THE HIGHWAYS AGAIN

Mr. Editor. The letter in last week's Observer respecting the expenditures of the road tax paid by the people of Hartland seems to have sunk in and officials are beginning to study the law which should guide them in their duties. Through long habit of doing business in a perfunctory and haphazard manner the road officers have almost made themselves and the public believe that they have done their duty as laid down for them by the legislature. For instance: Supervisor Tedley interprets subsection 4 of chapter 15 of the Highway act in an entirely different manner from that intended by the framers of the law. It says:

"The County Treasurer shall credit all road taxes to the parish from which said taxes are received, and shall pay out the same on the order of the minister, and such moneys SHALL be expended in the division in which said moneys are collected."

Now, Sir, if that does not mean that if \$1,000 is collected in Division A, of which Hartland is an important part, that \$1,000 shall be expended in that division then the English language is an enigma that is unsolvable by the ordinary human. And the inference of the section is that if Hartland, as a part of division A, pays \$600 out of \$1,000 that \$600 shall be spent on the streets of Hartland.

But the supervisor says when he had gone for money for specific work, he had been informed there was none. Where did it go to? It should have been used for this division, yet it has disappeared. It is clearly up to councillors Morgan and Britton to trace the money and have it expended as the law demands. In cases like this the supervisor is handicapped let him be ever so anxious to perform his work properly.

Now, as regards sidewalks—and surely there is need of improvement in those of Hartland. Section 39 of the act says:

"The supervisor of any division is authorized to expend a portion of the road tax imposed and collected in any village in such division in the building of sidewalks in said village, as well as in the maintenance of the same. The amount to be expended in the building of such sidewalks not to exceed forty per cent of the amount assessed upon the residents of such village in any one year."

This is as plain as the English language can make it, and the matter is not hedged about with any bewildering legal phraseology that the man of ordinary intelligence cannot interpret. Now this clearly means that of \$862.90 which Hartland paid or was assessed last year for road purposes forty per cent should have been expended on the sidewalks of the village. By no stretch of the imagination can it be claimed that this was done, as witness the condition of the sidewalks of the village today.

There is no doubt the supervisor means well, but his perverted views of the law and the juggling of the funds by others has deprived Hartland of her rights in the matter. Our councillors will have to get busy and have a stirring up of the dry bones among the county officials so that we can have what we are paying our good money for.

I will not encroach on your space further at this time, sir, but, with your permission, may revert to the matter again, and thanking you for this opportunity to endeavor to straighten out a wrong done the village.

I remain

Job Printing at The Observer Office

FAIR OF NATIONS

The Fair of Nations held in the hall over Keith & Plummer's store on Friday and Saturday last by the Epworth League of Methodist church was a brilliant success in all ways. The rooms were tastefully decorated with greenery, flags and bunting and there was a generous display of goods for sale. A bevy of young ladies in costumes representing the nations allied against Germany in the world war were busy catering to the wants of the people, who flocked to the hall in goodly numbers. The receipts from ice cream, home made candy and the goods supplied by the merchants to be sold on commission amounted to \$104, and the net result will be about \$60, which will be devoted to finishing the basement of the church.

Friday evening the band gave service by playing a number of selections on the balcony and in the main hall, and the music was very much appreciated.

The several booths were "manned" as follows:

Japan—Mrs. Hammond and Mrs. Jack Keswick. Here crepes, muslins, etc., were on sale.

France—Miss Pearson, Mrs. George Letson and Mrs. Harry Gillin. Dress accessories were disposed of in this booth.

Belgium—Mrs. Kerr and Mrs. O. Clark. Odds, notions, patriotic goods etc., were on sale here.

England—Mrs. McGinley and Mrs. Howard Kennedy. Kitchen utensils, etc., were offered in this booth.

Canada—Mrs. Allen and Mrs. Murdock catered to the wants of those who required home cookery.

The ice cream booth was presided over by Miss Grace Tompkins in a most satisfactory manner.

Home made candy was dispensed by Misses Helen Aiton and Anna Murdock.

Advance Together

There is no sex in soul.
Men and women must go forward hand in hand—single file is savagery.
Every good man is dependent on a woman, and the greater he is the more he wants her.

The only man who has no use for a woman is one who is not all there—one whom God overlooked at the final inspection.

A man wants a wife who is his chum, a "good fellow" to whom he can tell things he knows, or guesses, or hopes; one with whom he can be stupid and foolish—one with whom he can act out his nature. If she is stupid all the time he will have to be brilliant, and this will kill them both. To grin and bear it is gradual dissolution; to bear it and not grin is death.

We are all just children in the Kindergarten of God, and we want playfellows.

If a woman is pretty I should say it is no disadvantage unless she is unable to forget it. But plainness of feature does not prohibit charm of manner, sincerity, honesty and the ability to be a good housekeeper and a noble mother.

There are many degrees of intellect, but as a general proposition this holds:

A man wants a wife who is intellectually on his wire—one who, when he rings up, responds. This is Paradise!—Elbert Hubbard.

COLICKY CHILDREN

Colicky children can be promptly cured by Baby's Own Tablets because these Tablets act directly on the stomach and bowels and cleanse them of all impurities. Concerning them Mrs. Jas. C. Slater, Summerville, N.S., writes: "I have used Baby's Own Tablets and am glad to say I have found them an excellent medicine for colic and loss of sleep." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BATH NEWS

There is strong expectation of Bath having a new saw mill. The location has not as yet been chosen, but several good sites are available.

E. S. Secord general merchant has sold his store to Max Rose who will take possession the fifth of next month. Mr. Secord intends re-building on the site of his former residence near the post office, which was where his house was burned in the last Bath fire three years ago or so.

It is also reported that Harry J. Smith has sold his house and shop to William McCready of Houlton. Mr. McCready was until about four years ago a farmer in Johnville but has been engaged with the Buffalo Fertilizer people of Houlton since. His many friends will be glad to have him return to old N. B. again, and regret also the departure of H. J. Smith as being one of Bath's most energetic and good citizens.

The Bath village fire and water annual meeting took place on the 11th instant at their hose house, Commissioner H. W. Crain occupied the chair, the statement of the years doings were given by Secretary C. E. Gallagher, and authorization was given the Commissioner to assess \$1000 on the Town for the ensuing year. D. B. Secord was elected Commissioner in place of H. W. Crain who retired.

Sheriff John R. Tompkins of Woodstock was in town on Thursday and his many friends were glad to see him able to again resume his duties of his office.

A. R. Foster was a caller here on Thursday with his auto.

Rev. Wm. Amos and family spent several days this week at the home of Rev. James McLuckey at East Florenceville.

The Florenceville Dramatic Club gave a concert here for the benefit of the Methodist parsonage, which was well patronized.

C. E. Gallagher Co. are having their large store building painted. The work is in charge of Albert Kinney. The same firm are shipping by raft more of their stock of birch timber. Charles Dyer of Bristol has charge of the rafting work.

J. W. Doucette of Knowlesville who at several times has clerked in the stores here, was a caller in the village Monday.

Lulu May Britton

Lulu May Britton died in Windsor May 2, after a painful illness, aged fourteen years and eleven months.

