DECLARATION TO OMIT MENTION OF POPE

Important Amendment to King's Oath Favored by the Cabinet—Redmond Reminds Premier of Present Cause of Offense to Catholics.

LONDON, May 10.—John E. Redmond, leader of the Irish parliamentary party, has written to Premier Asquith, reminding him of the favorable expressions, when recently the question was raised in parliament by the Duke of Norfolk, the foremost Catholic in England, of abolishing the declaration which the monarch must make before a new parliament, the ancient words, "defending the Church of Rome," which Mr. Redmond declares, are most offensive to all Catholics.

The cabinet to-day decided to introduce a bill, amending the declaration of the King, wherein he asserts his belief in transubstantiation and adoration of the Virgin and saints, and that he makes declaration without mental reservation or dispensation from the Pope or other authority.

For the declaration that the foregoing doctrines and the mass "are superstitious and idolatrous," it is proposed to substitute the words "are contrary to my belief" and to omit reference to the Pope.

The majority of the members of parliament are believed to favor these changes, but the Orangemen and extreme Protestants will oppose them. The Catholics, who the entire declaration abolished, but the law officers of the crown and the Attorney General, who guard against a Catholic monarch necessary.

It was definitely announced to-night that ex-President Roosevelt's lecture at Oxford University, which was scheduled for May 18, has been postponed.

BUSH FIRES THREATEN

Raging in District Surrounding NOLA on Duluth Line of C. N. R.

PORT ARTHUR, May 10.—(Special.)—Bush fires are raging in the district surrounding NOLA on the Duluth extension of the C.N.R. Word to this effect was received by telephone message tonight to Crown Timber Agent Oliver, with a request for help. The fire is reported to be making considerable headway, and there is no damage to settlers yet. It is serious because, as no regular train goes out until Wednesday morning, the sending of help will be difficult, but if further word shows the fire to be more threatening, Oliver will procure a special train to send a gang of men.

Other bush fires less serious are reported from other parts of the district, and heavy smoke can be seen from the city over the western horizon. The season so far has been very dry and characterized by much wind, being conducive to fires.

Two years ago bush fires in this district did hundreds of thousands of dollars' damage.

PREPARING FOR WAR

Peruvian Government Mousing Troops on the Frontier of Ecuador.

LIMA, Peru, May 10.—Active preparations for a possible war with Ecuador continue. Volunteers are enlisting daily, and the war fund is being constantly increased by private donations. In this city and its immediate vicinity, 24,000 soldiers are quartered, while 10,000 additional troops are stationed near the frontier.

The Peruvian Government believes that it has reliable information that an effort is being made by Ecuador to obtain an alliance with Bolivia, as against Peru. To this end it is asserted a member of the Ecuadorian cabinet left Guayaquil to-day for La Paz, Bolivia, under instructions to negotiate with the Bolivian Government and the Chilean minister at that capital.

CONFESSED TO MURDER

Thomas Candy Tells How He Shot Montreal Policeman.

MONTREAL, May 10.—(Special.)—Thomas Candy, the murderer of Constables Fortin and O'Connell, made a full confession to-day to Chief Carpenter. He said he had stolen the rubber boots and tried to sell them to Cowan, who told him that there were policemen near and asked Candy to come back. The prisoner says that when caught by the officers he shot at them and bolted for all he was worth. He will most likely plead guilty before the magistrate to-morrow.

GEN. FRENCH'S VISIT DELAYED.

OTTAWA, May 10.—(Special.)—While no intimation has yet been received, it is anticipated that the visit of Gen. French to the north will be postponed by the King's departure for the north, which is probably will attend.

Unnatural Husband Gets Five Years.

WINNIPEG, May 10.—Louis Liew, alias Maloff, charged with procuring his wife for immoral purposes, was sentenced to five years in penitentiary. The prisoner married the girl and forced a life of shame on her.

Coal Strike Settled.

PERNIE, B. C., May 10.—The strike of coal miners at Pernie was settled to-day and work will be resumed immediately.

ONTARIO'S PROBLEMS

Again The World wishes to present another phase of the decline of Ontario as a farming province. Down in the eastern section of Ontario, in the Counties of Glengarry and Prescott, the English-speaking settlers are gradually disappearing, either going to the west or the United States, and French-Canadian settlers are coming in from the Province of Quebec and take their places. The young men have left Glengarry in scores and hundreds, and so have the young women; only the old people remain, some of them not working the farm, and hardly keeping a single cow. Why have these people left Glengarry, why are they leaving Prescott, and why are they leaving the adjacent counties, and why are the people of Quebec taking their places? But the fact is that these counties are not going ahead as they ought to go ahead, and new conditions are arising. If this is true of Glengarry and Prescott, it will be true of the adjacent counties, and gradually there will be a change in the whole of Eastern Ontario. Perhaps the matter is worth investigating. Glengarry was once the greatest breeding ground of men and women in Ontario, and sent its men as contractors all over the American Continent. But the breeding ground is now rapidly coming to an end, and the Highland Scotch, as far as Glengarry being the ancient home, will be only a story. The race is dying out. There are other counties in Ontario the same way.

The Canadian Conservation Commission, headed by Clifford Sifton, has evidently started in to do some substantial work in this direction. It has taken up, among other things, the hygienic conditions of the Canadian people, and has appointed Dr. Hoggett to make a study of tuberculosis. Tuberculosis prevails all over Ontario, especially in the country places, and The World believes that it is largely due to the lack of sanitary houses, lack of drainage and the lack of good roads, which prevents people at the time they need medical aid and other assistance from obtaining it. What knocks out an ordinary man or woman is failure to get the right kind of treatment, or the right kind of medicine or other material at the needed time. Once a person has a failure of this kind they soon have another; they neglect their teeth; they neglect their stomach; they take the quick medicine which can always be bought at the country store, and they get it into their heads that some kind of fate or dispensation of God has ordained things as they find them, and they make no effort to pull themselves out of the hole. These are unpleasant things to say, but they are facts, and can be illustrated in every portion of this province. And, again we say, it is largely due to the lack of organized appreciation of what the setbacks of the country are, and how they must be overcome by co-operation of the individual or the government, or both.

Editor World: Let me tell you something about the roads in our township and the neglect of the township council to handle them in the right way. I have read all you have said, and agree with you that good roads and the drainage would do more for Ontario than anything else: good roads first of all, because they carry a general benefit. But it is impossible to get our township council, who have a good revenue, to look after our roads other than the most old-fashioned and inefficient way. Instead of having tools like their graders repaired in the winter, they repair them in the summer, when they are at the very time when they are needed. They have neglected to put in tiles alongside of places where they have sunk tons and tons of broken stone and gravel, and they distribute the road-work over the whole year, instead of concentrating it at times when it ought to be done, and done quickly. They have neglected to make arrangements to get the farmers to co-operate in the drainage, which is the most efficient roadmaker at the cheapest possible cost that there is; in fact, if the farmers in any township are organized to co-operate with the council in the use of the drag-log, or split-log, roads may be maintained for a comparatively small price and the township improved by forty per cent. right away. But there is no co-operation, there is no efficiency and there is no idea of saving the people so as to interest them and keep them on the land. Such an idea as drawing gravel when the roads are good and when teams can be had and storing it alongside the road for use when necessary never enters their head. They do nothing except what they have to, and the general feeling in the township in consequence is that every one looks for someone else to do something for their benefit. Milkman.

We propose to introduce into our good roads place of Ontario's problems the question of the King drag as mentioned above and as exemplified in the letter following. But what is the King drag? It is a ten-inch log, 7 foot long, split in two with a saw coupled up two to three feet apart in a certain way, and dragged by a team over a road, raising it in the middle and smoothing out the ruts. But first read this letter:

Editor World: We were astounded to observe an editorial in The World stating that there was no record of the King drag being used in Ontario. Under separate cover we beg to send you a copy of the Christmas number of The Farmer's Advocate for 1907, containing an account of a provincial split-log drag (King drag) competition held in Ontario that summer by The Farmer's Advocate and the Ontario department.

TURNBULL, NEW MODERATOR OF SYNOD

Presbyterian Synod of Toronto and Kingston Opens Annual Session—Moral Reform Committee Condemns "Cold-Blooded, Immoral Officialism."

Rev. John A. Turnbull, pastor of the West Presbyterian Church, was unanimously chosen as moderator at the opening of the annual Presbyterian Synod of Toronto and Kingston, held in St. James' Square Church, last night, with about eighty delegates in attendance.

Dr. Turnbull is a native of Huron County. He received his early education at the Clinton High School and entered Toronto University in 1878, graduating with the degree of B.A. in 1881. He also graduated from Knox College three years later. In 1888 he received the degree of LL.D. from Toronto University, and in 1906 that of D.D. from Knox College. He entered upon his present pastorate twenty years ago, after holding a charge at St. Mary's, and has been a member of the synod for nineteen years. He is a member of both the board and senate of Knox College, besides being chairman of the board of examiners.

