Judge Mabey Declares Companies Deceived Board When They Asked for Approval of New Tariff.

MONTREAL, Jan. 8.—(Special).—"Your tariff and your rules are undoubtedly opposed to the business interests of the country and they have discouraged shippers all over the Dominion. They have been put into force without due notice having been given. In fact, if I had been properly informed as to the real purpose of the new tariff, I would never have given my approval to it," were the comments made to-day by Judge Mabey in the railway commission, which closed its session this afternoon.

The judge said that he had spent a great deal of time listening to the arguments of those who were presenting the existing company rates, yet he had failed to hear from them any valid reason why the tariff should not be immediately abrogated.

It was quite evident from the chairman's further remarks that the board looked with unanimous favor upon the position taken by the Toronto Board of Trade and its Montreal allies, and it is safe to say that the new rates will be cancelled.

He pointed out that in many instances tolls had been increased 100 per cent. He also said that the company had deceived the board and that they had asked for the approval of the new rates on grounds that were misleading.

The judge in conclusion said that he would give them until Monday to consider matters, but he firmly intimated that unless the tariff was withdrawn and unless more satisfactory evidence was given on Monday the board would cancel the new rates.

PORT HURON, Mich., Jan. 8.—By means of two false teeth it was definitely established this afternoon that Gideon Browning, a carpenter of Adair Village, was the man who was butchered last Tuesday evening in the little blue Roman Catholic Church in Columbus Township.

With part of the mystery which has enshrouded the brutal crime thus cleared, the superior justice of the county immediately offered a reward of \$500 for the arrest of Rev. John H. Carmichael of Adair, pastor of the Roman Catholic church, and the man who was at first supposed to have been killed, dismembered and then burned in the church steeple, thus becoming the alleged murderer. He is a man over 6 feet tall, weighing more than 200 pounds, and the description is as follows:

Both legs have been broken, and he walks with a decided limp. One of his feet turn out noticeably, one at an angle of 45 degrees. He has a scar on the upper lip and another on the side of his nose. His eyes are light blue, his hair is grey, and he has a mole on one of his legs below the knee. When he disappeared he wore his brownish heavy frock coat, a black hat, a beard and his hair shaven, showing a little grey. He had been recently trimmed.

Strenuous efforts to discover some motive for the destruction of the carpenter by the minister were fruitless to-day. Rumors that Carmichael had been seen crossing the St. Clair River into Canada could not be corroborated. An officer sent to St. Thomas, Ont., reported no trace of him there.

The wife and daughter of the minister were examined to-day by the prosecuting attorney here, and he stated afterward that he was convinced that they knew nothing of the murderer nor the man's disappearance. A statement to-day by Mrs. Carmichael, that her husband's sister is an inmate of an insane asylum in West Virginia, may explain some of the horrible features of the crime. If the authorities' suspicions about Rev. Mr. Carmichael are borne out, Mr. Carmichael also said that her husband was moody and restless the night before he disappeared, and apparently brooding over something.

It was also learned to-day that on Monday, the day before the murder, Rev. Mr. Carmichael came to the post-office in Adair, apparently excited and perturbed, and received a letter which he took away without opening.

SLOAN FOR SENATE TEMPLEMAN GETS SEAT

OTTAWA, Jan. 8.—(Special).—It is asserted here that Wm. Sloan M.P. for Comox-Adlin, B.C., will be appointed to the Senate and that Hon. Wm. Templeman, minister of inland revenue, who was defeated in Victoria, will contest the constituency at a by-election.

Petitcodiac Liberals Instruct Emmons To Oppose I.C.R. Sale

PETITCODIAC, N.B., Jan. 8.—(Special).—Much interest is manifested over the resolution adopted at the Emmons banquet last night. Practically the Liberals of the district have a mandate to oppose the government if it attempts to alienate the I.C.R.

OTTAWA, Jan. 8.—(Special).—Alex. Johnston, ex-M.P., who is urging the government to transfer the I.C.R. to Mackenzie and Mann, called upon Hon. Mr. Graham this afternoon, accompanied by D. D. Mann. It is understood that the minister was non-committal.

New Commission Marks Water Line

Treaty Between Britain and United States Only Lays Down General Principles.

(Canadian Associated Press Cable). LONDON, Jan. 8.—Reasonable expectation exists that the Anglo-American States treaty will be signed in a few days. The certain points are still under negotiation.

The waterways' draft agreement is very technical but its chief point is the establishment of a commission to deal with the water division between Canada and the United States. The treaty only lays down general principles and provides machinery for putting these into execution.

The conclusion of the fisheries question will probably be delayed a little. The question of pecuniary claims is still the subject of negotiation.

Belleville Embezzler Declares His Health Was Ruined by Stricken Conscience.

CINCINNATI, Jan. 8.—(Special).—Fred Corby Pole, Belleville, Ont., embezzler who surrendered to the police here last night, is anxious to be taken back to face the music. Remorse completely ruined his health, he said. "There is no balm that will ease the agony of a guilty conscience," said he. "I would like to steal, but oh, how hard to forget."

"It's hell to be afraid of every policeman you see. A minute before I stole the money I was as happy as any young man in the world, the minute afterwards—well, only those who have gone thru what I have felt. Remorse has completely broken me down and I am thru with being a fugitive."

Montreal Professor Perhaps in Quake

MONTREAL, Jan. 8.—(Special).—Did Professor and Mrs. John Hayward of Montreal perish in the recent disaster in Southern Italy? Is the question that is being asked to-day by a number of the professor's friends. Last August Prof. Hayward, who up till recently was a professor in the engineering department of the applied sciences faculty at McGill University, left with his wife for a tour of the world, and word was received recently that they were in Sicily.

On Dec. 21 they wrote from Messina to friends in Montreal, stating that they were leaving there that day. On the 24th, according to a post card received in the city this morning, they were at Smalf, a small town on the Campanian Coast about 25 miles southwest of Naples.

In Debris Seven Days Children Burrow Out

REGGIO, Jan. 8.—Among others who escaped uninjured when the shock came were three children, who, after having been buried in the debris of their home for seven days, got out unaided, burrowing like mice.

A man and his wife also have been found uninjured beneath ruins, where they had lain for eight days subsisting on a pint of olive oil.

Government Elevators. REGINA, Sask., Jan. 8.—In the legislative Premier Scott stated that the whole question of handling grain had been discussed by the premiers of the three prairie provinces, and while he (Scott) was not in a position to say when the decision would be given or what would be its nature, he might, without violating any confidences, say that if the governments do go into the elevator business it will be as a monopoly, and no one else would be allowed to go into it.

Theft of Brass. Michael Follow, no home, was arrested yesterday by Detective Young on a charge of theft of brass castings from the G.T.P. and C.P.D.

CLERQUE CAN'T CONTROL "SOO"

C. D. Warren, in New York, Hints at Developments in Connection With Lake Superior Corp'n.

NEW YORK, Jan. 8.—(Special).—The World saw C. D. Warren of Toronto to-day at the Waldorf Astoria relative to the report in circulation, that Mr. Clerque had secured control of the Soo plant.

The report, when repeated to Mr. Warren, caused him to smile blandly. "You may deny that report for me. There is absolutely nothing in it," said Mr. Warren. "If Mr. Clerque is even a stockholder in the company I do not know it, and I think I would. He has not, and cannot, secure control of the Soo."

"Are you here to attend a meeting of the directors of the Soo to-day?" "There is no meeting of the board to-day. It takes place next week. I will be present. After the directors meet I may have something that will be of interest to the people of the Soo territory. Until then, however, I have nothing to give out on the matter."

"Does it concern the absorption of the Soo, or will the Soo enlarge its plant?" "I do not care to say what it is, I say, but I think it will be of universal importance to that section of the country when it takes place," declared Mr. Warren.

Mr. Warren will return to Toronto tomorrow, but will be back for the meeting of the directors next week. He conveyed the impression to The World that the important event would have to do with the extension of the plant, but he absolutely refused to say just what it would be, or in what way it would affect the Soo and the people.

BIG GAS TRUST DEFIES PUBLIC

Will Not Submit in its Controlled Interests to Court Decision for 80-Cent Product.

