WEEKLY MEETING.

The weekly meeting of the Municipal Commission was held yesterday, The Mayor presided, and Councillors Vinicombe, Peet, Collier, Jackman and Hallett were present. The minutes of the last meeting were read and confirmed. The weekly accounts were then submitted.

A communication was received from the Nfld. Board of Trade in reference to the watering of shipping. asking that some arrangement be made, whereby shipping concerns would be permitted to use the hydrants on their premises without the assistance of the water man, so as to avoid the present inconvenience and delay. They asked that this request be acceded to, pending the finalizing of details in connection with the matter, which they submitted, could be adjusted at a conference between the Council and representatives of the Board. The matter was deferred for consideration.

R. F. Horwood asked that the gutters near the Methodist College on Harvey Road, be given attention, so as to avoid the flooding of the above premises during rainstorms. This matter was referred to the City En-

Miss J. S. White, South Side, wrote protesting against the dumping of all kinds of refuse opposite her dwelling, and asking that same be immediately discontinued. The Sanitary Supervisor was instructed to see what can be done.

Mr. A. Pittman, South Side, called the attention of the Council to conditions generally on the South Side Road, and asked that something be done to remedy same. The Road and Sewerage Inspectors will do the best possible under the circumstances.

G. House, Winter Avenue, requested that the Sanitary Department be instructed to collect the garbage from his neighborhood. The Supervisor will make the necessary arrangements.

J. Lawrence. Pleasant St., asked compensation for damages through expropriation of property. This matter was settled some time ago.

R. Tucker, George Street, thanked the Council for acceding to the petition for a light, recently submitted by the residents of George Street and Heldsworth Street and vicinity, and asked that, in view of the present conditions in this section, the Reid Nfid. Co. be notified to have said light installed as quickly as possible. It was ordered accordingly.

The following plans were passed, subject to the approval of the City Engineer:

Geo. Hampton, annex to shop, Mundy Pond Road; J. E. Whitten, outhouse, Hamilton Avenue; J. Burnstein, outhouse, Springdale St.

The lighting of the city was discussed at some length, and it was brought to the notice of the Board that, during the recent storm, a great portion of the city was in total darkness. The Reid Nfld. Co. will be asked for an explanation of this matter. and are also to be written regarding the present condition of electric light

Old Comrades' Dance.

The C.L.B.C. Old Comrades held dance in the gymnasium of the Armoury last night. It was attended by over 100 people. The affair was lively throughout. The music was supplied by the C.L.E.C. Dance Orchestra under Captain Morris. Excellent time was played. The floor manager was Mr. H. R. Peckham. A very nice supper was served at 11 p.m. and dancing was con-linued afterwards until after midnight. This dance was the first of a series which the Old Comrades will hold during the winter. Loss of the Courageux and 600 Souls.

The gale of wind on December 70, 1796, fell heavily upon the British ships in the Bay of Gibraltar, and the 74-gun ship "Courageux" commanded, by Lieut. John Burrows in the absence of Capt. Hallowett, who was on shore attending a court-martial, parted from her anchors and drove nearly under the Spanish batteries on the opposite side of the Bay. It being necessary to retire from this dangerous situation the "Courageux" stood over towards the Barbary coast. Lieut. Burrows was averse to passing through the Gut, lest he should fall in with the French squadron. Towards evening the wind ncreased to a hurricane, the rain nonza ed down in terrents and there came on a tremendous storm of thunder and lightning. Soon after 8 p.m. the crew were allowed to go to dinner, and the officers, with the exception of a lieutenant of the watch, retired below. A p.m. while stretching across under her course to get well to windward of her port, the vessel struck on the rocks at the foot of Ape's Hill, became at the foot of Ape's Hill, became at complete wreck. Of 593 officers and

men on board only twelve effects launch that was towing astern and the remainder by passing along the falls perished in the attempt and those we reached the shore were compelled undergo severe privations ere they back to Gibraltar.

Since last notes sent in another evere storm has been with us, which as wrought such havoc and loss of se especially on the sea. Monday's rale was felt here pretty much, but no rious damages have occurred, judgfrom reports thus far. The news the loss of the schooner Passport at Caplin Bay, Bay de Verde. with, as it is feared, nine souls on, board, and of the many other marine disasters, which are the result of Monday's storm, have been received here with much regret. No doubt, a complete account of the losses have not been ascertained as yet and within the course of some days, more will be added to the toll. We trust, however, there are no more to be learned.

Schooner Alma Nelson left port Wednesday morning for St. John's.

Schooner Minnie Maud, Thos. Hart, master, which left here some time ago for Hooping Harbor and Enrice, via Lady Cove, T.B. after a number of unsuccessful attempts to get North has been forced to abandon the trip; and is now on her way to Harbor Grace again and due here any moment. She had on board provisions for the two places mentioned above, shipped by her owner, Mr. E. Simmons, who is doing business at these places, and by this vessel being unable to proceed on her voyage, will, no doubt, mean a great inconvenience to the people depending on the stores shipped by this vessel. She intended to take back a cargo of fish, oil, etc.

