Allies Silence German Guns In Several Places

Sapping Work of Enemy Also Stopped—Germans Capture Trench But it is Soon Taken From Them

Paris, Jan. 5.—The French War Office this afternoon gave out the following: "In Belgium, in spite of the condition of the ground and the difficulties which result, our infantry made progress in the sand dunes in front of Nieuport. In the region of St. Georges our men advanced at different places, 200, 300 and 500 yards, occupying houses and some trenches. At several points the Belgian artillery reduced to silence the artillery of the Germans. "From the Lys to the Oise, in the region of Notre Dame De Lorette, to the west of Lens, we were successful, thanks to our mortars and our hand grenades, in completely stopping the sapping labors of the enemy. In the vicinity of the Little highway the Germans blew up one of our trenches and then took possession of it, but an immediate counter attack again put us in possession of it. "From the Oise to the Vosges no infantry activity has been reported. In the region of Craonne and in the vicinity of Rheims there have been artillery engagements. Our batteries effectively bombarded the positions of the enemy in the town of La Sulpice, as well as in the region of Perthes and in the vicinity of Beausjour. There was similar activity in the Argonne and on the heights of the Meuse. "In Alsace, to the southeast of the Mount Du Bonhomme, we have entered the Hamlet of Ceruz D'Argent, two kilometers west of Ordey, where we are organizing our position. The gains realized by us on the road from Thann to Ceruz have been maintained at a distance one kilometre to the east of Old Thann. "Furthermore the fire of our heavy artillery at a point two kilometres east of Purnhaup-Le-Haut silenced the artillery of the enemy."

RUSSIA SURROUNDS AUSTRIANS Paris, Jan. 5.—A Petrograd despatch reports that the Russians have occupied eight Hungarian townships and that several divisions of the Austrian army are surrounded in the Carpathians.

SOME REPORTS FROM GERMAN HEADQUARTERS Berlin, Jan. 5.—(By Wireless to Sayville)—Recent war news according to the official press bureau, has made an unusually cheering impression. The bureau refers to the official announcement that the destruction of the British battleship Formidable was due to a German submarine and says this is further evidence as to how British supremacy on the sea is endangered by the German submarines.

"The capture of Berlin," it says, "is treated by the military critics as a highly important event. The town commands the direct highway leading from Lodz to Warsaw. The desperate efforts of the Russians to hold this strongly fortified point and their repeated attempts to take it, indicate clearly the importance the Russian commander attached thereto. Possession greatly facilitates the German advance upon Warsaw. "The general situation south of the Vistula is regarded as promising more rapid developments this week. "The Austrian official bulletin is also more reassuring than previously. It says that the repeated efforts of the Russians to break the Austrian lines to the west and north west of Galicia, in Galicia, near the Carpathians, has failed with heavy losses for the Russians. During this fighting the Austrians took by surprise the heights to the south of Glorice, capturing 800 prisoners. "The Turkish bulletin represents the situation in the Caucasus progressing favorably for the Turks. Heavy fighting at Sarikamya has resulted in a decisive victory. The Turks have taken 2,000 prisoners, eight cannon and provisions.

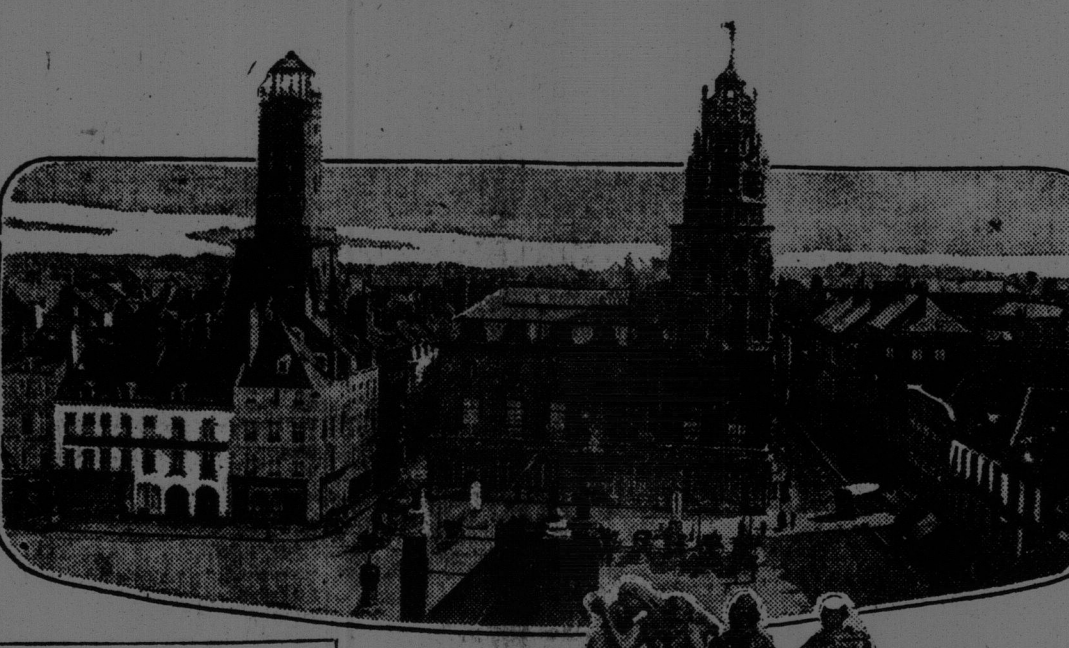

Berlin, Jan. 5.—Announcement is made here that the portion of Russian Poland occupied by the Germans has been provided with a civil administration under Herr Von Brandenstein. German airmen have dropped bombs on towns outside the territory occupied by them, killing and injuring 100 persons and setting fire to a portion of one village. News from Durassa, Albania, states in the first light in that vicinity, some followers of Enver Pasha, the provision, al president of Albania, who held back, were hanged. Newfoundland Soldiers Dead St. John's, Nfld., Jan. 5.—The first deaths in Newfoundland military and naval forces now in the British Isles are reported. John Chaplin, aged 18, son of Mark Chaplin, merchant tailor, of St. John's, died in Liverpool on New Year's morning of stomach trouble and David Butler of Shearstown, Conception Bay, aged 23, a member of the Newfoundland Naval Reserve died at Portsmouth Naval Hospital of pleurisy and influenza. A London cablegram announces that Captain Claude De Crespigny, son-in-law of J. A. McCloy of St. Catherine's, Ont., had both feet frozen while on service with his regiment in France.

BURIED TODAY The funeral of William A. Bell took place this morning from his late residence, King street east. The body was taken to Hampton for burial. Services were conducted by Rev. Mr. McPhereson. A large number of floral tributes were received in testimony of the esteem in which he was held. The funeral of Mrs. F. W. Dorman took place this afternoon from her late residence, 25 St. Patrick street. Burial services were conducted by Rev. W. H. Barracough, and interment took place in Fernhill. The funeral of Arthur Moore, youngest son of Mr. and Mrs. Andrew T. Moore, took place this afternoon from his parents' residence, Bridge street. Interment took place in the new Catholic cemetery.

DEATH IN NORTH END The death of Mrs. Mary McDonnell, wife of John McDonnell, took place this morning at her residence in Harrison street, after a lengthy illness. She was a life-long resident of the North End, and enjoyed the esteem of many friends, who will learn of her death with feelings of regret. She is survived by her husband, two sons, John J. and Frank, and four daughters, Louise, Stella and Lucia at home, and Nora, a graduate nurse, of Camden, N. J. The last-mentioned has been home administering to her mother during the last few weeks.

The weather continues cold from the Ottawa valley to the maritime provinces, and is comparatively mild in Western Ontario and the western provinces. First Miller Maritime—Moderate winds, fine, becoming milder; Wednesday, fresh southerly winds, fine. New England—Fair tonight, warmer except in extreme south portion, Wednesday, partly cloudy and warmer; moderate winds becoming south.

Views of Calais, Which Place Kaiser Wanted So Badly

Three times has the German army attempted to penetrate the lines of the allies in Belgium, and northern France reach Calais. At each attempt they have been baffled by the unyielding opposition of the British, French and Belgian forces. The upper picture shows a central square in Calais. At the side is the monument erected to the Bourgeois of Calais who offered themselves as hostages to King Edward III. of England in 1347, when the city was captured after a siege of eleven months.

WHEAT UP SIX CENTS IN DAY

Chicago, Jan. 5.—On the very first trades today, the wheat market jumped as much as two points higher than at the close last night making an advance of six cents a bushel since yesterday morning.

