Victoria Day Will Be Observed Saturday. No Official Holiday Proclaimed

Ottawa, May 9 .- Though Victoria (Empire) Day, May 24, falls on Saturday this year and the sentiment has been expressed in some cities that the holiday should be changed to Monday, owing to the fact that Saturday afternoon is generally observed as a holiday, and the change would afford a longer week-end, no such action will be taken officially This announcement was made to the Canadian Press today by Mr Thomas Mulvey, under-secretary of state. There will be no official proclamation of the holiday, of course, for the reason that it is a statutory one, fixed for observance on May 24. May 26 (Monday) is the birthday of Queen Mary, but it is not officially recognized as a holiday

In official, state, banking and legal circles, therefore, Saturday is the day which will be observed as the holiday. There is, however, nothing to prevent any place making Monday a holiday of its own, by proclamation, though the Government could not recognize it as Victoria

Hamilton, May 9.-Although not definitely decided yet, May 24 will likely be observed as the holiday here, merchants and manufacturers opposing the change of the date for the celebration on account of con fusion likely to follow.

crowd thinks more intimate dealings between English descendants etween this country and England would crowd out the non-English. In fact, there are many who believe that the purpose of the whole movement is to bring America to the service of England in order to fight Germany. That is certainly a most absurd understandng, and it would be most unfortunate f such a view should gain more strength. After all, there has been a century of peace with England, but peace with Germany and this country has never been broken.

Fears That Much Harm Has Been Done by Widespread Publicity.

[Canadian Press.]

Washington D. C., May 9 .- The pube c health service observations, so far, into the condition of patients inoculated by Dr. F. F. Fried mann with his tuberculosis vaccine, do not "justify that confidence in the remedy which has been inspired by widespread publicity" in the opinion surgeons who have conducted the

overnment's investigation. This first authentic and official conusion from the tests was announced ere today before the National Asciation for the Study and Prevention of Tuberculosis by Dr. John F. Anderson, director of the Government's hygenic laboratory, and Dr. A. M. Stimson, another public health surgeon, who were detailed to observe the progress of the Friedmann patients at Mount

Sinai Hospital in New York.

Present Conditions. "We believe that at the present time," says their report, "we are not as yes in a position to express an opinion based on the present conditions under observation. The disease for which the remedy is used is prolonged and is characterized by periods of advancement and retrogression. It is also one in which psychic influences are a powerful factor. Time is, therefore, necessary to properly evaluate

the effect of therapeutic measures." "We must not lose sight of the pos« sible therapeutic value of this pre-paration, and on the other hand it is necessary to guard against a too great an optimism in respect to its merits. Without presenting in detail the condition of patients under observation, we are in a position to state that the facts thus far observed do not justify, that confidence in the remedy which has been inspired by widespread publicity.

Harm May Be Done. "In our opinion harm may have been done by this undue publicity insofar as it has lessened the confidence of tuberculosis persons in well-recogrupted their use, and we are strained to advise against any lessening of those well-known measures which not only had effected cures, but which have reduced the incidence of the disease. We are aware that Dr. Friedmann does not wish to be judged scientifically on newspaper statements, and he would undoubtedly disclaim responsibility for certain of those which have appeared. OPECIAL quality in sky, alice, rose, pink, navy, tan and peacock blue, also cream, white and black, beautiful quality and good colors, pure Silk RibMore Humming and Less Grumbling

EVER in the history of the world have the people had advantage of public service equal to what they have today, and we speak particularly of our own city. The area of cheap locomotion has been widened by the expansion of steam and trolley roads. Bigger and better cars are on our city streets, and fine stores with unprecedented facilities. Grumblers and groaners never get far ahead. If work is hard and earnest, so much the better. A lady who returned after a six months' stay in the West the other day said: "Never do I

want to leave this beautiful city again." "Just be glad" and thankful for such a beautiful city to live in, and for such a depository of the world's goods to draw from as this, and whatever it lacks help to remedy it. Gloomy, discontented articles have little cash value here. A whistle is better than a whine.

CONGRESS AND THE TARIFF.

