Lord Byng of Vimy has been appointed the next governor-general of Canada. It is an appointment hailed with pleasure by the soldiers who served under Matt 7:12. Lord Byng, and even if he had no other Prove all things: hold fast th special qualification this would ensure him a welcome from the people at large. Byng of Vimy is a name of honor in the Dominion of Canada, for Vimy that they are endowed by their Creator Byng began his career as a soldier early in life, and served with distinction in Egypt and the Soudan, and in the South African war. In the recent great strug-gle he won new laurels and as com-When duty whispers low thou must, ander of the Canadian Corps endeared The youth replies I canhimself to our troops. An Ottawa despatch says that his popularity with the soldiers of the Dominion led to an effort to have him appointed governor-

respects an admirable representative of November, 1863. the King throughout the period of his residence in the Dominion. A man of From shame and menace free in years fine judgment and great tact, and of a democratic temperament, he has made friends everywhere. Both Canada and He marched to that heroic martyrdom. Britain have been fortunate in the choice of governors-general in years past, and the term of Lord Byng will be anticipated with confidence that the high traditions of the office will be upheld.

Company and its employes. And yet a surance of coming co-operation with the public utility should never have its ser- Allies, and especially with Great Brit. vices interrupted. Consider what would ain, and will try to forget or forgive the would be a city at the mercy of the lawless. That there are many perrsons who
would take advantage of such a situstion everybody knows. The danger is
not one to be disregarded. Consider,
also, the case of the hospitals and public institutions, if they were suddenly
deprived of light. Life itself might be
in jeopardy. It may be assumed that
both the men and the company are
mindful of the responsibility resting upon
them, but will the public be protected?
This is a question to which the city
council must give attention, and the
time is short. As already said, there
should never be an interruption of the
services of a public utility, and if the
people must organize in self-defence,

In health durited States Public
Where Are They?

## HOW DID YOU MEET IT?

Edmund Vance Cook, of Cleveland, a Canadian-American poet of striking gifts, has been in Chicago reading his poems to the school children under the auspices of the Daily News. Here is one of the best known:

Or hide your face from the light of day With a craven soul and fearful? Oh, a trouble's a ton, or a trouble's ar

Or a trouble is what you make it. and it isn't the fact that you're hurt that counts, But only how did you take it?

You are beaten to earth? Well, well, well, what's that? Come up with a smiling face! It's nothing against you to fall down

But to lie there—that's disgrace.

The harder you're thrown, why the harder you bounce,

Be proud of your blackened eye!

It isn't the fact that you're dead that

Where Are They?

A man who had made a fortune was speaking to a body of students.

"All my success," he said, "all my tremendous financial prestige, I owe to one thing alone—pluck, pluck, pluck."

He made an impressive pause, which gave one student a chance to ask:

"Yes, sir; but how are we to find the right people to pluck?"

IT WILL PENETRATE
INCH ARMOR PLATE INCH ARMOR PLATE

The United States Army has developed a .50 calibre machine gan capable of firing a bullet that will penetrate the one-inch armor plate of battle tanks at 200 yards, Major Lee O. Wright, Army Ordnance Department, announced at the annual convention of the ardnance section of the American Society of Mechanical Engineers at Rock Island, (III.), Arsenal.

The new weapon is an outgrowth of the war, Major Wright said; when fighting tanks were armored to resist the 30 calibre bullet of the rifles and machines guns then in use.

calibre bullet of the rifles and machines guns then in use.

The .50-calibre machine gun fires a bullet weighing 800 grains, as compared to the 150 grains of the standard .80-calibre ammunition. The gun is modelled along the plan of the Browning machine gun, and weighs sixty-five pounds. The gun has a muzzle velocity of 2,500 feet a second and an effective range of from 6,000 to 7,000 yards.

lay activities to some extent yesterday.

DARING ATTEMPT AT ROBBERY

An attempt at robbery was perpetrated in the store of Maurice Kashetsky, 585 Main street, about ten o'clock Wednesday morning, when a young man of

# Buy a Hoover Now!

Why spend hours these lovely summer days sweeping and dusting? It is really very unnecessary.

The Hoover Electric Suction Sweeper will thoroughly cleanse your Rugs and Carpets and make them longer lived. It restores faded colorings; straightens out crushed nap; removes all embedded grit; and takes away clinging surface matter.

With Hoover air attachments you can easily remove cobwebs from seilings; light ashes from fire places; reach down into registers; cleanse over stuffed furniture and do all sorts of dusting.

