Foolish Act of Woman at The Derby Race

WORK OF AN INDIVIDUAL

More Harm to Militants' Aims With Masses Than Any Number of Bombs or Burned Houses—The Woman May Recover From Injuries

(Canadian Press)

London, June 5.—The double Derby sensation engrosses public talk to the exclusion of all else. The general opinion may be summed up by saying that this is the biggest worst advertisement that militancy has so far given itself.

The sheer imbecility of the attempt will likely do the movement more harm with the masses than any number of bogus bombs or burned houses. It is not supposed that suffragette leaders had anything to do with the freak trick which was obviously the work of the individual, though some colleagues in the crowd hoisted a suffragette placard at the moment the horse and woman went down.

The public says the Times, "coming to the conclusion that suffragettes are not altogether responsible for their acts. The growth of this belief will not improve the prospects for woman suffrage. We are mistaken if yesterday's exhibition does not do more hurt to the cause of woman suffrage than years of agitation will undo."

Epson, England, June 5.—Elly Wilding Davidson, a militant suffragette, who yesterday caused a sensation by leaping at the king's horse and seizing his reins while he was galloping at full speed in the race for the Derby, recovered consciousness at noon today. The doctor in attendance at the local hospital considers that there is hope for her recovery.

Miss Davidson is one of the best-known English suffragettes. She is a young woman of high education, having taken the degree of bachelor of arts at London University, where she passed with honors, afterwards proceeding to Oxford, where she was a student in the final honor class.

She is a citizen of London by birth, it spends much of her time at her residence in Northumberland. She has been unable as yet to answer questions.

ARRESTS EXPECTED

Prominent Farmers of Saskatchewan May be Involved in Case of Girl's Death

Moorehead, June 5.—Sensational evidence is now being adduced in connection with the death of Miss Edna Alford, formerly of Neocad, Wis., who was found lying beside a trail at Briarcrest, five weeks ago. Several prominent farmers are involved, and arrests are expected.

Despite the fact her death was attributed to heart disease, it now transpires that death was due to a drug. A criminal operation is being investigated.

Amundsen to Take Hydro Aeroplanes on Trip to the Pole

Cleveland, Ohio, June 5.—Two hydro-aeroplanes will accompany the party headed by Captain Amundsen on the expedition which will start from San Francisco for the South Pole this fall, so Amundsen said here last night.

On the completion of his lecture tour this month he will leave for San Francisco, where he and Helmer Hanson and Oscar Wistrig, his assistants, will be instructed in the manipulation of the machines, which are being built to carry passengers and 600 pounds of fuel supplies.

"Suppose we get within 300 miles of the pole," said Captain Amundsen; "the rest of our journey could be accomplished with the hydro-aeroplane."

CONGRATULATE NEW MODERATOR

(Canadian Press)

Toronto, June 5.—With the new moderator, Rev. Dr. Murdoch Mackenzie, of Honan, China, presiding, the second session of the general assembly of the Presbyterian church opened in Massey Hall this morning with an attendance fully equal to that at the proceedings of the pre-assembly congress.

The morning was devoted to the work of preliminary organization. The appointment of Dr. Mackenzie as moderator has proved very popular with the commissioners to the assembly and he was busy today acknowledging congratulations.

The subject of home missions will be considered at a great mass meeting to-night and foreign missions will be considered at a similar public gathering on Friday evening. The ordinary business of the assembly will not be dealt with at either of these sessions.

THE NEW MODERATOR

Paris, June 5.—Official attention are being showered upon the delegates to the International Women's Congress. M. Pichon, gave a brilliant reception in their honor at the foreign office last night.

The women will be received by President and Madame Poincaré today and will be the guests of the senate. An especially important discussion yesterday was that on the best means of promoting an international movement for the better housing of working people. A resolution was adopted in favor of organizing a system of hotels for working women in all the big cities of the world as memorial to William T. Stead, who lost his life in the sinking of the Titanic.

McDONALD TRIAL IS BEGUN TODAY

Amherst, N. S., June 5.—People of Westmorland point, N. B., were shocked to learn of the very sudden death of George Bulmer, one of its oldest and most respected citizens. Mr. Bulmer, who was eighty-seven years of age, was remarkably well preserved and was at work in the garden last evening when he was stricken with a hemorrhage and was only able to reach the house when he expired.

