

PROSPERITY HAS COME TO THE DOMINION UNDER A WISE ADMINISTRATION

Hon. Mr. White Reviews Record of Present Government.

CALLS LAURIER A TARIFF CHAMELEON.

Revenues Increased Millions, Country's Debt Cut Down and Canada's Trade at the Billion Mark, Rational Optimism Justifiable.

Special to The Standard. Ottawa, Jan. 20.—Hon. W. T. White, the Minister of Finance, made a notable contribution to the debate upon the address in reply to the speech from the throne today. He reviewed the financial situation, dealt forthrightly with Sir Wilfrid Laurier's amendment...

FORMAL REFERENCE TO LORD STRATHCONA IN PARLIAMENT TODAY

House May Adjourn for a Day—Keen Regret and Appreciation of His Great Services to Country.

Special to The Standard. Ottawa, Jan. 20.—Formal reference to the loss which the Dominion has sustained in the death of Lord Strathcona, will be made in the house tomorrow by the Prime Minister, and by the leader of the opposition. The probability is that the house will adjourn for a day, although upon this point a decision has not been reached.

TRURO STATION OPENED. Truro, N. S., Jan. 20.—Truro's new railway station was opened with appropriate ceremony today.

GERMAN STEAMSHIP LINES STILL AT LOGGERHEADS

Little Prospect of Shipping Pool Being Renewed at Conference to be Held Today—Outlook is Rate War Will be Prevented.

Berlin, Jan. 20.—The prospects are outwardly very slight for a renewal of North Atlantic shipping pool at the conference to be held in Paris tomorrow, according to reports from Bremen and Hamburg, but there is an under current of opinion that a disastrous general rate war between the various companies will be prevented.

THE OPENING SPEECH IN THE SENATE

Senator Mason of Toronto Moves Address in Reply to Speech from Throne Seconded by Senator Thorne.

SENATOR W. H. THORNE

Ottawa, Jan. 20.—The address in reply to the speech from the throne was moved by Senator Mason, of Toronto, in the upper chamber today. Senator Mason opened with satisfaction the growth of Canada's trade which in 1911 was \$317,000,000; in 1912, \$1,005,000,000; and in 1913, \$1,132,000,000. There was one item in the imports which he was not altogether satisfied. That was the importation of iron and steel to the value of \$146,000,000.

Senator Thorne, of St. John, N. B., seconded the speech, joined in the expression of satisfaction with the recovery of H. R. H. the Duchess of Connaught and the affection for the Duke and Duchess of Connaught which existed in Canada among all classes.

COUNSEL OR DEFENSE? STEWART HAS NO GROUND FOR CLAIM.

Mr. Teed Shows Case Against Railway, Not Against Mr. Pinder.

Fredericton, N. B., Jan. 20.—Special.—When the Stewart vs. Southampton Railway case was resumed in York circuit court, Mr. Teed, counsel for the railway, recalled John E. Stewart, who said he had not paid one dollar on any option of property at Haslebar or lumber lands on the St. John side during the year of 1913.

PRESIDENT'S MESSAGE ON THE TRUSTS

Private Monopoly Indefensible, He Tells Congress—End of Struggle Between Business and Government.

Washington, Jan. 20.—President Wilson personally laid before a joint session of Congress today the fundamental principles of the Democratic administration's programme for dealing with trusts and "big business." The president presented the case, he said, "as it lies in the thought of the country, realizing that private monopoly is indefensible and intolerable, and declaring that conscientious business men throughout the nation would not be satisfied until practices now deprecated by public opinion as restraints of trade and commerce were corrected."

FOREIGNERS ENGAGE FATALITY IN A DUEL

IN VANCOUVER, B. C.

An Austrian Killed by Com-patriot—Two Others of Same Nationality Engage in Knife Fight.

Vancouver, Jan. 20.—An Austrian, named Marchovitch, was killed last night by a fellow countryman named Scherbot, who he probably fatally slashed in return. Pietro Scherbot and George Miller, also Austrians, fought a duel last night and both were so badly injured the doctors hold out no hope. Both duels were fought with keen knives. If any of those concerned recover arrests will be made.

LORD STRATHCONA, HIGH COMMISSIONER FOR CANADA, DIED EARLY THIS MORNING

Passed Away In His Sleep Shortly After One O'Clock.

REMARKABLE CAREER BROUGHT TO CLOSE.

Country Will Long Remember the Invaluable Service He Has Rendered—An Irreparable Loss to the Dominion—His Life Story.

London, Jan. 21.—Lord Strathcona and Mount Royal, High Commissioner for Canada, died at 1.55 o'clock this morning. He passed away peacefully in his sleep. He had been practically unconscious since half-past four yesterday afternoon. Lord Strathcona's death was due to prostration, the result of a severe attack of catarrh. He had been ailing, however, ever since the death of his wife on November 12 last, which proved a great shock to him.

TWO CAPE BRETON MEN ARE FOUND FROZEN TO DEATH

Steven Curry and James McLeod Missing Since Saturday—Lost Road in Storm—McLeod's Body Found on the Beach.

Sydney, N. S., Jan. 20.—Steven Curry, of Port Horton and James McLeod of Dominion No. 6, who had been reported missing since Saturday were found today. A searching party found Curry's body on the roadside between Birch Grove and Morien this morning.

BANDITS GET AWAY WITH BIG LOOT

Held Up Bank Cashier at Point of Gun and Rifled Vault of Big Sum.

Pittsburg, Okla., Jan. 20.—Two bandits early today rode up to the State Bank, forced the cashier into the vault, at pistol point, rifled it of coin and galloped out of town. Reports say several thousands were secured. A posse with bloodhounds has started on the trail of the robbers.

ST. JOHN SHOULD NOT LET SLANDER GO UNANSWERED

Prominent Citizens Agree Reputation of Port Demands a Refutation.

Other sea highways. The city council ought to send a protest to the government against its officials making ill-considered and inconsiderate decisions. People should not be allowed to express slanderous opinions about a locality any more than about a person. If we attacked Montreal or Quebec every time a wreck occurred on the St. Lawrence route, it is probably as dangerous to navigate the English or St. George's Channel as the Bay of Fundy.

Mayor Frink is in favor of immediate action and it is likely at the meeting of the city commissioners tomorrow that some steps will be taken to offset the injury done the reputation of the port by the slanders which have been given wide circulation during the last few days.

ST. JOHN MAN GETS DIVORCE

William Blizzard Given Freedom from Matrimonial Bond—Judge McKeown Refuses Divorce in McGee Case.

Fredericton, Jan. 20.—Mr. Justice McKeown in the divorce court today untied the matrimonial knot which bound Mrs. Clara Blizzard, now of Nashwaak, to her husband William Blizzard, now of St. John. Both parties to the suit formerly resided in this city and were married some twenty years ago. Deceased leaves a wife and eight children, the oldest 14.

ST. JOHN SHOULD NOT LET SLANDER GO UNANSWERED

City Council Will Likely Take Action Consensus of Opinion is Board of Trade Should Act—Our Case Should be Set forth in no Uncertain Terms.

That a strong statement of the true facts concerning the Bay of Fundy and of St. John should be prepared and made known among the general public as widely as possible was the opinion expressed by prominent citizens yesterday and it assumed the general belief that the Board of Trade should take the matter up at once.

NEW QUARANTINE STEAMER FOR THE PORT OF ST. JOHN

Special to The Standard. Ottawa, Jan. 20.—The Agriculture Department is about to call for tenders for the construction of a new steamer for the Quarantine Service at St. John. It will be 125 feet long and will have a speed of ten knots. The cost will be about \$90,000.

CRESCENTS DEFEAT SOCIALS

Halifax, Jan. 20.—The Crescents for the fourth time this season defeated the Socials tonight at the Arena by the score of 5 to 4.

ST. JOHN MAN GETS DIVORCE

## THE ROYAL EDWARD

The R. M. S. Royal Edward was reported 170 miles southeast of Cape Race on Monday from Avonmouth for this port. The ship is making good time to this port despite the usual rough winter weather.