Besides her parents, Mr. and Mrs. George Britton and other relatives, a large circle of friends mourn the loss of this sweet, young girl.

The years of her Christian experience were so spent that she had comfort in remembering them when life was fast ebbing away.

Her time was so occupied for her Savior that her dying moments were bright with visions of Him and she had neither a sigh nor a fear at the thought of meeting Him whom she had served so faithfully.

And though her form is gone, her memory, as fragrant as a rose with virtue and goodness, remains for us to cherish.

The funeral service which was largely attended was conducted by Rev. George Kincaid of Hartland.

Keith & Plummer, Ltd., just unloaded car each Cement and Lime and have a car Brick due to arrive any day.

Mighty Mercantile Movement

20 DAYS CLEARING SALE

Truth is mighty and invincible always. A. Cohn's entire stock involved. This will prove a revelation in modern merchandising, totally eclipsing and surpassing any former value-giving demonstration ever before inaugurated in Bath or vicinity—and right in the heart of the season's business. In making purchases for spring, 1915, this store anticipated an extra heavy business, but trade has not come up to our expectations. Freely admitting the truth, I now find it imperative to raise \$3,000 in the shortest possible time. Hence this great demonstration in practical economy.

Bargain Batteries are being Turned Loose, Demolishing Profits

Men's and Ladies' and Boys' Clothing, Boots and Shoes, Dry Goods, Hats, Underwear, Furnishings, etc., at prices that will astonish the most skeptical.

Read the prices carefully and remember the entire stock is on sale. Prices literally, slaughtered, slashed and torn to pieces. Save your money until the opening day. Remember the date and place.

A. COHN - BATH

THE BACKYARD GARDEN

The Plot Profitable.

The scarcity of vegetables every year and the high prices paid for garden products, especially during the fall of 1914, should cause any woman on the farm to see that the raising of common vegetables during the year 1915 will prove more than profitable.

In any ordinary town there are always a number of people who are glad to regularly engage for fresh vegetables from farmers. Almost every grocer, too, is more than willing to exchange groceries for fresh vegetables. It is surprising how grocery bills are thus cut down.

For any able-bodied, energetic woman, a half an acre of ground is not too much.

Select some low-lying, well-enriched summer fallow, in size thirteen rods long and six rods wide. All rows should run lengthwise in a north and south direction.

The potato is always a paying vegetable to raise and should, therefore, be given a right goodly portion of the garden plot. Twenty rows of potatoes can be handled quite easily. As the highest prices for potatoes are paid in July and August, it is wise to select varieties maturing at that time. As soon as danger of frost is over (usually the middle of May), early potatoes should be planted. Cut the seed potatoes one or two eyes to each piece. To prevent scab, soak the cut potatoes in formaldehyde preparation (two gills of formaldehyde to one-fourth barrel of water). The rows should be three feet apart and the hills should be not less than sixteen inches apart. Keep the soil around the vines mellow and free from weeds. Especially is this loosening of the soil of value in a dry season.

Onions are rather difficult to raise, but they are very profitable. Eight rows may well be given to them, and the rows should be at least twenty inches apart. As to the variety of seed to be planted, let this be determined by the kind of soil and the location of the garden plot. Seed catalogues are a great help in solving this question. As frost does not injure onions, they may be planted as soon as the ground may be worked. The seed germinates more quickly if it is soaked in tepid water the night before planting. Drain off the water and mix with some dry soil, so that the seed may be handled more easily. Sow as thin as possible and cover to a depth of one inch. As soon as the faint green onion rows appear, cultivation should be commenced. Keep the soil well loosened and freed from weeds. As soon as the plants can be handled easily, they should be thinned, leaving a distance of three inches between each plant. As the season advances and the bulbs become quite noticeable, cultivate away from, rather than towards the bulb. In its ideal manner of growth, the onion bulb should almost all be visible above ground. Should onions be kept over winter, they should have the roots cut off, as this prevents sprouting.

Eight rows each (eighteen or twenty inches apart) of carrots, turnips and beets are none too many, when one considers the great demand there is for them. The thick, short orange-colored carrot is the best for market as well as for table use. The pure white or the purple topped turnips are seemingly in more demand than any of the others. The common red globe-shaped beets cannot be called. The middle of May is a suitable time to plant these. Sow as thin as possible and never cover the seed more than an inch. Plants must be thinned out until they stand not closer than four or six inches apart in the row.

Of this garden, ten rows should be reserved for cabbage, and three rows for her first cousin—the cauliflower. Soak the seed as described for onion seed and plant in the hot bed the early part of April. Sprinkle the hot bed with tepid water every evening.

When the plants are six inches high, they should be set out. While filling in soil around the plant, pour in about half a pint of water. Two feet each way and a cloudy day is an adage well to be remembered in regard to setting out cabbage. For two or three days the young plants will appreciate protection from sun. A shingle, placed in the ground on the sunny side of each plant makes a good protection. Cabbage and cauliflower require thorough cultivation. If possible, cauliflowers should be given a richer soil than cabbage. Should worms appear in the cauliflower heads, Persian insect powder should be dusted on them.

Numbers of market gardeners have found that it is indirectly profitable to occasionally give a pretty bouquet of flowers to their customers, along with their regular weekly supply of vegetables. Nasturtiums, candytuft, ten weeks stocks and phlox are easily raised, and are up into pretty bouquets, and are

always appreciated. — Western Home Monthly.

To Starve the German Guns.

Besides food for man and beast, modern warfare requires food for guns of all calibres, from the soldier's rifle to the great guns that throw projectiles weighing close upon a ton. There are other absolute necessities, such as rubber, oil and gasoline. But to consider, for the moment, only the food for the guns, it is important to note that the stoppage by the British sea power of all supplies of cotton to Germany means the cutting off of a material of paramount importance in the manufacture of ammunition. A military authority, writing in one of the English reviews, figures it out that from one shipment of 20,000 bales of cotton enough nitro-cellulose, or gun-cotton, can be obtained for 8,000,000 rifle shots, or fifteen days shooting for all the German armies. Of the ammunition for the big guns cotton forms 75 per cent. It is computed that Germany and Austria have been using 945 tons of cotton per day to keep up their ammunition supply. As for copper, of which there must be at least 75 per cent in the brass used in cartridges and shells, the London Times makes it plain that an average of 1,300,000 German rifles firing an average of 20 shots daily have consumed 687,000 pounds of brass daily, and the machine guns and the heavy artillery, 125 tons, on an exceedingly conservative estimate, making a total of 480 tons of brass used daily. That is to say, more than 800 tons of copper a day. And the copper is absolutely essential; the projectile contents (chiefly lead) and the ammunition ingredients are only one part of Germany's problem. The container, the outer coating of cartridges and shells, must be three-fourths copper; otherwise the cartridges are not dependable in army rifles, nor are the big shells in the big guns, the copper bands at the base of the shells being imperatively essential for accurate gunnery. That is to say, Germany must have more than 100,000 tons of copper a year to keep on fighting as they have been fighting thus far (to say nothing of the necessity of meeting the increase in the allies' guns and rifles). Now Germany has been producing only 28,000 tons of copper a year, and Austria less than 4,000. If that amount could be even doubled, and not a pound of copper used for industrial purposes in Germany or Austria, it would still fall very far short of 100,000 tons. Hence the commencing of the copper hoarding attempts to smuggle copper into Germany and Austria. The rigid tightening of the allies' grip on all communication between the outside world and Austria, whatever it will mean for the German and Austrian people, will mean gradual starvation of the German and Austrian guns.

