AGRICULTURE, SAYS WILL TO MAINSTAY OF NATION

Famous Railway Builder Addresses Canadian Club at Ottawa—Some of His Remarks.

Ottawa, June 4.—(Special.)—James J. Hill should always do business indoors. His appearance is vastly improved by removing his hat. His appearance as he descended from his train at noon to two later. He has a noble forehead, a well-set well-shaped head, partly bald, with crown of grey. His delivery is plain and his enunciation, if slow, is always quite distinct.

As to the matter, well, Mr. Hill is no more a builder of roads than he is a maker of epigrams. Here are a few of the best.

"Population without land is a mob. Land without population is a desert."

"The quality of soil is less important than the quality of its population."

"In the long run the country that has the farmer is the country that will succeed."

The Making of France.

"The frugal farmer has made France the foremost nation. No war can be declared without her consent. She is the banker of the world."

"The shipper, not the railway, determines the destination of the goods."

"Preserve all public lands for the man who follows the plow."

"The best counties in Dakota are those settled by farmers from Ontario."

"Where a man is satisfied with his farm, it does not matter much to him what flag is over it."

"Don't spoon-feed railroads any longer. If you must give bonuses give money not land, keep the land for the people."

The Invasion.

There was little definite point of apparent purpose in the speech. He commended the Georgian Bay Canal and prophesied that it would attract trade north of Kansas City. It would bring Montreal closer to Chicago and Duluth than is Buffalo today.

"The invasion."

The C.P.R. lapped 2000 miles of United States territory. His road would "even things up a little. Every railroad must in the nature of things be loyal to the country in which it is located. The railroad and the country prosper or fall together. A man can move away but the country is there and the road is there; they cannot get away."

Mr. Hill said he was present when the Northwest was born. He was fond of it and ambitious for it.

He doubted whether the population in the Northwest would ever exceed 15,000,000. But old Canada would double in population. He thought our people should regard agriculture as the mainstay of the nation.

"You have other resources," he added, "but not enough to ruin you."

"Reserve Force,"

NEW PHOEBE ST. SCHOOL PLANS ARE APPROVED OF

Tenders to Be Asked—Property Committee Awards Contract for Supplies.

Letting of contracts occupied the attention of the property committee of the board of education yesterday, and it was discovered that \$150 had been saved on the moving of a brick residence from Phoebe-street around to Bulwer-street, by throwing out the old masonry for the job three weeks ago and asking for new figures. The contract was let to Isaac Wardell & Son at \$885; excavation and mason work to Self Bros., at \$790; plumbing to F. Armstrong, for \$60; total, \$1725. The lowest figure three weeks ago was \$1795, plus \$80 for plumbing and street connection.

Steinberger, Hendry & Co. will furnish fifty-six Union Jacks, five yards long, at \$4.65 each; 150 kindergarten tables, rubber tipped, at \$2 each; 300 chairs, rubber tipped, at 85 cents each. G. N. Reynolds' Company were awarded contracts for nine sub-target gun machine cabinets at \$360; six teachers' desks at \$19.40 each; forty-eight teachers' chairs at \$4.85 each.

The Canadian Office and School Furniture Co. were given the contract for about 1500 assorted pupils' desks and about 1500 bearing adjustable, at \$3.70, \$3.80 and \$3.90 each; rear seats for same at \$2.60, \$2.70 and \$2.80 each.

The Queen City Oil Company will furnish galvanized paraffine oil at 15 cents per gallon.

Imperial Oil Company will furnish raw kerosene oil at 4 cents per gallon. Canadian Oil Company will furnish turpentine at 30 cents per gallon.

Assorted window shades went to Wm. Bartlett & Son at prices ranging from 2 to 5 cents per square foot.

J. W. Gillard will do the cartage and express work for 45 cents per hour per ton.

Bids will be invited on the Louisiast-street property.

The plans for the new Phoebe-street school, submitted by C. H. Bishop, superintendent of buildings, were approved and tenders will be asked on the work of building.

The cost is estimated at \$110,000. It is planned for twenty-seven or twenty-nine rooms. It is anticipated that in making this school, large the board will be enabled to do away with John and Broad-street schools, which seem to have an annual diminishing tendency.

A plan, but substantial three-story brick and stone building is the line indicated by the plans. The ground floor will contain a long main corridor, with an entrance at each end and four class-rooms on either side. The kindergarten is in a rear wing, arranged to communicate with the hall space by means of sliding doors for assembly purposes.

The classrooms, individually, will be after much the same style as the best of present classrooms, with ample light and space and a uniformly good arrangement for proper entrance to each.

They employed French peas which will be accomplished with steam and fans.

Also the contract will be let for the whole building. It will be built in sections on account of the old school-house occupying part of the site, and the people will be transferred from room to room until the structure is completed.

