The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LAPHAM'S RIVAL FOUNTAIN PEN.

(PATENTED JANUARY 24, 1888.)

The distinctive feature of "Lapham's Rival" is the slotted feed piece, which is constructed with a series of slots or openings from the rear end, one of which extends over the top of the pen, and all of which form capillary spaces, which serve to hold the ink in immediate contact with the pen and prevent a too rapid flow to the point.

This operates to overcome one of the most serious objections to the use of Fountain Pens, namely, the liability to "drop ink" or "overflow," especially when the holder is nearly empty. It has rapidly grown in favor since its introduction in 1886, and thousands of voluntary testimonials indicate its general popularity. By its merits it has reached the foremost place among Fountain Pens. The holder is of vulcanized rubber, and only the best quality of diamond pointed gold pens are used in its construction. It is simple and easily managed, infringes no fountain pen patent, and every pen is unconditionally warranted.

Good Hotel Accommodation at Lake St. Joseph, Lake Edward, and Roberval. Excellent fishing for trout and fresh water salmon. The finest Wheat lands in the Province of Quebec are now offered for sale by the Provincial Government in the Lake St. John Territory. For Particulars see Folders.

The HOTEL ROBERVAL, Roberval, has been greatly enlarged, and now has accommodation for 300 guests. A new and commodious hotel—THE ISLAND HOUSE—has been built on an island in the Grand Discharge fishing grounds, and is run in connection with Hotel Roberval. These Hotels control the fishing rights of Lake St. John and tributaries, together with the Grand Discharge, and ten miles of the Saguenay River, making these the most attractive fishing grounds in North America, covering an area of 20,000 square miles of fishing privileges, all of which are free to the guests of the Hotels.

A commodious steamer runs daily during the tourist season between Roberval and the Island House, at Grand Discharge, thirty miles distant.

The branch line extending from Lake St. John to Chicoutimi will be completed by July of the present year, and will offer to tourists a new round trip, namely, from Quebec to Lake St. John, and thence to Chicoutimi by rail, and down the Saguenay and back to Quebec by water. It is no exaggeration to say that this trip, for grandeur of scenery, is unequalled in America.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec and Winnipeg, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada. For Latitude and Longitude of Observatory see page 22.

NOTE.—Standard times* are given in all columns headed Toronto, Quebec and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. * passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The four last columns will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	-5' 11"	-3' 33"	-1' 48"	0' 00"	+1' 55"	+3' 56"	+6' 4"	+8' 19"	+10' 42"
2nd Correction for each minute of latitude	+ 1".6	+ 1".7	+ 1".8	+ 1".9	+ 2".0	+ 2".1	+ 2".3	+ 2".4	+ 2".5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'.. 1st correction = - 3' 33"	2nd correction + 1.7 × 20 = + 0' 34"
" " 47° 40'.. " = + 3' 56"	" " + 2.1 × 40 = + 1' 24"
" " 45° 10'.. " = 0' 0"	" " + 1.9 × 10 = + 0' 19"

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
Constant	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s
Difference for 1° of latitude.	-1.5	-1.7	-1.8	-1.8	-1.8	-2.0	-2.0	-2.0	

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principle fixed star, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Total amount of money and effects brought by Immigrants during 1891, as far as ascertained, \$3,510,161.

Actual cost of Immigration, \$179,778.69.

The practice of granting assisted passages to immigrants was discontinued in 1888, but during the session of 1890 a special vote was passed for the purpose of promoting settlement in the North-West, out of which the Government decided to pay a bonus of \$10 to each head of a family, and \$5 to each member of a family over 12 years; also, \$10 additional bonus to each member of the family who shall, within six months after sailing, become a settler on land somewhere in the Dominion west of the Province of Ontario, as this bonus does not apply to the old provinces. The object of this bonus is to assist the *bona fide* agricultural settler in the transportation expenses from points in Europe to points in the North-West. This policy has since been continued.

In the above statement, for the purpose of condensation, the several bodies calling themselves "Presbyterian" have been put under the one head. "Baptists" and "Methodists" have each been united in the same way—there being three branches of the Baptists and four of the Methodists in the full compilation. "Protestants" include those persons who did not give the enumerators a better detail of their faith. "Salvation Army" appears for the first time in the Census returns.

NEW BANKING ACT, CANADA.

In effect 1st July, 1891. The following are among the principal provisions:

1. The capital stock of any bank hereafter incorporated shall be not less than \$500,000, in shares of \$100 each.

2. \$500,000 must be subscribed, and \$250,000 paid to the Minister of Finance, who is also Receiver-General, and a certificate of permission obtained from the Treasury Board, before business can be commenced.

