BRITISH CAPTURE BEAUCOURT

Serbian Gain Advantage in Another Balkan Battle

BRITISH KEEP UP DRIVE
FOE YIELDS BEAUCOURT

Powerful Advance Gains Already More Than Five Thousand Prisoners—General Haig's Troops Also Extend Line East of Butte de Warlencourt.

LONDON, Nov. 14.—The British have captured Beaucourt on the Somme front as a result of the continuation of their powerful drive begun yesterday. The prisoners taken by the British number more than 5000 up to the present, according to the official bulletin, issued tonight. The text reads: "The village of Beaucourt-sur-Ancre is in our hands. The prisoners reported to date number considerably over 5000, and more are coming in."

Today a local advance was made east of Butte de Warlencourt, practically all our objectives were gained. Some eighty prisoners were taken in this area."

BRITISH TAKE GROUND
AFTER BITTER FIGHT

Astonishing Progress Made After Intense Bombardment Penetrates Front for 1000 Yards.

Paris, Nov. 14.—The British attack now in progress in the Ancre region was preceded by four days of intense bombardment and began in a dense fog, says La Liberté's correspondent at the front. The British, he says, did not at first have a shot, and were not perceived until they were upon the Germans. Rising from a creeping attitude when a few yards from the German trenches, they charged with loud hurrahs. A French officer who was present said that he observed with astonishment the progress the British troops had made. Every man, says the correspondent, seemed to have a separate mission, and when he fell another went after the same objective. At the village of St. Pierre Division, where the fighting was exceptionally bitter, the British delivered ten assaults, and a whole German battalion, according to the writer, with the major commanding, laid down their arms. According to this correspondent the average depth of front penetrated by the British is from 1000 to 1200 yards.

Canadians' Courage Wins D.S.O.

Canadian Associated Press Cable. London, Nov. 14.—The following officers have been awarded the D. S. O. for gallantry in action: Major Howard Lionel Bodwell, of the Pioneers, with a small party built a roadway under a heavy fire, displaying great courage and initiative. He has on previous occasions accomplished very fine work. Capt. Chas. Edgar Bredin led his company in attack and captured a strong enemy position under heavy artillery, rifle and machine gun fire. Later, he took over companies along the whole line and consolidated a position with great skill and determination. Major Charles Edward Fairweather, with his company, dug a trench 300 yards long in front of the front line, under intense fire, thereby rendering the support necessary to ensure safety of the ground gained by flanking the battalion. He displayed the greatest courage and initiative. Lt.-Col. Eliebert Brown Hardy of the Medicals, controlled the removal of the sick and wounded, and by energy and bravery kept up the courage of the stretcher-bearers when they were much exhausted. Capt. John Burton Harrison led his company with great dash in attack, and when he lost touch with the battalion commander, assumed command of all the troops around him, consolidated his position and organized a defence, all under heavy fire. Capt. Lionel Delisle Keton, M.C., made a valuable reconnaissance and later organized a bombing party, capturing many prisoners with splendid courage and skill, and greatly assisting the advance. Col. Harry Neville Jacques, of the medicals, supervised the clearing of the front and controlled the work of advanced and main dressing stations with great courage. Major George Walker McLeod went forward into the fight, selecting ground to be consolidated and, though severely wounded, made his way back under heavy shell fire and rendered a complete report on the situation. He has always set a fine example of coolness and courage. Harold French McDonald carried out a dangerous reconnaissance under heavy shell fire after a splinter of shell had blown off his arm. He reported the result of his reconnaissance before allowing the stretcher-bearers to remove him. Arnold E. McElligott took complete command of the front line of three companies and with great skill and courage, assumed command

WAR SUMMARY
THE DAY'S EVENTS REVIEWED

BEAUCOURT-SUR-ANCRE was captured by the British, in their advance yesterday in northern France, according to the bulletin from Sir Douglas Haig, issued in London last night. A number of prisoners had reached considerably more than 5000, a gain of over 1700 in 24 hours. More are steadily coming into the cages. The powerful offensive is being continued. The British also made a local advance east of the Butte de Warlencourt. Practically all the British objectives were gained in this area and eighty prisoners were taken. Silesian troops, according to press correspondents, opposed the British in this Beaucourt salient, which is being reduced, and they are of inferior fighting value to the other Germans. The British attacked the foe after four days' bombardment and fierce combats were fought for possession of the villages. The disorganization of the German command is shown from its inability to organize counter-attacks after 36 hours. The present engagement is the most serious yet for the Huns. They have been forced to stand dreadful punishment for months without being able effectively to retaliate; they

BRITISH AIRMEN DROP
TRIBUTES TO BOELKE

Wreath and Two Letters Attest Admiration for Gallant Adversary. Berlin, Nov. 14, via Sayville.—A wreath and two letters from the Royal British Flying Corps have been handed to the parents of Capt. Boelke, the noted air fighter, who was killed recently at the front in France, says the Overseas News Agency, which describes the sending of these testimonials as follows: "A British airman dropped a package behind our lines with two letters. One of the letters bore the inscription: 'In memory of Capt. Boelke, our brave and chivalrous adversary.—The Royal British Flying Corps.' The other letter runs: 'To the officers of the German Flying Corps on this front: We hope that you will find this wreath and letters as worthy as it comes so late. The weather prevented us from sending it earlier. We mourn with Capt. Boelke's parents and his friends. We all recognize his bravery. Kind regards to Capt. Egan and Lieut. Long of the Moran squadron.—(Signed) J. Sergeant Green, lieutenant.'"

BLACKLIST TO
BE CONTINUED
SAYS BRITAIN

U. S. Plainly Told It Has Failed to Suppress Hun Plottings. Washington, Nov. 14.—The British reply to the latest American note protesting against the trade blacklist, made public tonight by the state department, denies that rights of neutral traders under international law have been ruthlessly canceled, defines the blacklist measure as a municipal regulation which the British Government and British citizens and contends that it is designed to shorten the war.

END OF WAR REMOTE
Britain is Determined to Shorten Struggle by Every Just Means.

Washington, Nov. 14.—The British reply to the latest American note protesting against the trade blacklist, made public tonight by the state department, denies that rights of neutral traders under international law have been ruthlessly canceled, defines the blacklist measure as a municipal regulation which the British Government and British citizens and contends that it is designed to shorten the war. The note was submitted by Viscount Grey, the British foreign minister, and was addressed to and transmitted by Walter Hines Page, the American ambassador at London. A part which attracted much official notice dealt with the subject of peace, based on the theory that one American contention had been that there exists no military necessity for the blacklist, that it is unnecessary for the allies to prejudice neutral commerce and that nothing which happens in neutral countries can influence the result of the great conflict. "If that really were the position," says the note, "it is possible that the measures taken by his majesty's government would be different."

Berlin to Sell as "Reprisal"
Castle Owned by a Briton

Berlin, via Sayville, Nov. 14.—As a reprisal against the forced sale of German property in the British colony of Nigeria, Africa, says the Overseas News Agency, the German government has put up for sale the palace belonging to Sir Francis Oppenheimer, former British consul-general at Frankfurt. The estate is valued at 2,000,000 marks (about \$340,000, under current exchange rates).

