The Daily Telegraph's Belgrade correspondent says that after fierce fighting the Albanians withdrew to the mountains, pursued by the Turks, who had two officers and 40 soldiers killed.

Estimates of the killed and wounded run into the hundreds, and from the fact that there are 15,000 rebels in the field and 20,000 soldiers, these estimates are believed to be conservative.

HAMILTON, April 8.—(Special.) John Elliott, 247 North Hughson-st., a barber, died to-night.

The board of control this afternoon decided against publishing the assessment rolls, as it would cause ill feeling in the city. They may be published next year, and the assessors will endeavor to prepare a more equitable assessment. A grant of \$500 was made to the police benefit fund and one was promised to the fund for the firemen's contemplation. Hon. J. M. Gibson, and officers of St. George's Society, requested that arrangements be made for the reception of Earl Grey on April 22.

The 13th Royal Regt. has received an invitation to go to St. Catharines on May 24.

The Dallas girl has been singing on the stage for several months, and her mother, Mrs. Polly Grier, lives at 45 King William-street, this city. Mrs. Grier said she got the child from a man named Dallas, who lives in Montreal, when it was seven weeks old. A year ago, she said, he tried to regain possession of the girl, and Mrs. Grier then fled to England with her. She says that if the society in London hand the child over to the father, as it threatens to do, she will bring the child back to the retail grocers have entered a strong objection to the wholesalers raising the price of goods to them.

EXPRESS COS. ARE CARRIERS

Admit That They Are More Than Forwarders—Contract Liability.

OTTAWA, April 8.—"We cannot protect anyone," said Justice Mabee at the railway commission this morning, in going over the new form of contract which is to be used by the express companies. "We will leave it so that unless the shipper states otherwise just what the value of the parcel is, we can claim no greater liability against the express companies than fifty dollars. If a parcel is worth more, the shipper should say so. This provision must be made clear to the shipper when signing a contract, and in order to make sure of it must be printed at the top of the contract form. This may work an injustice, but we can't help it. It is carelessness that causes the shipper to neglect this, and we can't protect the shipper against himself."

The express companies, as represented by F. H. Chrysler, made an important admission and one for which the Manufacturers' Association and others have long been looking. It was to the effect that the express companies recognized themselves as carriers and not as mere "forwarders."

The companies agreed this morning to inform every shipper just how near to the real destination the goods could be carried and how the shipper could arrange to pay for the complete carriage beforehand. They probably issue maps showing the various cities and the delivery limits therein.

YOUTH RIES FROM BLOW IN FIGHT OVER A GIRL

Young Rivals Were To Fight It Out in Prize Ring Style, With S. S. Official as Referee.

PASSIC, N. J., April 8.—Gilbert Trehou died to-night from a solar plexus received in a boy's prize fight last Tuesday night. With brief intermissions, he had been unconscious since he was lifted out of the ring and carried to the hospital.

Frank Klear, who is named in a warrant as the other principal, is missing, and the police hear he has fled to Canada.

Henry Knackstedt, superintendent of a Presbyterian Sunday school here, said to have been the referee, was arrested yesterday and released in \$500 bail.

Trehou and Klear were both nineteen years old, both pupils of the Passaic high school, and both of good family. Reports of their quarrel differ, but it is understood that there had been bad blood between them for some time over a girl, and that on Easter Sunday they agreed to settle their differences with the gloves. Both were trained pugilists, and last Monday declared themselves fit. Word was passed about among their friends and Tuesday night a small crowd met in a vacant building on 10th and squared off the ring. Lanterns were hung on the ropes, seconds were chosen, and a time-keeper and referee named. The fight was passed for a purse to the winner, and the collection given to a stakeholder.

The boys stripped to their underwear and went at it hammer and tongs. According to accounts of eye-witnesses, in the seventh and final round, Klear caught Trehou flush on the jaw with a heavy swing, Trehou staggered, and before he got his feet again, Klear shot in a body punch.

GALT THEATRE BURNED

Twenty-Five Thousand Dollars Lost to Building and Tenants.

GALT, April 8.—(Special.)—Galt theatre suffered from a \$25,000 fire in the Opera House block, off Queen's-square. It gutted the upper storey, completely destroying the play-house, stage scenery and property.

The fire was supposedly caused by an electric light wire in the stage end, and was prevented from reaching a row of six stores on the ground floor, but these were badly damaged by water. Five firemen had a narrow escape when part of the floor fell in.

Losses: Opera House block, owned by James Scott, value \$30,000, insured \$10,000; tenants, Lockhardt & Company, plumbers, loss \$1500, insured; A. G. Bruce, paints and wall paper, loss \$1000; insured; H. Horton, butcher, loss \$250, no insurance; J. A. McDonald, aid, grocery, loss \$1000, insured; W. H. Hunter, sporting goods, loss \$600, no insurance; J. Helm, upholsterer, loss \$1000, no insurance.

