LLOYD GEORGE AND DE VALERA IN SESSION TODAY

Conference of Hour and Half This Morning.

No Announcement Save That Meetings Will Probably be Resumed on Monday—Feeling of Hope Continues—Serious in Belfast.

London, July 15.—Prime Minister Lloyd George and Eamon De Valera, Irish Republican leader, this morning resumed the conversation they began yesterday in which they made an effort to clear away the difficulties attending the holding of a conference which might bring about a settlement of the Irish problem.

At the close of yesterday's conversations, which lasted almost three hours, both gave evidence that some progress had been made and that today's discussion would be resumed under favorable circumstances.

When Mr. De Valera left his hotel on his way to Downing street, where he was to meet the premier, a member of his party, told the Associated Press, it was "extremely unlikely" that he would come in contact today with Sir James Craig, the Ulster premier, who was summoned to London in connection with the conference. A small crowd cheered Mr. De Valera as he left his hotel.

Art O'Brien, president of the Gaelic League in London, and Robert C. Banton, member of the Irish delegation, accompanied Mr. De Valera to the premier's residence, but remained in another room when today's conference began. Prior to Mr. De Valera's arrival at No. 10 Downing street, Sir Hamar Greenwood, chief secretary for Ireland, and Lord Curzon, secretary of state for foreign affairs, conferred with the premier. Mr. De Valera and his companions drove to Downing street in an open carriage and were loudly cheered by a large crowd.

The conference lasted some what less than an hour and a half, the republican leader leaving at 12:30 o'clock. It was announced that he would not return to Downing street today.

The conference was again a two-man talk. In an adjoining room, Sir Hamar Greenwood, the chief secretary for Ireland; Lord Curzon, the foreign secretary; Art O'Brien, president of the Gaelic League in London, and Robert C. Banton, of the Irish delegation, were present. It was announced that he would not return to Downing street today.

On leaving Downing street, Mr. De Valera said there would not be any further meetings today, and that he did not think there would be a meeting on Saturday. It was announced that a communication agreed upon by the conference would be issued later. A member of De Valera's party gave definite assurance that nothing in the nature of a deadlock or a break-down of the conference threatened at any time.

Meanwhile, Sir James Craig, Ulster premier, arrived in London today from Belfast, announcing on his arrival that he would see the premier this afternoon. Asked for an expression of opinion on the Irish situation, Sir James said: "The less said now the better. He added, however, that he was hopeful.

London, July 15.—The official communication on today's conference, issued a little before two o'clock this afternoon, reads:

"A further conversation between Mr. Lloyd George and Mr. De Valera took place this morning in Downing street, which will be resumed at a later date, probably tomorrow."

STILL SERIOUS IN BELFAST STREETS. Belfast, July 15.—A fierce gun duel was fought in the York and North Queen streets last night. Sniping, which began in the morning, continued almost throughout the entire day, developing early last evening into sharp fighting in which the police and military were obliged to take a hand. Several civilians were wounded.

After 7 o'clock last night the police and military in armored cars were virtually powerless to cope with the shooting. Streets were closed to traffic, tramway service was suspended and only motor cars carrying people on most urgent business ventured on the streets. These took the precaution of traveling at top speed.

Ambulance workers were kept busy taking wounded persons to hospitals. Among the wounded was Wm. Grant, Labor M. P. for North Belfast, who was shot in the chest.

The military resumed control of the North Queen street area today. The rioting stopped abruptly at the curfew hour last evening, but it was announced that reinforcing the military in Belfast from adjoining areas today was contemplated. When the reports from last night's rioting were made public this morning, it developed that two persons were killed during the disorders and that between thirty and forty others were wounded. The mob looted some public stores.

STRIKE TROUBLE AT THE KOBE DOCKYARDS. Kobe, Japan, July 15.—Troops were called out today after thousands of striking workers in the dockyards here had charged a police cordon in an attempt to take possession of the dockyards and carry out a project for their control by the workers. Some of the strikers were wounded and the ringleaders were arrested.

RUEL NOT WIPED OUT. Sudbury, Ont., July 15.—The report that Ruel, along the C. N. R. west of Caprol, had been completely destroyed, is wrong, declared Charles Duval, chief fire inspector for this district. It is 30 Statute. Out of a possible 45 or 60 miles away from the burned places.

Province Rejoices As Cooling Rain Comes In Generous Downpour

Fires Abated, Farms Nourished, Lakes and Rivers and Wells Replenished—City Streets Get Benefit and Health' Conditions Improved.

The rain has come! Heaven's benison in great grey sheets is slaking the month-long thirst of our whole countryside this afternoon. Following an inspiring fanfare of thunder with its accompanying flashes early this morning, the rain comes today like an army of relief to a beleaguered city. Perhaps everybody does not fully realize what a blessing is contained in the downpour that commenced in real earnest a little after lunch. To the city of St. John first of all it means a healthful washing of the dusty and germ-laden streets, a flushing of the sewers, a clarifying of the atmosphere and a general relief from the caked and baked conditions that have been breeding and certain disease heading towards a possible epidemic.

One is willing to forget the withered gardens and the scarcity of fruit foods in the light of these more important health aspects of long lack of rain. With a generous rainfall just now—which is devoutly hoped for—water supply lakes will revert to normal proportions, wells in the country will be refilled, cattle will be relieved, and stagnant pools will again be freshened and purified to overflowing. Of course the farmer is welcoming this rain with a heart of gratitude. His parched fields and straggling rows of vegetables should now take on new life, and even at this late hour vouchsafe to him only a slightly curtailed crop. Fields of this hay have yet a little time to come to normal height and vitality. The potato crop takes on a new lease of life and pessimistic forecasts concerning next winter's food supply for man and beast should be considerably discounted by the downpour the land is now enjoying.

