**Y. M. C. A. CONVENTION** opens to-morrow in the Congregational Church at two o'clock. The welcome meeting will be held in the Wesleyan Church in the evening, commencing at 7:30 o'clock. A collection at each evening meeting to defray expenses.

**THE REV. FATHER LANGRAC** preached three eloquent sermons on Sunday in St. Bartholomew's Catholic Church to large congregations, and is also preaching every morning and evening during this week.

**DROWNED.**—On the 25th of July last, Arthur Tory, one of the young men who left Georgetown for Manitoba, with the Pacific surveyors, was drowned. It appears that he and two other young men were fishing in a canoe and when about fifty yards from the shore it upset. The two young men who were with Tory succeeded in reaching the shore, but the third, being unable to swim, almost immediately sank. Deceased was known as a steady and honest young man. His parents reside in the Township of Erin.

**WHEN SHALL WE THREE MEET AGAIN?** That's what Grip asks, when depicting "The beauties of a Royal Commission" in his latest cartoon. "Sir John" is represented on the bench, half asleep, flanked by the busts of Pateron, of the Mail, and Beaty, of the Leader. Below is a counsel, addressing the bench on the subject of the Pacific scandal—and in his visage we also recognise the well-known features of Sir John, with an expression as if he were trying to suppress his amusement at the absurdity of the whole proceedings. The defendant in the case is leaning with folded arms on the edge of the dock, smiling benignly on the counsel—and here again the likeness to Sir John is plainly traceable. The sketch is a cutting satire upon the Commission faced to come off at Ottawa.

**BLACKWOOD'S EDINBURGH MAGAZINE.**—We have received Blackwood for August from the Leonard Scott Publishing Co. It contains an article which is of considerable interest in view of the struggle now raging in the Spanish peninsula—"Saballs," and the Carlists in Catalonia." This is the same chieftain whose name has so often been mentioned in the Spanish campaigns, but the name is generally spelled "Saballs." The article reviews the inception and rise of the Carlist insurrection in Spain. Amongst the characters introduced is the famous or infamous Cure of Santa Cruz, who has been a prominent figure in these disturbances. The remaining contents of the number are—"The Parisians; A Century of Great Poets; The Selly Isles; A visit to Albion; The Land of Love and Song; and Dragging out a Wretched Existence."

**POLICE COURT.**  
(Before the Police Magistrate.)  
Tuesday, Aug. 26.  
Dennis McMahon was charged by the Chief of Police with a breach of by-law in allowing wood to remain on Glasgow street. The nuisance having been removed, the case was dismissed.

**Tight-Rope Walking Across Niagara River.**  
On Monday afternoon Prof. Bellini, of Paris, France, accomplished the feat of walking a rope, 1,500 feet long, spanning the Niagara River opposite the Clifton House. He took sixteen minutes to walk from the Canada to the American side. On his return he stopped when in the centre of the rope, cast his balance pole and cloak into the river, and then jumped from the centre of the rope to the river, a distance of over 140 feet, disappearing from sight in the water. He rose in a moment, and was picked up by men ready in a small boat, and was taken to the shore.  
The excursion by the G. W. R. to-morrow will give Guelph people an opportunity of seeing the feats of this new Blondin.

**Chicago, Aug. 25.**—It is understood that the Railway and Warehouse Commissioners have fixed a passenger tariff on the first-class roads in the State of Illinois at three cents per mile. The majority of the roads now charging four cents per mile.

**Belfast, Aug. 25.**—In the great fire here yesterday the losses thus far ascertained reach about \$400,000, on which there is an insurance of \$115,000, divided among the Hartford, Etna, Union of Bangor, Agricultural of Westerton, N. Y., the First National of Worcester, Springfield, and Holyoke, Home and Hanover of New York, London, Liverpool & Globe, and North British. Only one vessel of the stocks was burned, a brig of 500 tons about being framed; the loss is \$5,000; no insurance. Large quantities of coal, lumber, corn, sugar and molasses were destroyed. The origin of the fire is unknown.

