DOUGLAS AVENUE LEVEL CROSSING City Council is in Favor of Being Abolished Step towards caring for Unemployment—Douglas Avenue Matters Taken Up—North End Skating Rink—Lancaster Fire Equipment.

The common council in committee this morning went on record as being in favor of abolishing the level crossing at the bridge at the western end of Douglas avenue. The matter was brought up by Commissioner Prink, who said that a plan and estimate had been made by the city engineer. He understood at the railway commission was willing to bear a share of the cost and the city solicitor for report. The resolution was passed unanimously.

Commissioner Prink reported that so far as the public works department was concerned, there were two items on which work might be found for some of the unemployed this winter. He said at last year there was about \$4,000 for work on the playground at Rockwood Park and about \$4,000 of it had been expended. Some money might be put to work there again. He said that some of this work had already been done in addition to work on the water-mill track.

A bond issue had also been authorized for \$10,728 for development work on Lansdowne avenue and some \$3,000 had been expended when the work was stopped on account of an encroachment on the street line. He understood from Armstrong & Co. that this matter was being handled with the owners, Taylor & White, and if the trouble was cleared up work might be commenced again.

It was also suggested that the stone used in Kennedy street might be moved to the Shamrock grounds, recently acquired by the city, and in connection with this work some material for next year's paving. This would save for about twelve men. The commissioner said that he would make special appropriation for this expense. The mayor said that he had the names of fifteen or twenty men, most of whom were willing to do the work. He said that if the city could provide employment for them he favored doing it. The matter will be considered at the next meeting.

The mayor reported that the four gun men who had been arrested, one each at the north, south, east and west ends; each in Riverview Park, Queen street square, west. He said that he had an application from the Sons of Gland that one of the pieces be dedicated to their veteran members. Mr. Thornton was of the opinion that a special designation should be made if any of them. He thought that a name should be placed on each of the guns and he thought that it was with this end in view that the Sons of Gland had asked for the dedication of the fountain in the West End had been allowed to fall into disrepair and was now having it attended to.

Crisis At Dominion Steel Works in Sydney; Whole Plant May Close

Ultimatum From 700 Who Operate Railway at Works Seven Hour Notice Served and They Are Laid Off—Four Thousand May Be Idle Tomorrow.

(Canadian Press.) Sydney, N. S., Nov. 22—Seven hundred men were laid off at noon and 4,000 may be idle by Tuesday morning, as the result of an ultimatum delivered to the management of the Dominion Steel Corporation by its railroaders this morning. Seven hours notice was served this morning that unless the men's demands are met, the whole yard work will quit at five o'clock. Without the railroaders it is impossible to operate the plant because of the large amount of heavy hauling to be done.

The men of all departments, it was said, would be out of work on Tuesday morning unless the railway men withdrew or modified their ultimatum or unless some temporary agreement was reached between them and the management pending negotiations. The ultimatum was served on the company at ten o'clock today. It made it clear that every railway man in the company's works would be called out and that they would refuse even to do any work for protective purposes or to move any other necessary work.

The railroaders' difference with the management of the steel corporation dates from the application of the provisions of the McAdoo award to the railways of Canada, when the increased rates paid to the employees of the Sydney and Louisbourg Railway, a subsidiary of the steel corporation, were not granted the men operating the railways within the plant itself. Recently negotiations looking to settlement were renewed and when these failed the ultimatum followed.

The schedule for the Industrial League for the week will be as follows: Tonight Imperial Oil vs. McAvity's. Wednesday, W. H. Thorne & Company vs. Nashwaak Pulp & Paper Co. Saturday, Stetson, Carter & Company vs. J. S. Simms & Co. These games will be rolled on Black's alleys.

He was accompanied by Rev. S. L. Connolly, C. S. R., rector of St. Peter's church in Regina, who was formerly stationed at St. Peter's church, and who was chosen to accompany Rev. William Hogan, C. S. R., rector of St. Peter's church, to Rome where they will meet the Superior of the Congregation next spring.

