No town in the British Empire could have had a more successful or more creditable peace celebration than the one held in Bridgetown on Saturday.

The weather was all that could be desired. All places of business were closed and in the early morning our citizens could be seen hoisting flags, decorating their stores fronts, and private residences with flags, trimming up automobiles for the grand patriotic parade and other work while His Worship, Mayor MacKenzie, Chief of Police Sgt. Maj. Gill and members of the committee could be seen hustling around attending to everything and forgetting nothing towards making the day a big success.

In the meantime the ladies' old, middle aged and young had been busy for days and continued to be busy in the preparation for the re-

freshments which were sold on the children's supervised playgrounds during the afternoon. Then there was in evidence the girls with the tassels, the gross proceeds of the day being \$162.44 with only \$24.97 expenses, netting the sum of \$137.47.

The official commencement of the day's programme was the ringing of the church bells at 8.30.

From 10.20 to 11 a. m. a very appropriate open air thanksgiving service was held on the school grounds the speakers, orchestra and choir occupying the band stand.

Rev. E. Underwood, rector of St. James Parish, presided at this meeting, with him being the members of the local clergy. Rev. M. S. Richardson, son, however, was out of town. Rev. W. J. W. Swetnam, gave a splendid address and thanked in returned men lined up before him; for the part they had performed in the great struggle now ended.

A few minutes later an auto parade consisting of some thirty handsomely decorated cars got in line, headed by

the clergy, the Mayor, town officials and press, the remainder of the cars containing all the returned men in attendance, the schools cadets, private parties, etc.

The route of the parade was as far west as "Lawnside", the beautiful residence of Mr. Harry Ruggles, the entire parade passing through this spacious grounds and around the residence, coming up Granville street, through Queen and South streets to Carleton Corner, thence east via the south side of the river to Paradise, returning via the north side down Granville street to Church street, thence out the Church Road as far as the Municipal Buildings and back to the D. A. R. station, disbanding after arrival of the Halifax express on which was a returned man, Pte. Geo. Farrow, of the 116th Battalion, and of Collingwood, Ont., who had come to Bridgetown especially to visit Mr. James Young who had been a companion in Orpington Hospital. Pte. Farrow was immediately placed on board one of the decorated cars.

At 2 p. m. was the opening of the programme of sports on the children's supervised playground with the Bridgetown Brass Band in attendance. The base ball match between the girls and boys was won by the latter with a score of 6-8.

After supper the crowd assembled on the Athletic grounds to witness a base ball match between Middleton and Bridgetown, resulting in the defeat of the visitors. The total score will be found in our base ball column.

After a large crowd had been entertained with a very appropriate picture in the Primrose Theatre a grand display of fireworks closed the athletic grounds worked an eventful day.

Everything was quiet and orderly, no extra police being required. Much credit is due to Mayor MacKenzie, the local clergy, the owners of the autos, the town officials, Chief Police Sgt. Maj. Gill, the officers and members of the band and the ladies for the great success of the day.

Capt. A. T. Croft, formerly adjutant of the 8th, who has been the guest of his parents, Rev. W. I. Croft, since that battalion returned from overseas, left on Monday for Halifax, to again resume civil life as the manager of the Göttingen Street Branch of the Bank of Commerce.

Death of Mrs. Mehitable Dunn
Mrs. Mehitable Dunn, widow of Gilbert Dunn, of Digby, passed away on Sunday in the 93rd year of her age. Two sons and one daughter survive her, James, of Lynn, Mass., and George at home, and Eva, wife of Robert Smallie, in Worcester, Mass., United States. Two brothers and two sisters remain of the family circle to which the deceased belonged, Wesley Holdsworth, of Digby, and Mrs. Lucy Dakin, of Attleboro, Mass., and Mrs. Wendell Layton, of Portland, Maine.

Mrs. Dunn had been almost a life long member of the Digby Methodist Church, and until the infirmities of advanced age prevented, was very active in all the activities of religious life. The funeral took place on Tuesday afternoon and was conducted by Rev. Wm. I. Croft.

The tern schooner J. W. Comeau arrived at LaHave on Wednesday from Turk's Island with a cargo of salt.