Potato Bread.

The "squeeze" we are putting on Germany is having many results. The order has gone forth that, to save flour, cakes are not to be made, nor "breakfast-breads." Night-baking is forbidden, which means that bread will not be eaten new. Further, potato flour is to be used in a certain proportion with ordinary flour.

We may feel inclined to pity the Germans with regard to the latter, but the pity would be wasted. As a matter of fact, potato flour is not only a cheaper form of bread, but it improves the loaf. For those who bake their own bread—a big saving in itself—here is the method of making "war" bread of potatoes and flour.

Take 2½ lbs. of good potatoes, the "mealy" kind, peel them very thinly, and boil them as usual. Mash them very fine, and then add and thoroughly mix with them as much cold water as will allow the mixture to pass through a coarse sieve into 7½ lbs. of flour, which has been placed in the oven to warm. Add the yeast, etc., as in ordinary bread-making, but mix with more than ordinary thoroughness.

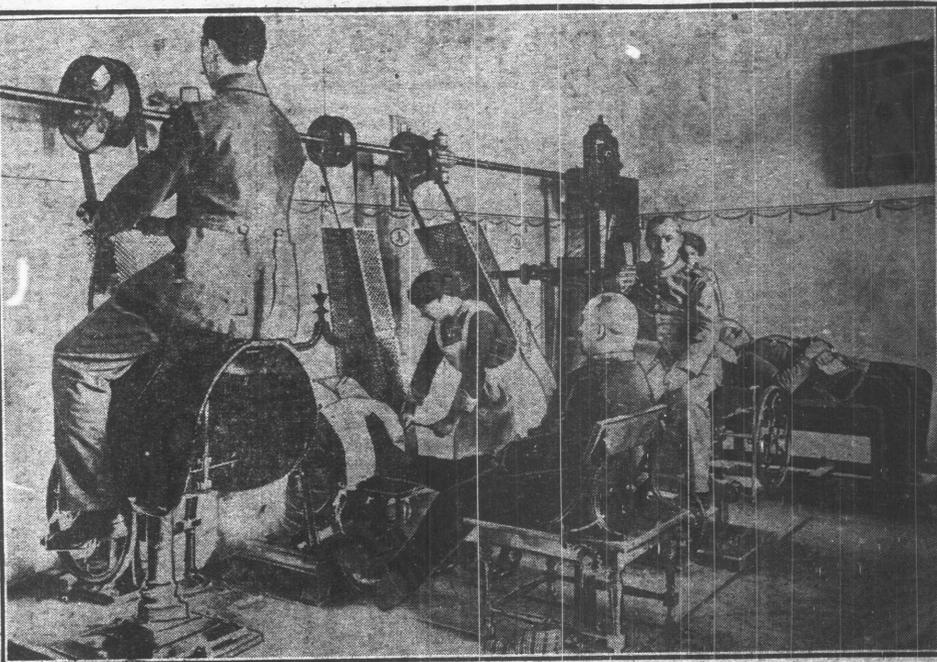

The resultant loaves will be most tasty and nutritious, and not only will you have saved money, but the flour you did not use increases the national stock in hand.

Possible Reason.

"I don't understand a woman getting a divorce immediately after the honeymoon ended."

"Perhaps her husband spent all his money on the wedding trip."

Mrs. Hitherto—"Have you an experienced maid?" The Employment Agent—"I can send you one who's had so much experience she can break steel enamel against picnic dishes."

Restoring Muscular Action to the Wounded—A German Invention.

The "Zander" electrical treatment, which is combined with exercises, is in full use by the German army, medical authorities for restoring the muscular action of the wounded. Special buildings have been erected for this purpose. It is claimed that fully 75 per cent. of the wounded are enabled after a course of this method to return to the field. This is claimed to be far in excess of the cures effected in either the English, French or Russian armies.

A Fight With a Grizzly

When Charlie Curtis came from the Rio Grande country in the early seventies to work on the Three Bar Ranch in the California cattle lands, his Texas outfit and his method of roping cattle excited no little curiosity among the Mexican and Californian vaqueros at the ranch. As first he was the target for much scornful criticism. His double-ouch saddle and his grass rope, which was hitched hard and fast to the pommel, incurred an especially large amount of ridicule.

"Some time you'll tie on to something you can't hold," the cowboys told him. "What will you do then?"

"I'll ride the other side of a tree," Charlie replied. "That way, if your horse gets the long end of the rope, you can hold anything."

It was not long before Charlie became unpopular among the vaqueros. His unflinching good humor and his ability to work hard had a good deal to do with their change of attitude; but so also did an adventure that the Texan had with Old Club Foot, the famous outlaw grizzly that had ranged the Pacific slope for many years.

Charlie was riding the range one afternoon when he crossed the trail of Old Club Foot which pointed straight to the mouth of Box Canon.

Charlie knew that Box Canon had only one entrance, and that, half a mile from the mouth of the gorge, it ended in a precipitous wall. Thinking that he had the famous grizzly cornered, he at once set off at a gallop for the house where he kept his rifle.

He had ridden less than a quarter of a mile when he suddenly remembered that early in the afternoon he had heard Minnie, the little daughter of the ranch owner, ask her mother whether she and her brothers, Bert and Robbie, could go to gather blackberries at the head of Box Canon. The children and the bear were probably heading for the same patch of blackberries! Charlie jerked the mustang back upon his haunches, whirled him round, and rode madly back over the ground that he had just covered.

At the mouth of Box Canon, Charlie saw that on places the sprawling tracks of the grizzly covered the footprints of the children. That was proof that Minnie and her brothers had gone up the canon ahead of Old Club Foot.

Charlie's mount was a splendidly trained young cow horse, and the Texan set him in a sharp run up the canon.

When Charlie had ridden nearly to the end of the canon, he heard the children chattering beyond a low brushy ridge directly ahead. As he was bounding through the chamanal thicket, he heard the children scream suddenly; then, as he plunged forward into an open, he saw the bear charging. Minnie and Bert, dragging little Robbie behind them, were scuttling toward a grove of sycamores. Old Club Foot, less than a hundred feet behind them, was lumbering toward them at a swift gallop.

Just as the children reached the grove with Old Club Foot only a few yards behind them, Charlie

swung his rope; it shot out, and the noose settled over the grizzly's head.

For half a minute then it seemed to the cowboy that he was tied to a landslide. His frantic mustang surged back wildly on the rope; but the enormous weight of the bear, which kept straight on after the children, jerked the little horse along. Then Charlie, according to his oft-repeated rule, "rode the other side of a tree."

Fortunately, the noose of the lariat hit into the bear's neck so sharply that he whirled round to fight it.