SENT UP FOR TRIAL. In the Fairville court this morning before Magistrate W. H. Allingham, a case against Clarence A. Wipple, charged with stealing a bag of groceries and 10,000 BB caps from a C. P. R. car in the Fairville yards, was resumed and after the evidence of several witnesses was given the accused was sent up for trial. Inspector Catlow of the C. P. R. and Constable Costello, also of the C. P. R., were among those who gave evidence. J. A. Barry appeared in the interests of the accused.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornebaum, "a question asked last evening set me thinking. 'If you do think sometimes,' commented Hiram. 'I'm glad to know it.' 'The question,' was this: 'Do I look all right?' In my mind it suggested another—'Am I all right?' 'There's the real thing in a nutshell,' said Hiram. 'If I was as anxious to be all right as we are to look all right—the'd be a new fashion sheet—' You've seen a tree look all right till you sunk the axe into it—' 'By Hen!—You'd find it holler at the heart. We trade too much on looks. You'd best look in the papers an' the magazines that if a fellow wants to do business he's got to slick up so's to make an impression. But when I want somebody to do something I want to know what he is—not what he looks like—I ain't sayin' we he'dn't orto look well, but the folks that's always thinkin' about their looks don't git fur in this world. They're wastin' a lot of time that might be used in doin' somethin' with while. The best lookin' boy in the settlement when I was young—as far as looks went—was a sissy. He never amounted to a row of beans. He was always tryin' to git some new thing outta the store—but he's got to look all right—' 'But he's got to have a name that's knowed all over the country for what he's done—' 'The aim in jail outta. No, ain't no sense to look all right—not by a jugful.'

Talk In London Of Sending of More Troops To Ireland

League of Nations No Very Full Report Yet on Killings in Dublin

Greek Delegation Reduced—A German Protest—The Armenian Troubles. Geneva, Nov. 22—Germany's protest against the method of distributing mandates by the Allies among themselves, has been distributed among the delegates to the assembly of the league of nations. It seems probable that it will be referred to the committee on mandates without debate.

London, Nov. 22—Murder stalked through the streets of Dublin yesterday, and at nightfall the message reports received here indicated that at least twenty-five persons had been killed and upwards of 100 more or less seriously wounded. The day's disorders, which added an appalling chapter to the tragedy that has been enacted in Ireland for several months, began with the apparently deliberate shooting of fourteen men, mostly military officers, in the morning. During the afternoon, Irish constabulary, or "Black and Tans" raided Croke Park, where a football game was in progress, and in a melee which resulted in at least ten persons were killed.

Communication with Ireland was seriously interrupted last evening but was later restored. The fire had broken out in various places in Dublin. Shooting again began in the streets just before midnight and it was asserted some persons had been killed. Yesterday's murderous outbreak in Dublin produced in this city a sensation comparable to that which followed the Easter rebellion of 1916. Recent confident declarations by members of the British ministry, to the effect that their policy was succeeding, that outrages were decreasing in number and that the authority of the law was being re-established, had been hopefully welcomed by the general public. The people today read with astonishment such phrases as were uttered a fortnight ago by Premier Lloyd George, who said: "I understand a mistake, we have murder by the throat."

Whether Sunday's tragic events are to be regarded as disproof of such official assurances remains to be seen. Military authorities in Dublin are said to hold the view that the murder of the fourteen army officers, committed in the final outbreak of a nearly broken conspiracy, the last desperate throw of fugitives who are known to have fled to Dublin to escape the severity of the measures employed in the provinces to suppress Sinn Feinism.

There is no lack, however, of scornful references to the fact that these fugitives have been able to enjoy freedom from arrest since having arrived in Dublin, and could have become accurately acquainted with the residences and habits of their victims, who, it is said, were securing evidence to be submitted before the court martial which will try the recently arrested Sinn Feiners, is regarded as furnishing significant ground for doubting the confidence supposedly held by officials.

This morning's newspapers condemn the system followed in Ireland with great severity. Some demand sternest measures of repression and hint at the desirability of imposing martial law in Ireland. Some demand that the uniformed forces, take occasion to renew their protests that reprisals must be stopped. The London Times, for instance, while vehemently denouncing the murders of the officers, expresses belief that the strength of the Irish executive would be ten times greater in this emergency than for "an army periodically undisciplined" and police force avowedly beyond control, which have defied by heinous acts, England's reputation.

