## FIRST PASSENGER TRAIN WHICH LEFT LAST NIGHT OVER NEW C.P.R. LINE

### C.P.R. Short Cut to West Now Ready For Business And First Train on Way

Interested Crowd Witness Inauguration of Service Which Crops Eight Hours From the Time Taken to Go to Winnipeg.

#### SUCCESS HAS CROWNED A MASSIVE UNDERTAKING

They put another shuttle last night in the gigantic loom on which is woven the web of life of the Canadian west. The first direct C.P.R. train for Winnipeg via Sudbury rolled out of the Union Station at 9.30 sharp with an exploding torpedo to signal the event.  
A goodly crowd of the public were present to speed their parting friends, and out of curiosity for the novel departure in railroad enterprise. Eight hours off the Winnipeg journey is a consideration for the traveler, and when this is combined with the comfort of a C.P.R. palace special the public are appreciative.  
The train was made up last night of engine 865 in charge of Engineer J. Mimms, one of the most experienced men in the service. Baggage car 1828, colonist car 1822, first-class coach 774, tourist car 1474, the "Louvre" dining car, the "Bant" sleeper, and the private car "Estonia." J. Troyer was the conductor in charge, and will take the train to Chapleau. C. L. Macdougall was the Pullman conductor.  
There was an average load of passengers, about equally distributed over the several cars. The dining car was brilliantly lighted and stood temptingly to the appetites of all the travelers. The cars were new or newly refitted, and the whole train presented a cheerful and attractive appearance.  
In the "Estonia" J. C. Eaton and Mrs. Eaton were entertaining a party of traveling guests, Miss S. Beattie, D. P. A. Bissell, manager of the Eaton store, in Paris, France; George Wolfe, Arthur McCrea and Richard Phillips.  
Mr. Eaton left last night to be present in Winnipeg on Wednesday when the big store there gets its first holiday, and a special train will convey the staff to Fortage in Prairie for a day of games and sports. He expects that this will become an annual affair. Mr. Eaton hopes to be in Calgary for the exhibition, and will probably go to the coast afterwards.  
The Work of Construction.  
At 12.01 this morning the construction department of the Canadian Pacific Railway handed over to the operating department 122 miles of railroad

#### COMMITTEE HAS NOT DIVIDED ON REPORT

Denial of Reported Pronouncement Against Increase in I.O.F. Rates.

W. H. Hunter, chairman of the committee dealing with the question of rates in the I. O. F., made the following statement Saturday afternoon: "The committee went into the question of the adequacy of rates prior to 1899, and unanimously came to the conclusion that such rates are inadequate, and that a remedy must be applied immediately.  
"The committee has had under consideration various remedies and will meet again on Monday morning at 10 o'clock. No vote has yet been taken on any of the remedies proposed."