Large Russ Armored Cruiser
Aground in Gulf of Finland

Berlin, Nov. 14, via Sayville.—According to the Overseas News Agency, a report received from Stockholm is to the effect that a large Russian armored cruiser, either the Bark or the Gromobol, has run aground outside Hangö, in the Gulf of Finland. Attempts to salvage the vessel up to the present have been without success, and it is feared that she will become a wreck, the report says.

HUGHES SAYS INTRIGUE
BROUGHT ABOUT CRISIS

"Petty Ambitions and Intrigues" Charged in Letter Containing Resignation—Two Members of Cabinet Termed "Usually Antagonistic"—Hughes Wanted Sir Max Aitken Appointed to Overseas Post in Place of Perley.

Ottawa, Ont., Nov. 14.—The correspondence which passed between Sir Robert Borden and General Sir Sam Hughes from October 18 to November 11 was made public today at the request of the latter. It shows that the points of difference which finally caused the break between the prime minister and his minister of militia were the establishment of the portfolio of Sir George Perley as overseas minister. General Hughes was anxious to have Sir Max Aitken appointed and objected strongly to Sir George Perley. The correspondence began on October 18 and grew more strained as it proceeded, until finally on Nov. 11 General Hughes wrote a letter which prompted the premier to call for his resignation. In his letter to Premier Borden, his two private secretaries, Miss McAdam and Miss Crossigan, will remain in the militia department in the engineering branch. Gen. Hughes will devote some time to his private business and set his affairs in order. They have been much neglected since war began. His interests are extensive. It is understood that his successor will be appointed at once, but only Sir Robert Borden knows who he will be. He may be either Hon. A. E. Kemp or Colonel Hugh Clark, as it is presumed that an Ontario man will get the appointment.

SERBIANS MAKE GAINS
IN ANOTHER STRUGGLE

Begin Fresh Engagement on Cerna Reka—Foe Offers Stubborn Resistance.

BELGIANS' SEIZURE
STIRS WASHINGTON

Germany Will Be Asked to Explain Wholesale Deportations.

SERBIAN VICTORY
TO BE CONTINUED

Monastir Offensive Will Go on in Spite of Cold Weather.

Athens, Nov. 12, via London, Nov. 14.—Further details of the Serbian victory in the Cerna River region last week have been given the Associated Press by King Peter of Serbia. Chuke, on the western slope of Seltza mountain, which was captured Friday, dominates the Cerna Valley, and the road to Monastir and Prilep. The victory also puts the Serbs in touch with the French at Baldental, and apparently renders a combined advance on Negotin on the east bank of the Cerna and Tebalva, on the slopes of Seltza, the inevitable next movement, comparatively easy. The Germans and Bulgarians were strongly fortified on Chuke, as it was the last height before the plain extending to Monastir. Opposite Negotin, on the west bank of the Cerna, an extensive marsh forms the only remaining obstacle to an attempt at the encirclement of Kenal, where the Germans and Bulgarians are still in force, and to an advance on Monastir. More than 1500 Germans and Bulgarians were made prisoner, among them 30 officers, and eight mortars, 15 machine guns and several mountain guns.

German Steamer Fired
By Norwegian Torpedoes

Copenhagen, Denmark. The Morgenblatt says the German steamer, which stopped when passing Stava. The Norwegian boat fired the rigging, the newspapers boarded the steamer and her wireless. Since the war foreign ships have been permitted to carry wireless telegrams when in Norwegian waters.

Fate of Sestonia's Crew
Is Still in Grave Doubt

St. John's, Nfld., Nov. 14.—The sinking of the British steamer Sestonia was reported in a despatch received here by Bowring Bros., owners of her cargo. It was learned today, by mention was made of the fate of the crew. The Sestonia carried a cargo of props, which were loaded at St. John's, Nfld., for Cardiff, Wales. She registered 2,287 tons.

STEAMER CORINTH SUNK

London, Nov. 14.—The British steamer Corinth has been sunk by a German submarine, says Lloyd's Shipping Agency. This agency states that the British steamer Bernicia is believed to have been sunk. The Corinth was of 3,660 tons, and the Bernicia registered 3,155 tons.

MORE SUITABLE OFFICES NEEDED

Intention is to Place All Military Departments Under One Roof.

PROVIDE FOR TROOPS

Accommodation for Incoming Battalions is Also a Problem.

In connection with the proposition to move the military headquarters of the Toronto divisional area from Exhibition Camp to the old Technical School building on College street...

It is stated that the matter of moving headquarters is partly a question of finding more suitable offices, the bringing of all departments under one roof and also of being ready to accommodate additional military units soon to be quartered in Exhibition Park.

It is announced that 2470 Army Service Corps men are to be recruited in Canada, and the 1500 men to be raised in the eastern half of the Dominion are to have training quarters at Exhibition Camp, Toronto.

The quartering of these units in Toronto means that Exhibition Park will have to provide accommodation for another 2500 soldiers. The headquarters of the Ammunition Column, 200 more men, and the bringing of the four depot batteries up to strength of 300 men each.

Provide Quarters. The quartering of these units in Toronto means that Exhibition Park will have to provide accommodation for another 2500 soldiers. The headquarters of the Ammunition Column, 200 more men, and the bringing of the four depot batteries up to strength of 300 men each.

Fifteen volunteers out of 23 offering at the Toronto Exhibition Park yesterday for active service. They were accepted for active service. They were accepted for active service. They were accepted for active service.

Canadians' Courage Wins D.S.O.

led their soldiers and impaired the men's efficiency by issuing boastful communications about the checking of the advance, and they now see that the prospects of passing another in their trenches have no chance of realization.

observers of the British attack express astonishment at the le. A French correspondent says that every Briton seemed to rate mission, and when he fell another weary Briton seemed to rate mission, and when he fell another weary Briton seemed to rate mission.

The latest operations on the Roumanian front are marked by a slight withdrawal of the allies on both sides of the Alt River, in the Red Tower, Jul Valley-Vulcan Pass region. In the Dobruja no developments in the fighting have been observed. The Russo-Banovan river flotilla has arrived at Semeni, on the Danube, north of Cernavoda. It has been bombarded by the German air force. Heavy onslaughts of the enemy in the daily arrivals in the winter in the first week of November, has carried on until heavy snowstorms block the passes.

In a note to Washington, Britain refuses to rescind or modify her checklist of certain enemy firms in the United States. She tells her allies, among other things, that this measure was necessary to prevent the construction of allied ships from American ports, outrages which the United States had failed to prevent.

DENIES ILL-TREATMENT OF SUB-SURVIVORS

British Admiralty Issues Reply to German Charges of Ill Usage.

London, Nov. 14.—The admiralty has issued a further reply to the German charge regarding the treatment of survivors of the German submarine U-11, including the report of the commander of the British ship which sank the submarine and affirms:

"It is directly, explicitly and completely untrue to allege that there exists any case where an admiralty order that it is not necessary to rescue the survivors of the crews of German submarines."

