PAYMENT TO ALLISON

Four Thousand Dollars Given Him Out of Admiralty Trust Fund.

OTTAWA, June 12.—That Col. J. Wesley Allison got \$4000 out of the admiralty trust fund, which was placed to the credit of F. Orr Lewis, is the New York branch of the Bank of Montreal, and that there was a \$50,000 take-off somewhere on the sale of small-arms ammunition to the British admiralty, were the leading points brought out at the inquiry into this matter by Sir Charles Davidson here this afternoon.

A. G. Parker, manager of the Bank of Montreal here, submitted copies of the accounts of the New York branch and correspondence with Orr Lewis, of Vickers', Limited, who represented Sir Trevor Dawson. The accounts showed a number of entries which were not related to the small arms ammunition question, and Mr. J. A. Hutchison, the government counsel, and H. H. Dewar, the opposition counsel, went over them together and picked out the items connected with the matter of the inquiry.

Payment to Allison. When the payment of \$4000 to Allison was mentioned it was also brought out that there was nothing to show that this was for, nor was there anything in the letters to show what it was for. Of course it was not shown either that the payment was in connection with the inquiry.

BULGAR-ROUMANIAN FRONTIER IS CLOSED

Important Bulgarian Troop Movements Believed to Be Under Way.

LONDON, June 12.—The Bulgarian location at Bucharest has received information that the Bulgar-Romanian frontier will be temporarily closed against passengers or merchandise, says a Reuter despatch today from the Roumanian capital.

It is believed, adds the despatch, that Bulgaria has taken this step in order to mask important troop movements.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

HEAVY fighting still keeps up in Bukowina, Galicia and Volhynia, with the Russian golden eagle still soaring triumphantly over the double-headed Hohenzollern bird and swelling the total roll of captives to 113,700 men and 1700 officers as the gains for one week of fighting in the spring campaign. The Russians took 6700 of these on Sunday. Petrograd says that owing to the prevalence of a violent storm in southern Russia the reports received yesterday were curtailed, but they showed that the armies of General Brusiloff were continuing their offensive in many sectors. In the south the Russian communique broke off where the armies of the czar were bursting into the suburb of Czernowitz, capital of Galicia, and close to the Roumanian border. The Austrians, it was reported from Roumanian sources, were retiring to positions four miles behind the town.

The Russian offensive is generally taken by those observers of the war in London who are in touch with war office circles as the beginning of the great allied offensive. The extent of front broken thru in the first four or five days is proof that the Russians are not suffering from lack of shell. Since the ports of Archangel, Kola, Ekiktringrad and others have been opened in the north, the Russians have not only their own factories to draw from, but they have the factories of France, Britain and Japan. The shell production of the central powers is said to be slightly in excess of 500,000 a day, but the British and the French munition shops, it is said, are able easily to beat that output.

In their desperate attempts to gain breathing time the Germans and Austrians launched two counter-offensives. One of these, which was undertaken north of Tarnopol, was repulsed on Sunday morning. The other, which was undertaken north of Bucacz, forced the Russians to give way a little, but they soon rallied, and the fighting was still proceeding with increasing desperation. In their counter-offensive on the Styry near Lutsk the Germans and Austrians were defin-

To Earl Kitchener

BY ROBERT BRIDGES, BRITISH POET LAUREATE.

LONDON, June 13.—The Times today prints a sonnet to the late Earl Kitchener, written by Dr. Robert Bridges, the British poet laureate. The sonnet follows:

"Unflinching hero, watchful to foresee And face thy country's peril whereso'er, Directing war and peace with equal care Till, by long toil ennobled, thou wert he Whom England called and bade 'set my arm free' To obey my will and save my honor fair What day the foe presumed on let despair And she herself had trust in none but thee. Among Herculean deeds the miracle That mass'd the labor of ten years in one Shall be thy monument. Thy work is done. Ere we could thank thee, and the high sea swell Surgh unheeding where thy proud ship fell By the lone Orkneys 'ere the set of sun.'"

They were driven off by British aircraft with a few minor casualties at Kantara. No one was injured at Romani. There have been successful skirmishes with patrols on the eastern border of the Quattia district."