Ministers responsible for the administration in Ireland were called to this morning to discuss the situation. Sir Hamar Greenwood, chief secretary of state for war, who is responsible for movements of the army in Ireland, were in constant telephonic communication with Dublin on Sunday. The people of this city today eagerly awaited announcement of any new steps to be taken in the presence of this new emergency.

NEGOTIATIONS FOR PEACE BROKEN OFF BY THE REDS

Soviets Gather Great Armies to Crush Irregulars

Refugees Pour Into Poland Before Advancing Waves—Reported That Demands Will be Met and Conference Resumed.

Warsaw, Nov. 22—Negotiations looking for a permanent peace between Soviet Russia and Poland have been broken off by the former at Riga, where the delegations have been in conference. Great Soviet armies are being gathered to crush Gen. Balakovich, commander of "irregular troops" which have been operating east of the Armistice zone between Poland and Russia proper, and other Bolshevik legions are pursuing shattered Ukrainian armies which are fleeing from the region west and north-west of Kiev. All along the southeastern frontier of Poland there is pouring in a perfect rabble of refugees, civilian and military, who are seeking safety before the advance waves of Bolshevik armies.

This condition of affairs has caused grave concern in this city, notwithstanding the official optimism over the break in the Riga peace conference. It is said the Soviet government refused to go on with the peace negotiations because some of the Polish troops have not withdrawn to the line specified in the preliminary treaty between the Bolshevik legions and the Warsaw government. It is said the demands of the Soviet delegation will be met, and the conference resumed almost at once.

Commissioners sent into Lithuania by the council of the league of nations have been held up by damaged bridges, and apparently have been able to do little toward reaching an adjustment between the Lithuanian government at Kovno and the "Central Lithuanian Republic" established at Vilna by Gen. Zelinski.

Tokyo, Nov. 22—General Semenov, leader of anti-Bolshevik forces in the territory east of Lake Balkal, faces a crucial situation, and his fall is imminent, says one of his headquarters officers now in this city. He charges the Japanese high command with breaking faith with General Semenov and says the policy of General Oh, commander of Japanese troops in Siberia, is to keep that region stirred up and prevent the formation of a buffer state between Soviet Russia and the Far eastern republic.

General Semenov is now at Manchuria, southeast of Chita, and is being hunted by Bolsheviks and Mongols. It is said that negotiations are constantly going on between the Japanese, Chinese, Russian Bolsheviks, Mongols and officers loyal to General Semenov.

SOMEONE POSE AS AN INSPECTOR?

Matter Which Came Out in Police Court Today to Be Investigated.

As a result of information received from one of the prisoners in the police court this morning, Tony Vasil, an Austrian, was arrested by Inspector Hopkins and charged with supplying liquor to Fred Kosky-Ross, also of Austria. He pleaded not guilty. Kosky-Ross told of going to the shop on Saturday evening and getting a small bottle of gin for which he said he was charged \$1.50. He said he took a drink in Vasil's back shop and he was drunk when he went out to the street and in a short time was arrested.

The accused denied giving or selling any liquor to any person on any time. On cross-examination he told Inspector Hopkins that his shop was searched long ago and a flask was found. He said the man who made the search represented himself as a liquor inspector and before he took the flask away with him the accused said he offered him \$20 for it but this offer was not accepted and it was not until he paid \$30 that he secured the flask and no charge was laid. The case was postponed until Wednesday afternoon and a deposit of \$100 was put up. The whole matter is to be investigated.

Jennie Williston, alias Jennie Shaw, of Bridgeton, Northumberland county, aged seventeen, and Ruth Turner, aged eighteen, of this city, were arrested by Police Officer Thomas and charged with luring and lurking in an alley off Sydney street and not being able to give a satisfactory account of themselves. Five men charged with drunkenness appeared before the court and four pleaded guilty while the fifth said he was not drunk. Police Officer Thomas gave evidence and the case was postponed until this afternoon. The other four men were fined \$8 each or two months in jail.

Such rails as Southern Pacific, Reading, New York Central, New Haven and Rock Island also contributed in moderate measure to the rally.