The House of Representatives has passed the Underwood tariff bill by a majority of 281 to 139. The bill will have a rougher passage through the Senate, and may never reach port. Its fate hangs upon a Democratic majority of six in that chamber, which is all the party could snatch from an overwhelming victory in the country, so inflexible is the American system of

considers that graver things remain government. behind unanswered. Exactly twenty years ago the situation was the same. A Democratic House kept faith with the people and revised the tariff downward. A handful of Democratic senators betrayed their party and re-wrote the schedules at the dictation of the interests. President Cleveland characterized their conduct as party perfidy, and declined to sign the bill. As he declined also to Neto it, it became law. It was replaced in 1897 by the McKinley bill. Then began the fifteen years' orgy of high protection. The country is now apparently sober; it has not yet taken fright at the Underwood bill, which is much more sweeping than was the measure of 1893. But the prolongation of the debate in the Senate may have an unsettling effect on business, which would be attributed wrongly to the Underwood bill, and which might produce a reaction in public opinion. The high protectionists are calculating on this, and will exert all their powers of obstruction and corruption in the Senate. Even if they stand together, the Democrats there must face the or-Geal of unremitting attendance and vigilance for weeks, perhaps months.

The wreck of the bill would be perhaps a fatal blow at the Wilson Administration. A generation of Ameri cans have been nursed in the belief that the whole fabric of industry would the sacred tariff wer touched. The last Democratic regime coincided with a period of trade depression, then world-wide, which was Democrats with perfect success, After naval bill, and in all Mr. Borden's long suffering the American people speeches. This is the truth. As Sir have again revolted against tariff Wilfrid Laurier said at Terente, the party to the test. If the Underwood Conservative wing sacrificed the Canabuses, and have put the Democratic bill carries and if prosperity continues unabated, the fetish of high protection will have been destroyed forever. If hard times ensue from any cause, they will be attributed to the Democratic party, whether the bill passes or not and Democracy will be sent once more out into the wilderness.

THE PASSING OF THE PLUG.

It is reported in the press that ar rangements are being made in England to celebrate the centennial of that particular and well-known article of male apparel called the beaver, or silk hat, or, as it is sometimes irreverently termed, the plug hat. The location of while somebody else is doing the real the proposed celebration is appropriate. because. England is the country where it has been most in vogue. There it has had the greatest social standing; there it has retained its pre-eminence with a persistency shown by no other that; there it has been the crowning

feature of sartorial fashion. But, alas, that it should be said, even on its native heath, it is beginming to show signs of decay and death. It is passing into the sere and yellow leaf. Ever since democratic members of Parliament have begun to neglect it and attend the House in common caps Or "bowlers," it has been doomed. And outside of England it is about dead enough to be buried. In this country it has almost vanished from sight, When it does appear upon the head of some solitary passer-by, people turn around to gaze upon it, and to wonder whether there is a funeral, or a wedding, or a reception to the Governor-

General. The wonder is that it has lasted so fong. Of all the vagaries of fashions in male attire, this has been probably the most indefensible. The genius of You were just as troublesome yourthe man who first devised a head covering shaped like a section of a stovepipe is on a par with the mental status of the people who made it fashionable. Cold in winter, hot in summer, unstable in a storm, uncomfortable on the head, and embarrassing in the hand, it ought to have perished in childhood instead of surviving for a century.

The plug hat has outlived its usefulness, if it ever had any. The evidences of its passing are among the most for life. pheering signs of the development of the heads upon which it once reposed the crown of duliness. It may not be quite dead, but it would be just as [well to give it decent sepulture in some museum of antiquities without waiting till moths and microbes devour it. Fishing Boundaries Will Be Surveyed

[Canadian Press.]

Vancouver, B. C., May 9.—The location of the water boundary between States from a point in Hecate Straits to the entrance to the Portland Canal will be undertaken this season by Dominion Government survey party in charge of W. M. Denis, who reached

here yesterday from Otiawa. As defined by the treaty of London, which settled the Alaska boundary dispute over three years ago, the southern extremity of the boundary starts at a point opposite Cape Luzon, Alaska, and traverses the waters of Dixon entrance eastward to the entrance of Portland Canal, and thence follows the centre of that arm of the sea to the first made boundary to the eastward in British Columbia.

ROW STARTED OVER TIT-BIT

Miss Duncan was elected as chairman Frogs' Legs Land a Pair of Citizens in the Magistrate Court.

A TRICK THAT FAILED

Walter Daniels and Harry Coffenback got into an altercation on King street over some frogs' legs several days ago, and according to several witnesses, they engaged in the gentle pastime of hugging and taking pokes at each other.

They appeared in police court this morning, and as the witnesses said the blame should be distributed among them, the court assessed them \$2 each and 75 cents costs for witness fees.

Brace Up, John. John Case is going to have a bad ending if he does not mend his ways, ecording to Magistrate Judd, who pointed out to John when he appeared in court this morning on a charge of arrying concealed weapons, that he had warned him once before that he rould end up in a bad position.

The weapon which John was accused of carrying concealed was a small revolver, fully loaded. It was not as large as an ordinary cap pistol, but just the same John paid \$5 and \$2.50 costs, while the court ordered the gun confiscated.

