MARITIMES LAUDED FOR BRITISH SETTLER

LORD CLARENDON PLEASED WITH PROSPECT HERE

Will Recommend Eastern Section to Prospective Emigrants OFFERS ADVICE

Stresses Importance of Mixed Farming, Whether in East or West

MONTREAL, Sept. 23.—That the Maritime Provinces offer excellent advantages for the English farm settler is the opinion of Lord Clarendon, Under Secretary of State for Dominion Affairs, who spent a few hours in Montreal yesterday, where he arrived after a week's tour of that section.

"I was greatly impressed with the conditions in the Maritime Provinces," commented Lord Clarendon.

He continued by stating that he was prepared to recommend them to English immigrants who were contemplating farming in Canada, but not in the west. They are closer to England, he said, and he believed that this was a big consideration for certain families.

The defendants in one are the Dominion Distillery Products Company, Ltd., and the Dominion Distillers, Limited, both having their places of business in Montreal, and a number of men whose names figured prominently in the customs inquiry, namely, William J. Hushion, of this city, Leo George, Gregory A. George, D. M. George, all of Montreal, and Jas Cooper, of Walkerville, Ont.

Both Boxers On Edge As Clash Nears

ATLANTIC CITY, N. J., Sept. 23.—Jack Dempsey "never felt better in his life," than today at the end of months of rigorous training routine that have prepared him as well as human agencies can, for his battle with Gene Tunney.

STROUDSBURG, Pa., Sept. 23.—Gene Tunney was called early today to start for Philadelphia, where he expects to be crowned king of heavyweight boxing tonight.

The dash for the battleground was postponed until this morning, so that the contenders might be assured of a night of calm repose. Tunney has an excellent reputation for staying power, and is expected to maintain close working agreement he has with his Stroudsburg coach on the important "light bout."

THREE PORTFOLIOS STILL UNCERTAIN

Venue Mentioned For Postmaster General—Public Works, Labor Open

OTTAWA, Sept. 23.—During the past week, the personnel of Mr. Mackenzie King's ministry, has undergone several changes. It would appear now, as though most of the portfolios had been definitely assigned but a few are still matters for speculation, and even as late as yesterday, an elected member of the House of Commons, Mr. J. C. Bennett, was hurriedly summoned to Ottawa to meet with the leader of the party.

The portfolios of Postmaster General, Public Works and Labor, appear to be still uncertain. It is said here that these departments will be given to Hon. P. J. Veitch, Ferdinand Renfret, Hon. J. C. Elliott, while Hon. Dr. J. H. King, who formerly held the public works portfolio, will take over the department of D. S. C. R. and Health. It is the summing up of Mr. Heenan to Ottawa, which has made the Labor portfolio doubtful. It is known that some cabinet offer has been made to Ferdinand Renfret, though it may be an invitation to enter the ministry without portfolio.

Other ministers without portfolio will be Senator Dunnington, government leader in the Upper House, Hon. John E. Sinclair of Quebec, P. E. L. and A. E. Lapierre, of Niipissing, Ontario.

FREDERICTON, N. B., Sept. 23.—A sentence of three years in Dorchester penitentiary for theft, imposed upon Frank Brayden in January last, at the court of appeal to twelve months in the Queen's county jail.

A police court judgment in Saint John was set aside, with costs in the case in which W. W. Ross, chief clerk of the Federal Public Works Department, appealed from the imposition of a business license and penalty amounting to \$40. The appellant had refused to pay the license demanded by the city of Saint John, while engaged there in connection with departmental duties.

Injunction Suits Against Heavyweight Bout Dismissed

PHILADELPHIA, Pa., Sept. 23.—The application for an injunction to stop the Dempsey-Tunney fight tonight, was dismissed this morning, by the unanimous opinion of three judges in a common pleas court. The court's decision removed the last legal obstacle confronting the bout. Two injunction suits brought by B. C. Clements, Chicago promoter, who claims a prior contract for Dempsey's services, were dismissed. One aimed to restrain Promoter Tex Rickard, and the other sought to prevent the exhibition from conducting the title match.

PHILADELPHIA, Pa., Sept. 23.—Jack Dempsey, champion, and Gene Tunney, challenger, two modern gladiators were glided today to fight for the heavyweight championship of the world and the richest prize in the sporting world—some \$800,000—before the greatest throng that ever paid to view an athletic event anywhere.

SOUSA MEETS FRIENDS OF OLD DAYS IN CITY

Recalls Visit Here and Speaks of Saint John Progress

John Philip Sousa who arrived in his special train with his band this morning spent most of the forenoon at the Admiral Beatty meeting old friends and officials. Among those who called were Mrs. H. Fielding Rankine and daughter on behalf of their uncle, the late Stanley Lawton, who had been a member of Mr. Sousa's band for some years. Mr. Sousa called at the home of Mr. Rankine to meet the older folks, who were unable to get out.

Lieutenant Commander Sousa was in great spirits today and promised the best efforts of his band during their short stay in the city. In speaking of his previous visits he said it was 25 years ago that he made his first visit to Saint John and naturally the band had undergone many changes in its personnel during that time, though some of the veterans remained. Mr. Sousa said that in Halifax and Moncton the auditoriums were filled for the concerts.

DISCUSSES BANDS

Discussing bands in a jocularly comparative way Mr. Sousa said that the great British household bands of the army were considerably fine and contained many master musicians but they look upon him as an outlaw in some respects. The liberties his band took with rhythm, tempo and the more popular qualities of late day works amounted to the next thing to a scandal with the staid British bandmaster and the bandmasters of Europe generally. However, he has played five engagements in London City and Sousa's best friends and cronies were the British bandmasters, of whom Mr. Sousa is very fond. The British bandman is always a thoroughly trained musician and inherently artistic.

In company with Manager Goding of the theatre and Bruce Holder of the Imperial orchestra, Mr. Sousa, Miss Moody and Miss Bamford, motorcade about the city during the forenoon and saw the points of interest, which they especially requested to do. Mr. Sousa displayed a retentive memory in checking up familiar places and said he found the Loyalist City had made permanent strides forward, particularly in its basic, civic utilities such as streets, buildings, traction service, electric light, etc. He also found Saint John cropping up in the news of the world quite frequently and he took some satisfaction from the thought that he helped place it on his itinerary over a quarter of a century ago.

Delay Likely Over Maritime Body's Report

OTTAWA, Sept. 22.—The report of the Royal Commission which has been investigating the rights and claims of the Maritime Provinces probably will not be made public until the new government is functioning. True Politeness

(Goldsmith, in "The Citizen of the World.") Ceremonies are different in every country, but true politeness is everywhere the same. Ceremonies, which take up so much of our attention, are only artificial things which ignorance assumes in order to imitate politeness which is the result of good sense and good nature. A person possessed of those qualities, though he had never been a courtier, is truly agreeable; and, if without them, will continue a clown, though he had been all his life a gentleman usher.

Weddings

Williams-Dever.
A pretty wedding was performed this morning at 7 o'clock in the Church of Our Mother of Perpetual Help, Robesay, when Rev. Joseph Floyd, with nuptial mass, united in marriage Miss Mary Edna Dever, daughter of Mr. and Mrs. Hugh A. Dever, and Ervin Edward Williams, son of Mr. and Mrs. William L. Williams, both of this city. The bride wore a pretty gown of powder blue with hat to correspond, and a becoming fox fur, the gift of the bridesmaids. She carried a bouquet of butterfly and sweetest roses. Miss Kathryn Williams, sister of the groom, was bridesmaid and was nicely attired in peach georgette with hat to match. She carried an old-fashioned nosegay. The groomsmen were Frederick W. Dever, brother of the bride. Following the ceremony, the bridal party with members of the respective families, enjoyed a delightful wedding breakfast at the home of the bride's parents, 88 Clarendon street.

A wide array of lovely gifts attended to the popularity of the newly married couple among their many friends, whose best wishes for future happiness will follow them. The groom is a barrister-at-law and is engaged as clerk of the City Court. He served overseas with distinction as a member of the 24th Victoria Rifles, Montreal regiment. Mr. and Mrs. Williams left about noon on an automobile trip through the Maritimes and on their return will make their home at 164 Princess street.

DOES your man work, Mrs. Wages?

"Oh, yes, he peddles balloons whenever there's a parade in town."
"What does your husband do?"
"He sells smokeless glasses during eclipses of the sun."

SAINT JOHN, N. B., SEPTEMBER 23, 1926.

LET'S GET DOWN TO BUSINESS

Something approaching controversy has arisen between the Mayor and Commissioners and the gentlemen writing on behalf of the 3,000 citizens who presented at City Hall a petition asking for a searching investigation of the assessment and taxation system, the workings of the various civic departments, and all questions pertaining to the collections and expenditure of civic revenue. It is unfortunate that the Council and any body of citizens should appear to be working at cross-purposes at the beginning of an inquiry so vital to the best interest of Saint John. In place of this misunderstanding, which is wholly unnecessary, there should be complete co-operation and agreement upon the end in view and the best method of reaching it.

It is Doctor Brittain to come here who should not receive him in an atmosphere of suspicion or hostility. The mere fact that Mayor White asked Mr. Olive to communicate with Doctor Brittain should not be interpreted as meaning that the investigator's mandate is to be limited in any sense that Doctor Brittain would be influenced by the opinions or the official position of Mr. Olive any more than he would be influenced by the opinions or the attitude of the gentlemen who present themselves as spokesmen for the 3,000 and more citizens who asked for a thoroughgoing investigation of civic affairs.