He was a man by trade. His wife, formerly Miss Fowler, died some years ago. He is survived by three sons, Walter, at Westmorland Point, where he made his home; James H., real estate dealer, in Winnipeg, and Arthur, in British Columbia. Mr. Bulmer was a valued member of St. Mary's Episcopal church and greatly respected by all.

SON OF JUDGE JONAH WEDS

Sussex, June 5.—A very pretty house wedding was solemnized yesterday at six o'clock when Miss Lucie Hazel McFarlane, daughter of Mr. and Mrs. John McFarlane, became the wife of Wilfred Arthur Jonah, son of Judge and Mrs. Jonah. Rev. W. F. Parker performed the ceremony in the presence of only immediate relatives. The bride was married in her traveling suit of brown with a black picture hat, and she carried a bouquet of bridal roses. Little Miss Doris Jonah was flower girl, and was daintily gowned in pale blue silk. She carried a silver basket filled with white tulips. Miss Lucie McAuley played the organ.

After a dainty supper Mr. and Mrs. Jonah left on the evening train for Boston to spend a few weeks before going to Winnipeg, where they will reside. The groom's gift to his bride was a purse of gold, to the flower girl a locket and chain, and to Miss McAuley a pearl pin. The bride, who is a very popular young lady, received many gifts, among them being an oak cabinet of silver.

PROBLEMS OF THE U.N.B.

Chancellor Jones, Here For Senate Meeting, Speaks of Need of More Facilities

"We are feeling the need of larger facilities to cope with the demands which are being made upon the institution," said Dr. C. C. Jones, chancellor of the University of New Brunswick in an interview this morning. "While the arts department is not showing any great increase," he said, "the department of applied science is going ahead rapidly and we need more room and better equipment. Some of us are looking forward to the time when we can devote the science building entirely to the engineering course and erect a new building for the laboratories. The problem is chiefly one of finance and I hope that we may see our way clear before long to proceed with this work."

The forestry department is another which is making excellent progress and which is attracting more students each year. This year's graduates have all the positions and salaries, and their success is likely to attract others.

There is a strong demand for properly trained men for this work at present. The federal government is using a large number of men for forest surveys and similar work and the province of British Columbia has established a forestry department and requires men for the work.

Doctor Jones is in the city today to attend a meeting of the university senate which will be held here this afternoon to complete the business which was left unfinished at the time of the enclosure meeting. Among the more important matters to come up is the selection of a professor of English to succeed Professor Gordon who has joined the staff of the Alberta University.

Among those who will attend the meeting are Doctor H. B. Bridges, Doctor Thomas Walker, Doctor Murray McLaren, Doctor W. W. White, W. H. Harrison, Hon. E. McLeod, Judge Barry and Doctor W. S. Carter.

LOCAL BOARD IN FAVOR

Chairman Emerson Says City Would Have to Supplement Grant by Outlay For Plant and Running Expenses

The recommendation that a grant of \$250,000 should be made annually by the federal government to assist in establishing schools for industrial training and technical education, contained in the report of the royal commission appointed to investigate the subject, has been received with much approval in this city. St. John's ambitions to become a great industrial centre depend to a certain extent, on the available supply of trained men and anything which will help to solve this problem would be welcomed. The need for some such system has been generally recognized and strongly advocated by the Board of Trade and also by the Board of School Trustees.

R. B. Emerson, chairman of the Board of School Trustees, when asked about the effect such a grant would have on the local situation said that it would depend largely on the amount of money which would be available. On a per capita basis the grant for St. John would not go far as it would amount to only about \$800 a year. He fully realized the need for technical education and industrial training and had advocated such additions to the curriculum for years. In this, he said, he had the unanimous support of the board.

FIGHT IS ON IN ENGLAND FOR LAND REFORM

Preliminaries For Big Battle Between the Government and Landed Interests—Huge Organization For Rural People.

(Montreal Witness Cable) London, June 2.—Sir John Simon, at Oxford on Saturday, speaking on behalf of the Liberal party, formally sponsored the first election note in the battle of land reform, and today rural England is rejoicing at the uncompromising attitude which he announced for the government on this question.

This, as Sir John said, will be the first time in the history of England that any real attempt has been made to satisfy the aspirations of the land-hungry poor.