And then there are the forest fires. It is a safe assumption that they are definitely flooded into submission by the change in the weather, and aside from the terror of this element of danger and the risk of life and property entailed, thousands of people living in the smoke-laden zones may now breathe pure air again and live in comfort. Innumerable conditions of an unfavorable character due to the long dry period are wiped out with this one stroke of kind Providence, and it is doubtful if the people as a body have received with more grateful thanks any gift of nature than the steady shower which at this writing is sending them scattering through the streets. Other local drawbacks have seemingly sunk into insignificance.

A PROPOSAL TO CHANGE NAME OF BRUSSELS STREET

A movement is on foot amongst the residents of Brussels street to have the name of the street changed to that of the overseas premiers into the discussion. Such a preliminary conference necessarily would be held early in August, before the premiers leave England.

It is understood that nothing yet has been proposed in preliminary discussions are passing between London and Washington.

WOODSTOCK MAN KILLED IN MAINE

An Emery Wheel Bursts and John McDonald Meets Death. Woodstock, July 15.—John McDonald of this town was instantly killed yesterday in the railway shop at Derby, Maine by a bursting emery wheel. His body will be brought here today. A son was wounded in the same shop and both resumed work only on Monday, as the shops had been closed for several weeks.

GREEK SUCCESS

Constantinople, July 15.—Greek troops have occupied the town of Afum-Karalissar, an important station on the southern branch of the Bagdad railway, it is announced here. It is said the town was given up by the Turks without fighting.

STRIKE TROUBLE AT THE KOBE DOCKYARDS

Kobe, Japan, July 15.—Troops were called out today after thousands of striking workers in the dockyards here had charged a police cordon in an attempt to take possession of the dockyards and carry out a project for their control by the workers. Some of the strikers were wounded and the ringleaders were arrested.

As Hiram Sees It

"Hiram" said the "Times" reporter to Mr. Hiram Hornbaker, "I anticipate many journeys to Ottawa in the near future."

"That's fine," said Hiram. "God to do some good, I will go."

"No, sir," replied the reporter. "I will go as an influential citizen—member of St. John delegations to Ottawa."

"Oh! They're going to wake up are they?" queried Hiram.

"Yes, sir," said the reporter. "As soon as the harbor commission is appointed, it will begin to adopt by-laws. These must be approved by the governing council at Ottawa. You know how St. John requests are received at Ottawa. Whenever a by-law has been passed, a delegation will have to go up there to urge that it be approved."

"The delegation will be introduced by a few days and get a date fixed by which it may return and ask again. Also, when the delegation will go up again to ask that it be approved. It will be introduced by Mr. Wignome and stick around another few days and get another date set. I anticipate a busy life hereafter. There can be no doubt at all that with a healthy commission composed of energetic gentlemen with a weakness for by-laws and debentures the path to Ottawa, which Mayor Schofield says has not been trodden enough lately, will be literally pitted with the marks of St. John's booting and coming."

"Who'll pay the fares?" asked Hiram.

"They will be paid out of the ferry proceeds," said the reporter.

"Good Lord!" said Hiram.

"Amen!" said the reporter.

"WANT TO TELL ALL," DECLARES MRS. KABER

Woman Accused of Murder of Husband Makes Another Scene in Court. Cleveland, July 15.—Mrs. Eva Catherine Kaber was carried into the court room by two bailiffs this morning when her trial on a charge of murdering her husband was resumed. When seated she clutched the arm of the attending bailiff and amid sobs pleaded that he not leave her.

On July 15.—Mrs. Eva Catherine Kaber was carried into the court room by two bailiffs this morning when her trial on a charge of murdering her husband was resumed.

Wm. J. Corrigan, Mrs. Kaber's counsel, tried to quiet her.

"I want to tell them, I want to tell them everything, but Mr. Corrigan won't let me," she sobbed to the bailiff.

Mrs. Kaber's trial had fallen from her head and her hair was disheveled.

Dr. P. A. Jacobs, who was county coroner at the time of the murder, testified that Mrs. Kaber's death was caused by stab wounds which he received on the night of June 18, 1919. He also declared that he thought Mrs. Kaber was perfectly sane when she testified at the inquest conducted before him.

FIGHT OF LLOYD GEORGE AND LORD NORTHCLIFFE

How London Evening Papers View the War Following Times' Attack. London, July 15.—(Canadian Associated Press).—The evening papers here, while deploring the decision to withhold all news from the Northcliffe papers, join the morning journals in protesting against the attack made by the Times upon Premier Lloyd George and Marquis Curzon.

This attack, in the view of nearly all the evening papers, was unjustifiable and against the public interests.

Parliamentary correspondents who discuss the matter express the opinion that the Times' attack was really intended to serve Northcliffe's purpose of obtaining the appointment of some particular persons, whom he wants to go to Washington as British representatives at the disarmament conference.

GOVERNMENT IS DEFEATED IN COMMITTEE

British Coalition at Small End of 17 to 12 Vote on the Railway Bill. London, July 15.—(Canadian Associated Press).—The coalition government suffered defeat by seventeen to twelve in committee on the railway bill.

The committee adjourned to consider the position.