The moment that Old Club Foot faced Charlie and the horse, he charged at them with his mouth wide open. That was altogether too much for the nerves of the mustang; and the frightened horse instantly bolted. With a bear and a horse both running on a rope that held fast at the middle against a tree something has to go; the front cinch broke with a pop like a pistol shot, and the Texan was thrown to the ground.

He rolled to his feet, dashed for the tree, and frantically scrambled up it. As he reached the lower branches Old Club Foot, showing his teeth and trying furiously to strike him, was only a few feet below him.

For several minutes the grizzly continued to claw the bark in an attempt to get at the cow boy. Now and then he would step on the trailing lariat, and each time, as he tried vainly to chew the noose where it bit his neck, his wild frenzy increased.

What if Old Club Foot spied a child! At once Charlie made as if he were about to climb down. That brought the bear raging back to the foot of the tree, and there the Texan kept him by pelting him with pieces of bark. Meanwhile he shouted to the children, "Where are you all!"

After a moment he heard Bert's frightened voice. "Here we are—up in the rocks!"

Up in the rocks! Charlie turned gold with fear. At the same moment he saw the grizzly cock his ears in the direction of the child's voice. Immediately the cowboy began to shout and to throw bark at the bear; and at the same time he hastily unbuckled his leather "chaps." Then he reached down and struck Old Club Foot over the head with the heavy chaps. Meanwhile he kept shouting to the children, "Don't you holler any more! Hurry up and climb a tree! But don't let him see you!"

After a while, above the growls and snarls of the infuriated grizzly, Charlie heard Minnie's quavering voice: "Robbie's af-a-d! He's down in a hole and he won't come out. What'll we do?"

"Don't you holler any more!" Charlie shouted desperately. "You all stay right there! But don't holler!"

Meanwhile Charlie kept hitting the bear over the head with his chaps. He was so worried about the children, however, that for a moment he forgot to watch what he was doing. With a full-armed sweep of his paw, Old Club Foot caught the chaps and almost jerked Charlie from the tree. The cowboy let go the chaps and clutched a branch just in time to save himself from pitching headlong on the grizzly.

As Old Club Foot clawed and bit at the chaps, Charlie quickly climbed farther up into the tree and with

his knife began to cut off a branch that he could use as a club. When he had almost cut through the limb he saw Old Club Foot throw up his head angrily and snuff the wind. The next moment the grizzly headed straight for the rocks where the children were.

Without a moment's hesitation Charlie slid down to the lowest branch and dropped to the ground. The bear, moving at a swift, lumbering pace, was already fifty feet away. In desperation the grizzly ran after him and threw a rock that hit the bear on the flank. The grizzly whirled frantically and came for him; the Texan turned, and took three long bounds and a flying leap for the lower limb of the sycamore. By a desperate effort he managed to swing himself astride the limb.

He felt weak and faint, and presently noticed that his leg was bleeding freely. He was wondering what he should do if the grizzly again started for the children, when Old Club Foot, showing his teeth in a last threatening grimace, wheeled in the direction of the rock pile.

For a second Charlie searched his mind frantically for a way to stop the bear; then he hurled his pocket-book at the retreating bear. From another pocket he grabbed a handful of tenpenny nails, and threw them at the brute. A pair of wire nippers that he used for fixing fences followed the nails. The wire nippers hit the grizzly square on his flank, and brought him charging back to the tree.

But Charlie had used all his ammunition, and had nothing left with which he could keep the attention of the bear off the children and centered on himself. He saw the bear begin to glance toward the rock pile; in his desperation he kicked at the beast with his foot. But he was faint from the loss of blood, and knew that sooner or later he would not withdraw his leg quick enough from the bear's fierce strokes. Then an idea came to him. He hurriedly wrenched off one of his high-heeled boots.

Stretching himself at full length along the limb he could, with little exertion, use the shoe as a mallet. Ten minutes later a searching party of five vaqueros rode swiftly into Box Canon. Charlie's mustang, still sweating with fear, had galloped up to the ranch, and the cowboys had at once ridden out on his back trail. Halfway up the canon they heard the bear's angry roars and the sound of Charlie's voice shouting reassuringly to the children.

When the cowboys came in sight they saw the grizzly suddenly rear to his full height, swing furiously at the Texan—and receive a rap on his paw from the heel of the boot. The next moment Old Club Foot saw the vaqueros, and charged them all a-bristle.

The cowboys turned and fled down the valley, in order to draw the grizzly out of the canon.

When Old Club Foot chased them out of the canon he kept straight on his way; he was never seen again in that part of the country.

Charlie's wound did not prove serious, although he became very faint from loss of blood. After resting for half an hour he was able to travel. Then he and Minnie and Robbie and Bert, which mounted behind him in the gathering dusk— Youth's Companion.

Cleaning the Wardrobe.

Not all of us will be able to afford many new costumes this year, but we can all freshen up last year's dresses and hats.

First, last summer's coat and skirt must be cleaned. If it is of Navy-blue serge, after brushing spread it out on the table, and remove any grease-spots with a cloth dipped in petrol. Then put half a pint of stout into a basin, and add the same quantity of boiling water. Sponge the serge over with this, rubbing any stained parts gently till the marks disappear, but do not make the sergio too wet or it may shrink. A shining is well spent in then letting the tailor press your costume.

Black straw hats should be well brushed to remove all dust, then rubbed over with a mixture of gum and jet-black ink (a penny bottle of each).

Chip and other straw shapes will be sufficiently stiff when dry, but black crinoline hats show better results if brushed over with a mixture of ink and oil (one part oil, two parts ink), and pressed with a warm iron.

To clean white straw hats: Rub well with breadcrumbs to remove the surface dust, then dissolve one pennyworth of oxalic acid in a pint of water, and scrub the hat thoroughly, using a small brush; rub with a cloth, and place in the open air to finish drying.

Panama hats can be washed in a warm Castile soap lather, to which a few drops of ammonia have been added, and rubbed dry with clean cloths.

For colored straws apply a little hat varnish of the same shade as the straw.

Artificial flowers and foliage can be made to look perfectly fresh and new if held for a few minutes before the steam from a kettle of boiling water.

Colored ribbons, figured black muslins, and very thin silks can be thoroughly cleaned, without fading or spoiling, if washed in potato water. Peel and grate the potatoes and put them in cold water. Saturate the articles to be washed in the water, using the potato in place of soap, then shake dry, and iron.

To remove grass stains from white flannels, take equal parts of yolk of egg and pure glycerine, apply to the stain and leave on for an hour or longer, then wash in the usual way.

Grass stains can be removed from white serge costumes by spreading powdered magnesia over the marks, leaving it on for a day, then brushing off.

An enthusiastic meeting is that of two girl chums who haven't seen each other for nearly an hour.

A born shopper is a woman who can make the rounds of the bargain counters without spending a cent.

Many a man who is most lavish with his talk has to take it back, slightly damaged.

"Why did you never marry, sir?" inquired a young benedict of an old bachelor. "Well, you see," replied the single one, "when I was quite young I resolved that I wouldn't marry until I found an ideal woman. I was difficult to please, but after many years I found her." "Lucky beggar! And then—" "She was looking for the ideal man!" replied the bachelor sadly.

HAVE YOU BEEN SICK?

