WEALTH

Desire for wealth is a strong and normal instinct. Only wealth can give position, luxury, independence.

Whatever wealth stands for to you — business development, means to travel, social position — it always means independence and security in after years.

The key to financial independence lies in a strong reserve of safe bonds. Most of us try for too high interest returns and neglect the basic element of safety.

We shall be glad to assist you in planning a systematic method of investing savings.

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* Proven directions on each package. Physicians everywhere recommend it.

LORD MORDEN'S DAUGHTER — OR — THE TRAGEDY OF THE CEDARS.

CHAPTER IV.

She interrupted him with a gesture of loathing, her eyes flashed, and she stamped her foot angrily.

"Have they dared to tell you this? I hate Mr. Marlowe; I will never marry him! I promised two years ago, when I was little more than a child; I promised to please grandfather and Esther I now detest the man."

"I am so glad," began Locksley; then he stopped, growing red to the roots of his hair. "Yes," he went on, "I repeat that I am glad, and I shall go away a much happier man!"

She was a little startled by his tones and the fire in his bright-blue eyes; but this admiration, his love for her, flashed into her soul, and she trembled, half in fear, half in gladness.

"What is it that I can do for you, Miss Deene?" he went on, taking one of her soft hands between his own. "You will forgive my impetuosity, and you will not be angry with me for saying that I knew the moment I beheld you that our future lives were not things apart!"

"Hush, Mr. Locksley," whispered the girl. "My grandfather and Esther have warned me of such speeches as these!"

"Does not Mr. Marlowe talk to you in this way?" he smiled.

"I would not permit him," she retorted, haughtily, and Locksley felt his heart throb with delight. "I sought you, Mr. Locksley, to ask you if you would grant me one little favor."

"A thousand," he said.

"Nay, I ask for only one, and to me it is a matter of life and death. I know nothing of the great world beyond; I have never even had the advantage accorded to girls who are permitted to go to school and mingle with their fellows. I have had the best lady teachers that money could procure, but I am practically a prisoner here, just to humor the whims and caprices of my grandfather and Esther Marsh. For years I have longed for an opportunity like this, and I know that you will help me, Mr. Locksley. I know that you will tell me the truth."

"She sank her voice to a whisper, and continued:

"It is true that the name of Morden is in the peerage?"

"It is in Debreth," he replied.

"Then it is true," she laughed, almost hysterically. "Grandfather has told me often that it was not."

"It is in Debreth," Locksley went on, "but I have never met Lord Morden. I will ask a friend of mine who

is awaiting me at Broadstairs. He has all these things at his fingers' ends. I can give you the history of the Mordens to-morrow, Miss Deene."

Her face and neck were now aflame with color, while her eyes sparkled with pleasure.

"Where shall I meet you?" he continued. "If you prefer it, I will come direct to the house. I do not care two straws for Esther Marsh."

"No, no! There is Mr. Marlowe," "Oh, Mr. Marlowe!" he smiled.

"But I am afraid. You do not know how much I fear that man," Miss Deene whispered. "He seems to hold both Esther and my grandfather in complete subjection."

Locksley clinched his hand, and gleams of savagery shot from his eyes. Miss Deene thought that he looked terrible.

"Excuse me," he laughed. "I only felt for the moment that I should thrash him—for your sake. I will be here, or anywhere else, at three o'clock to-morrow. Will the hour suit you?"

"Oh, I can never thank you enough," murmured Dora, "if you come through the belt of firs that break the winds from the sea, you can reach the summer-house unobserved, and I will come to you here."

"You have made me the happiest man in existence!" Locksley said, that dangerous light coming into his eyes again. "To-morrow you must contrive a long talk, and if Mr. Richard Marlowe becomes offensive to you, I will be your champion against a hundred Marlowes, grandfathers, and Esthers!"

A half-sob burst from her lips, and he felt that he would have given ten years of his life to be able to take her in his arms, and comfort her. Instead, he raised one of her hands to his lips, but she snatched it away from him, saying hastily:

"Hark! Mr. Marlowe is inquiring for you!"

It was not a poetical word that escaped the lips of the young surgeon; at the mention of Marlowe's name; he added:

"Pardon me, Miss Dora. Which way shall I go?"

"Push your way through the trees at the back of the summer-house until you reach the firs; then return by way of the drive. I will remain where I am."

"At three to-morrow, here," he said, and, kissing the tips of his fingers to her, he vanished.

"This is not my usual way of doing things," he thought. "I would sooner face Mr. Richard Marlowe, honestly, and punch his confounded head."

He forced his way through a hundred yards of thickly planted firs and limes, found the drive, and walked slowly back to the house to find Mr. Marlowe fuming suspiciously, and asking for Miss Deene.

"Sorry to have kept you waiting," said Locksley. "I should like to say good-morning to Miss Deene myself, if she is in."

He stepped into the waiting carriage with that perfect sang froid that your parvenu vainly tries to imitate, though he half-believed at the moment that either Marlowe or Esther had seen Dora follow him to the summer-house.

Mr. Marlowe did not seek further for his fiancée, but growling some indistinct reply, he took his place by Locksley's side, and roughly bade the coachman to drive on.

"Are you going direct to Broadstairs, Mr. Locksley?" he asked presently, in his most suave tones. "You must excuse my annoyance with Miss Deene, but she is the most aggravating of girls. I know that she is as fond of me as I am of her, but she takes a constant delight in teasing me. Are you—or a married man?"

"Not yet," replied Locksley, flippantly. "I hope to be soon, though."

"I congratulate you, I am sure. My own wedding will take place within three months. I am sure that I have waited long enough," Mr. Marlowe said, plaintively.

"So I should think," replied Locksley.

"Do you know anything about the matter, sir?"

"I meant, judging by your age. You must be sixty at least."

Mr. Marlowe flushed with passion and annoyance, but continued, viciously:

"Your estimation is incorrect, sir, and I suppose you think that Miss Deene is giving much for little by marrying me? Let me undeceive you, Mr. Locksley, let your pity—yes, your pity, for I can see it in your manner—run away with your reason. I am forty years of age, sir, and Miss Deene is twenty. I think those ages are fairly compatible. I am a rich man, sir, and Miss Deene hasn't a shilling in the world. I come of an old family, sir, and Miss Deene has no legal claim even to the same she bears. You understand?"

"Yes, I understand," replied Edmund, his blood boiling with suppressed passion. "I understand that you are a mean, despicable cur, whom I should heartily like to horsewhip! Order your man to stop the carriage so that I may get down, or I will not be responsible for my actions!"

Mr. Richard Marlowe was so completely taken aback that he could only splutter out some reply that was anything but intelligible. However, he had presence of mind sufficient to touch the checkstring, and before the carriage stopped Locksley had sprung out, his eyes blazing with wrathful contempt.

Muttering something about "a beggarly doctor," Mr. Marlowe ordered his man to return to the "Firs," and the vehicle wheeled round and dashed away, while the indignant Locksley walked toward Deal, which was now but about a mile distant.

"The cad!" he muttered, fiercely. "How dare he speak of that angel with his foul tongue! I shall never forgive myself for not thrashing the scoundrel! Of course, he had a double motive in speaking as he did. He imagined that if I had been at all smitten by Miss Deene's charms, the hint at some mystery or shame in the family would effectually choke me off."

He looked after the carriage savagely, and mentally resolved to get even with Mr. Richard Marlowe at an early date.

After that his thoughts took a happier turn, and when he remembered how sweetly Miss Dora had looked upon him—when he thought of her resolute words, "I will never marry Mr. Marlowe!" and the confidence she had reposed in him, his very soul throbbled with a sort of ecstatic joy.

"I love her!" he murmured. "I love her with a man's fond, enduring passion, and I don't care a straw who and what she may be! At all events," he added, "she is a lady, and the most lovable darling in the whole world!"

Wonderful Progress

IAN has been reared from birth on the 'Allenburys' Foods, and though he was very small when born he grew so rapidly that at the age of 7 months he was 5 lbs. over the average weight for that age. The

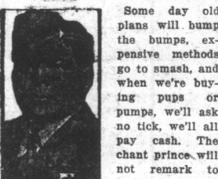

'Allenburys' FOODS FOR INFANTS

are specially manufactured for Infant Feeding and long experience has proved that they give the best results in all countries and climates.

BRIGHT FUTURE.

Some day old plans will bump the bumps, expensive methods go to smash, and when we're buying pups or pumps, we'll ask no tick, we'll all pay cash. The chant prince will not remark to his assistant, Clarence Clack, "Smith jumped the village after dark, and much I fear he won't come back." He owed us many pleasures, with which he failed to come across; we must advance the price of prunes if we'd avoid a frightful loss." As things are now we have to pay for all we buy in markets of trade, and also settle for the jay who scoots and leaves his bills unpaid. Behold the merchant prince's books; they bear the names of many gents who purchase at bookshops and books, and never pay the helpful cents. And we must pay more for his junk, because of this, the prince admits; we often have to pay a plank for something that is worth six bits. He can't afford to lose the scads charged up against a lot of beads, so we, the honest paying lads, are taxed more for our studs and eggs. And every time I pay a bill I know I dig an extra crown because some beat, with vicious skill, had all things charged and jumped the town. The merchant prince, soon or late, will frown upon the "charge it" chump; they'll throw away the old time slate, and send their ledgers to the dump.

Richard Hudnut
THREE FLOWERS
TALCUM

Your choice of the Three Flowers odor is guaranteed. Powder fine of Quality. Packaged Delicately.

Just as lemon jelly begins to stiffen add pecan meats. When firm serve on lettuce and garnish with shredded green peppers and mayonnaise.

A WOMAN'S SUFFERING Relieved by Lydia E. Pinkham's Vegetable Compound

Verdun, Montreal, Quebec.—"I am one of thousands who have taken Lydia E. Pinkham's Vegetable Compound and I have great faith in it. I can safely say it has relieved my troubles and I shall never be without a bottle of it in my house. Since my last baby was born I suffered from pains and backache and would feel so tired I could not do anything in my home. Since I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine I feel so different. I recommend it to all my friends and hope it will cure other women who are suffering from the troubles I had."—Mrs. THOMAS H. GARDNER, 821 Evelyn Street, Verdun, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for the new mother. It is prepared from roots and herbs, contains no harmful drugs and can be taken by the nursing mother.

Its worth in restoring the mother to normal health and strength is told again and again in just such letters as Mrs. Gardner writes.

A recent canvass of women users of the Vegetable Compound shows that 98 out of every 100 women take the medicine are benefited by it. They write and tell us so. Such evidence entitles us to call it a dependable medicine for women. It is for sale by druggists everywhere.

"Back was Very Painful I am now Well Again"

Mr. Wm. Walker, Webbwood, Ont., writes:

"I was sick for several months with my stomach. I had pains in the back, and how I used to dread wash day, for my back would pain so that I couldn't lie down when night came. I also had gas on my stomach, and my appetite was so poor that sometimes I did not care whether I ate or not. The doctor gave me medicine, of which I took a number of bottles without benefit. At last I started to use Dr. Chase's Kidney-Liver Pills, and although I have only used three boxes, I am quite well again."

Death of Commander-in-Chief in India on Expiry of Term of Office

Italy Decides to Materially Increase Her Air Force—Nova Scotia Premier Can See No Way Out of Strike Situation—S. Dakota Praries Swept by Fire.

LORD RAWLINSON DEAD.
DELHI, Mar. 27. General Lord Rawlinson, commander in chief of the British forces in India, died to-night. Lord Rawlinson's term in India would have expired in November. His successor, General Sir William Birdwood, was named by the British War Office on March 20. Lord Rawlinson's death followed an operation for appendicitis on March 24. He was one of the best known British Generals during the war. He was born on February 20, 1864, at Sandhurst.

SALISBURY TO SUCCEED CURZON.
LONDON, Mar. 27. The Evening News to-day says the Marquis of Salisbury will succeed the late Marquis Curzon of Kedleston as Lord President of the Council and Government leader in the House of Lords. The vacant position of Lord Privy Seal will be taken by the Earl of Halifax or Viscount Cecil of Chelwood, it adds.

WINNIPEG HELPS MINERS.
WINNIPEG, Mar. 27. More than \$21,000 has been contributed by Winnipeg citizens towards relief of striking coal miners in Cape Breton. The local relief committee plans the organization of a campaign to raise additional funds.

