

ENFORCING CITY BY-LAWS.

Police Are Carrying on a Pretty Vigorous Campaign.

Lord's Day Act Case To-day, and Fine Imposed.

Rule of the Road Case Also Before Magistrate.

That the police are working hard since donning their summer togs is evident by the large number of law-breakers that face the Magistrate each day.

Constable Ducaan had Dennis Bennett, Joseph Bennett and Henry Ainsborough charged with being disorderly.

Ainsborough was allowed to go. Bennett was fined \$3 and Dennis Bennett had not been served with a summons.

A charge was brought against H. Smernoos for breaking the Lord's Day Act by selling goods on Sunday.

J. G. Gauld appeared for the defendant, who pleaded not guilty. A small boy gave evidence that he had purchased ice-cream for which he paid 20 cents to a clerk in the employ of Smernoos.

Mr. Gauld questioned the policeman as to the nature of business carried on by the defendant and the officer said it was a restaurant and ice-cream store.

Mr. Gauld questioned the policeman as to the nature of business carried on by the defendant and the officer said it was a restaurant and ice-cream store.

CANNOT UPSET THE LIGHTING CONTRACT

That Was the Opinion Freely Expressed in the City Hall This Morning.

In the City Hall to-day the aldermen and officials refuse to treat seriously the threatened attack in the courts on the city's five-year lighting contract with the Cataract Power Company.

It is a matter of conjecture who the man behind the gun is in the present action, or where the funds are coming from to carry on the legal fight that is expected to be waged.

SAVES BOY.

Dog Carries Rope in Teeth to Drowning Lad.

New York, June 15.—Just as soon as Freddie Pudmore gets money enough, he is going to buy Blitzen. It is doubtful, however, if he ever will accumulate a sum sufficiently large to tempt "Jack Helper," who owns Blitzen.

Freddie, who is sixteen years old, and lives at 501 East 112th street—the present tense is due to Blitzen—was rowing down the Harlem river late yesterday afternoon when the swell from a railroad tug began to toss his frail craft until he was afraid it would capsize at any moment.

With all the strength of his young arms he pulled for a boat house at 124th street, reached it safely, pulled his boat up on the float and remarking a self-congratulatory tone to the man who was loitering near by: "Gee, that was a narrow squeak!" promptly missed his footing and fell overboard.

There was a swift tide running and Freddie was swept among the spiles of a dock, only a few yards away, but a difficult place to reach. The man on the float was ready witted. He took in the situation at a glance, turned his head and whistled. In a moment a nondescript cur, which never won a blue ribbon in his life, ambled down from the boat house. He was none other than Blitzen.

"Here, said the man, who had obtained a rope in the meantime. He tossed one end of it to Blitzen, who caught it between his teeth. Then he whispered something which only Blitzen could understand, and in a second the dog was overboard. He made straight for Freddie, who was just able to catch the rope. The man and the other end pulled and in a few moments the lad was on shore, where a few revolvers on a barrel effectually pumped him out.

A FALLS EXCURSION.

Railway Trainmen Announce One For Thursday Morning.

Next Thursday morning at 8.15 an excursion train will leave the T. H. & B. Hunter street station for Niagara Falls. It is being run under the auspices of the Brotherhood of Railroad Trainmen, and it is its fourth annual outing.

WHITE PLAGUE.

Wrong to Send Advanced Cases Away From Home.

Buffalo, June 15.—Dr. W. S. Friedman, president of the State Board of Charities, Denver, Col., opened the discussion of the topic, "Health and Sanitation," at the National Conference of Charities and Correction, to-day, in an address on "The Great Wrong of Sending Advanced Consumptives Away From Home."

MARCHED TO CAMP.

Col. Rennie's Men Made Record Tramp to Niagara-on-the-Lake.

LIEUT.-COL. RENNIE (Special Despatch to the Times.)

OFF TO CAMP.

Field Battery and Seventy-Seventh Left To-day.

Hamilton Field Battery left for camp this morning, under command of Major W. O. Tidwell. The battery paraded early, and the men, horses and equipment presented a fine appearance.

GLANFORD AND CARLUKE.

Joint Meeting of Branches of Women's Institute.

The joint summer meeting of the Carluke and Glanford branches of the South Wentworth Women's Institute was held on Saturday, June 12, in the Mount Hope Methodist school room.

AT NIAGARA.

Army Service Corps Has Things Ready For Soldiers.

Niagara Camp, June 15.—(Special.)—Like all other regiments who are coming to camp this year, the strength of the Hamilton units which have arrived here has been greatly reduced.

A TOTAL LOSS.

Liverpool, June 15.—The captain of the Gurnard line steamer Slavonia, which was wrecked last week on Flores Island, in the Azores, telegraphs that it is impossible to save the vessel, and that she will be a total loss, together with all the baggage of the saloon passengers that was in the hold.

13 DAYS AT SEA.

Philadelphia, June 15.—Two of the fishermen from the fishing schooner Nettie Franklin, who disappeared in the fog off Cape Cod last week, have arrived here on the tank steamer Aral. They had been in a dory thirteen days when picked up.

CANADIAN ORDER OF ODDFELLOWS.

Grand Lodge Meeting Opened in This City To-day—A Year of Progress.

LIEUT.-COL. RENNIE (Special Despatch to the Times.)

The annual meeting of the Grand Lodge of the Canadian Order of Oddfellows opened this morning in the large hall of the Sun Life building, James street, at 10 o'clock.

NO CHARGE.

Cataract Company Knocks Off Minimum to Beach People.

An order has just been issued by the Cataract Company that will please householders who use electricity for lighting, and who go to the Beach for the summer months.

A HOME FOR FINE ARTS.

Determined Effort Being Made to Save Library Building.

If the many bodies which meet in it, and some which do not, but which carry a good deal of weight in the city, can prevent it the Public Library building will not be sold, but will be retained by the city.

MADE CRASH.

Horse Broke the James Street Window at Treble's.

A horse which was being driven by Edward Ladd, a fireman of the Victoria avenue station, but who was off duty, became frightened at the cars this morning, and created quite a stir.

THE DOGS.

Special Meeting of the S.P.C.A. Has Been Suggested.

Mr. Adam Brown, President of the S. P. C. A., has received the suggestion that he call a special meeting of the society to consider what action, if any, should be taken in regard to the enforcing of the new dog by-law.

ANNEXATION.

Mr. Duff to Prepare Draft For Township.

Barton Township Council spent a good many hours yesterday discussing annexation, and endeavoring to reach a basis on which to go before the Railway and Municipal Board when it meets next week.

148 THE LUCKY NUMBER.

The Ladies of the Maccabees, Hamilton Hive No. 290, entertained their members and friends last evening.

MOONLIGHT POSTPONED.

The Street Railwaymen's moonlight announced for to-morrow night, has been postponed until July 7, owing to the delay in the arrival of the Hamilton Ferry Company's excursion boat, John R., which is at present receiving its finishing touches in the yards at Kingston, and which is expected here within a week.

GOT VERDICT AGAINST SON.

E. W. Johnson Given Judgment For \$200 For Assault.

Will Case of Baguley vs. Misener Being Tried To-day.

The Court Will Probably Conclude This Afternoon.

The fight of Andrew Hunter vs. the county of Wentworth was continued yesterday afternoon at the General Sessions. Several witnesses were called for the plaintiff, who swore that the pile of coal with a hose on top was placed in a dangerous place in the road, and that any ordinary horseman would have difficulty getting past that obstacle unless he was driving a fairly quiet horse.

WANTS TO KNOW WHY THE CORONER HELD PRIVATE COURT.

New York, June 15.—A London despatch to the Times says that notice was given in the House of Commons last night of the question which Peter Curran, member of Parliament for Jarrow, will put to Home Secretary Gladstone regarding the suppression of the facts brought out at the inquest into the death of Mrs. Antonio Ruiz, who committed suicide on May 18.

MURDER AT MONTREAL. Body of Russian Found in River—Killed at Boarding House. Montreal, June 14.—The autopsy on the body of a Russian named John Latavensky, found floating in the river on Sunday, revealed that the man had been murdered before being put in the water. A friend of the victim identified the body to-night, and told the police that Latavensky had been killed during a quarrel in a Russian boarding house on Forsyth street ten days ago, and that the body was carried to the river and dropped in at night. As a result of the discovery the police have made two arrests. The police are on the hunt for the proprietor of the house, who is supposed to be responsible for the tragedy. Even a fat man may be quite successful at dodging an issue.

Our Popular West Mount Survey Possessing every natural residential advantage, where a large number of our wise citizens have already purchased future homesites, and where Real Estate is in excellent demand, and values certain to advance is a Safe and Profitable Investment. The southwest end is an everybody knows rapidly building up with the best class of desirable homes, and West Mount should be to Hamilton what the now celebrated West Mount is to Montreal. FLATT, Room 15, Federal Life

STATE CAPITOL IS SEIZED. Governor Breaks in and Puts Guards Inside. Charges of Graft Made Against Legislators. Abandonment Only Charge Now in Gould Case. Little Rock, Ark., June 15.—Governor Donaghy and two members of the State Commission formally took possession of the uncompleted capitol, after breaking through the door, which had been locked by the contractors, Caldwell & Drake, of Columbus, Ind., whom the legislature ordered discharged. The Governor left structural engineers in charge of the building. Last night Geo. W. Caldwell, of Caldwell & Drake, declared that his firm still had possession of the building. The new capitol, which has cost nearly \$1,000,000 already, and which engineers say is only about half completed, has been the bone of political contention in Arkansas for years. Legislators have been charged in the courts with grafting in connection with the capital appropriations, and Gov. Donaghy was elected Governor on the capitol question. He, as a contractor, has been opposing Caldwell & Drake in the construction of the building for years. THE GOULD DIVORCE CASE. New York, June 15.—Abandonment was the only charge upon which Mrs. Katherine Gennons Gould's suit for separation from Howard Gould rested when the hearing of this case was resumed to-day. The charges of cruelty and non-support, which were a part of Mrs. Gould's original complaint, having been stricken out by Justice Dowling at the motion of counsel for Mr. Gould, today's evidence was confined to that bearing on abandonment only. Mrs. Gould has declared that she had not spoken to Mr. Gould since July, 1906, when she had complained to him about the conduct of Maurice Malloy, whom Mr. Gould had put in charge of Castle Gould, the Long Island home of Mr. and Mrs. Gould. Subsequently, Mrs. Gould said, her husband sent Elijah W. Sells to her to say that Mr. Gould would return to her if she would agree to certain conditions of her would arrange either for a separation or divorce. These proposals were rejected by Mrs. Gould. Sir Wilfrid Laurier arrived in Toronto to attend the wedding of Miss Eileen Melvin Jones and the Rev. Crawford Brown. Sir Wilfrid Laurier will be the guest of Mr. and Mrs. Melvin Jones.

WOOL OUTPUT. Wyoming to Produce 40,000,000 Pounds This Year. Cheyenne, Wyo., June 15.—Wyoming this year will produce 40,000,000 pounds of wool, for which the growers will receive \$8,000,000 gross, according to conservative estimates from authoritative sources. The clips average close to eight pounds per fleece, and some of it has sold as high as 25 cents per pound. All previous records for the wool clip have been broken, and that of 1907, which was the banner year, is exceeded by nearly 4,000,000 pounds. MRS. CLEVELAND Called as Witness in a Grand Larceny Case. New York, June 15.—With Mrs. Francis Folsom Cleveland, widow of the late Grover Cleveland, called as a witness, the trial of Broughton Brandenburg, the magazine writer, on a charge of grand larceny, began in the supreme court to-day. The charge against Brandenburg grew out of the same newspaper article which Brandenburg is alleged to have disposed to a newspaper on the representation that ex-President Cleveland was the author. Mrs. Cleveland afterward repudiated the article. A murder trial, which was on the calendar of Justice Fitzgerald's court, was interrupted in order to meet the convenience of Mrs. Cleveland, who wishes to leave the city to-morrow for her summer home in New Hampshire. It was agreed that the Brandenburg trial should be adjourned as soon as Mrs. Cleveland's testimony was taken, and continued after the murder trial. OROHYATEKA. Court Oronhyateka, Independent Order of Foresters, met last night. There was a good attendance of members and more than the usual number of visitors. Five applications for membership were received. The election of delegates to next High Court meeting at Chatham in August next was the principal order of business. Those elected were: George Rousseau, Roy Davis, George Wilson, Dr. H. A. Robertson, David Binney, Thos. Rousseau, John Patterson, Horace Elmer, Wm. Weeks, Fred Havers, H. T. Drope, A. Lay; alternates, C. H. Peebles, R. Stevens and Ed. Patterson. C. C. Baird, Chas. Tregenza and M. J. Pirie acted as scrutineers. Hamlet Barnes—I suppose, madame, you have special terms for actors? Boarding Mistress—Yes, sir; strictly cash terms.—New York Evening Telegram.

CHIEFS OF POLICE. Meeting of the International Association in Buffalo. Buffalo, June 15.—When the opening session of the International Association of Police Chiefs was called to order here to-day by Major Richard Sylvester, of Washington, D. C., the bulk of the delegation of visiting chiefs were present. The session was brief. Mayor Adam delivered a warm address of welcome, to which Major Sylvester responded. Routine business, including the appointment of committees, was transacted, after which an adjournment was taken to enable the visitors to witness the feature of the day, the parade and review of the local force under Chief Michael Ryan. Upon the conclusion of the review the chiefs were taken to the Lang farm, where they were entertained to a barbecue. The day's programme closes with a banquet to-night. SCOPED UP BY DREDGE. Remains of a Man Found in Water at North Sydney. Halifax, June 14.—While the Government dredge Cape Breton was engaged in dredging at the east side of the Nova Scotia Steel & Coal Company's pier at North Sydney to-day a man's body was scooped up from the bottom. The head and one arm were missing, and the remainder of the body was badly decomposed. It is supposed to be the body of Daniel Boyd, of Sydney Mines, who disappeared last October. A brother of the deceased viewed the remains, but identification was impossible. IN INTERESTS OF PEACE. Sixty English Clergymen Visit the German Emperor. Berlin, June 14.—The Emperor to-day received in audience at the palace at Potsdam sixty English clergymen. He made a brief speech in English, expressing the real pleasure it gave him to see the representatives of the English Christian Churches in Germany. He hoped the visit would tend to promote the good feeling between the two great kindred nations. Sir Wm. E. Goschen, the British Ambassador to Germany, in introducing the deputation, said they came in the interests of peace and good-will, and were deeply touched at the heartiness of their reception at Hamburg and Berlin.

