FORMER MIRAMICHI MAN DIES IN U. S. A.

Word was received here yesterday of the death of James A. Urquhart of Oconto, Wis., U.S.A. who was one of that city's most esteemed citizens and business men. His death occurred suddenly on Saturday afternoon, November 30th from heart trouble. Mr. Urquhart had gone to his physician's office for a consultation and while there suffered an attack which proved fatal. He had not been in the best of health for some time, but his condition was not considered serious just prior to his death.

Deceased who was sixty years old at the time of his death was born December 20, 1863 in Wayerton New Brunswick, Canada and went to Oconto in 1888. He was employed by the Cook Brothers and in 1892 he went back to Canada where he married. When he again returned to Oconto he was employed by the Holt Lumber Co. and stayed with them until he went into business for himself twenty-one years ago. Since that time Mr. Urquhart has successfully conducted a coal and building material business on Michigan Avenue.

Mr. Urquhart has been chairman of the board of trustees of the Presbyterian church for a number of years, and had been active in several fraternal and business organizations namely: the Odd Fellows, the Modern Woodmen of America, the Fraternal Reserve Association, the Kiwanis Club and the Chamber of Commerce. Deceased is survived by his aged mother at Wayerton, N.B.; his wife, Rachael; two daughters Mrs. John Gordon of Oconto and Miss Mabel Urquhart who teaches at Joliet, Ill; and three sons Raymond of Oconto; James R. of Honolulu, Hawaii and Grant of Chicago. James R. of Honolulu was unable to attend the funeral but he made an extended visit with his father last summer.

Deceased is also survived by four sisters and three brothers: Kose Urquhart and Mrs. A. B. Leavitt of New York city; Mrs. Mary Watson of Bridgeport, Conn; Mrs. Carden of Lawrence, Mass; Harvey of Wayerton; N. B.; John of Ansonia, Conn; and William of Wayerton, N. B.

Messrs. John R. and James Allison of this town are uncles of deceased and the late Mr. Urquhart's wife is a sister of Mrs. John R. Allison of Newcastle and Mrs. Wm. McKenzie of South Nelson.

The funeral was held Tuesday afternoon at 2:30 from the Presbyterian church. Rev. R. A. Garrison assisted by Rev. E. W. Wright of Menominee, formerly pastor of the local Presbyterian church officiated. Interment was made in the Evergreen cemetery.

The pallbearers were the trustees of the Presbyterian church, J. A. Ramsay; All Klass, Frank Messenger, W. L. Boyce, R. L. Porterfield and H. E. Nelson. The Odd Fellows attended the funeral in a body.

A musical treat is in store for lovers of music at the Grand Concert and Organ Recital in St. James Church Wednesday, December 17th, at 8.30 o'clock P. M.

ST. ANDREWS RECTORY GIVEN PRESENTATIONS

St. Andrew's rectory was the scene of a very enjoyable gathering on Wednesday evening when the rector, Rev. W. J. Bate was presented with a cassock by the members of the Junior W. A. and a surplice by the Senior W. A. The address on behalf of the Juniors was read by Miss Dorothy Harris and the presentation made by Miss Gertrude Malby. For the Seniors it was arranged that Mrs. J. W. Davidson and Mrs. Walter Morell would do the honors, they being the only two surviving members in the Newcastle W. A. of the old St. Andrew's Guild which was formed thirty-five years ago. However, much to the regret of all Mrs. Davidson was unable to be present, and the address was read by Mrs. Fraser Harris, the presentation being made by Mrs. Morell.

Both senior and junior members gathered at the Sunday school and proceeded in a body to the rectory. Rev. Mr. Bate was taken by surprise, but he replied very feelingly.

Following the presentations a delightful evening was spent in games and music and delicious refreshments were served.