PRAIRIE FIRES IN SOUTH DAKOTA.
SIOUX FALLS, S.D., Mar. 27. Prairie fires in north and central South Dakota were extinguished

early to-day, swinging attention of the State to the fire area in Rosebud, Indian reservation, where unconfirmed reports told of extensive damage. Approximately 150,000 acres of prairie and hay land in the northern part of Wapala were swept by flames before the fire fighters extinguished the blaze early to-day.

RUN BOAT CAPTURED.
SANDY HOOK, N.J., Mar. 27. A 200-foot submarine chaser, and its cargo of 1800 cases of liquor, sank at a pier here to-day after it had been scuttled by its crew of sixteen rum smugglers just before they were removed by the coast guard who captured them last night. S.B. 117 was chased more than seven miles before she took fire and her pursuers came aboard. The craft was riddled by bullets acquired in a furious battle with revenue cutters. One member of the crew was reported missing, his mates believed he leaped overboard during the night.

DIED AT 102.
PICTOU, N.S., Mar. 27. Pictou's oldest citizen, Captain Alexander MacDonald, aged 102, died here yesterday.

PRISONER DROPPED DEAD.
LUNenburg, N.S., Mar. 27. Edward Grothelm, a county jail prisoner awaiting trial on charge of attempted murder, dropped dead on the street here, this afternoon while being returned to jail, from a local

dentist's office where he had a tooth extracted. A corner's inquest returned a verdict of death from natural causes. Grothelm was 39 years old, a native of Denmark, and had been a sailor on the schooner Chautauqua.

CHARGED WITH RECEIVING BRIBES.
ATLANTA, Ga., Mar. 27. Father Thomas F. Hayden, former Chaplain of the Atlanta Federal Penitentiary and L. J. Fletcher, former assistant warden of the institution, were indicted by a Federal Grand Jury to-day, charged with receiving bribes from prisoners.

PRINCE'S BUSY DAY.
LONDON, Mar. 27. Britain's much travelled ambassador, the Prince of Wales, had one of the busiest of his many days to-day, preparatory to setting sail on his voyage to South Africa, said South America. He was up early attending to several affairs of state and innumerable private matters of detail before going out to bid farewell to friends. All this was sandwiched between receiving official callers at his London residence. Last night he wound up a strenuous day by going to the theatre.

FEDERAL ELECTION FORESHADOWED.
WINNIPEG, Mar. 27. A federal election some time during the present year is anticipated in a letter sent to Manitoba Liberal Association, by Hon. E. J. McMurray, solicitor general.

ITALY TO INCREASE AIR FORCE.
ROME, March, 27. The Italian Air Force which at present consists of sixty squadrons, comprising a total of 1,600 airplanes, 450 of which are fighting machines, is to be increased next summer, according to the air report submitted to-day. When the expansion plan is put into effect, Italy will have ninety-nine flying squadrons, with 2,000 airplanes, 900 of them being of the fighting type. The report shows France possesses 138 squadrons.

SCHER SINKS AFTER EXPLOSION.
HIGHLAND LIGHT, Mass., March 27. Nineteen men, members of the crew of the Boston fishing schr. Emerald, were landed at Cape Cod to-night. They reported their vessel caught fire from an explosion and sank last night off George Bank. Coast guard men instituted a search for eight remaining men, afloat in small boats and succeeded in rescuing them.

KEEPING PRICES DOWN.
PARIS, March 27. The French Senate to-day, by a vote of 224 to 75, adopted a Bill facilitating the distribution of cereals and flour to the civil population. The Bill provided for credit measures to combat the rise in the price of wheat.

ARMSTRONG HAS NOTHING RE STRIKE.
HALIFAX, March 27. Interviewed at noon to-day, Premier Armstrong said he could give no information on the labor situation. He had no advices from any source regarding possible negotiations looking toward a settlement of the strike, he said, and could make no forecast at the present time. The Premier said he had been kept very busy the past few days with delegations and other business but this intimated that the situation in the coal mines was not being neglected.

DOUBLE CHANCE WON GRAND NATIONAL.
LIVERPOOL, March 27. Double Chance, owned by D. Gould, won the Grand National Steeplechase, run over Aintree Course, to-day. Mrs. W. H. Dixon's Old Tay Bridge, was second, with T. J. Laidlaw's Fly Mask third. Thirty-three horses ran.

TORNADO SWEEPS ARGENTINE.
BUENOS AYRES, March 27. Advices from Rosario, Argentina's second largest city, report a tornado swept over sections of the Province of Santa Fe last night, causing numerous fatalities and heavy property damage. Details of the storm were

"DIAMOND DYES" COLOR THINGS NEW

Beautiful home dyeing and tinting is guaranteed with "Diamond Dyes." Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Day "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

still lacking early to-day owing to interrupted wire communications, but reports received by the local authorities said in the towns of San Janaro and Classon roofs of railway stations and many houses had been blown off, and that some houses had been destroyed. Special trains carrying relief supplies have been despatched to the scene.

DEATH LIST TOTALS 51.
STRASSBURG, March 27. The death list from the accident in the Merbach mine yesterday, when the cable of the cage broke as it was bringing miners to the surface, reached fifty-one to-day. There were seventy-nine miners in the cage when it fell from a height of 450 feet. Of these forty-seven were found dead and four of the thirty-two injured have since died.

ANOTHER CASE AGAINST DENISTOUN.
PARIS, March 27. A suit for breach of promise and defamation of character against Lieutenant Denistoun, defendant in the sensational London trial just ended, will be filed in London soon by an American woman, who is now in the United States, it was announced to-day by Dudley Field Malone, who will represent the plaintiff.

SWEDISH LOCK-OUT CALLED OFF.
STOCKHOLM, March 27. The nation-wide lock-out in Sweden was called off to-day and the 130,000 workers involved will resume their employment. After an all night session the Labor Union delegates and Government Committee, at seven o'clock this morning, reached a compromise settling the entire labor conflict. Five important industries were affected.

For Deep Chest Colds.
All colds should be treated with vapors, for vapors alone can carry the medication DIRECTLY to the air passages and lungs.

Arle Marks Players at Grand Falls.
The Arle Marks Players opened a week's engagement at Grand Falls on Monday last, playing in People's Theatre. The opening bill was the popular hit "My Irish Cinderella."

VICKS VAPORUB.
Over 17 Million Jars Used Yearly.

Two Scotsmen met and exchanged the small talk appropriate to the hour. As they were parting to go supperward, Sandy said to Jack:

Keep track of thy youngsters when they are playing out in the yard by tying tinlike bells on narrow ribbons around their respective necks.

Hope Hampton Scores in "Does It Pay"

The initial showing of the William Fox offering, "Does It Pay" at the Majestic Theatre next week there is a pleasant surprise. Here's a picture that is different. It has a splendid cast, featuring Hope Hampton, supported by a number of players of well known ability. It is a society drama dealing with a phase of life that engrosses in its vivid depiction as directed by Charles Horan.

Hope Hampton is seen in the role of a "vamp." She isn't the coquettish ingenue, who is sought after by the hero in this picture, she's a keen minded girl, who, with her mother's advice wins into the home of the Westons. With the purpose to win John Weston for herself regardless that it means severing his home ties in order to marry her, she enters the home as companion to Mrs. Weston. Mrs. Hampton enacts this role with power and delicacy. Her work, in short, is superb.

Others in the cast include Florence Short, Walter Petri, Peggy Shaw, Charles Wellesley, Mary Thurman, Claude Brooke, Pierre Gendron, Roland Bottomley, Marie Shotwell and Bunny Grauer.

Better Late Than Never
Says Quebec Lady, When Sending us News of the Benefits Derived from the use of Dodd's Kidney Pills

Miss Mary Beaulieu suffered from backache, neuralgia, and headaches.

"I am a little late in sending in proof of the efficacy of your Dodd's Kidney Pills, but as the old saying goes, "Better late than never." "Yes, only two boxes of your marvellous pills have sufficed to completely relieve me from a complication of kidney troubles from which I have suffered for seven years. I have decided in future, not to suffer long before making a call on Dodd's Kidney Pills. It is statements like this that have built up and maintained the reputation Dodd's Kidney Pills hold to-day, as the old Canadian kidney remedy."

Arle Marks Players at Grand Falls.
The Arle Marks Players opened a week's engagement at Grand Falls on Monday last, playing in People's Theatre. The opening bill was the popular hit "My Irish Cinderella."

On Monday, the company opens at The Regent Theatre, Corner Brook, where they will undoubtedly duplicate their previous success, and will return to the Casino on Easter Monday with new plays and added features. The opening bill will be J. Hartley Manner's celebrated success "Peg of My Heart," with Miss Arle Marks in the role of Peg, a character which Miss Marks has made famous on the Trans Canada Circuit.

Radiola Radiola III-a

with four Radiotrons WD-11, headphones and Radiola Loud speaker. For distance on the loud speaker—big performance—and big value, \$110.00

Real Music on the Radiola III-a.

Plug in your head-phones on The Radiola—and listen to singing—clear and loud and true to the voice—in some city miles away. Plug in The Radiola Loud-speaker on The Radiola III-a, with its four tubes, and get the same singing—just as clear and sweet—filling your room with music from that same far-away city. Tone quality does not depend upon price. It depends upon design and build. Get a real Radiola, and no matter what price you can pay—from \$45.00 to \$450.00—you will get good tone.

Saving in the Milk Can
is assured by using only
'MILKMAID' BRAND CONDENSED MILK

Even the best fresh milk contains millions of germs and bacteria. In the preparation of 'MILKMAID' Milk all germs and bacteria are completely destroyed, thus rendering the milk perfectly pure and safe for all purposes.

The Estimates for 1925-26

Explanations of Estimates Given by the Minister of Finance, Sir John Crosbie, in Committee of the Whole on Tuesday.

Before beginning to explain the different changes in the Estimates, I should like the House to understand that most of the apparent increases appearing in the departmental salaries are not real ones.

In many cases new appointments appearing this year are actually old appointments in the proper sense. These officials have been paid from Contingencies and other votes, some of them for years.

The policy of this Government is to place such amounts where they properly belong, in the salaries lists of the Department and not hide them away as has been the custom too often in the past.

This is particularly noticeable in the Department of Posts and Telegraphs where, in many cases, offices have been opened for years but no particular salary provided for the officials in charge of them.

In fact, some officials who had passed away were still on the Estimates, and no care seems to have been taken so far as the Estimates were concerned, to give the actual facts.

FINANCE DEPARTMENT.

Interest on Public Debt increased \$200,000.00. This is to provide the interest on four million dollars raised under the Loan Act 1924 at five per cent.

The salary of the Minister of Education has been dropped at the request of the Prime Minister. He acts as Prime Minister and Minister of Education at the one salary. This is a decrease of \$4,000.00.

Printing and Stationery Finance Department increased \$250,000. Provision made for the printing of the Auditor General's report. Increase in cost of telegrams \$175,000. The Deputy Minister of Finance estimates we will need this amount. Increase in sundry Contingencies \$141,000 is made on the basis of last year's requirements. It is quite possible that we will have credit balances on these three accounts at the end of the fiscal year.

The following salaries have been increased in the Auditor General's Department—First Clerk and Customs Auditor (Mr. E. P. Taylor) is increased \$200.00; Second Clerk (J. P. Luskomb) increased \$200.00; Third Clerk (K. J. Carter) increased \$200.00; Fifth Clerk (A. J. Ivary) transferred at a salary of \$1,500.00. Salary of Fifth Clerk last year was \$1,000.00. Clerk-Stenographer increased \$228.00. Messenger increased \$100.00. Travelling Auditor is a new appointment. Mr. L. Crumney who holds the appointment was also transferred from the Railway audit. The explanation of these increases is that a pre-audit has been established in some of the Departments, causing increased responsibility to be placed on the officials concerned. It was found that a Travelling Auditor was absolutely necessary, and as the Railway Government audit was no longer necessary, Mr. Crumney was transferred to the main office.

Starting with Joseph LeMoine, Tide-waiter, Rose Blanche, will be found the list of pensioners added to the list. This represents an increase of \$13,374.11. On page 10 we have increased the pension of Richard Lawton, Sub-Collector at King's Cove, by the sum of \$199.34, as it was found he had been unfairly dealt with under the Pensions Act. This makes a total increase of \$18,558.75. As against this there were decreases brought about by the death of several pensioners, which amounted to \$3,158.74, making the net increase to the Pension list of \$15,399.61.