There was a play on last night, but moving pictures have been the great feature of the house for a year, and it is believed the opera house will be restored. The building block cast Main-street and public feeling favors the requirement of the property for removal and the extension of the street.

News to-day from Herbert Panabaker, late of Hespler, who moved to the west last fall, said that all his stock and implements at Riding Mountain, Man., were destroyed by fire, with no insurance.

Great Age of Halley's Comet.

Century Magazine.

While Halley's comet has been identified as a member of our system for over 5000 years, certain characteristics of its orbit lead us to believe that it has been with us at least ten or perhaps 100 times as long as that. According to all accounts, it was a magnificent object at the time of the Norman conquest in 1066. Its head was equal to the full moon in size and its tail increased to a wonderful length.

MONTREAL THESPIANS ESSAY "THE BELLS"

In the Earl Grey Competition at the Royal Alexandra Theatre Last Night

Punch's famous advice to those about to get married, "Don't," might be probably considered by amateurs of the drama before selecting some extremely powerful vehicle in which to display their histrionic ability. The name of Sir Henry Irving is so indelibly associated with "The Bells," the drama which was presented by the Montreal Thespian Society at the Royal Alexandra Theatre last night, that it requires a very strong and capable "Mathias" indeed to satisfy an audience who have once seen the late famous tragedian in that role.

Not that Craig Campbell as "The Burgomaster" showed marked inferiority to the contrary, his work stamped him as an exceedingly clever actor, but the weakness of his support was very evident. At times the play dragged appreciably, notably in the betrothal scene, but in the third act Mr. Campbell's interpretation of the conscience-stricken and haunted murderer was splendid, and he richly merited the generous applause accorded him. His enunciation was good and clear, in marked contrast to some of the other members of the company, whose voices at times failed to reach the audience.

Maurice Paire conducted his orchestra with more energy than has been seen in a Toronto conductor's box for ten years. Signor Crestore has nothing to say about the matter of gymnastics except that he hit it on the nail instead of running about.

With materials vastly less promising than those of the Ottawa Symphony, he achieved some astonishing results. The quality of tone was never inferiorly good and the wood-wind parts were perhaps more interesting than was a dash and spirit about the performance that made the Egmont overture perhaps more interesting than the much another and better-toned work of the Ottawans.

The presence of two very diminutive youngsters doing good work among the second violins was a pleasing feature.

In the solo competitions the following took part: Kolin, Douglas Petherston, Miss Julia Graybill, M. Lachance, vocal, Miss M. Doherty.

At Shea's.

At Shea's Theatre, a great show next week will be headed by Margaret Moffat and her company in Sewall Collin's telephone girl classic "Awake and Scream." Miss Moffat is capably supported by Miss Graybill, Miss Wilkie and the once heard, but forgotten "Claude" who acts as the "Quiet Honey-moon."

As the special attraction Manager Shea has secured the Five Olympians, the sensation of all Europe. They are the world's greatest classical statue.

Tom Waters, late star of the "Mayor of Langland," is making his "Major" vaudeville appearance here in a unique play with original songs and songs. Another treat is in the appearance of Miss Clara Lane, a "Quiet Honey-moon."

The Five Musical Avios are also popular with their sweet telephone music.

Work and Over call themselves "the acrobatic jesters" they are all that and more.

Lena Pantzer will be seen here for the first time in her novel dancing number. She dances on a balanced spade, on a wire and in a particularly artistic dancing number on the floor.

Her costumes with a new picture on the cinematograph.

Pinched the Pin.

Nora Hicks, 93 Duchess-street, colored, 25 years of age, a domestic, was arrested yesterday. Detective Montgomery, charged upon the complaint of Harry Ross, 188 Sherbourne-street, with the theft of a diamond pin. Ross declares that he has known the lady for years, but that she became suddenly and amiably acquainted. Shortly afterwards he separated from her. He declares, the pin went with the lady.

NEW STRENGTH IN THE SPRING

Nature Needs Aid in Making New Health-Giving Blood.

In the spring the system needs toning up. In the spring to be healthy and strong you must have new blood. Just as the trees before my eyes, as Nature demands it and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp stabbing pains of neuralgia. Often there are disturbing pimples or eruptions on the skin. In other cases there is merely a feeling of tiredness and a variable appetite. Any of these are signs that the blood is out of order—that the "door life" has had told upon you. What is needed to put you right is a tonic, and in all the world there is no tonic can equal Dr. Williams' Pink Pills. These pills actually make new, rich, red blood—your greatest need in spring. This new blood drives out disease, clears the skin and makes weak, easily tired men and women and children bright, active and strong. Miss A. M. Bugay, Lower Cove, N. S., says: "I believe I owe my life to Dr. Williams' Pink Pills. My blood seemed to have turned to water. I was as pale as a sheet; I suffered from headaches and floating specks seemed to be before my eyes. At this time two doctors had attended me, but notwithstanding I kept growing worse. It was at this juncture I began using Dr. Williams' Pink Pills, and after taking a few boxes I was much improved. I kept on using the Pills until I had taken eight boxes, when my blood was restored to its normal condition. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont."

