MARTY DUPREE AT THE QUEEN SQUARE

Marty Dupree with her company of clever entertainers still maintain the excellent standard of clean and clever entertainment in their new offering "Razale Daale." The bill is full of good singing, dancing, comedy and musical specialties. Some of the outstanding features of the show last evening were: Edna DeSaules, in a hard shoe dance; Bonnie Drohan and Frank O'Neil, in a piano specialty; Allie Bayley, in "Say It With Liqueur"; Cliff Blanchard, in "Lacey." Particular mention must be given Messrs. Smith and Drohan in their mind reading specialty, which called for rounds of applause. The versatile Marty Dupree, as usual, pleased the audience with her singing and dancing.

Next week is farewell week for this company and Miss Dupree still has a few surprises for the patrons of the Queen Square Theatre.

THE ELEMENTS OF CHARACTER. Lack of capital is one thing that prevents many good men from embarking in business for themselves; while they might make a decided success when

once established, yet they do not have the necessary funds to take the initial step. In addition to the tangible asset of cash there are other assets necessary to a man's progress, and these he can develop if he will, for they depend upon his ambition and his energy—and no man should lack these.

Banks, both national and state, trust companies, insurance companies, and in fact, all institutions that must necessarily have full confidence of the public in order to thrive, must invest their capital in sound, substantial securities which must have the approval of state or federal authorities. So should a man have sterling qualities which must receive the unqualified endorsement of his fellow men before he can become successful.

It is said that character is the poor man's capital; and it is indeed the backbone of success, for without it no man can win support.

To make sure of the strength of a chain we must give attention to its weakest link; likewise human character depends upon the strengthening of the weakest element which goes to make up character. The principal elements of human character—or capital—are: Confidence, ability, interest, personality, tact, action, loyalty.—W. E. Cundy, in Forbes Magazine (N. Y.)

THE MAGIC CIRCLE. I spent a week-end at the home of a youngish man who has had quite extraordinary success in creating a spirit of teamwork in the important organization he is president of. When he sat down to dinner with the family we all joined hands, in what they called "The Magic Circle," while one of the children said grace. A delightful little touch, isn't it? It made me think shortly afterwards, I participated in a conference of the executive of a business concern. At one stage there were indications of a lack of teamwork between different department heads. Something was said about the advisability of each man attending strictly to his own affairs. "The Magic Circle" incident flashed into my mind. I related it, and I rather think it produced the desired effect. There are perhaps a good many organizations that could apply this same incident and this same spirit to the running of their affairs. Is it not so?—B. C. Forbes, in Forbes Magazine (N. Y.)

WILL DEBATE WITH OXFORD. Yale to Meet Englishmen in Contest at New Haven.

New Haven, Conn., June 9.—An international debate between Oxford and Yale universities to take place in New Haven probably in September is being planned, according to an announcement by the Yale University Debating Association.

The debate will be on a subject of international importance, the cancellation of war debts having been suggested. A committee from the Yale Association has been designated to choose the subject.

The international contest was suggested in a letter from Oxford. In order to avoid a division along national lines, it is proposed that the English manner should be followed, this being that one American and two Englishmen compose one team with two Americans and one Englishman the other. The decision as to which university won would be based upon individual merits and not upon the team performances.

The Yale University Debate Association has also decided to organize an intercollegiate debating league next fall, which is planned to comprise Yale, Harvard, Princeton, Dartmouth, Bates and Cornell, with the possibility of Wesleyan, Brown and Columbia as charter members.

THE ROTARIANS IN FREDERICTON

(Fredericton Gleaser.) More than twenty visitors from the St. John Rotary Club journeyed to Fredericton by private C. P. R. Pullman sleeper last evening to participate in the ceremony which was held here when the charter of the recently organized Fredericton Rotary Club was presented to President R. L. Phillips by E. J. Terry, past president of the St. John Rotary Club, in the absence of District Governor R. D. Patterson, at a luncheon held for this purpose. The visitors were met at the C. P. R. station on their arrival by a delegation from the Fredericton club and conducted to the Fredericton City Club, where they were taken for a motor drive around the city prior to the luncheon, which was held in the Y. M. C. A. rooms. In presenting the charter Mr. Terry delivered a short address on the principals of Rotary and the work accomplished by some of the other clubs. Following the response by President Phillips in receiving the charter, an address on the meaning of membership was given by A. P. Foster, of St. John, who was followed by R. A. McAvity of St. John. Among the Fredericton speakers were Dr. W. C. Kierstead, who spoke on the principals of the golden rule; W. W. Lasky, Rev. A. F. Bate, and T. A. MacDonald, secretary of the local organization. A number of vocal selections were rendered by R. A. McAvity and E. H. Cairns of St. John, the St. John party joining in the choruses. Numerous skits and sketches on various members were kept up during the evening by the visitors, who took hold of the gathering in a lively manner. Congratulations from L. B. Atherton, of Colorado Springs, on the success of the new club were read during the evening's programme. TRAVELERS CHARGE HOTEL PROFITEERING. Prices Are 300 Per Cent. The Evening Times and Star

ST. JOHN, N. B., JUNE 9, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

TOMORROW'S VOTE.

The electors of St. John county will decide tomorrow whether they prefer to support the Foster government and its record of progressive and beneficial legislation, or a party which has put forward no policy; whose leader is himself not a member of the legislature; and which is still controlled by the influences responsible for the crown land scandal, the Valley Railway scandal, the patriotic potato scandal, and other misdoings that disgraced the province.

HEALTH ACT UNDER FIRE.

In the city of Toronto the annual expenditure for public health is \$1.65 per head of population. In New Brunswick it is about twenty cents. We hear now and then a loud protest, emanating from sources opposed to the Foster government, against the taxes levied for public health purposes. A comparison with Toronto ought to silence them forever.

St. John county has nothing to gain by opposing the Foster government. Every thoughtful elector, when he asks himself what the opposition has to offer except its old and worn-out, must realize the fact that partisanship should not be permitted to override a regard for the public interest.

MAY RENEW THE ARRANGEMENTS ABOUT NEWFOUNDLAND RAILWAY

St. John's, Nfld., June 9.—A meeting of the Newfoundland cabinet was held last night to consider the railway situation. A second shutdown of railroad and steamship systems is threatened for next Monday, when a compromise arrangement entered into on May 22 between the government and the Reid-Newtonfoundland Co. will expire.

SMUGGLING LADIES CAUGHT ON RETURN TO KINGSTON

Kingston, Ont., June 8.—Smugglers are being closely watched and several were caught on the steamer Waindler on the return trip from Cape Vincent. They were all ladies of Kingston, who took advantage of the opportunity to visit Watertown, N. Y., where they made numerous purchases. After all were fairly on board and the boat returning to Kingston, a woman customs inspector, who had been among the passengers all day taking notes, disclosed her identity, and on reaching Kingston assessed the legal duty against all who had rooks.

EXODUS FROM NEWFOUNDLAND

The St. John's News of May 31 prints the following under the heading "Where is It Going to End?": "That a general exodus is on was clearly demonstrated yesterday when numbers of young men from practically every settlement in Conception Bay boarded the incoming Carboner train to join the outgoing express at Brigus Junction.

CHICKEN LIKE TABLE, LEG AT EACH CORNER

Fort William, Ont., June 9.—A feathered chicken was hatched out here by a Red Wyandotte hen belonging to J. Macdonald, 119 East Gore street. The bird has a leg at each corner, arranged so as to scamper around on all fours like a cat, and is apparently quite normal otherwise.