Then you realize the bitter weakness that robs ambition, destroys appetite, and makes work a burden. To restore that strength and stamina that is so essential, nothing has ever equaled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way. If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. At any drug store. Scott & Bowne, Toronto, Ont.

Vol. VI. MAY 20, 1915 No. 49

HARVEY REID OFF TO FRANCE

Harvey T. Reid, son of J. H. Reid of Hartland, who won the Rhodes scholarship at Acadia in the class of 1912, and who is now in the British Army writes as follows:

Dear Mother: You will have to excuse this rude note but it may be my last one on English soil. We got our mobilization orders tonight although a day or two may elapse before we go, yet in all probabilities we're off to-morrow.

This is how orders read: "Mobilization to be completed immediately. All officers and men on leave to be recalled. All wagons to be packed with live shells."

So probably another week will find us abroad. There is no need to worry as some time will elapse and you will certainly hear from me again before we do anything exciting.

However we all go the merry way and it was bound to happen sooner or later and personally I am quite ready to go anywhere and do anything. We all fight for the empire and must do our duty.

Of course we in the artillery are more immune to danger than infantry at the same time inflicting great danger on the enemy.

Address all my letters very plainly now and put on them "please forward."

Beat love to all. Watch the papers and I'll write you as often and tell you, as much as the censor will let me.

Remember me to all the Hartland people.

Harvey Mr. Reid served in the King Edward Horse two years and in December left that regiment and took a commission with the Royal Field Artillery and is now second lieutenant in the 9th division.

Sovereign Cure for Rheumatism

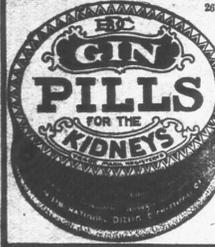

Mrs. E. W. Hazlett, 108 Wyandotte Street, Windsor, Ont., says there is only one Kidney Remedy in the world for her—GIN PILLS.

"GIN Pills. I know from personal experience, and the sovereign remedy for Rheumatism and Kidney Trouble in any form. I was cured by them after months of suffering. I was helpless—had several doctors and many other remedies but all failed to cure me. Then I tried Gin Pills with the result that I am well today. I heartily recommend them to any person suffering from Kidney or Bladder Trouble."

GIN PILLS FOR THE KIDNEYS

cure because they act directly on the Kidneys and Bladder—soothing and healing the inflamed tissues, and neutralizing uric acid.

Trial treatment free—regular size, 50c. a box, 6 boxes for \$2.50 and every box sold with our spot cash guarantee of satisfaction or money back. Sold in the United States under the name "GINO" Pills. National Drug and Chemical Co., of Canada, Limited, Toronto 261

Help Improve the Roads

All auto owners or any one who is interested in good roads in the Parishes of Brighton, Simonds and Wakefield are requested to meet at the top of the river bridge hill on Tuesday morning May 25, 1915, at 9 o'clock for the purpose of giving the day's work FREE on the roads. Come prepared to work and bring a pick, shovel or rake.

Dr. H. M. Martell is in the hospital where he underwent an operation for ear trouble. His friends will be glad to hear that he is making a satisfactory recovery.—Press.

The Women's Institute acknowledge with thanks the gift of 1 pair socks from Mrs. Stephen Nixon, Lower Brighton.

STARVATION OR MERCILESS TORTURE

A choice between starvation or merciless torture is the dismal prospect before all victims of indigestion, for although they are in need of food to nourish the body, they are afraid to eat because of the long periods of pain and discomfort that follow even the lightest of meals.

The urgent need of all who suffer from indigestion is to gain strength so that stomach can extract nourishment from the food taken. Pain after eating is the way stomach signifies its protest that it is too weak to do nature's work. To take purgative is only to aggravate the trouble. Dr. Williams' Pink Pills give new strength to bad stomachs because they enrich and purify the blood supply thus enabling the stomach to digest food naturally. Almost from the first appetite: then food can be taken without pain and the burden of indigestion disappears. The following case proves the truth of these statements.

Mr. W. H. Silver, a well known farmer living in the vicinity of Hemford, N. S., says: "For upwards of seven years I was tortured with indigestion; sometimes I was so bad that I would not taste a bit of hearty food, but would have to content myself with a bit of stale bread. At times I suffered excruciating pains in my stomach, and could hardly sleep at night. I tried various prescriptions but got no benefit from them and naturally I was in a very reduced state of health. I had come to believe that I was doomed for the balance of my life to this most constant torture, when I read of a case similar to my own cured through the use of Dr. Williams' Pink Pills. This gave me new courage and I decided to try them. To make a long story short, the use of the Pills for a couple of months completely cured me. This is some two years ago, and I have had no return of the trouble, and am able to eat as hearty a meal as anyone."

You can get Dr. Williams' Pink Pills through your medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LATE LOCAL MATTERS

Mrs. P. Graham was in Woodstock yesterday.

Monday, May 24, Victoria Day. Don't forget that all places of business in Hartland and vicinity will be closed all day.

W. R. Hatfield of Presque Isle was this week visiting his brother H. H. Hatfield, here, and his other brothers at Middle Simonds. Mr. Hatfield was just returning from a trip to the Canadian West.

Any one having old linen or cotton (white) for hospital use will please send a bundle of it addressed to Red Cross, Estey & Curtis Co.'s Drug Store, or leave with Mrs. George W. Boyer as soon as possible.

There will be an all day holiness meeting in the Reformed Baptist church on Monday, May 24. Morning service from 9 to 12 will be a prayer service. In the afternoon at 2.30 and evening at 7.30 there will be preaching services. Rev. S. A. Baker and H. S. Dow are expected.

Miss Mary Hayden, who, a short time ago, submitted to the operation of appendectomy at her brother Frank's home, has recovered nicely and is up around the house. Her sister, Miss Sarah Hayden, who came with her from their home at Riley Brook returns home this week.

Mrs. B. N. Shaw of Victoria has received a letter from her

son, Lieut. W. B. Shaw who is fighting at the front in France, under date of April 30. He has been right in the thick of the battle and says that the Canadian regiments seem to know no fear. Lieut. Shaw says that all we read in the papers of German atrocities are true. Two of his comrades, whom he knew very well fell wounded. Germans bayoneted them to death. Lieut. Shaw, himself, had his horse shot out from under him, but fortunately he was still uninjured at the time of writing.

West-Jackson

The home of Mr. and Mrs. W. H. West of Coronation, was the scene of the very brilliant affair Wednesday evening, May 12th, it being the wedding reception of their son, Wiley O. and Anna Grace Jackson of Springfield, Mass.

While the reception march was being played by the groom's sister, Jessie M. Huggard of Houlton, Me., the bridal party received the congratulations of about 150 guests. Those in the receiving line included the groom's father and mother, Mr. and Mrs. W. H. West, the bride's father, M. R. Jackson and Mrs. C. A. Stewart. The bride wore beau de soie over pink silk with pink pearl necklace and ear drops to match. The groom's gift to the bride was a diamond collar pin. The other presents included a substantial check from the groom's parents, also cut glass, silver, china, furniture and cash. The numerous and costly gifts showed the high esteem in which both bride and groom was held.