That the fight for land reform will not be an easy one is evident. The landed interests are already drawing up their army for the fray, but the Liberals will enter the contest full of certain faith in the righteousness of their cause.

The organization of a great Trade Union for rural England decided upon a few days ago, is to day supported by the "Daily News" which says that with the power such an organization will be instrumental in giving the rural laborer cannot hope to succeed.

Cobden and Bright, the great apostles of free trade, always had in view, it says, such a crusade as the present one for breaking down the arbitrary restrictions on the land.

A PLEASANT OUTING

A very pleasant time was spent on Tuesday at Willow Grove, when young ladies and gentlemen drove from St. John and gave Mrs. B. Thomson a surprise party. Those who helped to make the event a merry one were Louis, William and Arthur Thomson, Miss Lydia Alexander, Miss Grace Collins, Misses Crozier and others. After spending the afternoon in games, music, etc. they all gathered on the lawn, where they enjoyed a tempting supper, served with the assistance of Mrs. Geo. Kennedy and Ann Davidson. After supper they all assembled in the parlor, where they were entertained by John Douglas and George Kennedy. After dancing to an early hour, all voted they spent a good time, and the happy gathering was brought to a close by singing the "National Anthem."

Louis Thomson and Cecil Alexander formed the committee in charge.

THE TWO POLICIES. Mr. Borden did not bring in his navy bill to deal with an emergency for some such exists, but rather to compel the development of the Empire towards imperial federation.

One of the reforms expected under the commission government was that the ambulance would be housed in some public building, driven by a city employe, and equipped so that it could reach the scene of any accident at least as speedily as a horse cart.

It is quite useless for Mr. Borden or the Conservative newspapers to say that the gift of \$35,000,000 has no relation to Canada's naval policy.

CONCERNING LOYALTY. What do the Montreal Star and other Tory journals expect to gain by insinuating that Sir Wilfrid Laurier and all those who are opposed to the Borden naval aid bill are disloyal, and that they do not desire Canada to give any assistance whatever in providing for the defence of the Empire?

THE PRESBYTERIANS have spoken in no uncertain way in reference to the liquor traffic, calling upon the Dominion to pass a law prohibiting the manufacture, importation, and sale of intoxicating liquors, a resolution which was adopted with the greatest enthusiasm.

THE QUESTION whether Canada shall take any part at all in naval defence is not involved in the controversy. Both great parties are agreed that this country must bear her share of the burden of defence.

MOUNTED POLICE ARE FEATURED AT THE GEM

Popular Picture House Presents Thrilling Story of Canadian West—Rolling Comedies and Strong Musical Programme

A thrilling story of Canada and of life in the far northwest was the leading attraction at the Gem yesterday for the mid-week show. It is the Esanay feature two-part drama "Into the North," which develops a very interesting story with a plot that appeals and situations that command the constant attention of the spectator. The adventures in the wilderness, coupled with a tender vein of which pervades the production, tend to compose a most fascinating drama. The scenes are natural and the acting is very distinct, while the acting is well up to the standard of the Esanay western players. The Royal Mounted police, a body of Canadian police, figure quite prominently in the production, which will be given today for the last time. There are also two rollicking Selig comedies, "Love the Winner," and "A Dollar Down, \$100 a Week," a comedy of the "Hall Room Boys," furnishing their flat on the installment plan. Geo. Irving and the orchestra completed an entertaining programme.

building, to be erected in Merritt street. H. B. Schofield was chosen chairman of the board, but no secretary has been selected. It is expected to have the plans ready by the next meeting of the municipal council in July.

An interesting ceremony will be performed this evening in Centenary church, when the bonds amounting to \$21,500, which have been cancelled, thus wiping out the bonded debt of the church, will be handed over to the trustees of the church and publicly burned.

Serious charges may be preferred following an experience of a chambermaid in a local hotel on Tuesday. A Moncton man is said to have attacked and threatened her with a revolver. She climbed out on the window sill and from there attracted the attention of passers-by, who came to her rescue. The police are now working on the case.

It is possible that ladies may be added to the board of health as members of that body. A proposal to have women serve on different public boards, Congress, seems to have met with the approval of many citizens.