NEW YORK, Jan. 8.—The Gas Trust has decided not to submit in all of its controlled interests to the decision of the United States Supreme Court. After several days' consideration of the memorandum of Justice Peckham setting forth the views of the court of last resort, and after pondering its many damaging phases, counsel for the companies controlled by the Consolidated Gas Company announced that they will fight separate battles along individual lines. Also that while the Consolidated will obey the court and charge 80 cents hereafter for all gas bought of it, its many other branches will continue to charge the old price of \$1 a thousand feet—and will not refund the \$300,000 of drawbacks due consumers until every issue is tried, adjudicated and finally settled.

This, of course, means simply that the trust has thrown down the gauntlet to the public that it will fight the law as expressed in the eighty-cent gas law, and that instead of applying the law as laid down by the Supreme Court, "that no court should not interfere with a rate until it has been tried and found confiscatory" the several controlled companies, upon the plea that the judgment of the court applied only to the Consolidated Gas Company, will give up no advantage "until 'beaten to a frazzle.'"

Red Light Clean Up. MONTREAL, Jan. 8.—(Special).—As a result of the campaign carried on by Rev. Arthur French, the police made wholesale raids to-night on disorderly houses, arresting thirty-one women and seventeen men. The places visited are in the heart of the "red light" district. It was a general clean-up.

St. John Still Cut Off. ST. JOHN, N.B., Jan. 8.—C.P.R. workmen have not yet been successful in repairing the damage done by Wednesday's storm, and the city is without train connection over the line with Montreal, Boston, Fredericton and many other provincial points.

Three Die in Fire. NEW YORK, Jan. 8.—Three persons are dead another was probably fatally burned and half a hundred others had narrow escapes to-night when fire swept thru a five-story tenement house at No. 665 Ninth-street.

TELEGRAPHIC BRIEFS. In a rear-end collision near Utica, N. Y., Engineer John Sampson was killed. Wilbert Konkle's home at Vineland, near St. Catharines, was destroyed by fire Thursday. The family were away. No insurance. The Canadian Associated Press has heard the opinion expressed that The London Times intends establishing a newspaper in Canada, probably acquiring a controlling interest in some existing organ.

At Musquash, N. B., Harry Harding was drowned in a millrace, and at Chester, N. B., six-year-old Horace Colwell fell in a creek and drowned.

Fire did \$200 damage at St. Sauveur Convent, Quebec, yesterday. There was no panic.

Thomas A. Edison has invented storage battery for power-propelled cars that will enable them to run 100 miles on a charge. He has expressed confidence that it will prove entirely practical.

Kaiser Round To Have a War

Having Lost Patience With England, Listens With Attention of Utterings of Military Staff.

BERLIN, Jan. 8.—Not since the beginning of the complications in the Near East has so much war talk been heard as to-day. The military party is waxing wonderful strong, and officers and staff say that war is inevitable, that everything is prepared and that hostilities will surely break out in March. The Kaiser has lost all patience with England, is turning a deaf ear to the peaceful counsels of the imperial chancellor, Prince Von Buelow, and is listening with attention to the warlike utterings of his military staff.

The Kaiser's sudden departure from Hlubertsdorf and his abandonment of the Corfu trip are all part in an argument that a coup is being prepared, owing to information received by Kaiser Franz Josef of Austria, who, having got forty-five thousand men into Bosnia and Herzegovina, has made preparations to double that number within three days.

An Austrian agent well known to the court here some weeks ago was charged with the mission of buying with all possible discretion all the stocks of rifles and ammunition he could get hold of. A report on the Enns also says that Serbia has bought 25,000,000 cartridges in Belgium.

These announcements, together with the publication of a quotation from the Serbian newspaper, The Politika, to the effect that, although the enemies could not prevent Serbia from celebrating a peaceful Christmas, bloodshed was being prepared for Easter, has tended to make people nervous.

One paper publishes a special despatch from Constantinople, which states that a high personage has just seen Kiamli Pasha and says that the Grand Vizier no longer believes in the possibility of the maintenance of the peace of Europe. This personage asserted that he had possession of proof that Austria was preparing for the outbreak of war in a few months and that Turkey was preparing for a campaign against Bulgaria.

Count Richard von Pfeil, writing in the Rundschau, says: "The outlook for war, which would open out a way for Austria to the much-coveted Salonika, and for Bulgaria to the much-desired Macedonia."

THIEVES BUSY AT SIMCOE.

POTTESVILLE, Pa., Jan. 8.—Thirty-five pupils of Mount Carbon school and their teacher, Miss Laura Deisher were overcome by coal gas to-day, caused by a leaky stove pipe, and it was only thru the prompt action of the young woman that the lives of her charges were saved.

Noticing several of the children falling asleep and herself becoming stupefied, Miss Deisher quickly comprehended the cause. She picked up four of the children and carried them outside, and in returning for the child she was herself overcome and fell over unconscious.

DR. TEMPLAR DIES OF POISON

Brantford Dentist, in Financial Trouble, Takes Strychnine Powder by Mistake or Design.

BRANTFORD, Jan. 8.—(Special).—Dr. W. F. Templar, prominent dentist and real estate holder, is dead here under peculiar circumstances.

He walked from his office across the street to his residence on Dalhousie-street this afternoon, staggered to his room and went into convulsions. Four doctors were summoned, but the doctor was beyond human aid.

Before he expired he made the statement that he had taken a sedative powder, Coroner Ashton, who was called, stated that the symptoms pointed to strychnine poisoning. A search of a dentist's office revealed the papers of the powder.

The enquiry is being continued by the coroner, and an inquest may be held. The deceased had recently occupied a palatial new residence he erected next to the Brantford postoffice.

HURT WHILE COASTING

Young Man Thrown From Sleigh at Riverdale Hill. Edward Field, 22 years of age, a lather, living at 616 East Gerrard-street, is in a serious condition at the General Hospital as a result of an accident on the Riverdale Hill yesterday afternoon.

It was with four companions was coasting down the hill on a bob-sleigh. Going over a bump all were thrown off and Field fell on his head. He suffered a concussion and his skull may be fractured. He was taken to the hospital in the police ambulance, which was summoned by Mounted Policeman Gracie.

PRESSE RESENTS GLOBE ATTACK

Says Man Who Wrote Un-Christian Article Used to Preach Christian Charity.

MONTREAL, Jan. 8.—(Special).—Following Lawrence A. Wilson's defence of the late Hon. Raymond Prefontaine against the Globe's attack, La Presse article used to preach Christian charity in the temples of the Lord. He used to preach charity for the living and justice for the dead.

"Everyone knows," continues the French newspaper, "that Hon. Mr. Brodeur is neither directly nor indirectly responsible for the scandal in the department of marine, but by what right has the late Hon. Mr. Prefontaine been made responsible for the scandal? There is nothing in the enquiry instituted by Judge Casse, any more than in the investigation by Messrs. Courtney, Fyvie and Bazin, that implicates the late minister. It was the system that was in fault, and it has existed since Confederation."

"There was but one remedy to all these irregularities, and that was to abolish the political patronage list, and this is exactly what was done. The Toronto Globe was aware of these facts, as well as everybody else, and that paper was very badly inspired the other day in seeking to tarnish the reputation of a man who left behind him a name without a stain, and whose memory is universally respected by the honest people amongst whom he lived."

Textile Stocks Sold. MONTREAL, Jan. 8.—(Special).—Three out of the five millions of the Dominion textile common stocks have been as good as disposed of in London. One million has been sold at 55 1/2, while a 20 days' option has been secured on \$2,000,000 at 68 1/2, and it is generally understood the option will be executed.

FIRE ON PEARL STREET.

Three Firms Lose Thousands by Flames and Water. Fire at 12:45 o'clock this morning damaged the three-story brick building at 128 Pearl-street to the extent of several thousand dollars. The ground floor and basement are occupied by H. Biddell, Premier Motor and Garage Co. The next floor, at the back of which the fire seemed to start, is occupied by the Fibreside Pattern and Model Works, and the top flat is occupied by Day and Rennie, sign painters.