MR. ADDISON IS OUT THIS TIME

Minister of Lloyd George Government Has Resigned Position. London, July 15.—(Canadian Associated Press).—The resignation of Right Hon. Christopher Addison, M. P., minister without portfolio in the coalition government, and formerly minister of health, was announced in the House of Commons last night. The ostensible reason for his resignation, the Evening Standard says, was the throwing over by the government of the housing scheme initiated by Dr. Addison while he was minister of health.

AGRICULTURAL POLICY FOR THE BRITISH EMPIRE

London, July 15.—(Canadian Associated Press).—An empire agricultural policy is being discussed at a conference here under the auspices of the British Empire Producers' Organization. Twenty-five dominions and colonies are represented, as well as most of the important home interests.

The object is to lay the foundation of an agricultural policy which will serve the common interests of the empire, and to establish permanent machinery for giving effect to the various features of such policy.

BANDITS GET \$25,000 IN DAYLIGHT DASH

Seattle, July 15.—Two bandits yesterday snatched a bag containing \$25,000 in currency from a messenger of the Northwest Trust and Safe Deposit Company and escaped in an automobile, pursued by a taxicab driver who had witnessed the affair.

CUT OCEAN RATES

New York, July 15.—Competition of steamship lines operating from New York to Germany resulted today in a reduction of passenger rates by one line. The first cabin rate to Hamburg was cut \$38 to \$215, and on September 1, it will be reduced to \$185.

THE FOREST FIRES HAD TO FIGHT FOR THEIR LIVES TODAY

Reports Indicate Great Good Done by Rain. Better News from Westfield, Ludgate Lake and Prince of Wales—Lookout Men and Fire Fighters Have Given Notable Service. Reports from Westfield, Prince of Wales and Ludgate Lake today were to the effect that, as a result of the rain, the forest fires which had lately assumed very serious proportions were almost extinguished, and, with a little more rain, would be completely out. No definite report of the exact state of the situation in Westfield could be obtained up to the time of going to press, as the men had not returned from the scene, but residents of that locality expressed the opinion that the fire was "done for." It rained more or less heavily there all morning. Very heavy rain was also reported from Prince of Wales and Ludgate Lake, where the fires were almost quenched.

Generally speaking the loss of timber has not been great. Gloucester, Restigouche, Madawaska, Victoria, Carleton and Westmorland have escaped with very little loss. Not a single habitation in a village, town or settlement has been damaged, and a public debt is owing to the men who have labored so strenuously in combatting the fire menace.

A telephone line has been completed today between Newcastle and Westport, a distance of sixteen miles, by means of which direct communication is secured between the two towns. The outlook at Bald Mountain, some sixty miles northwest of Newcastle. The line has been built by the co-operation of the New Brunswick Telephone Co. and the forestry department, along with some of the licensees.

Fredericton, N. B., July 15.—The rain of last night and today bring great relief all over the province, while it does not completely extinguish all the forest fires it dampens them down and makes conditions such that only small crews of men are required to patrol the fire lines. Any smouldering logs and roots can now be dealt with easily. It would take two weeks of steady rain to extinguish completely all the fires and a few more days will be of benefit.

Heavy rains are reported from all points, Newcastle and Blackville, having heavy electrical storms as well.

The last new fire to spread was one about five miles east of the Bald Mountain Lookout. It broke out on Thursday afternoon and crews were organized at Newcastle and sent in, a distance of forty miles. A short time later the lookout reported rain, and it was very fortunate that the rain came just when it did. The only way to get men in this locality is by portage, and the outbreak was in the midst of a soft wood forest, in which the fire would prove very difficult to fight.

LIQUOR SENT THROUGH THE U. S. MAY BE SEIZED

Washington, July 15.—Shipments of intoxicating liquors entering the ports of the United States crossing the Canadian or Mexican borders without a prohibition permit, are subject to seizure by customs officers under orders effective today.

The orders put in force a ruling that transshipments of liquor from one foreign country to another in any way in this country are in violation of the prohibition laws.

There is still some uncertainty as to the effect of the ruling upon liquor brought into United States ports on foreign ships and landed at certain ports. Officials said that to clear up these points another opinion would be asked of Mr. Dougherty.

RESERVATIONS IN JAP ANSWER SIR SAM HUGHES

Further Developments Re a Conference on Disarmament and the Far East. Tokyo, July 15.—Japan's answer to President Harding's proposal for a conference on limitation of armaments, while accepting the suggestion for an armament conference, says the Jiji Shimpu, makes reservations concerning general Far Eastern concerns which have been learned as the result of the nature of the questions to be considered.

London, July 15.—Continued discussion of a preliminary conference by newspapers here testifies to sustained interest in the subject. The question of a preliminary conference was given prominence by some newspapers which printed long dispatches from Washington, many of which indicated such a preliminary meeting would not be favored in the U. S. It was argued in some quarters that the idea should, therefore, be abandoned. It was made clear, however, that the question had not advanced as yet beyond the stage of discussion while the engagements of the dominion premiers would make it difficult to fix a time for such a conference.

London, July 15.—Opinion in authoritative quarters here is that there will be a conference in London preliminary to the conference in Washington on limitation of armaments. This is founded on the idea of the advisability of taking the overseas premiers into the discussion. Such a preliminary conference necessarily would be held early in August, before the premiers leave England.

It is understood that nothing yet has been proposed in preliminary discussions are passing between London and Washington.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JULY 15, 1921

FIVE DOLLARS TOP PRICE FOR GOOD SCOTCH

Liquor Prices for New Brunswick are Out.