Joseph's Troubles. Joseph Druker, a Russian, received summons several days ago to appear in court this morning to answer to a charge of a breach of the traffic by-When the court called his name, Joseph did not appear, so it was ordered that he be served with a warrant. Along about 11:30 Joseph wandered into court with the summons in his hand, and when asked where he had been, admitted that he had been out earning the money which the court would surely mulct him of. "Vy, I an poor man, and ven I received the ummons, I says to myself, I vill go and earn dot fine," said he to Chief Williams.

"Maybe you will have to pay another fine for not attending court at the time ordered," said the chief. This caused considerable consternation in Joseph's mind, and caused him to wonder why he could not come at his leisure. His case was adjourned until Saturday, as court was over when he arrived.

A Trick That Failed.

NICHOLLS HELD ST. THOMAS TO FOUR HITS BUT LOST OUT

London's Big Pitcher Was Wild in the Pinches, and Saints' Hits Were Timely Ones-Matteson Was Put Out of Game for Protesting Halligan's Decisions.

St. Thomas, May 8.—Big "Duck" Nicholls has no one to blame but himself for the victory of the Saints here this afternoon at Pinafore Park in the opening game of the Canadian League season in St. Thomas. Nicholls pitched grand ball and only for his wildness during periods, in which he should have tightened up, he would have copped an easy victory. As it was the score was 4 to 2 in favor of the Saints, and 3 of the St. Thomas runs resulted from wildness on the part of the big London pitcher.

GOOD CROWD PRESENT.

A large crowd witnessed the game. It was the official opening, and previous to the game the teams marched across the field to the strains of the Twenty-fifth Regiment Band. Alderman E. C. Sanders, in the absence of Mayor Price, made the opening address, and President E. A. Horton, of the Board of Trade, pitched the first ball. The crowd, which numbered about 2,500, was arranged about the field, owing to the grandstand having been burned down on Monday. However, the accommodation was good and everybody had a chance to see the game, although many were forced to stand throughout.

"MIDGE" CRAVEN'S GREAT RECORD.

One of the real reasons why London lost was "Midge" Craven. This diminutive former South Michigan Leaguer, ex-Berlin player, and one-time manager of the Grand Rapids club, proved a sharp therne in the side of the London club, and he practically won the game for the Saints. Although he came up to the plate four times during the game he is not credited with an at bat. Each time he came up Nicholls developed a wild streak that let the Midget get down to first base without even attempting to hit the ball. The little fellow scampered around the plate and seemed to have big Nicholts' goat. The first time up he got in the way of the ball purposely and Halligan librated him to take his hore. This gove St. Thomas a run. The next time allowed him to take his base. This gave St. Thomas a run. The next time up he walked after two strikes had been called on him. This also gave St. Thomas a run. In the fifth inning he came up again, and once more deliberately let te ball hit him. This time he was caught stealing second. In the seventh inning he again walked and got as far as third base before the side was retired. This was some performance for one day. nice peg to Marshall. Craven was hit

It Is Tough To Lose This Kind

PITCHER HERMAN ("Duck") NICHOLLS, of the London , club, who pitched against St. Thomas yesterday in the latter city, and held the Saints to four hits. He lost the game, however, owing to wildness, walking six and hitting three men.

The Fans Are Wondering Why

Sporting Editor, Advertiser: Sir,-May I ask, through you, the management of our ball team why they allow the Brantford team to have the benefit of the services of our fast second baseman, Linneborn, when he is so badly needed in our own team? The opening game Wednesday demonstrated the weakness of that important position, as well as third base, and shortstop-weak on field, weak at bat. Any of the latter could be much better spared than an all-round fast man like Linneborn. At least, that is how it appeared to many of the "fans" on the opening day. Better get Linneborn back as soon as possible. Also strengthen up the other points of the infield mentioned, or I fear the splendid patronage will diminish. ONE OF THE REGULAR "FANS."

TRAINER MIKE MURPHY SAID TO BE DYING

His Condition Is Alarming and Little Hope Is Held Out for Him-Has Been III a Long Time.

[Canadian Press.]

Philadelphia, May 9.—Mike Murphy, the veteran athletic trainer, who has been ill for some time from a compileation of diseases, which physicians think were brought on by too great exertion during his athletic days, is now very seriously ill, with little chance of recovery. It is reported from his bedside that he has been unable to take nourishment and that his condition is alarming.

Murphy has trained the University of Pennsylvania athletes since the fall of 1905, when Pennsylvania got him from Yale after Yale had taken him away from Pennsylvania. He is one of the most-widely-known collegiate trainers is the country, and on two occasions has been abroad with the American Olympic teams. During the past five years he has been the richim of several break-downs in health.

