GEN. WARREN CAPTURED SPION KOP AND HE HOLDS IT.

British Losses, General Buller Says, Were Heavy, With General Woodgate Dead, But Boer Position is Now Untenable.

General Hector Macdonald Arrives at Modder River to Take Command of the Highland Brigade—London Times Says Buller is Making Steady Progress—More Reinforcements in Natal—General French Can Take Colesberg at Any Moment.

The War Office published a bulletin yesterday from General Buller, at Spearman's Camp, dated Jan. 25, 12.10 a.m., stating that Gen. Warren's troops on Tuesday night occupied Spion Kop, surprising the small Boer garrison, who fled. The position had been held by the British all day, tho they had been heavily attacked, especially by a very annoying shell fire. General Buller said he feared that his casualties were considerable and he stated that Gen. Woodgate, in command of the 9th Brigade, had been wounded. General Woodgate has since succumbed to his wounds. The important sentence of the despatch, however, said: "General Warren is of opinion that he has rendered the enemy's position untenable. The men are splendid."

man's Camp, dated Jan. 25, 12.10, morning: "Gen. Warren's troops last night occupied Spion Kop, surprising the small garrison, who fled. It has been held by us all day, tho they were heavily attacked, especially by a very annoying shell fire. "I fear our casualties are considerable, and I have to inform you with regret that Gen. Woodgate was dangerously wounded. "Gen. Warren is of the opinion that he has rendered the enemy's position untenable. The men are splendid."

Parliament to see that our military organization is made equal to the needs of the Empire. We have had a great awakening on this subject."

THE BATTLE OF COLENSO.

Some of the Strange Wounds Inflicted by Mauer Bullets—Boer Discrimination.

London, Jan. 25.—The St. James' Gazette (correspondent, in his mailed account of the battle of Colenso, dwells on the effect of the Mauer bullet, which he says is, "no doubt, a very humane one," and inflicted some wonderful wounds. "None of the bullets," he says, "took effect on Sunday last, and the wounded men, in the head, the bullet came out of his side, and he is doing well. An officer was shot in the left breast, the bullet came out by the left breast, and he was walking about on Sunday last, and said he felt nothing wrong with him."

THEY LIKE COLENSO.

"The Boers treated our wounded well, and, in fact, did not take them prisoners, as they said they could not be bothered with them. They took the wounded colonels, as they like colonels, and would prefer one with a title, but they rifled their pockets and went for the don't think they can be getting much loot now."

STRIPPED DEAD OF CLOTHING.

"They also stripped our dead of all clothing, for they have no shame behind them, and officers' breeches were highly treasured."

"The arrangements made by the medical officers were perfect. The wounded were packed up almost at once, and within two hours they were comfortably settled in hospital, and being attended by the best nurses, with every comfort that money could procure."

GENERAL BULLER'S ORDERS.

"Advance" Will Be the Word of All Generals, No Matter Where.

London, Jan. 25.—General Buller's orders to his troops, the substance of which has already been called to the Associated Press, after warning them to beware of false orders, concludes: "Our generals will only give one order, namely 'Advance.' Should any one at any time be surprised by a volley at close quarters he must remember that the only way to safety and victory lies in rushing upon the enemy for the one thing the enemy does not expect, a volley at close quarters. The man who has been forced for the lowest and basest motives by an enemy who every means of treachery, deceit and conspiracy to gain their ends. Let us bear ourselves as the cause deserves."

A SPECIAL FOR LADIES AT DINEEN'S.

Parisian designers have a natural, libred knock for chic effects and style in fashioning ladies' garments, which is illustrated in a very striking way in the imported "Ladies' Electric Seal" jackets offered this month at Dineen's for \$38. In appearance, and especially in the deep, rich lustre of the dense, long, smooth fur, Parisian electric seal is comparable with this Parisian product in the matter of durability of far beauty in wear. These imported jackets are really worth \$50. On their arrival at Dineen's a short time ago, they were advertised at \$40. Only a dozen remain to be disposed of before stock-taking, at \$38.

MARTIN'S MAJORITY IS NOT VERY LARGE.

But it is Enough to Elect Him—Practically a Rebuff to the Government.

SIFTON AND THE MACHINE.

Are Supposed to Have Given Him the Knife, But it Was of No Avail.

SHERBROOKE REMAINS SOLID.

Hon. John McIntosh Has a Majority Much Larger Than at the Last Election.

Winnipeg, Jan. 25.—(Special.)—The Dominion bye-election here resulted in a victory for Ed. Martin, brother of Joseph Martin, by a majority of 20. He formerly occupied the position of president of the Liberal Association, and came into Dominion prominence by his denunciation of the political methods of Clifford Sifton, so much so that the machine of Sir John A. Macdonald for support him with any degree of warmth. In fact, it is the opinion of many prominent men supporting Mr. Martin that the great body of the Sifton machine men gave him the knife; but the Conservative leaders in South Winnipeg and a few in the north and centre divisions gave their unqualified and open support to Mr. Martin, on account of his anti-Sifton utterances, and to this element Mr. Martin's election is to some extent due.