Captain Philip Revwood, who operated a passenger steamer, "The Admiral," on the York River, between West Point, Va., and Baltimore, following the Civil War period, describes in a southern publication the enormous difference between boarding a ferryboat then and now.

HEIRESS AT 80 TELLS HER PLANS FOR SPENDING

New York, June 9.—Seated in the parlor of the Arlington Hotel, 1220 West 47th street, where she has made her home for the last four years, Mrs. Louise C. Ellis, eighty years old, told of the fight she has waged and won to establish her right to be buried in the same plot in Greenwood Cemetery with her parents and to establish that they were her parents in law as well as in fact.

WILL REWARD HOSPITAL.

Mrs. Ellis expressed to the physicians at the hospital her regret at not being able to contribute a large share of that \$100,000 in appreciation for what had done for her.

APPLY THE GOLDEN RULE.

"The hardest thing any executive ever has to do," declares Frank R. Chambers, chairman of the board of the Rogers Peet Company, in Forbes Magazine (N. Y.), "is to get his people to carry out the policies established by the heads of the organization. Not because they are not willing to, or lack the desire to do what is asked of them, but because they often find it difficult to interpret that the sense of good feeling which he wishes to pass on to the customer in his desire to render service. There is an intangible element in making people feel you want to do all you can for them, which is impossible to explain to a man in words. You can't tell him how to do it, but you can show him. If he lives in that atmosphere long enough he is bound to absorb it. He understands by actual experience just the part he is expected to play, and to act that way becomes second nature. We like to have every salesman put himself in the customer's position and frame of mind and then serve him just as he himself would like to be served under those conditions. We don't want to over-precise the golden rule, but the golden rule is good business."

MAJOR BROOKS BELIEVES IN SPENDING MONEY

Mr. Brooks, the opposition candidate in Kings, who is or was a school inspector, finds fault with the school system of the province. Of course the school system is far from perfect; and there may be much room for improvement. Nevertheless the following from a report of Inspector J. Brooks, published in the annual report of the schools of New Brunswick, is of interest:

"AD." MEN IN CHURCH PULPITS OF MILWAUKEE

A Feature of Associated Advertising Clubs' Convention There Next Week.

Milwaukee, June 9—Soon after it was determined that the annual convention of the Associated Advertising Clubs would be held in Milwaukee, June 11 to 15, local advertising men asked prominent Milwaukee ministers whether they would like to open their pulpits for lay sermons by advertising men on Sunday, June 11. "We accept," they said, "on condition every sermon shall be on church advertising. We want our people to know more about the power of advertising to help the church."

The advertising men accepted by organizing the most intensive programme of instruction on church advertising ever put on in this country. Not only will a "sting squad" of the keenest advertising brains in the country fill the city's pulpits on Sunday morning, but the help of the newspaper executives and other advertising men has been enlisted for a two-day session of the church advertising department of the Associated Advertising Clubs, and in order to make the work thoroughly practical, they will tell exactly how to proceed to "get church publicity over."

A battery of newspaper and advertising experts has been massed to give "crash courses" in explanation of how to fill empty pews on Sunday nights. One of the first points that will be made clear is the fact that advertising necessitates and prompts a general improvement in

conditions. Just as the merchant must have the stock to back up his advertisements, so the church finds that it is of no avail to attract congregations by advertising unless it functions effectively in every department—good sermons, good music, a friendly welcome for the newcomer.

The advertising specialists will also prove by cold facts that advertising pays the church in dollars and cents—in increased donations in the collection plate and in producing a congregation so big that the ushers will often have to seek folding chairs if they want to sit down, instead of having, as is too often the case, a choice of many empty seats.

Among the newspaper executives who will participate in the programme are Rowe Stewart, business manager of the Philadelphia Record, who will explain why the church should advertise; Duncan Clark, of the Chicago Post, who will tell what the editor considers as news; A. G. Newmeyer, associate publisher of the New Orleans Item, with a talk on "The Newspaper's Attitude Toward the Church," and Herbert Smith of New York, on "What the Church Advertising Department Has Done for the Newspapers." Ralph A. Turquist, advertising manager of the Milwaukee Journal, and Frank T. Carroll, advertising manager of the Indianapolis News, will speak on "Securing Church Advertising for the Daily Papers."

W. Frank McClure, director of publicity for the American Bond and Mortgage Co., Chicago, will give helpful hints on securing a Sunday night audience. Merle Siders, president of the Siders-Van Riper advertising agency, Indianapolis, will tell how advertising helped to build a Bible class. Incidentally, Mr. Siders's Bible class is nationally famous. J. H. Brinkmeyer, president of the Poster Advertising Association, will talk on "Should Churches Use Billboards?" Robert E. Raunsey, editor of Reflections, will take up the much discussed question of direct-mail methods for churches.

The convention of the Associated Clubs will open with an inspirational meeting in the Municipal Auditorium on Sunday afternoon, June 11, at which the speakers will be Mayor Hoan of Milwaukee, Charles Henry Mackintosh, president of the Associated Advertising Clubs, and Dr. Charles Aubrey Eaton, president of the American Educational Association. Sir Charles Higham, M. P., of London, England, will also speak.

An examination had discovered that of ninety-two boys and girls in two reformatories in Nova Scotia, twenty-six were feeble minded, twenty-three border line cases and forty-three normal, making fifty-three per cent abnormal, which was about the average in all reformatories.

For these abnormal reformatories could have no lasting influence for good. They must get the habit of righteousness by long years of training; abnormality could be recognized at six months and training should begin at that period. It was no kindness to tell the mother the child would improve but she should be taught by special methods to develop the mental and physical faculties of the child.

Dr. C. K. Clark, medical director of the national committee on mental hygiene, who made but a brief stay in the city yesterday, spoke of mental hygiene in the comparative coffee hour which welcomed him to St. John after 90 degrees further inland. He always enjoyed coming to St. John, he said.

Dr. Amyot, deputy minister of health, in discussing the paper of Dr. Clark, spoke of the difficulties which faced the

The afternoon meeting of the child welfare section of the P. H. A. was presided over by Dr. W. J. Bell. The first paper was given by Dr. Holbrook of Hamilton, who spoke of the prevention of tuberculosis in the preschool child. Adult tuberculosis, he said, was merely the rekindling of a previous infection, probably received in early childhood and much of the delay and suffering which attend the disease could be attributed to unsuspected and unrecognized tuberculosis. He advocated the education of the mother and the doctor, the public and legislators to seek to protect the child from infection.

WILL NOT CHANGE DIVORCE LAW

Presbyterians Make Decision at General Assembly. Decline to Accept Women Preachers - Church Union Report Not Ready - Home Mission and Social Service Report.

Winnipeg, June 8.—The law of the Presbyterian Church of Canada accepting adultery and wilful desertion as the only grounds for divorce justified by the Scriptures, remains unaltered. Women who have graduated by theological colleges will not receive a license to preach. These two important decisions were reported to the present assembly of the general assembly. The report of the committee on church union was not ready for presentation.

CHILDREN'S AID. The monthly meeting of the Children's Aid Society was held last night at the Children's Home, Garden street, with the president, A. M. Belding, in the chair. The report of the agent showed, among other things, that three children had been taken out of the Home during the month and there are now twenty-three little ones in the institution. One boy was placed in a prospective foster home. The usual four committees were appointed for the ensuing month.

Home Missions and Social Service. The importance of the home mission and social service department of the Canadian Presbyterian church is revealed in its annual report to the general assembly. It is the most active and varied points of contact, this service branch is of far-reaching influence, as a national as well as a religious value.

