Steamer Semper Paratus May  
 Attempt to Salvage  
 Gold.

London, July 10.—The salvage  
 steamer Semper Paratus left Dover  
 yesterday with clearance papers for  
 the North Atlantic, presumably to at-  
 tempt salvage of the gold from the  
 sunken Lusitania. Count Landi, one  
 of the owners of the salvaging com-  
 pany, who was on board, would only  
 admit to questions, however, that the  
 task might possibly be attempted.

The Lusitania on her ill-fated voyage  
 carried \$5,000,000 in gold in the  
 strong room in addition to the pur-  
 ser's safe, which was said to contain  
 approximately \$1,000,000 in gold and  
 jewellery.

 APPEAL FOR RY.**

Hon. Chas. Marcell Speaks of  
 Needs of Bay Chaleur  
 Country

In the debate on the government's  
 Branch Line policy Hon. Chas. Marcell  
 of Bonaventure, made an eloquent ap-  
 peal for better railway accommodation  
 for the Gaspé Coast. As this is a  
 line question in this district we are  
 reproducing his address as reported in  
 Hanzard: It is as follows:

Mr. MARCELL (Bonaventure): I do  
 not desire to object to proceeding with  
 the resolution, but I wish to draw the  
 attention of the government, and the  
 Minister of Railways more especially,  
 to the fact that they are going into  
 expenditure of about \$25,000,000 for  
 the construction of branch lines. I  
 scanned the resolution very rapidly  
 and observed that 71 miles are locat-  
 ed in Nova Scotia, 25 miles in New  
 Brunswick, 14 miles in Quebec, and 59  
 miles in Ontario, and all the rest goes  
 to the west. I do not object that the  
 proposal be adopted. I have had the  
 honour of representing my constitu-  
 ency for twenty-five years, and his  
 Honour the Speaker, Mr. Lemieux,  
 has represented Gaspé, the adjoining  
 constituency, for a longer period. We  
 have on several occasions called the  
 attention of governments in the past  
 to the singular position in which the  
 people of the Gaspé peninsula are sit-  
 uated. In twelve years from now the  
 four-hundredth anniversary of the  
 landing of Jacques Cartier on Cana-  
 dian soil will occur in this oldest-  
 inhabited part of Canada. And we  
 are still asking for a decent railway  
 service. When Sir Wilfrid Laurier  
 took office in 1896, one hundred miles  
 of railway had been built, as far as  
 New Carlisle, following out a proposal  
 made to the parliament of that day by  
 Sir Hector Langevin and Sir Charles  
 Tupper in 1882. Sir Hector Langevin  
 at that time was Minister of Public  
 Works and leader in the province of  
 Quebec, Sir Charles Tupper was Min-  
 ister of Railways. In 1892, parlia-  
 ment voted an amount for the con-  
 struction of this branch of the Inter-  
 colonial railway from Matapédia to  
 Gaspé Basin. This undertaking  
 was handed over to a private company,  
 the misfortunes of that district began  
 with that date. Sir Wilfrid Laurier  
 took office in 1896, and the present  
 Speaker of this House asked, very  
 fairly for his constituency—because at  
 that time Gaspé was the only consti-  
 tuency in Quebec which had no rail-  
 way service whatever—that the line  
 should be continued from New Carlisle  
 to Gaspé. The remaining one hun-  
 dred miles were completed, making in  
 all two hundred miles of railway. The  
 late Minister of Railways (Mr. Coch-  
 rane) had a law passed through the  
 House by which any two hundred  
 miles of railway connecting with the  
 Intercolonial or with government-  
 owned railways might be merged into  
 the Canadian National system. We  
 have urged this for many years with-  
 out success. The present two hun-  
 dred miles of railway line are owned  
 by two companies, the shareholders of  
 which reside in England. They give  
 service merely to keep the railway  
 alive, and the result is that that part  
 of Quebec, which is the most interest-  
 ing from its maritime aspect, from its  
 valuable resources, from the attrac-  
 tiveness of its territory—and from its  
 very energetic population, has re-  
 mained to this date the most poorly  
 served part of Canada in the matter  
 of railways. It seems strange to me  
 that these people, inhabiting the oldest part  
 of Canada, while we are voting mil-  
 lions for new parts of Canada which  
 are barely settled at the present time,  
 or which are yet to be settled by new-  
 comers to this country whom we wel-  
 come—that the oldest settlers, the  
 people of the oldest part of Canada,  
 should remain still without any ade-  
 quate railway service.

Lately we have called the attention  
 of Sir Henry Thornton to this state of  
 affairs. Sir Henry Thornton volun-  
 tarily to have an inspection made of  
 these lines and to have them operated  
 as if they were the property of the  
 Dominion, as branch lines of the Inter-  
 colonial railway, because they are de-  
 facto branch lines of that road. The  
 two counties of Gaspé and Bonaven-  
 ture are inhabited by 60,000 people,  
 and we could easily have three times  
 that population if we had a proper  
 railway service. These two consti-  
 tuencies cover 10,000 square miles of  
 the most fertile territory in the prov-  
 ince of Quebec, with a double advan-  
 tage of being situated by the sea, hav-

ing thousands of miles of timber and  
 pulpwood, mineral resources, fertile  
 soil, and splendid fisheries producing  
 some of the finest fish of the North  
 American continent. Our rivers are  
 visited yearly by the cream of Ameri-  
 can and Canadian society, from His  
 Excellency down, and that has been  
 the case for the last forty years. A  
 member of the Royal House has gone  
 to the extent of establishing a resi-  
 dence at New Richmond to take advan-  
 tage of the fisheries in these attrac-  
 tive regions. Nevertheless the dis-  
 trict has remained in a quiescent state.  
 During the first ten years that I had  
 the honour of representing the consti-  
 tuency in this House, the population  
 increase in one county alone by 5,000.  
 During the next decade, from 1911 to  
 1921, the population increased by only  
 500. Why? Because the industries  
 in both Gaspé and Bonaventure, one  
 after another moved away across the  
 Bai de Chaleur to the Intercolonial  
 where they could get service over  
 which they could send their produce.  
 At Nouvelle, to begin with, the Pro-  
 vince of Quebec Lumber Association  
 transferred all its lumber over to Dal-  
 housie, and it is operating on the main  
 line of the Intercolonial. The same  
 thing happened at Bonaventure and  
 New Richmond where the mills of the  
 McLean Lumber Corporation were  
 transferred to Bathurst, and to-day we  
 witness the spectacle of this lumber  
 being cut in these two counties and  
 being transported in booms across the  
 Bai de Chaleur, a distance ranging  
 from 25 to 50 miles to be sawn and  
 placed on board cars to be exported to  
 the Canadian and American markets  
 at great disadvantage and loss. The  
 result of this is that the young people  
 are leaving these two counties daily,  
 and settling, unfortunately a large  
 number of them, in the United States.  
 We are losing our population, and  
 this because we have not an efficient  
 railway service which would develop  
 the resources of these two consti-  
 tuencies as they should be developed.  
 I know the Minister of Railways of  
 the government had handed over the  
 operation of the Canadian National  
 Railways to a board of directors. Sir  
 Henry Thornton is willing to operate  
 these lines as branches of the Inter-  
 colonial. We find ourselves in pres-  
 ence of these two companies holding  
 these roads for a price, and between  
 the two people are not getting the  
 service. There must be a solution to  
 this, and I wish to attract the atten-  
 tion of the Minister of Railways and  
 the government of Canada to this  
 fact. Hon. Mr. Carnell and some of  
 his associates on the Railway Com-  
 mission visited the constituencies two  
 or three years ago and made an elab-  
 orate report, which is now in the pos-  
 session of the Minister of Railways,  
 pointing out that these two consti-  
 tuencies did not have the railway ser-  
 vice to which they were entitled. And  
 if an application were made to the  
 Railway Commission to-morrow, I  
 have no doubt that an order would be  
 issued which would place these two  
 English companies in the position of  
 having to give up the operation of  
 these railways, because I understand  
 their resources are not sufficient to  
 give the country the service to which  
 it is entitled.

We have on these two roads some  
 very antiquated locomotives. We have  
 no rolling stock whatever. The roll-  
 ing stock that we have comes from  
 other roads, and still every pound of  
 freight and every passenger coming  
 over these 200 miles of territory can-  
 not reach any other railway than the  
 Intercolonial. After the Hon. Mr.  
 Speaker had succeeded in having the  
 second hundred miles of this road com-  
 pleted, I had the honour of introduc-  
 ing in this House in 1904 a bill to  
 authorize the construction of the in-  
 terprovincial railway bridge over the  
 Restigouche river between Cross Point  
 and Campbellton, the reason at that  
 time being to link up these two rail-  
 ways with the Intercolonial Railway  
 at Campbellton. We have now com-  
 munication with Matapédia by which  
 we can easily reach Montreal, Quebec,  
 Ontario and the West. But our com-  
 munication with the Maritime provinces is  
 defective. By the construction of this  
 road between Quebec and New Brunsw-  
 ick, we would have an easy access to them  
 and west, to the Intercolonial going  
 running from Campbellton to St. Le-  
 oards and the border of the State of  
 Maine, where it would connect with  
 the American system of railways and  
 would place the entire Gaspé Penin-  
 sula within 24 hours of Boston, the  
 great fish market of the United States.  
 We have in the Bai de Chaleur some  
 of the most magnificent fish in the  
 province. We have pulpwood

We have untold wealth of  
 minerals. We have all these re-  
 sources, but we need a much better rail-  
 way service. Before the Minister of  
 Railways proceeds much further with  
 this railway legislation, I trust he will  
 give this state of affairs his serious  
 consideration. He will find in the  
 archives of his department a very  
 elaborate report issued last year by  
 one of his officials, Mr. Fraser, who  
 went down there and made a thorough  
 investigation into the whole system.

In this report Mr. Fraser points out  
 that these 200 miles are the most val-  
 uable branch of the Intercolonial east  
 of Montreal. Still they are inade-  
 quately operated, the people have  
 not the service, and the Canadian Na-  
 tional Railways, are without the pro-  
 ceeds that would be derived from the  
 proper operation of these roads. We  
 have a huge deficit in connection with  
 our Canadian National Railways and  
 the only way in which that deficit can  
 be reduced is by obtaining business  
 for the system. Here is an excellent  
 opportunity. People are willing to  
 stay at home here and are anxious to  
 develop the place. We find here  
 large families and the people are not  
 any eight-hour-a-day system, nor are  
 they bothered with labour unions.  
 They are of the old type of Cana-  
 dian who inhabited this country years  
 ago. This is an ideal country for the  
 development of all our industries and,  
 as I have observed, there are large  
 families—families of ten, twelve and  
 fifteen children are frequent. We  
 have lately seen at Gaspé itself the  
 creation of a new diocese, which in the  
 province of Quebec means the centre  
 of a large district; and the absorbing  
 powers of the French-Canadian race  
 are strikingly exemplified in the fact  
 that the first Roman Catholic bishop  
 of this diocese is the Right Rev. Mon-  
 seigneur Ross, the descendant of a  
 Scotman, though a French-Canadian  
 himself. This part of the province  
 of Quebec has thus become the nucleus  
 of a new district, and when the Min-  
 ister of Railways is considering this  
 development of the National Railway  
 system generally he will find a very  
 notable example of what has occurred  
 in the Lake St. John district as well  
 as in the Chicoutimi district in the  
 fact that this part of the province of  
 Quebec has been erected into a dioc-  
 ese with a bishop in charge. He will  
 also see in the Three Rivers district  
 a section of the country that is fast  
 becoming the industrial district of the  
 whole of Canada.

I am in favour of immigration, and  
 during the past twenty-five years I  
 have voted for the expenditure of mil-  
 lions untold for this purpose, for the  
 construction of railways, and for the  
 advancement of Canada generally.  
 But really I consider that this part  
 of the province of Quebec has been  
 overlooked; and when His Honour the  
 Speaker and myself placed the mat-  
 ter before Sir Henry Thornton on a  
 purely business basis he was amazed  
 at the state of affairs that actually  
 existed. To such an extent, indeed,  
 did it appeal to him that he offered at  
 once to undertake the operation of  
 these railways as branch lines of the  
 Intercolonial. But we are held up by  
 these English companies who are  
 keeping the roads alive merely for  
 the purpose of obtaining their price.  
 Now, there must be a solution for  
 this condition of things, and I call  
 upon the Minister of Justice (Sir  
 Lomer Gouin), who is familiar with  
 the province of Quebec, his colleague,  
 the Minister of Railways (Mr. Graf-  
 ham), and the government, to provide  
 this solution as soon as possible. We

**RED ROSE**

are not asking for the construction of  
 railways; we are merely asking for  
 the operation of a railway that has  
 already been constructed, a portion of  
 it forty years ago and the other por-  
 tion within the last fifteen years. We  
 simply want to give to the people the  
 service to which they are entitled; and  
 that they are entitled to this service is  
 admitted by the Railway Commission  
 and all officials who have gone over  
 the ground. I trust therefore that  
 proper attention will be given this  
 matter before long and that the people  
 of Gaspé Peninsula will receive that  
 consideration which they have a right  
 to expect at the hands of the country.

**SIR LOMER GOUIN TO  
 GO TO CONFERENCE**

Ottawa, July 6.—It was definitely  
 decided at the cabinet meeting here  
 last night that Sir Lomer Gouin, Min-  
 ister of Justice, and Hon. G. F. Graf-  
 ham, Minister of Railways, shall be  
 Canada's representatives at the Im-  
 perial Economic Conference to be  
 held in London next October.

## The Performance Of Grain Crops

Investigation shows that many farmers do not sow varieties or combinations of different kinds which are best suited to their farms. Some even do not know the name of the performance record of the variety they are using. A closer observation of the growing crops than these now enjoy, some farms would often lead the farmer to doubt the value of the variety he is growing and to object to a critical investigation. He would arrange to have it tested out in comparison with other sorts either at his nearest Experimental Station or on his own farm.

