## WASHINGTON EXPECTS **BOTH MEAN BUSINESS**

Big Things Concerning Relations Hour's Chat States Likely To Happen-Earl Grey and Sir Wilfrid Laurier Invited To Cabinet

WASHINGTON, D.C., Jan. 7 .- (Speciel.)—With the arrival of Canadian cobinet ministers in Washington and even before the actual work of reciprocity making has begun, there are indications that the tariff agreement which it is hoped will be drawn will be of far wider scope and of much greater importance than ever has been attempted in a negotiation to which the United States has been a party. It looks as if the Dominion officials mean business. It is certain that President Taft does. He certainly will meet them half way. The presence of the Camadian officials here makes direct negotiations possible under the most agreeable circumstances, and it safely can be said that "big things" concerning the relations of the two governments are likely to happen. If the time is ripe for Canadia it surely is ripe for the United States.

Cabinet Dinner.

Fully realizing the importance of the al.)-With the arrival of Canadian

Cabinet Dinner,

Cabinet Dinner,

Fully realizing the importance of the occasion. President Taft has decided to usher in the real work with due ceremony. He has planned a "Cabinet Dinner" at the White House for Wednesday night and has sent special invitations by telegraph to Earl Grey and Sir Wilfrid Laurier, the governor-general and Canadian Premier, respectively, to be present and john with members of the American and Canadian Cabinets who are to be the presidian Cabinets who are to be the presi

ient's guests.

It is hoped that the telegraphed in-ritations may bring messages of ac-ceptance, as they are issued because the president sincerely desires to have two foremost Canadian officials ent if possible, and the invitations are in no sense sent simply as a mat-

worth, minister of justice.

Daily Conferences.

Fielding and Miss Edith Fielding, arrived here last night and went direct to the Shoreham Hotel. They were to the Shoreham Hotel. They were preceded by Mr and Mrs. Paterson and Messrs. J. A. Russell, H. V. Roorke and R. B. Viets, who are attaches of their staff. Mr. Fielding and Mr. Paterson are here to conduct reciprocity negotiations. They will have daily conferences with the secretary of state. Mr. Knox. who has given to the matter of Canadian reciprocity the closest personal attentiop. Not an important paper bearing on the case has gone out that has not been subjected to Mr. Knox's closest scrutiny.

to Mr. Knox's closest scrutiny. In fact, even the details have been one over by him, as he is particularly desirous that nothing be said or done which could create the impression that which could create the impression that the United States sought advantages which Canada might later regret, so that at some time in the near future the agreement might fall thru, being unsatisfactory to one or the other party to it. It is Mr. Knox's hope to make the agreement lasting thru its make the agreement lasting thru its

## To Deliver Papers By Aeroplane

Didier Masson To Fly From Los Angeles To San Bernardino.

LOS ANGELES, Cal., Jan. 7,-The delivery of newspaper by areoplane is scheduled to be made to-morrow, when Didier Masson will fly from this city t. San Bernardino, 60 miles, carrying an edition of a local paper. The route will include Pomona, where a descent is to be made and papers delivered to the agent. He will then continue to San Bernardino.

Masson will give an exhibition in San Bernardino early in the afternoon and later will return to Pomona for exhibi-tion flights.

### Heaviest Man To Go Up in Air

Grahame White Will Lift Ecclestone For Charity Fund.

LONDON, Jan. 7.—Fully recovered after his unfortunate accident some three weeks ago, Mr. Grahame-White has promised to take Mr. Ecclestone, the heaviest man in England, up in the air in a week or two. Mr. Ecctestone, who weighs over 500 lbs., has no fear.—"I shall go up with Mr. Grahame-White or any other pilot without the slightest hesitation, and be glad of the chance," he told me yesterday. "I am the heaviest man in Britain, and I have an ambition to take my big weight into the skies. You may be sure the event will come off."

Irving was unveiled the other day by Sir John Hare. The monument is situated at the back tof the National Portrait Gallery, and its inauguration was attended by all the leading members of the dramatic profession. The proceeds of the record flight are to be given to the Willesden Cottage Hospital, it being Mr. Ecclestone's intention to raise money enough to endow four new beds.

## With Taft

Canadian Tariff Envoys Call on President at White House and Open Confab With Secretary

WASHINGTON, Jan. 7 .- (Special.) -Minister of Finance Fielding and Minister of Customs Paterson of the Can-State nox to-day, their visit being the beginning of the tariff negotiations

locking to reciprocity.

The introductions were con by Charles M. Pepper of the bureau of trade relations of the state depart-ment, while Counseller Chandler An-derson, who will be the second negotia-tor for the United States, was present

at the ceremonies.

Then followed a formal call upon President Taft at the White House. The Canadian ministers were cordially received by President Taft, and the party sat in the president's receiving room chatting for an hour,

Ankees Checkmate

British in Honduras

Brought About Rejection of

British Proposition.

LONDON, Jan. 7.—The project of relations for a general Anglo-American arbitration ireaty, upon the subject of which President Tart is sounding the sensite committee on foreign relations, attracts comparatively little interest here. Few of the newspapers express an opinion on the matter.

Undoubtedly the British Government would meet the United States half way. The Liberal party is particularly favorable to such an arrangement. The seneral feeling, however, is that the senate may black the plan and the English statesmen are not an xious, for a repetition of the experience which was had with the Hay-Paumcefote treaty.

# LAURIER AND TAFT

Are Pursuing Much the Same Policy In Reciprocity and nuns of the order to wear a lis-

A man who read The World's article of Saturday, which set out that Sir Wilfrid Laurier would be just as well pleased if he could sign a reciprocity treaty with the United States which the Republicans would refuse to ratify before March 4, or which the Democrats would refuse to ratify after March 4, because it did not go far enough, said that, in his opinion, President Taft was playing pretty much the same game. Namely, the people in the United States had demanded cheaper food, and Mr. Taft was trying to get it by having the food products of Canada let into the States free of duty by a treaty. If he could sign such a treaty, and have it turned down, he would get credit for earnestness, and in that way he would please both sections of the Republican party, both those who want lower duties and those who want to keep them as they are.

## Men Had Miraculous Escape From Death in Collision at Church St. and

## COULD BIG BANKS HAVE SAVED FARMERS' SMASH?

Knew Seven Months Ago
That Everything Was Not
Well, But Refused to Do
Any More Rescue Work
Tendency Towards Conscient the double liability of banks be held blameless
Can the big banks be held blameless

Adequate return to the people for their franchise-gift? Pressure for a government guarantee of deposits will be made evident before long.

Having in view the hardship caused to many innocent and unsophisticated investors by the operation of the double liability of bank shares should be done away with.

Then there is the question of government inspection. In the interest of all, this seems to be imperative.

At any rate, the Banking Act is up

for the Farmers' Bank failure and its

The big banks-the Bankers' Association in fact-knew seven months ago that the Farmers' Bank was borrowing money from a trust company in order to get them its clearings. That was an indication of what might

Did the big banks do anything to ease the situation? Did they came together and suggest a plan of taking over the Farmers' Bank? They did not. Their attitude was one of indifference, perhaps even of ill-concealed delight that another small bank was of the slaughtered shareholders didn't arouse the big bankers.

Could Have Helped.

And the big banks could have helped. The desolation caused by the failure of the Farmers' Bank might have been anticipated in some measure months But someone instituted a policy "No more rescue work" and the

on their side, but their action or inaction in this particular matter has opened up the whole case of banking in Canada and the ensuing discussion will be a free-for-all contest. By a canvass of the man on the street, the man with a little money, perhaps some of it in bank stocks, several sugges-

tions appear.
Over against the evident tendency of the big banks toward concentration, there is set the desire of the small borrower for small banks. What is needed is more banks not fewer. The small bank is the people's bank. The U.S. banking system is a system of small banks, and the small town and city has prospered under the system. Is the Canadian banking system so per-

has prospered under the system. Is the Canadian banking system so perfect?

Why Not Deposits?

Already the note circulation of Canadian banks is guaranteed. Why not also arrange for the guarantee of the deposits? The franchise given a bank is a valuable one; does a bank give an interpretation of \$500.

New York Motor Exhibition Throws Open Doors to Record-Breaking Crowds---/ Exhibits Valued at Over-

NEW YORK, Jan. 7.—A feature of the opening of the automobile show to-night is the presence at Madi on Square Gardens of many Canadians of prom-inence who are in the city attending the fisheries conference. Many also came down especially for the show. They are the guests of the automobil-ists, and were conspicuous by their in-

Two Million Dollars,

Meetings have been arranged for next week in the Metropolitan Church as follows:

At 3 p.m. each day there will be a service for women only. At 10.30 a.m. on Wednesday and Thursday Dr. Chapman will address a mixed congregation. Everybody—men, women and children are invited.

At 7.45 every evening there will be a mass meeting for men, in the auditorium of the church and a meeting for women in the schoolroom. The principal features of the show are briefly as follows:
Five hundred and seventy-eight ac

cessory and motorcycle exhibits. Value of exhibits \$2,200,000. Lowest prices car of exhibits \$2,200,000. Lowest priced car \$450. Highest priced car, \$10,000. Ex-pected attendance 160,000. Sixty-nine exhibits of pleasure cars. Thirty-five exhibits of commercial cars. the schoolroom.

Everyone of the evangelists like Toronto and its people. They are more than pleased with the work being done by the chorus choirs in the district churches. In comparison with some other cities where there is a large foreign element, Toronto seems like a city of friends and acquaintances. "And," said one of the evangel-

E.P.REED & Co

## OUR ENVOYS IN WASHINGTON

True Account of Perigrinations of Messrs. Fielding and Pate erson From Our Man On the Spot

washington, Jan. 7.—(Clothes Line Special).—The Canadian tariff commissioner are having a whale of a time in Washington. Both were upearly this morning and out to see the sights. It will be some days before they get down to work, as there is a lot to see yet.

Mr. Pepper is anxious to start the negotiations, but he realizes that it will not do to cross the Canadians, who are now in good humor from much feasting and pleasuring. Mr. Paterson insisted on going down to a hostograph gallery on Pennsylvania-avenue and having his picture taken in the act of shaking hands with President Taft. There is a fellow down there who makes a barrel of money fixing the president's photo onto those of visitors to the capital. The Canuck minister ordered several dozen, and it is understood that each of the Canadian correspondents will get one for his paper.

Mr. Fielding likes Washington. He says the buildings are so low that it is no trouble looking up to the top of them. He got a crick in his neck when passing the Washington Monument on Friday, but he feels better now. Like his colleague, he is going in for a time.

The visit of the Canadian ministers is creating more excitement, then anything that has occurred since the visit of the Cherry Sisters several years ago. Wherever you go you hear them talked about. There is always a crowd around the Shorebam to see them come out for the round of the city. I was standing on the curb vesterday afternoon when they emerged and I asked a darkey porter what it was all about.

Them there, sah, is sure fine genliemen. Dey's Canadian cabinet ministers who done come liyah to fixe their tariff for the great Republican gahty. Mistah Phi-lan der Khox and Mr. Pepper is done gon't only the week of it, for hisself. de Congressional libry, and the phinting burey. Taketh Mr. Knox says we can't do too much for our Canadian custins, cause the amount of it, for hisself. de Congressional libry, and the phinting burey. Taketh Mr. Knox says we can't do too much for our Canadian publish, cause the amount of

getting some concessions from Canada. I asked a gentleman who is fir close touch with the administration what the United States were prepared to grant in return for concessions in the Canadian market. He said he hadn't thought of that, but he supposed that Mr. Knox would have to give something to find the face of the Canadian ministers. Maybe they would open the door to Canadian pulp, as the American output was getting low, and the price of paper was soaring.

I have just heard that Mr. Pepper cornered Mr. Paterson and Mr. Fielding in the conference room of the White House, whither the Canadians had gone in the course of their round of sight-seeing. But Mr. Paterson refused to open his little green bag, as he said he wanted to see the Taft cow that gives 400 quarts of milk—inthat the amount?—per day, Maybe it is per with him to have a look at the cow. He wants to buy one like it for the Agricultural Farm. What an impatient fellow that man Pepper is! The Christmas spirit is still strong down here, and the visit of Santa Claus from Canada has been long enough delayed. Maybe that's why Pepper is so all-minister of agriculture, asked if he wouldn't start the negotiations right darned if he would. He was going to do the town first.

- Failure of Big Institution Not Unexpect-

Circles.

NEW YORK, Jan. 7.—The Carnegle Trust Company was closed this morning by direction of the state superintendent of banks, O. H. Cheney. It has a capital of \$1,500,000 and deposits aggregating about \$9,000,000. The institution was in serious trouble in the panic of 1907, and has never fully recovered. Its late president, Mr. Dickinson, died last year under peculiar circumstances.

Manhattan.

fits of \$737,500.

natural and artificial water plants. The pengola is supported by eight white Doric columns, and is topped with crossbeams strewn with trailing wisteria. Four bay trees adorn the front of the fountain.

Along both sides of the arena are richly decorated boxes which win seat about 1200 people.

COBALT ORE SHIPMENTS.

Shipments of ore from the Cobalt camp for the first wee kof 1911 amounted to 594 tons, consignments being sent out from thirteen mines, according to the weekly statement of the T. & N. O. Rallway. The

In Trouble Before.

Woodlawn-ave. in a southwesterly direction to the C. N. R. right of way has given rise to the report that the York Radial is buying to acquire a new right of way over this territory. If this be so, it is the apparent intention of the company to take its cars off Yonge-st., and to build a station

The following statement was issued by Superintendent-of Bangs Chency re-

is tive to the closing of the trust company,

"The superintendent of banks has taken possession of the property and business of the Carnegle Trust Co., located at 115 Broadway, Borough of Manhattan Manhattan.

"Examination of the affairs of this company has caused the superintendent to conclude that it is in an unsound condition to transact business, and that it is not eafe for it to continue. The examination is not yet complete and no further statement can be made at the present time"

The institution was organized in 190%, and after the retirement of Leelle M. IS SAFE

and after the retirement of Leslie M. Shaw from the office of secretary of the treasury he became president. The name of Carnegie as applied to the institution attracted to it a great deal of attention, but the adoption of this name was without Mr. Carnegie's authorities. Someone Dropped a "Pistol Enclosed in a Box," is the Official Report of Alleged thority or approval. It is understood he was not a stockholder and not immediately identified with it. Mr. Shaw's connection with the bank ceased after a few months because of differences with the other officers of the institu-Attempt on Alfonso's Life.

The financial status of the Carnegie Trust Co., according to its last statement, as of Nov, 10 last, was: Loans \$4,962,500, stock and bond investment \$2.334,600, due trust companies, banks and bankers \$1,517,300, cash available \$1,053,000, asymptometry deposits \$8,895,700 MALAGA, Spain, Jan. 7-What believed by many to have been an attempt upon the life of King Alfonso occurred during his brief visit here. Thursday and threw his attendants into a state of panic. The facts became generally known for the first time to-

\$1,058,000, aggregate deposits \$8,895,700. The company had a capital of \$1,500,000, and with a surplus and undivided progenerally known for the first time to-day.

Cost Prices

Our semi-annual Shoe Sale is an event we'l worth considering, for it means that the highest grade shoes for ladies and gentlemen can be purchased at prices representing a substantial saving, without sacrifice of style or quality.

While it is against our policy to cut prices, we consider it consistent with good merchandising to keep stocks moving, and thus be able to offer our patrons at all times the newest fashionable footwear from world's best makers. In short, no shoes are carried over from one senson to another at the "Royal," hence this sale.

Many lines on sale are in the window, and here are some of the prices. They speak for themselves.

\$3.50 and \$4.00 \$2.95 Shoes now . . \$2.95 \$5.00 Shoes now \$3.50 selling at . . . \$3.50 Sorosis Shoes \$5 & \$3.95 \$6 values now . . \$3.95 \$7.00 Shoes now \$4.95 selling at Nettleton Shoes, reg. \$5.95 \$8 and \$9, now . \$5.95

Only certain lines which makers will not allow us to cut in prices are restricted from this Sale.

## Some Facts

Battle Creek, Michigan, December 30, 1910.

We the undersigned certify that never to our knowledge has a testimornial letter been printed by the Postum Cereal Company, Li mited, which did not have behind it a genuine letter signed, and believed to be an honest statement.

To the best of our knowledge and belief, the Company has received upwards of fifty thousand (50,000) genuine testimonial letters.

This Company has never knowingly made nor permitted an untruthful statement regarding its products or its methods.

M. K. HOWE, Treasurer. (With Company about 14 years.) L. J. LAMSON, Inspector of Advertisements. (With Company about 91/2 years.)

F. C. GRANDIN, Advertising Manager. (With Company about 13 years.) R. M. STERRETT, M.D., Physician in charge of Scientific Department. (With

Company about 41/2 years.) CHESTON SYER, Advertisement Writer. (With Company about 3 years.) CHARLES W. GREEN, Advertisement Writer. (With Company about 5 years.) HARRY E. BURT, General Superintendent. (With Company about 13 years) H. C. HAWK, Assistant to Chairman. (With Company about 7 years.)

C. W. POST. Chairman. (With Company 16 years, from the beginning.)

replying, "I don't know."

hand while he queries,-

gestion of food. Asked to name author- by Mr. Post seventeen years ago and years in annual journeys to Europe. to instantly say "yes" or "no" as to not contain, without reading it over,but such conservative and well belanced answers are construed by sensa-

The attorney sought by every art to mpress the jury with the fact that Mr. Post's belief in the power of Mind in relation to the body branded him as unreliable and worse.

The following is quoted from one of the questions:-

(The lawyer reading from the book.) "The writer of these pages desires to say nothing of himself other than as a simple instrument thru which book from the pile and showed the title the Divine Principle chooses to mani-

It may be remembered that we were first attacked and have since defended ourselves by placing facts before that great jury-The Public.

when we employed physicians in our

many thousands of dollars.

matter of testimonlals.

A good "scrap" is more or less comforting now and then, if you know you are right. In the case lately tried, an appeal has been taken to the higher courts. We

have unbounded faith in the ultimate decision of our American Tribunals. Our suits against the "weekly" have not yet been tried. They are for libel and \$500,000.00 is asked as damages, and may the right man win.

After all the smoke of legal battle blows away, the facts will stand out clearly and never be forgotten that Postum, Grape-Nuts, and Post Toasties are perfectly pure, have done good honest service to humanity for years, the testimonials are real and truthful and the business conducted on the highest plane of commercial integrity.

That would not be a good day for the world. I express the hope that no government of Britain, at no time, will swer be drawn by the delusive gains of peace to threaten, fo menace, to destroy, the blessed gift of spreading to the world human liberty, the brother hood of man, the blessings of prosperity and religious liberty. It say I hope Great Britain hever for a moment halts in this great march of duty." (Cheers.) indebted to Britain.

The world was greatly indebted for its progress to the wealth of Britain, his fordelilp pointed out. All countries had become prosperous and had their resources developed by money from the pockets of British investors. At the present time Britain When War is Justifiable.

"War entered upon with right intentions, to protect the fatherland, to preserve the cause of its citizens, or waged for the integrity of its boundary lines, is not morally wrong or indefensible. A man who would shirt in Argentina, five hundred multion in

these investments should be protected by arms and men.

"More misery, more sorrow, more suffering would result by the destruction of British credit than has resulted from any, war since Napoleon held the world in the hollow of his hand," declared his hordship. "It is necessary to have the ships and the men and ten are to protect that credit and preserve it."

Work for Peace.
"The Hague tribunal had done much to lessed war, however, Sibee 1815, 250 controversies had been arbitrated and any of them might have resulted in

"We should all work for international peace, so long as we keep in the background the arms and the navy that will make arbitration more than a word," declared Bishop Fallon, "The Hague tribunal has done a great work, and will continue to do so, as long as we keep the navy up to its full strength. The international waterways commission has done much to smooth out difficulties between the United States and Canada, and great credit must be given the men who form that important body. (Cheers). "I still incline to the belief that phydeal force keeps the fear of the law.

Trial of Wheeling Woman, For and revere father and mother; the man must respect and regard the municipality; the citizen must love and revere his nation, and all men must love and respect their country and their God. (Cheers.) When each individual man does that, you will have a pillar for the temple of international peace. Educate the children to be peace Educate the children to be truthful, manly, upright, just, honest, reverential; educate them, I say, in these things, and war is gone, or it will have lost its power. Educate the boy. I say Make him a man of peace by teaching him to love the things of the teaching him to love the things of the mind, the things of the heart—him, his fellowman and his God. These are the basis of international peace. Then will come that participation in that will come that participation in that peace human, which is like unto the peace divine. Teach your individual to keep the law. Educate him to be lawabiding in his personal life—obeying the laws of God and the nation, and international peace will come. Teach him to reverence and respect every man, woman and child he comes in contact with Teach him to reverence and respect the rights of men of dif-

Abe Was Joking.

Abraham Lincoln used to say that the best story he ever read of himself was this: Two Quekeresses were traveling on the relitroad and were heard discussing the probable termination of the war. "I think," said the first, "that Jefferson will succeed." "Why does thee think so?" asked the other. "Because Jefferson is a praying man." "And so is Abraham a praying man," objected the second. "Yes, but the Lord will think Abraham is joking," the first replied conclusively.

### FICTION CLUB.

Les Angeles has a fiction club—the venture of a department store—from which subscribers may obtain volumes at one cent each day, the maximum charge being two cents. Thousands of books, from Roe's "Barriers Burned Away" and older and more "standard" reading, to the latest "best-seller" are offered, the proprietors guaranteeing a supply equal to the demand. The arrangement appeals especially to the rapid reader, the devourer of dollar-dreadfuls. of which class the floating population of Los Angeles has its full quota, for whom alone it is really population of Los Angeles has its full quota, for whom alone it is really cheap. One of the advantages claimed is quick circulation, patrons being required to wait only a short time for a book that happens to be "out." While subscription reading-clubs usually operate more or less against public uboraries, which need all the support they can summon, it is probable that many librarians would welcome such a competition as this, lessening a demand for fiction that is seldom met except at the expense of other departs except at the expense of other depart-ments of literature.

The annual statistical review number of The Financial Post, issue yesterday, gives the following summary of average prices of farm produce as of date March, 1919, and March, 1896. It will be notice dthat values as shown more than doubled during that period.

Mrs. Macdonald Gordon of St. Joseph-street will not receive again this season.

Mr. and Mrs. W. H. Boullee, New Hamburg, Ont., announce the engagement of their daughter, Florence A., to Mr. Ray St. Clair Bamford, San-

## An Object of Pity

That part of our nature which we call the emotional is much more highly developed in women than in men. They are more sensitive, more tender, more sympathetic, more proneunced in their likes and dislikes, more susceptible to the extremes of pleasure and pain; and these refined mental qualities, no less than beauty of form and feature, make up the atmosphere of attractiveness and charm which always surrounds true womanliness.

The continued existence of these winning, engaging womanly characteristics depends to a very large extent on the regularity of the womanly functions and the condition of the womanly organs; and when these functions and organs become disordered or diseased the same mental qualities which are the glory of a well woman become the source of suffering and torture almost indescribable. Her cheery hopefulness is changed to a feeling of despondency, almost of despair, and she is haunted with forebodings of worse evils to come. Instead of being entertaining and companionable, she becomes moody and irritable, being unable to keep her mind from dwelling on her troubles. She becomes morbidly sensitive, imagining that she is being slighted or foresaken by her relatives and friends and she has a most humiliating sense of her miserable condition and of her loss of her womanly attributes. If she is religiously inclined she is very liable to be oppressed with doubts and fears in regard to her spiritual condition, or to think that she is eternally lost. In addition to this, she has also to endure the most distressing aches and pains.

What makes the case still more pitiable, especially with married women, is the fact that few men understand or appreciate the extent of their suffering, or the seriousness of the troubles causing it. Many doctors even speak of these disorders as subjects for ridicule, and the poor sufferer often gets a reputation for being a crank or a scold when she more nearly approaches being a martyr.

As these disorders are due to a disordered condition of the womanly organs, it is eviden

or broken down tissue, which is held in the stagnant blood vessels in these parts, that causes most of the suffering by oppressing the nerves located in these parts, that causes most of the suffering by oppressing the nerves located in these parts, that causes most of the suffering by oppressing the nerves located in these parts. The remedy known as ORANGE LILY will positively relieve this congestion and restore normal circulation in the disordered organs. It is an applied or local treatment, and acts wholly on these parts. It is absorbed into the blood vessels in these organs, and as it has powerful antiseptic properties, it is absorbed into the blood vessels in these organs, and as it has powerful antiseptic properties, it is absorbed into the blood vessels in these organs, and the nerves are relieved, the pains and mental troubles become less, and the nerves and blood vessels become stronger. ORANGE LILY thus proves its merit by actual, visible results. It acts as certainly and as positively on all female troubles as anti-toxin does on diphtheria.

Dear Mrs. Currah,—I am very grateful to ORANGE LILY for the change it has made in my life. When I commenced its use eight months ago I felt I would be surely insane before the year was ended. The pain I suffered often made me wish for death, and besides I would have such fits of depression and nervous twitching that I would have to scream. I had doctored with three different doctors for over two years, and had also used both the Pierce and Pinkham medicines, but none of them seemed to reach my case. I felt some improvement after the first month's use of ORANGE LILY and have kept gaining ever since. I do not feel that I am entirely cured yet, but I am so much better than I was that I am sure I will soon be entirely well. I sleep well, and feel cheerful and happy, except that I am occasionally somewhat depressed, but these spells are getting fewer and milder. I have two boxes of ORANGE LILY and one of Cerate Massage. I might add that the matter which used to be free

### Free to all Sufferers

In order to enable every woman suffering from any form of female disorders to test the merits of ORANGE LILY, I will send to everyone who will send me her address, or the address of any suffering friend enough of the remedy for ten days' treatment, absolutely free. As this is worth 35c, it is only because I know that it must give relief that I make this free trial offer. Further, if any woman wishes expert medical advice, and will write me a full description of her case, I will submit same to the staff of the Coonley Medical Institute, Detroit, Mich., and they will write her direct without expense to her. INCLOSE THREE 2-CENT STAMPS and address MRS, FRANCES E, CURRAH, WINDSOR, ONT.

BEARDMORE-NIVEN.

marriage took place yesterday afternoon in St. Paul's Ca-thedral at London, Ontario, of Miss Norah Eliza Niven, daughter of Dr. and Mrs. James S. Niven, to Mr. Alfred Owen Torrance Beardmore, son of Mr. Alfred Beardmore, Toronto, The service was fully choral and the church was arranged with Christmas decorations, the ceremony being performed by the Ven. Archdeacon Mackenzie, LL. D., rector of Grace Church, Brantford. The bride was given away by her fa-ther and wearing a gown of white libcerty satin with rose point lace and sliver, tulle veil and a bouquet of lily of the valley and white orchids, her gift from the groom being a diamond and platinum plaque. Miss Nancy Niven was maid of honor and the bridesmaids were Miss Dorothy Beardmore and Miss Mary Labatt, while Miss Frances Receive was flower gill, the latter was Reeves was flower girl; the latter was in white and the bridesmalds were yelin white and the bridesmans was low satin, veiled with mauve ninon and gold, black sashes and hats. They cargold, black sashes and vellow orchids. Mr. ried mauve and yellow orchids. Mr Gordon Beardmore was his brother's est man and the ushers were Mr. Archie Macdonald, Mr. Gordon Temple, Mr. Hugh Labatt and Dr. Pardee Bucke. The bridesmaids received gold bracelets from the groom and the bride's gifts to the best man and ushers were gold bar safety pins. Mrs. Niven's gown was of pale grey crepe

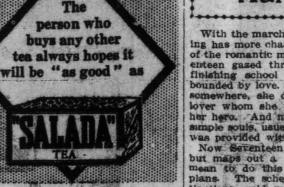

DICKENS FELLOWSHIP

The Dickens Fellowship Players gave a large dinner last week in compliment to their president. Mr. F. M. Bella large dinner last week in compliment to their president, Mr. F. M. Bell-Smith. The main table was arranged to form the letter T and numerous quartet tables were scattered about the banquet hall. The decorations were of pink roses and maidenhair ferns and Mr. E. S. Williamson presided. Mr J. W. Bengough read an original poem J. W. Bengough read an original poen-written for the occasion and presented the guest of honor with a beautiful volume of "Mr. Pickwick," elaborate-ly illuminated and containing original drawings. Mr. Bell-Smith responded with a delightful reply. A short musi-cal program followed, when the followring artists contributed: Miss Dagmar Printz, Miss Grace Webster, Miss Theodora Jacques, Mr. J. T. Church, Mr. Lawrence J. Lugsdin and Mr. Leo Sullivan. A few of those present were: Mr. and Mrs. F. M. Beil-Smith, Mr. and Mrs. J. W. Bengough, Mr. E. S. Williamson, Mrs. E. H. Stafford, Capt. J. R. Larkin, Miss May Bengough. J. R. Larkin, Miss May Bengough, Misses Theodora Jacques, May Crabbe, Winnifred Parker, Grace Webster, Dagmar Printz, Christine Donaldson, Dagmar Printz, Christine Donaldson, Lucy Doyle, Clarice Spencer, Bessie Hunter, Mrs. A. M. Donovan, Miss Mc-Kibbon, Miss Bennett, Mr. Thos. Harrison, Mr. Laurance Lugsdin, Mr. Leo Sullivan, Mr. W. J. Sweatman, Mr. Clibert Dalton and Massey Benking. Gilbert Dalton and Messrs. Berkinshaw, Denovan, Atkinson, Rumley, Watson Wihl, Macrae and Hayden.