Is Now a Healthy Boy. "From a puny, delicate child, my little Johnny has become a strong sturdy boy." One mother writes: "If you had seen my little Johnny four months ago and you were to see him to-day, you would never believe that he is the same boy. Then he weighed only 49 pounds. To-day he weighs 80 pounds, almost double what he weighed four months ago. His trouble first started with a cold, which he never noticed because he was strong and like all boys of his age occasionally caught cold. After a while he began to get thinner and instead of getting better, was getting worse. He was looking pale and losing weight. He seemed to be doing nothing. Before he caught this cold he had no trouble with his lessons and remained at the head of his class without much study. But we began to notice a change. He didn't seem to care whether he knew his lessons or not and nothing seemed to interest him. He coughed a great deal and so hard at times that his face would become purple and he thought he would surely burst a blood vessel. Medicines and cough mixtures didn't do him any good. Finally, in desperation and as a last resort, we tried Carno. In a short time his cough had almost disappeared. His appetite was returning and he was beginning to take an interest in his studies. And, thanks to Carno, he has become as strong and healthy as he has ever been."

a time when, in the west at least, the people of British extraction will be in the minority. Any effort, therefore, towards sympathetic assimilation is of the highest value. Today, the Presbyterian church conducts forty-two missions among nine different nationalities. One mission alone has the children of sixteen nationalities represented in its Sunday school. In addition, the church conducts twenty-six institutions, hospitals and school houses among foreign people. The 22 children attending school homes are mostly from non-Anglo-Saxon stock. The department of the strange skills of another type of applied Christianity, conducted by the Presbyterian church, which aims to give a welcome to the migrant, as well as help to the migrant. Over twelve thousand were thus assisted during 1921, either at the ports of entry or at interior points, and many evidences of appreciation are recorded. A staff of chaplains are stationed at ports of entry of the Atlantic as well as at Toronto and Winnipeg, who render a wide range of service. The department of the strange skills of the Presbyterian church of the west and New Ontario, thirteen school homes, also in the prairie provinces, while six hundred Indian children are ministered to in the government boarding and day schools. This work is done in close cooperation with that of the board of home missions and social service.

The report of the latter board is a revelation, as has been said, of its scope and extent, touching human lives at many points and rendering service of a most practical nature to the peoples of many different nationalities. This contribution, in its totality, to the higher life of the nation cannot be overestimated and is worth public appreciation and ample support.

HEARTBURN A SEVERE CASE. Many people are troubled with heartburn who really do not realize just what it is. In cases of this trouble there is a gnawing and burning pain in the stomach attended by disturbed appetite. It is generally caused by great acidity of the stomach, and whenever too much food is taken, it is liable to ferment and become extremely sour, causing heartburn. In such cases vomiting often occurs, and what is thrown up is sour and sometimes bitter.

ROYAL WEDDING

Princess Marie, of Roumania
Becomes Bride of King
Alexander of Jugo-Slavia
—Great Political Signifi-
cance.

Belgrade, June 8.—Medieval pomp and splendor marked the wedding here today of King Alexander of Jugo-Slavia and Princess Marie of Roumania. Nearly every nation in the old and new world were represented at the ceremony, which linked the dynasties of three Balkan countries, forming a powerful barrier against future wars in this turbulent part of Europe. The event probably will remain unmatched for a long time in Balkan annals for its political significance; the festiveness and beauty of its settings; the enthusiasm and fervor of the people; the picturesqueness of the

processions, and the quaintness of the presents to the bride and groom. The bridal gown was an antique creation of white crepe georgette, with long court train, embroidered in pure silver and crystals, and the princess wore over her tulle veil a shower of scintillating gold strands. She was a picture of girlish beauty, dignity and grace as she was escorted to the altar by her father, King Ferdinand of Roumania. From her shoulders fell a large court mantle in brilliant silver, at the lower end of which the double arms of Roumania and Jugo-Slavia were embroidered in silver and gold. King Alexander presented his bride with a massive crown of gold, set with diamonds and rubies, each province of Jugo-Slavia having contributed a precious stone to the diadem. The king, who entered the church arm in arm with Queen Marie, his future mother-in-law, wore the bright full-dress uniform of a Serbian general. His best man was the Duke of York, son of King George of England. The Queen of Roumania, who has come to be known as the "Mother-in-Law of the Balkans," looked almost as youthful as the daughter she gave in marriage.

Sunoco"
Mr. J. Christie, of the Christie Woodworking Co., St. John and Amherst, says:
"Last November we put Sunoco Oil into one of our Ford Trucks. It has traveled full speed all through the winter, burning up 120 gallons of gas, but we are far from finished with the 81-4 gallons of Sunoco. We have used all other oils, but we never have had any other last or eliminate carbon bothers like Sunoco."
That's because Sunoco is not made up from cylinder stock—it's a wholly distilled, straight run oil. It doesn't split under heat, but burns down evenly. Clean out your crankcase and fill up with the grade of Sunoco for your car.

She dominated the entire ceremony, and next to the bride was easily the most conspicuous and charming figure in the cathedral. When she was not receiving the congratulations of her friends, she was busy giving directions for the execution of the wedding. The marriage was solemnized by the Serbian patriarch in the ancient Byzantine Cathedral of Belgrade. In accordance with Serbian custom, there was no civil ceremony. As the bride and groom walked up the aisle a "Te Deum" was sung. The marble altar, resplendent in porphyry and gold, was tastefully decorated with lilies and roses, among which the national colors of Roumania and Jugo-Slavia were intertwined. The bridesmaids were Princess Ilyena, the 18-year-old sister of the bride; her cousin, Grand Duchess Cyril of Russia, fourteen years old; and the little 8-year-old daughter of Princess Helen of Russia, sister of King Alexander, whose husband was killed by the Bolsheviks. The wedding was followed by a gala luncheon at the palace, at which the representatives of the foreign royal families, cabinet members and government officials were guests. In the afternoon there was a procession of deputations from the various Serbian provinces, dressed in national costumes. The day's events closed with a magnificent banquet at the palace in the evening on plates of gold, the king and new queen leaving shortly after for their castle in Bezd, Slovenia, for their honeymoon.

Duke of York Present
Among the celebrities present were: The Duke of York, representing King George of England; the Italian crown prince, representing the King of Italy; Grand Duchess Cyril of Russia, sister of the Queen of Roumania; the Infanta Beatrice, youngest sister of the Queen of Roumania; and her husband; the princess and princesses of the Greek royal family, Marshal Franchet d'Esperey, representing France, and Crown Prince

The weather was ideal for the drive and reception, and the visitors had a splendid opportunity to see the country at its best in fresh summer attire. The automobiles were provided by the Rotary club.

LOCAL NEWS
VERY WARM TODAY
 The heat wave, which has been moving east for the last few days, struck St. John this morning and as a result the mercury rose to seventy degrees. This is the highest recorded this year, but is not so high as recorded last summer. In May last year the highest point reached was 78.5, while on June 24 80 degrees was recorded.

SWIMMING SCOWS
 The city swimming scows at Marble Cove are attracting a large number of young people these days. Yesterday afternoon large numbers of school children, as well as a number of men enjoyed a dip. The scows are again in charge of Mark Burns, who is arranging for his swimming and life-saving classes. Owing to the additional accommodations provided a large number of people can be accommodated.