## Usefulness of Clover Crops

Clover crops in an orchard are essential part of good orchard practice. As the maintenance of humus or organic matter in the soil is necessary to retain proper physical condition, and as manure is becoming more difficult to obtain, and can be used more properly to better advantage on other parts of the farm, clover crops fill a very useful purpose in this direction alone. Crops that will make a good growth serve to increase the humus in the soil, but by selecting leguminous crop such as clover, vetch or peas, not only humus is added, but also it may be added, but also it may be possible to increase the nitrogen content of the soil, thus obtaining a two-fold advantage from the cover crop.

In the colder part of the country, where well ripened wood of the tree is necessary to ensure a chance of proper wintering, it is considered necessary to utilize a cover crop in conjunction with the clean cultivation system. For this purpose the crop is sown about June 30th, allowed to grow all summer and fall, and ploughed under the following spring. The cover crop will thus draw upon the soil for moisture and food at a time when the tree should be ripening its wood, and will also serve as means for holding snow, thus assisting in protecting the roots of the trees from severe conditions.

The use of cover crops in connection with bush fruit plantations has not been developed to any appreciable extent, but with the growing scarcity of manure there seems to be no reason why a combination of fertilizers and cover crops could not be adopted as good practice in areas where raspberries, currants, and gooseberries are being grown at proper distances. Such a combination offers many advantages, where cost of regularly applying manure is becoming prohibitive.

Following are some of the more important crops used for this purpose: red clover, crimson clover, summer vetch, field peas; non-leguminous; buck wheat, rape.

## Harvesting Alfalfa Hay

The number of farmers in Canada who are growing alfalfa is gradually increasing as its value as a hay crop becomes more generally recognized. At this time of year the best methods of making it into first quality hay are of prime importance to the alfalfa growers.

The first point to be considered is time of cutting. The methods or time vary widely with different growers, and each method has something to recommend it. Most growers gauge the proper time to cut by the stage of blossoming of the alfalfa plants, and while this may be an indication, the really proper indicator is the commencement of growth of the young shoots from the crown which will furnish the second or third growth, as the case may be.

If the alfalfa is cut before these small shoots start at all the second growth will be slow in starting and will, as a result, take considerably longer to make a second cut than when the first crop is cut just as these new shoots appear in the crowns. If on the other hand, these shoots have started and made sufficient growth to be cut off by the mower, the second cut will be even more delayed.

The proper time to cut, therefore, is just when the shoots of new growth are first noticeable at the crown. The length of time the hay should be left in the swath will depend both on the heaviness of the crop and the weather at cutting time. Care should be taken, however, to rake the hay into windrows while it is still a little tough, so that the largest possible percentage of the leaves will remain on the plants, as these are by far the most nutritious part of the hay. After curing slightly more in the windrows the hay should be put up in coils that are small in diameter in proportion to their height. This permits the hay to cure much more quickly than if put in large bulky coils, as the air can get through them better and there will be less danger of moulding.

Occasionally it will be possible to haul the hay direct from the windrow to the bar or stack, or, in stacking in very dry climates, direct from the swath to small stacks, but over a large portion of the country sufficient improvement in quality will be obtained by coiling to justify the expense.

Sufficient time should elapse in the coil to allow the hay to cure thoroughly, particularly if a large quantity is to be put into one mow in the barn. Otherwise, there is serious danger of the hay heating considerably in the mow and damaging the feeding of the of it, as this heating almost invariably results in a dusty, rather unpalatable hay which is injurious to stock, particularly horses.

## Cost of Raising Colts

Under existing economic conditions, it would seem that the majority of farmers must depend upon the hope for the performance of work on the land. Horse breeding is being today neglected and has been for some years. There is a surplus of poor-quality horses on the market—skates. To the presence of the latter may be largely attributed the poor prices for horses. The good drafter has a ready sale, and the demand for this class must increase, unless there is developed some absolutely new method of working the land.

Raise or Buy Horses—which?—This brings us to the perennial enquiry: Will it pay to raise horses or is it cheaper to buy them—to which question it is impossible to give a specific answer in a word. To raise horses there should be a good stallion of a suitable breed available for service, the mare or mares should be sound and of proper conformation, the farmer himself should know and like horses, and suitable feeds should be procurable at reasonable prices where they cannot be grown right on the place.

Experiment at Cap Rouge—As far as the largest item in the cost of raising horses is feed, it was decided a few years ago to weigh all feed given to a certain number of youngsters from the time they were weaned until ready to earn their living. This was done with two colts and seven fillies, whose average age, when they commenced to work, was 33 months and nine days—when their weight was 1265 pounds. During that period, each of them had received 4018 pounds of oats, 4506 pounds of bran, 10826 pounds of hay, and had been at pasture about 180 days.

How Much Does it Cost?—Prices of feeds now change so often and abruptly that figures given today are practically worthless a short while afterwards. There is also the question of whether one should charge to the live stock the actual cost of raising the feeds or the market price of these feeds. If oats are calculated at 2, bran 1 1/2, and hay 3/4 cents per pound, the charges are \$225.40 per colt ready to work. The amount of feed could have been decreased if more pasture had been available, and most farmers would be making money selling oats at 68 cents per bushel and hay at \$15.00 per ton; but it must not be forgotten, on the other hand, that there were other charges besides feed against the colts when ready to work.

Each man must decide for himself, according to his own local conditions, where it will pay him better to raise horses than to buy them. If he chooses the first alternative, the most elementary common sense should decide him to breed only the best, ready to work, costs a good deal of money.

consequence hundreds of thousands of dollars were wasted in western Canada and other sections, it is declared. According to the plan devised and presented to Parliament this year, the British lines and their influence and approximate cost within the three-year period, which should be ample time to complete most of them, was shown in the bill. These branch lines were not proposed before the closest examination of the needs of the proposed lines and the hearing of almost countless deputations by the Canadian National Railway Board during its tours of inspection throughout the

WILL NOT RUB OFF

## Government Favored It.

It is the position of the Government that not one of the branch lines in the west proposed to be built could be questioned on grounds either of economy or of railway urgency.

One line that might have been questioned, but was not, by the enemies of public ownership and by the Melchett party in the House of Commons, was the Vernon-Kelowna line in British Columbia. It was proposed to spend \$2,000,000 to complete a line on which \$5,500,000 had already been spent by the Melchett Government without nearly completing it. It was believed by the present Government that this line could probably be completed, that the road would pay for itself and it was thought better to finish it than to let the \$5,500,000 become a total and irrecoverable loss.

## MAY BE ELECTION IN SEPTEMBER

### Frederick Gleaner Says Premier is Making Plans for Same.

(Frederick Gleaner).

Preparations are being made for general provincial elections in New Brunswick during the coming fall, according to reports which came from usually well informed and authentic sources.

County organizations of the Provincial Government party have already been notified in some instances to get ready for the battle of the ballots and, according to a message received by The Gleaner, some of the county officials will be called on for a date in September.

For some time there have been persistent reports that before another session of the Legislature there would be general elections, and it has been stated that Hon. P. J. Veniot, who became Premier shortly before the last session, was paving the way for his first appeal to the people. Recent events have confirmed impressions that apparently preliminary preparations for elections were being made.

The Probable Issues. The expectation for some time has been that the Government would probably seek a definite mandate from the electorate before proceeding with the development of Grand Falls, which is one of the biggest things in hydro development in this province, and, if the present arrangements for holding general elections are carried out, the hydro development proposals will probably be one of the principal issues.

It is also stated with marked definiteness that the Government's policy in respect to the Prohibition question will be placed before the people. It may be, however, that the liquor decision will take the form of a referendum, and, if so, the question of whether beer and wines shall be sold will be added to questions somewhat similar to those on which Manitoba recently voted.

## The name "Sunshine" your protection

How are you to know which is the best Macaroni? In appearance most macaroni look alike. The name "Sunshine" is your protection.

This macaroni is made from the germ of No. 1 Hard Manitoba Wheat—the wheat which ranks highest of any known wheat in richness of gluten and nourishment.

The "Sunshine" Macaroni—your favorite food—will taste better than ever!

## If Stomach is Sour Food Won't Digest

No stomach filled with sour poisons can digest food. Everything you eat turns into more poison and gas, making you nervous and weak. Simple buckhorn bark, glycerine, etc., as mixed in Adlerika, expels all sour poisons and gas BOTH upper and lower food-matter you never thought was in your system which caused sour and gassy stomach. Adlerika is EXCELLENT to guard against appendicitis.

## BEST R. R. PLANS KILLED BY SENATE

See Work of Enemies of People's Railways in Hoist to Branches Bill

Ottawa, July 6.—When the Senator hoisted the Canadian National Railway branch lines bill it blocked the first real business-like railway proposition ever presented to Parliament for ratification, it is contended in Ottawa, circles. The idea of drawing up a three-year construction programme for branch lines was really taken from the United States, where it had been practiced with signal success.

According to the method in vogue here for several years the programme would be included in the estimates, and as the estimates were seldom passed before July or even July—then the Senator had to be called for and the controversy maintained before the contracts were awarded, so that the contractors could not possibly assemble their construction plants much before the western crops were ready to be moved. Between the crop moving interruptions and later the coming of frost little work was done that year. Then the money had to be voted over again the next session and the same story of delay repeated. As a

### To Make Attempt to Salvage Gold From Sunken Lusitania

The Lusitania Was Said to Have Carried Five Million Dollars in Her Strong Rooms, in Addition to a Large Amount of Gold and Jewelry in Purser's Safe

London, July 6.—The salvage steamer Samper Parasus left Dover yesterday with clearance papers for the North Atlantic, presumably to attempt salvage of the gold from the sunken Lusitania. Count Landi, one of the owners of the salvaging company, who was on board would only admit to questions however that the task might possibly be attempted.

### Machine Which Detects Lies in Eyes of Subject

Falseness Revealed in Myopia Caused by Strain in Inventing Untruths, Says Doctor.

New York, July 6.—Lies, from the more complicated falseness of criminals, may be detected by the effort they produce on vision, according to Dr. W. D. Bates, noted ophthalmologist, of 383 Madison Avenue. The use of a retinoscope is less trying than soporifics, the "truth telling" drug, used on convicts in St. Quentin Prison recently, Dr. Bates said, and its results are absolutely reliable.

The explanation, as the eye specialist gives it, is this: Telling lies, even though it apparently comes naturally to some persons, is a mental strain which results in temporary myopia or near-sightedness. It is detected through the retinoscope, a small instrument with a bright light reflected in a mirror at one end, by means of which a shadow on the retina at the back of the eye may be observed. If the subject is not telling the truth, the shadow on the retina moves in a direction opposite to that of the shifting mirror, indicating the presence of myopia.

The examination of criminal suspects presents ideal conditions for testing the retinoscope, Dr. Bates said, since the prisoner is on his guard and determined not to be caught. If he is telling the truth he will be true from strain, but as soon as he lies the strain becomes apparent in the error. Dr. Bates submitted the reporter to the test and was able to recognize at once by the "retina shadow" what his subject was thinking an untruth. Just as simply he saw the truth and said: "Saw your mind vision was relaxed."

One of the ophthalmologist's patients, a child with a craving for the sweets left for her at the office late last week for her treatment. Her mother waited for her and accused the girl of having stopped for an ice cream soda. The child denied the charge, but when the retinoscope was focused on her forehead, Mr. Devereaux was highly respected in New Carlisle reference to his death was made by the Rev. A. W. Backlund, rector of St. Andrew's church who spoke of his high Christian qualities.

The public school is closed during the week of all concerned we hope the examinations will be all that is expected. We congratulate Mr. Bert Law in being elected chairman as well as a member of our school board. Men with visions of high and progressive education should be the men to hold such important positions for the future of our boys and girls who in years to come will hold the destiny of municipal, provincial and federal affairs of our dominion.

**Wanted to Know.**  
"Waiter, a plate of oysters."  
"But there's no 'r' in this month, sir."  
"Is this a spelling bee or a restaurant?"  
"You do very nicely," she commented. "I suppose when you grow up you'll be a great soprano!"  
"Why, no," answered the child. "I'm going to be a great bella donna!"

**Some Missing.**  
The teacher of a certain school asked a junior class: "How many ounces are there in that would of meat on my desk?"  
"All were silent till a little boy put up his hand and said: "Something over fourteen."  
"How is that?" said the teacher, in a stern voice. "Aren't there sixteen?"  
"No, sir, because I saw the cat taking a piece out of it."

**Dee Side**  
We are now enjoying some nice showery weather which is greatly appreciated.  
Miss Mary Sharpe returned home Saturday after spending sometime with her aunts in Glenwood, N. Y.  
Mr. Cameron McNaughton, Mrs. Jan. McNaughton and Mrs. Malcolm Coull, motored to Campbellton Sunday, where they spent the day with friends.  
Miss V. Coull, Clyde Camp and Mr. A. L. Robertson of Robinsonville, were the guests of Miss Margaret Coull, Matapedia West, on Sunday.  
Miss Ethel Ferguson and Miss Mary Sharpe, spent Monday the guest of Miss S. Fraser, Chain of Becks.  
Miss Beatrice Myers passed through here Monday enroute to her home in Brandy Brook, after spending a few days at Summerside with friends.

Campbellton, N. B.

**A Serious Attack.**  
A young doctor said to the girl of his choice: "Do you know, dear, I have a heart affection for you?"  
"Oh, yes; I feel that I will live troubled life without you," he fervently responded.  
"Then you had better asthma," she softly murmured.

### Here and There

Shipments over the T. and N. O. Railway during the month of May amounted to \$2,115,000 of silver ore.

The movements of the mackerel schools will, when observed, be broadcasted from radio apparatus erected for the purpose by the Canadian Marine Department.

