ready to be put into sealed packages, it is tested again just to make sure no mistake has been made in the blending; nothing is left to chance. Will you test us by ordering a package?

TWO JAPANESE HEROES.

Bravery Displayed By Seldiers At Port Arthur.

A Japanese newspaper prints the following incidents of the fighting before Port Arthur: "There was a brave sergeant in the investing army at the rear of Port Arthur. One night he fell asleep in front of the enemy's fort. At dawn suddenly noisy voices broke out around him. He started up at once and saw that he was surrounded and about to be captured by a company of the enemy. Yet he stood still, and, taking out an explosive shell from his pocket in an instant, he hurled it with his full power into a crowd of the enemy. Smiling at them in their alarm, he went back to his own position with the speed of the wind.

"I suffered for over twenty years from Lumbugo and Kidney Disease, and at intervals was totally unable to work. After ten or twelve years of doctors' treatment, I had made up my mind that my complaint was incurable. Reading of cures by Dodd's Kidney Pills tempted me to try them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief, and after the use of seven ur eight boxes, I was fully cured and a new man.

A childless home is a cheerless home. The maternal instinct exists in every woman, and when it is nogratified she is deprived of much of the happiness of life. It often happens that childlessness is due to some cause which can be removed, and often is removed by the use of Dr. Pierce's Favorite Prescription. The vigor and vitality which this remedy imparts to the delicate womanly organs, puts them in a condition of normal health, the lack of which is often the sole obstruction to maternity. The quickest, essiest, cheapest and most effective way to rid carpets, furniture or clothing of moths, buffalo bugs or bedbugs is to spray the article intested with an atomizer filled with a mixture of bensine and carbolic acid.
A teaspoonful of acid to a quart of bensine is the right amount, and care should be taken to keep the mixture out of the reach of children, as it is poisonous; also away from light and heat, as bensine is explosive. Cooking Beets.

When preparing beets for cooking do not cut the roots or trim the leaf stalks off too closely. This as well as piercing the beets while cooking gives an ing the beets while cooking gives an opportunity for "bleeding." and the vegetable loses much or all of its color. When done drain and cover with cold water, when the skin may be slipped off like a glove. Stamped out in tiny fancy forms one slice of beet will do much in the way of garnishing a dish of saind or vegetables.—Table Talk.

Variation on the Old Chest.

The careful housewife packs away for safe keeping certain of the household clothing and bedding, in a cedar chest preferably. Sometimes an article at the bottom is desired in a hurry, when the whole contents of the chest must be disturbed and tumbled. A chest designed to avoid this and also to avoid pressing articles that must be placed below the top layers is illustrative.

Blocks Devastated.

Detroit, June 6.—An electrical storm, which was general throughout lower Michigan late yesterday, took the form of a tornado in the Thumb district. Through Tuscola and Sanilao Counties it swept a path of death and devastation half a mile wide.

The dead: Mary Smith, child of John Smith, a farmer near Urban.

Fatally injured: Three children of Edward Philpotts, small son of John Smith, Mrs. Wagnery Mrs. William Hutchinson, William Dosser, a farmer. Seriously injured: John Smith, arm torn off: Edwards Philpotts.

In addition to the above, Elisie Appleman, aged 12, was killed by lightning, at Hemlock, in Saginaw County, and George Morrow was fatally injured by lightning, at Central Lake, Charlevoix County, three men had taken refuges with Morrow in a vacant building, and they also sustained severe shocks.

Tornade at Binghamton.

Binghamton, June 6.—The worst tornado that ever visited this vicinity blew down a large number of houses and barns in the Fifth and Sixth Wards of this city last night, at 10.30 o'clook. The tornado carried devastation in its narrow path for several blocks, but so far as reported no one was killed and only one person was badly injured.

storm for many years, accompanied with thunder, lightning and rain passed over this district about 4 o'clock yesterday afternoon. James Shapton's barn, third concession, Stephen, was totally wereked; also his kitchen; Frank Treibaer's barn was completely destroyed, as well as his orchard.

A number of farmers were drawing gravel, and when the storm came up they went to Treibner's barn for shelter. The result was that one young man named Walker, had his back and leg broken and the doctors have no hopes of his recovery. His horse was killed.

Many other barns were unroofed and chimneys blown down. Parts of fruit trees and shade trees were blown in all directions.

440 BODIES RECOVERED.

Durban, Natal, June 5.—Up to the present, 446 corpses of Hindoo laborers, Europeans and others, who lost their lives through the hurricane which recently swept over Natal and the subsequent bursting of the reservoir at Pinetown, the centre of the tea and sugar plantations, have been recovered. ered.

months ago to finally determine the Alaskan boundary line.

Owing to the great obstacles encountered, the surveyors determined the line by locating the intervening peaks by observations, giving their latitude and longitude and describing an imaginary line from the two principal peaks, interesecting the intervening peaks. This gives a line which closely resembles an old-fashioned Virginia rail fence, but it is sufficient for all practical purposes. The entire region is covered by perpetual mow. It is in the neighborhood of the summit of one of the most precipitous mountain ranges in the world. It is remote and inaccessible to any one but a prospector and a mountain goat.

The task fust completed is one of the most difficult ever performed by surveyors, and they were required to traverse much wild territory some of which has never been trod by the foot of man, as far as the records disclose.
