Bishop Thornloe Has Majority of 40 Clerics While Canon Cody Has a Lead of 16 in the Representative Laymen's Vote.

### BOTH SIDES LINE UP FOR BITTER STRUGGLE

Yesterday's proceedings in the synod resulted in a disclosure of the strength of the sentiment enlisted respectively in Canadian ideals in the church as against the less acclimatized standards of English culture. As was natural. the clerical vote leaned towards culture, not that there is not as broad and generous culture in Ontario as elsewhere, but on account of the tradition of the past thirty years which means so much in the pulpit, and which, ac-cording to the vote recorded, means so little to the pew. Every cleric who voted yesterday represented himself. The vote was 109 to 60 against the native born. Every lay vote represented from 100 to 1000 persons. The vote was 65 to 49 in favor of the native born. The pulpit then is not in touch with

The second ballot was announced as ineffective at 10.15 and the synod was adjourned by the chairman, Venerable Archdeacon Sweeney, until 10 o'clock this morning, when it will reassemble "for morning prayers." At 10.30 a third ballot will be taken.

All hope of a harmonious election was abandoned when the second ballot proved a most identical with the first. Those who received votes were Bishop Thornloe, Canon Cody. Archdeacon Sweeny, Bishop Reeve, Canon Sprague of Cobourg, Canon Tucker and Rev. T. W. Powell of Eglinton.

Altho not figuring in yesterday's balloting, the name of Bishop Richardson of Fredericton may be advanced in the hope of breaking the deadlock.

May Name Canon Welch.

A rumor spread that the Trinity men have a double plan of campaign. The first was to make a determined attempt to carry the synod on an early ballot for Bishop Thornloe; falling that they will press the name of Canon Welch of St. James' Cathedral upon the synod, and to depend on his great popularity to enable them to elect a bishop of their selection.

On the other hand the laity began to manifest a spirit of militant determination. "We will fight the issue to manifest a month if necessary," sa'd one of them. "It is not a question of men, but of the domination of Trinity. The attitude of Provost Macklem is that Trinity has the right to say for Centinued on Page 7.

# WHO SHOULD PAY WARRANTS ISSUE World's Fight for 2 Cent Fare Sustained by the Privy Council

# The Decision How It Was Gained and What

The decision of the privy council, declaring that the G.T.R. must maintain a service between Toronto and Montreal at a fare of 2 cents a mile, comes after a struggle of two years' duration.

The case has been carried from the Toronto Police Court to the courts of the province, to the railway commission, to the supreme court at Ottawa, to the privy council of the empire (the foot of the throne as the law books say), by The World and W. F. Maclean, M.P., at their own expense, tho since the supreme court decision counsel engaged by them have got their costs from the Grand Trunk.

When Mr. Maclean raised the case in parliament he got very little support, even from the members who lived along the Grand Trunk, and Sir Wilfrid told him, when he asked the attorney-general of the Dominion to intervene on behalf of the public, to "go to Mr.

For two sessions the Grand Trunk tried to get a bill thru the house to repeal the clause, but owing to the vigilance of three or four members they never could get the measure advanced the necessary

The result now is that the Grand Trunk Railway is compelled to obey the order of the railway commission, made in May, 1907, and. in obeying this order, they must necessarily run a carriage each way each day between Montreal and Toronto to which travelers shall be entitled to admission and to carriage at the rate of 2 cents per mile. The application, as made to the Board of Railway Commissioners, was confined to the line between Montreal and Toronto, but the statute says that it is also to extend to all the branches. The reason why the application was confined to the line between Montreal and Toronto was because it was the portion of the Grand Trunk system which was specially constructed under the provisions of the statute requiring a third-class carriage and the two-cent-a-mile fare, the applicant always, however, reserving to himself the right upon a further application, to allege that such right to be carried in a third-class carriage at 2 cents a mile extended to the whole Grand Trunk system within the Dominion of Canada; and in case the Grand Trunk Railway does not see fit to extend such carriage at such rate over its system, it is still within the rights of the applicant to apply again to the railway commission for another and further order.