IF A CAT HAS NINE LIVES, THIS MAN MUST HAVE NINETEEN. ALONZO SOUSLIN, IN HIS ODD HARNESS, AND HIS WIFE AND CHILD HE SUPPORTS BY SELLING POST CARDS. Dayton, O., June 15.—If the theosophists are right, Alonzo Souslin must have been a cat in some previous existence. He must have at least a dozen lives. You can't kill him. Souslin has fallen from buildings and had them fall on him, has dropped in various trains, has broken wrists and ribs and legs, and a few months later would be hobbling around as good as ever. Now he's broken his neck and lives to tell the tale. Souslin had a six-foot plank drop on the back of his neck two years ago in Dayton. It left him unconscious for eight days, and in bed for nine months. Then he got up, and is now actively engaged in his old job of making a living for the Mrs. and the baby. "I just couldn't let myself die," he says himself. "I couldn't think of going off and leaving the wife and baby helpless and alone. So I just gritted my

teeth, and hung on to life. And after a while I got well." Souslin is unable to do hard work any more. He has to sleep on his side, and eat very slowly. A man with a broken neck can't be expected to move around as lively as other men. He is making his living since his last accident by selling postcards and pictures of himself and the story of his life. A history of Souslin's accidents during the last four years alone include these: Columbus, three broken ribs, six weeks in hospital. Chicago, locomotor ataxia, caused by strain, six months. Chicago, typhoid fever, cause night work and bad water, eight weeks. Dayton, as boiler-maker, had sciatic nerves of hip wrenched loose, eleven weeks. Dayton, painting school, fell two stories and broke leg in two places, nine weeks. Dayton, October, 1906, neck broken.

Jerseyville. Mr. L. West, son of Reeve Wait, who entered the Federal Bank at Hamilton a few months ago, has been promoted to the branch at Waterdown, at an increase in salary. His duties begin on the 14th inst. The enterprising young merchant, Mr. J. Lee, has fitted up an ice-cream parlor in connection with his store, which is being well patronized. Mrs. Fulkerson of Brantford, is spending a few days with her parents, Mr. and Mrs. Dodman. Mrs. A. Welsh, of Mount Pleasant, and son, Bernice, spent the week end amongst old friends in the village. Mr. G. R. Patterson has disposed of his house and lot to Mr. D. Smith at an advance on the cost price. Mrs. Anderson, of Detroit, and daughter Mary, have returned home after spending a few weeks with her parents. The boys have organized a football association. An enthusiastic meeting was held in Lee's hall on Saturday evening. Mr. W. S. Wait was elected manager, Roy Smith, Secretary, John Brooks, Treasurer and G. H. Swartz, captain. Flower Sunday services in the Methodist Church here, will be conducted morning and evening by the District officers of the Epworth League, namely Mr. C. Smith, St. George, President; Mr. Lloyd Miller, Brantford, Secretary; and Mr. Scutten, Vice-President. Mr. and Mrs. James Smith have moved into their new home, formerly owned by Mr. George Petrie, Lot 12, Main street west. Mr. Petrie is still living with his son in St. Catharines, in his 90th year. All persons interested in the Jerseyville Cemetery are requested to meet on the grounds on Tuesday, June 22, at 8 a. m. Extensive improvements by way of a new fence, removing all obstructions in the grounds, adjusting plots on a system of uniformity and other important business, is contemplated by the Board of Management.

Harrisburg. There died at his home in Cedar Creek, Manitoba, on May the 31st, Mr. John Hall, aged 78 years. The deceased was well known throughout these parts having spent all his early life here. He was buried at Dauphin City, Man. On Wednesday morning last while Mr. H. Young was on his way to work at St. George, he discovered a broken rail just west of the village. As an east-bound train was approaching Mr. Young flagged it, thereby preventing what might have been a serious accident. Miss Hanna Savage, of Brantford, was calling on friends in the village a few days last week. Mr. John Shipman has secured a situation on the G. T. R. section at this station. Harrisburg and St. George Junior football teams played a friendly game here on Saturday evening, the score being one goal in favor of the visiting team. Mr. and Mrs. F. C. Braithwait spent Sunday last with friends in Hamilton. Mr. A. Steedman, G. T. R. baggage-man at this station, spent Sunday with friends in Burford. Miss Nellie Dargie, of Brantford, was calling on friends in the village one day last week. Mrs. John Berry spent part of this week with friends in Hamilton. Mr. and Mrs. D. Mack was the guest of their parents a few days last week. Mr. Earl Cherry, of Brantford, was the guest of his parents here over Sunday. Mr. and Mrs. E. Papple, of St. George, spent Sunday with friends here. There was a large shipment of hogs from this station on Monday.

Ancaster. Dr. Farmer, of the Army Medical Corps, has left for camp. W. E. D. Farmer, manager of the Bank of Commerce at Durban, is home for the holidays. Mrs. Rogers, of Toronto, is the guest of Mrs. Eggleston, of Treelawn. James Cook is building a brick house near the B. & H. station, which will further improve that locality. The farmers have little cause to complain in this part of Ontario as the crops look splendid and the fruit crop will be large. Mr. Reinke is still extending the telephone lines and is at work on the central station. A temporary settlement is pending in part of Mr. Knirk's law office. The tennis courts are being patronized largely by the young people of the village. Miss Fisher, one of the teachers in the school, is leaving. She will attend the Normal.

Vineland. Mr. Bissell has started to build a new house on his lot recently purchased. Miss Annie Moyer is visiting friends at Beamsville. Miss Mabel Overholt, who has spent a week at Hamilton, has returned home. D. W. Fry has added a coat of paint to his new house. Mrs. Jas. Honsberger and Miss Gerdie have returned home, after spending a week with friends at Selkirk and Rainham. Hedges are being sacrificed preparatory to building a cement walk along the town line. Wesley Moyer spent Sunday with his sister, Mrs. J. Houser. S. Overholt and Mabel visited friends at Jordan Station on Sunday. The work of macadamizing the town line has been commenced, and people are looking forward to a good road in the near future. The M. B. C. camp meeting has closed. The Pentecostal Mission is holding revival services at Markham this week. A number of Italians are engaged laying tile along the town line. A number of soldiers passed through the village on Monday, en route to camp at Niagara. The school gardens are looking lovely at present. Mrs. M. Werner and Mrs. E. Hoover, of Selkirk, called on friends here recently. A. Moyer, of Bolthwell, has returned home after a short visit with friends here. Mrs. E. Brand has returned from a trip to Buffalo. The only ones some men make in the world come from their exploded theories.

THE HAMILTON TIMES

TUESDAY, JUNE 15, 1909.

MORE LITIGATION.

The Hydro-Electric schemers are seeking more litigation, this time threatening to attack the Street Lighting Contract, which Mr. Justice Anglin held to be within the competency of the Council. Just who is behind the movement has not yet been disclosed, the Council merely being notified by a lawyer that if it proceeds to carry out the contract, action will be taken to attack it in the courts. The manner of the proceeding smacks of an attempt to bulldoze the aldermen, but none of them appear to exhibit any alarm over the threat, and His Worship's remark that "there is nothing to hinder persons going to law if they have a mind to," evoked an approving smile from his colleagues. It will take more than a threat thus made, to establish the authority of the would-be Hydro-Electric Czar of Hamilton as an ex-officio ruler of the Council.

It is interesting to note the absence of any general manifestation of interest in the campaign of the Hydro-Electric agents. More than 5,000 of the qualified voters did not take the trouble to go out and cast a ballot upon the question; and, although it was intimated that the matter was to engage the attention of the Council last night, and policemen were on hand to preserve order, only seven persons were present to hear the discussion. The Council, as was expected, appointed a committee to obtain information on the subject, and report to the Council. This committee consists of Mayor McLaren, and Ald. Jutten, Anderson, Peregrine, Morris, Allan and Cooper. An effort was made to secure the placing on the committee of Ald. Wright, who attained considerable notoriety by his name being attached to the astonishing Hydro-Electric circular distributed throughout the city before the voting on the by-law, but the dose was too strong for the Council to swallow, and only 6 votes could be counted for it. Can it be that the statements made in that manifesto weakened the confidence of the Council in the author's usefulness as a member of such a committee? However that may be, the committee appointed has no small task to perform, if it does it in a business manner. There should be no undue haste; there need be no waste of time. Mayor McLaren has intimated that, if necessary, a special meeting of the Council will be convened to suit the committee's convenience, should it have completed its work before the regular meeting. A remark made by Ald. Jutten would indicate that, at least, appreciates that there are difficulties in the way, and that much information is due the Council before it takes action in the matter. When the special committee begins its inquiry, the need for this information will become more obvious. The alderman or ratepayer who fancies that the question presents no difficulties is delightfully ignorant of its merits, and of the conditions to be faced and is an easy mark for the Hydro-Electric sharpers.

ROOSEVELT AND TAFT.

In an article in the National Review dealing with "American Affairs," A Maurice Low gives an entertaining and enlightening study of President Taft, and makes some striking contrasts with his predecessor in office. He particularly refers to Taft as a man of coolness, discrimination and poise, retaining the life-habits of the lawyer and not to be swayed from his course "by the yelping of the yellow press and the holier-than-thou journals, who are never happy unless they are leading a crusade in the interest of morality and the net profits from an increased circulation." He thinks Mr. Taft approves of reforms which Roosevelt attempted to carry out; but not some of his methods. In short he is of opinion that Mr. Taft's conclusion would be "that a socialistic and agrarian movement went further than Mr. Roosevelt intended or countenanced, but he was powerless to check it after it had gained momentum." In the change of presidents he thinks, apparently, that there has been no loss in capacity, while there has been a decided gain for caution.

Perhaps this extract from Mr. Low's paper will enable the reader to appreciate his judgment of the two men: "The inanimate objects with which a man surrounds himself are as indicative of his character as his intimates. When Mr. Roosevelt was President a striking object in his official office was a rifle. It stood in one corner of the room; it was the symbol of Roosevelt. In this same room now sits Mr. Taft, but where the rifle once was there is a bookcase. In Mr. Roosevelt's presidency there were neither books nor bookcases; the official library was limited to an official directory or two. Now a bookcase stands against every wall and in the cases are legal works, not with smooth and unmarked bindings showing that they have just left the publisher's hands, but with that crease in the back that, like the furrow between a man's eyes, tells they have served a useful purpose. One notices as his eye wanders about the room that these books are not there on dress parade, but in many of them there are reference slips in proof that they are frequently consulted. It is a well-thumbed lawyer's library that the President has at his elbow. There is a story current in Washington that a few days after Mr. Taft's inauguration a question was under discussion at the White House and before pronouncing an opinion he desired to read the exact wording of the Constitution, and he sent for a copy of that instrument. After some little search his private secretary happened to be present at the time and the President gently twittered him on the omission. "We didn't have much for the Constitution," the former private secretary is alleged jokingly to have replied. "I think we will place the

Constitution where it properly belongs," was Mr. Taft's reputed answer. The incident may be mythical, but a good many persons think it is significant.

Large as Mr. Taft is, he is not greater than the constitution; and he proposes to keep within it, and to use the means it prescribes in carrying on the Government under it. If he continues along that line, his administration will be a success.

THE DEFENCE CONFERENCE.

While some Canadian Tory papers have suggested that Mr. R. L. Borden, leader of the Opposition, be invited to attend the Imperial Defence Conference, others strongly oppose the idea, taking the ground that Mr. Borden should refuse to commit himself in any way on the question of defence policy. Meanwhile, the London (Eng.) Canadian Gazette, strongly Tory in its sympathies, urges that not only Mr. Borden, but Mr. Foster, also, should go to the conference. It assumes that Canadian opinion is unanimous on the subject, but it thinks that such an expression of it would be valuable. We quote:

The resolution of the Dominion House of Commons pledging support in defence of the Empire had the support of Mr. Borden and his colleagues no less than Sir Wilfrid Laurier and the Ministerialists. They expressed together the national will, and it would be an excellent object lesson to the politicians of the mother country were Canada and New Zealand to send to the conference the heads of both parties in the State. The Empire needs some such practical demonstration of the national will that this vital question shall be divested of all partisan elements, and be considered and decided upon entirely from the national and imperial standpoint. One thing has been done: the Canadian national purpose has been declared by both political parties in the State—the motherland must be strengthened in the way that is most effective, and by bringing Mr. Borden and, say, Mr. Foster to London in company with themselves, Canadian Ministers would best assist in giving effect to that emphatic declaration.

The Gazette is not eager to smooth the way for the present British Government, and makes it abundantly clear that it would like to make all the party capital possible out of this defence matter. It is inclined to cavil at the Australian and Canadian demand that "representation must accompany taxation," and it smiles indulgently at the notion of Canadian and Australian navies under a system of autonomy. However, it is good enough to admit that "after all, Canada and Australia are actuated in this matter by one dominant consideration. Their first thought and determination is to give to the motherland and the Empire the most effective assistance in their power," and it recognizes that there will be no failure of Canadian and other sympathy and support. The Gazette has evidently the presentation of Dreadnoughts as the foremost article in its defence creed. Canadian and Australian navies do not meet its approval, and it does not take kindly to Canadians having any say as to control of such, if built. It admits that such addition to the Empire's defence by the colonies "has had the support in the past of First Lords of the Admiralty like Lord Tweedmouth, and is to-day encouraged by British fighting Admirals like Lord Charles Beresford," but it does not think such "colonial fleets" would be of much use in case of European menace, and it wants the Admiralty to say so at the Defence Conference. "Better," it says, "that Canada do nothing at all than do something that will encourage a false security and fail to be of real help when the moment of Empire crisis comes."

We have an idea that the Colonial Governments have been in the confidence of the British Government in this defence matter, and that every step taken has been taken with its approval. The approaching Defence Conference may tend to the adoption of some definite policy, the publication of which to the world may not be without its good effect in the interest of peace and the checking of this wasteful competition in international armament. Whatever policy may be agreed upon, however, the principle of autonomy will not be lost sight of. As to Mr. Borden's attendance at the conference, we should not have the slightest objection. He could, not of course, represent the Government, but he could speak for the Opposition, of which he is the leader. And since we have recognized a leader of the Opposition, paying him \$7,500 a year salary, Mr. Borden can hardly plead, as do some of his organs, that being in Opposition, he should not be expected to bear the responsibility of having an opinion on public matters. We do not know that his presence at the conference would help or hinder; but if Mr. Borden should desire to go, we should be inclined to let him do so.

Blythe, the Toronto wife-murderer, was to have been hanged a few days ago, but his friends secured for him a respite to permit of the examination of new evidence said to have been discovered. The new evidence amounted to nothing, and the Department of Justice decided to let the law take its course. Now some foolish people and papers are denouncing the Government for "torturing him with the hope of reprieve," and clamoring that he should not be executed because of the suffering he has endured. Rubbish! Imagine what a row would have been raised had the Minister of Justice not given a respite to permit of examining into the alleged new evidence! Blythe's fate should be decided on the evidence, not on any such sentimental twaddle as that. It is said that the doomed man is very much perturbed and is losing flesh. We can readily believe that; it can hardly be pleasant to look forward to being hanged in

a few days. But hanging is a great deterrent to murder, and the Department of Justice has a painful duty to perform.

EDITORIAL NOTES.

A number of Toronto children have been bitten by vicious dogs, and some alarm is felt lest the animals may be rabid. In doubtful cases no risks should be incurred. The injured children should receive treatment as a preventive measure.

Toronto wholesale merchants are sending out to their customers circulars explaining the effect of the new Canadian act bearing on Secret Commissions, which has just taken effect. They point out that the payment of a secret commission on the sale of goods is now a crime, and ask co-operation in suppressing this form of "graft."

Toronto Methodist Conference has condemned Whitney's three-fifths clause. Rev. W. Burns, in speaking to the motion, declared it to be un-British, and stated that the Government were considering the blotting of it out. This, however, is very doubtful. The Government thinks that the temperance people will stand a good deal of rough treatment before they assert themselves.

