## A WUMAN'S RIGHT TO GOOD HEALTH

Most Troubles Afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and uncertain health ak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy attractive women. This new, red blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through and every nerve in the body. the use of these pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills have done them is Mrs. L. Hicks, Round Hill, N.S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often reas about Dr. Williams' Pink Pills and decided after using three boxes I found my-self gaining, and my old-time energy and vitality was restored. Out of my own experience I can strongly recom mend this medicine.'

You can get Dr. Williams' Pink Pills through any dealer in medicine or by nail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Value of Forests.

Our forests provide work which maintains half a million people. They give work, too, for our and railway men and furnish business for our merchants and bankers. All citizens can assist in taking care of cur forests and, particularly in pro-tecting them against fire.

A person enjoys a rub-down after a hard day's work; so does a horse.

### Moving a Mountain of Copper.

One of the greatest feats ever at-tempted in metal mining is now being carried out in the United States

there is a hill known as Sacramento Hill, which is composed of copper ore and contains an immense amount of valuable metal. American mining experts have set themselves the task of digging away the whole of this hill in the next sixteen years and recovering its copper.

Forty million cubic yards of mater ial will have to be removed, and it is expected to recover from it twentyfive million tons of copper ore, which will yield a thousand million pounds of pure metal. Already the miners are vards have been dug away. huge steam shovels are employed for the purpose, and fifteen locomotives haul the material away as it it dug

The digging goes on at three different levels—sixty, forty-five, and thirty-five feet in height—and sixteen miles of railway connect these with the waste dumps where the material is stored ready for crushing and the traction of the metal.

When the work is finished there will he no hill, but in its place two pits,

## SUMMER HEAT HARD ON BABY

No season of the year is so danger ous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so tion of a model town for tubercular returned soldiers on a 7,000-acre tract hand the baby may be beyond all human help before the mother realizes land and if the report is adopted at diarrhœa, cholera infantum, dysentry and coile are most prevalent. Any one looked, but seemed to be una of these troubles may prove deadly if find anything to satisfy her. not properly treated. During the summer the mothers' best friend is Baby's

"There's a Reason"

Progress in Canada. According to preliminary estimates the gold production from the mines of Northern Ontario will amount to ap month of June, as compared with \$1,-300,000 in May and \$1,084,345 in April. The production for the quarter ounted to around \$3,734,345 and is the highest quantity in the history of gold mining in Ontario. It is expected that gold production in the next

quarter will even exceed these figures.

J. W. Broach, a farmer at Boharm, Sask., has developed a strain of fall which he claims" will revolu tionize the growing of fall wheat in Western Canada. He has experiment with the new cereal for three years. The mature strain has a red dish appearance, similar to Marquis, and gives promise of an exceptionally heavy yield from the 25 acres he has

under crop this year.

Canada's hat, cap and fur industry for the year 1919 accounted for a total production valued at \$20,790,000, which fur and fur-lined goods amounted to \$2,800,000. Cloth caps were produced to the value of \$3,700,000. The total capital invested in the industry amounted to \$14,553,814; the number of establishments 208; and wages paid amounted to \$4,145,462. A total of 4,176 people were employed in the in-

of land near Kamloops, B.C. Inspec tion has already been made of the the coming session of parliament, work will be commenced in the spring

of 1922. The Triangle Chemical Company are arranging with the city of Westminster, B.C., for a lease of all the waterfront comprised in the In-dian reserve on the North Arm. It is the intention of this firm to erect a plant for manufacturing muriatic acid, sulphuric acid, superphosphate and a sulphuric acid, superphosphate acid, superphosph

A test shipment of two carloads of horses is being made to Port of Spain, Trinidad, by Alberta livestock commissioner Carlyle. These horses are to be used for ordinary working purposes, and are costing between \$40 and \$45 per head in Alberta. shipment proves successful, Professor Carlyle anticipates a heavy movement

in the futrue.

Although the ban upon the importation of Canadian cattle into Great Britain has not yet been removed, the exportation of cattle from the port of Montreal is showing an activity that has not been seen for many years. Since navigation opened this year there have been carried from the port 7.674 cattle and 1.884 sheep.

paint spots from clothing.