HARRY SMITH WARDEN

Meeting of York County Council—E. S. Miller, Formerly of Fredericton, Dead in St. Paul

Fredericton, Jan. 5.—The York municipal council unanimously elected Councilor Harry Smith of Douglas as warden. One new councillor, Alex. Brewer, took his seat. The secretary's accounts showed receipts of \$37,099.85, and expenditures of \$31,728.69 for the year, leaving a balance of \$5,371.16. At the request of the Minto Coal Company a test of Minto coal is to be made tomorrow at the pumping station and electric light plant. A telegram to Austin Dunphy from St. Paul announces the death of his brother-in-law, E. S. Miller, formerly of this city. He is survived by three daughters, one brother Henry, lives in St. Paul, and two sisters at Fredericton Junction. Chief Justice Landry presided at the circuit court today. There was no criminal business. The cases of Marsden Scott and George Hogg versus the St. Croix Pulp & Paper Company were postponed until June on application of Sillp and Hanson for the company. Messrs. McLellan and Hughes filed the record.

PALESTINE AND THE WAR

The Question of British Occupation—Formation of New Jewish Kingdom Paris, Jan. 5.—The French newspapers quote the Cairo, Arabian daily newspaper, "Al Watan" as saying:—"From geographical considerations, Palestine is to Egypt, what Alsace is to Italy or the Netherlands to Great Britain. Current events have proved that Egypt can be one day or another, threatened from that quarter. Therefore it is absolutely indispensable for Great Britain that this country should become a neutral state or be annexed. But the objection to a British occupation of Palestine is that if the province opens a door on Egypt it also holds the relation to this country of an exit and the presence of a British garrison in Palestine would keep the inhabitants of Syria awake. So it is better to solve the problem by neutrality." The London Globe resurrects the formation of a new Jewish kingdom. Thus, it says, would the prophecies of Moses and other prophets be fulfilled concerning the Jewish renaissance destined to prepare for the coming of Christ.

CANADIAN CADETS WIN TWO FINE SHIELDS

Arthur Stanton, a student at St. Anne's College, Church Point, N. S., writes to his parents that his cadets had achieved premier honors at the international rifle meet held in England last year. They received two shields: one of silver, handsomely engraved, and the other of the same design but made of copper. The former was held by Australia, until their representatives met defeat at the hands of the young Canadians. The silver shield will have to be contested for annually, but the copper one becomes the permanent property of the college. The cadets competed from various parts of the British Empire.

AMERICAN GOVERNMENT TO CERTIFY AS TO CARGOES

Likely Solution of One of Points Under Dispute

SUGGESTIONS BY TIMES

London Paper Thinks Good Will Come Out of the Matter—All Materials For Compromise, and a Disposition to Use Them

Washington, D. C., Jan. 5.—The decision of the United States government to certify American cargoes as to their exact contents before leaving American ports was believed by officials and diplomats alike, today, to offer a means of solving one of the points now under dispute in the shipping controversy between Great Britain and the United States. A circular formulated by Secretary Bryan and Redfield, and Acting Secretary of the Treasury Peters, for issuance today urges co-operation among American exporters, shippers and the government in regard to the manifests of neutral ships used to carry American cargoes. Exporters were to be urged to accompany their products with affidavits, stipulating exactly the contents of their shipments, and treasury officials were to be instructed to certify that the manifests contained the articles mentioned. Treasury officers, however, will not rule on the subject of whether a product is contraband or not. London Paper's Suggestions London, Jan. 5.—The Times thinks that the diplomatic correspondence incident to the American note may bring about an improvement in the relations generally between neutrals and belligerents, and thus from the episode from which Great Britain's enemies sought to make capital may come permanent good. It suggests better provision for rapid procedure, and that methods might be agreed upon whereby search might be waived on the production of a certificate by a consular or customs official. It would be necessary to adopt some permanent line as to contraband. The Times' article, referring to the fact that the United States constitution bars a direct appeal from the highest United States tribunal to any other court, this difficulty might be met by the adoption of a proposal approved by the senate on February 15, 1911, that there should be a right of resort to an international prize court in the form of a claim for damages. The Times supposes that the British government, in its reply, will draw attention to the enormous increase in the export of contraband articles to neutral countries, all out of proportion to their normal demand, and to the line of action highly favorable to neutrals taken by the British prize court in certain cases, and adds that by appointing two committees to consider the unpaid claims of vendors of cargoes, and of pledges or lien holders, the British government has shown a disposition never before exhibited by any belligerent to mitigate the harshness of prize law. The Times believes that there exist all materials for compromise and a disposition to utilize them. Well Received in England London, Jan. 5.—The British government was informed today of the decision of the Washington authorities to certify American cargoes as to their exact contents before they leave American ports. It is felt here that this action will assist appreciably in solving the difference. Ambassador Page received today from Secretary Bryan a message outlining the circular in American articles. The offer is made by the treasury department to furnish, upon request of shippers, agents who will supervise the loading of cargoes and furnish certificates.

Y. M. C. A. SPORT

The Junior "B" team and High School basketball leagues of the Y. M. C. A. continued their schedule yesterday afternoon. The juniors won by a score of 27 to 7. The league was composed of Willett, Barbour, Hopper, Cochrane, Taylor, and the losers had Cross, Seely, Fleming, Finley, and Stephens. The second game took place in the High School league. A team captained by McAndrews defeated Dunsmuir's men 22 to 15. The winners were McAndrews, Summersville, Bustin, Holder, and Haley, and the losers had Dunsmuir, Connolly, Waddington, Taylor and McDonald.

More Violation of Neutrality

Rio Janeiro, Jan. 5.—The German steamer Hojgar having secretly left the harbor of Pernambuco presumably with supplies for the German warships still at large in South American waters, the federal government has removed from office the authorities who should have guarded against such a breach of neutrality. The responsible officials have also been ordered before a board of inquiry.

Las Palmas, Canary Islands via Paris, Jan. 5.—The German steamship Olavi has landed here 100 saloons transferred to her by the German auxiliary cruiser Kron Prinz Wilhelm, representing the crews of vessels captured and sunk by the warship. The craft were the French steamer Montagu, which was sunk on December 4; the British steamer Bellevaux, sunk on the same day; the French sailing vessel Annie Marie, sunk on September 17, and the French ship Union, sunk on November 22.

FELL DOWN HOLD OF STEAMER AT SAND POINT LAST EVENING

WE ARE BUSY Because of Public Confidence

When times are bad every cent spent in Furniture has to be expended to the utmost advantage.

It is then that the purchaser begins to wonder whether the great "bargains" that are advertised in the papers are really the bargains that their sellers would have the public believe. It is then that the store that has ALWAYS made a point of selling the most in QUALITY Furniture for the least money reaps the benefit of its fair dealing policy.

At J. MARCUS' the public have always been assured of the utmost value for every penny spent, and now that times are not too good, we are still busy. The reason is plain to see.

DUMMY FLEET TO BLOCK KIEL CANAL?

That is Story Brought to New York From Abroad—Audacious Soon Again in Service

A traveler who returned a day or so ago from England told the New York Sun that not only was the super-dread-nought Audacious being raised, but had seen her herself after she had been hoisted so far that her decks were just awash. This was three weeks ago, and it was common talk in seafaring circles in England at that time, he says, that the ship would soon be towed to dry dock, probably at Harland & Wolfe's at Belfast, for repairs.

When the Sun's informant saw the Audacious through his glasses from the deck of a steamship skirting the Irish coast on her way to Liverpool, a number of "camels," or big pontoons, were about her, and wrecking steamers were pumping out the pontoons. By this method of salving sunken ships the pontoons are partly filled with water and are sunk to a moderate depth below the wrecked vessel. Chains placed under the keels are fastened to the pontoons on either side and the water is pumped out of the pontoons, which rise gradually and pull up the ship with them. Searchlights were mounted on either side of the pontoons, and the Audacious was being towed by a tug.

What is that supreme achievement of Canada? It is the gain of national self-government, without the loss of the nation's historic background. Self-government had to come to Canada as early as it had to come to the United States. The day of its coming, which ended in the Quebec Conference of 1866 and the passing of the British North America act in 1867, was a long and stormy day. No man saw clearly. There was no grand confederation merely, but independence as well. Beaconsfield and Gladstone both thought what was called confederation and autonomy would lead straight to the independence and separation of Canada from the Empire.