ITALIANS ADVANCE ON TYROL FRONT

Follow Up Repulse of Austrians by Gaining Ground in North. REPEL TWO ATTACKS

Austrian Counter-Stroke Fails to Arrest Allies' Progress.

LONDON, June 12.—After the cessation of the desperate Austrian offensive against Italy, the Italians, repulsive their offensive, have made a continued advance in the Arsa valley, the Paganico sector, and along the Posina-Astico line in the southern Tyrol, according to the war office at Rome today.

The advance in the Val d'Arza was hampered by a violent artillery fire and, in the higher levels, by snow and gales. The Italians repulsed two Austrian counter-attacks in the direction of Forni and in the Campiglia zone. The enemy lost heavily in these attempts.

RUSSIANS MAY NOW HAVE CZERNOWITZ

AUSTRIANS CAN'T STOP THE ADVANCE

Special Cable to The Toronto World. LONDON, June 12.—Fighting on with great impetuosity and valor, the Russians are continuing their offensive in the big stretch of country between the Pripet marshes and the Roumanian border. They increased the number of prisoners taken to 1700 officers and 115,000 men, a gain of 6700 since the preceding day. Petrograd says that owing to storms in southern Russia and the consequent rupture of telegraphic communication reports from this front are delayed and news of the armies is restricted, but it is established that in many sectors of the front of Gen. Brusiloff, the Russians are still pursuing the defeated enemy and that they have attacked him hotly in some places. He has also counter-attacked his pursuers with desperation.

ADMIRAL JELlicoe PRAISES HIS MEN

Glorious Traditions of Gallant Seamen Were Worthily Upheld. MISSED FULL VICTORY

But German Losses Certainly Not Less Than Those of British.

LONDON, June 12, 7.50 p.m.—In a message to the men of the British fleet, which was given out here officially tonight, Admiral Jellicoe expressed high appreciation of the manner in which the ships of the fleet had fought during the Jutland sea fight of May 31.

"At this stage, when full information is unavailable," said the admiral, "it is impossible to enter into details, but quite sufficient is known for me to state definitely that the glorious traditions handed down to us by generations of gallant seamen were most worthily upheld.

"Under conditions that were highly unfavorable expected by all ranks, our losses were heavy. We miss many most gallant comrades. But although it is difficult to obtain accurate information as to the enemy's losses, I have no doubt we shall find they certainly were not less than our own. Sufficient information already has been received for me to make that statement with confidence.

"I hope to give the fleet fuller information on this point at an early date. I do not wish to delay appreciation of the work of the fleet and my confidence in a complete victory.

"The wonderful spirit and fortitude of the wounded fills me with the greatest admiration. I am more proud than ever of the honor of commanding a fleet manned by such officers and men."

FRENCH WIN FIGHT NEAR THIAUMONT

Germans Suffer Repulse of Violent All Day Attacks. KEEPS ON SHELLING

Enemy Bombard Region West and South of Fort Vaux.

Special Cable to The Toronto World. LONDON, June 12.—French positions north of the Thiaumont fortifications and north of Verdun braved successive German attacks all day today, and when night fell they were still in the hands of the defenders.

The enemy brought into the conflict here important reserves and he launched violent assaults, but he was everywhere stopped by a curtain of fire and by infantry volleys, suffering serious losses.

Besides the point of attack, the whole region west and south of Fort Vaux and the French second line in the Souville-Tannes sector, were violently bombarded. During the night German infantry attacked the French positions west of Fort Vaux, and they were completely repulsed.

West of the Meuse a heavy artillery action continued last night and today in the vicinity of Chateaucourt.

Forces of General Brusiloff Take Nearly Seven Thousand More Prisoners, Advance to Seize Kolomea Junction, Key to Bukowina, and Beat Off Two Austro-German Counter-Offensives.

Special Cable to The Toronto World. LONDON, June 12.—Fighting on with great impetuosity and valor, the Russians are continuing their offensive in the big stretch of country between the Pripet marshes and the Roumanian border. They increased the number of prisoners taken to 1700 officers and 115,000 men, a gain of 6700 since the preceding day. Petrograd says that owing to storms in southern Russia and the consequent rupture of telegraphic communication reports from this front are delayed and news of the armies is restricted, but it is established that in many sectors of the front of Gen. Brusiloff, the Russians are still pursuing the defeated enemy and that they have attacked him hotly in some places. He has also counter-attacked his pursuers with desperation.