3. Bank directors must hold capital stock as follows:—On a paid-up capital stock of \$1,000,000 or less, stock on which \$3,000 has been paid up; on a paid-up capital stock of over \$1,000,000 and not over \$3,000,000, stock on which \$3,000 has been paid up, and on a paid-up capital of over \$3,000,000, stock on which \$5,000 has been paid. A majority of the directors must be British subjects.

4. The capital stock may be increased or redeemed by the shareholders, subject to the approval of the Treasury Board.

5. No dividends or bonus exceeding 8 per cent. per annum shall be paid by any bank, unless, after deducting all bad and doubtful debts, it has a reserve fund equal to at least thirty per cent. of its paid-up capital.

6. Every bank shall, subject to a penalty of \$500 for each violation, hold not less than forty per cent. of its cash reserve in Dominion notes.

7. The amount of notes of any bank in circulation at any time shall not exceed the amount of its unimpaired capital, subject to penalties varying with the amount of such excess.

8. The payment of notes issued by any bank for circulation shall be the first charge on its assets in case of insolvency, any amount due to the Dominion Government shall be the second charge, and any amount due to any Provincial Government shall be the third charge.

9. Every bank shall pay to the Minister of Finance a sum equal to five per cent. of the average amount of its notes in circulation, such sum to be annually adjusted

according to the average amount of circulation during the preceding 12 months. Such amounts are to form a fund called "The Bank Circulation Redemption Fund," to be used when necessary, on the suspension of any bank, for the payment of the notes issued and in circulation, and interest. All notes in circulation shall bear interest at 6 per cent. per annum from the day of suspension until redeemed. Payments from the fund are to be without regard to the amount contributed.

10. All notes issued for circulation shall be payable at par throughout Canada.

11. Any bank, when making payment, is compelled, if requested, to pay the same, or part thereof, not exceeding one hundred dollars, in Dominion notes, for \$1, \$2 or \$4 each.

12. No bank may lend money on its own shares or on those of any other bank, or upon mortgage of real estate, or on the security of any goods, wares or merchandise, except as collateral security.

13. Except as required for its own use, no bank shall hold any real estate for a longer period than seven years. Any rate of interest may be charged and allowed, but not more than seven per cent. can be recoverable.

14. Monthly returns signed by the chief accountant, the acting president and the manager shall be made to the Minister of Finance within the first fifteen days of each month, subject to a penalty of \$50 for each day's delay, such returns to be made in the form provided by the Act. Special returns may be required by the Government at any time. All Government cheques are payable at par.

15. No person may use the title of "bank," "banking company," "banking house," "banking association" or "banking institution," unless authorized by this or some other Act of Parliament.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the de-
fence of this country was entirely in the hands of the
Imperial Government, who for that purpose maintained
troops in each Province, supported by various local
volunteer militia corps. This volunteer militia had,
when called upon, rendered most efficient service in
times of trouble.

After Confederation the British Government gradually
withdrew all the Imperial troops from this country, and at
present only maintain a garrison at Halifax, and a
naval establishment there and on the Pacific coast.

By the British North America Act the command in
chief of all naval and military forces of and in Canada was
vested in the Queen, and the control of the same was
placed in the hands of the Dominion Parliament. A De-
partment of Militia and Defence was at the same time
established, the first Minister being Sir George E. Cartier,
and the first Militia Act was passed in 1868, 31 Vic., chap.

49. The Act was subsequently amended in various ways,
but is practically embodied in the present Militia Act,
39 Vic., chap. 41, (Revised Statutes, 1890). By it the
militia of Canada is declared to consist of all the male
inhabitants of Canada of the age of 18 years or upwards
and under 60, not exempted or disqualified by
law, this population being divided into four classes, as
follows:

The first class comprises those aged 18 or upwards and
under 30, being unmarried or widowers without children.

The second class comprises those between the ages of

30 and 45, being unmarried or widowers without children.
The third class comprises those between 18 and 45,
being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and
active service at any time: Judges, clergymen and
ministers of all religious denominations, professors in
colleges and teachers in religious orders, the wardens and
officials of all penitentiaries and lunatic asylums, persons
physically disabled, and any person being the only son
of a widow and her only support. Certain other persons
are exempt from service except in case of war.

The number of men to be trained and drilled annually
is limited to forty thousand, except as specially author-
ized, and the period of drill is to be sixteen days and not
less than eight days each year.

The Militia is divided into Active and Reserve land
and marine force. The Active land and marine force is com-
posed of men raised either by voluntary enlistment or
by ballot, and the Reserve force consists, practically,
of the whole of the efficient men not serving in the Active
Militia of the time being.

