THE CONVENTION to Mrs. Rolph's house for treatment

Spirit Being Maintained, Though Letter May, Have Been Departed

vestigations in the East, and it was not until the late afternoon that the agreement was reached with Mr. Wiley, who represented the Automatic Electric Company, of Chicago, and submitted the company's proposition to the government.

The importance of this decision of the government, following Mr. Cushing's special trip to the East, is that it practically means the adoption of the automatic 'phone system by the province. In the castern cities which M. Cushing's isited, he found the system to have been in use for periods of six and seven years, and to officials of the Department of Mar. wanted his wife to see a qualified doctor, but she refused; she also requested to go to the hospital. He paid both Mr. and Mrs. Rolph for treatment. Both administered treatment to his wife. Dyck did not know his wife was operated upon. He heard Rolph asking Mrs. Rolph was drinking wanted his wife to see a qualified doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused; she also requested to go to the hospital. He paid doctor, but she refused to go to the hospital. He paid doctor, but she refused to go to the hospital. He paid doctor, but she refused to go to the hospital. He pa to officials of the Department of Mar-ine and Fisheries there is no contra-doctor, but she refused; she also reto have given the public the greatest satisfaction throughout that time. In Edmonton and Strathcona the efficiency of the service is a by-word and pointed out to visitors with pride.

Mr. Cushing, when interviewed by the Bulletin, stated that the primary object of his tour of investigation in the Great Lakes with alarm. Owolete of his tour of investigation in the part of ages of navigation in the Great Lakes and if she performs any fish efficiency of the service is a by-word and pointed out to visitors with position on the part of officials to look upon present developments as to the Great Lakes with alarm. Owolete of his tour of investigation in the great that the primary of officials to look upon present developments as to the Great Lakes with alarm. Owolete of his tour of investigation in the Great Lakes and if she performs any fish cine for Mrs. Dyck when she was at his wife's home, but he had not made an examination of the woman. He was accepted payment from Mr. Dyck, killed. The trapper is reported to be loadly wounded.

Mrs. Mary Rolph, keeper of the last with alarm of the last with a six months. He prescribed medicine for Mrs. Dyck when she was at his wife's home, but he had not made an examination of the woman. He was accepted payment from Mr. Dyck, killed. The trapper is reported to be badly wounded.

Mrs. Mary Rolph, keeper of the service is a by-word and pointed out to visitors with a rancher, and a trapper whose name this wife's home, but he had not made an examination of the woman. He was accepted payment from Mr. Dyck, killed. The trapper is reported to be badly wounded.

Mrs. Mary Rolph, keeper of the service is a by-word and pointed out to visitors with a rancher, and a trapper whose name to be a rancher, and a trapper whose name that with the prescribed medical and the prescribed m the East had been to ascertain how ment in the past century they say it house where Mrs. Dyck died, said the automatic system stood the test would be really difficult to decide the woman came to her for bath No Excuse for Illegal Action as Director city had made. CURRENT COMMENT

Manage

The barometer is leading the stre uous life these days.

The city council have wisely con cluded that if the water will not go to the catch-basins the catch-basin must go to the water.

A California lady wants a legal guardian put in charge of her 35-yearo'd son because he flirted with the cook. This she regards as evidence of weak-mindedness. But many a man thinks he made a dunce of himself in not marrying a cook.

Toronto Globe-The laying of th corner-stone of the legislative build ings at Edmonton takes place next month. The occasion will be a notable one. It will be a visible, tangible evidence of the progress of one the great commonwealths which the pioneers are founding in the West. It is scarcely possible to exaggerate the future that is in store for them. The occasion should not pass without a commemoration worthy of it, in which the leading spirits of the Dominion should take part.

Alberta is the scene of a very large amount of railway construction present, far more than ever before in its history. In the south the C. P. R. is extending branches begun in previous years and will complete a large mileage before the snow flies. The Canadian Northern has broken ground on the extension of the Morinvill branch to Athabasca Landing and also have gangs at work on the line from Vegreville to Calgany. Steel laying on the G. T. P. from Battle river to Edmonton has been started, while westward of the city the grading gangs are making straight the way for the extension to the mountains. These three large companies now in the pretty good argument for holding onto rors, and set it on the highway. the new lines which have not yet been started but on which work must in the nature of things be pushed as soon as it can be taken up. The Alberta and Great Waterways company are also preparing to begin work early. Altogether the season is a busy one throughout the Province generally i railway construction, and the pron are that the seasons to immedi ately follow will be equally busy. Alberta is coming into its own. After waiting a generation for the roads that came not we are getting them fast now that we can scarcely keep! track of the many projects in various