A little girl, aged about six years, is waiting at the Evangeline Home for her father to come and take her home. She tells that her father placed her

on board the steamer Yarmouth one day recently, and left her in the saloon, telling her that he would come back with her when he got his valise. She has not seen him since. The child gives her name as Ida May Carey. It is believed that the youngster has been deserted, but she has been kept in the Evangeline Home in the hope that someone would call for her.

District Meeting

The ministerial session of the St. John district of the N. B. and P. E. I. Methodist conference opened in Queen Square Methodist church yesterday afternoon and the following officers were elected: Chairman, Rev. J. L. Dawson, secretary, Rev. G. A. Ross; asst. secretary, Rev. J. F. Rowley. Certificates of the literary course of the Conference Board of Examiners were presented by the two probationers, Robert Smart, stationed in Exmouth street church, and W. J. Donville, in Sussex. It was decided to continue Rev. John S. Berrie and Rev. H. J. Clark as retired ministers.

In Queen Square Methodist church last night, a memorial service, held in remembrance of the late Rev. Dr. Wilson, Rev. Dr. Evans, and Rev. James Duke, was largely attended. Rev. W. Gault conducted the service. Resolutions in

honor of each were moved, calling forth addresses of an interesting and touching nature from several clergymen present. The resolutions will be forwarded next week to Charlottetown for the Methodist conference to be held there.

THE "KIDS" BEST SCHOOL

(Montreal Star) The vote of ten thousand dollars for the equipment and maintenance of playgrounds in Lafontaine and Mount Royal Parks is a credit alike to the Controller who proposed it and to the city council which concurred in it. We do practically nothing in this city in the way of systematic encouragement of play—that best medicine and greatest moral exercise for the young. In European cities, it is realized that very young children and the untalented children of the poor must be both shown how to play and given the implements of play. And this, we understand, is what the \$10,000 is for. "Schools of play" are to be established in which the most important activity of a child's life will be taught.

A simple heap of sand is a golden mass of good health for the children

who are permitted and encouraged to dig it up and shovel it about, and attain to all the joys of the sea-shore. This merely illustrates the wisdom of giving children something definite to do when they are sent out to amuse themselves. Two such glorious open spaces as Lafontaine Park and Mount Royal Park may offer many natural enticements to children of experience and initiative who have learned the great art of play; but, if object lessons can be established in these Parks of how much can be done with so little in the way of machinery, we may get genuine play-grounds—and not merely areas of "tennis"—in much smaller city spaces. The traveler in Europe is often amazed at the immense amount of fun the children find in the narrowest playgrounds properly equipped with raw material of play.

Umpire Ollie Chill Was at One Time a First-Class Boxer

By TOM ANDREWS

Why not get a few more good boxers into the baseball game as umpires? It might have a good effect on some of the players who are inclined to real scrappy. Ollie Chill, an American association umpire, was a fighter some years ago and he attributes part of his success on the diamond to the fact that he knew how to handle his dukes.

Chill, who is one of the smallest, or rather lightest men in the umpiring business, was a crack feather-weight fighter at one time and not so very long ago either. He had sixty-seven battles and never enjoyed the ten seconds slumber that many boxers do.

Ollie was brought up in Indianapolis at about the time Benny Yanger, Charlie Neary, Benny Ryan were the great stars in the early '90s. He did not fight under his own name, but used the good old fighting name of Jack Ryan. He went against Benny Yanger, Harry and Clarence Forbes, Ole Olson and others.

During a fight he had with the famous Buddy Ryan at "Tatt's" in Chicago, Ollie had a very good experience. He was matched with Buddy at 122 pounds, but never thought that his opponent's name was Ryan. During a fierce mix-up in the second round he began howling "Good boy, Ryan," and "give it to him, Ryan," until Ollie thought he had all the best of it and was whipping the pride of Chicago.

Chill umpired in the Kitty league for a time in 1896. Then he pitched, but he found that pitching with his boxing being a left-hand er, and he decided to quit, as he preferred boxing.

Later on he took to baseball again and began umpiring in the Central league and after three years he joined the American association staff, with which he is still making a success. Ollie still follows the boxing game closely and has a great liking for Ray Bronson, the Indianapolis welter-weight champion, who he says, would be champion of the world if he were only a little more aggressive in his battles.