#### STRIKE THREATENED.

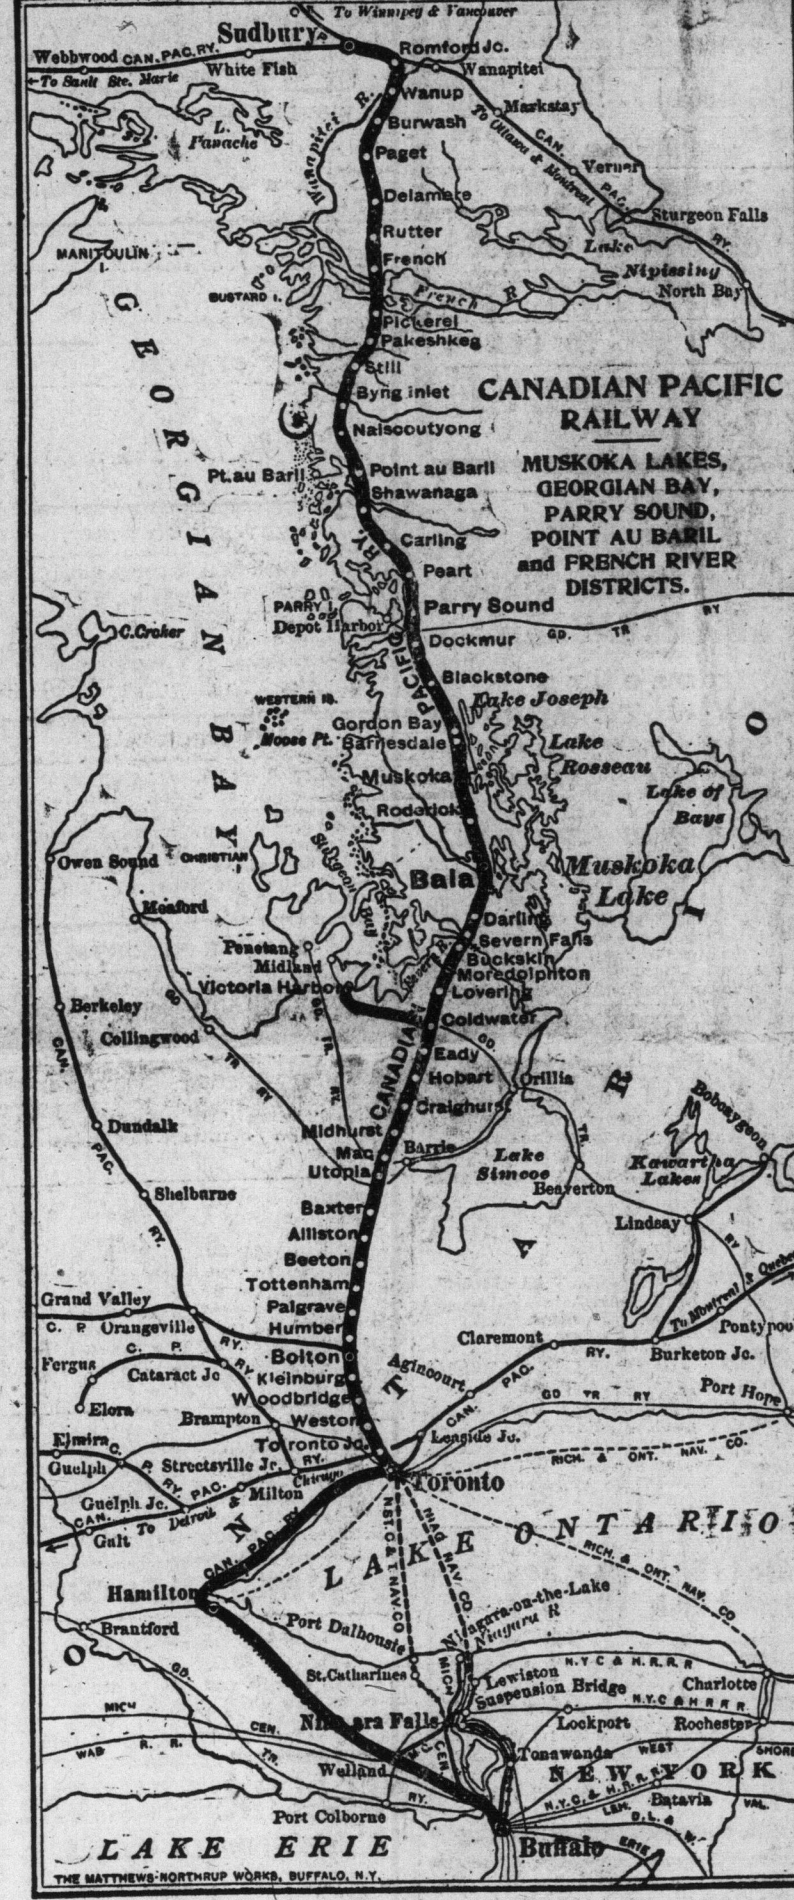

Cincinnati Street Cars Are Likely to Be Tied Up.  
CINCINNATI, June 14.—Unruly crowds, indicating the beginning of a long-threatened strike of street car conductors and motormen, last night gathered on Fountain-square, and riot calls were turned in by the police.  
It is said that officers of the Street Railway Employees' Union were informing passing street car men that a strike would be called. The police charged the crowds and made several arrests.  
One hundred men were discharged recently for being members of the union, it is said, and the organizers of the union declare that unless the men are reinstated all the union men will strike.

#### CHARGED WITH SMUGGLING.

CHATHAM, June 14.—(Special).—Twenty young society ladies have been notified to pay the full duty on dresses smuggled from Detroit, or be prosecuted.

#### INVITED TO THE WEST.

MONTREAL, June 14.—(Special).—Bousassa and Lavergne have been invited by R. L. Richardson of Winnipeg to tour the west. The latter has already accepted.

THE "SHORT CUT" TO THE WEST.—New line of the C.P.R. to Sudbury.

#### EARL OF DERBY IS DEAD ONCE GOVERNOR-GENERAL

Lord Stanley Passes Away in London in His 68th Year—In Canada 1888-93.

LONDON, June 14.—Frederick Arthur Stanley, Earl of Derby, died here suddenly last night.  
Frederick Arthur Stanley, 16th Earl of Derby, K.G., G.C.B., was born January 15, 1841. He was the second son of the 14th Earl (the Rupert of parliamentary debate), and succeeded his elder brother in 1893. Educated at Eton, he entered the army in 1862, and was returned as Conservative member for Preston in 1865. From 1868 to 1885 he represented North Lancashire and the Blackpool Division of that county from 1885 to 1888, when he was created Lord Stanley of Preston. In 1889 he was appointed Governor-General of Canada. During his parliamentary term the deceased earl was successively Lord of the Admiralty, financial secretary for war, secretary for the treasury, secretary of state for war and the colonies, and president of the board of trade. Altogether not a man of brilliant ability he was regarded as a safe and cautious administrator and filled the various important offices he held with credit. He is succeeded by his son, Lord Stanley, who was A.D.C. in Canada during 1889-91.

#### AS QUIET AS HAPPY AS BOY WITH NEW TOY

Premiership Delights Him—Pension Bill Not Well Received—King's Trip Coldly Viewed.

LONDON, June 14.—Parliament is limp after the holidays. Mr. Asquith is the only occupant of the treasury bench in good form. The premiership is a novelty, and his enjoyment of it is evident. He takes a most cheerful view of every political issue, and is convinced that there could not be a happier, more contented family than the united Liberal party.  
The pensions bill fails to excite enthusiasm in any quarter. The Labor party is preparing to riddle it with amendments, and the friendly societies are opposing it on the ground that it will discourage habits of thrift.  
Mr. Asquith continues to present the case with plausibility, contending that the pensions must be relieved from the reproach of paternalism, asserting that the state aid contributors' plan can easily be ingrafted upon it and vaguely outlining a general scheme of poor law reform. There may be sufficient constructive ability at the front of the government bench for the working of these reforms, but there is little evidence that the subject has been approached with the practical knowledge and scientific method which the German legislators have displayed. The badly-drawn bill will be carried to second reading early this week, and the committee stages pressed with all possible speed.  
Mr. Asquith's chances for settling the election controversy by compromise are improving. The conference attended at Manchester by representatives of the various religious bodies, including Roman Catholics, has agreed upon a concordat which may be substituted for the Bishop of St. Asaph's scheme. Possible definite arrangements can be made before the close of the autumn session, and certainly the facility with which this round table session has been brought about by the militant Bishop of Manchester is a hopeful sign.  
The government has neither been helped nor damaged by the spectacular greeting of the sovereigns at Reval. It has been generally accepted as the King's own diplomatic stroke, and as he is trusted at home and abroad and never errs as a peacemaker there is no criticism. Yet the coldness with which the affair has been discussed in the British press is a warning that exchanges of royal hospitality and compliments must not be followed by projects for formal alliances.  
The Reval meeting is less important as an event of world politics than is Count Morley's far-reaching schemes for Indian reforms, with an approach to native representation in councils. These are not accompanied by signs of a laxity in administration, for Viscount Morley has the courage required for drastic proposals, and a suspension of the habeas corpus and the suppression of seditious movements. He is heartily supported by veterans of the Indian administration, who consider him the strongest and ablest secretary of recent times.

#### City to Be a Great Terminal Point.

Sir Thomas Shaughnessy Will Make Appeal to Merchants To-Night.