The fire was discovered by P. C. Kents who turned in the alarm. Damage by water was heavier than that done by the flames.

HOUSE REBUKES TEDDY FOR MESSAGE

By Vote of 212 to 35, Declines Firmly but Respectfully to Consider Portion Reflecting on Members of Congress.

WASHINGTON, Jan. 8.—After having made him the target all day for criticism, with here and there words of commendation, the house of representatives to-night, by a vote of 212 to 35, rebuked President Roosevelt by tabling so much of his message as reflected on members of congress in connection with his recommendations regarding the secret service detectives—and also declaring that it be the sense of the house that they shall decline to consider any communications from any source which is not in its own judgment respectful.

With feelings of outraged dignity and pride on the part of many of its members, the house to-day gave itself up entirely to a discussion of one of the most momentous questions that ever came before it—its functions as a legislative body—in contradistinction to those of the executive branch of the government.

Firm, But Respectful. As had been forecasted, the report of the special committee appointed to deal with the language in the president's annual message, and in his special message of last Monday bearing on the secret service affecting members of congress, was submitted, and it was used as the basis for some of the most earnest and vigorous speeches ever heard in the historic chamber. The house was in no mood to treat the subject otherwise than seriously, altho in the remarks which were made the references to the president were invariably rebuffed in parliamentary language. Nor was the president without supporters.

Anticipation of the report, the effect of which was to administer a rebuke to the president for the first time of the largest attendances of members of this session, while the galleries at all times were filled to their capacity. To accommodate the crowd, the doors opening into the corridors were thrown open and these were choked with persons, while standing in line behind them were hundreds of others. The house was not a moment during the day that the diplomatic gallery was not fully occupied, many of the foreign representatives being compelled to sit on the steps of the aisles. This also was true of the president's gallery, altho no one of his immediate family was present.

Neither was his son-in-law, Representative Longworth of Ohio, in his seat during any part of the day. So great was the interest in the proceedings that many senators came over to the house and sat for several hours. Toward the close of the debate, Mr. Gardner of Massachusetts vainly endeavored to secure the adoption of a substitute for the president's message of an amendment expressing confidence in the committee on appropriations and then the postponement of the whole matter until Monday, but he was overwhelmingly outvoted.

Senator in Land Grab Exposed by Roosevelt. WASHINGTON, Jan. 8.—President Roosevelt to-night made public the details of an investigation by postoffice inspectors and secret service agents of Senator Tillman's connection with an alleged "land grab" in Oregon. As he presented the evidence to Senator Hale, in response to the latter's request for the heads of the various executive departments for a statement of the operations of the secret service, the president undertakes to show:

"That Mr. Tillman used his influence as a senator in an effort to force the government to consent to a railroad corporation to relinquish its control of land grants from the United States, in order that he and his family and his secretary, J. B. Knight, might profit thru the purchase of some of the land. That the senator used his government franking privilege in numerous instances for the conduct of private business. Tillman will reply on Monday."

NOTE AND COMMENT

Thanks to the weather the city curlers went away to a grand start last night, and by to-night there will be left to tell the tale only 28 of the original 102 rinks.

There are just one short of a dozen more teams than a year ago, these being principally accounted for by the presence of the East Toronto men, who, while most of the Caledonians, the absent in name, are doing duty for the Granites and Queen City.

Lakeview and Varsity suffered least, only one vacancy each while Queen City and Toronto each report seven among the missing.

At Lakeview the ice had been wrinkled in the afternoon. Thus the players found a sticky surface and they were thru curling by 10.30, while elsewhere it required an hour longer on the keen ice.

The following telegram was received in Denver yesterday by the sporting editor of the Denver Times from Jas. J. Jeffries in London.

Every sportive finger in the country has been pointing toward the champion until he can stand the strain very much longer.

Whitby 3, Bowmanville 2. BOWMANVILLE, Jan. 8.—(Special.)—The first O.H.A. game ever played in Bowmanville was played to-night between Whitby and the local boys.

Queen's Are Strong. KINGSTON, Jan. 8.—In one of the fastest and closest games seen here in years, Queen's University defeated the 14th Regiment team by a score of 7 to 4.

Table with 2 columns: Rink Name and Score. Includes Granite, Queen City, Toronto, etc.

Thirty Rinks Are Down and Out First Games Trophy Competition

Queen City and Toronto Lose Seven Each—Lakeview and University Get Off With One Defeat Apiece—Scores and Draw.

The single rink competition started last night, thirty quartets being eliminated, leaving seventy-two still to play. The ice was keen, and it can hardly be said that there are any surprises.

Toronto's bonspiel is truly one grand competition, and while it does not make as much noise as the incident at Wimpey, everyone will tell you it is just as big, except those who have curled in both.

DOLLIE FOSTER REPEATS WINS THE 2.18 PACE

Jerry Annexes the 2.30 Pace—The
Eel Goes After the Ice Record
To-Day.

The attendance at the ice races yesterday was very disappointing, only a few hundred of the regulars turning out to witness the races, which resulted in close contests for second and third money, as the winners outclassed all their field.

The following are the entries to-day: S. D. C. blk., by Scarp; J. O'Brien, Fairbank.

Local race— Gusie Hal, gr.m.; R. J. McBride, To- ronto.

Clinton 5—New Hamburg 2.
CLINTON, Jan. 7.—The first Inter-
mediate O.H.A. match of the season
was played here to-night between New
Hamburg and Clinton, resulting in a
victory for the home team by a score
of 5 to 2. The ice was in good condi-
tion and it was a good game through-
out.

CLOUDLIGHT RAN FIRST WAS DISQUALIFIED

Nearly a Serious Accident When
Trust Fell in the Fourth Race
—The Summary.

OAKLAND, Cal., Jan. 8.—The fifth race at Emeryville was marred by an accident, in which Jockey Mentry narrowly escaped injury. He was on Trust, which was running third, fifty yards from the finish, when he stumbled in the muddy going and fell. Several horses escaped directly behind him, to-day Mentry was unhurt. Trust was not injured much. Cloudlight won the last race, being disqualified for fouling Jacobite, the latter setting first money. Summary: FIRST RACE—Six furlongs: 1. Traffic, 104 (Goldstein), 9 to 1. 2. Blamless, 111 (Miller), 20 to 1. 3. Miss Highland, 98 (Fisher), 10 to 1. Time 1:10. The more one considers the 80 cent gas case just decided by the United States Supreme Court, the more one is impressed with the firm grip which the courts in the United States are taking hold of these great public utility corporations.

The United States Supreme Court says that reasonable legislative regulation does not "warrant the interference of a court of equity to force an actual and bona-fide test has been made under the practical operation."

It will be remembered that the gas company obtained the judgment in the lower court, and pending an appeal to the supreme court, charged the old rate of 10 cents per thousand.

Our courts and railway commissions in Canada do not seem to get the same firm grip. Take for example the matter of a penny-a-mile third-class service between Montreal and Toronto on the G.N.R.

The general manager of the company was convicted in the Toronto Police Court of disobeying this law, and later escaped, because the court afterwards held that it was the commission itself which should have been dealt with.

way commissioners controlling railway companies, since the board is itself in direct control of the roads themselves.

The new regulations came into effect in the Lesser Dominion on Nov. 9 last. A fifty-trip commutation ticket, for example, covering a distance of twenty-five miles, can now be had for \$12, a rate working out at about a cent and one-half a mile.

The maximum distance are charged about \$3.25, or slightly over a cent a mile. A new scale of reduced suburban fares is scheduled for distances of twenty miles and under, and those outside that limit only pay ordinary rates for the excess mileage.

On charges in favor of the city never again to make a contract with the Cataract Power Company or with any other public service corporation.

An award of \$16,000 for overcharges in favor of the city and against the Cataract Company under the contract between them is set aside and it is practically certain that the city will not receive a dollar, although there is a reference back to Judge Snider, who acted as arbitrator.

Needless to say this decision will occasion no loss of sleep to either the Times or the Spectator. They are profoundly silent on July 1.

This victory may, in the end, cost the company dear. It illustrates again the futility of a municipality trying to bind or tie up a public service corporation by any form of contract.