"There is no doubt, however," says Chill, "that knowing the fight game thoroughly helps an umpire. Players are not so apt to bother you and try to do things to you for they know that a man who knows how to box, even if smaller, can take care of himself in pretty good shape. That is one strong point in favor of boxing for baseball umpires."

MILLIONS FOR NEW EDUCATION

Report Submitted by Royal Commission

ON INDUSTRIAL TRAINING

\$3,350,000 Annually For Ten Years For Technical Education and Training—Both Elementary and Higher Courses

Ottawa, June 4.—A dominion development fund of \$3,350,000 to be provided annually for a period of ten years and to be divided among the provinces on a basis of population, is the outstanding recommendation contained in the report of the Royal Commission on Industrial Training and Technical Education presented today.

For the elementary schools, teaching manual training, domestic science, etc., a grant of \$800,000 a year for ten years is recommended, the division among the provinces to be on the basis of population. For the carrying on of this work seven distinct fields of effort are suggested by the commission, as follows:

1. The service in each province of an adequate supply of persons (teachers, instructors, technical assistants, executive officers) properly qualified to carry on industrial training and technical education.

2. The establishment or extension and maintenance of classes, courses, schools or other institutions for industrial training and technical education.

3. The provision of suitable and adequate appliances, apparatus and equipment for teaching purposes, but not including school buildings, furniture or consumable supplies.

But after I had taken a box of these days, my Headaches were easier and in a week they left me.

DR. MACKENZIE SELECTED AS NEW MODERATOR

Honor For Missionary From Honan—Stirring Sermon by Retiring Moderator—Resolution in Favor of Prohibition

Toronto, June 4.—In Massey Hall, crowded to suffocation, and at the close of a meeting of intense spiritual enthusiasm, the Rev. Dr. Murdoch MacKenzie, for twenty-five years a missionary of the Presbyterian church in Honan, China, was tonight elected moderator of the Presbyterian Assembly, and he will have the distinguished honor of presiding at the various meetings of the most important church in the history of the church.

Dr. MacKenzie was elected with great unanimity and was conducted to the crowded platform amid the plaudits of the audience. He was welcomed by the retiring moderator, Rev. Dr. D. G. McQueen, and took charge of the subsequent proceedings.

The sermon of Dr. McQueen, the retiring moderator, in which he opened the regular proceedings of the assembly, dealt with the power of the gospel, the theme being "The confidence of the Apostle Paul in the Gospel of Jesus Christ."

At the close of the conference pre-assembly this afternoon a resolution calling for a dominion act to prohibit the manufacture, importation and sale of intoxicating liquors was carried with great enthusiasm. It was presented by Dr. A. S. Grant.

GOVERNMENT IN GENEROUS MOOD

Vote of \$15,000,000 For Their Friends

NO STINGS TO IT

MacKenzie & Mann Get Their Reward—Opposition's Attempts to Safeguard Treasury Are Defeated

Ottawa, June 4.—Before the bill granting some \$15,000,000 dollars of the people's money to MacKenzie & Mann was finally put through the commons this afternoon, there was a rapid series of vetoes.

Practically the government took the ground that no conditions should be attached to the straight gift. On the Liberal side the main amendment, moved by Messrs. German and Pender, sought to make the aid a loan instead of a straight subsidy.

This amendment was ruled out of order by Speaker Sproule on the ground that it was a radical change in principle of the bill, making the aid a loan instead of a straight subsidy.

Mr. MacKenzie again urged the premier to secure representation on the company's board of directors in view of the ownership by the government of common stock to the par value of \$1,000,000.

Finally the last vote was taken on the third reading of the bill. It was carried by a vote of 82 to 80. This time Mr. MacKenzie voted for the bill and one Liberal, Mr. Lapointe, of Montreal, otherwise it was a straight party division.

SAYS CHURCH THAT IS SPECIES OF EXCLUSIVE CLUB IS NOT FULFILLING ITS MISSION

Former St. John Minister Preaches in Toronto on Church and Life Tragedies

In St. Andrew's church, Toronto, on last Sunday, Rev. Prof. D. J. Fraser, D.D., of Montreal, formerly of St. John, preached on the relation of the church to the tragedies of human life.