The Hoover is the only machine of its kind that Beats—As it sweeps—As it suction cleans. It does all this absolutely without the slightest harm to even the very finest carpets.

Let us demonstrate either at your home or in our Carpet Department

Chatterbox Says: Apple Blossoms! Yes, out in bloom, and how lovely they are, too; all pink and white and reen. Do you know I saw a dress of plaid gingham, or plaid gingnam, that looked just like them. Pink, white and green plaid, with collar, cuffs and pockets of pink organdie. A nother frock, made me wonder if the designer had taken his inspiration from the garden. Made of lavender linen, it boasted two or more pockets on each hip, these, bound with white pique and fastened with pearl buttons. The blouse made with a wide collar also of pique—and a fascinating narrow white kid belt. Truly a "Morning Glory." "Cornflower," I'll call a frock of blue and white dotted Swiss. But, then that's another story and I've no more space left." that looked just

# TAKES CARE

G. M. Fairweather (Sussex.)
J. Benson Mahoney, Dock Street. Ross Drug Co., Ltd., 100 King Street

TALL DRUGGISTS PRICE 50

Washington, June 4—(By Canadian Press.)—Enactment of the agricultural fariff bill, known as the emergency bill, which has just been completed, is a foresast of what is going to happen when the measure for the permanent revision of the tariff is adopted.

The rates carried in the emergency bill are so high as to be almost prohibitive and will absolutely shut out imports. It is true that these rates will be scaled down in the permanent bill. For instance, the wheat rate, in which Canada is much interested, will probable.

Spring Weather——
Sudden change from warm sunshine to raw windy days causes many an ache and pain! You

Of course the democratic members, for the most part are not in sympathy

Ross Drug Co., Ltd., 100 King Street.

Ross Drug Co., Ltd., 100 King Street.

South King Street.

South

Of course the democratic members, for the most part are not in sympathy with the plan to fix extremely high tariff rates. It is also a fact that a large number of Republicans in the house and the senate are opposed to such high high rates. But the Republican leaders in house and senate who dominate the situation are strongly in favor of high rates. Though there are some men in the administration who are fully conscious of encouraging reciprocal and mutual trade between the United States and other countries, the Harding administration as a whole leans toward higher rates. Some of the members are said to fear the danger of a tariff war when the eyes of the six hundred commissioners are turned from the map

said to fear the danger of a tariff war with Canada aand other countries.

But Representative Fordney of Michigan, 'chairman of the house ways and means committee, which makes up the tariff bill, and most of the members of that committee, as well as Chairman Penrose of the Senate finance committee and the majority of the senators on that committee, are ultra high tariff men. The permanent tariff bill will to a large extent reflect the views of those high protectionists. The high protectionists will dominate the bill, and while the low or moderate tariff exponents may be able to force concessions here and there, the indications are the supporters of high tariff will have their way and that President Harding will sign whatever bill on the tariff is presented to him.

The manner in which trade between

that President Harding will sign whatever bill on the tariff is presented to him.

The manner in which trade between the U. S. and Canada is expánding was described to some extent in the course of the discussion on the emergency tariff measure. More will be heard on the same subject in the debate on the permanent bill. Objections will be made to high rates on goods imported from Every experielly goods which are not luxuries, on the eground that such rates will tend to block trade and prevent world rehabilitation and in the long run the U. S. will suffer by such blocking of trade. But it is not expected that such objections will weigh much with my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor smedicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found Lydia E. Pinkham's Vegetable Compound and have the careof five-children and I am very thankful I have found Lydia E. Pinkham's Vegetable Compound such a help. I recommend it to any woman suffering as I was before I used it."—Mrs. MAUDE E. TAYIOB, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound.

## LOCAL NEWS

June brides swelled the number of arriages this week to eighteen. There ere twenty-five births during the week, in boys and fifteen girls.

the C. N. R. depot, was reported yesterday by C. N. R. Policeman Young. His case came up this morning and was postponed. Thomas Barrett, of hast St. John, charged with leaving his horses outside the Star Cafe, King Square, unattended and without being secured by a footstrap, was fined \$10. Charles Toilet, charged with a similar offence against the traffic by-laws, not being able to pay his fine, was sentenced to twenty days in jail. Arthur Foster, reported on a similar charge, did not make an appearance and a summons was issued against him.

gainst him.

CITY AND C. P. R.