The period of service is three years.
The strength of the Active Militia (including a Perma-
nent Force, limited by the present Militia Act to 1000
men) was, in the year 1892:—Cavalry, 2,006; Field
Artillery, 1,440; Garrison Artillery, 2,358; Engineers,
179; Infantry, 32,071; Total, 38,054.

POSTAL INFORMATION.

1893.]

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent per oz., and must be at least partially prepaid;

otherwise they are sent to the Dead Letter Office. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce. All postage must be prepaid by Postage Stamps.

Post Cards.—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—All classes of matter, same rates and regulations as to United Kingdom.

Bermuda.—Letters, 5 cts. per ½ oz. Newspapers and printed matter generally, 1 cent per 2 oz.

United States.—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (see Registration Stamp), in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registered Letter Stamps have been issued of the denomination of 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 7 lbs is allowed); for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at both ends or both sides, and must not contain any letter or sealed enclosure.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain and the United States is 1 cent per 2 ozs.

Rates of Postage on Letters and Newspapers for Foreign Places.

The rates on letters and newspapers for all parts of the world are 5 cts. per ½ oz for letters and 1 c. per 2 ozs. for papers, with the exception of Bechnaund, Orange Free State, and the Transvaal, the rates for which is 10 cts. per ½ oz for letters and 2 cts. per 2 ozs. for papers.

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all books, pamphlets, occasional publications, printed circulars (productions of the type-writer, or imitations thereof are not admissible as circulars), prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttings, bulbs, roots, scions or grafts, patterns or samples of goods or merchandise, the rate of postage is one cent for each four ounces or fraction of four ounces; and on all book and newspaper manuscripts, printers' proof sheets, whether corrected or not, maps, prints, drawings, engravings, lithographs, photographs, when not on glass or in cases containing glass; sheet music, whether printed or written, including music books whether stitched or bound; documents partly printed or written, not being letters, or intended to serve the purpose of letters—such as deeds, insurance policies, militia, municipal and school returns, school or college examination papers or other documents of like nature,—and on all other miscellaneous matter transmissible by post and not otherwise herein expressly provided for, the rate of postage is one cent for each two ounces or fraction of two ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post hands or wrappers; provided that no letter or other communication intended to serve the purpose of a letter be sent or enclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged); and that the postage rate be prepaid by postage stamp or stamped posthands or wrappers in all cases.

No packet by mail if it is of 12 inches in length and of 6 inches in width and of 6 inches in thickness (above given thicknesses) when sent as above given to contents.

No packet of miscellaneous matter can be transmitted by mail if it exceed, 5 lbs. in weight, 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-books) are liable to *letter rate* of postage, except when sent as parcels by *United Post*, and the exceptions above given to matter of last class are restricted to the documents specified, such as Deeds and Insurance Policies.

Newspapers and Periodicals.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication to regular subscribers or news agents in Canada and the United States are sent free; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion, other than those addressed to regular subscribers or news agents, from office of publication, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing not more than 1 oz. each may be posted singly, if prepaid by Postage Stamp $\frac{1}{4}$ cent each.

The postage on specimen newspapers and papers and periodicals published less frequently than once a month is one cent per lb.

British publications may be reposted in Canada to subscribers free, and the publications of other countries may be posted to subscribers at the rate of 1c. per lb.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers in Canada*. When addressed to any place within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing not more than 1 oz., half a cent each.
If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom sent in the Mails forwarded by Canadian Packet or *via* New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz. The English Post Office requires *each newspaper or periodical* to be prepaid by postage stamp. If sent in packages the English Post Office declines to deliver them.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided the deficiency does not exceed 5 cents.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

United Kingdom and United States.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom must not exceed 5 lbs. in weight, and to the United States 8 oz., and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County and Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamps*. When stamps are moistened the gum is apt to be removed.

Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post or as fifth class matter.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

An arrangement has been entered into with the Post Office of the United Kingdom and Newfoundland for a Parcel Post, under which closed Parcels not exceeding 7 lbs. in weight may be posted in the United Kingdom, Newfoundland and other British Colonies and Foreign Countries, when addressed to Canada, and may in like manner be posted in Canada for destinations in the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

The Parcels exchanged with or *via* the United Kingdom will pass exclusively in the Weekly Mails conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent *via* New York.

The Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries, will be governed by the following regulations:—

1. A Parcel must not exceed 7 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed.
5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.
6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

During the year 1891, 148 new offices were opened, and the total number of offices is now considerably more than double the number at Confederation, there having been an increase of 4,123. As compared with 1890, there was an increase of 12,000 in the number of registered letters and of 208,000 in that of free letters, and 3,875,000 in the total number of letters sent. The number of registered letters was about the same as in 1890, but considerably less than in previous years, due no doubt to the increased registration fee.