A New Jersey man inherited a big, brass-clasped family Bible from his maiden aunt in 1874, but he was not a Bible student, and he did not think much of his legacy. The other day he was curious enough to unclasp the 35-year-old gift, when it was found to contain \$4,867 in bills. Now he regrets his lack of interest in the book. If he had had the money invested at 5 per cent, interest compounded semi-annually it would have grown in the 35 years to \$26,846.37.

New York State has now a national employment exchange conducted under a board of trustees representing leading manufacturing, mercantile and contracting interests. An enterprise of this kind has a wide and useful field. There are always many willing workers out of employment, and, at the same time, it is frequently possible to find them jobs, if the work and the workmen can be brought together. An organization like this, with an object above the mere collection of fees, may do great good.

The Board of Control by-law has had its final reading by the City Council, and becomes operative at the beginning of the next municipal year. The four salaries for which it provides will add \$6,000 a year to the expenses of civic government. It is to be hoped that we shall get \$6,000 worth better civic government under it. Of that, however, there is no guarantee. All will depend upon the kind of men we select as controllers.

The question of the old Cuban debt, a trivial matter of about \$400,000,000, is likely to be heard of again. It was generally assumed that in wresting Cuba from Spain the United States had "paid off" that debt, but the Treaty of Paris did not in words say so. But who would care to pay \$400,000,000 for all Cuba? Not likely the United States. They have had trouble enough over the island. If the Spanish Minister at Havana presents the claim, as he is expected to do, he may probably be asked to wait a while for the cash.

Contrary to the prevailing notion, Panama hats are not made in Panama. The chief places of their production are Colombia, Peru, and Ecuador. The Scientific American says the cost of material never exceeds 35c and probably averages less than 13c. The cost of the labor, which is exceedingly cheap, amounts to considerable. It takes six or seven days of six hours a day for a workman to make a common hat, worth \$1 and two weeks to make a hat which may bring \$5. Sometimes six weeks is spent upon a hat for which \$20 would be obtained. The straw used in the fine hats is never dampened, and, as the work can be done only when the air is moist, the working time is limited to mornings and evenings.

The Hydro-Electric schemers' junior organ, the Toronto World, announces a large programme for Hamilton, including the quashing of our power and street lighting by-laws and the entrance of the city into private light and power competition. Meanwhile, the Hydro-Electric agents in the City Council repudiate any notion of entering that field, and indignantly deny that our Council should consider the matter from such a point of view. The local power monopoly organ affects to regard any consideration of other than the taking of current to supply power for the waterworks and sewage disposal pumps as an effort to frighten the people. Either the World, or Herald, or both of them, are trying to mislead the people.

CAN THE STATE HELP?

(Kingston Standard.) Given, on the other hand, a man and wife with eight or ten children, earning the same wages, and the result is dire poverty and distress. The children will be in rags; they can not be kept at school; the mother will be overworked, ill-fed and soon a physical wreck; the home life will be wretched. This may be brutally plain speaking, but it is the truth. If the State would intervene in the case of large families and make provision for them, then conditions would at once improve; but the State does not intervene; indeed, under our present social system, it can not intervene effectively.

Thos. Flynn, the fireman, was found dead on the sidewalk at Amherstburg. It is supposed he walked or fell out of his bedroom window.

OUR EXCHANGES.

NOT IN THE SWIM. (Galt Reporter.) Do you keep your dog on a chain? If not, you are not in the swim in it.

SHOCKING! (Galt Mercury.) An Ottawa man has been arrested for stealing electrical appliances. A shocking crime.

THE FLY. (Pontiac Press-Gazette.) Considering the fact that the house fly has no friends, he is making himself very much at home.

THAT HAT. (Toronto News.) A woman cannot fit on a hat after church with the easy grace of a clergyman, whose hat generally fits after his first half dozen sermons.

TO-KILL NOT CURE. (St. Thomas Journal.) Ontario's ruler is willing to spend ten millions on Dreadnoughts, but not a cent towards wiping out the scourge of the cemetery—consumption.

LOOK AT IT THIS WAY. (Professor McCurdy.) Prepare for hell if you wish to go to heaven is quite as reasonable a statement as that to promote peace you must prepare for war.

CLEAN STREET CARS. (London Free Press.) Some American cities have very strict laws regarding street car sanitation. The cars are not only swept but washed and ventilated daily, presenting sweet and clean floors and windows, and are not "musty."

SIR F. BORDEN. (Kingston Whig.) Some of the preachers have been saying things about Sir Frederick Borden. The clerical forces of King's county were arrayed against him in the last election, and his majority was increased. What is the inference?

WAIT FOR LEGAL VERDICT. (Galt Reporter.) In the case of Tringle vs. Borden, the public verdict will not be with the latter, who has not during recent years displayed many evidences of a superior moral life.

COUNT'S DEFEAT. (Woodstock Sentinel-Review.) There are some things the church might do—put an end to war, stop race-track gambling, discourage fishing on Sunday and the like; but when the church undertakes to dictate fashions to women it assumes a task which can bring it nothing but defeat and humiliation.

NO ROOM FOR THE DRUNKARD. (Toronto Globe.) A few decades ago it was common to hear of a drunkard rendered comparatively worthless in many walks of life by alcoholic indulgence. In professional and industrial callings the lament for bad habits on the part of the otherwise competent was frequently heard. Now the able man who drinks is seldom heard of because his weakness speedily robs him of recognition and of any chance to demonstrate his abilities. There is no longer any room for the drinker, however able he may be.

CONCRETE DWELLING HOUSES. (Toronto Star.) It is said that Mr. Edison's plans for inexpensive concrete houses are now completed. For \$1,200 the great inventor promises to build a house measuring 25 by 30 feet, with six rooms and bath, with a cellar under the entire building, provided with boiler, wash tub, and coal bin, and with an eight-foot porch. The roof, as well as the walls, will be of reinforced concrete. There will be nothing of wood except doors and windows. The house can be finished in a fortnight.

DOG CATCHER SALARIED. To the Editor of the Times: Dear Sir,—Allow me, through your columns, to express the impression left by a correspondent of last evening that the Board of Health are in the habit of paying one dollar per head for dead dogs collected and sent to the crematory. The man who does this work is paid a stated salary per year by the board, for this and other duties, and his pay is exactly the same whether one or twenty dogs per days are collected. The fewer the animals, the more leisure time he has at his disposal.

Your valuable correspondent, who in an argumentative manner, gives the public a glimpse of the whole trend and character of his mental operations should make himself conversant to enlighten the public. The new by-law affects very seriously that we last have a mayor and council with backbone enough not to compromise the rights of the many for the whims and fancies of a few. Most of them are sensible enough of actual public opinion in this matter, and have been in public life long enough to appreciate the covert threats of your correspondent at their legitimate value. Most of us in the past have seen lawns and boulevards, not to speak of sidewalks and doorsteps, that through the license allowed common mongrels, were a disgrace to the city and an outrage to common decency. The natural companions of normal children are children, and not curs or mongrels or cats, and the unhealthy sentiment which endeavors to have animals usurp the place of children should receive scant encouragement. If your correspondent is in search of an outlet for his sympathy, let him seek to expend it on the bright-eyed, sunny-faced boys and girls to be seen every day in our public streets, many of whom, through the unhappy combination of circumstances, do not get too much of it. Yours truly, JAMES ROBERTS, M.D., Medical Officer of Health, June 15th, 1909.

A NIAGARA VICTIM. Niagara Falls, N. Y., June 15.—The body of a man found early to-day at the water's edge under the cliff close to the upper steel arch bridge has been identified as that of John W. O'Neill, of this city. The man had fallen about 100 feet to the rocks below.

HECTOR IN VALLEY CITY.

Speculation Why He Did Not Fill Sunday Engagement.

Dundas, June 15.—The failure of J. H. Hector, the "Black Knight," to fulfill his engagement to preach in the Methodist Church on Sunday evening has caused no little indignation. The cause of this indignation apparently is a prevailing belief that some one in connection with the church offended the celebrated knight, who, it is said, presented himself as a minister's vestry in good time to fill his engagement, and then suddenly took his departure for Hamilton, without giving any explanation. He returned yesterday evening and filled his engagement to address a meeting in the Sunday school room of the Methodist Church. His audience was rather smaller than was anticipated, but was one thoroughly appreciated. He devoted a good part of his address to temperance matters, but made no reference to his failure to fill his engagement on Sunday evening. During his stay in town he was the guest of Rev. Mr. Grant, of the Baptist Church, and Rev. Mr. Harvey, of the Methodist Church. James Mulligan, a varnish finisher at the Jones Bros.' works, had the misfortune, a few days ago, to get the toes of his right foot crushed in the jaws of a bucket of sealing water at the hands of another employee, who did not see him. The hot water struck him on the neck, and, running down, badly scalded one arm and one side, inflicting very painful injuries.

That there will be a big time in the Valley Town on Civic Holiday, Aug. 2nd, is now beyond a doubt. The chief event of the day will be two burlesque circuses. It is proposed that the Barnum & Bailey Circus shall represent the north side of King street and east side of Main street, and the Forepaugh & Sells Circus the south side of King street and the west side of Main street.

This feature of the day will be under the direction of Mr. Fred Mitchell, of Hamilton, who is an expert along that line. The local "Citizens' Committee" is giving a good deal of time to preparations for the day, and for the purpose of more complete organization will hold a meeting of citizens generally in the town hall to-morrow evening, to which all citizens are invited. It is prepared at this meeting to appoint sub-committees to carry out complete arrangements to and complete organizations of the two proposed circuses. The citizens of the town are becoming enthusiastic in the matter and this, combined with the indefatigable work of the Citizens' Committee, is a guarantee of a great success when the holiday comes.

AT THE SAN. A Farm Colony May be Started There.

At a largely attended meeting of the Directors' and Ladies' Auxiliary of the Hamilton Health Association held yesterday afternoon, were discussed having for their object the inaugurating of a farm colony in connection with the Sanatorium movement. It was explained that the acquisition of a suitable tract of land, containing a sufficient number of patients, would be invaluable to the patients, who would thus be enabled to labor in the open at healthful employment for such time during each day as might be considered wise by the physician in charge. Besides the value such an enterprise would have to the patients, it would be possible to produce from the farm would materially lessen the running expenses of the institution. It was explained that one of the great difficulties now met with in the handling of patients was the trouble experienced in inducing them to remain long enough during the period of convalescence to ensure continued good health after leaving the sanatorium, there being little occupation in which they can engage. The general opinion seemed to be that the farm colony was a good one, and following the lead of Pittsburgh and other large centres, that have proven its value, the local committee will undertake this work in connection with it. The explanation is made that this work would be made much easier of realization if someone would see their way clear to devote about \$100,000, an amount which is expected the new movement will cost to mature properly.

At the regular monthly meeting of the Ladies' Auxiliary of the association, Miss Renton, the visiting nurse, read a very satisfactory report for the downtown dispensary. There are now forty-six patients on the visit, three quarters, and eight patients lost a total of twenty and one quarter pounds. The greatest individual gain was eight and a half pounds.

HARRY THAW. Justice Gaynor Grants Habeas Corpus in His Behalf.

New York, June 15.—Harry K. Thaw may have another schach to prove his sanity in his fight for release from the Matteawan Asylum for the Criminal Insane, to which he was committed a year ago last February, after his trial for killing Stanford White. Justice William J. Gaynor, of the Brooklyn Appellate Division, granted a writ of habeas corpus this afternoon, returnable before Justice Mills in the Supreme Court at White Plains on Thursday, June 17th, at 10.30 a. m. The writ was issued on application of Charles J. Morschauer, of Poughkeepsie, Thaw's attorney.

STEAMER AFLOAT. Adirderburg, June 15.—The steamer Wyoming, which went aground yesterday morning on the Lime Kiln Crossing, was released at 6 o'clock this morning. She is now unloading her cargo of ore, and the work is expected to be finished about midnight to-night.

Some men are not satisfied to have opportunity knock at the door; they expect him to push the electric button.

SIEA'S

Wednesday, June 16, 1909 May Manton Patterns All 10c

Another Big Purchase of Wash Goods 50c and 60c Cotton Voiles on Sale at 19c SEE WINDOW

5000 yards fine Cotton Voiles, imported for the fine trade, in elegant designs; goods that are worth their full value to-day, and well worth it. They came to us in a ready cash deal, and go on sale at a price that will astonish you. Goods that are worth and sell for 40, 50 and 60c, on sale for, per yard 19c

Women's Wash Skirts \$1.00 Made of lawns, Indian head and "linene," white and fine colors, all cut in new and correct styles, worth \$2.00 and \$2.50, to clear at . . . \$1.00

Women's Wash Skirts \$1.50 Made of linen, P. K., duck and print, all nicely trimmed, regular \$2.50 and \$3.00 values, on sale for each \$1.50

Women's Summer Dresses \$4.50 White, pink, pale blue, green and grey shades, nicely trimmed with lace and insertion, regular \$7.50 value, our price each \$4.50

Women's Linen Suits \$6.95 White and colored, all sizes, new long coat, perfectly cut and well tailored, full \$8.50 value, on sale for each \$6.95

A Big Bargain in Wool Skirts \$3.95 Hundreds of them to choose from, voiles, serges, Panamas, lustres, poplins, silk and satin striped and button trimmed, very newest styles, worth \$5.00 to \$6.50, for . . . \$3.95

New Oxford Shirts 12 1/2c Our own direct importations, in fast colors, heavy light, and dark stripes, checks and plaids. Shirts, most stores get 15c for, at . . . 12 1/2c

CHILDREN'S DRESSES, WORTH \$1.50, FOR 75c—Made of lawns and fine cambrays, with lace and embroidery, 3 to 8 year sizes, dresses that would sell regularly for \$1.25 and \$1.50, on sale to clear, at, each . . . 75c

GIRLS' AND MISSES' JUMPERS, \$1.50—Made of fine gingham and chambrays, plain and plaids, in neat jumper style, to fit girls 10 to 14 years, worth \$2.00, on sale for, each \$1.50

Big Bargains in Table Cloths Pure Linen Damask Cloths, border all round, 66x84 size, spots and floral designs, on sale at less than wholesale, \$2.50, for \$1.48

CHILDREN'S DRESSES, WORTH \$1.50, FOR 75c—Made of lawns and fine cambrays, with lace and embroidery, 3 to 8 year sizes, dresses that would sell regularly for \$1.25 and \$1.50, on sale to clear, at, each . . . 75c

GIRLS' AND MISSES' JUMPERS, \$1.50—Made of fine gingham and chambrays, plain and plaids, in neat jumper style, to fit girls 10 to 14 years, worth \$2.00, on sale for, each \$1.50

LOCKJAW. The Deadly Disease and How It Destroys Life.