Married couples do not take as kindly these days to cowbell and tin-can serenades as in the pioneer days. A man who took unto himself a third wife at Laurel in Dufferin County didn't like the blare of the kind of trumpets that greeted him the first night of his honeymoon and laid an information against the ringleaders of the reception committee with the result that one was fined \$9 and costs and the others \$6 and costs.

The apple crop throughout the Dominion, though seriously affected by recent draught, is still likely to average better than last year. The best reports, according to the Department of Agriculture, come from New Brunswick and Prince Edward Island where there is a heavy set for all varieties. Baldwns and Kings promise well in Nova Scotia, but in other varieties there has been a heavy drop reducing prospects to about 10 per cent. in excess of last year.

In Eastern Canada provincial and In Eastern Canada provincial and municipal authorities are engaging in the work of tree planting both for timber production and to hold sands from drifting over good land in Western Canada, dozens of cities and towns are planting trees along streets and in parks, while thousands of farmers are setting out shelter-belts and wind breaks. This increased interest augurs well for forest protection, because people who value trees enough to plant them are not going to allow growing forests to be burned up without demanding a reason.

without demanding a reason.

Losses estimated at millions of dollars are said to have been suffered in the province through the recent forest fires. Experts who have been engaged in preparing catimates have not yet supplied the forestry branch of the department of lands and forests with any official figures, but it was learned fro ma reliable source that in the Abitibi region alone where forest fires have certainly not taken the extensive toll of these immediately northern sections, over \$800,000 worth of forests have been destroyed.

For cool deliberate nerve the bandits of to-day, who rob banks and business places and murder when they are cornered, deserve to be handled without gloves. Neither the individual nor his home are immune. In broad daylight, along a street or public thoroughfare these vulture pounce upon their victims and regardless of the risk they run, carry out their program. There should be no tinkeriny with Justice, as such conduct should receive no quarter and fellows taught the lesson that the way of the transgressor is hard.—Brussels Post.

At the present time a series of advertisements is appearing in our columns tending to educate the people to conserve our forest wealth through fire prevetion. The destruction wrought by forest fires was brought home very closely to the weekly news paper publishers who recently toured through Northern Ontario and in the Province of British Columbia. Miles of valuable timber land has been laid waste by fire in both these Provinces the value of which cannot be estimated. The timber resources of Canada cannot be too carefully conserved and a perusal of the advertisements referred to is most strongly urged, especially in our own district what forest remains should be conserved and new wood lots should be planted out.

A heavy downpour of rain, which fell just as people were starting to move out of their homes, was all that saved the northern part of the town of St. Marys from destruction last Saturday night, when the big hopping mill of the St. Marys Milling Company was completely destroyed by fire. The blaze was the wors the bistory of the town, and calls ing Company was completely destroyed by fire. The blaze was the wors'in the history of the town, and calls for help were telephoned to Stratford When the rain came, however, it was heavy and lasted so long that a nessage was sent telling the Stratford men not to come. It reaches them just as they were starting with any some to the mill, which is own d by Mr. H. L. Rice, was fully covered by insurance. The Bos will babout \$100,000. Mr. Rice stated tha he will rebuild as you as possible.

Owing to the high cost of the Am Owing to the high cost of the American dollar, South American customs houses and surrounding yards are stacked with American made goods, while German ships with almost identical goods are discharging their cargoes and returning for more goods. America's exchange rate seems to be a two-edged sword.

the family home that afternoon at house of o'clock. Curt was a well-built young mant, the picture of health and about the last person in town whom one would expect to go, out so suddenly. He had been at work that morning as usual at the Merchants Bank, and he never looked better. The cause of his death is attributed to over-strain while indulging in physical culture exercises. He had been practising lifting various weights, etc., for some time, and told his father shortly before his death that he was now able to lift 50-lb-weights in a certain position and that when he reached 80 lbs. he was gong to discontinue his course. When a member of the family went to his room to call him to supper, Curt was lying on the floor with the weights about him. Doctors who were called stated that death had probably been instantaneous, caused by the rupture of a blood vessel of the heart. The sad event has cast a shadow over the town, and the deepest sympathy is felt for his parents and his sisters, Misses Veneta and Besther. Curt was a very manly young fellow, of gentlemanly bearing and modest disposition, and had a legion of friends. In the bank he was a most obliging and efficient clerk and no doubt would have made his mark had death spared him.— Post.