It is a mistake on the part of any citizen to assume that Mayor White is a public enemy, or even to suggest, directly or indirectly, that he is averse to any form of inquiry which may be necessary to ascertain why our taxes are so high or whether we are or are not getting a real return for the money we collect and expend.

There are whisperings about a recall. This is not the time to discuss any such measure, notwithstanding the fact that the recall is a weapon to which citizens have the right to resort in case their servants at City Hall come to be regarded as signally failing to give the taxpayers fair play and a sound administration. It is obviously wrong to assume in advance that the Mayor will accept a limited mandate, or that the Mayor and Commissioners will employ any investigator and then seek to prevent him from digging deeply into the assessment and taxation situation which so troubles not only the citizens at large—including incidentally the 3,000 signers of the petition—and the Mayor and the Commissioners as well. To talk about a recall at this moment is to draw a pistol which is not loaded. The time to discuss the recall may arrive, but that is extremely unlikely. If Dr. Brittain should come here, and if it should thereafter appear that the gentlemen at City Hall were not in earnest in reference to a complete investigation, we may apprehend that a man of Doctor Brittain's standing would decline to serve. Should he be engaged, it is only reasonable to assume that he will do his utmost to find out why taxation in Saint John is so high, and whether or not we are receiving a fair return for the amount of money we actually collect and expend.

The inquiry, we must assume, also, will go farther than that. It will involve, necessarily, the relations in taxation matters existing between the city and the county, the failure to collect a proper proportion of the assessed taxes, the arrangement under which the citizens are taxed for school purposes by a body in no sense responsible to the city, by a non-elective board whose levy for school purposes is subject to review or to control not by the people who must provide the money but only by a Legislature which is in no sense rightly acquainted with Saint John conditions.

The gentlemen who are assailing the Mayor and Commissioners in advance of Doctor Brittain's visit for the purpose of consultation would do well to hold their horses until such time as they have just cause for believing that City Hall is not acting in good faith—a time which is unlikely to arise. Should it arise, they may then discuss a recall with some prospect of commanding public support. So much as to the plain common sense of the situation is due not only to the Mayor and Commissioners but also to the great body of taxpayers who are confidently expecting an inquest sufficiently searching to indicate what can be done to improve our methods of assessment and of taxation and also our administration of the various departments at City Hall.

Mayor White has been in office but a short time, and it is wrong to assume or to suggest that he will fall to employ his recognized ability and all the powers of his office to promote the welfare of the city, not only with respect to taxation matters but in relation also to the expansion of the port—one of the most vital of all questions before us—the securing of more industries, the betterment of our relations with the rural communities and the province at large, the beautifying of the community, the absorption of Lancas-

ter and East Saint John, the question of a harbor bridge uniting the east and west sections, and other projects affecting the contentment and prosperity of the people of Saint John.

When Doctor Brittain comes here—assuming that he does come—the public, undoubtedly, will be informed fully as to the scope and authority given him, and it will be time enough then to judge as to whether or not the interests of the taxpayers are likely to be thoroughly served.

But, aside altogether from the investigation of civic matters, which will likely demand legislation, there is, in the meantime, nothing to prevent the Mayor and Commissioners from dealing with the manifest inequalities and injustices resulting from the operation of the taxation system today. It requires no legislation, no investigation by municipal experts, to convince the Mayor and Commissioners that some citizens—a great many, indeed—are paying the taxes of other citizens. His Worship the Mayor and the Commissioners could not examine this year's list of tax bills without discovering—thousands of citizens have already discovered—that the working out of the present system results in gross evasion in many instances and heavy penalties in many more. To deal with this crying evil is a duty at this moment incumbent upon City Hall, no less than it is its duty to press to an early conclusion a complete investigation of our whole situation regarding taxation, expenditure and administration.

THE JEWISH RETURN TO PALESTINE

Discussing the rehabilitation of Palestine during the Jewish year 5686 just closed, an article in the Canadian Jewish Review asks for "a more earnest and more purposeful attitude" on the part both of the British Government and of the Jewish people, though it admits that the task of administering a country where Jews and Arabs live side by side is far from easy, also that the Government of Palestine under Sir Herbert Samuel carried on satisfactorily to all that "the government under the new High Commissioner, Lord Balfour, has shown itself to be fair and just in its relations with the Jews no less than with the Arabs."

The writer is Mr. Harry Schneiderman, editor of the American Jewish Year Book.

Several points of interest stand out. In the twelve months ended June 30, 1925, 29,142 Jews entered Palestine against 10,380 entering the United States. In the calendar year 1925 33,800 Jews entered Palestine. It is calculated that \$50,000,000 has been invested in Palestine from Jewish sources since the war. The British Government is willing to guarantee so to principal and interest a loan of \$22,500,000 for development projects. Jerusalem has a water supply and water-power will soon provide electrical energy. Jerusalem, Jaffa and Haifa will shortly be in telephonic communication with Egypt. Schools are receiving an increased grant in aid.

All in all it is a story of steady progress which Mr. Schneiderman sums up in the sentence, "Great strides were made in the work of rebuilding the Jewish national home in Palestine during the past twelve months."

POEMS I LOVE

"The Quiet Life," by Alexander Pope.

THE didactic poetry of Pope may seem old-fashioned to us now; but he has a value none the less. Who was it that said that life is nothing but discovering the truth of platitudes? And though Pope's homely rhymed sayings may seem stale now, they were fragrant young once upon a time, and cannot be dismissed as the mere energetic chatter of a verifying school-master.

Happily the man, whose wish and care
In health of body, peace of mind,
Content to breathe his native air
In his own ground.

Whose herds with milk, whose fields
With bread,
Whose flocks supply him with attire;
Whose trees in summer yield him shade
In winter fire.

Blest, who can unconcernedly find
Hours, days and years slide soft
Away
In health of body, peace of mind,
Quiet by day.

Sound sleep by night; study and ease
Together mix'd; sweet recreation
And innocence, which most does please
With meditation.

Thus let me live, unseen, unknown;
Thus unlamented let me die;
Steal from the world, and not a stone
Tell where I lie.

DINNER STORIES

A YOUNG Indian student whose knowledge of English was not as good as it might have been had been good a Christian, and was writing to the missionary a letter which he wanted to end with the sentence, "May the Lord preserve you." After consulting the dictionary, he felt very pleased with himself as he wrote, "May the Lord pickle you forever."

THE stout old lady was struggling valiantly, but against odds of some 200 pounds, to mount the high step of the waiting jitney.

"Come aboard," urged the conductor. "If they had given you more yeast when you was a gal you'd be able to rise better."

"Yes, young man," she retorted as at last she hoisted herself triumphantly up. "And if they'd given you a bit more yeast you'd be better bred."

"I WISH" said the little invalid who was being washed in bed, "that I need never never have to be washed again."

"I'm afraid," said mamma gently, "that as long as you have me to take care of you, you'll have to reconcile

CLOSE SEASON FOR MOOSE HERE IS RECOMMENDED

Fish and Game Association Also Suggest Deer License Cut

MORE REFUGES FOR GAME ASKED FOR

Would Take Act Out of Politics—A. G. McAvity Again President

Special to The Times-Star.—McADAM JUNCTION, N. B., Sept. 23.—The New Brunswick Fish and Game Association, in annual session here last night and this morning, recommended that there be a close season on moose in this province for two years, and also that the deer license be reduced to \$25. Another resolution was in favor of more game refuges, and it was stated the administration of the Game Act is independent of politics would be strongly urged upon the government this year. Next year's annual meeting will be held in Woodstock.

OFFICERS RE-ELECTED
The officers were re-elected, as follows: Allan G. McAvity, president; Dr. McIntosh, Hartland, vice-president; Francis Kerr, Saint John, secretary; E. S. Marston, Woodstock, treasurer. Mr. McAvity presided at the meeting. Among those in attendance were Hon. C. D. Richards, Minister of Lands and Mines, and Chief Game Warden L. A. Gagnon.

PRESIDENT'S ADDRESS
In his annual address, Allan G. McAvity, president, said: "Every sportsman, and every normal human being is more or less a sportsman, desires to pass on to his growing boy the same, or better, chances for the pursuit of happiness when in the great outdoors. The question arises, 'What can one do to improve these chances?'

Individually nothing can be done. The Game Act will stand in almost the same disrepute as the Game Act unless sportsmen unite to create respect for it. The wild pigeon, the caribou, and the sturgeon are locally extinct in New Brunswick. The partridge and moose are threatened with extermination, as with so many modern effective agents for slaughter, (automobiles, pump guns, dynamite, saw mills, fur traders, etc.), we tremble for the future chances for our boys in pursuit of game in our beloved province.