The Voracious Mississippi.

Louisville Courier-Journal.

Old settlers along the Mississippi can tell how a thousand acres here and there went into the river a long time ago and how landmarks have been wiped out and family possessions obliterated. Sometimes a farm is transferred from one side of the big stream to the other, but the river menses up things distressingly in the transfer. It creates an island or builds up a sandbar every once in a while, thus changing the topography of things and furnishes a place of refuge for the careless shanty boatman. The Mississippi is big and muddy; it would be less muddy if its turbulent tributary, the Missouri, was not always contributing samples of real estate which it has picked up in a devious journey of more than 3000 miles. For all that, the Mississippi is somewhat of a misgatherer itself, as is shown by its ruthless denudation of a section of Ballard County. It is doing things of that sort all the time, except in places where mother nature or a federal appropriation has made it impossible.

Broadway's Perils to Women.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down as it were, of the vital forces that sustain the system. No matter what may be its cause (for they are almost numberless), its symptoms are such as the more prominent being sleeplessness, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what none of the ordinary remedies in all such cases is increased vitality—vitality in the sense that it is a new force, and experience proves that as it succeeds the day this may be said to every genuine package.

Women's Popular Priced Whitewear and Underwear

Great mills each year turn over their entire stock to us; these, with our own factory facilities, make it possible for us to offer you popular-priced whitewear and underwear that practically embodies the perfection of fit, style and finish that characterizes high-priced lingerie and underwear. We mention but four of the many:

Women's Shirts, fine cotton, deep flounce of fine lawn with one cluster of tucks and wide frill of fine embroidery, dust ruffle; lengths 38, 40 and 42 inches. Price .98.

Women's Vests, fine quality Lisle thread, beading and silk ribbon trimmed, no and short sleeves, color white; sizes 32 to 40 inches. Monday .40.

Exceptional Savings in a Clearance of Sample Stationery

Travellers' samples are of little use to the manufacturer after the line is sold out; that's why these lots came to us at half the price we were asked to pay for the same goods when ordering in the usual way. Only one fault we could find: we couldn't purchase nearly the quantity we wanted—that wasn't possible.

They're samples, and anyone who appreciates beautiful stationery will not miss such a chance as this, because it means an early trip. All very high-grade goods—not only the quality is remarkably good, but note the quantity you get for the money. In the lot is a quantity of Crane's Linen Lawn, in the new Paris shades of aeroplane, vintage, etc. One quire paper in box with envelopes to match. Some have correspondence cards, gilt-edged, with envelopes to match. No two boxes alike—plenty for about an hour's brisk selling—shouldn't be any of this lot left after that. Priced according to style at half usual price. Per box, from .14 to .45.

BRENTON is known on every race-track in America as a practical, painstaking horseman of the old school, whose word is his bond, who probably knows a horse better than any other owner or trainer on the American turf.

BRENTON is personally acquainted with nearly every owner, trainer, bookmaker, jockey and stable boy, and has a hand-shaking acquaintance with all of them. Brenton has made other men rich, who are now poor; Brenton, the silent, is a man of whom the general public know nothing, a man who has never heard of, but who, nevertheless, is up to all the tricks of the trade.

If you want to take advantage of this grand opportunity, subscribe to-day, and receive your information from "Breton," the silent, Brenton's special goes to-day.

20 TO 1
This horse has been reserved by one of New York's finest trainers for the big getway of the meeting. He could have walked in any time they wanted him, but the plans were not ripe, and the odds did not suit them, but to-day is the day, and thousands of dollars have already been secretly bet throughout the country, and Brenton expects 20 to 1, and the race is a cinch for this bird.

Our Clients Receive One Best Bet a Day

WOODBINE GOSSIP.

Joy was unconfined at the Woodbine yesterday. The owners and trainers were absolutely unconcerned as to whether their horses had been clocked too fine or too slow by the men with the watches.

C. Brown is doing well with the horses he has at the Woodbine. His Wave's excellent performances last year, and Plaudmore's six wins, gave C. Brown well-earned prominence last season. Plaudmore is expected at the track to-day from his owner's private stable, up Yonge street. He is reported in good condition for training. C. Brown had Royal Oak on the track doing easy gallops yesterday.

Nat Ray put in full time with his jumpers. It was well on in the afternoon before the noted cross-country rider finished up his work at the track. The afternoon work was devoted to King Holiday. After his gallops he was walked around the track and blanketed in front of the grand stand. When being led away from the course King Holiday exhibited his disregard for such light stunts as had been asked from him by kicking at the gate posts.