There is always a little "joker" inserted, and the courts never fail to find it. Let Hamilton deal with the Ontario Government and she will get a square deal.

As was promised by Mr. Asquith to the deputation that waited on him some weeks ago in support of the principle of proportional representation, a royal commission has now been appointed to examine the various schemes adopted or proposed in order to secure that object and to consider how far they or any of them are capable of application to the conditions of the British electorate.

case of leprosy. On investigation he found that the young man was accustomed to have his laundry done at a Chinese place, and on further enquiry discovered that the owner of the joint and one of his workmen were in an advanced stage of the dreaded disease of leprosy.

The finding caused the physician to report to the board of health, and they started an investigation. Citizens who heard of the case demanded that the place be closed at once, as well as all other Chinese wash-houses in that city.

The question: "Are the Chinese laundries a menace to the health and welfare of the community?" is one that, to my mind, demands serious consideration. A Constant Reader.

THE ITALIAN DISASTER. Goldwin Smith in Weekly Sun: Once more the Tower in Siloam has fallen; fallen on the most tremendous scale and in the most grotesque manner.

It is supposed that this Sicilian calamity is the greatest of the kind since the world began. This is doubtful. On July 1, 285, under the Roman Empire, a great part of the Roman coast was shaken by a violent and destructive earthquake.

The shores of the Mediterranean were left dry by a sudden retreat of the sea, great quantities of fish were caught with the hand, and large vessels stranded in the mud.

Trial Court. Before Anglin, J. Toronto, Hamilton and Buffalo Railway Co. v. Simpson Brick Co., et al.—J. W. Nesbitt, K.C., for plaintiff, A. M. Lewis for defendant. Trial at Hamilton without a jury on Nov. 30, 1908. Judgment (B). The plaintiffs sue for an injunction restraining the defendant from trespassing upon the plaintiffs' right of way and railway tracts. The defendant, as lessee of Mr. J. J. Scott, occupies and operates a brick yard in the City of Hamilton on the north side of the plaintiffs' line of railway between Hamilton and Brantford in connection with his business the defendant uses a private lane or right of way 20 feet in width over the property of one Maguire, lying to the south of the plaintiffs' railway. This lane leads to Aberdeen-avenue, and is the only means of access from the defendant's brickyard to a public highway to reach this lane the defendant uses a crossing over the plaintiffs' railway and this constitutes the trespass of which the plaintiffs complain. The plaintiffs have entirely failed to establish their right to the relief which they claim. There has not been in this case any such severance as would involve the cessation of the right of crossing. The action should be dismissed with costs.

Writs Issued. E. R. C. Clarkson, liquidator of the Boehmer-Erb Company, Limited, is suing Osler Wade and Aaron Erb, Clarkson alleges "the wrongful detention and conversion of a quantity of goods, to the value of \$500, the property of the Boehmer-Erb Company, Limited. The Hamilton Gas Light Company sues the Moss Chemical Manufacturing Company of Toronto to recover \$1000, alleged to be due for goods sold and delivered. James A. Brown sues Hiram Kitley on a claim assigned to Brown by Robert Ervine Henderson. It is alleged that Kitley sold some stock and received \$10,854 in commission. Ervine says that this was \$229.36 too much, and sues for the alleged excess.

INTEREST TO WOMEN

The World will be pleased to receive items, such as engagements, weddings, parties, teas and other news of personal interest, with the names of those present, for this "Society News" column. The items should be endorsed with the name and address of the sender—not for publication, but as a matter of good faith. State whether you prefer them to appear in the Sunday or daily issue.

FORBEARANCE.
Has'th'ou named all the birds without a gun? Loved the woodcock, and left it on its stalk? At rich men's tables eaten bread and pulse? Unhated, faced danger with a heart of trust? And loved so well a high behavior. In man or maid, that thou from speech art refrained? Nobility more nobly to repay? O! give my friend, and teach me to be wise!

—Ralph Waldo Emerson.

A Transformation Coat.

Vogue says in describing for the benefit of the woman "with little to spend" a garment that is a wrap for evening wear both winter and summer, a coat for morning, sleighing or driving and for all kinds of outdoor use in the warm months: This may seem a hard-wearing member of the wardrobe when so many who are enumerated, but it is after this wise that so much is possible for one garment. To start, the coat is a loose, full model in a gray mixed chevrot, neatly cut, but of no particular fit, save just around the collar and across the shoulders. In it there is a lining of squirrel, the full length of the coat, and the sleeves. This provides the winter wrap, and for summer the fur is taken out, leaving an unlined coat, neatly finished inside. Now as to the evening wrap. This is separate and completely finished, made of supple satin, thick enough not to show the coat beneath, in colors, such as green and heliotrope, or again in black and white check, is a good choice. Satin in old blue or dull rose would be lovely. The fur collar can be made detachable, to go with the jackets of suits, so that altogether one has a great deal for the investment.

Mannerisms.

Writing on "Mannerisms" in The January Smith's, Florence Augustine says: "Of the many minor traits objectionable in the manners of women, the most noticeable, perhaps, is the habit of touching the hands to the hair. With the addition of rats and pins, the hair is piled up, and there is constant repudiation as to the fall of these extra ornaments. Some girls never get down to table without assuring themselves that their hair is in place and doing their duty. It is needless to point out that this finger-tapping is not only offensive to the refined taste, but is a sure sign of nervousness. It is a habit of touching the face, tapping the lips with the fingers, rubbing the eyes, picking the nostrils, and the pulling of the cheeks. One should avoid these figures as sedulously as one would avoid hitting the finger nails, which is as surely the unpardonable sign of nervousness of all mannerisms. Such little habits as pulling at the collars, at the sleeves, drawing the neckerchiefs, and drumming on the table with the fingers, pointing the index finger to emphasize the speech—all these are well-known and have been pointed out in our past columns. To these may be added to indefinitely. What one of us has not one or more of them tucked on to our mannerisms."

A Woman's Sympathy

Are you discouraged? Is your doctor's heavy financial load? Is your pain a heavy burden? Do you know what these mean to delicate women—I have been discouraged, too, but I have a cure myself. I want to relieve your burden. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me. All you need do is write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you. It has done so for others. If so, I shall be happy and you will be cured. Write for your free box of the remedy. Write to the manufacturer, Mrs. E. J. B. Widdowson, Windsor, Ont.

Toronto World's Beauty Patterns

No. 8361.—This waist typifies one of the most popular of the new models. It requires no trimming, and may be made with plain or embroidered collar and cuffs. The back of the waist is quite plain, with only a little fullness at the waistline, while the front gains its broad-shouldered effect thru the four plaits that fall in a pretty fullness before, leaving an ample room for the bust to make, and is especially attractive for small-framed silks, with bands of plain silk and covered buttons to match; flannel or wash material may also be used, with satinet, embroidery or buttons for trimming. The pattern is cut in six sizes—32, 34, 36, 38, 40 and 42 inches bust-measure. It requires 3-1/2 yards of 24-inch material for the 38-inch size.

Complaint of J. B. Stringer & Co. of Chatham, alleging discrimination against Chatham in the freight rates on the Canadian Pacific Railway on corn.
Application of the Canadian Manufacturers' Association for an order directing the railway companies to provide for the inclusion of graders for municipal purposes in the agricultural implement list of the Canadian Pacific Railway.
Application of the Retail Coal Dealers' Association for an order respecting the receipting of coal from shipper to other railways, weighing of coal at port of entry, weighing cars unloaded, collecting freight only on tonnage reaching destination, monthly settlement of charges, re time of setting up of scales, and in scales.
Complaint of the Dominion Millers' Association alleging that the Canadian Pacific Railway Company unjustly discriminates in its method of dealing with shipments of grain and flour from Port William and Owen Sound. The complaint is made in the east and in favor of shipment of grain and flour as addressed for export.