What Hotel Diner Ordered And What They Ate Instead.

From The New York World.

Here is yesterday's bill of fare at one of the largest and most fashionable hotels on Fifth-avenue.

Little Neck on the half shell. Olives. Celery. Radishes.

Oxtail Soup. Egg Sauce. Potatoes, Cucumber Salad, French Peas, Grenadins de Veau.

Jambon aux Epinards. Roast Beef. Eggplant. Mince Pie, a la Chienne, Coffee.

Fruit Nuts.

And here is what the guests ate:

Leaving out the oysters, olives, celery and radishes, they had oxtail soup made from the cauliflower heads of the Chicago ox which may have been a "downer," too weak to stand on its feet.

They ate bread made from deteriorated flour and baking powder adulterated with alum and tartaric acid.

They fixed up a beautiful mess of cucumber salad very likely with oil made from the refuse of Chicago packing-houses and shipped to France, to be returned as olive and sardine oil.

They enjoyed French peas which had been preserved with deleterious acids.

The grenadins de veau were beautiful to look at being oval slices of veal, braised and glazed. Nobody dreamed, however, that the veal had been preserved with formaldehyde or young. It was larded with cholera lard.

Those who preferred jambon aux epinards dalled perforce with ham that had been doctored and fixed up with a hypodermic syringe full of Chicago packing-house "dope."

Or maybe they ate the langue de boeuf, or ox tongue. Here is where the "downer," the invalid ox—comes in again. Ox tail and ox tongue—heads of tails—the conditions were probably the same at both ends.

The potato croquettes were probably above suspicion. The roast beef brought the ox to the front again.

Those who ate mince pie got everything on the bill of fare over again. The "trailing" material in the cake was made of tartaric powder, and the menu tailed off with coffee, with a good measure of chloxy thrown in to make it more palatable.

Everything considered, therefore, the bill of fare should have read as follows:

Oysters. Celery. Radishes. Oxtail Soup, a la "Downer." Roasted Ham, Preserved Egg Sauce. Cucumber Salad, a la Formalde. Potatoes, French Peas, a la Formalde. Iced.

GRIMSBY PARK CENSURED FOR BREAKING LORD'S DAY

London Methodist Conference Opposed to Admission Fee Being Then Charged.

Windsor, June 4.—(Special.)—The proprietors and management of Grimsby Park came in for some uncompromising criticism from delegates at London Methodist conference this afternoon. The matter came up when the report of the Sabbath observance committee was presented.

"We deprecate the fact," read the report, "that the authorities connected with Grimsby Park are apparently anxious to make mercenary gains by charging admission fees on the Sabbath day, and we ask any who may be in any way associated with those authorities to use their influence to the contrary, even to the point of necessitating the closing of the gates of Grimsby Park on the Sabbath day."

A resolution of milder terms was introduced, but was defeated, the original resolution being carried by a large majority. The conference was held at the Hotel Goderich and Chatham for the next conference, Goderich being finally decided upon by a popular vote, the date being May 20 next.

Rev. W. H. Harris, a young clergyman who was ordained only yesterday, was given a job when the conference decided not to permit him to accept a pulpit at Yale Conn., while he was attending a college course at the university there. Mr. Harris had planned to spend the summer of 1906 in Europe, but the conference decided to keep him in Canada.

At tonight's session, which was devoted to missions, Rev. George Daniels and Mrs. McKee, London, delivered addresses. The conference was held at the Hotel Goderich and Chatham for the next conference, Goderich being finally decided upon by a popular vote, the date being May 20 next.

THE "YELLOW DOG" FUND SURPRISES INVESTIGATORS

National Life Committee Given Fresh Start by Evidence Before Grand Jury.

New York, June 4.—The Times tomorrow will say: "Thru testimony which Dr. Walter R. Gillette, formerly president of the Mutual Life Insurance Co., gave before the special grand jury an important 'yellow dog' fund has come to light in the Mutual Life, of which no trace was ever found either by the Armstrong investigators or by the Truesdale committee, which has had 50 accounts at work on the Mutual's books for seven months. Incidentally, Dr. Gillette had refunded to the Mutual about \$10, which remained out of the fund in his hands at the time of his resignation last March."

The "yellow dog" fund was a secret fund which was used to pay off the debts of the Mutual Life Insurance Co. The fund was discovered by the Armstrong investigators, and the Truesdale committee. SMITH'S FALLS, JUNE 4.—(Special.)—The Montreal Methodist conference today discussed a resolution presented by Abraham Shaw (Kingston), prepared by the special committee on the Lord's Day Act, protesting against the proposal to exempt Jews and Adventists from the operations of the act.

Warm Discussion is Provoked at Montreal Conference on the Rights of a Minority.