Initial quotations for foreign exchange showed a distinct improvement. Noon Report. The early rise made further progress during the first hour, especially in industrial, shipping, oils, and specialties. There were featured by Crucible, Lac-Kawana and Vanadium stocks, Atlantic Gulf, Sears Roebuck and Famous Players. Among the rails, Delaware, Lackawanna and Western rose seven points. Atlantic Line three and Great Northern 2 1/2. Reactions of 1 to 2 points, ensued on profit taking, but another rally in which short covering was a factor, revived some of the prominent issues over their previous maximums of the morning. Try the Bitro-Phosphate Health System. New York, Nov. 22.—If you are feeling run-down, weak, nervous, tired-in-the-morning, and generally ailing, these are the symptoms that should warn you to take care of your health. Four persons in every ten are needing more phosphorus in their bodies. When you see thin and fretful people, or those who are anemic, pale, frail, off dependent or lacking in energy, you may look for the need of certain elements that make for a strong constitution. Some people, after relying upon preparations composed chiefly of salts, quinine, drastic drugs, iron, calomel, cod liver oil, etc., wonder why they find no benefit. This is easily explained by the fact that such persons need the phosphoric element, which is a most potent essential to health, and contained in Bitro-Phosphate, the famous health preparation. Now obtainable everywhere. The right thing for you to do is make a trial of Bitro-Phosphate beginning at once. It is not a patent medicine; the formula is prescribed by many physicians for the ailments and weaknesses mentioned above.

NEARING END OF RIVER SEASON

Five Steamers Tied Up at Indiantown Today—Return of D. J. Purdy Watched For.

Navigation on the St. John river and tributaries is practically ended. Today the Hampton, Champlain, Majestic, Oceone and Premier are being unable to winter. The Hampton made her last trip to Hatfield's Point, on the Belleisle on Saturday and returned to Indiantown last night to the Champlain also made her last trip of the season to Upper Jenesse on Saturday and the Oceone went as far as Wickham. The Premier went as far as Barker's wharf and returned to the city with a cargo of hay. In returning to the city last night the steamers had to break their way through ice from Oak Point to Public Landing.

The Majestic started for Fredericton yesterday morning at seven o'clock, but got only as far as Gagetown and returned to Indiantown last night. The D. J. Purdy left yesterday morning for the city with an exceptionally large cargo. She has not been heard from, but her owners are hoping that she reached her destination safely and will be able to break through the ice and reach Indiantown this afternoon or evening. It will be her last trip of the season. In event of her being unable to break through the ice the Majestic will be rushed to her assistance so that she will not be frozen in.

Fredericton, N. B., Nov. 22.—The season of navigation as far as Fredericton is concerned is closed, ice forming on the river and preventing any steamer from reaching this city. The season was fairly long. It opened on April 15, and continued 260 days, to be a record for the season of the preceding year but shorter than two seasons just preceding 1919. There still is open water below the railway bridge. This morning men crossed on it from this city to the mouth of the Nashwaak.

UNEMPLOYMENT IN HALIFAX. Persons Seeking Work Are Warned Not to Go to That City. (Halifax Chronicle). There are now over 550 men seeking work in the various trades listed at the local office of the Employment Service of Canada, 197 Hollis street.

The Employment Service is experiencing a little difficulty in taking care of the ever increasing number of unemployed registering at the employment offices throughout the province. The situation is most acute at the Halifax office, where over five hundred men and women are listed as seeking work, and it is very likely that the office may not be expressing the whole unemployment situation in and around Halifax.

The situation in Halifax is aggravated by the usual drift of work seekers into the larger industrial centres each autumn on the cessation of harvesting, highway and railway construction, etc. And the Employment Service has issued a warning to those who are able to find employment on the farms, or in the smaller centres of the province, to stay there. It is practically useless for anyone to contemplate coming to Halifax seeking employment under present conditions, unless a position has been assured them beforehand.

Government employment offices are now established at Amherst, Halifax, New Glasgow and Sydney, and the superintendents in charge of these offices stand ready to give every assistance in their power to those seeking employment. There is already commencing a movement of men to the lumber woods from among the applicants registered at these offices. It is not expected, however, that the demand for lumbermen will be anything like it was last year.