### Strange and Sudden Fatality.

#### The Goodrich Murder.

#### The Losses at Belfast.

#### Three Cents a Mile.

#### Bombardment of Valencia.

#### Bilboa Captured.

London, Aug. 25.—The house painters and decorators of this city are on a strike.

The Dublin Irishman publishes the new programme of the Home Rule party. It includes the establishment of a new paper in Dublin, called the *Faugh a Ballagh* to be the official journal of the party, and an agitation for the abolition of the name and office of Lord Lieutenant and the substitution of a Surozaine, to be elected by universal suffrage and to have the nominal title of king; for a triennial Parliament; and for a law authorizing the confiscation of the estates of absentees.

A collision occurred this morning on the Great Northern Railway at Bedford, near Nottingham, between a freight train and an excursion train. Four persons were killed and about fifteen persons badly injured, several of them beyond hope of recovery.

Advices from Carthage state that the civil and military authorities of the Communist Administration had quarrelled, and their respective partisans had come to actual conflict, in which a number of men were killed and wounded on both sides. The private soldiers in Carthage are discouraged, and in favor of surrendering to the Government forces.

Madrid, Aug. 22.—The Republican army, under command of General Sanchez Bregan, numbering 12,000 men, has entered Bilboa, and the Carlist force occupying the city withdrew without offering battle.

Madrid, Aug. 23.—The Spanish fleet, under the command of Admiral Lobos, began the bombardment of Carthage yesterday.

Bayonne, August 23.—Carlist advices say Berga is again invested by the Carlist army. Both sides claim the victory in the recent battle there.

New York, Aug. 25.—A terrible accident occurred on the South-side Railway, Long Island, this morning, between Freeport and Babylon. The three last cars of the morning express train jumped off the track and rolled over and over. There were only about twenty passengers in the cars, mostly women and children, all of whom were more or less injured. Only one child is supposed to be injured fatally. The cause of the accident is attributed to rotten rails and sleepers.

Rochester, N. Y., Aug. 25.—A party of young people boating on the Lake to-day were capsized by the swell of the steamer Bavarian, and Miss Maggie Buck, one of the party, was drowned.—As the express train, due here at 10 o'clock this evening, was approaching Batavia it ran into a carriage, killing both of the occupants. The engine struck the haunches of the horse attached to the carriage, killing it. The names of the occupants were James Anderson and Dennis Delaney; one was thrown into a field and the other was dragged along until the train was stopped. His body was horribly mangled. The engineer, John Day, stopped the train as soon as possible and got off the engine to see what damage was done. In passing in front of the engine he saw it covered with blood and brains, and was so overcome by the shock that he walked but a few steps when he fell, was carried into the smoking car, and died in a few minutes.

New York, Aug. 26.—During an interview Police Commissioner Bourdan, of Brooklyn, said he believed Kate Stoddard did not herself murder Goodrich but that she witnessed his assassination by a man answering the name of Roscoe. Ex-chief Campbell, however, believed that the mystery surrounding Goodrich's death was fully solved with the capture of Kate Stoddard.

1,844 emigrants arrived yesterday.

New York, August 25.—A correspondent, writing from Valencia, which surrendered to the Spanish Government troops after six days' bombardment, says the shells of the latter were fired with great precision, doing terrible execution. The Volunteers fought bravely, but were outnumbered. Their cavalry, in making a sortie at the commencement of the contest, were ambushed, badly cut up, and completely dispersed.

It now transpires the services of a clairvoyant were sought by the Brooklyn police authorities to discover the Goodrich murderer.

Chicago, Aug. 25.—It is understood that the Railway and Warehouse Commissioners have fixed a passenger tariff on the first-class roads in the State of Illinois at three cents per mile. The majority of the roads now charging four cents per mile.