In reference to the difference of opinion existing between the C. P. R. and the city with regard to the maintenance of the trestles on the west side, Commissioner T. H. Bullock said this morning that he had spoken to Grant Hall, the vice-president of the C. P. R., about the matter yesterday, and that Mr. Hall had said he would take it up with J. M. Woodman, superintendent of the New Brunswick division, on board President Beatty's special train to Montreal yesterday. This was interpreted by Mr. Bullock to mean that the C. P. R. and the city would get together on the matter in the near future.

AN INTERESTING COLLECTION A Times man who was in Halifax last week had a pleasant chat with Dr. J. D. Logan. Among his other tasks Dr. Logan. Among his other tasks Dr. Logan. Among his other tasks Dr. Logan is making a collection of books and pamphlets by lower province writers, to be known as the Logan collection and presented to Acadia University. He would be glad to hear of any and every fugitive publication past or present by a maritime province writer, so that the collection may be as near complete as possible. The soul of the people, he says, finds expression in these books and pamphlets, and they should be preserved and made easy for access. Communications will reach him at the office of the Daily Chronicle, Halifax.

JAS. O'NEILL GET'S

JAS. O'NEILL GETS A 3½ POUNDER AT

LOCH LOMOND

LOCH LOMOND

A magnificant trout weighing three and one half pounds was taken by James O'Neill, St. David street in the brook between the first and second brigdges near Johnston's Hotel at Loch Lomond yesterday. Mr. O'Neill was fishing bait accompanied by L. A. Conlon, who was casting fly. The speckled beauty rose for the fly but did not bite. When they beheld his magnificance the two fishermen put forth every effort to capture the trout and finally Mr. O'Neill succeeded in getting him to bite. Promptly the fish was hooked and the fight to thank began. Just as the big fish was landed the line broke. Unfortunately for the fisherman it did not break before thish was over dry land. It fell on the bank and was readily captured by the elated angler. This is the record trout of the season there, so far. Mr. O'Neill was warmly congratulated by the people at the hotel.

# **CURT SALUTION** NOT FOR HUNGARY

League for Propogation of British Etiquette Finds Little Response to Its Endeavors.

Budapest, May 13—(Associated Press by Mail)—Sympathy for England has aways been very strong in Hungary but the last two years it has been approaching anglophobia. Attempts have been made lately to transplant to Hungary the conventionalities of British society. A "League for the Propagation of British Etiquette," has been formed,

SISTER DISAPPEARED YEAR

Havana, Cuba, May 19.—(A. P., by mail.)—Provincial authoritties are conducting a searching investigation into the mysterious disappearance from his home on a ranch near Guantanamo of Candido Martinez, aged five, who, it is reported, may have been a victim of witch doctors. Three men and a woman are being held without bail for examination, one of them being known locally as a "healer" and seller of patent medicines. The aunt of the missing lad, his sole relative, says that his sister disappeared a year ago under similar

# REVIEW OF N. S. HOUSE SESSION

Total of 231 Bills Considered -Tribute to Premier on 25th Year of Office - The New Opposition.

Halifax, N. S., June 2-The session of

lic works, had been leading the government.

By resolution of the house of assembly asked the federal government to make interest on monies funded to provide bounties for Canadian fishermen in 1892, available for purposes of technical education for fishermen.

Other legislation passed included:

An act to consolidate game fishery and forest laws and to combine these services under one head; to provide for additional fire-ranging services; to provide for a big game gun license.

An act to provide for consolidation and revision of public laws which have not been revised since 1900.

An act to increase the amount of municipal tax for maintenance of highways from forty to sixty cents a hundred dollars property assessment.

An act making it necesary for chiropractors to meet the requirements of the provincial medical board. This regulation will not go into effect for one year.

governor-in-council.

An act to increase the salaries of cabinet ministers from \$5,000 to \$6,000.

A total of \$231 bills were considered

# Now! a Better, Purer Ice Cream

# It Is Carbonated

Here is the most startling story ever written about ice cream. It is the story of the discovery of a new method for making super-pure ice cream while doubling its flavor and quality. Prof. W. Paul Heath, writer of this story, is the discoverer of this new method of making carbonated ice cream. He is a scientific expert on purity food products and has contributed to modern food manufacturing some of its most priceless sanitary manufacturing methods. This story is of vital interest to every man, woman and child.

# What Is Carbonated Ice Cream?

MY SPHERE in scientific invention has been the preservation of purity in food products. For many years I have studied ice cream manufacturing for the purpose of improving the methods and increasing the purity of the product, one of the best and finest foods you can eat.