EDDIE LINNEBORN WILL BE BACK IN LONDON SATURDAY Our Great May Campaign

Manager Deneau Has Also Wired for Infielder Named Dunlap From Connecticut—Marshall Showed Up Well in the Game Yesterday.

[BY JINX.] Manager Deneau and his ball club Thomas yesterday was baseball luck. The London team was hitting the ball often enough, but the hits were coming at times when they did little good. The St. Thomas fielders were pretty ucky in a lot of their plays, and at bat they were covered with horseshoes. Ed-Summary: Run—E. Zimmerman.
Two-base hits—Fitzpatrick, McCarty,
Sacrifice hits—Collins, Tooley. Stolen
base—Northen. Double plays—Gagnier
to Swacina, Holly to Jordan. Base on
balls—Off Lee 2, off Goulait 5. Struck
out—By Lee 2, by Goulait 3. Hit by
pitcher—By Goulait (E. Zimmerman),
by Lee (Jordan). Wild pitch—Goulait.
Left on bases—Newark 6, Toronto 6.
Time—1:30—Umpire—Mullen.

About once in every twenty of thirty
times that a left-handed batter will
hit the ball over the head of the leftfielder, and that it should occur yesterday at a time when it was least expected was only one of the breaks of
the game. Despite this, however, the
London team looked like a real ball
club yesterday, and they should pull
out a win in the Railway City today

wealth of the people caused the demand for the finer varieties of skins to greatly increase. A table of prices paid at the Hudson's Bay Company sales in London shows that between 1882 and 1910, muskrat pelts advanced from 16 cents to 87 cents, mink from 73 cents to \$6.34, dark red fox from \$3.11 to \$16.55, and large lynx from

\$4.87 to \$39.85. Such rare skins as black fox and sea otter are not quoted. their value being fixed beyond ordin-

ing \$1,800 and \$1,700. The demands of the market and the skill of men who prepare and dye skins led to prac-

tices that may hardly be held to be in accord with strict honesty. Some eighty million rabbit skins are imported every year into London. They figure later in workshops and store windows as sable, electric, Red River,

Hudson and other "seals," as ermine, chinchilla, etc. So other hairy or in-

ferior skins are manipulated into

Bank deposits have been withdrawn and farms mortgaged to get capital THE DANGER for the new enterprise, or for shares in established companies. Probably this presages individual losses. The statements in Mr. Jones' book indicate that the successful breeding of foxes in captivity requires even more care and enthusiastic attention than the breeding of ordinary fine farm animals, and not every man with the price of a silver or other fox and money to make a wire corral, may expect to draw a fortune out of his venture. Enough is set out, however, to give promise that fur farming may be made a paying business, and if this is the case with foxes, it may be expected also to be the case with other fur bearers, some of which are less delicate than the fox.

OF ELOQUENCE

Injuries It Inflicts Upon Nation That Tolerates It.

[From Blackwood's Magazine.] We cannot look back upon the perecution of Warren Hastings without perceiving the injury which eloquence infliets upon the nation which tolerites it. If it be employed in the cause of justice it should be superfluous. If t be employed for mere sophistry i does but make the worse cause appear the better. More evil has been done in the world by eloquence than by blood and fire. For eloquence, pluming SCOTT'S DIARY itself upon its own volubility, cares nothing for the justice with the control of ing for the justice which it pretends is its only excuse. The one satisfaction Trumbull White Pays High we may cherish is that eloquence, mo-mentarily powerful, is quickly transient. The vain words of the orator die upon the air. The Best Cook in London

undoubtedly uses Strong's Baking Powder. The best cooks everywhere generally use the best materials, and Strong's Baking Powder is the best material for leavening that can be made. You can pay more for baking powder, but it is impossible to get anything purer. Government analysis proves it. This baking powder insures lightness, whiteness and deliciousness in every batch of biscuits made. Costs but 25 cents a pound.

The lumber pile was hard, the nig'. old, Jackson's leg was broken receny, and P. C. Brown has a kindly heart. All these facts conspired to land the wo in police court this morning.

The court thought they had recenty escaped from some institution, but ne men were indignant at such a thought. How could they, both fine-looking young men, one red-headed, and he other a blonde, wearing nice clean suits of "Blues," even think of such a thing. And besides they had just come from Hamilton, where everybody sleeps, and where J. Grant Henderson is now living. They pleaded hard to in Freight Rates is now living. They pleaded hard to be allowed to go, and the court was just on the point of sending them down or a short term when they suggested that thy would get out of town inside an hour if given their liberty.