Belfast, Aug. 25.—In the great fire here yesterday the losses thus far ascertained reach about \$400,000, on which there is an insurance of \$115,000, divided among the Hartford, Etna, Union of Bangor, Agricultural of Westerton, N. Y., the First National of Worcester, Springfield, and Holyoke, Home and Hanover of New York, London, Liverpool & Globe, and North British. Only one vessel of the stocks was burned, a brig of 500 tons about being framed; the loss is \$5,000; no insurance. Large quantities of coal, lumber, corn, sugar and molasses were destroyed. The origin of the fire is unknown.

## Terrible Storm in Halifax.

By Telegraph to The Evening Mercury.

Halifax, N.S., Aug. 25.—A heavy thunderstorm passed over this city on Saturday night. All night long the thunder pealed and the lightning flashed with terrifying vividness, and the rain poured in torrents. Yesterday morning it looked like clearing up, but towards noon the rain commenced again; the wind blowing strong from the north-east, and increasing to a perfect hurricane towards evening. The gale raged all night and was one of the heaviest experienced here for many years. In the city the damage mostly done was to windows, shutters, skylights and chimney tops. Fences and trees were blown down in every direction, and debris is scattered through the streets. Most of the shipping in port had prepared for the gale and rode it out. The coal-laden schooner "Lucy Agnes" dragged her anchorage and went ashore, and a number of small yachts were swamped and smashed at their anchorages. The U. S. frigate "Pawhation" was dragged from anchorage and drifted down, but was secured. The damage in and about the city is not extensive; but it is feared there will be bad news from the country and the coast. All the telegraph wires east and west were prostrated this morning, and particulars of the storm not to be had.

## Local and Other Items.

MALCOLM MAJOR WILSON, formerly of Markham, Ont., was accidentally killed at Roulin, California, lately.

LUMBERING OPERATIONS have already commenced on the Upper Ottawa. It is believed that less than the usual quantity of timber will be taken out this season.

The East Riding of York and Township of Markham Fall Exhibition will be held at Markham village on the 2nd and 3rd of October, when upwards of \$3,500 will be offered in prizes.

WIND AND OIL.—The Petrolia correspondent of the *Globe* describes a new feature in oil working, namely, the application of wind power to the pumping of wells having a small supply of water, furnishing from say 5 to 15 barrels of fluid per day, or such as are better known as "water-lifting wells." The mill sensitive to the lightest wind, furnishes sufficient power to operate the pump satisfactorily. It is mounted on a tower 50 feet high, and in its construction several entirely new features have been introduced—the use of concave iron slats for sails and the improved method of regulating the same, being the most prominent. The introduction of this power must necessarily give an impetus to the production of crude oil, because several hundred wells that are now abandoned may be operated at a profit, whilst previously the product would not pay the expense of running them by steam power.

A Dundas lady, while engaged in the pursuit of her domestic duties, encountered a mouse in the flour barrel. Now, most young ladies under similar circumstances would have uttered a few feminine shrieks and then sought safety in the garret. But this one possesses more than the ordinary degree of female courage. She summoned the hired man and told him to get the shot gun, call the bull dog, and station himself at convenient distance. Then she climbed half way up the stairs and commenced to punch the flour barrel vigorously with a pole. Presently the mouse made his appearance, started across the floor. The bull dog at once went in pursuit. The man fired and the dog dropped dead. The lady fainted and fell down the stairs, and the hired man thinking she was killed, and fearing that he would be arrested for murder, lit out and has not been seen since. The mouse escaped.

Messrs. R. S. Thompson and J. D. Laidlaw, of Stayner, went on a hunting expedition on the Nottawasaga River on Wednesday, killed a bear with buckshot. Beun was trying the flavor of some raspberries when found.