## WALKERTON.

While attending the races here on Thursday afternoon last Mr. Fred Miehlhausen, a blacksmith of Hanover, came near being made a candidate for the hospital when a car piloted by Mr. Alex Weber of the 2nd of Brant ran him down and passed over both legs and part of his body. Weber in turning the corner near the old Western hotel lamped Miehlhausen crossing in front of him and jammed on the brakesc but before he could stop his car the right fender struck Miehlhausen's left thigh and bore him down, the car passing over him. He was taken to a local doctor's where, on examination, it was found that while badly bruised, no serious eljury was sustained by the mishap.

While our citizens and others stood watching the display of fire-works at the Exhibition Park on Wednesday at the Exhibition Park on Wednesday evening of last week ano 'ter\_episode featuring the fire-demon was being enacted at Mr. Alf. Weber's house topping Yaeck's hill: Stray sparks from one of the combustibles sent up at the park alighting on the roof of the Weber residence ignited a shingle and being noticed by Mr. Weber's young son, Arthur, who fortunately was jsut returning home, an alarm was turned in and Walkerton's fire truck despatched to the scene. A few sprays from the chemical tank soon extinguished the blaze and nipped in the bud what might have-proved a disastrous conflagraton. ed a disastrous conflagraton.

### A Man is just as Young and Strong as his

Blood No man can fight the battles of life and hold his own if hisblood is not pure, for rich, red blood is what strength is based upon. When you see a strong, vigorous man, who never knows when he is licked, you may wager that such a man has coursing through his veins rich, red blood. Many people have thin, pale blood. They are weak, tire easily, become discouraged quickly, and sometimes feel like giving up the struggle. Such folks need Dr. Pierce's Golden Medical Discovery, which is sold by druggists

in liquid or tablet form.

in liquid or tablet form.

Send 10 cents to Doctor Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of the tablets.

Niagara Falls, Ont.—"I have used Dr. Pierce's Golden Medical Discovery at times for the past three years with wonderful results, and I take great pleasure in saying a word to boost the cause of 'Freedom from Illness.' I am a pressman by occupation, which is quite fatiguing and injurious to the system, but since taking the 'Discovery' business has no drawback for me. Three cheers for Doctor Pierce's medicine!"—WILLIAM H. DEMPSEY, JR., 32 Bridge Street.

### STOLEN CAR FOUND

Chief Ferguson received word on Saturday from Mr. R. B. Muir of near Chesley stating that his car which had been stolen from the exhibition grounds here on Wednesday night of last week while he and his party were watching the display of fireworks, had been discovered that morning in a ditch about a mile and a half south of Tara. A quantity of women's wraps and other articles, valued at about \$100, were, however-removed from the car. Mr. Muir has suspicious of the perpetrator of the theft and hopes to have the statutes opened in the near future over the affair.

## The Formosa Mutual Fire Insurance Company

ESTABLISHED 1880

nout a Permit

THE welfare of new agricultural communities in this Province requires that land clearing be done with the cheapest agent at hand—Fire. Therefore, restrictions must hamper settlers as little as is consistent with safety to lives and property. Disastrous experience proves that in hot, dry weather unregulated use of fire in thickly wooded Northern Ontario means a menace to the lives and property of settlers and destruction of the provincial forest resources upon which a large part of Ontario's revenue and the livelihood of thousands of her citizens depend.

That is why Ontario adopted a "Close Season" and the "Permit System" for setting out fire. But, remember, whether you have a permit or not, you are responsible for damages caused by any fire you light. Be careful—

Save Ontario's Forests
They're Yours

it be thoroughly extinguished before quitting the place.

The "Close Season" applies to all Ontario north of Bobcaygeon and Smith's Falls and west of the line from there to Renfrew.

The Permit Area includes those parts of Nipissing, Sudbury, Temiskaming and Algoma lying north of the C.P.R. between Mattawa and North Bay and north of the C. N. R. westward to a point some 35 miles beyond Hornepayne.

The remainder of the Province forms the Exempt Area. Within the sparsely peopled Exempt Area no permits are generally issued, but those setting out fires in the "Close Season" are required to exercise every reasonable precaution and a Chief Fire Ranger, if he deems it wise, may serve a Prohibitory Notice and require a person to take out a permit.