New Post Offices are established by the Department whenever it is ascertained that a sufficient number of inhabitants can be accommodated, and there is a probability of a sufficient amount of correspondence to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster-General at Ottawa, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the township and the number of the lot and concession on which it is desired the office should be established; the distance from the neighbouring offices; whether there is a village at the site of the proposed Post Office; the number of mills, stores, taverns and houses thereto; the extent of the soil upon which it is desired to be located; and the probability of the mail service; together with any other facts which may form any ground for giving the accommodation applied for.

THE LAKE ST. JOHN TERRITORY.

The territory in question extends from the head of navigation of the river Saguenay, at Chicoutimi, to the north boundary of the Province of Quebec, a distance of 200 miles, and from the sources of the waters flowing into Lake St. John, from the East, to the river St. Maurice, and embracing the valley of the river Batiscan, a distance of 200 miles, the whole forming an area of 14,000 square miles, or about 28,000,000 acres. Comparatively little is known of this great country, with the exception of the valley of Lake St. John, which, within the last few years, has been colonized with great rapidity, and now contains a population of some 40,000.

The Saguenay and St. Maurice regions are already the field of large lumbering operations, estimated at 60,000,000 feet, B.M., per annum, or equivalent to about one-fourth of the whole export of sawn lumber from the port of Quebec.

Lake St. John

Is thus described by a gentleman who visited it recently:—"It is a magnificent sheet of water, abounding in fish, such as the Quananichee, (Fresh Water Salmon) weighing from 5 to 14 pounds, and said by sportsmen to be equal in every respect to the ordinary salmon, Pike, Dore, and other smaller kinds of fish.

Only on a very fine day can the other side of the lake be seen; at all other times it conveys the impression of an inland sea. Following up the west shore of the lake the scenery is very fine. A distant blue point, hardly visible at first, gradually resolves itself into a long coast line, dotted with farms, villages and churches, reminding one of the St. Lawrence below Montreal. The eye never tires of the beautiful landscape; on one side fields of wheat, rising gradually from the border of the lake, on the other the broad expanse of the lake.

The Soil

Is almost universally composed of a rich grey clay, the land seems to be inexhaustible. At Pointe-aux-Trembles I was shown a field of wheat, which had been producing that grain for the last fifteen years, without the application of any manure : and the grain I saw this year was as fine as any to be found in this district. Truly one is struck with wonder at the richness of the soil, for I believe there is none richer in Canada.

The climate of the Lake St. John region is said to be that of Montreal; there is no doubt of its being superior to that of Quebec. The snowfall is certainly less. In fact, farmers complain that they do not get good sleigh roads till late in the winter. On the 23rd September this year, I remarked that the leaves of the trees were very little tinted, and potato stems were still green. Wheat and all grains ripen and produce abundantly, as may be seen from the following extracts, taken from the census returns: "

	1801.	1871.	1881.
Wheat, bushels.....	10,912	130,000	154,580
Oats, ".....	39,316	117,249	211,216

Tobacco, pounds.....			67,437
Population.....	10,478	17,493	32,400

Potatoes, carrots and other vegetables yield abundantly, and of immense size. Wheat is of course the great test of the soil and climate of any agricultural country. Let us then compare its production at Lake St. John with the best districts of the province, viz.: the Eastern Townships, and we find that the census returns show in 1841:—

	Popula- tion.	Hushels Wheat.	Hushels per 1000 of pop

Observations

upon the highest Autumn temperature at Montreal, Quebec and Roberval, Lake St. John, by the Meteorological Department.

To show the excellent climate enjoyed by the valley of Lake St. John, especially at harvest time, we give below a table of the observations of temperature made in 1890, by the officers of the meteorological service at Montreal, Quebec and Roberval. It will be seen that the mean temperature was two degrees higher at Roberval than at Quebec and even Montreal.

ESTIMATED NUMBERS OF RELIGIOUS DENOMINATIONS AMONGST ENGLISH-SPEAKING COMMUNITIES THROUGHOUT THE WORLD.