It has come about, however, that not by constraint, but by compulsion, but by the free and deliberate choice of Canadians themselves, Canada's imperial relations are what they are, and in the great days to come shall be what Canadians choose to make them. Not in large choice of Canadian nationhood the law of the nation stands—

"The gates are mine to open, And the gates are mine to close."

And that achievement of national self-government within the world-circle of the British Empire, free from the embitterment of war or the alienations of strife, is Canada's greatest achievement. It is a new, an original, an epoch-making thing in the history of the world.

AGRICULTURE IN THE UNITED STATES

Agriculture in the United States was then a depressed and neglected industry; agriculture investigators, teachers and students were very few, and the Department of Agriculture was chiefly known as a seed-distributing agency. Behind how much has been accomplished in three decades, less than a single generation. A great system of agriculture research has been developed within the department and the states and this is found in organized form in every state and all our outlying territories. So much definite agricultural knowledge has been accumulated that strong and broad agricultural courses have been established in the colleges with the result that they are thronged with agricultural students. The practical outcome of the investigations of the department and the stations and the teachings of the college has been so far beneficial to our agriculture that agricultural education is no longer confined to our colleges but is now pursued by thousands of students in special and ordinary secondary and elementary schools. And this movement is rapidly growing. Our adult farmers are so desirous of securing the information which our agricultural institutions have to give that many millions of copies of department bulletins and station publications are annually distributed. The farmer's institutes last year had an attendance of over 3,000,000, and a comprehensive system of agricultural extension service is rapidly covering the whole United States. And now has come this new union of the national and state and local forces for the dissemination throughout our vast territory in a practical way of whatever knowledge our research and educational agencies have accumulated or will gather in the future. And this comes at a time when all classes of our people, in both city and country, are alive as never before to the fundamental importance of our agricultural industries and the absolute necessity of having contentment and permanency in our rural communities.—Dr. A. C. True in Science.

RIGHTEOUS WAVE IN SING SING

ASTONISHES GOLDEN RULE WARDEN
Thomas Mott Osborne Says Men Are Doing Better Work and That Their Moral Tone Has Been Elevated by New Honor System

"Experience and results are coming so fast that it makes me breathless. In a few short weeks we have seen what an application of common sense mixed with the fundamental of Christianity will do for the men in Sing Sing...

"When I was placed in a cell in Auburn my handcuff was taken away from me. Why? Because some time in the past a prisoner had committed suicide with the handcuff. I wonder what would have happened to subsequent prison conduct at Auburn if I had tried to use my underclothing to take my own life.

"More than half the men sent to the dark cells were thus punished for talking. The foolishness of it was that the dark cells were the only places in the whole prison where one could talk with impunity.

"The failure of the old system is shown by the fact that in Sing Sing men now in prison are second or third terms. Shutting men up in narrow cells causes mental and physical degeneracy. That's why I want to get them out on farms in the open. I want them to be paid for their work just as much as they would get outside if they were free.

"If an giving the men a chance to smoke at reasonable times between work hours at the Sing Sing shops, there are 1,600 men there who ought to earn a living. The state pays them a cent and half a day. Under such conditions prison labor is slave labor, and it is inefficient.

"The fact is that a great majority of the men at Sing Sing want to go right. All we need is to apply common sense and the fundamental of Christianity to make heroes out of the men who want to be squares.

"A wave of righteousness is sweeping us off our feet in Sing Sing. We haven't had a single case of punishment since Dec. 11. Instead the men have worked in the shops with a new spirit. The other day one of the men turned over sixteen envelopes to me. He said he was through with the 'crooked letter' business. The foreman of the shoe department told me that for two years under the old regime shoes had been stolen by prisoners out of every shipment that had gone out. Since Dec. 7, not one case of shoe stealing has been reported.

"For the first time in the prison history of New York, a draft of prisoners from Sing Sing to Auburn has been made without the use of shackles. Seventy-three prisoners were transferred on Jan. 1 and between Albany and Syracuse even the handcuffs were removed. No attempt was made to escape and the entire draft arrived at Auburn safely. At Syracuse arrangements had been made by telegram for coffee and crullers, also an innovation.

"Thomas M. Osborne, the new warden of Sing Sing, was thanked by the prisoners in a round robin statement.

LUMBER CUT IN NOVA SCOTIA 50 MILLION SHORT
(Halifax Echo)
Nova Scotia lumbermen generally regard the year of 1914 as fair in the light of operations of their industry in this province. Though at the present time there is no difficulty in securing a market for the cut of Nova Scotia, the great obstacle is the scarcity of tonnage. The demand in England for lumber has increased considerably since the outbreak of the war, but the problem is how to deliver to the Old Country. Freight rates are extraordinarily high, and shippers are confronted with an unusual situation. Since the commencement of the war Nova Scotia shippers have made considerable profit, however, and there is some reason to hope that the cost of transportation will decrease materially in the near future. Cargoes which were booked months ago naturally were shipped at the low rates of freight prevailing at the time of booking, and in this way the Nova Scotia lumbermen profited.

The United States market is of course in a state of depression at the present time. Mr. Colin C. Tyrer, of Halifax, has only recently returned from a visit to New England, and says that owing to the financial depression building operations have declined and the big houses are inundated with renewals. The United States market opened in excellent condition in the spring, but weakened in the summer and when the war came fell away off. Spruce scantling and planking from Nova Scotia formerly delivered in New York for \$28 per 1000ft. could command only \$17. United States houses, however, are talking of a strong revival of the market in the spring, and are most optimistic in this connection. As against this there is new competition in the New York market of Oregon lumber, which has become a prominent factor since the opening of the Panama Canal. Oregon logs, which ordinarily command little attention, are cut into small pieces and are competing in the New York market with small spruce and hemlock. Furthermore New England lumbermen are availing themselves of the market in Great Britain and are competing with Nova Scotia and New Brunswick there. They have one advantage over these two provinces in that they can offer better specifications both in regard to percentage of broad widths and average length. Nova Scotia's cut for 1914 is estimated at about 85,000,000 feet, which is about fifty million short of the 1913 output. The distance is due to the loss of business of foreign markets and the cessation of operations by two or three large mills in the West. Nova Scotia's cut in Halifax county is estimated at, over 30,000,000 feet.

The tonnage situation today is unpropitious. In the summer freight rates were about 85 shillings per standard. Only yesterday a shipment was booked at 50 shillings, and the price of another ship now quote the extraordinary rate of 115 shillings.

Information from some quarters regarding the local market is to the effect that it is just as good as in 1913.

In the hope that the boom prophesied in the United States market in the spring will materialize and space on steamers will not be so costly at the end of the lumbermen of Nova Scotia look forward to a good year in 1915.

A Great Blessing to be Freed of Indigestion

For Years He Suffered After Almost Every Meal—Attributes Complete Cure to Use of Dr. Chase's Kidney-Liver Pills.

The experience of many people who suffer from indigestion is like that of the writer of this letter. Stomach ailments may bring some relief, but indigestion is almost invariably the result of derangement of the liver, kidneys and bowels, and cannot be actually cured until these organs are set right.

When the liver sluggish there is constipation, and the food ferments in the bowels instead of being digested. MR. BARRETT, stated: "This is the source of pain and suffering, and the cause of such dread diseases as appendicitis, peritonitis and kidney disease. It is much better to be on the safe side and prevent such ailments than to wait until you are actually suffering from indigestion."

Mr. J. D. Barrett, Nelson, B.C., writes:—"For several years I was a great sufferer from indigestion. I had a great deal of food caused me considerable trouble, and often I could scarcely eat a meal a day. The many remedies I tried proved futile until I began the use of Dr. Chase's Kidney-Liver Pills, and after using about eight boxes I was completely cured."

"Since that time I have not troubled with indigestion, which I consider a great blessing. I feel grateful for this cure, and shall gladly answer any inquiries from persons suffering as I did."

The Evening Times and Star

ST. JOHN, N. B., JANUARY 5, 1915.

THE WAR NEWS

Last night's cables indicate that the negotiations between the governments of Britain and the United States, relative to the examination and seizure of cargoes from American ports, are proceeding toward a satisfactory conclusion.

The reports from Berlin and Petrograd with regard to the progress of the war, Austrian and Russian armies in the east are contradictory, but the Russian reports are probably more reliable, and they indicate continued Russian success in Galicia and the Carpathians, while the Germans are still unable to make effective progress in the region farther north.