The unemployment situation in the maritime provinces is not so bad as in Canada, and across the border, but by the alarming increase in the population of these centres where unemployment exists, and employers listing their demands for workers where the unemployed are registered, such co-operation will tend to alleviate this undesirable condition which shows danger of increasing in Nova Scotia.

The furnishings of the living room is a matter that deserves serious consideration. The reason for this is plain when we consider the part it plays in our daily life. For a short time in the kitchen we prepare our meals—for a short time in the dining room we eat them—for quite a time in the bed room we sleep—but in the living room for quite a while we live. The furnishings of this room, then, are bound to affect us. If furnished with one of our CHESTERFIELD SUITES, its beauty and coaisness will soothe and please you; its utility, comfort and rest you; in fact, it will be a living room in the full sense of the word.

ST. JOHN, N. B., NOVEMBER 22, 1920.

A HINT FOR ST. JOHN.

The erection of community buildings as war memorials has, in the United States, developed a new and most interesting phase. It is of special interest to St. John, where both school buildings and community centres are needed.

THE WAR VICTIMS.

The hearts of the people of Canada should be very tender toward victims of the great war, and especially toward the fatherless children. An appeal is to be made this week in behalf of millions—

THE BOYS AND GIRLS.

It was good, on Saturday evening, to see a group of Catholic boys and girls of Baptist boys competing in a game of basketball in the fine gymnasium of the Y. M. C. I., and to see this followed by a game between Catholic girls and Baptist girls.

Let us enlarge our vision to take in those other boys and girls. In doing so we will be working to make healthier and better citizens of the future. The earth does not belong to this generation, which is but a tenant with certain well-defined obligations to improve the holding.

The citizens will endorse a progressive policy of street improvement in St. John. Prince William street and City Road give them an appetite for more. Com. Frink and the council are to be congratulated on this work. They get lots of criticism, and an occasional word of appreciation is due.

One has only to compare produce prices different parts of this province to see that the consumer is not always getting a square deal. Prices in different parts of the city also show at times a notable variation. It pays to watch the price lists.

As a result of his tour of the west Premier Meighen must be convinced that whatever may be the result of a by-election here or there a great many people are not convinced that the present government should hold on to office.

It appears, after all, that the shipping men did not say they would be satisfied to have the new railway bridge raised two feet. Their attitude was that they would have to be content if they could get no more. But why can't they get more?

This is election day in Yale, B. C., and East Elgin, Ontario. The campaign in each constituency has been very lively. In Yale there are two candidates, in East Elgin, three.

Greece gave the other Allies a lot of trouble before she went into the war—thanks to King Constantine, the pro-German. Things appear to be shaping up for more trouble from the same source.

It would perhaps not be safe to turn up one's nose at the coal man, despite the mild weather. Consider what he might do in January—B-r-r-r-r!

The people of the south end of the city are asked to get together as neighbors should, and do a good thing. What will be the response?

If this city had a good street car service—but why cry for the moon?

NOVEMBER WINDS.

November winds are harshly brawling about my shack, the long night through; and in my bed I hear them qualling around the window and the floor. I hear them hammer at the eaves, I hear them spring the ancient wheeze: "Stoke up your fire, shake down the ashes, or all the hanging plants will freeze!"

CANADA—EAST AND WEST

Jointer Happenings of Other Days

NEW BRUNSWICK COAL.

Although the Province of New Brunswick possesses none of the great coal areas that are to be found in the west, still there is a very valuable industry being developed down by the sea in this class of mining.

The almost universal method in the past has been to sink shafts to the level of the coal seam and then run main levels along the seam with branches to get the deposit out. As the coal was removed from the vein the refuse rock was stored away in the vacant vein.

Coal is known to exist, too, about thirty miles south of the centre point of the province where a vein of about twenty inches in thickness was opened up for temporary work but since that time little work has been accomplished.

The contents of the Grand Lake coal fields has been estimated at 138,000,000 metric tons while that of the entire province is about 151,000,000 metric tons.

THE ROYAL LAW.

(Rev. George Scott.)