SUGGESTIONS MADE
The suggestions from the association to the government for improvement of the Game Act, coming as they do from all branches and being the unanimous opinion of uniting sportsmen, are bound to have influence. More than half of our last year's recommendations were acted on and four out of ten were incorporated in the law this year. These four were as follows:

1.—That moose be protected until their heads contain 10 points.
2.—That only salmon licenses be issued non-resident fishermen for streams frequented by salmon and trout.
3.—That grouse and partridge be protected for at least two years.
4.—That an effort be made to enforce the law requiring that the holders of game licenses return a report

AN INTERNAL BATH HIGHLY RECOMMENDED
A prominent physician made the remark recently that if people were half as particular in regard to internal cleanliness as they are about external appearance three quarters of our ordinary ailments would be eliminated. This medical man said people did not stop to think of the importance of keeping the system just as clean as one is careful to keep hands, face and body. The result is that the intestinal tract becomes clogged and waste material which should leave the body daily stays there for an indefinite period doing a harm few people realize. So many pills are traceable to these clogging poisons! An internal bath sounds novel, but it is much easier to take than any other kind! A spoonful of Sal Lithos before breakfast (or any other meal), dissolved in a glass of tepid water acts as a gentle cleanser of the bowels—provides a soothing internal bath that rids the body of dangerous toxic poisons and gives one that feeling of freshness, vigor and well-being. A further advantage of the internal bath lies in the fact that a healthy body ensures an alert and active mind which makes for greater efficiency and happiness in one's daily work.

of the bag during the season, and that a guide conducting a non-resident be held responsible for compliance.
We could not, it did not, expect Items 1 and 2 to be adopted. These requests were too strong for the present government to even consider seriously, but although we may be asking for more than we are likely to receive I hope that these same two points will be incorporated in this year's recommendations. Possibly a different wording might be effective. The wording last year was as follows:

FOR GAME COMMISSION
1.—That a game commission of non-political business men be appointed to administer the Game Act, employ permanent wardens upon merit only at a decent living wage, and have control of registered guides. The commission to act without remuneration.
2.—That the appointment of game wardens be taken out of politics and that wardens be appointed on the basis of experience and ability. Moreover, that the number of wardens be reduced and a higher wage paid to competent employees.
At our meeting with the government last summer, Premier Baxter stated that the sportsmen had registered very emphatically their objections to many of the changes of wardens. At the time these changes were made it is doubtful if the government anticipated such a storm of protest. No adequate defence can be made by any government if the storm of protest is loud enough. Therefore it seems advisable for us to continue to demand with a louder voice that the enforcement of the Game Act be divorced from politics.

CHANGES AMONG WARDENS
In no other province, or no state in North America, has the Game Law been so upset by politics as it has in New Brunswick. With the last change of the government 62 wardens were dismissed and 104 new ones were taken on. We know that many good men were fired and many poor men were taken on, and that most of the changes were due to politics, and under these conditions we never can expect a satisfactory enforcement of the act.

MORE SANCTUARIES
Second only in importance to the reform of the Game Law from politics comes the demand for more game refuges. We now have only two large refuges and we should have ten times that number. From Salisbury there has been an agitation to enlarge the Canadian reserve, also a suggestion that refuges be established in Albert and Saint John counties. In addition to the large refuges we should have about 100 hundred small refuges with an area of four square miles each. These could easily be taken from Crown Lands and would not require a special caretaker as the game warden in that district could easily look after the small refuge as well. It was found in Pennsylvania that the sportsmen realized that these small refuges were for their own good and respected them. In Pennsylvania the objective was to have 200 small refuges by 1926.

PLACES SUGGESTED
There is a further chance to encourage these small refuges among individuals. The purchase of the Swinney Grant in Gloucester county by Sir James Dunn will give an excellent refuge.
From Hampton comes a suggestion that a refuge be made for muskrats, which might easily be done by securing the consent of three farmers who own between them the larger part of the Hampton marsh.
Item 3 of last year's recommendation that more game refuges be established should undoubtedly be presented again.
Item 4 that the sale of big game, game birds and trout be prohibited should also be carefully considered for presentation in this year's recommendation.
Item 5 was considered by the government and was discussed in the House, but opposed by rural members. This item reads:
8.—That bear be considered a game animal and protected from December 1 to September 15, but that bear may be killed at any time when doing damage to stock.
Guides and sportsmen deny that the bear is a dangerous animal and is not usually a marauder.
Item 9 that closer check be kept on fur buyers and the laws enforced by cancellation of licenses, was recommended for the protection of native fur dealers from non-residents.

LAKES AND STREAMS
The damage done to lakes and streams by portable saw mills seems a suitable subject this year. The trees around a lake add much to the beauty of it and also provide food and shade for fish. A survey of how many lakes and streams have been destroyed, with photographs of a pile of sawmill left behind would prepare for an attack against this wanton and useless destruction. In most cases these mills might easily be forced to locate at

THOUSANDS JAMESQUICITY FOR BIG BOUT

Continued from Page 1.
200,000 would seek the vicinity of the battle ground by nightfall. From 70,000 to 100,000 visitors were expected with as many more native townsmen and women intent upon being at least in proximity to the battle of a 'century and a half.'

The advance guard of the visiting battalions, numbering close to 50,000, converged on the city overnight, with as many more expected during the day, chiefly by dozens of special trains from New York, Washington, Baltimore, Chicago and other big centres.

Unable to obtain hotel or rooming accommodations, hundreds spent a sleepless night or sought repose in any available spot, preparatory to joining the rush toward the turfstalls. These were to start clicking at 8 p. m., but promoter Rickard expected the jam to necessitate opening of some of the stadium gates before.

DEMPSEY FAVORITE
Dempsey, one of the most devastating punches the ring has ever known, has been established a heavy favorite. Wagers on him accepted as a barometer of public opinion, have reflected a steady lengthening of odds from 2 to 1 to close to 4 to 1, as the time for the bout approached.
The champion, even though some doubts were entertained as to his ability to come back after a three year layoff to regain his old punching power and speed, has been conceded a decisive margin because of his experience, terrific attack and ability to absorb punishment.
Dempsey, all critics believe, will make a rushing, tearing battle of it, from the start, just as he did against Jess Willard, whom he dethroned in 1919, and just as he did in conquering Luis Firpo in his last title fight three years ago.

TUNNEY'S DEFENCE
Tunney's best prospect of victory, was conceded to be in the fighting going the limit or close to it. The ex-marine's defence has been built upon the idea of stopping Dempsey's early rush and his attack upon the theory, that if the first shock is weathered, Dempsey will be a ready target.
Tex Rickard hopes Dempsey and Tunney will make a hammer and tongs

BIRD HUNTING.

A discussion developed on bird hunting. It developed that two counties in Nova Scotia, Shelburne and Queens, have ducks all season, also that the season does not close until February 15, two weeks later than any place else in Canada or U. S. A., but a provision was made that all hunters should report their bag for the season.

Those added since are McAdam branch; York-Sunbury branch, Magaguadavic branch, St. George's Ormococt Club, Fredericton; Loch Lomond Association, and Juniper; Carleton County branch, St. George's Ormococt Club, Fredericton; Loch Lomond Association and R. Young trustees. The officers of the N. B. Association for the year just closed have been Allan G. McAvity, Saint John, president; Dr. McIntosh, Hartland, vice-president; Francis Kerr, Saint John, secretary, and P. S. Marston, Woodstock, treasurer.

HON. MR. RICHARDS

Mr. Richards in opening his remarks said he would do all he could to help the organization and would be fair in all his dealings with them. The speaker mentioned the close season on partridge and said it may continue. He said he appreciated the effort of the association in this matter.

SAVE THE FORESTS

Mr. Richards in closing asked the audience to do all in their power to protect the forests which are needed next to agriculture as a provincial asset.

OSZARK RIPLEY SPEAKS

J. B. Thomson, known as Ozark Ripley, said he found the Game Law in New Brunswick was for fishing. Does the doctrine of protection of fish and game ever reach the mind of the country, asked Mr. Thomson, in discussing the results of the efforts of such associations as this and answered himself in the affirmative.
The speaker also instanced the case of Louisiana where marked hunters were stopped by a protective association. He suggested that violators be taken into the society and converted to their ideals.

CHIEF GAME WARDEN

Mr. Gagnon next spoke and said he had seen a great improvement since

Yarmouth Man Is Guilty of Perjury

If Possible, Send Your Girl Away to School; It Will Broaden Her Whole Life, Increase Her Health in Mind and Body and Give Her the Valued Interchange of Ideas and Ideals Among Other Girls.

THIS is the time of year when the average mother begins to lie awake at night trying to settle the school problem for her daughter, and when she is likely to think rather enviously of the halcyon days when a girl's education consisted in acquiring a fine copper-plate chirography and learning to make hair flowers.

Fortunately for the world, those days are indeed, of the past. Nobody now denies a girl the right to an education or questions her need for it, and so the matter resolves itself into the problem of ways and means, of the relative merits of public schools and private schools, of tutors and governesses at home and colleges abroad.

The selection of a school for a girl is a difficult one. Picking out a husband for her is not a more delicate matter or one that will affect her happiness and usefulness more. A girl's school days are the formative ones of her life. They make her traditions, they form her ideals and set their indelible seal upon her.

MANY elements must necessarily enter into the selection of a school. The girl's social rank and wealth, her bent of mind, her purpose in life, whether she intends to enter a profession or not, all deserve consideration; but the most important thing of all and the one that outweighs them all is the association to which the girl will be subjected.

Never send a girl to school to a woman who is not a refined gentleman for any education, no matter how brilliant a scholar it leaves a woman, no matter how it cultivates her intellect, is a rank failure if it does not make her a lady.

ANOTHER thing is the absolute necessity that a child should be interested. Any girl who is not a candidate for the school for the feeble-minded will be interested in her studies if they are properly presented to her mind.

If school is a bore, it is the teacher's fault, and her parents do well to keep changing schools until they find some instructor who has the heart and brain and enthusiasm to kindle the fire of learning in the youthful mind.

TEACHERS are as truly born, not made, as poets, and it is one of the misfortunes of society that the calling which should be a sacred mission is so often followed merely as a profession.