ABLE TO DO HOUSEWORK NOW

Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound

Bloomington, N. S.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache, also for nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to take it. I must say I have received great benefit from it and am able to do my housework now. I recommend the Vegetable Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MORSE, Bloomington, Annapolis County, N. S.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes." This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Morse is simply another case of a woman receiving "great benefit." Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

Mrs. Murray Hough, Warton, Ont., writes:

"I had eczema for twelve years. Every once in a while it would break out and spread all over my arms. I tried all kinds of treatments to relieve it, but without success. One Spring it broke out and nothing gave me relief, even the salve I got from the doctor did no good. At last I tried Dr. Chase's Ointment and it healed the eczema in a short time. Student Died At Chatham Following An Operation

The death of F. L. Coates occurred at the Hotel Dieu Hospital Thursday following an operation. The deceased who was fourteen years of age, was a son of the late Frederick Coates of St. John. His mother, Mrs. Thomas Stone, is residing in Chatham. Her husband, Thomas Stone, a well known pilot of the Port of St. John, died some months ago. Young Coates had been attending St. Thomas College and was very popular with the faculty and the student body. He is survived by one sister, Mabel.

Winslow Was Remanded

Arthur O. Winslow, arrested in Fredericton Monday, was brought to Newcastle by Sheriff Doran Tuesday night charged with appropriating money from the Metropolitan Insurance Co. He was given a hearing Wednesday morning and remanded for a week. He was allowed out on bail. The charge was laid by Freeman D. Smith, of the Metropolitan Insurance Co. The amount involved is \$405 and the alleged misappropriation took place during April and May 1924.

STATEMENT BY PREMIER VENIOT

Premier Veniot said there will be a session of the legislature before the provincial general elections are called, denying a report published at Moncton to the effect that the government's plans had been changed and there would be elections early in the year.

"There will be a session of the legislature, as I have previously stated before we call a general provincial election," the premier said. "There is no reason why we should change our plans. We must first of all get the way cleared to go on with the Grand Falls hydro development. That is the utmost importance just now."

The Premier also said there was no truth in the suggestion contained in an article appearing in the St. John Telegraph Journal, under Fredericton date to the effect that modifications in New Brunswick's prohibition act were under consideration.

PARLIAMENT MAY OPEN JANUARY 29

January 22 as the approximate date for the opening of parliament now appears to be too early an estimate. January 29 or even the first week in February appears to be more likely as the time for the opening ceremonies. The later dates are more probably in view of the fact that the cabinet has not yet commenced the estimates for 1925. Last year parliament met on Feb. 28th and in the previous year at the end of January.

Premier King has intimated that it will likely be February before parliament gets down to work. In this case the official opening would take place on Thursday Jan. 29th followed by the customary week end adjournment until Monday, Feb 2 when the debate on the speech from the throne would commence. The summoning of parliament is a ways announced in the Canada Gazette on month before the actual date.

NEW LIBERAL LEADER IS FORMER NEWCASTLE MAN

The Hon. Charles Richmond Mitchell, K.C., who was elected by acclamation as leader of the Liberal party in Alberta at the Calgary convention held in that city on November 27th was born in Newcastle, N.B. and educated at the University of New Brunswick, and at King's College, Windsor, N.S.; (B.O.; B.C.L.)

He went West and settled at Medicine Hat in 1898 where he engaged in the practice of law until his appointment in 1907 to the District Court Bench at Calgary which position he filled until June 1, 1910 when he resigned from the bench to join the administration of Premier Sifton as attorney general and minister of education.

Relinquishing these portfolios he was appointed minister of public works in May 1912 and in 1914 was appointed provincial treasurer. This position he occupied until August 1921 when the Liberal government retired from office.

On the death of the late Hon. A. G. MacKay, Mr. Mitchell became minister of health and municipal affairs. During his tenure of office in the executive council of the province, Mr. Mitchell was more prominently known to the public in the capacity of provincial treasurer, covering a period of over seven years including the period of the war, when the question of provincial financing was at times a difficult problem.

From 1910 to 1913 Mr. Mitchell represented Medicine Hat in the legislature and on his defeat there in 1913 was immediately elected by acclamation for his present seat, Bow Valley.