Hon. Chas, Murphy, secretary of state, is sponsor for a bill, which is to be introduced this session to create a "department of external affairs."

This, it is understood, will be the equivalent of a department of foreign affairs, and is but an extension of the policy which was inappurated when William Mackenzie wis created secretary for imperial and colonial correspondence.

He replied he would think it would become effective as soon as the text of the judgment had been received. This order was stayed, it would be remembered, to enable the Grand Trunk to take an appeal to the privy council. The Grand Trunk added Mr. Granam, had made no request for relief from legislation.

Grand Trunk Railway Is Compelled to Obey Provision of Its Charter to Maintain a 31d Class Service at Two Cents a Mile Between Toronto and Montreal.

### "World" Carried Case From Police Court to Highest Tribunual

(Canadian Associated Press Cable.)
LONDON, Feb. 17.—The judgment of
the privy council in the case brought
by W. N. Robertson of Toronto in connection with W. F. Maclean's campaign to have it declared that the Grand Trunk's charter requires it to give a two-cent rate on third-class cars be-tween Toronto and Montreal, was given to-day by Lord Loreburn. Sir Robert Finlay and D. L. Carthy appeared for the G.T.R., and Hamar Greenwood, M.P., and Horace Douglas for Mr. Robertson.

Lord Loreburn said the section imposing third class fares at two cents a mile was still in force.

The whole question was whether the section was inconsistent with the Rail-

way Act of 1906.

He held that it was not, and also that the privy council could not decide whether the section was left on the statutes by desire or because over-

### On Verge of General Reduction.

Mr. Maclean said vesterday afternoon that he had not yet seen the decision, but that he took it to mean that it confirmed the judgment of the Dominion Railway Commission and also of the supreme court of Canada, namely, that the Grand Trunk was bound by its original charter to give a penny-a third-class passenger rate on one train a day each way between Toronto and Montreal. He contended, however, that this decision would have a far-reaching effect. For instance, that not Text Arrives only did the Grand Trunk charter contain this provision, but the other railroads chartered at that time from Montreal to Trois Pistoles, below Quebec, also contained it, and therefore a penny a mile must be the rate between Togonto and Trois Pistoles for at least one train each way for a third-class

to give a penny-a-mile service. Moreover, he contended that the decision might be construed to extend much further; namely, that inasmuch as the bearing of the new Railway Act of this country, and the preceding act for that matter, was in the direction of an equality of treatment as between sections of country as well as between persons, it would also follow that if the Grand Trunk had to give this rate on one portion of its system, it would have to give it over the whole of it. In other words, if it had to give it from Montreal to Toronto, it would have to give it from Toronto to Sarnia. Then it would also follow that all competing Haldane's Proposals Meet Government's brings out another aspirant for the other words, Canada was on the verge of two cents a mile! long delayed. The latter has however, had his chances seriously affected by the circulation of a petition among the customs house and business man for it is not the very same law of two cents a mile!

Mr. Maclean said further that a great deal remained now with the every occasion that he prevery cancer that here. The railway commission when it gave its judgment told the Grand Trunk that it would not only have to give a penny-a-mile service, but that they (the commission) would be the judge as to what this meant, and they would make it mean a comfortable modern service.

OTTAWA, Feb. 17.—The Ratiway commission has decided not to grant an application made some time ago on behalf of the Wallaceburg Sugar Comany for an averaging of demurrage n freight cars.

The time allowed for the unloading f a car without payment of demurr-ge is forty-eight hours after arrival. The application asked that where a car was unloaded in less than fortyeight hours, the time margin should be recorded to the credit of the firm as an offset against excess time taken inloading other cars. Yesterday the judicial committee of

a plain statute is condoned by responsible authorities.