Received With Applause. In making the nomination, Rev. Dr. Farquharson of Durham referred to Dr. Turnbull as having occupied positions of trust in the church for a long period, and said he had demonstrated the possession to an admirable degree of the qualities needed for the high office. Dr. Dickson, God, the high priest, and a burst of hearty applause followed the announcement by the retiring moderator, Rev. W. T. Wilkinson, Trenton, of his successor's election by acclamation.

The new moderator spoke briefly in acknowledging the honor, saying, "All I can say is that I shall bring to this work the very best that God has given me."

A resolution was passed warmly approving of the services of Rev. Wilkinson during the year, and of his sermon, based on the life and teachings of St. Paul, which occupied the earlier portion of the session.

Resolution of Condolence. A committee was appointed to draft a resolution conveying the synod's condolences on the death of King Edward. This action was taken on the suggestion of the retiring moderator, who invoked the divine blessing on the royal family, "especially on the young prince on whom so much responsibility rests, whom we recognize as our best hope for the future."

R. C. Jennings, Toronto, who succeeded the late Alex. T. Gromble as chairman of the finance committee, reported that the year's expenditures were \$102,500, and that there was a balance on hand of \$125,424.

The synod will conclude its business, it is expected, on Thursday night. The sessions will be 9:30 a.m. to 12:30 p.m., 2:30 p.m. to 5:30 p.m., and 8 p.m. to 10 p.m.

Moral Reform Progress.

The committee reports are interesting. The committee on social and moral reform rejoices to note "a feeling of confidence in this new department of the church's work," but regrets that there exists "the most deplorable ignorance or say, indifference relative to public evils, the laws governing them, and the methods available for their overthrow, on the part of many sessions, ministers and church members generally." There is also clear proof that in the country as a whole there is yet a vast amount of selfish or thoughtless indifference to the vital concerns of the nation's moral health, that calls for persistent and ubiquitous pressure on the part of our reform forces if we are to make progress towards our goal, or, indeed, even to hold our own. Even worse than the indifference of the community at large is the indifference of the cold-blooded, immoral officialism of many officials, who look upon their positions as a matter of patronage and privilege rather than duty and aggressive effort in the cause they represent.

The questions asked concerning the industrial problem do not seem to have reached a vital spot or awakened any warlike interest, and yet this we imagine the biggest problem of all, affecting both the moral and religious life of our people. We must go a little deeper than we have been doing if we are to reach the heart of the matter. The social evil, at least so far as reports go, would not appear to be at all serious within the synod's bounds.

To War on Gambling. The committee recommends: That the synod express its determination to accept no legislation as final that does not make the business of gambling everywhere illegal.

That Labor Day Sunday be taken advantage of by the church to present by the gospel its relation to industrial life, and the bearing of these problems on the moral and religious life of the people.

That the assembly's board of reform be asked to co-operate with the Lord's Day Alliance in promoting a special educational campaign in connection with the observance of the Sabbath at our summer resorts.

That the general assembly's committee on Sabbath schools be asked to consider the advisability of making World's Temperance Sunday a great pledge-signing day among the young to reach in a definite way the evils of

WIDOWED QUEEN SENDS A TOUCHING MESSAGE TO PEOPLE OF THE NATION

LONDON, May 10.—While the rulers and representatives of foreign nations are assembling here for the obsequies of the dead sovereign, the various necessary formalities incident to the sad event are being gradually completed. The widowed Queen has sent a touching personal message to the nation, written in unassuming style and recalling similar intimate messages which Queen Victoria was in the habit of addressing to her people.

King George has addressed messages to the navy and army and to the Indian princes and people. The Queen-mother's message to the nation is as follows: "From the depth of my poor broken heart I wish to express to the whole nation, and our own kind people we love so well, my deep felt thanks for all their touching sympathy in my overwhelming sorrow and unexpressed grief."

Thanks for Sympathy. "Give to me a thought in your prayers, which will comfort and sustain me in all that I have to go through. Let me take this opportunity of expressing my heartfelt thanks for all the touching letters and tokens of sympathy I have received from all classes, high and low, rich and poor, which are so numerous that I fear it would be impossible for me ever to thank everybody individually."

"I confide my dear son to your care, who, I know, will follow in his dear father's footsteps, begging you to show me the same loyalty and devotion you showed his dear father. I know that both my dear son and daughter-in-law will do their utmost to merit and keep it."

One of the first messages issued by King George, who has long been known as "the Sailor Prince," was addressed to the navy. In it the King says: "It is my earnest wish on succeeding to the throne to make known to the navy how deeply grateful I am for its faithful and distinguished services, rendered to the late King, my beloved father, who ever showed the greatest solicitude for its welfare and efficiency."

Educated and trained in that profession, which I love so dearly, retirement from active duty has in no sense diminished my feelings of affection for it.

For 33 years I have had the honor of serving in the navy, and such intimate participation in its life and work enables me to know how thoroughly I can depend upon that spirit of loyalty and zealous devotion to duty, of which the glorious history of our navy is the outcome.

That you will ever continue to be as in the past the foremost defenders of our country, I am confident.

BORDEN TO BE C.P.R. COUNSEL?

Report That Conservative Leader Will Succeed A. R. Creelman as General Solicitor.

OTTAWA, May 10.—(Special.)—A gentleman from Stanstead, who was in the city to-day, states that Mr. Blount, private secretary of R. L. Borden, who was in that town not long since, declared positively to the members of his family that the Conservative leader would not stay very long in his present position, and that in a very short time Mr. Borden would be chief solicitor of the Canadian Pacific Railway.

Of course the C.P.R. is a very convenient place for politicians whose retreat is talked about, and it will be remembered that the newspapers made corporation several times and the same thing was said of Sir Alexander Lacoste. However, the recent promotion of A. R. Creelman to the directorate gives ground for the belief that there is more truth in the last story than in the two first.

Borden to Tour Rural Ontario

Conservative Leader to Hold a Series of Meetings During the Latter Part of June.

OTTAWA, May 10.—(Special.)—R. L. Borden will hold a series of meetings at picnics in Ontario during the second half of June. The details have not been fully worked out, but it is known that nine or ten meetings will be held and that the province will be covered from the Ottawa River to the tip of the western peninsula.

The special object in making this tour will be to enable the leader of the opposition to get into touch with the agricultural voters, and so far as his itinerary has been worked out special pains have been taken to give the electors of rural constituencies an opportunity of hearing him.

ALLAN LINER RUNS AGROUND.

MONTREAL, May 10.—(Special.)—The Allan liner Gramplan, inward bound, ran aground at noon to-day at a place called Cap a la Roche, some 30 miles above Quebec, and remained there for three hours. When, however, the tide rose the steamer was relieved and proceeded up the river under her own steam. She will probably reach Montreal to-morrow afternoon. It is not expected that any damage was done to the steamer.

THE KING AND PRINCES WILL GO WITH THE FLEET.

LONDON, May 10.—(Special.)—Not long ago the new King is reported to have said: "If that day comes (the questioning of Britain's naval supremacy), and I am King, me and my sons sail with the fleet."

Joe Thompson's Return. Joseph E. Thompson is expected back from the old country either to-night or to-morrow morning. The ship stopped at Quebec Monday, but owing to fog on the St. Lawrence, they have been unable to land at Montreal.

IN CONDITION OF FALL WHEAT ONTARIO LEADS

Crop Reports Show Good Progress in Seeding in Ontario and Western Provinces.

OTTAWA, May 10.—(Special.)—The census and statistics office issued to-day its May bulletin on the condition of crops and live stock for Canada.

The reports made for the end of April show that good progress had been made with spring seeding in Ontario and the western provinces, but that in Quebec and the maritime provinces little more than a beginning had been made. Ontario and Alberta are in the lead with spring wheat and oats, the former with 82.24 per cent. of the spring wheat and 74.74 per cent. of the oats in the ground, and the latter with 77.50 per cent. of the wheat and 73.13 of the oats. Ontario had also 72.84 per cent. of the barley seeded, and Alberta only 39.17 per cent. Manitoba and Saskatchewan had nearly equal proportions of the wheat-land finished, the former with 90.68 per cent., and the latter with 92.60 per cent., but both were slow with oats and barley. British Columbia had a showing of 73.37 for spring wheat sown, 81.56 for oats and 39.17 for barley. Ontario and Alberta are the only provinces with a substantial showing of fall wheat, and, whilst in the first named the condition at the end of April was 86.47 per cent. in the second it was only 33.56 per cent. Alberta also showed considerable loss by winter killing and drought, the proportion of the area sown being 22.46 per cent., as compared with 5.49 per cent. in Ontario. In British Columbia the loss by winter killing was 5 per cent. of the area sown, and the condition at the end of April was 100.