PUBLIC WORKS
 The city public works department has completed the laying of granite curbing along one side of Duke street between Charlotte and Sydney. Connection of the sidewalk on Prince Edward street, between Richmond and Union, delayed by the cold weather last season, is now being carried out. The new concrete stairs in Murray street have been completed except for the iron railings, which will be installed in a few days.

POLICE COURT
 J. P. Ryan was arrested last night by the detectives on a warrant charging him with assault on his wife. It was reported this morning that Mrs. Ryan was unable to leave her bed in the hospital, and the accused was remanded.
 Two juveniles arrested in connection with the theft of cement bags yesterday were brought before the sitting magistrate this morning. One of them was sent to the Boys Industrial Home for an indeterminate period and the other allowed to go on suspended sentence.

DINGHY RACES
 The second of a series of dinghy races will be held by the Royal Kennebec Yacht Club on the Kennebec river next Tuesday evening. It is expected that ten boats will be entered and considerable interest is being manifested. Robert Logan, who sailed the Winnifred II to victory in Halifax last season, has entered the race and he is being picked as a probable winner. In the first race he handled a new boat, which on its initial appearance did not make a very good showing.

TRAFFIC CASES
 Three traffic cases were taken up this morning in the police court. Turner, charged with exceeding the speed limit at the Mill street crossing, pleaded not guilty. Foliolet, McNeil and Mr. Turner gave evidence and the case was postponed until tomorrow morning. Max Lamport pleaded guilty to a charge of not sounding his horn, of not giving a signal to the policeman on the Mill street crossing, obstructing traffic. He was fined \$10. Charles Sanson, charged with speeding in Union street, said that he was endeavoring to avoid an accident. His explanation was accepted.

INSURANCE CASE
 A case against Stephen E. Barton, charged with doing insurance business between May 1 and 28 without paying the provincial tax, was resumed this morning in the police court. F. R. Taylor, K. C., and W. M. Ryan appeared for the prosecution and John B. McNeil of Fredericton, for the defence. The defendant was not in court, but it was decided to allow him to be represented and not forfeit a deposit of \$200 put up. Hugh McKay and William E. Guntler were called as witnesses. Both said that the accused had not offered to sell them any insurance as far as they could remember. The case was postponed for further evidence.

BOARD OF TRADE NOTES
 The secretary of the St. John Board of Trade has received an inquiry from Kansas City, Mo., asking for the names of dealers in sheet music in this city. The secretary has also received letters from several senators who visited the city recently, expressing their appreciation of the courtesies extended to them by the board and thanking them for sending them copies of a group photo which was taken here on the occasion of their visit. Senator R. A. Mulholland, in concluding his letter, said that he hoped that the board's expectations would be realized in securing government assistance to build the breakwater which the city so greatly desired, and which would make the harbor a truly national one.

GENERAL McLEAN RETURNS
 The Canadian Pacific "Empress of Asia" arrived at Vancouver on Monday afternoon carrying a large passenger list. Among the passengers were A. D. Breadthwaite of the Bank of Montreal, accompanied by Mrs. Breadthwaite, Major-General Sir Alfred Knox, formerly in charge of the British Mission in Siberia, and Lady Knox and General H. H. McLean, Rothesay, N. B. On the arrival of the "Empress of Asia" the Canadian Pacific inaugurated its new Empress special train service between Vancouver and Chicago. Little more than an hour after the big liner arrived the special train pulled out for the east carrying about fifty passengers. The schedule calls for Chicago in seventy-two hours.

QUIPSAMIS AND HYDRO ELECTRIC
 Community Club Formed and Matter of Formation of a Light District Under Consideration.
 Additional interest in the matter of electric lighting in the communities of Fair Vale and Quipsamis has been manifested since a semi-official announcement of an agreement having been reached at Moncton between the city council and the transway company in connection with distribution of the current there. It is felt that as soon as the agreement is signed the matter of the erection of the transmission line from St. John will be pushed.

A community club has been formed at Quipsamis with a large membership, and a meeting is scheduled for Monday night. Amongst the matters which will probably be taken up will be the joining with Fair Vale in the formation of an electric light district to handle the matter of the erection of a distribution system, joining with the transmission line on the Hampton road.

ST. JOHN HAS WON GOOD WISHES OF HEALTH CONGRESS
 Statement Expressing Appreciation of What Has Been Done for the Delegates Given Out Today.
 A statement, expressing appreciation of the delegates to the congress for the courtesies received while in the city, was given out this morning by officials of the various associations, as follows:
 "The visiting delegates of the Canadian Public Health Congress could not leave St. John without expressing their heartfelt appreciation of the magnificent arrangement made for their entertainment. They wish to express their thanks to Lieutenant Governor and Mrs. Pugsley for the wonderful hospitality at the reception at Rothesay and for the honor of his attendance at some of the meetings of the congress. Premier Foster and Mayor McLellan have both assisted the convention in every way possible and health problems presented. Naturally great things were expected of the Minister of Health, Hon. Dr. Roberts, and these were more than realized. He has presided at the various meetings in an admirable manner, and has broad vision and sound advice have been of the greatest possible value.

BRIDGE CONTRACTS AWARDED HERE
 Several announced after a meeting of the Government—Provincial Hospital Annex Affairs.
 Contracts for permanent bridges to the amount of approximately \$400,000 were awarded at a meeting of the provincial government held here this morning. They included the following:
 Four Mile Brook bridge, Madawaska county, awarded to Dexter and Richards, Fredericton, in the vicinity of \$18,000.
 Bass River bridge, Gloucester county, awarded to Connelly Brothers, Bathurst, about \$9,000.
 Monks (Trappist) bridge, concrete arch, Rogersville, Northumberland county, awarded to Hanson & Gammon, Fredericton, about \$16,000.
 Announcement of the awards was made this afternoon by Hon. P. J. Veniot, minister of public works. Yesterday afternoon, Mr. Veniot, accompanied by B. M. Hill, provincial road engineer, went to Renforth to look into the matter of an application from the residents of that suburb for the laying of a concrete sidewalk from the station as far as the church. He said today that he had obtained the necessary information and would take the application into consideration.
 Provincial Hospital Board.
 At a meeting of the commissioners of the Provincial Hospital, the matters of securing water for the annex from the main from Spruce Lake was taken up and a committee appointed to interview the city and see what arrangements could be made to tape the line. It is has caused the building up of the area. Hitherto the annex has been supplied from wells, and the new service has become necessary on account of an insufficient supply from the wells and the fact that the water to become contaminated. It was also decided to wire the annex for electric lights, which will be supplied from the Musquash hydro. Further improvements including the matter of a new pigery were also considered.

DOUKHOBORS IN THE NEWS AGAIN
 Prince Albert, Sask., June 9.—The Herald has a report that an attempt is being made by Peter Verigin, a Doukhobor leader, to induce the settlement of the set at Blain Lake to associate itself with the brotherhood and to join the communistic plan. An emissary of Peter's, named Chagan, addressed a mass meeting at Blain Lake on last Sunday, and, according to the statement of Doukhobors interviewed yesterday, met with a mixed reception. The women proposed to the adoption of the proposal, which advises the reduction of clothing to the minimum, the adoption of a standard style of dress, the simple life and the communistic plan of trading with a common purse, while the men are stated to be solidly opposed to the suggestion.

MUNICIPALITIES AND CHECK TAX

Some Points Brought Out by Delegation Heard by Hon. W. S. Fielding.