In the House of Assembly estimates, there is an increase in Members' Sessional Pay of \$250,000 to each member. This brings the Sessional Pay back to where it has been for three or four years past. Means \$9,000.00 increase.

Printing, binding and gazing Acts is responsible for an increase of \$1,500,000 on this page. It was short voted last year so Mr. Keating tells me, he will need all of \$3,500,000 to fill his requirements.

COLONIAL SECRETARY'S DEPARTMENT.

The salary of the clerk at Government House is increased by the sum of \$152.00. This man (Mr. Cake) has been in the service for years, having been transferred from the Audit

Office in the Bond Government. His work is of a confidential nature and \$1,700.00 is little enough for the nature of the service performed by him.

The Secretary to the Prime Minister is increased from \$2,200.00 to \$3,000.00. He has had perquisites annually in the past which brought his salary up to this figure, but the present Prime Minister decided to make the salary a straight one and cut out all extras formerly paid Mr. Carew.

The Assistant Secretary, (Miss Bolt) has been reduced by the sum of \$240.00. She is a new appointee and inexperienced, and received the \$1,200.00 originally simply because it was in the Estimates for that amount. The salary for Filing Clerk of \$720.00 has been dropped and one of the Messengers at \$744.00 per annum has also been dropped. The net result of these decreases and the one increase to the Secretary works out at a decrease in the Prime Minister's Departmental salaries of \$904.00. The Contingencies of the Department, also have been reduced \$500.00, making a total reduction of \$1,404.00 for the Prime Minister's Department.

The salaries of the Colonial Secretary's Department show one increase only. Mr. Sterling, the Assistant Deputy, goes from \$2,400.00 to \$3,000.00. This is really not an increase as it computes all perquisites hitherto received by him just as in Mr. Carew's case to which I have referred.

A decrease occurs in the case of Sensus of \$10,000.00. This amount will not be needed during the coming year.

Under the heading of Militia there is an increase of \$5,000.00. The Government were approached by the Newfoundland Patriotic Association for this grant. It appears that as a private body, this Association has been functioning on post, war cases of distress. They still have a number of needy cases on their hands, and their funds have reached low water mark. The Government decided to help them out for the next four or five years by the sum of \$5,000.00 annually to carry on the good work. It is thought by that time the grant will be no longer needed.

As the recapitulation will show, the Department of the Colonial Secretary works out as a total decrease (net) of \$6,552.00.

JUSTICE DEPARTMENT.

In the Department of Justice salaries on page 25 there is an increase of \$400.00 to the Secretary to the Minister, and at the bottom of the page last item an increase of \$500.00 for Deputy Sheriffs in Outposts. The first increase is to help them out for the next four or five years by the sum of \$5,000.00 annually to carry on the good work. It is thought by that time the grant will be no longer needed.

As the recapitulation will show, the Department of the Colonial Secretary works out as a total decrease (net) of \$6,552.00.

STOP DRUGGING GET BACK TO NATURE

Throw your half-filled bottles of dope and poison into the garbage tin—they'll do less harm than in your stomach. Get back to Nature; consider how she cures, and give her the proper assistance. Nature needs strength and nourishment. Drugs are poisons, and poisons don't give that.

If you are nervous you can quiet your nerves with poison, but just as soon as the stupor wears off the trouble returns worse than ever. Works like whisky. A mill will fill up on liquor because it makes him feel good, puts false energy into him for a while, but when the alcohol stops working, his nerves torture him far more. Life's whisky, every dose of drugs calls for another. Dosing weak nerves, weak stomach, liver or kidneys with drugs won't restore them to proper working order. Nature must have new energy, and you get that only from electricity. Our method of curing is to feed the nerves and vitals with nourishing, strength-building electricity. We do this with the "Ajax" Body Battery, which is entirely different from other electric appliances. It is invigorating and powerful, yet gentle and soothing to the nerves. It is a natural generator on the recuperative system, and requires no charging. It will cure every case of rheumatism, nervous debility, weak stomach, kidney and liver troubles, lame back, sciatica, loss of power and every evidence of weakness in men and women.

IT IS FREE

Write at once for our 92-page illustrated book, which contains much valuable information regarding the cause and cure of human ailments. It is free, in a plain sealed envelope. There are special booklets for Ladies and Gentlemen; please specify which is required when writing.

In order to save time correspondents should state their age, sex and full details of their case, for their precise advice can be sent by return mail. All letters are treated in the strictest confidence.

THE BRITISH ELECTRIC INSTITUTE
Dep. 430, 25, Holborn Viaduct, London, E.C.1, England.

DEPARTMENT OF EDUCATION.

Coming to the Department of Education, there is an apparent increase of \$700.00 (for Mr. Butt, the Accountant), but this is not so in fact, as he has had perquisites to that amount which are now computed, and he will be paid a straight salary

without any extra remuneration. The Messenger (Charles Hamlyn) gets a slight increase of \$144.00 to put him on a par with other messengers in the service. There is an increase of \$300.00 for Travelling Expenses and \$500.00 for Printing and Stationery, which I am informed is required to bring the vote up to the actual requirements of the Department.

In the same Department (Education) on page 37 the Grant for Augmentation to Teachers' Salaries is increased by the sum of \$15,000.00. Last year this money was taken from the Surplus Trust Fund and placed to the credit of the several denominations in the Departmental books, but it is now felt that a regular vote of the Legislature should be taken to cover the service. The cost of this service increases according to the length of service of the several grades of teachers on an upward scale.

As in the case of Augmentation, the vote for Teachers' Pension Fund was supplemented by a cheque from the Educational Trust Account of \$10,000.00. We are now putting the amount in the Estimates in the regular way as I do not agree with placing amounts to the credit of a Trust account when the proper course to pursue is vote them in the Legislature. As a matter of fact there are now less than three Trust Accounts in the Department of Education, as follows:—

Teachers' Pension Fund which showed a balance in Bank on June 30th of \$4,576.68.

Minister of Education Trust Account which showed a balance in Bank on June 30th of \$12,516.41.

Special Augmentation Trust Account showing a balance in Bank on June 30th of \$6,501.73.

Or a total credit in the Trust Accounts of the Educational Department—totaling \$23,594.82.

We are adding a vote of \$10,000.00 for the Normal School and Newfoundland Memorial College. As this institution is now functioning, the above sums will be required to meet current expenses for the year.

The Departmental Recapitulation on Page 40 shows a total increase for the Education Department of \$41,239.00.

PUBLIC CHARITIES.

The next increase will be found on Page 48 under the title of Charitable Societies. There are three increases under this head as follows: R. N. M. D. S. F. (Royal National Mission to Deep Sea Fishermen) Hospital at Pilley's Island granted \$2,000.00 instead of \$1,000.00; Grace Memorial Hospital for which we have added a new vote of \$3,000.00; also a new vote of \$10,000.00 for the Notre Dame Bay Memorial Hospital at Twillingate. These are all well deserving objects and the Government are of opinion that it is money well spent. Moreover, it will save expenses of transportation of patients from these centres to St. John's.

Under the heading of Public Health Salaries, the "Meat" Inspector, (Mr. Courtney) is increased \$200.00 per annum. The salary was \$1,300.00 and is now \$1,500.00. This was done in order to level the money up to the other Inspectors in the service. Under the same heading, Mr. Lewis Bartlett is raised from \$1,509.30 to \$1,800.00 per annum. Mr. Bartlett is Hospital Clerk, has to look out for sick patients from all parts of the Island and is in a position to cost this Colony a lot of money should he neglect his job. His services have been eminently satisfactory and the Government thought he was worth the increase.

The total increase on account of Public Charities as will be seen by the recapitulation on Page 50 is \$14,490.70.

MARINE AND FISHERIES DEPARTMENT.

Coming now to the Marine and Fisheries Department, we find the following increases and decreases under the head of Departmental salaries:—

The salary of Miss Caplin, the Secretary to the Department, has been increased \$220.00, from \$780.00 to \$1,000.00. She has been years in the Department and this is a replacement of a cut in salary made by the late administration three years ago. There is an additional typist at \$720.00, but further down will be seen a decrease of a Typist of \$780.00. The Quarantine Officer who is paid \$5.00 per ship from the Customs Department, had an additional amount from the Fisheries Department of \$845.00. Doctor Campbell enjoyed both emoluments but didn't look after the job as per visiting every vessel. This \$845.00 is now cut out of the Estimates. The \$5.00 fee is now paid Dr. Arch. Tait from the Customs Department from Quarantine Fees which fees are collectable from the ship owners and cost the Colony nothing.

On the same page will be found an increase for the Inspector of Lighthouses (Mr. Burgess). Under the Bond and previous Governments this position ranked with the Deputy Minister of the Department or nearly so. And I may add, properly so. When it is considered that the direct superintendence of \$218,500.00 of the \$395,700.00 expenditure of the Department comes within the personal supervision of this official, the justification needs no further comment from me. The Minister of the Department will be able no doubt under question to satisfy any doubts as to the position.

Another additional vote on Page 53 is the provision for two Herding Inspectors at \$1,080.00. It is proposed at the next Session of the Legislature, probably to pension one or two of the old inspectors who have served honorably in the service. These officials are too old for the strenuous winter work required in the outposts to inspect the proper export of herring. Whatever blame has been attached to the export of herring cannot be laid at their doors, but it was impossible to send aged and disabled men to the outposts on this service. So that this increase will not be a permanent increase in the accepted sense of the word. Provision is made for a Telephone Exchange clerk who will attend when arrangements are finalized, and the communication requirements of the whole Customs department building, at \$720.00. She has been there two years without vote.

On Page 55 will be seen an increase for the Protection Service of the Game and Inland Fisheries Board of \$5,000. This is to pay for the services of Game Wardens and is really not an increase in Estimates actually, as the expenditure last year on account of this service was \$23,900.00.

Another amount on this page, under the heading of Protection, is the sum of \$2,000.00, a new vote provided to pay the salaries of two inspectors.

This new vote has been put in at the request of the Trade, who were complaining about the lack of proper statistics in connection with the fisheries. One Inspector is for the North, the other for the South Coasts. Besides supplying statistical information to the Marine and Fisheries Department, they will see that Fishery rules and regulations generally are faithfully carried out.

On the same page, under the heading of General, there appears a decrease of \$385.00. This is made up of \$845 for the Harbor Master's Boatman, who has been dismissed. Captain Winsor informs me that there is no need of a Boatman; the other \$340 was divided as a sort of perquisite for the

RUGBY

THE MILLION DOLLAR MOTOR

THE CAR for the Millions

The Joy of Climbing Hills on High!

THIS comes to the owners of Rugby Cars. Hills that demand shifts to second gear in most cars yield easily to the flexible power of the Rugby Motor.

Without strain or knock and with only a slight extra pressure on the accelerator, the Rugby mounts long, steep grades and passes higher priced cars whose owners are busy shifting gears.

In addition to this exceptionally powerful, Quiet Motor, the Rugby has a Chassis that throughout is of most substantial and satisfactory construction. The design, finish and interior appointments are in keeping with the high quality of the engineering.

At the new low prices, The Rugby offers great value per dollar of cost.

The First Shipment Has Arrived.
RUGBY STANDARD—\$1050.

A welcome addition to every meal

The Estimates for 1925-26

(Continued from page 3)

Salary Gull Island Albatross increased \$500.00.

Salary Long Island Albatross (appointment) increased \$400.00.

Salary Sturgeon's Cove Albatross decreased \$500.00.

Salary Bacalhao Assistant (appointment) increased \$500.00.

Salary Steering Island Albatross (new) increased \$120.00.

Salary Cabot Island Albatross (new) increased \$100.00.

Alarm Keeper decreased \$100.00.

Assistant appointed to the Albatross increased \$500.00.

Salary Gull Island, Light House (new light) increased \$120.00.

Salary Western Shag Light increased \$100.00.

Salary Gooseberry Island Light increased \$100.00.