The French, who have been persistently hammering away at the German forces in Upper Alsace ever since the beginning of the war, have lately made some important gains in that region.

A minor incident of the war was the bombardment of the capital of German East Africa by two British vessels, and the disabling of all the German vessels in the harbor. A previous British attack on this German military station had been repulsed.

An Ottawa despatch says it is understood that the second Canadian contingent will leave for England early in March and that probably one brigade will be sent to Egypt, where a portion of the mounted rifles now being enlisted may also be sent at a later date.

THE FLEMING AFTERMATH

The readers of the Standard are fed with some remarkable statements in the reports of speeches delivered at Hartland and St. Stephen last evening. Mr. J. K. Flemming spoke at Hartland, and Premier Clarke spoke at St. Stephen.

The fact that Mr. Fleming is no longer premier explains the meeting at St. Stephen. It explains also the meeting at Hartland. Because of transactions which disgraced the province while Mr. Fleming was premier, that office has been given to Mr. Clarke. But a candidate nominated by Mr. Fleming is running in Carleton county as a supporter of Mr. Clarke and his government. It is certainly a remarkable condition of affairs.

Premier Clarke, we are told by the Standard, "referred to the Flemming race at some length, and in conclusion said that so far as preventing wrongdoing in the future was concerned he would be with any such movement." His friends will regret that Mr. Clarke and his colleagues were so utterly unable or unwilling to prevent the wrong-doing of the past. It is to be regretted that the leader of a government who was being honored by his fellow citizens should have so far forgotten his own duty and responsibility as to say that in the matter of the Royal Commission "if Mr. Carvell had desired W. H. Berry to give evidence Carvell was the man who could have produced Berry." Premier Clarke knows perfectly well, not only that Mr. Carvell used every means within his power to secure the evidence of Berry, but that Mr. Clarke himself and Mr. Fleming, both flatly refused to aid in securing Berry's testimony. Referring to the Valley Railway, Premier Clarke is reported to have said that "owing to the outbreak of war money could not be obtained to aid the construction of the road." Compare this statement with that by Mr. F. B. Carvell in Woodstock a few days ago. Mr. Carvell said:—

"Why don't they build the road from Centreville to Anderson? The money has been provided. They tell you on account of the war the bonds cannot be sold. Gentlemen, they sold the bonds to build 170 miles of road, and only built 120 miles. They should have a million dollars available. Where is it?" This question should be answered.

Mr. Fleming, speaking at Hartland last night, declared that "in the Valley Railway matter it had been shown that the books had been kept in a thoroughly satisfactory manner." Mr. Fleming knew when he was making this statement that every effort on the part not only of Mr. Carvell but of the Royal Commission to get certain books from New York, which would have told the truth about the matter, ended in failure, although Mr. Fleming and his colleagues could easily have secured the books if they had been willing to permit the truth to come out.

The meeting in Hartland was convened by the presence of Messrs. J. A. Barry and G. Earle Logan of St. John. Mr. Barry is alleged to have asserted that "he could show that Carter and Vennell were to be paid \$10,000 as detectives to

ruin the Hon. J. K. Flemming, and Carvell knew all about the matter." If Mr. Barry can show anything of the sort he has for a long time failed in his duty to the people of this province. He knows, however, that when before the Royal Commission Mr. Baxter in his evidence made a mysterious allusion to \$10,000, Mr. Carter and Mr. Carvell promptly and on oath denied any knowledge of any such transaction, and neither then nor since has Mr. Baxter or anyone else made any attempt to connect these gentlemen in any way with such a conspiracy as that which Mr. Barry attempts to impose upon the credibility of the people of Carleton county.

It is very evident to whoever takes the trouble to read the reports of the speeches made in behalf of Mr. Fleming's candidate in Carleton county that an attempt is being made to deceive the people, and to win a victory by a campaign of slander and vilification.

MR. FLEMING'S CANDIDATE

The representatives of the good government party in Carleton county are not letting Mr. B. Frank Smith and his friends get away from the fact that the present government steadily supported Mr. Fleming, and that its members have not yet denounced Mr. Fleming and his works. Mr. B. F. Smith is Mr. Fleming's candidate. If the people endorse Mr. Smith they will also endorse Mr. Fleming. If they endorse the present government they will also be endorsing Mr. Fleming. The latter is campaigning vigorously in Mr. Smith's behalf. Mr. Smith appears to be entirely satisfied with Mr. Fleming, although he is no longer premier and has resigned his seat in the legislature. It would be an amazing thing if the people of Carleton county should by their votes appear to endorse the conduct of Mr. Fleming, or for that matter the conduct of Mr. Smith himself. But there is another consideration which ought to weigh with them. It is the exposure by Hon. Mr. Robinson of the provincial government finances, and the revelations that have been made of the dangerous road this government is treading in its administration of provincial affairs.

There is great need of a change, and since the issue has been joined in Carleton county the friends of good government should rally to the support of Mr. Simms. The eyes of the province are on Carleton county.

The Carleton Sentinel suggests that the new attorney general bring his duties by an action to recover that \$20,000 collected by Mr. Berry from the Dalhousie Lumber Company as "balance on stumpage," but not paid into the revenues of the province.

It is stated that the supply of school teachers in New Brunswick is more scarce than in any other province. The male teachers have almost entirely supplanted male teachers in grammar and superior grades, while first and second class male teachers have difficulty in securing positions. This is not a satisfactory condition of affairs.

At the last meeting of the Chatham Board of Trade the question of establishing a butter factory in connection with a flour and feed mill was discussed, and special reference was made to the great benefit of butter factories to agricultural communities, as shown by Professor Cumming in his address at the Amherst Conference.

In Burlington county, New Jersey, the pupils of the rural schools are to take an agricultural course. Under competent guidance they will report on the number of members in each family, the number of acres in each farm, the acre cultivated and planted, the yield of different crops, the number of live stock kept, and other such information. An article on the subject says that this plan has been successfully tried in Tomkins county, New York, under the management of the George Junior Republic, and it works well in Burlington county. It will be tried in other parts of New Jersey.

THE WEEK OF PRAYER

The week of prayer was opened last evening. Prayer and the Kingdom was the topic in the several churches.

Anderson. Rev. Dr. Hutchinson, Rev. Dr. Steele and George Knight also were present.

There is no possibility of any firm continuing in business and selling tea of the quality of "SALADA" for less money. You can get "SALADA" Brown Label from your grocer at 35c a pound; Blue Label at 45c, and Red Label at 55c a pound, and these teas are from the choicest gardens in the island of Ceylon. All "SALADA" Teas are clean, pure and free from dust, which so many other teas are loaded with to reduce their cost.

NEURALGIA SETTLED IN HER LUNGS

No Relief From the Pain Until She Took "Fruit-atives"

Campbellville, Ont., May 5th, 1913. "I cannot speak too highly of 'Fruit-atives.' For over thirty years I have suffered from chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottles of medicine without relief. The doctor told me I would not get better, but 'Fruit-atives' proved that the doctor was wrong by giving me quick relief and finally and completely curing me.

"I would not save my present health if it was not for 'Fruit-atives' and I am glad of this opportunity of giving you this letter about such a splendid remedy as 'Fruit-atives.'"

Thoughts of Christmas. They were married at the beginning of December and the 23rd was approaching.

"You know, little wife," he said one evening, "we mustn't have any secrets from each other, must we, sweet one?" "No, darling," she whispered.

"So, he continued, 'I want you to tell me how much you intend spending on a Christmas present for me, so that I can calculate how much money I shall have left to buy one for you.'"

Warning. When she leteth thee recklessly spend, And laugheth to see thee go broke; Thou mayst jolly her on without end, For she taketh thee but as a joke.

But when she demureth at price, And chideeth for what thou hath spent, Thou art treading on treacherous ice, For the maiden hath solemn intent.

His Honor Lost. "She ought to drop dead for the awful lies she's telling," said the plaintiff, excitedly, listening to the witness for the defence. "Don't say that," admonished the judge. "She ought," repeated the plaintiff. "Don't say that again!" warned the judge. "Well, I won't, but she ought."

His Stock in Trade. The nervous little man next to the car window sized up the fat man who shared the seat with him and ventured the inquiry. "How's business?" "Can't complain," said the other laconically. "What do you deal in?" "Mothers-in-law, big game, the weather, old shirts, tramps, stranded workers, candidates, politics, and the like."