An excellent report was made for all classes of live stock, their condition for all Canada at the end of April, compared with a standard, being 84.49 for horses, 91.09 for milch cows, 88.29 for other cattle, 92.70 for sheep and 95.10 for swine.

AN AIR TOWNEET FOR TORONTO IN JULY

Plans Almost Completed for Aerial Tournament—Paulhan, Bleriot and Wright Brothers May Come—Promoters Hope to Make It a Big Event.

Hurray! an airship tournament for Toronto! A committee was appointed by the Ontario Motor League yesterday to further arrangements which have been quietly under consideration for some little time. It is intended to make the most international in scope, open to the world, for competition of all kinds of dirigible air craft, and as huge an undertaking as anything that has yet taken place in the world.

The promoters have even gone so far as to send a man across the Atlantic to negotiate with Graham White and Paulhan, participants in the ever exciting race from London to Manchester for a \$50,000 prize, and they have already received favorable intimation from Bleriot, who flew across the channel to Dover, and the famous Wright Bros. The latter, however, are rather uncertain as yet, because they have no protection on their patents in Canada, and the people behind them are afraid.

Working in conjunction with the motor league is a New York syndicate which controls several of the most successful machines in the United States. Two suggestions for an aviation field have been considered—one being the Woodbine and the other some large open field about 15 miles from Toronto, on a railroad. The latter idea, so far, has met with the most favor, it being argued that coupon tickets could be arranged for with the railroad company to ensure a large crowd of admissions. In addition there is a necessity for a large open space. As air navigators prefer flying over water it is not improbable that some spot between Toronto and Hamilton on the lake shore, will be chosen. The alternative to this is out the Kingston road.

As it will be a tremendous undertaking, and a costly one, involving about \$75,000 in guarantees and prizes, the promoters figure on seeking financial grants thru the board of C. M. A. Retail Merchants' Association, etc., and also from the city council. To ensure a strong citizens' committee will be appointed. It is hoped to interest certain public spirited persons to the extent of offering some such attractive prizes or purses as was put lately by Lord Northcliffe. One merchant has offered \$20,000 off his own bat, believing that it will be the greatest boost Toronto has ever had. Conducted on international lines, it will do more to advertise Toronto and Canada than anything heretofore.

It is said that a similar, the smaller meet in Los Angeles, has been held six times the city's population during its progress. It is calculated to make this air motor tournament extend over a period of six days, with an average of four flights a day. These "trips" will, of course, be governed and arranged according to atmospheric conditions. Some days will be better adapted to long flights and some to high.

A. E. Chatterton, vice-president of the committee, has just returned from England and declares there is no sport on the face of the earth equal to aviation to create interest and arouse excitement. Europe is now ablaze with it, he says.

He and Mr. Bennett of Montreal are going to New York on Friday to further arrange with the American syndicate. A similar movement is on in Montreal, and it is fully anticipated that the meet will go to the Canadian metropolis some time in the future.

The date for the Toronto meet will be the last week in July or the first part of August. The committee in charge are: Hon. J. M. Taylor, chairman; A. E. Chatterton, vice-president; H. B. Wells, Morse Sellers and O. Hazelwood of Toronto, with power to add to their number.

FASHIONABLE WEDDING OF HAMILTON PEOPLE

Guests From New York, Buffalo, Chicago and Detroit—Rev. W. L. Williman Inducted.

HAMILTON, May 10.—(Special.)—A fashionable wedding took place this afternoon in the Conservatory of Music Hall, the contracting parties being Miss Hail, the contracting parties being Mrs. Goldberg, and Louis Weinstein of Detroit. Rabbi Friedlander performed the ceremony. Miss Elgida Weinstein, sister of the groom, was maid of honor, and Miss Sybil Eckstein was flower girl. Henry Berger of Detroit was groomsmen. There was a large number of guests present from New York, Buffalo, Chicago, Detroit and other places.

Induction at Westminster Church. This induction of Rev. W. L. Williman, formerly of Elora, as pastor of Westminster Presbyterian Church, took place to-night. Rev. W. H. Sedgwick inducted him. Rev. D. R. Drummond addressed the congregation and Rev. A. E. Mitchell addressed the new pastor. Rev. Mr. Drummond said it was far easier for a Presbyterian elder to be a good man than it was for an hotelman, because people expected more of the elder. Rev. Mr. Mitchell was convinced that what a minister needed to-day was heart, not brains.

At a special meeting of the Sons of England Benevolent Society to-night, it was decided to hold a memorial service in St. George's Church next Monday afternoon. Rev. Canon Howitt will officiate and the offertory will go toward defraying the expense of the statue of Queen Victoria, erected on the society's plot in Hamilton Cemetery.

PRESBYTERIAN SYNOD OF MONTREAL AND OTTAWA

Rev. D. Currie of Perth Elected Moderator—Tribute to Late King Edward.

CORNWALL, May 10.—(Special.)—In St. John's Church this evening the Presbyterian Synod of Montreal and Ottawa was opened by Rev. John Hay, B.D., of Cornwall, who occupied the chair in the absence of the moderator elected at the last synod—Rev. Charles Tanner of Windsor Mills, Que., who died in January, 1910. Dr. Hay conducted the opening service and made a very touching reference to the late King. He hoped that his successor would walk in his footsteps. Out of respect to his late majesty and the late moderator, the choir loft and pulpit were draped in purple and black.

The opening meeting was public and Rev. Dr. R. P. McKay of Toronto delivered an eloquent address from Isaiah xxi, 11: "Watchman, what of the night?" He pointed out the growth of Christianity and the spread of education in the countries of the near and far east, and expressed the opinion that the time was opportune for all Christian churches to join hand in hand for the conversion and education of the eastern races.

The synod was then formally opened and almost the first business was the election of a moderator. There were three nominations: Rev. D. Currie, Perth, Ont.; Rev. Dr. Love, St. Andrew's Church, Quebec City, and Rev. Mr. McDougall, Spencerville, Ont.

On the first ballot Rev. Mr. McDougall defeated Rev. Dr. Love and on the second Rev. Mr. Currie defeated Rev. Mr. McDougall and was escorted to the chair, which he will occupy for the ensuing year.

Rev. Dr. Campbell of Montreal and Rev. Dr. Love of Quebec City moved the following resolution: "To his excellency the governor-general, Ottawa. We, the ministers and elders constituting the Synod of Montreal and Ottawa of the Presbyterian Church in Canada, in annual meeting assembled, respectfully request your excellency to convey to Queen Dowager Alexandra and

BLOOD-STAINED MOTOR

Found Abandoned, Believed to Be One Which Decapitated Mrs. Behr

CHICAGO, May 10.—An automobile with bloodstains on the wheels, found abandoned in an alley here to-day, is believed to be the machine which caused the death of Mrs. Albert Behr last night. Mrs. Behr and her husband, a carpenter, were about to cross the street, when the car is said to have swerved into Mrs. Behr, who was almost decapitated before the eyes of her husband.

The chauffeur did not stop, it is said, and quickly disappeared into Lincoln Park. The alley in which the machine was found by detectives to-day is several miles from the scene of the accident.

CONVICTED OF MURDER

JURY SUGGESTS MERCY

Italian Found Guilty of Having Stabbed Companion in Drunken Row on Manning Avenue.

Guilty of murder, with a strong recommendation for mercy, was the verdict of the jury in the case of Pasquale Ventricini, after deliberating from 1.23 until 5.45 p.m. yesterday. Ventricini was charged with stabbing Raffaele Fabbio to death in his home on Manning-avenue on March 6 last.

"I think you could not do anything else reasonably," said Justice Riddell, after the verdict had been returned. "Of all the cases in which I have had occasion to try a murderer, there was only one native Canadian. He was a man who had ruined himself by drinking."

Sentence will probably be passed this morning at 10 o'clock.

Accused pleaded not guilty when arraigned. The evidence of Dr. T. D. Archibald showed that deceased had received seven knife wounds, either of two being sufficient to cause death.

Detective Mitchell, who arrested the prisoner, found him either getting under or getting out from under a bed at 265 Claremont-street. Mitchell thought he had been drinking.

When the other Italians came up and deceased tried to hold prisoner away from witness, Pasquale then stabbed Fabbio. Tony had noticed before the stabbing that prisoner was carrying a knife wrapped up in a handkerchief.

Rocco Delasandro, aged 12, an eyewitness, corroborated the story. Venancio Delasandro, father of the boy, gave similar evidence.

The prisoner was then put in the box. He said he was 46 years of age, and had been in Canada for five years.