The Fire Ranger does his best to follow the happy medium between the desire of the settler to "get a good burn" and the requirements of Public Safety. Help him all you can.

Ontario Forestry Branch Parliament Bldgs.,

Toronto, Ontario

The "Close Season" for setting out fire in Northern Ontario is from April 15th to September 30th. During that time within the Permit Area no one may set out fire for clearing land, disposing of debris or other inflammable waste, or for any industrial purpose, without first obtaining a written fire permit from a Fire Ranger. This applies not only to settlers but to railway section crews, camp and mill crews, road builders, including Government employees, and all other persons.

When starting fire for cooking and camping, the law requires that a place be selected free from in-flammable material, that every rea-sonable precaution be taken to pre-yent such fire spreading and that

## SOUTH IRELAND PARLIAMENT TO MEET ON AUGUST SIXTEENTH

Greenwood Has Authority to Release All Members of Sinn Fein Assembly Who Are Now in Jail on Receipt of Summons to Attend Meeting.

A despatch from Dublin says:-It These stories have been officially de-A despatch from Dublin says:—It may be a decision share been officially denied. Ulster has made no decision between meet in Dublin, August 16, for the purpose of reviewing Lloyd George's offer and deciding upon a reply.

The attitude of Ulster also will be considered.

The august 16 of the North and the south, but the informal talks are still going on, and it is believed are progressing favorably.

Sir James Craig returned to Belfast from London Thursday morning and

The attitude of Ulster also will be considered.

The summons will be sent to all Dail members, including those in jail, and it is taken fos granted in Dublin that they will be immediately released, although no formal request for their freedom will be made.

A despatch from London eays:—

A despatch from London eays:—

The British Cabinet has already given power to Sir Hamar Greenwood, Chief Secretary for Ireland, to release Dail Eireann members should it seem advisable, and it is understood he will take the receipt in jail of sommons to attend the Dail Eireann as a request for the release of the prisoners.

Many are in English jails and cannot reach Ireland before Sunday or Mcnday at the earliest.

Sensational stories were published in some English papers on Thureday, stating that Ulster had definitely and finally refused to have anything to do with the peace proposals, and insisted upon retaining her present status.

The British Cabinet has already given present. No statement was given, but it is understood it was occupied with routine matters, such as appointments and plans for the session of Parliament, etc.

It is expected in Belifast that formal proposals soon will be received from Dublin, and it is likely the framing of these will form part of the work of the coming meeting of the Dail Eireann.

Great pressure is being brought on the Belifast leaders both by the Government in London and Belifast business men for a settlement—by the Government, because it is anxious for an Irish peace in view of the general international situation, and by the business men because they have been hard hit by the Southern boycott of Belfast traders and industry.

Districts. A despatch from Paris says:-The entire organization for Russian relief is in the hands of Herbert Hoover. When Walter L. Brown, European director of the American relief ad-

ministration, arrives at Riga from London for the purpose of distributing relief in the famine districts of Russia he will find scores of all classes of Russians and people of other nationalities, anxious on one pretext or another to accompany the relief administration's forces into Russia, according to a dispatch from United States relief

rivals in Riga, there was no indica-tion of famine. Small numbers of refugees had managed to reach that city, but it was said the Government was attempting to direct the masses into the fruitful regions of Siberia and the Ukraine, instead of permitowing to the fact that many vil-

## DROUGHT AND HEAT IN SWITZERLAND THREATENS WATER SUPPLY

A despatch from Berne says:—The long and continued drought and heat in Switzerland is causing the authorities great anxiety. Already in some places the water supply is cut off at certain hours, and although the glaciers are melting at a terrific rate, owing to the scorching sun, and frequently wash away stretches of roads and mountain railway lines, nevertheless, the springs of non-glacier streams and lakes are drying up so much that the Swiss Government has just appointed a special commission of experts to consider what measures must now be taken to safeguard the country's water supply for domestic use and for electrical power. They are studying the best methods of accumulating electric power, which is

# FIRST ITALIAN LINE TO CANADA

### Sailings Diverted from Present New York Service.

A despatch from New York says:— Shipping circles here have been in-formed that the Navigazione Generale Italiana Line has directed part of its ships into a new Italian-Canadian

service.