Superintendent McConaghy was complimented on the fine condition of only the track, but also of the laid field. The field has dried out remarkably, and is in better condition for the steeplechase events than at the opening date at many spring meetings.

HORSE SHOW NOTES.

Entries Coming With a Rush—Many Well-Known Stables Heard From.

The defeat of the Miller bill is causing a new enthusiasm among horsemen and the entries for the horse show are coming with a rush.

The ring this year will be nearly 30 feet in width, and the riding school to the east of the arena used as a hitching post, will afford splendid protection for the horses in case of a shower of rain.

Emulate Farm has a string of twelve good ones getting ready for the show, and some of the ribbons should go their way.

K. L. Wilks visited the city and engaged stabling for a string of 12, which will be shown here and at Montreal Show. The great pair, Black Prince and All Abizzo, trained by Peter Roach, are in better bloom than ever before.

MINIMIZE RACETRACK EVILS.

The World cannot see why Mr. Miller and Rev. Dr. Shearer might accept the amendments of Mr. McCall of Northumberland, and have a bill put thru this session which will at least go this far in suppressing race-track betting: First, it will do away with the handbooks; second, it will do away with the supply of advance information on which poolrooms do business; third, it will do away with the tipster business; in the last place it will limit racing to two meetings of seven days each for each track, and in that way reduce the number of days racing in Canada from away over 200 to less than 100 days in the year. In other words there will be no race-track betting of any kind in Canada otherwise than on less than 100 days, and that only in the betting ring at racetracks when racing is going on, and where it will be under some kind of supervision.

The World believes public sentiment would support any such amendment, while as was shown by the house, it would not endorse the proposals of Mr. Miller.

SOCIALISM ON TRIAL.

Milwaukee, Wis., may become famous for other reasons than the one generally advertised. During the past week, Emil Seidel, a Socialist, has been elected to the majority, backed by a goodly representation of the socialist party in the council. The result will likely be the making of the damming of Socialism in municipal politics in America.

The mayor-elect starts out well; he says: "The first thing that the Socialist party is going to try to do for Milwaukee is to reorganize its finances. We want to see that every one pays his just share of the taxes and then that the money raised by taxation is justly distributed. We don't promise to spend less money than any previous city administration. The pledge that we make is that for every dollar that the administration spends the people of this city shall receive a full dollar's worth in exchange. Possibly we shall need a commission of experts to go over the tax books. I don't know any way, we will be like Davy Crockett, we will be sure we are right before we go ahead."

Seidel is slight and wiry—he weighs about 125—but he is quoted as talking like a man who has within him the energy of a Hercules. He admits that he feels the responsibilities of the position. He outlines his platform in full as follows:

1. Home rule for the city.
2. Initiative and referendum.
3. Better schools.
4. Municipal ownership.
5. Penny lunches.
6. Street car company to sprinkle streets.
7. Trades union conditions of labor.
8. A seat for every passenger in the street car—lifting bags, automatic brakes, fenders.
9. Three-cent street car fare.
10. Eight-hour day for labor.
11. Cheaper gas.
12. Cheaper ice by means of municipal plant.
13. Cheaper coal and wood by means of municipal coal and wood yard.
14. Cheaper and better light—and more of it by means of municipal plant.
15. Corporations to pay their full share of taxes.
16. Clean street cars.
17. Street closets and comfort stations.
18. Work for the unemployed at union wages and eight-hour day.
19. Widows who do washing for support of families to have water rates reduced.
20. Cheap bread, by requiring standard weight in every loaf.

TELEPHONE AGREEMENTS.

In view of the new contracts being negotiated with the Bell Telephone Co. at Stratford, Weston and other places it will be well for all parties to keep in mind the legislation which is directed towards securing a fair arrangement for the public under all such agreements. The Charter Act recently passed is aimed at the telephone monopoly evil, and requires that no discrimination against any company shall be made in respect of long distance connections. Another act passed in 1907, cap. 37, of the Ontario statutes for that year, has a distinct bearing on such agreements under certain conditions. In the act "public utility" is defined as meaning and including "any water-works, gas works, electric heat, light and power works, telegraph and telephone lines, railways, however operated, street railways and works for the transmission of gas, oil, water or electric power or energy, or any similar works supplying the general public with necessities or conveniences."

Section 3 of the act is a comprehensive one, and contemplates just such agreements as several municipalities are now negotiating. The section should be considered. Section 3. Notwithstanding anything in any act contained, a municipal corporation shall not hereafter

enter into any agreement with any such company or corporation or pass any bylaw in relation to any public utility which has been declared to be a work for the general advantage of Canada, or which is not within the legislative jurisdiction of Ontario, until the lieutenant-governor-in-council has approved of such agreement or bylaw, and every agreement entered into and bylaw passed in violation of this section shall be utterly void and of no effect. Provided that the lieutenant-governor-in-council by order-in-council may from time to time in advance of such agreements or bylaws, being made approve of any class or description of such agreements or bylaws in the order-in-council mentioned or referred to in regard to any corporation in any such order named and there-after and until such order is amended or rescinded such approval shall continue."