Supper was served at 12 o'clock. Music, both vocal and instrumental also, dancing was enjoyed until the wee small hours of the morning. The dance music was furnished by Wm. Clark of Kinross.

The out-of-town guests were the bride's father of Springfield, Mass., Mrs. C. A. Stewart and little son of Amherst, N. S., Mr. and Mrs. E. J. McCollum, Mr. Percy McCollum and the Misses Julia and Martha McCollum of Hartland. The other guests were from Maniac, Kilburn, Perth, Aroostook Jet, and Houlton.

Early Closing at Rockland

We, the undersigned merchants of Rockland, will, commencing June 2, 1915, close our places of business every Wednesday evening at 6 o'clock.

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., Aug. 26th, 1913. "I can highly recommend 'Fruit-a-tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-tives' for a general break-down and they did me a world of good. We bought a good many dollars worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

Mrs. W. N. KELLY
"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Mr. and Mrs. Ransford Rourke announce the engagement of their daughter Miss Beulah Elizabeth to Thomas Arthur Pankhurst. The marriage will take place in June.

Rev. C. S. Young recently conducted a series of special meetings at Riley Brook where evidently a deep interest was manifested, especially by the young people. Baptism was administered a few Sundays ago and will be administered again May 23.

Pneumonia Stops Your Pain
It breaks up your cold in one hour. It's marvelous. Applied externally. All Druggists.

LOST
Lost from the home of E. W. Nixon, Lower Brighton, May 11, a large Scotch Collie Dog, Black stripe down back, small ears and answers to the name of Don. His former home was at Lime-stone, and he was seen at Florenceville, information as to his whereabouts will be gladly received at The Observer office, and any expense incurred in returning him will be paid by F. W. NIXON, 49-31.

At BAIRD'S

Are You Painting on the "24th"

"Victoria Day" is "Spic and Span Day", when everybody gets out their paint brushes.

The "24th" comes just at the right time for you to give the House its new coat of paint—to freshen up the Porch and Front Fence—to do the Floors and Walls—in short, to make your home spic and span, inside and out.

MARTIN-SENOUR PAINTS AND VARNISHES

include everything you need for Paint Day. We carry the full line of "100% Pure" Paint—also Spic and Span Finishes—and will be pleased to give you color cards of these reliable brands.

Ask for a copy of our books, "Town and Country Homes" and "Harmony in Neu-Tone". You will find them of the greatest assistance when deciding on color schemes for the different rooms and also for the outside of the house. Free to our friends.

H. N. Boyer, Hartland, N. B.

Your Grocer

sends out KING COLE TEA confident that it will please. He has a positive assurance of its quality, in the guarantee on every package—entire satisfaction or money refunded. There is no stronger guarantee of quality.

"You'll like the flavor."

PEERLESS PERFECTION

applies to our Fencing just right. It keeps your chickens from pecking their enemies out. Each intersection securely locked—the kind that stays "put."

Peerless Poultry Fence

It is made of the best Open Mesh steel fence wire—both, electric and non-electric. Our method of galvanizing prevents rust and will last for years. The fence is securely fastened with the "Peerless Lock," which will withstand all sudden shocks and strains. Peerless Poultry Fence can be erected on any soil and is used for all purposes, such as fencing, and is used for all purposes, such as fencing, and is used for all purposes, such as fencing.

Woman Against Woman

or A Terrible Accusation.

CHAPTER I.

"Alisa!"

The tall, bulky, brutal form bent above the girl lying upon a miserable semblance of a bed in one corner of a sordidly furnished room, but so soundly was she sleeping, that she failed to hear.

"Alisa!"

He bawled the name out angrily, but even then it might have met with no reply, but that he emphasized it with a kick from the toe of his heavy boot.

She groaned and sat up, rubbing her eyes like a tired child, and blinked up at him.

"You had no business goading me to it!" he exclaimed, angrily. "You always make me hit you, whether I want to or not, by your infernal taunts. Suppose I did gamble! Wasn't there just as much chance of my winning as losing? And could I ask my friends here to play with me, offering them some kind of refreshment? You are the most inconsiderate person I ever knew, Alisa! Why the deuce don't you get up? What are you lying there for? Are you trying to tempt me to hit you again?"

She sat up, both hands pressed upon her breast, her face ashen, her beautiful eyes dull and deadened with suffering.

"You will kill me some day, father," she whispered.

"If I do, you will be to blame for it!" he answered, brutally. "I always thought you would come to the gallows sooner or later. Go and get me something to eat, I tell you!"

She looked up helplessly. The scene was no new one to her. They had gone through it on an average of five times a week for the last year, but that did not help her to bear it better. She was worn out, prematurely old, under the suffering, and a hopeless misery had settled about her sweet mouth that was infinitely pathetic.

"Father," she panted, still holding her hands upon her breast as the pain was almost unbearable, "when is this to end? Twice already I have been arrested for being in the judge's den, and the last time that I came before him again he would send me to the island. You will not let me work, and because my employer would not advance you money, you have forced me to leave. You know perfectly well that there is but one way for me to obtain money, and that is to give my own life to it!"

"You are always thinking of your own life, and never of mine," he whined, as if he were the most cruelly treated person upon earth. "You never think of me at all, I may as well say, and much you care! You know that Nathan Simonson is only too anxious to make you his wife. He is rich—so rich that he has promised to give me all the money I want of my own if you will become his wife, and you are hard-hearted enough to refuse."

She looked up at him, a worn, dilapidated that down from a page, then wrapped a sheet about her, a little, thin, faded thing that would not have protected her from a sepher.

There was a sob in her throat which she could scarcely restrain, and her face was white as she turned to him.

"The wife of that odious creature!" she exclaimed. "I had rather be the wife of any wild beast in the forests of Africa!"

She was laughing, such a laugh as is in the tone, that there could be no mistaking her meaning, and with an oath David Valworth placed himself between her and the door. His brows were drawn together in a heavy frown, his eyes gleamed fiercely, his breath came with the fumes of dead beer, swept sickeningly across her face. His former limp seemed to be only play compared with this.

"By the powers! you shall be his wife, or I'll know the reason why! I have fooled away time enough catering to your whims, living upon the whims of food, but you would have sense enough to see the advantage of marrying him, but you only see that you want to see him go, and know that I am not a man to be tempted. Money is necessary to me, and if you can not supply it one way, you shall get it another. To please your ladyship I have lived in this foul prison, sleeping upon straw, living upon the whims of food, but I shall continue it no longer. Refuse to promise you that you shall regret it in sackcloth and ashes to the last day of your life. Now go! Return here in an hour with money enough for a good breakfast and a glass of something warm to give a fellow an appetite, or you'll get the worst licking you ever had in your life. And mark you this: I give you until tonight to make up your mind about old Nathan. If you still refuse—well, you know I ain't a man to threaten, but you also know that I never fail to have a just and sweet revenge."

He threw her across the hall and out the door as he finished speaking, closing and locking it upon her. She leaned against the wall for a moment, but her strength sufficient to descend the rickety stairs then made her way out of the tenement. The stinging air of the street seemed to put new vitality into her staggering limbs, and she walked along more quickly, the hopeless misery and her consternation deepening, if that were possible.