Ottawa, June 9.—(Canadian Press)—Fearing that the proposed stamp tax on checks would work a hardship to municipalities, both rural and urban, and stressing the fact that municipalities were not organized or operated for profit, a large delegation waited on the minister of finance yesterday and asked that municipal corporations be exempted from the tax. The delegation represented the Union of Canadian Municipalities.

HEALTH CONGRESS BROUGHT TO CLOSE

(Continued from page 1.) Speaking for the Red Cross Col Nasmith said that the policy of the society was to act as an auxiliary to the governing body of the country and give aid where necessary. There were some places he knew where the St. John's Ambulance was not functioning and the Red Cross had been asked to act. The society was not anxious to enter a field where any other society was engaged in like work. The objects of the society were to prompt general health education, to develop public health nursing and to expand the Junior Red Cross. A paper with a circulation of about 100,000 copies had been started and was bringing results. It was felt that a great deal of public health literature lacked penetrative power. The aim was to arouse the public health conscience.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

Lesson 21. THE OSCILLATION TRANSFORMER. By means of the oscillation transformer the energy of the oscillations in the closed circuit is transferred to the open circuit to be radiated in the form of electromagnetic waves. The oscillations set up in the closed oscillatory circuit by the discharge of the condenser across the spark gap are known as radio-frequency oscillations, this name being arbitrarily applied to alternating currents whose frequency is greater than 10,000 cycles per second. Oscillations whose frequency is less than 10,000 cycles per second are known as audio-frequency oscillations due to the fact that their frequency places them in the class of audible pulsations.

Lesson 22. THE AERIAL TUNING INDUCTANCE.

1. THE AERIAL TUNING INDUCTANCE. 2. THE SHORT WAVE CONDENSER. The antenna system of the radio transmitter has a natural wave length. By means of the aerial tuning inductance a wave may be radiated which is longer than the natural wave length. This inductance usually consists of a number of turns of bare copper tubing or flat copper strip, with an adjustable sliding contact by which a number of turns or fraction of a turn may be included in the antenna circuit to furnish the required amount of inductance.

Method of Changing Wave Length.

RALSTON TO THE ROTARIANS

Nova Scotian Speaker at Los Angeles Convention

Says International Good Will Depends on Better Understanding and Cites Important Means to This End. (Canadian Press) Los Angeles, Calif., June 9.—International good will depends upon better understanding between people and nations and important means to this end are sport, friendliness, support of public men, and the education of the public, it was declared here today before the 18th annual international convention of Rotary clubs by Lieut. Col. J. L. Ralston, noted barrister of Halifax, N. S. Twice member of the Nova Scotia legislature, decorated for distinguished services in the Canadian forces during the war, Ralston is well known throughout Canada and the U. S.

LOCAL NEWS

HAS NEW CAR. The water and sewerage department has purchased a new Jewett car for the use of the department to replace the automobile destroyed by fire on the Loch Lomond road last week.

BOXING CHALLENGE. "Kid" Rudolph, a local boxer, who was defeated in a recent bout by Jack Sullivan issues a challenge to meet any exponent of the art in this city weighing from 105 to 110 pounds.

LOCAL OARSMEN. That rowing is increasing in popularity in this city is evidenced from the interest being manifested by young men at Millidgeville. A few nights ago five single shells and two four oared crews were on the placid waters of the Kennebecasis working out. The four oared crews are known as the Millidgeville Summer Club crew and Peter Gillet's crew, while the singles were: William Logan, Merrill Turner, Raymond McIntyre, Harry Giggery, Maritime Intermediate champions, and Fred Logan.

DOG KILLED, WAS TWICE RUN OVER. A brown spaniel was run over and killed in Main street noon today. While crossing the street the dog was run over by an automobile driven by Miss Olivia Greeding. While running along in pain it went under a street car, which had stopped near by. The motorist, Mrs. Greeding, who said that it was there, started his car, and the additional injuries evidently killed the animal. The accident attracted a number of people.

DIED IN EL PASO. Mrs. Elizabeth Greeding, of Adelaide street received word today of the death of her sister, Mrs. Alvin Earle, which occurred in El Paso, Texas, yesterday. She was a former resident of this city and prior to her wedding was Miss Leona Kimball, daughter of the late Moses T. and Henrietta Kimball. Besides her husband, she is survived by Mrs. Greeding, her son, and her brother, William Kimball of New Brunswick, N. J.

CAMERON-BROWN. Miss Marion Brown, daughter of Mrs. A. Brown of Halifax, and Dr. Louis Robert Cameron were married in Boston on Wednesday of this week at the Church of the Immaculate Conception. Following the wedding Dr. and Mrs. Cameron left for a trip to the southern states and on their return will reside in Brookfield. The bride is a sister of Mrs. Claude P. Richardson, 828 Rockland Road, and of Mrs. George Pierce of Pictou, Pictou Island.

AWAY TO ENGLAND. William Hawker, with his four daughters, Mrs. James B. Thompson, Miss Elizabeth Hawker, Miss Ethel Hawker and Mrs. E. M. Robertson of Digby, will leave on tonight's train for Montreal, from which port they will sail for England on the steamer Scandinavia for Southampton.

LAST EVENING, Mrs. Robertson was a surprise party by her St. John friends at the residence of her brother, Samuel H. Hawker, Hornfield street. Her assistance, your steadfast support, more it may be, your leadership is needed in forever destroying the will to war by providing and securing means whereby the warlike intentions of any nation will be frustrated by conferences, by delays and by the promotion of a good understanding and peace.

"BIG MIKE" IS HANGED; SAID HE WAS NOT GUILTY. Quebec, June 9.—Mike Prosko, alias "Big Mike," who was sentenced to death for the murder of a Pole named Kostian, at Kengama in July, 1919, is reported to have been hanged in the prison at 8 o'clock. Death was almost instantaneous.

MONOTON HAS A BUILDING BOOM. Value of Permits Three Times Greater Than Last Year—Streets and Sidewalks. (Moncton Transcript.) Building permits in Moncton this year far exceed those for the corresponding period last year. For 1921 up to June 7, the permits valued at \$106,288 and for 1922 up to June 7 they valued \$347,268 or three times the amount.

IN WALL STREET. New York, June 9.—(10:30)—Buying and selling orders in the stock market seemed to be quite evenly divided at the irregular opening of today's market. The only issue to show more than nominal changes, aside from American Sugar, which gained one point, were speculative or selective specialties. Rails, steels, equipments and motors were fractionally higher or lower, oils showing a firm tone. Prospects of easy money over the weekend added moderately to the activity of the early dealings. Foreign exchanges continued to react to latest developments in the German reparations situation. Mexican bonds again weakened, the 4 1/2 declining two points and the 5 1/4 1 1/2 points.

NOON REPORT. New York, June 9 (noon)—The three per cent opening rate for call money evidently offered little incentive to traders on either side of the market. Business during the morning was very light and the more substantial changes were confined to obscure issues. Among these were Dupont DeBontours, Remington, Fairbanks, Mallory, Sterling Products and United Drug, these gaining one to almost three points. Domestic stocks were mostly steady, with the exception of Sinclair and Maryland which became reactionary and the so-called merger steels were subjected to fresh selling pressure. Moderate offerings of Canadian Pacific, Rutland Pfd, and Norfolk and Southern caused irregularity among the rails.

NEW COMPANIES. Toronto, June 9.—Authorized capital of \$19,128,000 is represented by companies whose incorporations were reported to the Monetary Times during the week ended June 7 covered with \$18,890,000 the previous week.

HIGHEST EVER MAN HAS BEEN

Three Mountain Climbers Get 26,800 Feet Up Mount Everest.