EQUALIZE COMMUTATION RATES.

Now that it has been settled that the Dominion Railway Board is the body to deal with the commutation fare question the sooner it is brought to the attention of the board the better. It is the municipalities directly concerned that ought to do this. Brampton is one of these, and there are many others on the eastern lines. But Toronto is as much interested as any and all of them.

The city hall people should have this matter put in hand at once. Some result ought to be gained before it is too late to make use of it for the present summer season. There are certain summer rates given which tempt people to leave town for the warm months, but these are cut off just at the time an extra inducement is necessary to lead people to undertake the winter travelling.

Many people would live outside the city if they were assured of regular trains at reasonable rates. Such interchange of passenger traffic is good for all concerned. Like the quality of mercy, it blesses those who give and those who take. Cheaper fare will benefit both the railways and the people, both the central city and the surrounding municipalities.

Will the mayor or one of the controllers have this matter taken up at once with the Railway Board? Controller Church has previously given it some attention. He might now carry it to an issue.

A picture of J. M. W. Turner's has been sold for \$125,000. If the late Mr. Turner hears this he will reincarnate at once.

Montreal already claims about 600,000 people within her sphere of influence. This is a long start on Toronto's 400,000. But if Toronto had government by commission Toronto would reach a million before Montreal.

Less than a cent a head of the population of Toronto is being asked this morning for the General Hospital from the ratepayers. It is inconceivable that this bylaw should have any opposition, but there should be no room for any doubt, and after breakfast all good citizens might make their way to the nearest polling station and record their votes. There will be no crowd and no waiting as there is at ordinary elections. The whole operation will only take a minute or two. But it means the health and welfare of thousands of people for years to come. And when voting for the hospital do not forget the water-works bylaw either.

IMPORTANT JEWELRY SALE.

Henderson & Company's sales rooms, 87-89 East King-street, on Thursday and Friday, April 14 and 15. There are 608 items in the catalog, including magnificent diamond, pearl and other jewelry, silver and silver-plated, bronzes, laces, clocks and articles of the exceptional quality and rarity. Justice Girard Officiate—Other Bills Receive Second Readings. OTTAWA, April 8.—(Special).—In the senate to-day moving the adoption of the supply bill, Sir Richard Cartwright stated that the amount involved was \$1,636,000, and was chiefly for the completion of improvements at Fort William and Fort Arthur. A bill respecting the Essex Terminal Railway Company and a bill respecting the Vancouver, Victoria and Eastern Railway and Navigation Company were given third readings. The following bills were read the second time and referred to committees: Respecting the Canadian Northern Ontario Railway Company; To incorporate the Remy River Radial Railway Company; Respecting the Dominion Millers' Association; Respecting the Central Canada Manufacturers' Mutual Fire Insurance Company; Respecting the Eastern Canada Manufacturers' Mutual Fire Insurance Company; To incorporate the James Bay and Eastern Railway Company; To incorporate the Ontario and Ottawa Railway Company.

Justice Girard, deputy to the governor-general, officiated at the senate chamber and gave royal assent to the following acts: Respecting the Algoma Central and Ontario Railway Company; To amend the Exchequer Court Act; Respecting the Ottawa, Brockville & St. Lawrence Railway Company; To incorporate the Independent Order of Rechabites; Respecting the Richelieu & Ontario Navigation Company.

Re Booth and Merriam—A. C. McMaster, for vendor. J. M. Ferguson for purchaser. Motion by vendor under the Vendors' and Purchasers' Act, to have it declared that the vendor acquired a title to the land in question under the will of his wife, and can make a good title thereto. Judgment: The words in the will are "I hereby bequeath to my husband George W. Booth, all my earthly goods and possessions." It is well established that while the word "bequeath" in the language of wills is primarily applicable to a disposition of personal property, yet if the intention of the testator to be gathered from the whole will is to dispose of his real estate, the use of the word "bequeath" instead of the more appropriate word "devise" cannot defeat that intention. I think the language of the will discloses an intention of the testator to give his real as well as his personal estate to his husband. The order will therefore be that the vendor has a good title so far as the will is concerned. As agreed by the parties, there will be no costs of the motion.

Anderson v. Alecock—L. S. Fairly, for defendant. F. Aylesworth, for plaintiff. An appeal by defendant from the judgment of the district court of Rainy River, 11th June, 1909. By the court: Counsel for defendant, appeal dismissed with costs.