The Inaugural ceremonies of the new city council on Monday will proceed along the customary lines. After the mayor has taken the oath of office before the city clerk, he will repair to the council chamber, which will be graced by the presence of the newly-elected members, their families and friends. After the opening prayer by Rev. G. E. Clarke, the mayor will deliver his inaugural address, commencing with an up-to-date report on the city's affairs. The mayor will appoint the year's committees, and Henry Pollard will be a chairman. The appointments to the boards of various public institutions will follow. The aldermen will have a chance to spring their proposals for the city, as expected by civic officials. Here are a few of the ideas which will be brought forward:

Ald. Foster: That the board of control report upon the reorganization of the tax collection branch of the treasury department, so that hereafter to conserve the public funds all tax returns shall be filed at the city hall, for the convenience of those residing at a certain distance from the city hall, arranged by the city treasurer for the payment of taxes at branch banks.

Ald. Vaughan: That the committee on Bloor-street viaduct report upon the advisability of extending Bloor-street easterly across the River Don to connect with North-avenue by means of a high level bridge.

That the board of control report upon the advisability of locating the proposed new city library at the corner of Gerard and Parliament-streets.

And Vaughan: That the committee on parks and recreation take up the matter of public supervised playgrounds and report thereon; also report upon the advisability of playground for children in several of the public parks for the use of the public generally.

Ald. J. Graham: That the committee on public health report upon six new lavatories at convenient points and also of placing a number of drinking fountains in different parts of the city.

Ald. Maguire Gets Busy.

Ald. Maguire—That the board of control consider the advisability of having all street railway matters, judges referred to a board of arbitrators, Judge Winchester to be the city's representative and the G.T.R. representative one, the two to agree upon a third, the finding to be final and binding. That the property committee consider the advisability of removing the public library at or near the corner of Gerard and Parliament-streets.

That the parks committee consider the advisability of playground for children in the congested section bounded by Teruya-street, Centre-avenue, Albert-street and Hayer-street.

ONE SAYS HE WAS UNABLE TO RECOGNIZE HIS ENEMY AND POWERLESS TO STRIKE.

FLUSHING, N.Y., Jan. 8.—The defence in the trial of Thornton J. Hains as a principal with his brother, Capt. Peter C. Hains, for the killing of Wm. B. Annis, came to a close this afternoon, and before court adjourned Justice Crane announced to the jury that they would undoubtedly be able to conclude their labors about the middle of next week.
The defence placed alienists on the witness stand to-day to tell the jury that Capt. Peter C. Hains suffered from "impulsive insanity" when he shot Annis. Their cross-examination was not calculated to aid the defence, both medical experts disagreeing in some main essentials of their testimony. The confusions and seeming contradictions of the alienists served to prolong their cross-examination all day.
Dr. L. Samuel Manson declared that Capt. Hains suffered from manic-depressive insanity last August, and that his attempt prevented him from recognizing the face or name of an enemy. The alienist said that in a patient suffering from such a malady all power was practically lost.
Dr. L. Pierce Clark, another alienist for the defence, testified this afternoon that Capt. Hains was sane when he shot Annis, but became insane in November, when he made his last examination.
A few witnesses were called in rebuttal by the state late to-day, when adjournment was taken.

DIDN'T REAP THE HARVEST

New York Have Promoters of Merchandise Agency in the Police Court.
Francis Swallow and James E. Gillbank claim that George A. Snider, president and Ernest K. Snider, secretary of the North American Merchandise Co. of Montreal, have defrauded them of about \$700, and the Sniders "appeared before Magistrate Denison charged with fraud. A week's remand was made after some evidence was taken.
The company operated on the idea of having those it interested pay \$1 a week for two years (or \$104), when \$156 in merchandise was to be theirs. If a payment lapsed, the debt was off and previous payments were confiscated unto the company.
Snider said he had invested in the National Merchandise to a United States concern, taking four contracts, which he had paid \$416. When the company gave up the business, the contracts were taken over by the Canadian company at half credit. He had paid up a balance of \$120 and they had matured last May, but he hadn't succeeded in collecting.
H. H. Dewar appeared for the Sniders. "You know that the lack of business had forced the company to fall to carry out its contracts," he said. "and that you, North American Company was assuming a very big load in taking over their obligations."
Swallow said he told the figures that they couldn't fulfil their obligations.
"No," they had figured it out for themselves," thought the witness.
W. J. Pierce, manager of the company's local agency, and a company organizer, said he had undertaken the work as a result of correspondence with Mr. G. A. or B. K. Snider who had told him that they were acting as manufacturers of goods and merchandise. He had been with them only a short time.
He told Mr. Dewar he had known of the National Company, but it wasn't "wholly" his company.
"There was first the Preferred Mercantile Co. of Boston, then the National Mercantile Co. of Washington, and then you switched Swallow and Gillbank the North American Co. of Montreal," asked Mr. Dewar.
"I can't say I switched them. The North American Co. purchased them. If it hadn't been for you, tho., Swallow and Gillbank would not have been in their present position."
"Oh, I can't say that. The transfer of their contracts was made thru a man named Rankin."
"And you really thought the company would allow the amount guaranteed Swallow?"
"I learned only a few days ago that it couldn't."
Scores of contracts had been paid by cheque thru Montreal, he said. The only reason he could assign for the business' present position was bad luck. He knew of one of Mr. Snider's contracts had been paid, and he also remembered that a grocer on Spadina-street had been paid off when his contract matured.
"As a matter of common sense it's a wonder that anybody went into it," was the magistrate's concluding comment.

WAS TROUBLED WITH WEAK BACK FOR YEARS.

Services will be held to-morrow in the new Knox Presbyterian Church, Spadina-avenue, corner of Harbord-street.
Rev. Dr. Patton of Princeton Theological Seminary will preach morning and evening. In the afternoon Rev. James Murray and Rev. J. C. Robertson will address a meeting. Monday evening Dr. Patton will lecture; Wednesday night there will be a mission-ary lecture, and on Thursday night Canon Cook, Prof. Ballantyne, Rev. Dr. Wilson and Rev. Ballantyne, will speak at a congregational social.
On Sunday, Jan. 17, Rev. Frederick Dunlop of Winnipeg will preach morning and evening, and the speakers of the afternoon will be J. Loudon and Rev. A. E. Armstrong.
The new church is built of Credit Valley stone, with Indiana limestone trimmings. The spire, not yet completed, will be about 90 or 95 feet high. It will be of stone, and makes the total height of the church 192 feet. The new building costs about 1200 in ground floor and the one gallery, but that capacity can be increased by adding a second gallery at the top. There are three memorial windows on the Spadina-avenue side of the church. Mrs. Dora J. McKay and Mr. and Mrs. Farley. The building is finished inside in dark oak.
The church was dedicated on Jan. 27 last, and has been in use since that time. The congregation left the old building on Queen-street, near Yonge, and started worshipping in the school-room at the present church.

WAS TROUBLED WITH WEAK BACK FOR YEARS.

Mr. Arch. Schure, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me with ointments and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now able to do my work. I am positive of the building of the new world. My wife and I would advise all kidney sufferers to give them a fair trial."
Doan's Kidney Pills are a purely vegetable medicine, realizing quick, permanent relief, without any after ill effects. This medicine will absolutely cure Backache and all forms of Kidney and Bladder Disease.
A medicine was enabled to extract the poisonous uric acid from the blood and prevent the chief cause of Rheumatism.
Price 50 cents per box, or 3 for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont., in care of Dr. C. J. H. McPherson.
In ordering specify "Doan's."

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a rational method of curing this trouble. Mrs. Box, 66 Windsor, Ont., will send you a home treatment, mother her success-story. Send no money but write her in this way: "Your children trouble you because they can't help it. The child, however, is cured and aided and aged people, troubled with urine difficulties day or night."
A GREAT SPEAKER.
In the Person of Hon. Oliver Stewart of Chicago.
The Canadian Temperance League will have a speaker for their Sunday afternoon meeting in Massey Hall which is distinctly out of the ordinary.
Stewart represented the great Hyde Park District of Chicago in the Illinois Legislature for some years and made a name for himself as a man of great ability.
His reputation as a speaker is as wide as the continent, being classed as the most original and forceful temperance lecturer in America.
Miss Helen Dorland has consented to sing, which will add in no small way to the attractiveness of the program.
The chairman will be Mr. Portman, city assessment commissioner.