Mrs. Dan Otto, of Stratford, Ont., set 23 eggs and hatched 84 ducklings from eggs hatched by the Canadian Pacific Steamships, Ltd. Three steamers have been assigned to the route.

James Edwards, of Port Robinson, declares he has a chicken out of this year's hatch which gets breaks most broken trees. This one has four legs, four wings, two backs, two necks but only one head. It has been preserved in alcohol.

One hundred and fifty families are to be brought into British Columbia and settled under private enterprise in the valley, east and south-east of Fort George, W. A. Leithwaite announced, following his return from England recently.

A Swedish scientist claims to have perfected a process for the manufacture of "artificial wood" from 50 per cent. sawdust and the balance chalk and chemicals. The product is as hard as oak, and can be planed, sawed, bored, nailed, painted, stained or polished. It will not deteriorate in water.

A start on the actual work of electrifying sections of the Canadian Pacific Railway's main line through the Rockies may be made next year. D. C. Coleman, vice-president of western lines, says that traffic demands and financial conditions would determine when a start would be made.

The decision of the Government of the province of Quebec to grant a bonus of \$4 per acre for land cleared, will result in an approximate outlay of \$20,000. Clearance in the past few years has amounted to approximately 40,000 acres, but the total this year is expected to be 60,000 or more.

Speaking to the Canadian Club in London, Eng., recently, E. W. Beatty, President of the Canadian Pacific Railway, contrasted the "irritating torments" of slow movement of Canada's population policy with Australia's progressiveness. "We Canadians would be wise to keep our gates open for brains as well as brawn," he said.

One hundred and fifty delegates of the Canadian Weekly Newspaper Association will tour the British Isles next summer, and hold their annual convention in London, according to decisions reached at the final meeting of the convention here. The party will leave about the first of June, and will attend the British Empire Exhibition. The tour will last about six weeks.

Up to the end of 1922 dividends paid by the gold and silver mines of northern Ontario amounted to over \$12,315,000. Cobalt camp was discovered late in 1903 and hardly began producing until 1906. Dividends paid out of Cobalt mines amount to \$28,000,000, which represents practically 50 per cent. of the gross value of production. Porcupine mines have paid \$38,472,988.

## EMPRESS OF CANADA ESTABLISHES NEW RECORD

**ONE END OF THE SWIMMING POOL ON THE CANADA**

**EMPIRESS OF CANADA - QUEEN OF THE PACIFIC**

Following the announcement that the Canadian Pacific Line "Empress of Canada" has been chosen to show the world to 800 tourists in a 20,000-mile round the world cruise, leaving New York in June, the following information is given:

The "Empress of Canada" has been selected to show the world to 800 tourists in a 20,000-mile round the world cruise, leaving New York in June. The ship is a 20,000-ton vessel, the largest of her class, and is equipped with all the latest improvements in shipbuilding. She is a 20,000-ton vessel, the largest of her class, and is equipped with all the latest improvements in shipbuilding. She is a 20,000-ton vessel, the largest of her class, and is equipped with all the latest improvements in shipbuilding.

## Tales of a Wayside Tee

By GRANTLAND RICE

Inwood, the Next Open Battle Ground. Rolling and sloping, bunkered and buttressed, trapped and gitted and belinkered, Inwood-by-the-Sea awaits the coming open golf champion of the United States.

The Long Island tides from the ocean are only a short distance away from this battle ground, where within eight days, Hagen, Sarason, Hutchison, Barnes, Bobby Jones, Mac Smith, Kirkwood and a long line of other stars fight for the big crown of the game—a crown that carries even greater glory to-day than the British Open. For the field is finer and blessed with a greater quantity of class.

There will be time enough a few days later on to take up the merits of this brilliant coterie.

Just at present we are mainly concerned with the battle field itself.

Four years have passed now since a golfer with a 300 or more stroke for seventy-two holes was able to win. This happened at Braeburn in 1919 when Walter Hagen, finally beat Mike Brady out—but neither broke 300.

A year later at Inverness Ted Ray won with 295. In 1921, at Columbia Jim Barnes broke up the field with 289. And last year, at Skotis, Gene Samson, by a final sprint in 68 finished first, with 283.

So, the count has been gradually working toward lower figures, but we have a hunch that Inwood will check the rapid ascent on par and the unending march of even 4s.

We have a hunch that 295 will be good enough to win at Inwood, and if the wind is blowing and the course isn't parched, the winning total may even mount.

There will be no steady parade of the drive and the mashie niblick at Inwood. Before the first five holes are passed the face of the brassie will be burning hot.

And before the first five holes are passed more than one dreamer of conquering days will be in a huddled heap.

The physiological test presented by these first five holes alone will take a heavy toll.

It isn't often that a golfer starts right out into the run of pars 4, 4, 5, 5, 5. Yet he will at Inwood. He can play fine golf and still be 3 above even 4s, tossed into the middle of a big war, before he knows who exploded the bomb.

The distance of these first five holes are 370, 390, 495, 525, and 485.

That's something to face while the nerves are still quivering.

And most of the route is trapped up to the handle, leaving no opening for any mere wild slugfest.

This creek will crack more than one stout heart. And the second hole will take as heavy a toll as the longer ones—what with its punishment of sand to the left and its crushing water hazard jammed into the green at the right.

Great Variety.

Inwood has a double quality of variety. It calls for both distance and control—for both wood and iron and pitch through the fairway.

And it has every variety of trouble known—out of bounds, a vast show of traps and pits and bunkers, seaside rough and ruddy and here and there jutting woodlands that are not to be taken too highly on certain dog-leg holes.

Most of the greens are trapped as closely as the sand can be shoved and tightly guarded, where the penalty will await each slip.

And most of the greens are rolling and hilly, where it is important to get the second shot fairly close.

There isn't much open territory left for any alpheg journeying to the pin—and it is no great trouble to reach the rough, and then suddenly discover a 7 on the card.

The full course will run between 1600 and 1700 yards and there are also about that many forms of trouble, although, by keeping straight and plying the putter, one can drop to the low 70s quite feebly. The main trouble will be to maintain a 72 or a 73 clip for the four rounds.

The Eighteen Holes

First hole; 370—The scene opens with a drive and a pitch. There is rough matted rushes and a swamp to the right for a slice, a line of traps and bunkers to the left for a hook, and a well-trapped green.

Second hole; 390—The range extends. More power is needed. First of all, there is a diagonal bunker to carry, the carry running from 170 to 200 yards, as the golfer may feel about it. The longer the carry the shorter the second shot. After a good drive this hole calls for a mashie iron or mid-mashie to a green that is bunkered to the left with a killing water hazard to the right, both jam up against the green. A pushed or sliced second means almost a certain 6.

Third hole; 495—Two fine shots will get there. But not against the wind. There is a carry over a rise, traps to the left and sloping, rolling green that is none too wide.

Fourth hole; 525—A drive, a brassie and a pitch is needed here, the pitch coming to a fairly small closely trapped green. If you miss either your drive or your second you have a whale of a shot left to get home in 3—and hold the green.

Fifth hole; 485—Two full shots with the wood on a narrow fairway.

Sixth hole; 105—Here is the first of a fine array of one-shot holes. There is a deep "trap in front" and to the right where a fade-in with a mashie iron will get closer to the pin. The

**RICH IN VITAMINES**

**ROYAL YEAST CAKES**

EMERSON'S PATENT

**MAKE PERFECT BREAD**

green is hard to hold unless the shot is correctly played.

Seventh hole; 220—Here the distance calls for a spoon shot or a driving iron with out of bounds to both right and left, and a narrow trail to follow on the way to the green.

Eighth hole; 395—Drive and iron with an accurate tee shot to carry a sunken trap. The rolling green is well bulwarked against loose approaching.

Ninth hole; 355—One of the best on the links. The fairway is only 40 yards wide at the start, with out of bounds to the right. It then gradually widens, but from 150 yards on there are traps on both sides all the way to the green. There is a raised trap in front to be carried and a sunken trap to the right, not forgetting a steep bank leading to more trouble in the rear for an overapproach.

Tenth hole; 340—There is a dog-leg quality to this hole, where a slight hook around a cluster of trees will help. There is sand and rough to the right. A drive and mashie niblick will turn the trick.

Eleventh hole; 420—Here we have a fine drive and iron type, with a well-trapped green that carries a dip in front.

Twelfth hole; 117—Small green, water in front, sand all around. You are either on or in harassing trouble. A simple 3 and almost as simple as 5.

Thirteenth hole; 400—The first call on this hole is an accurate tee shot. There are trees to the left and traps to the right.

Fourteenth hole; 440—Probably the star short hole of the course. The tee is back in a swamp and a full iron must be struck to an elevated green. And the green must be carried and held. Dire trouble is everywhere else. It is the green or nothing here.

Sixteenth hole; 420—Another dog-leg. The drift is to the right, where there is out of bounds, further aided by traps and trees. The green is well trapped for the iron approach.

Seventeenth hole; 375—A drive and pitch to a table green. The green is tightly trapped and none too large.

Eighteenth hole; 425—A drive and a stiff iron that must carry a spread of water and avoid traps to the right will bag a fine 4.

Among the extremely fine holes on the course that may lead to trouble are Nos. 2, 4, 6, 9, 11, 15, 16, 17. By steady marching the best will score well. But a few wild shots will run up any score, as there are not many chances offered for easy recoveries when one has violated some essentials principle of the swing and clubbed the ball forty or fifty yards off the intended line of flight.

When the best of the courses become baked out by broiling suns all standard values are badly depleted. But with a fair share of rain before the big test, the Long Island meeting, place of the mighty will give both wood and iron all the work they need, and not turn most of the approaching over to the mashie niblick. There will be joy and hope in the heart of the Golfer who slips by the first five holes in only one or two over 4s. But it is easy to run up to 23 or 24 strokes on these first five holes, and a start of this nature always has the tendency to start one forcing or overtrying to recover. A slow start in medal golf frequently has a most depressing effect, affecting the play later on, and there will be few from the field who will get away blithely at Inwood over the first five holes. They will help to make courage a greater factor than ever and to give some advantage to the golfer who can start rather raggedly and still keep his determination intact.

Unbusiness exists all around Lake Constance just the French extend their occupation in Germany east to Lake Constance, and interfere with the Zeppelin, which is under construction there for the United States government.

There is even a well appointed swimming pool on board with a gymnasium adjoining. The large lounge provides ample room for concerts and the movie picture service. It was remembered, when designing the interior of the Empress of Canada that she was for semi-tropical service and the rooms are large and airy, and the last word in marine architecture.

Captain Malley, R.N.R., the ship's Captain is well known on both the Atlantic and Pacific, having joined the Canadian Pacific as junior officer on the "Empress of Japan" in 1900, and he is the recipient of many congratulatory messages on his appointment as Commander of the fastest and best of the Pacific.

### NO CHANGE IN STUMPAGE ON N. B. CROWN LANDS

Fredericton, July 5.—New Brunswick's stumpage charges for lumber cut upon the Crown Lands of the Province will remain unchanged, according to a decision reached by the Provincial Government at their meeting here to-day.

Changes, if any, would go into effect on August 1st, from which time all leases and licenses date, and the New Brunswick Lumbermen's Association some time ago suggested that further reductions should follow the changes made previously in the rates.

It was stated definitely this afternoon that the Government had determined to make no change.

Little Miss Malaprop.

A physician's little daughter was asked by a visitor to sing.

"You do very nicely," she commented. "I suppose when you grow up you'll be a great soprano?"

"Why, no," answered the child. "I'm going to be a great bella donna!"

### Acadia University

WOLFVILLE, Nova Scotia

Departments—Arts and Sciences, Applied Science, Theology.

Degrees—B.A., B.Sc., M.A., B.A. (Education), B.D., M. (Theology), and certificates admitting to the best technical schools. Two years' agronomy course in B.Sc. course.

First year B.P. Medicine elective in B.A. course.

Large and expert faculty, new buildings and other up-to-date equipment. Excellent library facilities. Magnificent gymnasium with large athletic field.

Expenses Moderate.

Location—Centre of the Land of Fundy. Grand Pre three miles distant.

For calendar or other information, write the Registrar, Acadia University, Wolfville, N.S.

Next term begins October 2nd, 1923.

### Acadia Ladies' Seminary

WOLFVILLE, Nova Scotia

The Aim—To prepare Girls and Young Women for complete living.

The Course—Twelve to eighteen. College Preparation, General Music, Art, Expression, Household Science, etc.

The Faculty—Twenty-four Teachers of the personality and Special Training.

The Dalhousie Graphic

ALL THE NEWS DALHOUSIE, N. B., JULY 12, 1923 EVERY WEEK

TOURIST SCHEME TO BE BOOSTED

Hon. C. H. LaBillicois Elected Vice-President for Restigouche.

Dalhousie, July 10th.—In June 1920 the New Brunswick Tourist and Resources Association held their annual convention at the Inch Arran House, Dalhousie.

At the annual meeting of the New Brunswick Tourist and Resources Association held 6th of June last on the Steamship "Governor Dingley," between St. John and Boston, Hon. C. H. LaBillicois was elected vice-president of the Association for the Co. of Restigouche, and has accepted the position to co-operate with the rest of the executive, in an effort to get some publicity work of value to the Province of New Brunswick.

Campbellton, Dalhousie, Charlo, New Mills, Jacquet River and other places in Restigouche Co., have the necessary attractions to draw the wealthy people of Canada and the United States, who desire a holiday during the summer months.

It is encouraging to know that Mr. Paul Doyle is replacing the old Bay View Hotel, with a larger one. Jacquet River with its many attractions for tourists and with two large hotels, will soon be placed on the Tourist map.

Our neighbors in Gaspe since they have been favored with railroad accommodation, have adopted ways and means to bring such beautiful places as Gaspe, Perce and Carleton, hundreds of strangers every summer.

Social and Personal News

Thomas G. Scott left on Saturday evening for Bathurst. Rev. R. J. Coleman left on Tuesday morning for Chatham where he attended the Jubilee celebration of Archbishop Fossey's fiftieth anniversary as rector of Chatham.