Re Sovereign Bank and Kelly—W. S. Mordey (Belleville), for appellant. S. Denison, for respondent, contra. An appeal by A. Kelly from the order of Teetzel, J., of 18th February, 1910. STEPHEN OPPOSES DAY OFF
Former Staff Inspector Asserts That Policemen Are Well Treated.
That Toronto's policemen are well treated at present and are in no need of a day off each week, is the case made out by Ex-Staff Inspector Stephen in a letter to Mayor Geary. Mr. Stephen says the police commissioners have a better idea of what the men need than has the city council, adding that the commissioners are not "punting for votes." The policeman knows the conditions of the service when he enters. It is his duty to preserve life and property seven days in the week, and he is paid for seven days. He has sixteen hours in twenty-four for rest and recreation. The commissioners' promise to give him two days off a month, besides which he gets ten days' vacation. Mr. Stephen gives the opinion that one day off a week would derange the service and prove too costly to the city. The London Times, in an editorial on President Taft's position, says that it is not so certain as people are inclined to think that Roosevelt himself had remained in power, would have done any better than Taft is doing.

AT THE THEATRES

William Faversham as Herod. A big and important dramatic event will be the appearance at the Royal Alexandra next week of William Faversham in Stephen Phillips' Herod.

Stephen Phillips brought to the making of this play not only the finished art of the poet, but the consummate skill of the dramatist. To begin with he had a splendid subject, and one that has attracted the attention of dramatists of all countries.

The costumes were made from designs sketched by Percy Anderson of London. Most of the materials, as well as the jewels were purchased in Paris.

Instead of having to wait until the end of the season for Henry W. Savage's operetta, "The Love Cure," local lovers of mirth and melody will be enabled to enjoy this work at the Princess Theatre Monday, Tuesday and Wednesday and Wednesday matinee, April 11, 12 and 13.

New York critics during its long run at the New Amsterdam Theatre united in declaring it the sole legitimate successor of "The Merry Widow."

The score is a free adaptation of the witty Orléans play from the German of Oliver Hildebrand.

FLORENCE REED. In "The Love Cure," at the Princess April 11, 12 and 13.

Leo Stein, one of the authors of "The Merry Widow," and Karl Lindau. The characters have been transferred from frivolous Vienna to glittering New York.

Featured at the head of a large company was Charles J. Ross, for so long a star in the Weber-Felds forces, and Elgie Bowen, Fred Fear and Harry Hyde, seen last season in "The Merry Widow," Craig Campbell, the remarkable young tenor discovered by Mr. Savage, and Florence Reid, the charming ingenue who made so great

FLORENCE GEAR. Who will be seen in "Fluffy Ruffles" at the Grand next week.

a hit in the "Gay Hussars." Scenically "The Love Cure," is said to be the most striking production ever made in operetta. The story of the play is simple and with the ending that every interference with love is supposed to have.

"Fluffy Ruffles" at the Grand. "Fluffy Ruffles" with all her showy train comes to the Grand Opera House next week. This vehicle serves to reintroduce Florence Gear to local theatregoers.

"Fluffy Ruffles" on the stage as in the daily press, where she originated, is a most distractingly charming young woman, who gathers to herself all the men who are ever present. Many familiar situations occur, a number of very catchy songs and novel dances are introduced, and a score of clever people in the large supporting company get their individual chances to show why the public has declared this to be one of the best all-round organizations of its kind ever sent out on tour.

Henrietta Crossman in "Sham." At the Princess Theatre on April 14 Henrietta Crossman will enter upon an engagement of three nights and Saturday matinee, presenting here for the first time her big comedy success, "Sham," which New York, Chicago, Boston and Philadelphia liked so well.

In New York "Sham" ran for six months, and the critics united in calling it the best comedy in several years. In Chicago it remained at Powers' Theatre for three months, and Miss Amy Leslie of The News referred to the play as the brightest best acted and most prettily staged comedy that the Windy City had seen in some time. Philadelphia called it an exquisite play, and the acting pure delight, while in Boston Miss Crossman's portrayal of the role of Katherine Van Riper, the spendthrift butterfly, reminded the critics of Ellen Terry at her best. "Sham" differs from the plays which Miss Crossman has previously presented, inasmuch as it is purely modern.

The Rialto Rounders. The "Rialto Rounders," which comes to the Gaiety Theatre next week, opening with a matinee Monday, is said to be an innovation in the burlesque world. It is claimed to be made up of many artists who have been especially engaged to interpret various intricate characters in two sparkling comedies, entitled "A Day at Niagara Falls" and "At the Races." Sam Howe, who is known from coast to coast as a comedian of high standing, will be seen in the leading comedy roles. As to the chorus with this offering there is said to be some class to it.