"He will keep his word!" she groaned. "He will keep his word if I refuse, yet how can I ever consent? How can I? She stopped suddenly with a little gasp, for there in her path stood Nathan Simonson himself, a coarse, heavy, thick-lipped brute, his long Jewish nose flattened out over his face, his small, beady, restless eyes fixed hungrily upon her. It seemed to her that she was looking into the eyes of some famished beast, which was ready to spring upon its long withered prey.

She uttered a little cry and stood there as if fascinated, unable to move.

"I was just going to see papa," he said, smiling at her in a hateful way peculiar to himself, "and hoped for the pleasure of meeting his charming daughter there. Are you going out so early in the morning for a constitutional?"

There are no words to describe the guttural beetling of the voice, or the deplorable intonation of the offensive words. She would have turned and fled, but that she could not have removed her eyes from his if her life had depended upon it.

"He is—there!" she gasped. "I was just going for some—breakfast for him."

"Get enough for three," he said, "and I will breakfast with you. Your dear papa will be delighted to see me. I hope you shall have as warm a welcome from the pretty daughter."

Alisa shuddered.

"Dear papa is always promising me a warm welcome from her," he continued, as she was silent, "but it never comes. Why, pretty one? I am going to ask him to confirm his word this morning. I am going to ask him—"

He had taken her hand, but suddenly, given a power which would have been impossible to her a moment before, she wrenched it from him and sped up the street as rapidly as her frail strength would carry her.

He turned and looked after her, his singularly white teeth gleaming under his bushy black beard, his beady eyes tracking on a fence gleam that would have put that of David Valworth to the blush.

"I can compel Valworth to force her to do it, and I will, cure her!" he muttered.

Alisa shuddered.

FARMERS

Consider Purity in Paint in Preference to Price.

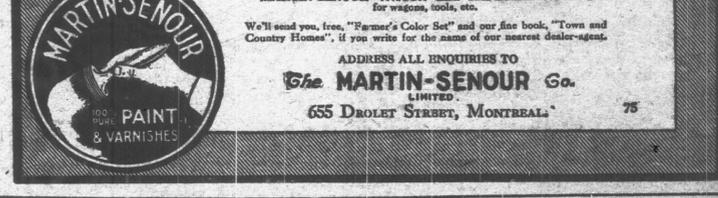

You wouldn't pay the regular price for Sugar that analyzed 10% of sand. You wouldn't pay "all wool" prices for cotton-and-wool clothing. Why should you pay your good money for impure Paint, when you can get

MARTIN-SENOUR "100% PURE" PAINT

We guarantee Martin-Senour "100% Pure" Paint (except a few dark shades that cannot be prepared from pure Lead and Zinc alone) to be 100% pure White Lead, pure Oxide of Zinc, pure Linseed Oil, pure Colors and Turpentine Dryer; and to be entirely free from adulteration or substitution; and sold subject to chemical analysis.

Every experienced Painter knows that the above formula is right. It is the standard of the paint world.

You get absolute purity—extreme fineness—uniform quality—when you insist on "100% Pure" Paint.

SENOUR'S FLOOR PAINT RED SCHOOL HOUSE PAINT The old reliable. For barns, sheds, etc.

MARTIN-SENOUR WAGON AND IMPLEMENT PAINT For wagons, tools, etc.

We'll send you, free, "Farmer's Color Set" and our fine book, "Town and Country Homes," you write for the name of our nearest dealer-agent.

ADDRESS ALL INQUIRIES TO The MARTIN-SENOUR Co. LIMITED, 655 DROLET STREET, MONTREAL.

Alisa shuddered.

CORRUGATED IRON

Galvanized, Rust Proof Made from very finest sheets, absolutely free from defects.

Each sheet is pressed, hot rolled, corrugations therefore fit accurately without waste. Any desired size or gauge, straight or curved.

Going to the Big Exhibition?

It is now on in full swing at H. R. Nixon's Shoe Emporium, where is shown the finest display ever placed before Hartland people.

COMFORT

Dr. A. Reed Cushion Shoes Mean Foot Comfort

WHY?
In a Dr. A. Reed Cushion Shoe your foot rests upon a soft, pliable cushion.

The principal points of contact—your heel, the ball of your foot, and your toe joints—sink down luxuriantly into the cushion insole, which immediately conforms to every curve of your foot.

Therefore—
FIRST—The weight of your body does not rest alone on these points, but is distributed uniformly over the entire length and width of the bottom of your foot.

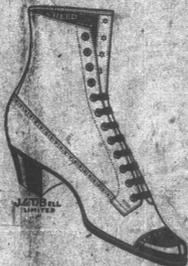

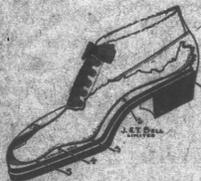

SECOND—The arch of your foot is not left to bear your weight without support, but is upheld and strengthened by the cushion insole, which fills every hollow of your foot. The strain is thus taken off the arch of your foot, it retains its natural position and is not in danger of breaking down.

Why Ordinary Shoes Cause Discomfort

In the ordinary shoe your foot rests upon a hard, unyielding leather insole.

Therefore—
FIRST—As this insole cannot give, the principal points of contact—your heel, the ball of your foot and your toe joints—must bear the entire weight of your body.

SECOND—The arch of your foot has no support and is constantly under the strain of the weight of your body. This constant strain weakens your arch, which may eventually break down, causing untold misery.

HEALTH

Prevents Colds, Sore Throat, Pneumonia, Rheumatism, etc.

Dr. A. Reed Cushion Shoes cause corns and calouses to disappear and restore a natural, healthy condition to your feet.

Many dangerous diseases, such as colds, sore throat, pneumonia, rheumatism, etc., are contracted through the insufficient protection afforded by the ordinary shoe.

The pores of your feet are the largest and most active of your entire body. Don't let these pores remain inactive by becoming covered with hard, dead skin or callous places, caused by improper shoes. Keep the skin healthy and let your feet breathe through these pores, as nature intended.

"Natur-Arch"

Protects Your Feet, Prevents Illness, Relieves the Jar When Walking

There are many smart new shapes in the Gold Bond Shoe this season

Made by skilled workmen, for men who take pride in the shoes they wear.

WARMTH Preserving Healthy Circulation

In an ordinary shoe the hugging of the uppers caused by the spreading of the foot compresses the blood vessels and nerves and prevents a free circulation of the blood. Thus the flow of warm blood is retarded, and pinched, cold feet is the result, just as a tightly fitting glove causes the fingers to become cold.

When you stand in a Gold Bond Shoe there is no compression of the blood vessels and nerves, because the uppers are loosened by the sinking of the foot into the soft, easy insole.

The result is a free circulation of warm blood through every part of your foot, keeping it at an even temperature and preventing it from becoming cold.

Protection

From Cold and Dampness

In an ordinary shoe your foot rests on a leather sole which is porous, and quickly absorbs moisture. Thus cold and dampness are directly conducted to your feet.

Prevent Cold, Damp Feet

H. R. NIXON

The People's Shoe Store, Hartland

GRAND FALLS NEWS

Mr. Gagne has built a fine barn on his farm two miles below town.