The commander's report denies that his ship headed toward the boat containing survivors, and says that the boat was not struck, but that when the ship was 20 yards from them the men dived overboard. They climbed onto the boat later and were picked up ten minutes afterwards. There was no surgeon aboard the ship, but the wounded prisoner was treated with as great care as possible. His wounds were washed and bandaged as best possible.

T. Marcus Alleged to Have Brutally Beaten Conductor

Thomas Marcus, 1273 West Bloor street, was arrested yesterday afternoon on a charge of wounding Robert Mercer, 53 Parkway avenue, by kicking him about the head and body on Parkway avenue Monday morning.

Acting-Detective Nicholas made the arrest. According to the police, Mercer was in a street car conductor, was leaving his home for work Monday morning when he was attacked without provocation by Marcus, and beaten into semi-insensibility. Marcus then dragged him into a lane and kicked him savagely. Mercer was discovered by a pedestrian and sent to the West-End Hospital.

Beside Mercer a man's cap was found. Enquiry by Acting-Detective Nicholas led to the identity of Marcus by a Dundas street car conductor as the bleeding, bareheaded man who had ridden on his car the morning Mercer was injured.

Banquet in Board of Trade To Campaigners for Y.M.C.A.

J. W. Wood last night gave a banquet in the board of trade rooms to the 117 men of the three divisions that led in the final day of the Y.M.C.A. membership campaign.

The winning divisions were: Frank Stollery, Central, with 415 men; Dr. McDonald, Broadview, with 79 men; and J. A. Scrymgeour, West End branch, with 230 men.

The guest of honor was G. A. Warburton, who has just returned from a trip around the world in connection with the association. In a brief address he said he was thankful that the young men of the province were now free from the damning influence of the open bar.

TWO YEARS AGO THE SUFFERED

"Fruit-a-tives" Made Him Feel as If Walking on Air.

Orillia, Ont., Nov. 28, 1914. "For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, I relish everything I eat, and the headaches are gone entirely. I recommend this 'pleasant fruit medicine' to all my friends."

DAN McLEAN. 50c a box, 6 for \$2.50, retail size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

IRON HAND TO FALL ON MORE BELGIANS

German Decree Likely to Apply to All Occupied Territory.

Belgian Government Apprehensive of Extent of New Persecution.

Have, Nov. 14, via Paris.—The Belgian Government is in possession of the text of a decree issued from Germany, under the terms of which, subjecting to forced labor all Belgians able to work, and who, for want of employment or for any other reason, are receiving public support. Those subject to this decree, it is pointed out, may be compelled to work in any of the German colonies, that is, may be sent to Germany.

The Belgian Government fears that the decree is about to be applied to the whole occupied territory, as a means of relieving the German military authorities of all unemployed in Belgium. The German Government declares, in addition, that Belgian industries and forcing Belgian workers to accept against their consent, work offered by the Germans, is thus to release German workmen for the purpose of supplying in the army losses incurred in the fighting.

York County and Suburbs

YORK TOWNSHIP TO ELIMINATE GRADE AT EAST DON CROSSING

Frank Barber Submits Plan to the York Township Council.

At a special meeting of the York Township Council, held yesterday, Frank Barber, engineer, submitted a plan for the elimination of the present prohibitive grade at the east Don crossing of the Lawrence side-road. The proposed deviation is at Milne's Mills, and is within three miles of the city limits. If the engineer's recommendations are carried out there will be a four per cent. grade instead of the 12 per cent. at present. The engineer suggested improvements at \$24,000.

The proposed changes to the 4th crossing, at \$4,000. Both the waterworks and hydro-electric matters in the township were advanced at the meeting. Monday's meeting of council will probably see the contracts signed in each.

DEER PARK

Mrs. H. Jennings Buried in Mount Pleasant Cemetery

The funeral of Mrs. H. Jennings of Deer Park took place from the family residence at 112333 Sackville, Monday afternoon at Mount Pleasant Cemetery and was attended by a very large gathering of friends and neighbors. The pallbearers were the sons and sons-in-law and the service was conducted by Rev. Canon Brooks and Rev. W. J. Parsons of Christ Church, Deer Park, with which Mrs. Jennings has been for many years actively associated. The deceased was a member of the association of Wesleyan Jennings, who is in the employ of the Canadian transport service in France, and George, of Saskatchewan, were present at the funeral.

\$27.50 Is the Remarkably Low Price of This Electric Vacuum Cleaner

It's a Most Efficient, Satisfactory and Economical Household Labor Saving Device That Compares Favorably with Electric Cleaners at Almost Double Its Price

By phone or personal request we will send a man to demonstrate this machine in your home, if you reside in the city.

ALMOST EVERYONE knows what a wonderful household labor-saving device is the Electric Vacuum Cleaner, but few housewives fully realize its convenience, quickness, and thoroughness in cleaning all household furnishings day in and day out. The cost has probably been prohibitive for many homes owning one heretofore, but the price of the "Electro Vac," the machine illustrated, has practically revolutionized vacuum cleaner buying in Canada, making it possible for more homes to appreciate its wonderful convenience--in fact, this price should bring it into almost universal use.

The reason the "Electro Vac" is one of the greatest electric vacuum cleaner values in Canada is due to the Eaton policy of buying and selling for cash, thus eliminating agents' fees, commissions, bookkeeping, etc.

Some Important Features and Interesting Facts About the "Electro Vac"

WITH SUCH an efficient machine as the "Electro Vac" it's possible to thoroughly extract dust and dirt from all household furnishings, remove crumbs from the floor after each meal, lint and thread from the sewing room or all signs of a house party. It's a combination suction cleaner and carpet sweeper and can be attached to any household cycle with not more than 115 voltage.

It has two rear roller-bearing wheels that make it easy running over any kind of rug, and a tilting device for raising or lowering the machine to run easily over edges of rugs or over thresholds.

The motor is assembled as a separate unit to the case and propels a strong, eight-blade fan at a high speed, which in turn sucks up the dirt with amazing quickness, and deposits it in a dust-bag, where it cannot leak out, even though you thump the bag. This dust-bag is fastened to the side of machine and, therefore, does not get in the way when handle is lowered to get machine underneath a bed or couch.

The casing of the "Electro Vac" is of sanitary nickel-plated steel that is perfectly smooth inside and out, so as not to hold the dust or dirt.

This machine has an oiling system with an auxiliary feed to prevent burning out bearings through insufficient oiling.

The brush of the "Electro Vac" is a self-adjusting tension type, located in nozzle of machine. It is easily removed and can be regulated high or low, and is very easily cleaned.

Its extra attachments can be fastened to front of machine without taking it apart or turning it upside down.

It starts and stops by simply turning to top of handle--no danger of shock--and has 20 ft. insulated connecting cord that screws into any electric socket.

We guarantee each machine perfect, correctly adjusted, powerful and durable.