With a record of 14 years' service in the legislature 11 of which were spent in the cabinet and having by reason thereof, a detailed knowledge of the various departments of the public service of the province Mr. Mitchell will undoubtedly bring to bear in the execution of his duties as the leader of the Liberal party in the legislature, an experience that should be of value, not only to the party to which he belongs but also to the province in which he has so long been a resident.

In addition to his legislative duties Mr. Mitchell has during more recent years, operated successfully a 1200 acre farm on the Bow River adjacent to his constituency, and in consequence has kept closely in touch with the various problems which in this province confront the farmer.

A Gift that Increases in Value

WHAT DID YOU GIVE LAST CHRISTMAS? Toys for the kiddies—most of them broken by now. "Something useful" for the grown-ups—now worn out or forgotten. Cash to your employees—appreciated but soon spent. Other presents—hurriedly bought and perhaps ill-chosen. Are they remembered now?

Suppose this year you give them each a Bank Book containing an initial deposit, and urge them to add to it regularly. Could anything be more suitable?

Will The Frasers Start Paper Mill At Madawaska

Financial Paper Has Some Information on the Subject

Montreal, Dec. 8--Canada may lose another paper mill, to be built in the United States. It is stated that the Frasers of Edmundston, N.B. are planning the erection of a book paper mill at Madawaska, Maine...

A telegram by the Financial Post to Fraser Companies, Ltd. asking confirmation of the report brought only the reply that the president of the company is abroad at the present time...

It was announced some time ago that a 200 ton a day mill would be built at Madawaska but at that were not known. Now it is stated that Fraser Companies is behind the deal...

Magazine paper will be made at the new plant. Work on the factory will start early next spring, it is expected, and it will be ready for operation next fall. Efforts have been made to keep secret plans for construction of the new mill...

The Fraser Companies Ltd. are among the largest landholders in New Brunswick. They own large tracts across the St John River from Madawaska. At Edmundston, N.B. the organization operates a 150 ton sulphite fibre mill...

The best engineers in the country are said to be working on plans for the new factory which will be modern in every respect. One hundred acres have been obtained for employees' houses. The daily output will be 200 tons.

CHRISTMAS

Few people write Xmas deliberately when they mean Christmas. X means nothing. Nobody would want to send "nothingsmas" greetings. But the substitution of X for the name of the Christ is found occasionally on greeting cards...

According to Webster's dictionary the meaning of the word Christ is "the Lord's anointed". Christmas is the season when the birth of Jesus is celebrated. Jesus according to the dictionary reflected "an ideal and perfect humanity as typified by Christ."

Tennyson used the word with profound meaning when he said "Ring in the Christ that is to be." When the word thus stands for Truth or Principle surely it should never be displaced by the meaningless abbreviation Xmas.

"Plastigrams" the Sensation of the Age

What Plastigrams Are

The Plastigrams invented by Professor Frederick E. Ives are the realization of what scientists have been striving for—"The Third Dimension Pictures." They have the depth as well as the clarity and realism of a picture, standing out from the screen just as in real life, when viewed through the two colored glasses which will be supplied by the theatre to patrons attending each performance.

So realistic are these pictures that when an automobile appears on the screen coming in the direction of the auditorium patrons actually make an attempt to dodge, remaining the same sensation they would have were a car coming directly for them on the street. The foregoing will give you some idea of the fun, but the whole thing is so wonderful you will have to witness it to fully appreciate.

WILL DEMONSTRATE PNEUMONIA SERUM

New York, Dec. 6—Dr. Medrie F. de Gerin, arrived from France today on the Pacific to demonstrate under the auspices of New York State physicians' organizations the uses of a serum he has perfected during his visit to Paris at the invitation of many of the leading physicians of America.

Dr. De Gerin who was the personal physician of James Gordon Bennett for many years said he would demonstrate his serum during the next year in American cities extending him an invitation.