Mr. Dobson has a new building on his lot.

G. W. Day is having his barn reshingled and other improvements made about his residence.

Mrs. P. Toner is so far recovered from illness as to be able to drive out a little. She spent a few days recently with her aunt Mrs. J. Day.

Vernon Holt has moved into the Geo. Taylor house.

Robert Kirkpatrick and family have moved into the Puddington bungalow on the Terrace.

Mrs. M. Rainsford and Miss M. H. Rainsford have returned from Boston where they spent the winter months. They arrived Saturday.

J. Stewart was home a day this week. He likes his work at St. Leonard's very much.

Mrs. C. A. Kirkpatrick and little daughter Grace are visiting in St. Stephen this week.

Rev. Mr. Farrell arrived here on Saturday to take charge of the Presbyterian church during the summer months. He will return to college in the autumn.

Mrs. Geo. S. Bradley returned Tuesday from a visit in N. S. Mr. and Mrs. Bradley will start house-keeping in their own house on Terrace this week.

During the electrical storm on Sunday the house of Amabel Coodreau was struck by lightning and badly wrecked. His wife struck and her clothing set on fire. She is feeling some better but it was quite a shock to an old lady of 95 years.

J. Day who has been pressing hay in Gillespie has returned home.

A man by the name of Riox was drowned last week in Salmon river.

Mrs. Jack McCann was taken to the Caldwell Hospital Wednesday. She is a very sick woman and her friends are afraid there is small chance of her recovery.

Levite Sirois has a fine new Ford car.

Desire Cole is very ill at his home in Drummond.

Gordon Leslie who is one of the caretakers of the C. P. R. bridge at Salmon river was home Sunday.

The patriotic tea and sale given by the members of the Women's Institute on Wednesday last, was a great success. The room was very prettily decorated with flags and bunting, the tea tables with their white cloths and red and blue streamers and flags were very attractive.

These tables were in charge of Mrs. A. Burgess, Misses Laura Mulherin, Reoma Evans, Bessie Frazer, Bertha Kelley, Mamie Poitas, all of whom wore black and white, with white caps trimmed with the patriotic colors. The fancy table was in charge of Mrs. J. L. White and Mrs. W. R. Wright, and the candy table in charge of Misses Leiba White and Joy Glenn. Both these tables were attractive and appropriately decorated. Over \$50 was raised.

ANDOVER AND PERTH

Ray Robertson, of St. John, former telegraph operator for Andover, was in town visiting friends during the past week.

William Curry was in Houlton on business last Tuesday.

Harry Kirby of Bristol recently in the employ of G. T. Baird Co., of Perth, was in town Wednesday evening to attend the play "Hiawatha" that was put on by Miss Eva Scates of Fort Fairfield.

Mrs. James Tibbitts who spent the past month in St. John returned home last Monday and was accompanied by her little granddaughter Miss Inez Bedell who will remain in Andover for a month or more.

Rev. Mr. Richmond who will occupy the pulpit of St. James Church the coming summer preached his first sermon Sunday evening to a good sized audience.

H. H. Tibbitts was at Fort Fairfield on business Wednesday.

The many friends of W. E. Spike, our genial collector of customs, are sorry to know that he is very seriously ill. Dr. McIntosh is the attending physician. Mr. Spike's friends hope for his recovery.

Miss Ceretha Watson had the misfortune to fall from her bicycle Thursday badly dislocating her wrist Dr. McIntosh was called and dressed the injured member. The patient is now doing well.

Mr. and Mrs. William Hoyt are spending a few days at Grand Falls.

Miss Josephine Miller of Boston is spending a week with the Misses Watson. Miss Miller has many friends in town who are pleased to see her in Andover again.

The play "Hiawatha" put on last Wednesday evening in the Specialty by Miss Eva Scates of Fort Fairfield, with Andover and Perth talent was in every way a decided success. The large building was filled to overflowing with an appreciative audience. The play was decidedly pretty, the scarf and corn dances being particularly beautiful. The drills were well acted and showed great credit to the careful training of Miss Scates and as an elocutionist she won all hearts in her recitation of Hiawatha. The sum of \$135 was taken at the door and the sale of ice cream amounted to \$27.

The Round Table Literary Club will meet with Mrs. J. W. P. Dickinson of Perth next Thursday evening.

Arbor Day will be observed in Andover and Perth May 14. Work of grading the grounds and cleaning up around the school houses will be greatly approved of.

The members of the Andover Tennis Club have begun the preparations for their new court, also for repairs on the old one. H. L. Alcorn has been appointed president for the coming year.

Burnis Green has purchased a new Ford bar from R. L. Phillips of Fredericton. Mr. Green is the

proprietor of the "quiet lunch" restaurant at Perth.

Sandford James, our genial electric light man has been appointed by government to be one of 20 men to watch the new Van Buren bridge. Mr. James goes next week to attend to his duties.

May 24 will be observed in Andover as usual with out door sports. The Van Buren base ball team comes to Andover and an interesting game is expected. No doubt a good crowd will be on hand to witness the game, also the other sports.

John Forest of Fort Fairfield had a shipment of potatoes come from Nova Scotia to Andover this week. Owing to the embargo he has been unable to take the potatoes across the line.

Ashtand News

Card of Thanks

We wish to take this opportunity of expressing our earnest appreciation of the sympathy and help extended by many kind friends during the illness and death of our beloved daughter Lulu.

Mr. and Mrs. Geo. O. Brittan.

Mrs. George Davis of Andover spent the week-end with Mrs. R. J. Potts.

Twitching of the Nerves Broken-down System

Now Entirely Cured—Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm. Every body dreads the thought of paralysis or locomotor ataxia. Nothing is worse than helplessness. Sometimes it is helplessness of body, and at other times the mind is affected, which is far worse.

The writer of this letter did not know what to expect, but fortunately began in the use of Dr. Chase's Nerve Food in time to head off danger, and

writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting.

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes: "I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations."

"I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way."

Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50. At all dealers.

McCORMICK

Lowdown Manure Spreader

McCormick Lowdown Manure Spreader has a score of good features in its construction. Each one is the result of careful field experiment.

A McCormick Spreader is low enough for easy loading, yet it has plenty of clearance underneath. The rear axle is well under the load, rear wheels have wide rims and Z-shaped lugs, insuring good traction under all conditions. Frame, wheels and the driving parts are of steel. Apron tension is adjusted by a simple device. Winding of beater is prevented by large diameter and beater teeth are strong, square and chisel-pointed.

The McCormick Manure Spreader is built in several sizes suitable for large or small farms. Examination will show sturdiness of construction in every detail. Repairs, if ever needed, may be had of the local dealers.

Also the following machines, etc.:

- Oliver Plow
- Oliver Cultivator
- Disc Harrows
- Fig Tooth Harrows
- Spring Tooth Harrows
- Horse Rakes
- Low Down Mowers
- Spreaders
- Cream Separators
- Feed Grinders
- Rolling Mills
- Single Drills
- Chain Link Wagons
- Democrat Wagons
- Land Rollers
- Trashers
- Wood Cutters