### MRS. MACKLEM'S DANCE.

A nice dance for young people given during the week was the entertainment at Mrs. Oliver Macklem's house for her niece, Miss Dorothy Hodgins, who has made her debut this winter and was wearing a white satin frock with pearl passementerie and carried pink carnations. The hostess' gown was of apple green ninon with hand embroidery and pearl and diamond ornaments. The little daughter of the house was in a lingerie frock with touches of pale pink. Mrs. Fleming wore a handsome black gown and Mrs. Frank Hodgins was in pearl grey with diamond or-naments. The Xmas decorations were used thruout the house and a buffet supper was served from a long table done with daffodils and narcissi, an orchestra was in attendance and dainty programs were provided. The guests includes: The Provost of Trinity Col-lege, Mr. S. Macklem, Mr. P. Beatty, Miss Alice Hagarty, Miss Gladys Ed-wards, Miss Phyllis Nordheimer, Mr. Roy Nordheimer, Mr. and Mrs. Gordon Mackenzie and their son and daughter, Mr. Gavin Langmuire, Mr. J. B. Neale, Miss Patti Armour, Miss P. Geddes, Miss Eleanor Gooderham, Miss Adele Harman, Miss Edna Reid, Mr. and Miss Darling, Miss Gladys Bald-win, Miss Elf Bowes, Mr. Bowes, Mr. and Miss Watt, Miss Fisken, Mr. Fisken. Mr. Mackenzie. Dr. Brefney O'Reilly, Mr. Actin Fleming Mr. Harcourt, Miss Strathy, Miss Helen Hea-ton, Miss Hodgins, Miss Meta Gibson of Government House and her brother, Miss Denison, Miss Robinson, Miss Dorothy Vandersmissen, Mr. Hellmuth, Mr. Schwartz, Mr. Harrington, Mr. Davidson, Mr. Gordon, Mr. Eddis, Mr. Dalton, Mr. Ross, Mr. Harman, Miss

WHAT ONE WOMAN IS DOING

who has done more than her share to relieve the suffering of womankind

tised on another page of this publica-tion.

Mrs. Currah's sympathetic nature leads her to perform the most charit-able acts and she is now offering to send, free of charge, a 35c box contain-ing enough ORANGE LILY for a ten days' treatment. Hundreds are taking advantage of Mrs. Currah's generosity, and doubtless many readers of this pa-per will selze this opportunity to try per will seize this opportunity to try this wonderful remedy at no expense

The sum total of goodness is to be found in 1911 Duniop Automobile Tires. JAN HAMBOURG TRIO.

Not the least among the musical events of this month is the evening of music, to be given at the Conservatory music, to be given at the Conservatory Music Hall, on Monday, Jan. 23, by the Jan Hambourg Trio, assisted by Miss Beatrice Delamere, a talented mezzosoprano, who will make her Toronto debut on this occasion. Among other numbers the program will include the tric by Saint-Saens, opus 18, and violin solos by Jan. Hambourg, the emined Russian violinist from whom the nnet Russian violinist, from whom the tric takes its name. The popularity which this tric has gained during its

## Quit Drinking

By John's Wife

I'm the happiess little woman,
In all this little town;
And my merry laugh and singing,
Takes the place of sigh and frown.
For JOHN HAS, QUIT HIS DRINKING
And is like himself once more,
And the world is just a paradise
With such happiness in store!

One day I read some verses—
"Mary's Miracle," the name,
And I said, that's John exactly,
And I'l send and get the same.
So I sent for GOLDEN REMEDY,
(As sly as sly could be)
And I put it in John's supper
And I put it in his tea.

And it didn't taste a little bit;
Had no oder, so, you see—
It was smoothest kind of sailing
For little Doctor Me.
And I watched and prayed and waited,
(And cried some, too, I guess),
And I didn't have the greatest faith,
I'm ashamed now to confess.

And John never thought a minute,
He was being cured of drink,
And soon he's as well as any ore,
It makes me cry to think!
Just makes me cry for gladness,
I'm so proud to be his wife—
Since he is cured of drinking,
And leads a nice, new life.

"Since John he quit a drinking in I can't say it times enough! And hates and josthese a liquer As he would a poison stuff. And when I say my prayers at night As thankful as can be— I pray for John the most of all— Then GOLDEN REMEDY.

Home Treatment For Drunkards Odorless and Tasteless—Any Lady Can Give It Secretly at Home in Tea, Coffee or Food.

Costs Nothing to Try.

Free Trial Package Coupon Dr. J. W. Haines Company, 596 Glenn Bldg., Cincinnati, Ohio Please send me, absolutely free, by return maid, in plain wrapper, so that no one can know what it contains, a trial package of Golden Remedy to prove that what you claim for it is true in every respect

ing has more changed than the outlook of the romantic maid. Once sweet Sev-

that woman is Mrs. Frances E. Currah of Windsor, Out.

Mrs. Currah was at one time a great sufferer from diseases peculiar to her sex. She had tried many remedies, but found no cure, and had almost given up hope of ever being well again. But one day she was persuaded by a friend to try what was then a little known remedy. Much to her astonishment she was immediately benefited and in a short time completely restored to robust health.

From that time until the present day Mrs. Currah has devoted her life to interest women in this remedy, which has now become famous under the name of ORANGE LILY and is advertised on another page of this publication.

Mrs. Currah's symmethatic nature.

space.
Midway in a whole realm of tempest-tossed confusion physical and spiritual schools have their following in degrees varying and according to temperament. White still the most scholarly singularly fall to perceive that the essential importance in marriage is not its approach from this side or that—but the fact as to whether it does or does not take place with full advantages of nature's great conspiracy.

ture's great conspiracy.

To a matron of twenty years or more experience. She is expressing herself, perhaps, after the custom of her kind on the contrariness of husbands, and a bridal pair standing by who have taken on the estate late in the forties be-

superior smile.

"How savage!" they would seem to exchalm, as a patch-and-powder exquisite might have at the ruggedness of the Alps, and then turned complacently to order cascades for the chateau garders. Joy and sorrow, life and death, have touched the destiny of the man and touched the destiny of the man and woman who took the burden with the vision and now occasionally fall out about the tradesmen's books, Harry's other ten years one may safely preph-esy they will be stouter or thinner, certainly greyer, still loving and still differing. While, as for the two good people who at a mature age decided for complete compatibility and no re-sponsibility — what save ignorance would put them in the same class at

which this trie has gained during its short existence (but a month or two) is quite exceptional, the excellence of them and she carried violets. Mr. and Mrs. Beardmore left for a trip to New York and on their return will reside in Acton. The traveling dress was of Copenhagen blue cloth, with a hat to match, and black wolf furs, In the evening a dinner and dance was given for the bridal party at the London Hunt Club.

Which this trie has gained during its short existence (but a month or two) is quite exceptional, the excellence of them many engagements, the earliest being one to play at London, Ont., on the left inst.

For the conventence of those who was given for the bridal party at the London Hunt Club.

DICKENS FELLOWSHIP.

spaciously from the premise of Jane's sudden notice to the caprice of woman in general. Mrs. Lovebird objects to this arraignment of femininity in a lump, and with some skill plausibly connects the position of affairs with his language about the cutlets on the

previous evening. The fond couple may chill during the encounter from cooing "chickabiddys" to cold "my dears," but the process is wholly corrective and estrangement temporary. Overbearing cock-o'-thewalkness of Monsieur receives a saru-tary douche from Madame's tu quoque. She for her part, has been goaded into that generous esprit de corps which glows at the attack of man as enemy. A perpetual modification is being car-ried on comparable to Nature's way with her world forces. There is equal-

A vast gulf lies between the healthful mand. She interplay of contrasting temperaments and the awful risk of having to do one's her "proper" sphere may be hashing mutton and "making over" last searapidly-growing creature compounded of unknown quantities, to whom one is irrevocably pledged.

There are the young people whom responsibilities over-burden. The hov who has not lost the rawness of a recruit, or a "varsity fresher." is not fit to be the breadwinner and to take the head of his table. Child-wives, too, have ways their elders view with regret. They rock gradles violently until their offspring's brains swim. And they let baby sample the coal-scuttle while they rush thru the climax of a new novel. Most juvenile married couples get tragic on the least provocation. Their still instinctive clinging to parental leading-strings makes them invoke "my mother" not wisely but too well. In those throes of the first five unfit years they lose the have ways their elders view with regret. They rock gradles violently until their offspring's brains swim. And them invoke 'my mother' not wisely but too well. In those throes of the first five unfit years they lose the bloom and brightness that is the normal possession of the properly matched far into the thirties.

This contradictory state of things is she does not fear responsibility, nor is she lazy. But she does dread the stifling of her individuality against which a crude marriage code offers no guarantee. Possible deprivation of right to opinions and scope for talents she rebels from a passionate soul. The

ing has more changed than the outlook of the romantic maid. Once sweet Seventeen gazed thru the portals of der finishing school to see an horizon bounded by love. In that distant have somewhere, she dreamed, lurked the lover whom she was ready to hail as her here. And nature, who is good to simple souls, usually saw to it that she was provided with one—of sorts.

Now Seventeen accepts the horizon but maps out a view between. "I mean to do this and that first" she plans. The scheme may include distinctions, gold medals, travels, fortune, and possibly an eostatic period of freedom complined with experimental cooking which she proposes to share with a chum in a flat. It ebviously must take a long time to fulfil. At the end is the ideal husband. Only one thing she leaves out of her reckening. This is the marriage-rate, whose figures point inexorably to the conclusion that matrimony as an after thought becomes by and-by rather difficult to achieve.

No one at all in the confidence of modern womanhood can fail to remark that marriage is in a state of evolution. Two schools of thought may be said

cause of compatible tastes exchange a

enerally expanding, and—incidentally—unpleasant method of the almost daily minor conflicts between masculine and feminine points of view.

Cook has said, "This day month, mum," unexpectedly, and Mr. Lovebird, as his sex is wont, is for arguing specially with the sex in the sex is worth.

Popularly, new woman is supposed to If you have a husband, son, brother, father or friend who is a victim of liquor, all you have to do is to send your name and address on the coupon below. You may be thankful as long as you live that you did it.

Wish to evade her duties and object to the consequent curtailment of her leisure. While with rather strange logic it is admitted that the ypical girl of the age is ready to take up exacting professions that leave the most many that ma professions that leave the merest margin for the recreation she is rumored to crave.

worth investigation. To anyone in touch with the true temper of the girl Rev. Vivian Morgan as rector of St. in the forward movement, there seems Saviour's Parish, at 8 o'clock Monday an inevitable conclusion. Manifestly night, in the parish church. Rev. D. T. Owen, rector of the Church of the Holy Trinity, will preach.

CHICAGO, Jan. 7.—Pitcher Vie Willis of the St. Louis Na lonals has been awarded to the Chicago Nationals. Word was received from President Lyuch of the National League yesterday that the Chicago Club had won Willis away from Cincinnat! by lot. Manager Griffiths of Cincinnat! refused to waive claim to the veteran pitcher when the St. Louis Club sought to dispose of his services to Baltimore Eastern League team. Knowing that Manager Chance thought well of Willis, President Murphy of the Chicago Nationals also interposed a claim for him. That made it necessary to draw lots, and the luck of the draw was with Chicago. The pitcher was obtained by Chicago at the waiver price of \$1500.

## WITH THE PIN-SPILLERS

The past week saw the resumption fees will be: Teams, \$10; doubles, \$4, of bowling in the majority of the and, singles, \$2. leagues in the city after laying off for the Christmas holidays, and this week

the Christmas holidays, and this week will see all the leagues in action. The festive season good living seemed inclined to put the bowlers out of their stride, and for the most part the scores of the opening week of 1911 were low.

The leadership of the first series of the evening section of the Printers' League was decided on Thursday night, when the Toronto Typesetting team maintained their lead and won out by capturing two games from the MacLean Publishing Company, the contenders in the race.

The Athenaeum set a new record for the Athenaeum League on Friday night, when they hung up the good total of 2881, beating their own mark by 79 pins. Karrys also put up another record for rollers of this league to go after, when he had a 668 total for his three games.

In the Business Men's League the past week, Langmuirs, who have been leading all season, yielded first position to Eatonias. The Big Store five went into the top piace when they took the entire series from The Telegram, and the Paint Mixers lost two hard-luck games to the National Cash Register.

The Dominion Express Company made their debut in the local bowling world in the week that has just ended. They have organized a league composed of ten clubs, and roll on the Athenaeum alleys.

In connection with the big N.B.A. tournament to be held in Buffalo, commencing Feb. 25, preparations for which are progressing with every indication of a brilliant success. The World is able to make an announcement which will be a most agreeable surprise to many bowlers in the city. Manager T. F. Ryan of the Toronto Bowling Club has secured permission from Vice-president Floss, who is secretary and general manager of the journament, to hold a mammoth novice event as a special attraction. This was a feature that the National Bowling Association had originally intended to eliminate from the tournament, and they had consequently made no provision for it. However, on the promise of bringing fifty five-man teams to Buffalo for an event of that kind, the consent was quickly given to Mr. Ryan to go ahead with his plans, and full power was vested in him as to the ways and methods in which they would be carried out.

to the ways and methods in which they would be carried out.

In securing this event, Mr. Byan was acting primarily in the interests of the members of the Toronto Bowling Club, which is this year composed of many rollers who have only recently taken up the bowling pastime, but who are rapidly becoming versant with its habits and customs. Besides these there are many other bowlers in this club, and in other clubs in the city, who could never hope to compete with the crack tenpin artists from the many big cities across the line, as well as those on this side, and, consequently, would never dream of entering the N. B.A. tournament. It is for the benefit of these that this novice tournament is being arranged. W. B. Thompson of Hamilton has entered into the arrangements with Mr. Ryan, and will take over ten teams, swelling the list to sixty. This large class of bowlers will now have the opportunity of engaing in an even contest on a set of eighteen brand new alleys erected for this tournament only, and equipped with the finest and most up-to-date appointments and devices. The N.B.A. will put up splendid prizes, almost equal to those offered for the big event.

The novice tournament will be entirely apart from the N.B.A. competition, and will be quite independent of the regular Canadlan Day rolling. It will be held on a different date, and a special train will leave Toronto at 1 y'clock in the afternoon, and, returning, leave Buffalo after midmight. It is possible that there may be teo many for all to go the same day and roll, in which case two different dates will be arranged for the two sections. For the benefit of the Big Store crowd, a special will leave Toronto about 5 p.m. Electric taily-hos gaily decorated with Canadian emplems will meet the specials at the station, and the bowlers. canadian eminicus will need to specials at the station, and the bowiers will be carried in a parade thru the principal streets of Buffalo, and altogether they will be given a most desirable outing.

The entire arrangements will be conducted by Mr. Ryan, with whom all Toronto entries must be made, and who will decide all questions of eligibility. Teams will be required to conform to a standard, and no packing or bunching of high average men will be permitted, neither in the five-man teams nor in the doubles. The entrance

of here, by the Duluth police. Hotel Krausmann, King and Church Sts. Ladies and gentlemen. German grill with nusic. open till 12 p.m. Im-ported German Beers on draught.

## Making

# Good Start

Made-to-Order Suit or Overcoat

No More-No Less

A good start goes a long way towards making a success of any business. You are starting a New Year, and though you may have made a few mistakes in nineteenten, make sure that they do not occur again this year.

The Scotland Woolen Mills Company has one proposition worth considering. Many a man in looking over his private expense account notes with pleasure that his tailor's bill has decreased by half. Why? A glance through the papers induced him to try one of our \$15 Suits made to his measure in the same way that his old tailor has made it, but at a saving of at least 50 per cent. That man is a well satisfied customer, and we are

assured of his patronage as long as our work is satisfactory.

Scottish Woolens are made from the highest grade of imported wool, and the superior finish gives them that rich appearance which, when combined with their wearing qualities, rightly makes them the leadeing suiting material on the market.

Imported Overcoatings form an important part of our stock, all material is received in full webs direct from the mills. You have an extensive range of patterns from which to choose.

The workmanship and art in the finished product, accompanied with our legal guarantee that if you are not satisfied your money will be refunded, makes your purchase an absolutely safe one.

OUT-OF-TOWN-MEN: Ordering with us by mail is as easy for you as if the measure were taken by our own cutter. The chart and the instructions positively naure that your measurement will be properly recorded. Write us for our books of samples and for sample plates.

OUR NEW MAGAZINE: We have just issued a number of our splendid magazine. It contains some very useful information on general subjects, besides giving some particular hints on how to occasions, and what is new thereon in Paris, London, and New York. Drop us a postal, free.

MONKEYING WITH THE MILK.

Health boards have done a great deal to destroy the health of the people Health experts have been the worst enemies of cleanliness, but in no one particular have they succeeded in doing gerat damage than in their monkeying with milk. Pasteurized milk is a scientific humbug, a professional poohhah. I had rather have the milk drawnfrom the udder of a cow by a slovenly
hired man into a slop bucket and drink
it without straining, than to have the
milk that has passed thru the bacteriological laboratory or been tampered
with in any way by the bacteriologist."

Just now people are going wild over
the disease formerly and for ages
known as consumption. The idea
which is prevailing among those who
wish to be "in the swim" and throw
their hats the way the wind blows is
that consumptives are a menace to society and should be isolated the same
as patients with smallpox, diphtheria
or leprosy; thus adding a feeling of
disgrace to the burden of despair under which such unfortunates are laboring. entific humbug, a professional pooh-

der which such unfortunates are laboring.

Now, for choice for a steady bed-tellow, I'd rather have a consumptive at any stage of the disease, than a man who snores. The claim is that the disease is contagious, but I do not believe it, and my doubts are shared by men eminent in the profesison of medicine, but who are above the necessity of shouting any popular cry to attract attention, and who are as well informed as any man who gave cash to build a sanitarium where invalids can be herded to brood over their hopeless condi-

tion and the menace which they are to society.

I will relate a few cases which have come under my own observation: A man in my native town had what has been known as "old-fashioned consumption." Was falling many years and his wife cared for him to the last without taking the disease. Five out of seven children of that couple died with the same disease at about 30 years of age, and the mother cared for four of them at the home, and was still exempt and lived to be over 80. That disease has been handed down until some of the grandchildren are afflicted with it now.

Another case; In the next house to have been handed down until some of the grandchildren are afflicted with it now.

Another case; In the next house to have been the few one died in the army and the other four children older, all apparently rugged. This infant was given to a family who had lost a child apparently rugged. This infant was given to a family which he same age, and had shown the mental and moral traits of the family. Still anther case: A sister of mine married a man from a "consumptive family" (which was a common expression years ago). The man fought the life him to sit in the council.

## Canadian Giant Who Was a Wonder

Angus MacAskill, Who Weigh ed 30 Stone and Stood 7 ft. 9 in. Lived in Cape Breton.

There is indescribable fascination in giant's home. Thirty years elapsed tolen hours with Jack and his megatherian foemen and my journey thru
the stony valley wherein great Goliath
was laid out by the harpist's sling, but
the attraction of these abhormal
measures of men had not waned. Nor
has it even now when I find myself measures of men had not waned. Not has it even now, when I find myself at Englishtown, in St. Ann's Bay, once the home of the renowned Canadian giant, Angus MacAskill, familiarly known in his day as the "St. Ann's Big Boy." As a matter of fact, Angus, who measured seven feet nine incnes, and measured over 30 stone, was a Cape measured seven feet nine inches, and weighed over 30 stone, was a Cape Bretoner by adoption only, since his birthplace was in the Lewis, Outer Hebrides. Yet, as he was, so deponent sayeth, a puny infant, the soil and climate of "Isle Royal," as its French

served, and then pause a little while beside the twelve feet of mound in the little cemetery, surmounted by the granite tombstone, with its elaborate

Exected to the memory of Angus MacAskill, the Nova Scotian giant, who died August 8, 1862, aged thirtyeight years. A dutiful son, a kind brother. Just in all his dealings. Universally respected by friends and acquaintances. Mark the perfect man and behold the upright, the end of that man is peace," MacAskill was a member of the Presbyterian Church, and died of brain fever. He indulged freely in tenance and mederately in freely in tobacco and moderately in alcohol, which concludes the information that I have been able to glean in the neighborhood touching his physical and spiritual features. Peace to his mighty ashes!

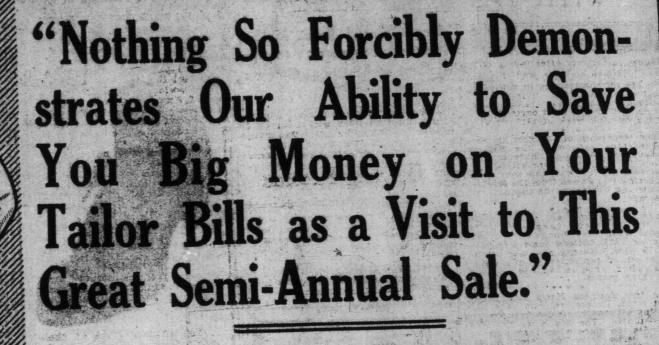

A One-Minute Sermon: It is a question if there is any such thing as ielepathy, or the communication of one with another by means of thought when distance intervenes. Still, it never was thought that there would have been such a thing as wireless telegraphy—but here it is. And also there may come in time the telepathy and the understanding of the phenomenois. One ordinarily hears some people significance comes up. Once in a while, a person will say something just as another person says something, but the Old Man is inclined to think that it is simply and solely a case of colincidence. Because he has sometimes tried to think hard to have somebody send him a million dollars or so from some other distant alty, and as he is notoriously distant alty, expense of colincidence. Because he has sometimes tried to think hard up. there never was anything dollars or so from some other distant alty, and as he is notoriously distant alty and as he is notor tion if there is any such thing as telepathy, or the communication of one

Hardiy Open to Suspicion.

Searching the premises at Manila of the Mitsul Bussan Kaisha for concealed explosives, incidental to suspicion of some sort of Japanese plot against the United States in the Philippines, was about as sane a venture as would be a raid by Japanese on the ofices of J. P. Morgan. The Mitsul firm, with a record of about two centuries in business, agents of the emperor, the greatest money power of Japan was hardly open to suspicion of complicity in any such fancied plot.—Boston Advertiser. Hardly Open to Suspicion.

Yale Graduates.

The Yale Alumni Weekly for Dec. 16 contains an interesting and suggestive article on the distribution of Yale graduates. Its figures for six years, covering twelve important urban centres, shows that the theory of the drift of Yale men to the larger cities is not maintained by the facts. In the cities named during the six-year period the graduates increased about 15 per cent. while during the same time the total number of graduates increased 26 per cent.—New Haven Union. Yale Graduates.

Thousands of yards of the most superb fabrics to choose from. It is seldom, indeed, that extra values of this kind are placed within your grasp.

Every known style, color, pattern and material to choose from at reductions of 15, 20, 25 to 35 per cent.

Particularly smart effects for young men in the Cheviots and Worsteds, quieter tones for the middle-aged men.

Suitings in the browns, tans, greys, stripes, plaids, checks, plain and fancy mixtures, unfinished worsteds, thibets, cassimeres, scotches. Overcoatings in the beavers, meltons, whipcords, cheviots, frieze, fancy and plain effects.

## WITH THE MITT ARTISTS

TELEPATHY AND FOND LOVERS. over Billy Papke, old England and her

lightweights on this edde before he can hope to butt in on the Wolgast-Moran

outlook.

Bill Lang's defeat of Jack Burns means very little. Burns, who did fairly well in his early battles in and around San Francisco, fizzied out completely when he got fairly into the heavy weight assum

It may be, however, that Lang's more recent achievement will give weight to the rumor that a broken hand prevented Lang from doing better in his fight with Al Kaufiman. The latter has challenged Jack Johnson, but the challenge has caused no commotion to speak of. Al.'s frankness in stating that the longer the meeting is delayed, the better he will fancy his chances, has no very sportmanslike ring to it.

Kauffman does not consider himself a fit opponent for Johnson at present, and it will only be when the Johnson fighting talents begin to fade away that a chance of Kauffman's acquiring the

in England, will no doubt jump at an opportunity of purting Kauffman and Lang in the ring in London. Mc-Intosh te raking the earth for Queens-berry attractions at present and would surely bid for a fight of this character By W. W. Naughton.

SAN FRANCISCO, Jan. 7.—What with Owen Moran's victory over Battling Nelson; Bill Lang's defeat of Jack Burns and Dave Smith's triumph over Billy Papke, old England and her colonies will begin to pride themselves on the newly acquired prestige of their boxers.

Championship will amount to anything.

As matters stand, Lang will probase matters amounted be induced to cross the pond.

We must await the arrival of the next Australian mall before we can attach the proper value to Dave Smith's defeat of Billy Papke. It is wise he will begin to Billy Papke. It is other victory over Lang will do its other victory over Lang will over the proper value to Dave Smith's defeat of Billy Papke. It is next Australian mall before the next Australian mall before the next Australian mall before the victory of t if he thought Kauffman could be in-

It goes without saying almost, that Papke will want a return match with Smith before he returns to this country and as the Australian sports are thoro believers in giving a ring men a chance to redeem himself, it is more than likely that he will get it.

In the meantime Hugo Kelly's assertion that he is the bona-fide world's middleweight champion is a vain claim. If Papke turns the tables on Smith, Papke will have the best right to call himself the middleweight champion.

Of a certainty there can be little cuestion as to the respective merits of Papke and Kelly, for at their last meeting Papke knocked Kelly into a cocked hat with a few punches.

If there is no further meeting between Papke and Dave Smith and if it is made to appear that the latter's defeat of Papke constituted a complete victory, it will not be easy for Hugo Kelly or anyone clse to thrust the Australian aside when the middle-weight champion is being discussed,

A MADDENING THOUGHT.

With the streets blanketed with snow, with the downy flakes sifting thru the meshes of the sky, with the furnace gormandizing the coal, and with all the aigns of a long winter in store for us, it is a bit discomforting to pick up the paper and read that out in Santa Rosa, Cal., the home of Merton Burbank, they are raising strawberries that weigh an ounce each. This strawberry is a new creation, Burbank calls it the Patagonia. The berries are uniformly large, weighing on the average an ounce and are of a beautiful scarlet color. "The new strawberry melts in the mouth, with a sweet pineapple, strawberry on cream like flavor' says the maddening despatch from Santa Rosa. Think of that! And in Niagara Falis the snow is falling, the wind is blowing and underneath the feet the pavement is soggy with slush and snow. And out in California they are eating strawberries that weigh an ounce apiece, that melt in the mouth and have a sweet, pineapple strawberry and cream like flavor!

-Niagara Falls, N. Y. Gazette.

The sum total of goodness is to be ound in 1911 Dunlop Automobile Tires

The Census Taker - "Your name

"I don't know."

"Beg pardon, mum?"

"I've been divorced. At present my name is Mrs. Jones in this state. In several states it is Miss Smith, my maiden name, and in three states it is Mrs. Brown, my first husband's name."

"This your residence, mum?"

"I eat and sleep here, but I have a trunk in a neighboring state where I am getting a divorce from my present flusband."

"Then you're married at present?"

"Then married in Texas, New York and Massachusetts; divorced in South Dakota, Missouri, Alaska, Oklahoma and California; a bigamist in three other states, and a single woman in eight, others." — San Francisco Town Talk.

Bookkeeper Mr. Spotcash, I think I ought to have a bigger salary. The high cost of living makes it impossible for me to save my money on \$25 a week.

Employer: I'm sorry, Williams, but the high cost of living makes it impossible for me to pay you any more. Beastly weather, isn't it?—Chicago Tribune.

250 Horses 150 Horses

SALE COMMENCING AT 11 A.M. PRIVATE SALES ANY TIME

## TUESDAY, JANUARY 10th

THE BEST SELECTIONS OF ALL CLASSES: Heavy Draughts, General Purpose, Farm Chunks, Expressers, Workers and Drivers. We will have many large consignments of good, fresh horses for our next week's auctions, and buyers at our Tuesday sale will have every opportunity to get just the horse or the horses they are looking for.