Again, vindication of a public legal right ought not to be left to a private ridizen. There is far too much truck-ing the order of the railing to big public service corporations by those who are understood to repressive to be given between roronto and Montreal and all intermediate points. Lord Chancellor Lorement and the members of the committee who sat with him, it is evident from the cabled summary of the proceedings, had no difficulty in holding that the section of the company's charter imposing third-class fares at two cents a mile was still in force and that it was not inconsistent with the Railway Act of 1966. That being so they could not tenterate the appeal of the state, that is of the clitwas not inconsistent with the Railway Act of 1966. That being so they could not centered at the appeal of the state, that is of the clitwas not inconsistent with the Railway Act of 1966. That being so they could not centered the points. Lord Chancello and the title in the Dominion parliament. This is contention that the section in question contention that the section in question had been inadvertently allowed to repair on the statute book. For an arrow of this kind to be used at all public rights is a square deal. The sument of this kind to be used at all sufficiently disclosed the inherent weakness of the railway company's case. And right here The World desires to pay tribute to the splendid service the litigation by Mr. J. W. Curry, K. C., who has, not for the first time, showed his thoro sympathy with the

prolonged campaign for the establishment of a public right carried on by Mr. W. F. Maclean, M.P. for South York, toth personally in parliament and thru the columns of The World, cial statement appearing in another notable reforms along the line of the regulation of public service corporations which stand to his credit. Toronto is glad, therefore, and hails with pleasure the automobile show which opens here to-night. Of greater significance than any other is the fact that a substantial reduction is being made in the price of ordinary vehicles for o'dinary people. The luxurious car is still a luxury, but the everyday car is tumbling down in price. It will not be long, The World trusts, when, if we must buy foreign built cars, we will be able to get them in Canada at foreign prices, and if that is impossible, then the only thing to do is to produce a car ourselves as good as any foreign built car. No one likes the idea of having to pay more for a United States or English car than the prices usually charged, and those who are doing the buying had better try and find the solution of the problem.

Chew v. Caswell—J. Bicknell, K.C., and A. Bicknell, for plaintiff. E. F. B. Johnston, K.C., for Traders Bank, G. Grant, for Caswell. Judgment (L.). Caswell & Oc., lumbermen, were customers of the raders' Bank. They took out a timber icense in the name of the bank, the bank advancing them the money to carry on their timbering operations. The lumberrather inferior small logs and with the knowledge of the bank, the plaintiff pro ceeded under contract with Caswell & Co., to saw these logs into lumber. The bank did not, till afterwards, know the exact terms of the contract of sawing, but knew that the sawing was being done by the plaintiff. The sawing was not paid for, and the lumber lay in the yard of the

plaintiff: until July 1, 1908, when it was burned. Insurance policies had been taken out upon this lumber by Caswell & Co., and as the bank was still largely the creditor of the lumbermen the loss was made payable to the bank. The plaintiff claimed out of the insurance money an ANNOUNCEMENTS.

erison, a reporter for The World, to obtain the necessary information and evidence to prove that the Grand Trunk was not conforming to the statute.

The information and evidence was obtained and got into shape and was submitted to J. W. Curry, K.C., for his opinion and advice. The opinion of Mr. Curry, as given at that time, was that there were three ways open to the complainant to obtain relief, one, by way of an information against the general manager, citing him before the police magistrate for the City of Toronto for neglecting to conform to the ertson, a reporter for The World, to Toronto for neglecting to conform to the requirements of the statute; second, by way of application for a mandatory order, and, third, by way of an appli-

cation to the railway commission.

It was deemed advisable to attempt to obtain redress by way of an information to the police magistrate for the City of Toronto, because of the expense necessarily entailed by of the other two methods. An information was laid and a conviction ob tained, but upon an appeal to the court of appeal upon a case stated by the magistrate, the court of appeal

quashed the conviction. An attempt was then made to obtain a mandatory order and this appli-cation was refused upon the ground there was another remedy open and that a mandatory order could not be granted in view of the other remedy which was open by way of an application to the railway commission. Before the Railway Board.