Friends of C. W. Hartman, private banker of Clarkburg, are urging his claims for appointment to the estate of Joseph Brozovsky (otherwise known as Joseph Berria), the defendant.

Atex Johnston, ex-M.P., after carrying on a campaign in Cape Breton in favor of transferring the I.C.R. to a private corporation, has now appeared in Montreal.

Some interesting gossip comes from Ottawa about Mr. Templeman's successor. It seems that Sir Wilfrid Laurier's ministerial secretary, Mr. J. H. McLean, has been suggested.

It is not unlikely that Hon. Jacques Bureau, the solicitor-general, will succeed Mr. Templeman as minister of inland revenue.

NEXT WEEK AT THE THEATRES

At the Royal Alexandras. With a story that has called forth much sincere praise for its author, Wilfrid de Mille, a presenting company of unquestioned distinction and a production of that combined beauty and impressiveness which characterizes all of the work of David Belasco, "The Warrens of Virginia" will be seen for the first time in Toronto Monday night at the Royal Alexandras.

Immediate view are the two concerts to be given by the National Chorus at Massey Hall, Monday and Tuesday, Jan. 13 and 14, on which occasions they will have the assistance of the New York Symphony Orchestra, with Mr. Walter Damrosch as conductor, and the famous mezzo soprano who made such a phenomenal success here last season with Caruso, Miss Margaret Keyes. Since her return from a period of study on the continent Miss Keyes has more than kept up her reputation as a great artist and of a recent performance in Montreal The Montreal Daily Witness says:

"Miss Keyes has a beautiful contralto voice, rich and true in every note, and she sings with a most intelligent interpretation, and a pleasing freedom from mannerisms." One of the important numbers that the orchestra will play and the hearing of which is being looked forward to with much interest is Sir Edward Elgar's new symphony, which was played for the first time, in England a few days ago.

Andrew Mack. Andrew Mack, who comes to the Grand next week, is regarded as America's foremost Irish actor and singer. He has devoted his entire life to playing Irish plays and has been a star for many seasons. During his stellar career he has produced many Irish plays, and of the many in his repertoire, "Sergeant Devil McCare," which

For the first time in the history of the Princess Theatre, an attraction is to play twice in the same season, and this distinctive record is held by Julian Edwards' triumphant comic opera "The Gay Musician," which returns to the Princess for a week's engagement, commencing next Monday evening, with matinee on Wednesday and Saturday.

The fact that "The Gay Musician" stands in a class by itself, appealed to all lovers of music and the play-going public in general. Too many musical attractions are sent on to that savor of vulgarity and horseplay, with a meagre of tawdry songs and impossible plot as the foundation. In "The Gay Musician" composer and librettist have evolved a comic opera on the lines laid down by Gilbert and Sullivan. Depending on its merits alone, "The Gay

CHARLOTTE WALKER IN "THE WARRENS OF VIRGINIA," ROYAL ALEXANDRA NEXT WEEK.

It is woman's illogically that makes her logical, and of her the unexpected may always be expected. This is the only hypothesis by which one can account for the ambition possessed by Charlotte Walker of David Belasco's "The Warrens of Virginia" Company, which comes here next week at the Royal Alexandras Theatre, to reach the greatest height possible in her profession, there is no other which she feels so keenly.

Miss Walker's idea is not to have any special shape or style of hat named after her; the popularity which has come to her, exclusive of her desire to rise to the greatest height possible in her profession, there is no other which she feels so keenly.

splitting farce, "Stop Suez," or "The Sole Kiss."

At the Majestic. Barney Gilmore, the popular young actor, will be seen in a revival of his great comedy drama success, "Kidnapped in New York," at the Majestic next week. Mr. Gilmore has been seen in a number of plays in the past few

years, but none of them seem to please the patrons of the popular price houses as "Kidnapped in New York." This play deals with life in a big city and is plentifully supplied with the sensational incidents and thrilling act climaxes so essential to the success of productions catering to the patrons of the melodrama houses.

At the Gayety. One of the biggest and brightest entertainments of the burlesque and vaudeville of the season will be presented next week at the Gayety by "The Lid Lifters" Company, which is headed by one of the strongest and best-equipped light extravaganza organizations ever sent upon the road to play the popular-priced circuit.

At Shea's. Manager Shea has booked the Mirza Golem Troupe of Persian acrobats to head the bill for next week at Shea's Theatre. The act is gorgeously mounted with special and elaborate scenery and the accompanying trappings of the east.

modern school. Both Elgar and Eaton Fanning are well represented. He is spending a great deal of time and thought on Mozart's "King Triamus," which makes tremendous demands on the choir, and when it is performed will mark a decided advance in the high standard of this chorus. Subscription lists are in the hands of the chorus, at Massey Hall, music stores and at 18 St. Mary-street. First list closes Jan. 20.

At the Star. Frank B. Carr's Thoroughbred is the bill for next week's show at the Star Theatre. The company is headed as the banner attraction of the burlesque circuit, and it is not without foundation that they lay claim to this title, as it is one of the best and largest productions of its kind to be seen here this season.

An extra feature is to be added to the Monday evening's bill in a wrestling match between Harry Gaterby and Tom Williams. Both have money up on the outcome. The match must be to a finish, and the management guarantees the use of the prize money, with the side bet that they have posted with a local newspaper, the bout will

COBALT--Factor That control of Silver Leaf is Being Sought After---COBALT

Mining Market Strengthening On Anticipated Advancement

Cobalt Shares Are Particularly Popular--Many Brokers Finding it Difficult to Fill Buying Orders.

World Office, Friday Evening, Jan. 8. Both of the local mining exchanges to-day had what might be termed an excellent undertone. Considerable buying power was in the market from investors in Eastern Canada and in the States, and the main selling came from local operators who have had to relieve themselves of some of their holdings on account of necessities met by financing their obligations.

Forster, Peterson Lake, Silver Leaf, Rochester and Silver Bar contributed most of to-day's business. A shipment of two cars of ore by Forster this week has had considerable influence on the opinion in regard to this stock and has made a new demand for the shares at firm prices.

Rumors in regard to Silver Leaf state that control of this property is being sought for, and the demand for these shares is thereby increased.

There is a good impression extant in regard to the ultimate outlook for Silver Leaf and considerable of the recent purchases are being made by those who think that the shares will ultimately reach a very much higher price.

Rochester was picked up in a large measure by speculators to-day on the news that a vein recently uncovered on the Pan Silver property, which adjoins the Rochester, is close to the boundary of the claim.

The undertone to the whole market was decidedly firm and all offerings were readily absorbed without any difficulty. The strength of the silver market to-day was one of the favorable incidents in connection with the mining markets, and has led many to believe that the price of silver bullion has started on its road to a normal figure.

Silver Bar is still in the ascendant and sold as high as \$5 1/2. There is a lot of interest being centered in this stock at the present time. Gifford experienced another advance to-day and sold as high as \$1. There were many bids for the stock, but only in small lots was any available.

AMERICANS BOOST COBALT.

Stocks Are Popular in the Midst of American Mining Centres.

Cobalts are being boosted in the States. In a copy of The Mining Investor, published in Denver, Colo., an advertisement appears, as it were, in the midst of Southwestern attractions, stating in bold black type that Cobalt has already paid more dividends than the Butte camp.

It was not an idle statement, but one backed up by cold abrupt figures that told the story in a nutshell.

While it was an advertisement and must be taken as such, yet it is a fact that one not to be ignored--that Cobalt's production in comparison with other camps of longer life is marvelous.

Indications point to exceptional interest being taken in Cobalt throughout the States.

Stocks are being sold from Chicago to New Orleans, while visitors from all the leading centres visit the camp and confirm reports.

SILVER BAR OPERATIONS

Two Shafts Being Sunk and Ore Being Bagged.

Mine Superintendent Fisher of the Silver Bar Mine left last night for Cobalt after spending a couple of busy days in the city.

His stay here was marked by incessant enquiries relative to the developments at the property. The stock is going up and there is an increasing demand for it.

Work at Silver Bar is progressing favorably and its prospects were never better.

Two shafts are being sunk and one is down to a 75 foot depth, while the other is down about 21 feet. Some excellent ore is being bagged, and it is presumed that before long a shipment will be made.