## RECENT CHARTERS.

A steamer has been fixed to load at Herring Cove for W. C. E. May of June, loading at 38. 9d. The ship is 1,500 standard size.

## ARRIVED WITH RAILS.

The steamer Hollingworth arrived in port yesterday morning from Newport, Eng., and her cargo consisted of 2,500 tons of rails which are being taken from England to Australia.

## HESPERIAN SAILS TODAY.

The Allan line will sail this afternoon from West St. John with a large general cargo for Liverpool. The passenger list will include ten first, 30 second and about 200 third cabin passengers.

## CARGO VALUATIONS.

The Head Line steamer Bengore Head, for Belfast took away Canadian goods valued at \$90,611. Among her shipments are 3,300 sacks flour and 17,956 bushels of wheat.

## THE BATTLE LINE.

The Battle Line steamer Albuera, Captain Purdy, bound from Rosario to Hamburg, passed Montevideo on the 19th instant.

The steamer Leucra, Capt. Butler, arrived at Rio Janeiro on the 20th from Rio Grande do Sul.

## RECEIVED GOLD WATCH.

Flahguard, Jan. 20—The saloon passengers of the steamship Lusitania which arrived here last night, subscribed \$170 to be divided among the crew of the Newfoundland brigantine Mayflower, and the Lusitania's first officer, Alexander, and the volunteer crew, who, at great personal risk, rescued the shipwrecked sailors on January 16. An illuminated address will also be presented to Captain Dow of the Lusitania, and a gold watch to First Officer Alexander, in recognition of their bravery.

## SCHOONER LOST.

Portland, Jan. 19—The loss of the five-masted schooner Fuller, Palmer, one of the finest vessels of the J. S. Winslow & Co. fleet, was reported on Saturday, a message being received here from her commander, Capt. O. W. Clark, stating that she had been abandoned at sea in a sinking condition, but that all hands had been picked up by the British steamer Marina, bound to Baltimore, where they were landed. The Fuller was bound from Norfolk for Boston with a cargo of 4,802 tons of coal. She measured 3,060 tons and was built at Bath in 1908.

## THE PALMER SAFE.

Portland, Jan. 19—Among the vessels arriving here on Saturday was the five-masted schooner Rebecca Palmer, coming from Norfolk, coal laden to Randell & McAllister. The schooner was one of the fleet which

## WAS TROUBLED WITH Weak and Dizzy Spells.

Heart Would Beat Something Awful.

Those feelings of weakness, those dizzy spells which come over people from time to time, are warnings that must not go unheeded.

They indicate an extremely weakened condition of the heart and a disordered state of the nerves. One dizzy spell may pass off, but eventually they will come frequently, and at the same time more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes hopeless, for they have no equal for restoring the heart to its usual strength, and making the nerves firm and steady.

Mrs. Len Kinney, Moose Mountain, N.B., writes:—I was troubled with weak and dizzy spells, and my heart would beat something awful. I got on I had those spells every day. I got so I would try one medicine, and then another, but nothing did me any good until I got Milburn's Heart and Nerve Pills. I can safely say they did me more good than anything I ever took, for I feel like a very different woman. My friends often ask me what I have been taking, and I always say 'Milburn's Heart and Nerve Pills.' I tell all my friends who say their heart troubles them, to take your pills."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

## MARITIME MISCELLANY

San Francisco, Cal., Jan. 19.—Stmr. Yellowlegs, Grays Harbor for this port, was twenty miles off Cape Race, G. O., today with main and miszen mast carried away, having encountered a severe storm. Steamer Governor was standing by.

Steamer Fair Oaks, also from Grays Harbor for San Francisco, was reported off Ocos Bay, O., with decked down and bridge smashed.

South Norwalk, Ct., Jan. 19.—Tug James McWilliams, towing thirteen barges, went ashore on Green's Reef and was floated this afternoon. The tug and one of the barges is in bad shape.

Point Lepreau, 22—Thick vapor, moderate north.

Partridge Island—Clear, light north.

REPORTED TO THE HYDROGRAPHIC OFFICE

New York, Jan. 19.—U. S. battleship Michigan reports Jan. 15, at 25 46 N. lon 85 27 W., passed a derelict bottom up and awash.

Steamer F. A. Tappin (Br) reports Dec. 16, at 07 N. lon 43 40 W., passed a conical buoy, apparently red, marked "2A-FP" in black.

The stations of the Canadian Signal Service reported ice as follows:—L'Inlet, Jan. 9, heavy open ice. Father Point, Jan. 9, light packed ice everywhere. Matane, Jan. 10, ice moving.

Belle Isle, Jan. 9, light close packed ice inshore, two bergs; Jan. 10, light close packed ice distant. Point Amour, Jan. 10, light close packed ice distant, moving W.

WAS IN BAD SHAPE.

Copenhagen, Denmark, Jan. 20.—The steamer Oscar II, of Scandinavian American Line was disabled yesterday in longitude 43 west, latitude 57 north, while on her way from Copenhagen to New York, according to a wireless despatch from the captain. He says that during a heavy northwesterly gale, when the sea was running high, the starboard engine of the Oscar II, was rendered useless. Several rods and pistons and a cylinder, being broken. The captain expected to be able to proceed with the port engine at a speed of eight knots as soon as the weather moderated. The passengers on board numbering 234 were all well.

At noon Monday the Oscar II, was reported 140 miles east of Sable Island.

Gibraltar—Passed Jan. 16, stmr Ruthenia, Kendall, Trieste for St. John.

# NERVOUS DYSPEPSIA, GAS OR INDIGESTION

"Pape's Diapepsin" settles sour, upset stomachs in five minutes.

Time! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

# DISABLED ON HER WAY TO NEW YORK

Copenhagen, Denmark, Jan. 20.—The steamer Oscar II, of Scandinavian American Line was disabled yesterday in longitude 43 west, latitude 57 north, while on her way from Copenhagen to New York, according to a wireless despatch from the captain. # Court Gives Damages For Fraudulent Imitation

Bold Attempt to Deceive the Public with an Imitation of Dr. Chase's Kidney-Liver Pills.

You can scarcely imagine an imitator with sufficient audacity to put on the market an exact imitation of a medicine so thoroughly well-known as Dr. Chase's Kidney-Liver Pills. And yet this is exactly what was done a few months ago in the city of Montreal.

A study of the wrappers reproduced on this page will show you that the imitation is a direct steal, word for word. The only difference being in the portrait which takes the place of that of DR. CHASE and the name DR. ROSS. The company name at the bottom was, by the way, purely fictitious as was also the registration number. Not only were the wrappers the same color, but the pills, the wooden boxes, the inner labels, were all just as like Dr. Chase's Kidney-Liver Pills as they could be made.

Such a deliberate attempt to defraud the unsuspecting public and steal the reputation of Dr. Chase's Kidney-Liver Pills had never previously come to our attention, and an appeal was immediately made to the courts to stop by injunction the sale of the imitation. This was followed by an action for \$50,000.00 damages against Mr. Ethier and the discontinuance of the manufacture and sale of the imitation.

Our object in telling you about this is to show how particular one must be when buying Dr. Chase's medicines. While not many dealers will take the chances of punishment which Mr. Ethier did by directly imitating the medicines, very many have some substitute to offer and will try to talk you into accepting it in place of the genuine. Why? There is only one reason. More profit. Medicine is one thing on which you cannot afford to take chances. Always remember that an imitation is like the original in name only and insist on getting what you ask for.

To help you get acquainted with the original and genuine Dr. Chase's Kidney-Liver Pills we will mail you a sample box free if you mention this paper when writing. Edmansons, Bates & Co., Limited, Toronto.

# CHIEF JUSTICE McLEOD SWORN IN YESTERDAY

Judges White and Grimmer also took Oath of Office — Must Live in City.

In the Equity Court rooms yesterday morning at 11 o'clock, J. Howe Dickson, K. C., Clerk of the Executive Council, administered the oath of allegiance and the oath of office to the Judges of the new Supreme Court of Appeal, viz., His Honor Ezekiel McLeod, Chief Justice; Hon. Albert Scott White, Hon. Ward Chipman Hazen Grimmer, who had previously placed his resignation as a member of the legislature in the hands of Hon. John E. Wilson, and J. B. M. Baxter, M. L. A.

