The copy filmed here has been reproduced thanks to the generosity of:

Lakehead University
Thunder Bay

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Lakehead University
Thunder Bay

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

*To the Officers and Members of the Grand Council of the Catholic Mutual
Benefit Association of Canada:*

BROTHERS: We the members of your Finance Committee respectfully report that we have made a careful and thorough examination of the books, accounts, and vouchers of the Grand Secretary and Grand Treasurer for the year ending December 31st, 1893, and find the same correct and as above set forth.

We also compared the accounts of the Grand Treasurer with the accounts of the Grand Secretary and found them to agree in every particular and we are pleased to state that the Books and accounts of the Grand Secretary are as usual kept in a manner highly satisfactory to your committee.

We find that the work of the Grand Secretary's Office has been very much increased by the change necessitated on account of financial separation of our Grand Council from the Supreme. He has now to make out all the Beneficiary Certificates, arrange and number all applications and medical Certificates, keep a register of all the names of members of our Association the number of the Branch to which they belong, the date of initiation of each member, the date of issuing Beneficiary Certificates, the designation of such Certificate, and all subsequent changes in such designation. He has also to make out the monthly Assessment notices and all orders for payment of Beneficiaries; also an annual report in triplicate for the Ontario Government. The extraordinary work entailed by this necessitated the employment of additional help for which we strongly recommend our Executive Committee to reimburse him.

We have examined into the further requirements of the Grand Secretary's Office, and find that now the staff therein is merely sufficient to contain the

books, and that all the important documents, such as application, Medical Certificates, branch reports etc., are inserted in pigeon holes which afford no protection whatever in case of fire. We therefore recommend that the Grand Secretary be at once authorised to procure sufficient vault room for said documents.

We are sorry to be again compelled to call attention to Branch Reports. In this audit we find 53 Branches have not reported at all, and of the others which did report the great majority were useless, as when compared with the reports which accompanied the assessment remittances only a comparative few were found correct. This state of things ought not to exist, as a proper statement should always be easily made out from Branch Treasurers' Books. It is the opinion of your auditors that the making out of this Report properly belongs to the Financial Secretary of the Branch.

In conclusion we have to express our sincere gratification at the great progress made by the Association since last Convention, showing an increase of forty-two Branches and a corresponding increase in membership. All of which is respectfully submitted.

P. F. BOYLE, }
