The Proprietors have their Dopot established at No. 6, Jacques Catter Place, next door to the Hot-lof Seraño Giraldi, Esq. The distance for conveying the Waters to the Depot is so trifling, that we are enabled to have a constant supply fresh, and are consequently in possession of a better market than any other peison. Prices, 74-L per gillon, and 2s. the dozen, (in bottles.) Sick persons, unable to jay for it, can have some gratis, by producing a certificate from their Physician, since we are unwilling that any should be deprived of these healing and wonderful Waters, prepared by Providence for his creatures, which are apparently designed for the alleviation and cure of many protracted and dangerous diseases.

I certify that I have used the Point du Jour Spring Water in my practice, and have found it to act as a mild purgative and alterative. From the quantity of lodine it contains, it will, I doubt not, be found useful in scrotulous diseases and in some form of syphilis, in addition to other remedies.

ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Water from the Source of St. Leon, and find it to be strongly saline, it contains chlorice of sodium in large quantity, with minguesia and lime, partly as carlonates, dissolved by the sacces of carlonic seed, and partly as chloride. Like most of the other saline waters of the country, it contains bromper and fodine; it addition to which, I have deterined, in small quantities, salts of barytes and strontin, which had inthorto been me with only in the waters of Varendenia in the Phintagenia, and the Internations of Carlon of the Carlon of the Carlon of Car