Your Ice
Cream

He takes a collection of absolutely pure ingredients and then deliberately a d d s to them air which is nev-

To explain this better I will say that if you examine ice cream under a microscope you'll find that all through it are countless thousands of tiny bubbles or cells. It is these cells, full of atmosphere, that make ice cream soft and easy to eat. But for these cells, mixed in by the paddles in freezing, ice cream would be frozen in a hard, solid mass, like ice, and would be almost impossible to eat and rot at all palatable.

Common Air
Is Always
Dangerous

Mixing common air with ice cream is always dangerous. You know how carefully the housekeeper guards against air when she is putting up fruits or vegetables. She fills the jars to the top, then sterilizes the full jars to expel every last atom of air, and screws down the lids tightly, using a rubber ring, to prevent air getting in. She knows if air gets in, that the fruit or canned vegetables will spoil.

so I tried to substitute a sterile, pure atmosphere for common air.

Making a Super-Pure

Makes Ice Cream More Delicious

vor and quality of ice cream. It emphasizes the fragrance and taste of ice cream and gives it an added richness and smoothness.

You get a better ice cream when it is carbon-ated and you get an ice cream that is safe and wholesome.

Air which spoils preserves or canned things can also spoil ice cream.

Realizing the danger of air in ice cream, air that is laden with dust and dirt, I sought to freeze it in vacuum, but that wasn't practical,

# PURITY ICE CREAM IS CARBONATED

For years we have made the purest ice cream money and brains could produce. When the Heathmade Carbonated method of making ice cream was offered to us we realized that it would add ONE HUNDRED PER CENT. purity and safety to our ice cream. So, at great expense, we secured the exclusive right to this new method of manufacturing. Our ice cream is today the purest and best that pure ingredients and scientific purity methods can produce. It is more delicious. Don't accept any other; whether you buy a dish of ice cream at a soda fountain or ice cream store, or whether you buy ice cream for home consumption, INSIST on getting our carbonated ice cream. If your dealer hasn't it, he can get it. Send us his name and address and we will see him.

Dealers—You will profit if you sell CARBONATED ICE CREAM. Get the benefit of this advertised purer and best that pure ingredients and scientific purity methods can produce. It is more delicious. Don't accept any other; whether you buy a dish of ice cream for home consumption, INSIST on getting our carbonated ice cream. If your dealer hasn't it, he can get it. Send us his name and address and we will see him.

# POKING A LITTLE FUN AT AMBASSADOR HARVEY

ROTHERAY FOR SALE

Propose from 1801 to 450 to 100 New York Evening Post.)

Perhaps the British public can better appraise than we can Col. Harvey's little dance of hate against the League of Nations. The British public is more accustomed than we are to a certain peculiar formalities of address. When a secretary for state for India cables a letter to the viceroy at Delhi to be transmitted to one of the native princes he begins with the phrase "After honorifies." This means that every communication addressed to a Hindu mogul must begin with a glowing little statement of titles, attributes, and superhuman virtues which the British civil servants in India know so well by heart that there is no need of paying cable tolls on that part of the text from London.

Just as a layer subject of the Nigam

tolls on that part of the text from London.

Just as a loyal subject of the Nizam of Hyderabad begins by comparing his of Hyderabad begins by comparing his room that all Sizes

PUNCTUALLY COMES HIGH.

dian agriculture if it is incorporated in a permanent measure. The duration of the present bill is six months. The eastern consumer in the country to the south of us will be also hit, as the change means heavy restrictions on food supplies from the north. The farmers of Canada will have to seek another outlet for their products or accept ruinously low values for a time at least, unless the efforts of the consumers to have the bill repealed prevail.

The new tariff, among other less important changes, provides for a thirty per cent, duty on cattle; thirty-five cents per bushel on wheat; twenty per cent.

PUNCTUALLY COMES HIGH.

(N. Y. Outlook)

Business men must keep appointments but sometimes the cost of punctuality is high. A newspaper reports that a Philadelphia banker had to be in Montreal on a certain morning. The Pennsylvania road was blocked by a derailment at the time and the Reading had no regular train for two hours, so the banker hired a special train of two cars which carried him to New York in an hour and twenty minutes, at a speed equal to 67.5 miles are hour. This enabled him to catch his train to Montreal. He paid \$427 for the special service.

Baked in the

music on his violin. Less than an hour later they were singing the song with two friends. Two Boston young men, Lyon and Healy, who had recently opened a music publishing house in Chicago, bought the song, after it had been rejected by other publishers. It was more than a year before it attained any popularity

ularity.