"Wattytty tryin' to do?" snarled the nervous little man. "Tryin' to kid me?" "None," the fat man grinned. "The things I have named in a large measure comprise my stock in trade. You see, my dear sir, I am a professional writer of jokes and anecdotes."—Youngstown Telegram.

Up in the Air. "What are Betty and Jack quarreling about now?" "Oh, it's one of those wireless quarrels I guess."

"Wireless quarrels? What do you mean?" "Words over nothing, you know."

NEW BRUNSWICK FINANCES. (Chatham World) The New Brunswick financial statement shows a surplus of ordinary revenue over ordinary expenditure of \$11,454.53, but to do this, \$62,283, received from the Dominion government in settlement of fishery claims, is counted as ordinary revenue. A deficit of \$55,000 would have been otherwise shown. It must, however, be noted that the war contribution of \$90,630.62 is treated as an ordinary expenditure. Although \$230,000 was borrowed on treasury bills, and all of the crown land lease bonus payments (except what Mr. Fleming holds) are included in receipts, the shortage is \$147,423.72, which is more than twice as much as it was at the same date last year.

### Acquire The "Madonna Pose" And Forever Banish The Double Chin!

LESSONS FROM IRENE HOUGH'S BEAUTY

Irene Hough

The tilting of her chin made her face more nearly the classic oval.

(By Idah McGlone Gibson.)

I think that you can improve your beauty more from the judicious use of a mirror than by the use of the most wonderful cosmetic in the world. Did you ever notice that when you looked in the mirror you always smile at yourself. Unconsciously you try to look your best and in doing so you smile. I realized this the other day when catching Miss Irene Hough in a "Madonna pose."

It seemed to me that I had never seen anything more beautiful, although for once her mobile mouth had lost its ever-ready smile. It was this pose that brought out the beautiful shape of Miss Hough's eyes and the delicate marking of her eyebrows.

The tilting of her chin made her face more nearly the classic oval and threw her throat into more sculptural lines. Any girl of the "Madonna type" can soon make this pose her own by getting it properly before her mirror and it will add to her good looks 50 per cent.

She must be, however, very careful to make the most of her eyebrows and eyelashes, if she grooms herself for the "Madonna type."

A little yellow vaseline on an eyebrow brush with which you carefully brush your eyebrows night and morning will put them into good shape.

Do not run the brush the length of the eyebrow and consider the work done, instead, brush the hair on your brows up and then draw it along the top of the brow. You will find that this will make your eyebrows look heavier and acquire better shape.

Brush your eyelashes on the upper lid up and those on the under lid down. It might also be whispered in the ear of the beauty seeking girl that if one uses this pose of the head, habitually, one will never have a double chin.

### MORNING NEWS OF THE WAR

Nairobi, British East Africa, via London, Jan. 4, 11.17 p. m.—The British battleship Goliath and light cruiser Fox have carried out successful operations against Dar-Es-Salaam, capital of German East Africa. The warships bombarded the town, inflicting considerable damage. All the German vessels in the harbor were disabled. Fourteen Europeans and twenty natives were taken prisoners.

The British loss was one killed and twelve wounded.

Early in the war a British expedition was sent against Dar-Es-Salaam, but met unexpected resistance and was forced to retire with heavy losses. Among the casualties was Capt. R. Carr-Harris, of the Royal Engineers, a son of Prof. Carr-Harris, of Bathurst (N. B.).

The Goliath, is a battleship built in 1898, 12,950 tons, with a speed of 18 knots, 700 men, and carries four 12-inch and twelve 6-inch guns.

The Fox is one of the old type of light cruisers, built in 1893, 4,360 tons, with a speed of 19.5 knots, 312 men, and carries two 6-inch and eight 4.7 guns.

London, Jan. 4, 7.45 p. m.—The British government's reply to the American note concerning contraband probably will be sent by the end of this week. An outline of the reply has been submitted to France, which is greatly interested because of the activity of French ships in searching Mediterranean cargoes.

Probably there will be a statement shortly, showing that Italy and England and her allies have arrived at an understanding concerning contraband, satisfactory to all the countries affected.

It can be authoritatively stated that only five cargoes destined for Italy have been stopped at Gibraltar since November 15. Two of these were released within three days, and the others as soon as the alleged contraband in their cargoes could be removed. Since December 4, no cargoes destined for Italy have been intercepted by the Allies.

Rubber cargoes, held in English ports, destined for American firms, probably will be released shortly, or purchased by Great Britain, which needs much rubber for the manufacture of tires, bed blankets and boots.

Constant negotiations are in progress between the Allies and the neutral European countries near Germany looking to a tightening of the export regulations which will prevent American shipments from reaching Germany and Austria through neighboring countries other than Italy.

A loosening of the regulations applying to American cargoes, it is said by British officials, will depend largely on the assurances received from neutral countries that they will not assist in supplying Germany, Austria and Turkey with munitions of war.

### "EARL GREY'S" EXCITING TRIP

Canadian Icebreaker Coveted by Germans on Way to Archangel

(Montreal Gazette.)

That the Canadian icebreaker Earl Grey had a lively time dodging German warships on her long voyage from Quebec to Archangel, on the northern coast of Russia, is shown by a letter recently received from Alfred Tattersall, of Welland, Ont., a brother of Captain Tattersall, who was for many years with the 3rd Victoria Rifles, and is now with the Army Medical Corps training for service with the 2nd Canadian Contingent.

Mr. Tattersall gives a lively description of the trip, as follows:

"Arrived here (Archangel) late last night after a rather exciting passage right across the ocean from Halifax. The Germans were certainly on the lookout for us, as this ship was sent over to the Russians as an ice breaker, as she is the second largest one in the world, and the Russians want to try and keep this port open for the passage of troops during the winter, as it is frozen in most of the year. It is away in the Arctic circle and pretty cold, about the most northern port in Russia. We expect to turn her over to the Russians in a few days, and then it is up to the Russian government to get us back to Canada either by ship, or by rail across Russia to Japan, we don't know yet, but the sooner the better for me. We certainly had some trip, and it was up to us not to get taken. They were all over, but we managed to dodge them. It would have been a feather in their cap to catch us, but luck was with us, and you can bet it was a great surprise to us all, but thank God, we are safe. It certainly was an anxious time. We were all alone, too, no warship to escort us, and had to take our chance."

### EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful, effervescent, lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

### PURE FOOD CHAMPION HAS OFFICIAL CLUB NOW

Mrs. E. W. Dunk

Detroit, Mich., Jan. 5.—Detroit's pure food champion, Mrs. E. W. Dunk, will have official prestige hereafter in her warfare against poor food at high prices. Mrs. Dunk has been appointed deputy food inspector of Detroit, the only woman to hold such an office in Michigan and probably the only woman in the United States to have an official say in food regulation.

Mrs. Dunk is president of the Detroit Housewives' League and a member of several organizations devoted to home interests.

Unless Rexall Ordinaries relieve your bowel troubles and make you feel like coming back to thank us for telling you about them, then come back anyway, and ask us to give you back your money. This is just as strong as we can make this guarantee, and we want to make it strong, because we believe that Rexall Ordinaries are the best bowel remedy made.

Soothing and easy in action, they cleanse the bowels, thoroughly loosen and strengthen them, and make you feel great. They promote easy and regular bowel action, help to promptly relieve constipation and overcome its cause. In these things they differ from old-fashioned, harsh, disagreeable salts and other physics which usually give only temporary relief and often leave the bowels in worse condition than ever. They taste like candy and even children like them. They are particularly good for children and the delicate and aged people. In vest pocket tin boxes, 10c, 25c, 50c. You can buy Rexall Ordinaries only at the Rexall Stores, and in this town only of us.

### FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman who has had the same trouble and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

corroborates defendant as to the sale, but says it was for sixty-five cents on the dollar. The defendant is asked if he ever made up a list of the goods which were the subject of the verbal purchase; his answer is, "No, he never saw a list of them."

In weighing the evidence of the defendant and coming to a conclusion as to whether he was telling the truth, I cannot exclude from my consideration the fact that he acted fraudulently as to the other transaction and as to that I have no doubt at all. Under all the circumstances of this case I think the burden of proof rested upon the defendant as to his ownership of the \$1,000 lot of goods.