Among those present were Sir Frederick Barker, Mr. Justice Crockett, Messrs. T. P. Regan, C. F. Inches, Geo. L. Harris, (Moncton), J. H. F. Teed, H. O. McInerney, W. A. Ewing, J. B. M. Baxter and Hon. John E. Wilson.

As the same judges constitute the Court of Appeal and the King's Bench Division it was necessary to administer the oath of each office to each of the justices.

After the oaths were administered J. B. M. Baxter, K. C., on behalf of the New Brunswick Bar, congratulated the judges and expressed to them the kindest feelings of the bar. Chief Justice McLeod thanked the members of the bar for their good wishes, saying that he had always found his relations with them most pleasant. Mr. Justice White and Mr. Justice Grimmer, the other Judges of the Court of Appeal and Chancery Division, also replied to Mr. Baxter's address, the latter expressing a wish that he would have the consideration of the bar as an assistance to him in carrying out the duties of his new office. Each of the speakers also eulogized Sir Frederick E. Barker and paid tribute to his splendid record on the bench of this province.

Sir Frederick made a brief but feeling reply, saying that he would miss the court rooms and chambers which had become a second home to him, having occupied them for the past twenty years, and would feel keenly the loss of his severance from the bench and bar, which he said that a great deal of whatever success he might have attained was due to the assistance rendered by the members of the bench and bar.

He said that a great deal of whatever success he might have attained was due to the assistance rendered by the members of the bench and bar.

He said that a great deal of whatever success he might have attained was due to the assistance rendered by the members of the bench and bar.

He said that a great deal of whatever success he might have attained was due to the assistance rendered by the members of the bench and bar.

## A NATIONAL LOSS.

In the capital of the Empire, yesterday, a man full of years and honor fell asleep. In consequence, Canada, today, stands before the world bereaved beyond immediate consolation. For Lord Strathcona, in the affairs and affections of the Canadian people occupied a place that will not soon be filled. Another may appear in his stead in the councils of the Empire, another may take up the work of preaching the gospel of the Dominion beyond the seas, but it will not be the same. His life spent, his memory and example alone remain as a legacy to the country and to the people he loved so well.

But though Lord Strathcona, after long labor and worthy service, has joined those who rest, the story of his career will continue to furnish inspiration to thousands of Canadians yet unborn. He was one of the people, the high position he gained came as the reward of merit, the very title he honored, the place in the House of Lords he adorned, were the hall marks of achievement rather than of birth. From a cabin on the Canadian frontier he won his way to the seats of the mighty, and to a proud place in the hearts and minds of men.

It is no time for words when the wounds are fresh and bleeding; no time for homilies when the lightning's shaft has smitten and the man lies stunned and stricken. Canadians today may hardly realize the extent of their loss. But as the days pass and to others fall the responsibilities formerly borne by him, when our young men shall profit in wisdom, from the fruit of his beneficence; as the Canadian nation grows and develops and expands, more than a passing thought will be given to the man who had an active part in the beginnings of it and who lived to see the fruition of many of his youthful ambitions. When reflection brings to us the realization of the magnitude of his achievements, and the value of his work, then will Lord Strathcona's memory be enshrined in its rightful place among the builders of the Canadian Confederacy, and of him it will be said, "Truly a strong man has passed this way."

## THE GOVERNMENT'S REPLY

"We do not propose to plow in the sand or to winnow chaff." In these words Hon. W. T. White explains the attitude of the government on the question of Naval Aid to the Empire. Mr. A. K. MacLean, the Liberal speaker from Halifax, who, in the course of the debate, in Ottawa, yesterday, attempted puerile criticism of Premier Borden's address on Monday intimated that the government was afraid to introduce the Naval Aid legislation at the present session. The clarity of vision possessed by Mr. MacLean is almost as marked as that of Sir Wilfrid. Of course the government is afraid, not for itself, but for the good name of Canada.

Canada has once been humiliated and made a by-word in the councils of the nations by the action of the partisan Grit senate last session. The government naturally fears that, while conditions remain as they are, whereby the non-representative Grit majority in the Red Chamber, many of whom secured their appointments as the result of contributions to Grit boodle funds at election times, have the power to defy the mandate of the Canadian people and misrepresent to the world the depth of the Canadian imperial sentiment, there will be a repetition of the scandal of last session and Canada will, once more, stand before the world disgraced as the only member of the British sisterhood to put partisan politics ahead of the burning question of the Empire's weal.

Is there anything disgraceful in such fear? On the contrary, is it not eminently the same course for the government to pursue, to make sure that Canada's desire to aid in solving the problem of Empire defence shall not be frustrated through the numerical strength of the adherents of Laurier. The course of cowardice, rather than that dictated by the desire to shield Canada from the false position in which the Grit Senators would place her.

over whom the people of Canada at present have no control, placed their party spleen ahead of their bounden duty, these ships, by this time, would have been under construction and ready to take their place beside the finest products of British yards in 1918.

The Liberal majority in the Senate has already delayed the payment of Canada's Empire debt. Canadians will uphold Rt. Hon. R. L. Borden in refusing to allow them to add to the humiliation to which they have already subjected this country. When the real representatives of the Canadian people are in a position to carry out the mandate given to them on September 21st, 1911, Canada's obligations will be properly discharged. Until that time the Grits themselves must bear the full measure of the responsibility for the delay.

## THE BAY OF FUNDY

It is good to be able to report that Mayor Frink and the members of the City Council agree with The Standard that steps should be taken at once to contradict the slanderous attacks upon the Bay of Fundy. In another column of The Standard will be found expressions from business men, all of whom are of the opinion that it is the duty of the Board of Trade to take action to completely refute the statements of Captain R. D. Clift, Mr. F. W. Wallace, and the unfair newspapers in Halifax, the Chronicle and the Echo. There is abundant evidence in support of the contention that the Bay of Fundy is as safe as most other waterways in the world. The Standard has already published opinions on this point from expert navigators and shipping men, and this morning other interesting contributions are made.

In the case of the steamer Cobeguid, whose misfortune seems to be the neg on which the enemies of St. John have hung their attacks, Captain Howson's own statement, under oath, at the session of the enquiry in Halifax yesterday is as strong as it needs to be to entirely remove any impression that the Bay of Fundy was at all responsible for the accident. Captain Howson manfully admits that he was of his course and that to his own error of judgment may be ascribed the striking of his vessel. His statement must be accepted, even by the enemies of St. John, as that of a British officer and a gentleman.

The St. John Board of Trade may be expected to assist the City Council in whatever line of action is decided upon. It is certainly the opinion of the business men of St. John that something should be promptly done and the decision of Mayor Frink and the members of the City Council will prove a popular one.

Following the judgment of the court in the Board of Trade enquiry into the loss of the Volturo, the Earl of Desart concluded his eulogy of the crew with the remark that of Captain Lech it was sufficient to say he did his duty. The Montreal Gazette says: The praise is a reminder that the traditions of the sea are safe in the hands of the ship masters of today. Recently there have been several incidents of duty well done, the case of Captain Howson, R. N., of the wrecked Cobeguid, being a good example. The men who are last to leave are captains courageous.

The Grits have been fond of quoting the opinions of the Montreal Daily Mail on questions on which that paper has not agreed with the Borden government and referring to it as a grand independent publication. The Daily Mail has now formulated definite charges of corruption against the Grit Quebec legislature, headed by Sir Lomer Gouin, but it is a certainty that none of its opinions on that particular question will find their way into the mouthpieces of the party of Laurier and "purity."

The Evening Times makes an interesting contribution to the question of the safety of the Bay of Fundy by recounting what the Board of Trade did years ago to refute slanders then in circulation. Surely the Board of Trade of today will not be behind the gentlemen who constituted the board of other days, before the period of reorganization. What has been done is interesting, but the main question is that it must be done again and no time should be lost in setting about it.

In the closing of the end of December of 128 post offices Canada saw a sign of progress in a new way, but one that touches directly most of the people. Where rural mail delivery has been established the "corner" post offices have no excuse for existing. New Brunswick has seen its share of this development and can bear its testimony with the other provinces that the postal affairs of Canada are in safe hands.