Mr. Fisher is pushing operations just as quickly as circumstances will allow.

Toronto Man Leaves for Charlton.

W. F. Payne, the well-known contractor and coal dealer on Dundas street, leaves on Monday with a carload of horses, etc., for Charlton.

He says that the mines paid a royalty on \$1,800,000 to the Quebec Government before they were tied up.

GOOD MEN BACK SAVILLE ON SILVER EXPEDITION

Celebrated Guide and Prospector Tells of Equipment Necessary for Winter Prospecting.

A sincere and genuine interest is developing in the prospecting and exploration expedition which will start in a few days in charge of Thomas Saville for the silverland to the west of Lake Gowganda.

Mr. Saville, as is now generally known, is one of the most competent guides and prospectors in the whole north country. For seven years he has lived among the silver deposits and has learned their traditions, their language, and their secrets.

Six years ago Mr. Saville knew of the silver deposits at Maple Mountain, long before they became known to the outside world. Several years ago he knew of the extension of silver deposits in other parts of the north country, which have since been staked and developed.

But Saville is not a man who is the greatest secret of them all. He learned from his Indian friends some time ago of the existence of silver deposits in the territory known as Gowganda, but just where he positively declines to divulge at the present time.

Mr. Saville was seen at the King Edward Hotel yesterday and was asked for some information as to the nature of the expedition which will be taken along by this unusual silver prospecting party.

Saville put his directions somewhat quaintly. "We will suppose," he said, "that we are starting out. Now, the first thing I need is blankets. I have seen some blankets, but none to equal the rabbitskin of the Indian country. I can truthfully say I never saw an Indian starting out on a trip without it after about Dec. 1."

"I will tell you just what I pack in my winter outfit: a rabbitskin blanket, one bearskin, a pair of mukluks, an ax (small size) or tomahawk, and an Indian-made toboggan of yellow birch or maple."

"Then," continued Mr. Saville, "we will need snowshoes, but we do not want the factory-made snowshoes. We don't wish to knock the factory-made snowshoes, but the fancy fellows that one sees advertised, while they look very pretty, are mostly made of iron. A day may come and you are walking in a sack."

"At the Hudson Bay posts rabbitskin blankets, 7 x 7, may be secured, snowshoes and moosekin moccasins. The moccasins should be plenty big enough. Inside the moccasins cover the feet with a pair of socks the Indian wears a ribbon of blanket about the feet, which they call 'duffie,' and they wear also a pair of the woolen socks. This outfit is better for snowshoeing than four or five pairs of socks. One should also get a mackinaw suit made of a woolen sweater with a big neck. Flannel shirts are good and jaeger or better still a fur cap of muskrat or beaver and a pair of woollen mitts with a pair of buckskin mits to wear over them."

Mr. Saville has his outfit for this expedition Mr. Saville works it out on the basis of the following list, which is sufficient material for two prospectors going into the bush: Ten pounds long clear pork, two slabs of breakfast bacon; ten pounds of beans; ten pounds of oatmeal or corn meal; one three-pound pack of lard; one pack of small sack salt; pepper shaker; ten pounds of prunes; one can of delectable potatoes; one can of condensed milk; one can of baking powder; one rifle; one frying pan; one tea kettle; one large pair for bouillon or beans; two safety match boxes; two pairs, which will fit in each other, would be better. The idea is to have a spacious packed into as small a space as possible.

Moose Skin for Mending. Blankets: One Hudson Bay red four post, one 3 1/2 rabbit, skin if obtainable; a toque for wearing at night. A piece of moose skin for mending purposes is very handy.

Outfit for winter traveling for two men: Toboggan; tarpaulin; packing-stuff on toboggan; tumpkin; pack-sack; two 1-2x3 pound axes; 2 p. p. grub hoe style a L. Maching; one 44 and one 30.30 rifle (cartridges more easily obtained for these); two pocket compasses; two safety match boxes; one Abercrombie and Fitch knife; one whetstone; one file, matches and candle.

This list represents about what two prospectors would carry in equipping themselves for a prospecting expedition in the north country in the winter time.

"We will suppose you have your outfit now ready for loading," he said. "Spread the tarpaulin over the toboggan floor. Your heavy stuff should be well to the front. Keep the lunch stuff, tea table, on the back so that when you go to sleep you will have a small part to get at these. While traveling do not drink water on the trail as it is weakening. If very thirsty spend about fifteen minutes and make a little tea."

"When about to camp look for a shelter, or get the tarpaulin and throw it behind a point. If on a lake. Take off snowshoes and use these as shovels. Scrape out about seven or eight feet out snow and get the tarpaulin and drive them into the snow at an angle or 45 degrees. The pukwan should also suit to mackinaw so that you will not be bothered by snow from the fire. The poles are placed in a half moon shape. ARE RESERVE HOLDERS AFTER SILVER LEAF?

Location of Property and Attitude of Crown Reserve Co. Lead to Belief That They Are.

Considerable interest was evinced around the mining exchanges yesterday as to Silver Leaf stock and various rumors were ventilated to account for the advance from 12 cents five days ago to 14 3/8 cents to-day.

From a fairly reliable source it was learned that the real activity and demand for the stock came from parties who are closely connected with the Crown Reserve Mine. This confirmed the rumor that the Crown Reserve people are desirous of getting control of the Silver Leaf, which immediately adjoins their own and would make a splendid addition to this valuable mine.

The location of Silver Leaf has given confidence to buyers of the shares since the property was first put on the market. It joins the marvelous Lawson property, and also the Crown Reserve, and is in close proximity to that high grade proposition, the Kerr Lake.

It has been hinted for sometime that a bid for control of the property up to \$5 cents a share has been made, but that it has been found impossible to deliver the control and hence the only way of getting the stock for such a purpose would be to buy it in the open market.

Those who have watched the last few days' buying on the market think that the purchases are not for the ordinary public, but rather for those who are endeavoring to get a large block of the stock for some such purpose as the rumors indicate.

Holdings of the stock are widely scattered and it is doubtful whether half the amount of the capital stock can be picked up without advancing the price far beyond what the stock has hitherto reached for some such purpose as the rumors indicate.

TRADERS BANK STATEMENT.
Annual Report Shows Profits of Over
\$500,000.

In the annual statement of the Traders' Bank, another excellent year's record is added to the credit of this institution. Despite the difficult financial year which has been experienced, the net profits exceed half a million dollars, or to be exact, \$500,217.60. The growth of the bank in the estimation of the public is perhaps best indicated by the increase in deposits, which are now \$35,355,117, an increase of about \$2,000,000 from a year ago.

The liquid assets of the institution amount to the large sum of \$9,174,375, against liabilities to the public of \$28,220,644. The statement of this bank confirms the opinion held in regard to Canadian banks in general, and must be accepted as a careful and prudent administration of its affairs by a competent staff.

The profit and loss account for the year follows:

The net profits for twelve months, after making provision for bad and doubtful debts, and reserving accrued interest, amounting to \$500,217.60

Residual on new stock 100.00
Balance at credit of profit and loss last year 25,284.39

\$500,651.99

Dun's Trade Review.
MONTREAL—The heavy trade, with rain, which marked the first part of the week, while not tending to improve the country roads or general retail trade, will prove of inestimable benefit to the country. The water famine already noted, as prevailing all thru the late summer and fall has hitherto not been materially relieved, and has proved a serious matter to farmers, many of whom have had to sacrifice a considerable proportion of their stock. Wholesale trade has hardly as yet assumed an active phase, but most travelers are on their routes again, and general prospects for a gradual trade improvement are encouraging. The boot and shoe factories are again getting into full operation, with satisfactory orders in hand. Some very sales of pig iron were reported just before the turn of the year, and as stocks in consumers' hands are light, some good business is looked for in the near future, while domestic trade has advanced quotations from \$20.50 to \$21.00 a ton. There is very little speculation in stock here, as \$20.50 to \$21 is quoted for summer stock. The leather market is quiet at the moment, owing to the late shut down in the shoe trade, but values are generally steady, and dealers are paying as much as 12 cents for country No. 1 hides. Their routes again show a fair seasonal movement, with sugars about steady at the ten cent decline of a year ago. In dry goods there is nothing special to note beyond the fact that about 80 per cent. of the Jan. 4 payments were made, but the day was not as heavy as one expects, owing to the recently noted change in terms. Distress failures are heavier than usual, numbering seven, with liabilities of \$29,000.