Dr. de Gerin also said he believed he had discovered a cure for anemia and that he would be glad to place it at the disposal of American physicians for further tests. As a result of a study of cancer he said, he had come to the conclusion that the disease was both infectious and contagious and that cancer patients should be isolated and their living quarters fumigated.

Born in Nashua, N.H., in 1867 of French parents Mr. Me Gerin has always retained his American citizenship, and has practised in New England and California. Of late years he has conducted his studies in Paris.

A man came into an electrical store with an electric iron needing a slight repair. He waited until the job was finished, and being told that it would cost a dollar, he handed the dealer a five dollar bill. The dealer was unable to make the change so the customer said, "I haven't another cent and I must take the iron back with me. Let me have a dollar and I'll come back for the bill tomorrow."

The dealer consented, took the five dollar bill and handed the customer a dollar and the iron. The following day the man returned gave the dealer four dollars and received his five dollar bill back. Was this a profitable transaction for the dealer?

Christmas Message Of C. N. R. President

Expresses Thanks To All Ranks For Their Enthusiasm And Co-Operation

Through the medium of the Canadian National Railways Magazine, Sir Henry W. Thornton has addressed the following Christmas message to all members of the company: "Now that another year has rolled by I want to express my deepest appreciation of everything you have done during this year. We have faced obstacles together and we have overcome them; we have encountered odds, and have beaten them; we have been earnest and cheerful through it all and nothing but success can be the reward of such efforts.

"To those of you who come in contact with the travelling public and those on whom depends the obtaining of freight traffic, I want to voice my appreciation of your work. Courtesy and service, a willingness to do a little bit more than is absolutely necessary have won for us friends and business. Our competition in the great fight for business has been clean and wholesome and those who have been waging it in the open have been heartily supported by those in the background—that unseen army of Canadian National Employees who have been making it possible to render a service that improves with each day. I refer to those outside the Traffic Department. Whether a man's duties lie in shovelling snow from a station platform or in making the roadbed of a section a little smoother, he is giving service that is appreciated.

"Conditions during the past year have not been of the best anywhere in the world, and Canada has come in for her share of depression, but with brighter visions ahead and a spirit such as permeates the Canadian National family, we will face the coming year with enthusiasm and courage, and through our determination each of us will justify the work he has done during 1924 and the work to be done during the coming year.

"At this time I want to take the opportunity to wish you all a Merry Christmas and a Happy and Prosperous New Year."

FAULTY NUTRITION

Many of the ailments of grown people may be traced to faulty nutrition. Well-fed children or adults withstand weakness better than those who are indifferently nourished.

Scott's Emulsion

Supplies the weakened child or adult with food factors that other foods often fail to furnish in needful volume.

Not a great deal of Scott's Emulsion is needed—but a little regularly often means restored vigor and strength to those who are rundown in vitality or who are weak.

THE REAL BLESSINGS

The real blessings of life are those which are often ignored. Health, peace, food; clothing and shelter satisfy the wants of most of us. All thoughtful people regard these as the real essentials—blessings beyond valuation. Yet almost the entire population of the country enjoys these and more. The presence of our loved ones and the companionship of friends adds another charm to the sweetness and beauty of life.

C.N.R. SECTION FOREMAN SUPERANNUATED

Mr. Victor Fournier of Beaver Brook, Northumberland County who has been forty years in the Canadian Railway service has been superannuated. Mr. Fournier first entered the railway service at Bartibogue as a trackman and in June 1893 was transferred to Beaverbrook station as a section man. Mr. Fournier was a section foreman for 20 years and was regarded a very efficient trackman. By his prompt attention to his duties and the discovery of broken rails he prevented many a train wreck. During the forty years he was in the service he had few mishaps on his division and his many friends will wish him many years of health to enjoy his well earned superannuation.

N. B. Clergyman Welcomed In R. I.

The parishioners of Emmanuel Anglican church, Manville, Rhode Island gave the Rev Craig W. and

Mrs. Nichols a royal welcome on their beginning work there recently. The senior and junior church wardens with their wives received and introduced the congregation to the new rector and his wife.