MONTREAL, June 14.—(Special).—Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, left this evening for Toronto, and the speech which he will deliver at the banquet in his honor to-morrow evening may be looked forward to with interest. It is understood that he will refer specially to the position the city is to occupy in future as regards the Canadian Pacific.  
The Grand Trunk will be paralleled from Montreal to Toronto as soon as the money market improves, while the new projects which the company have in view touching the interests of Toronto will be dwelt upon.  
Toronto will, in fact, be referred to as a great terminal point, and the merchants of that city will be appealed to to assist the company in its future operations in the interest of the capital city of Ontario and the province as a whole.

#### ANTI-LIQUOR WAR ENDS IN BARN BURNING

Three Temperance Workers Have Been the Victims of Incendiaries Within Few Months.

DUNDAS, June 14.—(Special).—The five barns and stables of John J. Lyons, who lives on the stone road leading from Hamilton to Ancaster, Ancaster Township, were totally destroyed by fire about 2.30 this morning. All of the stock except one horse and cow was saved, but nearly everything else was lost. There are no facilities in the district for fighting fires.  
This is the third fire within the past year in this district, and as all three have been of incendiary origin there is a feeling of unrest among the farmers and talk of appealing to the attorney-general's department for an investigation.  
About two years ago an agitation in Ancaster Township was started in favor of local option, and it carried in January last. During the fight J. J. Lyons, Matthew Burton and John Lewis were among the chief officers and workers among the temperance element in the front of the township. When things got pretty hot it was freely rumored that threats had been made that these men would suffer.  
Their three properties are all on the same road within a radius of a mile, and between the city and Ancaster are the chief hotels. One night last fall during the hottest part of the local option campaign the Lewis barns went up in smoke and he lost practically everything, including his fine stock, horses, etc.  
A little later an attempt was made to burn the Burton properties, and the barking of a neighbor's dog was the only thing that saved the premises. Burton was awakened and with his sons ran to the barns to find two men applying the match to some of the main barns. One son chased the men on foot for some distance, but lost them at the city limits.  
To-day the last of the temperance workers sees his barns a smoking heap of ruins.  
Several farmers spoken to here to-day are indignant over what they term the apathy of the attorney-general's department, and there is a pretty general feeling in the district that if it is true that these properties have been fired thru spite, no effort or money should be spared to bring the criminals to justice.

#### TO ANNOUNCE SHIP BOUNTY?

Expectation That Supplementary Estimates May Gladden Builders' Hearts.

OTTAWA, June 14.—(Special).—Among Liberals it is believed that the supplementary estimates will include a vote in aid of Canadian shipbuilding. It is dated May 27, and reads as follows:  
Negotiations have been going on for some time, and are now reaching what is believed will be a satisfactory conclusion, for the granting by the federal government of a yearly bonus of 3 per cent, for twenty years upon the cost of the proposed dry-dock at the Bridgeburg yards—exclusive of the cost of the works previously erected there by this company. The continuance of these negotiations has occasioned some delay in the issue of the mortgage securities provided for at the meeting of creditors, but it is expected that the delay will not much longer continue.

#### POWER PLANT SHUT DOWN MEASUREMENTS TAKEN

Unique Incident at the Falls on Sunday—Examination of Bridge Piers.

NIAGARA FALLS, N.Y., June 14.—For fully 5 hours to-day the American Niagara piled over the cataract as free and unharmed as it did the day it was discovered.  
The power-house of the American side of the river capped their wheel-plants, and the mile and one-half tunnel that carries the bolt of water after it has turned the turbines and generators ran dry.  
The plants were closed down to allow divers to inspect the American attachment of the upper steel arch bridge at the mouth of the tunnel.  
In the last ten years a concrete wall two and one-half feet thick has been battered down, and attempts to place retaining walls and attempts to place the current. The divers to-day found the buttresses of the bridge solid and safe in every particular, with the exception that the gouting wall of one pier had been undermined. It will probably be rebuilt, altho the bridge is in no danger.  
Engineers of the United States government under the direction of Major Kutz of the Taft commission, took measurements of the river while the water was unobstructed, and the test verified from the American cataract to make it noticeable. A rise of one-tenth of an inch was noted.  
While the American plants were closed down, 175,000 horsepower was shifted to the Canadian plants. The machinery of the power plants will probably not be stopped again in the next generation.  
\$300 Fire.  
Fire at 72 Agnes-street last night caused \$325 damage. Cause unknown.

#### DROPPED DEAD IN CHURCH.

Sudden Call to Daniel McIntosh From Apoplexy Sunday Morning.

Daniel McIntosh, a retired wholesale grocer, 77 years of age, and living at 135 Beatrice-street, dropped dead of apoplexy in Chalmers' Presbyterian Church at yesterday morning's service. He had been in ill-health for the past six months, but for a week or so back his condition showed a decided improvement, and he spent Saturday evening quite cheerfully with relatives. Yesterday, before going to church, he had commented upon how well he was feeling.  
The body was examined by Dr. T. Shaw Webster and removed to the residence in one of Ellis' ambulances. Yesterday was the 30th anniversary of his coming to Toronto from Guelph, where he had conducted a prosperous grocery business.  
Mr. McIntosh was born in Scotland and is survived by nine children, all grown-up.  
The five sons are James and H. S. of Toronto; Dr. J. W. Vancouver; Daniel, U.S., and Alexander, Winnipeg. The daughters are Mrs. T. Shaw Webster, Misses Lizzie and Mary of Toronto, and Margaret, a missionary in Central China.

#### MONTREAL GETS FAVORS FREIGHT SERVICE STOPPED

White Star Line Will Cut off Five New York Steamers—Says Railways Are to Blame.

NEW YORK, June 14.—The freight service of the White Star Line of steamers from the port of New York will be discontinued on Tuesday, and the five freight steamers, Civic, Bovio, Georgia, Armenian and Victorian, will be laid off because, according to officials of the line, the railroads favor Montreal over New York in fixing freight rates.  
This statement was made to-day by Manager Jeffries of the White Star Line. Mr. Jeffries declared that the steamers will be kept in docks at Liverpool until the railroads make the same favorable rates for transports from New York as from Montreal.  
Mr. Jeffries declared that a discrimination has been shown by the rail-road companies.

#### COBURG, June 14.—(Special).—Raymond and Ada Garfield are under arrest at Brighton for the theft of \$500 worth of rare American coins.