## Ontario Fruit Growers' Association.

The autumn meeting will be held on Wednesday, the 17th of September, 1873, in the city hall, Kingston, at ten o'clock, a.m. Discussions will be had upon the varieties of apple, pear, plum, cherry and grape best suited to the climate of Frontenac and adjacent Counties. The annual meeting for the election of officers and transaction of other important business will be held in the Court House in the City of London, on Tuesday, the 23rd day of September, 1873, at 7 o'clock p.m. Members are very earnestly desired to send to the Secretary, D. W. Beadle, St. Catharines, before the 1st of October, any facts of interest relating to fruit culture that may have come under their observation, so that these items of intelligence may be inserted in the report for 1873. The plants to be distributed to members for 1874 are the Downing Gooseberry and the Rogers' Hybrid Grape, No. 43. The membership is so large that it is quite impossible to procure the plants from the nurserymen, (some of them several hundred miles distant from our Secretary,) in time to put them up with each member's name on a separate parcel, and forward them to their destination, before the gooseberry, which comes into leaf very early in the spring, will be started in growth and need to be permanently planted. To obviate this difficulty, arrangements have been made to procure both of the plants in season to send them to those members who would like to set them out this fall. But it is necessary that the Secretary should know as early as the first day of October, 1873, to whom he shall send them; members will please signify their desire by sending the fee for 1874, one dollar, to Mr. D. W. Beadle, St. Catharines, before the first day of October next. Only those members who send in their fee for 1874 by that day will have their plants sent this fall. The usual allowance of a double quantity for every five new members will be continued.

There will be an immense gathering of citizens to hear Mr. Blake speak at London next Thursday night. The interest in the meeting is on the increase.

## School Board.

The usual fortnightly meeting of the Board was held on Monday night. Present:—Mr. Peterson in the chair; Messrs. Harvey, Kennedy, Knowler, Murton, Mackenzie, Bell, Inglis, Raymond, Stevenson, Newton, Mitchell; Drs. Keating and McGuire. The minutes of last meeting were read and confirmed.

THE CITY IS "STILL THEY GO."

A communication was read from Miss Mary Walker, head teacher in the senior Girls' school, stating that she had received the offer of a lucrative position in the Ottawa Ladies' College—that of principal, we believe—and that she would be very glad if the Board would release her from her engagement at the end of August, in which event she would serve during the present quarter up to that date without remuneration. She added that the present school attendance was small and likely to remain so until after the Exhibition.

## SCHOOL MANAGEMENT COMMITTEE.

Mr. Stevenson presented the report of this Committee, which recommended that a grant of \$15 be made for the purchase of chemicals, &c., to enable the High-school boys to prosecute the study of chemistry. The Committee also thought it inadvisable to co-operate with the Elora Board of High School Trustees as requested in their recent communication.—Report adopted.

## MR. BLACK'S RESIGNATION.

Mr. Raymond moved, seconded by Mr. Stevenson, that the former resolution of this Board on this subject be rescinded, and that Mr. Black's resignation be accepted, in view of the explanations given by Mr. Black in his recent communication.

The motion was carried.

## MISS WALKER'S RESIGNATION.

Mr. Murton moved, seconded by Mr. Raymond, that Miss Walker be allowed to terminate her engagement with this Board on Aug. 31st, as requested in her letter. He stated that Miss Walker's sister would take charge for the present, and that they could probably obtain a successor at a lower salary than Miss Walker had.

Mr. Murton said it was a strange thing to pass a resolution at one meeting that teachers should be held strictly to their engagements, and then at the next meeting allow an engagement to be broken.

Mr. Stevenson—I think Miss Walker has acted in the most honorable manner, and—

Mr. Murton—Did anyone say she had not?

Mr. Stevenson deprecated the interruption and proceeded to say that Miss Walker had acted honorably; she had not tendered her resignation, but had asked permission of the Board to be released from her engagement. He regretted exceedingly that Miss Walker should go, but her sister would take her place efficiently. He did not see how they could refuse this application after granting Mr. Black's.

The motion was carried; and a resolution was subsequently passed appointing Miss Eliza Walker to take her sister's place at the present salary attached to the position.