Mrs. Garnet Ellis of New Mills was in town on Saturday and made a call at the rectory. Mr. and Mrs. Harry Scott motored from their home in McAdam Junction last week and arrived in town on Monday, to spend a two week's vacation with Mr. and Mrs. T. G. Scott.

Mr. J. D. Rioux of Gaspe, Que., is spending the holiday at his home here. Miss Martha St. Onge and Miss Marie Thompson of Richfordville spent the week-end the guests of Mrs. D. Rioux.

Announcement of Gaspe Coast Articles Creates Interest

Dalhousie July 10.—The announcement made in last week's Graphic that a series of articles would be published referring to the Gaspe Coast, by that talented writer Mrs. Margaret McWhirter, met with very pleasant results for the many readers of the Home Paper, which is now increasing its circulation by leaps and bounds.

Mrs. McWhirter needs no introduction to the people residing on both sides of the Restigouche River and Bay of Chaleur. The book she wrote some time ago entitled "Treasure Trove in Gaspe" speaks volumes for her future success. Then there are several articles she wrote for magazines, among others the article entitled "The Westminister" of Toronto, in July 1913.

Mrs. McWhirter formerly Miss McNeil is a native of Dalhousie, N. B., and is a descendant of the first pioneers of the Co. of Restigouche. She is a relative of our industrial citizen Mr. Havelock McNeil, and of our clever Alderman Mr. Caleb McNeil.

Bazaar To Be Held In Dalhousie On July 17th

A Bazaar will be held in aid of the R. C. Church of Dalhousie, on Tuesday July 17th, in the field owned by the Rev. Mr. A. J. LeBlanc, to the west of the Convent building, and supper will be served in the Convent Hall. The Ladies in charge are receiving splendid encouragement. There will be sports of all kinds on the grounds, and refreshments will be served.

already mentioned, if proper hotel accommodation existed that would have every summer many strangers spending money in the midst of a most hospitable people, a quality which we and Gaspe, apart from these strangers appreciate.

Happenings of The Week

It is expected that the S. S. Angelia B Nickerson will go on the ferry service route between Dalhousie, Migasha, Fleurant, St. Omer and Carleton this week.

The steamers Olga S., Captain Hansen in charge, from Norfolk, Virginia, 1085 tons; and Sageland, in charge of Captain Petersen, from Philadelphia, 1588 tons; cleared from Dalhousie recently, loaded with deals, the former for Preston, England, and the latter for Barry Docks, England.

Don't fail to hear the Peerless Orchestra at the Opera House, Tuesday evening, July 17th. An aggressive base ball team has been recently organized at Dalhousie Junction called the "Jet Twirls". They give promise of becoming a strong team and already they have had several successful contests.

The Mina Grant Mission Band of St. John's Presbyterian Church, spent a pleasant evening at the home of Mr. and Mrs. D. G. Stewart on Tuesday evening, July 3rd, when their daughter May and Jean Connacher were presented by the band with life membership certificates in appreciation of their faithful services as president and treasurer, during the past year. An address was read by Annie Miller and Marion Shaw presented the certificates.

See the court scene in "Triss" at the Opera House on July 17th.

Theatre patrons here are assured of a treat on next Tuesday evening, July 17th when the Campbellton Dramatic Company present their play "Triss, or Beyond the Rockies" at the Opera House. Having seen this performance in Campbellton sometime ago we can vouch for its entertaining qualities. It is a drama of good plot value, replete with tense dramatic situations and well acted with genuine humor. Mrs. F. McKinnon in the title role and J. H. Brown as Judge Ananias Lovetoddy both made hits in their premiere performance at Campbellton while the other characters in the piece discharged their responsibilities with evident skill. It is to be hoped that everyone will turn out on Tuesday next. They may be sure of a fine evening's entertainment.

THE STUDY OF FISH LIFE IN PUBLIC SCHOOLS

Fisheries Association Inaugurate Campaign to Have Question Taken Up.

Montreal, July 7.—Claiming that although the curricula of the public schools of the Dominion provide for a study of bird and animal life, practically no attention is given to fish life and the fishing industry, despite the fact that the fisheries of Canada constitute one of its greatest resources, the National Executive of the Canadian Fisheries Association, has inaugurated a campaign to have the study of fish life given a place in Canada's educational system commensurate with its importance. A resolution was adopted by the executive to this effect: Arthur Boutillier, of Halifax, Vice-President of the association, advocated the inclusion of fish pictures in kindergarten studies.

Sound Objection.

"Well, old man, how do you like living in a flat?" "First rate, if the young lady on the floor below did not think it necessary to carry the flat idea into her singing."

Weird Sentence Imposed on Would-Be Assassin at Prague

Prague, July 5.—A sentence of 18 years at "severe" penal servitude was imposed today on Joseph Soups, the young anarchist found guilty of shooting with intent to kill Dr. Rasnik, a Minister of Finance. The shooting occurred on January 5th last and the Minister died from his wounds on February 19th.

The sentence also calls for a period of fasting four times in each year—dark cell on anniversary of shooting.

A NEW SCHOOL FOR SHIRETOWN

Plans Under Way In Dalhousie For Erection of Up-to-date Building.

Dalhousie, July 10th.—The regular annual meeting of the Dalhousie Town District was held in one of the departments of the Superior School on Tuesday. There was a good attendance of ratepayers present. Mr. W. A. R. Cragg, was appointed chairman of the meeting. Mr. John B. Delaney, the Secretary of the District, acted as Secretary. The Trustees report as well as the auditor's were approved by the meeting. Auditor paid a high compliment to the Secretary-Treasurer, Mr. Delaney for the way he had handled the accounts, and his successful collection of defaulters dues.

Mr. D. G. Stewart was elected Trustee in place of Mrs. L. D. Jones whose term has expired and who had expressed a wish not to continue. Mr. Delaney holds the position of Secretary, and C. H. LaBillicois was re-appointed auditor.

The meeting having got through with the routine business, the chairman invited the ratepayers to make any suggestions they thought proper for the advancement of education, etc., in the town, whereupon, Mr. G. S. Grimmer took the floor, and expressed the opinion that the time had arrived, when a larger and more modern school building be built in Dalhousie, adding that the present site was not a proper one from many standpoints. Remarks confirming Mr. Grimmer's views were then made by Mr. Cragg, Capt. Charles Powell, Wm. Gallop, S. L. T. Chifford, D. G. Stewart, Murray McKay, C. H. LaBillicois, Gus McKenzie, and others. Upon motion moved by Conductor Gus McKenzie and seconded by C. H. LaBillicois, a committee of seven was appointed, including the three trustees, to take into consideration the selection of a desirable site for a new school building etc., and to report to a meeting to be called at an early date by the Board of Trustees. The following compose the committee: Caleb McNeil, Harry McVoy, D. G. Stewart, Trustees, and W. H. Priest, W. A. R. Cragg, Capt. Charles Powell and Conductor Gus McKenzie.

A grand musical treat for Dalhousie theatre goes on the 17th.

DALHOUSIE TO ERECT NEW UP-TO-DATE SCHOOL

The annual school meeting of the ratepayers of district No. 1, Dalhousie, was held in the school house on Monday morning, with an attendance of twenty-three. W. A. R. Cragg was elected chairman; John B. Delaney, as secretary, made valuable suggestions throughout the meeting, being well experienced in school matters. The trustees report recommended that more accommodation be provided for the greatly increased attendance of pupils both in the primary and in the advanced departments; that, pending the erection of a new building, a suitable building be rented, and an additional teacher be engaged. A committee of four citizens was elected to act with the trustees in ascertaining the cost of a modern school building suitable to the town's need, and also cost of a new site, said committee to report at an early date at a special meeting of the ratepayers called for that purpose by the trustees. The committee elected consisted of W. A. R. Cragg, W. H. Priest, C. Powell and A. H. McKenzie.

Mann's Settlement

Miss Maggie Lyons was the guest of Miss Lily Irvine on Sunday last. Mr. Alex. Irvine has returned to Gaspe Coast to resume his work. Mr. Harry Lyons was a guest at Mann's Settlement last week. Mr. Edward Irvine and Miss Lily Irvine, motored to Lac au Saumon on Monday. Miss Blanche Scott, who has been in Montreal for the past three years returned recently to her home in Hopewell. Her many friends are glad to see her back again.

### QUIET ELECTION ON TUESDAY

Small Vote Polled With McDonald and Moore at Top.

Tuesday was election day in Ward II., to elect councillors to fill the vacancies caused by the resignations of Coma Moore, who resigned as a protest against awarding the paving contract to the Stephens Construction Co., and H. A. Marquis, who also resigned.

As announced last week there were four nominations for the vacancies and in the voting Tuesday the result was as follows—

J. C. McDonald 118  
Jas. E. Moore 112  
J. A. Roy, V. S. 108  
Wm. J. Jamieson 87

The first two named were declared elected.

Very little interest was taken in the election as is clearly evidenced by the small vote polled.

### LARGE CROWD AT S.S. PICNIC

Special Train and Autos Carried Picnickers to Grounds—Fine Outing Enjoyed

The united Sunday School picnic at New Mills on Friday last proved a delightful outing for a large number of people. A special train which left here at nine o'clock carried the picnickers to the grounds and in addition to those who went by rail a large number motored in from different parts of the country during the day.

The weather was not just as pleasant as it might have been but all entered into the spirit of the day and had a royal good time. Bathing in the salt water was indulged in freely and a programme of varied sports carried out during the afternoon.

### BASEBALL PLAYER INJURED

The first accident of the season on the O'Leary field Baseball Diamond occurred last evening during the second half of the first inning in a regular local league game between the Colts and the C. N. R. nine. When F. L. Ross, third baseman on the Colts' squad, dislocated the elbow of his right arm in a collision with Bill Boulay who was racing from second to third. The accident occurred at an exciting moment of play. When F. Roy, on the mound for the railway nine delivered the ball Boulay started for the third sack. Pichette, behind the home pite, threw to Ross and in his effort to grab the pill and tag the runner the third baseman somehow came into violent contact with Boulay who was coming in "in a hurry."

At first it was feared Mr. Ross' injury was a break but on being taken to a doctor it was found that the elbow was dislocated. An X-ray examination showed that there was no fracture so, while very painful the injury is not serious. Baseball fans, however will learn with regret that Mr. Ross will probably not be able to appear on the diamond again this season.

Edna Purviance appears opposite Chaplin in "Pay Day" at the Opera House, on Friday and Saturday.

The world feels better for a laugh and Charlie Chaplin is paying out at overtime rates in "Pay Day" at the Opera House Friday and Saturday.

### RESTIGOUCHE COUNTRY CLUB

Letters patent here have been issued incorporating the Restigouche Country Club, with a capital of \$9900.

H. Brown, professional golfer is in charge of the work on the Golf Course and has employed eight men and teams clearing up and laying the course.

It is expected that the Club House will be commenced shortly.

The committee suggest that all wishing to take lessons would communicate at once with Mr. Brown, who is on the grounds daily. His services have been secured for one month only.

Sherlock Holmes by Sir Conan A. Doyle will be seen here in motion pictures next week.

### BATHURST MAN DROWNED TUESDAY

Hector Leger Lost His Life When Car Went Over Bathurst Bridge.

Bathurst, July 16—Hector W. Leger, son of John F. Leger the widely known proprietor of the Gloucester Hotel, met a tragically sudden death here this afternoon when, following a collision on the bridge which joins Bathurst and West Bathurst, he was pinned under his car and drowned. The accident happened at about midway on the bridge and occurred when the victim of the accident, who was driving a Ford truck belonging to the Provincial Public Works Department, attempted to pass between two teams. His car struck the rear wheel of one of the vehicles, swung sharply round and plunged over the side of the bridge into the harbor turning upside down while in the air and pinning Mr. Leger underneath.

A companion, named Herman Royer, whose home is on Pett Roacher, also went into the water with the car but was able to get clear and with the help of the drivers of the two teams on the bridge, Frank Haggerty, of North Tadoussac and Thomas White, of Ste. Theresa, was able to climb back on the bridge to safety.

These men were unable to raise the submerged car unaided and by the time help was secured from the town and the western side, the car turned over and the body of Mr. Leger released, it was too late. Lengthy efforts of several doctors to resuscitate him.

The body was taken to Elhaton's undertaking rooms where a coroner's jury viewed it this evening and adjourned to meet again tomorrow.

Mr. Royer was suffering from severe cuts on the arm and from shock when he was rescued but after having his wounds treated he was able to proceed to his home.

The sudden and tragic death of Mr. Leger has cast a gloom over this community where the victim was exceptionally well known. He had acted as night clerk at the Gloucester Hotel for some time and about two months ago took a position as time-keeper and storekeeper for the Public Works Department on the Maramich Road.

It was while engaged in these duties today that the accident happened which cost him his life. Deepest sympathy is felt for his widow and the two small children who survive as well as for his parents, Mr. and Mrs. John P. Leger. He also leaves four brothers, Peter J., proprietor of the Opera House; Arthur and Leo, of the Gloucester Hotel staff; and Edmund, at present home from college, and two sisters, Mrs. C. J. Veniot and Mrs. J. A. Alain.

### FORMER LOCAL LADY DIED HERE

Mrs. C. M. Snow Passed Away Early Monday Morning After Lingering Illness

The numerous friends here and elsewhere of Mrs. Snow, wife of Dr. C. M. Snow of Sackville will learn with deep regret of her death which occurred at the Soldiers' Memorial Hospital here on Monday morning at 2:30 o'clock. The late Mrs. Snow, who was formerly Miss Stella MacDonald, eldest daughter of Mrs. James MacDonald of this town, was highly esteemed by all who knew her and her death will be deeply mourned by a host of friends not only in Campbellton but also in Rexton, Moncton and Sackville, where she has resided since her marriage some ten years ago.