THE HIGH COST OF LIVING

Send in your letters giving your opinions on the high cost of living and any suggestions you have to make about reducing the cost. The World and The Sunday World want to hear from every reader on this momentous question. Have your letters written on one side of the paper only, not more than 200 words in length, and address them to the High Cost of Living Editor, Toronto World.

NORTH BAY TRANSMEN CUT COST OF LIVING Community Buying Plan Saves Thirty Per Cent. on Necessaries.

North Bay, Nov. 13.—The railway unions of this town have solved the high cost of living. Some time ago a special committee was appointed to purchase food and fuel supplies as required by their members. The committee have handled within the last week two carloads of potatoes, two cars of wood, forty head of cattle, two tons of mangel, eight carloads of coal and fifty carloads of hardware. In a few days they expect a carload of groceries and two of apples. The committee is composed of 25

members, representing different crafts, and it has saved 30 per cent. on their purchases to date. MORE COLD STORAGE. High Cost of Living Editor: Will you allow me a little space in your paper to say a little on the above subject? So much has been written and said on the subject already and nothing beneficial gained that I can hardly blame you to refuse me. I also read Prof. Mavor's address. Prof. Mavor is undoubtedly a very learned and able man, but utterly ignorant of the cause or he would not have spoken as he did. Two words will tell the cause of the high cost of living today—"Cold Storage." About two weeks ago in the Town of Lindsay 60,000 cases of eggs were destroyed by fire in the cold storage of Flavelle's; 50,000 cases, 30 dozen to a case,

multiplied by 12, will give you the actual number of eggs in this one little cold storage. How many are there today in the cold storage places of Toronto? yet rich and poor are crying for eggs, and this little product of Dr. Hastings' abused bird is selling from six and 75c a dozen for the supposed scarcity, but held up by these cold storage places. Fish is another article. Storage places, nothing to produce, and all our waters should with them today. Why the raise in price of fish? "Storage." Fowl—Only a week or two ago one firm had privilege given to work Sunday, such a large supply of fowl to put into cold storage, bought cheap, and held at 25c a lb., chickens or fowl at that, same with beef, pork, mutton, etc. When things are plentiful, then they should be cheap, not dearer. Why not make every cold storage keep a daily record of every kind of produce taken in, or have an inspector appointed for each one, to make a proper statement of each day's

goods taken in, price paid and not allow it kept in over a certain period. But, I will guarantee millions of pounds of this article are in cold storage, bought at 25c for good butter, and selling whole sale at 40c to 42c. Then grain. Where are all the grain merchants that used to be? All one great concern today. Why should the price be what it is today? True in some parts it was short, but not such as to warrant this jump in many parts of Ontario. The yield all thru of each kind of grain was less than 27 per cent. short. Why today one grain buyer only on the market of the City of Toronto, when a few years ago three or four used to buy? Over one million bushels in elevators of western Canada of last year's harvest and much of this year's unthreshed, all all Ontario storage places at these high prices, and oh what will the consumer have to pay the buyers for his liberal price? Believe me, he will make you pay after he gets it all in. The government should fearlessly and boldly come out, irrespective of hurting any party followers and stop this Any one with sense at all can see at the door of whom this awful charge lays. "You can keep going on with every thing." "Sugar" or "Take granulated," if you buy 1 lb. of granulated, you pay as much to your store for Acadia, beet or other brands of sugar as you do for Redpath's granulated, the highest grade, and every week or so your merchant tucks on a little more to these articles products of "Canada." Thanking you, Mr. Editor, for the space. R. C. E.

COLD STORAGE. High Cost of Living Editor: In the World of the 3rd inst., Mr. Cleo is said to have given a large order for goods to the H. J. Heinz Co., and only got one-half the order filled, getting the other half later at an advanced price. This shows that the Heinz Co. had the goods, and just took the difference out of Mr. Cleo, or his customers, because they wanted it, and saw a chance to get it. Another: Some time in the early part of this fall, there was a cold storage plant burned down in Lindsay. If I am not mistaken, the amount of eggs destroyed was given as one hundred and thirty thousand cases. Butter lost was in thousands of cases, as also was cheese. In fact, I think the cases of butter went up to over a hundred thousand. All that food should have been sold to the thousands of hungry workers who are willing and anxious to buy it. At a time like the present all food should be put on the market, not in cold storage, with the sole object of plundering the public. And again at the annual meeting of the Ontario Flour Mills Co. in Montreal lately, the annual statement of the company showed that during the past year the company had, after providing for two years' war tax and paying its bond interest, a profit of 35 per cent. The Lake of the Woods Milling Co. after paying bond interest and dividends and writing off a liberal percentage for depreciation, had left the sum of \$5,141.66. There is no use making suggestions; no one will accept them, but Mr. Hugh Blair, in his letter in last Thursday's World, gives some advice that, if followed, would save the worker many thousands of dollars and also be better for their health. R. J.

PLENTY OF POTATOES IN THE FREIGHT YARDS Ninety Cars Are Now Standing There Waiting to Be Unloaded.

RAILWAYS WANT CARS Mayor Church Sets a Detective to Work to Make an Investigation.

Probability of an investigation by provincial government authorities and the likelihood of an embargo being placed by railway companies against carload consignments, were the developments yesterday in the situation involving the cars loaded with potatoes which are stationary in Toronto railway yards waiting to be unloaded.

Returning the theory that local potato dealers were responsible, charges were made yesterday that Toronto was the victim of a ring of speculators from eastern provinces. Some railway officials declared that the potato commissioners here were unloading their cars as fast as possible. Railway Threatens Embargo. Thomas Marshall, transportation

director of the Board of Trade, was notified by the G.T.R. Co. that if the congestion of the cars in the company's yards was not relieved, an embargo would be instituted. An official of the company denied that the G.T.R. Co. was in any way to blame for the holding up of the cars. David Spence, a potato dealer, declared that the dealers were innocent of any charges made against them, and said that speculators seeking to profit thru an advance in price, were the responsible persons. Acting under instructions from Mayor Church, a detective is making an investigation, keeping an account of the number of cars standing in the yards and sidings. The mayor, after a conference with the medical officer of health and the commissioner of works, declared that Crown Attorney Corsey would be asked by him to institute proceedings. He said the city was not empowered to take legal action, but that all evidence which came to him thru investigations would be turned over to the crown. ACTION FOR ALIMONY. Action for alimony has been entered by Mrs. Elizabeth Frankland against Stephen Frankland, interim alimony at the rate of \$8 a week is asked.

Have You Ever Had Frozen Milk for Breakfast?

The milk man came about three o'clock —on a bitter winter morning. At breakfast time the milk stood in a frozen mass out of the neck of the bottle. Breakfast was delayed—and you were annoyed.

Perhaps it never struck you—but in addition the salesman and his horse had to battle their way through winter storms in the dark.

We believe day delivery will do away with these evils. You can easily keep enough milk overnight for breakfast. And when our salesman comes in the morning you can take the milk in at once.

Our salesmen will appreciate the change. Delivery will be surer. Both you and we will benefit.

On Wednesday, November 15th, we will commence day delivery. Please save enough milk for breakfast.