## Diary of Events

### THE HUMAN PROCESSION

#### A NOTED SOCIALIST

That the gospel according to Jesus Christ, and the gospel according to Karl Marx, are not irreconcilable, but rather a complement to each other, was the theory entertained by the Rev. Dr. George Davis Harris which resulted in his being dropped from the rolls of the Congregational church. The Herron heresy case, which involved an exchange of wives as a spectacular feature, excited a great deal of attention some thirteen years ago.

Prof. Herron was born in Montezuma, Ia., sixty-two years ago, and was educated at Ripon College, in Wisconsin, followed by two years in Europe. After becoming a Congregational minister he was pastor of churches in Lake City, Minn., and Burlington, Ia., and in 1893 was appointed professor of applied Christianity at the University of Wisconsin. It was there that he started his "social crusade," in which he delivered radical lectures on the relation of Christianity to existing social conditions. His socialistic preachments naturally aroused opposition, and in 1900 he resigned from the college faculty.

At the age of twenty-one Dr. Herron married a college sweetheart, daughter of Dr. A. Everhard, of Ripon, Wis. Mrs. Herron was not in sympathy with her husband's heresy, and later, in 1901 the couple were divorced. A little later Dr. Herron married, in New York, Miss Carrie Rand, a wealthy woman who was an ardent believer in his scheme of social salvation. Dr. Herron, upon leaving the church, became a lecturer and writer on socialism. For some years the Herrons lived in the United States, and later, in 1901 the couple were divorced. Dr. Herron, who has resided in Florence, Italy.

### FIRST THINGS

#### FIRST STEAM NAVIGATION CO.

The first steam navigation company was formed in 1788 by John Fitch, inventor of one of the first steamboats, who was born in East Windsor, Conn., 171 years ago today. Fitch was a great admirer of the American revolution, and afterward manufactured sleeve buttons in Trenton, N. J. In 1786 he constructed a steamboat, and later, in 1790, he was propelled by six paddles on each side. Fitch convinced several Philadelphia capitalists that this boat could be made commercially profitable and a company was formed to run the steam packet on the Delaware river. For a short time the venture was carried on at a loss, and the first steam transportation company proved an ignominious failure. Fitch later went to France to start a similar project, but there, too, he met only with discouragement. He died in Hartford, Ky., in 1798, leaving behind him a history of his steamboat enterprises, in a sealed envelope, directed to "my children and posterity." It remained for William Symington, in Scotland, and Robert Fulton, in America, to demonstrate the practicability of steam navigation.

### THE PASSING DAY

#### SEMI-CENTENARY OF BRITISH COLUMBIA'S GOVERNMENT.

This is an important date in the history of British Columbia, for it was just half a century ago today that representative government had its birth in the infant colony. It was on the twenty-first of January, 1864, that the first legislative council was convened in New Westminster, then the capital, by Sir James Douglas, who was the governor of British Columbia and Vancouver's Island. Seven years later, to a day, the legislature of British Columbia, which then included Vancouver's Island, passed a resolution in favor of joining the Dominion of Canada. This action followed the failure of a strong movement which had had for its object the annexation of the colony to the United States. It was in 1858 that Governor Douglas had informed the British government that there was reason to believe that gold had been found in New Westminster, and that the Hudson's Bay Company's districts in what is now British Columbia. At first little note was taken of the statement. A few men tried to set out by steamship from San Francisco for the Fraser river, but the news reached California, however, there was vast excitement. California had become tame and domesticated, and many of the adventurous '49ers were longing for fresh fields and pastures new. By 1858 the rush was on.

On an April day in that year 450 miners set out by steamship from San Francisco for the Fraser river, the new El Dorado. Within a month thousands more were on the way, by sea or land. Many took the land route from Shasta and Yreka, through Oregon, which was found to be no more than eighteen days' journey. Before the close of the year some 50,000 gold diggers, nearly half of them Californians, were in the country. Sir James Douglas, the governor of Vancouver's Island, took prompt measures to protect the British government by imposing a license tax, and to protect the Hudson's Bay Company monopoly by forbidding the importation of goods other than through the company's agencies. Several parcels of goods brought in by American miners were seized, and this led to a protest by the Washington government. The London authorities upheld the governor, but instructed him to "deal liberally with the citizens of the United States." British Columbia was constituted a colony in 1863, and six years later the agitation for reform resulted in the convening of a legislative council. A few years later the American settlers began the agitation for annexation to the United States. In 1871 British Columbia consented to enter the Dominion as a Province, on the condition that a transcontinental railway be built to give it direct communication with the eastern provinces.

### BOXERS SHAKE HANDS.

London, Jan. 20.—Jack McAllister, the old lightweight, has become reconciled to Jim Carnegy, to whom he has not spoken since their famous five-hour battle at Revere Beach, Mass., November 17, 1887. Carnegy always felt he should have got the verdict.

# COUNTY COUNCIL PASSES ANNUAL APPROPRIATIONS TO AMOUNT OF \$157,000

### Discuss Question of Spending \$300,000 for New Public Hospital.

### WILL DECIDE ON IT AT MEETING TODAY.

### \$10,000 Grant for Upkeep of Tuberculosis Institution from Sept. 15th to Dec. 31st—Elect H. R. McLellan Warden.

At its meeting yesterday the county council passed appropriations for the current year to the amount of \$157,000, and discussed the question of spending \$300,000 for a new general public hospital.

Coun. McLellan was elected warden without opposition. A grant of \$10,000 was made to run the proposed St. John Tuberculosis Hospital from September 1st to December 31st, it being understood the building, which will cost \$50,000, will be finished by September.

After the secretary read the returns from the parish elections, the council members were sworn in, and the minutes of the previous meeting taken as read and approved.

The next business was the election of warden, and on motion of Councilors Wigmore and Smith, Coun. H. R. McLellan was unanimously elected.

Warden McLellan. In taking office the new warden said the importance of the municipal council had not been properly realized in the past, and it would be his duty to try to impress its importance upon every member of the community. He said that in the near future there ought to be a revaluation in the city and parishes for assessment purposes. He had been charged with mediating in parish affairs, and he charged again would exhibit something in support of his mediating. He referred to the assessment system; that was the next thing to a joke, and the collection of taxes after the assessment was made was better than a joke.

On motion of Coun. Frink a standing vote of thanks was extended to the retiring warden, Coun. Carson, for the fair-minded way in which he had exercised the duties of his office. The ex-warden made a fitting response.

### Hospital Fire Escapes.

The council went into committee of the whole to hear a delegation from the General Public Hospital. Dr. Thomas Walker said he had been for some time that the fire escapes on the hospital would not be of much use in getting out patients, though they had been put in accordance with the law as it was years ago. He said it was proposed to erect balconies which would serve a two-fold purpose, a means of escape from fire, and a place for taking fresh air. There would be three balconies 15 feet wide on each side, connecting with the wards, and having broad stairways leading to the ground. The estimated cost was \$14,000.

Dr. Walker asked that the council give the Hospital Commission the financial authority to have the balconies erected.

### New Hospital.

Dr. Walker then spoke of the need of a new general hospital, a matter which has been before the public for three years or more. The first proposal was to build a wing to the south of the present building, but this was turned down. The proposition now was to acquire five lots on Wright street and put up a building four stories in height with accommodation for 140 patients. This building would be the nucleus of a new hospital. The estimated cost of the building with power house, laundry, etc., was \$279,000.

He trembled to come before the council with such a proposition, but in view of what was being done in other cities he felt it was not extravagant. The old building was antiquated; their quarters were cramped. The commissioners were accused of wanting to build a hospital for the wealthy, this was not so. They found it paid to

### WOULD COUGH SO HARD WOULD TURN BLACK IN THE FACE.

A cough cold is one of the most dangerous kind. It leaves the throat or lungs, and sometimes both, affected if not taken care of immediately.

Obstinate coughs and colds yield to the grateful soothing action of Dr. Wood's Norway Pine Syrup, containing as it does all the lung healing virtues of the Norway pine tree.