#### FOR THEFT OF COINS.

SEATTLE, Wash., June 14.—Guy C. Stratton, a prominent lumberman, whom a jury convicted of manslaughter on the charge of having run over and killed 7-year-old Henrietta Johnson, while speeding his automobile, has been sentenced by Judge Prater, of the superior court, to an intermediate term of from 1 to 20 years in the state penitentiary, and to pay a fine of \$1000.  
This is the first conviction for manslaughter under the provision of the state automobile law.  
The defense gave notice of appeal.

#### SLAYS THREE CHILDREN AND HIMSELF.

PEABODY, Ky., June 14.—Frank Good, aged 27 years, cut the throats of his three children and his own throat with a pocket knife on his father's farm last night. All are dead. He was insanely despondent over the death of his wife.

**WOMAN:** As She Appears for the Public Eye in the News of the Day

**A Champion Athlete.**  
Miss Louise Walker of Chicago is the heroine of amateur athletics as practiced by college girls. Her performances on track and in field have set new world's records for girls. The new world's records for girls. The new world's records for girls.

A fifty-yard dash was especially noteworthy, as she made the time of 61.2 seconds in the meet at Rosemary Hall, Stamford, Conn., where she is attending school. Miss Walker further covered 22 feet and 9 inches in the hop-step-and-jump, and in the standing broad jump she did 7 feet 3 1/4 inches.

**Campaign for Pure Water.**

The campaign for pure water has made great progress the past week and those who are working for it are not only satisfied, but feel that their expectations have so far been more than realized. The action of the Canadian Manufacturers' Association, the board of trade, and other influential public bodies, in approving of the action of the city council and endorsing the by-law will have great weight. It is expected that the trades and labor council will take up the matter at an early date.

**Personal**

Prof. Gilmour of McMaster University preached the sermon to the graduating class of Monton Ladies' College at Elbow-street Baptist Church yesterday morning, taking his text from Ruth: "Whither thou goest, I will go." About 125 ladies attended, and the service was attentively followed through-  
out.

Miss Peels Puddicombe of Hayesville is spending a few weeks with Mrs. A. W. Croft, Maple-avenue.

Miss Francis of Elm-avenue sails to-day for Scotland and England to remain the summer.

**A Stash Little Box-Pleated Dress.**

910. Girl's box-pleated dress. Cut in sizes 6, 8, 10, 12 years. The 10 year size will require 3 7/8 yards of 44 inch material. No style is more becoming to the little girl than the box-pleated modest dress that is now so popular. The one illustrated is in white pique, but flannel, cashmere and the stylish plaids would all develop well after this pattern.

A pattern of this illustration will be mailed to any address on the receipt of 10 cents in silver.

Be sure and state size required.

**SUFFRAGETTES IN BIG PARADE**

Thousands of Them March to Albert Hall—Barrmaids Also Join in the Demonstration.

LONDON, July 14.—Marched in eight distinct columns on the Victoria embankment, a great army of from 12,000 to 15,000 women suffragettes paraded the metropolis Saturday afternoon, and wound up with a meeting at Albert Hall, at which such well-known women as Dr. Anna Shaw, Lady Henry Somerset, and Lady Frances Balfour, addressed the demonstrators.

Suffrage societies in Austria, Australia, Canada, France, Russia, and South Africa, and the United States sent representatives to support the British women.

The great procession was swelled in Trafalgar-square by several thousand barrmaids, who had been demonstrating against the licensing bill.

All sorts of women whose conditions in life are as wide asunder as the poles, took part in the march and united in the common cause of woman suffrage.

The most picturesque section of the procession was composed of the girl graduates in academic caps and gowns in the colors of all the universities. They carried banners on which were the names of the world's most famous women, and had a great reception everywhere.

A merry lot represented the office stenographers. They were subjected to much good-humored ridicule, but never lost step. When the crowd spotted a solitary male among the protesters, they began to sing "Put Me Among the Girls." The by-standers sang the refrain in chorus vociferously. Even the suffragettes smiled.

Mrs. Fawcett presided at Albert Hall, where there was a remarkable oration. The hall was crowded, and there was a profuse display of flowers. The first speaker, Lady Henry Somerset, provoked some hisses because she denounced the tactics of the militant suffragettes.

A resolution demanding votes for all qualified women was carried by the majority with the utmost enthusiasm.

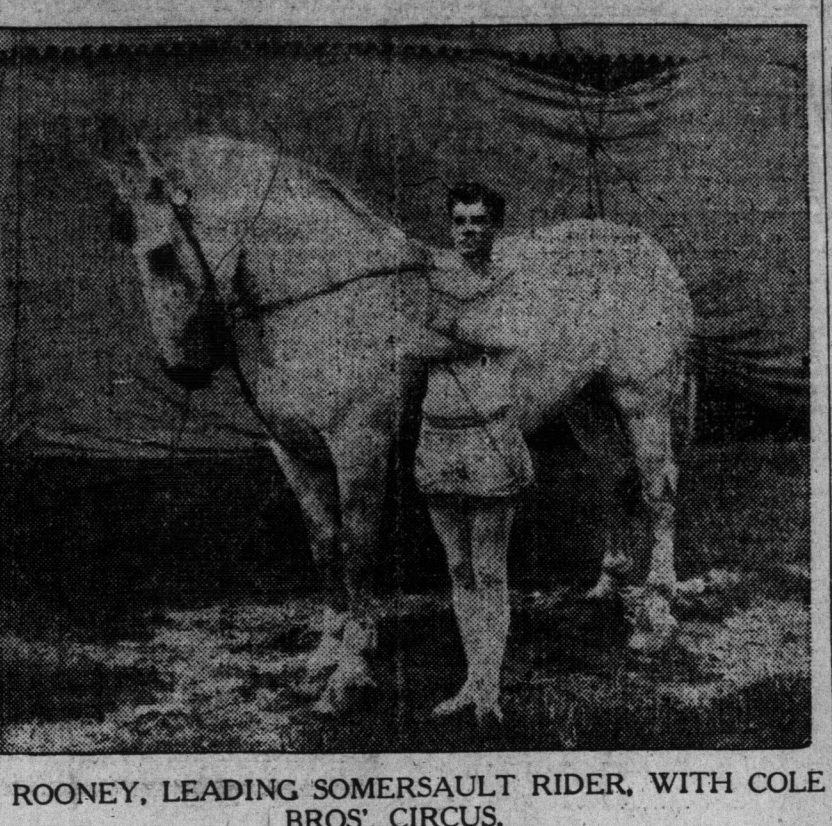

**"SAN TOY" BY REVUE.**

Imperial Opera Co. Will Revive This Tunesful Production.