In opening, he placed before his hearers Christ's reply to the Jewish argument that misfortune and tragedy are the punishment of the Almighty for either personal sin or the sin of one's fathers. The incidents of the destruction of the tower of Babel and the healing of the man blind from birth were shown as the basis of Christ's dictum that misfortune does not necessarily follow upon sin.

Applying these general principles first to personal life and then to the work of the church, Professor Fraser very strongly insisted that a church which lived to itself alone as a species of exclusive club, providing good sermons, free music and softly upholstered seats for members and touching not at all the tragedies around it, was not in any real sense a church of Christ.

He alluded to the work done by St. Andrew in caring for the physical and mental development as well as the spiritual and moral welfare of the people within its reach and in conclusion urged that more and more the church should take its share in civic reform movements and in the amelioration of social conditions.

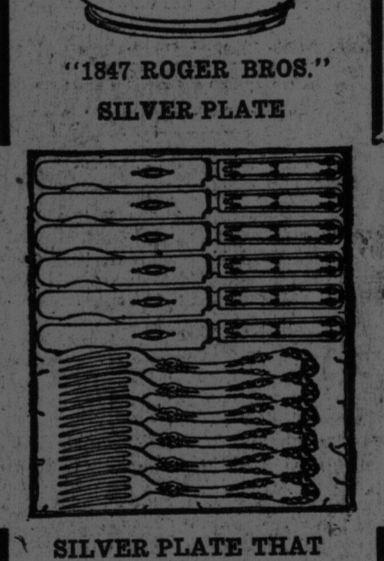

Practically the government took the ground that no conditions should be attached to the straight gift. On the Liberal side the main amendment, moved by Messrs. German and Pender, sought to make the aid a loan instead of a straight subsidy.

Mr. MacKenzie again urged the premier to secure representation on the company's board of directors in view of the ownership by the government of common stock to the par value of \$1,000,000.

PARIS LITERARY MEN FOUGHT A BLOODLESS BATTLE

Paris, June 4.—A harmless duel was fought today by two of the leading literary men of Paris. Paul Hervey, the academician or "immortal," appeared in a critical paragraph which occurred in the Action Française, seen a challenge to Leon Daudet, the chief editor of that paper, who accepted. The couple met today at the Parc Des Prince and fought with pistols. Four shots were exchanged, but neither of the combatants was touched. A reconciliation was then brought about.

GRAND FALLS POWER PLANS

"It has now been decided that the Grand Falls Power will construct a tunnel at Grand Falls for the development of power instead of digging a canal," said H. A. Powell, K. Mr. Powell went through to Halifax last night, and will address the members of the Canadian Club there on the work of the International Waterways Commission.

\$4,000 TO PROVIDE MINIMUM SALARIES

Further information in connection with the proposed minimum salaries for Baptist clergymen was given by Rev. W. A. Camp, chairman of the Baptist Home Mission Board yesterday. There are from twenty to twenty-five Baptist churches in New Brunswick at present whose pastors receive less than \$600.

The sum of \$4,000 is to be raised by the churches, which can benefit will take advantage of the opportunity. The churches affected are all in the rural districts, and are scattered well over the province.

Offerings in support of the movement will be taken in all Baptist churches in June and again in December. The money collected from the different churches will be paid to Rev. Dr. W. E. McIntyre, treasurer of the Home Mission Board, and will be spent under the direction of the board itself. The committee which formed this plan was composed of Rev. W. Camp, Rev. C. P. Wilson, and Rev. H. H. Saunders.

ROYAL SWEEPSTAKES ON THE DERBY FELL THROUGH THIS YEAR

London, June 5.—Queen Mary's well-known strong antipathy to gambling in any form was well demonstrated at this year's Derby, when the usual Derby sweepstakes among members of the royal household was not held.

The man who made auto-polo famous and a world-sport, amateur and professional, and also "business" in William J. Fott, who, with his associate, Stephen M. Van Allen, took the contract with the real estate corporation, which, in February, 1912, bought Madison Square Garden, New York, to manage the building.

SNEAK THIEF GETS AWAY WITH \$30

Home of Mr. and Mrs. Patrick Egan Scene of Burglary—Money Was in Drawer

A sneak thief entered the home of Mr. and Mrs. Patrick Egan in Spar Cove road yesterday morning and stole \$30. Mrs. Egan had gone out of the house for a short time leaving one of the doors unlocked, and a little while after her return found that the money, which had been in a wallet lying in a bureau drawer in the upstairs portion of the house, was missing.