The boarding school was ordained by an All-Wise and Merciful Providence for the regeneration and salvation of the spoiled and indulged American girl, and it is the greatest missionary of sweetness and light in the world.

OF COURSE, the chief advantage in sending a girl off to school is that it gives her the atmosphere of study which all brain workers find so essential to their best achievements. At home there are a thousand distractions—balls and parties, theatres, the coming and going of company—that fill her mind with eager anticipation of the times when she will, too, be of the gay world, even if she is not actually permitted to dip in it, while at school there is nothing to break the quiet round of studious days or woo her attention from her books.

Another advantage of the boarding school is that it broadens a girl's whole life.

THE girl who is educated by a governess at home is likely to be either dull or a prig. She has had no chance to brighten her wit by rubbing salt upon other girls' heads; she has not the privilege of measuring her own attainments with others, and because she is a group of relatives marvel at her achievements she considers herself a genius.

The Sports Costume Possesses New Feature

Piece costume allows beautifully for the active moments of the game and is wisely chosen by many. Golf allows more freedom in selection of clothes. For the cool days there are wooleens which combine into smart shirts and jackets, or sweaters and skirts. Two-piece frocks in the knitted or days demand a silken costume in either one or two pieces, which is extremely sporty in its coloring and pattern. The hat, which shades the face, is an important part of the golf costume, and those of gay patterns and shoes to match the costume all add to golfing chic.

The secret of the correct tennis costume is that it fits as well in action as it does in repose. Styles in these dresses vary and skirts entirely pleated, or kick pleated in front, or plain and attached to a brauser are all smartly worn. Jumpers, in the two-piece mode, are new as to neck and sleeve, but particularly attractive in colors on the tennis court, but the steady player usually appears in white and relies upon cape or sweater for color. The one-piece dress which makes for comfort may be found satisfactory for walking and in this costume it is well to add shoes of low heels and comfortable last as well as fashionable cut.

THE RHYMING OPTIMIST
By Aline Michaelis

ONE day, you know, the perfect hour will dawn when all your cares will fade and pass away; all woes will perish and all griefs be gone, you will be free one day! Today there is a never-ending train of cares to turn the golden hours to gray, you see hopes flicker out and gladness wane while troubles wax, today. But always from those shining days to be in these dark times you can some brightness glean, can peer beyond the mist until you know, will make all losses good, its radiant skies no present can betray; look to the future then in tranquil mood, await this unborn day. Forgetting all this pain and pain, go forth in armor borrowed from that time when light will come and all the shadows wane—when life will move to rhyme!

FOR Sour Stomach PHILLIPS' Milk of Magnesia
Hereafter instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, gassy stomach, and relief will come instantly.
BETTER THAN SODA
For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gas. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Business is so good at the factory of the Wilson Box and Lumber Co. Ltd., that they have started this week running overtime. This being the largest box factory in the Maritime Provinces it indicates a decided start upwards in general business activities as the box business, like the steel business, is regarded more or less in the light of a business barometer.

Wilson Box and Lumber Company have about 75 people on their payroll and their factory runs the year round.

Pile Sufferers

Can You Answer These Questions? Do you know why ointments do not give you quick and lasting relief? Why cutting and operations fail? Do you know the cause of piles is internal? That there is a stagnation of blood in the lower bowel? Do you know that there is a harmless internal remedy discovered by Dr. Leonard and known as HEM-ROID, now sold by Watson's two stores and druggists everywhere that is guaranteed? HEM-ROID cures piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for cure, safe and lasting relief to thousands of pile-sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you.

WHEN A MAN LOVES A MAID

Love leads people into lots of troubles—sometimes it even leads them to a spanking. Billie Pettit and Jean Miller, of Cleveland, Ohio, decided to elope one day. They hopped on a street car and were taken in tow by a cop when they couldn't pay their fares. Then they were taken home and spanked. They're shown together here. Both are 3.

3 MEMBERS OF ONE FAMILY SUICIDE

Father, Son and Daughter Take Lives by Shooting; Another Girl Tries

ROBLIN, Man., Sept. 22.—This quiet farming community has been shocked by a series of tragedies which have resulted in four deaths and which may result in a fifth.

Three members of the Little family have died from self-inflicted gun-shot wounds and a fourth member of the same family is reported in a serious condition at Roblin, a small town east of here, also as a result of an attempt at suicide.

On Sept. 18, Ross Little shot and wounded a neighbor, James Munro, and then committed suicide by shooting himself through the head. A brother, George Little, and a sister lived on a neighboring farm.

DOUBLE SUICIDE Today police answered a summons sent by letter from George Little. When two constables of the provincial police force reached the Little home, they found the bodies of George and Myrtle, his sister, lying outside the house and partly covered by snow. Each was shot through the head, and from the position of the bodies and the na-

ture of the wounds, the police have reported a double suicide.

Scarcely had the town heard the news of this tragedy when word came from Roblin that Miss Allie Little, another member of the family, had attempted suicide by slashing her throat. A local doctor left immediately for Roblin, but no report has been received from him early tonight.

KINGSTON, Ont., Sept. 22.—Thos. McCoskey, convict K-994, a Portsmouth Penitentiary inmate, was found guilty of murdering Earl Jenkins, guard of the penitentiary, on August 28 by a jury under Mr. Justice Logie here this afternoon, and sentenced to be hanged on November 28.

McCoskey killed Jenkins with a crowbar while working with a prison gang in the penitentiary grounds.

Lunenburg Fleet Makes Heavy Catch

HALIFAX, Sept. 22.—The catch of the grand fleet of Lunenburg was much greater this year than last, according

to A. H. Zwicker, of A. H. Zwicker & Co., Ltd., fishing firm and ship owners of Lunenburg. Mr. Zwicker said that every vessel had returned loaded. The catch of the summer trip was over 260,000 quintals, including the handliners, and the catch of the two spring trips was 106,000 quintals.

DOCK ST.-GROWING SHOPPING CENTRE

Enterprising Merchants Boost Shopping Locality
 —Paint, Re-Model and Improve
 Many Properties

SOME OF CITY'S FINEST STORES

Electrical, Hardware, Furniture, Gent's Furnishings, Druggists,
 Ladies' Ready-To-Wear, Tailors, Plumbers, Mill and
 Contractors' Supplies—Improving Continually

DOCK STREET of today, compared with the Dock street of ten years ago, could not be recognized as the same street. Many fine stores now meet the eye, well painted, well stocked and artistically decorated. In place of the old muddy, ill-paved and badly lighted street, we now have a well paved locality, brightly illuminated by the many stores with their special high power lighting systems.

Many improvements have taken place in Dock street during the last few years, and improvements are still going on, making it reasonable to assume that before long this street will become one of the city's most important shopping centres.

RECENT IMPROVEMENTS
 Progressiveness, such as is being shown by the Dock street business houses, is gratifying to the whole community, and worthy of the co-operation of every citizen with the welfare of the city at heart.

One of the most recent improvements now just completed is the re-decoration of the H. M. Hopper electrical store. Mr. Hopper has repainted and improved the lighting system of his large store, adding greatly to the appearance of the street, and at night the illumination is remarkably effective, owing to a special color scheme carried out from the top to the bottom floor.

Some time ago, Robertson, Foster & Smith, Ltd., remodelled the interior of their retail hardware store, installing new wall fixtures, silent salesmen, cash carrier system and other improvements, and can boast a store that is as well equipped as any in the city. They conduct a growing retail business, and have a wide connection throughout the city.

Another store that is keeping pace with the times is the bright and neatly kept business premises of Estey & Co. Ltd. Mr. Estey is a business man of the progressive type, as can be judged from the appearance of the store, too, adds considerably to the approach of the street, and is conducted in an efficient and enterprising manner, with well selected stock and attractive window trim.

REAL SHOPPING DISTRICT
 No one can travel Dock street without pausing to admire the fine display always seen in the great Marcus furniture store. This enterprising company certainly has done much to make Dock street a real shopping district. Large plate glass windows, well painted front and beautiful floorings all tend to show off the company's fine stock of house furnishings, and after dark, the tasteful store lighting has brought forth many words of appreciation from passers by.

The A. R. Williams Machinery Co., Ltd., contribute largely to the volume of business transacted in Dock street, and their extensive local and country clientele brings a good many people to this street, in their search for all kinds of machinery and lighting outfits.

Near to this store R. E. Fitzgerald conducts a good plumbing and heating business, and has built up a wide connection throughout the city and province.

ATTRACTIVE WINDOWS
 Of late years the New Brunswick Power Company have considerably improved the appearance of their large retail store and showroom, and at all times their attractive window displays hold the attention of shoppers. The premises make a fine approach to the entrance of the street.

On the other side from the Power Company, located in a substantial brick building is one of the stores of the Dunlop Pharmacies. This drug store, too, adds considerably to the approach of the street, and is conducted in an efficient and enterprising manner, with well selected stock and attractive window trim.

Near this store S. Goldfeather conducts an optical parlor of bright appearance and inviting atmosphere. Triple C Tailors have done and still are doing a good deal towards adding to the importance of this street. Through wide advertising and the backing of a good product, these tailors are rewarded with a rapidly growing business and an ever increasing patronage. Their showrooms and workrooms are located in the Power Company building.

One of the latest additions to Dock street is the office supply and stationery business of McLean, Mahony, Ltd., and they have commenced what promises to become an important retail store in this section. This is the only store on the street specializing in the stationery business. The tailoring business of John O'Pray is also located on this street.