THE CORPORATION OF THE CITY OF TORONTO

TUESDAY, the 10th

These horses are consigned for absolute sale, and were originally purchased for the highest prices, as the city only uses the best of horses, and they are all right out of regular work. These will be good horses to those who purchase them, and there is no reserve on any of them. There are many mares among the lot.

## Speed and Matinee Horses for Tuesday

Mr. G. A. Brown, the welf-known Speed Merchant of Leamington, Ont., is consigning a load of Trotters, Pacers and Matinee Horses to our Tuesday sale, and Mr. Brown writes that they will be a pretty fine lot of horses. In former shipments to The Repository Mr. Brown has sold such good ones as "Lady Brandt," "Violet," "Nettie Ethan," "Pansy," "Paymaster" and others.

Upwards

Horses

Western and other carload buyers will find The Repository a most convenient place to purchase their horses. A full load can be purchased here in one day; and everyone of them fully tried before shipping. All horses sold at The Repository under any warranty are returnable by noon of the day following sale if not fully as represented. Our shipping facilities are the best. You buy your horses, and we look after the rest for you. We are Commission Agents only, and our commission is our only interest in the sale of any horses.

SLEIGHS FOR SALE.—At our Tuesday and Friday Auctions we will sell a great many Sleighs and a number of sets of Single and Double Harness, as well as a consignment of Horse Blankets. We have some Cab Sleighs for sale, consigned by the C. W. Miller Transfer Company of Buffalo, N.Y., and they will be bargains for someone.

FRIDAY, JANUARY 13th

150 HORSES

## **PONIES**

We have been instructed to sell for the Valley Farm of Hamilton, Ont., a consignment of Exmoor and Shetland Yearling Ponles, and the date has been set for Tuesday, January 24th. These were all bred at the Valley Farm, and are the entire output of last year's breeding.

### "A HORSE DEPARTMENTAL STORE"

We have everything a horse pulls or wears. We carry a full line of Horse Books and Hopples.

Anyone wanting a First-class Sleigh or Cutter is sure to be suited in our Showrooms. We have a fine stock of absolutely new and up-to-date Cutters and Sleighs, and the prices are reasonable, from \$30 up. Call and see them before you buy at all.

We are Sole Canadian Agents for REDUCINE, the great absorbent and remedy. Price \$4.00 per tin. Send for Illustrated Booklet.

Since congress at first refused to em-

since congress at first refused to empower the commission adequately. Mr. Prouty turned to the people. He began to make speeches and to write articles for magazines. In all that he said and wrote he pointed out the fact that everywhere in the land the small shipper was handicapped by the favoritism shown by the railroads to the big shippers. That rank weed, the rebate, was flourishing on all sides, and there was no hand to exterminate it. When Mr. Roosevelt came into office, Mr. Prouty went to him and said:

"Mr. President, we must have power to fix railway rates. Without it, the rommission is well-nigh helpless."

Mr. Roosevelt needed no urging. What followed is too well known to be rehearsed here, for there ensued that bristling war with the railroads which ended with the enactment of the Heppurn bill. This measure conferred drastic powers on the commission—none more important than the invisidation was rearrests.

MARTIN A. KNAPP

### THE SUPREME COURT OF U. S. RAILROADS PERSONAL SKETCH OF THE MEN

Munsey's for January contains some personal sketches by Isaac F. Marcosson, of the United States Interstate Commerce Commission, "the supreme court of the railroads." With one exception every member has worked with his hands and trodden the familiar but

difficult self-made way to success. In part the acticle says.

In the center of this court sits a wiry, slight, bearded little man, with keen, incisive face, penetrating yet reflective eyes, and with something in his constitute eyes, and with something in his ab-sorbed manner that suggests the phy-sician rather than the corporate mentor. Watch film during a public hearing, when lawyers are pleading and hearing, when lawyers are pleading and witnesses protesting, and you at once get the impression that he has mastered one of the most difficult of arts—that of perfect listening. His whole attitude is receptive; but when he projects a question it is like a builtet that finds the built-seve, for it is straight and goes direct to the point. Such is the chairman of the commission, the chairman of the commission,

Martin A. Knapp. His whole career, from the day when he set out to school up to the present time, has been the ungarnished record of hard and unremitting work. He has advanced by work, and part of his genius, as Thomas Carlyle defined it, is simply the infinite capacity for When he entered the academy of

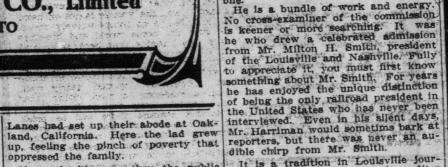

Homer. New York, at the age of seven-Homer. New York, at the age of seventeen, Martin Knapp made up his mind that whatever he tried to do in life he would do well; and he has stuck to this creed. After two years in the academy he had to earn some money; so he became a teacher in a small country, school. His family had marked him for the Mathedist ministry, for they had the Methodist ministry, for they had been Methodist since the days of John Wesley; but the boy thought differently. However, he entered the Wesleyan University, at Middletown, Connecticut, where he led his classes and where cut, where he led his classes, and where he was graduated in 1868. His boyhood ambition had been for the law, and it still held; but the law took time, and he had no money. Dur-ing his college life he had written ocing his college life he had written occasionally for The Springfield Republican, so he applied to the elder Samuel Bowles, the famous editor of Samuel Bowles, the famous editor of that newspaper, for a position. Rather to his surprise he was offered the night editor's desk, at a salary of seven hundred and fifty dollars a year. The institution called fate, coupled with a institution called fate, coupled with a complete ignorance of the newspaper complete ignorance of the newspaper business, led Mr. Knapp to decline the offer, because he thought the wage was insufficient.

Homer Famous Expert Tells insufficient. He turned to teaching again, and became instructor at the Homes Academy; but he realized that there Academy; but he yearlized the was doing. Was no career in what he was doing. Borrowing some law books from a friend of his father, he began to study law at night and on Sundays and holikuw at night and on Sunda days. In less than a year he had qualified for admission to the bar.

"Give me a chance," said young knapp. He had his way, and won the case, because, with his remarkable power of assimilation, he mastered the details in a very short time. A year from that day he was made a partner in the firm. He became counsel for big financial and commercial concerns, and thus steeped himself in the law of business and commerce.

Like most other successful lawyers, his eye turned to the supreme court bench of his state; and he was in a fair way to realize this hope when President Harrison appointed him to the Inter-State Commerce Commission in 1891. Hence he is the oldest member of the point of service. His appoint—

This simple home receipt is far and away better than any or all the patent and a way better than any or all the patent and a safely and harmlessly. The fat safely and harmlessly. The fat safely and harmlessly. The gredients are, in fact, beneficial to the gredients are in fact, beneficial to the gredients are, in fact, beneficial to the gredients are, in fact, beneficial to the gredients are

schools, and then worked himself thru the University of California, mainly by writing articles for the newspapers. As he grew older, there came to him the ambition for public work. All around him he saw administrative of fices manipulated by political pull and recognizing no efficiency save machine influence.

"The surest way to the best public service," he said to himself, "is by way of the bar, because politics require trained discretion and judicial balance."

He had saved a little money to the best what remedy has a man who is take the edge off a bumptions, woung reporter, he assigns him to get an interview with Mr. Smith. The young man starts out with high hopes, but always comes back in a properly humble frame of mind.

Naturally, Mr. Smith is a difficult witness. On one occasion Mr. Prouty halled him up on a ration of mind. The rail-road, he declared, had a supreme right to fix the rate in question, and that ended it.

there is no royal road to legal prestige.
The law took time to conquer, and time meant money. Mr. Lane had none.

Smith.

"Suppose he cannot hire a team,' continued Mr. Prouty.

"Then he can walk!" snapped Mr.

the great metropolis were the legal cis M. Cockrell once a dashing officer of the confederacy, and thirty years of the Confederacy, and thirty years senator of the United States a man

ment was quite unexpected; there were other candidates, and he did not seek other candidates, and he did not seek the place. As he very well expresses it, he became commissioner "quite by accident, but with no contributory negligence on his part."

In 1898 he was elected by his associates as chairman of the commission, to succeed the late William R. Morrison of Illinois, long known as

overthrown. Along came 1902, wherein the

erats of California faced large task of nominating Democrats for governor a candidate strong enough to ride down the entrenched dramatic action. Almost from his boy-hood, Commissioner Lane has been pro-lected into the stirring movement of Republicans who held the state govern-

"There is only one man to lead that some kind of public service, and in every instance it has been the clash of progressive uplift with an old and Franklin Lane."

years of age, was made the party nom-inee, and plurged into a campaign that People out there still talk apout it.

gation development, an open market, and a greater California all around. By motor-car, steamboat, and railway, on horseback and on foot, he pleaded ats cause before the voters; he went everywhere, and the youth of the com wealth rallied to him.

In 1870 he became clerk in a law office in Syracuse. An important case was on the docket; his employer became suddenly ill; there was no chance for a postponement. The young clerk wolunteered to defend the sult.

"You are too young, and don't know enough law," protested the older man. "Give me a chance," said young Knapp. He had his way, and won the law of the sult would be with the sult of the sult was no chance and 4% ounces of Peppermint matter and 4% ounces of Peppermint was declared elect. The let them take one teaspoonful after meals and at bedtime until they are down to the weight they want to be.

"Give me a chance," said young knapp. He had his way, and won the lane governor. It would probably have been useless to

It is a tradition in Louisville journalism that whenever a city editor wants to take the edge off a bumptious young reporter, he assigns him to get an interview with Mr. Smith. The young man starts out with high hopes, but always comes back in a properly humble frame of mind. He made his way thru the public

He had saved a little money, and he entered the Hastings law-school. The prescribed course is three years, but Mr. Lane made it in a year and a half. In He turned to the task that he best

He turned to the task that he best knew, which was newspaper writing. In 1890 he came to New York as correspondent for a group of western papers. There was method in his coming east. First it gave him a chance to save up a little surplus, second, it means contact with bits and bits men In the truth bits of feits and bits men In the straight of the contact of the commission, the contrast in the personnel becomes all the more amatures. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. It is a far cry from Fronty the ing. tact with big affairs and big men. In stern Yankee, to former Senatur

ARE YOU "SWEARING OFF" AGAIN THIS YEAR? IF SO, SELECT THE SYSTEM A SUCCESSFUL MAN RECOMMENDS TO YOU, AND MAKE YOUR "SWEAR-OFF" STICK.

Ten years ago I didn't have a dollar. I had nothing but a string of debts and an appetite for liquor. Satisfying this appetite was about my whole ambition. When good and drunk I had dreams of great things, as all drinkers have -but they were only dreams.

For fifteen years, every New Year's, I "swore off" drink. I was generally drunk in from one hour to one week of the time I swore off.

Ten years ago this coming April I took treatment for three days at the Gatlin Institute. I haven't tasted liquor since. Relatives paid for my treat-

To-day I have \$30,000 in the bank, \$15,000 in interest-bearing bonds, \$175, 000 of stock in one of the largest corporations of the country, one farm of 2000 acres and another of 160 acres, an income of \$800 a month, and a salary of \$6000 a year for doing nothing. I live comfortably and take life easy. wife has all the diamonds she cares for, a sealskin, and has two girls employed to do her housework, and a lot of other things women like.

I have made and saved all I have since I took the Gatlin Treatment, and the opportunities I overlooked to make money while drunk were much fairer than those I didn't overlook since I have been sober.

Where would I have been if I hadn't taken the Gatlin Treatment? Don't ask me. Maybe "sparring" for drinks.

Instead of believing myself a drunkard ten years ago, I did not believe that I was even a hard drinker. But on leaving the Gatlin Institute at the endof the third day of treatment I enjoyed complete sobriety for the first time in years, and with complete sobriety came realization that I had been drunk for years and didn't know it-and there are a whole lot of you in the same condi-

All I can say to you is WAKE UP-try the Gatlin. You may not be as successful financially as I have been afterward - and then, again, you may. Anyhow, you will be a whole lot better man mentally and physically-and when you leave the Gatlin Institute you will leave desire, appetite, and nervecraving for drink behind you.

I will not allow my name to be published in connection with this article, because my wife might object—she has her own notions about such things; but if any of you wish to know me, I have authorized the Gatlin Institute to give you my name and address. With my name and address you can verify the

## THE CATLIN TREATMENT Takes You Back to Manhood and Ability in THREE DAYS

For ten years the Gathin Treatment has been curing men and women of liquor drinking. Anyone who has been drinking for ten years past has for ten years been overlooking a safe, quick, positive, sure means of ridding himself or herself of the greatest curse that ever did or ever will afflict mankind. Just three days time to take you back to manhood or to womanhood, with not a trace of

craving, desire, appetite, nerve or physical neces-sity for alcohol! A cure in three days—but twenty-five doses of harmless remedy that any child could safely take—no nerve-racking hypo-dermic injections—no disagreeable features—no publicity—no bad after-effects—no withdrawal of liquor no pain no suffering no nervous.
That defines the Gatlin Treatment.

There was never a better day in your life to make arrangements to take the Gatlin Treatment than TO-DAY. It is the easy way, the sure way, the sen sible way to stop drink FOREVER.

### Weak Men "Swear Off" and Then "Break Over" if you ever stop. The sooner the better for you

"Swearing of" will not cure the liquor habit. You know that—so does everyone. The mere fact that you do "swear off" shows that in your own mind you acknowledge that drink is bad for you, that it is keeping you down while you are mentally and physically endowed to go up. "Swearing off" only robs you of the last vestige of confidence relatives and friends have in you—they KNOW that you will "break over" again. The Gathin Treatment is the ONE way to stop drinking to stay stopped the way you will have to stop

and your fortunes. You are growing older every day—and WEAKER in business ability.

Come to the Gatlin Institute Take the Gatlin Treatment. At the end of the third day, when leaving the institute, if you are not fully satisfied that you are cured and done with liquor, say so, and the fee charged will be refunded FORTH-WITH. If you cannot come to the institute for three days, send for the Gadin Home Treatment. Call or write, telephone or telegraph, for books of particulars and other information.

GATLIN INSTITUTE.

428 Jarvis Street

Phone North 4538 A. Hargrave, Mgr

whose career, harking back to the of Benton, is linked up with days of Benton, is linked the chamber just as the clerk called the chamber just as the chambe having name by which he went when he was a senator of the seventies.

In this chameleon-like political age, it is interesting to contemplate Mr.
Cockrell's achievement. Some men
feed at the public trough all their lives. and leave no impress of service; the venerable ex-senator has made history. venerable ex-senator has made history.

He belongs to another age of statesmanship. That he was born on a ploneer farm in Western Missouri may
have something to do with it. He was
have something to do with it. He was
a full-fiedged lawyer when the civil
a full-fiedged lawyer when the civil
war broke out, and he enlisted as a
private in the confederate army.

A few war-time episodes will show the type of the man, and explain some

while his comrades were fussing about rank and grade, he was in his tent studying Hardee's "Tactics."
When the time for real action came, he was up and doing This is a state of the overthrow of the confederacy. Happily, there was no partizanship in the appreciation of his services, the was up and doing. This is why he rose to be a colonel in a year. Ask any of his old warriors what his creed in battle was, and they will tell you:

in battle was, and they will tell you:

"He never said 'Go on'; it was always 'Come on!"

In action he had the gallantry of Lee and the abandon of Stewart. At the battle of Champion Hill, for instance, he rode up and down the confederate lines with a sword in one hand and a magnolia in the other.

During Hood's ill-advised assault on During Hood's ill-advised assault on the union lines at Franklin, Tenneshand and a magnolia in the During Hood's ill-advised assault on the union lines at Franklin, Tennessee, he was wounded three times. In this fight, by the way, he lost 75 per cent. of his men.

Cockrell's friendship with Roscoe Conkling was typical of his relations with political opposition. As most with political opposition.

with political opposition. As most people know, the gifted senator from

New York had a profound contempt for President Roosevelt at once gave for Democrats. One day he entered him the choice of a seat on the Isththe chamber just as the clerk called his name on a vote. He had been the chose the latter. Thus it came about that the choice of the bill he chose the latter. Thus it came about

"He voted 'no," was the reply.
"Then I'll vote 'no," said Conkling, and his vote was so recorded.

Cockrell's life in the senate was a record of continuous labor. It was said of him that he knew more about the status of congressional business than

native state had not experienced a somewhat belated "off year" in 1904 and gone Republican, which put him of the reasons why he has loomed out of his seat. He accepted the fortunes of political war just as he had faced the overthrow of the confed-

to which he brought the traditions of ripened experience with large affairs Perhaps you get the best parting impression of him when you know his answer to the question that I put to him as to the creed that he had always followed in his public life. He said:

"Do all that is required of you, and a From Brakeman to Judge. In a group of men as typically American as these commissioners, you would expect to find at least one whose rise from humble station was particularly dramatic; and you will not be disappointed. The ease of Edgar E.

## AHLGREN'S

Ladies' Fine Costumes

All coats and costumes are not alike. An Ahlgren costume made to your measure is very different to any other. The artist touch shows itself in every detail of manufacture.

This is why ladies everywhere are wisely taking advantage of the Ahlgren Clearing Sale—a very different kind of sale to any ever before announced.

We have yet to point to a single dissatisfied customer wearing an Ahlgren costume. We will not allow them to be dissatisfied, because we see to it that everything is made right, if perchance something is wrong.

Here is our offer once more told: Select any material in the house-some goods run up to fifty dollars. New models for spring are now here. The garment is cut to the latest, silk-lined, and perfectly finished. Mr. Ahlgren himself sees to the fitting. A costume of any material you select

"Fits like a glove"—"Looks as though one might have been poured into it." These are some of the expressions of delight that customers indulge in. While the sale lasts the opportunity is yours.

## THE SUPREME COURT OF THE U.S. RAILBOADS

rebra

in be

Continued From Page 7.

Clark is an inspiring example of what portunity such as ours. He has coupled cars, flagged trains, and ridden the tops of freights thru sleet and storm, and now he passes judgment on the roads that once employed him.

In his life, as in so many others, an apparently trivial event shaped and changed his whole future. At Chattanooga, in 1902, President Roosevelt was made an honorary member of the Brotherhood of Locomotive Firemen at their national convention. As head of an affiliated body, Mr. Clark was present, and was called upon for a He made one of his swift sane, temperate speeches, urging his hearers to be square and frank, and to earn their promotions by duty rather than by agitation. When he concluded Mr. Roosevelt, who was on the platform, congratulated him warmly

That was the year of the great antracite coal strike. All strimer the conflict had dragged along with no apparent hope of settlement. Down in the hard coal region, nearly fifty thou-sand people were idle; in the eastern seaboard towns, the coal-bins were al-most empty, and there was serious apprehension for the future. Suddenly the operators assented to arbitration, and Mr. Roosevelt named his famous

## How to Destroy the Dandruff Germ

By a Specialist.

That the daudruff germ is responsible or nearly all the diseases to which the calp is neir, as well as for baldness and scalp is helf, as well as for baldness and prematize grey hair, is a well-known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist and specialist states he has found. tist and specialist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. This prescription can be made up at home, or any druggist will pit it up for you! 6 ozs. Bay Rum, 2 ozs. Lavona de Composee', ½ dr. Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is not a dye, but is unsqualed for promoting a growth of new hair, and for restoring grey hair to life original color. CAUTION: Do not apply where halt is not desired, and be sure to avoid tonics not desired, and be sure to avoid tonics

restigation and suggesting some settlement as a basis for future operations. Both of the warring sides agreed to abide by the decision

For one member the president wanted a man of the people, who knew what it was to work with his hands, who had been thru the grilling self-made pro-cess, who had emerged with no feeling of bitterness, and who was big enough to see every side of the controversy. Looking over the field, he bethought him of the square-jawed conductor who had made the constructive speech at Chattanooga. This is why it hap-pened that Mr. Clark sat in the Anthracite Commission alongside of Judge George Gray, General John M. Wilson Carroll D. Wright, and Bishop Spauld-

One of the first motions before the commission was made by Mr. Clark, and it was typical of his judgment and point of view. It was to the effect that the strikers should go to work at once, at the old scale, pending the inestigation. This prevented a winter of hardship and suffering for the miners, and insured a coal supply for the east. Thru all the deliberations of the commission Mr. Clark impressed his foresight, the value of his long experlence with unionism, and his sense

f fairne That Mr. Roosevelt still had his eye on him was evidenced in 1906, when the president named him for the Interthe only member who is not a lawyer, and yet he brings to his work something that all the legal experience of his colleagues cannot supply-an intimate knowledge of the mechanism of the railroads, gathered from the inside machine. It has been of the

Another Soldier of the South.

For the next commissioner you must once more turn to the south. In Judson C. Clements there is another link with the confederacy. He was born on Georgia farm, in a house where he could sit on the front porch and see the mists swirling around Lookout Mountain forerunner of the grim smoke of battle

that was to cloud it later.

For years his district had been rep resented in congress by a certain rich man whom it had been impossible to dislodge. Even a one-armed con-federate—usually a very effective instrument in such emergencies—had failed to defeat the incumbent. When every other eligible person had refused

the nomination, young Clements tool Everybody felt sorry for him, for he was a likely lad. His friends said that it was a pity for him to spoil a promising career just at the start. But they did not reckon with the tall, raw-boned boy who had helped to repulse the federal charge on Kenesaw Mountain. He challenged his opponent to tolar He challenged his opponent to joint debate, and, when he refused, drew him cleverly into an argument at a barbecue, and riddled him. Clements | CASCARETS once-you'll See. was elected by a small majority the first time, but on his re-election he had

In congress, he was so active in his support of the civil service bill that he

commissioner. Curiously enough, he voted for the act creating the Inter-State Commerce Commission, little dreaming that some day he would be a member. He was appointed by President He wisco. dent Harrison.

Personally, Mr. Clements typifies the

traditional southerner of an earlier day, for he is big and broad, with commanding presence, and yet gentle and

The Son of Justice Harlan It remains only to speak of one more commissioner, the youngest in point of service, and the second youngest in years—James S. Harian, of Iowa. He comes by his judicial right naturally, for he is a son of the stalwart Justice John Marshall Harlan, of the United States Supreme Court, Like his father.

John Marshall Harlan, of the United States Supreme Court. Like his father, he is big of bone, with the typical Harlan face and presence.

Practically all of the Harlans are Kentucky-bred, but the commissioner happened to come into the world just across the Ohio, in Evansville, Indiana, where his mother fled just before the bombardment of Frankfort, Kentucky. Mr. Harlan was first sent to school in Louisville, and later went to Princeton. Louisville, and later went to Princeton, where he was a star all-round athlete. He was on the 'varsity foothal teams of 1880, 1881, and 1882, and was captain of the baseball team in his senior year.

He then entered the law-office of the

He then entered the law-office of the late Chief Justice Melville W. Fuller, in Chicago. After his chief went on the federal bench, in 1888, Mr. Harlan formed a partnership, and seemed destined to a quiet professional life, when President McKinley appointed him attorney-general of Porto Rico. It was immediately after the close of the war with Spain and the task of the war with Spain, and the task of upbuilding appealed to him.

Mr. Harlan gave the island a whole

new legal structure, one feature of which was the introduction of the jury system. At first this unfamiliar in-stitution was regarded with great suspicion by the natives, especially after a verdict of "guilty" was rendered. But as soon as there were several acquittals, the process became suddenly popular. Mr. Harlan likewise established a sanitary board and organized the island police. Upon his retirement from insular service, he went back to law in Chicago, when Mr. Roosevelt appointed him to the com-

This completes the series of personal sketches of the members of the seven-headed tribunal that rules our railroads. Whatever other comment may be made upon them, it would certainly be difficult to match this interesting group of men in real Americanism, or in the variety of their types and tem-

## MONTREAL OPERA COMPANY

Rather Unusual Success for a Young

With the Ritz Hotel people falling over themselves to build a new 40-box opera house, and the neonle of Rochester and Syracure trying to get into the syndicate and secure an annual opera season for themselves, the Montreal opera is having rather an unusual suc-cess for an institution only a few months old. Evidently it was started at the psychological moment. The Tononto millionaires have not yet been sounded as to the extent of their witlinguess to co-operate and make this a really Canadian opera syndicate, but there is not much doubt that when the company and Mr. A. Clerk Jeannette. the city, they will find a very sympa-thetic reception. The company is already assured of the highest social pat ronage here, which will go a long way ronage to the Toronto performances, at Their Excellencies the Governor-Gen eral and Countess Grey did to the Ut tawa series (every one of which, by the letier did not officially dignify the Que bec visit, but then, for one thing, he is an invalid and absent, and for another the Quebec performances did not meet with the approval of the church au-thorities of that diocese.

The plan of the American cities in terested in the new foundation is to provide a chain of dates on the south side of the lake, so that the company could make a complete circuit during its out-of-Montreal bookings. If the Canadian cities take up sufficient of its be accommodated, as the design of the Canadian one The program to be given in Toronto, commencing Monday week, is as follows: Monday, "Carmen," with Edmond Clement; Tuesday, "La Bohame"; Wednesday, "La Tosca"; Thursday, "Lakme"; Friday, "Madah Butterfly" (first time in Italian); Saturday, wetings "Lakme" and Saturday. urday matinee, "Lakme," and Saturday evening, "Fedora."

The sum total of goodness is to be found in 1911 Dunlop Automobile Tires.

### Carnegie's Hymn of Peace

Andrew Carnegie has found a hynn of international peace that he prefers to "America." The metre is the same, but altho he prefers the new words he does not urge them as a substitute It was written by Prof. George Huntington, formerly librarian at Carleton College, Northfield, Minn., who retired some years ago on a pension from the Carnegie Foundation. Two stanzas

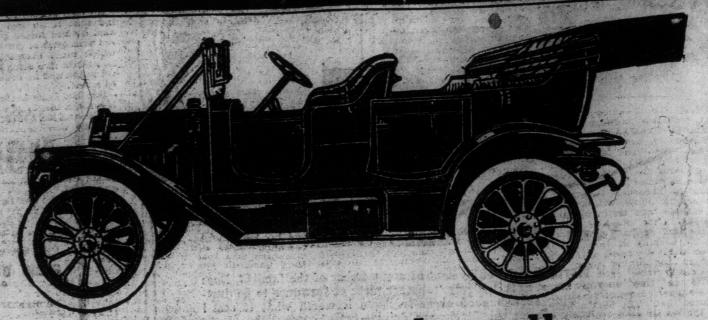

"Two empires by the sea Two nations great and free, One anthem raise. One race of ancient fame, One tongue, one faith, we claim, One God, whose glorious name We love and prais

Tho deep the sea and wide. Twixt realm and realm, its tide Binds strand to strand. So be the gulf between Grey coasts and islands green, bonds of peace serene And friendship spanned.

## Millions Say So

When millions of people use for years a medicine it proves its merit. People who know CASCARETS' value buy bowel and liver medicine ever made. No matter what you're using, just try

CASCARETS 10c a box for a week's treatment, all druggists. Biggest seller in the world. Million boxes a month.

When Canada calls McLaughlin's respond

CANADA'S CALL

T is just about three years since the Canadian public first showed a real inclination to use Motor Cars—just about three years since it began to be evident that there was a need for some responsible Canadian firm to produce a line of cars suitable for Canadian conditions. "The Car," said sible Canadian firm to produce a line of cars suitable for Canadian conditions. those most capable of judging the needs of Canadian Motorists, "must be simple, durable, economical, powerful—and, above all, reasonable as to price."

McLaughlin's Responded It is well within the mark to say, that the McLaughlin-Buick has proved the oar that fully answers the above requirements. We were pioneers in eliminating for Canadians, the large overhead expenses entailed in experimenting for we adopted a tested and proved product. We selected the Buick' as our pattern, because it, more than any other car made, seemed to satisfy the needs of this country.

We Were Right in Selecting the Buick Three years of success has proven the correctness of our choice. To day the aggregate value of McLaughlin-Buick Cars in use in Canada succeds any other. Everywhere you go you see McLaughlin-Buicks—and giving complete eatlefaction to their owners.

Why This Big Success? Here's the answer—under the four im-portant heads that govern Motor Car value:

We have the largest and most complete automobile factory in the Dominion—few even in the United States excel it in size or completeness. Only in a plant like ours can cars of real value and real merit be produced. A plant like this behind a car is a setter guarantee of satisfaction to the motorist than any mere printed guarantee we have ever seen.

The Car hering to the time-honored Mo-Motto-"One grade only and that we have so maintained the Stand-eyery car we turn out—every re-

Elimination of all imnecessary ornamentation and gaudy frippery—careful buying of materials—large plant and production—these are the features that enable us te produce the cars we do at the prices we ask—prices that are enabling Canadian Motorists to own cars at a minimum expenditure, and, equally important, cars that are economical of operation.

The Firm The name McLaughlin has become significant of, "A square deal to all." It is known wherever carriages or motor cars are known, that we spare neither pains not rational expense to attain our high ideals of a worthy Canadian product. By establishing branches in the most important centres we are in a position to readily, quickly supply all necessary parts. In brief, it is no exaggeration to state that

KING DEATH.