Salary Cape Bonavista Light increased \$100.00; his salary reduced \$100.00; the Cape Bonavista Light increased \$100.00, and the Cape Bonavista Light increased \$100.00, making a total of \$120.00. Cape Bonavista vote of \$100.00. Winsor informs me that the staff is sufficient to run the light and alarm at Bonavista efficiently.

Salary Ballyhack Light House increased \$100.00. The small increase on this page really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. And Light Keeper is increased \$660.50; but this is really an increase. It was proposed by the Minister to put an acetylene Carbonar, for the operation of \$100.00 would be sufficient, was never done and the light was \$100.00 voted and the really paid was charged to the light even \$100.00. St. George's Replies to Port au Port Correspondent.

Editor Evening Telegram. Dear Sir—A recent issue of your paper contained a letter from a Port au Port correspondent voicing a series of grievances that he claims as section of the district had been subject to that other sections might benefit from the expenditure of monies that should have been theirs.

Government made large allocations to Port au Port section. About 40 miles of road were built connecting both Cape St. George and Clam Bank Cove with Port au Port proper. A telephone system of equal mileage was built, so that every hamlet in the entire peninsula was in telephonic connection with each other, and with the telegraph system at Port au Port, additional post offices were installed and lighthouses built. A greatly improved and extended Bay Coastal Service was provided. Electric Road Boards with increased annual grants thereto were also given, and every reasonable request from Port au Port section was given prompt attention.

Trader's Complaint.

Editor Evening Telegram. Dear Sir—Some few weeks ago I was shown a "Circular to the Trade" from the Customs Department, with a copy of the Rules and Regulations governing travellers' baggage, which says in plain language that any person going out of the country may, on his return, bring back with him wearing apparel, &c., to the value of 50.00, and that wearing apparel and other personal effects taken out of Newfoundland by residents thereof for foreign countries shall, upon their return, be admitted free of duty without regard to their value upon their identity being established.

Better Values in GLASSWARE!

STOCK MARKET NEWS

Table with columns for Stock Name and Price. Includes items like Anaconda, C.P.R., Cuban Cane Sugar, etc.

MARKET LETTER.

(From Our Boston Correspondent.) The action of the market during the past week may be interpreted in many ways, and it is being so interpreted. There are those who believe that we have witnessed the inception of a bear market and point to various phenomena which is reminiscent of the tops of bull markets in past years as reason for such a belief.

For the Coming of Easter and the Spring. We are ready with complete displays of authentically styled Clothing for all occasions.

This store is radiant with fine New Apparel for Easter and the Spring, gathered from every source of supply. It is inspiring to have such fascinating things to show, and it is constantly stimulating to see the enthusiasm of our friends when they come and view them.

The New Spring Coats

The New Coat styles for Spring are full and loose with the line of the shoulder, the arm holes being ample and free, loose tailored sleeves, plain Princess back style, plain and wrap-over front, showing very pretty trimming effects in fancy stitching, silk braid and buttons.

The New Spring Dresses

Nature herself might have chosen the colors and textures that the found in the exquisite Dresses for women that the new season has produced. You will find here an unsurpassed assembly as to variety and in the gathering of tasteful and absolutely correct styles, we believe no other store excels.

NEW Spring Costumes

We are now showing a splendid selection of handsome Spring Costumes that reveal a youthful charm and grace that are unique in this season's style. Tailoring is perfect and fabrics are distinguished, consisting mostly of Gaborline, Pique, Twill, and Serge in all the newest shades for Spring and Summer.

NEW Spring Blouses

The New Spring Blouses show more beauty than ever, the variety indeed delightful. A selection that offers infinite variety to those women who require that every Blouse in their wardrobe have a distinctive individuality of their own.

Millinery Modes for Spring

The very newest note in Millinery style for Spring, prevails throughout our Millinery Showroom; women who wish to find a diversity of Spring Modes, should visit this section at their earliest opportunity. A wonderful selection of English and American Millinery and Ready-to-Wear Hats are now on display; Hats that express the poegee of artistic attainments.

The Royal Stores Limited

ed by strong interests during a bull market is done on the way down. But the market has suffered a very substantial setback and are seldom recovered from the effects of such a break in a short time.

the cars are coming to Newfoundland, they are a necessity and the Government will have to give us Roads to run them on.

Indigestion, Gas, Stomach Misery

Chew a few Pleasant Tablets Instant Stomach Relief!

The moment Pape's Diaperin reaches the stomach all distress goes. Lumps of indigestion, gas, heartburn, sourness, fullness, flatulence, palpitation, vanish. Ease your stomach now! Correct digestion and acidity for a few cents. Druggists sell millions of packages.

The Estimates for 1925-1926

(Continued from page 5.)

parent increase of \$500.00 but this is not the case, as although not voted he was paid this money last year. He is now being voted in the proper manner.

Expenditure Clerk (Miss Maud Thorne) receives an increase of \$180.00, bringing her salary to \$1,000.00. This is a particularly good official and worth the salary.

The Assistant Expenditure Clerk (Miss Taylor) gets an increase of \$50.00, bringing her salary to \$720.00, the standard rate for stenographers.

The Messenger at \$360.00 per annum is cut out as the post boys can attend to the work. Decrease \$360.00. On the same page under Vote 3 is the appointment of a Dead Letter Clerk (Mr. Samuel Ryal) at \$1,000.00 new appointment.

Under the head of Store, Vote 6, the Storekeeper, Mr. Thomas Bambrick, is increased to \$1,440.00. This official has been years in the service, having served in all its branches. He has been put in charge of the Postal stocks. This is an increase of \$240.00.

In the Money Order Salaries, Vote 8, is what would appear a new appointment; but as a matter of fact this was omitted from the Estimates of last year. The official's name is M. J. O'Mara. Increase \$375.00.

There is a new appointment under Vote 9, Registration Branch, making an increase of \$420.00. (The official's name is John Murphy) and his duties are opening Mail Bags and other general work in the Department.

Under Vote 10, Parcel Post, the foreign despatch clerk received an increase of \$118.00. (The clerk's name is William Newbury).

Another addition to Head Parcel Post is one clerk at \$480.00, but this will reduce the additional help by an equal sum. (The official's name is Edward Hurley and his duties comprise making out notices re parcels for the city of St. John's.)

Additional help in the Parcel Post Section is reduced by the sum of \$720.00.

Vote 11 shows several increases and two decreases as follows:— One Assorter reduced from \$912.00 to \$664.00.

One Assorter increased from \$846.00 to \$1035.00; another from \$791.00 to \$912.00.

One new Assorter at \$846.00. Chief Clerk new Assorter reduced from \$1,200.00 to \$846.00.

Two new clerks at \$480.00 and \$684.00 respectively and additional help (new vote, \$200.00).

The vote for Stamp Clerks is reduced from \$1824.00 to \$1,000.00.

The vote for Carriers is increased from \$744.00 to \$982.00.

The vote for Fireman under Head 12 shows an increase of \$548.80. This increase is given because the Fireman has also taken on the Caretaker's duties. (Levi Froude is the official's name.)

Under the same Head 12, 234 is added for Charwomen and \$960.00 for a new appointment of Orderly to police the Post Office. (T. Morrissey is the Orderly appointed.)

Vote 14; Travelling Post Office. The

Superintendent salary has been dropped, and the total vote works out at a decrease of \$400.00. (The Deputy is the official that was acting in the position of Superintendent.)

In Vote 15 (Sydney Branch) one of the Assorters, Gordon DuTot receives an increase of \$120.00.

Vote 16 Outport Postmasters. The net increase on this vote amounts to \$2,022.54.

The motor Express Service, \$1,000, is cut now in the 1925-26 column, and the chauffeur now acting as an assorter.

The Contractors for Courier services are increased from \$107,487 to \$120,000. This is not an increase as it was short voted in recent years.

ECZEMA IN RED PIMPLES

On Face. Itched Badly. Cuticura Healed.

"Eczema first began with an itching on my face. Little red pimples formed that itched very badly causing me to scratch. The scratching made the pimples large and red, and some nights they burned and kept me awake for a while."

"My mother recommended Cuticura Soap and Ointment so I sent for a five sample which helped me. I purchased another cake of Cuticura Ointment and in a month I was completely healed." (Signed) Miss Edith H. Kelley, Rt. 1, Unity, Me., July 12, 1923.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent skin troubles.

Sample Book Free by Mail. Address: Canadian Branch, Cuticura, Ltd., Montreal, P. Q., 177 rue Saint-Jacques, Montreal, P. Q.

Current Radio

Telephone Lines Used in Broadcasting

(PART I) EDITED BY JOHN M. CLAYTON.

There are few radio fans in the country who did not hear the broadcast of the 14 stations did on the proceedings of the Democratic National Convention starting June, 1924.

No matter in what part of the United States you were situated, if you had a radio set you had plenty of opportunity to hear the Convention. But has it ever occurred to you the tremendous amount of labor involved in the seemingly simple process of "tying together" these 14 stations? Or have you any idea of the number of people actually involved in broadcasting and keeping the telephone lines clear?

First let's see what happened at the broadcasting station. In Madison Square Garden there was a number of microphones situated at various points of advantage. A microphone is only a special form of sensitive telephone transmitter similar to those on all desk telephones. By a switch arrangement it is possible for the operator to cut in any of the microphones in the Garden. From the microphone an ordinary telephone line is extended to the broadcasting station proper. In the illustration we are taking, station WEPF of New York is the first station to get the proceedings. After leaving the microphone the voice of the speaker, or the music of the band, is carried through a microphone amplifier at Madison Square Garden. This amplifier employs vacuum tubes similar to those used in radio. The amplifier steps up the amplitude of the speaker's voice and puts it out on the telephone wire with sufficient volume so that it will reach the broadcasting station with sufficient volume. At the station it passes through a "speech amplifier" which is another vacuum tube amplifier, and from the speech amplifier it is carried directly to the broadcasting set proper.

From the microphone control board Copyright, 1925, by The American Radio Relay League, Inc.

Telephone Lines Used in Broadcasting

at the place of broadcasting lines are also run into the "repeater room" of the Telephone Company. Here the various circuits are connected together through flexible cords which "patch" lines terminating on a series of jacks on the testboard. Our illustration above shows the toll test room at one of the New York offices. Note the series of cords plugged into the board in front of which the two men are standing. After passing through the testboard shown above, each line passes through a "repeater" which is simply a one-stage audio-frequency amplifier using vacuum tubes similar to radio tubes. The repeater steps up the amplitude of the voice greatly and passes it on out on the long-distance line. It is not possible to talk over several hundred miles without the use of one of these repeaters, or amplifiers, so in all long-distance lines there must be telephone repeaters every few hundred miles. Each repeater station is housed in a building and requires a number of attendants to see that the filament circuits and plate circuits of the tubes are O.K., to test the tubes periodically and to run a number of routine tests on the lines.

During broadcasting, it is necessary to have a repeater attendant monitoring on the lines, that is listening in, to see that no trouble shows up. A telephone line, especially a long-distance one, is an extremely delicate thing. If a tree anywhere along the line falls across the line, the circuits may be tied up for hours. If a bush or the limbs of a tree are growing in the line the line will be noisy and intelligent speech difficult. Spare circuits are always provided while broadcasting is being done, so that if one circuit goes out another can be cut in immediately. The spare circuits are usually not run on the same poles as are the regular circuits.

There are two increases to Tide-waiters in the Outposts on page 177. The two men at Bonavista has been slightly increased from \$480.00 each to \$550; and the Tidewater at Grand Falls goes from \$324 to \$1,100, making a total increase under this Head of \$516.00.

On page 178 there is a decrease on account of percentage on Duties of \$13,500.00, to which I have already referred. The balance left of \$1,500.00 is for percentage on Light Dues.

A reference to page 181 shows that the net increase in votes of the Customs Department works out at \$10,456.75.

There is one increase only in connection with the Department of the Tax Assessor; the second clerk, Mr. Griffin, goes from \$720.00 to \$1,000.00; an increase of \$280.00.

On page 19 there is an increase of \$104.00 for the Assistant Filing Clerk and Messenger (E. Crane).

On page 196 the Naval and Military Pensions have been reduced by the Board \$34,000.00.

There is one increase only in connection with the Department of the Tax Assessor; the second clerk, Mr. Griffin, goes from \$720.00 to \$1,000.00; an increase of \$280.00.