To a great number of the city's ladies, J. Perchanok's ladies' ready-to-wear store is well known, and the stock carried highly approved. Near here is the Saint John office of The National Cash Register Company, an office and showroom quite in keeping with the prestige enjoyed by this large organization.

Near the Market Square end of Dock street is located the fine three-story building occupied by C. Magnusson & Son, gentlemen's furnishes and outfitters. This store reflects credit upon the owners, and adds a fitting touch to this progressive street. Well painted, well stocked with goods of the finest quality, including the nationally advertised lines, exceptionally good window trims and good lighting make this store popular with all classes of buyers.

Although only a short street, Dock street has by no means reached its capacity for business, and the enterprise of its residents bids fair to make it become one of the city's leading shopping centres.

A store of recent establishment on Dock street is that of the Energy Supply Co., Ltd., who opened up about two years ago. This company made improvements to their building on a large scale, and now have one of the finest retail show rooms in the city. They specialize in all kinds of electrical appliances.

Weddings

Ewart-Ougler.

A quiet and pretty wedding was solemnized at 7 o'clock last evening in the basement of the United Church when Rev. E. E. Styles united in marriage Miss Sadie Louise, eldest daughter of Mrs. and Mr. R. E. Ougler, 121 Prince Edward street, and Samuel Lewis Ewart, eldest son of Samuel Lewis Ewart and the late Kate Currie Ewart, of this city. The bride, who was given in marriage by her father, Roy E. Ougler, was becomingly attired in a gown of silver grey crepe de chine over rose silk, with hat, shoes and stockings to match, and silver racoon fur, and carried a nosegay of sweet peas, sweetheart roses and sweet alyssum. The bride was attended by Miss Hilda Riley as bridesmaid, and Arthur Hart supported the bridegroom. After the ceremony a buffet luncheon was served at the home of the bride's parents to immediate friends and relatives. A large array of beautiful and useful gifts were received which testify to the popularity of the young couple.

Starratt-Calhoun.

Portland United Church was the scene of a very pretty wedding last evening at 7:30 o'clock, when Miss Annie Dorothy Calhoun, daughter of Mrs. Ivy E. Calhoun and the late Captain James Calhoun, of Bentley street, Saint John, became the bride of William Blair Starratt, son of Mrs. Alberta Starratt and the late C. S. Starratt, of Dorchester, N. B. The church was filled with relatives and friends of the bride, and was artistically decorated with golden glow, golden rod, autumn leaves and robin berries by the girl friends of the bride. Ross Corbett and Ralph Munro ushered the relatives and guests to seats marked with bows of white ribbons.

bon. Rev. H. A. Goodwin solemnized the marriage ceremony. The bride was given in marriage by her uncle, George Calhoun, and was daintily attired in a dress of pale blue georgette, a scarf of soft blue tulle, a black picture hat and carried a bouquet of Ophelia roses. She was attended by Miss Ruth Calhoun, her sister, who wore a dress of peach georgette with lace trimmings, and carried an old fashioned nosegay of sweetheart roses and sweet alyssum. As the bridal party entered the church the choir sang "The Voice That Breathed Our Eden." During the signing of the registrar Miss Agatha Steves sang "O Perfect Love," and as they left the church Miss Charlotte Heffer played Mendelssohn's wedding march.

Immediately after the ceremony Mr. and Mrs. Starratt left on a wedding trip to Montreal. On their return they will reside in Dorchester, N. B. Among the many lovely gifts received were a beautiful silver tea service from the bride's mother, and a substantial check from the groom's mother.

The groom's gift to the bride was a diamond dinner ring and to the bridesmaid, solist, organist and ushers suitable gifts.

Mr. and Mrs. Starratt have many friends in the city and province who extend best wishes for future happiness.

Out of town guests attending the wedding were Mrs. Alberta Starratt, mother of the groom, and Mrs. E. W. Starratt, of Dorchester, Mrs. J. A. Pincock, of Moncton, and Mrs. W. F. Erb, of Sussex.

Smith-Howell.

The marriage took place at St. Luke's church, Wolford, N. B., on Tuesday, September 21, 1926, of Marguerite Emily Howell, daughter of Mr. and Mrs. Thomas F. Howell, of Wolford, and William Hamlet Smith, son of Mr. and Mrs. William H. Smith, of Wolford, both of the Parish of Peter'sville. The ceremony was performed by the Rev. J. R. Belyea, M. A., and was witnessed by many friends and relatives. The church was prettily decorated with blue and yellow flowers and autumn leaves. After the wedding, supper was served at the home of Mr. and Mrs. Howell. Mr. and Mrs. Smith left on a motor trip through parts of New Brunswick and the New England States. On their return they will reside in Saint John West.

Mellivren-McManus.

A quiet but interesting wedding was solemnized on Wednesday at 9:30 p. m., at St. Mary's rectory, when Miss Eva A. McManus, daughter of Mr. and Mrs. H. J. McManus, of Highfield, N. B., was united in marriage to A. Roy Mellivren, of this city, by Rev. R. Taylor McKim. The bride was becomingly attired in a powder blue georgette gown with silver trimmings and carried a large bouquet of Columbia roses. She was attended by Miss Alma Pike, who wore a grey crepe de chine dress with hat to match and carried a bouquet of roses and sweet peas. The groom was supported by his friend, William Carter. After the ceremony a dainty lunch-

was served at the home of the bride's sister, Mrs. Howard Geldart, 88 Winter street, after which the happy couple left by the Maritime express on their wedding trip. On their return they will reside in Saint John.

Crosby-Bleakley.

The marriage of Miss Elizabeth Cecilia Bleakley, daughter of Mr. and Mrs. Leander Bleakley, of Devon, N. B., and Cecil Hugh Crosby, formerly of Bear River, N. S., and now of Saint John, was solemnized last evening at 7:45 at the residence of the officiating clergyman, Rev. A. L. Tedford, 187 Waterloo street. The ceremony took place in the presence of relatives and friends. Mr. and Mrs. Bleakley, who will reside in Saint John, have the best wishes of many friends.

Logan-Scourah.

The marriage of Miss Elizabeth Scourah, daughter of Mr. and Mrs. Frederick Scourah, of this city, and William Frederick Logan, son of Mr. and Mrs. Frederick Logan, of 124 Chesley street, Saint John, was quietly solemnized last evening in St. Jude's church. Rev. J. H. A. Holmes, rector of the church, officiated. Mr. and Mrs. Logan will reside in Saint John and have many friends who extend hearty good wishes for their future happiness.

Hunter-Everett.

The marriage of Miss Doris Evelyn Everett, daughter of Mrs. Fanny Everett, 171 City Road, and Everett Brockton Hunter, of Misses, son of Mr. and Mrs. John Hunter, was solemnized last evening at 7:30 at the Tabernacle Baptist parsonage, 187 Waterloo street.

Deaths

David M. Lane

David M. Lane died suddenly at his residence, 241 Duke street, West Saint John, last night, falling to the floor lifeless, only a few minutes after he had first complained of a pain about the heart.

Mr. Lane was in his 74th year but had been in usual health early in the day and had gone about his work apparently as well as usual. His sudden death was a great shock to his friends and came as a sad blow to the members of his family. Mr. Lane had resided in Carleton all his life and was the son of the late George and Harriet Lane. He was a faithful member and regular attendant at the Carleton United church and a man who was held in universal esteem and regard. He was a carpenter and builder in calling and skilled in his work.

He is survived by his wife, Henrietta Lane, who is a daughter of the late Griffith and Jessie Stackhouse, one son, George C. Lane, of Mount Vernon, N. Y., and two daughters, Miss Etta M., at Mount Vernon and Miss Marguerite at home. He also leaves one brother, James, at Mount Vernon and one sister, Mrs. Mary Sayre, residing in the United States.

Norwegian Vessel Cannot Be Salvaged

WASHINGTON, Sept. 22.—The Norwegian steamer Anderson, which went aground during the recent hurricane on San Salvador Island, in the Bahamas, cannot be salvaged, in the opinion of her master, the Destroyer Sigsbee reported today to the Navy Department.

The Sigsbee also offered assistance to the American steamer Kios, aground near South Bay in the vicinity of Crooked Island and reported that the ship probably could be floated. There were no casualties in either case.

Cheese Board Sale Here, 1,360 Boxes

Cheese sold at 17 cents for twins and 17½ cents for triplets at the fortnightly meeting of the New Brunswick Cheese Board held yesterday afternoon in the Board of Trade rooms. Harvey Mitchell, Deputy Minister of Agriculture, presided, and all of the 1,360 boxes offered for sale were readily purchased.

The selling price showed a one cent advance on the price of the previous week but was greatly below the price that had been paid on the corresponding date of last year when twins brought 23 cents a pound and triplets sold for 23½ cents. The number of cheeses offered yesterday was nearly twice as great as the number that had been offered on the corresponding date of the previous year, when only 766 were marketed. Frank Rouse, vice-president of the board, was auctioneer at yesterday's meeting.

Never a Night

Should pass without this simple rule in skin care being practiced

By NORMA TALMADGE

It has brought the reward of natural skin loveliness to thousands

Do you use powder, rouge or make-up—ever? If you do, by all means start tonight with this rule in skin care.

Because they know this rule, thousands of women thus successfully safeguard both their youth and their priceless complexions.

On the other hand, because they don't know it, thousands imperil theirs. Not every woman knows that failure to thoroughly wash the skin and pores of make-up before bed (with a gentle soap like Palmolive) is one of the greatest mistakes in skin care she can make.