Mrs. C. J. Selig, Dartmouth, N.S., writes: "My little boy, six years old, had a dreadful, hard cough. At night time he would cough so hard he would turn black in the face, and at times he would cough nearly an hour before he would stop. I got a bottle of Dr. Wood's Norway Pine Syrup, and it did him so much good I got another. Now I am only too glad to be able to write this to tell how thankful I am, and to tell every mother to use nothing else."

Price, 25 and 50 cents.

Be sure you get "Dr. Wood's" when you ask for it. See the trade mark: the three pine trees.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

take in paying patients; their money was spent in St. John instead of other places.

Coun. Schofield—it is charged that poor patients have been turned away.

Dr. Malcolm said there had been cases where doctors sent people to the hospital without examining them, and these people had been turned away because they were not suitable patients. But he felt sure no deserving cases had been turned away.

### Assessments.

The finance committee recommended that the following assessments be made upon the City and County of St. John for the several services and purposes named, and in the same proportion upon the city of St. John and upon the parishes of Simonds, St. Martin, Lancaster and Musquash, except where the assessment is a charge upon a particular parish:

For contingencies	\$39,430.00
St. John Co. Hospital	10,000.00
Gen. Pub. Hos. St. John	42,800.00
Local Board of Health	7,200.00
St. John Mun. Home	24,000.00

### Tuberculosis Grant

Coun. Schofield moved that \$10,000 be appropriated for the maintenance of the St. John County (Tuberculosis) Hospital this year. He said they should not discuss the erection of the institution; money had been voted to put up the building. They could have the building ready by September. It would cost \$40,000 a year for maintenance, and for the quarter they wanted \$10,000. St. John had an unusually high death rate from tuberculosis.

Coun. Agar said he understood the institution would cost \$30,000 a year to run, and that the estimate of \$40,000 included cost of furniture. They must expect to pay for conveniences.

Coun. Frink said he had been strongly in favor of the tuberculosis hospital, but was startled at the cost of maintenance. If it cost \$30,000 or \$40,000 a year to maintain the tuberculosis hospital where there would be fifty patients, what would be the cost of maintaining the new general hospital? They were told the proposed new hospital building would cost \$279,000; that would mean an interest charge of about \$40,000. He could not vote in favor of the expenditure until further consideration.

### Need Institution

Coun. Wigmore thought in view of the public agitation and loss from tuberculosis, they would be justified in voting the money.

The warden believed none of the councilors had had an idea that the expense of maintenance would be so great. He would like to be able to spend \$40,000,000 to wipe out the white plague, but thought they should give the matter serious consideration.

Coun. Frink moved that the matter be deferred to a special meeting three weeks hence, in order to give the public a chance to express their opinions.

Coun. Howard seconded this.

Coun. Schofield said the estimate of \$30,000 was based on the assumption that fifty-three patients would be constantly in the hospital, and that the expense would be \$1.72 per day per patient. Probably the hospital would not always be filled up, and the paying patients would reduce the cost. The amendment was voted down, and the motion to assess \$10,000 was then declared carried.

### Lancaster Taxes

Coun. Frink said collections in Lancaster had not been kept up, and this was had from a debenture standpoint.

Coun. O'Brien said the other councilors for Lancaster ought to explain why the taxes had not been collected.

Coun. Golding said the collector had declared that there would be no difficulty about getting the back taxes, as the delinquents had assets.

An amount of \$129 for expenses and damages on Rothesay avenue was ordered assessed on the Parish of St. Mond.

It was decided to dispense with the services of Police Officer Wm. Armstrong for Simonds and sell his horse; the reason being that a policeman was not necessary there in winter.

The salaries of the treasurer and auditor were fixed at the rate of \$900 per year.

Claims of Dr. Kelly for \$12; Dr. Frost for \$12; and Dr. Bentley for \$8 for examining lunatics were ordered paid.

### Municipal Home.

Some discussion took place over the recommendation to install electric lighting in the Municipal Home at an estimated cost of \$2,500.

Coun. Howard thought they had agreed some time ago that the Municipal Home ought to be sold, as it was an unsuitable place.

Coun. Agar thought they should install the lights, as the site of the Home would not be utilized for industrial purposes for some years away.

Coun. Carson agreed with this; electricity would be safer and cheaper.

Coun. O'Brien suggested the idea of using the boiler in the Home to generate electricity.

Coun. Schofield said electricity would be cheaper, and that there was still reason to believe the Home would be wanted for industrial purposes.

The Warden said that last year he had believed it would have been folly to spend \$2,500 on electric lighting, in view of the statement made that Norton Griffiths Company had wanted the site.

He has never been in the Home, except in Mr. Wood's office. He commiserated ex-Warden Carson for not signing the option he wanted, and said that he wanted to protect the Home. He would not sign the Home away in the next two years, unless they paid \$2 for every one it was worth. Now he believed the Home would remain there for a long time, and he favored the installation of electric lights.

A motion to install electric lights was passed.

A motion was passed voting \$60 to pay a parish clerk, a portion of salary withheld from him during 1911.

### Examined Plans.

A sub-committee submitted a report, saying they had examined the plans for the proposed new general public hospital and felt from a layman's point of view that they met the needs of the situation.

Coun. Agar said the matter would have to go forward. The project would mean an expenditure of nearly \$300,000.

Coun. Agar moved that the report in regard to the plans be received. This report recommended that an expert be secured to make a report on the preliminary plans, and also that the preliminary estimate for the building and land was \$296,000.

Coun. Schofield—An expert may find the estimate may be first thing.

The Warden—the first thing is to decide whether we are willing to spend the money. We don't want to spend money on an expert unless we are going ahead with the building.

### Favor Idea.

Coun. Agar said he was prepared to move a resolution to provide the building; the commissioners, doctors and general public had been clamoring for more and better hospital accommodation.

Coun. Schofield said new light had broken in on him. Probably the warden's plans would be determined by the amount of money available. That meant the councilors should decide how much money they would expend. The hospital matter had been before the public for five or six years; the need of increased accommodation was generally admitted. He favored the idea.

Coun. Wigmore said he was willing to vote for the proposed expenditure.

The Warden pointed out that it was then 6 o'clock, said they should give careful consideration to the project, which would involve \$300,000, and ultimately a great deal more.

Coun. Carson—I move we adjourn till 2 o'clock tomorrow. I think we ought to take the night to consider a matter of issuing bonds for \$300,000. Council adjourned till 2 p. m. today.

Those present were: St. Martin—Wm. Smith, C. Fred Black, J. A. Howard. Simonds—Messrs. Carson, Stephenson, Shillington. Lancaster—E. Bryant, Wm. Golding, John O'Brien. Musquash—Wm. J. Dean, Frederick Thomson. City—Messrs. Frink, Wigmore, McLellan, Schofield and Agar.

## MOTHER! THE CHILD IS COSTIVE, BILIOUS

### If tongue is coated, breath bad, stomach sour, don't hesitate.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, fretting, crying, and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste.

When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipation, undigested food and sour bile gently moves out of your little bowels without pain, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs"; then see that it is made by the "California Fig Syrup Company." Don't be fooled!

### SENATOR CHOQUETTE CANDIDATE FOR MAYOR IN QUEBEC.

Ottawa, Jan. 20.—Senator Choquette who has arrived for the session, announces his candidature for the Quebec mayoralty next month.

### Town Planning.

At the regular meeting of the Fairville Methodist Brotherhood last evening Perry Kelly was heard in an interesting and instructive talk on "Town Planning." Discussing the system of town planning the speaker pointed out how the difficulties in the way of planning a town might be overcome, and told that many of the most urgent civic needs could be accomplished by the passing of certain legislation. This discussion was held under the regular business of the Brotherhood had been transacted.

### Delegates from Fourteen Nations Signed Agreement Yesterday.

### EMBODIES SEVENTY-FOUR ARTICLES

### Lord Mersey Gives Summary—Deals with Ice Patrol, Wireless and other Methods for Protection.

London, Jan. 20.—The convention drawn up by the International conference on safety at sea was signed at the foreign office this afternoon with considerable formality by all the delegations except one, namely Austria, which will sign tomorrow.