COMING:—GLORIA SWANSON, in the gigantic production "ZA ZA," and WESLEY BARRY, in "THE PRINTER'S DEVIL."

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

CUSTOMS DEPARTMENT.

Turning to page 160 will be found the following changes in the Customs Department. They have been made with due deliberation and are consequent upon the enquiry held last year.

Provision has been made for an Inspecting Auditor whose business it will be to go into all Departments at any moment without notice. He will have to see that everything is punctually checked, that the work of the Department from a routine standpoint is not being neglected, as it has been in the past. It is a necessary appointment and I have selected Mr. F. C. Brien for the position at \$3,000 per annum. This is an increase of \$3,000.00.

Further down the page appears an increase to the Cashier, Mr. Smith, of \$120.00, bringing the salary to \$2,180.00.

The next item is an increase for the Manifest Clerk, Mr. White, from \$1,554 to \$1,800. Increase \$246.00.

Owing to the state of the records in the Bonded Warehouse Department it became necessary to appoint a Warehousekeeper. Since the four months' bond (formerly accepted) has been replaced by the payment of cash, the work in the Department has increased so much that this appointment became imperative. This is an increase of \$1,500.00.

The Clerk to the Landing Surveyor (Mr. S. Winsor) is advanced from \$1,244.00 to \$1,500, an increase of \$256.00.

The third Statistical Clerk goes from \$1,245.00 to \$1,450.00, apparently. But really this is no increase as Captain Marshall has received the larger amount since his appointment.

The fourth Statistical Clerk is a new appointment at \$1,440.00. The work of this Department has been falling behind and I find it necessary to make this increase in order to have statistics ready promptly.

The Registrar of Shipping (Mr. T. McGrath) is increased from \$1,728.00 to \$2,000.00, an increase of \$272.00.

Household Notes

Soak diced cucumbers in weak salt water before using them in salads.

Paranip croquettes may take the place of the meat course. Serve with catsup.

Rice and tomatoes are excellent cooked in casserole and seasoned with onion.

A good meat substitute is lima bean loaf garnished with sliced hard-boiled eggs.

Put as little fullness as possible in aprons on bands. They will iron more easily.

Always stitch rick-rack braid along both edges and it will look better when ironed.

"Cascarets" 10c if Constipated, Dizzy, Bilious

Feel fine! Let "Cascarets" clean your bowels and stimulate your liver. No griping or overacting. Millions of men, women, and children take this harmless laxative—Cathartic. It doesn't sicken you like pills, oils, calomel and salts. Tastes nice—acts wonderfully. 10c, 25c, and 50c boxes—any druggist.

You Need This Skin Treatment

Every woman's face needs the gentle massaging of Richard Hudnut's Marvellous Cold Cream during the cold days of March and April. The skin takes on a delightfully new, smooth and velvety softness when this magic beautifier is constantly used. Every night before retiring MARVELLOUS COLD CREAM should be applied. Do not neglect it another day, secure this cream immediately and enjoy the extraordinary feeling of luxury and comfort which the gentle massaging with Marvellous Cold Cream will produce. At all drug and department stores.

Just Folks.

In gold this cry has world-wide fame: "I'll never learn to play the game!"

At twenty-four when he began He smiled to hear an older man In rage and bitterness proclaim: "I'll never learn to play the game!"

Each season worse than that before."

At thirty, worried, he in turn Exclaimed: "This game I'll never learn."

Some days I play it fairly well, Drive like a pro, and truth to tell, Approach and putt; then something snags! I see my boosted game collapse."

At forty, still to hope he clung, No longer confident or young, Dubs thought him skillful, but he knew

With golfers good he'd never do, In from the course at night he came, Sobbing: "I'll never learn the game!"

Fifty and sixty came and went Nor once relieved his discontent, At seventy he himself agreed The first next-century hard, Indeed, Now eighty-five and bent of frame He groans he'll never learn the game.

Successful Missionary Meeting
 AT HARBOR GRACE.

The Annual Missionary Meeting of the Methodist Church was held in Coughlan Hall on Tuesday night last, March 24th, and marked "one to be remembered" in the annals of Missions in connection with that Church. On the platform were: Mr. John Trapnell, J.P., I.S.M., who ably performed the duties of Chairman, Rev. Mr. Lench, of Briggs, Rev. Dr. Curtis, M. A., of St. John's, and Mr. H. Hinton, a local man, who were the Speakers of the evening; also Rev. Mr. Harris, Pastor of the Church, and a full Choir, with Miss G. L. Davis, the Organist. With the singing of the Hymn—"Jesus Shall Reign Where 'Er The Sun, etc." the Meeting opened and next followed Prayer and Scripture Reading by Rev. Dr. Curtis, and a timely duet, entitled: "Speed Away," which was impressively rendered by Misses G. Parsons and L. Downing.

The Chairman, Mr. Trapnell, then briefly addressed the gathering, commenting on the fact that the Church was celebrating its Centenary in Missionary Work, and welcomed the Speakers, Rev. Mr. Lench was the first to address the audience and opened by singing, in his usual good style, a solo—"Do Something For Others." He traced the Missionary activities from the year 1765, when Rev. Lawrence Coughlan began his first pioneer work on this side of the water. Mr. Lench holding the distinction of being the scene of his first labours. The Rev. Speaker reviewed what had been accomplished in the century just ended, and looked, triumphantly, into the future, believing that the day will dawn when:—

"He shall reign from pole to pole,
 With illimitable sway;
 'Yonder heavens have passed away."
 And, concluded his lengthy address, by impressing upon his hearers the necessity for "Enthusiasm" in this great work, for with out this essential, nothing can be carried on successfully.

After a Hymn had been sung, Rev. Dr. Curtis addressed the audience, and having attended similar services where the Missionary Centenary was being celebrated (as did also Rev. Lench) he was brim full of his subject and the Missionary spirit. He dealt chiefly with Church Union, from its source, explaining why the three Churches desire to form into one great body, known as The United Church, and expressed much pleasure at being present a short time ago at a Service in Corner Brook, when what he believed to be the first Church since the Union had been erected and dedicated for worship, under the name of "The United Church." Newfoundland again claiming a distinction.

He closed by relating a touching story, showing the great sacrifices so often made by those who go to the foreign Mission field. "They counted not their lives dear unto them" And, appealed to all present to play their part in the noble work—to take up the torch and "carry on." So that all may hear The Word and His Kingdom be established on earth.

Mr. Hinton was the next Speaker for the evening. He touched on the remarks of the previous speakers, and dealt with the Missionary Cause at home and abroad, reminding his listeners of the great need for their co-operation, in order that Missionary work on the far flung battle line of the Mission Field, and also at home, may flourish, and accomplish its aim "To the Glory of God."

The usual collection in aid of the cause was taken up during which time, Miss Flora Parsons gave a Piano selection.

The chairman thanked the delegation for their soul stirring addresses, and also the audience for their keen attention all through. Rev. Mr. Harris pronounced the Benediction, which brought to a close, what was considered a most successful meeting.

Thompson Radio

The Neutrodyne principle plus Thompson Radio Experience has produced the ideal radio receiver.

THE CONCERT GRAND.
 MODEL S-70—\$300

Equipped for either dry or storage battery operation. The only six-tube neutrodyne, this model is seldom used at full power as it provides a quality of tone never before attained in Radio reception. The beautiful two-tone mahogany finished Cabinet is an outstanding example of the Cabinet maker's art, and represents in concrete form the experience, the research, the developments of famous Radio Engineers.

THE PARLOR GRAND.
 MODEL S-60—\$230

A five-tube neutrodyne receiver providing two stages of radio frequency, detector and two stages of audio frequency amplification. This model, enclosed in a one an infinite sense of control as the fingers carefully call the air voices from the distant corners of the Globe. This model will fit into the family circle like a welcome friend who brings glad news and happy moments. The two-tone mahogany finished Cabinet, with sloping panel, is artistic in design.

THE GRANDETTE.
 MODEL V-50—\$190

A five-tube neutrodyne receiver providing two stages of radio frequency, detector and two stages of audio frequency amplification. This model, enclosed in a beautiful mahogany finished streamline Cabinet, will readily harmonize with furnishings of any period. It is equipped to serve all home radio reception requirements as to distance and volume.

All prices quoted are for receivers without accessories.

THE THOMPSON SPEAKER—\$35.00
 The Thompson Speaker is the only Speaker—within its price range—that can function efficiently on Sets using five or more tubes.

IN THE REALMS OF SPORT

CHAMPIONSHIP MEDALS ON EXHIBITION.

The medals won at the Nfld. A.A.A. Championship Sports last year have arrived from England, and are now on exhibition in the store window of Mr. Mark Chaplin. The medals were designed specially by the A.A.A. and is the work of Messrs. Schofield, Goodman & Sons, Birmingham, Eng., represented by Walter Clouston & Sons, of this city.

The medals are of gold, silver and bronze, while there are eight included in the display with bar or clasp attached for those who set up new records. The display is very neat and attractive and has been greatly admired by the many citizens who pass in that direction.

The medals will be presented to the winners at the annual meeting of the Nfld. A.A.A. which takes place at a very early date.

TO-DAY'S BOAT RACE.
 Cambridge Powerful But Lacking Finish.

Interest in the boat race practice was mainly centred yesterday in the arrival of the Cambridge crew at Putney. They had only one outing, but it was of a heavy nature, the crew going right through to Mortlake in easy stages of paddling.

DODD'S KIDNEY PILLS

DRY ALL KIDNEY DISEASE
 RHEUMATISM
 BRUISES
 DIABETES
 1087 THE PHARMACEUTICAL

SNOODLES

Sometimes Shavings Shatter Friendships

Occasionally they broke into a row of a few strokes, when the boat appeared to run very well. At the moment of writing they are not such a polished crew as Oxford, but there is plenty of power behind their work, and they are probably a much faster crew than they look to be.

Cambridge will row a full course trial to-morrow afternoon, and as Oxford are rowing at 2.30 to-day, it should be possible to make some interesting comparisons.

Oxford had a fairly light day's work in view of their trial to-day. They were out at 10.30 in bitterly cold weather, and first paddled to the Mile Post, where they turned. A row of half a minute was then attempted, in which they got their boat moving very well.

DIFFERENT STYLES.

At Hurlingham they turned and made their way to London Rowing Club by easy stages.

In the afternoon's practice the only event of importance was a row of two minutes, which was quite satisfactory. A good many old Blues braved the elements to see the Cambridge crew do their work, among them being S. D. Muttiebury, G. E. Tower, the Rev. H. B. Playford, and B. C. Cox.

It is of course early to make any definite comparison between the two crews, but at present they are as different as two crews can be possibly be. One a neat polished crew, who are beautifully together, and the other a rugged combination that have much to learn but who possess real driving power.

Oxford will be out to-day at 10.30 and 2.30; Cambridge at 10.45 and 3.15. Daily Mail.

"Blue Bird Tea Brings Happiness."

Annual Meeting

NFLD. PHARMACEUTICAL SOCIETY

The Nfld. Pharmaceutical Society held its annual meeting at the Board of Trade Rooms, March 27th, and was attended by a large group of representatives. The minutes of the previous meeting and financial report, were read and adopted. The usual routine business was transacted followed by many important matters for discussion, after which the annual election took place, resulting in the following being re-elected:

President—B. B. Stafford.
 Vice-President—Leo O'Mara.
 Secy.—Treasurer—E. J. Doran.
 The meeting adjourned at 1.30.
 E. J. DORAN,
 Secretary-Treas.

A Charming Woman

Some say woman's crowning glory is her hair—others say it is her complexion. It is certain that to-day great attention is paid to a woman's complexion. A woman's complexion is always exposed to critical gazes. The woman who uses Three Flowers cosmetics however, need fear no criticism for these dainty and practical toilet preparations give the most lovely complexion. The Face Powder and Skin Cream assist Nature in bestowing a beautiful, soft skin. In many ways the Three Flowers preparations are superior, and are to-day the choice of particular ladies everywhere.

INDISPENSABLE

We receive letters every week from people who find Minard's indispensable.

Capt. Geo. W. Dolbow, Philadelphia, Pa., writes: "While in British Columbia I used your Liniment, but I cannot get it here. As there is to my knowledge no other liniment on the market like Minard's I would appreciate it if you will advise me how I can get another supply, for I do not want to be without Minard's."