Other Italian witnesses said that the prisoner lost his head when drinking. Detective Mitchell and Inspector Dickson said that prisoner seemed quite rational after being arrested.

EATON'S DAILY STORE NEWS

Our New York Letter

From Our Special Correspondent.

Verily, we have all gone frill mad! Only a twelve-month ago Dame Fashion was sternly denying us any semblance of a frilly effect, even on our most intimate, invisible garments; and now, behold, frills on our hats, on our neckwear, our sleeves, our parasols—even our four-lard summer frocks frolicking out with frilled skirts.

Two infrangible rules, however, there are about the new frills. They must be pleated and not gathered; and they must lie flat. The quaint little neck frills—Chantecler frills, as they are now called by the dressmakers—have taken New York by storm. Almost every frock—with the exception of formal evening costumes—in the Gould trousseau, which, of course, set the fashions for half a year to come, had one of these gay little pleated frills around the top of the bodice; and it is said that the manufacturers of lace and net pleatings are tearing their hair with regret that they did not foresee the frill fever and provide millions of yards more of plisse neck trimmings.

Not every woman, of course, can wear the pleated neck frill; but these little ruffles around the base of the throat are so quaint and so youthful—in style—that most women will wear them whether or no, and often by a clever knack of arrangement a trying style may be made becoming.

The trouble is that the average woman decides about neckwear from a front view in the mirror only. At this point one seems always to look one's best. It is those side glimpses with the aid of a hand mirror that seem to reveal disheartening truths about sharp chins, hollow throat, wrinkles back of the ears and wrong coiffure lines. But before any radical change in neckdressing is attempted, the new style should be searchingly tested in a strong light and from back, side and three-quarter views.

The neck frill, worn in a circle all around the throat, is particularly becoming to very young girls with faultless lines from ear to shoulder. Older women should drop the frill the least thought in front, so that a slightly V'd effect is produced, and a dashing little bow of velvet ribbon or dark silk, set just in front, will add to the becomingness of the frill. Owing to the King's death, black is quite correct. A long, fluffy jabot of lace or net matching the frill also helps toward becomingness, for the line of frilling down the front blends with that encircling the neck, and gives a longer and more graceful line. The lace jabots also are finely plisse, and four yards of wide lace, closely pleated and attached to either side of a half-yard strip of lace *entre deux*, makes a very graceful jabot. Sometimes the pleated lace is attached to only one side of the narrow *entre deux*, the opposite being finished with a narrow pleated lace frill.

Another point to be remembered about the neck frill is flatness. The net or lace pleating should be securely caught down to the bodice by invisible stitches, a quarter-inch or so from the top, so that the frill may not bulge up in ruff fashion and destroy the pretty sloping line from throat to shoulder.

The Hostess Takes Pride in a Well Laid Table

An essential consideration in connection with a well-laid table is the "China." A visit to our China-ware section in the basement will readily solve the question. Here is found a delightful choice in table ware from the best potteries of the world. Europe has the education of centuries in producing china-ware, the influences of the mythical, and folk-lore traditions to produce effects in art that are abundantly manifested in our imported china-ware.

We illustrate a few pieces from a high-grade Limoges China Dinner Set that will do honor to the dinner table on any occasion; there are 107 useful pieces, with a delightful decoration of a modest character, consisting of a plain maroon band, overlaid with a delicate pattern in rich gold; in addition, the edges are all traced with a burnished line of gold, and the handles are covered with rich burnished gold; the quality of the ware is above the standard, and the surface is hard and smoothly glazed; the modelling, as shown in the illustration, shows the work of superior crafts-manship; a very attractive set and a special value at34.00

Successful Summer Cooking

It is important, in the matter of successful cooking, that the labors of the housewife be lightened as much as possible, and where modern improvements are introduced this will be accomplished. Few household improvements or appliances yield more satisfactory results than the Gas Range. And in this line our stock is very large and well assorted.

The "Acme" Gas Range 14.50

On 30 Days' Trial

The Gas Range made from our own plans and designs; a stove we recommend in the highest degree. It has beautiful nickeled trimmings or mountings; stands on four feet; the door of both the baking and broiling oven are nicely blinged; there are four top burners and a simmering burner, and the ovens have two long burners. All burners are fitted with lever handle stopcocks and are easily adjusted with simple working air mixer, with needle points regulators. So confident are we that this stove will suit you, if after 30 days' trial you are not satisfied with it we will send for the stove and refund your money. Price, with 16-inch oven14.50 Also 18-inch oven at15.50

The "Argand" Gas Range 16.50

Is a well-made stove in every particular. It has broiler and oven fitted with two long burners, which is much in advance of the one-burner type. There are four burners on top. These are the ranges that make labor light. Price, with 16-in. oven 16.50 Also 18-inch oven at18.50

The "Utility" Gas Range 25.00

The great advantage of this stove is the "High-up" Oven; no stooping to see into either the baker or broiler. There are four top burners and a simmer. The ovens have two long burners. The stove is particularly well made and of good appearance. Nickel-plated trimmings relieve the plainness of the stove. A strong iron shelf for pans, etc., is arranged underneath and supported by the four legs. Price, complete25.00

Out-of-Doors

Recent statistics show that the average length of life in Canada is seven years greater than it was fifteen years ago. In searching out reason for the statement we find looming up large as a probable cause the increased respect for fresh air. The open window in winter and verandah life in summer have surely played their part in this happy extension of our length of days. Once the monopoly of the suburban villa and the seaside cottage, these outdoor sitting-rooms are now an architectural provision as universal, almost, as roof or steps. At the first warm touch the weather gives we betake ourselves thence whenever our pursuit will possibly permit. Drawing-room, dining-room and bedroom forego their claim in favor of the piazza.

Verandah Chattels

Viewing the matter in a practical sense, the new duty has devolved upon us of furnishing these healthful haunts in a manner befitting their place and importance. Verandah furniture is an item of purchase as compelling as any other associated with the proper and comfortable equipment of the menage. And the Store has sought to meet the demand with an offering of the best productions procurable.

The showing includes several varieties of craftsmanship. There is the standard line, made up of hardwood frames, in natural shade or painted green or red, with seats of double-woven cane, a large high-back rocker at two dollars and seventy-five cents serving as a good gauge in intimation of price.

Then comes a more fancy edition of this in a picturesque production in green oak, in mission effects, with slat or matting seats, and notable for a wide range of chair and settee designs.

Prairie Grass

Of a more decorative type still, the immense selection of Prairie Grass furniture presents still another field of choice, the quaint shapes and soft green shading offering themselves as particularly suitable for the more sheltered boudoir-like arrangement of things.

Then, finally, though first in the preference of many, is the great stock of willow and rattan—a wealth of artistic suggestion radiating from the graceful open weaving of cool, slim reeds. In buff, natural, green and fawn, a host of square and round designs presents an option of selection.

The Wide Range

The forms of the furniture in these several developments are various, meeting every need of verandah comfort. Not only chairs, settees, sofas and tables are obtainable, but tea-tables, magazine stands, flower stands, waste-paper baskets, tabourettes, and a host of other mediums of convenience.

Both appearance and economy protest against the employment of indoor chattels for al fresco furnishing. The suitability and attractiveness of the designs indicated above urge investment.

DONAU, FAVORITE, WINS THE KENTUCKY DERBY

Great Crowd Present to See Classic Event at Louisville in Almost Record Time.

LOUISVILLE, May 10.—Donau, the bay son of Woodsthorpe, to-day captured the Kentucky Derby, at a mile and a quarter, in the sensational time of 2:06 3/4. Joe Morris was second and Fighting Bob third. The race was over a fast track, in the presence of the largest crowd in the history of local racing. The record for the classic is 2:04 3/4, made by Lieut. Gibson in 1908. The value of the Derby to the winner is \$700. The following is the summary, the odds being based on 50 cents: FIRST RACE—Six furlongs: 1. Alice George, 106 (Kennedy), str. \$23.50; 2. Dainty Dame, 114 (Powers), place \$7; Time 1:13 3/4. Eva Tsangary, Frank C. Hogan, Cloisteress, Princelike, Carew, Hancroft, Challice and Our Nugget also ran.

SECOND RACE—Four furlongs: 1. The World, 108 (Keogh), str. \$12.50; 2. Princess Industry, 108 (Austin), place \$7.75; 3. Attentive, 109 (Martin), show \$5.50; Time 1:05 3/4. Marsand, Golden Ruby, Rue, Ferris, Edna, Perry, Grand Peggy, Trilona, Panny Kemble, Dancing Queen, Molly Mog, Mascari and Elizabeth Daily also ran.

THIRD RACE—Five furlongs: 1. King's Daughter, 110 (Martin), straight \$7.75; 2. T. M. Green, 104 (Koerner), place \$7.75; 105 (Herbert), show \$6.25; Time 1:08 3/4. Swish, Southern Light, Little Rajah, H. R. Brandt, James Mc and Mark H. also ran.