The complainant having, therefore failed in his attempt to obtain redress way of a criminal information and by way of an application for a mandatory order, in April, 1907, determined to make an application to the board of railway commissioners. The necessary papers were prepared and served the proper parties. The board of ay commissioners met in Toron-1 May 9, 1907, and on the 11th of railway commissioners met in Toron-to on May 9, 1907, and on the 11th of May the application was reached and the hearing of same extended over un-til the 18th of commissioners met in Toron-might have been otherwise. In his way Mr. Robertson has prov-ed "a village Hampden," and is en-titled to the thanks of all his fellowtil the 12th, occupying both days. Judgment was received and was delivered by the chief commissioner, the late Justice Killam. The effect of the judgment as delivered by Justice Killam was a complete vindication of the advice given to Mr. Maclean by Mr. Curry, but the commissioner permitted an appeal to the supreme court procession of a second sit to him. Said Mr. Robertson vesterday: "The decision of the privy council is exactly what I expected, and I am confident that the Canadian public, exclusive of those who are directly or indirectly interested in railway stock, will unanimously endorse it. The Canadian public procession of a second sit to him. Mr. Curry, but the commissioner per-nitted an appeal to the supreme court and delayed the coming into effect of daily train at two cents a mile, and it the order of the board of railway is but common justice that the G. There is still a difference as to the way of worship, but under the wise leadership of the late bishop, people have learned to see the good in others, and, we hope, have agreed to differ. His will be no bed of roses.

Thirty years ago the voluntary contributions to all church purposes was sized. Feb. 17.—(Special.)—The legislature, and some 150 employes on the new parliament buildings, had a narrow escape from an unintended gunpowder plot. It appears that sometime since, in cleaning up the old Hudson Bay building, ten kegs of black gunpowder were discovered in a recess where they were probably cached for defence against passibly hostile Indians. The powder was \$163,100. The total value of all the purposes was about to throw the keg into the furnace as to the way of worship, but under the wise leadership of the late bishop, people have learned to see the contributions had increased from \$5533.

FIRST THINGS FIRST.

Nothing Like Being in Time "There is something in that old say-

ing about the early bird, after all," remarked O. Hezzelwood of the Mc-Laughlin Buick Automobile Co., at the St. Lawrence Arena yesterday afternoon. "Our cars were the first to arrive, and while we were getting them in place, a shrewd business man came remarkable 1909 sensation, 40 horse power, and everything in proportion, at \$2156—that a sale was effected almost instanter. That is "going some," and we expect to be like the man in a cyclone for the next week and longer. People want the best, and best must will certainly be a pleasing sensation to visitors at the show.

### 50,000 Free Bottles of Hair Remover

A Positive Remedy That Takes Away Superfluous Hairy Growths With-out Burning The Skin. No woman with a mustache or, indeed, with any superfluous half, disfiguring either her face, arms or bust, need suffer such mortification any longer. To relieve all such unhappiness 50,000 bottles of the wonderful remedy Electro-la will be given away absolutely free to women constantly miserable because of such unnatural unsightly growths.

No Need Now For Hair On The Face. Cure With Elec-tro-la is a Cure That Lasts.

No matter how heavy or light the growth, it can be destroyed in a few minutes with Electro-la. With perfect safety, it can be used on the face, neck, arms, bust, or any portion of the body. There is no other remedy like it. he said. "The country will be a closed book for five or six weeks after the book for five or six weeks after the winter roads become impassable, and all freight that is going in should be shipped before the end of March."

W. J. Cowan of the Gowganda Transport Company was in the city yesterday buying horses on the Toronto market for service on the C. N. R. sleigh road. The company is determined to move promptly every pound of freight that is offered, no matter how great that amount may be.

that amount may be.
Yesterday the representative of a mining machinery firm wired from Sellmining machinery firm wired from Sell-wood that he had been over the road and found it suitable for traffic of this character up to four and a half tons. He advises his firm to accept contracts for boilers and compressors up to this weight. The wire stated that it would be necessary to put a snow scraper on the lakes, so that the runne s could go down to herd ice. Plants have been go down to hard ice. Plants have been ordered by three mines at Gowganda, and each order, it is understood, includes two eighty horse power boilers. ## DISTANCES WERE LONG IN THE NORTH COUNTRY edet

Discoverer of Bartlett Mines Illustrates Well-Known Fact by an Appropriate Story.