The deceased lady who was in her thirty-second year had been in failing health for several months. She was first taken ill about a year ago, her case being diagnosed as sarcoma. Specialists in practically all the leading cities of Canada and the United States were consulted, and in an effort to regain her health, the late Mrs. Snow received special treatment throughout the winter, but all to no avail. At Montreal, on her way home from Boston, she again became seriously ill and a stop over at her mother's home here was arranged with the hope that she would soon recover sufficiently to proceed to her home in Sackville where she was anxious to be with her family. She recovered somewhat but on the eve of her departure suffered another severe relapse which necessitated her confinement to the hospital here. Skilled medical treatment, careful nursing and the devoted attention of her family and friends contrived to lighten and cheer her patient hours of suffering but were powerless to avert her death.

The late Mrs. Snow leaves to mourn the loss of a kind and devoted wife and mother, a bereaved husband and three small children, Frances, Claire and James. She is also survived by her mother, eight brothers and one sister. The brothers are Clifford, Wesley, Frederick, Ronald, George, Howard, Burns and Bruce and the sister is Nita, all at home. To the bereaved family and relatives the heartfelt sympathy of the community is extended in the loss of their loved one.

The funeral services were held yesterday afternoon at 2:30 o'clock from the residence of the late Mrs. Snow's mother and were very largely attended, the Rev. W. Camp officiating. The floral tributes, which were many and beautiful, attested to the general high esteem in which the deceased lady was held.

### FUNERAL OF LATE JOHN DEVEREAUX

Services Held Last Thursday Were Largely Attended—Many Floral Tributes.

The funeral of the late John Devereaux was held on Thursday afternoon of last week at 2:30 o'clock. The Rev. F. E. Boothroyd of Wesley Methodist church officiated and a large number of friends and acquaintances from far and near attended to pay their last tribute of respect to one who was well and favorably known throughout this part of the country.

The funeral services were most impressive. A solo of "Life's Railway to Heaven" was splendidly rendered by Mr. John Cuthbertson and the Wesley church choir led in the singing of the hymns "Thy Way, Not Mine Oh Lord" and "Abide With Me."

The pall-bearers all intimate friends of the deceased were: Messrs. James Thompson, M. Pratt, J. F. Goss, W. Harvey, J. Reid, and W. Anderson (New Carlisle).

Below is a list of the floral tributes which were varied and beautiful.

Wreaths—Gladys and Wesley, G. E. Turner, Misses Astle, G. I. A. to B. of L., Rebekah Lodge, Trustees and members of Methodist Church, C. R. Q. & O. Ry., Maintenance of Ways, I. O. O. F., B. of L. F. and E. B. of L. E. Mr. and Mrs. W. H. Gray, I. O. of M., Orange Lodge.

Sprays—Mr. and Mrs. S. R. Shirley and family, Dr. C. J. Veniot, Jessie and Gladys, Mr. and Mrs. John Dennis, Mr. and Mrs. Robt. Fawcett, Mr. and Mrs. J. Gilker, Elizabeth Duncan, Mr. and Mrs. Robt. McKenzie and family, Mr. and Mrs. W. Sunderland.

Cut Flowers—Mrs. S. H. Lingley.

Pillow—The family.

### OBITUARY

**Delia Pelletier**  
The little community of Selwood was plunged into deep mourning last week, July 5th, when Delia Pelletier, daughter of Mr. and Mrs. Arthur Pelletier, of this place was called to her rest. She died at her home on Thursday night at 9 o'clock, after having suffered over five months. She was twenty-one years of age and was loved by all who knew her. She leaves to mourn her loss a loving father and mother, several brothers and sisters, also a host of friends who will never forget her.

The funeral service was held at St. Xavier Church, Charlottetown, where she was laid to rest on Saturday morning at half past eight. A large procession followed her from her home to her last resting place and the church was crowded.

She has just left this world for another better where all of us will meet some day. We cannot do more for her than to pray for repose of her soul and console the ones most dear to her who she has left behind.

To her grief stricken family we offer our most profound sympathy.—Cor.

**BAND CONCERT**  
The local band gave another concert at Riverside Park last night. Owing to the evening being rather cool only a small crowd attended. The band however is improving rapidly and Campbellton should pride itself on having such an aggregation of talented instrumentalists. A little more enthusiastic patronage on the part of citizens generally would not be amiss.

### TWO INJURED WHEN STOVE EXPLODES

Ray Matthews and Little Two-Year-Old Son Painfully Burned Tuesday Night.

Ray Matthews, well known locally and throughout the province as one of Campbellton's best hockey players, and his little two year old son, Everett narrowly escaped serious injuries early Tuesday evening when a gas-line stove, used for summer cooking exploded in the Matthew's home. The fire caught in the child's clothing but Mr. Matthews at once rolled the little fellow in a blanket and smothered the flames. His own clothing caught fire and also the walls of the kitchen but with the use of an extinguisher the blaze was put out before it had made much progress.

The child was badly burned about the body, face and hands, while Mr. Matthews both hands were painfully burned as well as his shoulders, neck and face. A doctor was called in and dressed the injuries which were discovered to be not serious. Both Mr. Matthews and his son are reported today as resting comfortably.

The greatest detective stories are Sherlock Holmes!

SALE! SALE!  
S. Rosenhek is advertising a Special Sale, beginning Saturday, July 14th. Don't miss this!

Extraordinary!—that fits "The Four Seasons" which is being shown at the Opera House on Friday and Saturday.

**NEW REBEKAH OFFICERS**  
At a regular meeting of Northern Light Rebekah Lodge, No. 77, held last evening the following officers; were installed for the ensuing year:  
N. G.—Mrs. Elizabeth Weir.  
V. G.—Miss Hazel Quinn.  
R. S.—Miss Ethel Love.  
F. S.—Mrs. Flora Moores.  
Treas.—Miss Marguerite Sullivan.  
Warden—Mrs. Hilba MacDonald.  
Conductor—Mrs. Jean Matthews.  
Chaplain—Mrs. Daisy Keith.  
R. S. N. G.—Mrs. Annie Ward.  
L. S. N. G.—Mrs. Stella Hamilton.  
R. S. V. G.—Mrs. M. A. Gilker.  
L. S. V. G.—Miss Blanche Crockett.  
I. G.—Mrs. M. Campbell.  
O. G.—Mrs. A. Mundie.

### PILE OF LUMBER ON MIRAMICHI BURNED; STRIKE HOLDS SHIP

Newcastle, N. B., July 10—A slight blaze in the Fraser Companies mill-pond at Chatham Head caused some excitement early this evening. When first discovered the flames were mounting from a deal pile just a short distance behind the office building. Fortunately a good force of water was available and the flames were extinguished with the loss of only one pile of lumber.

The strike of the Longshoremen on the Miramichi has tied up the loading of the steamer now at Fraser's wharf. No settlement is in sight at present.

Many, many are the wonders of nature and this is ably proven in "The Four Seasons" at the Opera House on Friday and Saturday.

**THE SALMON AND ITS CURIOUS WAYS**

Will Always Return to River of Its Birth—Can Jump Falls.

Washington, D. C.—Silver tags have been attached to the dorsal fins of numerous salmon hatched in Canadian waters, according to dispatches from Ottawa, in an effort to trace their wanderings and to fathom some of the unsolved mysteries in the lives of these important fishes.

Some of the queer traits of salmon, known to few of the millions who eat these fish from tin cans, are told in a bulletin from the Washington, D. C., headquarters of the National Geographic Society. The bulletin quotes Robert F. Griggs, who in his book, "The Valley of Ten Thousand Smokes," tells of finding a run of salmon in a partially ash-choked stream in the heart of a region devastated by the great eruption of Katmai volcano in Alaska. The observations were part of a comprehensive scientific study of the region made under the auspices of the National Geographic Society.

"Everywhere we kept a sharp lookout for salmon," says Dr. Griggs, "but found none until 1917," when he discovered one little brook in which red salmon were running in considerable numbers. This stream did not appear different from a score of others which coursed down the mountain side to join Katmai river. But although we could find no fish in any of the other streams, we caught them here almost every time we came by taking altogether about fifty in the course of a month.

"Readers unfamiliar with the spawning habits of the salmon may be surprised to learn that fish two feet long could be found in a stream only a few inches deep; but the initiated will recognize that there is nothing unusual in such an occurrence. It is well known that some species of salmon work their way up into brooks so shallow that their backs stick out before they deposit their eggs."

Commenting further on the remarkable "homing instinct" of salmon, especially the sockeye, Dr. Griggs wrote:

"At Brooks Fall in the outlet from the lake of the same name, at the proper season one may watch the salmon as they jump clear of the water and ascend the falls. Here we stood for hours, held by the fascination of one of the most wonderful sights afforded by the animal kingdom, as the endless procession of fish kept leaping high in the air, up and over the falls. 'Never did a second elapse between jumps. Sometimes as many as six fish were in the air at once. The jump appeared to require their full powers; none made the attempt except at the lowest notch in the fall and none jumped clear over in a way to suggest that they could have gone

**DENIES STORY OF EARLY ELECTION**

No Preparation for an Election or for Referendum on Liquor Question

St. John, July 9.—Hon. P. J. Veniot, interviewed over the long distance telephone last evening emphatically denied the truth of a report emanating from Fredericton over the weekend that preparations were being made for a general provincial election in September. "The story is manufactured out of cloth," said Hon. Mr. Veniot. "It is absolutely without foundation in fact. No mention of this nature has even been contemplated."

The story, which was published in a Fredericton paper, says that the information comes from "usually well-informed and authentic" sources. The story says that the Government would ask a mandate from the people to go on with the hydro development at Grand Falls, and it intimates that prohibition may also be an issue. It suggests that a referendum on the liquor question is being considered. Other prominent members of the Government were equally emphatic in their comment on the report. Former Premier Foster declared it "There is nothing to it," was Hon. Dr. Foster's terse comment.

Hon. Dr. W. F. Roberts, Minister of Health, said in regard to the report: "There is absolutely nothing to it. I attended a Government meeting last week and if there had been any announcement regarding an election this fall, it would have been mooted at that time. It is, I believe, the farthest east thing in the mind of the Premier to hold an election this fall."

**The Brute!**  
"My husband has no sentiment."  
"How dreadful!"  
"Yes. I can cry for hours without getting a penny out of him."

much higher if necessary. Many of the lads were so wide of the mark as to give the impression that they were not serious attempts, but rather in the nature of reconnaissances—efforts to learn the best place for the ascent. Often the fish struck themselves on the sharp rocks. Among those below the falls were many terribly lacerated by such accidents—so far gone that there was little probability of their ever succeeding in the leap.

"Perhaps the most interesting feature of the whole performance is the instinct that urges the salmon over the falls. How can they tell that there is another lake above? Yet by some means they are unerringly guided to the outlets of lakes above, for they do not run to other streams. Why should they seek the upper lake, when the waters they have just passed through would serve as well, as is attested by the fact that they are perfectly satisfactory to other thousands of their brethren?"

"Prof. C. H. Gilbert, of Stanford University, who knows the habits of the salmon better than anyone else, tells me there is good evidence that the individual salmon returns to the particular water in which it was hatched. As indicated by the anomalous run observed in a tributary of Katmai river they are apparently able to find not merely the same general locality, but by some instinct are guided back to the particular spot where they began life. The mysterious sense by which they choose their way among waters apparently indistinguishable is quite incomprehensible to us.

"If, like the bird migrations, it were a journey undertaken every year during the life of the fish, it would not be so remarkable, for the old fish could teach the young the path. But the salmon make the trip only once, at the end of their allotted span. When they have spawned they turn over and die, leaving windrows of rotting carcasses on the shore.

**Eggs Must be Sold According To Grade, Beginning Monday**

Middlemen Protesting Vigorously, But the Department Has Decreed That the Law Must Be Carried Out and in Force at Time Arranged For

The department officials, have been pressing for a compulsory grading of eggs for several years in the interests of the consumer because each grade call for eggs of a clearly defined quality. The housewife in future is protected from unsatisfactory results in the purchase of eggs and at the same time may secure full value for her money.

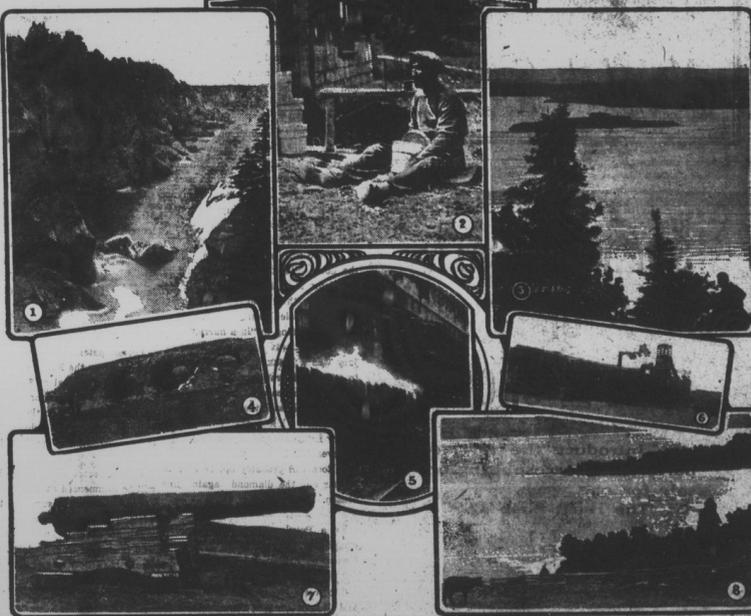

Under existing regulations, eggs are graded as follows: Specials—These are eggs of a uniform size weighing 25 ounces to the dozen and over, clean and free from stain and are strong and sound in shell. Extras—Eggs reasonably uniform in size, weighing at least 24 ounces to the dozen, reasonably clean and strong and sound in shell. There is a possibility that this class and specials will be merged and the new class called extras.