In Czernowitz Suburbs. In the region south of the Dniester the Russians were yesterday already fighting for the suburbs of Czernowitz. They observed heavy explosions in this town, indicating that the Austrians were preparing to abandon it. The enemy blew up a bridge near Mahaly Village, east of Czernowitz, while the Russians were already near the Zaleszczyk bridgehead. In this section of the front Gen. Leuchitzky had taken a total of 20,000 prisoners, all of the Hungarian infantry and cavalry, an increase of 2000 since yesterday's report.

South of Lutsk on the Ikwa front, the enemy beat a hasty retreat and the Russian pursuit was closely followed. Foe Finally Repulsed. In the region of Gladki and Verobivka village in Galicia, north of Tarnopol, the fighting has been proceeding for the past two days, the enemy attacked the Russians repeatedly and furiously, but he was finally repulsed Sunday morning. The Russian artillery here did great service by throwing sustained gusts of fire which checked all the attacks of the enemy.

North of Bucacz, which the Russians entered yesterday, the Austrians and Germans in the south, Von Hindenburg is launching a great many desperate attacks on the Dvina front in the north and the Russians have not only generally held their ground, but have advanced in one or two places. The Germans opened an offensive on the right wing of the Riga fortress, north of the Austrian crown land of Bukowina. The rumor lacks official confirmation, but it has been given color by the capture of Dobronovitz, a commanding point 10 miles to the northeast. The Russian line here extends to Okna. From both these points good roads lead direct to Czernowitz, and, according to military authorities, they are the only points in this direction capable of defence.

A telegram received from Bucharest, Roumania, says the Austrian army has evacuated Czernowitz and moved to a line four miles to the west. The communique says the Russians recorded in today's official communication are the more surprising as the Austrians, after the first shock of the Russian advance, appeared to have rallied their forces and offered extremely stubborn resistance. This is indicated by the fact that they were able to mass sufficient forces in the vicinity of Kolki, north of Lutsk, and cause the Russians to retire across the Styry river.

Not only here, but at other points on the Volhynian front, further counter-attacks characterized the last 40 hours of fighting, but without being able to check except momentarily the force the Russian advance.

It is not believed here that the Germans are sending many troops to aid the Austrians. It is pointed out that only in one instance—during Russia's spectacular Carpathian campaign—did Germany send any large number of men to the relief of the Austrians. Instead, it has always been their practice to undertake an offensive on some other line in an endeavor to draw off the Russians. It is the opinion of observers here that it is not improbable the Germans are more likely to attempt an offensive on the northern section of the Russian front than to risk weakening their lines by detaching any number of men for the purpose of stiffening the Austrian defense.

Bringing Up More Men. A despatch from Rome says that it is learned from Swiss sources that the Austrians have withdrawn 45,000 men from the Italian front to resist the Russians and that they are also evacuating Albania. Batteries of heavy guns have been sent to Volhynia. Between June 7 and June 9 about 30 Austrian trains loaded with guns and troops passed thru Innsbruck station and proceeded northward. The Austrians have also withdrawn troops from the Isonzo front and the Carso. Bulgarian troops are expected shortly at Innsbruck to reinforce the Isonzo front, where the Austrians expect the Italians will launch an offensive. After weeks' fighting the Austrian offensive against Italy has been brought to a standstill. The Russian ambassador in London announced today that the Austrian armies near Czernowitz have been completely routed. Two entire divisions with all their guns, ammunition, and generals, were captured. The Russians are in full pursuit of the enemy and the Cossacks are over-running territory in the rear of the fleeing armies.

Despatches from Roumania say that the newspapers there are showing excited interest in the progress of the Russians. Pro-ally periodicals insist that now is the time for Roumania to join the allies.

Despatches from the Balkans say that the Austrian forces in Czernowitz fear that the Russians will seize Kolomea junction, across the Dniester, and cut off their retreat.