F. A. MacIntosh, one of the discov-rers of the splendid silver veins on the Bartlett, is a western miner, and the Bartlett, is a western miner, and long before he went to silverland he had prospected in the gold fields of Southern British Columbia. When he finally went into the silver camps of the north one of the things that appalled him was the tremendous distances that a prospector seemed to have to travel from place to place.

The word "mile" seemed to have lost its old significance. When he met a prospector on the trail, and was told that it was ten miles to this lake or that, he usually took it for granted that it was nearly twice that actual distance.

When MacIntosh and Sam McLaughlin were heading for Gowganda to make the discoveries which have made the Bartlett Mines the talk of the north country, they were frequently discouraged by the unreliable information they received as to distances. In this connection Mr. MacIntosh delights to tell the story of the Irish captain, who was commanding a company of soldiers marching to Samoy of soldiers marching to Samoy.

GOWGANDA Feb. 17.—(From the Man on the Trail.)—With \$75,000 in the treasury with which to commence and get under way, actual mining operations, the prospects of the "Silvers Limited" Company appear exceedingly bright in the Gowganda silver fields.
This company have 174 acres located in the heart of the district, which is, so to speak, in and about the O'Kelley claims, the Mann, the Morgan Milne, the Bloom Mines, Boyd-Gordon, Pinder

One fraction, called the Armstrong is especially worthy of notice, possessing as it does one-half of its area, covered with diabase formation containin a liberal supply of silver. . One of the first moves of Enginee Bates will be to sink a shaft on this property. The story of this Armstrong north country.

Ten men invested \$20 each and "grub staked" Bob Armstrong. He found the country staked for miles around, but stumbled across a fraction, which is now recorded as 1991. Right down its centre is a silver vein, from which one nugget was taken weighing 30 lbs. This claim sold for \$100,000, and \$10,-000 was returned for each \$20 of the original investment.

On one of the claims that go to compose the whole 174 acres there are five veins that carry exceptional val-ues, which will be worked just as soon as a force of men can be housed.

NEW MOVEMENTS WILL BE INAUGURATED.

World Office, Wednesday Evening, Feb. 17.

Bullish operations were brought into greater prominence to-day on the Toronto stock market, the dealings being somewhat more extended, tho still concentrated to a few of the speculative issues. The rumor that a settlement would be made between the Dominion Coal and the Dôminion Steel companies accounted for a further manipulation in the two stocks interested, Dominion Coal advancing ten points and Dominion Steel nearly five points above yesterday's prices. There was an attempt to incite more speculation in Mackays to-day, and the usual working of the New York market came into effect. There are no present signs of the speculative side of the market having been exhausted, and new movements will be brought about in stocks which have not yet felt the full influence of the change in HERBERT H. BALL. market sentiment.

GREAT DAMAGE BY STORM

SANDUSKY, Ohio, Feb. 17 .- The city has been beyond the reach of the out side world by wire since 6 o'clock Sunday night, when the last telegraph line between here and Cleveland went down as a result of the heavy sleet storm.

The systems of both telephone com panies, local and long distance, are out of commission. There is no light at night except from lamps, candles or gas jets. The gas supply is low. Miles of wire are lying in the streets

and alleys thruout the city and hundreds of poles are lying on the ground. Dom. Textile bonds, series A-\$2000 If communication is re-established within a week, those who have full Dom. # 5000 LOST THEIR LIVES

Great Shock of Jan. 13 Crumbled 60 Villages in Remote Mountainous Districts.

TEHERAN, Persia, Feb. 17.-News was received here to-day showing that the violent earthquake recorded on Jan. 13 on almost every scientific observa-tory in the world, where seismographs are installed, had its location in the Prevince of Luristan, Western Persia. Sixty villages in that district were wholly or partially destroyed, and the resultant loss of life is placed at be-tween 5000 and 6000 people. Several villages are reported to have

been completely engulfed. The losses would have been very much greater were it not for the fact that this district is sparsely populated. The destitute survivors are flocking into the Town of Burujurd, whence ap-

peals for assistance are now reaching he government. The peasantry lost practically all their herds and it is estimated that from 10,000 to 12,000 head of cattle per-

The Province of Luristan is very mountainous and sparsely settled. It is about 300 miles southwest of Teheran and the only communication with the Persian capital is by courier. The inhabitants are chiefly Bakhtyaris, an offshoot of the Iranian people.