The representatives of Great Britain, Canada, Australia, New Zealand, United States, Germany, France, Italy, Spain, Sweden, Norway, Holland, Belgium and Denmark were all present.

The text of the convention which contains seventy-four articles will not be officially published until Feb. 15.

Lord Mersey, president of the conference, in his closing speech summarized the principal provisions of the convention. He said:

### Watch For Ice in North Atlantic

An international service is to be established by the nations chiefly interested for the purpose of an ice patrol and ice observation, as well as the destruction of derelicts in the North Atlantic. The service is to be under the control of the United States. This service is to take over and continue the work done by the two vessels employed by the United States in 1912-13 in locating ice, in determining its limits to the south, the east and the west, and in keeping in touch with it as it moves southward in order that vessels may be kept informed by wireless of its position.

The service also will continue the duty of dealing with dangerous derelicts east of a line drawn from Cape Sable to latitude 34 north, longitude 70 west. The waters to the west of this line will continue to be watched by the United States.

The duty is also imposed on all shipmasters to report the presence of dangerous ice and derelicts and a code of signals is prepared to facilitate this reporting.

"When ice is reported on or near the track a ship must proceed during careful observation or alter its course so as to clear the danger zone.

"The practice by which routes across the Atlantic are fixed by agreement between the nations chiefly interested has been left unaltered and the government undertakes to impress all ship-owners with the desirability of allowing as far as possible these routes.

"The effective lighting of boat decks is provided for by the convention and the carrying of Morse lamps is made compulsory.

### New Danger Signal.

"An international code for urgent and important signals has been adopted.

"On the question of construction of passenger steamers," Lord Mersey continued, "the convention provides that existing arrangements shall be maintained by the nations of the country to which each vessel belongs, with the view of providing increased safety where practicable and reasonable.

"The most difficult point this committee had to deal with was the division of ships into watertight compartments. The convention provides that the degree of safety should increase in a regular and continuous manner with the length of vessels, and that vessels shall be as efficiently subdivided as possible with regard to watertight compartments, requirements as to the strength of bulkheads and decks, the reduction to the smallest practicable number of the openings in watertight bulkheads, the restriction of the number of openings in the ship's outer skin, appliances for each compartment as to double bottom, the periodical operation and inspection of watertight doors, etc.

"The President referred to the compulsory entering in the logs of drills and inspections, and the requirement by the convention of backing power and auxiliary steering apparatus.

Concluding the summary of these provisions, Lord Mersey said that great increase in safety can result from prudent and skillful management and navigation.

### Wireless on Merchant Vessels.

The convention provides that all merchant vessels when engaged in international or colonial voyages, whether steamers or sailing vessels, and whether carrying passengers or not, must be equipped with wireless telegraph, if they have on board fifty persons or more, except where that number is increased owing to causes beyond the master's control. The convention also provides that the discretion to make suitable exemptions in certain cases, the most important of which is in connection with vessels, which in the course of their voyage do not go more than one hundred and fifty miles from the nearest land.

In the meantime, the following vessels are required to maintain a continuous watch, in addition to all vessels placed in the first category convention, which included all fast passenger steamers, vessels of more than

### WILL PRESENT BILL ASKING PRISON FARM

### Bills Committee of Municipal Council will have Busy Session Today—New Hospital.

At the meeting of the County Council today the bills committee will submit a report recommending that a bill to provide for the establishment of a municipal prison farm be forwarded to the legislature at its next session. A bill to provide for the establishment of a municipal farm was turned down at the last session of the legislature, mainly because of opposition from the city representatives who thought the project would entail too heavy an expenditure and should be taken up by the province as a whole.

In anticipation of the council deciding to approve the project to go ahead with the construction of a new general public hospital at an estimated cost of \$296,000, the bills committee have prepared a bill, asking the legislature to authorize the county to issue debentures to furnish the money to build the new hospital.

The committee also recommends the submission of another bill to the legislature, authorizing the Lancaster sewerage board to collect from owners of land under lease or occupation the sum of five dollars for every branch pipe or Y placed by the board in a main sewer for the purpose of facilitating the connection of lands used and premises, buildings and erections opposite to or fronting on the streets or highways through which main sewers pass. This bill provides that if the owner of the land under lease refuses to pay the sum of \$5.00, the lease, tenant or occupier shall pay \$10 for a permit to enter the main sewer, and may thereafter deduct the sum of \$5.00 from any monies which he owes the landlord, without regard to what the terms of his lease may be, together with interest and any costs, damages or expenses which may be incurred by the lease, tenant or occupier by reason of the neglect or refusal of the land owner to pay his proportion for such entrance permit.

The committee will also recommend the submission of a bill entitled an act to amend the Municipalities Act, applicable to the parishes in the municipality of the city and county of St. John, which provides that the voters lists shall remain open up to ten days of election day in the case of a special election.

The parish and district clerks, if provided, shall within ten days after receiving a list of voters from the assessors cause fifty copies thereof to be printed. Any elector shall be entitled to a copy of such lists on paying the pro rata cost of printing.

All ships are to have an adequate system of lighting, to enable passengers to find their way to the exits, while the boat decks also must be well lighted.

The ships of the contracting states which comply with the requirements of the convention shall be furnished with certificates which shall be accepted by all states as having the same value as certificates issued by them to their own ships, and as constituting prima facie evidence of compliance with the convention.

## Cold Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblain, or a "frost" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that I was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk and it succeeded when all else had failed. It closed the big cracks, gave me ease, cooled the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chaps, rashes, winter eczema, piles, ulcers, festering sores, sore heads and backs, chomces, pimples, ringworm, cuts, burns, bruises, scalds, sprains. Of all drug stores and first-class grocers. See the Zam-Buk Co., Toronto. Price 60c a box.

# Lower Schedule for Electric Current in Truro Ordered

## NOVA SCOTIA BOARD OF UTILITIES ORDERS CUT IN RATES. COMPANY HAD ASKED FOR AN INCREASE

### New Tariff for Motors, and Bills Rendered to all at First of Month—Continuous Current Except for Half Hour.

The Halifax Herald of Saturday, Jan. 10, contained the following report of the decision of the Nova Scotia Utilities Board re Chambers Electric Light and Power Co. for a higher schedule:

The Nova Scotia Board of Public Utilities yesterday filed a decision in the matter of the application of the Chambers Electric Light and Power Company, Limited, of Truro, for an amendment to its schedule of rates for electric current. The company asked for an increase. Instead of an increase the board has ordered a decrease in rates. The board's decision is that the company's proposed rates are designed to furnish a substantial increase of revenue, claimed to be rendered necessary by reason of the increased cost of production, which increase is mainly attributable to the higher price of coal, which has now to be paid. The company has been operating under a tariff prescribed by the board in 1910, which it appears has resulted in an increased consumption of electric current, without a corresponding increase of revenue.

The company asserted that costs had become greater, particularly in the matter of coal. Several hearings were made in Truro and a valuation of the plant was made showing its entire value to be \$49,625. This being done the commission had figured out how much the earnings should be to cover operating expenses, depreciation, interest on the capital expenditures, and allow for a fair return on the money.

The board now announces a schedule which it believes will yield a fair return on the investment, but at the rate being higher, it is in effect less.

The company is to give a service that will remain constant, and a continuous service is to be provided except for half an hour at noon; a new tariff is ordered for motors and bills are to be rendered to everybody at once on the first of the month.

The commissioners have given a very lengthy decision of more than twenty typewritten pages, which it is impossible to publish in full today. It is pointed out that the company's capital is \$100,000 and it is practically a one man concern and it appears to have been profitable.

It may be noted, says the decision, that the estimate for 1913, under the proposed tariff shows an increase of \$147 in revenue as a result of new rates and leaves a balance of \$6,861.30, as net earnings. Without the increase the balance would be \$5,285.20. A further deduction must be made for loss of prospective profits from street lighting.