FOURTH RACE—The Kentucky Derby, 1 1/4 miles: 1. Donau, 117 (Herbert), straight \$12.50; 2. Joe Morris, 117 (Powers), place \$7.50; 3. Fighting Bob, 111 (Page), show \$5.50; Time 2:06 3/4. John Carroll, 113 (D. Hall), place \$14.75; 2. Bonnie Bard, 111 (J. Howard), show \$5; Time 1:41 1/4. Panastatic, Starport, Star Actor, Alma Boy, Tortuous, Markie U. and Earl of Richmond also ran.

FAYETTE AND KING JAMES RUN 1-2. AQUEDUCT, May 10.—S. C. Hildreth's entry, Fayette and King James, finished one-two in the feature event, the Long Beach Handicap, at a mile and a sixteenth, at Aqueduct to-day. They were favorites in the betting at the prohibitive odds of 1 to 5, and at no stage of the journey was the entry in serious trouble. Fayette was returned the winner, but King James was eased up in the final furlongs to allow Fayette to win. Summary: FIRST RACE—Selling, 2-year-olds and up, \$400 added, 6 furlongs: 1. W. T. Overton, 108 (Garnery), 2 to 1; 2. Royal Oxy, 119 (Taplin), 5 to 1; 3. Frank Purcell, 102 (Hyland), 8 to 1; Time 1:19 1/4. Elizabeth Harwood, Casque, Bob R., Grand Achieve, Big Stick, Nobility, Golden Flora, John A. Munro, Spindle and Pat Masterson finished as named.

SECOND RACE—Handicap, mares, 3-year-olds and up, \$200 added, 6 1/2 furlongs: 1. Mary Davis, 107 (Glas), 2 to 1; 2. Right Easy, 100 (Taplin), 4 to 1; 3. Louise S., 100 (Ural), 12 to 1; Time 1:31 1/2. Only three starters. THIRD RACE—Selling, \$400 added, 2-year-olds, 6 furlongs: 1. Judge Monk, 94 (Garnery), 4 to 1; 2. Capote, 107 (Butwell), 12 to 5; 3. Whining Widow, 104 (Dugan), 3 to 2; Time 1:25 1/2. Caribeen, Feather Duster, War Jig, Kentucky Rose, Quincy Belle and Mary's Aunt finished as named. FOURTH RACE—The Long Beach Handicap, value \$1500, 2-year-olds and up, 1 1/4 miles: 1. Fayette, 113 (Shilling), 1 to 5; 2. King James, 128 (Dugan), 1 to 5.

Blue Bonnets' Stake Entries. The recapitulation of the stakes show a list of entries equal to that of a year ago, which was 100. The Blue Bonnets' Stake is a list of over a hundred and sixty entries, the largest being the Jacques Cartier Steeplechase, which has fifty-three non-qualified entries that have been made in this stake. The next on the list is the Kindergarten, which has forty-seven two-year-olds that have started this season along with those of the best stables, which have yet to answer the call. The Windsor Hotel Cup Stake, which carries with it twelve hundred dollars in added money, this season has just as large an entry as that of the Canadian Steeplechase, which has been made in this stake. It was won by Aronack, who is entered again this season along with her stable companion, the three-year-old Fantelroy. Should either of these horses be lucky enough to win the cup will become the property of James McLaughlin. The Canadian stables have added one to this stake, which has filled better than last season, and the class of horses entered is superior to those of former years, this being due to the first-class leppers that were raced at Baltimore this spring.

Metropolitan Weights. NEW YORK, May 10.—At a meeting of the board of review of the National Trotting Association to-day, J. E. Pierce of Toronto, Ohio, was expelled from the association for his alleged connection with the trotting of the mare Sally Reel (2:15 1/4), under the name of Florence, at Hagerstown, Md., last fall. M. C. Sweeney of Steubenville, Ohio, and Robert H. Hall were also expelled for their connection with the same race. A. L. Bacon of Conneaut, Ohio, was expelled for racing the chestnut mare Pet Morgan, represented as having no record. The board denied the application for the reinstatement of the horse Hal L., alias C. (2:14), alias Rosewood (2:10), alias John W. (2:15 1/4). It is alleged, raced her as Pet Morgan. The board denied the application for the reinstatement of the horse Hal L., alias W. H. Polster (2:14), and also the application for the reinstatement of Prince, alias John W. (2:15 1/4).

Weather clear; track fast.

Another 'O'K' Ale. Our latest—and, some say—our finest brew. We perfected an uncommonly fine blend of hops and malt—and then brought all our years of experience to bear in brewing, ageing and bottling it. O'Keefe's 'Gold Label' Ale is just the kind of Ale that you would expect a brewery like this to brew. It's pure and old, and rich and creamy—a delight to the palate—and the most nourishing and healthful of malt beverages. Have your dealer send up a case. 'The Beer that is always O.K.'

WEDNESDAY MORNING, MAY 11, 1910.

THE KING'S DEATH AND STOPPING THE CLOCK.

The desire of the new King that the public interest and the comfort and convenience of the people should be the first concern in any suggestions as to postponing or cancelling celebrations, amusements, meetings, and the like, was well-intentioned and wise.

NO TRUCE. We have no faith in the story that the two political parties in England—now in the fiercest struggle known in history—will call a truce because of the King's death.

A political struggle of that magnitude more dies than does the King. Both go on. They must go on as human passions do.

There may be some delay in the election that seems inevitable, by reason of the state machine being somewhat unprepared for a short time by the King's death; or the new King may force a change in the premiership on cabinet (which is not likely); otherwise the two sides are so determined and so seized of the far-reaching character of the result, that they cannot abandon the fight for a moment.

THE NAVY'S PRESTIGE GOES UP. The story in our news columns that the new King not long ago said that he and his sons would be with the fleet and his sons would be with the fleet and his sons would be with the fleet...

THAT WE MAY BE FIT. No true Canadian but feels in his heart that the death of King Edward is a grave loss to the empire. His heart is heavy and sad. Yet meditation forces the thought that George the Fifth is every inch a king and that the King's government must go on.

Conventions demand outward show of mourning, but let us not forget that the most fitting sign of our sorrow is the inward resolution to emulate the manly characteristics of our dead King, so heroically exemplified in the ten years of his reign.

THE KING'S OPPORTUNITY. Speculation is rife everywhere regarding the real character of our new King and his qualifications for his exalted office. The significant point is that of them that have spoken, those who know him best and most intimately

show the greater optimism. Than this nothing could be of more hopeful omen and it should be remembered that no sovereign has ever ascended the British throne with larger personal knowledge of the nations and dependencies over which he has been called to rule.

It was never probable that George the Fifth would repudiate the special qualities, temperament or disposition of Edward the Seventh. The late King was a highly successful diplomatist, and the width of his sympathy enabled him to turn his skill and his personal influence to the service of international peace.

ELECTRIFYING THE SOIL. Some two years ago Sir Oliver Lodge, the distinguished principal of the University of Birmingham, turned his attention to the utilization of electricity for the purpose of stimulating the fertility of plant life.

Statistics issued by the Toronto Railway Co. show the results of its efforts to raise money for the Y.M.C.A. fund on Saturday. It was surprising to find that there were 12,928 fewer passengers in the street cars last Saturday than there were on the Saturday one week previous.

Why the Morning Newspaper Regarding News

Being Chapter I of the calling of the ancient bluff of the Evening Newspaper which poses in Borrowed Clothing as the Only Home Newspaper.

A NEWSPAPER is primarily established for the purpose of distributing the news--of the city--of the province--of the nation--of the world.

News is a commodity that is manufactured mostly in the daytime and in the early evening.

All day long, and well on into the night, the brightest, brainiest, wittiest and cleverest men in the world are busy gathering the news, and in the evening the wires all over the world are "hot" with the despatches and stories and reports of the news for the morning papers.

While the rest of the world sleeps the big morning press of the world is busy, and at the world's breakfast table lays down complete the epitome of the world's doings for the last 24 hours.

Now Watch the Evening Paper:—This same news is now 12 hours old, yet that is what it hashes over—the process is called "scalping," and as it has to close its forms not later than 2 p.m., it is too early to get the momentous local news, as most of the big deals will not have closed by this time.

You will get an outline of the news in the evening papers, but wait for the morning papers for the full details.

The culmination of all the happenings on this terrestrial sphere during 24 hours is in the morning press in all the cities of the world.

The state of the markets—vital statistics—world politics—international entities—reports of social functions—reviews of the theatres and entertainments—and the doings of your neighbors all are timely and come to a refreshed brain in the morning.

Advertising—that is advertising—is also news, and is classed the same, and is most timely in the morning.