At an enthusiastic meeting of our most representative citizens held in the Board of Trade Rooms last Wednesday evening, the above association was regularly organized and the following officers elected:

Three refrigerator cars, loaded with mackerel at Sydney, comprised part of the express train on Wednesday. The train was particularly heavy, resulting in the double headed all the quiring to be double headed all the way and even at that running considerably behind time. The fish were erably behind the Boston market. It was almost four o'clock before the train got away from Digby.

At the annual meeting of the Valley Steamship Co. on July 10 the same officers were re-elected and the customary dividend of ten per cent, was declared. In view of the sale of the steamer Granville to the Labrador Expedition it was resolved to either buy or build another steamer for the service as soon as possible. The annual reports showed that business continued about the same as last year.

WASHINGTON, July 16—Popular belief in the United States that the soldier is higher paid than any other country, is erroneous, according to an official table issued today by the general staff. This shows that three British dominions—Canada, Australia and New Zealand—allow materially higher prices for each grade than does the United States.

LONDON, July 16—Katarinburg, 100 miles southeast of Perm, has been captured by the Bolsheviks, according to a Russian wireless despatch received here today. The town was occupied on Monday.

THEY WERE DUMMIES

Ontario Accident Was Moving Picture Stunt

TORONTO, July 16—A despatch was sent out from Trenton, Ont., last night and appeared on the front page of a Toronto morning paper, to the effect that four unknown men had been killed there when a big touring car went over a cliff at that place. The story said that the bodies were being found at the bottom of a ravine and were being viewed by hundreds of people.

Enquiry over telephone to Trenton this morning failed to confirm the tragic part of the tale. The accident was a moving picture stunt, and the four men were dummy figures. A moving picture company has for several seasons been operating at Trenton, which is considered a particularly good locality for securing motion pictures, and yesterday's act was part of their program.

Carrier Pigeon Escaped from Dirigible

NEW YORK, July 16—Carrier pigeon N. U. R. P-16-0 believed to be the bird which escaped from the British dirigible R-34 on its returned trip from Mineola, to England, was brought into port today by Captain John Chapman, of the steamer West Kysa, from London.

Captain Chapman said the pigeon alighted, exhausted, on the deck of the West Kysa on July 11, three days after the R-34 left Mineola and readily allowed itself to be made captive.

The bird was turned over to Colonel Thwaites, of the British Post Guard after American signal corps officers said that the markings on the aluminum band about its legs were undoubtedly British.

Loss of a carrier pigeon from the R-34 was recorded by Brigadier General E. M. Maitland, representative of the British Air Ministry in the official log of the R-34's journey.

Sister Vera Margaret, of Boston, is visiting her cousin, Mrs. J. M. Owen. G. G. King went to Digby last Friday to meet his daughter from Boston.

Mrs. Agnes King left on Friday to visit relatives in Aylesford and Middleton.

Mr. and Mrs. F. C. Whitman went to Halifax to attend the funeral of Mrs. H. L. Chipman.

Mrs. Jefferson, now 86 years of age, has been visiting her nephew, Chief of Police McKay here, apparently as spry as when here two years ago, and proceeds today for Kentville.

Miss North and Miss Kathleen Buckler have gone to their homes in Canning and Dalhousie respectively. The other Academy teachers are still in town. Miss Ruby Wood expects to attend the short course at Truro this month, spending some time at home here again before going west.

Evidence was taken on Friday last at the Court House here by County Stipendiary MacKay in the charge against T. G. Nichol, of Mahone, for having failed to provide a proper fish pass at Lawrenston when he built the newer dam there. Mr. Nichol had brought with him Lawyer V. Paton of Halifax, to conduct his defence, and the Department of Marine & Fisheries had a representative from Ottawa to prosecute, as also the Postmaster from Mahone as a witness to show that Mr. Nichol received the proper notifications in regard to the fish pass. After several witnesses had been heard the parties agreed on a compromise with the understanding that Mr. Nichol make a fish pass satisfactory to the Department before 31st August.

ARLINGTON

Mrs. Rosie Stark is spending the week in Upper Granville at the home of Mrs. Roy Eisnor.

Miss May Witham, of Clarence, spent last Wednesday with her sister, Miss Hattie Witham.

Mr. and Mrs. Truman Moore, of Brooklyn, were visiting at Mr. Harry Hines' on Tuesday last.

Mr. and Mrs. Wallace Banks, of Brickton, spent Sunday with her parents, Mr. and Mrs. Wallace Marshall.