King Death was a rare old fellow, He sat where no sun could shine, And he lifted his hand so yellow And poured out his coal-black wine Hurrah! for the coal-black wine Because in your heart and in mine
Kind thoughts have gentle birth.
I trust that when the year shall wane
Our lips may softly say:
Some sweet joy thrives in other lives

There came to him many a maiden
Whose eyes had forgot to shine,
And widows with grief o'erladen,
For a draught of his coal-black wine.
Hurrah! for the coal-black wine!

The scholar left all his learning,

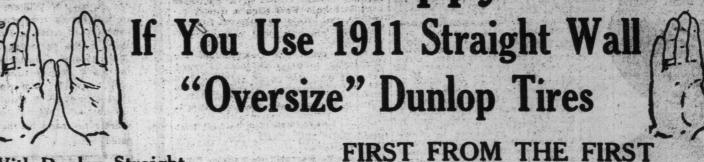

The poet his fancied woes,
And the beauty her bloom returning.
Like life to the fading rose.
Hurrah! for the coal-black winel

Who laughed till his eyes dropped and he gave them his hand so yellow, And pledged them in Death's black

Hurrah! for the coal-black wine!
—Bryan W. Proctor.

Out of the hopper-No man needs to be dull who can find a way to manicure his brains.

# You'll Have a Happy New Year

"Oversize" Dunlop Tires FIRST FROM THE FIRST

Because we passed their way.

With Dunlop Straight Wall There is:

1. No rim cutting.

2. No necessity for lugs nor bolts.

3. No pinching of the

4. No trouble detach-

5. No blowing off the rim when subjected to severe strains.

Booklet Free.

If you are one of the few who have never used Dunlop Tires, make a New Year's resolution to write to our Head Office, or nearest branch, for literature.

We were the first to introduce the Straight Wall Type of Tire in Canada. Most Motorists are familiar with the original Perfected type Tire now made in all standard sizes, and known as the Perfected Universal, or Straight Wall Dunlop. You cannot detach that name from general satisfaction wherever Motor Tires are used.

**DUNLOP UNIVERSAL IS "OVERSIZE"** 

While we have not generally advertised the fact, the Dunlop Perfected Universal Tire is, and always has been, "Oversize." This reserve capacity in the Dunlop Perfected Universal is just that many points for longer wearing service and reduction of repair costs.

THE SUM TOTAL OF GOODNESS

It is not our desire to claim perfection, for we, too, have profited by experience, but in our 1911 Tire we believe we have the equal of any imported Tire and the superior of all Canadian-made Tires. If you have tried other Tires, we expect your order again on merit.

# The Stock Market and General Financial News

## WALL ST. CANNOT LONG IGNORE PREVAILING POOR CONDITIONS

Fictitious Bidding Up of Values Canadian Exchanges Show Conditions Generally Favor-Marks First Week's Trading of New Year.

Between these, the insiders and the commission houses, there is one continuous fight for the money of the public. The ordinary outside trade has therefore a mighty slin chance. When the public are describe involved in specrblic are deeply involved in spec-n, a shrewd outside operator can money, but even this individual e sport of the inside fraternity e present time, and has been so

a bear flourish on the opening of the new year, prices advanced continued to hold until the end and continued to hold until the end of the week. A dip in prices is the usual preliminary to a rise, as this disposes of numerous stop-loss orders. The stop-loss game is one of the most seductive propositions ever evolved in the stock market. It is exceedingly plausible and because of its very plausibility it appeals. If all brokers were honorable there might be some excuse for putting a stop-loss price in the market, but under the present New York regime any one limiting his loss had better consult his sanity before doing so. In any case it is the veriest had better consult his sanity before doing so. In any case it is the veriest form of speculation, and it also places the two occasions above mentioned

ARE NOW BEING REDUCED

Falling Off - December's

whether this year will be so pros-

perous a one as last. The corporation

ESTIMATED EARNINGS

## Day-to-Day Trading.

World Office.

Saturday Eventing, Jan. 7.

The only thing that can be said for the New York market in the opening week of the year is that the cool calculating manipulators have either found the market can be advanced legitimately, or that a sufficient short interest had accumulated to make it worth while to bid up prices. The latter seems to be the only reason on which prices have been advanced, largely because Wall-street never moves in a straight and logical way. It is estimated that upwards of one thousand floor trading brokers make a livelength of the New York market. Between these, the insiders and the commission houses, there is one considered as an axiom.

It should be accepted as an axiom.

Most Domestic Securities.

It should be accepted with that stocks rose rapidly is now demanded for loans. The transmitted is now demanded for loans. The transmitted that time with odd exceptions, there has been a period of marking time. The advance of two or three spoints in the active speculative points in the prices of commodities now demanded for loans. The transmitted is now demanded for loans. The transmitted in the opening is now demanded for loans. The transmitted at time with odd exceptions, there has been a period of marking time. The advance of two or three speculative speculative speculative points in the prices of commonking is now demanded for loans. The transmitted in the prices of commission of time for general commission of the price of the special at

has that no security moves in the present fictitious condition of stock market trading unless it be because of a possible profit to those who have any par-ticular stock in hand. Syndicates have tempt is being made to make this interest take 2 loss. There are odd instances in which advances are legitimate, and there have been cases in which syndicates have lost their heads and theirs and other people's money, in promoting shares in a wild attempt to get a public following.

Try as it may Wall-st. cannot get away from actual conditions for any length of time. The attempt was made in 1902 and in 1906, but retribution followed both ventures. Unless some valid reason can be assigned for the present market bullistaness, it should be considered an episode similar to the two occasions above mentioned. the speculation, and it also places the speculation, and it also places the speculator entirely in the hands business conditions in the States are not good. Railroad earnings are falling and loans are inflated to terrific favorable to holders, ment or speculation.

RIBAND SAD PAULO TRAMS

Last Calendar Year.

## More Snap Than Usual in able to Further Advances in Most Domestic Securities.

there is a much larger speculative following and a freer loaning of funds by the financial institutions. Many securities have developed activity in the Montreal market and three and four point advances are of daily occurrence. At Toronto the list has been stimulated by a continued investment demand, and the buying has ment demand, and the buying has broken thru the cordon made by a small professional short interest.

Rio remains the active speculative issue. Failure to increase the dividend has not hurt the price, neither has the furcease in outstanding capital. Money was hard to get for market purposes around the close of the year, and even yet there is no great willingness among the banks to encourage brokers den nands. Natural conditions are expected to change this, however, and a wider speculation is therefore thought to be promising. The market is not hampered by any weak holdings, and the way is tolerably clear. way is tolerably clear for further advances in many of the dividend paying issues. For the time, conditions are favorable to holders, either for invest-

Steel Trust Profits Show Further Both Companies Show Exceptionally Favorable Earnings During production of the United States Steel ended Nov. 30 last may be taken as a balance available for dividends on Dec. Harriman lines show best year in

MALL STREET

Banks gained \$3,000,000 on week's cur Consolidated Gas eanings for the ear estimated at approximately 8 per

ent. for dividends. Attorney-General Wickersham, in his brief filed with the supreme court, says standard Oll Co, is a monopoly within meaning of Sperman Act.

Harriman lines place orders for 196 freight locomotives to cost approximately \$4,006,000.

Government will prosecute American Tobacco Co. under Sherman Act and Wilson Act of 1894.

Chicago special save Chicago special says: It is a weather narket in the clai trade. Congestion has now been relieved.

Stock speculation situation in London said to be disappointing, and liquidation believed may set in.

Consideed doubtful in London that

Bank of England will be able to secure much of the \$3,000,000 gold from the Cape to be offeed next Monday.

The general view accepted a few days ago was that the stock market would be pretty well held up pending the reinvestment of Jauary disburse-America. The Sao Paulo Company earned in the neighborhood of 15% per cent. on its outstanding \$10,000,000 capital stock, as compared with about 1244 earned in the neighborhood of 15% per cent. on its outstanding \$10,000,000 capital stock, as compared with about 12% per cent. in the year previous, while rent. or better on its \$31,250,000 capital as against only 3.67 per cent. earned on the same issue in the year previous.

Based on the showing for the 11 months, the Rio company's gross earnings for the calendar year were about \$11,000,000, or an increase over the preceding year of more than \$3,300,000, while the net was doubtless in the neighborhood of \$5,700,000, or some \$2,200,000 in excess of 1909. Allowing a nominal increase in fixed charges, the balance available for dividends on Dec. 31 last was about \$3,200,000, as compared with about 12% and soldings on all favorable opportunities on all favorable opportunities, on all favorable opportunities on all favorab

we thing the rumors are greatly exag-gerated. It is unsafe to assume any-thing. And certainly it is bad judgment putting up stovks much wher such stories are bound to reach the missioners. The commissioners yester-day ordered reductions in important rates in the south. It is unsafe to make any further extended reference to the trust cases which will be argued before the U.S. supreme court next week. They will exercise a restraining influence on the stock market for several months to come. The outcome canno be discounted in advance of the devi be discounted in advance of the desisions. The money situation is without feature; it will mork easier, as the days go by, and funds pile up at leading centres. This reflects uncertainty is business and is not a good sign. The bond market may be quickened a little and high grade stocks should be an sorbed, but this does not make for we tivity in the general security marked From the looks of things the first of he year re-investment demand was no very large. We think it has been satisfiel.—Hudson's feekly letter to J. G.

### NEW RECORD FIGURES British Foreign Trade in Year 1910 Greater Than Ever Before.

Comparative statistics of individual products show that there were exported 1940 several hundred million yards more cotton piece goods than in 1909; a hal million more tons of iron and steel a ticles, exclusive of hardware and cutlet (which also made heavy advances); 50 p ticles, exclusive of hardware and cutter (which also, made heavy advances); 50 pcent. more mining machinery and papegoods; shipments of oliseed cake double oilcloth exports were one-fourth greate exports of leather, boots and shoes, for the first time stepped over the mark of million dozen pairs; while chinaware shi ments increased one-fourth, reaching 409,000,000 pounds in weight.

People's Gas Co. of Chicago declared regular quarterly dividend of 1 3-4 per cent., payable Feb. 25.

Bank of England discount rate, 4% per cent. Open market discount rate in London for short bills, 3% per cent. New York call money, highest, 4% per cent. lowest, 2% per cent., lowest, 2% per cent., ruling rate 4% per cent. Call money at Toronto, 5% to 6 per cent.

Cotton Gossip. Erickson Perkins & Co. had the following: Trading continued dull thruout to-day's session, but prices held
steady in response to the improvement
abroad and large spot sales at Liverpool. Week-end figures received a favorable construction and attention was
called to the fact that spinners takabroad and the fact that spinners tak-

2,200 ings exceeded the in-sight. However,
it is well to remember that spinners
500 takings are still under last year, while
the movement suggests a crop of 12,200 000,000 bales, and stocks at all points
200 are large. Many expect to see the
1,200 deadlock broken by the ginner's report,
1,200 present indications, an increase in
200 bearish sentiment is the probable out7,500 come with lower prices likely if gin700 ning approaches 11,100,000. 700 ning approaches 11,100,000. New York Bank Statement. NEW YORK, Jan. 7.—Th statement 100 of clearing house baks for the week

2,300 (five days) shows that the banks hold 500 \$9,502,400 more than the requirements 2,300 of the 25 per cent. reserve rule. This 3,200 is an increase of \$1,650,800 in the pro-

is an increase of \$1,659,800 in the proportionate cach reserve as compared with last week.

The statement follows:

Crop Report.

Roumania—Broomhall cables: The weather is favorable and the outlook for the crops is satisfactory. The wheat market is firm under a good export demand. Argentine—Broomhall's agent cables? Wheat—The weather continues favorable for harvesting. Corn—Rain is still needed generally. Latest advices received are to the effect that locusts are causing damage in the north. Shorts covered freely, which was ref e ted in the strong advance shown in the Buence Ayres future market. Liverpool cable says: There is a growing belief that Argentine has poor prospects for corn crop. We shall probably have to draw more largely on supplies from America.

## Referendum, Initiative and Challenge

What a free self-governing people require from their representatives in parliament or in the legislature is that no laws shall be passed which they do not desire and that reforms shall be conceded whenever these are demanded. The parliamentary system common to all British peoples has proved itself to be by far the most democratic and at the same time the most flexible of constitutions. Yet it cannot be pronounced as free from objection, and the mother country is now faced with the problem of readjusting the relationships between the first and second chambers. But this again illustrates the great advantage of the parliamentary system, since even a constitutional amendment of this kind can be carried out without difficulty, while in the United States it would be almost impossible for such a law to run the gauntlet of the courts without being pronounced "unconstitutional"-and constitutional amendment is so hedged round with safeguards that it is practically impossible. Rightly or wrongly, however, parliament as it at present exists has not been able to withstand criticism, and both British parties are pledged to schemes to amend it. Of these schemes, says Mr. Alfred Fellows, in The London Morning Post, the referendum is perhaps the most novel, and it may be useful to discuss its application to the parliamentary system, together with the allied devices of the initiative and challenge. Mr. Balfour's phrase "Poll of the People" will really cover all three, but when accuracy is required it may be useful to keep them distinct. The referendum is the submission to the people generally of some particular law which their rulers wish to pass, or of some particular principle on which it is desired to act—in practice it is almost invariably a measure and not a principle which is thus tested. The initiative is a power conferred on a given number of voters to require their legislature either to debate or to frame and pass a particular law which they deere, and the challenge is a similar right of voters acting in concert to suspend a measure which would otherwise become law, usually until it can be submitted to referendum. These exact terms are not of great importance, but it may be observed that, in easy metaphor, they cover reference to the people as to the conception, gestation and birth of a law. Thus in a country where all three methods of reference existed the people could force the legislature to discuss a particular measure which had not officially been brought forward, and they could also veto one which had been. Of course no country now gives an unfettered right to a "Poll of the People" on every small measure; even in Switzerland there is a distinction in this respect between laws which alter the constitution and others, and the Australian law does not confer the initiative or challenge on the people at all, but only a limited right to a referendum proper.

The law which does this is a fact on the British Statute Book-63 and 64 Vict., c. 12, "The Commonwealth of Australia Constitution Act"—and the last section, the hundred and twenty-eighth, deals with the referendum. This operates on any proposed alteration of the constitution (1) if such alteration has been passed by both the commonwealth houses of parliament, or (2) if it has been passed by one house twice and rejected twice by the other after a stated interval. In either case the amendment becomes law if the referendum is favorable to it, but the maat be both in states and electors. That is to say, taking England and her counties as an example, if this principle were adopted, he jorities in Yorkshire, Lancashire and London might ensure a majority as a whole, but the law to be submitted would nevertheless fail to pass if twenty-one of the other counties showed a majority against it. Conversely twenty-one small counties could not coerce the majority of the electors as a whole. There is also a provision in the Australian act preserving the representation of each state unless it consents to alteration. The Australian referendum, therefore, within its limits acts (1) as a check on both houses when in agreement; (2) to override that house which is too conservative. The actual working out of the details is provided for by a commonwealth act of 1906, amended by one of 1909. Amongst other provisions a referendum on one or more constitutional amendments may be taken during an ordinary election, provision being made that the ballot papers shall be colored differently from those of the candidates. It must be noted that within constitutional limits the two houses, with the King's formal assent, can pass any law they please without a referendum, and that even constitutional amendments must originate in one house or the other. The sovereignty of the two houses acting together is thus absolute within its scope, and, fortified by a referendum, as absolute as the parliament of the United Kingdom. Whereas it seems probable that in Switzerland fifty thousand electors could at any time force a referendum on unwilling legislators on which they would either have to act or resign.

A "Referendum ad hoc," tho it has not as yet formally been adopt-Ved for settling any question concerning the United Kingdom, is a device used in its local government (as to the adoption of certain public health acts ,etc.), and has on occasion been used in the British dominions. Thus in 1902 a prohibition bill was passed in Ontario, the first hundred clauses of which created machinery for submitting the operative part to the electors, who rejected it. And on one occasion a poll was taken as to the size of the Legislature of New South Wales, in which the voter could mark his preference for alternative courses out of the choice of three, the intellectual effort required being that necessary for giving a "transference vote" when one of three candidates has to be electted by a single ballot. Altho there is no provision for the referendum in the American system as a whole, any state can adopt this method for its own laws; and in America, as in Australia and Switzerland, the written constitution divides the laws into two classes, those which can be enacted within the scope of a particular legislature and those which cannot. Roughly speaking, this division corresponds to laws which effect great changes and those less important; and it will thus be seen that the sovereignty of our parliament, putting all laws on a level, increases the difficulty of applying the referendum to the United Kingdom. If the solution is to be by consent, a referendum only when the houses of parliament disagree will not be sufficient, since such disagreements are alleged, and not without some truth, not to take place when a Conservative government is in power. On the other hand, a compulsory referendum, whenever a specified minority of the house of commons desired it, would tend to block all legislation of either party. If the Swiss system is considered, the imitiative hardly seems necessary in Britain; any one of the six hundred and more members of parliament not in the government can introduce any bill he pleases except for taxation and reforms of procedure, so if private members bills receive more attention that seems all which is necessary. The challenge might be useful in the case of a government which had outstayed its welcome and was clinging to office; and there might perhaps be room for all forms of the "Poll of the People" on fiscal questions—tho, curiously enough, a revealed custom tariff would be much the least suitable, since during the delay which ensued before the people gave their answer importers would entirely destroy its utility.

WILLIE FIELDING-It's gettin' harder every step.

## Hold Fast to the Ring

This is the era of the iconoclast. He has destroyed the beautiful fairyland whose wonders were real to the children of a few generations ago. He has made the bride's cake impotent to bring to the maid dreams of her husband to-be. He is even trying to banish Santa Claus to the limbo of things unreal. Worse still, he is robbing the wedding ring of its mystic virtues, says The Cleveland Leader.

A famous writer directs attention to the fact that married osing the sentiment which for years has made the wedding ring something peculiarly precious. The old belief was that for a woman to take her wedding ring from the finger after it had been placed there by her husband on their marriage day was to invite cala- Thou bidst me seek some other land, mity for both of them. From the first conjecture to the final proof was a series of careful experiments. puts away with it some of the feeling was a series of careful experiments, which gilds and ennobles the marriage toe's proboscis. Now, this is finer relation, keeping it above the gross than fine hair. It is necessary to stop things of earth in a beautiful realm of to think. For it is easier to imagine its own. Abolish the ring and with the triumph of the proof than the deli-

## Housekeeping and Romance

Politicians, educationists and philanthropists are daily becoming more and more conscious that the lack of knowledge of homecraft is a national ogy in the Amen-Ra and Osiris of the danger. Women especially are alive to the fact that upon them lies the responsibility of applying intelligent knowledge to the problems of home in its wide sense, the field for woman in civilized state. So far as marriage and motherhood

are concerned, there is still a widespread idea that a working knowledge of cleaning, cooking and cutting out, or a scientific knowledge of hygiene or sanitation, entails destruction of romance in home life. Nothing can be further from the truth. It is possible for romance to co-exist with such knowledge; it is utterly impossible for it to exist long without it. Romance speeding takes to itself wings and flies away where the house is ill-kept, the spirit of the age which weighs every-At the foundation of human life lies a prosaic struggle for food and drink, and the more the housewife can help moving the ring and not wearing it to make that struggle effective, the more opportunity is there for the life that comes not by bread alone, both for herself and for her husband. -

"(4) The religious reaction the disposition to abandon the worship of many gods and merge the many into one or two at most."

## Outdoor Studies

The study of our common wild birds in the public schools is based upon soundest reason. Granting that every child ought to acquire an interest in nature and outdoor life, acquaintance with the birds is the best starting point for such an interest.

Every child naturally delights The twentieth century girl is, with- wild animals and in stories about them, the time on the same ringer. ### Joke Candidates

It will always perplex many people to know why it is that we are to have perennially a number of candidates ceed in attaining their desire, and who must know that the goal to which they reach is far from their grasp. That is the way every New Year's Day. There is a class of people whose names are seldom absent from the ballot paper, and when the vote is counted they invariably are found far at the bottom of the roll.

It is the undoubted right of every man to seek office from his fellows. but what is there that gets into the brain of a man and tells him that he must go into a hopeless fight. Sometimes, we know, as in the case of R. B. Noble, the man is representing a "principle" and conducting an "educational campaign." That is not insanity. He believes in something that is not immediately popular, but may be some day if he keeps at it long enough, and so he does not allow a few setbacks to deter him from getting his ideas before the public.

But there are others who stand for nothing, and yet they are possessed of an insane idea to run for something no matter what it is, and add to the troubles of the poll officers, the electorate and the candidates themselves. The old objection of a crowded It costs money to concuct an election;

"Woe unto you that are rich," said ed the company in an arbitrary way, and had to rely on his own labor to carry out the project. But the great point is that the whole success of the scheme depended upon the water in the flotation, and when the water was eliminated the enterprise was wound up. We can scarcely draw reliable precedents from such a remote tranprecedents from such a remote tran-saction, and Solomon is clearly more of an authority on high finance. Follow-ing established precedents he half a

church. There is absolutely no record of his having erected a library, or of even having offered to subscribe half the cost. Libraries were quite unnecessary. Selomon was the wisest man, and all yu had to do was to go to him and he could tell you anything you wanted to know. What use was a library to a man like that? You may say that he might have built organs. Well; there is no evidence that he didn't. He seems to have written poetry, tho the highest critics won't admit that the Song which goes by his name is his. But that is no reason why he should not have built organs. Mr. Carnegie never wrote poetry, yet he builds organs every week. Soloman may very well have built organs—one or two, anyway. The only thing that they was anyway. of course gold is a magical possession, and when a man finds gold piling up around him, almost without any effort of his own, he must go back to some earlier life of his to explain such an apparently unearned increment. We do not really ever get anything we do not earn, and we are never finally defrauded of anything we have honestly earned. That is the great. honestly earned. That is the great, glad, happy law of justice which the bispops ought to tell us more about. It would help us for one thing to decide whether to follow Mr. Carnegie on the one hand, or Mr. Morgan and Mr. Rockefeller on the other; or per-Mr. Rockefeller on the other; or perhaps adopt a line of personal responsibility of our own. He that maketh haste to be rich, says our good Soloman again, shall not be innocent. And it is wiser to be innocent, like the little children. Gold, after all, is a sublimation of the ellxir of life, and if we live right, and keep the current pure, the gold will not fail us. When it the gold will not fail us. When comes in floods it is to test us, whether

## WERE RUSSIAN POLICE FOOLED BY ASSASSIN?

M. de Plehve Heightened by Announcement that Man Who Threw Bomb Has Committed Suicide.

(By Rubino Bishkoff.) ST. PETERSBURG, Jan. 7.-The mystery surrounding the assassination of M. de Plehve, the Russian minister of the interior, has been heightened by the announcement that Karl George Sazonoff, the man who threw the fatal bomb in the Ismailoffsky Prospect, had committed suicide in the convict

establishment at Zarantui, Siberia. And once again the controversy has arisen as to whether the Russian police authorities ever had Sazonoff in their custody or whether the assertions of the revolutionists that the Russian police have been indulging in a longdrawn-out game of bluff, is true.

Following on a demand in the Duma for an interpellation, an offical statement has been issued concerning the reports of cruelty to prisoners.

The prisons administration state that there was a conspiracy among the prisoners to rise en masse, and that after the discovery of the plot the governor of the prison gave orders for corporal punishment to be administered to two convicts. As a protest against this three convicts severed an artery and three others, including sazonoff, took overdoses of morphia.

Sazonoff succumbed. consequence of further rioting, fifty-nine convicts were ordered to be chastened with rods. The minister of justice has ordered a strict inquiry into the whole affair.

Say he Lives.

The present announcement is but another mystery added to a story teeming with almost incredible adventures, and which is in itself a complete picture of Russian revolutionary life of to-day. Despite the official prison statements of Sazonoff's death, revolutionaries in London deny that Sazonoff has died, and still claim that he was never imprisoned, but escaped immediately after De Plehve's death. M. de Plehve, a man noted for his ruthless severity, was killed in a St. Petersburg street by a bomb on July 28, 1904. It is quite clear that the assassin was Sazonoff and that he was assisted by a man named Sikovsky. It is also known that a man, who was found wounded at the time of the as-

sassination, was arrested.

The mystery began to get deep when The mystery began to get deep when the police endeavored to prove that Sazonoff, who was generally reputed to be the assassin, and the prisoner were really one and the same person. The prisoner's name had been given out as Perozneff and the following diary gives some idea of Russian police ingenuity.

July 28-Assassin caught red-handed. July 29-Identified as Perozneff. July 30-Died of hemorrhage.

1000 arrests.

Aug. 1—Died unidentified. Aug. 4.-Efforts made to keep him , Aug. 7-Identified again and two

Aug. 21.-Identified as Matveyeff and death sentence commuted.

Aug. 22—Re-identified as Sazonoff.

According to the best information in revolutionary circles the truth of the matter was that, altho the police had arrested Sazonoff, the latter, by the aid of his colleagues, was enabled to as it was at one time called. escape and for some time, while the

escape and for some time, while the police were sending out official messages, they were without a prisoner. It was on the night of August 20 that both the chief of police and the governor of the prison where Sazonotf was confined were called by special summons to repair to the palace. Ten minutes later two gendarmes presented minutes later two gendarmes presented to the deputity governor of the prison minutes later two gendarmes presented to the deputy governor of the prison an order to deliver over to them the person of Sazoff. The order was of curse carefully scrutinized, but as it bore the signature of the chief of police, together with the official cipher, the prisoner, heavily manacled, was handed over to the two gendarmes, who bore loaded revolvers in their

An hour later the governor of the

## GERMAN CROWN PRINCE ANNOYED ON SEA TRIP BY YANKEE SYCOPHANTS

Finds Them "Unbearable Snobs and Arranges Burlesque of Uncle Sam to Put Them in Their Place.

(From a Staff Correspondent). BERLIN, Jan. 7.—In a letter to a ersonal friend, an officer in the regiment in which the Crown Prince him-self served, the future ruler of Gerself served, the future ruler of Germany has expressed the opinion, that if the Americans, with whom he was forced to associate on shipboard during his recent voyage to Ceylond, are fair specimens of the race, then Americans must be the most unbearable snobs in the world.

The crown prince and his wife had

able snobs in the world.

The crown prince and his wife had looked forward to the trip with great anticipations, as a short period of happiness during which they would be allowed to act as ordinary human beings, free from all the etiquette of court and from the presence of disgusting sycophants, but the Americans, who are said to have paid fabulous prices for staterooms on board, succeeded in making the lives of the royal couple as miserable as ever.

ouple as miserable as ever.

With perfect tact the prince and princess showed no signs of annoyance. until just before the steamer reached its destination. The crown prince and his friends, young officers of the guard, who accompanied him, decided to show the ill-bred Americans what they thought of their behavior.

A masked ball was arranged and a grantic Gorman officer when the control of the control

BAKERSFIELD, Cal., Jan. 7.—Mrs. gigantic German officer who dressed Maria Martines Rodrigues is the oldest up as "Uncle Sam" brushed everyone aside, trod on everybody's toes, including the ladies', got in the way the world, having celebrated her one hundred and twenty-third birthday the self offensive. Even the crown prince and princess had to yield him place, which they laughlngly did. The imposely giving a lesson to the of the great republic.

The crown prince regretfully writes as a lesson the experiment was not quite a success, for of all the people on board, the obnoxious Americans were evidently the only ones who did not realize that it was ment for them.

## Queen Mary Starts New Dress Crusade Low Necks Tabooed

Edicts of Court Requiring Deep [NGLISH LANGUAGE Cut on Full Dress Occasions to be Modified.

(From a Staff Correspondent). LONDON, Jan. 7.—Queen Mary, whose habits and ideas are very puritanical in every way, has decided upon a crusade against the low-necked evening dress and in this she has the full support of King George, who diffull support of King George, who dif-fers very considerably from his late father in his dislike of what he con-

siders an indecent exposure.

During the reign of King Edward and even under Queen Victoria the court dresses of laddes were cut as

ing the next few years.

She prefers to introduce the innovation, gradually, but she has already made it clear that elderly ladies and others, who desire to wear high-necked dresses at next season's courts may do so without infringing any de-tail of court etiquette.

## Cabinet Changes Pending in England

Mr. Haldane to be Lord Chancellor and Retirement of Lord Morley is Looked for.

LONDON, Jan. 7.-With the return of the Liberal government speculation is busy as to possible pending government changes. The rumor is current in Mr. Haldane's constituency that he is to be made Lord Chancellor, and that the present chairman of his Liberal committee, Mr. Laurie, is mentioned a his successor in the representation of Haddingtonshire.