THE HILL, 4400 FARMERS' DAIRY WALMER RD. AND BRIDGMAN STREET

Day Delivery Will Be in Effect On and After November 15th 18 Tickets \$1

COST OF MAKING BREAD. Editor High Cost of Living: This may interest your readers. It is a saving in baking at home. The ingredients cost 15 cents for 15 lbs. of white bread. Bakers' price, 30 cents; a saving of 27 cents. Brown or graham bread costs us 37 cents for 14 lbs. Bakers' price, 81c; a saving of 47 cents on bakers' price. This was baked in the home, and is the best, and real good bread. Hoping this will be published in The Motorist's Wife.

WILLS PROBATED An estate valued at \$11,128.08 was left by Mrs. Annie Maria Reynolds. Several bequests are made to her relatives and family, but the most of her estate passes to her son Ernest, in Edmonton. Letters of administration have been applied for in the estate of James W. Duff, who had an interest of \$2000 in a house. One-third of his estate goes to his wife and his daughter Laura receives the balance.

BANK CASE PROGRESSES. Yesterday's session of the action of the Columbia Gramophone Co. of New York against the Union Bank of Canada was taken up with the cross-examination of T. A. Lowrie, auditor for the plaintiff company. The Columbia company are suing to recover \$45,144.88 from the defendants in connection with the frauds perpetrated by the company's chief clerk, W. T. Ott, who is now serving a term in jail. The case is being tried before Justice Middleton, in the non-jury sessions, and will be continued this morning.

DR. CLARKE MAY STAY. It is expected that the trustee board of the Toronto General Hospital will effect a reorganization, under which it is hoped the services of Dr. C. K. Clarke, who recently gave in his resignation, will be retained. It is proposed to relieve Dr. Clarke of many duties of business management, so that his time may be devoted exclusively to the medical superintendency of the hospital.

COMMISSION DOES WELL. For speeding on the Toronto-Hamilton highway the Toronto Motorist paid to the highway commission in two hours at Port Credit yesterday \$185. Court costs totaled \$64.30. Cases tried numbered 25, of which 20 were fined, four adjourned and one dismissed. There were others who did not appear, but who phoned that they would send a cheque for the amount of their fines.

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited, H. J. Maclean, Managing Director.

The Circulation of THE TORONTO DAILY AND SUNDAY WORLD is authenticated by the ABC Audit Bureau of Circulations

—\$3.00— In advance will pay for The Daily World for one year, delivered in the City of Toronto or Hamilton, or by mail to any address in Canada, United Kingdom, Australia and the British possessions enumerated in Section 48 of the Postal Guide.

—\$2.50— In advance will pay for The Sunday World for one year, by mail to any address in Canada, Great Britain and the United States. Postage extra to all foreign countries.

—\$1.00— In advance will pay for Thursday's (main) issue for one year, by mail to any address in Canada, Great Britain and the United States. Postage extra to all foreign countries.

UNITED STATES. Daily World, 15c per week; Daily World, 50c per month; Sunday World, \$3.00 per year; Sunday World, 25c per month, including postage.

It will prevent delay if letters containing "subscriptions," "orders for papers," "contributions," etc., are addressed to the Circulation Department.

The World promises a before 7 a.m. delivery in any part of the City or suburbs of Toronto and Hamilton. World subscribers are invited to advise the circulation department in case of late or irregular delivery.

WEDNESDAY MORNING, NOV. 15

Closing the University

In view of the recruiting and other military work which has been done and is being done by those connected with the university, from the humblest servant to the highest official, it will become anyone to cast reflections upon it, upon its revenue, or upon the methods in which that revenue is spent, and much less to suggest that it be closed.

Whatever is spent on the university is being circulated by its employees for the benefit of the public, a great portion of it going to military and Red Cross societies. That this money is being earned cannot be doubted; if, however, the government thinks otherwise, it can easily take steps to remedy this by reducing the salaries.

Those who think that the university employees do not earn their wages have the privilege of urging the government to lower such wages. But they have no privilege to say that, because all the students have not enlisted, the institution should be closed. That would be a national calamity. To say that no instruction shall be given to prepare men and women for positions involving a knowledge of medicine or science, not to mention the teaching profession, only shows a lack of common sense which is not often observed even amongst members of the local legislature.

It is a matter of fact that the majority of the able-bodied students are gone to the war, along with a good number of the younger members of the staff; there may be a few left; but there are also a great many unfit to go because of defective eyesight or physical disability or for purely private reasons.

Even if conscription came, the university should still remain open to those men and women who might be unable to serve at the front, but who nevertheless might serve it equally as well at home in the capacity of teacher or doctor or engineer.

Marriage of the Insane

There should be some authoritative enquiry into the double tragedy of Brockville on Monday, when a former patient of the Hospital for the Insane murdered his bride of a week and took his own life. The marriage license laws were understood to be sufficiently strict to prevent the issue of licenses without due and adequate notice and enquiry. This man had unsuccessfully attempted to get a license at Brockville, but a week later was able to procure one at Prescott. There appears to have been some laxity in the administration of the law in Prescott, and the matter should be fully investigated.

Anyone who takes the risk of marrying a person who has formerly been confined in an asylum, or whom it has been found necessary to subject to restraint on account of mental aberration must be prepared to take the consequences. Only too frequently have such unions preceded tragedies similar to that which has just occurred at Brockville, but it is difficult to persuade the inexperienced of the danger. The danger to society, however, renders it incumbent on the organized officials and representatives of society to take such steps as will prevent the recurrence of such calamities.

No Majority Needed

Many are at a loss to understand how President Wilson will be able to carry on the government of the United States without a majority in the house of representatives. The best answer has been given by The Wichita Eagle, which says that independents can always be counted upon to support any progressive legislation that may be recommended by the president. The president, of course, is not responsible to congress, but he and con-

gress are both responsible to the people. If the president be with him, and public sentiment be with him, congress is not likely to refuse or obstruct desired legislation. Indeed there is more danger of a narrow-minded and obstinate president vetoing acts of congress and defying public opinion than there is of the house of representatives flouting a president just confirmed in power by a vote of the people.

Our British or parliamentary system, with many good points to its credit, exalts mere partyism above the bounds of reason. We get to think of parliaments as being chosen mainly for playing politics and trying out politicians. In civic affairs we are more businesslike. We see no difficulty in a city council governing Toronto which may be a tie politically, or have no politics at all, and yet we would be unable to comprehend how the parliament of Prince Edward Island, with not twenty per cent. of the same responsibility, could possibly exist without one political party or the other being in control.

Quite often in the United States one political party has captured congress, while the other has elected the president. The country has gone on about the same as the one party was in control of every branch of the government. But the coming congressional situation will be unique. The Democrats have elected their president and have a good working majority in the senate, but they have not a clear majority in the house of representatives. The balance of power in the house will be held by independent members.