London, June 9.—The Times announces in its editorial columns today that some of the members of the Mount Everest party have succeeded in reaching the highest altitude ever reached by man. It says:—"Three members of the Everest expedition—Mallory, Somervell and Norton—on May 21 reached an altitude of 26,800 feet, the highest ever reached by man, just 2,200 feet below the summit. The news came in three messages which reached London yesterday from General Bruce, commander of the expedition. On May 21 the three members named, leaving the camp established on May 20, at 23,000 feet, climbed nearly 2,000 feet, and on the third day were back at what is known as Camp 3 at Changoze, 21,000 feet above sea level and three miles northward of the summit of the peak. To have got so far in a climb which was merely a kind of preliminary reconnaissance, is a very fine achievement and seems to augur well for the success of the final effort."

RILEY PLANS A NEW HIKE FOR NEXT WEEK

Toronto, June 9.—"General" Riley's "hike" will start again from Toronto on Monday for Ottawa, so Riley announced last night at a meeting of about 180 of his unemployed war veterans. Riley said they had failed to get justice either at Ottawa or in Toronto and that all they could do was to start back again and make a fresh demand. Riley quoted Colonel Morrison of the local department of soldiers civil re-education as having said that he would provide jobs for 150 men trained by the department and added that veterans would wait on Colonel Morrison today and call "his bluff."

ASK KATO TO BE JAP PREMIER

Tokyo, June 9.—Admiral Baron Kato today was offered the premiership of Japan. He asked time to consider whether he would undertake to form a cabinet to succeed that of Premier Takahashi, which resigned on Tuesday. Admiral Kato headed the Japanese delegation to the Washington conference.

BANKERS AND THE GERMAN LOAN

Paris, June 9.—The attitude of the international bankers' commission toward the question of a loan for Germany continues firm to be that no loan can be made without an entire agreement among Germany's creditors, who in this case would also be the lenders. The committee for more than two hours yesterday discussed the situation created by the reply to the reparations committee, at the end of which time, it was announced that another meeting would be held this afternoon.

CARPENTIER AND BECKETT MAY MEET AGAIN

London, June 9.—Georges Carpentier according to Sporting Life today, has verbally agreed to a return match with Joe Beckett, English heavyweight, whom Carpentier knocked out in London, two years ago and will sign a contract soon. If the arrangements go through, the newspaper says the fight will be staged in London in October.

DOYLE TO CREATE NEW HERO. And Successor to Sherlock Holmes Will Not Be a Detective.

Atlantic City, N. J., June 9.—Sir Arthur Conan Doyle said at the Hotel Ambassador that he is about to create what he believes will be a worthy successor to Sherlock Holmes, whom the great English novelist thinks too old to interest the present generation. "Just what my new character will be I do not know," said Sir Arthur. "I never try to force my thought. I feel sure, however, that my next character will not be a detective. I will break new ground."

ONTARIO LIQUOR PURCHASES.

Toronto, June 9.—Since December 1, 1919, the provincial government has purchased 783,819 gallons of liquor at a total cost of \$6,025,000 through government dispensaries. In giving this information in the legislature in answer to H. Hill's question, Attorney General Roy said that there was \$260,000 worth of liquor on hand on December 1, 1919.

CANADA'S FIRE LOSSES.

Toronto, June 9.—Fire losses in Canada during the week ended June 7, are estimated by the Monetary Times at \$392,400, compared with \$352,000 the previous week. Fire losses in Canada, in May are estimated by the Monetary Times at \$2,968,450 compared with \$2,832,100 in April.

AN INSPIRING OPEN AIR MEETING IN BEACONSFIELD

Large Audiences Listen With Attention to Spirited Addresses by E. H. McAlpine, A. W. Carton and J. A. Barry.

The Liberals of Beausfield were out in full force for the open air rally held last night in Lancaster Avenue with J. E. Murray as chairman. The City Concert band was in attendance and provided an excellent programme of music. The singing was done by A. W. Carton, E. H. McAlpine, and J. A. Barry.

Barry. The enthusiasm of the big crowd was keen and loud applause showed approval of the statements made and the sentiments expressed. The meeting began at 8.45 and lasted until nearly 11 o'clock, and Lancaster Avenue was thronged with eager listeners. Mr. Carton reviewed the road policy of the government and told of what it had brought in magnificent roads throughout the province. Mr. McAlpine touched upon the benefits of the health act, the educational policy, and also spoke of the road policy of the Foster administration. Mr. Barry spoke of the election as being one where the people might bring benefit to themselves, as by electing A. F. Bentley to represent them they would endorse the hydro-electric policy of the government, and there should not have been a by-election, because to elect Dr. J. H. Barben would be simply playing into the hands of the New Brunswick Power Company and would not encourage the government to carry on the hydro-electric policy with the same spirit as if the government supporter was elected. The meeting augured well for the success of the Liberal candidate at the polls. An opposition meeting was held in the school house at Beausfield last night.

THE METHODIST DISTRICT REPORTS SHOW GAINS

At the meeting of the St. John Methodist district, which convened yesterday in the Portland street church, the election of lay delegates to the annual conference in Sackville was completed and a full report of the situation in the Westfield district was presented. The reports of all the circuits were read, showing an increase in membership of 100 for the year. The total contributions for all purposes amounted to nearly \$100,000.

Lay Delegates Elected. The lay delegates to the conference were then elected as follows: R. Duncan Smith, John Cambridge, Hon. H. A. McKeown, J. E. Arthur, W. Grant Smith, Mrs. C. F. Sanford, G. A. Anderson, E. E. Thomas, J. K. Kelley, C. G. Cosman, P. J. Steele, F. S. Thomas, Alfred Burley, B. V. Holder, A. J. Green, P. S. Purdy, all from the city; J. Stout, Fairville; W. Anderson, Silver Falls; D. J. Sharpe, Sussex; J. E. Angerine, Hampton; Harley S. Jones, Apohaqui; George Miles, Springfield; Mrs. Robert Mosher, St. Martins; W. A. Machum, Jerusalem; Arthur Graham, Welford; E. R. Machum, Westfield; Captain Ray Holder, Long Reach; alternates, Ralph Stevenson, Mrs. Frank Skinner, Miss J. Henderson, W. Anderson, Mrs. William McCarrow, W. Brindle, A. J. Sollows, S. S. Pringle and J. H. Killen. E. R. Machum made a detailed statement concerning the Westfield district, which lost its church and parsonage in the forest fires last summer. A new parsonage has been built at a cost of \$5,000 and is being furnished and plans for a new church were being considered, but the trustees did not feel justified in commencing the building. The whole matter was referred to the consideration of the conference. J. Willard Smith addressed the meeting with reference to the temperance situation in New Brunswick and asked that a committee be appointed to formulate a resolution on the matter for presentation to the conference. A resolution was prepared and adopted expressing disapproval of the existence of the export warehouses and of their operations. The Sunday school report showed a total membership of 4,288 and total money raised amounting to \$7,905. Rev. Neil MacLauchlan was appointed to represent the district on the standing committee, with Rev. H. E. Thomas as alternate. Considerable discussion took place with regard to the work at Little River and adjoining fields. The matter was referred to a committee consisting of Rev. Dr. G. Steele and Rev. Messrs. Thomas and Fulton, to work in conjunction with the St. John Ministerial Association.