What Is Engineering?

THE public is buying Buick performance in constantly increasing volume. In creating this performance, Buick engineering has set itself apart.

Therefore the story of Buick engineering is well worth telling.

Buick maintains the largest staff of engineers now engaged in the service of any one automobile manufacturer. Buick believes that engineering worthy of its name must be the product of many minds of long experience.

Buick engineering holds an open mind for new ideas. Nothing is condemned untried. But Buick engineering has consistently refused to depart from known, sound principles of design for untried but spectacular features which might momentarily capture public fancy.

Proof and plenty of it is required by Buick. Buick's engineers study materials and parts, often through years; always through hundreds of thousands of miles, before accepting or rejecting.

There are eleven divisions of Buick's engineering staff, each concentrating on a different major unit of Buick design. One group centres its skill on axles, another on engines, still another on metals, and so on.

In Buick's metallurgical division alone, around a hundred men are constantly experimenting to be sure that Buick parts are built of the best materials to be found in the world.

The hands of Buick engineers are never tied by price limitations. They are free to select that which is best for Buick regardless of cost. And because of Buick's vast purchasing volume, that which is best for Buick almost invariably costs less than inferior products purchased in smaller quantities.

So, Buick engineering builds for permanence of Buick; giving infinite care to infinite detail; guarding against mistakes.

And because Buick engineering does these things, there is world-wide confidence in the Buick name. The Buick Motor Car has become a standard of comparison. Upwards of 900,000 Buicks are in daily use. And Buick, for the seventh consecutive year, has won first place at the National Automobile Shows for its leadership in volume of sales.

Pompeian
FOR BEAUTY

Gentlewomen

have me to the realization that beauty consists of more than just regular features—that their attractiveness is greatly enhanced by personality and charm.

That soft, delicate skin which is coveted by every woman is the result of the harmonious blending of cosmetics. The first essential is to select the correct shade of Powder and Rouge for your particular type of beauty.

Pompeian Beauty Powder is scientifically blended so that one of the four shades will perfectly match any complexion. Be sure to follow this simple rule irrespective of the color of your eyes or hair and you will be delighted with the effect: If your skin is medium use *Naturelle*; if olive, the *Rachel*; if "rose-tinted" *Flesh*; while the *White* should be used in the daytime only if your skin is absolutely white and lacks all color.

Ask also for Pompeian Fragrance (Talc), Pompeian Day Cream, Pompeian Night Cream and Pompeian Bloom (Rouge)

SIDE TALKS.

By Ruth Cameron.

A TRYING PERIOD FOR MOTHERS.

When I visited recently in my old home town and renewed some of my old friendships I was disappointed in one thing. My ideal mother had lost one of the characteristics that I particularly loved in her. She is a woman of about 40. She has three children, and she has not only always been devoted to them, a thing not at all uncommon; but she has been exceedingly happy in them, a thing less common; it seems to me. All normal people love their children, most of them will make sacrifices for them; many will make every effort to bring them up properly; most of them get a deep underlying happiness out of their children (inevitably tinged with the anxiety that loving greatly always brings); but how few, comparatively, really enjoy their children from day to day, have fun with them, take real pleasure in being one of them.

She Enjoyed Her Children.

Mary was that kind of a mother. She thoroughly enjoyed her children. Her face and manner showed it. There was all the sweetness we associate with motherhood and besides that a joyousness that I particularly loved. And this time that joyousness had gone.

"What has happened to Mary?"

was my first question after Mary had

gone. "She isn't herself. Is anything wrong?"

And this was the explanation I received: "Mary's two older children, a boy and girl, about a year apart had reached the age when a child's complete and unquestioning adoration of its mother suddenly changes."

From Worshippers To Critics.

From being her adoring companions they had suddenly become her harsh critics. They criticized the clothes she bought or made for them, and presently her own clothes. They were suddenly disgusted with the house and its pleasant, shabby, sun filled and book filled livingroom, which she speaks a taste that it will take them years, I fear, to learn to appreciate. They were always saying: "Oh, mother, you don't understand" (she, who had always understood better than anyone else on earth!) The older one has even gotten hold of the adjective "Victorian" and uses it as a weapon against her mother's ideas of manners and morals.

And Mary, the devoted and happy mother, is as devoted as ever, but the happiness and the gaiety has been almost entirely crushed out of her.

Of course there is Lucy, the youngest child and she is as yet unspoiled. "But I don't know when she'll begin to be changed, too," says Mary.

Cheer Up, They Will Come Back.

Poor Mary, I wonder if there is a parent of young children anywhere in

Proceedings at the Legislative Council

OFFICIAL SYNOPSIS.

FRIDAY, March 27.

The Council met at 3.20 p.m. HON. MR. MORINE tabled the annual report of the Cashier of the Newfoundland Savings Bank for 1924.

Bill entitled "An Act Respecting the Lobster Fishery was read a third time and passed, and ordered to be sent to the House of Assembly with a request for concurrence in the Council Amendments thereto.

A Bill entitled, "An Act Relating to Firearms and Other Weapons" was read a third time and passed, and ordered to be sent to the House of Assembly, with a request for concurrence in the Council's amendment thereto.

A Bill entitled "An Act to Amend Chapter 209, Consolidated Statutes (Third Series) 'Of Banks and Banking'" was read a third time and passed, and it was ordered that a message be sent to the House of Assembly to the effect that this House had passed the same without amendment.

The Committee stage of the Egress from Churches, Theatres and other Buildings Amendment Bill was deferred.

The Council went into Committee on the Bill entitled "An Act to Regulate Travel on Highways and the Speed, Operation and Load of Vehicles thereon," Hon. Mr. Templeman in the chair.

HON. MR. MORINE explained that a copy of the Bill as submitted to the House of Assembly had been given the members the previous session in order that they should become conversant with the details. The Assembly had made some technical amendments in the original Bill, which he proposed to deal with as they appeared. In the last few pages of the Bill the members would find some sections dealing with penalties which were more or less puzzling and confusing to laymen, which when the Bill became effective would be dealt with by lawyers and Magistrates. Other sections which dealt with pecuniary matters and suspension of licenses would be fully explained.

HON. DR. ROBINSON enquired if in Section 5 "drive way" referred to private property. The term so in England, and he wondered whether the Commission were to be given authority over private property.

HON. MR. MORINE replied that it did not refer to private property, and that the Commission would have authority only over the public roads and highways.

HON. MR. GIBBS asked if the roads of Bowring Park would be under the jurisdiction of the Commission, and would the Commission have to keep them in repair?

HON. MR. MORINE explained that this section merely gave the meaning of the terms. The enacting section of the Bill would deal fully with the question raised. He pointed out that the Bill had been gone over carefully by the Government Engineer and his staff, who had endorsed it. The Inspector General also had given assistance by offering suggestions which were acted upon. In addition it had been sent to the Motor Association and been carefully conned by it, and the amendment offered duly considered.

HON. MR. COOK enquired if any provision had been made for cars coming in from the U.S.A.

HON. MR. MORINE said that later on in the Bill that matter was dealt with. Section 9 (a) referred to matters relative to tourists and their cars, permitting them the use of number plates bought from their countries. The issuing of permits for three months to be kept while the tourist operated the car, the fee being \$5.00, was also dealt with. Provision was arranged for in connection with Customs duties should cars be sold here.

HON. MR. AYRE thought that difficulties might arise in the use of those terms "sunset" and "sunrise" as daylight continued after sunset, and as there may be a long twilight, it would be necessary to word more carefully the times stated. In other countries a definite time was given for lights to be lit on cars, etc., and that time was published.

HON. MR. ANDERSON upheld the suggestion made and said the conditions mentioned existed in the Old Country.

HON. MR. MORINE in reply said that some arrangements to that effect would be made with the Commission, and the exact time of lighting

the world who hasn't been through the period she is passing through. Of course it is harder for her because she always has been so much her children's companion and their idol. And yet I am sure she would not wish to have been any less to them in the past.

And while she does not realize it just now, there is also a future, a time when this critical stage will have passed, and when they will come back to her, with all the tenderness their past association has created as a background for their mature love. It's too bad this time has to come, but it's like all periods of storm, made bearable by the future's bow of promise.

up would be published monthly. Dealing with the sections re drivers' licenses, Mr. Morine considered the fee at present too high. In the U. S. A. he had been informed, licenses were not required, whilst in Canada the law was very exacting in this respect. In order, however, that all might become competent to drive a very small fee for licenses was charged, in some places as little as 25 cents.

HON. DR. ROBINSON said it appeared to him that the matter of training drivers had been overlooked. No person could be expected to operate or drive a car unless he was trained; and some place where he could train should be provided.

HON. MR. AYRE was pleased to hear the Hon. Leader of the Government express himself as he did with regard to the licensing fees. He also considered them too high. Six dollars was too much, especially for the car owner who only drove on ordinary occasions such as to business, or occasionally in the afternoon.

HON. MR. MORINE in reply to Hon. Dr. Robinson, said, one who wished to learn how to drive was usually given instruction in the Park or some road that was not used for general traffic.

HON. DR. ROBINSON understood that one of the tests to qualify for a driver was to drive cars through the streets of the city, of course under competent supervision. Under this clause the test would be no longer possible, as no license could be given till this test was passed. The clause nullified the test—or, if the test were insisted on, and he considered it should be, then to fulfil it would be a violation of the law.

HON. MR. ELLIS made reference to the penalties for speeding. Apparently there was no difference in the fine for say 26 miles, or one mile than the speed allowed outside a city, and forty miles. It was not until the latter speed was exceeded, was an increased fine provided. This did not seem right as the greater speed should be more severely punished. Accidents have resulted because of excessive speed, and until our roads were widened, twenty-five miles per hour was ample.

HON. MR. MORINE said that this was an important section and should be clearly understood. Section 22 says that no car in the city limits shall exceed 20 miles per hour, that is in clear, straight places, and around corners and in congested traffic or on bridges not above ten miles an hour. Pecuniary penalties are provided for breaches of this. Section 23, however, provides for double pecuniary penalties if a person be convicted of driving recklessly or with gross negligence, or with extreme danger to the public, even if he was driving at a speed below the limit provided. People must drive carefully, and Section 23 is one of the best ever put in the Bill. Then there is a provision that at no time, anywhere, can one drive at a speed to exceed forty miles per hour (without the express permission of the Commission). It would be construed as a danger to the public, and therefore double penalties are imposed, and in addition imprisonment. For instance, if a man is going through the city at ten miles with extreme danger to the public, his pecuniary penalties are doubled, and in addition he can be sent to prison; and if under the best circumstances possible he goes over the 40 miles, double the pecuniary penalties and imprisonment are again provided. There can be no excuse pleaded for driving at this speed, yet he (Hon. Mr. Morine) knew people who often drove at forty miles per hour.

HON. PRESIDENT pointed out that for a breach of the section referred to, even a first offence, the Magistrate must give double fine, and also imprisonment. He proposed an amendment whereby imprisonment be left optional with the Magistrate and this was accepted. He said that as there seemed to be no specially appointed place for persons to learn to drive cars, and that usually some outlying highways, such as the North Side of Quill Vidi, were used for this purpose. He suggested that the Highway Commission license those roads at certain times and under certain conditions for that purpose. The instructor in such cases should in addition to being a licensed chauffeur be also approved of by the Commission. An amendment to that effect was inserted in section 17.

HON. MR. AYRE thought that section 37 sub section A deserved consideration. This section provides that

where two vehicles meet the one on the left has the right of way. He said that was an old rule of the road for country practice, but that he had not heard of its adoption in the city where conditions differ and traffic is congested. In England, he stated, the main thoroughfares had the right of way, and the traffic on side streets coming into it had to hold back until such time as it could fall in with the regular traffic. In the United States a similar procedure was followed. He was of the opinion that as Water Street was our main thoroughfare the traffic from the side streets should hold back until vehicles on Water Street passed, in other words the east and west traffic should have the right of way over that of the north and south.

HON. MR. MORINE said there would be no objection to that if the law were being made only for St. John's, but it was being made for the whole colony, for streets running in every direction. He considered the plan adopted in the Bill a simple one. The idea was to adopt a rule for every place and not for St. John's alone. The roads outside the city might lead in all directions, and it was not to be expected that men could carry compasses. The rule mentioned in the Bill he considered much simpler and could be applied to all parts of the colony.