But as The Wichita Eagle points out, the president will not be at the mercy of the few members calling themselves independents, one of whom is a Socialist. There will be Republican members anxious to climb on the band wagon of progressive legislation. When the president goes to congress with a measure clearly in the interests of the country he will be all the stronger because his appeal will be to the conscience and the intelligence of the members rather than to threats of party discipline and promises of party pay.

There will be a certain danger of log-rolling in the matter of public appropriations, because Republicans, as well as Democrats, will want to get their share out of the "pork barrel." We had trouble of that kind in Upper Canada when our parliament was allowed to vote money on its own initiative instead of only voting it as now upon the recommendation and advice of the governor. But an extra public building here or there will not bankrupt the United States, and if more localities are recognized perhaps not so much for each place will be appropriated.

The important thing is that no political party has a majority in the next house of representatives. If the president wishes legislation he must convince congress and the people that it is legislation which ought to be passed in the public interests. Now and then the two political parties may come to a deadlock, in which event the four independent members will decide. But we venture to think that on most roll calls party lines will be largely obliterated, and that we will have the unique spectacle of a legislative assembly in a time of profound peace concerning itself mainly about the needs of the country and relegating party politics to second place.

The experiment will be watched with no little interest in Canada, for it is more than likely in the next house of commons the independents will hold the balance of power.

Erect Large Departmental Store on "Mystery" Block

Application yesterday by H. H. Williams to the city to allow the closing of Buchanan street between Yonge and Teraulay streets, gives partial explanation to the "mystery" block bounded by Yonge, College, Teraulay and Hayter streets. On the site is to be erected an eight storey departmental store, but the men behind the project are still unknown. Eaton's are mentioned as the principals, also the Scroggie concern of Montreal. A special meeting of the works committee will be held this morning to consider the proposal.

In return for closing Buchanan street, Toronto is offered a 20 foot strip on Hayter, Yonge and College, for the widening of these streets. On the other side of Yonge street it is proposed to round off the northeast corner of Carlton and Yonge streets.

Excursion to Buffalo \$2.70 Return, Saturday, Nov. 18, via Canadian Pacific, Under the Auspices of the Tecumseh Athletic Club.

This is an excellent opportunity for a week-end outing. Tickets are good going via fast express, leaving Toronto at 9.30 a.m. Saturday, Nov. 18, and valid for return all trains up to and including Monday, Nov. 20, 1916. Full particulars from Canadian Pacific ticket agents, or W. E. Howard, district passenger agent, Toronto.

SECRETARY RESIGNS.

Rev. R. J. D. Simpson has resigned as secretary of the Toronto Ministerial Association, owing to pressure of congregational work.

Estab. 1835

Estab. 1835

TIME BOTH DOMINION AND PROVINCIAL POLICE WERE ON THE JOB

MATTER OF POWER ONE OF NEGOTIATION

Dominion Government Likely to Act on Commission's Recommendation.

AGREEMENT PREPARING

Company's Engineer and Hydro Officials Work Toward Understanding.

Hon. I. B. Lucas said yesterday that he had no doubt that the Dominion Government would act upon the recommendation made by the Hydro Commission and the provincial government as to limiting the export of power by the Canadian Niagara Co.

The whole matter was one of negotiation, as there was no written agreement. On the other hand, the attorney-general expressed confidence that these negotiations would be satisfactorily concluded in two or three weeks. The engineer of the company and the commission were actively preparing the terms of a permanent agreement, which might be the subject of litigation should it not be drawn up with the utmost care.

DEFENDANT MUST PAY FOR DELAYED CONTRACT

Cold Weather Came Before Window Sash Was Completed and Damage Followed.

Mr. Justice Clute, at Osgoode Hall yesterday, gave judgment for \$905.78 in favor of Norcross, Limited, against Henry Hope & Sons of Canada, upon a contract for steel window sash for the Central Toronto Technical High School. The defendant company contracted to supply window sash in 1914 for the technical high school, but did not fulfil its contract in time to close in the building before cold weather arrived in 1914 thereby causing delay and loss to the plaintiff.

The Ebbwcoke Township is being sued by Fred, Ida and Fred H. Hinlon, for \$200 damages, incurred when their horse and buggy went thru the Scarlett road bridge.

Hodge & Sons of Toronto have entered action against Wm. Baumgarten & Co. of New York to recover \$4302.98, alleged due for work done and material supplied between December, 1915, and December, 1914.

The Canada Furniture Manufacturers Limited, of Woodstock, have entered action against the Dominion Cash Co. of Guelph to recover \$15,884, alleged due as principal and interest on property in liquidation.

Willys-Overland Limited, of Toronto, are suing H. W. D. Brown, Buchanan and L. C. Howell of Galt, to recover \$6812.76, alleged due on three promissory notes made by Brown and endorsed by the others.

The second divisional court list for today is: Phillips v. Greater Ottawa Dev. Co.; Cleary v. Ottawa Electric Railway; Cook v. Austin Sanderson v. Sophiasburg; Walsh v. Webb; and Hoffman v. McClow.

CANADA PERMANENT A LEGAL DEPOSITORY FOR TRUST FUNDS Compound interest at three and one-half per cent. per annum credited to all accounts. TORONTO STREET, TORONTO. MORTGAGE CORPORATION

ONTARIO LICENSE BOARD TESTS BEER SOLD IN BARS

In Only One Case Out of Twelve is Percentage Exceeded.

The Ontario License Board has received 12 or 15 tests of beer sold at bars in the province, and so far, except in one instance, they proved to be below the 2 1/2 per cent. alcohol permitted in the act. Some ran as low as .98 per cent, while one reached as high as 4.48 per cent.

The one that was above the test, and which is being prosecuted at present, was found to be plain lager beer as sold before the act went into force. The brewer responsible appeared before the license board yesterday and stated that he was sure that by some mistake some of the regular lager had been inadvertently mixed with the temporary beer.

AN ATTRACTIVE EXHIBIT.

With the opening of the hunting season, Nov. 1st, the Grand Trunk Railway System installed in one of the corners of their city ticket office, corner King and Yonge streets, a very attractive exhibit of trophies of the hunt. The display consists of mounted heads of moose, deer, elk, bear, caribou and mountain sheep, procured in territory served by the Grand Trunk. This display, however, is of particular interest to hunters of deer and moose who annually visit the "Triblands" of Ontario, where they abound, including Muskoka Lakes, "Lake of Bays District," "Maganetanawan River," "Lake Nipissing," "Kawartha Lakes," "Timagami," and "Trinity." Information regarding open seasons in different districts, railway fares, etc., may be had on application to Mr. W. J. Moffatt, city passenger agent.

CITY HALL NOTES

Mayor Church has asked Crown Attorney Corley and Mr. Hughes to take action against the persons responsible for allowing 110 cars of potatoes to be in the Toronto yards pending a boat in price. Five cars only, he says, were used yesterday, and he informs the crown officials that it is direct evidence of a restraint of trade.

Dr. McCullough, chief health officer for Ontario, has called a conference between the local board of health and the board of education, to see if some arrangement cannot be made to prevent overlapping in school medical inspections.