After a week's silence on developments in Galicia, where German troops mixed with the Austrians have been engaged by the Russians, Berlin today gave out a report that Russian troops attempted to advance north of Bucacz and were repulsed, losing over 1500 prisoners to the Germans and the Austrians.

LONDON, June 12.—The feature on the British front in Flanders today was the heavy bombardment between the Germans and Canadians on the front between Hill 60 and Hooge this afternoon. Both sides fired upon the lines of each other with heavy shells. At the close the German infantry did not come out of its trenches to attack the Canadians.

"KICK IN" VERY CLEVER DRAMA

Intensity About Action and Ingenuity in the Situations. IS AT THE ALEXANDRA

As Presented by Robins Players Was Beyond Criticism.

"Kick In" as it was presented at the Royal Alexandra last night, was beyond criticism as a modern drama of police life, and in point of construction it is one of the cleverest plays that have been here in many years.

Naturally there are sombre moments in it, but they are so brief and so vehement that they pass before one has time to consider their effect. The plot is a masterpiece of construction, and the piece carries all before it, and the Robins Company swept themselves so fluently into the action that the performance was practically perfect.

The story is of a man who has been convicted and served a sentence, and who, having married a girl who is unaware of his crime, has been trying to live straight since his release. He has a good position, but the police detect his escapade, and suspicion occurs of a diamond necklace, and some of the "rats" who have been in the neighborhood, and he is caught in the toils. The third degree is administered, and the nature of the crime is demonstrated. The curtain to the first act is a surprising turn, and prepares the way for the home-like setting of the second act, when are introduced Mrs. Halloran and her daughter Daisy, who furnish a lot of comedy. Emma, the girl who is so excellent as the old Irish woman who keeps roomers.

These clothes are now to hand and are now in stock.

Miss Burke's vehicle was a Triangle feature called "Peggy." As the heroine, depicting young heiress, fond of motors and mirth, but being a ward of her stern Scotch uncle and essentially obedient to his wishes, Miss Burke is given unlimited opportunity of bringing into action all her charming mannerisms, and numerous talents to the constant delight of her audience.

COMEDY AND DRAMA FILMS AT THE STRAND

Charlie Chaplin in "The Fireman" and Lillian Walker in a Gripping Photo Play.

"The Fireman," the latest Chaplin release, is the drawing card at the Strand Theatre this week. This picture is without doubt the funniest farce in which the inimitable Charlie has been seen in Toronto, in some time. He plays a real policeman, and his performance was of a high order throughout. This is life on the ragged edge, and beyond the usual comedy circles. In the next act this portrayal is intensified, and the great climax of the piece comes at the end of the picture, when the double-crossing detective with the double-crossing detective, "Whip" Fogarty, an obnoxious part, taken with great power by Eugene Frasier. The picture is a masterpiece of the plan for its restoration.

TUESDAY MORNING, JUNE 13.

The U. S. Political Situation

President Wilson never went to his Saturday afternoon golf with more zest or came home with a better appetite for dinner than on the day when he received the news that Mr. Justice Hughes and not Colonel Roosevelt would oppose him for reelection as the candidate of the Republican party.

The Chicago convention's correspondents agreed in describing the recent Republican convention as a cross between a morgue and a refrigerator. The delegates seem to have nominated Hughes because for some reason they could not or would not nominate Roosevelt.

Those who wish to view the remains, will please pass to the right. The Progressives appear to be up in the air and their party is almost a negligible quantity without Roosevelt.

The New York World says the Republicans nominated Hughes because they were looking for a man who most nearly resembled President Wilson "in character, in ability, in temperament, and in the capacity for idealistic public service."

Hence Wilson and Hughes look very much alike to the mass of the people. Each will be looked upon as a safe man, unlikely ever to get the country into war. Probably domestic issues may come to the front, but for the first time in history the Democrats have the full-dinner-pail argument on their side.

The foregoing may not be in accord with the preconceived views of many people, and we concede the difficulty of sizing up what is really going on in a foreign country. There may come a great popular reaction against the politicians that will place Roosevelt in the White House and vindicate his strident Americanism.

Canada. The nomination of Roosevelt or even his candidacy might create an impression in some quarters that would make efforts at mediation by the Washington Government out of the question.