**SPEED!—NEW WHITE SOX CRY—MEANS VICTORY IF IT'S SPEED OF BRAIN AS WELL AS MUSCLE**

**Bascher**  
(By Hugs S. Fullerton.)  
Clarence Rowland, the new manager of the Chicago White Sox, is coming into baseball with one big theory and a whole lot of practice. How the practice will pan out depends largely upon how he White Sox, a notoriously hard team to manage in the past because of lack of team spirit, receive him. But what interests the general baseball public is his theory.  
Rowland is a firm believer in speed. He declares it is more than one-third of baseball. He has stated in his early interview that a team that steals one in three bases it starts out to steal is a pennant contender.  
Speed, of course, is an extremely desirable part of a ball club, yet speed alone does not win. The Boston Red Sox were faster before they won a world's championship than they were the year they won it. Detroit as a championship team did not have great speed, in spite of Cobb's terrific footwork. The Chicago Cubs, at their best, were only moderately fast, and the Athletics never were the fastest team in their league.  
Last season along came George Stallings with a team just moderately speedy and won by not running the bases; that is, they stole fewer bases than almost any club in their league. Even, one of the cleverest men on the bases and a man with sufficient speed to head to steal about sixty bases a year, stole less than half that number. Rowland was not playing the base-running game chiefly because their opponents thought they would.

**HERE'S HOW CHARLIE WHITE PUTS ACROSS THAT FAMOUS LEFT WING**

That a good left hook and a right cross will do more toward getting the money than a college education has been demonstrated by Charlie White, the Chicago lightweight.  
Charlie's left hook is one of the mercuries of the pugilistic age and the money his apparently frail led was made with it is cause for further wonderment. White doesn't know higher mathematics except where gate receipts are concerned but he surely does know how to time his punches to set his opponents on the nerves for the ten count.

This youngster has developed the famous left hook to a state not far short of perfection and it has carried him from the ranks of the mediocre up to creditable showings against two champions—Willie Ritchie and Freddie Welsh. Now that he possesses a powerful left he has set out to develop his right and in his last few knockouts of opponents of varied calibre he has given the dexter mitt a rest and accomplished his purpose with the right.  
Five or six years ago when White was a thin little kid around O'Connell's gym in Chicago, old Bill O'Connell who ran the place, saw possibilities in him. But White at that time was primarily a budding boxer. O'Connell saw that he needed a punch to get anywhere among the featherweights of the time—he was a feather then. So the left hook was taught him and now White is one boxer who has made the blow really famous.  
When he began he started the hook about a foot and a half from his opponent's jaw. He "telegraphed" every time. It was soon apparent that he had to shorten it or never succeed with it. The process of shortening took several years. First it came down to fifteen and twelve inches, then decreased finally to where it now is—six inches. Charlie doesn't start the hook until his foe's jaw is only six inches away from the mitt. The assured accuracy and gives just as much of a wallop as the old long-distance punch.  
But having perfected and made famous the punch, White found a new disadvantage. His opponents knew what he had before he stepped into the ring and Charlie found the jaw target plentifully padded with boxing gloves when his wallop came across. So he started hooking for the body and after a few smashes the other fellow usually dropped his mitts to guard his stomach, and White—one of the quickest men to seize an opening in the boxing game has ever seen—connected with the jaw for a knockout.  
Because Freddie Welsh will have a tough time making 133 and White enters the ring at 131 pounds, friends of the latter are howling him as the legitimate lightweight champion. If Charlie possesses the right to the honors the fans will find it out soon as he has a busy schedule ahead.

**The Largest Savings and the Utmost Satisfaction Are Assured Every Man and Boy at the Oak Hall Mid-Winter Sale**

**Of the Entire Retail Stocks, Together With Their Factory's Surplus Wholesale Stock, WHICH STARTS FRIDAY**

Conditions make this the most remarkable money-saving chance we've ever been able to offer. There are much bigger dividends than the savings indicate for the man who takes advantage of this opportunity.  
In the first place, the clothing in this sale is worth more than 100% of its full price, because when you buy of Oak Hall, you buy directly of the maker and you save the middleman's profit. Hence our original prices for these clothes were far below the regular prices of any other store.  
But there's another reason—the cost of all classes of Woollens is advancing rapidly on account of the war and the cost of production is also increasing. The result of this double advance will be higher prices for all kinds of Clothing.  
Under these conditions, we could, if we wished, put all this clothing away until next fall, and then readily sell it—as an unusual value—at its full price. But it is against our policy to carry goods over, no matter how great the temptation.  
Of course there's plenty of wearing time ahead this season for any of these clothes. But if you want to get the most out of this opportunity buy for next year as well as for immediate use.  
**COME TO THIS SALE IF YOU POSSIBLY CAN—IT WILL BE WORTH A JOURNEY FROM ANY DISTANCE.**

SKATING

McLean Issues a Defi
McLean, former amateur skating champion recently declared a professional, announces that he has backing up to \$5,000 for a series of races against Lamy, Baptie or Wood on eastern ice. McLean says that Saranac Lake, St. Nicholas rink in New York or the arena surface in Boston would be acceptable to him, suggesting that the races go to the promoters making the biggest bid for the attraction.

BASEBALL

Burns May Play Third
John McGraw has decided to give George Burns, his great outfielder, a try at third base this spring. Burns used to play infield and he played it in great style. That was in the minors. When he went to the Giants, McGraw needed an outfielder, so he put Burns in the outfield, and Burns developed into the greatest outfielder in the National League.

Champion John L.
While everybody was hustling to get indoors a few nights ago in Cincinnati, John L. Sullivan was seen calmly walking down Vine street with his coat open. "I hear that the mercury is down to the zero mark," said an old-time friend of Sullivan's, rubbing his ears to keep them warm. "That does not interest me," remarked Sully. "I work harder in the red hot sun during the summer months than I do when it's cool. I never suffered from the heat in my life, and the colder the day the better I feel. This business of wrapping up your body like an express package is killing more people than the plague."

Sullivan was the champion London prize ring fighter of the world. Although he took part in many real prize fights and took a world of punishment yet he did not receive a mark of any kind. He looks more like a senator than a prize fighter. John attributes his youthful appearance to the fact that he studied fighting and always prepared himself in a proper way for fights. He says that the same holds good in regard to one's health. He is careful of his habits in summer and does not eat too much food in hot weather. In winter he takes every precaution not to catch cold, but above all things does not wear clothing that is too heavy for one day and too light for the next.

A Resourceful Second.
They don't produce seconds who can compare with Spider Kelly and Tim McGrath, said Billy Rottic of New York recently. "Kelly and McGrath were the two slickest generals who ever coached a man in a corner. One night in San Francisco Al Nell was boxing Young Peter Jackson, a tough one. Al had his man outpointed but was growing tired. Then Jackson uncorked a terrific left hook and Nell's knees sagged as he backed away. Instantly Spider Kelly was up in the ring, and pointing to the big automatic time clock used in this club to toll off the three minutes of fighting, he yelled above the din: "Look—hey look, men—the clock's stopped—see—see the hands are not moving."

Everyone in the house turned around to see the clock. And the funniest thing of all was to see Young Peter Jackson drop his hands and walk over to the ropes to get a good look. "In the meantime the Spider had pulled the groggy Nell into his corner and had him sponged up and fresh before Young Peter and the crowd discovered that the clock was going along as it had always gone. It was the greatest exhibition of quick wit that I ever saw and it only served to show what resourceful a fellow Kelly was."

BASEBALL.
Burns May Play Third.
John McGraw has decided to give George Burns, his great outfielder, a try at third base this spring. Burns used to play infield and he played it in great style. That was in the minors. When he went to the Giants, McGraw needed an outfielder, so he put Burns in the outfield, and Burns developed into the greatest outfielder in the National League.

Someone must have tipped the Wards off; they gave Marquard back to the Giants, thereby strengthening Brooklyn's lead.

Among the pleasant events to come is to sit on the bench and listen to Jawn McGraw the first day Rube Marquard pitches for the Giants next spring.

Miscellaneous.
Francis Outmet, national amateur golf champion, has organized a hockey team, composed entirely of golfers, and has challenged any similar club in New England.

Jack (Twin) Sullivan, who has been living in Buffalo for some time, claims the heavyweight title of last city and declares that he is entitled to a match there with Jim Flynn.

Despite the fact that horses from the United States are barred, because of the foot and mouth disease, the harness races in Canada are having unusually large fields this winter.

Jack Johnson having cabled Billy Gibson that he would box Sam McVey in Cuba after he disposed of Willard, promoter Gibson has gone to Cuba to arrange for the battle in April.

The biennial American championship checker tournament will be held in Chicago, under the auspices of the American Checker Association. Play will open on January 11. Sixty contenders from all parts of the country are expected.