This is said to be the first Italian This is said to be the first 1930an line that has been established between Italy and Canada. The reason attributed for the move is that Italian navigation lines between the United States and Italy are having great difficulty in finding business for their liners at the present time, due to the enactment of the present United States immigration law.

According to information here,

According to information here, other steamship companies are also occupied on the problem of finding other fields for the surplus Italian population and it is expected that one or two more Italian companies will commence sailing to Canada, divert-ing their present New York service to that effect.

Receipts of cattle were exceptionally heavy yesterday at the Union Stock Yards. In fact, when the day's agrivals of 4,438 were added some 400 left over from the previous week, the offerings were a little larger than the market could readily absorb, especially in consideration of the fact that the bulk of the receipts were of only good to medium quality. Except for choice heavy cattle which held steady, prices generally were easier, yielding, about 25c per cwt. below last Monday's quotations on good animals, while common grades were down 50 cents per cwt. Eleven cattle averaging 1,545 pounds sold at \$8.50; and several others sold at \$7.75 while good prices for the day were \$7.50 and \$7.65. The strength of the better classes of cattle was largely due to the demand from the abattors who appear to be doing an active trade shipping dressed oarciseses 60 the United States. Present cations are that the supply and heaf

as high as this price. Choice veals were wanted, but a large proportion of the calves on the market were of inferior grade. Sheep were steady at \$3 to \$5.50, demand being fair for nice handyweights. Fat sheep and culls sold at from \$1 to \$2 per cwt.

The hog market was strong with packers paying \$12.75 to \$13 per cwt. f.o.b. Supplies were light and demand very good.

The death rate in Toronto from auto nobile accidents is almost one a day

Advertising tells who you are, what you are, and what you have to offer. The only man who should not advertise is the man who has nothing to

A verger-was showing a visitor round a church. The passage through the wooden altar-rail was flanked by two stout posts with particularly large and round wooden knobs on top Nothing interesting about them. No one would think of photographing one them. But he would after hearing he verger. "A little while ago, sir," said, "we had a very short-sighted nop here, sir, and he confirmed one had a were knob."

Quite a number attended the Waterloo Tattoo last week.

Miss Frieda Baetz is spending her holidays with friends in Hanover.

### CRIES OF DOG SAVE OLD LADY

Wingham, August 6.—Attracted by the persistent and appealing cries of a little dog, Harry Allen, C. P. R. section boss, while crossing the C. P. R. bridge, just north of here, on his way home from work, looked down and discovered a woman lying in the Maitland River with her head on a stone. He learned later she was Mrs. Utting an elderly widow of this place.

Hurrying down the embankment Allen pulled the unconscious form to the shore. Mrs. Utting was lying in about three feet of water. Help was summoned and the woman taken to her home. When she recovered consciousness she told her story.

She said she had gone down to the stream and was amusing herself by throwing sticks into the water for the dog to swim after and bring back. While in the act of making a throw Mrs. Uttirg said she slipped and fell into the water, striking her head on the stone. She will recover.

### IN MEMORIAM

In loving memory of Conrad F. Baetz, who died on August 10th, 1920.

There is a world above There is a world above.
Where parting is unknown;
A whole eternity of love
Formed for the good alone:
And faith beholds the dying here
Translated to that happier sphere.

Mother, Brothers and Sisters.

It's a long way to Christmas, but we're getting there.

Trotting and paring races will occupy four days at the C.N.E. this year.

Some call marriage a beau knot. When the beau has no dough its a case of doughnut (do-not.)

Paper bathing costumes are now being manufactured, but we would g manufactured, but we would arcely advise any person possessed a shrinking dispositon to don one.

There is a widespread belief that when the census returns are tabulated it will be discovered that most of Canada's troubles are due to growing

of pains.

The chauffeur never spoke except when addressed, but his few utterances, given in a broad brogue, were full of wit.

One of the men in the party remark ed: "You're a bright sort of a fellow, and it's easy to see that your people came from Ireland."

"No, sor; ye are very badly mistaken." replied Pat.

"What!" said the man. "Didn't they come from Ireland?"

"No, sor," answered Pat, "they're there yet."

"No, sor," answered Pat, "they're there yet."