This was a bright suggestion, and the court took them at their word, instructing the constables to bring them in if they were found within the city

Toronto, May 8.—Interviewed here today, Sir William Mackenzie repeated his statement made in Montreal, that he would not countenance the sale of the Toronto Railway Company to the city unless the city at the same time took over the Toronto Electric Company, which is virtually the Toronto Power Company.

The revenue of the Toronto Power Company, he pointed out, depends largely on its contract with the Toronto Railway and it would not be fair to deprive it of its chief source of revenue.

As to the statements that the share-holders of the Toronto Railway Company have received liberal returns hitherto, he said:

Mothers' Pensions.

At the morning sessions a resolution was read by Mrs. Huestis, president of Toronto Local Council, recommending that the National Council present to the provincial governments the advisa-bility of establishing a system of mothers' pensions throughout Canada for the support of children in the event

of the father's death.

Mrs. Huestis advanced the plea that in cases where a mother was obliged to work for the support of herself and her family, the children left alone during the day obtained a street education, and several instances of assault were clearly due to the unprotected state of young girls, while their mothers were

absent at work.

The speaker referred to the results obtained from the mothers' pension system in various states, stating that under this plan the cost for each child to the state was \$5.75 per month, while it cost \$10 per capita for maintenance

Mrs. Byers, of Sarnia, averred tha compulsory education, child labor and mothers' pensions were each a part of the other. Building Futures

During the growing period young people must have food containing the right kind of nourishment, not only to repair the every-day wear and tear of play and study, but for building the growing body into sturdy manhood and comely womanhood.

This means double duty, and mothers must pay heed to the children's diet.

A regular morning dish of

helps wonderfully in developing youthful strength of mind and muscle because this food contains the true brain and body making essentials required by Nature.

Grape-Nuts food---made from choice wheat and malted barley---is rich in the vital grain phosphates, especially required for nourishing the child's rapidly developing brain and nerves.

The crisp golden granules have a delicate sweet taste and, being easily and quickly digested, are readily acceptable to the most sensitive stomach---making a most appetizing breakfast for both young and old.

FRENCH OPIUM SCANDAL

163 Dens Discovered in Toulon Alone.

Paris, May. 8. - The revelations in connection with the opium scandals at Brest and elsewhere continue. During the last few weeks numerous discoveries of opium dens have been made in Brest, Toulon and other naval ports, and it was known that naval officers, as well as civilians, men and women, frequented the places.

Further inquiries undertaken by the naval authorities reveal a state of affairs absolutely undreamed of. appears that opium smoking in secret is something like a general thing in the French fleet. Not only officers, but lower-deck men are slaves to the habit. In Brest, Toulon, Cherbourg, Lorient, Rochefort, Marseilles and Algiers facilities for opium smoking exist in abundance. In Toulon alone it has been discovered there are no fewer than 163 opium dens. In the present state of the law noth-

ing can be done to prevent the evil, the consequences of which to the navy may be of the gravest character. It is possible to prosecute traders in opium, but those who smoke or induce others to do so are perfectly immune from punishment. Anyone can get opium, morphine or hashish through the customs with perfect freedom, while the smallest bottle of spirits or box of matches is pounced upon immediate-

In the great French colony of Indo China there is a state opium factory, the production of which is 240,000 pounds of the drug annually. And Japan or China decapitate or hang those who smoke, eat, or chew opium, points

out the Matin. Not long ago the governor of Indoin the colony to send back to France all the drug-takers among the troops "Why, you are asking me to evacuate the colony!" replied the general.

He has eft his mark daintily on Bond stree and built a large number of country houses, as well as the White Star Signs of It in Far-Away Corners coins of ancient date—for example, British sovereigns of the reigns of the early Building in Southampton, and many other works of considerable interest. Like Nash, he had a gift for shop facades, and was largely influenced by Paris. The modish boudeir shop style appeared in his Bond street work. Messrs. Front Street Wall.

To the Editor of The Advertiser: From the reports in your paper of ast evening re \$50,000 being lopped off the estimates, etc., it seems as if the fact was about to be carried into effect that "the weakest must go to the wall," but we have no wall to go to, if we are the weakest, which seems to be thought so by the way the balance has been dropped, which was to have come from the temporary repairs of the West London breakwater, such repairs were carried out. If West London's demands for a permanen breakwater are granted, what will become of Front street's needs? Few people seem to have any idea of its weak, useless state of the need of our protection. Let them come and see it for themselves, that it is no midsummer night's dream, but an actual, present and real danger, and must be done something with, and at once.