Mr. Webster was born in Manchester,
N. H., in 1920, coming to Boston when
he was twenty to study music under
Dr. Lowell Mason and other teachers.
Eight years later he lost his voice and
thereafter taught music, finally settling
in Elkhorn, Wis. He wrote many songs,
among his most famous being the cantata, "The Rebellion," and the songs,
"Lorena" and "The Golden Stair."

TOO MUCH CREDIT GIVEN U. S. NAVY

British Fleet the Keystone in the Allied Arch in Great War-Admiral Sims' View.

Rear-Admiral William S. Sims, who commanded the United States naval forces in the war zone during the last two years of the war, told Admiral Beatty, commander of the British Grand Fleet, and a distinguished assemblage of British and United States men and other prominent persons, that the British had been disposed to give the United States too much credit for the part it played in the Allied victory.

In an address at a luncheon given by the Pilgrims' Society in his honor, Admiral Sims said:

"The British Grand Fleet was the keystone in the Allied arch, without which you in this country would today be speaking German with a very strong English accent."

be speaking German with a very strong English accent."
Admiral Sims waved aside personal tributes from Admiral Beatty and Lord Desborough, asserting that had the command of the United States naval forces in Europe been entrusted to one of the forty or fifty other United States officers eligible in rank, the result would virtually have been the same.

Lord Desborough referred to Admiral

Sims as having "braved his enemies, if he has any—and he certainly has none on this side of the Atlantic—by publishing his book."

"THE SWEET BYE AND BYE."

(Boston Globe.)

The oldest suit on the docket of the United States equity court in Boston, which involved one of the best known and most popular hymns of America, "Sweet Bye and Bye," was settled out of court yesterday when the Oliver Ditson Company paid \$56,000 to the estate of Mrs. Joan H. Webster, widow of the author of the hymn, Joseph P. Webster, after the case had been pending for fiftees years.

The suit arose out of a contract for royalties and was begun in 1906 by Mrs. Webster of Elkhorn, Wis., who has since died. Her son, Louis Webster, was in court yesterday.

According to the original bill of complaint, Joseph Webster, the author, signed a contract with Lyon & Healy of Chicago on June 9, 1865, by which

## SCIENCE EXPLORES REALM OF SLEEP

(Toronto Mail and Empire)

We now have it on the authority of a scientist, Dr. Edwin F. Bowers, of New York, that of all things, sleep is the most vital. A man can go without food or water for a long period. Men have had fractured necks and have lived. Bullets have even pierced the heart without fatal results; but if a man gets no sleep for ten days he either dies or goes insane. Scientific interest in the phenomenon of sleep appears to have been stimulated by Freud's theories regarding dreams, but while Freud undertakes to understand all about dreams, investigators are by no means agreed concerning sleep. They differ as to what causes t, and why it is necessary. There are tuite half a dozen theories each with espectable exponents, but the one that Dr. Bowers speaks of with most approval; what is called the chemical theory. This is to the effect that while one is ake the expenditure of tissue is greater to the rebuilding process, but that alle one sleeps, nature takes her opporaity to restore what has been expendent on that Shakespeare had in mind nen he spoke of sleep as nature's "sweet storer."

1eep All You Can." (Toronto Mail and Empire)

leep All You Can."

But comparatively few people are incrested in an explanation of what sleep
They are more concerned in learng what is the proper amount of sleepcople who think they can get on with
dy a few hours are rather proud of
e fact. Dr. Bowers does not encourage
is sort of vanity. He says that everydy should get as much sleep as he
n. He rather pricks the bubble that
lison has blown these may years
boasting that he requires onty four
urs' sleep. He notes that Edison works
a room with a couch and that he freently indulges in a nap through the
y, thus probably getting as much
ep as the average person, and at the
ne time requiring rather a Spartan
untation. About eight or nine hours
the period required by the average
n, and a little more for a womanwing children need more still bee they have more tissue to build up.
there is some scientific justification
the old schedule of "eight for a
, nine for a woman and ten for a

fool," though the real fool would appear
to be the man who goes without necee-

# Can I really get the best -for a Dollar a Pound?

AFTER fifty years of candy-making, Ganong Brothers can speak with authority on what are the best chocolates.

And the "Fireside" Assortment is their selection after many months of painstaking study. Men and women who know confectionery values are unusually enthusiastic about it.