Lord Morley is understood to have continued in office only as a tem-

porary arrangement at the urgent request of Mr. Asquith, and his early retirement may therefore be anticipat-Earl Carrington, too, is understood to

be anxious for relief from arduous political duties, and it is regarded as probable that he will become Lord Morley's successor as lord president of the council. Those who profess to be in the know

say that two of the younger members of the government will join the cabinet during this month. Son of Game-Keeper Stricken by Shock

## PRESS AT CORONATION WELL PROVIDED FOR BY KING'S COMMAND

Charge of Arrangements -Seating Accommodation in Westminster Abbey.

LONDON, Jan. 7 .- King George evidently does not harbor any ill feeling the kaiser, for altho the coronation is inquired as to what arrangements are inquired as to what arrangements are being made for the convenience of the press representatives on coronation day, adding that he remembers that they were rather badly handicapped at his father's coronation thru lack of suitable accommodation.

As a result of the King's interest in he matter a well-known journalist has en placed in charge of the press arrangements and soon as he has mapped out his plans, he has been commanded to attend an audience at Buck-ingham Palace to lay his scheme before the King, who has further inti-mated that he wants the representatives of foreign newspapers to enjoy the same privileges as their English on Society of Foreign Journalists has, therefore, been appointed to co-operate with the English newspaper

The whole of Westminster Abbey is to be closed to the public from about the middle of February, and will then be handed over by the cathedral authorities to the office of works, which will then arrange for the necessary seating accommodation. At the coronation of King Edward, seats for about seven thousand people were provided in the Abbey, but the number will have to be increased upon this occasion, since King George has expressly intimated that he desires room to be found for the members of the house of commons and their ladies, and sears for these will probably be provided by the erection of galleries in the Edward the Confessor chapel. Under any circumstances, the accommodation will be taxed to the utmost, and many of those who receive the much-coveted "com-

obtain anything like a complete view of the entire ceremony. The sham gothic annex to the Abbey, which was built for the last coronation, while be erected again. This acts as a convenient space in which the lengthy procession can be marshalled; while provision is also made for retiring rooms for the King and Queen and the royal princess who will attend on this occasion.

## MOTORING IN WINTER

Stimulated so that his blood races, skin tingles and appetite is whetted like that of a boy who has enjoyed a daybreak plunge in the ocean, the owner of an automobile who uses it 12 months in the year, particularly in the winter months, has all the advantage in the world over those who lay up their cars at the first snow flurry.

Winter propounds no problem that cannot be answered by modern automobile construction. There is no intrinsic reason why the autoist may not, ride in January as well as in June. In fact, January has a lot of favorable elements that do not exist when the beautiful greenery of the fields and woods seem to be in specially inviting mood. In the first place, a good road is no worse in winter than in summer. If it is good at all it will prove passable in the dead of winter, and very frequently the freezing of a bad road makes it much better for traffic of all kinds, particularly the travel of automobiles.

The Kind of Weather.

Given a clear, bracing gay, with temperature well below the freezing point, a stout car and a route that passes thru a picturesque country, such as the Connecticut hills, the valleys of Jersey or nearly any other favorite summer touring ground, and the result of a day's excursion will not prove cleappointing.

Of course, exposure to the elements much be guarded against. No man

clothes of sunctent warmin and thick-ness, paying special attention to feet and legs, and hands and wrists. It is surprising how little extra clothing will be found necessary if the extrem-

the visitors that they decided to adapt some of the machinery ideas for use in their own place in Mannheim.

One object of the foreign visitors in coming to Detroit was to see what the American factories were doing in ragard to commercial vehicles. They looked at this end of the business very carefully, and the impression was got from what Mr. Froehlich said that the Benz folks would interest themselves further in this end of the automobile

Among other places visited were the Cadillac, Thomas, Chalmers, Packard, Hudson, Pierce-Arrow and Ford factories and some places where parts are made. Before the Germans return they will have seen about all the De-

### New Ford Garage

The Ford Motor Company have recently moved into their new building at 106-110 Richmond-street west. These premises have been built especially for the Ford Company and are as upto-date as any garage in the Dominion of Canada. Every possible arrangement for the comfort and convenience of customers has been made, and there is no doubt that the many friends of the ever-popular Ford car will be highly pleased with the result.

LARGE HOLIDAY ORDERS FOR FORD CARS.

According to the very large number of orders for Model T cars received by the Ford Motor Company since Christmas day, it is evident that old St. Nich. olas was very generous in distributing gifts from the Horn of Plenty. On Tuesday, the twenty-seventh, the day after the Christmas holidays, a total number of 706 automobile orders for Model T cars were received by the coin-These orders came from al pany. parts of the world, and called for shipment as soon as possible, a fact which shows that the automobile buying public is waking up to the necessity of the motor car for winter use; and that while summer is the ideal touring season, winter is really the time when the auto is most needed for business. While the touring car, selling at \$780 fully equipped, was the most popular car, having the largest number of orders out of the 706, the other models of cars were by no means slighted and the rumble seat roadster, new runabouts and coupe came in for a large number Seven hundred and six car orders received in one day is some bus \$550,000-and will probably stand, for some time, as one of the largest single winter day orders ever received by the Ford Motor Company.

Those new blue and white numer plates ar triumphs of artistic

## ENGLISH PAPER AFRAID TO GLASS WINDSCREENS

U. S. Postmaster. Approves of They Were Impressed by Some Warns British Motor Trade Not to Disregard American 1nvasion.

American machines. The two places that most impressed them were the factories of the Pierce-Arrow and the Ford. They said they thought the Pierce came nearest to the German idea of the wav an automobile should be built.

The machinery in the Ford factory particularly pleased them and they saw a lot of things they never had seen before. Some of them so impressed them so impressed them so impressed them they decided to adapt the visitors that they decided to adapt some of the machinery ideas for use the factories of the Pierce-Arrow and the were no to-morrow we might live out were included inclination can be given to either panel, and a visor effect obtainer by swinging the lower edge of the policy to waste less in riotous living now. ### Motor Bus Control IN HEAVY TRAFFIC

In commenting on a recent accident which occured in London when the driver of a motor-bus lost control of his machine and ran on to the sidewalk killing two people, one of the English motoring papers says: It is extremely difficult to recon-

oile some of the statements made in

evidence at the inquest on the vic-

tim of the Regent-street bus accident with the views and experiences of private motorists. The accident was alleged to have occurred because a slight collision between a front wheel of the bus and a private motor-car wrenched his steering-wheel out of the bus-driver's hands, and momentarily rendered the bus unmanageable. Un-less the steering mechanism of the bus was very materially different to any which is to be found on a standard motor-car, such a conte tion is unacceptable. It is possib to render a steering-tiller immun to all road shocks of this character, but in practice immunity is not aimed at because it would entail disadvantages and would not really improve the control of the Steering mechanism is, therefore, designedly constructed so as to be open in some degree to road-shock influence. But it is not designed to be open to such an extent as the evidence in question would lead one to assume. If it were true that the tiller of a motor-bus could be wrenched from the driver's hands hands by a collision so slight that the driver and passenger of the colliding vehicle were unaware of the fact, then the sooner all such motor-buses were withdrawn from our streets the better. It is quite understandable that in a large and heavy vehicle like a motor-bus, called upon to manoeuvre in narrow thorofares, a modification of the practical irreversibility of light motor-car steering might be advisable, but it is quite unnecessary so to modify it that it is a danger to the public, and in any event undestrable. Is it not high time that special board of trade inquiry into these matters were instituted in the interests of the public?

It looks as if we were going to get hose good roads. The great thing no to get busy and show the people results for their money.

## LONDON POLICE OBJECT

May Prohibit Their Use on Motor Taxicabs as Dangerous to Public.

the streets of this city, many practical motorists will agree that there are sorts and conditions of screens which ket here," we say. And so on. Our should not be permitted on taxicabs, trade is very nice and healthy just but that all screens should be denied now, do you see. We are plump and to the drivers would be a cruel mistake.

### The Radiator

formulae and a surfeit of inexperience, led to the use of radiators on many automobiles, which in after service proved to be a decided misfit. The conditions that must govern the wise engineer when he fixes upon the size of a radiator for a given motor may be set down briefly as follows: -

(a) The thermal efficiency of the moter must be known. (b) The amount of fuel that can be burned to carbonic acid and water is a factor.

(c) The stray heat units must be traced to their destination. Since the value of the fuel is measured in heat units and all of the energy so measured, if it is not turned into mechanical work, must be disposed of in such a way as not to cause trouble, it remains to find out how much of this energy falls to the lot or the radiator to handle and the difference in sensible temperature under which the heat must be disposed of. For every 100,000 heat units furnished by the fuel and burned to finality it is a good motor that will turn 16,000 of them into mechanical work. It is not a bad motor that sends 50,000 of these heat units into the cooling water, in which event the radiator must unload 50.000 heat units to the willing air as it glides over the surfaces in the interstices of the radiator. The early mis-takes in cooler practice followed the assumption that the thermal efficiency of all motors is substantially the same After events proved that there was wide divergence; moreover, there considerable opportunity for serious trouble, even if the thermal efficiency is, say, 16 per cent., which means that 84,000 mischief-making heat units must be watched and guarded against.

These very possibilities show ample reason for wanting to know more about it. If a radiator is designed for a

motor that only delivers 30,000 out o each 100,000 heat units to the cooling system and this radiator is transferred to a motor that permits 60,000 out of each 100,000 heat units to go to the water, the figures show that the radi-The reason why some motors deliver more of the stray heat to the water

jacket than is transferred in other examples is due to the difference in flame-swept surface influenced by other thermic relations. Restricting the internal surface of the combustion chamber of the motor reduces the path of transfer of heat units to the water jacket and vice versa.-Automobile.

The average motor-car is so generally harmed by the performances of a oad-stops were the features of every trip, accessibility, the frequently lackar-owner at rare intervals. Neverheless, the day-in-day-out reliability, which is so great a feature of modern motoring, only emphasizes the annoyance of a road-stop when it does arrive. Consequently, all-round accessibility should weigh very considerably in the election of a car. The assurance. which is sure to be forthcoming upon demur, that the inaccessible part never loes go wrong should be looked at skance, for it is the very worst reaarbureters is unpardonable, and yet was lately noted in the case of a leading German car that the business face of the magneto was set so close up to the dashboard that neither the contact-breaker nor the distributor could be got at without taking the instrument off its table and right out of the chassis. Both for the accessibility and quietude the magneto should now be set across the front of the engine

and quietude the magneto should now be set across the front of the engine and skew-gear driven.

Again, with carbureters, which, by reason of efficient filters, do not give so much trouble as of yore, these should always be kept above the level of the frame, with their several unions easily get-at-able. There are too many cars in existence to-day in which it is necessary to take down the undershield before the petrol-union can be unscrewed, and the carbureter detached from its fastenings, Again, the gasoline-filter, which requires occasional cleaning, is too often tucked away under the footboards or in some ed if these were set upon the steering-wheel, as in the case of the Rolls-Royce and the higher-powered Naplers.

### A MAXWELL TEST.

on a fair basis to determine their reladriv- ditions of service. The result of the test showed that the Maxwell automobile incurred a passenger mile cost of one and eighty-eight one-hundredths cents, while the cost of horse and buggs was two and four-tenths cents per pas-senger mile. These figures do not vary from the New York figures more than one-tenth of a cent per passenger mile in either case. They show that while the service was far different from that of the New York test the Maxwell au-Early practice, guided by synthetic ity as well as in its upkeep cost.

Heavy Immigration Expected. The large number of enquiries that have been received by the Grand Trunk Pacific during the late fall, and which are on the increase, indicate that there will be an extremely heavy immigration, especially of Americans, who will settle along the G.T.P. in the

coming spring.

be derived from their use. The question,

of the prices of the two years shows a reduction of less than two per cent. Clearly the downward rush of prices some folks have been looking for is not sweeping along so fast as to take any sweeping along so fast as to take anybody off his feet.

Another Side. But there is another side to this matter. Each and every maker without exception is raising the standard of his goods. In some instances the better quality is coupled with an interested price but in general the better goods are given to the public at the same price, and the public is looking for the quality. Few expenditures of some wonderful new invention and creased price, but in general the better money yield the pleasure or the profit that the automobile does, and on this account the buyer looks for the best

possible to turn out better goods.

₹ large and more magnificent cars at deoldedly higher prices. The average rises from slightly over \$2500 to nearly

five-hundred-dollar price of 1909 raised \$5000 in 1910 and to \$5750 for 1911. The Mercer representative car of 1910 sold for \$1950, but for 1911 two cars are listed at \$2150 and \$3250. Mitchell cars listed at \$2150 and \$3250. Mitchell cars for the preceding two years at \$1350 and \$2000 are this year listed at \$1200 and \$2450, the slight drop in the price of the cheaper car being more than made up by the raise in the price of the better car. Where the Ohio car the better car. Where the Ohio car of last year brought \$1850, the two leaders this coming year are priced at \$2150 tween the Cities of Richmond, Va., and tween the Cities of Richmond, Va., and of last year brought \$1850, the two leaders the Cities of Richmond, Va., and their respective fleids, taken from the membership of the society, have been membership of the society, have been and \$2450. The Pope-Hartford price Atlanta, Ga. The Virgin other car added at \$5000. The two leading Premier cars at \$2600 and \$3500 for the process of the price that Atlanta would fail belief the past two years are now priced at \$2500 and \$3500 and \$5000. The Stevens-Duryea line given at \$2750 to \$4000 two years ago now runs from \$2750 to \$5000. The Stevens-Duryea line given at \$2750 to \$4000 two years ago now runs from \$2750 to \$5000. The Stevens-Duryea line given at \$2750 to \$4000 two years ago now runs from \$2750 to \$5000. The Stevens-Duryea line given at \$2750 to \$4000 two years ago now runs from \$2750 to \$5000. The Stevens-Duryea line given at \$2750 to \$4000 two years ago now runs from \$2750 to \$5000. Many similar for truck was pressed into service and this truck carried the hat thru young and \$6000 cars, leaders for two years, are now represented by cars at \$3750 and \$7600. Many similar increases in price could be cited, but this is sufficient to show that quality commands the price better to-day than ever before. This is as: if should be the fifth district of Georgia; land of the fifth distr a few years ago.

There are many reasons for this in- ianta, and won the hat

Public Expectations of a Rapid Fall in Prices Have

Not Been Realized—Some

Have Gone up.

Many people, remembering the history of the bicycle, look forward to the day when automobiles can be bought for a fraction of their present prices and in the meantime are losing much pleasure and profit which could be derived from their use. The question.

much pleasure and profit which could be derived from their use. The question. "Will prices be appreciably lower" is therefore of much interest, and at no time is there better opportunity to answer this than at the great double shows which opened in Madison Square Garden on Jan. 7.

At the first real automobile show held in the Garden ten years ago there were many vehicles at prices around \$600, and it is certain that the average price was much below \$1000. In those days nobody believed that anybody would pay modern prices, an omater how capable and well finished the vehicle might be. But people bought and asked for better, and prices began to rise. In 1903 the average price was \$1133. In 1904 it had risen to \$1351, and by the next year to \$1609, and still further rise took place before the panic of 1907 checked the purchasing power of the people temporarily. Since the panic there has been some fall in the average price, partly due to better products are bywords in automobile circles the world over and represents the world with those of last year. This show includes nearly all of the older and better know makers whose products are hywords in automobile circles the world over and represents the world over the world ove

## FOR 1911 AUTOMOBILES Several Novel Shades Devised to out on the showroom floor and in the salesroom.

Catch the Eye of Critical Buyer

How Paint is Applied of Great Importance.

Publications devoted to the interests of automobile manufacturing and marketing have during the past few weeks been busy imparting information to their readers concerning changes in body construction, suspension, type, motors, propulsion and so on of the 1911 car. And while all these changes have been arranged for, the painters and finishers, whose work is, more than anything else, the visible thing which helps sell the car, have not been will find original and unlooked-for color creations, striping effects to move her into an ecstasy of fects to move her into an ecstasy of the move her into an ecstasy of fects to move her into an ecstasy of the law of her else the law of her imagination can conjure up.

The prospective buyer at the comins shows and elsewhere may expect, and look for, and essewhere may expect, and look for, and elsewhere may expect, and l

Square Garden Automobile Show this month she will find original and unlooked-for color creations, striping of fects to move her into an ecstasy of delight, and a finish sure to evoke her unstinted admiration.

For, verily, all these art matters have been provided for by the marker of the paint shop and the varnish room.

In the matter of colors it is true that the great range of pigments—sufficient, indeed, to confuse the mind of the layman—all, or chiefly, hadiate from a comparatively few members, such as, for example, green, bride, red, vellow, brown and grey. The shades and thus, and the modifications, made up from using the above as basic colors, are, fairly, as the sands of the sea. Every season brings its new crop of colors and the season of 1911, as the coming automobile exhibitions will show, is to be no exception to the rule.

New Colors.

For example, among many new colors to bid for popular, approval will show, is to be no exception to the rule.

New Colors.

For example, among many new colors to bid for popular, approval will show, is the colors are called so long as they have the tone, the brilliancy of effect, the capacity to elicit admiration. This last, in fact, is the real test of color value as it is tried.

## Some Straight Talk

## ON AUTOMOBILES AND GOOD ROADS

Oil has been satisfactorily used for cooling in motor cars, the grade employed being the common class of machinery oil purchased at 12 cents per gallon. There is no record of the heavy crude oil being used for this work.

The matter of the automobile has proved such an interproved such and it can be the several problems which must be solved at 12 cents per gallon. There is no record of the heavy crude oil being used for this work.

The matter of the automobile has proved such an interproved such and it is used in connection to harm the roads—that the wide tires really benefited them, and that the narrow tired wagons really did the harm that each year became more visible.

"Well, when the government began really to look into it they found the problems must be faced. It is useless finest.

Jefferson de Mont Thompson, ehe well-known American motorist, who has just returned from motoring abroad, takes up some of these problems in a recent article in a New York paper and puts them fairly and squarely before the public.

He says the new trouble in Europe He says the new trouble in Europe is due to the fact that the automobile associations have persistently failed to tell the government the truth about many things. The result has been that the authorities have investigated for themselves, and in strengthening the laws have acted in the belief that car owners would not co-operate with In one test it was found with a temperature drop of 12 degrees with oil the radiator gave a cooling effect of 700 cubic units, but when water was used only 70 per cent as much heating was radiated, in spite of the fact that the air circulation was increased. In sulted in 50 per cent more efficiency than water. This is due to the fact that the engine was operated at a

"In some cases the taxes are punitive, but mostly they have been levied to raise funds to rebuild the hopeless-ly ruined European roads that for centuries have been the pride of several

Margaret Anglin Not Coming.

Tho Margaret Anglin is not to be seen in Canada as early as was at "Seven Days" first announced, she, fully recovered from her illness, will appear at the Teck Theatre in Buffalo on Monday, Tuesday and Wednesday of this week in "Green Stockings," the new comedy by A. E. W. Mason and George Fleming, under the direction of Messrs. Liebler & Co, and in a role very dissimilar to those with which she has been associated in the past few years. Admirers of the best on the stage, cannot fail to congratulate themselves upon the accomplishment of Miss Anglin's venture into the domain of This lady has been so thoroidentified with, and successful in was the sensational hit among the tearful, transit and emotional roles, caused something of a sensation last year, and has only recently ended there is doubtless much curiosity a run of over 400 nights at the Astaas to the result of her new departure. That she will handle the character, she is to assume, with definess, delicacy and an artistic touch, goes without but the interest set afoot arises mainly from natural desire to see how easily she will divest herself from the trappings of stage-wee that have been

The story of the play is as follows:
Jimmie Wilson, an amateur artist, familiarly known as "Bubbles," has been
divorced from his wife, Bella, because
of his fatness. Jimmie depends for his
livelihood upon an allowance from a
maiden aunt—Selina Carruthers—who hers for so long.
The basic idea of the comedy is founded on the well-known and ancient custom in Ireland that compels unis unalterably opposed to divorce. At the opening of the play, Jim, who is entertaining a dinner party, gets word that Aunt Selina has returned from married daughters to wear green stock-ings at their sister's weddings. To Miss Anglin the authors have confided Miss Anglin the authors have confided the task of emancipating herself from the penalty three experiences of donning the stockings. The scenes of "Green Stockings" are aid in England.

Special railroad arrangements will be made by the management of the feck Theatre to enable parties to go the task of emancipating herself from ning the stockings.

The scenes of "Green Stockings" are laid in England. Teck Theatre to enable parties to go from Toronto, London, Hamilton and adjoining localities to see Miss Anglin

Grace George's New Play.

Grace George is not an accident of the stage. She has won her position as a leading American comedienne by persistent effort, close study and ob-servation, and by making the best use of her natural talents. Her new play, "Sauce for the Goose" is said to afford her brilliant opportunities for the display of her remarkable cleverness as

Grahame-White's machines and Ralph Johnstone. The de-monstration will be conducted by Aviator John W. Fleming. As an added attraction on the bill Manager Shea has secured Laddie Cliff, England's boy comedian. Daddie Cliff is an immense favorite with Sheagoers, and the young comedian is a character ar-tist of no mean ability and England's greatest dancer. This will be Lottie Williams' first appearance at Shea's greatest dancer. This will be Lottie Williams' first appearance at Shea's and she is assured a warm welcome from her many friends and admirers here for the dittle heroine of "Only a Shop Girl," "My Tom Boy Girl" and "The Little Madcap." Miss Williams has for her medium in vaudeville a one-act play by Edmund Day, called "On Stoney Ground." Miss Williams appears as Kitty, a waitress, in "The Fried Egg" and has a part worthy of her versatility. She is assisted by

the big laughing audiences who attend the Gayety Theatre this week to witness the perennial return of this well known aggregation of fun and beauty. As for the fun, it is said there will be no end of it. It will come fast; it will come furious. There is said to be forty distinct species of the fun with which Robie provides his attraction. Report has it that there is a good laugh for every second; and that the lover is buttesque has a hard time to keep up with the rapid succession of roars that is coming to him. There will be so many opportunities for bursting one's sides at the unroarious complications in the opening and closing buriesques, that the enthusiastic patron need not gather up the laughs in natural sequence, but just keep bounding along, new and then skipping a few, which his neighbor may take up—just touching the high places, and letting it so at that.

In short, it is said that the show will make you laugh from beginning to eard; and if it does this much it is the goods. But the guarantee of laughter is not the only inducement which the

is not the only inducement which the veteran manager, Louis Robie, holds out to draw in the coin; not by a long shot, for there are said to be a score of beauteous maidens who skip about, sing and make themselves and are given daily at popular prices. But the guarantee of laughter beauteous maidens who skip anout, sing, and make themselves endeared in a thousand delightful ways. Of particular note among the leaders are Beattis Evans, Zella DeMar, Lucille Harron and Violet Rio.

In the

\* CARRIAGES AT 10.45 P.M.

plause, calling the actors before the curtain. When the actor who played the part of the Abbe appeared, the addience rose en masse in their seats, and turning to the box matter. and turning to the box where Napol-eon sat, amid such cheers as only the emotional French can give, called out

"Give us back de l'Epec. Pardon the nephew for the uncle's sake!"

Napoleon was greatly moved by the when the curtain goes up.

An elaborate valdeville olio is not neglected; for besides those elever comics, Snitz Moore and John E. Cain, there is said to be a strong variety bill.

Napoleon was greatly moved by the play, and remembering the great serplay, and remembering the great serplay.

## The Character As Betrayed by the Hand

The hand is a great betrayer of

rosy, and there are little instruments

Palmists say that we carry the map of our life in our hands. That may or may not be, but it is true that we all have certain definite markings in the

"He has a typical surgeon's hand," a remark often heard, means that the fortunate man possesses strong, firm hands, with a light, cool touch, and capable-looking fingers. Both strength and delicacy are necessary that he may deftly perform operations.

Then, some trades alter, the forma character, especially as it is practically impossible to alter its shape or appearance.

Care and attention will whiten and beautify the hand and make the nails beautify the hand and make the nails

rosy, and there are little instruments for pinching the tips of the fingers until they are prettily pointed, but as a whole the shape of the hand remains unaltered and unalterable.

Peculiarities in a hand are strongly hereditary. Malformations, such, a thing as a tiny thumb, or an unusual number of fingers, crop up in a family again, and again, and I know of one family in which an extraordinary heart tiful and long-fingered hand appears at least once in each generation.

Sometimes the hands of the children are quite unlike those of the parents. In these cases it is usually found that their characteristics and subsequent careers are different, too. When the child has hands just like those of one parent he will be like that one in disposition, too.

About this hereditary of hands one About this hereditary of hands one

position, too.

About this hereditary of hands one very strange thing has been noticed. If a woman has married more than once, or even more than twice, and has had a child by her first husband, then in very many cases the children she has by the others resemble that then hands that seems all this likeness shows itself in the hands. Palmists say that we carry the map Palmists say that we carry the map Palmists say that we carry the map in the compositions.

Sermon by Bishop R. C. Evans

of the prodigal son is found in the 15th chapter of the gospel as recorded by St. your father the devil and the lusts of Luke, from the 11th to the 32nd verses, your father will you do." Now, I am Luke, from the 11th to the 32nd verses, inclusive. The story runs about like this: There was a man who had two sons. The younger son requested that the father give him the portion that belonged to him and this was done. He left home, went into a far country, tain reasons that may be ascertained to-night. There is another class who are the children of the children wasted his substance with riotous living and became stranded. He hired himself to one of the settlers there who sent him into the field to feed swine. He was so hungry that he was sorely tempted to partake of the husks that the swine did eat, and no man gave unto him. He came to himself, living of your father will you do." Now gave unto him. He came to himself, lusts of your father will you do." Now looking back into the dear, dead past, you know who your papa is by the life memory's hand presented to his view, you are living. There is no getting the old life at home with father and away from it. If you are ashained of the old life at home with lattier and the family. He made a contrast between his present condition and his former condition and concluded to go home, make confession and serve his father.

Away from it. If you are always to me it. The family just take your medicine or leave it. That is all there is to that. Does not the Bible clearly teach that in our natural condition as sinners we are aliens, foreigners, something the confession and serve his something the confession and serve hi

was killed, the festive hall was decorated, and music was ringing thru the halls. They had found the lost chord by his joining in the splendid family harmony, but the elder brother who harmony, but the elder brother who had approached, heard this music and the good time, and he began to sulk and pout. He became envious, he re-monstrated. The servant told him

and story until you are just about frightened to death to go out, and somebody under the scare comes up "looking for Jesus" to a penitent form or something of that kind and immediately he makes an effort to find Christ. The cry goes up, "Another prodigal has returned." Why, that man is not a prodigal! That man is going to a place he had never been before, and does not fit this story in any particular. While they make it appear that the prodigal son is represented by the man that is just contract the family of God is eventually to be gathered to Him. God being the father of the family and we who are born again His sons and daughters, while those who are not born again are foreigners and aliens and strangers from the commonwealth of Israel and without hope and without God in the world.

Now, how are we to be born again? I have remarked "by receiving Christ, by receiving His word." Well, what water got to do with it does that mean? Why, by receiving to make out the bapt for the remission of size. and story until you are just about because we are told that the resented by the man that is just converted to-night, the story shows clearand see whether I am right about it.

A certain man had two sons. Who

God is not the father of us all. That may seem strange to you, but I trust you have come here to learn and not only to be amused. When Jesus taught his own disciples to pray he said to there was another individual in existence that was the father of some folks. He is introduced to was the father of some folks. He is introduced to was the father of some folks. folks. He is introduced to us in John question: "How can a man

The subject under consideration to-night is "The Prodigal Son." The story of the prodigal son is found in the 15th of the prodigal son is found in the 15th Traveling backward in all the poverty-stricken conditions, while he was yet a great way off, his father met him and ran and kissed him. There was a great jubilee, the fatted calf was killed, the festive hall was decorated.