Episcopalians	23,250,000	Free Thought, various	3,700,000
Methodists of all denominations	18,150,000	Unitarians, under several names	1,250,000
Roman Catholics	15,250,000	Minor religious sects	4,000,000
Presbyterians of all descriptions	11,150,000	German, or Dutch, Lutheran, etc	1,800,000
Baptists of all descriptions	9,000,000	Of no particular religion	14,000,000
Congregationalists	5,500,000		
English-speaking population	107,050,000		

English bids fair to become the universal language; already it is more widely spread and more freely spoken than any other tongue. In Europe it is regarded as the language of polite society. On the vast Australian and North American Continents it is the one tongue; and in the East fully 15,000,000 of Hindus, Mohammedans, Buddhists, and others, read and speak English. In point of numbers at the present time, it is exceeded by the Chinese alone.—*Whittaker's Almanac*.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In Cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of \$400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 33 Collegiate Institutes and 93 High Schools, with 22,230 pupils, in Ontario in 1891.

Public Schools.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,817 Public (including separate) Schools, with 491,741 pupils, in Ontario in 1891.

Educational Museum.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

Total Number of Educational Institutions.

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1890 was 5,844 attended by 518,000 pupils, and expending over \$5,250,000 in their support.

Safe Business Rules.

Business men, in business hours, attend only to business matters. Social calls are best adapted to the social circle. Make your business known in few words, without loss of time. Let your dealings with a stranger be most carefully considered, and tried friendship duly appreciated. A mean act will soon recoil, and a loss of honor will be esteemed. Leave "tricks of trade" to those whose education was never completed. Treat all with respect, confide in few, wrong no man. Be never afraid to say no, and always prompt to acknowledge and

rectify a wrong. Leave nothing for to-morrow that should be done to-day. Because a friend is polite, do not think that his time is valueless. Have a place for every thing, and every thing in its place. To preserve long friendship, keep a short credit; the way to get credit is to be punctual; the way to preserve it is not to use it much. Settle often; have short accounts. Trust no man's appearances; they are often deceptive, and assumed for the purpose of obtaining credit. Rogues generally dress well. The rich are generally plain men. Be well satisfied before you give a credit that those whom you give it are safe men to be trusted.

The Law Society of Ontario.

The Law Society was first established in 1797 by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1829, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 145, 1887, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually on or before the third day of Michaelmas sittings and severally elect, by a majority of votes, a Judge from their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

LIFE INSURANCE.

There are at present thirty companies engaged in the business of life insurance in Canada. Of these eleven are Canadian, nine British, and ten American. During the year 1891, which is the last one of which we have returns, there was \$37,860,287 new insurance taken, which was less by over two millions than in 1890.

The total amount of insurance in force at the end of 1891 was \$261,475,229 divided as follows:—

Canadian companies	\$143,368,817
British do	32,407,937
American do	85,098,475

\$261,475,229

During the year the amount of insurance terminated by natural causes, that is by death or maturity was \$4,899,065, while the amount surrendered or lapsed was \$19,630,169.

The premium income during 1891 was as follows:—

Canadian companies	\$4,258,926
British do	1,020,479
American do	3,128,297

\$8,417,702

The total amount paid to policy-holders during 1891 was as follows:—

Death claims (including bonus additions)	\$2,907,400 89
Matured endowments do	\$65,000 34
Annuities do	25,933 91
Paid for surrendered policies	376,516 31
Dividends to policy holders	790,507 75

Total \$4,911,485 29

In selecting a company in which to insure one's life, the first consideration should be safety, and economy the second. As the taking of a policy is a matter of importance to most men, they should be sure that the company they are going into is sound financially. Every year there is published by the Superintendent of Insurance at Ottawa a report containing the true financial position of all the different companies, a little study of which will make it plain to any business man.

The following table gives the premiums charged by some of the principal life insurance companies for insuring \$1,000 at different ages. Besides the "straight life" insurance there are other attractive plans given by most of the companies, such as "endowments," "limited payments," "terminal" and "semi-terminable," etc., all of which will no doubt be explained by the enterprising agent, and should be carefully considered in all the bearings by the intended insurer:—

Annual Premiums at Different Ages.

The following table gives the annual premiums to secure \$1,000 payable at death with profits at the ages given:—

Legal Brevities.

A note made on Sunday is void. A note obtained by fraud, or from one intoxicated, is void. If a note be lost or stolen, it does not release the maker, he must pay it. An endorser of a note is exempt from liability, if not served with notice of its dishonor within 24 hours of its non-payment. A note by a minor is void. Notes bear interest only when so stated. Principals are responsible for their agents. Each individual in partnership is responsible for the whole amount of the debts of the firm. Ignorance of the law excuses no one. It is a fraud to

conceal a fraud. It is illegal to compound a felony. The law compels no one to do impossibilities. An agreement without consideration is void. Signatures in blue pencil are good in law. A receipt for money is not legally conclusive. The acts of one partner binds all the others. Contracts made on Sunday cannot be enforced. A contract with a minor is void. A contract with an idiot is void. Written contracts concerning land must be under seal.