To-night's revival of "San Toy" at the Royal Alexandra Theatre will begin the sixth successful week of summer opera by the Imperial Opera Company, an organization which continues to provide quite the most entertaining summer amusements which have yet been offered to Toronto theatregoers.

Since the advent of this organization here the high standard of excellence set in the first performance has never diminished, but each week has entered upon a more elaborate and better production. Since the company is now so well established and so thoroughly familiar with its work, the revival of "San Toy" gives promise of being even better than any of the preceding offerings. The opera itself is undoubtedly the most successful ever produced by the Augustin Daly Musical Company, so that its revival here to-night will be more elaborate than was the first week's production.

New costumes, scenery and electrical effects have been prepared, which, together with the now well-drilled company, must needs provide an excellent week's entertainment. The same cast of clever principals will again interpret the opera with Elgie Bowen in the title role, Clarence Harvey in the principal comedy part, and such capable players as Hallen Mostyn, Harry Girard, Rudolph Koch, W. L. Romaine, George La Solr, Edward Farle, Laura Butler, Violet Conby, Adelaide Manola, Helen Ormond and Grace Welch in their respective roles.

M. ROONEY, LEADING SOMERSAULT RIDER, WITH COLE BROS. CIRCUS.

**AT SCARBORO BEACH.**

I. O. F. Delegates Will See the Sights To-Morrow Night.

The delegates to the supreme court of the I. O. F. will be the guests of the local brethren at Scarborough Beach to-morrow night, and a banquet will be served on the broad piazza of Scarborough Inn, from which point of vantage the delegates will also view the vandeville carriages.

**CIRCUS HERE TO-DAY.**

When the Cole Brothers' world-famed shows were organized for the present season, experience and capital united in performing one of the most superb amusement enterprises ever conceived. The season of 1907 was hardly concluded before the managers and the heads of the various departments were called into consultation with the executive staff and numerous and various plans and features discussed, and many discarded and others accepted.

The performers in the open-air show will include the three Cheeres, a trio of very clever gymnasts, and the two Brazaly Sisters, who perform astonishing feats of strength, and who are known in the circus world as the female gladiators. These are only two of the headliners in the big bill provided for patrons of the Beach to-day.

**NEW BUILDING AT RIDLEY.**

Will Be Erected Across the Canal—Local Support Promised.

ST. CATHARINES, June 14.—(Special.)—The directors of Ridley College contemplate the erection of a third building on the college grounds across the old Welland Canal. The step is made necessary by the constantly increasing number of scholars coming to the city. Indications are that the necessary bonds will be subscribed by local men.

**Throat Cut From Ear to Ear.**

VANCOUVER, June 14.—A yater front murder of most brutal type occurred early Saturday morning. The victim was an Irish fisherman, Pat O'Brien. His throat was cut from ear to ear. He had been dead probably ten hours when the police were notified. The dead man's Indian wife had her throat cut and gashed, and it will be almost a miracle if she recovers. A negro is suspected of the crime. The killing followed a row in which liquor played a prominent part.

## THE MODERN CHESTERFIELD.

Nothing is more trite, vapid or futile than the advice given to young men by baccalaureate speakers. These well-meaning but conventional thinkers are the modern representatives of Chesterfield. They pother with mere moralizings on the value of noble ideals and good conduct. The theme is perennial and the presentation of it profoundly uninspiring.

## RAILROAD NATIONALIZATION IN BRITAIN.

Some time ago the English courts annulled a working agreement between two important railways that attempted in that way to divide their spheres and reduce operating expenses. The grounds of the decision were mainly technical, turning as they did on the construction of certain enabling statutes and the expiry of the time limit. Now these companies and possibly the Midland, one of the largest of British railways, will unite to prosecute a private bill in parliament, sanctioning a combine whose total capital will be upwards of \$1,750,000,000.

Movements of this kind must assist in ripening public opinion on the subject of state ownership of railroads. Contrary to the prevalent notion in America state ownership is not the exception, but the rule among civilized nations. Great Britain and the United States being the only important countries favoring private ownership and operation.

Within the British Empire itself, state ownership prevails in the Australian states, the Dominion of New Zealand, the South African states and India, and in none of them is there any agitation for the transfer of the railroads to private companies. In all the leading features are good service, low and uniform rates, absence of discrimination and as a guiding principle, first and last, the public convenience. It should be recalled, too, that these states are entirely free from the gross scandals that have disgraced railway history on this continent and do not need boards of railway commissioners to compel the controlling interests to obey the law, to treat shippers and passengers fairly and to protect shareholders and investors from improper stock and land manipulation.

The British situation is now under investigation by a committee that will among other things report on the advisability of transferring the railroads to the government. This is known to be approved by a majority of the present house of commons, and party lines on this question are non-existent. Recently an organization has been formed for the purpose of "educating the public mind on the subject of state ownership of railroads." The Railway Nationalization Society, of whose executive committee Mr. Clement Edwards, M.P., is chairman, has seven main lines of action: enquiries and investigations at home and abroad, and arranging for national and international correspondents; establishment of branches; publication of literature; holding of meetings; delivery of lectures; organization of debates and the taking advantage of every opportunity to call public attention to the transit grievances of traders, farmers and the community. In a statement issued about a month ago by the committee the following summary of the arguments in favor of state ownership in Britain is given:

White the companies have almost abolished effective competition from among themselves, dividend has still to be earned upon the competitive machinery of some 250 separate and distinct companies. Great railway authorities have estimated that a saving amounting even to 20 or 25 per cent. in work expenses might be effected under a complete system of unified management. Such a saving would represent some \$150,000,000 to \$200,000,000 on the present working expenses. Unified management under private ownership would mean a vast private railway trust. It would place the trade of the country at the mercy of a single railway board. A private monopoly being a national danger, a public monopoly is the only alternative.