Powders, rouge and all cosmetics have a tendency to clog the pores... often to enlarge them. Blackheads and disfigurements often follow. Never let make-up stay on overnight. This is all-important, a fundamental in correct skin care.

FOR A RADIANT TOMORROW DO THIS TONIGHT

Wash your face gently with the soothing lather of Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of cold cream—that is all.

Follow these rules. Your skin will be soft and lovely. As the months roll by, you'll need fewer and fewer cosmetics.

Do not use ordinary soaps in the treatment above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only; to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skins prove its gentle safety beyond all doubt.

BE SURE YOU GET THE REAL PALMOLIVE

And it costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what an amazing difference one week makes. The Palmolive Company of Canada, Limited.

"Only One Thing — Kept that Business Going"

WHEN Jim Elliott suddenly passed away, some people said the firm of Elliott and Barclay would fail.

Barclay, the younger partner, handled the sales end, relying almost entirely upon Jim's judgment in financial matters. So it was predicted that since Barclay apparently lacked the capital to carry on while adjusting himself to his now greater responsibilities, the firm would be forced into liquidation.

But nothing like that happened—thanks to Jim Elliott's foresight. Five years before his death he foresaw the dire possibilities of such an emergency and in the interests of his own family as well as Barclay's, he insisted that he and his partner invest in Business Insurance.

When Elliott died, that Business Insurance saved the firm; it firmly established Barclay's credit and eased his mind of financial worry during the critical period of re-adjustment. Thus not only the future of the Elliott family but also the success of the business was entirely safeguarded.

Today the firm of Elliott and Barclay is flourishing and stands as a monument to the former's sound business sense.

Business men owe it to themselves to investigate Business Insurance. It is all that its name implies.

The attached coupon will bring full particulars.

Please send me full information about Business Insurance as it affects me.

A Tribute to Canadian Workmen

MEN in whom skill is a habit, whose eyes "sight" true without plumb line or level, have a strong preference for the Gillette Razor. The New Improved Gillette is more to them than a velvety smooth razor. It is a worthy example of fine accuracy, precision and simplicity—an instrument in which all skilled workmen recognize a high standard of Canadian craftsmanship.

BAASCH FREED IN LIQUOR CASE AT ST. ANDREWS

His Motor Boat, With \$9,000 Liquor, Was Seized on July 28

ST. ANDREWS, Sept. 22—Charles Baasch, accused of operating a motor-boat containing a large quantity of liquor on July 28 last, when his boat was seized by Customs Preventive Officer Captain Lorne Kinney of the Patrol Boat G, was acquitted here today in the Charlotte county circuit court before Mr. Justice LeBlanc. This was the second day of the trial which began yesterday, the grand jury having returned a true bill in the case.

The case occupied all today until about 5.45 o'clock this afternoon. Several witnesses were called for the crown, including Customs Collector C. B. Lockhart of Saint John, Collector McKay of Beaver Harbor and Captain Kinney of the Patrol Boat G. No new evidence was adduced. J. F. H. Teed was crown prosecutor and the defence was in the hands of E. J. Hennelberg, W. A. Ross and J. Frank Frauley of Saint John.

Charles Baasch, a local boatman, was arrested on July 28 in the vicinity of the Wolves in the Bay of Fundy in a large motor boat, formerly a local pleasure sloop, with a cargo of liquor valued at about \$9,000 and his boat was towed into port by the government cutter Verdi. The liquor was discharged and placed in a government warehouse. Baasch appeared in the court at St. George on preliminary hearing and was sent up for trial at

the Charlotte county court in St. Andrews. Shortly after Baasch was taken into custody by the revenue officers, the schooner Granite with a cargo of liquor, estimated value of \$300,000, was captured off the Wolves in the Bay by the government revenue cutter under command of Captain Kinney and towed into port. Capt. Trehan was charged with hovering with intent to land liquor. Captain Trehan was acquitted and recently sailed from port with crew, vessel and cargo of liquor.

L. P. CATHELS WAS OF FAMOUS BORDERERS

Former Saint John Man Rose to Captaincy in Great War

With the recent announcement that the Saint John Fusiliers had been affiliated with the King's Own Scottish Borders it has been recalled that a former resident of this city, L. P. Catheis, served in the famous Scottish regiment with distinction during the world war.

Mr. Catheis is the son of the late Rev. David Catheis of Hawick, Scotland, who was at one time moderator of the Church of Scotland and visited in Saint John when he was making a world tour to the Presbyterian missions. L. P. Catheis resided in Saint John for several years and was specially interested in boys' work in connection with St. John's (Stone) church. He afterwards entered Wycliffe college to study for the ministry and it was while on a holiday trip to his home in England during college vacation that the war broke out.

Mr. Catheis at once joined the King's Own Scottish Borders, entering its ranks as a private. He served with the regiment in the Egyptian Expeditionary Force and was invalided home, later being sent to active service in France. He ended his career of active service as a captain in the regiment and to rise from private to captain in a regiment of such high repute is something few men attained and implies exceptional devotion and ability.

"What Makes It So Wonderful?"

Naturally, the question follows the utter astonishment of hearing the new Orthophonic Victrola for the first time.

COMPARED with the enchantment of actual performance,—explanation seems futile. Yet, humans are curious. The query persists: "What makes Orthophonic Victrola music so captivating?"

First, there is the revolutionary new acoustic principle. Second, there are the things it only,—of all reproducing instruments,—accomplishes. The Orthophonic Victrola reproduces the bass sounds as they should be heard. Harshness,—it does not know. Piano notes are maintained for their true duration.

Organ music has full organ resonance. Dance music rhythm is compellingly faithful to its original. Vocal harmony parts are clear and distinguishable from one another. Diction is natural as life. All tones have their true proportionate values. The result is beauty that matches the original, tone for tone.

There is yet a third reason for the wonder of this peer of instruments. It is a Victor Product! Your nearest "His Master's Voice" dealer can transform your interest into conviction today.

TRADING ACTIVE BUT SPOTTY ON MONTREAL MARKET

IRREGULARITY SHOWS STRONG IN QUOTATIONS

Laurentide Led Market With Alcohol in Good Demand

CONTEST FOR CONTROL ON N. Y. EXCHANGE

Opposing Speculative Forces Battle for Position With Neither in Advantage

MONTREAL, Sept. 23.—Stock prices at the opening of the local stock exchange this morning revealed an irregular trend. Trading was fairly active but spotty. Laurentide led the market and after opening unchanged at 105 1/2, it eased to 105, but in later trading sold at 105 1/2, at which level a large volume of stock came out. Alcohol was in good demand, and firm at 21. Brazilian was only moderately traded in, and was off a half point at 121. Bridge was the strong spot at 107, up one point. Power issues were steady, the preferred opening unchanged at 85 1/2, while the common came out at 75 1/2. Shawinigan was down a half at 225 1/2.

AT NEW YORK.

NEW YORK, Sept. 23.—Opposing speculative forces in the stock market renewed their contest for control of the price movement at the opening today, with neither side holding a clear advantage. Oil shares continued the rally which started late yesterday, but United States Steel, Pullman and some of the leading motor issues were reactionary.

Morning Stock Letter

NEW YORK, Sept. 23.—The unchanged Boston redoubt rate will take some uncertainties out of the market and it would not seem that New York would advance its rate above there will be no change here today. Consequently, we have reason to expect the usual Thursday selling that has been coming into the market will not appear. On the other hand, though, there is no way of judging how much stock must be sold by people in Florida. Undoubtedly as wire connections are established again between New York and Florida points a good deal of liquidation will come into the market and how important this will be no one can say. As any rate, while there may be more irregularity, we think the good stocks are going higher again, particularly U. S. Steel, G.M., Dupont, Bethlehem, W.M.C. and Southern Railway, but with some irregularity

From time to time, there is no reason to buy stocks unless they are weak. Some tremendous sales of G.M.O. are undoubtedly cutting into the business of smaller competitors and the result has been a great deal of selling in the small motor stocks in exchange. Undoubtedly, though among this group there are some developments in Chrysler which may put it up somewhat in the next few weeks. While the market was strong yesterday some stocks showed fairly good buying and we believe stocks like F. Shelly, Texas and M.O. will likely see fair advances whenever the market gives them an opportunity.

144 companies and estimated loss companies will have to stand are \$5,000,000 loss on plateglass insurance, placed at over \$600,000, according to Chairman Stern, of the Continental Insurance Co. Amoskeag Co. asks employees to take wage cut.

Twenty industrial issues, off 31, 30 rates 120.28, off .42; 40 bonds 94.85, off .12.

Brokers' Opinions

NEW YORK, Sept. 23.—Fenner & Beane.—Yesterday's market proves you can still buy standard stocks on any reaction.

Fyncheon.—The market acted much better Tuesday and appeared rather evident that a considerable number of stocks had declined to real resistance.

Josephthal.—Indications appear favorable for a continuation of rally, but must emphasize the need for caution in not following it too far.

Hornblower & Weeks.—Generally speaking, it is a market to pick and choose from with conditions favoring stocks of high powered earning calibre.

Houseman.—Would still buy Bethlehem.

