The copy filmed here has been reproduced thanks to the generosity of:

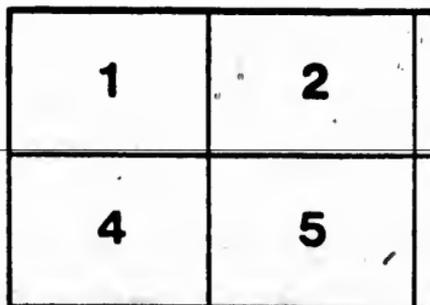

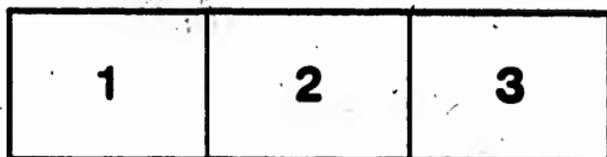

Canadiana department  
North York Central Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

TO THE PUBLIC.

In presenting the *Automatic Organ*, we boldly announce the greatest triumph in Musical Instruments of the age. During the past half century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for the feet to operate, but the want of the reverse or *exhaustion bellows*, (which is the only bellows used in our instruments,) made it impossible for them to produce the mellow, rich and musical tone for which our instruments are celebrated.

Our *automatic* device enables the performer to blow with more or less force, giving the desired increase or decrease in the volume of tone, and at the same time enables the performer to open or close the *reeds* instantaneously when desired.

# MUSICAL INSTRUMENTS.

## BRASS BANDS.

OF LATE YEARS, THE SPREAD OF MUSICAL TASTE HAS RESULTED IN THE formation of Bands throughout all parts of the country; but the difficulties which have arisen in securing superior classes of instruments, except at greatly increased cost, have hitherto, with but few exceptions, necessitated parties using inferior and unsatisfactory kinds. To obviate this, we beg to state, our arrangements in Europe enable us to supply every article pertaining to bands direct from the manufacturers at the lowest prices.

It is a well-established fact, as evidenced by the award of the Musical Commission at the late Great Exhibition in Paris, in addition to the reputation previously maintained, the French Brass Instruments excel all others both for superiority of tone and finish. From these our stock is selected, and any orders entrusted to us will be carefully filled, and any information required regarding prices and the formation of Bands cheerfully given.