The number of voters in Toronto has increased by over 3000 since last Jan. 1. According to the assistant city clerk's figures, issued yesterday, ward three is the only one which has shown a slight decrease in the number of voters.

When the Power Union of Ontario Municipalities meet in Toronto next Tuesday, it will discuss the proposal to prohibit the export of power during the war.

Mayor Church says the board of control is going to take up the question of overcrowding in street cars and present another case to the Ontario Railway Board.

Before Official Arbitrator Drayton, P. H. Woods is asking \$48,000 for two pieces of property at the corner of Albert and Elizabeth streets, taken by the city when the new registry office site was laid out.

Dr. Hastings has written to the Toronto Railway Co., asking that steps be taken immediately to heat the cars during the cold weather.

Ald. McBride is getting after the Toronto Hydro Commission for its failure to present its report on the installation of the Tolsonam transformer, ordered last year by the city council. At the board of control meeting today he will put in a letter of enquiry, asking why the report was never made, and asking for immediate information.

NO RELIEF FROM POWER FAMINE

Only When Days Begin to Lengthen Will Strain Reduce.

HYDRO PEAK CLIMBS

Commission Could Use Additional Five Thousand Horse Power.

The hydro's "peak" load is still climbing rapidly, and gives every indication of going on doing so indefinitely. If they had it the commission could use an additional 5000 horsepower immediately. The 10,000 h.p. supplied on Monday of last week was used up in two days. The commission has been forced to cut off power at the "peak" from contract customers, instructing them to cease using hydro power for pumps, etc.

The "peak" load is the maximum consumption of power and occurs between the time when lights are put on and motor power is taken off, i.e., from dusk until six o'clock. Some customers get their power at reduced rates on condition that they do not use their machines at this time. The commissions has now 135,000 h. p. available. There is no prospect of relief from the power famine until the days begin to lengthen, and until conclusions are reached with the Canadian Niagara Power Company, which it is reported has advised its American customers that they must expect a cut in their supply of power as the Provincial Hydro Commission had requested 15,000 h.p.

HIS NAME OMITTED.

Thru an unfortunate error, the name of Mr. John Aird, general manager of the Canadian Bank of Commerce, was omitted from the list of the members of the executive committee of the British Sailors Relief Fund. The omission is particularly regrettable as both Mr. Aird and the Canadian Bank of Commerce have always been in the front-rank of patriotic work of every description.

HYDRO RADIAL MEN CALL A MEETING

Commission and Representatives of Municipalities Will Meet Here.

SIR ADAM TO SPEAK

Will Discuss the Problems of Radial and Power Supply.

T. J. Hannigan, president of the Hydro Radial Union, was in Toronto yesterday arranging for a meeting of the union which will be held, he said, in the council chamber of the city hall at 2.30 p.m. on Tuesday next.

Sir Adam Beck will speak on the radial and power questions that face the commission. The meeting is partly to prepare for the radial campaign to be carried on in the Niagara peninsula preparatory to the voting to be held on January first, and partly to lay before the representatives of the municipalities the problems in regard to the supply of power which face the commission.

REV. C. O. JOHNSTON'S FUNERAL SERVICE HELD

Interred at Bolton After a Service at Queen Street Methodist Church.

Rev. C. O. Johnston, a former pastor of Queen Street Methodist Church, who died on Saturday, was buried yesterday in the family plot at Bolton. The body was taken to Queen Street Methodist Church, where a public service was held. Ministers present were: Rev. Drs. Chown, Cleaver, Hincek, and Treleven, and the Revs. H. D.

SOLDIERS PAY NO TAX.

An order-in-council has been passed providing that persons in uniform who have enlisted for overseas service may be admitted to places of amusement without payment of the war tax. This will become effective on the 15th of November.

Business Economy

is effected by the use of special-purpose Underwoods

The Underwood Condensed Billing Typewriter writes the invoice and the sales book entry at one operation—there can be no discrepancy. The duplicate entries are automatically condensed—no waste space on the sales sheet.

There is practically no limit to the size of sales sheet. A series of columns beyond the invoice ruling provides for any classification of sales, departments, lines of goods, territories, etc.

One firm says: "The Underwood Condensed Billing Typewriter and the system accompanying it which you installed for us saved its cost in three months. We consider it the best investment we ever made."

A system designed to meet your particular requirements must necessarily be a vital factor, and this service goes with the typewriter—included but not charged for.

TWO MORE OFFICIALS THROWN UP THEIR JOBS

Secretary and Treasurer Resign Weak Policy of the T. and D. Council.

There was another big row at the regular weekly T. & D. meeting Monday night and as a result two more resignations were handed in, those of Secretary Ed. Spencer and Treasurer Steve Collins.

Fred Mitchener was appointed president to replace Thos. Guthrie, resigned and Corp. Warburton, of the Royal Canadian Dragoons, was added to the council to fill the vacancy caused by Mr. Guthrie's resignation.

The council is now composed of the following: Fred Mitchener, D. B. Brass, McPherson, N. J. Howard, W. E. Curry, and E. Tomlinson.

Upon the appeal of the Ulster Club the case was re-opened and another fiery discussion took place, lasting until the early morning.

The council is now composed of the following: Fred Mitchener, D. B. Brass, McPherson, N. J. Howard, W. E. Curry, and E. Tomlinson.

The Committee whose names are appended have undertaken to present to the people of Toronto the claims to our support of the British Sailors' Relief Fund. They are fully aware of the repeated calls upon your generosity, but do not hesitate to urge the absolute necessity of placing in the front rank the cause of the British Navy and the British Mercantile Marine. Without both we could not carry on our national existence in Canada. We all know beyond controversy that our foreign trade, our mails, our right to cross the seas, our protection from assault at our ports, our credit in the markets of the world, our liberties in every walk of life, depend upon the British sailor, and it is also a fact that owing to the protection of the British fleet nearly 300,000 of our Canadian soldiers have arrived in England without the loss of a single life. Under such circumstances we should be thankful that the number of sailors has increased largely since the war began, and that Britain, because of them and of our ships, still controls the seas, but we must not forget that the sailor and his family suffer the various ills that flesh is heir to, and that he cannot keep his watch on the grey seas in comfort if we do not alleviate these ills as much as possible.

The increase in the number of sailors afloat has, of course, made the demands on naval relief societies much greater than ever before. Any subscription made in Canada will be divided between the Navy and the Mercantile Marine, and as the Government of Ontario, and also the Toronto City Council, have fully recognized the importance of this Fund by each granting a subscription of \$25,000.00, making \$50,000.00 in all, it will be seen that a fair start has been made.

Sir George Perley, G.C.M.G., Canadian High Commissioner in London, will have entire control of subscriptions from Canada.

No public campaign will be conducted, as it is felt that the cause of the British sailor will at once appeal to everyone in a position to contribute, and the Committee therefore ask that you send us as liberal a subscription as possible for this cause, so vital to the maintenance of the British Empire.

Our Safety is Due to the Navy

Our Prosperity is Due to the Merchant Marine

Will You Do Your Bit for the Sailors?