Are in Effect Today—Lowest Scotch Price \$4.50; Rye \$4; Brandy \$4.50 to \$6—Retailers Allowed 20 Per Cent. Profit.

Fredericton, N. B., July 15.—Five dollars is now the top price for Scotch whisky to holders of prescriptions purchasing from retail vendors under the prohibition act in New Brunswick.

Only three brands are quoted at \$5 in the price list forwarded to all retail vendors by the board of liquor vendors to be effective from today. There are four other brands of Scotch at \$4.50, a few at \$4.75 and the balance at \$4. Canadian rye whisky will sell at \$4. Brandies will range from \$4.50 to \$6, gins at \$3 to \$4.50, rum at \$4, at \$3 a pint and ale and stout at from \$2.75 to \$3.00 a dozen pints. Alcohol is quoted at \$26.25 an imperial gallon. Retail vendors are allowed a discount of twenty per cent. on the list price at their profit under the regulations. The vendor is required to have the list posted in a conspicuous place.

Hon. J. F. Tweeddale, chairman of the board of vendors, in a statement today said:

"In practically all cases the prices are lower than those paid by the public up to the present time. The new prices have been adjusted on a basis of new rates and duties, the latter having been increased practically one hundred per cent. recently. On this account a few of every bottle of liquor includes the sum of \$1.60 payable in duty as revenue to the federal government."

"The prices named in the list are the maximum under which the goods can be sold by the vendor, and the public is thus protected against inferior goods at exorbitant prices, the commission handling only standard case goods. "Alcohol which is handled by the commission is 65 per cent. overproof, duty on the same being charged at \$10 \$16.00 on a gallon of alcohol. This, added to sales tax and incidental expenses, makes it impossible to sell alcohol at less than \$26.25 a gallon."

"Under a special arrangement which has been made a ninety-nine per cent. rebate on the tariff or duty is allowed on alcohol used in public hospitals when distilled in Canada. The hospitals are required first to pay the tax and by complying with the tariff regulations the rebate is obtained from Ottawa."

MORE MONEY PAID, BUT FEWER TAXES

Not Half Number Settled Up in Discount Period, but Receipts Nearly 78 Per Cent. of Whole.

Nearly seventy-eight per cent. of the total city assessment including the discounts, was paid within the discount period which ended yesterday, according to the figures issued this morning by Deane G. Lingley, city chamberlain. Of the total assessment of \$1,628,960.97, the amount paid up to last night was \$1,261,088. The amount paid during the discount period in 1920 was \$1,210,000.

While more than three quarters of the taxes have been paid, the number who have already settled will be less than the percentage. Up to last night, 8,100 taxpayers had paid their bills, while the number of taxpayers on the list is 18,498. In the first four days of this week, 6,500 people paid their taxbills at chamberlain's office.

Chester, N. S., July 15.—A girlish cascade in celebration of her twenty-first birthday, in the words of her father, J. She is a second year student at Acadia University, and is reported to have been opposed to returning to Japan with her father at the conclusion of her holiday here.

MARRIED IN A BOLSHEVİK PRISON.

Warsaw, June 26.—(Associated Press by Mail)—News of the marriage, Moscow, of Count Szechenyi, a lieutenant in the Hungarian cavalry, who is still being held a prisoner by the Bolsheviki, to Princess Goleiya, a member of one of the oldest Russian families, has just been received here. Count Szechenyi is a cousin of Count Lalo Szechenyi, who married Miss Gladys Vanderbilt of New York.

At the beginning of the war he was a lieutenant in the Hungarian cavalry and was taken prisoner by the Russian on the Galician front in 1915. He is about 27 years old.

Details of the wedding were brought to Warsaw by Doctor in Detroit, Mich., who served in the Polish army, was captured by the Bolsheviki and released in June.

Szechenyi was a prison companion of Colonel Merion C. Cooper, a member of the Kosciuszko air squadron who escaped from Russia this spring.

The romance having had its inception prior to the world war while the young woman was visiting in Constantinople, near the city of Szechenyi's father has a palace and a vast estate. Princess Goleiya returned to Russia several years ago, upon learning that Count Szechenyi was a prisoner and since has been endeavoring to aid in raising his ransom.

It is no easy matter to arrange a marriage by a prisoner in a Bolsheviki prison camp. After months of best man there, authorities refused to give their consent. When it was obtained the ceremony was first performed by a Soviet commissar and afterward a religious marriage was performed in a Greek orthodox church in Moscow.

Although the Count had many friends among the prisoners none was allowed to attend the wedding. Instead of a friend at best man there was a Bolsheviki soldier guard. The Count, with four armed soldiers at his side, marched through the walled prison gate to the commissar's office where he met his bride attended by several girls and friends. The Count wore the same uniform which he had worn for months.

Immediately after the church service the Count was marched back to prison, his bride accompanying him to the prison gates. The next morning the bride was permitted to visit her husband and, with the Count's prison friends, sat down to a wedding breakfast and in the evening breakfast of black bread and hot water.

Twenty Hungarian officers, including Count Szechenyi, are being held by the Bolsheviki as hostages to secure the safety of ten Soviet commissars imprisoned in the Hungarian authorities. The Hungarians were sent to Siberia in 1915 and were on their way out when re-arrested by the Bolsheviki.

MILK PRODUCERS TO ORGANIZE.

A Meeting in Sussex on Next Monday Evening.