**IRENE CASTLE DASHING FIGURE IN BROADWAY**  
Dancer Now Suing For Divorce—First Husband Was Killed in Airplane Accident

New York, July 7.—Irene Castle, dancer, who has filed suit for divorce in Paris, has been one of the most dashing figures along the great white road. Besides creating many new dances, she has been credited with introducing the fad of bobbed hair. Her clothes and footwear at one time verging on the Russian have attracted attention in the mind of the Premier.

Robert Elias Treman, whom she now seeks to divorce, is the son of Mr. and Mrs. Robert H. Treman of Ithaca, N. Y., socially and financially prominent. Treman, who is a director of the Treman-King Company, manufacturer of automobile accessories and hardware, was graduated from Cornell University in 1909 and during the war served as a captain in the A. E. F. He is 34 years old.

**Cape Breton Island - The Front Door of Canada**

There are few spots in Canada with greater romantic history than Cape Breton Island, through which the Sydney and return, members of the Canadian Weekly Press Association travelled recently upon the Canadian National Railway.

Before Columbus discovered America, Basque and Breton fishermen explored its harbors and there are many traces which indicate that as far back as 1,000 A.D. the venture was made.

When Shakespeare was writing his plays there were more than 200 English vessels fishing off the Cape Breton coast and French and Spanish fishermen had their recognized harbors along the coast.

In the sheltered cove along the coast salt water lakes, privities and settlements of men, worked for months of the year, the remains of the vast fisheries are still able to tell their tale of the valiant past.

Louisbourg is the historical center of Cape Breton. Its erection cost more than \$25,000,000 in current valuation of money, and although it was commenced in 1720 it was not until 20 years later that it was completed in Gloucester, fourteen miles from Sydney.

Sydney's are three towns, namely Sydney, North Sydney and Sydney Mines. An important town which can lay claim to be within the district is Gloucester, fourteen miles from Sydney.

Sydney is the principal city of the island. It is the eastern terminus of the Canadian National Railway and a sea port of importance. It is the center of the steel making industry of the Dominion, and around it is situated the greatest coal mines in North America. The industry is one which is growing in importance every year and one which contains unlimited possibilities, there being uncovered as yet a huge subterranean coal field under the strata which comprise Cape Breton from Newfoundland.

Access to all points of interest and entertainment is made easy by the Canadian National Railway. There is an abundance of fine trout and salmon fishing as well as small game hunting.

Much of the route lies along the borders of the famous Bras d'Or, the great inland salt water lake of Cape Breton. The Bras d'Or waters have a surface area of 450 square miles, the width varying from less than a mile to 20 miles. In 1857, some 100,000 sheep were taken at a depth of 700 feet in one part of Liddle Bras d'Or. The length of these lakes is about fifty miles. Its waters being sheltered part by hills of great beauty. About its length it expands into bays, inlets and romantic harbors, while picturesque islands dot its surface, singly and in fairy clusters. Among the aspects of country fishing is common, sailing lanes; all is tended to bring upon the shores the strips of loosed pleasure. Every variety of landscape meets the eye and the scenes are never repeated. The scenery along the Bras d'Or route of the Canadian National Railway is unquestionably one of the most diversified and beautiful in the Dominion.

**WANT SEEDS FOR N.B. FIRE VICTIMS**

Dominion Government Willing to Help But Says Too Late to Sow Seed

Ottawa, July 5.—Many farmers in Restigouche County, N. B., lost heavily as a result of the forest fires. Not only their timber but also their crops were destroyed, and a request has reached the Department of Agriculture for that district, on behalf of the unfortunate farmers, for a large quantity of clover and timothy seed. The Government is ready to loan seed assistance to the victims of the fires, but is pointed out that this is much too late in the season to attempt to get any results from sowing such seed.

**SENATOR THORNE DEAD**  
Senator W. H. Thorne, president of W. H. Thorne & Co., Ltd., St. John, who has been sick in the Montreal General Hospital for the last few weeks, passed away at 1 o'clock Sunday morning. Hon. Mr. Thorne was one of the outstanding figures in commercial circles in eastern Canada and was well known throughout the Dominion. He had a wide circle of friends.

**POINCARÉ A WORKER**  
French Premier Sends Word to Official They Must Work Five Hours a Day

Paris, July 7.—The staff of the Foreign Office here received a severe jolt when a circular written, signed and sent out by Premier Poincaré in person, who also holds the Foreign Affairs portfolio, reminded all of them that five hours' effective work at the Ministry should be their daily stint. Old habits and traditions were thus dealt a low blow, for the majority of employees always have spured any set routine. But none can say today that they haven't a good exemplar in the hardest worker at the Quai d'Orsay. Both Treman and the dancer d'Orsay and certainly one of the first to return to this country, with their finances depleted and with Irene's wardrobe sadly reduced, when they were invited to the Cafe de Paris. There their dancing attracted so much attention that offers followed until the couple became leaders in the world of dancing. They were credited with having introduced the Tango, maxixe and many other steps in America and Europe.

**U. S. MAY CUT LUMBER DUTIES**

New Brunswick and British Columbia Export Trade Will Benefit

Washington, July 7.—As a result of an investigation ordered by the United States tariff commission, into the duty on logs of fir, spruce, cedar or western hemlock, the duty may be cut fifty per cent. The present duty is one dollar per thousand feet board measure. A reduction would be an advantage to the export trade of New Brunswick and British Columbia.

Paragraph 401 of the United States tariff act provides that the one dollar duty shall apply only when the country of export imposes an embargo or restriction of some nature. It is under the paragraph that the commission has ordered an investigation. The Tariff Commission has applied the full duty to logs from British Columbia and from Brunswick, with certain exceptions.

A number of United States concerns which own stamper in British Columbia have asked the investigation and hope to secure the 50 per cent reduction in the duty.

**UNIFORM GAME LAWS FOR CANADA**

Washington, July 8.—Uniform game laws for all the provinces of the Dominion will likely result from a conference held here last Friday and Saturday, according to an announcement made today. The conference was attended by representatives from the provincial and federal Governments.

**THE CAMPBELLTON**

**UNIFORM GAME LAWS FOR CANADA**

Winnipeg, July 9.—Uniform game laws for all the provinces of the Dominion will likely result from a conference held here last Friday and Saturday, according to an announcement made today. The conference was attended by representatives from the provincial and federal Governments.

A uniform open and closed season throughout Canada was advocated and M. B. Jackson, chairman of the British Columbia game commission, was appointed to draft a schedule of seasons which would be suitable for all provinces. A standard method of identifying and marking birds and the banishment of poison in killing fur bearing animals, with the exception of timber wolves, which may be poisoned

by Government experts, were discussed, and recommendations will be placed before the Government representatives. It also was decided to recommend the prohibition of game meat marketing.

That was a nice three bagger that Pete pretty near had.

**C.P.R. TRAIN MAKES REMARKABLE RUN**

Covers the Distance From Winnipeg to Quebec in About 36 Hours.

Montreal, July 10.—A remarkable run between Winnipeg and Quebec was made over the week end by a Canadian Pacific special train, which covered the distance from Winnipeg to Quebec in a little over 36 hours. The regular running time between the two points is about 52 hours. Thirty-seven passengers and 500 bags of mail en route from the Orient to Europe were held up in the Rockies and stood a good chance of missing the Empress of Scotland, upon which they were due to leave Quebec. The Empress was held, however, and the entire party embarked well before midnight Saturday.

The special train was made up of one baggage, one tourist, one standard sleeper, one dining and three compartment cars. The passengers had arrived at Vancouver on board the Empress of Russia and were taking advantage of the Canadian Pacific 21 day Orient to Europe service.

**QUEBEC'S SURPLUS WILL EXCEED A MILLION DOLLARS**

Montreal, July 10.—The surplus of the province for the fiscal year that has just closed on June 30, will certainly exceed \$1,000,000 is the statement credited to Hon. Jacob Nicol, Provincial Treasurer, in an interview with Le Canada. He refrained from comment when asked if \$2,000,000 would be nearer the mark.

The report of the liquor commission will be made known in a few days and in his connection the provincial treasurer intimated that the operations of the commission had been increased since the preceding year.

**SMALLER CROPS THAN LAST YEAR IN U. S. LIKELY**

Washington, July 10.—Smaller crops than last year were indicated in the July forecast of the department of agriculture, issued yesterday for wheat, corn, rye, white and sweet potatoes, rice, hay, apples and peaches. A tobacco crop 100,000,000 pounds larger than last year and a large production of oats, barley and flax seed were indicated.

**Sporting News of the Week**

**C. N. R. Defeats High School Boys**

Last Wednesday's fixture in the local league between the C. N. R. and C. H. S. which was postponed until Thursday night was productive of some good baseball. Neither team did much heavy slugging but both the infielders and outfielders contributed some nice playing to what was an interesting match. The game was called at the seventh inning and the score board then showed a win for the railway nine of 6 to 2.

The C. N. R. were first at bat but failed to get a man around the circuit until the third inning when three runners circled the bases. This was followed by three more runs in the fourth section and this gave the railway squad a six score lead as the High School boys did not notch up a single score until the sixth inning, adding another in the closing section.

Wetmore and Steeves did the twirling for the C. H. S. team while L. Jamieson did good work behind the plate. The remainder of the team played good ball but did not seem to find Roy with any regularity while at bat.

Tossing the pill for the C. N. R., F. Roy did some exceptionally snappy work making a possible record on the mound in local baseball with a total of 16 strike-outs.

The contest was not very fast at quarters and took about an hour and a quarter. Love and Duncan umpired the match.

The line-up:

C. N. R. F. Roy p. L. Pichette c. R. Lavoie 1. W. Boulay 2. C. Duncan 3. A. Lloyd ss. A. Roy lf. G. Comeau cf. S. Kelly rf.

C. H. S. F. Steeves p. L. Jamieson c. R. McLean 1. J. Howard 2. L. Wetmore 3. J. Murray ss. D. Murray lf. W. Miller cf. H. Jamieson rf.

**Cubs Beat Colts In One Sided Game**

Last Friday's game between the Cubs and the Colts was not what it might have been. The play was pretty fast at times but was rather loose on the whole resulting in a score of 15 to 8 in favor of the Cubs. Both teams contributed an abundance of errors.

The Cubs, first at bat, did all their scoring in the first three sections starting off with two seven score innings and notching up the fifteenth run in the third. The Colts brought one man home in their half of the first but failed to score again until the fifth section when two men circled the bases. Consequently the match was not very interesting. In the sixth and last inning the Cubs rallied somewhat and chalked up five runs but this comeback was staged too late in the proceedings to turn the tables. Neither Sanson or Dickie, pitching for the Colts and Cubs respectively did any spectacular work. The other players did some fairly good work but their efforts did not seem very effective.

Both squads need some careful coaching.

The line-up follows:

Cubs: R. Dickie p. G. Graham c. A. Jardine 1. E. Murray 2. W. Ferguson 3. P. McKenzie ss. G. Wilkie lf. C. Dunham cf. W. Cyr rf. Messrs. A. Troy and Art Roy umpired the game. Time—45 mins.

Colts: P. Sanson p. W. Perch c. R. M. Raymond 1. W. McDonald 2. F. Ross 3. W. Dobson ss. A. Isaac lf. A. Dobson c. E. Duncan rf. W. Cyr rf.

Strike Outs—Dickie 3, Sanson 3, McKenzie 2, Ross 2.

Umpires: E. Love and A. Roy. Time: 1 hour, 10 minutes.

**C. H. S. Wins Shutout Game From Cubs**

The High School squad added another win to their list of victories when on Monday night they defeated the Cubs in the first shutout game of the season. Despite the fact that the game ended 4-0 it was an interesting match and was probably the best exhibition of baseball seen here this season. No heavy hitting was done but the play throughout was fast and snappy. McClusky on the mound for the winners was in good form totaling five strikeouts in four innings. Dickie, twirling for the Cubs delivered an equally good brand of ball. The outfielders did not have much work to do but at times the infield was practically airtight.

The line up follows:

C. H. S. H. McClusky p. L. Jamieson c. R. McLean 1. J. Howard 2. R. Matthews 3. J. Murray ss. L. Wetmore lf. W. Miller cf. D. Murray rf. Messrs. A. Troy and Art Roy umpired the game. Time—45 mins.

**Students and Baseball**

Owen Carroll, a student at Holy Cross College who has attained a reputation as a baseball pitcher, has refused an offer of \$10,000 from the Pittsburg Club for the National League to finish the season with that team. He is studying for the priesthood. Similar offers have been declined this year by other college men, and the big league officials are puzzled. One of them has been asking if the diamond is losing its lure. The baseball scouts that never before were there so many prospects in college circles, and they cannot understand why it is the students refuse such tempting offers from baseball magnates.

**HEARD FROM THE BLEACHERS**

A pitcher should be suspended when he hits a man in the stomach. Murray seems to be acquiring a new style since that trip to New York. Here's the hat coming. Watch that fellow with the \$5.00 straw hat shell out a nickel. Sport ruins a lot of people doesn't it. Jamieson in right field there seems to play better after sun down. Darkness seems to sharpen his wits. Funny isn't it? Bill doesn't play the game at night that he plays in the daytime. What's the fellow dreaming about on third there. Must be a girl climbing the Sugarloaf. He's been gazing in that direction for the last five minutes.

**BARGAINS FOR ALL**

S. Rosenhek of the big brick store is advertising BARGAINS. You know the rest.

**Fredericton Wins From Moncton, 5-1**

Fredericton, July 10.—Fredericton and Moncton breezed through a spirited nine inning game in the International Independent Baseball League last evening, Fredericton winning by a score of a 5 to 1. The game was fast and full of life, one hour and seven minutes only being required to complete the full nine innings. Both pitchers had good control, there not being a batsman passed or hit by a pitched ball.