For your Silk Sweater Your silk sweater can be made dainty and clean, and as smart as new if you wash it in the gentle LUX suds. Make a rich suds by whisking a teaspoonful of LUX into half a bowlful of very hot water. Add cold water until lukewarm. Dip the sweater up and down, pressing suds repeatedly through soiled spots. Rinse in three lukewarm waters. Squeeze water out—do not twist or wring. Roll in a towel, and when nearly dry, press with a warm iron—gently pulling the garment into shape as you do so. The thin, white, satin-like flakes of LUX are made by our own exclusive process, and quickly dissolve into a rich bubbling lather. LUX is sold only in sealed packages—last proof!

ANNUAL MEETING OF LUDLOW ST. CHURCH

The eighty-first annual business meeting of the Ludlow street Baptist church was held on Wednesday evening in the vestry of the church, John F. Ring, senior deacon of the church, presiding. The meeting was well attended and a general spirit of optimism prevailed and the members of the church are looking forward to a year of great activity with the company of the Rev. W. Alvin Robins, pastor-elect, in September.

The reports from the various departments showed that the year had been one of the best in the history of the church. The report of R. C. Makenny, clerk of the church, showed that the membership on June 1, 1921, had been \$20, and that during the year five had

Joined the church by baptism and four by letter, while fifteen had been granted letters from the church, and one member had died, leaving a total of 418 on June 1, 1922. The report showed that a total of \$4,293.67 was raised during the year, and that of this amount

\$324.26 was contributed to missions, and \$206.53 to benevolences. The Sunday school raised \$1,017.86 of this total amount.

R. J. Anderson, chairman of the board of trustees, reviewed the work of the year and presented the budget for the ensuing year, which amounts to \$4,500. The budget was approved by the members and was referred to the board of trustees. R. H. Parsons reported for music committee, that the pipe organ had been overhauled and tuned during the year, and a new motor installed. Encouraging reports were received from the Sunshine Circle, Relief Society, B. Y. P. U., W. M. A., and Junior B. Y. P. U. It was announced also that the church was practically free of debt, except for \$220 which was still due on the electric motor for the pipe organ. A change has been made in the church year and the next annual meeting will not be held until early in 1924.

The officers were elected at the meeting as follows—Clerk, Roy C. Makenny; assistant clerks, Ernest F. Campbell and E. F. Ring; treasurer, E. W.

FLEET FOOT

is a Dominion Rubber System Product

For Style and Comfort

FLEET FOOT shoes changed the summer footwear habits of Canada and gave everybody the opportunity of wearing cool, comfortable, summer shoes.

FLEET FOOT revolutionized business for the retail stores, too, because these shoes created new business for the merchants during the dull season of the year. Now, you see FLEET FOOT, wherever you go.

Children, of course, delight in the foot freedom of FLEET FOOT. The younger set appreciate FLEET FOOT because Fleet Foot styles are smart.

The tired business man and busy housewife, as they change to FLEET FOOT when work is over, enjoy the foot comfort of childhood days, and rest in unalloyed pleasure.

Ask YOUR dealer to show you some of the many new and attractive styles in FLEET FOOT shoes. Try FLEET FOOT this summer and see how much better you feel.

You will recognise the genuine by the name "FLEET FOOT" on every shoe. Look for the name.

LEONARD HACHEY, BATHURST, KILLED

Bathurst, June 8.—The body of Leonard Hachey, of this town, was found on the railway tracks about one mile north of Gloucester Junction this morning.

Hachey was employed in the ballast pit at Gloucester Junction. While walking to his home last night he probably fell between the cars of a train and had probably been run over by a second train, as the body was horribly mutilated. He was about thirty-five years of age.

This morning his body was found by the crew of the ballast train lying on the tracks. The ballast train had run over him also. C. N. R. officials are investigating. Hachey was unmarried.

VOTED \$250 FOR WAR MEMORIAL

The Fundy chapter of the Imperial Order of the Daughters of the Empire has voted the sum of \$250 towards the civic monument in memory of the fallen. The chapter held its last meeting of the season last night in the G. W. V. A. rooms with the regent, Miss Alice Fairweather, presiding and the decision to vote so large a sum was heartily made, the cause appealed strongly to the chapter. The sum of \$25 was also voted and this was to go towards furnishings for the Red Cross hut at the Lancaster hospital. Miss Frances AL-

BLIND GIRL WINS HONOR AT BARNARD

Miss Catherine G. Burke is Elected a Member of Phi Beta Kappa—Takes Notes With Stylus.

New York, June 9—Despite the handicap of blindness, Miss Catherine Gemin Burke, a student in the graduating class

of the Barnard College, stood so high in her studies that she was one of the nineteen elected to Phi Beta Kappa, national honorary scholarship fraternity.

Her class has 159 members, so that about one in eight was chosen for this honor in scholarship.

Miss Burke is the second blind student to be graduated from Barnard, Miss Margaret Hogan having been graduated in 1911 with honors in her class.

Both girls did their studying and taking of notes in the same manner.

Miss Burke takes her lecture notes by the "New York point" system, holding her paper in a steel frame and making perforations with a stylus, so that a page of completed notes closely resembles a sheet of stenographic copy.

She is able to do much of her own reading when she can find books that have been printed especially for the use of the blind, but when she is assigned to read a book that has never been prepared for the "finger-reading method" she calls in her mother to help her.

Many of the students in Barnard have volunteered to help her in reading assignments, but she has always preferred the aid of her mother.

In writing her examinations and other papers she used a typewriter with a standard keyboard, and is exceptionally fast in the operation of the machine.

With her typewriter she has been able to hurry through the examinations in half the time required by her fellow students, once the questions had been read to her.

Has Exceptional Memory. Miss Burke has an exceptionally retentive memory and speaks fluently.

Unlike Helen Keller, also deaf, Miss Burke has only the misfortune of blindness and is able to hear better than the ordinary person.

History and the romance languages have been her major studies at Barnard and she has made the highest marks in

Her home in this city is at 618 West 114th street. Miss Burke talked vigorously yesterday of her work at the college, and of what she intended to do after receiving her diploma at the Columbia University commencement exercises this morning.

She is fond of outdoor life and has a special interest in canoeing. She also enjoys dancing, the theatre and the opera. She is deeply interested in social work for the adult blind, and may go into that work. She decries "sentimental sympathy" for the blind and says they ask only for intelligent co-operation.

THE PROVINCIAL COMMAND G. W. V. A.

Major H. Priestman, of McAdam, Re-elected President—Finances in Better Condition—Smoker For Delegates.

Much business was transacted at a meeting of the provincial command of the Great War Veterans' Association, held at the G. W. V. A. rooms yesterday afternoon.

Stephen, St. Andrews, McAdam, Fredericton, St. John and North Shore centres were present.

A resolution was passed that Premier Foster be approached concerning the employment of returned men by the provincial government. A matter concerning the G. W. V. A. and the D. S. C. R. was taken up and occupied most of the time of the meeting.

The financial statement showed the command to be in a flourishing financial condition, offsetting the deficit of last year. The election of officers resulted as follows: President, H. Priestman, Moncton; second vice-president, C. H. McLean, St. John; executive, G. E. Logan, St. John; J. T. Meating, McAdam; N. Cole, Chatham; G. H. T. Cockburn, St. Stephen; J. Everett, St. Andrews; and John Scott, Fredericton.

Some vice-presidents: Zone one, J. V. Kierstead; zone two, to be filled later; zone three, P. E. McLaughlin; zone four, to be filled later; zone five, Rev. Father P. G. Lockery.