Fifty-Eight Shocks.

LONDON, Feb. 17.—A despatch to The Times from Sefia says that during the last 48 hours there were 59 earthshocks in Southern Bulgaria. Considerable damage is already reported in the Yamboli, in Eastern Rumelia and neighborhood. Severa uses have fallen and the inhabitants of a number of villages have spent the last two nights in the open air.

Houses Collapsed. SMYRNA, Feb. 17.—A strong earth-quake was registered here at 5 o'clock this morning, but there was no loca damage. Reports from Phocea and Monemen, small towns lying between 25 and 30 miles north of Smyrna, say that a dozen houses collapsed. There was an earthquake at Symrna, Phocea and Menomen on Jan. 19 last

which resulted in the destruction of about 600 houses at Phocea, and the loss of eight lives. At Porto Rico. SAN JUAN, Porto Rico, Feb. 17.— Heavy earthquakes were felt thrubut the Island of Porto Rico at 3 o'clock this morning. The inhabitants were awakened by the oscillations and their alarm was great

PANAMA CANAL PROGRESS

WASHINGTON, Feb. 17.-Any attack made hereafter on the locktype of the Panama Canal, according to the opin-ion expressed by President Roosevelt in a message transmitting to congress to-day the report made by the engineers who recently visited the canal zone with President-elect Taft, "is in zone with President elect Taft, "is in reality merely an attack upon the policy of building any canal at all."

Their estimate of the complete cost of the canal is \$60,000,000 and they see no reason why the canal should not be completed by Jan. 1, 1915; in fact, a somewhat earlier date is probable, if all green well.

J. R. Heintz & Co. (R. B. Holden) furnish the following Broomhall foreign weekly crop summary: United Kingdom—The crop outlook continues favorable; supplies of native wheat are smaller. France and Spain—The outlook for the crop continues favorable; supplies of native wheat are liberal. Germany—There has been severe freezing weather during the sarity part of the week, but a thaw has now set in, and some apprehension of damage is felt. Supplies of native wheat are searce, and miliers say they must use 70 per cent. of foreign wheat to supply their needs, and have asked the government to make a new export flour standard. Italy and Roumania—The outlook for the crop on the whole is favorable. Raissia—There is severe reezing weather, but the crops are projected by a good snow covering; opinions as to the damage done by the early frost are conflicting; strivals of corn are increasing. Roumania—it is predicted that this country will be in a position to supply the bulk of corn exports during the spring. The visible supply of wheat in Europe this week amounts to 70,706,000 bushels, against 66,124,600 bushels are increase of 5,800,000 bushels, last week, thus showing an increase of 5,800,000 bushels, last week there was an increase of 6,800,000 bushels.

a System of Land Tenure Similar to the Old Feudal Theory.

TURKISH LAND TEKURE

It is an interesting fact, not general the peasants of the country to cultivate the land "on shares." The share reserved is the "tithe," strictly tenderable in produce, altho usually paid in money. Land nationalization there, it need scarcely be added, is no innovation, but a survival from the con-quest of the country. The system has many points in common with the old feudal theory of landholdings in western Europe, when all titles to land were derived ultimately from the king and immediately from the lord of the lump sum paid in composition of the feudal dues, or into leasehold, by substi-

The Dinder Advertiser says in regard to the free importation of Canadian cattle.

"The plain fact is, opinion is hopelessly broken up. Let a meeting representative of the agricultural opinion of Scotland as a whole be called, and the Forfarshire farmer, with his perfectly sound local claim, will find he cannot obtain a majority for lifting the embargo."

The farm advertised in these columns on the 4th of Pickering is a snap for someone. Land is in good state of cultivation, and ready for spring crop, as owner had not intended acre, while similar places two miles south are bringing \$85. See F. M. Chapman about it.