(Sussex Record). The milk producers of Kings county will hold a mass meeting at Medley Memorial Hall, Sussex, on Monday evening, July 18, at eight o'clock. The meeting follows a thorough survey of the milk producing district of Kings, and more than eighty per cent. of those who are shipping milk have decided to form an association, the object of which will be to further the interests of the milk producers. Those who met here a few weeks ago to launch the re-organization of the association are most enthusiastic at the reception which has been accorded them. The meeting on Monday night will be held to perfect the arrangements for milk distribution. A committee will be selected, whose duty it will be to carry on all negotiations for the association, and to supervise the handling of all milk produced in this section. The outlook is that it will be the biggest gathering of the kind ever held in this county.

How Much Does a Good Watch Cost?
THE automobile has been instrumental in teaching us to figure costs. The purchase price—plus the upkeep—divided by the years of service—gives you the actual cost. On that basis a good watch is the cheapest thing of value that you can own. A good watch is a necessity and will last a lifetime. Our stock is ample for all needs.

KEEP TO THE FACTS

The St. John harbor commission act does not recognize St. John as a national port. It does not provide for the expenditure of one dollar of national funds, further than that it guarantees that if the harbor commission should not pay the interest and sinking fund on \$457,282.45 in harbor commission debentures, running twenty-five years, to be issued to the city in part payment of the \$2,000,000, the government would take care of that amount.

LOYD GEORGE SPEAKS ON THE IRISH SITUATION

London, July 14.—Premier Lloyd George held a council of ministers at the house of commons tonight to discuss his meeting with Eamon De Valera, Irish Republican leader. Later he proceeded to a dinner of the Liberal coalitionists, where he received a great ovation.

Apologizing for his late appearance, he said he had been engaged in important tasks during the day and after discharging them had to meet his colleagues and report to his sovereign, who, he declared, was taking a very keen and close interest in the proceedings and to whose intervention so much was attributable.

"We owe him," added the prime minister, "a deep debt of gratitude for this, one of the greatest services he has rendered."

This was greeted with loud applause. With reference to Ireland, Mr. Lloyd George besought his audience not to tempt him into an indiscretion.

"The less said the better at this stage," declared the prime minister, "but there is the great fact—that Mr. De Valera, chief of the vast majority of the Irish race has been in conference for nearly three hours with the prime minister of this country, discussing various methods and suggestions for the settlement of this long, long controversy—and there has been for ages long a number of disastrous blunders and needless opportunities lost."

"Let us trust that this one will not be lost," he said, "and that we shall be able to go to our beds at night with a clear conscience that I am certain we both did our best to secure peace. (Loud cheers). Beyond that it would not be wise for me to go at this moment, because we both have our difficulties to deal with."

STANDARD FIRE CALL

Attempt Being Made to Have 100 Universal.

Ottawa, July 15.—Wherever it has been possible to introduce the standard fire call of "100" in telephone exchanges, that course has been followed, according to officials of the Bell Telephone Company here. There are, however, difficulties in the way of its general application throughout the Dominion, though the telephone companies have shown a willingness at all points to co-operate with the fire officials in working out the system of a universal call.

Difficulties have arisen, it is pointed out, at some points owing to the fact that there are several exchanges in operation, and the number 100 has been allotted to subscribers on the different exchanges, who, in many cases, claim that a number so easy to remember is an asset in their business. There is no proprietary right in a telephone number. It is claimed, but subscribers are sometimes reluctant to give one up after they have used it for years.

With the co-operation of the different fire departments and the public, however, telephone company officials feel

The case of Oliver Gaius Steves, charged with murder, was continued yesterday at Hopewell Cape before Chief Justice McKenna. Evidence was given by Orlic and Curtis Steves, sons of the accused, and by the accused himself as well as some of his neighbors. There were no new developments. It is expected that the case will be concluded some time tomorrow.

A court of inquiry convened to enquire into the escape of three naval aviators, who landed in northern Ontario last December from Rockaway, N. Y., has presented its report. The aviators are not censured in the report, which says that the flight was authorized, though crossing into Canada was not contemplated.

Beauty Secrets Revealed. Anna Q. Nilsson the Popular Actress Tells How to Instantly Have a Beautiful Rosy-White Skin and Complexion.

New York—"The secret of beauty is the proper care of the skin," says Miss Nilsson, the popular Metro star. "It only requires a few moments' time and anyone is more than paid for the little effort it takes. In the first place the skin should be kept scrupulously clean. Use a good cleansing cream (Liska cold cream I have found to be the best), follow this by bathing the face with warm water, then rinse with cold water and dry thoroughly with a coarse towel.

After this process select a beautifier which, in addition to being a beautifier, has a healing effect on the skin. The very best I have found for this purpose is derwillo, as it instantly beautifies the complexion and its continued use makes the results permanent." Derwillo takes the place of face powder, as it stays on better and is wonderful for ching nose, oily, dark, sallow skin, freckles, tan, wrinkles and other facial blemishes. Just make this test: Put derwillo on one side of your face, then look in your mirror and compare it with the other side—you will need no further argument to convince you that nothing beautiful like derwillo. It imparts a youthful appearance and if you would keep your complexion at its best all the time take derwillo a part of your toilet as you now do face powder and note the favorable comments of your friends. Short sleeves are now in vogue, use derwillo to beautify your hands and arms and protect them from roughness and ruddiness, which always follows exposure to sun, dust and wind. It is guaranteed absolutely harmless on the most delicate skin and will positively not stimulate or produce a growth of hair. Give it a thorough trial and you will never be without it. Accept no substitutes as there is nothing "better," "just as good" or "just like it."