## WHAT A TORPEDO CAN DO

### MONITOR SURVIVES SHOCK

U. S. Navy Makes an Official Test - Bulkheads Saved the Target Ship.

FORT MONROE, Va., June 14.—A torpedo test of the monitor Florida took place Saturday, and naval officials declared it was satisfactory. The damage done, they said, was largely localized. The vessel was seriously but not vitally injured, and if she were a battleship she would be in a condition to keep in the fight.

## KING AND CZAR.

When the Labor-Socialists and a section of the Radical members of the British house of commons united in offering a protest against the state visit of King Edward to the Czar of Russia, they allowed weight to only one out of many considerations arising out of Russian conditions. It is possible to understand and appreciate the sympathy democrats feel with a people struggling to be free, without approving either the matter or the manner of the opposition made to the meeting of two royal families closely connected by blood and marriage. The protestants sought to draw a distinction between a personal and a state visit and objected that the latter necessarily implied disapproval of the Russian system after constitutional liberty. But the distinction even if it exists does not appear of practical effect. Sir Edward Grey in reply gave powerful and convincing reasons why advantage should be taken of the recent Anglo-Russian convention to complete the understanding between the two governments regarding international questions of common interest. These include the improvement of the terrible conditions now existing in Macedonia, a reform for which British humanitarians have been ceaselessly laboring and which depends entirely on the goodwill of the Russian Government. This alone suffices to remove any doubt, regarding the propriety of the King's visit, founded on the internal troubles of Russia. Nor should it be forgotten that Russian Liberals themselves welcomed the prospect of greater cordiality in the relationship between the two nations.

## END OF FAMOUS CASE.

Pardons for Powers and Howard, Leading Figures in Kentucky Feud.

FRANKFORT, Ky., June 14.—By announcing the pardon Saturday of Caleb Powers and James Howard, Governor Wilson closed the last chapter of one of Kentucky's noted criminal cases, in which the people of all sections of the United States have formally expressed their interest by signing petitions for pardon.

The first performance of Bolezo Kiraly's dazzling spectacle, "The Carnival of Venice," will be presented this evening for the first time in Toronto at Hanlan's Point.

## RETURNS STOLEN MONEY.

Letter to Cortelyou Incozes \$8000—Makes \$40,000 From Sender.

WASHINGTON, June 14.—Secretary Cortelyou has received in an envelope postmarked Jersey City a conscience contribution of \$8000, which has been turned into the conscience fund of the treasury.

In an unsigned letter the sender says that many years ago he and another man took considerable sums of money belonging to the government and that this \$8000 makes a total of \$40,000 sent, which, he says, is the amount originally taken by himself. This sum, he says, has been returned to the treasury from time to time covering a period of several years.

## REVOLUTION IN CUBA?

CITY OF MEXICO, June 14.—The Mexican Herald says to-day: News has reached this capital from an unimpeachable source to the effect that the business interests of Cuba have subscribed to a fund for the purpose of financing a revolution as soon as the United States makes good its promise and withdraws its soldiers from that island.

## The Goods You Want--Best Quality--Money-Saving

Benjamin Franklin said: "The use of money is all the advantage there is in having money."

The more people practice economy the more money they have to use.

Economy means putting money to the best possible use; getting the largest returns for it; sending it its farthest buying distance. Economy is money-saving, and this store is the Mecca for economists all over the Dominion.

We offer you the goods you want--best quality and money-saving--that's an invincible combination. THEN read Tuesday's prices that back up the statements:

Companion Escapes—Wire Crossed One of Trolley Company's.

WINDSOR, Ont., June 14.—(Special).—J. Brown, a Bell Telephone lineman, was instantly killed and another lineman named Richard Sutherland was narrowly escaped when a line they were repairing came in contact with a heavily charged wire on the Windsor Essex and Lake Shore Electric Railway. The telephone men were pulling up the slack in one of their wires when it crossed the railway line. Brown was on the ground and received the full effect of high voltage. The body was slightly burned. Sutherland was on the top of a neighboring pole, holding a wire in his hand, and was rendered unconscious. Only his pole belt saved him from falling to probable death.

WALL STREET

Each Successive Rally Falls Short of the High Prices—Specialty Operations in Effect at Toronto.

World Office, Saturday Evening, June 13. The high figures made in the New York market before the decline of three weeks ago have not since been reached. Union Pacific and a few other issues straggled in the last rally to touch the former prices, but failed in the attempt. The movements of the past week were insignificant until Friday, when sufficient stock had been unloaded upon the market to warrant a quick dip in quotations. The fluctuations are significant of only one thing, viz., the large holders are now engaged in distributing stock. The outside purchases are much smaller than they have been for several years, and the market leaders have made the best of the situation and are only imposing a weight of offerings tempered to the reduced buying power.

Having withdrawn much of the manipulation a marked change has come over the volume of transactions. Sales on one or two days during the week being the smallest for four years. It is not improbable that the Chicago convention, which takes place at Chicago at the beginning of next week, has had some influence in dictating the policy of the market leaders. Outside speculators who follow the exchange for quick turns have been averse to giving anything for a few days, preferring to wait for the passing of the dividend at the next dividend period.

Commercial and crop conditions show no recent change. Money is reported to be in greater supply at Montreal, but at Toronto the banks are refusing to extend their call loan accounts. They are, however, furnishing a little more accommodation to brokers by allowing their accounts to be overdrawn, evidently regarding this as a better method of calling back the money at a time when it is needed. The president of the Bank of Commerce in a statement issued during the week does not promise any special relief, Mr. C. P. R. says that the bank will not credit with the opinion that the credit which will be available from the crops will serve largely in reducing the liabilities which were incurred by the country last year. The investment purchases of securities of merit offer fair returns on the present cost, and the outlook with a cheapness in money for the time being is a gradual improvement in the prices of such securities.

Wall Street Pointers. Standard Oil found guilty of rebating by the federal jury at Rochester. T. C. and I. now have seven of its blast furnaces in operation. Bradstreet's says political and crop uncertainties according to influence distant purchases for some time. Dun's Review says gains outnumber losses in reports of commercial and industrial activity.