But for the liberality of Steve Wilson, a big-hearted newsboy, the opening performance Monday afternoon of "A Little Outcast" at the majestic Theatre might have been dispensed with. The whole difficulty hinged upon the immediate possession of a pair of boy's ragged pants.

When the company left Chicago Sunday, the baggage and properties were sent by train to Montreal, and the star playing the title role, contained a pair of boy's pants, and it was essential that she have them on the stage. Thru some blunder the trunk failed to reach the theatre with the other baggage.

It was almost certain time, and Miss Brady, in a fever of excitement, praying frantically for a pair of boy's trousers. The clock struck twelve when a stage hand bolted out of the stage door with the theatre and grabbed Steve Wilson on Adelaide street, hustling the little vendor into the theatre.

Steve's dressing room was found, and Steve soon lost his jeans. They were a perfect fit for Miss Brady, but she refused to wear them. She was a very good actress, and she was very popular with the audience.

LAW HAS GOOD MEMORY.

Wm. Winslow Goes Down for Two Years After Long Parole.

William Winslow of London was before Judge Winchester yesterday on a charge of stealing \$500 worth of coins from G. L. Sherlock of London two years ago.

Shortly after the robbery Frank Roy Bean was arrested, and \$250 worth of coins recovered, and Bean sentenced to 18 months in Central Prison. He comes out on Wednesday.

At that time a warrant was sworn out for Winslow, who was arrested at London. He was brought to Toronto and tried at Judge Winchester and let out on suspended sentence. The understanding was that Winslow was to report to Chief W. L. G. in London in three months.

He did so for a time, but was again looked for by the police for robbing a bank in London. He was arrested the other day. He was sentenced to two years less one day in Central Prison on the old charge.

FRISKY LITTLE CUPID IS MAKING A HARVEST FOR THE LIVERY-MAN.

As an indication that Cupid is gathering a great crop this June, the party who wants a carriage for a wedding will notice that it is not so easy to get as one might imagine, particularly for Wednesday weddings, because there are so many of the happy events that the place that the resources of the livery-men are being taxed to the limit.

It is so early in the month most of the big stables have been kept phenomenally busy, and already numerous weddings are the cause of it, as June weddings are the beautiful weather, and of course, as the weather is so good, the number of weddings is so large.

SOME OLD PROVERBS.

Everybody's business is nobody's business. Deeds are the fruits; words are but leaves. Constant occupation prevents temptation. Business is the salt of life. Better to be alone than in bad company. Conscience is the chamber of justice. Fat punches make lean plates. Dependence is a poor trade to follow. An honest man's word is as good as his bond. A guilty conscience needs no accuser. A fool can make money, but it takes a wise man to save it. A man in the head is worth two on the heels. A contented mind is a continual feast. An idle brain is the devil's workshop. He laughs best who laughs last. Honest confession is saline to the soul. Do not whistle till you are out of the woods. Do not tickle the chickens before they are hatched. God helps him who helps himself.

Chicago, June 4.—Eight meat packing establishments of Chicago tonight issued a joint statement replying to the charges made in the Neill and Reynolds report of their investigation of the packing plants, and President Roosevelt's message to congress.

In this statement the packers declare that their plants are kept clean, their methods of manufacture are sanitary, their products wholesome, and that for years doctors, chemists, sanitarians and official investigators from every civilized nation on earth who have made examinations of the manner in which the meat packing industry are conducted, have been entirely satisfied in every instance with the conditions existing in this industry. Despite this fact, the packers assert that they stand ready to accept any practical suggestions in the line of improvement.

The packing companies who signed their signatures to the statement are: Armour & Co., Swift & Co., Cudahy & Co., Morris & Co., G. H. Hammond & Co., Omaha Packing Co., Anglo-American Provision Co., J. B. McNeill & Co., and the statement, which bears the official signature of each of these corporations says:

"Every pound of meat in our packing house comes from animals which are protected, passed by trained veterinary agents of the department of agriculture. This is the absolute fact. We are interested in animals condemned before slaughter. We do not buy them. Every animal bought by us is inspected both before and after slaughter in accordance with the strictest inspection regulations ever devised in any country, not even excepting Germany. Every animal or carcass which does not pass this rigid inspection is condemned and disposed of under the personal supervision of the agents of the United States department of agriculture. We have been believers in rigid animal and meat inspection since the inspection was first begun. We have shown their belief in it by showing that the cost of the industry, an annual loss of approximately \$1,000,000, our loss on animals which are bought as healthy and condemned on inspection in connection with the most persistent misrepresentation, we are heartily in favor of making this inspection more efficient, if that can be done, and of extending the operation of the law to cover the sanitary conditions of packing houses.