Recruiting to Be Organized

Some time ago we called attention to the speeches in the senate of Colonel the Hon. James Mason on recruiting. Events have fully justified his conclusions at that time, and there has been a general consideration of the whole question going on, not only by those who are most concerned in the success of the recruitments from a military point of view, but also by the general public, who are interested in seeing the war brought to a conclusion, and who know that, as Mr. Lloyd George said, unless we put forth our full strength we cannot win.

A number of counsel have been examining the act for their clients in the trade and other areas known to have been retained. Not a great while since a prominent Toronto lawyer went to London and sought opinions from some of the best lawyers of the empire.

Temporary Change in Tide of War Precipitated the Fall

ROME, June 12.—The present ministerial crisis may seem unexpected and inexplicable abroad, where it is here, but it had been inevitable since two months ago when the chamber adjourned on a vote giving a large majority for a cabinet of the leaders of the different parties had urged the government to widen its political base by inviting some to participate actively in the preparations and direction of the war.

It is a story of a woman who lives in an ambitious and elaborate house, and who goes to a boarding school, fashionable enough to educate her for her life work in the city.

NEWS OF SPECIAL INTEREST TO WOMEN

POSTE DE SECOURS DOES GREAT WORK

Toronto Women Look After Whole Population of Belgian Village.

SERVICES RECOGNIZED

Will Probably Have "Red Cross Medal" Conferred Upon Them.

Regarding the splendid work being done by Mrs. Agor Adamson from her London headquarters, and the Toronto women associated with her in the matter of giving service to the Belgian refugees on the other side of the water, a good deal of our information has clustered about their particular work for the nuns and the children under their charge.

Another phase of their activity comes to us in a letter received by Mrs. Adamson, and translated by her, in which Dr. Silveira, military doctor of the 5th Division, Belgian Army, tells of the medical and surgical assistance which these women from Canada are giving.

"At the opposite side, on the road to Ypres," says the letter, "Mrs. Innes-Taylor has established a small 'Poste de Secours,' which has given, and is still giving, very great service. For about six months every morning at 8 o'clock free consultation has been given to all the school children and the inhabitants living roundabout to the entire satisfaction of everyone.

"To give an idea of the importance of the services rendered it will suffice to say that since its foundation the 'Poste de Secours' has looked after more than 1200 persons, in spite of the modest resources at its command. The splendid resources are due entirely to the activity and admirable devotion of Mrs. Innes-Taylor, Miss Esther McNeill and Miss Margaret Saunders, who have given themselves up to the work with an enthusiasm nothing less than marvellous.

"Not only have these three ladies established and run the little 'Poste de Secours' but they provide almost the whole population of Furnes with food and clothing, and entirely look

after the feeding of the neighboring school, where more than 325 children are instructed. "These ladies," in spite of numerous bombardments, are continuing their work with the utmost courage and devotion, and I take it that there will be conferred upon them the 'Royal Red Cross Medal' in recognition of their splendid work and as a small token of the admiration of all the population of Furnes."

MUST PAY PENALTY OF HIS PAST MISDEEDS

Appeal of W. G. Woods From Order Directing Him to Pay Alimony Dismissed.

Walter J. Wood appealed to the appellate division at Osgoode Hall, to quash a conviction of Judge Denton's by which he was ordered to pay \$805 arrears of alimony. He advanced the plea that to do this would be to compel him to support two wives, contrary to English moral rules. In quashing the appeal the court pointed out that he is not compelled to support two wives, but is required to pay the legal penalty for those acts which, while enabling him to remarry, entail a legal reminder of his past misdeeds.

Wood married his first wife in Buffalo, in 1901, but in 1912 obtained an order dissolving the partnership, giving her the custody of the child and \$50 a month alimony. Wood was again married in Toronto, November, 1915, and now lives in Berlin.

"JEAN WEBSTER" DEAD.

Author of "Daddy Longlegs" Won wide Fame.

NEW YORK, June 12.—Mrs. Glenn Ford McKinney, known before her marriage as Jean Webster, author and playwright, died today in the Sloane Hospital. Miss Webster was known widely for her novel, "Daddy Longlegs," which was afterwards put into play form and acted last season with much success with Ruth Chatterton and Henry Miller as the principals.