Timeliness is the chief charm of the Morning World.

It reaches the homes in Toronto before or by 6 a.m. The man of the house reads it while waiting for his breakfast—the wife sees it at the breakfast table and during the morning.

The mother, the father, the sister, and the entire rest of the family get a look at it early in the day, and all its messages, whether news of the world or business announcements of merchants, or reports of bargain sales, are assimilated before the hum of the business day has more than started.

The advertiser who recognizes news value in his business and places his news, which is just as vital as the general news, and a whole lot more personal, because it has to do with the desires and necessities of the big majority of the city's inhabitants, alongside the news of the day—"to-day" in The Morning World—is taking long strides toward business success.

Remember this: We have a hustling staff of live young men in our advertising department, and also a Department of Suggestion and Design, supervised by One Who Knows and is Competent. Our telephone is 5308 Main.

Widowed Queen Sends a Touching Message

er of your country's honor, I know full well, and your fortunes will always be followed by me with deep interest of pride, affection and interest.

Impressive Ceremonials. Late to-night the body of King Edward, enclosed in an oak casket, was transferred to the service room of Buckingham Palace, where it rests on a catafalque covered with the same purple pall which enshrouded the coffin of Queen Victoria.

Contrary to the original intention that the body of King Edward should be quietly and privately removed from Buckingham Palace to Westminster Hall, on next Tuesday, it now has been decided that the removal shall be accomplished with considerable ceremony.

City Becoming Normal. The city is assuming a comparatively normal aspect, following the appearance of mourning emblems along the streets, the fluttering of flags at half mast and the brand bluffs at the leading club houses and in the government offices, a stranger visiting London to-day, would find little outward evidence of the momentous occurrences which have attracted the attention of the world within the past three days.

The ordinary life of the metropolis has again fallen back to its accustomed channels. Just as soon as the funeral of King Edward is held, it is probable that the court physicians will urge the Queen-mother to take a long vacation, and she is heard up well under her grief, but the doctors fear a collapse after she relaxes from the greatest strain.

The royal yacht, Alexandra, left Dover to-day for Calais, to bring the Dowager Czarina Dagmar, Alexandra's sister, to England. The two sisters are greatly attached to each other, and the doctors believe the arrival of the Dowager Czarina will prove a benefit to the Queen-mother.

The Alexandra was escorted by the destroyers Chelmer and Kennet. An Omission. No sooner was the splendor of yesterday's procession ceremonies past, it was learned to-day, than an egregious blunder was discovered in the ab-

ART SONG EVENING DELIGHTS MUSIC LOVERS

R. S. Pigott and Mrs. Barton Repeat Former Success in Greek Theatre.

The program itself was identical with that given some weeks ago by Mr. Pigott and Mrs. Barton, and embraced the most spiritual songs of Schubert, Brahms, Grieg and MacDowell, along with three "ditties" set to music by Mr. Gerard Barton, in the entrancing Eiland Cycle.

Mr. Pigott is essentially an interpretative artist, with a remarkable sense of the emotional nuances of the text to which he sings. He understands precisely when the music of the song is spiritually wedded to the text.

NOTED NON-CONFORMIST HONORED BY M'MASTER

Rev. Dr. Clifford to Receive Honorary Degree of LL.D.—Messrs. Creelman and Loudon Likewise.

At McMaster University convocation to-night in Castle Memorial Hall the annual conferring of degrees will take place.

The honorary degree of doctor of laws (LL.D.) will be conferred on the following:

Dr. John Clifford, the distinguished leader of non-conformity in England and a former leader of the passive resistance movement, will be conferred on Westbourne Park Baptist Church, London, and will not be present to-night.

George C. Creelman, president of Ontario Agricultural College, Joseph James Loudon, formerly president of the University of Toronto.

The degree of doctor of divinity (D.D.) upon Rev. Wm. Thomas Graham, pastor of First-avenue Baptist Church, Toronto, Rev. James Grant, pastor of St. Andrew's Church, Dundas, Ont.

Walmer-road Baptist Church was well filled last night on the occasion of the baccalaureate sermon to the graduating class. Rev. Wayland Hoyt, D.D., Temple University, Philadelphia, was the preacher.

At the outset Rev. Dr. Hoyt made a touching reference to the death of King Edward. "Will you let me," he said, "express the deep sympathy which the daughter nation, the citizens of the republic, the United States, feel in the sorrow which has befallen the mother country and the great British Empire in the death of His Majesty King Edward VII."

Rev. Dr. Hoyt's discourse had a more or less controversial tendency and seemed to be designed to strengthen the student in orthodox ideas. The text was taken from Deuteronomy xxix. 28: "The secret things belong unto the Lord our God; but those things which are revealed belong unto us and unto our children forever, that we may do all the words of the law."

At a meeting of the senate affiliation was granted to Brandon College, Manitoba, in the future students of Brandon College will be able to take on the same examinations as students of McMaster and the degrees will be conferred by special convocation by McMaster senate.

The reason given for this arrangement is that the western provincial governments have persistently refused to grant charters to denominational institutions.

The petition of Okanagan College, B. C., for affiliation, was refused on the ground that that institution had not yet obtained a mature standing, but extra-mural privileges covering the first two years were granted.

The convocation was presided over by Dr. B. Fraumeni-Swedelius of Columbia University, lecturer in French.

MAKE JAIL PRISONERS BUILD COUNTRY ROADS

Ontario Will Likely Utilize Offenders in Northern Sections for a Useful Purpose.

That the inmates of the jails in northern Ontario should be utilized in building colonization roads is the suggestion of the provincial minister of public works, who returned yesterday from a trip to the north country. He was impressed by the pleasure to be derived by settlers in making homes because of the handicap of hard roads and lack of drainage, and by the crowded conditions of the jails.

To the World last night the minister of public works declared himself to be in strong sympathy with the suggestion of utilizing the inmates of those who apply. The protection which young women receive at these institutions is worth every cent of the cost.

The Royal Edward Memorial Home for Factory Girls will fill a long-felt want. This home was projected by the Canadian Manufacturers' Association, but has not been turned over to the Young Women's Christian Association.

It is also pointed out by the committee that the interest charge on the mortgages and floating debt is a serious handicap to the effective management of the different women's institutions. The relief of this charge, which is up in the thousands, will give a great impetus to the work.

KINGSTON CITIZENS UNITE IN LAST TRIBUTE

KINGSTON, May 10.—(Special.)—One of the largest funerals ever held in the city, that of the late E. B. Bense, held this afternoon at Catherin Cemetery. Citizens turned out en masse to pay tribute to one who was a leader of men. Members of the civic clubs attended in a body, with The Whig staff. Hon. A. G. MacKay, leader of the opposition, was present.

There was holy communion at the house for the family, after which service was conducted at St. George's Cathedral by Dean Bidwell, assisted by Canon Starr. The cathedral was filled to the doors.

The honorary pallbearers were: Judge MacDonald, Brockville; Dr. V. Rogers, K.C.; Lt.-Col. S. C. McGill, Hon. William Hart, M.P.; Mayor Couper; Ald. R. Elliott, Robert Crawford, J. Archibald Strachan. The active pallbearers were chosen from the different departments of The Whig and were: Philip H. Burke, J. A. Manly, George Hanson, Geo. Wilde, E. E. Leach and E. G. Garrett. J. MacMorris, daughter of Archibald Strachan, to Prof. Alexander McPhail of Queen's University. The bride's father performed the ceremony. The happy couple left on a trip to Prince Edward Island.

The city council is arranging a memorial service for King Edward in the armory, at which all the city clergy, men will co-operate. The city hall, postoffice and customs house have been draped.

David Teal was sent to jail for two months for abusing his wife.

The charity involved in the expansion movement of the Young Women's Christian Association is neither narrow nor selfish. The first step was taken at the present campaign, when a strong body of men, some of whom are able-bodied men, some of whom are disabled, volunteered to raise the amount of \$85,000, being the total after yesterday's luncheon.

The executive committee, having charge of the campaign is as follows: G. H. Wood, chairman; E. R. Wood, Thos. Bradshaw, S. J. Moore, Alexander Laird, John W. C. McGill, William Garde, Harry Ryrie, Thos. Findlay, Marshall, J. E. Atkinson, Thos. Roden, J. C. Roelofs, Alexander Laird, treasurer of the building fund.

Young Women's Team. A young women's committee has been added to the campaign organization for the raising of a second building fund. It comprises twelve teams, each of which represents a number of employed girls. The captains of these teams are as follows: Miss Sarah Palmer, representing the T. Eaton Co.