Julian Eltinge as the Majestic. Julian Eltinge, the famous female impersonator, who, on his recent appearance in Toronto, won a lasting place in the affections of local playgoers, will play a return engagement next week at the New Majestic Music Hall at the head of an extraordinary bill of vaudeville. His songs are imitable, and his entire act is marked by a demureness and daintiness, coupled with a refined cleverness that always strikes a responsive chord.

The much exploited Franky Drew, the "Balloon Girl," will appear as the added attraction in a distinctly high-class specialty. Miss Drew utilizes the auditorium of the theatre instead of the stage, while doing her turn, appearing in a balloon, brilliantly illuminated, which glides over the heads of the audience while its sole occupant presents diversions of song and chatter. Her principal song is entitled "The Aviator."

In the roster of names on the bill is noticed that of Winsor McCay, the eminent crayon artist and author of "Little Nemo," "The Welsh Harp" and many other productions of imagination.

A Famous Composer. Howard Brockway, the well-known American composer and pianist, who has been officiating as judge in the musical events in connection with the Earl Grey trophy competitions this week, is one of the most brilliant of class specialists. Miss Drew utilizes the auditorium of the theatre instead of the stage, while doing her turn, appearing in a balloon, brilliantly illuminated, which glides over the heads of the audience while its sole occupant presents diversions of song and chatter. Her principal song is entitled "The Aviator."

choir in Toronto, New York, Chicago, Buffalo and Cleveland, and have always been enthusiastically received. Mr. Brockway's symphony has had the distinction of performance by leading German and American orchestras, having recently been played with great success by the Boston Symphony Orchestra.

At present Mr. Brockway is engaged on a new pianoforte concerto and on a work for chorus and orchestra, based on Loewe's ballad, "Herr Oraf," which latter work it is expected the Mendelssohn Choir will take up for study.

Mr. Brockway's recent lectures in New York and other large eastern cities of the United States, on "Electricity" have been important features of the musical season in those cities. At present he is also delivering a very interesting series of lectures on Wagner's "Die Nibelungen Ring" at Syracuse University.

As a conversationalist Mr. Brockway is most interesting, and his attractive personality and broad culture as a man and musician have made him a prominent figure in the musical life of the neighboring republic.

The Cozy Corner Girls. The attraction at the Star next week is the famous Cozy Corner Girls, which is said to be one of the largest attractions playing the western wheel. The chorus is an extra large one, and all the girls are real beauties, and are gowned in beautiful Parisian creations, which have been secured by the management at a large cost. The cast is also an exceptionally large one and is headed by that well-known burlesquer, Retyl W. Craig, who creat-

ed the famous burlesquing German character. Among the many other prominent burlesquers are: The Sisters Yale, in singing and dancing specialties; Jess Mardo and Belle Hunter, comedy and character artists; MacRea and Levering, comedy bicyclists; and Miss Dorothy Bloodgood, the modern queen of burlesque.

The two burlesques are of the most gorgeous kind, and are staged under the titles of "Broadway to Atlantic City" and "Room 6."

An arrangement of the novelized form of Margaret Mayo's "Polly of the Circus," was exceedingly well presented last night in the Conservatory Music Hall by Miss Laura A. Webb, a senior student of the Conservatory School of Expression.

The program included the following musical numbers: Chopin Ballade in G minor, played by Miss Gertrude I. Thompson—pupil of Mr. Tripp; also a double number, Sonnet d'Amour, Thome, and Open Thy Blue Eyes, Massenet, sung by Miss Ruth Price—pupil of Dr. Ham.

Mendelssohn Choir. Applications are now being received for membership in the choruses of the Mendelssohn Choir, the re-organization of which will take place immediately. PAUL, Minn., April 8.—Two masked bandits attempted early today to hold up the "Pioneer" Limited, which arrived here at 7:15 a.m. The men passed thru the front sleeper into the rear vestibule, locking both doors of the vestibule. When Conductor Shumway passed thru the train, he was stopped by two masked men. Shumway leaped upon the larger of the bandits, but was overpowered. One man then reached down under the steps and cut the air hose and the train came to a stop. The men then jumped off.

PROPOSAL TO BUY LAND STRONGLY OPPOSED

Town Not in Position To Expend So Much Money—Autos Great Speed in County.

NORTH TORONTO, April 8.—(Special.)—The proposed action of the town council to buy the Stubbard property, has aroused general opposition throughout the town, and it looks as though the project would be sidetracked, for the present, at least, if not wholly discredited. Even the council, as shown by the statements of Chairman Lawrence and Mr. Reid, are opposed to the proposition. The sum involved is a very large one, for even a lady and growing municipality like North Toronto, to assume, especially in view of the fact that the sum of \$5000 voted upon and carried by such a sweeping majority at the last municipal election, was for a similar purpose. "By the way," said a well-known business man in the town to "The World" yesterday, "I want that \$5000 to provide park and water facilities for the town? It seems to me it was."