Fredericton bunched seven hits of their ten hits off Dickie, the Moncton hurler, in the first and fourth innings, while "Facky" Noonan kept Moncton's eight safeties well scattered, except in the third inning when three hits and a sacrifice gave the visitors their only run and only a sensational stop and throw by McCourt, playing shortstop for Fredericton, killed off the rally.

A couple of circus catches by "Dauber" Paynter, in right field, a fine night's work by Chris Young, playing shortstop for Moncton, and a catch of a line drive by Jack Godfrey, the visitor's centrefielder, together with the first basing of Dick Casey, the Moncton captain, featured the game.

**MORE SNAPS OR SHOPPERS**

The Old Reliable S. Rosenhek is Now to the Front Again.

July is the time for sales. Those who are ready and prepared to take advantage of them.

Always keeping the best interests of his customers in view Mr. S. Rosenhek of the big brick store is this week advertising a Special Sale. And this is a special sale. A number of such sales have lately been advertised, but this is the best of them all.

You will find the prices cut closer, the goods better quality than ever offered in this town for some years.

Be sure and give S. Rosenhek a call, and you will not be disappointed. Sale starts Saturday, July 14th.

**S. MAY CUT LUMBER DUTIES**

Branswick and British Columbia Export Trade Will Benefit.

Washington, July 10.—As a result of investigation ordered by the United States tariff commission, into the duty on logs of fir, spruce, cedar or stern hemlock, the duty may be cut 5 per cent. The present duty is 1 dollar per thousand feet board measure. A reduction would be an advantage to the export trade of New Brunswick and British Columbia.

**POINCARÉ A WORKER**

French Premier Sends Word to Officials They Must Work Five Hours a Day.

Paris, July 7.—The staff of the Foreign Office here received a severe jolt when a circular written, signed and sent out by Premier Poincaré in person, who also holds the Foreign Affairs portfolio, reminded all of them that five hours' effective work at the ministry should be their daily stint. Old habits and traditions were thus salt a fell blow, for the majority of employees always have spurned any set routine. But none can say today that they haven't a good exemplar in L. Poincaré, who himself is perhaps the hardest worker at the Quai d'Orsay and certainly one of the best in the job in the morning.

**f Canada**

—One view of the Bras d'Or Lakes, which show their typical "PO" LAKE.

—Much of the route lies along the borders of the far-famed Bras d'Or. The great inland salt water lake of Cape Breton. The Bras d'Or waters have a surface area of 450 square miles, the width varying from less than a mile to 20 miles. 50,000 acres the "Bras d'Or" soundings have been taken at a depth of 100 feet in one part of Little Bras d'Or. The length of these lakes is about 100 miles. The waters being sheltered

part by hills of great height, along its length it expands into bays, inlets and romantic havens, while the numerous islands dot its surface, rocky and in fair places. Along this stretch of country nothing is common, nothing tame; all is bound to bring upon the emotions the strange of human pleasure. Every variety of landscape meets the eye and the season is never wasted. The scenery along the Bras d'Or route of the Canadian National Railway is unquestionably one of the most diversified and beautiful in the Dominion.

**CROWDED TRAINS.**  
The fact that the railroads and the steamship service are bringing large numbers of people here every day from the United States is very gratifying. It is very regrettable, however, to learn that after these tourists and Canadians returning for their holidays reach St. John, they are herded like cattle into crowded trains. The cars on certain trains leaving here for other points in the Maritime Provinces and for upper Canada have been so crowded recently that many have had to stand up in the aisles for a considerable portion of long journeys. This is a condition which should be remedied immediately. Apart from the fact that when passengers on railroads pay their fares they are entitled to seats, there is the knowledge that such a condition engenders real and lasting dissatisfaction, with the offending railroad, with the officials and with the country in general. Any body who has had to stand for even a comparatively short journey in a hot,

stuffy train, does not need to exercise his imagination to realize just how much harm such a condition, if at all general, may do the tourist business of the province.

Apart from the fact that those, particularly afflicted, generally take a solemn vow that never again will they travel by a route which has caused them so much discomfort, there is also the very bad advertising which they can do for the offending railroad and the provinces. Most people are likely to forget to tell of the little attentions and the comforts of a train trip—there is little enjoyment for most in such a trip under the best of circumstances but few neglect to tell all their friends and acquaintances about the discomforts. It is quite right to devote our attention to the problem of increasing the tourist automobile traffic to this province, but in doing so we should not neglect the much greater traffic which we already have by train. The automobile tourist probably means more money in the pockets of our hotel keepers and merchants, but the train traveller often stays for a longer time and he, too, is worth money to the province. By not looking after their comforts the railroads are not only hurting themselves, but also the entire country which they serve. We realize the difficulties. Trains are made up in the regular way with a stated number of cars and if the traffic happens to be a great deal heavier than was anticipated, the travellers must suffer. But in a season such as this there should not only be extra cars but extra trains to look after the traffic. Experience should make railroad officials acquainted with those periods when the traffic is heavier and provision should be made to look after it.—Journal.

Sherlock Holmes will be here next week!

## DEPLETION OF OUR LUMBER SUPPLY

During the recent debate in Parliament over the proposal to stop the exportation of pulpwood, one of the honourable members, speaking in opposition, said that he viewed with alarm the loss of the American market for the pulpwood cut by the settlers. Apparently, however, he was NO CAUSE FOR ALARM in the fact that these same settlers, by carelessness in burning their refuse, are destroying millions of dollars' worth of raw material which might otherwise be utilized by our great wood-using industries, (second only in importance to agriculture itself), to say nothing of the losses they are inflicting on themselves and their fellow-settlers in the destruction of their homes and other property.

NO CAUSE FOR ALARM in the fact that Canada, by allowing foreigners to exploit its raw pulpwood, is supplying fifty or more foreign pulp and paper mills, in competition with our own, with cheap raw material and that Canadian workers are being thereby forced to follow the raw material out of the country in order to find employment in its conversion.

NO CAUSE FOR ALARM in the fact that we have already this year sustained the greatest forest fire losses in Canada's history, with the possibility of having the whole of the northern forest area of Ontario, Quebec and New Brunswick completely devastated before the year is over.

NO CAUSE FOR ALARM in the fact that our losses from forest fires this year, due entirely to forest devastation, have exceeded anything before recorded.

NO CAUSE FOR ALARM in the fact that our agricultural industry itself is menaced by the condition that is fast approaching and that threatens to turn our crop-growing lands into vast deserts.—Extract F. J. Barnum's letter.

**THE PULPWOOD EMBARGO.**  
An exchange says: "Now that the resolution authorizing the Government to put the embargo on pulpwood in force has been passed, there is no reason why this could not be done at once. A commission to investigate the matter would be more in the nature of the justification committee than one for the purpose of investigation. Such a commission would supply the data concerning the pulpwood supply of Canada, the probable development of the paper industry and the facts and figures to support the action of the Government should there be a demand for the removal of the embargo in the future. It is well to have this information on file, but there is no necessity to postpone the enforcement of a very excellent piece of legislation until it is acquired."

The students writing the Matriculation, High School leaving and Normal School entrance examinations completed their task last week. The results will be announced in about a month.

**FOR PARTRIDGE.**  
An open season for shooting partridge during the month of October has been approved by the Provincial Government for 1923.  
This is in line with similar short open seasons for partridge hunting during the past several years, after there has been a complete prohibition in effect for some years.

**ARE INTERESTED.**  
Motorists from thirty-six States of the Union have written the Tourist Bureau of Montreal this year for information regarding Canada. The number of inquiries daily reaching the office, said J. A. McInnes, secretary, was anywhere from 25 to 150. He estimated that at least 125,000 automobiles would come into the country this year.

**THANKS.**  
To the Ratepayers of Ward II. Ladies and Gentlemen:  
We wish to thank you for the handsome vote cast for us in the election held on Tuesday. Although we did not lead the poll we are grateful for your votes.  
Yours very truly,  
J. A. BOY, V. E.  
WM. JAMIESON.

### LIVING A YEAR IN AN HOUR

But Only Growing One Hour Older

"THE FOUR SEASONS" is exactly what its title implies. It is a feature photoplay in four reels that tells a year's story of nature. To see it, is living a year in an hour.

The story opens in the spring with the first breath of animal and plant life and continues throughout the year carrying nature's character of spring through the seasons of summer, autumn, and winter.

In the early part of the year, when the trees are budding, when the sun brings the frost out of the ground and the woodchuck wakes from his winter's nap, an amusing thing happens to the majestic buck deer. His spreading antlers grow weaker and weaker at the base until the day comes when they topple from his head. The fawn is born shortly after, and the buck deer, with the meekness of a rabbit, becomes the family man instead of a warrior.

Summer comes on. The trees are in full bloom, the birds are hunting food for their young, tiny cub bear cubs frolic through the woods and the deer starts to sport a new set of antlers. The first growth of the horns is room-like in appearance, but it increases at the rate of half an inch a day until late in summer the antlers are nearly half their original size.

Autumn is the mournful season out of doors. The birds are in flight for the south and the small furred animals are busy in preparation for the winter. The fields and trees turn brown and golden and the hibernating animals are enlarging their winter tunnels.

The buck's horns have now nearly reached their full size, but they are encased in a soft, moss-like substance. The tadpoles of early spring are full-fledged bull frogs and the caterpillar of the winter before is now a beautiful butterfly, soon to perish in the cold of approaching winter.

The season of winter deals largely with the lives of the animals in the cold and snow. Tiny flakes of snow magnified many times their size show them to be more beautiful in their construction than jewels. This is a chapter of the cycle that shows the hibernating animals deep in their winter sleep. The buck deer's spreading antlers have reached their full spread. The protecting covering has worn away and the buck is once more a warrior. The tiny jack rabbit, a drab brown in summer and autumn, is now dressed in a coat of fluffy white.

There are hardships pictured for the tiny people of the woods who have not prepared their winter homes. Squirrels are scurrying for a new food supply to replace the stores stolen by larger animals, while the birds that have not flown south are dismayed at the covering of white that baffles them in their search for grubs and seed. Storms rage and huge drifts

of snow cover the scoping places of the bear, the woodchuck and the mountain rattle.

With the world thus buried under drifts of snow and ice, the cycle of the four seasons is brought to a close. Sharp trees are lashed by winter gale streams are frozen and all the world is quiet waiting for the first breath of early spring to renew the cycle of life and progress through the next four seasons.

**OBITUARY.**  
Mrs. James Woods.  
The death of Mrs. James Woods widow of the late James Woods took place at her home here Sunday evening after an illness of some months, aged 85 years.

Deceased was born at Miramichi, and is survived by one son James of this town, two brothers, Matthew Carroll of Nelson and Fenton Carroll of Chatham, and two sisters, Mrs. Timothy McCarthy of Barabuy River, and Miss Annie Carroll of Nelson.

The funeral was held Tuesday morning, and was largely attended. The services were conducted by Rev. Fr. Sivest. (Miramichi Papers Please Copy.)

The face, the walk and the antics may be the same; but the laughs are different and the story is new in "Pay Day" with Chas. Chaplin at the Opera House Friday and Saturday.

### Mrs. Roberge Gained 35 lbs. Taking Tanlac

"I've gained thirty-five pounds by taking Tanlac and just think it's the greatest medicine in the world," declared Mrs. Caroline Roberge, highly esteemed resident of 224 Prince Edward St., Quebec.

"For the past two years I suffered from a bad case of indigestion. I had no appetite at all, my stomach was always sour and I had a bad taste in my mouth all the time. Nothing I ate would agree with me, and I was so weak and dizzy all the time it seemed that I had no energy at all.

"Well, Tanlac was the first medicine that did me any good, and it sure has been wonderful for me. I am eating as much as anybody, everything digests perfectly, never suffer from sour stomach any more, and my strength and energy have come back so completely I just feel fine in every way. Tanlac is simply grand."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

### YOUTH ACCUSED BY GIRL BATTLES POLICE.

Admits He Spoke to Young Woman, Throws Patrolman's Club Into River and Squares for Action

New York, July 7.—A pretty young woman, who was among the sightseers at the steamship Leviathan at pier 86, West Forty-sixth street, approached Patrolman Stark at the entrance, sobbing, and said she had been insulted by a young man across twelfth avenue. She pointed out a youth more than six feet tall, who afterward described himself as Leonard Moss, a sailor of Newport News, Va., at present on vacation from the Baldwin Locomotive Works, where he is employed.

"Yes, I spoke to her," he admitted when Stark questioned him. "She's pretty and I told her so. What of it?"

And without waiting for a reply, he snatched the policeman's club and

threw it into the Hudson with a splash. The fight began. Stark is some five inches shorter than Moss, but is clever with his fists and scores of those who had been visiting the liner formed a ring in the street as the two men battled. Moss was vanquished after five minutes of hot work and Stark started up twelfth avenue with him.

At Forty-seventh street the prisoner gave the patrolman the foot and Stark went down. He gained his feet with catlike quickness and the crowd closed in again as the fight was renewed, this time with even greater ferocity, when Patrolman Goss appeared and Moss gave up.

The young woman who made the complaint slipped away in the crowd, but Patrolman Stark located Moss up in the west Forty-seventh street station on a charge of disorderly conduct. Dr. Bayer came in an ambulance from Bellevue Hospital and treated the prisoner's battered scalp. Moss said he had a brother on the Leviathan and that he had been visiting him before the girl appeared.

### AIRSHIPS TO FLY WITHOUT PILOT

New Device By Which the Machines Can Be Controlled By Wire.

(New York Herald)

Paris, July 7.—"Making airplanes think" is the latest diversion of French aviation experts at Villiers Coubly, according to the few details that have been allowed to leak out, but which indicates considerable success already attained.

Hitherto it has been thought necessary to have at least one passenger in machines controlled by wireless, his duty consisting in dropping bombs or taking photographs. With a new device, however, an electrically controlled roll of paper providing contacts whenever certain altitudes and distances are attained is made to do the same work.