Richmond, Va. The federal grand jury has returned indictments against the Chesapeake and Ohio Railroad for alleged violations of the interstate commerce law. Kuhn, Loeb & Co. announce that the New York allotment letters for the new Union Pacific Railroad Co. first lien and refunding mortgage four per cent. bonds will be sent out Monday afternoon, and that large subscriptions will be reduced according to their character, down to 60 per cent, while investments in the bonds will be made in proportion to the amount of the subscription.

WASHINGTON, June 13.—James J. Hill, chairman of the board of the Great Northern Railroad, conferred with President Roosevelt to-day, and afterward stated that he was going on his vacation and had taken the leave of Mr. Roosevelt. When the president's policy towards corporations was made a subject of inquiry he declared that he did not favor the impression that a dividend declaration could be conservatively managed at the present time.

IMPERIAL BANK PROSPECTS BRIGHT FOR REVIVAL IN NEW ONTARIO

The Crystal, Cleopatra and Others Opening Up Properties Scattered From Port Arthur and Rainy River to Larder.

Is there to be an early revival of mining in all sections of Northern and Western New Ontario? The World is in daily receipt of reports of new discoveries in new districts, or of the renewal of mining operations in sections that were formerly regarded as promising, but for one reason or another had apparently not made good.

It is interesting to note that the reports would come under this latter class, that it would be remembered that gross extravagance, both in the use and the business management, has been conspicuous for many apparent failures in New Ontario mining enterprises. From the early boom days in Cobalt and camp extensions have been looked for.

Larder Lake, the Montreal River and the surrounding country, and the latter in turn have been heralded as the coming rival of Cobalt. The indications there warrant attempts now being made to prove the camp's right to recognition. The Montreal River has rich silver veins, which may or may not prove mine-makers. This much is assured, viz., that the district is rich in silver and gold, and that the same can be found and are continually being found, who will recommend the expenditure of the sums of money in developing the many prospects that have been passed inspection in that district.

The World is in daily receipt of reports of new discoveries in new districts, or of the renewal of mining operations in sections that were formerly regarded as promising, but for one reason or another had apparently not made good.

Several test pits and two shafts have been sunk by the company, and already expended several thousand dollars, and has several tons of ore on the dump ready for shipment. The ore is copper, silver and gold, and will readily yield to amalgamation and treatment.

The Ontario Mining Company, Limited, however, is the largest flotation among this class of mining investments. The company has acquired the Richardson properties at Larder Lake, the Gold Hill claims in the Rainy River district, and the best claims in James Township. If any properties in Larder make good it is conceded by all who know the district, that the Richardson properties are the best lacking in the Harris-Maxwell, the Richardson, and some of the Larder Lake proprietary properties in the area.

The Richardson properties consist of 94 claims, lying directly across the bay from the Harris-Maxwell, William Richardson of Toronto was the former owner. The company has been doing steady and genuine work for over a year. It has been since his arrival. He worked in Cobalt and Nipissing Mines, in Ontario, and has been in the latter mine, and spent twelve years gold mining in the Harris-Maxwell, Deloro and Rainy River districts.

The Richardson claims at Larder are now being energetically worked. The main shaft is 200 feet and runs the entire length of the main shaft in the Rainy River section, and development work has been extensively done. The main shaft is 200 feet and runs the entire length of the main shaft in the Rainy River section, and development work has been extensively done.

J. E. CARTER, Investment Broker. CONFIDENCE OF INVESTORS STRENGTH OF THE COBALT STOCKS. Speculation is Not Sought by Those Who Have the Interests of Camp at Heart.

World Office, Saturday Evening, June 13. A gradual strengthening of confidence in the Cobalt market, more than anything else, is shown by recent operations at the local mining exchanges. Many of the recent purchases have been made by investors who, after watching the progress of the camp, have come to the conclusion that there is a big future ahead of it, and that most of the securities have a well-defined investment basis in addition to their speculative features.

The Cobalt market has advanced in a substantial way under purchases made for the purpose of holding for ultimate results rather than for a temporary profit. The very valuable area known as the Chambers-Perland property, which is adjacent to the Le Rose and the O'Brien mines, has been formed into a separate company, and will shortly be put on the market at an attractive price. Montreal investors are particularly interested in the Cobalt camp than they have hitherto. An it is believed that eastern investors will take a broader interest in the Cobalt camp than they have hitherto done. Those who take an extensive view of the Cobalt market are predicting a big boom in the various stocks later on in the year, but the large holders desire to take a more conservative view in this regard, and would prefer not to have a speculative bubble burst by a gradual improvement in prices, warranted by the improving conditions of the various properties and representative of their intrinsic merits, as shown by the actual development.

J. E. CARTER, Investment Broker. CONFIDENCE OF INVESTORS STRENGTH OF THE COBALT STOCKS. Speculation is Not Sought by Those Who Have the Interests of Camp at Heart.

World Office, Saturday Evening, June 13. A gradual strengthening of confidence in the Cobalt market, more than anything else, is shown by recent operations at the local mining exchanges. Many of the recent purchases have been made by investors who, after watching the progress of the camp, have come to the conclusion that there is a big future ahead of it, and that most of the securities have a well-defined investment basis in addition to their speculative features.

## TROOPS FOR QUEBEC OFFICIAL LIST ISSUED

Proportions of Strength to Be Sent by the Various Corps in Canada.