GREATEST THROING IN BOXING HISTORY TO ATTEND BIG BOUT

TEX RICKARD'S BIGGEST IDEA OVER THE TOP

Not a Vacant Foot of Space Likely When Boxers Enter Ring

By HENRY L. FARRELL (United Press Sports Editor)

PHILADELPHIA, Sept. 23—

From those relatively ancient days when John L. Sullivan, Jack Dempsey (the original) and Jack McAuliffe were traveling around taking all corners as the "Three American Jacks," Philadelphia has ranked as one of the most enthusiastic sport towns in the world.

There is no other city in the United States where the fans, the bell-tops and the telephone girls can talk as intelligently about any kind of a game as they do in Philadelphia. There is no other city in the country where the public supports tennis, golf, track and field sports, boxing and baseball as they are supported in Philadelphia.

KNOCKED QUAKER TOWN

"But," it was pointed out to Tex Rickard when he was looking for a spot for his Dempsey-Tunney heavy-weight championship fight, "Philadelphia is a cheap town. They will kick like steers if they have to pay ten dollars for a ticket and there are not six champions on the card."

"That's the bunk," Phil Glassman, prominent Philadelphia boxing man, told Rickard when he was being urged to give the New York Boxing Commission the air and take the fight to the Pennsylvania metropolis.

"Most of the tops," he said, "have been ten dollars but for the good shows speculators have been getting as high as thirty dollars for ring-side seats. They'll pay in Philadelphia if they get what they want."

Apparently the Dempsey-Tunney fight was something that Philadelphia wanted. As the city, picked out by the vaudeville wise-crackers as "Sleazy Town," awoke this morning, it was a safe bet that there wouldn't be a vacant foot in the big stadium in the exposition grounds tonight when the two fighters enter the ring.

Rickard and the ticket experts on his staff who are as familiar with crowds as Ringling's circus staff could not estimate how many spectators would be crowded into the huge concrete stadium, but Rickard shifted his cigar and said—

"Maybe about 130,000. There'll be a lot in there that ain't sittin' down."

It is safe to estimate that it will be the largest crowd that ever saw a boxing match any place in the world. With the possible exception of the Indianapolis automobile races and some of the football games that have been played in the university of California stadium, it will be the biggest attended sporting event ever held in the United States.

NOT AS BIG AS DERBY

Overly enthusiastic announcements that it will draw the biggest crowd in the history of sport are incorrect as the English Derby at Epsom Downs draws millions. No one can compute the number of persons who see the annual Derby because there are only a few stands in which admission is charged.

It is quite certain, however, that Philadelphia will go on record as having the biggest paid admission crowd, but on the other hand the gate receipts will not make a record.

The crowd will be bigger than the one that saw Dempsey fight Georges Carpentier, but the receipts will not be as large because Rickard was permitted to charge top prices of \$50 in Jersey City, and the maximum allowed here is \$27.50, which includes the tax.

As far as Philadelphia's share in supporting the bout is concerned, there may be some argument that "foreigners" occupied as many seats as the natives. But there would have been no more New Yorkers in the house if the fight had been staged there than there will be Philadelphians here tonight and if the fight had been staged in New York there would have been as many Philadelphia customers in the seats as there will be New Yorkers here.

Anyway, record or no record, it's sure to be a sight and will be Tex Rickard's biggest accomplishment.

ESTELLE COMING EAST

LOS ANGELES, Sept. 23—Estelle Taylor, film star, and wife of Jack Dempsey, left her home here two days ago, her maid announced yesterday, and will remain in seclusion until after the fight at Philadelphia today, when Dempsey will defend his heavyweight boxing title against Gene Tunney. Even officials of Miss Taylor's film company were unaware of the actress' whereabouts. The belief was expressed that she is on her way east to meet her husband and will arrive in Philadelphia a few hours after the fight.

ANOTHER SECOND

ATLANTIC CITY, Sept. 22—Jack Dempsey announced tonight that Philadelphia Jack O'Brien, famous light heavyweight of more than a decade ago, will be one of his seconds in the championship bout with Gene Tunney tomorrow night.

Will He Be Champion Tonight?

Here is another striking action photo supplied exclusively to The Times-Star. This is Gene Tunney, ex-marine, challenger for the richest prize in pugilism, the world's heavy-weight crown. Only a few concede him a chance to win, but he may upset the dope.

Resolution Favors Baseball Branch Only

Mr. Ali Bi and Forty Reasons Will Be Ready If Dempsey Loses His Title Tonight

Interest Aroused in Possible Excuses Should Tunney Completely Stagger Old Man Dope With a Knockout Blow Tonight

NEW YORK, Sept. 23—Jim Jeffries said after he had lost the world's heavyweight championship to Jack Johnson that he had been drugged by a double-crossing friend in his camp. Johnson said he lost his title to Jess Willard because he knew "there wasn't no use in getting up." He only smiled when asked why he had put his hands over his eyes to keep the sun out when he was on the ropes. Willard, when he was knocked out by Jack Dempsey in Toledo, said that Dempsey had his hands packed and that he hadn't trained enough.

The records are not clear that with the exception of John L. Sullivan's "Ten glads the championship remains in America" any defeated heavy-weight champion advertised that he was beaten by a better man.

SOME EXCUSES The thought follows—what excuse will Jack Dempsey have if he loses his title to Gene Tunney? Perhaps he may say that he was out of the ring too long but he isn't look it and he has taken better care of himself and lived stricter during the period of his temporary retirement than any other fighter ever did. He can't say that he was drugged but he is surrounded by a shock proof entourage of friends and employees. He won't say that he was beaten by loaded hands because he isn't that type. He won't say "it was no use to get up" because he will get up by instinct if his legs will hold him.

It is very likely that he will say that he was beaten by a better man. Dempsey never has been a braggart. He admits that he is good but he has the record to show for it and does not have to quote his personal opinions. A heavyweight champion always is surrounded by "yes men" but Dempsey never has been influenced by "yes-men."

They told him that Carpentier was a set-up, that Firpo was a palooka and they are telling him now that Tunney can't break a window glass. "No man can stand up under a punch or enough punching in the right place," is Dempsey's answer to all. "I know that some day you going to be hit hard enough and then I'll be through."

GUSSWORK WINS FEATURE AT CAPITAL Easily Defeats Bessie McKlyo in Free-for-all—Breaks Track Record in Exhibition

FREDERICTON, Sept. 22—The Fredericton track today was crowded by spectators who were drawn by the excellent second day's card of the Fredericton exhibition races. The free-for-all was the great attraction. Gusswork, the Massachusetts mare, which has been so prominent on New York state and New England tracks this season, took the event handily in three straight heats. The ease with which she won was a disappointment to the crowd.

Driver Fleming at that account referred to the management to send his mare on an exhibition mile, half an hour after the last heat of the free-for-all, to show what she could do. The objective was to beat the track record, 2:04 3/4, made by Single G, and equaled by Bessie McKlyo last July. Gusswork was equal to the occasion and put on a mile in 2:04 1/4, a half second better than the track mark, the auto racing outside the horse.

The performance was given a great hand by the crowd. Bessie McKlyo, the Aroostook entry, which was expected to make the best showing against Gusswork, won second money, being second in the first and third heats but being nosed out in the second by El Verso, another Aroostook county horse.

THE 216 CLASS Peter Will Tell, a Woodstock entry, won the 216 mixed event in straight heats and had not much trouble doing it. The Manor and Jack Dempsey fought it out for second money, the Presque Isle horse winning. The best heat was the second in 2:12 1/2.

The 225 trot was the long race of the day, going five heats and being finished without any horse standing a winner in three heats. Agratia Harvester won the first heat in 2:18 1/2, the slowest time of the race. W. R. C. betted that time in the second, when he won the heat. Agratia Harvester went out and won the third heat and looked like a race winner that time being still faster. Gwendolyn Aubrey then cut the race up badly by winning the fourth heat in 2:15 1/2, the best time of the event.

It was near 6 o'clock when the fifth heat was called. Gwendolyn won the heat and first money.

THE FREE-FOR-ALL In the free-for-all, Gusswork was not pressed in any heat. She took the first in 2:09 1/2, slow time for this class. The second, in 2:06 1/2, was the best of the race, but was short of the track mark, which the crowd expected would be approached.

CHARLOTTETOWN RACES CHARLOTTETOWN, Sept. 22—Splendid racing featured the first day of the exhibition racing here. The Yank won the 221 trot in straight heats and British Ginger the 240 class trot. It took five heats to decide the 230 class pace, which was finally won by Major S.

CHAMP'S RECORD PHILADELPHIA, Sept. 23—If Champion Jack Dempsey scores a knockout over the challenger, Gene Tunney, what will the round be? The experts who figure Dempsey to win over the kayo route insist it will not go over five rounds. Dempsey's record bears out such a prediction.

The first round has been Dempsey's favorite session for ending his fights. He has scored 24 knockouts in the opening round. Only seven of Dempsey's 47 knockouts have gone over five rounds. It took him 12 rounds to finish Bill Brennan.

GET LIT UP "Maurice McLoughlin in his last national tournament competition in 1919 was illuminated by Richard N. Williams."—Atlantic City Daily Press. Which leads Mr. O'Goofy to remark that quite a few of the boys get lit up at these fashionable tennis tournaments.

S. A. Payne, of the South End, said in reply to this that if a N. B. branch of the A. A. U. was formed, fees would have to be collected at once, whereas M. F. B. fees need not be paid until shortly before the annual meeting. The fees in the C. B. A. A. A. were small, he said, and the officials were desirous of having the territory organized. CLEVELAND HOPES BREAK OUT ANEW

Cards Swamp Brooklyn and Win Today Assures a Tie For First Place

NEW YORK, Sept. 22—Dwindling hopes of the major league pennant contenders flared out anew today in the wake of a Cleveland upset in the American League that placed the Indians with two games of the erratic league leading New York Yankees.