Did you know that since the introduction of the toy pistol and giant cracker the number of lives sacrificed yearly in the celebration of the Fourth of July has averaged about four hundred, the greatest mortality being from fireworks used on the Fourth in 1903, when the American Medical Association was four hundred and sixty-six, of which three hundred and sixty-three were from tetanus caused by toy pistols? When lockjaw, or tetanus, is about to develop, the wound from which the infection has come and which has probably been healing gets irritable, red and tender, and they resist the passing of food, making it painful and difficult to swallow. The muscles of the face take a fixed position, with lips retracted exposing the teeth; the brow is wrinkled and the eyes stare, giving the countenance a most ghastly and agonizing expression, producing the "sardonic" expression peculiar to tetanus. The rigidity of the muscles next extends to the body and its extremities and the victim becomes helpless, stiffened. Often the muscles of the back are drawn so tense that the body is bent like a bow, resting on the head and heels. Less frequently it is bent forward or to one side. In the beginning of the attack the rigidity is not constant and does not affect all the groups of muscles equally, and may pass from one to another group with intervals of complete relaxation. But the spasms become more frequent and severe and are presently excited by the slightest muscular effort. So exquisitely excitable are the nerves that a mere touch, a current of air, the reflection of light, or any bright object, will bring on a sudden spasm in all the muscles ordinarily controlled by the will; the face is horribly distorted, the spine bent, and the hands violently clenched and drawn up. So severe is the contraction that muscles are sometimes torn in two. During the convulsion there is a severe pain through the stomach and back. Immediately following the maximum of the paroxysm, the breathing becomes easier and a little fluid may be taken through a tube. Unfortunately the mind of the sufferer is clear and his sense acute during the attacks. Profuse sweats occur, and the voice is dry, guttural and, at times, intelligible. Owing to the severe activity of the muscles, lockjaw causes the highest fever ever seen, and the body temperature sometimes rises for an hour or two after death. Finally the boy, your boy, sinks from exhaustion or a severe paroxysm arrests the breathing and death terminates the disease which has the worst terrors of meningitis, strychnine poisoning and hydrophobia, causing an agony hardly to be surpassed by the tortures of a martyr, and a distress to the helpless bystander which is unmeasurable in words.—From "The Deadly Toy Pistol" in July Technical World Magazine.

HIGH SCORES Made by Soldiers for Efficiency Pay Got by Fraud.

(Special Despatch to the Times.) London, Ont., June 15.—There promises to be a most interesting scandal as a result of an investigation being conducted by the military authorities into the scores made for efficiency pay according to a recent order. Scores throughout training so far have been remarkably high, and more than double the usual percentage of men have qualified for first class pay. It has been discovered, however, that the best shots in the regiments have been impersonating and shooting for poor shots. It is expected that a large number of men will be disqualified from receiving any efficiency pay at all as a result of the court of enquiry.

HIS ITALIAN TOUR. The Bridge Friend Speaks.

The trip across was rather slow; I recollect the boat rolled so. Really, we were scarcely able to keep cards upon the table. Naples! Like fools we showed our packs. And had to pay a custom tax. The light was over at the hotel—One couldn't see the dummy well. I don't remember Rome. Oh, yes, that's where I took that Club finesse. When playing with Lord What's-his-name: I saved two tricks and won the game. Florence was marvellous. 'Twas there I held that combination rare. One hundred aces, in my hand; It was my deal—I made a "Grand."

WON'T GO. Kingston, Ont., June 15.—The 14th Regiment, Prince of Wales' Own Regiment, will not go to Elmira, N. Y., for July 4th and 5th, as scheduled. The officers say they are unable to make satisfactory transportation arrangements.

FAVORS PEACE. Rio Janeiro, June 15.—Nilo Peçanha, who has succeeded to the presidency of Brazil, following the death yesterday of Dr. Penna, has issued a statement to the effect that it is his purpose to do his utmost to conduct the Government along peaceable lines and maintain trustful relations among the political parties of the country.

Travel, of course, improves the mind, but just the same, I am inclined to "think you find as many duns playing abroad as in our clubs." Walter Trumbull in June Smart Set. The average girl isn't so selfish as to want to occupy a hammock all by herself.

A MOVE TO QUASH CATARACT BY-LAW.

Action Will be Taken If City Proceeds to Carry Out the Lighting Contract.

Special Committee Appointed to Get Information About the Hydro-Electric.

The first shot in the legal battle to be waged over the power question has been fired. The Hydro-Electric people have opened hostilities. They are going to attack Hamilton's five-year lighting contract in the courts. The City Council was notified to that effect last night by City Clerk Kent, who earlier in the day received the following letter from Crown Attorney S. F. Washington:

"I am instructed by a ratepayer of the City of Hamilton to bring an action, or make a motion to quash by-law No. 775 of the city passed on July 18, 1908, known as the Light and Power By-law. Before taking proceedings I should be glad to know whether it is the intention of the city to put this by-law, or any part of it, into effect. If I have the assurance of the city that they do not intend to put the by-law or any part of it into effect, then no proceedings will be necessary. As the City Council sits to-night, the matter can be brought before it and you can let me know to-morrow."

There was no discussion over the letter. Alderman Sweeney fired one question at the Mayor.

"What effect that going to have on the contract?" he asked. "I understand the company is going ahead erecting poles for 600 lamps for the first of July."

"There is nothing to hinder persons going to law if they have a mind to," his Worship replied, and the aldermen smiled.

PREVIOUS LITIGATION. This will be the second time the city has been tangled up in litigation over the power and lighting contract, passed by last year's Council after two years of fighting. The judge sustained the by-law, but took the view that the Council had power to make a power contract for only one year, without the consent of the ratepayers. He held that the lighting contract, for five years, was good. Despite this the Niagara Power advocates insisted that the lighting contract could be successfully attacked. Encouraged by the result of the vote last week the attempt is to be made.

It took the Council last night just half an hour to clean up the business, including the power question, which was referred to a special committee. Further evidence of the apparent lack of interest in this matter, as indicated by the by-law returns, showing that over five thousand people did not take the trouble to go to the polls, was furnished by the fact that only seven spectators were in the Council chamber last night, when the question was up. It was reported that an effort would be made to stampede the aldermen and two uniformed policemen were on hand, but their services were not required.

TO GET INFORMATION. Seconded by Ald. Appleghath, Ald. Jutten moved that a special committee be appointed to get the form of contract from the Hydro Commission, and all other information on the subject, and report back to the Council. The committee consists of Mayor McLaren, Ald. Jutten, Anderson, Perciglion, Morris, Allan and Cooper. It is the old committee with two new names, Ald. Morris and Ald. Anderson.

"Three times the people have voted

for the Hydro-Electric, and we should give the people what they want on a business basis," said Ald. Jutten, in moving the motion. The appointment of a committee to deal with the matter, he said, was essential as information on the committee was a number of points. One of the most important of these was the placing of the meter. If it was to be installed at the main switching station at Dundas, as had been stated, it meant at least 10 per cent. of a line loss in transmission. If the meter was placed between the transformer and the meters at the Beach it would effect a saving of over 15 per cent.

Ald. Hopkins wanted the committee to report within two weeks, so there would be no unnecessary delay. The Mayor explained that there would be no objection to a special Council meeting sooner if the committee could prepare its report in time.

A motion by Ald. Anderson, seconded by Ald. Hopkins, to place Ald. Wright on the committee was voted down on a 12-6 division. The mover and seconder and Ald. Ellis, Appleghath, Morris and Cooper were the only ones to vote for it. Ald. Sweeney refrained from voting.

BOARD OF CONTROL. The Board of Control by-law, which was so strongly endorsed by the people, was given a third reading, which means that next year the Council will consist of the Mayor and four controllers elected from the city at large and the aldermen to be elected from the wards. The salaries of the controllers will be \$1,500 a year.

The reappointment of Lieut.-Col. A. H. Moore as a member of the Board of Hospital Governors was confirmed.

SMOKE NUISANCE. Ald. Milne complained on behalf of the residents of East avenue and West avenue that the steam railways were not obeying the order to abate the smoke nuisance. The Mayor informed him that any resident could complain to the chief of police, whose duty it would be to see that evidence was collected for a prosecution.

OTHER BUSINESS. Ald. Farmer, who is going to England on Thursday, was given three months' leave of absence.

The following clause in the Fire and Water Committee was withdrawn until the street, which is at present private property, is turned over to the city: "A six-inch water main, with the necessary hydrants and valves, be laid on Linwood avenue, 725 feet north of Aberdeen avenue, at an estimated cost of \$612."

The Council accepted the offer of Geo. F. Webb to sell to the city, for \$3,500, three parcels of land on the brow and the side of the mountain, containing about 14.5 acres. The city agrees that should any road be constructed over a portion of the property it will be used only for light driving, and that Mr. Webb is to continue the privilege he now enjoys of crossing the property to the east of Belmont street.

Ald. Ryan wanted to know if the engineer had passed a regulation preventing the city laborers smoking while they were at work.

The Mayor said that as long as the men did not kill time there was not likely to be any objection.

THAT AWFUL PAIN IN THE BACK

Is a Sure Sign of Congestion of the Kidneys. Take "Fruit-a-tives."

Lots of men, and women too, are limping about the house—groaning in easy chairs—or tossing about the bed—because of that nagging pain in the back. The old standby—not vinegar, porous plasters, liniments, etc.—don't do good any more. You see, you are a bit older now. The kidneys are not as strong as they used to be. And even those "blistering" liniments and plasters won't stimulate the kidneys.

Your trouble is kidney trouble. The kidneys are not "diseased," they are overworked and strained. The bowels and skin, which help the kidneys to rid the system of waste matter—have not been doing their share of the work. The kidneys have had to do too much. What you need is a medicine to cure the bowels, liver and skin. This medicine moves the bowels regularly and naturally. This medicine must heal and strengthen the kidneys, and thus relieve the congestion. "Fruit-a-tives" is this medicine. It is the most effective kidney remedy known, and it acts on the vital organs in a vigorous, healthy condition. For aged people, for those who work hard, for tired-out women, "Fruit-a-tives" never fail to stop that severe pain in the back and build up the whole system. 50c a box, for \$1.00, or trial size 25c. Dealers or from Fruit-a-tives, Limited, Ottawa.

G. T. R. PAYS.

Full Settlement of the Grimsky Crossing Cases.

A full settlement has been made of the actions growing out of the level crossing disaster at Grimsky last January, when a sleigh load of people returning from a party, were struck by a G. T. R. train, resulting in the death of the Wilsons and Teeters.

Mr. E. A. Lancaster, M. P., and Mr. F. W. Harcourt, K. C., official guardian, yesterday filed consent judgments in the actions of Wilson against the Grand Trunk Railway and Teeter against the same company.

In the first case, Mr. and Mrs. Wilson left six young children, and the company pays \$7,000 for the death of the father and mother. Mrs. Wilson, the grandmother, receives \$300 at once for part maintenance, and will receive \$50 a year from the remainder, which is to be paid into court, for the support of the children.

In the other case the company pays \$4,000 for the death of Mr. and Mrs. Teeter, for injuries sustained Mrs. Teeter, the grandmother, receives \$200 of the amount given her daughter, in payment of medical and other expenses, and \$100 for part maintenance of the two children left by Mr. and Mrs. Teeter, out of the \$4,000. The balance of the \$4,000 will be paid into court to the credit of the children, and from this fund the grandmother will receive \$7 per month for the support of each child.

The settlement was approved by Mr. Justice Latchford.

BISLEY TEAM.

Canadians Sail From Montreal on Thursday Next.

The Bisley team, which sails from Montreal on Thursday, has been completed, and is as follows:

Lieut.-Col. A. Bertram, Dundas, Ont., commandant.

Major J. M. Mercer, Toronto, adjutant.

Major J. M. Jones, Pownal, P. E. I. Captains H. B. K. Ottawa, Van-couver, B. C.; J. D. C. O. K., Vancouver, B. C.; J. McVittie, 48th Highlanders, Toronto, Ont.

Lieutenants Neil Smith, 24th Regiment, Chatham, Ont.; F. H. Morris, 46th Regiment, Bowmanville, Ont.

Sergeants S. J. Higgins, 13th Regiment, Hamilton, Ont.; G. Creighton, 2nd Q. U. O. R., Toronto, Ont.

Staff-Sergeants, F. Richardson, 5th C. A., Victoria, B. C.; H. Kerr, 48th Highlanders, Toronto, Ont.; T. Mitchell, 13th Regiment, Hamilton, Ont.

Color-Sergeant, J. Freeborn, 13th Regiment, Hamilton, Ont.

Sergeants W. Smith, G. F. G., Ottawa, Ont.; G. W. Russell, G. F. G., Ottawa, Ont.; W. Kelly, 10th Regiment Grenadiers, Toronto, Ont.; H. M. Marsden, 90th Regiment Winnipeg, Man.

Corporals G. Copping, 3rd V. R. C., Montreal, P. Q.; D. Smith, 10th A. M. R., Edmonton, W. D. Sprinks, 10th Regiment, Grenadiers, Toronto.

Pte. H. D. Gougeon, 90th Regiment, Winnipeg, Man.

GOOD TEMPLARS.

The weekly meeting of Britannia Lodge, I. O. G. T., in the Salvation Army Hall, Barton street east, last evening, was a largely attended one. F. W. Ambrose, Chief Templar, presided, and was supported by John Porteous, L. D.

Two propositions for membership were received. On conclusion of general business an excellent programme, composed solely of love songs, stories and recitations, was presented by Geo. Austin, John Porteous, F. S. Morrison, A. Bradford, W. J. Dunnam, and Master Fred Ambrose. The lodge was favored with a visit by Robert and Mrs. R. Slade, lately of the Pride of Normanton Lodge, Derby, England, who each courteously contributed to the programme.

Next Monday evening every member is invited and expected to contribute a paper was a short essay on the work of temperance throughout the world.

The lodge's Rambling Club will hold its second ramble for the season on Saturday afternoon, the 26th inst., the destination being to Chedoke Falls.

LOCAL LEGAL.

The following local cases were disposed of at Toronto yesterday:

MUSIC AND THE DRAMA

Notwithstanding the chilly weather last night, there was a large crowd at the opening of the Mountain Theatre, head of the East End Incline, when the Summers' Stock Co. presented a three-act comedy, entitled "College Chums." The play was well staged and presented in a finished manner. Miss Belle Stevenson, an old favorite with Hamilton theatre-goers, was the leading lady, and she won much applause by her clever acting. The cast was as follows:

- John Winston... Belle Stevenson
Doris Underwood... Ned Brumley
Jana Graham and Ned Brumley... yard chums - Wm. Blake and B. S. (Deeks)
Martin Underwood... a cripple student... (F. J. Dorriety)
George Wall... a college chappie... (Chas. Whitehouse)
Gabe Higgins... allus getting sore... (Joe Henley)
Dinsmore... who lost his dinner... (J. Knappman)
Kate Blakemore... who loved not wisely... (Mabel Summers)
Miss Elizabeth Tuttle... Dora's aunt... (Florence Natol)

Between the acts illustrated songs were sung by Miss Ethel Burnett and Miss Mabel Summers, and Mr. Charles Whitehouse did some pleasing turns. The same bill will be presented every night of the week. There are 500 free seats for holders of incline railway coupons.

GARRAT-FOX RECITAL.

There was a splendid representation of Hamilton's music lovers to last night organ and violin recital given by Mr. C. Percival Garratt and Mr. George Fox. Although seemingly very short, the recital lasted two hours and was unusually high class, and a much longer programme could have well been listened to with pleasure. Mr. Garratt's work on the organ was very fine, and the different styles of music which he played showed his full control of the instrument. By special request he played his composition, "The Storm," and those who had not heard it before got a particular treat, while those who knew it were only too glad to hear it again.