The thanks of the Editor are due to Messrs. F. E. Grafton & Sons for their kind permission to use "Montreal after Two Hundred and Fifty Years" in preparation of the following article.

INTRODUCTORY.

Montreal, the commercial metropolis of Canada, is beautifully situated on the St. Lawrence River at the junction of the Ottawa. In position it cannot be surpassed by any other city on the continent. Before it, sweeps the mighty St. Lawrence connecting it by the great lakes and canal system with Western Ontario, extending even as far as Chicago and Duluth; behind it, rises Mount Royal green with trees and verdure and containing hidden in its recesses one of the most beautiful parks and systems of drives to be found anywhere; around it, stretches the Island of Montreal, thirty-two miles long by nine wide, mostly fertile ground and containing a number of flourishing villages and watering places.

Montreal was founded in 1642 by Maisonneuve. For many years the inhabitants of Ville Marie, as it was called, had a hard time holding their own against the hostile Indians, but as the little colony gradually grew larger and stronger the danger became less, and less but it was not until 1701 that peace was finally made with the warlike and savage Iroquois.

The population in 1700 was about 3,000, in 1800 it had grown to 12,000, while to-day, including the suburbs, it is close on 300,000.

Montreal is the headquarters of the two great Canadian Railroads, The Canadian Pacific, extending from the Atlantic to the Pacific and being the longest railroad in the world, and its rival, The Grand Trunk.

It is also the seat of the head office of the Bank of Montreal which has a capital and rest of \$18,000,000, and is said to be the strongest financial institution in America.

Montreal possesses an admirable harbour, and ships drawing twenty-seven feet can enter from the ocean—it does a large shipping trade, amounting in 1891 to about 2,000,000 tons, and eleven banks with a capital of \$43,000,000, lend their aid to its commercial operations. The total value of real estate in the city is estimated at \$150,000,000, and the annual revenue is over \$2,225,000.

The great race divisions are represented in the population, English, numbering about 60,000, and inhabiting chiefly the West End; French, about 150,000, and Irish, or Irish Roman Catholics, about 40,000.

PUBLIC BUILDINGS AND MONUMENTS.

The City Hall, is situated on Notre Dame Street, at the corner of Gosford Street, and is a fine specimen of modern French architecture built of grey cut stone. On the ground floor is the headquarters of the Police, and in one of the upper stories is the Fire Alarm Signal Department. From the tower may be had a fine view of the harbour.

The Court House is a large building opposite the west side of the City Hall. Visitors should notice the costumes of the Judges, Sheriff and Members of the Bar.

The Post Office is a handsome building on St. James Street corner of St. François Xavier Street, about the centre of the business part of the city and is open from 7.30 a.m. to 7 p.m. A clerk is constantly in attendance at the Enquiry Department from whom information may be obtained.

The Custom House, a large triangular building with towers, is on Custom House Square near the river at

the corner of Foundling and Common Streets. Here duties to the extent of about \$10,000,000 a year are collected.

The Board of Trade Building is on St. Sacrament Street between St. Peter and St. Nicholas Streets. It is a fire proof building and besides the Board's Exchange Hall, Reading Room, Council Room, etc., contains a large number of offices and safe deposit vaults.

In The Fraser Institute at the corner of Dorchester and University Streets is to be found the only free library in Montreal. Another library and reading room is to be found in the Mechanics Institute on the corner of St. James and St. Peter Streets, but this is not free to the public.

Bank of Montreal. This Bank which is the oldest in Canada, having been started in 1817, and one of the strongest in America, has a fine building on the Place d'Armes near St. François Xavier Street. It is a Corinthian structure, and the interior is well worthy of examination, being frescoed with scenes from Canadian history.

The Y. M. C. A. Building is on Dominion Square at the corner of Metcalfe Street, built of pressed brick with grey cut stone facings. This institution is thoroughly equipped with library reading rooms, gymnasium, swimming bath, etc. It is primarily for the use of its members, but strangers are always made welcome.

The Natural History Society Museum on University Street is well worth a visit. Price of admission 25 cents.

Bonsecours Market on the water front near Jacques Cartier Square, is well worthy of a visit especially on Tuesday and Friday, market days, when the French Canadian habitants come in to sell their produce. The scene is unique of its kind. The visit should be made early in the morning to see the market at its best.

Victoria Bridge. This bridge crossing the St. Lawrence just above the harbour was opened by the Prince of Wales in 1860. It was at that time the greatest work of engineering skill in the world. It is tubular in structure and was designed by Robert Stephenson. It consists of twenty-three spans of 242 feet each and one centre one of 330 feet with a long abutment on each bank of the river. The tubes are of iron twenty-two feet high, sixteen feet wide, and weigh 6,000 tons, supported on twenty-four piers containing 250,000 tons of stone measuring 3,000,000 cubic feet. The extreme length of the bridge is two miles, and it cost \$7,000,000. The bridge is the property of the Grand Trunk Railway Company.