Miss Annie Minary, assistant secretary of the Y. W. C. A. Miss Lizzie Sutherland, resident secretary of the West Branch, Y.W.C.A. Miss Marlon Mitchell. Miss Donaldia Carlyle, industrial secretary of the Y. W. C. A. Miss Hozack. Miss J. McGrew. Miss J. L. Jackson. Miss M. P. Hyndman. Miss Margaret Graham, representing the South Branch Y.W.C.A.

"A more meritorious appeal was never placed before the people of Toronto than this young women's movement," said a prominent manufacturer to The World yesterday. "The need of the Young Women's Christian Association movement has never been so great as now. The protection which young women receive at these institutions is worth every cent of the cost."

"The Royal Edward Memorial Home for Factory Girls will fill a long-felt want. This home was projected by the Canadian Manufacturers' Association, but has not been turned over to the Young Women's Christian Association. I object to lodging houses, where young women room in one place and board in another. At meal times they have to mingle with all and sundry in restaurants, frequently to their detriment. It destroys every advantage of home training. The whole principle is reprehensible."

It is also pointed out by the committee that the interest charge on the mortgages and floating debt is a serious handicap to the effective management of the different women's institutions. The relief of this charge, which is up in the thousands, will give a great impetus to the work.

The second annual report on systematic giving says: "There are some, it is true, who have learned a sort of skilled dexterity by the practice of giving additional dollars have been during a period of pain and distress extracted from the closely buttoned pockets of God's well-to-do. Even if this is true the money is not given, it is feared the process leaves a painful wound, that is not helpful to the true spirit of Scriptural systematic giving."

It is true that we have a plan—the envelope system. The courts of the church have recommended the plan, and suggested the amount that each communicant was to give each week. But we have no plan to carry out the recommendation.

The committee recommend that presbyteries be instructed to prosecute the work of systematic giving in every

Sunday School Progress. The report on Sabbath Schools notes an enrollment of nearly 80,000 pupils and the committee recommend that the care and training of children be the first duty of the church, and that ministers accept the responsibility of establishing a teacher-training class in every congregation and the mission work especially be brought before the scholars.

The committee on evangelism acknowledge "an unusual awakening on the question of evangelism." Extension of the services from two to three weeks is favored, and the synod is asked to endorse "the simultaneous idea in evangelistic work as being in harmony with Presbyterian ideals, and best suited to foster sympathy and co-operation among our congregations."

S. S. Anniversaries. The Metropolitan Sunday School held its 52nd annual anniversary celebration last night. Tea was served to the members of the school in the church parlors, after which an interesting program was given by the scholars, assisted by the Sunday school orchestra, at the conclusion of which Frank Yeigh gave a patriotic demonstration, illustrated by lantern views.

Elm Street Methodist Sunday School celebrated the 58th anniversary last evening. Rev. Dr. Wilson presided and the program was given by the children and others, under the direction of W. G. Watson, the superintendent.

NEWMARKET.

On His Way to See Canal Old Man Suddenly Expires.