Mr. Fox, who is well known to Hamilton audiences and always a favorite, played particularly well, bringing out the best that was in the instrument. The group of solos, "Amante Religioso," "Humoresque" and "Serenade," though all of vastly different style, were perfect in their technique and much enjoyed. The following programme was given:

- Organ-Overture to "Tannhauser" (Wagner)
Violin solo-Romance... Svendsen
(a) Liebestraum (No. 3)... Liszt
(b) Spring Song... Mendelssohn
Violin solo-Ave Maria... Schubert
Organ-Prelude to Lohengrin... Wagner
Violin solos:
(a) Andante Religioso... Massenet (From opera "Thais.")
(b) Humoresque... Dvorak
(c) Serenade... Ambrosio
Organ-Marche Slav... Tschaiakovsky

AT MAPLE LEAF PARK.

The big show at Maple Leaf Park this week is the best that has yet been offered at the new amusement resort. The management secured a new attraction at the last minute in the Onette sisters, a quartette of trapeze artists, who give a performance that has never been surpassed in this city. They were brought from Europe by Keith & Proctor, and have played all the leading houses on the big circuit during the past season. Their act abounds with sensational stunts as well as feats of strength.

The Marco twins company of six jugglers and comedians have an act that is certainly above the average summer park attraction. Although the men are by no means husky in appearance, they juggle huggies, bicycles and other heavy articles in a very easy manner, and the comedians manage to get in enough work to cause a laugh at the proper time. A real Shetland pony is used in the act, and the juggles and bicycles are ones that can be used on the road and are not made specially for the act. The show is put on in front of the stand every afternoon and night, and is absolutely free.

On Saturday the Woodmen of the World will hold their annual picnic at the park, and besides the local lodges, many outside lodges will be here. The committee in charge of the picnic is arranging to accommodate 2,500 brethren, which means that there will be a big crowd at the park on Saturday. Special attractions will be arranged for the Woodmen.

DOCTOR FAINTED.

Toronto, June 15.—Dr. J. H. Cotton, 360 Spadina avenue, was suddenly seized with a fainting spell while driving his automobile around the corner of Carlton and Yonge streets yesterday afternoon.

The doctor had pulled his car up before rounding the corner to save a street car to go past, otherwise he would probably have been run down and killed or seriously hurt.

The Board of Council has reported in favor of increasing the pay of the Owen Sound longshoremen employed by the Canadian Pacific Railway Company. The House of Representatives of New Zealand has unanimously approved the Government's offer of a Dreadnought to the Imperial navy, or two if required.

Stanley Mills & Co., Limited Tuesday, June 15th, 1909
98c Another Great Special 98c IN UNDERMUSLINS

Underskirts and Gowns! That's what we're talking about to-night, and we intend to make it worth your while to look into these quick selling items. This is an exceptional value for these lines of undermuslins, and for the purpose of relieving our rather heavy stock, we are going to let these two lines go at the prices mentioned below. See window display.

UNDERSKIRTS—In many styles to choose from. They are white, of extra good quality cotton, made with a 20-inch flounce in a cluster of ten pin tucks, and are finished in dainty embroidery, deep and full, with dust ruffle. The skirts are of good width, in sizes 38, 40 and 42. Wednesday special 98c

GOWNS—In varied styles, to suit all tastes. These are of extra "gingham" quality, in white cotton or Nainsook, some are in the slip over style, with round yoke of embroidery and three-quarter length sleeves, made in generous widths, some with open front, V shaped neck, or square neck, sizes 56, 58 and 60. Wednesday, special 98c

\$3.00 Stylish Wash Skirts \$3.00

We take pride in this line of Wash Skirts and feel confident that it can stand inspection against any other skirt at the same price. Here are four of the many lines we carry:

STYLISH SKIRTS of white linen, made in 13 gores, with narrow insertion down each seam. Finished at foot with deep hem. On sale Wednesday... \$3.00

ANOTHER STYLE of white linen, made in 13 gores, tailored seams, buttoned down front, deep hem at foot. On sale Wednesday... \$3.00

SEPARATE WASH SKIRTS, of White Repp, in a gore flared style and finished at foot with deep fold of self, on sale Wednesday... \$3.00

DAINTY SKIRTS, of White Lawn, in 13 gores, pleat on each seam, finished at foot with deep fold of self. Beaded with 10 narrow tucks, on sale Wednesday... \$3.00

75c, regular \$1.25 quality
89c, regular \$1.50 quality
98c, regular \$1.75 quality

Above are the reduced prices at which some 10 dozen Women's Long Silk Gloves are going at. All colors, sizes and qualities. Enquire about it.

FINCH BROS., 29 and 31 King St. W.

HIS BELIEFS.

Theologian With Advanced Ideas Admitted to Presbyterian Ministry.

New York, June 15.—Although the Reverend Archibald Black, a young Edinburgh theological graduate, declares that he does not believe the Biblical accounts of Adam and Eve, the virgin birth, or the resurrection, he was to-day admitted to the pulpit by the New York presbytery after a warm debate on heresy. His case was recently held up and taken under advisement.

Among the questions fired at the young theological student during the examination to-day were the following: "Do you believe the story of Adam and Eve as related in the Bible?" "Not in its literal sense; I accept it as a figure," he replied. "And do you not believe they fell from eating the apple?" "No."

"Do you believe in the virgin birth of Christ?" "I believe that Christ is divine, but I do not accept the story of the virgin birth."

"What is your position as to the resurrection?" "I do not believe in flesh and blood resurrection of Christ."

Dr. Wylie, of the Scotch Church, Dr. Richards of the Brick Church, and Dr. Duffield, of Old First, supported Mr. Black's theological position before the presbytery.

FOILED BY CAT.

Puts Out Spattering Fuse and Burglars Leave Without Booty. San Francisco, Cal., June 11.—The plans of two safe burglars were spoiled early this morning by a black cat, which extinguished their spattering fuse. The drygoods store of Lobous Bros., on lower Market street, was entered by burglars, who pried the basement door open with a jimmy and, cutting a hole in the floor underneath the office, made a selection from the stock consisting of silks, shirt waists, umbrellas, handkerchiefs and neckties valued at \$400 and then gave attention to the safe.

They took off the combination knob, poured nitroglycerine into it, attached a fuse, which they lighted and then ran to safety. There was a black cat in the office which watched their movements, and when it saw the spattering fuse, it jumped at it and extinguished it. The crackmen, apparently, got scared and disappeared without making another attempt to blow the safe. The police soon after arrested two men on suspicion.

Well—What a fresh complexion the has. Belle—Yes, fresh every morning.

ENTER NOW.

Civic Improvement Competition Will Soon Be On.

Entries for the competitions arranged by the civic improvement branch of the Greater Hamilton Association must be made on or before Saturday next, June 19.

The details of the competition are: Five prize boxes attached to houses and verandahs, \$5, \$4, \$3, \$2, \$1. For the best kept back yards, \$8, \$6, \$4, \$3, \$2.

For the best general appearance of dwelling, surroundings, embracing flowers, vines, shrubs, window boxes, etc., \$8, \$6, \$4, \$3, \$2.

Premises attended by professional gardeners are excluded. The city will be divided into four sections, King and John being the dividing streets.

The competition is free to all and will start on June 19 and continue during the summer months.

All entries must be made to the secretary of the committee, Charles Peckersley, 155 Sanford avenue south, on or before that date.

The judging will be done systematically during the summer by members of the committee, and personal inspection will be made throughout the season, without giving notice.

Particular consideration will be given to the progress made from month to month by those competing, and the result of the competition will be announced at the end of the season, followed by a public presentation of the prizes to the winners.

The committee invites suggestions from citizens from time to time on matters pertaining to the comfort and welfare of the public and the improvement of local conditions, and will give such careful consideration, hoping by this co-operation to carry out their aim to make Hamilton a cleaner and better city.

Citizens who are not members of the Greater Hamilton Association, but who are particularly interested in the beautifying and improvement of the city, should become members of this committee, and can do so by the payment of the small sum of one dollar to the secretary.

Her Excellency the Countess of Aberdeen, accompanied by her physician, Sir William Thompson, and Mrs. Ogilvy Gordon, will arrive in Toronto to-morrow morning, and will be the guests of His Honor the Lieutenant-Governor of Ontario and Mrs. Gilson at Government House, during their stay in Toronto.

GERMANIA.

Annual Meeting and Election of Officers Last Night.

At the annual meeting of the Germania Club the election of officers for the ensuing term took place. The past year has been one of the club's prosperity, both numerically and financially. Several improvements were made, principal among which was the addition of a bowling alley.

A number of improvements are contemplated during the coming year and the enthusiasm displayed by the members augurs well for the success of that will not doubt attend this enterprising organization. The officers elected were:

J. B. Dinkel, president. J. A. VonGuenther, vice-president. Moritz Mueller, recording and corresponding secretary.

Aug. Hackbusch, financial secretary. A. Ramsperger, treasurer. Ed. Kellner, librarian.

Geo. Schnabel, Aug. Bismarck, Leo Blatz, Franz Rohmer, Geo. Muehlmann, directors.

HONORED THEIR PASTOR.

At the last regular meeting of the King's Business Band of Zion Tabernacle, held at the parsonage. After the business had been conducted the much beloved pastor, Rev. F. W. Hollinrake, was called upon and presented with a written address, showing the appreciation of his good work, and a photograph of the local preachers' class. Mr. Hollinrake very suitably replied, urging the young men to play the man in life, and thanking them for their kind attention and help during the past three years, in which he has been pastor. Zion Tabernacle is much honored and credit is due to Rev. Mr. Hollinrake in having nine young men recently pass the required examination for local preachers.

MAY BE SHERIFF.

(Special Despatch to the Times.) Brantford, Ont., June 15.—Although no official announcement has been made here as yet, it is generally understood that F. Douglas Reville, editor of the Brantford Courier, will be appointed sheriff of this county, to succeed the late William Watt.

The total prohibition of gambling or betting in connection with horse racing at any time and anywhere was urged on the Dominion Government by the Toronto Methodist Conference yesterday, when the report of the Committee on Temperance, Prohibition and Moral Reform was adopted.

BITTEN BY VICIOUS DOGS.

Four of the Little Ones Are Severely Injured. One Animal is Killed Others Still Live.

Magistrate Points Out Difficulty of the Law in the Case.

Toronto, June 15.—The doom of many a man has been decided with less ceremony and struggle than was shown in the police court yesterday afternoon when an application came before Magistrate Ellis asking that Mr. Henry Nerlich's big St. Bernard dog Rex be destroyed for medical purposes.

The application arose out of an attack which the animal made last week on Roxborough avenue on five-year-old Gordon Strong. Dr. Riordan, who is treating the little fellow, said he was badly bitten in six places on the thigh and arm, and that it was of the utmost importance that the animal be destroyed so as to discover from an examination of his brain whether it is suffering from rabies or not.

As an expert witness for the defence Mr. Nerlich called Dr. Fred Morphy, of the Toronto Cat and Dog Hospital, who has studied under Pasteur in Paris. Dr. Morphy said he now had the dog in his hospital and it was in good health.

Another witness who testified that the dog wouldn't bite anyone was reminded by the magistrate that it had already bitten three children. Gordon Strong was too ill to be brought to court.

After hearing the evidence of Messrs. Herman Nerlich, J. W. Alexander and Henry Nerlich, Mr. Ellis announced that he was satisfied the dog was not fit to be at large. "But under the present law," he added, "I cannot enforce any order to destroy the animal. I can only make an order and inflict a fine if the order is not obeyed. Undoubtedly Mr. Nerlich would pay the fine, and we would be no further ahead."

"To fine Mr. Nerlich would be no satisfaction to me," spoke up Mr. Strong. "I only wish the animal's brain to be examined because of the help it would give the doctors."

Finally it was agreed to adjourn the case for a week. Mr. Nerlich promising to keep the animal in the hospital for a while, and to muzzle it when it goes out on the street in future.

"If it would really help the child I would have the dog killed, but I am told by experts that it would not," said Mr. Nerlich. In the meantime Rex lives.

Two additional cases of children being attacked by dogs occurred yesterday afternoon and evening. While playing with a coach dog at his home about 4 o'clock in the afternoon Harley Faxton, the two-year-old son of Mr. Heber Faxton, of 206 John street, was attacked by the animal and severely bitten. The child had just placed his arm around the dog's neck and was kissing it when it turned viciously and bit him on the face.

The dog's teeth made three big gashes, one three inches long, exposing the bone. Another gash went right through the child's cheek. The dog was beaten off and the child was carried by his mother to Lemaitre's drug store Queen street west, where the wounds were cauterized. He was later removed in the police ambulance to the hospital for Sick Children.

It is thought that there is any danger of rabies developing. The dog has not been destroyed.

Eight-year-old Ernest Belfry, son of A. J. Belfry, president of the Toronto Box and Barrel Co., was attacked by a large collie dog yesterday. The dog imbedded its teeth in the lad's left hand and inflicted eight ugly wounds, one of which was three-quarters of an inch long. The lad was playing on Bloor street west opposite the Brunswick Hotel, when the dog, which was following a butcher's wagon, suddenly leaped at him. The boy was so badly frightened that he was unable to get out of the clutches of the dog. A pedestrian hit the animal over the head with an umbrella, driving it off, and carried the boy into the Brunswick Hotel, where his parents are living. Dr. Shore, who dressed the hand, does not fear that rabies will develop. The dog, which belonged to H. Arnold, butcher, at Bloor and Lippincott streets, was later taken to the Agnes street police station and destroyed in the lethal chamber.

THIS LAD ESCAPED LIGHTLY. About 8 o'clock last night an eight-year-old lad named Moore who lives on Oak street was attacked by a vicious dog on Sackville street. The animal tripped him by the arm, but fortunately the lad's sleeve prevented its teeth from inflicting other than a slight wound.

A man posing as a "sanitary inspector" secured admission to the home of Mrs. J. W. Phillips, 125 Queen street east, Toronto, and stole a chateleine containing \$150.

DEAD GUARDS.

Two Skeletons Found at Mouth of Old Mine.

Portland, Ore., June 14.—Two skeletons, supposed to be the remains of pioneer English prospectors, were found last week in an old mine tunnel in the Cascade forest reserve, sixty miles from here.

Near the skeletons were a shovel, pick-axe, frying pan and two rock drills. The finding of these articles near the bones led to the discovery of the existence of a rich vein of gold and silver ore.

The bones were located by Peter Stone, a hunter and trapper, who accidentally stumbled into the old tunnel, the entrance to which was overgrown by brush and small trees. Superficial examination convinced him of the richness of his find and he returned here for aid.

Ralph Treat, an assayer, went to the place with Stone and returned with the report that a vein rich in gold, silver, lead and galena was tapped by the old tunnel. The lode has a ten-foot face and extends three miles. The ground has been taken possession of by Stone, and will be worked for its full value.

Old settlers in the vicinity say that the remains are probably those of Englishmen who were prospecting in that vicinity and who were last seen in 1858. That the remains have been in the tunnel about fifty years was indicated by the presence of a tree eighteen inches in thickness, directly over the entrance.

Nerves Unstrong You Feel Limp Loaded With Worry Unable to Speak Tired and Excitable,

You'll Grow Steadily Worse Unless the System is Better Nourished.