OTTAWA, June 14.—(Special.)—General orders have been issued for the mobilization of 12,000 troops at Quebec for the tercentenary ceremonies. The names of the corps, their strength and date of arrival at Quebec are given as follows:

Royal Military College, Kingston, 3 officers and 60 cadets, July 20.  
Permanent force, R.C. Howa Artillery, brigade headquarters, 2 companies, B Battery, attach, full strength as possible, July 15.  
R.C. Dragons, regiment headquarters and B squadrons, full strength as possible, July 8.  
R.C. Garrison Artillery, quartered at Quebec, one composite company from Halifax, July 8.  
R.C. Engineers, quartered at Quebec, Royal Canadian Regiment, 2 companies from Halifax, 200 and band; G. H. I and K Companies, full strength.  
Army Service Corps, 75, July 6; Army Medical Corps, 50, July 6.  
Ordnance Corps, 50, July 6; C.A.P.C., 16, July 16.  
**City Corps.**  
Garrison Artillery, 1st, 2nd, 3rd, 4th and 7th regiments, 53, July 20; 6th regiment, 250, July 24; Cobourg company, 37, July 20.  
Infantry, July 20: G.G.B.G., 350, 2nd, 400; 3rd, 350; 5th, 400; 7th, 200; 8th, 8th, 10th and 12th, 250 each; 14th, 21st, 300; 42d, 48th, 350; 52d, 200; 62d, 300; 91st, 350 each.  
One company each (43) of following: 1st, 15th, 19th, 23d, 24th, 26th, 28th, 41st, 53d, 57th, 58th, 64th, 66th, 68th, 71st, 73rd, 75th, 77th, 78th, 80th, 82d, 84th, 85th, 87th, 89th, 93rd, 94th and 97th regiments, arriving July 18.  
C.A.S.C., Nos. 8 and 10 companies, 75 of all ranks, 35 horses and 10 wagons each, July 18.  
A.M.C., 2 and 5 field ambulances, 70 all ranks, 8 horses and 3 wagons, July 18.  
The organization of composite battalions of rural corps will develop upon the officers commanding corps; that of brigades and divisions will be arranged under instructions from militia headquarters.  
Troops from the Northwest will be selected from units in military districts, 10, 11 and 13. A special contingent will be composed of 175 of all ranks and 70 horses.

**Rural Corps.**  
Cavalry, 6th, 7th, 11th, 13th, and 17th regiments will train at Quebec for 12 days.  
Field artillery, four batteries from Quebec command.  
Engineers, 75 all ranks and 20 horses, 40th Field Battery, July 18.

Infantry, one company each (43) with staff, band and four stretcher bearers for each of the composite battalions into which these companies will be grouped: 1, 12, 13, 14, 20, 22, 24, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 39, 40, 42, 44, 45, 46, 47, 49, 50, 52, 53, 54, 55, 56, 58, 59, 61, 64, 67, 68, 69, 71, 73, 74, 75, 77, 78, 80, 82, 84, 85, 87, 89, 93, 94 and 97 regiments, arriving July 18.  
C.A.S.C., Nos. 8 and 10 companies, 75 of all ranks, 35 horses and 10 wagons each, July 18.  
A.M.C., 2 and 5 field ambulances, 70 all ranks, 8 horses and 3 wagons, July 18.

The organization of composite battalions of rural corps will develop upon the officers commanding corps; that of brigades and divisions will be arranged under instructions from militia headquarters.  
Troops from the Northwest will be selected from units in military districts, 10, 11 and 13. A special contingent will be composed of 175 of all ranks and 70 horses.

**No Additional Pay.**  
As all corps will be paid as usual for training at an escort, and in camps, there will be no additional pay issued to troops taking part, but owing to concentration taking place during harvest time, the allowance for horses will be increased to \$2 a day.

The transport will be provided and arranged from militia headquarters, but in case of city corps, an allowance at government rates will be made to such as desire to arrange their own.

Rations will be provided in Quebec, with allowance of 25 cents per man and 35 cents per horse en route.

All troops will be quartered under canvas. Quartermasters with advance parties will proceed to Quebec two days in advance of the main body.

The dress of all ranks of each unit must be of uniform pattern, clean and well fitting. The service dress must not be worn on any ceremonial parade or duty outside camp. Officers must be provided with awards and tunics on ceremonial parades, and guard of honor duties; otherwise serge tunics will be worn. Tunics must be worn at all levees. The helmet or full headdress must be worn on all parades unless otherwise ordered.

**There a Week.**  
Cadets of Royal Military College and units of active militia (other than permanent force) will be required to remain at Quebec for parades varying from five to eight days.

**BACK TO BUSINESS.**  
Commons Will Let Up on Fighting and Do Something.

OTTAWA, June 14.—(Special.)—The house of commons will get down to business to-morrow, after a struggle over estimates, which ended Friday night, when one-eighth of all expenditures was granted.

There will be another conference in the morning over the Aylesworth bill, when it is expected Sir Wilfrid Laurier will give Mr. Borden definite assurances that the bill will be amended in a way to satisfy the opposition. A dozen bills are to be taken up to-morrow, including Mr. Turill's bill to amend the Railway Act by limiting the time for construction.

W. F. Maclean's reciprocal demurrage bill, Claude Macdonnell's bill to amend the Copyright Act, and Mr. Macdonnell's bill to amend the Dominion Elections Act.

A special train of five Grand Trunk Pacific cars conveyed about 200 members of the house of commons and senate and families to Ste. Anne de Bellevue, near Montreal, where the day was spent in inspection of college and farm founded by Sir William Macdonald, at a cost of over \$2,000,000 and endowed by the same benefactor to the extent of \$2,000,000 more.

**Fast Trains to Muskoka.**  
C.P.R. summer service is now in effect, 9:40 a.m., daily, except Sunday, to Bala, is the popular morning train. The 9:30 p.m. Winnipeg express will commence June 26th, carry a sleeper for Bala, and commencing June 27th there will be a midday express for Bala, leaving at 12:05. Steamers meet trains at Bala and convey passengers to all points on the Muskoka Lakes, Pittsburg people, a large number of whom summer in Muskoka every year, recognize the C.P.R. as the ideal line to the lakes, and for the length of a special Pittsburg-Bala sleeper will be run after June 26th, but needless to say, the convenience to Toronto passengers has been especially studied in arranging all the train times.

## The June Housefurnishing Club an Unprecedented Success

If you want housefurnishings investigate our Housefurnishing Club. It is as clear as daylight. And it is just about as welcome to people who are tired and sick of waiting until times are more convenient.

Members of this Club may have house furnishings delivered AT ONCE and arrange payments spread over the balance of the year. It means you can have a new carpet NOW instead of waiting until fall. You can furnish your spare bedroom BEFORE the summer holidays instead of after. You can buy your summer cottage or verandah furniture and matings without worrying about the big extra added at one jump to current expenses.

Now do not think all this means a temptation to buy things you can't afford or don't really need. We are talking to responsible people. The Club plan is a convenience for the securing of goods you really need and would buy anyhow before the