Our school closed on Friday and our teacher, Miss Crawford, returned to her home in Williamston on Saturday after a half term's successful teaching.

Recent guests at Mr. Asabel Whitman's were: Mr. and Mrs. C. MacLeod, Mrs. Foster, and Mr. Wm. McLeod, of Lawrencetown, Mr. and Mrs. Wm. Bent, Outram and Mr. K. Grant, of New Germany.

The postage rate now is two cents for an ordinary letter, and one cent for a postal card in the United States. When is Canada going to reduce the rate?

GIRLS! WHITEN SKIN WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles,

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whiteners and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Who Won The War?

(From the New York Herald)

Who won the war? The millions who lie sleeping in the soil of France; the millions who, dead or living, contributed their part to the conflict; Americans, French, British, Canadians, Italians, Belgians, Japanese, Serbs, Roumanians, Australians, patriotic Russians—all who gave their courage and strength to the cause of human liberty. History will generously give praise to the Allies and their associates. All "won the war."

There Will Be No Number There

In ten years there will be no "Number please" girls in London, according to Sir William Slingo, retiring engineer in chief of the post office, who recently arrived at Halifax from England. By that time a rotating disc on each telephone will have replaced the girls, he says. Subscribers will be able to call any number they want by rotating this little number disc. The automatic telephone is bound to come.

AGRICULTURE

Prospective Clover Seed Prices

Clover seed was bought at
wholesale in Toledo last week
for December delivery at
something over \$24.00, per
bushel. The corresponding
price a year ago was \$18.00
which finally brought 60c. re-
tail clover seed in the spring
of 1919. If the present Toledo
quotations are any guide, it
looks as if the farmer will
have to pay even a higher figure
in 1920. Clover fields through-
out the country, in almost
every part, look uncommon
good and it would, therefore,
seem wise that many more
should follow the practice that
has been adopted by a con-
siderable number in Nova
Scotia of growing their own
clover seed. It can be grown
by allowing the first crop to
mature. It is almost too late
to plan to grow it from the
second crop but in certain
years when clover has been
cut as late as July 15th, the
second crop, well taken care
of, has given a good yield of
clover seed. The Provincial
Department of Agriculture
are prepared to give assistance
to farmers. Those who have
not made any plans should
write to Truro.

The Clover Huller

The Government owned clover
huller will be at the disposal of any
community of farmers where a
reasonable amount of clover is
grown for seed. The method is to
set it up at a central and accessible
barn, and have the crop from the
neighbourhood brought in for
threshing. Any farmer having a
good clean stand of clover will do
well to save a plot for seed, either
from the first or the second growth.
If the latter is selected the first
crop should be cut right away so
as to give good time for the second
to mature. The first crop is much
better than none, but the second is
apt to yield a heavier return, and
will be free from foreign matter.
Farmers in clover growing districts
should get in touch with one
another and arrange to have a
sufficient quantity among them to
assure a visit from the huller. It
is particularly good business this
year, with clover seed 60c. per lb
and unobtainable at that in any
quantity. For further information
write the Dept. of Agriculture,
Truro. They will do everything
possible to assist you.

Bug Poisons

Paris Green has for many years
been the standard bug poison. A
much cheaper and a more effective
preparation is arsenate of lime.
It contains the same poison in a
much finer condition, requiring
less stirring and adhering longer to
the foliage. Arsenate of lime in
dry form is mixed in the proportions
of one and one-half pounds to forty
gallons of water. When buying any
arsenical poison see that its analysis
indicates forty per cent arsenic.
To save labour and conserve the
potato crop add Bordeaux Mixture
to the bug poison. It is the best
insurance against rot. The accept-
ed formula for Bordeaux Mixture is
4 lbs. bluestone, 4 lbs. unslaked lime
and 40 gals. water.

N. S. College of Agriculture

Applications are now coming in to
the Agricultural office from students
who are planning to join the class-
es when they open in the fall.
The war has impressed on all the
value of scientific education, and in
these times of high prices for farm
products advantage should be taken
of all sources of information so that
best results may be obtained. The
sons of Nova Scotia farmers should
now attend the College in larger
numbers than ever.

Don't keep cream for ripening in
stone crocks or wooden churns.
It is almost sure to give the butter
a tainted flavour, especially in hot
weather. To get best results keep
cream in tin dishes large enough
to hold a whole churning. Keep
cool and well stirred, and do not
add fresh cream to the old until
thoroughly cool. Information on
the whole subject may be secured
by writing the Dairy Division
College of Agriculture, Truro.