Mr. Fettes, the labor candidate, had a majority of several hundred in North Winnipeg, and a considerable majority in the Centre, but not enough to overcome the big vote polled for Martin in the best residential portion of the city, which is represented by Premier Macdonald in the Local Legislature. Mr. Martin goes to Ottawa, if a recount does not change the election, wholly untrammelled, and it is recognized by his foremost workers, and likely by himself, that he owes nothing to Ottawa, so far as that Government is dominated by Sifton. The men who inspired Mr. Martin's campaign and directed it from start to finish were anti-machine elements of the old school of Liberalism, and considering that they had to fight a large element in their own party, and a few of the rank and file of the Conservative party, a very unusual score vote, they feel proud of their victory. Both candidates were pledged to absolute ownership of railways as far as possible, and no railway subsidies, standing on the basis that every cent is repaid to the taxpayer. There are about 120 rejected ballots.

SHERBROOKE REMAINS SOLID.

Hon. John McIntosh Elected by 65 Majority to Succeed the Late Mr. Ives.

Sherbrooke, Que., Jan. 25.—The Sherbrooke county election was carried on today with most extraordinary eagerness by both parties, neither of whom was any too confident. In Sherbrooke city the Bourgois carried up a majority for the Liberal candidate of about 37, but the outside divisions turn the result. Acount division gave McIntosh, Conservative, 48 majority; Oxford division, McIntosh, 21 majority; Lennoxville division, McIntosh, 27 majority. The Liberal majority conceded that the Conservative vote in the county was approximately: Sherbrooke—48; Lennoxville—21; Oxford—27.

SALMON CANNERS COMBINE

After Many Futile Efforts to Reach an Agreement Fraser River Men Are Agreed.

THERE ARE FORTY-EIGHT IN IT

Big Cannery at Puget Sound Made Competition So Hot That Combination Was Necessary.

Vancouver, B.C., Jan. 25.—After many futile efforts to effect a combination of the Fraser River salmon canneries, and officers to purchase these properties by New York and English syndicates, which narrowly failed of acceptance, a British Columbia combine was formed today by the merger of the greatest importance to the canners, and as saving the salmon industry in this province from virtual abandonment.

The canners met today, not only to discuss the matter of forming a combination, but to discuss a somewhat dreary outlook for the coming season. Before the adjournment of the meeting, however, an arrangement had been made, which for protective and operative purposes, makes the 48 canneries of the Fraser one big institution. All the canneries signed the agreement, except two, and these represent a non-signing cannery managers are in sympathy with the movement, however, and in any case the combination is practically complete.

NEWS FROM THE PRAIRIES

New York Paper Says the British Army is Badly Whipped in Fight with the Boers.

ROT WAS CABLED FROM LONDON

Why Are Such Papers Allowed to Enter British Territory?—They Cater to the Public Hoer.

There is a paper in New York, known as one of the yellow kind, called the New York Journal. The front page yesterday carried this heading across the page, in two lines: "The Boer Army is Badly Whipped in a Long Series of Desperately Fought Battles." Under the heading is the following, which will give Canadians an idea of the rot which yellow journalism foists on the people of the United States. Read this:

(Special Cable to The Journal.) London, Jan. 25.—Buller has been defeated. There is no use trying to hide the fact. His despatches, supplemented by those from the Boers, prove it.

There is not a word of news from the front to-day. England is holding its breath against him, but it feels in its heart that another disaster has met the British army.

The plan to assault Spion Kop at night was abandoned, and the Boers almost completely quenched the fire of hope which had burned so brightly for the last few days.

Buller has been beaten back in a long and costly battle. The Boers have fought with the desperation that is characteristic of a man who has nothing to lose. The Boers are now in a position to attack the British camp at any moment.

The Boers claim a series of victories. Their despatches passed the English censors, and they may be true. And the flower of the English army, on ground carefully selected by the English general, after weeks of preparation, has again been defeated. London asks: "Has it been annihilated?"

The paper which prints such rot as this caters to Canadians for circulation. What is the matter with the Government at Ottawa that it does not ban such papers from entering British territory? The state in this despatch is a lie from start to finish.

More of the Fake Journal. New York Journal editorial called attention to the fact that the lake cities were even more interested in the development of our naval armaments than the Boers. Since the beginning of the Canadian canal had opened the links to over 400 British canners, gunboats, torpedo boats and destroyers, the press of those cities in general discussion of the matter with intelligence and concern. There was one exception. The Chicago Times-Herald, the only paper in the United States that pertinently maintains the theory that 90 years make a century, considers the Boer war as a "rot" and a "set of clapnet." It says: "The assembling of a hostile British fleet at Montreal, where a deep water

NAVIGATION ENDS

Navigation ends, would be a signal for an American assault on the Welland Canal. Before a British squadron could reach the mouth of the St. Lawrence, the canal would be in the hands of the British for a hundred miles, and in that distance there is not a single British gunboat. The British fleet is now in the St. Lawrence, and it is only a matter of time before it will be in the hands of the British.

The Cummings Stock Company's production of "The Ticket-of-Leave Man," at the Princess Theatre next week, it is pronounced, will be the most successful yet. The company is a new one, and the performance, the best production of the kind in Toronto, is really a play of great dramatic power, a very well-acted and interesting story of a convict who, after being released, finds himself in a position to make a fortune.