In a local paper it is stated that the town council have already decided that the Stubbard property was not necessary, and that an offer of \$2000 an acre would be made. It is inconceivable that the council would even this far in the matter without first getting a verbal expression of opinion from the ratepayers. There is not even any assurance that the engineer has pronounced favorably on the subject. The water is undoubtedly urgent, but not enough so to justify any crude and ill digested legislation.

Discussing incidentally the question again to-night, W. E. Ellis said: "Right here the question is the question of making a ravine drive up thru the valley there, which might serve as a version of proposed 'parallel roads' and be extended to other streets. Other properties would require to be considered."

Incidentally Mr. Ellis corrected the impression that the Stubbard property was not worth the money asked. "It is worth all the money," he said, "and I consider it my duty to assist the council all I possibly can in all matters pertaining to the interests of the whole town. It may be a question in the minds of a great many of the ratepayers of the Town of North Toronto as to whether we should have sewerage immediately or later."

While it may look silly, he said, to talk sewerage before we have an adequate supply of water for the town, everyone knows that we must have a full supply of water, therefore it seems to me a good business proposition for the council to ascertain the most suitable sewerage system and the cost of the same, as early a date as possible. Then when the ratepayers are ready for sewerage, the question can be submitted to them for their decision. When asked if the Murray system as already submitted to the people would not fill the bill, he said, "It is not for me to say. It will no doubt be well considered."

AUTOS ON YORK COUNTY ROADS.

The speed at which automobiles are being driven along the highways and other roads throughout York County is a reflection on the vigilance of the county authorities, and a standing menace to the lives of those who are called upon to travel the suburban roads.

One day and scarcely an hour passes in which the drivers of automobiles do not outside the city limits and especially along the Kingston-road do speedily exceed the maximum speed allowed by law, and leave along the country road at from 20 to 40 miles an hour.

It is quite spot for this excessive rate is east and west of the Markham road. A number of serious accidents have been narrowly averted at this point, wholly by the judgment of the drivers of rigs. Clouds of dust follow in the wake of the machines, and together with the average York County farmer is well able to handle the sleds where the roads are rough and untraveled.

The Sale of Books

No. 13 "The Black Spaniel" and Other Stories By ROBERT HICHCOCK, author of "The Garden of Allah," "The Woman With the Fan," etc. THIS is a dog story of an unusual kind. Doctor Deeming is a vivisectionist; he conducts scientific experiments on live animals. This practice reacts upon his character, and makes a cold, cruel man of him. In the end he loses his life through the bite of a dog. The story is worked in a very compelling way, with a strange undercurrent of psychology running through it. Short stories of the Arabian Desert are included in the volume. Published at \$1.25. Sale Price, Monday, 25c.

BUSH LEAGUERS COUNT

Development of Young Talent Wins Championships. Baseball history again repeated itself last season when the development of three local league players, McGraw, Adams, and Hyatt, did so much to help the Pirates with the pennant. In many campaigns it has been the work of the youngsters, balanced by the older players, that has topped the flag.

HE INHERITED HIS ILL-HEALTH

But Dodd's Kidney Pills Cured J. Ballargoon's Rheumatism. Further Proof That No Case of Kidney Disease Can Stand Before the Old Reliable Kidney Remedy.

Monte Bello, Labelle Co., Que. April 8.—(Special.)—That a man may be cured even of inherited ill-health if he keeps his blood pure and his body toned up by using Dodd's Kidney Pills is the experience of John Ballargoon of this place.

"I inherited poor health from my parents," Mr. Ballargoon says. "I was bothered with Rheumatism, Lumbago and Gravel. I was always tired and nervous. In fact, I was a total wreck. I tried all kinds of medicines, but I got no relief till I tried Dodd's Kidney Pills. They did me good and no mistake. I took fifteen boxes in all, but I am cured."

"My wife also has taken Dodd's Kidney Pills and received great benefit from them."

Dodd's Kidney Pills cure the Kidneys. Cured Kidneys strain all impurities, all that disease feeds on, out of the blood. That is why they always cure Rheumatism, Lumbago, Dropsy and Heart Disease.

Wall Paper Makes all the Difference

RIGHT on our own street we know a house that gives you the impression of shabbiness and discomfort simply because the walls have old-fashioned grimy paper, paper which was never artistic in the first place, and has been up so long now that it's faded and torn and dingy. The whole house looks gloomy and miserable just because of that ugly old paper in the hall—and the other rooms are no better.

Right next door they have the mate of this house in every particular. They form a semi-detached pair. Yet this house next door is bright, cheerful and quite superior. The furnishings are no better—the only difference is that of the wall paper. But what a real difference!

Consider now if it wouldn't add to the pleasure, comfort and beauty of your own home to have some of the rooms papered this spring. We will be pleased to show you that it will. Let us come in on Monday and talk it over, with the papers as silent witnesses.