Nothing will build you up with the certainty of Ferrozone. Thousands of men and women who never hoped to be well—and here is ample proof—substantiated by one of Nova Scotia's prominent clerics.

"Before taking the first box of Ferrozone," writes Mrs. Annie Jeffrey, of Sandy Cove, N. S., "my condition was deplorable. Though I employed the most skillful medical aid, I grew steadily weaker. In fact, I was in such a low condition that it was impossible for me to walk across the room. My heart was very weak, and I suffered from terrible palpitations, which the doctor said were from troubles peculiar to women. Friends urged me to try Ferrozone, and I bought six boxes. When I had used the third box my old-time vigor and strength returned. The palpitations ceased, my appetite increased, and I got a good, rosy color in my cheeks. It would be impossible to speak too highly of Ferrozone. All weak women should use it. I hope many suffering sisters will use Ferrozone, for it will surely cure them."

Rev. J. C. Morse, D. D., pastor of the Baptist Church, Sandy Cove, bears witness to the recovery of Mrs. Jeffrey, and writes: "This is to certify that Mrs. Annie Jeffrey is a lady upon whose word you can depend. I have known her since childhood, and believe her to be a truthful, honest woman." This adds additional force to the testimony of Mrs. Jeffrey, and gives assurance to other sufferers that Ferrozone does what is claimed for it. Three weeks' treatment costs 50c., or six boxes for \$2.50, at all druggists.

HOUSE WRECKED.

Remarkable Escape of Two Families Who Occupied It.

Ottawa, June 14.—During a severe thunderstorm in Ottawa about midnight last night, a large frame house on the Montreal road, near the eastern part of the city, in which two families were asleep, was almost completely wrecked. The inmates, consisting of four adults and five children, escaped death or serious injury in a miraculous manner. An explosion which was heard throughout the whole eastern portion of the city, demolished the rear portion of the house and shattered windows in houses five hundred yards distant. The families of Messrs. Lapointe and Joseph Dishone, who were sleeping in the front part of the house, escaped practically uninjured amid the wreck of falling plaster and flying glass.

This morning a dynamite time fuse was discovered near the spot where the house was wrecked, by County Constable Hamilton, and the theory was advanced that a firebomb attempt was made to blow up the house with dynamite, secured probably from a neighboring quarry, where it is stored. There is, however, no apparent motive for such an outrage, and although the police are still working on the case, it is not considered most probable that the explosion was caused by a lightning bolt.

SUNK IN COLLISION.

Steamer Pierreville Runs Into the Liner Torgorm.

Montreal, June 14.—The Pierreville, a small river steamer, was sunk in collision with the ocean liner Torgorm, inward bound from the West Indies with a cargo of sugar.

News of the disaster reached here today with the arrival of the Torgorm. Captain Falconer of the latter vessel informed that the Pierreville struck the big liner on the starboard side, eighteen feet abaft of the stem, and sank in ten minutes. Boats were lowered, but no trace of the crew could be found.

The only sign of life was a dog. As the boats were gone it is thought the crew escaped in the darkness and reached shore in safety. An inquiry will likely be held.

The French Minister of the Colonies has received advices from Morocco saying that twelve soldiers of a native column perished from thirst and the terrific heat at the time the expedition was marching near Rhasserant. Twenty other men are missing from the force, and it is thought they also died of thirst.

TIMES PATTERNS.

A PRACTICAL WORK APRON.

No. 5779.—Every housekeeper knows the value of a large apron that may be easily slipped on. Here is one that is very practical as well as attractive, as it is full enough to cover the entire dress, and is a real aid in preserving a tidy appearance. It is also available as a studio apron, being supplied with bishop sleeves that are full enough to prevent any wrinkling of the dress sleeves underneath. The model is appropriate for linen, gingham, percale or any of the materials used for such garments. For the medium size 6 1/2 yards of material 36 inches wide will be required.

Ladies' Round Yoke Work Apron, No. 5779. Sizes for small, medium, large. A pattern of this illustration will be mailed to any address on receipt of ten cents in silver or stamps.

Address "Pattern Department," Times Office, Hamilton.

It will take several days before you can get pattern.

WOONG CANADA.

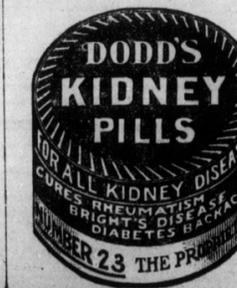

Germany Has Fired of the Disastrous Tariff War.

Paris, June 14.—Writing to the Journal des Debates, Robert Du Casble, Government Councillor on Foreign Commerce, says the results of the tariff war between Canada and Germany have given rise to much uneasiness in Germany, which will likely be aggravated by the recent Franco-Canadian conventions. A German-Canadian Association has accordingly been formed in Berlin with the object of securing the abolition of the Canadian surtax in return for the extension of the continental tariff to Canadian products, thus counteracting the disastrous effects of the preferential treatment accorded British goods. The German Government, M. Du Casble says, is also considering the best means of rendering the Canadian and German markets more accessible to one another. To this the Canadian Government is apparently favorably disposed. The Berlin Association has decided to send to Canada a deputation of representative business men. Meanwhile the association is organizing public lectures and publishing pamphlets extolling the excellence of Canadian products and pointing out the advantages of the treaty as a field for German emigration. This propaganda is being carried on in the hope that Canada will display gratitude towards the nation which shows a preference for the produce of the Dominion above that of all other countries.

FOR PAVING CO.

Ald. Moffatt, of Brantford, Admits the Connection.

Brantford, June 14.—At the City Council to-night there was a lively scene for a time when Ald. Ward declared that there were certain influences at work in the Council in connection with awarding contracts for street paving, of which considerable is being done in this city. He was asked to explain himself or make a definite charge, whereupon he stated that Ald. Moffatt, Chairman of the Board of Works, was in the employ of the Westramite Paving Co., which was seeking contracts. In reply Ald. Moffatt admitted he was the servant of the company, but said he had been engaged before his election to the Council, and that as Chairman of the Board he had not used his position to further the interests of the company in securing city contracts. "I do not think it wrong for a man to work for any company which pays him for it," he observed. The City Solicitor is alleged to be financially interested in the same company. The Council took no action, although some Aldermen admitted that they scarcely liked the situation.

NEW REGIMENT.

Grey's Horse in Camp For First Time at Woodstock.

Woodstock, June 14.—The newly-organized 24th Regiment of Cavalry, permitted by the Governor-General to use the name of Grey's Horse, goes into camp for the first time in its existence in Woodstock, on the Fair grounds to-morrow. Advance guards to-day made ready the tented city and upwards of 250 of the recruits will take possession to-morrow and spend the next two weeks under canvas. The regiment is commanded by Colonel W. M. Davis, of Berlin, and is made up of three squadrons, one from North Oxford, commanded by Major J. M. Ross, of Woodstock; one from South Oxford, commanded by Major T. R. Masberry, M. P. P., Ingersoll, and one from Waterloo county, commanded by Major Ross, of Preston. In the two weeks' drill, particular attention will be paid to shooting exercises.

Why Liquid Catarrh Remedies Fail.

They go direct to the stomach, have very little effect on the linings of the nose and throat, and entirely fail to cure. Only by cleansing the air passages by relieving the inflammation and killing the germs is cure possible. No combination of Antiseptics is so successful as Catarrhzone. In breathing it, you send the richest pine balsams right to the seat of the disease. Irritating phlegm is cleared out, hoarseness, coughing and hacking are cured. For a permanent cure for Catarrh, nothing equals Catarrhzone, 25 cents and \$1.00 at all dealers.

G. T. P. OPENED.

First Passenger Train Leaves Winnipeg For Scott.

Winnipeg, Man., June 14.—The first regular passenger train on the Grand Trunk Pacific pulled out of the Canadian Northern depot at 9:45 o'clock, bound for Scott, 569 miles west, where it is due to-morrow at 1:30 p. m. There was a considerable number of spectators around the depot when the historic train drew out, and a number of officials of the company were carried on a special car.

There were six coaches in the train, and 215 passengers made up the first quota to the rich lands opened up by the new railway. There were British, Galicians, and other Europeans, who are going to take up land, as well as a few ladies and commercial men. Though the present continuous service goes only to Scott, it is expected to run through to Edmonton in the early fall.

BLACK HAND LETTER.

Sent to a Lock Tender of the Welland Canal.

St. Catharines, June 14.—Patrick Dacey, lock tender on the Welland Canal, has received a letter from Buffalo, signed "Black Hand," in which personal violence is threatened. Nothing has been reported to the police and the matter is considered a joke by Dacey's friends, though Dacey himself is somewhat disturbed.

The letter is written in true Black Hand style, and declares that the society is determined to kill the recipient and that a horrible death awaits him. The level between locks seven and eight is over a mile long, and should the lock on which Capt. Dacey is employed be blown up many miles of fertile farmland would be inundated and hundreds of lives endangered. The Governors of Knox College have appointed a committee to select a successor to Professor Kennedy.

BLYTHE'S CASE.

No Foundation For the Sensational Reports Published.

Efforts Being Made to Save Him From the Gallows.

Toronto, June 15.—Dr. R. W. Bruce Smith, inspector of the hospitals and charities, yesterday examined Walter Blythe, who brutally murdered his wife at Agincourt, and who is to be hanged for the crime in Toronto jail on Thursday morning. Dr. Smith's examination was made in view of reports regarding Blythe's mental and physical condition.

When interviewed by the Globe, Dr. Smith said: "I found Blythe quite rational, and in as good bodily health as one would naturally expect to find a prisoner condemned to death and awaiting execution."

Dr. Smith's services were called for by a message from the jail, where the officials viewed the condemned man's condition as serious. His report, however, agrees with that of Dr. Clarke of the Toronto Hospital for the Insane who examined Blythe last week—namely, that the prisoner is not mentally unbalanced, nor is he becoming unbalanced. Neither is his physical condition such as to give warrant for the sensational statements recently published.

Yesterday morning T. C. Robinette, K. C., Blythe's counsel, received a letter from one of the judges of the court of appeal, used to weighing grave causes in his judicial mind, and who has ere this sat in judgment upon some tenets of death. In this letter he says that he has written to the acting Minister of Justice at Ottawa, expressing the hope that Blythe's sentence may be commuted to life imprisonment. He declares that he is moved by the fact that Blythe's act comes close to the line between murder and manslaughter, and, further, by the fact that he believes that the man has suffered enough in enduring the shattering of his hopes after being granted a reprieve.

The signatures to the petition asking for a commutation of the death sentence number thousands. Seldom has there been such a response to an invitation as in this case of the wretched man Blythe. Many of the letters were forwarded direct to the Hon. Charles Murphy, acting Minister of Justice, Ottawa, and after the mail was closed hundreds more signatures were received.

Sir Wilfrid Laurier will be in the city to-morrow, when a deputation, headed by influential citizens, will wait on him, asking that the sentence be commuted.

SAYS HE IS INSANE.

Ottawa, June 14.—Hon. Charles Murphy, acting Minister of Justice, received a telegram to-day from Mr. T. C. Robinette, K. C., of Toronto, stating that he would be here to-morrow to make another application for the commutation of the death sentence passed on Walter Blythe, the agincourt wife murderer, who is to be hanged in Toronto on Thursday. The appeal is being made on the ground that Blythe is insane, but unless strong proof is given the case will not be reopened.

BROTHERS ALL.

CLOSE OF CONGREGATIONAL UNION MEETINGS.

Sunday Schools to Support a Native Teacher—To Incorporate the Union—Sunday Schools and Y. P. S.

Toronto, June 15.—That the spirit of brotherliness which was the first of the elements in the Congregational ideal had been manifest throughout the sessions of the annual meeting of the Congregational Union of Canada was the conviction of Rev. W. E. Gilroy, of Brantford, addressing the closing session held last night in Western congregational Church. Children and young people from the Sunday schools of all the Congregational Churches in the city were gathered at this last meeting. These representatives, as the name of each Church was called, responded by singing or reciting verses of Scripture, acting E. H. Tippet, of Hamilton, and Rev. J. K. Unsworth, of Westmount, each made a few remarks directed chiefly to the children. In response to his appeal the Sunday school of Western Church undertook to support a native teacher in West Africa at a cost of \$25 per year.

The statistical report of the Union showed a total church membership in Canada of 11,344, an increase of 366 in the year; total number of churches and preaching stations, 150, an increase of seven; amount of money raised for all purposes, \$168,170, an increase of \$1,175; amount of debt, \$69,086; number of Sunday school scholars, \$8,932, an increase of 221; members of young people's societies, 2,091, an increase of 505.

The draft of an act to incorporate the Congregational Union of Canada was presented by the committee for that purpose, and adopted. It was decided by a unanimous vote that Toronto should be the headquarters of the Union.

With the objects in view of securing efficient Sunday schools and young people's societies in all the Congregational churches of the Dominion, the Union determined this morning to create a Department of Sunday Schools and Young People's Societies. The recommendation made by Rev. E. H. Tippet, of Hamilton, also included the appointment of a superintendent to have charge of this work in conjunction with an executive of three.

At the afternoon session the following officers were elected for next year: General Secretary, Rev. W. T. Gunn; Recording Secretary and Treasurer, Rev. G. E. Lyle; Statistical Secretary, Rev. H. G. Rice. The new Chairman, who was elected on the first day, is Rev. James T. Daley, of Maxville, Ont. Rev. J. K. Unsworth and Rev. E. H. Tippet were elected on the Executive Committee.

Rev. J. K. Unsworth, Rev. John Morton, were put on Committee on Church Union. Superintendent of Sunday Schools and Young People's Societies, Rev. E. H. Tippet.

Representatives on College Senate, Revs. J. K. Unsworth, Dr. F. A. Stevenson, J. L. Alexander, Mr. H. J. Ross, Mr. Unsworth was also elected to the Committee on Moral and Social Reform.

The more you know about tea, the more you will appreciate the delicate fragrance and delicious flavor of "Salada" Tea. Geo. Trepo, who was run over by an automobile at Toronto, died of his injuries.

A MASTER OF THE ART OF ELOCUTION.

Prof. John Duxbury, of Manchester, England, In Wesley Church Last Night.

Sketch of His Career and His Work—Coming to Canada Again.

Professor Duxbury, of Victoria College, Manchester, England, was again greeted by a large audience at Wesley Church last night, when he appeared in an evening of recitals.

After a few moments' intermission, during which a lady octette from the choir sang a selection, Professor Duxbury recited "The Bells," by Edgar Allan Poe, then "Little Jack Horner," showing how the different poets, Pope, Longfellow, Carlyle, Tennyson, Shakespeare and Dickens would write the story of Jack and the pie.

The great elocutionist has been on this side of the Atlantic since Easter, reciting every night, excepting four nights, and he was applauded so heartily that many good wishes were extended to Professor Duxbury for a safe trip to his old home in Manchester.

WOMEN OF EGYPT.

DEMAND RIGHT TO HAVE VOICE IN CHOOSING HUSBANDS.

They Rise Against Harem Laws—The Movement Alarms Conservative Mohammedans Owing to Its Widespread Character.

Cairo, Egypt, June 14.—Mohammedan women of Egypt, including members of the Khedival, or reigning family, have started a campaign, to win for their sex the right to have a voice in choosing husbands, to put aside the veil which hides their beauty, and to pass at will the doors of the harem, although their steps may lead to precincts where men abound.