stages of completion. Crop conditions in this district havbeen ideal for the past week or co. and despatches indicate that they have been pretty much the same over the west generally. The soaking rains which fell last week, though not altogether pleasing to the city residents: especially those of them whose pre dilections run to watching the home team win, were procisely what the country needed. It may be admitted. now that the crisis is past, that had the rains not come, urban and rura; residents alike might have had some thing very much worse than even the postponement of the ball games to lament. With the late spring it was a matter of paramount consideration that no time be lost in the growing season. The warm rains gave the that if those participating were mostly fround a thorough soaking which pay defined the way to crop success. The Reason

some dealers offer "some thing just as good" as PROGRESS BRAND GAR-MENTS, is obvious. The less there is in a garment. the smaller the cost. The smaller the cost the greater the profit—and there are some merchants who are out for the large profits, even if they have to look for new customers every day.

PROGRESS BRAND CLOTH-ING affords the dealer only an honest legitimate profit, plus the gain that comes from satisfied customers

Look for the Progress LABEL. You will find it in an honestly made garment, and in the hands of an honest elothier. Every garment guaranteed — "satisfaction or money back."

Should you have any difficulty in procuring PROGRESS BRAND GAR-MENTS, write us direct. While we cannot sell you at retail, we will place you in communication with the nearest merchant handling our goods, a man who will be satisfied to serve you at a legitimate profit.

Camrose is such a town of the future of the town in the near future. The by July.

Camrose of the town in the near future. The by July.

The tannery is getting into shape of the supreme court, Judge of the supreme court, parentage, it has always made its voice heard whenever the occasion demanded, but has not hitherto made any great clamor at the door of provincial greatness. It is only a short period of time since the town and district was considered a tributary to an ambitious commercial centre the west of it, and, in fact, it is still considered by some to be such, but its own opinion of the matter is that it has struck out for itself and that it is entitled to recognition of independence from all interested in any way, in its birth, present growth and future development.

"Why should not I be big and prosperous some day, too," says this precocious youngster among Alberta municipalities. "Geographically am right in the centre of the pro vince; taken any way you like, east west, south of north. It is a great advantage to be the hub of a big pro like Alberta. Of course Ed monton is called the hub, but I am very young yet and who knows what may become when I grow up. am going to get a railway run Edmonton to the north and another to Calgary in the south, and, per-haps, after a while, I may think about a street railway. hink it will be for some time, though. In the meantime, I am going to in vite manufacturers to call on me and after I get them here I think will be "for keeps." I feel stronge this spring than I ever felt before I have some good backers behind ne and that always counts for a good

This soliloquy on the part of Cam rose is not due entirely to the usual within the past few weeks seen something more tangible than visions. The great railways of the province, such as the G.T.P., the C.P.R. and the C.N.R., have been looking Camrose over, and the town has found favor in their eyes. "We are going to take the gove ment up on a guarantee of bonds fo Calgary," says the C.N.R. "Vegra ville is the point from which the line will begin and we are going to run i

through Camrose." is our intention, also, to "u a branch from our main line o the City of Calgary," says the Grand Trunk Pacific. "Ryley is likely the point from which the line will begin and we must either go by way of Camrose or make a wide detour to the east to get around Dried Me 16 Lake. We prefer to go through Cam so as to make the route ar

short as possible."

The C.P.R. thinks of what more it has a line now running out Wetaskiwin, which eventually will be a through line to Winnipeg. can give assurance of building a in from Camrose direct to Edmonto and can hint at extending the Lan don to Alix branch on to Camios thus practically paralleling the cal-gary and Edmonton line. . There is always a considerab.

difference between talking and actua For some time he ra ways have been singling out Cam rose for special favors, but som towns, which would very much .: Le to have the railroads themselv :s, a little dubious about the fulfilline of the railway talk. Others vh scmehow or other, have all along ha an idea that the railway companie meant business, are advising Camrose to throw off the threatening railway yoke and to be free of such trammeling influence.

"So many railways will be a millstone about your neck," says the neighboring town of Wetaskiwin. "Instead of drawing trade to you and giving you the growth you expect, the effect of railroads will be the very opposite. The trade which you now enjoy will go to the larger centres of population, such as Edmonton and Calgary, and you will be powerless to prevent it. We in Wet-askiwin speak from experience. Bee the line east from our town was built Weiaskiwin drew the trade from nearly a hundred miles out. After the completion of the railway new towns sprang up along the line and this meant so much less trade for Wetaskiwin. The railway was considered a great thing while it was still a prospect, but after it was built it did the town harm as well

as good. Advice which is not wanted is considered more or less impertinent Camrose sees a future ahead of it a a railroad centre and invites all the Railroads genrailroads it can get. erally form the text for a sermon on prosperity and Camrose thinks the doctrine perfectly orthodox.