Repairs to the schooner Earl Grey Captain Bragg, having been effected she came off dock yesterday afternoon and will get away first opportunity

The heavy frost of late has put the Bog Pond in good trim for skating and a number of the young folk have availed of the opportunity to make use of this favorable skating resort for this very healthy and beneficial exercise which is afforded during the winter season.

We understand the Rev. R. J. Power, pastor of St. Andrew's Presbyterian Church, St. John's, will be present at St. Andrew's Presbyterian Church here on Sunday to take part in the ceremony in connection with the unveiling of a tablet, which is placed in that church to the mem ry of those who gave all that was dear to them in the great world war. Rev. Power, it is hoped, will also assist at the Missionary Service in the Methodist Church the same evening, this service being held over till 8 p.m. in order to have the Rev. Mr. Power take part in same.

Christmas will soon be with us again and some of our shops in town are beginning to don the garb peculiar to that season of festivities, giving the children warning that Santa Claus will soon be around.

The ladies of the Methodist Church held their annual sale of work in Coughlan Hall on the nights of Wednesday and Thursday. The affair was well natronized and a goodly number visited the hall and partook of the good things which the ladies had to offer. Something over three hundred and twenty-two dollars (322) was realized as the proceeds of the two nights, which shows that the affair was a great success.—COR. Hr. Grace.Dec. 9, 1921.

S. A. Xmas Appeal.

Editor Evening Telegram. Dear Sir .- May I, as in former years, be allowed the use of your columns to bring to the notice of the better-situated Citizens of St. John's our "Christmas Appeal."

Already many have knocked at our doors and begged us not to forget them. and we are most anxious that they

should not be disappointed. Will the Reader of this "Appeal" kindly remember that there is real need in the City, and in many cases

actual distress. Quite recently my Officers have brought to my notice certain desperate cases, the details of which if pub-

lished would make terrible reading. These are not "hear-says" but stern realities which our Officers have seen

with their own eyes. Please help us to help those who cannot help themselves.

It is still true as Solomon said long years ago "He that hath pity upon the poor lendeth unto the Lord and that which he hath given will He pay him again" Prov. 19-17.

Donations in cash or goods for this noble purpose should be sent and cheques made payable to: Colonel Thos. Martin, corner Springdale and George Streets, City.

All gifts will be acknowledged in the public "Press." December 8, 1921.

/ Yours sincerely. T. MARTIN, Colonei.

Returned Men.

There is no Christmas present that you could send home or to a friend that would be so much appreciated as a copy of the History of the Royal Newfoundland Regiment, the history that you helped to make. This book contains 8 maps and about 400 individual and group pictures. On sale at AYRE & SONS, LTD.

Loses Life AT STEEL PLANT.

Crushed to death by being caught under a moving crane at the blast furnaces of the steel plant, was the fate of James Haley, who passed away at the Steel Company's emergency hospital early Sunday morning, Dec 3. The accident in which Haley lost his life, occured at about 11.30. Saturday night, and at the time he was sitting on the rear end of a turn-table crane. The operator of the machine could not see Haley, and in turning it quickly, Haley was caught underneath, and received injuries which, later resulted in his death

The deceased was a native of Avonlale, Newfoundland. A brother resides on Park Street, city. His remains were shipped to his home in Newfoundland for burial.—Sydney Record.

By the time the officer and his companions reached the place there was no schooner in sight, the vigilant smugglers evidently been made aware of the approach of the liquor squad. However, it is felt that the craft was successful in landing her whole cargo the rest having been successfully hidden away in some safe place.

From shortly after midnight till the grey streaks of dawn began to dispel the gloom, the liquor sleuths waited around the Lingan shore in the hope of coming across the smuggelers, but in vain. Then word was eiven the deputy inspector that the stuff, or at least a portion of it was carted to Waterford, and thither the squad went. Snow Men Discovered.

Wild snow men exist in the Hima layas and the tracks in the snow cf some of these men were discovered by the Mount Everest expedition. As a result of the publication of the infornation much comment and interest has been aroused in London among explorers who have been through the trails of the northern Himalayas, Several of them have written to London ewspapers corroborating the existace of these wild men, one former fficer in the Indian service declaring hat while journeying on horsebeck brough British Sikhim, at a height of bout 16,000 feet and resting his orse, he saw one. He declared him as about six feet tall, wonderful muscular development, very hairy and virtually naked in spite of terrific old. The snow man, according to th officer, carried a primitive bow and rrow. They are known to the Tiber as as "abominable snow men."