Swat the rooster! There is far
too much crowing going on these
summer mornings. Remove the
nuisance, for that is all he is until
next breeding season.
Berwick Camp Meeting opens Aug.
6th.

Why Grow Clover Seed?

1. Because it pays financial-
ly.
The yield of hay on an acre
saved for clover seed will not
be reduced more than from a
quarter to half a ton and in a
damp season even less than
this. The return from an acre
grown to clover seed runs from
100 to 600 lbs and this year's
price was 60c. per lb, or from
\$60.00 to \$360.00 gross return
per acre.
2. Because it pays agricult-
urally.
It is well known that clover
is one of the best soil builders,
as well as one of our best fod-
der plants. The price of seed
(and this year it was not avail-
able at any price) makes it
practically prohibitive. The
average farmer will never sow
enough clover for his own
good until he grows his own
seed. Write the N. S. Dept.
of Agriculture to-day. This is
a splendid year to begin, and
the first steps necessary are
due now.

Keep the cultivator going among
hoed crops. Apart from destroy-
ing the weeds it sets free fertility
and conserves moisture. Should
dry weather set in the man whose
hoed crops are well cultivated will
suffer very little.

CORRESPONDENCE

To the Editor of the MONITOR—
Dear Sir:—In travelling through
the County of Annapolis, we are
glad to see that the stone crusher in
Clarence is again to work and we
learn that it is the intention of
those who have the road in charge to
connect this end of the road with the
macadamized in Lower Clarence also
to gravel the Morse Road from
Bridton, making this route through
Clarence one of the prettiest drives
through the province. It is the
only permanent road feasible for
this section of the County and the
farmers are willing to supply the
rock to the crusher if the Govern-
ment will do the rest.

Popular Ships Returning.

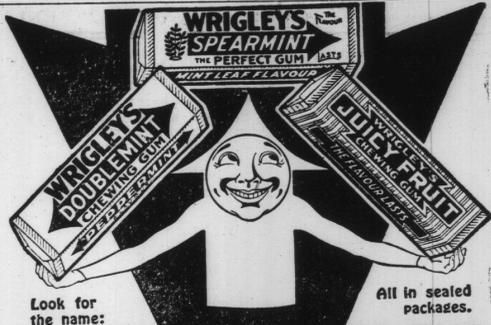

Late advices received from Eng-
land indicate that the popular
steamships Prince Arthur and
Prince George were about ready to
sail from Southampton for Boston
on July 6, for re-delivery to their
owners. The Prince George is
coming in charge of Capt. Charles
Hunter, of Tusket, who was recent-
ly master of the War Karma which
he took to England and delivered
to the British Munition Board,
and who took the Prince George
and later the Prince Arthur to Eng-
land when they were requisitioned
by the Admiralty. Both ships are
manned by English crews which
will be returned to England upon
arrival of the ships in Boston.

Million Attended Methodist Fair

Columbus, O., July 14—Approx-
imately one million people attended
the Methodist centenary exposition,
which closed here Sunday, according
to figures made public today. Work
of tearing down and salving the ex-
hibits was begun today. With the
close of the exposition the Metho-
dist Episcopal church has begun a
drive for one million new members.
The drive will be conducted all over
the country and will close June, 1920.
Church officials announced today
that several score of young men and
women, who attended the centen-
nary celebration here have pledged
themselves for missionary work in
foreign fields.

The Quickaction Chemical Fire Extinguisher

THE GREATEST "SAFETY FIRST" INVENTION
OF THE AGE

The Quickaction Chemical Fire Extinguisher is the result of years of study, and while being the product of a master inventor's mind, is so simple to operate that a child can use it. This new scientific method fights fire in a manner that water has never been able to do. Its method is altogether different and much more effective. The Quickaction, which is charged with a powerful chemical, does its work by chemical action entirely. By air pressure applied through a single stroke of the powerful force pump a strong, swift stream aimed directly at the fire goes straight to the base of the flame. Chemical action then gets in its deadly work of extinguishing the blaze by choking off the supply of oxygen from the surrounding air. Life cannot exist without oxygen; neither can fire burn.