Early in the month of May the C.N.R. had all the contracts let for the construction work on their line from Vegreville to Calgary. On the nineteenth of the month the con-struction camps were established at Camrose and the cutting of the right of way was begun north of the town, in the direction of Vegreville. Camrose will be the headquarters of the numerous sub-contractors of the Northern Construction Company and the Cowan Construction Company, which will both have their men at work in the district all summer long. It is believed that the steel will be laid from Vegreville to Camrose by the

irst of August. The G.T.P. surveyors are still in the amrose district, and their head engineer does not appear to be at all mayed at the activity of the rival C.N.R. company. The surveyors are taking the grade as they go and seem indicate that it is the determ ion of the railway company to build

neir line through Camrose. There is a possibility, however, the Alberta Government having dovernment is expected to guarantee

NATURE will soon have done her part. If you are to receive the full reward of your year's labor, you must be prepared—to harvest your grain promptly, when it is ready—to harvest it without waste—to do it with the least amount of labor.

A modern harvesting machine is indispensable. You cannot cut your grain the way farmers did a generation ago—and you cannot afford, when the grain is fully ripe, to be at the mercy of machines that break down or waste the grain. Do some thinking about the matter new.

about the matter now.

You will want a harvesting machine next year and the year after, as well as Ask yourself whether the old reliable McCormick binder would not be a wise

You know that the McCormick binder has been the main dependence at har It is a machine that makes you sure of being ready for harvest. It gives you your grain. It does it with the least labor. It enables you harvest your pp in the shortest possible time. It handles grain in the down and tangled ion to as good advantage, at least, as any other harvesting machine

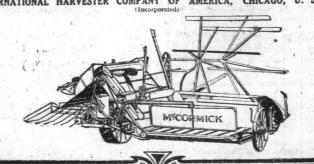

You cannot doubt the great and long continued service that a McCormick binder will give you. You have need for such a machine.

Will you see to making the purchase in time?

The McCormick binder is but one of a long line of famous McCormick machines and implements. Among them are:—

Mowers, Binder Twine, Tedders, Hay Rakes, Side Delivery Rakes, Hay Loaders, Sweep Rakes am ackers, Disk Drills, Shoe Drills, Cultivators, Smoothing and Disk Harrows, Scufflers. McCormick agent so handle Gasoline Engines, Cream Separators, Hay Presses, Wagons, Sleighs and Manure Spreaders. Catalogues and particulars relative to the McCormick line may be had from local agent, or write direct to the nearest branch house.

FEARS WHEAT FAMINE. Seattle, Wash., June 1.—A wheat and the feeling was quite strong unfamine is threatened in Washington, der nominal offerings and a good de-

says the Daily Commercial. With the price of flour soaring to \$6.35 a bar- tors. Crop news was more favorable rel, and practically every warehouse in the state almost barren of grain, the situation has assumed an alarming aspect. Flouring mills in nearly all parts of the state are closing down, owing to the shortage.

There is no hope of relief until the

corn crop is harvested, late in July and in August. In the meantime some of the flouring mills in nearly all parts of the state will be forced to ship their wheat from the eastern states and perhaps from Liverpool

In the meantime grain dealers pre dict that the price will go even higher than it is at the present time. Now No. 1 bluestem is bringing \$1.33 and cidedly weak. Good steers were \$1.34 when it can be found and No. 3 scarce. quoted at \$1.20. Never before in

out about 22,000,000 bushels were harvested. That was only about 75 per cent, of the normal yield. "Mills here and throughout the

northwest have had to cease grinding river. because they were bears on the mar-

growing, 50 per cent winter wheat nia, where even larger prices can be obtained than here. Mills that found they did not have enough grain to making good progress, about 20 per keep running have sold their supply for the best figure they could obtain. l-Warm rains, damage to gerated. It is graver than it has ever been since the state became a grainproducing country.

As a result of the high price flour, bakers in the city of Tacoma are cutting down the weight of their five-cent loaves of bread, and while the loaves are apparently as large as formerly, they have been shaved, it is said, from 14 ounces—the standard of weight in this city-down to 12 1-2 and even 12 ounces.

50 per cent fall wheat being winter Winnipeg for the day was 1c on July along these lines is to be expected, and %c for October.