## MR. BLACK'S SUCCESSOR.

The Secretary read the applications which had been received in answer to the advertisement announcing the vacancy in the assistant mastership of the High School. They were from Samuel McQuirk, D. McDonald, Wm. Grey, O. J. Brown, Henry Ghek, Silcox, Jas. C. Thomas, Currie, Miss Jennie E. McGinn, Robt. Holbrook, Joseph Reed, John Butler, John Wilkie, J. W. Cooley, and C. P. Simpson.

The Chairman spoke at some length in favor of Mr. Simpson, with whom he was personally acquainted. In the course of the chairman's remarks Mr. Stevenson suggested that the Board should go into committee of the whole, as it would save time by obviating the necessity for Mr. Peterson's repeating his remarks in committee, and concluded his speech.

Mr. Murton moved, seconded by Mr. Inglis, that the application of Mr. Simpson be accepted. Mr. Simpson was not at present qualified, whatever he might be in future.

The amendment was put and lost, only the mover and seconder voting for it. The appointment of Mr. Simpson was then carried by a large majority.

We notice from Mr. Simpson's application that he was educated at Upper Canada College. For several years he has conducted a commercial college at St. Catharines, and has lately been engaged in conducting a similar institute at Fort Wayne, Indiana. He proposed to pass the necessary examination at the ensuing Toronto University matriculation examinations—which the Chairman is aware of his ability to do—and in the meantime was willing to pass any examination the Board might suggest. The Chairman spoke very highly of Mr. Simpson's qualifications.

## JUNIOR TREASURER IN THE WEST WADSWORTH DISTRICT.

Applications were read from four candidates for this post, and Miss Barelay was appointed, on the motion of Mr. Stevenson, seconded by Mr. Raymond.

## The Board then adjourned.

It has been discovered by the eminent botanist, Mr. Fyfe, that the *Urtica dioica*, besides being a beautiful plant, is a grand specific against horse-bites and that a single application of it in an apartment will keep it clear of those troublesome insects.

A man by the name of Anthony Snowden, employed as teamster by Mr. John Simpson, met with a serious accident on Monday at Meadowdale while engaged in hitching a span of horses to the plough. He was kicked in the face by one of them, inflicting a dangerous and painful wound. Dr. Pattillo, of Brampton, was telegraphed to attend.

**Guelph Evening Mercury**

TUESDAY EVENING, AUG. 26, 1873

**Raising Money for School Purposes.**

A vote has recently been taken in Toronto upon a by-law submitted by the Council in the city to the rate-payers, for the purpose of raising the sum of \$37,000 for school purposes. The school law now in force compelled the Toronto Board of School Trustees to provide increased accommodation for children of school age, and the Board had accordingly applied to the City Council for the sum named. They proposed to raise it by issuing debentures, and the by-law published was to that effect. When the vote was taken the by-law was negatived; but only a small fraction of the ratepayers has taken any interest in the proceedings—like our own ratepayers on a recent but dissimilar vote. The total number of votes polled was less than two hundred. The two leading city papers next day briefly commented upon this state of things, and we reproduce their remarks. The *Globe* says:—

We never object to any outlay for city purposes that is really necessary or would serve a good end. But certainly there is no use in throwing money away, and when the City Council took a vote of the citizens on the by-law for the erection of school-houses, it might as well have thrown all the money that the vote cost into the Lake. The expression of the will of the citizens on the subject is not worth the snap of one's finger, for, according to law, the School Trustees, both in town and country, can call for money either for building school-houses or for paying teachers up to the full value of all the property in the section, or municipality, as the case may be. The City Council has no choice. Whatever the Trustee demand they must supply, and the voice of the people is powerless in opposition except by their by-and-bye putting out extravagant Trustees and choosing more economical ones in their place. So long, however, as the Trustees are in power they can build and pay salaries at discretion. The only limit is thought to be all sufficient—that they cannot vote away other people's money without correspondingly voting away their own. The vote against the \$37,000 of debentures, then, is of no avail whatever, and the \$1,000 or \$100 incurred in taking the vote was a piece of absolute waste.