HON. MR. AYRE said he had evidently not made himself clear. There was no reason why outside of St. John's the passing could not be done on the stated side, but what he did wish to emphasize was that in congested thoroughfares it seemed the correct procedure for the lesser traffic to give way to the greater. His object in speaking was, he added, to make the Bill as perfect as it could be made.

HON. MR. MORINE not questioning the motive of the Honourable member, replied that if a special rule were made for St. John's, confusion would be caused to car drivers coming in from other parts of the country where a different rule was enforced.

HON. MR. ELLIS agreed that in the case of Water Street, where the traffic was greater than on any other street or road an exception might be made.

HON. DR. ROBINSON was of the opinion that if the tourist policy really developed, sooner or later the change would have to be made in the rule of the road. He thought probably he should also state this view, and had no desire to emphasize it. What he said might be considered more in the nature of a prophecy than a protest.

HON. MR. MORINE thought it a disaster to pass the Bill under the old rule of the road, but because of the pressure of local feeling, he subordinated his own very strong feelings on the matter. He felt sure we would be sorry later on. He hoped there would be no making of exceptions for St. John's. It would mean confusion.

HON. MR. PRESIDENT thought if persons who did not adhere to the regulations were arrested and severely cautioned, it would work out all right. To make an exception of St. John's or of any other place would be disastrous.

HON. MR. MORINE said that greater watchfulness would be necessary in enforcing traffic regulations. Too many cut corners instead of taking the long turn, and others did not keep on the proper side of the road. He hoped the Commission would have their officers out in addition to the traffic officers, and co-operate until people pay more attention to the rule of the road.

HON. MR. ELLIS spoke of the rule of the road in Los Angeles. The traffic on roads running at right angles to the main boulevard, where cars turned six abreast always had to stop and wait. Whatever drove the greatest traffic took, that was given the right of way, so, he thought, it should be on Water Street.

HON. MR. MORINE was of the opinion that the traffic on a certain section of Prescott Street was more dangerous than that on Water Street.

The section then passed without amendment. The Committee rose and reported having passed the Bill with some amendment. Said report was received by unanimous consent, the Bill passed and it was ordered that a message be sent to the House of Assembly to the effect that the Bill had passed with some amendment and asking their concurrence therein.

HON. PRESIDENT read a message from the House of Assembly acquainting the Council that they had passed the Council's amendments to the Light dues Bill without amendment. Also that they had passed the Council's amendments to the Highroads Bill with some amendment and requesting concurrence therein.

On motion the Council concurred in said amendment, and it was ordered that the message be sent to the House of Assembly acquainting that body that the Council had passed said amendment.

HON. DR. MOSDELL then gave notice on behalf of Hon. Captain Dave, that on to-morrow he would ask the Hon. the Leader of the Government in the Legislative Council to lay on the table of the Council a copy of the Act for the Encouragement of Shipbuilding with amendments to date. Also statement showing amounts paid and names of persons receiving bounty during the years 1923-1924.

A NEW COACH

Recognizing the demand for a truly comfortable and economical car of the coach type, Dodge Brothers have provided it.

The new Coach reveals a characteristic maturity of design—in the low-swing lines of the body, in the arrangement of the interior for five-passenger comfort, and in the exceptional dimensions of the doors and windows.

The car is Duco finished in Dodge Brothers blue with a body stripe of cartouche yellow. Fittings and fixtures are first quality throughout, and balloon tires are standard equipment.

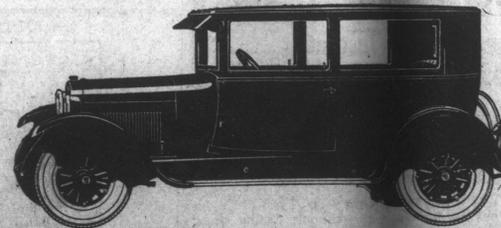

So far as riding comfort and dependability are concerned, it is only necessary to add that the Coach is built on Dodge Brothers sturdy chassis and cushioned by Dodge Brothers underslung springs.

Little Jack Rabbit
by David Cory

Well, I forgot to mention in the last story that dear Uncle Lucky spent the night at the dear Old Bramble Patch. You see, his tiny housekeeper, Little Miss Moustie, had gone home for a visit, and the dear old gentleman rabbit always felt so lonely without her in his red-shingled house on the corner of Lettuce Avenue and Carrot St., that he had made up his mind to stay for a day or two with Little Jack Rabbit and Lady Love. And that's how it happened when the little Cuckoo Bird woke them up in the morning, the perplexed old gentleman bunny thought for a moment that the Old Red Rooster had gone crazy. You see, Uncle Lucky always woke up when that old fowl sang his cock-a-doodle-do song.

"Goodness gracious meebus," laughed the old gentleman bunny, as he tied his purple cravat before the mirror, "and down the stairs he hopped, two at a time, for he felt mighty frisky this lovely spring morning. 'Deed he did, nice old Uncle Lucky, all apick and span in his pink waist-coat and purple cravat and his precious wedding stovepipe hat—only that dear old hat hung on the peg behind the door, but just in reach of his right front paw.

"Good morning," he cried, hopping into the kitchen, where Lady Love and her little bunny boy were setting the table.

"How's the little Grasshopper?" "My leg is much better," answered that brave little insect. "I'll soon be hopping in the fields,—that is, as soon as the summer is here and the roses are in bloom."

"Just then Reddy Comb, the Rooster Newboy, tossed the Bunnybridge Bugle on the porch.

"Here's the paper. Read about Danny Fox's tip-toe gout."

"That's the reason that old robber hasn't troubled us lately," laughed funny Uncle Lucky, hopping back with the paper to sit down at the table, on which pretty Lady Love had just set the steaming Carrot Coffee Pot and the hot Clover Cereal. Then,

"Dear me, but it was funny that particular morning. Somebody had drawn a picture of Danny Fox's gouty toe, and printed underneath the verse:

"Deny, meeny, miny, mo
Danny Fox's little toe
Has the rheumatism so
That he hollers, 'Oh, oh, oh!'"

"That old fox won't bother little rabbits for some time to come," said funny Uncle Lucky, with a wink at Lady Love. And in the next story you shall hear what happened after that.

A treat due to-morrow at Bear's Stores, Hay Market and Rawlin's Cross. 500 lbs. Chicken Halibut, 200 lbs. Fresh Iced Turbot. Telephones: 379 and 971. mar27.11

"The morn'n'!" Jock repeated doubtfully.

Heat evaporated milk in a double boiler for twenty minutes, then chill, and it will whip nicely.
Finesplee and sweet potatoes are excellent topped with marshmallows and baked in casserole.

COKE

— IS —
AN EXCELLENT SUBSTITUTE FOR HARD COAL.

Our COKE is much superior to the imported article because it is produced from the highest grade of Pennsylvania Coal, AND DOES NOT CLINKER. Our many customers demonstrate these facts. It is a smokeless fuel, and is admirable for either Domestic or Industrial use.

Our price is \$9.00 per half ton delivered at your residence or place of business.

All Orders will receive Prompt Attention.

LOW HAULING COSTS

The CHEVROLET One-Ton Truck is adaptable for all kinds of hauling. There is ample power in the Chevrolet valve-in-head engine for every use, and to pull a maximum load over any kind of road or up any steep hill. It is speedy, and provides fast, heavy-duty service at the lowest operating and maintenance cost.

There is a type of body available for any work you wish to do, and we shall be glad to advise you on the type best suited for your needs.

The CHEVROLET is the world's lowest-priced One-Ton Truck into which is incorporated the standard three-speed gear mechanism which is most essential for economical hauling in hilly districts. Leading in high mileage on petrol, oil and tyres, and fully living up to Chevrolet reputation for unequalled economy, the Chevrolet Truck deserves your earnest consideration before you make your purchase.

Write for catalog and come in and we will show you this staunch looking truck.

Forty-Six Years in the Service of the Public—The Evening Telegram.

House of Assembly Proceedings
FRIDAY, March 27.
The House met at 8 p.m.

PETITIONS.
MR. POWER presented a petition from Grand and Little Rivers on the subject of a road.
HON. J. J. LONG on behalf of the member for Burgeo presented a petition from Cal-de-Sac respecting the coastal service.
THE COLONIAL SECRETARY tabled the Report of the Government Savings Bank.

THE MINISTER OF AGRICULTURE AND MINES introduced a Bill "An Act respecting the Records of Pure Bred Animals," which was read a first time and ordered to be read a second time to-day.

ANSWERS TO QUESTIONS.
In answer to Mr. Hickman the MINISTER OF PUBLIC WORKS stated that no man by the name of Baggs belonging to Harbor Grace District was under salary by the Government.
On the second reading of the Council's Amendments to the "Light Dues Bill," the MINISTER OF FINANCE AND CUSTOMS briefly explained that they permitted a voyage to Canada of vessels without paying the customary 24 cents charge. The amendments were accordingly read and sent back to the Council, advising them of the concurrence of the House.
On the second reading of the "Highways Bill" the COLONIAL SECRETARY explained the amendments, which were many.
MR. WARREN objected to the twelfth amendment, which provided that the minimum penalty for any infraction of the Act be five dollars fine or ten days. He felt the legislation was too drastic, and did away with the discretion of the magistrates. He strenuously objected to it.

THE ATTORNEY GENERAL concurred that, whereas the sections laying down the penalties for the really grave offences, left a vast discretion to the magistrates, this left them with no discretion for any offence not specifically set forth. He agreed with the Hon. member for Fortune, and he suggested that the words "not less than five dollars" and "not less than ten days" be struck out.

The amendments passed except No. 12, which was amended by striking out the objectionable minimum penalty.
The Bills relating to the Dry Dock and Encouragement of Shipbuilding were passed, and ordered sent to the Legislature for concurrence.
The House went into Committee of the Whole on Supply. Before proceeding MR. HICKMAN asked to have his questions in relation to the railroad personnel answered.
THE PRIME MINISTER replied that the matter of answering the questions was being considered by the Government and Railway Commission. Manager Russell had informed him that the Canadian Minister of Railways refused to give similar information to the Legislature.
MR. WARREN brought up some matters in connection with Loans and the price of Bonds, and a short discussion ensued. When the votes in the Estimates were taken up the question of pensions was raised.

THE MINISTER OF FINANCE said this matter was receiving the attention of the Government. He informed the House that there were pensioners who gave not more than nine months' service, and it is now being considered if a more equitable scheme could not be devised.
On the vote for the House of Assembly several members took occasion to laud the quality of the work being done this year by the reporting staff of the House.

MR. BROWNE (St. John's West) referred to the inadequate Library at the disposal of the Legislature. He had sent repeatedly for works of reference only to find that they were not available. He thought the House ought to subscribe to various publications which would be useful for reference and helpful in connection with legislation. He also referred to the worth of the services of the Librarian, Miss Morris.

MR. C. J. CAHILL gave his support to the suggestion. Considerable progress was made with the Estimates when the Committee rose at 6:15 p.m. The House then went into Committee of the Whole on the Textile Resolutions.

THE PRIME MINISTER explained the alteration which had been made in the agreement since it was first before the House.
MR. WARREN repeated his previous argument as to what answer the Government would have if the clothing factories asked for similar concessions, and added that the twenty year period of protection was too lengthy.

MR. GRIMES asked for some information re the class of goods that would be manufactured.
MR. SCAMMELL expressed his approval of the Bill as it was for the encouragement of a local industry. Some further discussion took place and the Prime Minister rose the Committee in order to ascertain more particulars about the material designated cotton webbing, because if it were the fabric of a garment very little work would be given in making

it up, and thus the intention of the resolution would be defeated. The agreement reads:—
"1. The following articles when imported by the Company for use, in connection with the manufacturing of woollen and cotton knitted garments shall, for a period of twenty years from the first day of January, A.D. 1925, be admitted into the Colony free of duty, that is to say:—
(a) All material and machinery required for and entering into the original construction and finishing and the further extension of the Company's factory or plant, but not for the replacement or substitution of new for old.
(b) Flannellets, cotton, fleecy cotton webbing, facings, threads, woollen and cotton yarns dyed or undyed, wool oils, buttons, elastics, tapes, labels, soda ash, bleaching and dyeing materials, and wrapping materials.