The Powerful Chemical used is Safe, Harmless, Positive. Having secured the agency for this wonderful invention described above, I am prepared to take orders immediately. Goods delivered from two to three weeks after order is taken. The price of the Extinguisher is \$1.50. My plan is to accept 75 cents, or half of the total price, with order, and the balance on delivery of Extinguisher. In this way we both give some security. Those ordering by mail must enclose \$1.00 with order to help pay postage, etc., and remaining 50 cents on delivery.

Hoping the public will see the wisdom of having one or more of these wonderful Chemical Fire Extinguishers in their homes, shops, offices, etc., I will be expecting a fair share of your patronage. Sample shown on request.

Selling and Telling

Ames, Holden, McCready use News-
papers to reach the Millions of
Canada

The old days of barter where a man would exchange an article of wearing apparel for something to eat, or vice versa, have been replaced by the wonderful system of modern commerce, where money is the medium of exchange.

Likewise the selling methods that attended the bartering of articles have been replaced by the modern system of advertising.

In former days it was necessary for the maker and buyer to meet. Nowadays this is done through the retail stores, and the wise manufacturer is the one that realizes the power of his contact with the user of his goods, and who remembers that the burden of selling is upon the manufacturer.

Appreciating this powerful factor of modern business, the firm of Ames, Holden, McCready, Limited, who are Canada's largest shoe manufacturers, have, during the past two years, sent a direct message to millions of people in Canada through newspapers magazines, farm publications, etc. This method of advertising embraces over 230 publications.

The surprising thing to advertising men and advertisers who make use of the daily newspapers, is that there should exist some firms today who will not realize the power of newspaper advertising. It is so very logical that if you have an article to sell, you must convey this fact to the party who has the power to buy it. It is incredible that many manufacturers to-day will spend all their energies in making the article and then sit down and let it sell itself. Selling is inevitably linked up with telling.

As far as Ames, Holden, McCready advertising is concerned, it is unique in the fact that it does not attempt to stampede the reader into demanding the A. H. M. Brand. Each advertisement contains valuable pointers regarding the purchase of footwear, rules to follow and pitfalls to avoid. The public is naturally becoming convinced that the safest method is to buy shoes bearing the A. H. M. Brand which is shown in every advertisement. To-day, over 5,000 shoe dealers are featuring this brand, and seven conveniently located branch warehouses are supplying their wants.

Moreover Messrs. Ames, Holden, McCready have published, for free distribution, a most sensible and interesting booklet entitled "How to Buy Shoes." This booklet which contains much valuable information for the guidance of the shoe-purchasing public, is not in any way technical, but is a plain, common sense statement of facts. It runs to thirty-one pages, but from cover to cover there is no request to buy Ames Holden McCready shoes. That is left to the judgment of the reader.

This booklet is attractively printed and easy to read, and includes illustrations of some popular styles. It is being sent free of charge to those requesting it from the head office of the company at Montreal.

Only Tablets with "Bayer Cross"
are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all. Your druggist gladly will give you the genuine "Bayer Tablets of Aspirin" because genuine Aspirin now is made by Canadians and owned by a Canadian Company.

There is not a cent's worth of German interest in Aspirin, all rights being purchased from the U. S. Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But now you can get genuine Aspirin, plainly stamped with the safety "Bayer Cross."—Aspirin proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally. Handy tin boxes of 12 tablets—also larger "Bayer" packages.

Aspirin the trade mark (registered in Canada.) of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

It is announced that H. R. H. the Prince of Wales will be in St. John on Aug. 15th. He will be the guest of the Province.

Tired Nervous Mothers Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

PLAN TO REDUCE COST OF LIVING

French Government Takes Steps to
Curb Illicit Speculation in
Foodstuffs

PARIS, July 16.—(French wireless press)—Four definite measures intended to reduce the cost of living were decided upon today at a meeting of the Cabinet. Henri Roy, a Deputy, was appointed a commissioner to execute the ideas agreed upon.

The four plans were:
1—"Clemenceau" or Vilgram" food selling booths in Paris will be doubled in number, and others will be established in other centres of population.

2—Cheap restaurants to supply meals at fixed prices will be started in Paris and in the provinces, under the control of the Ministry of Supplies.

3—All war stocks of foodstuffs will be sold to the public, chiefly through the co-operative societies.

4—A special service already organized in the Ministry of Supplies will seek to curb illicit speculation in foodstuffs.