But the big problem was, how to put this full pound of Ganong's Best within your easy reach at a price not to exceed one dollar. Not without a twinge was it decided to sacrifice the container, for the "Fireside" Assortment is deserving of the very finest setting!

In your keen enjoyment of the amazing menu in the "Tru-Value" box, you will not miss the bevelled edge, the padded top, the dainty trimmings, the costly camouflage! And you appreciate the assurance that the quality is identical with that in the costliest gift packages where sentiment, not price, is the consideration.

All chocolate lovers who insist on getting true value for their dollar now know why Ganong Brothers have called this new box
—"Tru-Value."

# Disruptive Forces at Work To Split the Allies

The flare-up over the Silesian episode revived, for a moment at least, the persistent German dream of a break in the Entente; and at the same time it brought to the press of the Allied and Associated nations a sobering realization that the failure of France and Great Britain to reconcile their conated nations a sobering realization that the failure of France and Great Britain to reconcile their conflicting interests might fan into flames the smoldering hatreds of Europe. Thus, immediately after Lloyd George's flat-footed demand that France and Poland curb Korfanty in Silesia, a Berlin correspondent of the New York World announced "on high authority" that "a beginning has been made toward a rapproachment between Great Britain and Germany, directed against French aggression in the Ruhr and Silesia." Business competition inspired the Anglo-French friction over Silesia, thinks the Springfield Republican, which remarks that "it is plain that the British business world, while it favors the claim of France to a large indemnity, is opposed to a Franco-Polish monopoly of the coal of Europe." The Pittsburg Leader hints at French plans for a war on Russia, in which case France would find a strong Poland an invaluable ally. would find a strong Poland an invaluable ally.

The leading article in THE LITERARY DIGEST this week, June 4th, presents European and American public opinion upon the Silesian question, and a reading of it will enable the reader to obtain a clear idea of all of the points at issue.

Other news-articles in this number of "THE DIGEST" that will enlighten and entertain are:—

journed at 5.80, without a vote having been taken. The discussion will be resumed on Monday afternoon. As to how effective all the oratorical fireworks was on the minds of those who may be still wavering on the union issue, the remarks of two delegates when leaving the meeting may be significant. There was a lot of tommy rot talked there today; they might just as well have taken the vote and settled it," said one of them, and his companion agreed.

The mover and seconder of the resolution calling on the assembly to proceed at once to consummate union finished their speeches before lunch on at 2.30 p. m. Principal D. J. Fraser, of Montreal, moved an amendment that no step be taken toward uniting with other churches without a definite mandate from the people. He wished to have it understood that the anti-union section of the union committee had not agreed to let a vote of the assembly on the issue stand as representing the views of the whole church.

In seconding the amendment, Hon. R. M. McGregor, of New Glasgow (N. S.), said that he felt that every vote that was not cast for union in the referendums should be counted against union. Wylie Clark, Saskatoon, said his church had given only six votes against union. The east, he said, had not caught the vision of the west, which had a broader outlook. He thought the mandate from the people to unionize was sufficient.

Rev. Dr. John Pringle, of Sydney (N. S.), said that his experience in the min-

sufficient.

Rev. Dr. John Pringle, of Sydney (N. S.), said that his experience in the ministry all across Canada from the Yukon to the Atlantic had convinced him that union of the Presbyterian, Methodist and Congregational churches should be brought about. He was not anxious to hurry matters unnecessarily so long as this assembly placed on record its intention to go forward towards union. He believed that union was a necessity in the east, even more than in the west.

INTER-SCHOOL MEET

The annual track meet between the Consolidated schools of Rothesay, Kingston and Hampton took place yesterday afternoon from 2 o'clock to 6, on the Rothesay Collegiate School grounds, and resulted in a victory for the Rothesay entry, they scoring 59 points, Hampton 46 and Kingston 3. The highest points getters were: Senior, 120 pounds and over, Albert Monteith, Rothesay, 30 points; junior, 85 to 120 pounds, Burton DeLong, Hampton, 22 points; midgets, below 85 pounds, Murray Fairweather, Hampton, 10 points. The teams were in competition for a cup presented by Lieutenant-Governor Pugsley, and if Rothesay can repeat this year's win at the 1922 meet, it will become their property, as they have two wins to their credit now, three successive victories being necessary. The cup was won in 1918 and 1919 by Hampton.

Prizes for these winners were given by W. S. Allison, H. W. Schofield and P. F. Blanchet, of Rothesay. Mrs. Allison presented a cup which was won by the seniors.