Power to Become Sons. Now, how do we become sons of God. How? The record tells us clearly and monstrated. The servant told him what was the occasion for the pleasure, and the glee, and the gladness, and the good time, and the party but he would have none of it. Finally, the father came out and pleaded with him and he and the father had quite a time; but the father justifying his position went on to show the elder brother that he had nothing to lose because of his faithfulness. He would be amply and fully rewarded, but that it was the faithfulness. He would be amply and to become the sons of God. By the fully rewarded, but that it was the father's good pleasure to take back to his loving arms the wandering boy. Interpretation.

to become the sons of God. By the full form and t Now this story has a pleasant and translated them from the kingdom of a happy side to it, and it has a sad one, darkness, the kingdom of Satan, into and to this story am I committed tonight, and I want to say—shall I say

And when He who has the right to draw the line of

by which we became sons of God, says, in the sixth of Romans, "Therefore we are buried with Christ by baptism into death and like as he rose from the dead so we rise to a newness of life. There is the doctrine of the new birth In a word it is called the new birth or born again or regenerated. Christ acknowledges it and we all should that anybody who has come into this world was born into this world. That is how we came. We became the natural sons and daughters of men by natural birth. But that does not bring us into the kingdom of God as sinners. Jesus teaches that we must be born again. A word to the wise is sufficient, and I do not need to talk too plain about this. But you follow the first birth and compare it with the second birth and you will discover how we became sens of our parents in this world and how we became sops of God in the kingdom of God under the second birth. We conceive the good seed the word of God, for the Bible declares that the word of God is the good seed. After this conception we receive evidence of life because it moves us to repentance. Upon that faith and repentance or the conception of the good seed and repen-tance we are then burded with Christ in baptism. dead and buried, dead to the world of sin. Here we receive pardon of sin. Now we are dead and buried. Then we emerge from the womb of water into the world anew

born of water. God as the Father. Now I will leave that part with you, efter showing that that is how we became sons of God, and these two men referred to in this story were

I want you here to see the strongest evidence of God's love for the boy that has gone astray. There are people in the church who, as soon as a young man or a young girl or a member of the church does something wrong, think they ought to get the officers at him and cut him off from the church "Let us excommunicate him. He is a disgrace to our society." Nonsense. He has a wrong idea that the church is just the place for the good people. The church is the place to bring the bad people and by precept and example throw about them the wonderful influence of goodness till it becomes contagious and they grow good and strong. That is the business of the church. God had not forgotten the boy tho the boy had tried to forget his father. He had tried to forget home, he had tried to shut his eyes to the past, but there was a golden nugget within, the nugget of divinity was still there, for once a son always son We are told sometimes that when the son does wrong God is prac-

born again. It is equivalent tically waiting to hurl him into the to saying, how can a man become a fires of a never-ending hell, to say to son of God? How can he be born a him "Damn you, take it, you deserve son of God and a joint heir with Jesus it," and some of them say he was made

The Welcome Home.

waiting to bid welcome home to the may be. If your reply to that question perience has grown seastck. He is is in opposition and in disagreement ready to throw out the lifeline to with that spoken of by the Jesus Him- help and to save and all the children in the house should be just like that. Well. we follow the story. What does I go to one large Christian denomination in this city and say: "How can a man be born again?" and the rep!y comes. "Oh, you must be born of water. That is, you must be baptized water. That is, you must be baptized of your and before thee and am no more by immesion, for the remission of your sins or you cannot be saved." And I say to him. "Well my friend, you say I must be born of water. Why do you exclude the birth of the Spirit" and the wind and before thee and am no more than and before the and am no more than the father go into a kind of theological discussion with him and talk to you exclude the birth of the Spirit" and the will answer "Oh box ther the blight kind of sin he could do that his father you exclude the birth of the Spirit" and he will answer "Oh brother, the birth of the Spirit! Why those people that talk about spiritual manifestations are under some hallucination, it is all a delusion and a snare. There is no such thing as spiritual baptism now. There never was but a couple of cases of that in all the world. We do not have that now."

Image: Aim about there being one particular about there being one particular and many about there being one particular about there being one particular and many about there being one particular and many about there being one particular and many about there being one particular about there being one particular and many about there being one particular about there being one particular and many about there being one particular and many about there being one particular and many about there being one particular and about there being one parti I go to another very large, respecthave that now."

I go to another very large, respectable, wealthy and numerous denomination and I say to them: "How can a man be born again?" "Ah, dear brother, the reply comes, "there is only one answer to that, you must be forn of the Spirit or you cannot enter into the kingdom of God." "Yes, but why do you omit the words of Jesus, "Except a man is born of water." "Oh, brother, oh, brother, you must have water on the condition of the Spirit or you cannot enter into the kingdom of God." "Yes, but why do you omit the words of Jesus, "Except a man is born of water." "Oh, brother, oh, brother, you must have water on the condition of the Spirit or you cannot enter into the kingdom of God." "Yes, but why do you omit the words of Jesus, "Except a man is born of water." "Oh, brother, oh, brother, you must have water on the condition of the Spirit or you cannot enter into the boy interjects, "Oh, father. I have simpled and am no more worthy to be called the son." Did the father on second thoughts say something about "Well, I guess you do deserve to be dammed and I guess I will give it to you good and plenty because you knew better and you would not take my advice. Serves you right, I guess I had better damn you straight. I know you are my son but I had better throw on the cross did.

His Loving Power. are my son but I had better throw you out." Did he say that? What you out." Did he say that? What was the second reply that he made to the son's plea? "Bring forth the ring phetical declaration be fulfilled. "Every and must it on his finear and shoes on

the son's plea? "Bring forth the ring and put it on his finger and shoes on his feet." To the servants he said. "Bring forth the fatted calf. let there be music and dancing, my son has come home." Oh, that sounds good, that sounds lovely.

God is Love.

Now back to the thought. When John the Revelator had thought about all that the old testament writers had written about God, and had tried to bring home to his mind, before the vision of his understanding all that Jesus had said about the love of God. Jesus had said about the love of God, when he tried to think of all he had heard and seen and looked for and he trok his own pen in his hand and wrote the great last message as we have it in the Bible, he just ran up against the stupendous character of God Almighty, and there dropped from his brain into his pen those wondrous words as he tried to describe God as be saw Him. "God is love," not hate, not spite. Some have tried to make me believe the one in the church who wanders away gets the worst of it and not so much love, grace and pity is thown him as one that never belonged to the family. Stop and think. Would church. what has with it. You the baptism is the baptism is a not so much love, grace and pity is shown him as one that never belonged to the family. Stop and think. Would you show more pity, grace and tenderness to one not of your family, than you would to your own child. That is not true at all, not true at all. Now the baptism is the clific of home and church bids you come. The church bids you come. The product is not true at all. Now that was done in the clific of home and church bids you come. The church bids were all the bids are the church tism is the boy with the best robe and the

Asa's good reign in Judah. 2 Chron. xv., 1-15.

Golden Text—Be ye strong therefore, and let not your hands be weak: for your work shall be rewarded. 2 Chron xv., 7

(1) Verses 1-2—What do you understand by the spirit of God coming upon Azariah, and do men have similar experiences to-day?

(2) Whose son was Asa and what was the character of his father?

(3) What victorious experience had Asa just had?

(4) What does it awail a man if he was converted and lived a noble life for many years if he is now living in sin?

(5) What is the unyielding condition if we would perpetuate the material or appritual success of the past or the present? (This question must be answered in writing by members of the club.)

(6) In view of the natural constitution of things, why is it impossible for God to give any man material or spiritual success who is living out of harmony with God and the conditions which bring success?

(7) Verse 3—What was the effect upon Israel when they did not worship the true God?

(8) What is the effect of true religion and education upon a nation?

(9) Verse 4—Is there any evidence that Israel, when living without God, was ever prosperous, or, when living true to God, in adverse circumstances?

(10) How often may a nation or any individual turn back to God after having forsaken Him?

(11) If the sole motive in turning to God is to be saved from our trouble, how will God receive us?

(12) Verses 5-6—What are always the results of living out of harmony with God?

(13) What are the conditions to be observed, if we would have inward and

(13) What are the conditions to be observed, if we would have inward and

(13) What are the conditions to be observed, if we would have inward and outward peace?

(14) Do physical or mental troubles give us most "vexations," and what would you say is the greatest agony a man can endure?

(15) Why is it right to say when a nation or an individual suffers as a result of wrongdoing that "God did vex them with adversity"?

(16) What is the reason that those who are wrong themselves generally delight in accusing others and trying to hurt or destroy them?

(17) Is it possible for a nation to be permanently prosperous which is untrue to God, i.e., to the moral laws that are found in the warp and woof of human nature?

(18) Verse 7—Is it possible for rightdoing to go unrewarded and how, and when, do the rewards generally come?

(19) Is rightdoing actually under our own control?

(20) Verses 8-10—Which is the greater incentive to rightdoing, the nobility or the profit of it?

(21) What are the rewards of doing right?

(22) Verses 13-15—Should the state compel people to be outwardly religious?

(24) Would you commend or condemn the sentiment in verses 13-15?

Sin. I. Kings xvi., 15-33.

A NEW LABOR LAW.

Declaring strikes and lockouts to be illegal and providing compulsory arbitration for all disputes are the means in coin, of which nearly \$105,000,000 set forth to solve the labor question in gold. The total coinage of s in a bill prepared by State Senator George W. Shaefer of Spokane, for inroduction at the coming legislature of the State of Washington. The penalty for inciting a strike or a

ockout is fixed at \$1000. The bill provides that any employe were coined on contract for Costa Rimay be fined \$50 for every day he is ca. on strike, while any employer causing a lockout becomes liable to a fine of \$10 a day for each employe thus de-prived of work, this in no instance to be less than \$100 a day in the aggre-gate. The arbitration board is to be composed of five members, two each to be selected by employer and employed, the four chosen to appoint the fifth. Any member accepting a gratuity from either side is liable to a fine of \$1000.

A Big Pile of Money.

The mints of the United States during 1910 sent out more than \$111,500,000 in gold. The total coinage of silver was comparatively insignificant, it being less than \$4,000,000. Three million dollars in pennies and five-cent pieces were coined. More than \$6,000,000 pieces were coined for the Philippine Islands and nearly a million pieces

A Mason Since 1846.

Oliver Hazzard Perry Gibson, 96 years of age, who died at Davenport, Wash., a few days ago, was the oldest northwestern country, if not on the continent. He was initiated at Fort Leavenworth, Kansas, early in 1846, just before entering the service of the United States in the war with Mexico.

### SUGGESTIVE QUESTIONS.

ON THE SUNDAY SCHOOL LESSON BY REV. DR. LINSCOTT FOR THE INTERNATIONAL PRESS BIBLE QUESTION CLUB. (Copyrighted 1910 by Rev. T. S. Linscott, D.D.) have read the Suggestive Questions on the Sunday School Lesson, by Rev. Dr. Linscott, in this issue of The Toronto Sunday World.

Date, Jan. 8, 1911.

### THE CONTEST.

.......

The most popular and the most practical plan for Bible study, togethe with a prize Bible contest, is running in The Sunday World.

In short, the Sunday School Lesson must be read each week for 52 weeks also the "Suggestive Questions," and the coupon should be cut out each week and signed, certifying that this has been done. Then any five of the questions that are indicated to be answered in writing must also be answered, and at the end of the term the coupons and written answers, duly signed with name and address, must be delivered to this office. The prizes will be awarded according to the number of coupons sent in, and the merits of the written answers. You can get all the help you want with the written ans-

Go in to win one of the solid-gold medals. If you complete the course, you will get a beautifully engraved Diploma. In three colors, in any event. Get all you can to join you in this course of Bible study.

Jeroboam Makes Idols for Israel to Worship. I Kings xii:25—xiii:6

Golden Text—Thou shalt not make unto thee any graven image. Ex. xx:4

(1.) Verse 25—Where were Shecham and Penuel situated?

(2.) Verses 26-27—Which tends more to promote faithfulness to God, adversity or prosperity? Give your reasons?

(3.) Is doubt of God more of the head or the heart and why?

(4.) What reason is there to believe that if Jeroboam had been true to God he would have rested in confidence that his kingdom could never be taken from him? (See Chap. xi:38.)

(5.) Was Jeroboam's doubt of his people caused by their unfaithfulness or by his own fear?

him? (See Chap. A.1.30.)

(5.) Was Jeroboam's doubt of his people caused by their unfaithfulness or by his own fear?

(6.) What is the general result of doubting those with whom we have to do in the matter of faithfulness to us? (This question must be answered in writing by members of the club.)

(7.) What would have been the probable result if Jeroboam had allowed the people to go up to Jerusalem to worship?

(8.) Verses 28-30—Did Jeroboam act wisely or wickedly in preventing the people from going up to Jerusalem to worship? Give your reasons.

(9.) If you had been Jeroboam what would you have decided about the people going up to Jerusalem?

(10.) If Jeroboam had provided for purely spiritual worship at Bethel, and Dan, what would then have been God's attitude concerning not letting the people go up to Jerusalem?

(11.) What was Jeroboam's real sin in this matter?

(12.) Verses 31-33—How much aid are pictures, paintings, or statuary of the saints, or high class music, to the spiritual worship of the unseen God?

(12.) What can you say for or against banquets, and similar functions in the church, when they are not held for money making?

(14.) What did Jeroboam mean the people to understand as to the significance of two golden calves?

(15.) Was such public worship as Jeroboam established accepted by God as worship, even if engaged in by some truly devout souls?

(16.) Verses 1-5—What constitutes a man of God?

(17.) What was the purpose of the visit of this man of God to Bethel?

(18.) What reason is there to believe that God always warns sinners before visiting their sins upon them?

(19.) How did Jeroboam receive the rebuke of the man of God?

(20.) Do calamities happen to sinners to-day outside of the natural results of their sins?

(21.) Who was the Josiah referred to in verse 2 and what did he after

their sins?
(21.) Who was the Josiah referred to in verse 2 and what did he after (22.) Verse 6-How often does God forgive sinners for their sins?

### AUTO SHOW FEATURES.

Automobiles as adapted for war purposes will be displayed at the automobile show.

The automobile exhibitors at the com. ing automobile show at the armories from February 25 to March 4 are making a special effort to exhibit cars futed up for military purposes. These will take a variety of forms. One of the most unique will be shown by a local firm, who are securing two cars now in use by the United States gov-

ernment, which will be brought to Tor-onto in bond for the show.

These cars popularly called balloon destroyers, are termed gun carriages, each car mounts a colt repeating gun-They have been thru several army manoeuvres and have seen much hard service. The chasses are demit-tonneau with special bodies carrying four passengers, the rear seat being modeled after a gun carriage seat and the colt guns as described are mounted in front over the shrouds.

It is expected that the automobile

show will have an important bearing on future military equipment in Can-

Massage, electricity, Swedish move-ments and facial massage. Patients treated at their residence if desired. Miss Howells, 482 Jarvis-street. Telephone North 3745.

If you sufter from piles, fistulas or any disease of the lower bowel and want to be successfully treated with Mrs. Fred Boswell, formerly a resident of the capital, and who for several years past has been living in the northwest, has returned to Ottawa to take up her residence.

Weekenzie King, who has been to be successfully treated with little or no pain or detention from business, apply to The Toronto Rectal Institute, 21 Wellesley-street, Toronto. Trained nurse in attendance. Write for booklet.

WEDDED IN WATERLOO.

On Wednesday evening Mrs. R. J. versary of Liszt's birth the recital will be devoted almost entirely to the works of this remarkable genius, and among them will be his wonderful sonata in B minor. There is no doubt but what this will be one of the society and musical events of the year.

On Wednesday evening Mrs. R. J. Copeland of Walmer-road gave a very jolly informal musicale in honor of a pendant of pearls and amythests, and her sister, Miss Gehl of New York, who is her guest for some time, and will this occasion worn for the ninth time. also be the raison detre of Mis. Copeland's dance on Monday week. The house was beautifully decorated with palms and flowers and buffet supper was served from a table done with pale pink carnations. An enjoyable program was given by Miss Wilcox, Mr. Paul Hahn and Miss Gehl, the latter whe has a beautiful voice, giving Mr. Paul Hahn and Miss Gehl, the latter, who has a beautiful voice, giving among other numbers, "Charman Olseau," "The Valse Song," from "Romeo et Juliet," "Die Nachtigall." Brahms; a song by Mr. Hahn. and Liza Lehmann's "Cuckoo." ## Artistic and Practical HOWOTHERS HAVE BUILT

FRANKLIN & BELFRY

The home of Mr. Horace T. Hunfer on Balmoral-avenue is one of the most pleasing little houses that we have had the pleasure of visiting. Bright and cheerful in its appearance and a picture of comfort and cosiness with a much larger layout than the front would indicate. We might say that it was designed with strong colonial lines, but its roof would almost suggest the bungalow. The color scheme which is the attractive feature is made up with red brick, green shingles and white woodwork, encircled with gables of buff tinted stucco framed with a brown timbered work.

Theinterior is handsomely decorated with several unusual combinations in color. One of the most striking is the wide hallway treated in green with white enamelled woodwork including the ceiling beams. There is a decided indication of cheerfulness in the reception and living rooms with the bay windows projecting to the south and admitting every ray of sunshine. The former has walls and ceiling of stucco tinted in a very pale green and trimmed with white woodwork and mantel. The latter is finished in

WINTER SCENE IN NEW ZEALAND

FIRST ACTRESS TO RIDE IN AN

FIRST ACTRESS TO RIDE IN AN AEROPLANE.

It is not an uncommon occurrence for a member of the theatrical profession to go up in the air—figuratively—but Miss Eleanor Woodruff is the first daughter of Thespis who has performed the feat literally. On June 30, at Mineola, Long Island, she made a flight of several miles in the famous "Red Devil." piloted by Captain Thos. S. Baldwin, the veteran aeronaut, whose marvellous feats startled the good people of St. Louis last October. Miss Woodruff is the Beverly Calhoun in George Barr McCutcheon's "Beverly," this week's attraction at the Grand. A reporter recently paid his respects to the first actress to emulate the late Darius Green, and found a young lady with a wealth of dark hair, a willowy figure, and a countenance that might belong to Maxine Elliott's little sister.

"Why did I go a-flying?" said Miss Woodruff. "Oh—a woman's reason—just because. No. It wasn't that either. You see I spent the past summer at Far Rockaway, close to Mineola, where the aviation field is located, so I went over every day to watch the filers, and there became inoculated with the 'flying bug.' It's a new disease in this country, but it is spreading with wonderful rapidity. Compared to aerophaning, motor boating is stale and flat, and automobiling is bean-bag, so I made up my mind to have at least one vide in the air even if people did come around, next, morning and say, 'Don't she look natural?' The three experts at Mineola were Harmon. Hamilton and Baldwin. Harmon and Hamilton were rather crusty, but Captain Baldwin is an old dear, so I pestered the life out of him until finally he consented to give me a short ride. He hemmed and hawed, and said that "Why did I go a-flying?" said Miss

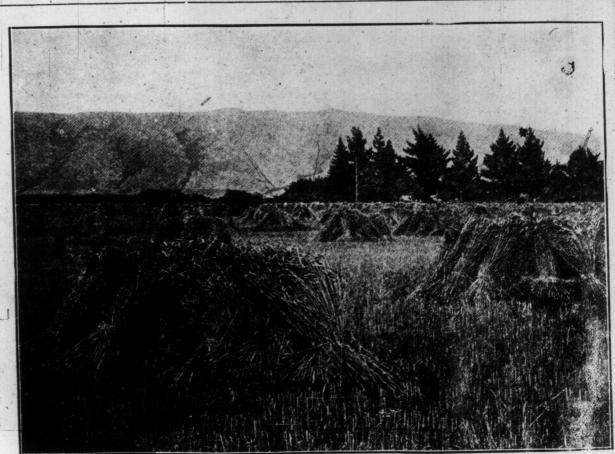

there was liable to be actress spattered million times with nothing between all over Hempstead plain, but I told you and eternity but a few frail sticks all over Hempstead plain, but I told him that it didn't make any difference anyhow, because my folks predicted a bad end for me when I went on the stage, and if I fell a mile or two from an aeroplane it would show they were first-class prophets. Well, I got my ride one morning, and the sensation is something like being tied to the stick of a sky-rocket. You perch on a frail little seat, hang on for dear life to a bamboo pole, and the motor commences to explode as the a dozen Fourth of July's were being celebrated at once. Then the machine gallops over the ground like an insane grasshopper, the propeller whirls around about a million times with nothing between you and eternity but a few frail sticks and pieces of canvas. The wind cuts like a knife, and the landscape is simply a disreputable checkerboard. People said we flew three miles—I don't know—it seemed a few seconds until we were back on mother earth again. But this much I do know—for the rest of my life I can sit on a rock like Gilbert's sailor, and 'creak my only joke, which is to say,' that Mary Anderson may have played Parthenia better than I can, or Adelaide Neilson may have been an incomparable Juliet, but Eleanor Woodruff is the first and only actress to ride in an aeroplane."

Peter Cadogan with his servant, Terry Creagh, aboard the schooner Colleen, are making for New Orleans to pick up Lomax prior to a cruise in the Caribbean Sea. Cadogan sees, haif a mile astern, a dory, to which they row, and find Jane Todd, unconscious from exposure. Upon her resuscitation Cadogan explains that he heard cries for help. She replies that she did not call. They sail for Cedar Island, the lighthouse on which is tended by Jane's father. They run thru a gale, during which Jane rescues both men and sails the schooner safely into the harbor, where they are met by Willing, the assistant

At the other end of the island mysterious lights in a deserted and, according to Willing, haunted house arouse Cadogan's curiosity, and he makes a midnight excursion there. From a sign he learns that Francois Lestrange, a New Orleans lawyer, is the real estate agent. He is knocked down by an uncanny creature, and does not come to his full sense until he finds himself, the next morning, on board the Colleen, in a bayou of the Delta, the Colleen's cable having been mys-teriously cut in the night. Reaching New Orleans Cadogan, yielding to a temporary impulse and with his head full of buried treasure, buys A suspicious character named Cochrane bids against him, but, the assistance of Lestrange, Cado-

### Continued From Last Sunday

"Three thousand!" Cochrane's voice. "And lone hundred!" nodded Cadogan, calmly.

"Five thousand," Cochrane ca back, briskly.

"Fifty-one hundred!" Cadogan stuck to his guns.

There fell a little hush, while a se-cond time Cochrane turned in his chair to survey the rash young man who dared contend against him. Then, while the auctioneer hung in stupe-faction, blowing for breath like a fish out of water-"I bid ten thousand dollars," an-

nounced Cochrane, deliberately.
Cadogan flushed and felt his cheeks burn. A little lump rose in his throat, and when he choked it down his mouth felt dry and hot. Ten thousand dollars. Going, go-

glare. The auctioneer moistened his cross the room. lips before speaking directly to the one bidder whom he knew personally. of his pose, small Hethrington had apparently lost all inpalm of his other palm of his other cross the room. "Mr. Cochrane, this gentleman bids

fifteen thousand dollars."

"And I top it by five thousand."

Cochrane settled back with an air that assumed a final settlement of the

"Twenty thousand dollars for the "Twenty-five!" the words came auto-

matically from Cadogan's mouth.
"Thirty thousand!" Cochrane's disassionate accents cut thru his ab-

And yet—dared he go higher? Lomax
would stand by him. of course. The
reasons for and against arrayed them-

reasons for and against arrayed themselves in opposing ranks in Cadogan's mind. He hesitated and hung irresolute. Should he or should he not?

Cochrane signed impatiently to the auctioneer. And as he did so Cadogan retorted.

"Too late. After banking hours." Cochrane sneered. "Barl, this man's community to the room without being aware of the fact. was arrested by a familiar face—a golden-yellow mask of kindly mien. In which two coal-black eyes gleamed and smiled with approval and amusement.

ment.

It was Lestrange. How long he had been there. Cadogan had no means of knowing, but until that second he had not ever surmised the attorney's presence. Their eyes met in the breathless pause that preceded the auctioneer's next words, and the little Creole attorney nodded ever so slightly, as the Cadogan had sought his counsel and he hade him go ahead without and he bade him go ahead without

was the same Lestrange who

"Thirty-five thousand dollars!" cried Cadogan. Cochrane seemed a little over-

whelmed but he recovered before the auctioneer could take up Cadogan's

man on the rostrum. "as you probably understand, I am not bidding for myself. My principal mentioned thirty thousand as an outside price. But I've no doubt if you'll grant me 10 min-Instantly Cadogan was on his feet

ousand dollars. Going, goousand dollars. Going, gothousand!" cried Cadogan,
thousand!" cried Cadogan,
y.

That is not permissible, and I won't stand for it," he announced, with determination. "If Mr. Cochrane desires to bid higher on his own behalf, he has that privilege, Otherwise I delivered to be has that privilege. Otherwise I delivered to be has that privilege. Otherwise I delivered to be has that privilege. Otherwise I delivered to be a showed still more away. In the back of the room a man gig-gled nervously, and another swore from the same cause. nued to eye Cadogan with a deathly are," Hethrington approved from a-

"That's it!". Cochrane, surprised ou one bidder whom he knew personally of his pose, smacked his fist into the palm of his other hand. "Who is he? Hethrington had apparently lost all interest in the game beyond that of an onlooker. How d'you know, Earl, that he can make good? You know me, you know

"Where did you get it, Cochrane?" ocked a voice from the throng of

The man whirled round in a passion.
"Who said that? I'll"—He pulled inself together with a visible effort.
"Thirty-five thousand dollars!" shouted Cadogan to the astounded auction-

"I'm afraid you don't understand-penhaps," the man replied, pitching his voice to carry to Cadogan's eare above the din. "The rules require that 20 per cent. of the purchace price be deposited in cash to bind the deal. Are you prepared".

"I'll pay the whole amount by check on the City Bank of New Orleans," Cadogan retorted.

If that did not serve, he was done but his blood was not and his judgment clouded for the nonce.

"Have you the 20 per cent. of thirty thousand to deposit?"

"My checks are known to be good, ir! Earl, go on with the sale. Thirsir! Earl, go on ty thousand"-

"Going to Mr. Cochrane at"-The hammer was poised perilously. "One moment!"

A new voice anounced the interject tion of a new personality into the orisis of the affair. The auctioneer paused with hammer on the point of descent

"The law provides," continued the "The law provides," continued the clear, metallic voice, with its fascinating Creole accent, and Cadogan jumped as he recognized Lestrange as the speaker, "that 20 per centum of the purchase price be deposited in cash. That is right, Mr. Earl?"

room, roaring with rage. "Shut up and sit down, you old fossil," he stormed at Lestrange, singling him out with

of Lestrange. "This gentleman, Mr. Cadogan," pur-

sued the attorney, "is known to me.
I will vouch for him."

"It won't do!" shricked Cochrane.
"That won't go!"

But with the echo of the bollow

"And, furthermore"—the delicate yellow porcelain hand pleaded for a hearing—'I happen to have with me a certified check for ten thousand dollars." As he spoke Lestrange drew a wallet from his inner breast pocket and from the wallet a slip of paper. "I will deposit this to Mr. Cadogan's credit with you, Mr. Earl, and take his check in exchange. A certified check is as good as cash. I believe."
"Certainly, Mr. Lestrange, That ar-

"Certainly, Mr. Lestrange. That ar-

a bow for Cadogan.

"Then the matter is settled, I believe." he said, with twitching lips.

"Thank you," stammered Cadogan.
Cochrane, silenced, stood for an instant in a tremor of black passion; then, with a gesture of surrender, he

then, with a gesture of surrender, he swung about for the door. As he passed Cadogan he haited stiffly and looked the young man over from head to

heel.

"Eh, Mr. Cadogan. I believe?" he snaried, vainly attempting to dow the young man with his lightless and hateful eyes. "I shall know you again." Cadogan smiled and deliberately revolved upon his heel, to permit the man's scrutiny to be complete. When he faced about again Cochrane was gone and Fari's voice was announcing the conclusion of the deal.

"Are there any more bide? Going at thirty-five thousand dollars! Going!

The hammer fell.

The hammer fell.
"The Cedar Island estate is sold to
Mr. Cadogan for thirty-five thousand

CHAPTER VIII. "Cadogan's Folly."

The island had been the last plece of property on the auctioneer's dock-et; its sale terminated the business of the afternoon. Yet the audience lin-gered in a body, discussing the episode of which it had just been a witness, and a hum of rumor, bandied from mouth to mouth, filled the room with a sound like the buzzing of a swarm of

rostrum, indorsing his certified check to Earl's order. Cadogan stood aside trying not to look conscious, trying hard not to betray the vexation in his heart. For he was little pleased with

the outcome.

Once started in the path of folly, his excitement in the bidding, his joy in battle, and the pleasure he felt in triumphing under the opposition had triumphing under the opposition had carried him along. For the time, nothing had seemed more plausible than that there was really treasure buried on Cedar Island, and that he was out-

blow dealt by Earl's gavel on the table came reaction. The fever cooled in his veins and his judgment cleared; of a sudden he understood that he had just pledged himself irrevocably to the pur-chase of a few worthless acres of sand and forest, ornamented with an abandoned and probably dilapidated and uninhabitable mansion, at the price of seven-eights of his fortune.

It was true that Lomax would stand by him; true that his business was in a flourishing state and that his income did not necessarily diminish in proportion with the inroad made upon his capital; true, also, that he was young and strong and of good-will toward his work—able to make more money. But from these considerations he derived little comfort. When all was said and done, the fact remained that he had played the fool. And the knowledge of that is the bitterest oup that youth can drink.

He stood to one side, as said, battling with these regrets, and presently a man crossed the room to his side. He looked up with a frown to see that it was Hetherington, evidently intending to address him.