BASE STEALING

Sam Langford, Sam McVey and Co. have enlisted a new punching bag, Harry Wills. He is tough enough to sub for Jim Johnson.

Jerry Travers has joined the cotton exchange in New York. Here's hoping the boll weevil doesn't get into his clubs.

McIntyre entered the ring seconded by "Big Tim" McIntyre, Nelly McIntyre, and Dan McLeod, while McDonald two in his corner his brother John A., Jack Ling, and James Cann.

Round 1.—Both men started cautiously. McDonald landed a right to the head. McIntyre sent a left to the face and both again exchanged lefts to the ribs.

Round 2.—Both men went to a lunge. Roddie landing a left to McIntyre's neck and right to the kidneys. An exchange of body blows took place, McIntyre landing a right and left to the stomach. McIntyre a possible shade in this round.

Round 3.—After a little sparring sent two rights to McIntyre's face. McIntyre ducked another hard right. Roddie missed another right and took in return a left to the stomach.

Round 4.—There was an exchange of short arm body blows at the opening of this round. McDonald landing a hard right to McIntyre's kidneys which ruled McIntyre considerably, and he ruled McDonald to the ropes, and he landed two rights to the face, and two blows to the stomach.

Round 5.—McIntyre landed three quick lefts to the face, and McDonald drew the blood from Mickey's nose by a hard left. Both landed lefts to the face.

Round 6.—McIntyre had the advantage in this round, landing a hard left and right to the jaw, taking in return a left to the face.

The next four rounds were rather slow with honors even.

Round 11.—There was a series of clinches at the beginning with in-fighting. McIntyre landed two lefts to the jaw.

Round 12.—McIntyre and McDonald started a fast pace, and McIntyre's blows showed steam behind them. Roddie appeared to be weakening at times, but he fought McIntyre hard. Roddie landed a light right to McIntyre's face, and after slipping to one knee, Mickey was up in a minute, and both men worked hard to land a blow that would end the fight. The bell found the two men exchanging rights and lefts to the face and body.

The Cause.
"Wow! How did you lose your hair?"
"Wow! I was in constant fear that I was going to lose it."

McINTYRE WON FROM McDONALD

Interesting Details of The Contest at Glace Bay By Rounds

Some 500 people witnessed a boxing match at Glace Bay on New Year's afternoon between Mickey McIntyre and Roddie McDonald, both of Glace Bay. Referee Dan Smith awarded the decision to McIntyre at the end of the twelfth round which was the limit.

The decision was well received by the majority but the supporters of McDonald were of the opinion that a draw would have been a fairer decision. McDonald however said that the better man probably won.

Both were given a hearty reception. McIntyre proved that he was in pretty good condition, although he displayed considerable fat, and it was plain that he had added a good deal of weight since his last go a year ago with Mike "Twin" Sullivan. Although he appeared a little slower on his feet he displayed all his old-time cleverness in footwork and blocking, and his left "jab" was a good deal in evidence.

McDonald said he was in the pink of condition, and he looked it. McIntyre had the advantage of some ten or twelve pounds in weight. During the greater part of the fighting McDonald showed lots of speed, but during the last few rounds the pace slackened somewhat, and it looked as if he was tiring. For the greater part McIntyre forced the fighting, McDonald fighting very cautiously. Roddie used good judgment in measuring his blows, but McIntyre, by some clever work avoided some very dangerous wallows. The bout showed that McIntyre is still quick as a flash with his left, and in avoiding punishment. McDonald showed much improvement, and although he lacks the knowledge and experience of the fine points of the game which McIntyre possesses, he possesses a hard punching power and a fairly good amount of speed, and he gave the champion a hard battle. He started the claret from Mickey's nose by a hard left, and Mickey retaliated by damaging Roddie's right eye. These were the only marks of the contest on the two men.

EXCITING GAME ON "VIC" ALLEYS

Few Pits Separate Contestants All the Way — Good Matches at Black's and St. Peter's

On the Victoria alleys last evening a very interesting game was played between teams No. 2 and No. 3. The former succeeded in clinching three points by a small margin. Four pits were all that separated the teams in the first string, two in the second, and two in the third. The following was the score:—

 FIRE THIS MORNING

About 8:15 o'clock this morning a fire broke out in a two-story wooden building, off Germain street, and back of King. The blaze started in one corner of the upstairs flat and gained considerable headway before it was extinguished. The place was occupied by R. B. Osborne, furniture repairer. His stock and machinery were quite badly damaged by fire and water. How the blaze originated is not known, as there was said to be no fire in the building since yesterday afternoon. Mr. Osborne had \$200 insurance on his stock and plant, but he said his loss would greatly exceed that amount.  
 The lower flat of the building was used by W. H. Bell for storing empty piano cases.  
 The building, which was damaged, about the top flat and roof, is owned by the James White estate.

**HIS BROTHER ON THE GOLIATH**  
**F. J. Punter of St. John Has Special Interest in Bombardment at German East Africa**  
 The despatches telling of the bombardment of Dar-Es-Salaam, the capital of German East Africa, by the British battleship Goliath and the cruiser Fox, brought to St. John man the first intimation he has had since the outbreak of the war of one of his brothers.  
 Bert Punter, brother of F. J. Punter of this city, is leading torpedo man on the Goliath and, although Mr. Punter knew that much of the policy of the admiralty in keeping naval movements secret left him in ignorance of the location of the battleship and he had been under the impression that he was in the line for the blockade in the North Sea.  
 The story was of particular interest to Mr. Punter on account of the fact that in 1896 while he was on the ship of the Fox he took part in the bombardment of Zanzibar at which time the Sultan escaped to Dar-Es-Salaam and was there protected by the Germans.  
 Another member of this family, an older brother, returned to the navy at the outbreak of the war, having previously retired as a lieutenant-colonel of service, and was appointed coxswain on a torpedo boat.

**CREDITORS' MEETINGS**  
 A meeting of the creditors of E. O. Parsons, drygoods merchant, West St. John, was held yesterday afternoon in the office of the high sheriff. Sheriff Wilson was confirmed as assignee and W. E. Foster was appointed inspector. These gentlemen were authorized to take an inventory and sell the stock for the benefit of the creditors. The liabilities are reported about \$3,200 and the assets are, nominally, about half that amount. The creditors of John G. Williams, tailor, met yesterday afternoon in the office of L. P. D. Tilley. The appointment of W. E. Foster as assignee was confirmed and he was authorized to take stock and deal with the assets in the best interests of the creditors to wind up the estate.  
**PRESENTATION**  
 Mrs. F. S. Purdy was pleasantly surprised last night when a large number of her relatives and friends invaded her home, at 98 Wall street, and during the course of a delightful social evening made her the recipient of a very handsome music cabinet, finished in mahogany. The presentation was made by Andrew Chamberlain who, in a graceful address, expressed to Mrs. Purdy the congratulations of those present on the occasion of her birthday, and wished her a bright and happy new year. Although the gift was wholly unexpected, suitable replies were made, and games, followed by light refreshments, brought a pleasant event to a successful close.

