ONTARIO MANUFACTURERS.

Rem in Industry Protections League and Will Make Things Lively.

All Rumors of Dissensions in the Cabinet Declared to be Entirely Groundless.

The Government will go into the Fight as a Unit Prepared to Stand or Fall by the Voice of the People.

Reformer Drilling Starts in Growing Terms of Ontario's Prosperity—His Annual Review Falls Like a Thunderbolt into the Camps of the Opposition.

The manufacturers of Ontario will fight the Dominion election on national policy grounds owing to the retrogressive policy of the reform party on tariff matters.

They have just formed an industry protection league, to supply speakers and literature. They are enthusiastic in their views, since they feel that Sir John's defeat means the wiping out of the industrial progress of the last few years.

There seems to be but one opinion on this subject.

The conservatives are making great use of the annual review of Mr. Darling, president of the Toronto board of trade, and a prominent reformer, issued, to-day, which speaks in glowing terms of the prosperity of the province. It falls like a thunderbolt into the liberal camp, and is considered to be of great service in the campaign.

Mr. Darling's review, a quotation from the Kingston. He will accept, it is thought, his old constituency will return him as a recompense for his rejection in 1878.

The premier is expected here next week to adjust the claims of the rival candidates.

Dr. Beatty, of Beatty-Woodworth fame, persists in running in West Toronto, against the conservative party.

Unless his withdrawal from the race will be, it is confidently believed, however, that the difficulty will be bridged over.

All rumors of dissensions in the cabinet are groundless; all difficulties have been harmoniously adjusted and to the satisfaction of everybody.

The government will go into the fight as a unit, prepared to stand or fall by the voice of the people.

They have no doubt of the result of the government's return by a fair majority.

Sir John is in high spirits and the prospect looks very bright just now for the liberal-conservative party.

THE CHINESE EXPULSION.

How the Affair was Conducted—The Chinese Willing to Go—Lyndell Talked of It—They Return—Broughting the Emigrants of Chinese.

In the case of the Chinese who were removed from Victoria, the fact that citizens, a representative of The Colonist, who visited that city gained some information, a fact which every other newspaper has omitted to mention.

However, it would appear that the whole proceeding was conducted in a quiet manner, and that the Chinese were not molested in any way.

Well, it is about time. Everybody knows of the "dark" ways of our misguiding contemporary, and probably mingled with the delight of the discovery is a tinge of regret that honest journalism should be so proscribed. Now that we have shown him up in his own house, we would not hope that he will turn over a new leaf and try to be "honest."