Of the expense side of the estimate, several items require comment. The first of \$6,000 for wages to which may be added the last \$2,500. Manager's salary, making a total of \$8,500, appear to the board quite in excess of what may be considered reasonable for a plant of this class. In the early history of the company the manager's salary was \$750, then \$1,000, then \$2,000, and it was not until after the capital stock was fixed at \$100,000 that the higher priced management of \$2,500 per annum began.

We shall have occasion later on to refer to this in another connection. It may be convenient here to say, however, that the present method of supplying electricity and house heating free to the manager and employees in unlimited quantities is contrary to the provisions of the Public Utilities Act and should be discontinued. It encourages waste at the expense of the general consumer; it renders impossible the ascertainment of exact result and permits of the discrimination which the act prohibits. The comparison to faithful employees may well be liberal but it should be definite, a fair equivalent for services rendered.

Since he has already been made to pay a salary of \$2,500 per month, a further electrical branch of the business no very definite account of the services performed has been given. No good reason appears why the laundry, furniture and garage business should not bear a portion of the bill. Mr. Chambers is the unquestioned head of all four branches. It is true that he testifies that the laundry foreman now attends to the laundry. Elsewhere, however, he testifies that the men employed about the electric light station know as much about electricity as he. While the board does not see this statement as a fair equivalent for services rendered, it cannot doubt that if the conditions were reversed, if the laundry were a public utility, and the electric lighting a private business, the foreman would be required to pay a share of the manager's salary. Under all the circumstances the board is of opinion that an allowance of \$1,200 per annum for the management of electrical plant suited to the requirements of Truro is fair at all on the side of liberality.

Moreover high priced management can only be justified by the results obtained. We have already referred to what appears excessive coal consumption. Complaint is also made of a lack of constancy in voltage, which was the complaint most strongly pressed at the hearing.

The New Schedule.

As board proceeds in conclusion to

# TELLS WHAT GOVERNMENT OF PROVINCE IS DOING FOR AGRICULTURE

## John Woods Gives Truro College for Agriculture an Idea of Methods being used to Stimulate Farming.

### Mr. Woods passed through the city on Saturday morning en route for Welsford. He has been in Truro attending the short course at the Nova Scotia Agricultural College. The attendance this year was the largest in the history of the college, there being 351, all told.

During one of the lectures on drainage, Mr. Woods was called on to say something on drainage and how it was being carried on in New Brunswick. He outlined the work undertaken by the government this past year, making some comments on the ditching machine purchased by the government and the work it has done. He also outlined the government's policy regarding the purchase of machines in the province. Mr. Woods was heartily in sympathy with his subject, and being quite a forcible speaker, made a good impression on his hearers as to the good work being done in New Brunswick.

# CLOSING STOCK LETTER FROM RANDOLPH

(F. B. McCURDY & CO.)  
New York, Jan. 20.—The market as a whole has marked time today. There were some heaviness in the early trading, and after the publication of the President's message, there was a disposition on the part of the traders to sell stocks on the ground that the message was not public property and could produce no further effect. The market reacted moderately after the publication of the message, but in the last hour again grew strong, and on quiet trading recovered all of its early loss. Western Union was a special feature of strength, advancing over two points above last night's close.

announces the following rules for the supply of electric current by the Chambers Electric Light and Power Company.

All bills for electricity shall be rendered on or before and shall become payable on the first day of each month for the electricity consumed during the preceding month, and a discount of ten per cent shall be allowed on bills paid before the tenth of each month in which they become payable.

Any customer shall be entitled to receive electricity for any use at the following prices:

At 15 cents per K. W. H. for the first 15 K. W. H. consumed in any month.  
At 12 cents per K. W. H. for electricity in excess of 15 K. W. H. and up to 50 K. W. H. in any month.  
At 9 cents per K. W. H. for electricity in excess of 50 K. W. H. and up to 100 K. W. H. in any month.  
At 8 cents per K. W. H. for electricity in excess of 100 K. W. H. in any month.  
At 7 cents per K. W. H. for electricity in excess of 200 K. W. H. and up to 500 K. W. H. in any month.  
At 7 cents per K. W. H. for electricity in excess of 500 K. W. H. in any month.

No bill for current for any purpose shall be for less than \$1.11 per month. Where motors or heating appliances in excess of one K. W. H. rating connected, no bill for current shall be for less than 83 cents per month of K. W. H. rating connected.

In addition to the ten per cent cash discount a further discount of ten per cent shall be allowed on the gross amount of the bills for electricity supplied under a yearly contract for motors of a rating in excess of three K. W. H. to be operated only between one o'clock a. m. and sunset.

These prices shall include the cost of metering current.

Electric current shall be furnished continuously within the town of Truro except between 12.45 p. m. and 12.45 p. m.

When required each applicant for electricity shall deposit with the company a sum equal to approximately two months' supply, which deposit may be held by the company as security for payment of current supplied. Interest at the rate of six per cent per annum shall be payable on all such deposits and when the consumer ceases to use the supply and shall have paid all bills for electricity the deposit shall be returned with interest.

—Halifax Herald.

# PRINCE EDWARD ISLAND MAN DEAD IN WEST

## Alexander E. MacLeod, for Many Years Tailor at Parrsboro, Dies in Vancouver Hospital.

Parrsboro, N. S., Jan. 20.—Alexander E. MacLeod, a native of Prince Edward Island, but for many years a leading merchant tailor at Parrsboro, died in the hospital at Vancouver last evening, aged fifty-eight years.

Mr. MacLeod retired from business last year on account of ill health and went west where his condition seemed to improve, but last month he had a stroke of paralysis from which he never fully recovered.

Mr. MacLeod leaves a wife and three daughters. His wife was a daughter of the late James S. Harris of Parrsboro, and one of his daughters was with him to the last. The remains will be interred at Vancouver.

Successful Concert  
The social and literary committee of Lelander street Baptist B. Y. P. U. conducted a successful concert last evening, when an interesting program was rendered, consisting of solos, duets and readings.

# MOON LETTER ON NEW YORK STOCKS

(F. B. McCURDY & CO.)  
New York, Jan. 20.—The market opened quiet and as a rule but little buoyancy which had characterized many preceding sessions, but nevertheless developed some conspicuous points of strength during the morning hours. In general the reduction of the short interest was reflected by periods of irregularity and the president's message proved disappointing to some of the more sanguine, who had hoped without reason that this document would recommend an increase of railway rates. Following the publication of the message, which had been accurately forecasted for several days, the market developed a quiet and irregular tone, with average prices dropping off somewhat from the day's high level. Bears tried to make something of the further shipments of gold to Paris, but there is already a large accumulation of idle funds at this center and further exports could be made without causing apprehension. General conditions are still favorable to the constructive side of security values.

(J. C. MACKINTOSH & CO.)  
New York, Jan. 20.—Today's stock market, from the start, lacked the buoyancy which had characterized many preceding sessions, but nevertheless developed some conspicuous points of strength during the morning hours. In general the reduction of the short interest was reflected by periods of irregularity and the president's message proved disappointing to some of the more sanguine, who had hoped without reason that this document would recommend an increase of railway rates. Following the publication of the message, which had been accurately forecasted for several days, the market developed a quiet and irregular tone, with average prices dropping off somewhat from the day's high level. Bears tried to make something of the further shipments of gold to Paris, but there is already a large accumulation of idle funds at this center and further exports could be made without causing apprehension. General conditions are still favorable to the constructive side of security values.

# CHICAGO GRAIN AND PRODUCE LETTER

Chicago, Jan. 20.—Wheat—Market quiet, only due to the unexpected higher cables from Liverpool but the weakness in Corn caused the local element to take the selling side, making a fair trade, the strength in Liverpool at the close was due to an unconfirmed report that the German Emperor had become suddenly ill but just what effect this will have on the growing crop in this country or on consumption abroad is a mystery to the trade here. Look for some further decline, although the conditions are again a severe break.

Corn—Unfavorable weather over the belt made a firm start, but cash houses have been on the selling side and report an increase in country offerings. This with the slow cash demand caused a break of around half from the previous close. Argentine wheat and other reports continue excellent. Do not look for much profit in buying except on sharp breaks and then only for moderate profits.