**A CASE OF INTEREST IN THE PROVINCES**  
**Miss Morrison and Her Cape Breton Children's Home - Is Known in St. John - Case in Bangor Court**  
 St. John clergymen who are familiar with her work are not inclined to agree with the statements made upon the activities of Miss Catherine M. Morrison by the United States post office authorities.  
 Miss Morrison is to be placed on trial this week in Bangor, Me., on the complaint of a post office inspector and is at present held in the city jail.  
 The charge against her is that she circulated through the mails in 1914 a magazine known as "The Ernest Worker" representing that the proceeds of sales and subscriptions were to be used for the benefit of the "Ernest Workers Society" while the government alleges, the proceeds were used for her own benefit.  
 More recently Miss Morrison has brought out another magazine known as "The Children's Advocate." The first number announces that the "Children's Christian Association" is to be organized and incorporated for the benefit of homeless children." It tells of a gift of land by A. W. Morrison, father of Miss Morrison, in Loch Lomond, Cape Breton, and tells of the plans for raising money in Cape Breton and elsewhere.  
 The fund and money are reported to amount to about forty St. Stephen people are acknowledged. Despatches mention the names of Mrs. Morrison and her wife, Miss Morrison, in her work in Maine. It is thought here that the man may be a Mr. McLennan of Cape Breton who is known to be assisting her some time ago.  
 Through the activities of Miss Morrison her associated and her friends have found for infants in several private families, but afterwards complaints were made that board had not been paid, and it is believed that this was the cause of the investigation.  
 Speaking of Miss Morrison's work this morning Rev. J. James McCaskill said that he believed that the work was perfectly legitimate and that she would have no trouble in clearing herself. While he was located in Mine he knew of her activities and knew of much good work that she did and could not believe her guilty of any intent to defraud. In the past the work has been directed towards finding homes for children in private families but that year the movement was started for the establishment of a home in Cape Breton, and he believed that it would have been started by this time if it had not been for the war. Mr. McCaskill said that ministers in Sydney, Toronto and other places had endorsed the work and evidently had faith in it.  
 Rev. J. A. McKelvin said today that he had never met Miss Morrison, but had heard of her work through friends in Sydney. From what he had heard he thought that her intentions were perfectly good but that she might be somewhat impractical and lacking in judgment. At the time the announcement was made of the plans for the establishment of the home in Cape Breton, he was minister at that place, wrote to the Sydney papers condemning the scheme as unsound on the grounds that the location is unsuitable and that the ground given as a site was of little value. Mr. McCaskill thought that the investigation would show that Miss Morrison's intentions were good even if the results were not achieved what she had intended.  
 Miss Morrison visited St. John not long since, and showed the Times the prospectus of the proposed cottage homes for children to be established in Cape Breton, and stated that it was the intention to seek incorporation, to get in touch with Mr. Bliss, and work in harmony with the Children's Protection Act of Nova Scotia. She stated that when in Moncton she secured the consent of Rev. Mr. Lawson and Mr. Marven to act on the board for New Brunswick, and she also stated to get St. John representation on the board, making the proposed children's homes available for the three maritime provinces. She was then collecting dollar subscriptions toward the fund which she said she was endeavoring to raise to begin work at Loch Lomond, C. B., this year. Miss Morrison had a long list of signatures of Nova Scotia people on her list, including well known names. The Times published a paragraph of her visit here, and there seemed no reason to doubt her sincerity. She stated that she had been engaged in similar work in Maine.  
 Two hundred and fifty men and seven officers have been recruited in Winnipeg to reinforce the Princess Patricia's and will leave Winnipeg within two weeks.

**WINNERS OF DR. MAHER'S PRIZES**  
**California Trip For Mrs. Magee of Campbellton; Boston One For Wm. Britney of St. John**  
 An event in which several thousand people throughout the city and province are greatly interested in is the big drawing that takes place once or twice a year in connection with Dr. J. D. Maher's dental business. Twelve tickets for the California trip and twelve for the Boston trip were drawn, and a similar number for the prizes given at his Halifax office. The total number in each drawing wins the prize. Should the prizes not be claimed by presentation of the tickets within a reasonable time, the next in order will be in line for them.  
 In all the drawings so far the tickets have been produced by the first on the lists. Doctor Maher insists on some one getting the prizes, as he says they must be given to some one he promised. No one need question the fairness of these drawings as they are always done by responsible and representative citizens and the people of Halifax and Nova Scotia have every assurance that their interests were well protected.  
 The drawings took place at City Hall and were carefully scrutinized by Commissioners F. L. Potts and J. V. Russell together with Richard O'Brien, managing editor of the St. John Globe. A complete list will be found on page three.  
 The winner, at present, of the free return trip to California appears to be Mrs. W. H. Magee, of Campbellton, N. B., and the winner of the Boston trip William Britney of 117 Eola street.  
 All patients having dental work performed at either of Dr. Maher's St. John offices from Jan. 1, 1915, will be entitled to chances in his next offering on the usual conditions. These conditions will be announced on this coming Saturday evening together with what he intends to do in respect to people to care for their teeth.  
 Evidently the war does not effect Doctor Maher's business.

**MRS. GEORGE WHITE IS SHOT IN LUNG**  
 Taking Cartridges From Revolver so as to Safeguard Children  
 Mrs. George White received a bullet in the chest from a 22 calibre revolver in her own hand, and the bullet entered her chest. Dr. A. E. Logic was called and dressed the wound, and she was taken in the ambulance to the hospital.  
 Mrs. White, who lives at 104 Britain street, says that while she was cleaning the gun, which was badly rusted, it was said that the bullet entered her chest. Dr. A. E. Logic was called and dressed the wound, and she was taken in the ambulance to the hospital.

**TWO MATTERS IN PROBATE**  
 In the probate court today the will of James McAllister, dyer, was proved. Her will gives all her property to his wife, Jessie McAllister and nominates his son Robert, dyer, executor. He was sworn to as such. Mr. McAllister left two children by his first wife and five sons by his second wife, four of them dying at the age of a member of the ammunition column of the First Canadian Contingent and another a member of the 20th Battalion. There is no real estate; personally \$8,700. Barnhill, Ewing & Sanford are executors.  
 The court took up the matter of the estate of Mary Peters, widow of Dr. Martin H. Peters. She died intestate leaving two sons, Douglas H. Peters of St. John and Stanley E. Peters of Maryland, U. S., a daughter, Edith R. Kenney, wife of Dr. Lincoln Kenney of West End, and two children, Jeffrey and Harry, children of a deceased son Horace J. Peters and Genevieve his wife. On the petition of Edith R. Kenney, as- sessed to by Douglas H. Peters, she is appointed administratrix. Real estate is \$200; personally \$7,500. Bowyer S. Smith is proctor.

**POLICE COURT**  
 Often during the last few weeks James Doyle sought a night's rest and repose in the police station, but last night he imbued too freely and was escorted there by a custodian of the law. This morning when he was ordered to step forward and answer a charge of drunkenness he received a lecture from the magistrate, which should have a salutary effect. After the reprimand he was chided out of court as the magistrate said: "We're not going to feed the like of you, so get out."  
 Two others were fined \$8 or two months in jail, and a third who faced an additional charge of using obscene language was remanded.  
 Pearl Hampton and Alfred Hansen, the two boys, who recently escaped from the Boys' Industrial Home, and who are also called upon to answer a charge of breaking and entering J. M. Roche's home and stealing a quantity of goods were before the court this morning and arraigned for preliminary hearing.  
 J. M. Roche testified about the condition of his home and about the goods he missed. He also identified articles produced in court.  
 Sergeant Finley told about receiving word of the robbery and of the recovery of part of the property. The case will be taken up at two o'clock tomorrow afternoon.

**TO TELL ABOUT NAVY**  
 One of the features of the entertainment for the local soldiers in St. David's church on Thursday evening will be an address by F. J. Punter on some of his experiences in the British navy, illustrated with scenes which he has collected in his travels relating chiefly to naval subjects.

**OUR FREE HEMMING SALE OF HOUSEHOLD LINENS STILL CONTINUES**  
 Pre-Stocktaking Sale of  
**Children's Winter Coats**  
 Tomorrow (Wednesday) and balance of week, School or more dressy coats at about half price and less  
 Every garment in our Children's Coat Section must be sold before taking stock. This is necessary for us. Consequently we are in a position that we are compelled to sacrifice the remainder of these garments at prices previously unheard of in the history of the girl's coat business in this province.  
 The natty little garments are made in the season's most up-to-date and clever models of the most stylish fabrics, in dressy and serviceable mixed color effects. Sizes are for 3 to 12 years of age. But to fully appreciate these bargains, you must call and examine the goods themselves. Regular prices were from \$4.50 to \$12. Sale prices, \$1.95 to \$5.50 each

**The Patent Potato Pot**  
 Have You Seen One?  
 The PATENT POTATO POT does away with all dangers of scalding or burning the hands and arms when draining the potatoes. The cover is held on by the handle and never falls off when the pot is being drained. A patent lip covers the spout and prevents the steam from escaping.  
 The PATENT POTATO POT comes in three sizes and in three different wires—Imperial, Canada and Sterling. No kitchen outfit complete without one. Price from 60c. to \$1.25.

**OAK HALL'S GREAT MID-WINTER SALE STARTS FRIDAY MORNING**  
 Annually this is the greatest clothing event of the year. It includes our entire stock of Men's and Boys' Clothing and Furnishings; not an article of any kind withheld from the price-cutter. How do you judge clothing value? Merely by the newspaper announcements? Not if you are like most men nowadays.  
 The lure of "bargain" prices is flashed at you from a number of stores, large and small. It all depends upon whose name is back of the advertising as to the genuineness of the bargains. You have our guarantee that all bargains at this sale, as well as all sales we hold, are REAL.  
 If any garments should prove unsatisfactory, another in its place.