FOR THE RED CROSS.

The sum of \$90 was raised by the Red Cross party given at "Brim Mor," Birchcliff, the home of Mr. and Mrs. E. E. Hedman. The money will be used in the effort to keep the men of the district, who have enlisted, in comfort while at the front.

GIRLS OF HOWARD SCHOOL IN COMMENDABLE WORK

Raised Two Hundred and Fifty Dollars for Presentation of Colors to Beavers.

The five things that can be done by girls in the way of patriotic work was evidenced in the results of a sale given by the senior fourth, Miss Mabel Oulton's class of girls at Howard School, when they raised over \$250, which will be used for the presentation of colors to the 204th Battalion in September. The raffling of a cake presented by Mrs. Flynn, and a handsome sweater coat by Mrs. Stewart, were features of the all day sale. Miss W. Oulton and her girls were assisted by Miss Mackenzie and Miss Oulton.

MUSKOKA EXPRESS

Leaves Toronto 10.15 a.m. daily, except Sunday, via Grand Trunk Railway System, stopping at Barrie, Orillia, Muskoka Wharf, Huntsville, Burk's Falls and North Bay. This train carries highest class of equipment, including up-to-date coaches and comfortable parlor car. Direct connection is made at Muskoka Wharf with boats for Muskoka Lakes points and at Huntsville with boats for points in the Lake of Bays territory. When you consider that Muskoka resorts are within three and a half hours' ride from Toronto, and Lake of Bays resorts within five and a half hours' ride from Toronto and proportionately accessible from many of the large centres in Ontario, no more delightful week-end trip can be planned. A pleasant journey of a few hours by train, a delightful sail of from one to four hours through beautiful lake and island scenery; a couple of days' sojourn at a well-conducted hotel or boarding house, at moderate rates, including in such recreations as are freely provided at all resorts, completes a most enjoyable week-end. Low week-end fares are in effect, good going Saturday and Sunday, return up to and including the Monday following date of issue. Pamphlet containing list of fares will be gladly furnished on request. Summer tourist fares are in effect for those desiring to spend a longer period in the highlands of Ontario. Handsome descriptive booklets of Muskoka Lake and Lake of Bays districts, containing list of hotels and boarding houses, etc., can be secured on application at City Ticket Office, northwest corner King & Yonge streets.

SOLDIERS' COMFORTS MAY FEATURE AS EXHIBITS

Women Interested in National Exhibition Must Have Entries in By August Ten.

Women interested in the coming National Exhibition are warned that entries of work or exhibits of any description which may be entered under the heading of women's and children's work, must be listed on or before August 10th, as on that date all entries close.

The prize list is now out, and it is interesting to note that the classification has been extended in several directions, and that the premiums in women's exhibits are more liberal than in the past, including those for school work and domestic science. In the revision considerable attention has been given to the military trend of the times, and the changes made are suited to the requirements of the moment.

It is expected that one of the most attractive of the departments will be that of the soldiers' comforts, specimens of which are being made in such variety and number in thousands of Ontario homes. This department will be in charge of Lady Eaton, who is personally making the collections for which every effort is being put forth to make it unusually large and representative.

Among the members on the committee who will have charge of the women's building at the exhibition are: Mrs. Joseph Oliver, Mrs. Clifford Marshall, Mrs. John G. Kent, Mrs. G. H. Gooderham, Mrs. W. K. McNaught, Mrs. J. O. Orr, Mrs. J. D. Allan, Mrs. E. Bristol, Mrs. W. H. Cawthra, Mrs. J. S. Dignam, Mrs. J. E. Elliott, Lady Eaton, Mrs. Robert Rennie, Mrs. A. E. Stevens, Mrs. G. S. Shaw, Mrs. Wiloughby Cummings.

WOMEN OF THE CITIES ARE DOING THEIR SHARE

All Over Canada They Are Helping in Many Ways the Boys at the Front.