The article of the *Mail* is as follows:—

We can conceive of nothing more farcical than the submission to the ratepayers of a city like Toronto, whose assessment is something like \$12,000,000, a by-law to raise by loan \$37,000 for the erection of school-houses. What a transparent piece of absurdity! Five votes cast on one side, and three on the other, in the great commercial Ward of St. Lawrence! And this is called public opinion! We are not quite sure that the law requires that a vote should be taken before this money could be expended; but, if it does, the sooner such a stupid law is repealed the better. There is reason and common sense in appealing to the ratepayers whether they agree to undertake, such as the new water-works, for instance, should be carried out; or whether a couple of hundred thousand dollars of bonus should be given to a new railway enterprise. In the one case there is a large amount of money involved, and in the other case there is a principle at stake. But it is the sheerest folly to say the Council should not be permitted, at its option and as its own judgment might suggest, to expend thirty or forty thousand dollars in erecting school-houses, or in repairing streets, or in any other like ordinary services. The sooner the present law is repealed the better.

It appears from the foregoing that although the by-law has been vetoed the money must nevertheless be raised, and it now remains to be seen in what way the City Council will provide it.

Our reason for calling attention to these proceedings in Toronto is that the ratepayers of Guelph are soon to record their votes for or against a by-law to be submitted by our Town Council for raising \$30,000 to erect a new school building in this town. The School Board ask the sum to enable them to comply with the School Act of 1871, which compels them to provide adequate school accommodation for all children of school age in the municipality. We know there is a good deal of feeling amongst a portion of our townsmen against the contemplated expenditure; and in the event of the people here voting down the by-law, as the citizens of Toronto did theirs, the question will be an interesting one,—How will our Council raise the money? For our readers will remember that the School Board must provide the increased accommodation; and that the Council must provide the money to pay for it. The Council have no power to refuse the sum demanded, nor have even the people. Indeed, we believe that the Board could, if they thought proper, prescribe to the Council the manner in which the funds should be raised. We may have more to say on this subject in a future issue.

Some apprehension seems to be felt by the supporters of the Separate School that if the by-law is passed their property will be liable to assessment for the erection of the new building. They need not fear this. Their property can no more be assessed for the support or erection of Public Schools than can the property of the general ratepayers be assessed to support Separate Schools. The Act bearing on the point contains the following clause:—

"Every person paying rates, whether as a proprietor or tenant, who by himself or his agent, on or before the first day of March, any year gives, or who, on or before the first day of March of the present year, has given, to the Clerk of the Municipality notice in writing that he is a Roman Catholic, and a supporter of a Separate School situated in the said

the support of Common Schools, and of Common School Libraries, or for the purchase of land or erection of buildings for Common School purposes, within the city, town, or incorporated village, or section in which he resides, within the current year, and every subsequent year thereafter, while he continues a supporter of the Separate School."

This is equitable enough, and the supporters of the Separate Schools in this town may rest assured that the passing of the by-law will not affect their property injuriously.

Mr. McKenzie addressed a political meeting at New Glasgow on Monday afternoon, and spoke for several hours. Messrs. Jas. McDonald and Doull, M. P.'s for Picton, were present.

ANNABEL OR THE TEMPTATION.

CHAPTER XXXVI. A WILD REWILDING HOPE BURSTS ON PHILIP WESTON—HE AND JIM TAKE A JOURNEY AND MAKE DISCOVERIES.

"Oh, if Jim only knew," was the thought that occurred to her, and in the unstrung state of her nerves she unwittingly uttered the thought in words.

"Ha, the very thing," cried Philip. "Jim must come to my assistance. Away and find him, Sally, and make him acquainted with all this—let him know everything fully. You can do it as well—better than I can. Then, when he has been put in possession of everything, ask him to come to me. He will find me in the ravine, the most secluded spot of all the grounds. Away, my good girl; away. Freed not tell you to be silent to every one else. Your prudence in the matter has been already manifested."