Nelson's Column in Jacques Cartier Square was erected in 1809 by subscription among both English and French residents. It is surmounted by a statue of Lord Nelson.

The Queen. A fine bronze statue of Queen Victoria is to be seen in Victoria Square at the foot of Beaver Hall Hill. This statue was designed by the English sculptor Marshall Wood.

Among other Public Buildings worthy of note are the following, Archbishop's Palace on Cathedral Street, Merchants' Bank, corner St. James and St. Peter Streets, Drill Hall on Craig Street opposite the Champ de Mars.

Victoria Skating Rink on Drummond Street north of Dorchester Street is said to be the finest rink in America. The fancy dress entertainments at this rink form one of the great attractions of the Montreal winter carnivals. Friends from a distance may be introduced by members and enjoy the privileges of the rink.

Toboggan Slides. There are two Toboggan slides in Montreal in operation during the winter season. The most celebrated is the "Tuque Bleu" situated on the grounds of the Montreal Amateur Athletic Association. The other is the The Park Toboggan Club Slide. Visitors to Montreal who have never experienced a Toboggan ride should not fail to visit one of these slides. It is not without its dangers but as a winter amusement it is unequalled.

SQUARES AND PARKS.

Besides the well-known Mount Royal Park, which is its crowning beauty, Montreal possesses a number of Squares or Parks scattered throughout the city, most of which are well kept and add not a little to the attractiveness of the place.

Commencing at the river front we may mention first **Custom House Square**, a little space interesting more for its historic associations as it is the oldest public square in Montreal. Most of its original extent is now covered by the Inland Revenue Building.

The Place d'Armes, corner Notre Dame and St. Francois Xavier Streets, may be considered the centre of the city's life. Facing the squares on the south rises the great church of Notre Dame with its towers 227 feet high. Adjoining the church is the Seminary of St. Sulpice. This institution enjoys immense revenues from ground rents as it still has large holdings of real estate in the city. On the opposite side of the square are the Bank of Montreal and Imperial Insurance Building, and on the east and west are the New York Insurance and the Royal Insurance Company buildings.

Victoria Square at the foot of Beaver Hall Hill is surrounded by mercantile houses and is a busy neighborhood. It is intersected by one of the principal thoroughfares, Craig Street, and is crossed twice a day by business men going to and returning from their offices by way of Beaver Hall Hill. Several of the leading Protestant churches are in this vicinity.

Viger Square is in the principal French quarter. It begins at St. Denis Street and stretches for several blocks along Craig Street east. Band Concerts are frequently given here in the summer evenings.

The Champ de Mars on St. Craig Street east is a level plateau which was formerly used as a parade ground for the British garrison which was stationed at Montreal until 1873. It is overlooked by the Court House, City Hall, St. Gabriel Church and the Provincial Government building. It is now often the scene of parades of the volunteer regiments and the fire brigade.

Jacques Cartier Square lies between the Court House and river running down towards the Harbor.

In the western part of the city on Dorchester Street between Peel and Metcalfe Streets is found **Dominion Square**. Around this square are some of the finest buildings to be found in the city, notably St. Peter's Cathedral, described further on, the Windsor Hotel, Montreal's leading hotel and reckoned to be the finest in Canada, the Y. M. C. A. Building, and St. George's Church. The two large railway stations are within a stone's throw of the Square. It is beautifully laid out in flower beds and lit with electric light. In the summer evenings it is thronged with people, listening to the music of the bands.

St. Louis Square is situated on Upper St. Denis Street above Sherbrooke and is one of the prettiest in the city. It contains an artificial pond or lake and being surrounded by fine houses and trees is a beautiful spot.

There are other squares that might be mentioned, such as Dalhousie Square and Phillips Square and others.

PARKS.

Mount Royal Park is Montreal's chief charm. It rises to the height of about 740 feet above the level of the river and is best approached by winding drives entering the park from the north-east and the south-east. This park drive is something that no visitor to the city should miss as the beauties of the mountain can be thoroughly seen in no other way. The drive as well as the general plan of the park was laid out by F. L. Olmsted of New York. Beautiful views are to be had from various points, notably Prospect Point, the Look Out, further south, the Observatory and the Summit of the mountain. The latter is reached by a flight of steps. The Park contains 462 acres and was acquired in 1860 by buying up various properties. The park may also be reached by the elevator which runs up the mountain from Fletcher's field near the Golf Club house and Exhibition grounds. It is in operation from 15th April to 15th November and the fare is five cents.