A Bill pending in Parliament contains provisions supplementing existing laws against speculation, and increase penalties.

NEW TRAMWAYS NOTE ISSUE

On page two will be found particulars of a most attractive investment security brought out by Messrs. F. B. McCurdy & Co., Investment Bankers.

The issue consists of Three Year Coupon Gold Notes in denominations \$500 and \$1,000, bearing interest at the rate 7% per annum. It will be noticed that both the notes and the coupons are payable in New York.

By the recent change of management Messrs. Stone & Webster, the well known operating engineers of Boston, now have charge of the Company's affairs. They are introducing extensive plans of improvement and extension for which the proceeds of this issue will be used. Their skilled supervision should assure good service to the public and satisfactory returns to investors.

The Notes have been authorized by the Nova Scotia Board of Public Utilities, and the correctness and legality certified to by eminent solicitors.

We believe that our readers will find this issue decidedly worthy of their careful consideration.

BREAKING LAND WITH TRACTOR

The management of the Horticultural Division Dept. of Agriculture, have lately been clearing land which has been plowed. It was covered with a small growth of birch, laurel and blueberries, hillycock, and generally speaking a tough looking proposition. The work was done with a tractor, pulling a Western breaking plow. The College people are most enthusiastic over results. All growth is completely turned under and splendid seed bed formed with half the labor usually required.

The Effects of Prohibition

As the "quotation for the day" July first, the Boston Herald chose these words from Holy Writ: "There is a crying for wine in the streets; all joy is darkened, the mirth of the land is gone."

The Labrador Expedition

(From the Annapolis Spectator)

The steamer Granville with the Labrador expedition on board arrived all right at Port Hastings Strait of Carso, on Friday last having put in to Shelburne harbor for seven hours during heavy weather and another port for a short time. The new aeroplanes were expected to arrive there by express yesterday and after the equipment of a wireless service on board the steamer will proceed on her voyage. Capt. Dan Owen and Dr. Graham left here Monday morning to join her and she has been also overtaken at Port Hastings by additional members of the expedition from the United States. It is expected that the Granville will be at Port Hastings again on her return about the end of August, when Captain Owen and those having the principal reports will proceed at once to the United States.

Safe, Clean Cooking

SAFE, because the oil tank is away from the heat, and because the height of flame cannot vary. Clean, because there are no wicks to smoke or need trimming.

Burners can be regulated to give degree of heat desired, and when not in operation are left completely up out of oil contact. The asbestos lining and dead air space, and glass door of "Success" oven ensure heat retention and visible baking.

The Cash Clothing Store

NOT LESS THAN 45c. Cash or 48c. in Trade FOR FRESH EGGS

Prices Subject to Increase Without Notice

Trade price applies to an order which you may obtain here payment for eggs at above mentioned price per doz. Orders may be used in trade at most of the leading stores in the following lines of business: Boots and Shoes, Dry Goods, Groceries (except flour and feed), Hardware and Men's Clothing. This list includes nine of the leading merchants.

This system does not tend to reduce the price of eggs, but instead it has and will increase the trade price and also give the farmer the privilege of choosing any line they may wish to purchase.

Any merchant who is interested in to the extent of increasing their trade price to the farmer is eligible to join this system. They will take up the matter with me at once.

Stores connected with this system will continue to take eggs in trade.

A TWENTY-FOUR-HOUR BOAT

Curtiss Plans Great Seaplane For Atlantic

Preparations for the construction of a flying boat capable of crossing the Atlantic in twenty four hours with a freight or passenger load up to two tons were announced recently by Glenn H. Curtiss.

"The N. C. boats can fly over the Atlantic," said Mr. Curtiss. "They can fly over not only once, but many times, and as a result of these flights American manufacturers look forward to developing a commercial service between the United States and Europe.

The difference between the American entry in the fight and the ships entered by European or Canadian interests lies in the fact that the (Navy Curtiss) boat has not specially constructed. With the exception of the increased power certain alterations in the construction of the hulls, the same as when designed for marine chasing. Yet they have demonstrated a big factor of safety and they can land safely in a sea.

"At the time the armistice ruptured our war activities, we completed the design for this type of flying boat which, although larger than the N. C. series, is capable of accommodating a greater useful load and carrying safely across the sea, a cargo which were held up during the reconstruction period, are now worked out."