Sally—the broom still in her hand—made a precipitate exit from the room, and Philip followed, now as eager to avoid Mrs Langton as a little ago he was to meet her.

Feeling not the ground on which he trod, unconscious of all his surroundings, and walking by instinct rather than by deliberate volition, the youth followed the footpath by the edge of the park which led to the solitary dell, in the depths of which he roamed till, at the end of nearly an hour—which to his occupied mind seemed but a few moments—the figure of Jim Potts was seen descending the slope of a brisk pace.

Philip started forward to meet him, and, seizing his arm with a convulsive grasp, sought to learn by his face the thought of his mind.

"Now, Jim—what—what do you think of this?" he gasped. "Not do I think of it, sir?" replied Jim, with evident excitement. "If that 'ere envelope Sally tells me o' is the writin' o' Miss Annabel, in course, sir, there's only one thing to think."

"Yes—yes, and that is—"  
"That Miss Annabel is alive."  
"Oh heaven! my thought is spoken at last. Alive—alive! Annabel alive! God of mercy, help me to bear the shock of joy. Jim, Jim, I fear I shall go mad."

"Don't do that, sir," said Jim, earnestly. "If it be as it looks, it will take all your judgement and energy to deliver her, for, in course, they have her in some place of confinement, and we have to do is to find the place and save her."  
"Ay, save her," cried Philip. "I will confront Mrs Langton this very hour, and demand my darling to be restored."

"A very bad way to go to work, sir," returned Jim. "In my opinion, sir, you couldn't have thought upon a worse. If once they get the hint that we have found out their wily plan, they'd think nothing o'tryin' to save themselves by murdering Miss Annabel."  
"Murdering her, Jim! Merciful heaven, do you think that possible?"  
"Well, sir, seen' as how they've gone so far, it doesn't seem to me as if they would stick at anything."

"Then what are we to do? I cannot remain inactive—no, not a moment. My brain seems burning with fire, and I shall go mad if I am not at work on her behalf. Don't ask me to wait, Jim—not even a day, for I could not do it."  
"And no need for waiting, sir. You and I can go this afternoon as if we intended going to Liverpool, but in course we get out at the nearest station to Porley."

PROFESSIONAL GAMES. The ATHLETICS defeated the WASHINGTONS in their fourth game in Philadelphia, on the 23rd, by a score of 7 to 2. Time 1h. 45m.

The MUTUALS were defeated by the ATLANTICS on Saturday, on the Brooklyn grounds, in their 7th game, by one run—6 to 5. 2 hours.

The ATLANTICS are touring this week. The BOSTONS are to play with the ATHLETICS in Boston next Saturday.

LOCALS. The MAPLE LEAF nine expect to be called to Brantford to-morrow. We have not heard who they will be pitted against.

The BOSTONS are playing with the ORTAWAS this afternoon. A match was played in Kingston yesterday between the St. LAWRENCE of that city and the BOSTONS of Boston, resulting in an easy victory for the latter. Score—55. A very large crowd was present. The game lasted nearly three hours.

The LONDON TIGERS go on a tour next week, and purpose playing games with the clubs at Kingston, Cobourg, Port Hope, Toronto, and Guelph. They expect to play in Guelph on Friday, Sept. 5th.

CRICKET. The Stratford Beacon learns from an exchange that so great is the cricketing fervor prevailing in the States, as in Canada, since the visit of the EXETER ELEVEN, that at St. Louis, where two rival clubs are carrying on desperately hot warfare, they offer "any place and his mail salaries" to any Canadian cricketers who will settle in the town.

POVERTY is bad, but the worst kind of poverty is poverty of the blood; this makes a man "poor indeed," for it takes away his strength, courage and energy; but enrich the blood with its vital element, iron, by taking the Peruvian Syrup (a proteid of iron) and you will feel rich and "as good as anybody." Try it.

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.