Something of what is being done by women in cities outside Toronto to help the boys at the front, is shown by a writer in "The Outlook," who, speaking of what had been done in Halifax, tells us that some idea of its magnitude may be gathered from the statement that thirty-six thousand pairs of hand-made socks went from Nova Scotia alone, and that in the Technical College of Halifax, more than forty miles of material was made up in three months by the women of the city.

There is a widow, Mrs. Archibald of Wolfville, who has very little of this world's goods, and yet she sent six hundred jars of preserves to the soldiers in France. She did not have the money to buy the fruit. She went into the woods and gathered it. But which was left after the picking, some one gave the sugar to her. She fringed around the preserves, and then she made a workshop of her cellar and put up these six hundred jars of preserves, boxed them all herself and then she sent them, on blessed with her labor of love. This woman has a boy in khaki fighting in Flanders.

The same writer speaking of the things that children are doing states that in Montreal and some of the other cities in Canada every child contributes one cent a week at least, to the Patriotic Fund. There is a bank in every school room in Montreal to which the child makes his deposit. Some of the children give much more than one cent.

There are thousands of families in Montreal sustained out of the Patriotic Fund which the women gather.

GIRL FLYER WHO DROPPED A THOUSAND FEET FOR FUN

Only Twenty Years Old, She Conducts an Aviation School With Brother and Sister and Has Taught Scores of Canadian Airmen Now on the Firing Line.

It has remained for a slim and shy little twenty-year-old American girl, Miss Katherine Stinson, to name the drop 1000 feet in a biplane and "recover" just before reaching the ground, to loop the loops 2000 feet in the air and to teach Canadian aviators by hundreds and United States aviators by dozens how to operate war planes. And now as a fitting tribute to her prowess, Tex Richard, promoter of the famous "Red Bull" race, has arranged for her aviation feats in South America.

BY NORAH MEADE.

THERE was infinite grace, daring and versatility in Katherine Stinson's handling of her biplane at Sheepshead Bay. In less than one hundred feet she was clear of the ground. She swept over the field in gradual ascent, until she had reached the 2000 feet. With the "thump" of her engines silenced by the distance, she circled over the heads of the crowd, a dark speck against the blue of a clear summer sky.

For a moment she seemed to pause in mid-air. Then came a sudden swoop, a commensurate and low trail of magnesium smoke outlined a completed but imperfect curve.

She tried again. Another dip, an upward curve. This time the loop was perfect. For about 100 feet it fell in a direct vertical line toward the earth, while the crowd held its breath from fear. But within 500 feet of the ground it curved into the level, and landed gracefully on the green.

In her next ascent she rose still higher. She dipped, circled, while the crowd below held its breath. The race track outlined a corker in the sky. Then she dropped bombs on a miniature fort. In a two-mile flight she reached Oario Rasta, an auto speed demon, now flying low above his head, now soaring close to the tree tops. And she landed with a flourish.

Her next course, equal that time, Katherine Stinson is now twenty years old. To talk with her is to get an uneasy premonition of an age which will be still more restless than ours, for she is undoubtedly as typical of the future as the girl motorist is of today.

She is a sensitive girl, not very strong, intelligent, clear-headed, and paradoxical as it sounds, rather cautious—that is how Katherine Stinson struck me. Conventionally speaking, she could not be called pretty. Her face is too long; her features too irregular and too strongly marked. But she has deep-set, luminous brown eyes, fringed by long lashes that lend her an elfin charm, and that in the twinkling of an eye meet you and then in the puzzled furrows that one sees in the face of a child. She is very young, but she has the experience of Miss Stinson was born in Jackson,

A Message to Thin Weak 'Scrawny Folks

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy Permanent Flesh. Thin, nervous, undeveloped men and women everywhere are heard to say: "I can't understand why I do not get fat. The plenty of good nourishing food that I eat is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste." What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The best remedy for this is Sargol, a powerful, non-toxic, fat-making element of your food, which is being derived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this state of affairs is to take Sargol, a powerful, non-toxic, fat-making element of your food, which is being derived by the failure of the alimentary canal to take them from the food.

NOTE:—Sargol is recommended only as a health-builder, and, while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about taking it unless a gain of weight is desired. If you find a druggist who is unable to supply you send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine street, Montreal, and complete ten days' treatment will be sent you postpaid, in plain wrapper.