Logan's Park is being laid out on East Sherbrooke Street near Papineau Road. It is not complete at present, but when finished will be one of the attractions of the city.

St. Helen's Island lies in the river about half a mile from the city. About half of it is reserved for military purposes, the balance being a public park. It is a favorite resort in summer being covered with fine trees and provided with amusements of various kinds. A fort is built on the lower end of the island.

CEMETERIES.

Behind the mountain lie the Protestant and Roman Catholic Cemeteries. The former **Mount Royal Cemetery** is laid out in perfect taste, and occupying as it does a quiet and secluded valley is one of Montreal's most beautiful surroundings. Its main approach is Mount Royal Avenue, but it may be reached from the Mountain Park by a carriage road or by several paths.

The **Roman Catholic Cemetery** adjoins the Mount Royal Cemetery to the south and contains many objects of interest. Among the sights to a visitor are the Stations of the Cross and the life like figures of the Crucifixion. There is also a monument to the heroes of the rebellion of 1837, and of curious inscriptions there are not a few.

COLLEGES AND UNIVERSITIES.

McGill University situated north of Sherbrooke Street near the Mountain was founded in 1828 by James McGill who left \$50,000 and his lands for that purpose. Since that it has received large gifts from generous merchants and others and now has possessions valued at several millions. The University is Protestant but non-denominational. It has faculties of Arts, Medicine, Applied Science, Law and Comparative Anatomy. It has no Theological Department but is affiliated with the Presbyterian, Methodist, Congregational and Episcopal Theological Colleges. St. Peter's Cathedral on Dominion Square is probably the most striking building in Montreal, it is designed on the model of St. Peter's at Rome and is half the dimensions of the original. The foundations were laid in 1870 and it was only by assessing every head in the diocese that the enormous cost has been met. The Cathedral is built in the form of a cross, 330 feet long and 222 wide. The dome is 70 feet in diameter and 240 feet high at the top. Above the dome is a gilt ball surmounted by a glittering cross 18 feet high making the extreme height 258 feet. The interior of the building is not yet completed.

Notre Dame de Montreal the parish church facing the Place d'Armes from Notre Dame Street deserves the attention of every visitor. The building, while not beautiful, is from its size and height impressive. It is 255 feet long and 134 feet broad and will hold 15,000 people. The towers are 227 feet high and in one is held the great Bourdon bell weighing 24,780 pounds and being the largest in America. It is only rung on very solemn occasions. In the other tower are ten more bells of various sizes. The interior decorations of the church are well worth study.

It was built in 1859 under the guidance of the late Bishop Fulford. The stone spire of the Church is 211 feet high and contains a clock.

St. George's on Dominion Square is the next largest Anglican church. Inside are hung the old flags of the Montreal Light Infantry of the time of the Rebellion in 1837.

Old St. Gabriel's Church (Presbyterian) near the Court House is interesting as being the oldest Protestant church in Montreal. It was built in 1792. It is no longer used as a place of worship.

St. Andrew's Church on Beaver Hall Hill and **St. Paul's** on Dorchester Street, west, and **The American Presbyterian** near the Windsor Hotel are among the best known Presbyterian Churches. The music in the latter is particularly good.

DIATETIC SANITARIUM.

231 JARVIS STREET, - - TORONTO.

*For the Treatment and Cure of Diseases not cured
with medicine or other methods of using Elec-
tricity with the ordinary Batteries and Elec-
trical Appliances of little or no value
(curatively).*

Patients treated either at the Institution, their homes, or in private apartments, for diseases Acute, Chronic, Obsolete, Nervous or others. We employ superior medical skill for Special Diseases—the Eye, Ear, Nose, Throat, etc.—who have had experience in London and other hospitals. **FEMALE WEAKNESSES.**—Uterine Diseases most successfully treated with Electricity; also **Nervous Debility** (a lack of nerve force), etc.

With the proper knowledge of compounding the best qualities of Electricity and the use of our new improved Medical Batteries the subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus act upon the most obstinate forms of disease, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in spring-time mellow the frozen earth and infuse new life in the soil.

The mystery in making such marvelous cures is simply in knowing how to utilize the most potent and effective means in the world. Evidence in abundance of the highest type confirming all and more than we claim for this mighty agent properly manipulated from our superior machine. (A complete handbook with each battery.) See the *Electric Age* for testimonials and references, such as Hon. T. B. Pardee, Sarnia; Chas. Stark, Esq., Merchant, 52 Church St., Toronto; Rev. G. M. Milligan, 384 Sherbourne St., Toronto; Rev.