It is to be regretted that Messrs. Neill and Reynolds, who are not a practical part of our subject before writing a report in which it is apparently assumed that blood, grease and every day incidents of the industry are to be dealt with in contrast with their view, we call attention to a report on packing house conditions by Prof. J. T. Burrell, Ph.D., vice-president of the University of Illinois, and Prof. H. S. Grindley, professor of chemistry at the same institution."

This report by Prof. Burrell and Grindley, which relates the results of an investigation made within ten days of the time that the Neill and Reynolds report was issued, shows that the industry is in a very healthy condition, and that the inspection regulations are being strictly enforced.

REAR NATIVES OF SOUDAN.

Dr. Karl Kunz, Sheffield, Eng., who is travelling thru America on behalf of the United Free Churches of England, to arouse interest in missionary work in the Sudan, gave an illustrated address in Zion Congregational Church last night. It was declared that special efforts to Christianize the natives were needed, since they had been steadily going over to Mohammedanism in the six years during which Great Britain had had dominion over the territory.

WELL THOUGHT OF.
Jim McDonald and John Tweed Figure in Presentations.

A gathering of street railway employees and business agents of the different labor organizations at the Labor Temple last night presented James McDonald, business agent of the street railway men, with a purse of gold and a suit case in honor of his pending wedding.

The purse was presented by J. W. Williamson, president of the Street Railway Employees' Union, assisted by W. T. Thompson, on behalf of the brotherhood. The suit case from the business agents was presented by John Tweed and J. B. Saunders. Mr. McDonald is to wed Miss Fitzgerald of Brooklyn avenue at 9 o'clock today.

Another ceremony followed, in which John Tweed was given a suit case by the local Brotherhood of Carpenters. Mr. Tweed, who for the past two years has officiated as agent for this craft, is assuming the new office of general organizer for the Brotherhood of Carpenters. John Virtue and William Storey made the remarks attending the latter ceremony.

The local pressmen met at the Labor Temple last night and appointed J. Barber and John D. Wood delegates to the international convention, which meets at Pittsburgh this year. Edward H. Randall, first vice-president of the International Pressmen's Union, is out this year for the presidency.

It will likely be two or three weeks before the report of the arbitration committee upon the trouble between the Street Railway Co. and the employees will be ready.

More Deadly Than Famine.
Neglected catarrh sooner or later causes consumption, which destroys more human beings than famine and war combined. The way "catarrh" cures catarrh is very simple; it first kills the germs that cause the irritation; then by soothing away the congestion and inflammation it cures the discharge, hawking and drooping in the throat. "I suffered so continually from nasal catarrh," writes Dr. R. Dakin of Rosemont, "that I scarcely knew what it was to be free from headache and pain over the eyes. Catarrhoxone relieved me at once and made a thorough cure." No other remedy cures like "Catarrhoxone"—try it for your next cold.

Dovercourt.
In that portion of the Township of York lying north of St. Clair-avenue, commonly known as Prospect Park, property is being rapidly settled by English and Scotch mechanics, mainly employed in the Canada Foundry and the surrounding factories. Each person buys from one to three lots and builds just a single house on the property bought, completing them and paying for the lots on the savings effected in rents. Lately these people have opened up a hall for meetings and entertainments, and weekly social gatherings are quite common events. They are now asking the council to take over the roadways thru the property.

Swansea.
Both Sunday services at St. Olave's Church were of an impressive character. The handsome altar cloth, which for the first time draped the altar-table, was presented by the churchwarden, the Rev. J. Protest.
The South York teachers, who were holding their convention, held an excursion to Niagara Falls on Friday last. Now I do not think that the teachers' convention of the government, when they granted them the power to hold conventions during the lawful teaching days, to also give them the power to take a day off from school, at the expense of the ratepayers for whom they are working. The number of teaching days now is so small, that the teachers are beginning to rebel against having so many holidays. If these teachers of South York wish to hold an excursion, why not hold it in their own time? Dovercourt, P.O. W. G. Carter.

Stood the Test And Cured Piles.
Mr. Thomas Ames, painter and decorator, residing at 243 Elizabeth-street, Toronto, states as follows: "My mother, an old lady fast approaching 70 years, was tormented beyond endurance with itching piles, and seemed unable to obtain relief, notwithstanding numerous remedies she tried. Having cured myself of a bad scalp wound by using Dr. Chase's Ointment, I suggested its use to my mother, and I must say the results have far exceeded any other remedy. Her first application gave relief, and after using the box she is completely cured and there have been no signs of a bad scalp wound. I have used Dr. Chase's Ointment as an invaluable remedy, and one which should be kept in every household. In these times of so many remedies advertised I look on it as a duty to recommend a remedy which when put to the test, performs its duty to the hilt. I shall recommend Dr. Chase's Ointment at every opportunity."