There was a meeting recently in the Grand Opera House of upward of 4,000 women, representing the cream of society. Speeches were made by Princess Aisha and others of prominence, which brought out a unanimous vote for resolutions demanding freedom from harem life, the abolition of the veil, permission to be in the society of men and the right to be courted.

The resolutions have been forwarded to the Khedive and his Cabinet. A permanent organization has been formed and branches are being established throughout Egypt. The ultra-conservative Mohammedan press is sounding the alarm against "an infusion of European ideas into the sanctity of the harem."

WHAT YOU NEED FOR THE COUNTRY

You need some handy balm ready for blistered hands, sunburned skin, cuts, burns, bruises, stings, and the many little accidents incidental to open-air life. Zam-Buk is the ideal balm.

QUEER FIND.

Chris Holland's Documents and Books Found.

Looks as If Gigantic Frauds Had Been Contemplated.

Toronto, June 15.—A remarkable discovery was made yesterday by one of a number of men engaged in the renovation of a downtown hotel. It consisted of a bundle of papers, bank deposit books, stamps, cheques and letters bearing upon the operations of Chris A. Holland, the forger, who was recently sentenced in this city to seven years in the penitentiary.

It will be remembered that Holland, operating under the name of David Newhall, of Philadelphia, attempted extensive frauds on a number of local banks. He did not succeed in getting money from them, though he got away with an accepted cheque for \$5,000, but he was arrested in Pittsburgh before he could cash it.

He is finally settled that he will be here next Easter and will revisit Hamilton as one of his first places. He left this morning to visit Menford, Belleville and Montreal, after which he will return to England.

Some two years ago he started the Manchester School of Oratory, which at one ran up to one hundred students, and he was then appointed at the Victoria University in Manchester to take control of the department of elocution and has held that position ever since.

Prof. Duxbury, in memorizing his recitals, learns them as a whole. He reads a piece from beginning to end, and then puts the manuscript down and tries to tell the story. He then reads the piece again, and again tries to tell the story. He finds as he perseveres in that line by patching up with a few words of his own that the logic arrangement begins to assert itself and he has the piece in his mind in the author's words.

His particular work is scriptural reciting, not mere entertaining. He gives one long piece for an hour or so, and two or three shorter ones to finish up with. He has stirred up a great deal of enthusiasm in this city by his keen exposition. Reading ought to be an interpretation, not what a man says, but how he says it.

During his tour in the States and Canada he has recited at eighteen minstrel meetings, which shows that the ministers like inspiration and to see how these things do good.

Prof. Duxbury is going back to a very busy winter across the water, but will look forward with delightful anticipation to his return another year.

STATEMENT OF YORK RIDING & DRIVING CLUB'S SOLICITOR.

Toronto, June 15.—The representatives of the York Riding and Driving Club, who appeared before Hon. Messrs. Hanna and Foy yesterday to show cause why their charter should not be declared to have expired, were not prepared with their evidence, and secured an adjournment of the enquiry until today.

Moth Killers, Etc.

Moth camphor balls, 5c lb.; gum camphor, 3c ozs. 25c; camphorated x'u's, 25c tin; cedar flakes, 25c tin; lavender flakes, 25c tin; camphor compound, 25c lb.; moth bags, 25c up. Also lightning camphor and western bug destroyers, 25c; western roach killer, 25c tin; heli-bore 25c lb.; also insect powder and Paris Green. At Gerrie's drug store, 32 James street north.

Big Prices for Furniture.

London, June 14.—Christie's has seen nothing like the prices paid for the choice pieces of Chippendale collected by H. P. Dean, a Harley street physician. Some of the sales recorded were: A mahogany settee, finely carved, \$9,750; circular table with scalloped top, \$1,500; a grandfather's clock, \$2,200; a cabinet, \$3,750; cabinet of rosewood, \$1,000; a set of six arm chairs, \$1,750; a cupboard, \$2,000. The total raised for the seventy-three lots was something over \$50,275.

MRS. GOULD'S CASE IS IN.

Counsel For Defence Asks Dismissal of Complaint.

George Gould Sworn to Testify to Brother's Income.

Plaintiff Declares That Her Gowns Cost Her \$40,000 a Year.

New York, June 14.—Abandonment will be the sole issue upon which the suit for separation brought by Katharine Clemmons Gould will be decided. This ruling was made late today by Justice Dowling after counsel for Mrs. Gould had swept the case for the plaintiff. This swept away several phases of the case, notably cruelty and non-support, and is a partial victory for Howard Gould.

As to the charge of abandonment, the court held that this, too might not stand unless the plaintiff was able to show that Howard Gould's stipulations for a reconciliation with his wife were unreasonable. This phase of the case will be argued to-morrow.

The last witness to-day was George J. Gould, head of the Gould family. He was called to the stand late in the afternoon as a witness for Mrs. Howard Gould. As soon as Mr. Gould was excused, the plaintiff rested.

Just before Clarence J. Shearn began his figure, DeLaney Nicoll, for the defence, said:

"HOWARD GOULD'S INCOME. "We admit that the income of Mr. Howard Gould was \$800,000 a year, prior to the panic. Since the panic it has been considerably less."

After stating that he was Howard Gould's brother, the witness said that in 1896 his father's estate was valued at \$80,000,000. The estate was never divided, but Howard Gould received an income from about one-sixth of it. He could not state the exact figures.

He figured that Howard Gould's income from the estate was \$725,000 in 1902, \$782,000 in 1903, \$706,000 in 1904, \$742,000 in 1905, \$777,000 in 1906 and \$748,000 in 1907. The witness was not permitted to state whether he had a detective agency investigate certain former convict, or whether he had told his brother of such an investigation.

Mr. Shearn rested his case at this point and Mr. Nicoll began the customary argument for the dismissal of the complaint. He contended that Mr. Gould had made a reasonable effort to live with his wife and that no case of abandonment had been made out against him. He left her in 1906 and then offered to come back if she would accept certain terms—among them to abstain from the use of liquor. He wanted her to let somebody else manage the estate, counsel said, and wanted some method established by which her expenditures could be regulated. The propositions, the lawyer asserted, were fair.

PLOT, SAYS SHEARN.

Mr. Shearn declared that the defendant had plotted to ruin his wife by employing crooks to manufacture evidence. The chastity of a good woman had been assailed in a shocking manner.

After the lawyers were finished, Justice Dowling ordered the record and failed to support on the part of the defendant. The question to be decided, he said, was whether there was an abandonment. A recess until to-morrow was ordered at his point.

Mrs. Gould did not remain in court to hear the lawyer's arguments. The oppressive heat and the ordeal on the stand drove her to the verge of collapse and she was assisted to a carriage by Mr. Gould.

At times she was annoyed by some of the lawyer's questions and answered them by saying that she was particularly made her angry. Mr. Nicoll knew if her husband, through Elijah Sells, her cousin, had not stated certain conditions under which he would live with her again.

"Yes, he did agree to join me again if I became a drunkard," exclaimed Mrs. Gould.

\$40,000 A YEAR FOR GOVNS.

The greater part of the cross-examination had to do with money expended by Mrs. Gould with and without the knowledge of her husband. It was brought out that Mrs. Gould's gowns cost \$40,000 a year. She explained this by saying that she had at least three costumes three times a day and that she could not wear them twice in the same place. Some of the figures she paid for her gowns were: Dinner gowns from \$500 to \$800; driving gowns, \$75 to \$100; shopping gowns, \$250 to \$500; to go to church, \$300 to \$400; reception gowns, \$250 to \$500; motoring gowns, \$75 to \$150; yachting gowns, \$75 to \$150; hats, \$40 to \$80.

At Castle Gould, Mrs. Gould testified she was accustomed to change her gowns sometimes five and six times a day. She had to dress at least three times a day at Palm Beach, and more than that during her various trips about Europe.

One of the witnesses of the day that interested the plaintiff more than some of the others was former Inspector McLaughlin. He was examined in relation to the alleged marriage of the plaintiff to Big Hawley, the former convict. He told of what passed at a conference between De Laney Nicoll and Hawley. The witness said that he (the witness) had heard stories of the plaintiff's marriage to Hawley, but Hawley, at the conference with Mr. Nicoll, would not say whether he had been married to Mrs. Gould or not, but he did admit that plaintiff had been used on several occasions on ocean steamships to decoy men to play cards.

McLaughlin also testified that it was reported that the plaintiff had married a man in Baltimore named Dawson and said that he had sent a detective to Baltimore to investigate the matter, but nothing tangible resulted. While McLaughlin was testifying, the plaintiff fanned herself vigorously and never removed her eyes from him.

At one time during the cross-examination of Mrs. Gould, Mr. Nicoll produced a photograph of a woman on horseback, purporting to have been taken at Manchester, Eng., when with Colonel Cody's show. The witness colored

The Right House "HAMILTON'S FAVORITE SHOPPING PLACE"

Very stylish Summer wash suits and dresses Grand showing and quite exceptional values

THIS week's special showing of Summer Wash Suits and Wash Dresses is the most complete of the entire season. The largest assortment of leading, approved styles and fashionable materials. Made of fine white lawns and mulls, dainty medallion and Val. lace inset, all over and eyelet embroidered. Two great bargains in very dressy misses' blouses to-morrow, Thursday and also Friday.

CORNER KING EAST AND HUGHSON STS. THOMAS C. WATKINS HAMILTON, ONTARIO

CLOWN SEASON ON.

How 1,000 English Men and Women Make a Living.

London, June 14.—The Pierrot season in England began on Whit-Monday, which means that music hall performers started their tour of seaside places, in small bands, dressed as pierrots or clowns, and will give entertainments on the piers or on the sands for what they can collect when the hat is passed around.

About 1,000 men and women make a specialty of this sort of summer work. They used to be broken-down tenth-rate singers, who could not get anything to do, and looked forward to the summer months to keep them from absolute starvation. Nowadays they are young and clever music hall performers, who like to spend their summers this way.

Sometimes they are sent out by a firm, and sometimes they go out on their own initiative. One firm has some twenty troupes under its contract. They pay their pierrots \$30 or \$40 a week, and they don't lose money either. Sometimes a regular charge of admittance is made, but more often the star pierrot passes the hat.

RACE TRACK CASE.

Statement of York Riding & Driving Club's Solicitor.

Toronto, June 15.—The representatives of the York Riding and Driving Club, who appeared before Hon. Messrs. Hanna and Foy yesterday to show cause why their charter should not be declared to have expired, were not prepared with their evidence, and secured an adjournment of the enquiry until today.

Moth Killers, Etc.

Moth camphor balls, 5c lb.; gum camphor, 3c ozs. 25c; camphorated x'u's, 25c tin; cedar flakes, 25c tin; lavender flakes, 25c tin; camphor compound, 25c lb.; moth bags, 25c up. Also lightning camphor and western bug destroyers, 25c; western roach killer, 25c tin; heli-bore 25c lb.; also insect powder and Paris Green. At Gerrie's drug store, 32 James street north.

Big Prices for Furniture.

London, June 14.—Christie's has seen nothing like the prices paid for the choice pieces of Chippendale collected by H. P. Dean, a Harley street physician. Some of the sales recorded were: A mahogany settee, finely carved, \$9,750; circular table with scalloped top, \$1,500; a grandfather's clock, \$2,200; a cabinet, \$3,750; cabinet of rosewood, \$1,000; a set of six arm chairs, \$1,750; a cupboard, \$2,000. The total raised for the seventy-three lots was something over \$50,275.

ABOLISH THE FLY.

A Fruitful Source of Infection, a Menace to Health.

It happens every day, and so one pays very little attention. Maybe it is the butter, or perhaps the slice of bread alongside one's plate. Or else, quite possibly, it is the milk in the pitcher. But, whatever it is that attracts the omnipresent fly, its appearance, as it crawls over the food on the table is unappetizing.

The health authorities of New York City estimate that about one-half of the deaths from typhoid in the metropolis annually are attributable to the distribution of the germs by flies. But serious as this matter is, it is of vastly less importance than the destruction of human life, particularly that of young children, by the bowel complaints which these insects are chiefly instrumental in spreading. It is reckoned that deaths from these latter maladies in New York would be reduced from 7,000 to about 2,000 a year if proper precautions were taken to prevent the breeding of flies.

MUCH EXCITED.

Gold and Silver Has Been Found Near Paynton, Sask.

Paynton, Sask., June 14.—This town has been thrown into a great state of excitement by the report of the discovery of placer gold and silver mines, as well as quartz, in the hills south of here. The find was made by Mrs. Ford, who sent samples of gravel and also of quartz, to an assayer in Duluth, who reported the quartz assaying \$900.14 in gold and \$6 in silver to the ton, while the gravel yielded about \$26 to the ton. This town was practically deserted yesterday, as everyone was away in the new gold fields staking claims for prospecting.

Paynton is a little village lying thirty-four miles northwest of North Battleford and about twenty miles north of the Saskatchewan River. The Saskatchewan farther west toward Edmonton has long been known to carry placer gold, and dredging for the precious metal was carried on with more or less success for many years on the river bars and the benches adjacent to it.

HOME AGAIN.

The Hero of Furthest South Welcomed in London.

London, June 14.—Lieut. Shackleton arrived in London to-day and was received at the Charing Cross station by the President and members of the Royal Geographical Society. There was a great crowd at the station, and the reception given to the explorer was very enthusiastic. The first to greet him as he stepped from the train were a tiny boy and girl, his children, whom he embraced repeatedly. The great crowd swarmed around him, cheering, and waving hats and umbrellas. It was with difficulty that the members of the official party could get outside. Once there the demonstration became even greater, if possible.

FAVOR WAITRESSES.

Writers Have Been Supplanted at Smart Functions in London.

London, June 14.—The smart thing at an entertainment in London nowadays when a caterer provides the tea or supper served is to have waitresses instead of waiters. Even at large dinners the caterers find that many persons prefer to have waitresses.

Questioned as to the reason of the fashion, a caterer attributed it to the dainty appearance of the waitresses in their black frocks and white caps and aprons and to the fact that they give the entertainment a homelike air that hostesses like. He added: "Then, too, the women are reported to us as very quick and quiet in their serving, and sympathetic too."

"Perhaps the simple life craze has had something to do with the devotion of the waitresses to her high pin-nacle of repute. Certainly she looks less ostentatious in a house than the average waiter does."

NERVOUS?

Do you know what nerves are? Are you startled by the least noise? Does the children's merry laughter and noise irritate and worry you? Does the unexpected call of a friend or visitor make your heart "jump"? If so your nerves are in a bad condition. You need PSYCHINE the greatest of Tonics. There is life in every dose. It makes life brighter and happier, gives you a good appetite, makes your work a pleasure and enables you to enjoy life, the merry prattle of the children and the visits of your friends.

Nervous and Run Down

"In regard to your PSYCHINE, I cannot speak too highly of it. I was feeling nervous, trembling and run down before taking PSYCHINE and had a bad cough. But PSYCHINE helped me more than anything I ever tried and I give it all the praise." Mrs. George Vogart, Gananoque, Ont.