Taking fresh courage from the heroic last ditch stand of Tish Speaker and his warriers, the Cincinnati Reds today got back into the struggle after a day of leisure for them that saw the St. Louis Cards swamp the Brooklyn Robins, 16 to 7, and boost their lead to two and a half games over the Reds.

The in-and-out performances of the Yanks have given the Indians courage to fight on even though, with but four games remaining, the task appeared hopeless. The Yanks today needed to win only two more games to narrow a tie for the pennant event though Cleveland should win all four of its remaining games.

\$1,500,000 IN BETS. NEW YORK, Sept. 23—More than \$1,500,000 will be at stake in wagers when the opening bell sounds for the first round of the Jack Dempsey-Gene Tunney heavyweight championship battle tonight. Wall street wagers firms estimated. Dempsey continues to be the choice at odds of 9 to 1, with reports of a scarcity of Tunney cash. The bulk of the betting was said to be on the proposition that Tunney would not answer the bell for the sixth round. On this betting was at even money. Odds of 8 to 5 were offered that Dempsey would score a knockout.

Skating Club Here Being Talked Of

The formation of a skating club for Saint John is one of the possibilities this winter, it was said last evening by D. King Hazen. The project is being promoted by Charles Magnusson and should be carried through the field and club house will be in Rockwood Park. The Horticultural Association, which control the park, have the matter now under consideration.

Pleasant Event At R. K. Y. C. Club House

Members of the Saint John Power Boat Club and of the R. K. Y. C. last night greatly enjoyed the hospitality of J. Fraser Gregory, commodore of the Power Boat Club, at a dance held in the R. K. Y. C. club house at Millville. There were a large number present from both clubs and dancing, which commenced at 8 p.m., continued until midnight. The Melody Men orchestra provided excellent music and there was a running supper served during the evening. The evening marked the close of the summer season for the two clubs and was a very happy occasion.

CHARLOTTETOWN RACES CHARLOTTETOWN, Sept. 22—Splendid racing featured the first day of the exhibition racing here. The Yank won the 221 trot in straight heats and British Ginger the 240 class trot. It took five heats to decide the 230 class pace, which was finally won by Major S.

WATCH THE PILLOWS IF THE Cincinnati Reds do get in the series this fall the authorities should take pains to see that Messrs. Atell and Gandall are kept away from all the hotel pillows.

HOCKEY LEAGUE TO MEET IN MONTREAL

Controversy Over Status of Western Players Likely to be Settled Amicably

NEW YORK, Sept. 23.—Nothing definite concerning the plans for the coming season was done at today's meeting of the National Hockey League held here. Representatives of the ten clubs of the league were present and the gathering merely was a preliminary to the annual meeting which will be held in Montreal on Saturday.

Today's discussion chiefly concerned the relationship of the N. H. L. to the now-defunct Western League. Certain of the N. H. L. clubs are in doubt as to the exact status of players of the western circuit. Whether they are free agents or whether they are still covered by the Patrick interests in the Pacific Coast is evidently causing contract trouble. However, it was intimated by President Calder that all would be straightened out in time to allow a smooth running annual meeting on Saturday.

The delegates at today's meeting will be guests of Tex Rickard and Col. J. S. Hammond of the New York Rangers at the Dempsey-Tunney heavyweight battle in Philadelphia tomorrow night.

ONE MORE NEEDED

The St. Louis Cardinals made short work of the Robins yesterday and demonstrated to the sport world that much dynamite lurks in the St. Louis bats. Lester Bell hit three triples and a double in the midst of the 11 base knocks. Bottomley and Theriot made homers. Rogers Hornsby, after losing his batting championship in the whirl of the pennant chase, seems about to give St. Louis a National League flag in its place—their first in the league history. Once more victory in the three games remaining, will guarantee the Cards a tie for first even though Cincinnati should win four.

Are you caught like this? A cold or a cough that you dose with medicine but somehow it sticks to you. In either case there's hope, and good hope, in a Remedy with a funny name but a corker with all kinds of colds and coughs. That Remedy—remember the name—is

GUAIASOTE
(Gwya-sote)

Here is why it is so powerful. It kills the cause of colds by acting as a stomach antiseptic and tonic. It also acts as a comforter and antiseptic for the breathing passages. Thus it corrects stomach distress caused by food fermentation (bowel trouble)—it eases the throat when bothered by gases from such fermentation, kills cold germs and tones up the body in general. RIGHT OF WAY TO FALLS LOOKOUT IS AGREED UPON

J. Fraser Gregory Makes Statement to City Council Board

That he hoped eventually the city would take over the boulevard along the shore at Prospect Point and the street leading to it, but until this was done he was willing to give the city a right of way from year to year, with the street leading to the falls. This was the statement made this morning by J. Fraser Gregory to the members of the Common Council when the matter was under discussion in committee. The City Solicitor will be asked to draw a resolution for the taking over of the street leading from Douglas Avenue through the Murray & Gregory property, and Mr. Gregory is to submit his offer in connection with the right of way to the shore in writing for the next meeting of the council.

Commissioner Frink said he had discussed with Mr. Gregory the suggestion of Mayor White that while the street from Douglas Avenue was being taken over provision be made for the right of way so that tourists would be able to view the falls from this point. On the plan of Mr. Gregory there were reserved two streets leading to a boulevard around the shore and Mr. Gregory was willing to give the city a right of way over these proposed streets and the boulevard.

TAKE OVER STREET

Mr. Gregory said he was willing to give the city this right of way from year to year, but he had no hope that the city would take over these two streets and the boulevard and fix the latter up for the accommodation of tourists.

The Mayor asked if the public had any rights there now, and Mr. Gregory said they had not, but he had no desire to stop them from viewing the falls from this point.

The Mayor said that all he wanted was an assurance that the public would not at some future date be shut out from the shore, and Mr. Gregory said this would not be done, as he regarded the boulevard as an asset to his holding.

Commissioner Frink said he would take the matter up with the City Solicitor and have him draft a resolution providing for the taking over of the street from Douglas Avenue and for a right of way to the shore, and report at the next meeting of the council.

C. N. R. CHECK FOR \$238,000 ARRIVES

Province Receives That Sum in Lieu of Taxes on Railroad

Premier J. B. M. Baxter received official word today that a check for \$238,000 had been received from the Canadian National Railway Company covering a payment in lieu of taxes for the years 1925 and 1926. At the inter-provincial conference of premiers several months ago, an agreement was reached with the C. N. R. for annual payments to the Maritime Provinces where C. N. R. property cannot be taxed owing to the original provisions in the construction of the old Intercolonial Railway. The sum agreed on for New Brunswick was \$119,000 a year. It is understood that Nova Scotia and Prince Edward Island have also received their checks.

As Hiram Sees It

THE SETTLEMENT: Me an' the town feller was settin' on the verandy, lookin' at the sky. You kin do that in the country. Well, sir—you never seen sich queer clouds. They took on all kinds o' shapes. Two little white threads shaped up an' made a wish-bone. Another cloud looked like a bird with its head an' wings stretched out as if it was flyin'. An' then, an' if we'd had a post with us here, we'd have looked like the skeleton there. There were prehistoric monsters there see pictures of in the magazine. They was lace curtains—an' patchwork—an' balloons—an' all sorts o' things up there—an' through an' behind 'em the bluest sky o' the hull summer. When night come they wasn't a trace o' cloud to be seen. The moon was new full—an' the river was like oil—an' the air was warm. Me an' the town feller went fer a walk after everybody else was in bed—an' if we'd had a post with us here, he'd got enough inspiration fer the hull winter. It was so hot here yesterday we had to keep in the shade fer comfort. September has been the finest month o' the hull season. The rain bar's is almost empty. The town feller says he's in the seventh heaven out here—an' he ain't fer wrong at that.

SAINT JOHN ATTRACTS FORMER U. S. CONSUL

H. S. Culver, former United States Consul here, who arrived in the city yesterday, and is the guest of Dr. and Mrs. H. L. Spangler, Giersma street, said this morning that he had just come here to spend a week greeting old friends and to look over the city. He is at present residing in Elliot, Me., about four miles above Portsmouth. Conditions in Maine were good, he said. The elections were over and everybody seemed to be busy and happy.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and flows back up through the gorge of the Falls, creating a "Falls" running in the opposite direction.

At low tide the water in the Bay comes so much lower than that of the river, that the full of water is reversed and flows down river into the Bay.

At half tide, when the level in the Bay and River are about equal, the Falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate the wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

TABLETS NEARLY CAUSE DEATH OF FRANCES WELDON

Three-Year-Old Child Eats Morphine Found in Bureau

Little Frances Weldon, three-year-old daughter of Mr. and Mrs. Ernest S. Weldon, 14 High street, had a narrow escape from death on Tuesday when she ate some morphine tablets. The little girl had been put to bed for an afternoon sleep about 1:30 o'clock, but evidently had awakened and procured some tablets that were in a box in a bureau drawer.

When visited by her mother about 4:30 o'clock the appearance of the child aroused the apprehension of the mother and Dr. H. S. Clark was hurriedly called. The doctor, after working for some hours over S. Weldon, brought her out of the coma into which she had fallen and had the little one removed to the General Hospital. She had so far recovered that she was able to leave that institution today and return to her home.