(J. C. MACKINTOSH & CO.)  
New York, Jan. 20.—Del. and Hudson strike settled last night. If John Skelton Williams confirmed as comptroller of currency by senate, President's message today at 12.30 p. m. Youngstown sheet and tube strike called off a severe break. F. D. Underwood of Erie, now in Milwaukee, predicts that railroad business in coming year will be smaller than in 1913. \$2,000,000 gold engaged for shipment to Europe. Twenty railroads advanced 30 per cent. Twelve industrials advanced 44 per cent. Americans in London quiet and about steady.

# NEWS SUMMARY AFFECTING MARKET

(F. B. McCURDY & CO.)  
New York, Jan. 20.—Offerings of stocks continue to be limited in supply according to reports from floor brokers bidding for standard issues. Accumulation of industrial bonds returning more than five per cent. is found for conservative account. The general bond demand is understood to be very strong for medium grades.

Attention is called to the point that the market enters the new year with a level practically the lowest in ten years excepting the panic periods of 1903 and 1907. Predictions are being made that Europe will soon enter this market on a large scale.

# A Savings Account As An Investment

A savings account in the Bank of Nova Scotia is an ideal investment for three reasons. First, it has the most important requisite—Safety. Second, it is always readily available in cash. Third, the interest is certain, and, if you do not wish to use it, it is compounded for you twice a year. Capital and Surplus, \$17,000,000. Total Assets over \$76,000,000. Independent Outside Audit since 1906.

**NEW LOAN**  
**CITY OF KAMLOOPS, B.C.**  
**6% DEBENTURES**  
PRICE: 100 AND INTEREST  
DATED APRIL 1st, 1913. DUE APRIL 1st, 1938.  
INTEREST PAYABLE 1st APRIL AND OCTOBER  
DENOMINATIONS \$500.

**Security**  
Secured by taxation, Canadian Municipal Debentures form one of the highest classes of investment obtainable. Due to the stringency of money investors are being offered today Municipal Debentures at lower prices than have prevailed for years. Consequently many people who have heretofore confined their investments to other securities, are availing themselves of the investment opportunities afforded by Municipal Debentures, both from a standpoint of safety and interest return. This is an opportunity which is not only being availed of by Canadian investors, but investors in the United States and Great Britain.

**Concerning Kamloops**  
Kamloops is one of the first cities of importance in the interior of British Columbia, and is the trade centre of a large section of the Province. It is situated 250 miles east of Vancouver and 300 miles west of Calgary. The advantage of its position must therefore be apparent even to the most casual observer, as it should mean a great manufacturing and distributing centre. It is well served with Railway connections, being on the main line of the Canadian Pacific Railway, at the junction of the North and South Branches of the Thompson River. The Canadian Northern Railway is extending through Kamloops its main line to the Coast. The City's good location is evidenced in that it is one of the three oldest settlements in the Province, being established as a Hudson Bay Post before the advent of the railway. The growth has been very solid, the district has capabilities of extended development and is attracting much attention.

BASEBALL REVOLUTION LOOMS AS MAKER OF SPORT'S HISTORY IN '14

If the Federals at this time had a Ban Johnson, who, Moses-like, could lead them out of the wilderness—well, things would look mighty blue for the organized crowd. Remember that Ban Johnson, to my mind, represents the greatest executive ability the game has ever known.

As in the baseball world, so in the amusement field also things have changed. Ten years ago Klav and Erlanger controlled the theatrical world.

AMERICAN LEAGUE UMPIRES. Chicago, Jan. 20.—President Ban Johnson of the American League has issued the list of umpires for the coming season as follows: Evans, Chill, Hildebrand, Egan, Dineen, O'Loughlin, Connolly and Sheridan.

JOE BUSH WILL STICK. Hot Springs, Ark., Jan. 20.—Joe Bush, the star young flogger of the Philadelphia Athletics, who won his game from the New York Giants in the Fall World's Championship Series, said today that when he passed through St. Louis en route here a fortnight ago he received a big offer from President Steininger of the St. Louis Federal League Club to join the new body.

ALL THROUGH, KLING SAYS. Kansas City, Mo., Jan. 20.—"I am through playing ball," said John Kling when he told today of the announcement of his unconditional release by the Cincinnati baseball club.

THE HOME BEAUTIFUL. is rendered so by us at small expense. Cosy corners, elaborate parlor effects, furniture with a touch of elegance and delicacy for the boudoir.

AROUND THE CITY

Royal Arch Masons. At the meeting of Union Chapter No. 4, Royal Arch Masons, last evening the following officers were installed: Samuel Irons, E. H. P.; J. L. Duval, E. K.; Glendon Allan, scribe; E. R. W. Ingraham, treasurer; John Myers, secretary; Enoch Thompson, C. of H.; Wm. Wright, R. A. C.; Chas. Wright, P. S.; J. T. Bennett, 3rd Vall.; Fred Nice, 2nd Vall.; Wm. L. Stewart, 1st Vall.; Geo. Carleton, Tyler.

Public Utilities. A. B. Connell of Woodstock, and F. P. Robinson of Fredericton, members of the New Brunswick Public Utilities Commission, arrived in the city last evening on the Boston train. They will attend a meeting of the commission today when further evidence will be taken in regard to the application of the Eastern Electric and Development Co. of Sackville.

HUSBAND SUES FOR DIVORCE

Albert Danery, of Lancaster, Asks for Separation on Statutory Grounds—The Co-respondent.

Another St. John couple will figure in the divorce court which opens at Fredericton on the fourth Tuesday of next month. Albert Danery of the Parish of Lancaster, laborer, is suing his wife, Katie Danery, formerly Katie Currie, for an absolute divorce on statutory grounds. Louis Ewart, waterworks employee of the West Side, takes the place of the co-respondent. The libel, which was issued by Ewart & Logan, solicitors, for the plaintiff, was served on the respondent on Monday and filed with H. G. Fenwick, registrar of the divorce court, Fredericton, yesterday.

FIRST LECTURE OF POPULAR COURSE

Instructive Address on "Landmarks of Medicine" by Dr. Thomas Walker—Big Attendance.

The first lecture in the popular lecture course at the Natural History Society was given last evening, when Dr. Thomas Walker delivered an interesting and instructive address on "Landmarks of Medicine." The lecture was well attended, those present closely following the lecturer's remarks. Dr. Walker's lecture was a statement of the outstanding features which brought about the gradual development of medicine.

SECURE WAR AGAINST THE ROAD HOUSES

Women's Christian Temperance Union Petitions Authorities to Act—Annual Meeting Yesterday.

The members of the Women's Christian Temperance Union of St. John at their annual meeting yesterday decided to ask the city commissioners and the county councillors to take up the matter of the elimination of road houses in the vicinity of St. John. The union will also co-operate with the New Brunswick Temperance Federation in the campaign to abolish the bar in St. John.

PROVINCIAL LABOR MEN IN SESSION HERE

Federation will Ask Amendments to Several Laws and Free School Books for Children.

The semi-annual convention of the New Brunswick Federation of Labor was held yesterday afternoon in Carleton Place, Union street. About fifty delegates were in attendance, including eight members from Moncton and four from Fredericton; together with delegates from other provincial centres and from the twenty local branches of the international unions established in St. John.

River Ice Moves Out; Fishermen Take Trip

Mile Stretch in Kennebecasis River Runs Down to Narrows—Fishermen in Grave Danger Retrieving Nets—Ice very Soft.

For the fishermen who were on the scene near midnight Sunday or early Monday morning it was a unique spectacle but rather an unpleasant situation to find themselves caught on an immense mass of floating ice and being carried down the river completely isolated from all land connections, and yet unaided in their operations in as much as they had a mile and a half of ice surface in which to maneuver.

SEA CAPTAINS SPEAK AGAINST R/V

Outspoken in their Condemnation of Captain Clift's Statement—Strange Captain Experiences no Difficulties Making Port—Old Time Seamen Found Bay of Fundy Safe.

Captains, who have handled ships in the Bay of Fundy, have been very outspoken in their condemnation of Captain Clift and others who have given out interviews in which the Bay of Fundy and the entrance to the harbor of St. John have been slandered. Several of the false statements that have been circulated.