Nothing else was taken so that it is believed that the thief who had helped himself must have entered the house for no other purpose than to secure the money, evidently having knowledge that it was there. It is thought to have been some one who knew the house well and who was watching for the place to be left alone.

ST. JOHN SINGER IS RAPIDLY CLIMBING LADDER OF SUCCESS

Miss Harney Billed For Fine New Theatre in Montreal Next Week

It will be pleasant news to the friends of Miss Adele Harney of this city to learn that on Monday next she will commence an engagement in the handsome new Imperial Theatre, Montreal. This is pretty rapid promotion of the talented little soprano, who made her professional bow on the Nickel Theatre stage in this city only about three months ago. After closing her home-city engagement Miss Harney was booked for the Banger house under Keith management and there she sang not only in the picture theatre but substituted at times in the more vaudeville theatre when circumstances delayed acts. For the last week she has been singing in Oldtown, N. B. for Manager Bernades, a subsidiary house to the Banger theatres.

Since leaving home Miss Harney has added to her repertoire of songs and has become familiar with the ways of the stage, making it easier for her to present her numbers free of social stage nervousness. It is expected she will be successful in Montreal and if so she will have enjoyed the distinction of singing in the most modest and handsomest picture theatre in America.

RUNAWAY CAUSES EARLY MORNING EXCITEMENT

An exciting runaway accident occurred this morning in North Market street near the corner of Germain, when a horse lately purchased by the firm of Emerson & Fisher was being driven up the street and suddenly bolted throwing out the two men who were in the wagon, Alonzo Crowley and Walter Purdy. The action of the animal was quite unexpected. The wagon came in contact with another express, that of O'Neil Bros., which was standing in the roadway, and a wheel of it, while at the same time the bolt caused a falling of the Emerson & Fisher express and this threw the occupants out into the road. Crowley was unhurt, but Purdy injured his knee slightly. The horse continued towards Charlotte street but was soon stopped. The accident happened about 7:30 o'clock, just about the time many people were going to work, and quite a crowd soon gathered.

UNION STREET BLOCKADE

Things were lively for a time in Union street about five o'clock yesterday afternoon. Several wagons were stopped on both sides of the street and two on the car track, endeavoring to get out of the congestion. Then a street car came along and was forced to stop. A spirited horse attached to a light driving wagon and drawing another wagon behind it came up Union street and the horse shied at the street car and the trouble started. In going between the street car and one of the wagons stopped at the curb the wagon which was being trailed along behind the other carriage ran up on the wagon at the curb and was upset. The driver could not get the horse under control until he was near M. V. Paddock's drug store and by this time the overturned wagon was pretty well smashed up.

THE POLICE COURT

Joseph Polente, a workman employed by the Courtenay Construction Co. at East St. John, was charged with using threatening language to Morton Wiles, a foreman on the works. When the charge was read to the prisoner and he was asked what he had to say he shrugged his shoulders and said, "No stand."

Mr. Wyles said that the defendant has been threatening him for the last four days and last evening the prisoner ran at him with a shovel, saying in English: "I will take your life tonight." He was fined \$20 and two months in jail with hard labor and went below weeping bitterly.

David Hennessey was arrested last night for drunkenness and when he faced Magistrate Ritchie in the police court this morning he had also to answer the charge of threatening to take Policeman Rankine's life. Policeman Rankine, who is doing duty in the guard room said that when the prisoner was being brought from the cell this morning he stopped in the guard room to get a drink of water and while there said he would put Rankine in his grave. Policeman Rankine also testified and the defendant was remanded to jail.

One man charged with drunkenness, was remanded and another was fined \$5 for two months in jail.

Any Man Who Needs Clothing

can come here tomorrow—any day—and get exactly the kind he wants at a saving of one-quarter to one-third of the price he would have to pay anywhere else. This is because he will buy directly of the makers when he buys at Oak Hall and he will pay but one profit over the cost of production.

At all other stores he must pay two profits, the manufacturer's and the retailer's. This is why there is such a big difference in favor of Oak Hall prices when compared with those of other stores.

Investigation will prove these facts to any man's satisfaction.