NOTE—Ask your druggist about derwillo and he will tell you that he has never sold any toilet article which has become so popular in so short a time. This is due to the satisfaction it gives. It is guaranteed by every druggist or they will refund your money. If you don't like it take it back. Could anything be fairer? It is sold at all toilet counters in this city, including Wassons Drug Stores.

**STRONG PLEA BY
REV. H. E. THOMAS**

**Peace and Harmony Among
People of Different Races
and Religions Here.**

(Fredericton Mail)
In the course of his farewell sermon in the Methodist Church at Devon on Sunday evening Rev. H. E. Thomas made a strong appeal for the maintenance of peace and harmony between certain divergent elements in Canada's national life. There lived side by side in this country, he said, the representatives of two great races and two great religions and so vital were the friendship and cordial associations of the two elements that it was not difficult to classify those who for the sake of mere political advantage sought to stir up the racial and religious prejudice and set English Canadian and French Canadian or Roman Catholic against Protestant. Any one descending to these tactics had taken the high road toward national strife and discord toward revolution, and no louder appeal could come to a true citizen today than that of eliminating racial strife and religious prejudice and establishing peace and harmony written on borders.

upon differences in faith instead of magnifying the many points held in common and what was needed in this hour was that French and English should grasp hands as partners in one great national brotherhood and that Roman Catholic and Protestant should never forget that each adored the one great God and each found hope in the common Saviour. One of the largest Methodist universities in the United States not long ago conferred an honorary degree upon a prominent cardinal of the Roman Catholic Church and recently a leading French Canadian citizen had declared that the last shot fired in defence of the British Empire would be fired by a French Canadian. It was in this spirit of friendliness good will and conciliation

FEAR BATHERS POLLUTING BRANTFORD WATER SUPPLY
Brantford, Ont., July 15.—Believing that the practice of bathing at Wilkes Dam on the Grand River near this city was polluting the city's water supply, the board of health at a special session decided to appeal to the provincial health department for an investigation into the conditions. The board of health also passed a resolution asking the co-operation of the water commission, the board of park managers, and the board of park managers in providing bathing accommodation for the residents of the city.

DRAGGED 37 FEET BY CAR GETS UP AND WALKS AWAY
Port Credit, July 15.—To be struck by an automobile and carried thirty-seven feet without being injured in any way was the strange experience of forty-year-old Katie Wright. The young girl had just stepped from a radial car midway between the Long Branch Life Bazaar and here, when a motor car, driven by G. A. Harrison, St. Clarens avenue, Toronto, ran into her. The driver applied the brakes, and when the car stopped, hurriedly rushed to see how seriously she was injured. To his amazement the young lady picked herself up from between the fender and radiator and without any assistance was able to walk to her home nearby.

Three months ago the woman lost the use of these faculties through a nervous breakdown. "Oh, my baby," and now talks as well as ever.

JAIL BEST PLACE FOR UNEMPLOYED?
Judge Leet Propounds New Theory in Non-Support Case.
(Montreal Herald)
Jail is the best place for a man who cannot find work, declared Judge Leet yesterday afternoon, when a prisoner appeared before him for non-support of his family. The man declared that he was not working and that he could not find work to do. He stated he could not support his family because he had no money to buy provisions.
"I will remand him for a week," said the judge. "Any man not working had better stay in jail."
"But he wants bail," said Mr. Sonenberg, Russian interpreter.
"What does he want to get bail for? He can't find work he says. He can't find anything at all to do. A man like that is better in jail."
The demand for bail was repeated, however, and the judge fixed the amount at \$100.

WORLD'S LARGEST SUBMARINE CABLE
Can Accommodate Six Hundred Conversations Carried on Simultaneously.
Windsor, Ont., July 15.—With prominent officials of the Bell Telephone Company of Canada and the Michigan State Telephone Company present, the largest submarine cable in the world was laid on Tuesday on the bed of the Detroit river between Detroit and Windsor. The cable carries 408 pairs of wires and will make it possible to conduct six hundred conversations simultaneously between the two cities.
Half an hour was needed to complete the actual work of laying the cable. When the boats reached midstream, Judge F. C. Kuhn, president of the Michigan State Telephone Company, and L. B. McFarlane, president of the Bell Telephone Company, shook hands and expressed the hope that the cable would result in cementing more securely the ties of friendship between the two countries.
The cable weighs 50,870 pounds, is 2,500 feet in length and 10 1/2 inches thick.

BATTLE WITH FISH
Hour's Fight With 400-Pound Ray Off New Jersey.
Cape May, N. J., July 15.—H. E. Derbyshire, a retired Philadelphia manufacturer who two weeks ago had a battle with a shark while fishing off Cape May, was fishing off the same point on Monday. Derbyshire said after having caught three channel bass that weighed thirty-five pounds each he had the battle of his fishing career with a ray.
The ray is a species of the stingray family. The ray, after being hooked, started up the bay and Derbyshire who was fishing from his seagoing cruiser "Cycle", had over an hour's battle before the fish, that weighed over 400 pounds, was brought alongside the cruiser. It took the combined efforts of the crew to get the big fish upon deck.
Walker Hand who is an authority on fish and game of all kinds, said that the ray is seldom seen in these waters but they abound off the Florida coast.

Fine Example of Pluck and Perseverance in Overcoming Handicap.