After an address of welcome by the senior church warden the president of the Ladies Aid Society also gave an address of welcome.

During the day the Girl's Friendly Society had sent a lovely bouquet of flowers to Mrs. Nichols which she held during the evening. Then the children of the Sunday School presented a basket of carnations. Speeches from the rectors of the churches at Woonsocket and Ashton and the minister of the Methodist church followed. Refreshments were served.

Mr. Nichols is a native of St. John and was at one time curate of St. Luke's church and for ten years rector at Westfield. He was also the first chaplain of the St. John Power Boat Club. He was rector of Bay du Vin for a year and left there in November for the United States.

DRIVING CAMPAIGN BY PROHIBITIONISTS IN N. B. FORECAST

It is stated upon good authority that the New Brunswick Temperance Alliance thinking there is a possibility of the Provincial Government introducing more liberal legislation at the next session of the Legislature, to be submitted to the people for approval later, regarding the sale of intoxicating liquors, are preparing somewhat for an aggressive campaign against the present enforcement of the Act.

An incident which tends to confirm this was a recent visit of two prominent members of the executive of the Alliance upon the chairman of the New Brunswick Liquor Commission who was requested to give them all the information in his possession regarding several shipments of beer from breweries in the city of St. John to licensed vendors near the American border in the county of Charlotte.

The chairman of the commission informed the delegation that he had no power under the Act of 1916 respecting intoxicating liquors and the amendments thereto to give the information desired.

In spite of this assurance, however, the secretary of the Alliance addressed a formal letter to the chairman in which he demanded the information requested verbally some time before.

The section of the Act referred to by the chairman of the Liquor Commission in the presence of the delegation is 10 Geo. V. Cap. 53, and reads as follows:

"Immediately after the close of each financial year, there shall be prepared by the board, for the information of the Legislature, a statement of all transactions under this Act, showing the financial results of the transactions during the preceding year. This report may be subject to special audit, which the Legislature may think proper to order or that the Attorney-General may direct."

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean; safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

**HEARD MONCTON
RADIO STATION
IN IRELAND**

Ireland is now receiving radio messages from Canada and only Wales has failed to announce reception from a Canadian station to complete the record of the British Isles in hearing from the Dominion in a communication to W. D. Robb, vice president, Canadian National Railways, Dr. W.J. Black, European manager of the Department of Colonization and Development, C.N.R. agent forwarded from London a letter from R.B. Maxwell, C.N.R. agent at Belfast in which Mr Maxwell relates that an amateur in Bangor, County Down picked up portions of a programme broadcast from C.N.R.A which are the call letters of the new and powerful radio station at Moncton.

In his letter Mr. Maxwell states at 1 o'clock, a.m. Greenwich time; on November 19, J. B. McMurray; of College Avenue, Bangor; caught what to him was an entirely new station. He puzzled over the call letters thinking that he had CNRC at Calgary, not then knowing of the installation of the new station at Moncton. Mr. McMurray told Mr. Maxwell that he "mistakenly" heard a song "Linger Awhile." He heard some other music but there was a great deal of interference during the latter period and in consequence, reception was considerably fogged. The chief cause of interference that occasion was the United States steamer Leviathan (WSM) and the ship's siren eventually put an end to Mr. McMurray's reception of the Moncton programme. The latter told Mr. Maxwell that two friends residing near Bangor also heard Moncton at the same time but they, too, were subjected to interference from the Leviathan.

Mr. McMurray is minus an arm as the result of an accident, yet, despite this handicap he assembled his own receiving set, which is of the three valve type.

Since beginning operations last month the Canadian National Railways broadcasting station at Moncton has been heard in England and in Scotland and this without any special preparation for a transatlantic broadcast. The station is easily picked up in Montreal and has already been heard over a wide range in the Maritime Provinces eastern Canada and a large section of the New England States. Moncton operates on a wave length of 313 meters.