After the meeting the new executive met and re-elected G. Earle Logan as secretary-treasurer. The G. W. V. A. smoker in honor of the delegates to the provincial convention was held last evening in the G. W. V. A. rooms in Wellington row.

Just imagine You Were Looking For A Job

You would probably put on the best clothes you could afford, dash into a barber shop and take the whole bill of fare.

You would want under those circumstances to look your best, not only land a job but also to get a larger salary.

Of course, you are not looking for a job. You have one. But after all, isn't every man every minute looking for a better job?

Good clothes are better than a want ad, in landing a job, and better than "pull" in holding one. Good clothes cannot push a man ahead without ability, but working with ability, oh! man, what they can do for you.

Good Clothes are the best investment a man can make. Many a man has begrudged the \$30.00 he paid for a suit, without realizing how many times \$30.00 it helped him later.

And when you decide on good clothes, have a look in this store where good clothes are the main consideration. There are many lines of clothes we don't sell, only a few we do. Those few lines have been selected for their insistence on good tailoring.

Tailoring separates good clothes from indifferent clothes. It adds to the price and doesn't show from the outside. Hence, it is easy to leave out, and many indifferent makers do so. But when you get a suit that lasts—tailoring does it, just as when you see a suit you admire, tailoring does that, too.

A Contrast of Records Strongest Argument Possible for Election of Supporter of Foster Government

Striking Comparisons Between Good Government and Previous Maladministration

Electors of Glen Falls Applaud Recital of Record of Liberal Regime and the Logical Appeals for Support for A. F. Bentley in the By-Election Tomorrow.

The electors of the newly-created polling district at Glen Falls exhibited tangible evidence of their appreciation of the stabilizing efforts in the management of the affairs of the province by the Foster administration as compared with the maladministration by their predecessors in office when they turned out in exceptionally large numbers at a meeting in the Manor House, Glen Falls, last evening in the interests of A. F. Bentley, the government candidate for the vacant county seat to be filled tomorrow, and listened most attentively to the strong and forcible addresses by Hon. Peter J. Veniot, minister of public works; Dr. L. M. Curran, M. P., and Hon. J. E. Michaud, of Edmundston.

This meeting, which was one of the best attended, proportionately, of the campaign so far, marked the second address by the minister of public works in St. John county, and he was accorded a flattering reception. His effective justification of the acts of the Foster government—particularly his own department—won for him round after round of vociferous approval in a speech that struck the keynote to victory at the polls tomorrow.

The issue. "If St. John county does not elect Mr. Bentley tomorrow, then there is no use in my trying to give this province efficient government. Remember, the eyes of the province will be on this county tomorrow, especially Kings county. Do you approve of the Foster administration—or do you not? That is the issue. I am confident that in my home in

he determined within himself that his conduct would not be such as would reflect on his colleagues and his party, nor would he place on the records of the province any stain such as had been placed there by the late administration. (Applause.) Knowing something of the methods employed by the late government—as he was one of those who had pressed the charges which finally resulted in their being swept from power in 1917—he had profited by their experience. "Since 1917 until the present time, I have not given one moment of my time to my own private business affairs," he declared. His attention had been drawn to conditions at Edmundston. He would make no promises on the eve of an election, but he did assure his hearers that the provincial government was ready to meet all necessary requirements. He deemed this a necessity. Street Railway Extension. He asserted that a canvass in connection with the extension of the street railway lines towards Red Head was being made by the opposition speakers. He declared his complete willingness to aid any extension in that section provided the street railway people met him half way. (Applause.) Concerning Mr. Palmer. As to the seatless leader of the opposition, Hon. Mr. Veniot had a word to say concerning Mr. Palmer's recent statements. This was the same gentleman who was treasurer of the Valley railway. Mr. Palmer had gone about holding up a receipt to the effect that he had handed over \$75,000 to the incoming Foster government in 1917 in connection with the Valley railway contract. Nobody denied this, said Hon. Mr. Veniot. It proved, he declared, the change he made, namely, that this check had lain in the desk at Fredericton instead of being cashed and placed to the credit of the province. All this was the truth as brought out at an investigation under oath. "And, yet, these are the men who are now asking you to trust them," said Hon. Mr. Veniot, scathingly. Road Department. In 1917, when he took charge of the road department, he found there was no organization and that incompetent officials were in charge. The \$42,000 raised from the automobile tax was being placed in the general fund and no new roads were being built. He immediately, Hon. Mr. Veniot said he set to work and obtained authority to set this automobile tax fund apart to be used for road purposes only. Money had been borrowed but provision, in the way of sinking fund, had been made to retire this debt. In 1917, there were 2,184 automobiles in the province with the tax amounting to \$42,000. This year, there were 16,000 machines, bringing in a revenue of \$320,000. (Applause.) County Improvements. What had the government done for St. John county? asked the minister. He read a detailed report of the expenditures made by his department during the last five years. \$32,527 had been spent in this period on the construction of ordinary roads and bridges, the total sum of \$32,527 had been spent in this period. He also mentioned that the late government did during its last five years of office. They spent just \$11,276," declared Hon. Mr. Veniot. Was not this matter worthy of approval, he asked. Open Books. C. D. Richards, house leader for the opposition, was traveling around declaring that the Foster government was running up enormous debts yearly. True, there were deficits. "That statement we dare not deny. Why?" he asked. He went on to explain that the books of the province were open to every one. The Foster government was not ashamed of its record as was the old government, which did not employ an independent audit. One of the first acts of the Foster government was the engaging of accountants to check up annually the financial statements. The old government falsified its accounts, he declared. School Books. Speaking of the school book canvass being made against the government, Hon. Mr. Veniot explained that under the late government the policy of books at cost was adopted. This continued to the present, except for 1918, 1919 and 1920, when the government ran behind \$24,000 in selling below cost. The opposition complained that the Foster government was responsible for the increase. "Well, I can answer them out of the words of their own newspaper organs. In an editorial of May 29, The Standard unwittingly, no doubt, justified the increase by pointing out that printing costs have increased 150 per cent. "That is the answer," declared the minister, amid applause. Furthermore, under the old government party friends received special appointments to sell school books. The Foster government changed that and mandated cash for all orders. The late government used the credit system and thousands of dollars were found to be owing the government by men who had received books and had not paid for them. Concluding his forcible address, Hon. Mr. Veniot urged every friend of the government to get down to real hard work. The issue was the record of the Foster administration. If they voted conscientiously he had no fear as to the result. Hon. J. E. Michaud. In introducing Hon. Mr. Michaud, Dr. Curran referred to him as the youngest member of the executive, and said he could not refrain asking the visitor to say a few words. The Madawaska member gracefully expressed his pleasure at being present, and as both speakers preceding him had dealt fully with the campaign issues, he said he would not fatigue his audience by repetition. "This fight, I believe, is being decided on the good record of the present government and not on the old record of the late government, therefore I will not talk about them but enumerate briefly the progressive policies of the Foster administration," said Hon. Mr. Michaud. He touched briefly on these policies, especially the health act, the increased grants to education and to agriculture, holding the debt in check, the bonded debt, and concluded by again thanking them for the privilege accorded him of speaking a few words. The meeting then adjourned with the singing of the national anthem.

"First of all," he replied very candidly, "I suppose our sense of values had a good deal to do with it. Then we had a vision of great possibilities for that part of the city. But with all our visions we did not try to go too fast and we tested every proposition by figures as to possible profits before acting. You may know you have a good thing, but in order to convince others, you must be able to get warmed up over the possibilities of your proposition." — Albert Sidney Gregg, in Forbes Magazine (N. Y.).