Send to Dr. T. A. Slocum, Limited, Spadina Ave., Toronto, for a sample of this wonderful tonic to-day. This will convince you that there is nothing like PSYCHINE in the world for "run down and nervous" folk. It is quick in its action and is absolutely reliable, having a record of nearly 30 years. The whole family can take it—the children like it. Sold by all druggists and stores, 50c and \$1.00.

LEAFS WHITEWASHED.

Jersey City Beat Toronto Yesterday, 1-0.

At Jersey City—Jersey City continued its distribution of ciphers in yesterday's game by handing Joe Kelly's band nine well-developed zeros, making the fourth successive victory obtained by the Jerseymen through the aid of the whitewash brush.

FANS HOPE JOHNSON WILL KETCHELL

From the Scrap Heap

Buffalo, June 15.—Not much longer will there remain doubt about Jim Jeffries' attitude toward the heavyweight pugilistic championship.

Pittsburg, Pa., June 15.—Reiterating his former assertions that he would fight Johnson in the fall, James J. Jeffries, retired heavyweight champion, arrived here last night.

Chicago, June 14.—Professor Jimmy Kelly, 48 years old, a veteran pugilist, manager and trainer, died today.

Galveston, Tex., June 14.—That Jack Johnson does not forget the old folks at home is evidenced by the purchase of two city lots here upon which an up-to-date ten-room house is to be erected.

New York, June 15.—Jeff O'Connell, an English lightweight, and Frank Manggo, of New York, fought a fast ten-round draw at the Olympic Athletic Club here last night.

Albany, N. Y., June 15.—Kid Henry, of Troy, last night knocked out Arthur Cote, of Biddford, Me., in the sixth round of a ten-round bout.

On the subject of a fight with Johnson, Jeffries referred his question to the referee, who said he would not anticipate an intended Pittsburg statement, delivered himself as follows:

"Our theatrical contract expires in a few weeks. Just as soon as we are through, Jeffries will go to New York and post \$10,000 to bind a match with the negro. We're going to call his bluff and call it right."

The representatives of the City Baseball League No. 2 will hold a meeting Wednesday evening at 8:30, at 36 James street, to draw up schedule, rules and elect officers.

All games will be played at Victoria Park, which has the best ball diamond in the city. The senior cup and shield will be put up for competition.

By ELECTRIC LIGHT. Cincinnati, June 15.—Baseball with electric light, from which so much is expected by some, was given its trial at league park here last night.

Goderich defeated Blyth 6 to 0 in a Huron League game yesterday.

The weather was so cold in Chicago yesterday that the National League game with Boston was postponed.

Thornton defeated Amiston in a South Simcoe League game at Thornton yesterday by a score of 7 to 3.

The King's racing career began in March, 1871, when, as colonel of the regiment, he ran a bay gelding champion in a hunters' challenge cup at a meeting of the Tenth Hussars at Down Barns.

ESCAPING THE SPIKES.

Difficult Play in Baseball Game.

Touching Runner Hardest Part of Work.

That baseball will soon be as dangerous as football unless a means is found to do away with "spiking" is the opinion of many experts.

Hardly a day passes that some player in the various leagues is not put out of the game as a result of being gashed by the sharp steel plates worn on the ball player's shoes to keep him from slipping and sliding over the grass.

Both base runner and guardian of the bag must display absolute courage in making close plays. The runner dare not stop up for fear of being put out, and losing a chance to score a run that will perhaps spell victory.

Managers have come to so thoroughly understand the perils that go with putting a tag on a base runner that almost the first question they ask when they are inquiring into the abilities of a newcomer is:

"Can he touch out base runners?" This looks easy. It might be expected to be a simple feature of an infielder's work, but as a matter of fact it is the hardest.

It is a play whose difficulties escape the average spectator. He can see and thrill when a long hit is made, a difficult running catch completed, a one-hand stop and accurate throw put through, but the skill and nerve necessary to escape the spikes and touch out the base runner are features of the game lightly esteemed by the man with a knowledge of the inside.

A close play is never made but that the base runner has no time to be careful. If he showed any undue caution he would be voted a quitter, and would come straight through, never thinking of consequences, either to himself or to the man he is seeking to elude.

In fact, a large percentage of runners now slide even to first base on bunts or slow grounders whenever there is a chance of beating them out.

Therefore, not even the first baseman is immune from the peril of getting mixed up with the spikes.

Case of intentional spiking are rare. Not many ball players will intentionally maim a fellow player. Yet in the anger and excitement of the game men lose their heads and often make accusations that in their sober senses they regret.

The catcher is more exposed to the spiking peril than any of the fellows, for the probable reason that plays are at the home plate more bitterly contested.

Here is the final station. The baserunner has moved around to the last stretch of the journey, but as far as the vital question of run-making goes he might as well never have gone to the bat unless he can cross the home plate.

Therefore extra recklessness inspires him when he gets to this point. The catcher is correspondingly anxious to stop him. This is a combination that leads to many serious smashups at the home station.

The great second basemen and shortstops know the fine art of getting the tag on a runner, and it is generally admitted that the knowledge is of paramount importance in guarding second base.

Here a great number of plays come off, where quick action is required, for most of the base stealing has second base for an objective point, and in most of the double plays second base is one of the stations for which the runners are trying.

Runners constantly practise means of circumventing the tag. The light, speedy men have all kinds of ways of going into a bag, without exposing more than a minimum of their bodies to the probability of being tagged.

These men can do as much by wriggling and dodging as the more reckless runners can achieve by smashing right into the man with the ball. These runners have sudden movements that are very deceptive.

Often only an arm or leg is exposed, and by a sudden swerve even this poor surface will be perked out of danger long enough to let the runner reach the bag in safety.

It is not possible to do away with spikes. The ball player must have them both to field his position and when he is at the bat and on the bases.

Therefore a premium is put on courage for the equipment of the infielder and the nerve must be supplemented with good judgment and mastery of every trick of touching out the man before he can land.

Old Country Cricket

London, June 15.—In the second test match with the cricketers of Australia England in the first innings scored 269 and Australia made 17 for no wickets.

There was a sensational finish to the first test match played at Edgbaston. The Australians could only score 151 in their second innings and left 105 to get to win. Hobbs and C. B. Fry hit off the runs amid a scene of much excitement.

DUNOYAS WON THE PLAY OFF.

Last night at the H. B. & A. C. the Dunoyas and the Terminals, who were tied for second place in the third section of the Class C bowling series, played off.

The Dunoyas won by 46 pins and got second place in the section, and win the set of gold mounted fountain pens donated by the club. The scores:

Table with 2 columns: Name and Score. G. Wallace 128 119 156 403; E. Jordan 123 135 167 425; F. James 139 108 126 373; C. Cleave 166 146 141 453; A. Orr 132 115 200 447; Dunoyas 121 128 151 400; A. THE KING'S TURF CAREER.

So Far This Year He Has Won About 25,000 Pounds.

London, Eng., June 15.—By his third success the other day the King brings up the number of those who have won the Derby three times or more to twelve.

Of these, he and Lord Rosebery are the only two still living.

The King's racing career began in March, 1871, when, as colonel of the regiment, he ran a bay gelding champion in a hunters' challenge cup at a meeting of the Tenth Hussars at Down Barns.

His first attempt was not successful, and it was not until April 15, 1880, that his colors were carried to victory for the first time in a military hunt steeplechase, by a horse named Leonidas.

Six years then elapsed before the King registered his first success under Jockey Club rules, when his real racing career may be said to have started.

On June 4, 1886, Counterpane, a filly by Hermit, started favorite, and ridden by the late Fred Archer, won a maiden two-year-old plate.

On June 4, 1886, Counterpane, a filly by Hermit, started favorite, and ridden by the late Fred Archer, won a maiden two-year-old plate.

On June 4, 1886, Counterpane, a filly by Hermit, started favorite, and ridden by the late Fred Archer, won a maiden two-year-old plate.

Tommy Burns, the ex-champion boxer, sends the Toowoomba Gazette, which gives particulars of the transactions that are taking place in Australia, with a view to his taking Johnson, the present colored champion boxer of the world.

Mr. Mackintosh, the gentleman who arranged the meeting of Burns and Johnson in Sydney, is at present in New York, says the Gazette, and he has been endeavoring to arrange that Mr. Burns should again meet Johnson, the former being by no means satisfied with the result of the late contest in Sydney, and rightly so, as it has since transpired that on the day of the big fight in Sydney, Tommy Burns was "not himself," he being anything but well.

Mr. Mackintosh commenced overtures in New York, and this week called Mr. Burns regarding his proposals.

Mr. Burns cabled in reply that if his interests were sufficiently protected he would willingly meet Johnson or any of the other prominent pugilists who were anxious to meet him. In reply to this, Mr. Mackintosh cabled as follows:

"Strongly recommended you leave everything to me; will do everything possible to protect your interests. Have deposited \$5,000 to cover Johnson's, Kaufman's and Ketchell's challenge."

This, Mr. Burns started last evening, is quite satisfactory to him, and he cabled in reply:

"Will leave everything to you." It is likely, therefore, that the world may again have the opportunity of seeing him meet Johnson, when Australia in particular will hope to see the present position reversed.

The Canadian circuit starts to-day, and from the number of horses now at Seaforth, there should be some racing. The Eel will pace an exhibition mile there.

Listowel, Stratford, London, Tilsonburg and Aylmer follow in order, so there should be plenty of work before the big ring starts at Windsor. There are a lot of fast ones ready for the word.

James J. Jeffries, the undefeated champion boxer of the world, and who is again an aspirant for the honors which he presented to another some years ago, was in the city for a short time yesterday morning, en route from Montreal to Pittsburg. His manager's agent, Mr. A. W. Davis, of New York, stayed over, however, to meet the officers of the Olympic Club and see if arrangements could be made for a visit here of the big fellow the week after next.

The club could not come to terms, however, the agent of the great boxer wanting 50 per cent of the gross receipts with a guarantee of \$700. This was more than the club felt able to guarantee.

The conference took place at Billy Carroll's cigar store.

IN THE "SOFT" BALL LEAGUES.

In the Newspaper Soft Ball League at Victoria Park yesterday afternoon the Times team again defeated the Spectator nine, the score being 10 to 6.

The game was pretty even till the fifth innings, when the James street printers went up in a balloon, and the Times bunch scored five runs—a lead which they maintained to the finish. Bill Jamieson did the heaving for the winners, and held his opponents down to four hits.

Stranston was the star player of the losing team, and did some fine work behind the bat. The teams:

Times (10)—Femberton, l.s.; Fitzgerald, l.b.; Lighthouse, 3b.; Cox, c.f.; Smith, l.f.; Pascoe, r.f.; Jamieson, p.; Lithgow, c.; Maxstead, 2b.; Spectator (5)—Green, l.s.; Pryke, 3b.; Slaughter, l.f.; ranston, c.; Waite, p.; Campbell, c.f.; Cameron, 2b.; Tucker, l.b.; W. Campbell, r.f.

Score by innings: Times, 10-10-10-10-11-3; Spectator, 0-0-0-0-0-4-5. Umpires—Nelson and Aitchison.

In the St. Patrick's Soft Ball League last night the Greens defeated the Whites by a score of 10 to 7.

The first cabin passengers of the wrecked Cunard liner Slavonia reached Gibraltar yesterday.

REVIVAL OF BICYCLING.

Toronto World: That all the talk about the revival of the bicycle game is not merely a passing flash in the pan is quite evident by the activeness shown by all the old-time clubs.

The Royal Canadian Bicycle Club, of the east end, one of the strongest supporters of the sport in its palmy days, has once more decided to fall in line and get together a racing team, and in the near future to take place in the team.

The R. C. B. C. executive committee hope to secure Mr. Herb Marshall, one of the old-time champion riders, to manage their racing team, and a capable trainer will be engaged this week to put the riders in shape.

The club have a pretty good collection of riders to start with in Willie Anderson, Walt Andrews, Alex. Barrie, Tom Hardin, and perhaps, W. J. Vennells, who has not decided whether he will turn out before fall or not; and, then, there are young Owens and Foster, who have made a good showing the last year or two, and Ed. Dobson and E. P. West, who finished third and fourth in the last Dunlop trophy race, before it was turned into a handicap.

Besides the above riders, the Royals expect to land a couple of good men to strengthen up their team, so it is quite natural to suppose that when the prizes are being handed around the Royals will get their share.

MOUNTAIN THEATRE EAST END TO-NIGHT THE SUMMERS STOCK CO. 100 free seats with incline coupon ticket.

Many changes have taken place since these lodges came into being. At first sick and funeral benefits were given, and the laws which governed them were often crude and the monetary basis on which they were distributed would scarcely be endorsed by a present day actuary.

The principles of our Order are founded upon the golden rule, and the work in which you are engaged is a noble one. Politics and propaganda have no place behind the tyler doors.

The reply to the address of welcome was made by Past Grand Master Robert Clark, of Troy.

Past Grand Masters M. B. Thomas and R. Clark exemplified the Past Grand's degree.

In his address Grand Master Junkin referred with satisfaction to the fact that the death rate during the year had not been high, only 5.58 in 1,000.

Comment was made about the number of lapses, and the statement was made that R. T. McNichol, superintendent of organization, had tendered his resignation, to take effect after the present Grand Lodge meeting.

The number of members for admission to the order was the largest in any year in the history of Canadian Oddfellowship, and the amount at the credit of the insurance fund is nearly double what it was five years ago.

According to custom we present here with our report of the condition of the order for the past twelve months and can safely say it is one of the best reports presented in recent years.

The Grand Executive reported as follows on the membership: According to custom we present here with our report of the condition of the order for the past twelve months and can safely say it is one of the best reports presented in recent years.

According to custom we present here with our report of the condition of the order for the past twelve months and can safely say it is one of the best reports presented in recent years.

CANNOT UPSET THE LIGHTING CONTRACT

(Continued from Page 1.)

Next sewage plant at once. Almost any concession, will be made in the way of reducing the cost of the present contract for the transmission line from Dundas, so that no by-law will have to be submitted, and no argument made for or against it.

—The June meeting of the Hamilton Horticultural Society was held last night at the beautiful grounds of Mr. A. V. Stewart, Wentworth street south, a past president of the society.

—This was a busy day for the steamer Turbina. She left this morning for Toronto with a large load of freight and passengers, and returned at 1 p. m.

—The cricket match between Haverford College, of Philadelphia, and Hamilton, which will be played to-morrow on the Hamilton grounds, should draw a good crowd of spectators.

—Building permits were issued to-day as follows: H. P. McEneaney, frame house on Harvey street, between Sanford and Hart street, \$1,200.

—Another batch of unclaimed dogs were destroyed at the pound yesterday.

DROWNED ON WEDDING MORN.

Fell Through Open Draw of Railway Bridge.

New Brunswick, N. J., June 15.—While on his way from South Amboy, N. J., to New Brunswick with his sweetheart to be married, Joseph Kobatch, of South River, walked into the open draw of the New York & Long Branch Railroad bridge across the Raritan River early yesterday, and was drowned.

The girl was taken back to the home of her friends. She said Kobatch persuaded her to cross the railroad bridge with him to save time. He carried a suitcase, and had about \$50 in his pocket.

—The girl was taken back to the home of her friends. She said Kobatch persuaded her to cross the railroad bridge with him to save time. He carried a suitcase, and had about \$50 in his pocket.