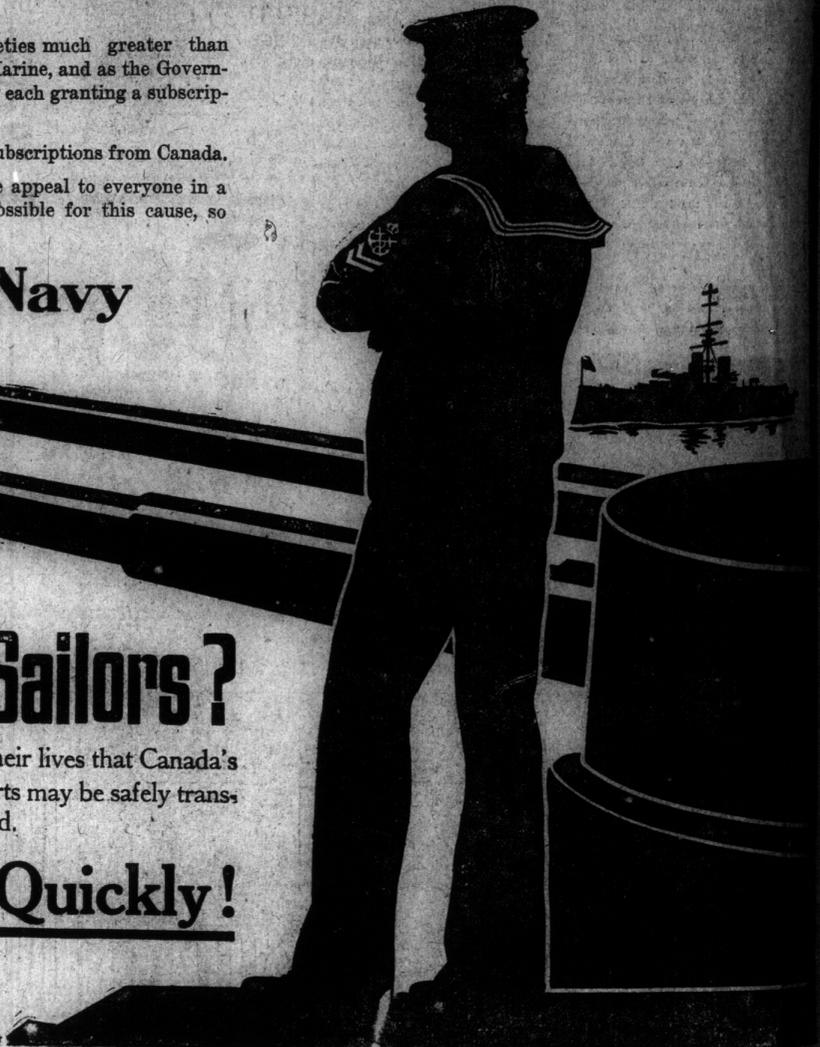

Who guard our shores from attack,
Who carry our Canadian troops
safely overseas,

Who fetch and carry the millions of
letters to and from our loved
ones at the front,

Who risk their lives that Canada's
exports may be safely trans-
ported.

He Gives Twice Who Gives Quickly!

Contributions may be sent to the Treasurer, C. A. BOGERT, General Manager Dominion Bank & to FREDERIC NICHOLLS, 212 King St. West, or to AEMILIUS JARVIS, 103 Bay St.

EIGHTEEN NAMES IN CASUALTY LIST

Latest Reports Show Considerable Reduction in Total.

TWO STATED KILLED

Lieut. John Gilmour Hay, Toronto Lawyer, Died of Wounds.

A much smaller total of Toronto names appear in the latest casualty lists...

Capt. Thomas Maschery, the Conservative member of the Ontario Legislature for Timiskaming, has had his leg badly crushed in France...

Lieut. John Gilmour Hay, brother of M. G. Hay, 200 Davenport road, reported to have died of wounds...

Corporal Walter E. Hulett, 92nd Highlanders, officially reported killed in action, left Toronto last May...

Pte. C. Turner, 198 Langley avenue, reported missing, is now reported as safe in a letter received by his relatives...

Pte. James Brownlee Kerr, Brookfield street, is reported to have died from accidental concussion on Oct. 15...

Sapper William Rennie, reported killed, went overseas from Toronto with the 20th Battalion...

Pte. Joseph Henry Dunbar has been admitted to the 2d General Hospital, Boulogne, with gunshot wound in the head...

Gunner E. J. Devine, son of Edward Devine, 396 West Queen street, is reported wounded. He went overseas with a university battery...

in Toronto and educated at De La Salle Institute. Pte. S. L. Henderson, 100 Bartlett avenue, previously reported missing, is now for official purposes listed as "presumed to have died."

CITIZENS INDIFFERENT.

Failed to Even Lift Their Hats at Col. Allan's Funeral.

Lt.-Col. William Hendrie yesterday expressed resentment at the apparent indifference of many citizens witnessing Sunday's great military funeral. "Is it," he asks, "because the men

in civilian clothes do not know, or is it because of their utter indifference that the many thousands who lined the streets on Sunday, when the last respect was being paid by the Canadian troops, quartered in Toronto, to that gallant soldier, the late Lt.-Col. W. D. Allan, failed to even lift their hats as the body was borne to its last resting place?"

"What a contrast in their behavior and that of our returned wounded C. R. F., who, when, although broken in health and maimed in limb, followed the body to the last."

"Please remember the soldier living feels the indignity of your conduct although sometimes slow to resent it."

BLACKLIST TO BE CONTINUED

(Continued From Page 1).

ment might be described as uncalculated for, but it is not. We may well wish that it were so. Even the military situation of the allies has greatly improved, there is still a long and bitter struggle ahead of them, and one which in justice to the principle for which they are fighting, imposes upon them the duty of employing every opportunity and every measure which they can legitimately use to overcome their opponents.

Truth Plainly Told. In its argument the note points out that German business houses through the world have furthered the cause of Germany in the war and have been active agents in the dissemination of German political and social influence and for the purposes of espionage.

"In some cases," continues the note, "they have even been used as bases of supply for German cruisers and in other cases organizers and paymasters of miscreants employed to destroy by foul means factories engaged in making, or ships engaged in carrying supplies, to the allies. Such operations have been carried out in the territory even of the United States itself, and I am bound to observe what I think will not be denied, that no adequate action has yet been taken by the government of the United States to suppress breaches of neutrality of this particularly criminal kind, which I know that they are the first to discontinue and deplore.

Obvious Right. "I can scarcely believe," it says, "that the United States Government intend to challenge the right of Great Britain as a sovereign state to pass legislation prohibiting all those who owe her allegiance from trading with any specified persons when such prohibition is found necessary in the public interest. The right to do so is so obvious and I feel sure that the protest which your excellency has handed to me has been founded on a misconception of the scope and intent of the measures which have been taken."

Viscount Grey says apparently there are persons in the United States almost impossible to convince that Great Britain is taking measures against its enemies and not merely to foster its own trade at the expense of neutrals. He denies his government "have" such unworthy object in view," asserting that in all cases his government has