Ottawa, July 15—(Canadian Press)—James H. Rowlinson, ex-Canadian soldier, blinded in action, has just left Ottawa on the first part of his journey to London, Eng., where he is to assume the duties of clerk stenographer in the London office of the department of immigration and colonization.

During the last two and a half years Rowlinson, who was trained at St. Dunstan's school in England, was one of the most efficient and accurate stenographers on the staff of the department of soldiers' civil re-establishment in Toronto. He spent sixteen months learning the Braille system of shorthand and the use of the typewriter. Despite his handicap, he passed the stenographic examination with a grade of 80.3 per cent and obtained a percentage of 80.3 on the test. He is the first blind applicant known to have been accepted on a civil service test.

CREER SAID TO BE OUT OF THE TOUR

Toronto, July 15.—The Globe this morning states that the tour of the U. F. O. big three—Creer, Drury and Morrison—seems to be definitely off. It is said that Mr. Creer, federal agrarian leader, will be unable to take the stump in Ontario with Premier Drury and the U. F. O. secretary, as he had intended. There is still some prospect, however, of Drury and Morrison setting out on a speaking tour.

ENGLAND GETS RAIN.

London, July 15.—After virtually a five months' drought, which scorched the lands and caused the burning of many acres of fir woods throughout Great Britain, rain fell in various parts of the country and London yesterday. The heaviest fall occurred in the south of England and Wales, where a steady three-hour downpour came last in time to save some of the crops.

Experience Teaches

Twenty-four million dollars was paid to beneficiaries by the life insurance companies in Canada last year, and thirty-one million dollars was paid to living policyholders.
Of the 11,450 policies which became claims:
850 were in force less than a year.
1,050 less than two years.
2,100 between three and five years.
2,450 between five and ten years.
2,800 between ten and twenty years.
2,200 more than twenty years.
—and all of these persons were in good health when they applied for life insurance.
Life is very uncertain, as last year's death claims show, and, on the other hand, insurance money has brought untold benefit to thousands of homes and individuals.
No temporary difficulty should induce you to deprive your dependents of life insurance protection.

POSTPONE EFFORT TO BUILD ARENA

At a meeting of those interested in building an arena for this city, held yesterday afternoon in the Commercial Club rooms, it was decided to defer any further steps in the matter at the present time on account of the prevailing financial conditions. It was found by the solicitors that, with a federal tax payment just past and city taxes there, those willing to help the project were not in a position to do so at the present time. It was said that the action of the meeting yesterday did not necessarily mean that the matter had been sidetracked.

GOLF LINKS COMEDY.

Turks Walk Off Course When They See Venizelos There.

Paris, July 15.—Aix-Les-Bains is just now enjoying a comedy of high politics on the golf links.

Among its distinguished visitors is the former Greek Premier, Eleutherios Venizelos, who is spending his time, though he is advanced in years — learning how to play golf from an English professional.

But there at Aix-Les-Bains just now some of distinguished Turks who also like to play golf. At first they didn't take any notice of the active eager old gentleman whose drives were often better in intention than in accomplishment.

But one day they heard who he was. Venizelos is an exile from Greece, but nevertheless he is no friend of the Turk, and with one accord the Turkish gentlemen walked out of the club.

Now their eyes have to report to them that the golf course is free from the presence of the Greek statesman before they venture forth to play.

The Trades and Labor Council held its regular meeting last evening, instead of this evening, on account of the big labor demonstration to be held tonight. The president of the council, F. A. Campbell, occupied the chair. There were not any important outside items brought before the meeting last evening and only routine business was transacted.

Now their eyes have to report to them that the golf course is free from the presence of the Greek statesman before they venture forth to play.

The Trades and Labor Council held its regular meeting last evening, instead of this evening, on account of the big labor demonstration to be held tonight. The president of the council, F. A. Campbell, occupied the chair. There were not any important outside items brought before the meeting last evening and only routine business was transacted.

But there at Aix-Les-Bains just now some of distinguished Turks who also like to play golf. At first they didn't take any notice of the active eager old gentleman whose drives were often better in intention than in accomplishment.

But one day they heard who he was. Venizelos is an exile from Greece, but nevertheless he is no friend of the Turk, and with one accord the Turkish gentlemen walked out of the club.

July marks the Doldrums for the Business Craft and during this month we are making a special effort to gather in business.

A Fan's View.
New York, July 15.—Big league pitching has become so effective with hot rather than talk of the lively ball has abated recently, says a fan who sought so much of his solution of the mystery that he wrote to the newspapers about it today. As proof he cites the following in recent games:—Alexander of Chicago held the Giants to one run scored on an error. Neff of the Giants held Chicago to three hits and no runs. Ryan of the Giants held Chicago to one run. Tyler of the Chicago Cubs gave the Giants one earned run, but lost the game through an error and Faber of the Chicago American showed how lively the ball is by giving the Yankees to a few hits. Faber of Washington yesterday to three hits, his season's record eighteen victories and six defeats.