"Mr. Cadogan," said the business man, "may I have a word with you?" "Yes"-wondering what was coming next-"as many as you please." "I fanted to ask a question which may seem like an impertinence. If it does, don't answer it."

Hethrington paused. Cadogan nodd-

"Why were you so hot to get that is-land? Of course, you must know that its actual value isn't one-tenth"— "If it comes to that, Mr. Hethring-ton, why were you so interested in the beginning?"
"Oh. I?" The man laughed. "To be

frank with you, I only wanted to nag Cochrane. The fellow's a scamp, and we've an unsettled score between us. I seldom miss an opportunity to make things unpleasant for him."

things unpleasant for him."
"Was that your sole reason?"
Upon my word—absolutely."
The accent of honesty in his tone rang true. Cadogan no longer doubted, and he drew a face long with disappointment and did not trouble to dis-

"It is." agreed Cadogan, dryly.

The fact that Cochrane, representing syndicate that was willing to spend 30,000 to acquire title to Cedar Island, and made so stiff a fight for it re-"I think," said he, in the face

Hethrington's persistence, "that if you fathom the purpose of Mr. Cochrane you will know mine, Mr. Hethrington.

The man stared, smiled and offered a "Quite right you are," he agreed.
"It's none of my business, as I said at the start off. If there's a profit in

it, I'm glad you're to have it instead of Cochrane. Goodbye, and good luck

"Now, Mr. Cadogan, sir, if you'll just sigh here, and here, and here," he said, cheerfully, indicating the spaces with

Cadegan nodded glumly, and sat down and affixed his signature. Then, drawing blank checks from his pocket, he proceeded to fill one out to the order of Dominique Francois Lestrange for \$10,000 and another for \$25,000 to the

"These will be cashed without question," he commented, carelessly, "If they are presented the first thing to-norrow morning. Any further details may be transacted with Mr. Lestrange, if he will honor me by acting in my behalf during my absence."

Lestrange bobbed and beamed; he would be charmed. And so the matter was settled. Cadogan and Lestrange left the rooms in company, and on the way had the pleasure of hearing the younger man pictured in unflattering his than I. but even I, m'sleu', I alk terms by a dispassionate curbstone you to believe, went to this sale to-

Toronto Suffrage Association, with the co-operation of other clubs, have decided to bring Sylvia Pank-hurst to Toronto.

This engagement should have the This engagement should have the hearty support of every suffragist, since the woman's movement owes so much to the whole Pankhurst family.

## Advantages of Simple Life

Much has been said about the simple

life to recommend it. A simple life is beautiful. The constant vexations, vanities, jealousies, in every society, in the upper, middle or lower classes, all act upon the character, and as we grow older more and more injuriously. The face reflects it all until even the very features change. The woman who allows herself to speak badly of others, who thru envy or any other reason tries to injure another, loses each time she does so some soft-

ness and youthful contour.
Change is one of the laws of nature not we change for better, not worse? form, alcohol and cologne. A halfThere are in our midst intelligent men pint of deodonized benzine, a half a and women; from and thru them let us find the way to be healthy and good, and we will also be beautiful. Plain, wholesome food, exercises that will not produce great hard muscles, but will keep our bodies lithe and active, soft and rounded; a sensible treatment for our faces and bodies. No make-up has ever been known to hide lines drawn by ill-health, and certainly no make-up can hide the hard lines on the brow and corners of the mouth. If the lines are there let us get rid of them by produce great hard muscles, but will are there let us get rid of them by cultivating a cheerful, kindly nature and with ordinary care we can keep

and with ordinary care we can keep them at bay forever.

Every morning from 10 to to 15 minutes should be spent at physical exercises. Every afternoon walking, riding, golf or tennis in moderation. For those who have to work, 15 minutes every day in exercises, and, if possible, a walk every evening. Dancing also in moderation is good. Regular meals—slow mastication—neither meat or all vegetables, a little of both.

The oil-producing or sebaceous glands are in all parts of the skin, with the exception of the soles and palms, and are especially abundant in the face. They secrete a greasy substance for the purpose of lubricating the skin and keeping it soft and pliable. The oil glands prevent injurious friction, and

glands prevent injurious friction, and the oily secretions protect the body and skin. When this oil is exhausted the

lines will truly begin.
Soap frequently is not good for the face, for alkali tends to irritate and silica, so often used, is also very bad. For the body, soap is necessary and only the best should be used. The study of the eyes is most in-teresting and we all value the youthful

Continued from Preceding Page. figure enfolded in a transparent with the head thrown back-

Then there is a pure creation of line to give a sense of ascension. It is related to the motive like a gothic arch meeting at a point. The more material part gets softer and softer until it almost disappears in softness and tenderness. "Rhapsody" will be extinguished in this year's salon.

## In the statue of "Sorrow" a woman in despair is looking at the difficulties about her, and sees no way out. She is like a beast at bay. To appreciate the work one must take into and fat, it has membranes and muscles. The fat is said to be all important as it protects it. The eyelid is elastic and has delicate tissues and muscles; there is no fat in the lids, but the muscles have to be kept alive and the nerves stimulated, hence the necessity for gentle manipulation of the lids.

WAYS OF REMOVING STAINS

Ø/

Fur Mats and Fancy Dress." Bewitching New Millinery and

Costumes for "Undine" and "The Butterfly" Charming Enough to Be Worn in Fairy Land

By Lady Duff-Gordon ("Lucile")

T is high time, I think, that we had a little talk together about the most modish millinery, seeing that we have not discussed this subject for some time, and that headgear is not only of exceeding imortance of the scheme of attire, but also a much more frequent purchase than, perhaps, any other item

One charming new hat of which I am sending you a photograph, brings into such prominence a band of ermine that it is desirable and, indeed, essential for the wearer of this very pretty thing to further provide herself with an ermine scarf or muff, possessions, by the way, which I consider under any circumstancer to be a really good investment, as they can be put to equally admirable use with both daytime and evening toilettes.

The further fact that there is no chance of soiling or marking the neck is also responsible for much of the favor which is being shown to this lovely fur at a time when dresses are in almost every case deprived of nec bands.

And now to trim this particular and pictured hat which, in so far as its description is concerned, is at present left in a somewhat severe simplicity of black velvet. That doubly looped bow which is set against the upward curve of the brim at the left side is formed of tailless ermine, though the denuded additions do figure eventually as a bordering fringe for the sides. And then, fastened behind this snowy bow, there is an ostrich feather in subtly blended shadings of brown and beige, and gray and black, its darkest tones being brought into close and therefore most effective contrast with the ermine, while then it gradually lightens in shade as it sweeps around the back and curves up close against the right side of the hat so that the absence there of any other trimming is more than made up for.

Still simpler—because destined for travelling or morning wearbut also very smart, is a tricorn hat whose brim of brown beaver felt is sharply upturned against a soft crown of white kid, a cockade of white satin and kid, circled with brown, being affixed rather toward one side in front. One or the other of these hats should have many uses for most women during the next few months.

Many more elaborate schemes there are in, for example, white cloth, black satin and skunk fur, with an upstanding and uncurled white ostrich feather at one side, or again in black velvet, sable fur and silver lace, with a white aigrette for a finishing touch But perhaps most bewitching of all-for quite youthful wearers, at any rate—are quaint and closely fitting capotes of black velvet with an under piece of filmy lace, and for sole outward adornment an encircling trail or big side bouquet of flowers formed of softly shaded and closely folded satin.

Next, 1 must really tell you of wearing just now. For one, then, imagine, please, a trelliswork of little cut jet beads and bugles, which

"adents." troduced. Finally, a bordering fringe of jet is added, this falling onto the sheath-like robe of white matin, which then is left absolutely

ADY DUFF-GORDON, the famous "Lucile" of London, and foremost creator of fashions in the world, writes each week the fashion article for this newspaper, illustrating it with sketches and photographs of her own original models.

skin, and where it comes into outward evidence—in the centre of the corsage and skirt—be further softened by a veiling of equally deli-cately toned chiffon.

Some gorgeous color effects can One of the Bewitching be secured in this dress, in which I should like to see emerald green combined with blue and purple and cerise, these shades being repeated in the silk broidered outlines of those butterflies whose wings are outspread on the corsage and curv-

ed, too, about the knees.
"Undine," on the other hand, is
just garbed in softly hanging draperies of dull green chiffon, veiling a brighter green, this, in its turn, be-ing underlined with still other shadings of blue and green and amber All the soft folds are held together at one side by a band of water lilies. and just a shimmering line of silver follows their curves here and there, while hanging from one bare shoulder, and just held in position by a bupch of water lilies and some river reeds, is a scarf of blue-green

Bonnets Made by "Lucile" This Season

"Lucile's" Delightful Idea of "Undine's" Ethereal Attire.

The Fun the American College Girl Has

HE bright American girl had spent some months in Munich, some in Paris, and she had left her ship in Marseilles so that she might run through a great part of Italy, paying a flying visit here and there.

She took singing lessons in Milan, she painted in Florence, in Munich and in Paris, and now, in London, she spends her days in the National Gallery She touches a blue flower she invariably wears with caressing fingers, and when you ask her what it means she replies with a meditative smile:

"It's my college flower. Every American faculty has its own special flower, and the girls often wear them when they are travelling far away from home. We have lots of clubs in connection with our college life, and we have a very good time We are very well housed, for we usually live in villas situated round parks, and

with big gardens.
"We like to be elegant, and we have pictures and flowers in our common rooms. The college drawing rooms are often very pretty, because so much trouble is taken in furnishing them and in keeping them nice My rooms vere all done in gray and white ! like those colors, and ! had violet cushions with the arms of the col-

lege done on them in gold.
'My father well off? Oh, yes. quite well; but that does not matter so very much American college girls dress much better than any of the students I have seen since I came to London I fancy we have a higher standard of liv-

ing altogether Perhaps it is accounted for by the act that so many girls add to their incomes by teaching or coaching or by writing.
"We are merry people, and have

lots of concerts, dances, and other entertainments during the term. What we love is the parties we make up for visits to the cities and the trips on the rivers, into the mountains, and so on It is quite common for whole parties of girls to start off with one or two older

ladies for a trip even to Europe. "We plan all our expeditions be-forehand, and we know exactly what we want to see and where we want to go When my aunt and uncle came to London for the Lest time in their lives uncle was amazed at the way his wife ordered him here and there. She told him whit tickets to get and what seats to choose in restaurants, and when weer evening clothes and when to

put on a dinner jacket.
"Molly. my dear, asked Uncle Jim, rather puzzied at her knowledge, where did you learn all that?
"From reading the ublic newspapers for years since was at college, she answered, 'more particu-larly the legies' papers.'

". liked the evening expeditions as well as anything," she added; "if we were not dancing or singing we were out in the open playing games. I can row a boat with any-body, and though I have not had a hockey club in my hand since I got to Europe, I certainly could hold up my side with anybody One does not forget these things.

"Yes, we are very independent, but then we are all placed on our mettle because our student unions have rather strict rules I was on suppose I have the rules firmly planted in my memory Yes, I love to meet girls from my old college, and we have lots of dinners, luncheons, and other festivities when groups of us come across each other in different parts of the world, as we often do. the committee of mine, and so I

### An Effective Blending of Fur, Feathers and Velvet.

untrimmed till, just below the knees, it gives place to a broad bordering of black velvet. And this is the material chosen as background for a trimming which is distinctly daring, as well as decorative, for a rope of roses, whose silken petals show a dozen different shades of pink, is caught high up on one side of this velvet band and then allowed to hang so far down at the that the beautiful blossoms actually trail on the floor before being caught up again towards the

Distinctively effective in quite a different way is a gown of emerald green charmeuse, whose veiling drap-eries of chiffon match exactly in tone the :kunk fur which is doubly banded about the tunic hem, its up-ward lines eventually disappearing under the straightly hanging scarflike folds at the back. A very broad band of heavy dull gold broidery clasps the figure just beneath the bust, and other bands shimmer out beneath the chiffon, whose transparent folds are drawn over the shoulders. A barbaric looking ornament of dead gold is worn low down on the forehead, and from it there uprear two tall and tapering aigrettes in the gorgeous emerald shad-

The lace forms a short sleeve for the left arm, while the right is simply crossed on the shoulder by a band of ermine, which then, widening as it goes, is wrapped round the figure in almost scarf-like fashthough it is, of course, finally and firmly attached to the tunic overskirt of black mousseline, there to make a most telling division be tween its filmy blackness and the ivory whiteness of the Bruges lace underskirt. An aigrette in blended black and white is worn with the gown, its somewhat less assertive position being at the left side of the coiffure, though either this or the aforementioned emerald green adornment would be almost equally disastrous to the peace of mind and the bodily comfort of the wearer's

chine or charmeuse, which must cling to the figure like a second

near neighbors at theatre or opera And now, because I am sure you have some fancy dress balls in pleasant prospect, I am sending you sketches and suggestions for two costumes with which, I think, you can be sure of scuring a success Neither should be difficult to carry out though, in the case of the "Butterfly" dress, a good deal will, of course, depend upon the cut of the underdress of flesh pink crepe de

### Alone in a Library

Is there anything so delicious as the first exploration of a great library—alone—unwatched? You shut the heavy door behind you showly, reverently, lest a noise should jar on the sleepers of the shelves. For as the Seven Sleepers of Ephesus were dead and yet alive, so are the souls of the authors in the care of their and-ent leathern binding. You walk gently round the walls, pausing here to read a title, there to draw out a tome and support it for a passing glance—half in your arms, half against the shelf. The passing glance lengthens till the weight becomes too great, and with a sigh you replace it, and move again, peering up at those titles which are foreshortened from the elevation of the she'r, and so roam from folio to octavo from octave to quarte, till at last, finding a little work whose value, were it in the mart, would be more than its weight in gold, you bear it to the low leather covered arm-chair and enjoy it at your ease. But to sip the full pleasure of a library you must be alone, and you must take the books yourself from the shelves. A man to read must read alone. He may make extracts, he may work at books in company; but to read, to absorb, he must be solitary.—Richard Jefferies.

### With the Gossips

In "The World of Homer" recently published, Andrew Lang champions the cause of Home and endeavors to prove that Homer was a real personage. Tolstoi's books. In 1891-Tolstoi stipu-

ANNE WARNER FRENCH. Author of "Just Between Ourselves:" mounted."

## The Ladies' Aid Meeting

As Reported by Pearlie Watson, in Mrs. McClung's New Story, "The Second Chance."

The Ladies' Ald met at the home of Mrs. Ducker. There were seven pres-ent when it started; but more came. ent when it started, but have my they Mrs. Burrell doesn't know why they can't come in time. She told them so. Mrs. Bates said, Lands sakes, she had Mrs. Bates said, Lands sating there at a hard enough time getting there at all. She left a big bag of stockings all in holes. Mrs. Forrest says its been so hot the holes are the most comfortable part of the stockings, and if she was in Mrs. Bates' place she'd let the girls go barefoot. Mrs. Bates 1s going to let Middred go, but she can't let Blanche—she's so lanky—she'd look all legs, like a sand-hill crane. Mrs. Burrell says, Let's open the meeting by singing, "How Firm a Foundation" but Mrs. Ducker says, Oh, don't take that, its in sharps; take "Nearer, Still Nearer"—it's in flats, and Maudele can handle the flats better. Then they sang, and Mrs Burrell and Mrs. Ducker prayed. Mrs. Ducker prayed longest, but Mrs. Burrell prayed loudest und for most things. Mrs. Bates read the last report, and they said it was better than usual, she'd only left out one or two things. Then they collected the money. Nearly every one paid, only Mrs. Burrell couldn't find hers, she was sure she had it in her glove when she came in, and she couldn't see now it ever fell out. Mrs. Ducker will get it when she sweeps if its in the house at all. Mrs. Williams had her ten cents in a tea-cup all ready, but when sho went to get it it was gone, and she's afraid she gave that cup to one of the boarders by mistake. Mrs. Williams says that's the worst of keeping boarders, your home is never your own. Mrs. Forrest says if she only knew which one got it, she should charge it up to h!m. Mrs. Williams wouldn't ever think of doing that Total receipts of going to become of the copyright of him.

Gems from Shakspere &

Polonius Giving Farewell Advice to His Son Laertes. (Play: Hamlet)

> Beware of entrance to a quarrel, but, being in, Bear't that the opposed may beware of thee. Give every man thy ear, but few thy voice; Take each man's censure, but reserve thy judgment. Costly thy habit as thy purse can buy, But not expressed in fancy; rich, not gaudy; For the apparel oft proclaims the man. Neither a borrower nor a lender be; For the loan oft loses both itself and friend, And borrowing dulls the edge of husbandry. This above all: to thine own self be true, And it must follow, as the night the day, Thou canst not then be false to any man.

Sketch of the Life of Famous English Novelist Who Began Writing Late in Life.

To how many literary men, we wonder. is it given to "arrive," with a first attempt in fiction, at the age of sixtyseven, as Mr. de Morgan has done? Born in 1840, the published his first novel in 1906. As he himself says, it is unlikely that there has ever been such a case before. The author of "Joseph Vance" and "Alice for Short" has been hailed by reviewers as a "Joseph Vance" and "Alice as a has been halled by reviewers as a "coming novelist" with a great future. He has already established a reputation any novelist with a long list of successes behind him might well be proud of. Given five more years of work Mr. Morgan must of necessity that any comparison is as impossible as it is absurd as it would be to try and compare Browning and "Joseph". appeared in the American papers. It was stated to bet of a man well over Such statements have caused much annoyance to Mr. de Morgan. There is a great difference between sixty-seven and, say, seventy-two, and in the next few years he intends to accomplish much. de Morgan comes of a family in which brains have ever been a prome-inent characteristic. His father was

A History of the Mounted Police and Their Gallant Deeds in the Canadian Northwest

The name of the Royal Northwest Mounted Police of Canada has become almost a synonym for efficiency and faithfulness. And it is generally known, tho in rather a vague way, that the history of the force, because of its hardships and its very great ser-vice to humanity, deserves to be rated high among the world's chronicles of heroism. But there has not been much

built for Mr. Debenham in Addison road. The interior tile decorations are all from the de Morgan factory, which, sad to relate, exists no longer, the had it prolonged its existence, its founder would probably never have turned this thoughts towards authorship.

Altho for forty years after those ed by an officer and has a so-called "fort," with quarters, guard-noom, and other buildings. The minor posts are smaller, while detachments containing only two or three men are quartered the hammer falls is regulated by with private citizens. The officer of turning a thumb screw and so the the main district keeps up constant sound is increased or diminished as the main district keeps up constant communication with all of his subordinate posts, and is responsible to the chief station at Regina

Duties of the Police.

The duties of these police are so varied that as one reads the list of them the wonder grows that it is possible to find men capable of discharging them with such efficiency and such constant courage and readiness. It all goes to prove that the best and finest quali-ties in human nature are not a matties in human nature are not a matter of price, for the pay of the mounted police is not high. For constables, comes inaudible is reached.

Description of the pay of the mounted the exact point where the sound becomes inaudible is reached.

Either ear can be tested separately sergeants it ranges from \$1 to \$1.70 or both at once. per day. From veterinary surgeons by the person listening if he wishes. So rapid is this instrument in its work commissioner it runs from \$1400 to that the children in school can be workmanship of "Joseph Vance" and "Alice for Short" seems almost like a throw-back to the methods of a period half a continue balking a continue b pected to render. They give constant assistance to the customs department; they supply patrols to the interior department to collect timber dues and ally guard against timber thieves; they as gassist the department of agriculture in its quarantine branch and also by making detailed reports upon crops orous inspection of strangers who cross the border, and patrol regularly all settled districts. Like guardian andiameter and four feet high, containing gels they ride from homestead to home-twenty pounds of the gas is stowe building of his shack, the herding of of gas, one being a reserve, to tide ov his stock, the planting of his land, or when the first bottle is emptied. trouble him. Heroic Deeds of Duty. Several chapters are devoted to spe

heroes to speak for themselves in accounts as unadorned as an official re-port. Indeed, many of his stories are merely extracts from such reports. They are wholesome reading for pessimists and other maligners of the hu-man race. There was, for instance, a certain Constable Pedley, who, from a station in the far northwest, set out in the dead of winter to find a mis-sionary who had gone mad in a half-500 miles in a sled to Fort Saskatchewan for medical treatment. The mad-man had to be wrapped in furs, fastened in a sleeping bag, and strapped to the sled. The snow was deep, there were many storms, and the thermometer was from 20 to 50 degrees below zero. Most of the way the constable ran with the dogs; and he helped them pull the sleigh over the bad places The madman refused to eat and Ped-ley had to force food down his throat, Several times when loosed for exercise he tried to run away or became violent and attacked the ing one storm, which lasted for fortyeight hours, such a gale raged Pedley had to lash himself and his companion in their fur bags to a tree. In the wooded country timber wolves could be held away only by keeping big fires constantly son—or it wouldn't be so widely quot-ed as it is. The books oftenest men-tioned in the final monthly summaries the charge Constable Pedley started on the tioned in the final monthly summaries in 1910 were, it seems, "The Rosary" (eight times), by Mrs. Barclay, whose later book, "The Mistress of Shenstone," is already beginning to be one of the "best sellers"; "A Modern Chronicle," by Winston Churchill, and "The Wild Olive," by Basil King (each five times); "When a Man Marries," by Mrs. Rinehart (four times); "John Marvel," "Truxton King," "The Silver of the downward journey had exposure of the downward Marvel," "Truxton King," "The Silver not expect to win fame or honor. He Horde," "Lord Loveland," "The King- was simply doing his allotted task to dom of Slender Swords," "Simon the the best of his ability.-N. Y. Times. Jester," "Nathan Burke" and "The How Could it Be?

"Is your engagement a secret?" Ted-"No; the girl knows it."

## Our Birthday Book

10, 1860. New Brunswick, was the birthplace and the home of Charles G. D. Roberts until 1896, when he left Canada to join the literary colony in New York. Prior to that time he had been regarded as one of Canada's chief poets, his nature poetry being the vein in which he made his strongest appeal. Of recent years he has been writing animal tales and stories of the wild, coming back to his native land in imagination and there securing his literary material.

### Science Jottings.

Springfield Filtration Plant The filtration plant of Springfield. Massachusetts, is claimed to be the most perfect filtration plant in the United States. This plant represents a total expenditure of \$2,000,000, and was just put into use by the City of Springfield during recent months. Since the starting of the work on this great filtration plant two years ago, 1000 men have been continually at work in bringing the plant into its present stage of completion. filtration beds are fed from a reser-voir holding over two billion gallons

and their capacity is slightly over 11,000,000 gallons of water a day.

The filter beds present a filtration
area of five acres and are of the cement steel covered type.

The water is aerasted after leaving the filters and after traveling over thirty miles is delivered in thirty-six pressure of 200 pounds to the square

Instrument Tests Hearing. By the invention of the principal of school in Trenton, New Jersey, the backwardness of school children thru defects of hearing will be effectually remedied. A little machine perfected after several years of experimenting makes it possible for any one to test the hearing of a child so as to curately the exact power that the bo or girl possesses to catch sounds an understand the words of the teacher. The little machine consists of a me al box about four inches square. The

little bell struck by a hammer. The bell when struck gives forth a silvery sound of a strength varied at the will of the operator. The height from which the test is made upon a given subject. The sound passes to the ears thru stethoscope tubes. At first the hearing is tested with the loud note and as the regulating wheel is turned by the operator the sound becomes fainter and fainter until it is perceptible only to those with the acutest powers of hearing. An index points to various numbers as the wheel is turned and as the child indicates that the sound is

still heard so the index registers until

tested at the rate of one a minute Gas Sold in Bottles The notable revival of gas lighting, caused by the invention of the incandescent gas mantle, has now a strong ally in the introduction of liquified gas—called "Blau-gas," after the German inventor of the system—sold by the pound in steel "bottles" which the eustomer may have delivered at his and cattle and on the suitability of home. In some newly laid-out suburland for development in outlying repairs, by distributing seed among new mains have not yet been put in, this settlers and by enforcing the game laws. They must also keep up a rigsteel bottle in which the gas is deliver-ed—a receptacle about eight inches in gels they ride from homestead to home-stead all over the prairie country, to see that all is well with scattered set-and connected thru an expansion tiers and to give advice and help, if chamber to ordinary house piping. The needed, to the homesteader in the closet has room for two of the bottles closet has room for two of the bottles

The liquified gas is a nonmixture of hydrocarbons of high cal-orific value—said to be three times ial incidents and thrilling stories. It that of ordinary city gas-giving is much to his credit that, in a narrat | very white light from mantle burners tive in which heroic and romantic ele-ments are constantly so prominent, the gas engine. No meter is required Haydon has held to the simplest The gas is simply bought. and most straightforward manner. at ten cents a pound, and one pound Nowhere does he indulge in sentiment; will keep a 60-candlepower light and he allows the deeds of his modest burning for seventeen hours, or a gasstove burner going at full flame for two and a half hours. The system is simpler than any private gas-generating plant, the only attention required being the connection of a fresh bottle once in so often-a minute's work with a wrench. It renders the householde light companies, and at the same time it helps the latter by giving them a means, temporary or permanent, of supplying their outlying customers whom they could not otherw-with light, heat and power. could not otherwise serve

nt months.

Many of the musical personages in the large audience at Mendelssohn Hall on the evening of Dec. 28 came near (figuratively speaking of course) losing their heads. The excitement was caused by the violin performances of Kathleen Parlow, the nineteen-year-old Canadian, who had astonished the musical world of Europe before she arrived in this country tast month. Some of the reviews in the daily papers on the recital indicate that the writers are not wholly informed about the career of this marvelous young woman. Miss Parlow is really celebrated from one end of Europe to the other, and many in this country have read much concerning her.

and many in this country have read much concerning her.

Miss Parlow made her New York debut with the Russian Symphony Orchestra in Carnegie Hall, Thursday evening, December 1. Her appearance December 28 was the first in recital, and in the closer intimacy of an auditorium like Mendelssohn Hall, it was possible to come more fully under the magical spell of Miss Parlow's art. Assisted at the plame by Carl Bruchhausen, Miss Parlow gave the following program:

created the feeling somehow that she was influenced by some occult powers. The "Devil's Trill" had moments while she played it that carried the while she played it that carried the imagination perllously near to the supernatural. The intonation of the young violanist is purity itself. Her double-stopping is a feat that almost raises the hair, for it is accomplished

absolutely without effort. chaconne reached the soulful realms. and when she finished the performance the audience broke out into a storm which did not end until the violirist brought Mr. Bruchhausen back to the stage with her and he united with her in a beautiful performance

of a Beethoven minuet. The other numbers aroused the same

ever made for a young woman play-ing the violin. There were cheers and shadows of the wings. When Dr. ing the violin. There were cheers and recalls and no one went home until Miss Parlow, accompanied by the skillful Mr. Bruchhausen, played two additional numbers, one a melodie by additional numbers, one a melodie by Auer of St. Petersburg, who was by Auer of St. Petersburg, who was by Auer of St. Petersburg, who was business parlow's teacher. Mr. Bruchhausen merited much praise for his subdued and finished accompaniments.

The New York violin fraternity was well represented. Every player who was free from an engagement was on hand to hear this wonderful girl. Edmind Severn said to the writer that he regarded Miss Parlow "As the most wonderful woman in the world" and he followed up his enthusiastic words by adding "yes and she heats most a composer, is discord, because not will open his musical season in New will open his musical season in Ne

Ondricek, Florence Austin and Arnold sonance. The more discords are piled sonance. The more discords are piled on top of one another, and the less on top of one another, and the less on the property in the conformation of the conf ers of stringed instruments in the hall.

J. Barton Willing, the brother of the former Mrs. John Jacob Astor, came on from Philadelphia with a party to attend the recital. Mr. Willing is an amateur violinist and is devoted to other branches of music as well as his own specialty. Where Miss Parlow plays in Philadelphia parts month as own specialty. When Miss Parlow plays in Philadelphia next month, a club of which Mr. Willing is a mem-ber will give a reception for her.—Mu-

### Rhythm

Rhythm is one of the most important of assets of the planist who hopes for public success. The performer who possesses it can hold a great audience in the palm of his hand with such naive compositions as the Schubert F minol "Moment Musical" or the arrangement for piano of the E flat Minuet from Mozart's Symphony .- Alfred Grunfeld. ANCIENT ORGAN OF CHARLES V.

## Boston Triumph

Great Singer Receives Ovation In Title Role of "La Gioconda" -Will Come to Toronto.