For instance, by inserting a properly perforated "music roll," an unoccupied plane has been started on a twenty-mile flight, risen 2500 metres at the end of the third mile, released a dummy bomb, circled to the left for ten miles more, descended to less than 500 metres, opened its camera eye to snap the scenery below while the motor slowed down to prevent blurring the pictures, and resumed normal flight back to the starting point, landing safely.

Not the least advantage of the new system is that the oldest planes can be sent up in time of war without risking the life of a single pilot or observer.

### WILL GUIDE BOYS OVER PITFALLS

New U. S. Organization to 'Build Up the Boy in Mind and Body.'

Chicago, July 7.—Boys of sixteen are being enlisted into an assembly of American Sentinels, an organization which plans to take the boys at this age, build him in mind and body, protect him against pernicious associations and direct his development until the day when he shall be inducted into citizenship. His protectors are numbered among the most prominent men of the country, with President Harding as honorary head.

"Young fellows in this transition period are neither boys nor men, and need guidance so that they will not become misfits in the world of action because they lacked vocational training," said Rear Admiral William A. Moffet, former commandant at Great Lakes Naval station, and honorary director of activities. "Much of the social and industrial unrest is developed because in too many instances young fellows who have almost attained their majority are left to drift. They are compelled to take an individualistic view of life and thousands of them become resentful against society because they feel they did not have a fair chance."

### Archibald Settlement

The weather in this locality has been very rainy for the past few days and it certainly is of great benefit to the crops.

Mrs. Margaret Cook of Nash's Creek is spending a few days here the guest of her sister, Mrs. Dave Smeader.

Mrs. Edward McCurdy spent last Wednesday in the Settlement visiting her parents.

Mr. Hugh Archibald who has been a visitor in the Settlement for the past few weeks has returned to his home in Shamoualee.

The friends of Mr. Herbert Archibald will be glad to hear that his health is improving since he went west.

Mrs. James McLean and grand-daughter Gladys Miller, are spending a few days in the Settlement before leaving for Farmington, Maine.

Mrs. Splan and children are visitors in the Settlement this week the guest of her sister, Mrs. Willie Rosengren.

Mr. W. Rosengren of this Settlement has purchased a new Durant touring car.

A very enjoyable afternoon was spent on Wednesday of last week on the grounds of Mr. W. Rosengren. Mrs. Almer Johnston acting as hostess of the party served a delicious lunch. The guests present were: Mrs. Joseph Musarolle and children, Mr. Paul Firlotte, Mr. Pat Firlotte, Mr. Jerome Deplacy, Miss Marie Deplacy, Miss Stella Bonard, Miss Marguerite Firlotte and Mr. Evert Musarolle.

Mr. and Mrs. Austin Callihan are receiving congratulations on the arrival of a baby boy on June 30th.

### Golf: Not Billiards.

Two ministers were in the habit of playing golf, when one of them said to his friend: "I'd like to have any lawyer join us. He is an enthusiastic golfer. He swears a good deal when making a bad shot, but don't you pay any attention to him."

The game began, and the lawyer made several misses, and vented his ill-luck in a good round volley of unprintable language.

At length the newly introduced minister expostulated saying: "If you don't respect the man you might respect the cloth."

"Dash it," was the reply, "it's not billiards we are playing!"

### ESTATE NOTICE

DISTRICT OF GASPE, COUNTY OF BONAVENTURE, SUPERIOR COURT IN RE Vacant Estate of XHubert Henry Brown, in his lifetime merchant of Escuminac, County of Bonaventure.

### BOY MYSTERIOUSLY SHOT

Maxim Silencar Believed to Have Been Used By Assassin

New York, July 6.—The detectives of the Eleventh Inspection District in Brooklyn made a tour of the district in an effort to locate all owners of guns and pistols on which Maxim silencers are used.

Jacob Schmid, eighteen years old, of 88 Morgan avenue, Brooklyn, while walking along Kingsland avenue, Brooklyn, Sunday evening, suddenly felt a stinging pain in the right arm. He went to the Stagg street Police Station and told of the sudden pain. It was discovered that he was suffering from a bullet wound.

Schmid told the police that he heard no shot fired nor could he imagine why any one would try to shoot him.

## Another Important Event to Everybody that Wears Shoes

Guidry's Fire Sale last spring was a memorable event for hundreds of people—simply because they got some of the biggest bargains of their lives in Footwear.

There will be Genuine Bargains for everybody, old or young.

Men's Boots and Shoes, Men's Heavy Work Boots, Ladies' Shoes, Children's Shoes, White Summer Footwear.

ONLY FIVE DAYS

Remember the Dates,—Sale Starts Tuesday, July 17, Ends Saturday, July 21.

### Guidry's Shoe Store

J. O. GUIDRY, Proprietor Water St. CAMPBELLTON, N. B.

### ADDITIONAL ATTRACTION TO THE NIPIGON

Camping on the Nipigon river-side and it holds the record of being the most perfect and profitable breeding place in the world for large red and speckled trout. The Indians are said to have piled them up from the cordwood, and the great number taken by anglers fishing are those which warrant the belief that the supply is inexhaustible. Moose and bear are found in large numbers also, and big game in this district has increased of late years because for some reason or other the animals are retiring farther south. Fishing is good any time between May and September, and anglers should see to it that they are well equipped when the weather gets cooler.

Each year the Nipigon attracts more sportsmen and many who go in search of health as much as game. Up to the present, however, the number has been confined to those who are satisfied or able to live in tents and "rough it," as the Indians say, on the banks of the Canadian Pacific. Englishmen Camps will prove a still greater attraction. The scenery is superb and is a type all its own, for nowhere else can one find such a blending of greens and browns in foliage or such luxuriantly wooded water. In later years, when its wealth of mineral ore is exploited, the Nipigon will be destroyed, but its present beauty is one of the most "worth-while" visiting countries in the world.

## It Works From Both Ends

A local merchant upon whom we called recently gave us a first class talk upon "buying at home." We certainly agreed with him in all he said, and more too. The Graphic has always preached this doctrine, and lived up to it.

But what of our local merchants? A genial solicitor for wrapping paper, paper bags, etc., had induced him to order his counter check books from him, "just to make up a good sized freight shipment."

Our local merchant clean forgot that our local printers could supply these counter check books at the same price. He sent out of town for them.

But it's a poor rule that won't work both ways.

## FOR CANDIDATES IN THE GRAPHIC'S BIG AUTO CONTEST

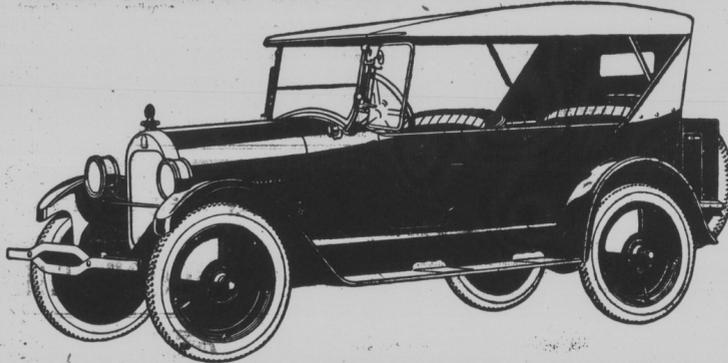

### CANDIDATES!

Do you realize the importance of making this week your best week—another Prize Ballot offer is made this week to help candidates who are really in earnest in their efforts in winning one of the Graphic's Big Free Autos—which candidate will win in the largest prize ballot and which candidate will win the \$100 Special Cash Prize which closes next Monday night? Make that mighty effort this week—most votes will win the beautiful Durant "Sport" Touring Car and there are only two weeks left to do it in—Get all of your friends to give you another year or two—Pile up the votes NOW:

**Reasons why you should make every minute count THIS WEEK**

- (1) BECAUSE the \$100 Extra Cash Prize offer closes next Monday night.
- (2) BECAUSE there will be no more Prize Ballot offers made.
- (3) BECAUSE the Graphic's Big Contest closes two weeks from Saturday night.
- (4) BECAUSE you can get more votes this week for the work you do than you can get next week.
- (5) BECAUSE every prize is well worth your best effort this week—"Step lively NOW—Ride later."

WHICH CANDIDATE WILL DRIVE THIS BEAUTIFUL CAR?

Durant Sport Touring—First Grand Prize—Value \$1,545

It is  
**NOW**  
OR  
**NEVER!**

### MORE PRIZE VOTE BALLOTS THIS WEEK—WIN THE BIG ONE

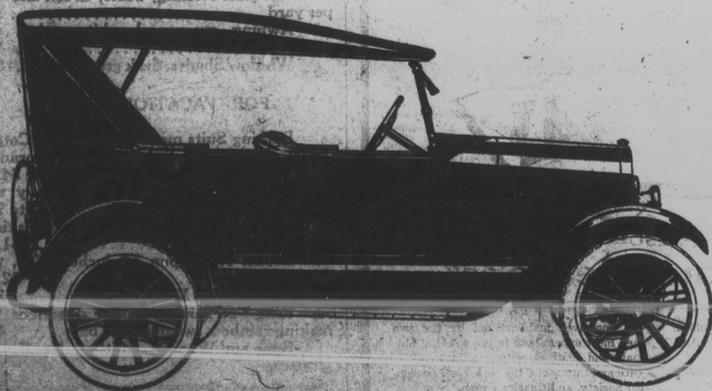

Fifteen more prize vote ballots were announced this week and will be given to the fifteen candidates who turn in the highest totals of cash on subscriptions to the Graphic during this week and next week. The first prize vote ballot will be a ballot good for 1,500,000 BONUS votes and will be given to the candidate who turns in the most cash on subscriptions during this week and next week. The second prize vote ballot will be a ballot good for 1,000,000 BONUS votes and the remaining thirteen prize vote ballots will be ballots good for amounts ranging from 900,000 BONUS votes down to 350,000.

The prize vote ballots which candidates won last week have already been mailed to them. Every worker starts even this week on this extra prize ballot offer. Therefore, each candidate has an equal chance in winning the biggest prize vote ballot. Make a special effort this week on this big offer and win the largest prize vote ballot. Show your friends that you are in real earnest and out to win the beautiful Durant "Sport" Touring Car which is chief honors in the Graphic's Big Drive for circulation. By winning the largest prize vote ballot it may just be what you need to make you the winner of one of the Graphic's Big Free Autos. See all of your friends who have already helped you, this week, and get another year or two from them. When you have canvassed your own territory, make a drive on new ground. Don't stop a minute this week as this is the most important week of the whole contest, and don't forget that one of the candidates will win an extra prize next Monday night good for \$100.00 in cash. Will you be the lucky winner of this wonderful extra cash prize? You can if you will make the proper effort this week.

Pile up  
the votes  
**THIS**  
**WEEK**

### THIS IS THE SECOND GRAND PRIZE

One Car guaranteed to each District. Make sure you are first in your District, two weeks from next Saturday night.

### Which prize will be yours?

GRAND CAPITAL PRIZE IS A DURANT "SPORT" TOURING CAR, value \$1545, fully equipped. Call and see it at Harrison & Jamieson's Limited, Campbellton, N. B.

SECOND GRAND PRIZE IS A STAR TOURING CAR, valued at \$715.00. Now on display at Harrison & Jamieson, Limited, Campbellton, N. B.

**The Absent-Minded Rector.**  
"How will you have your roast beef, rare or well done?" the rector was asked by his host.  
"Well done," replied the good rector, and added absent-mindedly, "good and faithful servant."

**THANKS!**  
To the ratepayers of Ward II. Ladies and Gentlemen—  
We wish to thank you heartily for the liberal support given us in Tuesday's election. We trust that in the discharge of our duties as your representatives at the Town Council Board, we may prove ourselves worthy of the confidence you have seen fit to place in us.  
Yours very truly,  
J. CLIFFORD MACDONALD,  
JAS. H. MOORES.

**DOES ADVERTISING BRING RESULTS?**  
New Business Opened Here Has Met With Great Success.

Ever so often newspaper men run up against some business man who says he has no faith in advertising. To any such in Campbellton we would refer them to Messrs. Rosenhek and Glickman.

These two enterprising young men decided to go into business. They rented a store, had it remodeled, and filled it full of goods.

Then they interviewed the Graphic's advertising man, and the rest was accomplished.

Upon the opening day ten clerks could not serve the crowds which came and more help had to be obtained.

The stock was depleted so rapidly that the manager had to rush off to

Montreal to buy additional goods, and yet the people came.

The manager expresses as that his advertising paid the store, and the people who bought their goods and they expressed the hope that it paid the Graphic.

The Graphic has many times successfully advertised merchandising events and has clearly demonstrated that it reaches the people.

See that you reach the people via the Graphic route.

To find a more ideal show for children than this coming Saturday's matinee at the Opera House would be a task. Vitagraph's "The Four Seasons" and Charles Chaplin's "Pay Day" is the bill. Adults will enjoy it as much as the children too.

**BERRIES ARE CHEAP.**  
Strawberries were selling at Fredericton at 10 cents per box on Tuesday and fifteen cents at St. John. The crop is extra large this year.

## OPERA HOUSE, Friday and Saturday

**He's Shirking overtime on everything but laughs!**

At work he wields a wicked pick, Ofttimes he lays a wayward brick; He toils and boils and sweats there, There's not a job he will not shirk; He takes his dinner pail to work 'Cause it's lunch time when he gets there!

**He'll fill your pay envelope with million dollar hollers!**

### "The Four Seasons"

An Urban Popular Classic—A Feature Photoplay in 4 Reels.

The wondrous story of nature told in her four chapters: Spring, Summer, Autumn, Winter.

A master-work of the greatest subject in the world.

Its story is a year's biography of the woods and plants and Nature's countless children—the animals. No story was ever so unusual, so beautiful.

THE SERIAL STORY TOO—CHAPTER TEN.  
"In the Days of Buffalo Bill"