HAD VALUABLE CATCH.
Paris Fisherman "Caught" Bag of Stolen Jewels.
Paris, July 15.—A catch worth 40,000 francs has just been made by one of the famous fishermen that sit all day long on the banks of the French rivers seemingly content if they haul in one fish per hour.
Georges Barthelmy fished all morning yesterday in the River Lot, near his native town of Cahors, without getting a bite. Undaunted, he swung his line for a final cast and the rod bent double with a sudden strain on the line.
Yelling excitedly, he landed, instead of a whopping fish, a small black trunk. On wrenching it open a blaze of jewels sparkled in the sunlight.
Diamond-studded watches, pearl and ruby bracelets, gold and turquoise collars and gleaming mesh platinum vanity bags—it was a fortune lying there on the grass.
Enquiry showed that the trunk had been stolen from a railroad strong room, where it had been deposited for safe keeping by Henri Vincent, a traveling salesman for a Paris jewelry firm.
The unknown thief had hidden it in the trunk, attached to the bank by a strong black thread, with the intention of salvage at the first safe opportunity.
The police set a sharp watch, but the news, evidently reached the robber, for he made no sign.
Barthelmy receives a reward of 2,600 francs offered for the recovery of the jewels.
WATCH YOUR BREATHING.
Frenchman Knows All About Persons by Diaphragm.
Paris, July 15.—Palimistry, phrenology, graphology and all other sciences by which those expert in them can arrive at complete and conclusive estimates of character are at best partial affairs. The only perfect way of telling character is by phrenology.
Its principal and possibly its only exponent is Dr. Maingot of this city, who in his laboratory, which is rigged up with devices like a medieval torture chamber, can tell the character of a baby or a centenarian.
"I need only to see how you breathe," he says, "to know all about you."
For phrenology is the science of breathing. It is thus that Dr. Maingot expounded his theory and practice.
Phrenology is a radioscopic method by which one is able to examine carefully the diaphragm, from which can be easily deduced the salient facts of the character of the subject without the least possibility of deception. In the face, in the handwriting, in the shape of the head, one can see certain elements of character; but the radioscopic picture of the movement of the diaphragm is the surest method of all. The reason for this is that one breathes according to one's character, and no one can alter his method of breathing except as he alters his character. With his first breath the infant shows the traits that will mark him for life, and with his last breath man shows what sort of person he was in his life.
It should be stated that in the treatment of the thorax Dr. Maingot is a serious scientist. The revealing of character by phrenology is only his hobby.

HOLIDAYS FOR THE R. K. Y. C.

Further Plans for the Annual Cruise to Start Tomorrow Afternoon.

Active preparations are going forward at Milliderville for the week's cruise of the Royal Kennebecasis Yacht Club. About fifteen boats with full complement of crews are now ready and the fleet will be enlarged by the starting hour tomorrow at 2:30.

The boats of this club enjoy the distinction of obtaining a royal warrant from the British Admiralty to fly the blue ensign of his majesty's fleet, a privilege fully appreciated and carefully guarded.

Commodore Starr is unable to accompany the fleet but will join them for the church service at Sand Point on Sunday, July 24, which service will be held at 11 o'clock, a.m. daylight time. Rev. Dr. J. A. Morrison, chaplain of the club, will preach. Rev. Craig Nichols, also will take part in the service. Extra hymns have been selected, and the imperial orchestra will be in attendance.

All the motor boats and river craft of every description are particularly requested by the club executive to be as quiet as possible during the service. The squadron will be in charge of Vice-Commodore Walter Logan, whose flag will fly from the Yacht "Vagabond." His fleet captain will be J. W. Barnes, whose flag will fly from the "Widow." The "Herald" flies the flag of the rear-commodore, George W. Mullin.

At the time of service a committee will be in charge of the landing to prevent danger of overcrowding and confusion. Further special committees will insure the comfort and convenience of those attending the service have been appointed.

The yacht "Princess" (a fifty footer) from Halifax and owned by L. M. Johnston, although not yet enrolled in the club, will sail with the fleet. She is supposed to be a speedy boat, and the "Canada", from whose mast head hangs the commodore's flag, and which has so ably defended the racing honor of the R. K. Y. C. in times past, will again dispute the right of leadership, and it is just possible that the spectators may be treated to a battle royal between these two cruisers during the first twenty-four hours of the cruise.

Everyone is looking forward to a very enjoyable holiday during the coming week. The St. John Power Boat, Westfield, Rothesay, Renforth and Fall Vale clubs are invited to participate.

HAYMARKET SQUARE CAR ON

Labor Men Complete Plans for a Large Parade This Evening.

A street car was started this morning on the Haymarket Square route, in addition to the five which have been on the main line during the week. On account of the parading operations in Basin street, the Haymarket service was run only in one direction. Other than this there was no change reported in the street car situation this morning.

Plans for a labor demonstration tonight were completed at a meeting of representatives of labor organizations this morning. It was said that between fifteen and twenty local unions will take part in the parade, which is due to start from King street east at 8 o'clock. In the event of wet weather the parade will be postponed until Monday, so Charles Stevens, chairman of the parade committee said this morning. Five bands from the North End will parade to King street with the rail workers' union while the water front workers from the west side will come to the city headed by the Martello Comet Band.

FLAG POLE WAS SPLINTERED IN THE STORM

Third of an Inch of Rain in City in Welcome Down-pour Early This Morning.

The electric storm, which passed over the city about 2 o'clock this morning, was only a short duration, but was quite severe while it lasted. Vivid flashes of lightning were frequent, and were followed by loud and prolonged peals of thunder. The storm only lasted about fifteen minutes during which time about a third of an inch of rain fell.

A flag pole on the roof of the Cornwall & York mill in Wall street was snapped off and splintered. There was no apparent damage done to the mill and there was no trace of where the lightning struck. The rain, which accompanied the storm, was welcomed by all after considered heavy enough to be of great benefit. The total rain fall for the month to date is a little better than four-tenths of an inch.

IN THE COURTS. The case of Hanlon vs. four young men was concluded this morning. Judgment will be given later.