N.B.—The Pirate Story is continued

The old man had only one relative living-a little nephew of whom he was very fond, and when good old - came to administer to him the last rites of Holy Church, he told him the story of what he had found years ago. "Now, Parson," he said, "Please go down into the cellar, and bring up a box that you will find in the northeast corner." The Parson did so, and at the old man's request he opened it. "There," said the old man, pointing to the twentyfive doubloons in the box, "there is all that is left of my share of that keg." He took out one coin from the box and laid it on the little table by the bedside. "Now, Parson," he said, "I want you to take what is in the box and use it to help little Garge, my nephew to get a better eddecation than I got when I was a boy." The Parson promised to do so. The old man said, "Thank ee Parson, and now I am ready to take my last Sacrament.' Three men from Elliston visited presence here. They went from door though we had nothing but their own words to certify their condition, and to establish their claims upon our charity, they received a good deal of help. Our people are not averse to helping those who are really poor and with no opportunity to help themselves. We know how the Saviour honoured the poor by making them His representatives, and we are anxious to do our duty in this respect; but realizing, as we do, the many calls that will be made upon us during the next six months, by those who are known to us as deserving poor; and knowing how careful we must be in the distribution of our alms, so as not to encourage either fraud or indolence, we would warn such people from Elliston or from any other place where conditions are not fully known to us-not to expect a repetition of our acts of kindness, just whenever they may feel disposed to trespass ipon our credulity.

Fishermen! Here's the Boot for You-"Excel"!

"EXCEL" lade 'All in One Piece'

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen. how salt water seems to take the life out of rubber and how the uppers crack and the soles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets.

The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the dryingout action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wearproof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "tire-tread" sole that rivals an auto-

mobile tire for toughness and durability. These are exclusive features of "EXCEL" boots. The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible shows how "EXCEL" boots are reinforced at every point of strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study this picture. Learn these features. Remember th: n when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

I've tried the high-toned specialists, who doctor folks to-day. I've heard the throat man whisper low "Come on now let us spray."
I've sat in fancy offices and waited long my turn And paid for 15 minutes what it took

a week to earn while these scientific men are kindly, one and all,
I miss the good old doctor that my
mother used to call,

The old-time family doctor! Oh, I am sorry that he's gone,
He ushered us into the world and knew us every one,
He didn't have to ask a lot of questions for he knew
Our histories from birth and all the ailments we'd been through
And though as children small we feared the medicine he'd send
The old-time family doctor grew to be our dearest friend.

for him to heed our call

and saying. Never initial,
I'll run up there myself and see what's
causing all the fuss."
It seems we grew to look and lean on
him as one of us. He had a big and kindly heart, a fine

He had a big and kindly heart, a fine and tender way
And more than once I've wished that
I could call him in to-day.
The specialists are clever men and busy men, I know
And haven't time to doctor as they did long years ago,
But some day he may come again, the friend that we can call
The good old family doctor who will love us one and all.

The Treasurer's and Secretary's reports showed the Association to be in a sound condition financially and otherwise. During the meeting several matters of importance to the Association were dealt with.

The Jovial Guest in Sealskin.

-It was in the early dark of a winter's night, Mrs. Thomas Bailey Aldrich tells us in "Crowding Memories," that Mr. Aldrich came home with an unusual guest clothed in a coat of sealskin and wearning a sealskin cap well down over his ears. When the guest spoke Mrs. Aldrich was convinced that he had looked too long upon the cup when it was red, The gentleman showed marked disinclination to stand upright and though he did not exactly stammer he had difficulty with his speech-after each word he placed a period: His sentences were whimsical, and host and

guest laughed loudly and often. The hostess happened to be in the hall when they entered. Obviously something very amusing was being said, interrupted for the moment by the words of introduction, "My wife." then the gay laughter continued, dying down for a minute, only to start up again. There was no intimation as to the name of the strange-looking

The little party of three adjourned to the library, where by the genial warmth of the blazing fire Mr. Aldrich vainly sought to dispel the frosty atmosphere. But in spite of his efforts the gay laughter waned as the influence of the "wet blanket" became more perceptible; the holder of it sat mute and unresponsive to laughter or jest.

When the hands ed to the usual dinner hour no maid appeared with the announcement that dinner was served: nor was there any answering notice to the eve that looked at the mistress of the feast and then back at the clock. Then the strange guest arose and said he would go. The adieus were made and accepted-by one with icy formality, which the other tried to make atonement for by an exuberant cordiality as he escorted the guest to the door. On his return to the library he asked with unwonted sternness why the dinner was three quarters of an hour late, and why the guest had not been asked to stay. His answer was hysterical tears, "How could you have brought a man in that condition to meet your wife? Why, he was so intoxicated he could not stand straight: he stammered in his speech-

With those words the tangled knot was cut. Quickly the answer came, "Why, dear, did you not know who he was? What you thought the result of too much wine was only his mannerisms, characteristics of himself and born with Mark Twain!"

"Mark Twain! Was that Mark Twain!" Oh, so after him, go after him; bring him back and tell him, tell him -- oh, what can you tell him!" But it was not until years afterwards that Mark Twain was told.