TORONTO.—Wholesale trade in Toronto this week has been quiet as usual immediately after the holidays. Some improvement, however, may be expected soon when travelers get down to business. Trade in furs and heavy goods has been large, owing to weather conditions. General dry goods inactive, while manufacturers are fairly busy on spring lines. Prices are steady and there are likely to continue lower than a year ago. Payments fairly good. Distress failures are quiet and no activity in building material is expected for a month or so. There is a moderate business in groceries, which are generally unchanged in prices. The leather trade is quiet, with prices firm. Hides are unchanged with fair supplies. The prices of dressed hogs and their products are somewhat firmer than for several weeks, and dairy produce continues firm with generally light offerings. The grain trade continues dull with little change in wheat prices. Oats, however, are higher, owing to limited demand.

On Wall Street.
Charles Head & Co., say at the close: The market opened generally firm, with advances of 1-4 to 1-2 point. Smelters was topped for a rise early, and the opening was 89-1-8, which was within a quarter of the highest for the day. Evidently the point was put out for the purpose of selling stock bought at lower prices. There is one trouble with the market, and that is the prevalence of tips. Everybody has a point to buy something for a ten or twenty-point quick rise. This does not look healthy, and we feel inclined to look for lower prices when such tactics are resorted to. The City Bank engaged \$2,000,000 gold for export.

Erickson Perkins & Co., wired J. G. Beatty, 14 West King-street, as follows: Midway of the afternoon the stock market showed a lull in the buying power of the big stocks, and there seemed to be quite a little pressure on long stock. While this was going on, the National City Bank was covering for liquidation noted. Around 2:40 o'clock, a further gold export of \$1,000,000 by the National City Bank was announced, and the stock market sold off, closing heavy. During most of the day the market had a very professional look. The churning up of specialties was probably designed to facilitate distribution.

Smith & Stoppal wired to J. L. Mitchell as follows: The market was irregular, with new high records for the current movement in such issues as Rhode Island, Missouri, Kansas & Texas, Colorado Southern and Soo, while a number of the stocks usually regarded as cover for loans tended to re-act. The improvement is slow in many lines, but there seems to be no reason why it should not continue, with direct benefit to iron, steel, copper, electrical and other companies. There has been some foreign buying of industrials on this prospect.

J. R. Heintz & Co. say at the close: We expect to see the market broaden out to-morrow, with more attention paid to the higher class of stocks, and we would pay special attention to Baltimore, Ohio, Pennsylvania, Illinois Central, and Rio Grande, while the general run of stocks are worth buying specially in a turn on the market. To be conservative, however, it would be wise to limit operations to the railroads. The cheap money will help the bull power to carry on their operations.

Domestic Failures.
Dun's Mercantile Agency reports the number of failures in the Dominion during the past week in provincial companies compared with those of previous weeks, and corresponding week of last year, as follows:

Wall Street Stocks Irregular But Firm—More Buoyancy Comes Into Evidence at Toronto Market.

The declaration of a regular 8 per cent. dividend on Northern Navigation stiffened the price of this stock and drew in some new buying for the shares. The traction stocks were the strongest feature of the day, both Toronto Rail and Twin City making a sharp advance on moderate buying.

Many of yesterday's orders for both these securities were on behalf of Montreal clients, who evidently feel more enthusiasm in regard to the Canadian securities than do the Toronto people. Twin City sold for a small lot as high as par. The stock is now tipped for a further advance before the expected incoming speculation is satisfied.

Bank stocks showed an excellent under-tone again to-day and higher prices were reached for Commerce and Dominion in the day's business. Outside the market the feeling is much more optimistic and greater activity in many of the issues is looked forward to from now on.

Wall Street Posters.
New York City sells \$10,000,000 3 3-4 per cent. revenue bonds to Kahn, Loeb & Co., the Guaranty Trust Co. and William Salomon & Co.

Denver & Rio Grande \$17,500,000 five per cent. gold bonds advertised for sale at 92 1-2 and interest.

U. S. Rubber now operating on 75 per cent. of total capacity.

Regular quarterly dividend on U. S. Rubber first and second preferred.

President Brown of New York Central asserts that country's railroads will have to expend \$7,500,000,000 in the next five years.

It is announced that Canadian Pacific Railway will this year spend thirty million dollars in construction work on western lines.

Slight increase reported in number of active coke ovens in Connellsville region.

Northern Pacific declared regular quarterly dividend of 1 3-4 per cent. payable Feb. 10.

The \$1,000,000 gold withdrawn, half from the sub-treasury and half from the assay office, will be shipped to Paris to-morrow by the National City Bank.

WASHINGTON: The senate today adopted the Culberson resolution, calling for an opinion from the judiciary committee as to the president's authority to permit the U. S. Steel Corporation to absorb the Tennessee Coal, Iron & Railroad Co.

The known movements of money for the week ending with the close of business on Thursday indicate a gain in cash by the local institutions of \$11,820,500. This week, figuring the \$15,000 aggregate gold coin and bars taken for export, which will not figure in the account till next week, the banks gained from the interior \$13,872,500 and gained from the sub-treasury \$7,448,000.

The feature of the market this morning has been the conspicuous strength in the stocks of railroads operating in the southwest. President Brown of the New York Central pointed out certain valuable but arguments on the Southwestern issues generally. The bull operations in the stocks concerned have been carried on with greater assurance than success. We expect to see still further higher prices recorded in the Kansas City Southern, Missouri Pacific, Great Northern, Missouri Pacific and Pacific bonds.—Town Topics.

Manipulation of the market this morning seems likely to continue in the stock market to-day. Industrialists continue to display a stronger technique than the railroads. Amalgamated should do better. Traction goes on continuing bullish. Attention may advance sharply. Southern Pacific, Great Northern preferred and Pennsylvania are reported to us as exceptionally well bought. National Lead is displaying a strong rally tone. Consolidated Gas should be bought on all drives. Stock is offering in Northern Lead Pacific around 144. Philadelphia interests still insist that Reading is being accumulated. Yesterday's bull tips are repeated on Rock Island. The Southern Railway pool may become active, bullishly any time now. Pool activity is limited in Republic Steel, Car Foundry, Louisville & Nashville, Chesapeake & Ohio.—Financial Bulletin.

Joseph says: There is no doubt that Fuel, Iron and Steel shares will go higher. The accumulation of Smelters goes steadily on. The fear of active competition is gradually subsiding and the short interest is correspondingly alarmed. Harriman-Rockefeller followings talk encouragingly of the Pacifics, St. Paul and N. Y. C. These stocks may safely be bought. Specialties: Keep long of Harley issues. Buy Fuel and hold Pump.

MORE ENTHUSIASM IN MARKET CIRCLES.

World Office,
Friday Evening, Jan. 8.

More enthusiasm was shown to-day in regard to the local securities than has been seen for upwards of two years. Every broker's office in town showed a spirit of interest which might easily indicate an increased buying power, and consequently a rising market. There was considerable increase in the volume of business also to-day, but sentiment verged towards one or two speculative issues which had not had what is considered a just appreciation. The regular declaration of an 8 per cent. dividend on Northern Navigation was satisfactory to holders of these shares, and the price ran up two points above that of yesterday. Good buying was in the market for Twin City and Toronto Railway, and both scored advances. The demand for the investment stocks also showed improvement and Dominion Bank sold at an advance of a point. The whole market closed in a semi-buoyant condition, which was interpreted to mean greater activity and better prices.

SYNDICATE SHARES

We are forming a syndicate to take over a manufacturing concern on which we hold a 30-day option. The profits of the business are unusually heavy. As soon as the syndicate is subscribed we will organize a company, when subscribers to the syndicate will receive in stock ten times their original investment. \$100 invested in the syndicate means \$1000 in the company. We have only 125 syndicate shares left for investment. Application must be made at once to assure acceptance.