Mme. Nordica's first appearance in opera this season was made at the Boston Opera House, Friday evening, Nov. 25, when the great American prima donna sang the title role in "La prima donna sang the title role in "La Gioconda," the same opera with which the opera complany began their epoch making performances in Boston a year ago and with the same great singer as the star of the occasion. Mme. Nordica's re-appearance in Boston was made a festival affair. The opera house was crowded and the singer was welcomed with a cordiality that was marked at the start and grew to unbounded enthusiasm as the performance progressed. At the close of the great third act, the diva was recalled again and again, each time bringing out her and again, each time bringing out her associate artists, until at last she yielded to the insistent desire of the au-dience and appeared alone, when Bos-ton for the moment forgot its time-honored conservatism and greeted her

It will be remembered that some time ago a similar announcement was made, to the effect that Mascagni had engaged passage, but that for some reason or other he had concluded not to come at that time, which necessitated the postponement of the productated the postponement of the producalses the hair, for it is accomplished the postponement of the production of the opera, and forced Liebler ubselutely without effort.

Miss Parlow's playing of the Bach thaconne reached the soulful realms, that the new opera in this country, and who, it is understood, have already who, it is understood, have already spent over \$60,000 in the enterprise, to send out the company which they had engaged on the road in "Madame Butterfly" and other operas.-Musical

pelled to repeat the Debussy minuet, which in spite of its French spelling proved music of a kind that will live. More excitement followed the Sarasate "Habanera," and when that was play-" and conductors have the spellight all to themselves for the moment, while changed it seems if only temporarily, tion into Mohawk: ed everybody tarried to join in one of the most wonderful demonstrations all to themselves for the moment, while ebulliently temperamental prima donhausen merited much praise for his subdued and finished accompaniments. His modesty, too, was a matter that made friends for him.

After the recital, Miss Parlow and her mother were surrounded by a host of admirers and friends.

The New York violin fraternity was well represented. Every player who america.

### Humperdinck Opera Is Artistic Success

Comments on "Koenigskinder" by Reginald de Koven-Will Soon be Given in English.

There is, I believe, no one with an Studio: New Heintzman & Co. Bld. anifestation of genius may have an plete artistic success to the latest Hum. beautifully presented at the Metropoli time, however, its popular appreciation the text and that intimate knowledge of the score which come alone from repeated hearings, so that the question whether "Kingly Children" will repeat the popular success achieved by "Haensel und Gretel" must remain awhile in the lap of the gods. There is no come that I know where a complete he has turned out several compositions over which European critics seem to stand aghast. The latest manifestation of his writing capacity is the trio for piano, violin, and violoncello, which the Margulies trio have just played. "Der Schmeemann" was produced at the Vienna Opera on October 4, on the birthday of the Emperor Francis Joseph. It was, as has been said the boy of the works of two wars ago, which the boy the Margulies trio have just played.

"Der Schneemann" was produced at the Vienna Opera on October 4, on the birthday of the Emperor Francis Joseph. It was, as has been said, the work of two years ago, which the boy had written, in fact, as an exercise in composition, for the plano. It was orchestrated by Zemlinsky, the boy's teacher.

Erich's father, Julius Korngold, is the music critic of the Vienna Neue Freie Presse. As this paper has been unfriendly toward the Vienna Opera since Gustav Mahler came to New York and Weingartner took the reins, some people have been unkind enough to trace cause and effect between this fact and the production of "The Snow-gar" at the Vienna Opera. However, and a the production of the story and even the story and its interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is she interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is the interrelation between the story and its good news to hear that it is the interrelation between the story of the interrelation between the story of the interrelation 

players. While I have never heard of J. RAWSTHORNE SLACK "Parsifal." The lectures will be course of the work might be usually illustrated and last about as hour, commencing at 3.30 in the for example, the fine handling of the three principal motives, when Pantathree prin players, but with a little experience they are able to manage it. In the case of a left-handed child who wishes case of a left-handed child who wishes to learn violin playing, it is my firm conviction that it is best to teach him how to bow with the right arm and with all other positions normal. It is my experience that this can be successfully accomplished.

If the present plans go thru, as no doubt they will, the Montreal Grand Opera Company will be a new and vital feature of Canadian musical life. Too much credit cannot be given to Colonel Meighen for his work in making the best opera accessible to Canadians.

Father-Willie, this hurts me more

than it does you? Up to date Child-Corporal punishment is surely sufficient indignity; kindly spare the insult to my intelligence.

"How did Crimson Gulch manage to get such a showing in the census?"

"Diplomacy." replied Broncho Bob. "We got the census taker into the Rosy Clow saloon and didn't let him go to work until he was seeing at least double."

"Binks used to be daft on the subject of buried treasure. What's he up to "He's got up an expedition to Asia

Minor to try to find the place where Methuselah stored his birthday presents." . . .

"Senator, what is the secret of your success in politics? How do you manage to beat down the opposition?" "Young man I don't try to beat 'em down. I pay 'em what they ask."

Do not retire with cold feet. Warm the feet well before getting into bed, else they may remain cold all night, and this is a most serious menace to the health. If necessary heat a small bag of sand, or heat a brick and wrap it in woollen cloth or call to your aid the trusty hot water bottle, and keep the circulation normal during your sleep by one of these means of warming the

Do not let the hands grow cold when you are out of doors. Protect them in your muff or with snugfitting woollen gloves worn alone or drawn over kid ones. Do not wash your hands before going out or immediately after coming in from the cold air. Wash them in neither hot water, which makes them sensitive, nor in cold water that chaps them, but in tepid water into which a few drops of benzoin have been dropped

for whitening. Let me repeat my warnings not to go into the cold air without protecting the face by a mask of cold cream and powder. Some persons

prefer liquid cosmetics to powders even in cold weather. For these would suggest a trial of this which the wife of an eminent physician has long used after her husband's prescription:

Epsom salts ...... 1/2 oz. Glycerine ...... 1/2 oz. Water ...... 1½ ozs.
This same young woman, who has one of the clearest, rosiest complex. ions I ever saw, believes she owe. it to another of her famous hus

band's prescriptions: Into a bathtub full of water shpours one pound of epsom salt This is her daily bath. The dilute salts enter the system by means o the pores and keep it perfectly cleansed. At least that is her hus band's theory, and her complexion attests its value.

In Winter the young woman wanther arms, which are much displayed in this season, to be their loveliest She finds, on the contrary, that they are growing red and coarse. For the coarseness and for thinness. I heartily recommend bandaging the

## IN SPITE OF THE WEATHER

You can keep face and hands soft, smooth and white by using CAMPANA'S ITALIAN BALM. It prevents the raw winds and bitter cold from chapping, roughening or reddening the skin. It is a pure "balmy" skin food-not greasy or oily-free from anything that could possibly harm the skin. 25c a bottle, at your druggist's, or

E. G. WEST & CO., 176 King St. East, Toronto.

been dipped in lanoline, vaseline, or cocoanut, or olive oil. Swathe the arms in these cloths and over them slip the half sleeves of the sort that waitresses and stenographers wear gowns. Place these bandages on the arms on retiring. A few weeks of such treatment should soften, refine

and whiten them. Need I say that the young woman who is trying to make her arms more atractive should bathe them thoroughly every night? A soft flesh brush will rip open the pores and leave them open for the entrance of the oil.

A girl may have beautiful arms that are marred by coarse elbows. The elbow joint may be too prominent, or too dark. Scrubbing with and rubbing plentifully into it cold cream or olive or cocoanut off should Improve them.

The loveliest arms are those in which the elbow is merely suggested

by an evanescent dimple. An Ingenious Parisienne has elbow muffs which she wears at night. Her maid has made these of absorbent cotton about three inches wide. These she dips into olive oil and binds them on her mistress's arms. afterwards wrapping oil silk about them to prevent their soiling the bed-clothing.

Once the muffs were too tightly fastened, and deep red marks about the elhows showed impaired circu lation. You may be sure that after this the muffs were worn no mor tightly than was necessary

## Affairs of the Day

proud, the increase of population would have been accelerated and the would have been accelerated and the peacemaker. We are sadly in want of Toronto aspires to be the in achievement. Montreal is corraling all chronicles do not say how many have the country round about and extending her territory for miles. Toronto needs to get a gait on her if she would to get a gait on her if she would to get a gait on her if she would the recklessness displayed, the wonder the recklessness displayed. maintain her position in the race or is not that so many have taken their is she would win out. Balitmore is about a quarter larger and more populous than Toronto. After her big in America lost their lives, each was fire, which occurred shortly before fire, which occurred shortly before ours, she voted twenty-two million dollars for comprehensive improvedollars for comprehensive improvements took advantage of the position in fact. What has Toronto done? Left her ruins as a monument to her dilatoriness and her haggling propensites. Also to her smallness and shortsightedness. Visitors come here and wonder, as well they may. In the absence of strong men in the council chamber we are still incapable of great things? A leading journal congratulates the city upon the return of a "strong civic administration?" What does it mean by "strength"—of men of its way of thinking, if not politically in other directions. The fact is Toronto way of thinking, if not politically in other directions. The fact is Toronto after a fit of liberality is once more at the head of military affairs in Queafter a fit of liberality is once more narrowing herself. If she would be great she must be broad. There are other things to be considered besides local option. Beer has not made either Britain or Germany small. Wine is the weakener and local option will lead to a greater consumption of wine and deleterious beverages. France, Spain, Portugal, Italy have all experienced the stunting effects of wine and aluiteration. Anyway as I have said it is about time Toronto gave local option at the head of military affairs in Quebec. It is always pleasant to see honors meritoriously conferred on any capacity conferred on

our hearts we rather favor republican than, exclusively court sentiments. In other words we do not believe in the establishmen and maintenance of classes. We believe in the common rights of the people. Titles have a tendency to and do create devisions, yet would they be without honor. How far then are we justified in going, or can we safely go, in their nonor. How far then are we justified in going, or can we safely go, in their acceptance. Another evil that cometh with titles is their tendency to wean the possessors from their devotion to the land of their birth or adoption or revenue of fortune provider. Would Lords Strathcona and Mountstephen by the strathcona and mountstephe be so much sojourners abroad if they had never enjoyed imperial honors. Lord Strathcona, it is true, is serving this country well, but will his heirs and those who come after him be equally as faithful and equally as attached? We cannot afford to lose our greatest men and our best stock and it, is doubtful if the conferring of imperial titles conformes them to us. If we must have a nobility let it be our

It has always been accounted one of the most orderly of cities. And dur-ing the recent Dominion exhibition it thoroly well stablished its right to be so considered Many thousands of visiters thronged the city, but the arrests for disorderly conduct were numeri-cally normal while better order never prevailed at any place where people assemble than was the case during the entire nine days that the exhibition title, the lasted. As an old campaigner I re-

Ingress to the country but also by when here. It cannot be denied that there are races and nationalities here that are permitted privileges that are depled to the native and to the Britisher. The alien vote and influence being needed, on account of its concretness its demands are acceded to

and prosecution hesitates. The Offawa correspondent of The Globe assures us that in their visit to Washington, Messrs. Fielding and powers as regards trade regulations and treaty making. Surely this is dangerous authority to give to any two men, no matter how experienced and tagacious they may Messrs. Field-Paterson practically have plenary

Toronto was in a fairly generous mood on Monday last, Five out of the six by-laws submitted were carried and the sixth should have been, for in value to the city it meant a great deal. Immensely increased value would have been given to a vast deal of city property, entrance to the city from a large farming district would have been strength of Canada was the late George Brown, who so thoroly gave Secretar Seward to understand our independen George Browns at this juncture, both

> The air is fighting hard. If it is to be conquered it will have its Probably no scientific attempt in

about time Toronto gave local option a rest and devoted her attention more to her material advancement. If we would be great we must cultivate breadth as well as length.

How far Canadians are warranted in accepting, covering and courting titles eties this is very much to be doubted. How far Canadians are warranted in accepting, coveting and courting titles is a question for grave consideration. This is a democratic country, not at all in sympathy with aristocratic principles. We are monarchical in theory and in practice, but at the bottom of our hearts we rather favor re-

Lords Strathcona and Mountstephen be so much sojourners abroad if they artillery to do the deed. It is only a we must have a nobility let it be our home secretary in person and supportown in creation and origin. But do we ed by a detachment from a crack regineed it? Is it consistent with our ideas? Shall we be benefited by transforming our plutocracy into an aristocracy? The former we shall ever have. Do we need both our the company it would hardly be surprising if the have Do we need both, or the com- Japs got it into their heads that they Will the one leaven the could do with Britain as they did with other, or by the establishment of rank will the burden of wealth bear heavier on the common people? These are rather fortunate for Winston Churchquestions deserving to be well conthat the elections were over when this To those who know St. John, N.B., the news of the rlots on New Year's night will come with startling effect.

Romano, an Italian agritator and trouble creator, has arrived in Vancouver, B.C., and when this was written was being held in a thousand dollar bail off using threats to a fellow countryman. Romano is evidently an undestrable character. Being so, why the was being held in a thousand delar ball for using threats to a fellow countryman. Romano is evidently and to the Royal Canadian Draw undestrable character. Being so, the country was he allowed to enter the country was he allowed to enter the country was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the Royal Canadian Draw was he allowed to enter the country of the country of the Royal Canadian Draw was the charge of the sount to this bridle again. I was not populate the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you waste the clader in a string some time when you wast the clader in a string some time when you waste the clader in rectly by the railway. In Great Britain the big transportation companies do their own expressing and it is difficult to see why the same state of better than to have run a good horse

## Breeding of Polo Ponies

Visit to a Famous English Stud Where Affairs Are Carried Out on Expert and Scientific Principles-The Polo Pony Fast Becoming a Permanent and Desirable Type.

Sir John Barker, Bart, for some years bay, 14.2 hands high, on short legs, well have won laurels at the game, and also has been engaged in breeding experitioned, a big girth and wonderful prizes at the shows.

Ponies Thoroly Schooled. has been engaged in breeding experiments at Bishop's Stortford with a view to the production of a type of pony suitable for polo. Those experiments have proved remarkably successful, and polo ponies bred by Sir John Barker bave become world-famous, and are the result of twelve years of careful selection or mares and sires, as well as a large expenditure of scientific study and money. The result so far is a type which some good judges regard as tion is apparently near at hand.

Care and Method. Driving round the beautifully-kept There are over a score of large, finely grassed and well-hedged and protected paddocks, in which brood once the property of Sir Humphrey de Trafford, and a noted prize winner. He pelo ponies in the Polo Pony Stud Book and his stock has secured no less than

# NOMANIS A GREATAS HIS WORK

Copyright. 1911, by the

POMPOUS, iron-jawed railroad president swung round in his swivel chair and scowled at an inquisitive reporter.

"You can take it from me, young man," he said, "that neither Wall Street nor the Standard Oil Company or any other power on earth had anything to do with the building of this railroad. I built it with my own brains. They got me the money; they got me the men. It is a good railroad; one of the best in the world, and it is going to last for many years as a monument to me. But bear in mind that I made the railroad; the railroad didn't make me."

The reporter duly set this speech down, and somewhere in some newspaper it may be found, essentially as we have set it forth here.

It isn't true, it isn't just, it isn't even common sense, but there can be no doubt that when the railroad president uttered it he believed it, every word. He fancied then, as he fancies now, that he was greater than his work, and that the railroad practically sprang from his brain, as we are told that lesser deities sprang from the brain of Jove, who was the head of the family of deities worshipped by the thoughtful but credulous people of early times.

Now this man, able as he was, merely put together that railroad. Centuries before he was ever heard of men dug iron ore from the earth, and thus provided the means by which his track and locomotives and car wheels rould be built.

While the buffaloes were still kicking up dust clouds along his present right of way Stephenson was tinkering at his teakettle of a locomotive engine, thus beginning ONE BRANCH of the railroad business, of ALL OF WHOSE BRANCHES this man calls himself the master.

Then other men improved the locomotive, and devised methods of engineering, and harnessed the lightning to the electric telegraph, and taught steam how to work in a steam shovel, and educated the public into ways of buying railroad stocks and bonds, and experimented with different kinds of rolling stock, until from the abundance of the work that they had produced it was possible to choose and arrange the materials for a railroad.

And meanwhile the tough, sinewy pioneers who had crossed the plains with ox teams, ghting their way against Indians and wild animals and famine and blizzards, developed a new country and planted the wheat fields that made the railroad worth while.

So the great railroad builder, instead of being greater than his work, was merely a very small part of it.

He took up the work of hundreds, even thousands, of other men, and, following the example of many other railroad builders, combined it all into a tolerably efficient rail-

Relatively he was about as much the originator of the great system that he brought together as the fourteenth coral insect in a reef composed of fourteen hundred billion coral insects is the originator of the reef.

The world requires men like this man—men with imagination and nerve, who can see its needs, and who have the courage to supply nem, no matter whether their motives are purely philanthropic—which is not often—or wholly selfish. But the world cannot afford to let such men get conceited or to fancy that compared to their own important personalities the work that they are doing is a mere incident.

Several times in history big, able men have become possessed with the idea that they were greater than all other earthly beings. The last of these was Napoleon, and he lived to understand, if not to admit, his mistake.

America has been more fortunate in its great men. Washington knew that compared to the cause he served his own personality counted for but little. There was never a time that he would not have stepped aside to let an abler man take charge of the Colonial army, had an abler man been possible to find.

Lincoln counted his country first and himself last. He had no vanity that his contemporaries were able to discover; he had no am-

bition other than to see the country once more united and at peace. Great men were both of these, yet neither of them for a minute fancied that he was as great as the task that he had been set to do.

The engineer who has built a great bridge carns and gets the gratitude and admiration of his fellow men. Yet he has merely applied principles discovered and developed years before by other men, gathering together and putting into use materials whose properties have been known for centuries.

He is not a creator, but a developer, and if he is a really able man he will be the first to admit his dependence on others. He has taken up the work that had been left uncompleted and carried it a little further, just as future engineers will take up and develop the work first done successfully by the Wrights in building and sailing flying machines.

In the medical profession, which has perhaps gone further of late than any other calling, no one man dominates.

Each of the great scientists who have devoted their lives to it works at his own specialty, acquainting himself with everything of importance that has been done before, and trying to improve upon it as much as he can.

No medical scientist begins to be as great as the great work he is doing for the future of mankind. Year after year the colleges turn out swarms of graduates; year after year the ablest men apply themselves to the advancement of their profession.

The good that they have done already is incalculable; the good that they will do in the future cannot be imagined by the mind of to do.

And if you could go into the laboratories where quiet, patient men toil hour on hour on some complex problem, if you could watch them at their work and hear them in their conversations with their fellow scientists, you would understand that they perhaps more than any other men understand how small and unimportant they are in comparison with the noble work that they are doing.

The building of a battleship requires far more than the labor of the thousands of engineers and workmen who are employed on it.

Long before the designer can lay down the lines of the vessel in the molding loft he must have stored away in his brain a marvellous amount of knowledge concerning all that has been done in shipbuilding up to the present time.

He must know exactly the strength of the materials that are to be employed for frames, plates and armor, their weight and their ability to resist the destroying elements soon to be arrayed against them.

For all this knowledge he is absolutely dependent upon men who have built ships before him, beginning with the first savages who ever constructed vessels that would float on water, and continuing through all the ages of civilization.

After the designer has done his work the builders must take it up—thousands of them, scattered throughout the country—working in every place where the materials for shipbuilding are to be gathered together.

Each of those men, whether he is a superintendent of construction or an ordinary riveter, uses knowledge that he has gained from others, knowledge that has come down through the generations, each succeeding generation adding a little to it.

The battleship is not the work of one man. It is not even wholly modern, for its general form was decided upon almost with the first coracle which was paddled through the waves, and the materials from which it is built have been known in some form or other further back than history has been written.

If you try to learn who was the discoverer or the inventor of the automobile, undoubtedly the most useful of all recent developments, you will find that your quest will be

Many minds began to inquire into the pos-

sibilities of applying the explosive force of petroleum to motive power at about the same time.

Numbers of men worked independently on gas engines, and numbers of others took up the engines that they had developed and set about making use of them in motor carriages.

The fact that the automobile was so quickly developed—that from a clumsy experiment it became a thing of tremendous usefulness in a very few years—is due to the fact that so many men were at work upon it, each profiting by the experiments of the others, and all working to the same end.

Here was a work that was not only greater than any one man, but was greater than all the men who took it up.

And the development of the automobile, as most of the men engaged in its manufacture will tell you, is but little more than fairly begun.

The gasoline engine, which enabled engineers to get great power with very little weight, space and fuel, has made flying possible

And the only bar to flying as a practical commercial accomplishment is the present lack of a perfect motor.

But the new art is greater than those engaged in it, however daring or brilliant they may be.

And in a few years there will be worked

out in the workshop as well as in the air plans that will revolutionize a portion of the carrying trade of the world and make barriers set up by rivers, seas and mountains wholly ineffectual to prevent the passage of travelling to Those Who Are

The world that most of us know is a great work shop, in which each must find the job he is best fitted to do, and do it as well as he

Education is but studying what other men have done in the world in order that we may waste no time in discovering what has already been discovered or in following paths that have been found to lead in no useful di-

There is no work so unimportant that it is to be despised, so long as it is wholesome; there is no field of human endeavor that has been so fully cultivated that it will give no further return for labor.

The man who realizes that instead of being greater than his task he is infinitely small in comparison with it has a chance to do his best, and in doing his best he is reasonably sure to be successful.

Whether he gathers together a great fortune or not does not matter a great deal.

Part of Any Important
Human Task, Then He
Must Pass On and
Leave Its Completion
to Those Who Are
to Come After Him.

Some men were not meant for fortunes, and

are spoiled by them.

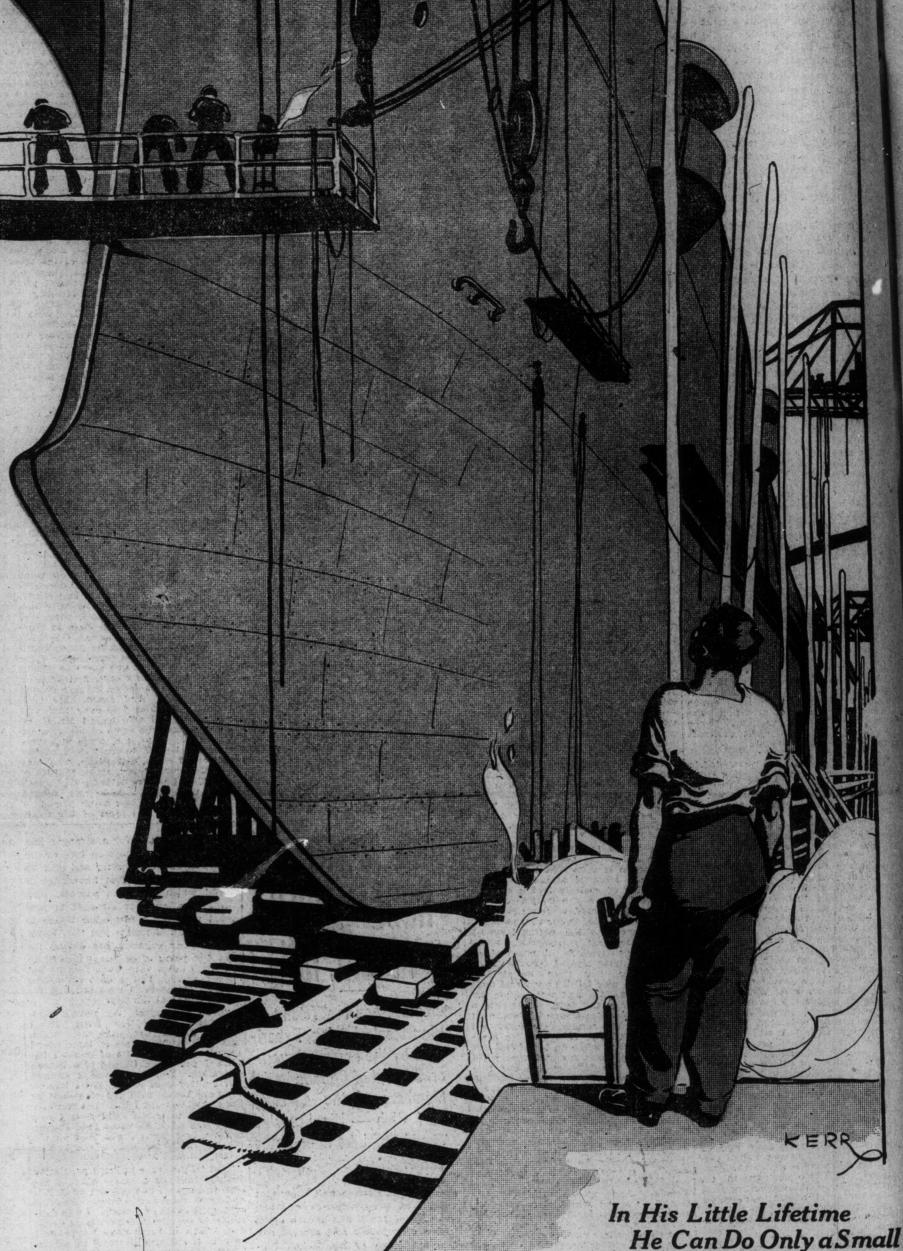

But whether or not he can justify his existence by being of use to those that are here and

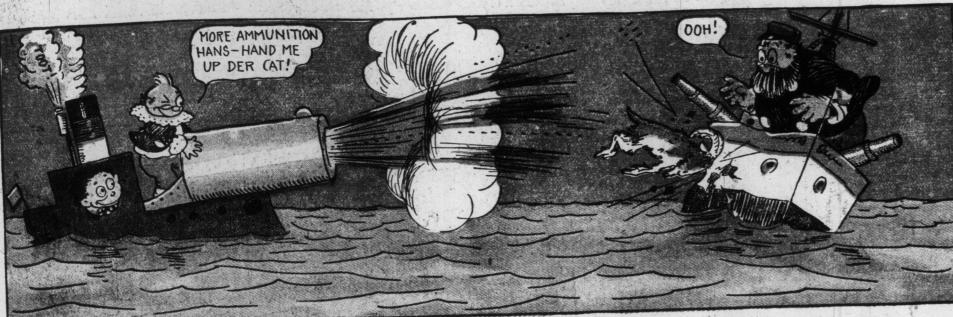

those who are to come matters a great deal.

Let him take hold of any work that comes to hand, if he finds that he can do it, and after learning all that there is to know about what has been done upon it go courageously to work to do a little more if he can.

He will soon find that as he progresses the importance of his tasks becomes constantly greater in his eyes, and that as the years have passed by he has come to prefer it to anything else in the world.

Whether it is medicine, law, engineering or selling groceries, if he feels that it is a great and useful work he will find in it pleasure and satisfaction, and unconsciously he will become one of the world's really valuable

at look as important as though you had becovered a continent or invented an irship, and all you have done is to see lot of shelf-worn cathedrais and secondand volcanoes, which have been seen by illions of rubbernecks before you.

## 

NOW that when the dawn creeps o'er the sky And wings her tender shafts

And wings her tender shafts
far out to sea,
Each silver streak becomes a bridge
whereby
I cross to thee.
I know that when th' impassioned
Sun pour down
His jewelled rays upon the quivering lea.
No gem too royal find I for the

I make for thee.

I know that when the twilight calls to rest.

And the Sun, dying, sinks upon the sea.

So shall I find, at last, on thy dear breast Eternity.

## BREAKING IT GENTLY.

SIMPKINS always was soft-hearted, and when it devolved upon him to break gently the news of Jones's drowning to the tereaved Mrs Jones it cost him much paper. Ink and perspiration before he sent the following:

"Dear Mrs. Jones: Your husband cannot come home to-day, because his bathing suit was wasned away

"P. S.: Peer Jones was inside the suit."

### FULL OF YEARS.

Jimmis—How old do you think our teacher is?
Agnes—She said she was twenty-two.
Jimmis—Oh, she's a lot older'n that cause I heard the eighth-grade teacher ask her when the Boston tea party was neid, and she said yes—and that was in 1773.

### A REAL SPORT.

"I understand. Mr. Reuben." said the visitor. "that your son is devoted to the turf."
"Ya-as, I reckon he is," said the old mar, "Jabez kin lay down on the grass for hull hours 'thout makin' no complaint." THE WIFE'S FAULT.

## "For goodness's sake. John, how long did you holl these eggs?" "Just as leng as you told me to, my dear." "Impossible! They're hard as bricks." "I boiled them just twelve minutes." "Twelve? Why, I told you that three minutes was long enough for an egg!"

EVIDENTLY NOT. "Have you forgotten that \$5 you or "Not at all. Didn't you see me tro to dodge into that doorway?"

### NO REMEDY.

"See here, vender, there's a worm in this chestnut." We can't indict Mother 'Well, sir, we can't indict Mother Nature under the pure food law."

As the train neared the city the colored porter approached the jovial-faced geatleman, saying, with a smile:

"Shall Ah brush yo' off sah?"

"No." he replied: "I prefer to get off in the usual manner"

"How do you know when your husband forgets to mail the letters you give him?"

"I always out a card addressed to me, self among 'em If I don't get it the next day I know. And it only costs a cent."