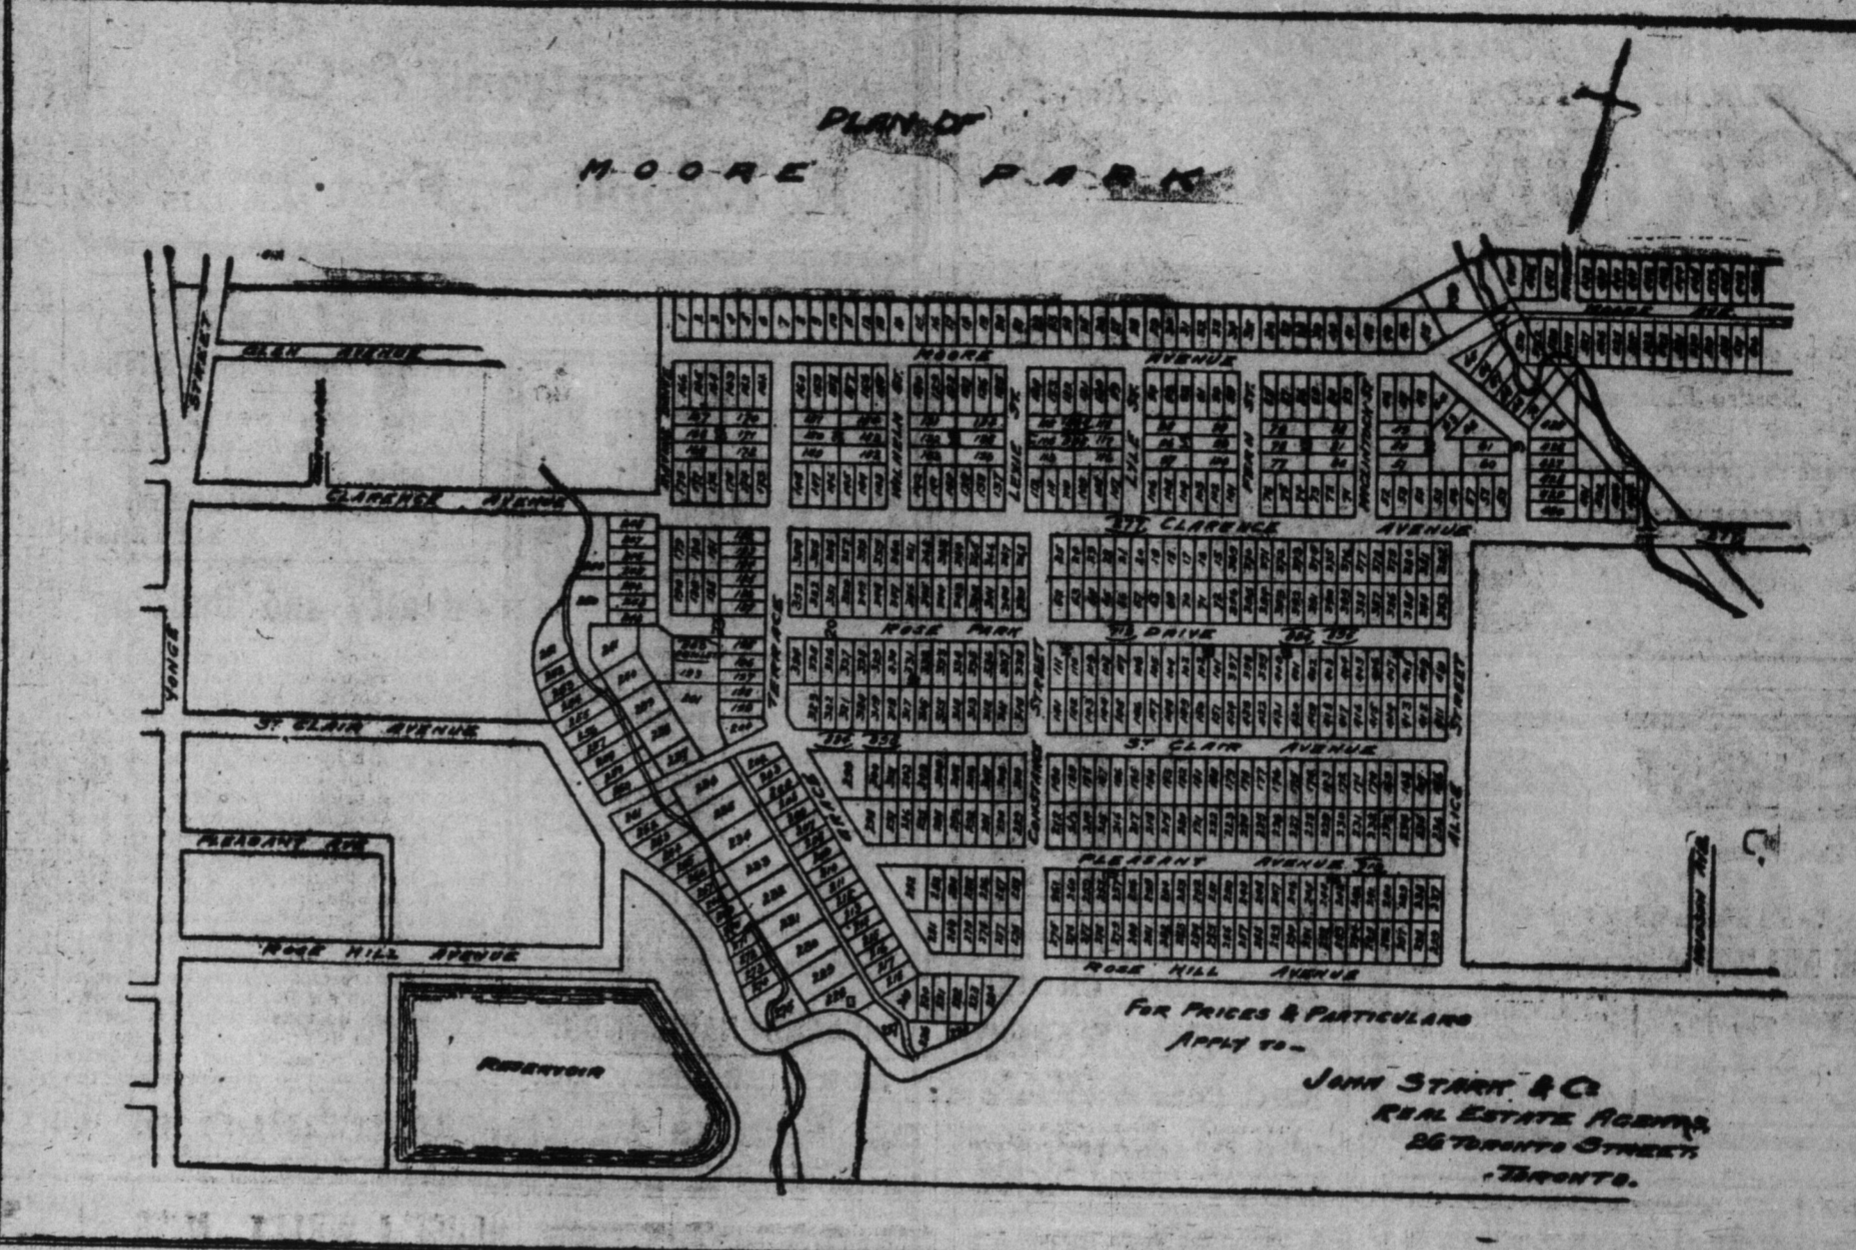

NEWMARKET, May 10.—Andy Shea of Toronto dropped dead while walking north on Newmarket Main-street about 11 o'clock to-day. She was on his way out to see the workings of the canal. He was about 70 years of age, and Coroner Scott, who was called to see him, pronounced death due to heart failure and considered an inquest unnecessary. The remains will be sent to his home in Toronto. Deceased lived at 169 Lippincott-street and was a member of the firm of Shea Bros.

Veterans' Memorial Service.

At the regular meeting of His Majesty's Army and Navy Veterans, held last evening, a very fitting memorial service was held in memory of his late majesty, Rev. E. Gore Barrow said prayers for the royal family and the favorite hymn of the King, "Nearer My God to Thee," was sung by the members of the association. It was decided to hold the annual picnic to Niagara Falls on July 23.

N. TORONTO ASSESSMENT CAUSES BIG PROTEST

Will Be Many Appeals—Sudden Death in Newmarket—General County Matters.

NORTH TORONTO, May 10.—(Special.)—The World on Monday received from a prominent business man in North Toronto the accompanying letter which is so full of good common sense and hard facts that it is reproduced in full.

Can North Toronto afford to purchase another picnic ground when so much money is now required for many public improvements such as: A good permanent roadway on Yonge-street; the installation of an electric wiring system for house and street lighting; \$17,000 for a school and grounds at Bedford Park; a similar amount for a school and grounds in what is known as the Spon Kop district; the right of way thru the cemetery property in connection with the parallel road system; decent and adequate accommodation for continuation class, or high school as some term it; the much needed sewerage system and increased water supply?

With so much before us, it seems quite plain that the town cannot afford to invest its money in luxuries, such as another picnic ground. The citizens of North Toronto are having a hard time to purchase 9 1/2 acres of ravine land (Mr. J. S. Stibbard's cow pasture) at the rate of \$2000 per acre. A local paper, (The North Toronto Progress), in effect says it has been used for years as a picnic ground, and is the only pic-

nic ground in the town to-day. What are the facts? The town last year bought 1 1/2 acres adjoining this proposed Stibbard property, beautifully wooded and watered, and in every way adapted for picnic purposes, and for which they only paid \$5000, or at the rate of \$346 per acre. This property connects with the other 1 1/2 acres which the town already owns, making a block of nearly 29 acres, quite adequate for picnic purposes. Again, on the west side of Yonge-street, the purchasers of the Sparrow farm have dedicated 3 acres of the most beautiful ravine ground for park purposes. Adjoining these three acres is another six or seven acres at the end of Glen Grove and Glencairn-avenues, also dedicated for park purposes. It is quite evident that necessity does not stand behind the proposition of voting money for the purchase of another picnic ground.

The more glaring inequalities in the town's assessments are considered, the more emphatic becomes the general protest against the handwork of Assessment Commissioner Cleland. The commission was in a measure only carrying out the orders of his superior officers, the town council, does not serve to diminish the dissatisfaction generally prevailing. If the court of revision is ever to overtake the plethora of work already in sight, the members will require to work overtime. An increase of nearly \$1,500,000 in one year on a \$2,000,000 assessment for 1909, is even more than the northern suburb with all its apparent progress and prosperity can conveniently withstand.

That good, evenhanded judgment has been shown is not even claimed. The idea that some large blocks of land, remote from Yonge-street on Kensington and Castlefield-avenues, running up to seven and eight acres, and uncultivated, should be assessed at as high as \$6 a foot, while garden and industrial land on the same thoroughfares, at about half the distance from Yonge-street should be rated in some cases as low as \$1 a foot is unbelievable. The cases pointed out are not isolated, and ratepayers may verify the statement by a reference to the assessment department. In the northern end of the town, in the central and Davisville districts as well, there is widespread opposition to the drastic and apparently unwarrantable advances.

The court of revision, with Councilor D. D. Reid in the chair, met to-night to ratify the six petitions relative to the water main piping to be laid in that part of the town known as the Lawrence estate, and comprising Lawrence-avenue, Dawlish-avenue, Devon-crescent, St. Edmund's-drive, St. Leonard's-avenue and Exeter-crescent. The total length will reach approximately 642 ft. assessment on which will be levied as follows: No. 1 815 ft. \$ 419.00 No. 2 1200 ft. 1220.00 No. 3 735 ft. 305.00 No. 4 1208 ft. 1218.00 No. 5 1857 ft. 1880.00 No. 6 357 ft. 285.00

All six petitions were voted upon and carried, but No. 5, entailing an unusual amount of flankage, and necessarily extra expense to the municipality, was at first opposed by Councilors Howe and Lawrence, but was finally carried.

This meeting was followed by an informal discussion of the proposed memorial service. The following resolution was adopted: Honorable Charles Murphy, K.C., Secretary of State, Ottawa, Ont. Dear Sir: The citizens of the Town of North Toronto desire to convey to his majesty, King George V., and the other members of the royal family, their heartfelt sympathy in the loss which has befallen the empire in the death of a great and good King, and beg to assure them that his memory will long be cherished in the hearts of a loyal and devoted people. Alonso J. Brown, Mayor.

Items of Interest Picked Up Around the Town.

WESTON, May 10.—(Special.)—The funeral of the late Mrs. Robt. Shannon took place here to-day from the family residence, interment taking place in Riverside Cemetery, Rev. Mr. McGillivray officiating at the home and graveside. There was a large attendance of relatives and friends. The funeral arrangements were in charge of Undertaker Gardhouse.

There was a well-attended meeting of the Weston Women's Institute in the town hall here this afternoon and great interest was manifested. Election of officers and other business was carried out.

Weston is making a solid and substantial growth and the coming summer bids fair to be a lively one in the building trade. The installation of a modern waterworks system will do more for Weston than any single improvement that the village council could have undertaken. The cost is most moderate, and in the selection of an engineer, the awarding of the contract and, in short, everything connected with the project council has shown great executive ability.

SCARBORO FARM SOLD.

Robert Tabor, a short distance north of Highland Creek, has sold his farm, lot 2 in the 3rd concession, containing 308 acres, for \$4000. While the soil is fairly good, the farm is rough and rolling and not well adapted for agriculture. The buildings, likewise, are not regarded as modern or commodious. Few Scarboro farms can be bought for anything like this money.

PICKERING.

The annual convention of the Women's Missionary Society of the Whiteby district will be held in the Methodist Church here on Friday, May 12, beginning at 2 p.m. An interesting program has been prepared. Next Sunday at 3 o'clock the members of the Ontario Lodge I.O.F. will march to St. Andrew's Church, where Rev. Mr. Moore will give an address.

Had Given Up All Hope of Living.

Heart Trouble Cured by Millburn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Gratton's, N.B., writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they said I was no good. For seven weeks I could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law.

Vegetation.
 The warm weather of March started vegetation unusually soon—from three to four weeks earlier than usual. The latter half of April, however, was very wet and cold, and further advances were much retarded, the result being that May opened with growth a week or two ahead of the average, and three weeks or a month in advance of the normal.

Market Notes

Wheat—Lower—Weak cables and weakness in May option induced heavy selling of futures, but for long and short account closing session with a loss of about 1/2 to 1/4. The market is devoid of any prominent features. We look for a rather narrow market, but do not feel like advising the decline.