2. This agreement is subject to confirmation and approval by the Legislature of Newfoundland. The remaining orders of the day were deferred.
THE SPEAKER appointed the Speaker, Messrs. Browne, Cahill, Grimes and Ashbourne to serve as the Library Committee for the session. The House then adjourned until Monday.

"Blue Bird Tea Brings Happiness."

Our Dumb Animals.
Report of The Chief Agent For Week Ending March 27, 1925.
Sent in three horses for treatment for lameness; one that I had sent in some time ago perished this week. I sent in one other horse with a very bad back. I told the owner to have the veterinary surgeon treat the horse, and not to work it until it was fit. He received a report of a wounded dog, on the old railway track. The dog, with some others, was the cause of much annoyance to a resident of Pennywell Road. He fired at the dog but only wounded it. The dog ran away and he could not find it. I received a report of the same and I made a search around Freshwater and the old railway track and found it eventually in a swamp. I then humanely destroyed it. I also humanely destroyed several domestic animals. The owner of the horse and cart complained of in the East-End has promised to do better and has also promised to get a new cart. I will be very happy to furnish any persons, wishing to become members of the Society, with Membership Tickets. Anyone wishing to buy a "Horse's Prayer" picture, may have one for the small cost of 50 cents (unframed), and \$2.50 (framed). I also attended the landing of 24 head of choice butchers cattle for the St. John's Abattoir Company. The cattle were in splendid condition and were very carefully handled. Also attended the landing of 6 horses for Mr. P. Summers, which were given every attention while on board the S.S. Sable Island, and while they were being landed.

JONAS BARTER,
Chief Agent.

Bay-de-Verde Line Opened

The Bay-de-Verde Branch Railway is now opened up right through to Grate's Cove and from now on passengers and freight will be able to go through without any trouble. For the past two weeks a working gang has been kept busy between Northern Bay and Grate's Cove, chopping frozen ice from the rails, and it was only last evening that the men had completed the job.

The New CHEVROLET

New value—new quality—a new line of Chevrolet models even better than ever before.

New chassis—with larger, stronger frame—new semi-elliptic chrome vanadium steel springs—stronger axles, rear axle of the finest construction, banjo type with greatly strengthened gears; improved, fully enclosed dry plate disc clutch requiring no lubrication; extra heavy brake bands and many improvements on the powerful Chevrolet motor.

New bodies—of even greater beauty and comfort. All models have new radiator of more beautiful design made of non-rusting airplane metal. All closed models have new and especially beautiful Fisher Bodies with the new VV closed body one-piece windshield and automatic windshield wiper.

New finish—all models are now finished in Duco—the new finish that retains its color and lustre almost indefinitely and withstands very much harder usage. These are but a few of the quality features of the new Chevrolet—quality features that you would expect to find only on cars of much higher price.

5-Passenger Touring Car—\$1040 Delivered.

QUALITY AT LOW PRICE

Ramon Novarro
in "The Red Lily."

A ROMANTIC STORY OF FATE AT THE NICKEL MONDAY.

With a reputation of being one of the most thrilling and interesting films of the year, "The Red Lily," a Metro-Goldwyn picture, will come to the Nickel Theatre, beginning on Monday. This is the latest production from the capable hand of Fred Niblo, who has such photoplays to his credit as "Strangers of the Night," "My Name is Woman," "The Three Musketeers," and "The Mark of Zorro"; he finished "The Red Lily" just before sailing for Italy, where he took charge of the "Ben Hur" company. Ramon Novarro, Edith Bennett, and Wallace Beery have the chief roles. Novarro plays a part that is entirely different from any heretofore, and he promises to astonish film followers when, in a section of the picture, he appears as a Parisian apache and does a number of scenes that require the utmost in character acting. Let any snappers be alarmed, however, it is announced that he is still "the lover" during most of the film. Miss Bennett also plays a role of greater dramatic power than usually falls to her lot, while Beery appears as Bobo, a lovable rogue of the Montmartre slums. Other important actors in the cast include Frank Currier, Rosemary Theby, Mitchell Lewis, Emily Fitzroy, George Periolat, Gibson Rowland, Dick Sutherland, Dorcas Matthews and Milly Davenport.

"A Marvelous Cure"

Is the verdict of hundreds who have tried Vicks Vapo-rub for cold troubles and found that it gave quick relief.

This is not in the least surprising, because Vapo-rub is a combination of Menthol, Camphor, Eucalyptus, Oil of Juniper Tar, Oil of Thyme, Turpentine—the best remedies for colds, congestions and inflammations—in salve form.

It is a vapor treatment, a penetrating liniment, an antiseptic dressing, a counter irritant and a soothing application—all in one.

The present is a time of danger for those susceptible to colds. Do not wait until a cold develops, but be prepared by having a jar of Vicks Vapo-rub at hand. Look for the familiar blue jar and do not accept substitutes.

SOLD AT ALL DRUG STORES.

tions submitted during the negotiations.

In order to avoid an open rupture and to keep both sides to the negotiations in a friendly mood for a possible adjustment, we have delayed wage action. I must call your attention to the fact, however, that we have been two months endeavoring to reach a settlement. I have called my Board of Directors together for Wednesday, the 18th February, and with much regret I must now ask this Corporation to possibly face one of the most serious situations in its existence. Should they decide to face it in the only manner that your organization seems to understand, I assure you that it will permit of no turning back later.

Yours very truly,
ROY. M. WOLVIN, President.

To complete the sequence it becomes necessary to reprint the following telegram from Lewis to District President MacLeod quoting Wolvin's first telegram to Lewis, and Lewis's reply as follows:

"Received to-day telegram from Roy M. Wolvin, President of British Empire Steel Corporation, Limited, reading as follows: "Officials District 26 repudiate contract executed by Barrett, Baxter, Steel, Dalrymple. Do you recognize this contract and will you immediately carry out obligations under Clause 16 of Contract, and provide competent maintenance men."

Mr. Lewis replied:—"Your wife, International Mine Workers of America frankly recognized the obligation to furnish maintenance men at mines in event of strike, as set forth in Clause 16 of expired agreement in District 26. The fact that the agreement has expired does not lessen the obligation, as Clause 16 was explicitly agreed to by both sides to meet such a situation as now exists."

"The officers of District 26 have heretofore been concretely advised by the officers of the international union of the policy of the organization as affecting maintenance men. This office regards the action of removing the maintenance men as a blunder only exceeded by the action of the British Empire Steel Corporation in locking out their employees and attempting to starve them into a wage reduction."

"In my letter to you of February 13, written in response to your communication of February 11, I made certain suggestions looking to a solution of the situation, which I thought might be acceptable to the mine workers of that district."

"In your following reply of February 16, you roughly brush aside my suggestions and advise of your intention to recommend to your board of directors at its meeting on February 18, a policy of force against the United Mine Workers of America."

"I consider your policy to have been ill-timed and ill-considered, and completely without warrant when it is recognized your corporation pays the lowest wage scale of any district in the coal industry of North America."

"I do not attempt to justify the action of the officers of District 26, in pulling out the maintenance men and jeopardizing property interests. Such action is contrary to every policy and principle of the United Mine Workers of America."

"Neither can I justify the brutal oppressive policy now being applied by your corporation to impose upon poverty stricken men, women and children in your mining communities a lowered wage scale, which does not even consider the necessities of mere animal existence."

Our Bad Manners

Dr. Nicholas Murray Butler, the President of Columbia University, N. Y., declares that bad manners are an outstanding characteristic of the age. "It is perfectly plain," he said, "that there has been a steady decline in manners, particularly among the young, for more than a generation. This shows itself in carelessness and slovenliness, of dress in shocking speech, in disregard of the amenities and courtesies of life, and in the lack of that respect which is everywhere due to age and to distinction."

"Watch any company of men and women of whatever social class, in any crowded public place, and you will see at once the deplorable state of manners among us."

Bad manners in personal bearing, bad manners in speech, bad manners in writing, and bad manners in much official action are, unhappily, a distinguishing mark of the years in which we are living."

Gin Pills relieved her headaches and backaches

Headaches and backaches frequently indicate kidney trouble, and may be the forerunners of dangerous illness. Read how one sufferer was relieved.

"My trouble has been very bad headaches, backaches and dizzy spells. I started taking Gin Pills and only used a little more than half a box when my headaches and backaches stopped and now I feel like a new girl. I am well and have had no return of those distressing headaches and backaches."

Get Gin Pills from your druggist to-day.

Mutual Endowment is Saving Insurance & Investment combined

Could You Use \$1000 In 15 Years' Time?

Look ahead a little way and plan your life course. You know your own desires and ambitions best. Whatever they are, whatever your purpose, a Mutual, Profit-participating \$1000 Endowment Policy will help you. If you can finance more, so much the better.

And from the first day until the end of the fifteen years your life is protected, to the full amount—\$1000 or whatever sum your policy calls for. Mutual Profits help pay the premiums and your policy has a cash surrender value after the third year.

A Mutual Endowment is a means of securing your serving objective whatever it may be—a business partnership, an investment opportunity, a clear title to your house, an education for the boy—whatever your purpose. Write for the Mutual Book.

The MUTUAL LIFE OF CANADA Waterloo Ontario

W. J. PIKE, District Manager, St. John's, Newfoundland.

President of U.M.W. Talks Plainly to Wolvin

STRIKING POLICY NOT JUSTIFIED

Following correspondence between John L. Lewis, President of the Mine Workers of America and President of Besco has just been received in the Sydney Post.

It is considered in conjunction with the text of telegraphic correspondence between R. M. Wolvin, President of the British Empire Steel Corporation and John L. Lewis, National President of the United Mine Workers of America, as published in the edition of the following letters exchanged between Wolvin and Lewis, copies of which were supplied to the executive committee of the International Union of Mine Workers of America, by District President J. MacLeod, this morning.

The first letter is from Wolvin to Lewis dated February 11th, and the second is from Lewis to Wolvin in Nova Scotia, as follows:

WOLVIN TO LEWIS.

Montreal, Feb. 11, 1925.
Dear Mr. Lewis, President of the United Mine Workers of America, Indianapolis, Ind.

Mr. Lewis—I have just received from Nova Scotia and find there very critical. There is no possibility for your representatives to come to an agreement with coal producing companies, apparently is due to what they are doing in Nova Scotia. I am sure that they cannot consider a reduction in

LEWIS TO WOLVIN.

Montreal, Feb. 12, 1925.
Dear Mr. Lewis, President of the United Mine Workers of America, Indianapolis, Indiana.

Dear Mr. Lewis—I have your letter of February 11th, and have carefully noted what you have to say. The results of our operations for 1924 are a sufficient answer to the position you take on the wage structure as far as Nova Scotia is concerned. I have yet to find out where the money is available from to pay the wages in excess of the sale value of the product produced.

Ever since my connection with the Corporation your representatives have been absolutely unfair in their consideration of the necessities of our situation. I have yet to find any disposition on their part to do other than use force in the settlement of questions.

PRES. LEWIS'S REPLY.

Indianapolis, Ind., Feb. 12, 1925.
Dear Mr. Wolvin, President of the British Empire Steel Corporation, Montreal, Canada.

Mr. Wolvin—I am in receipt of your letter of the 11th inst. I do not warrant in recommending that they accept a further reduction of their present inadequate structure. Your corporation is enjoying a substantial return from the wage level which was set in 1921, and I cannot understand how you can be placidly contemplating the plunging of the dis- industrial warfare to make the further reduction which you demand. Surely you cannot insti-

A New Triumph in Record Protection

The SAFE-FILE will radically change all office filing. There has been a constant and growing need for not only a convenient, but a safe filing cabinet. The business man, with valuable letters and data to protect from fire, has been forced to choose between the office safe and a steel file. Fire history and experience have proved ordinary steel files inadequate for complete protection of records.

The SAFE-FILE is more handsome in appearance and practically no bulkier than the ordinary steel file. It gives more net filing room than many of them. But it is built as no other file has ever been built. It is SAFE-CABINET insulated throughout with the same monolithic insulation that has made the SAFE-CABINET famous and lifted it to a leading position in the safe-making industry.

You can secure SAFE-FILES in two, three and four drawer heights in both letter and legal sizes.

The price is surprisingly low, very little more than you are paying now for ordinary files.

Get further SAFE-FILE information today. Write to