Every day is combined in this royal law, Be kind, This is truth so thou shalt find.

Babble not of holy creeds While thy brother's craving needs Are denied by soulless greed.

Let thy every moment be Filled with loving charity, And thy soul with sympathy.

Let no word of idle scorn Taunt the lowly or forlorn, Let all patient tact adorn.

Grudge not when no gratitude Shall reward thee for thy toil, Ponder thou God's Fatherhood.

How He sends the healing rain On the dry and sterile plain, And the fertile fair domain.

Every duty is combined in this royal law, Be kind, This is truth so thou shalt find.

When We Wound Up The Watch On The Rhine

Narrative of Canadian Participation In The Occupation of Germany After The Armistice

II.

(Continued From Saturday.)

The first faint streak of dawn on November 21 saw the Canadian troops start forward from Mons area on the first stage of their march to Germany. Long before the sun had "begun to fling his haring beams" all was bustle in the Canadian billets and by the time the sun was peeping over the hills-tops he was greeted by the vision of long trains of khaki-clad figures stretched for miles along the roads that lead ever eastward into the land of the Hun.

Away in the vanguard were troops of cavalry and horse artillery who scouted through the highways and by-ways to see that the enemy was carrying out the terms of the armistice and to prevent the possibility of a German ambush. Following them came the advance guard of the main column, consisting of one battery of artillery and one battalion of infantry from each division and four hours later traveled the main column. It is the intention in this article to follow the fortunes of the 2nd Canadian Division, which was identified the 20th Battalion and the 2nd Divisional Ammunition Column, both of which are well known here.

Summary Punishment.

A peculiar condition of affairs was found in Hoesung-Almities, one of the towns passed through on the first day of the march. It seems that some of the residents of this town were under the impression that the population of the town had been too friendly with the enemy during their occupation of the territory. They waited until the Hun had withdrawn from their midst and then started in to take the law into their own hands and punish the alleged offenders.

Whole households were attacked, windows broken and the furniture dumped into the streets. In some cases the hair was cut from the heads of the female members of the family as a mark of degradation in the eyes of the loyal inhabitants. So bitter was the feeling between two factions that it was felt that the gendarmes, or local police, were insufficient to cope with the situation and aid was asked from the military police. However, as it was a purely local matter the police were not interfered with and they were finally able to restore order.

The havoc wrought by the explosion of a German ammunition railroad by the troops on the first day of their march, passing through the town they found the streets still littered with the debris from the damaged houses and the destroyed railway cars which the ammunition was loaded when it took fire some few days before. There was a belief prevalent in the minds of the inhabitants of the town that the explosion was not the result of accident but rather of a deep laid Hun plot to do damage to their conquerors, who were of the opinion that a delay-action mine had been deposited in the railway yards on the withdrawal, set to go off some days later.

In view of the condition of the opinion took place it was impossible to ascertain if there was any truth in the German supposition, but it was considered likely by those who investigated the matter that the happening was purely accidental, as it was learned that all the German troops in the vicinity had evacuated the place a few hours after the signing of the armistice.

Near Charleroi. The end of the first day's march was reached in the vicinity of a small town called Gou-Jez-Pistons, in the centre of a rich agricultural district and almost directly north of Charleroi, a mining town in Belgium which figured prominently in the news only last week on account of a threatened strike amongst the workers there.

For two days (November 22 and 23) the troops remained in this area, continuing the march on the morning of November 24. On all sides were heard expressions of thankfulness from the residents of the country that the war had come to a successful conclusion and they had again started to till their fields with the assurance that they themselves would profit by their industry rather than have it go to a ruthless foe, who stopped at nothing when he was in want.

PRICES SLUMP AND LUMBER BUSINESS DULL ON PACIFIC

Vancouver, B. C., Nov. 22—A lull has come in the business and is likely to continue for some time, according to prominent lumbermen here, who report that prices have slumped and orders are slackening. Prices now at the mills in Vancouver and British Columbia are said to be nearer to pre-war prices than for the last four years. There has been a drop of approximately fifty per cent in lumber and shingles in the province.

AN ARTICLE WORTH READING

Extract From the Literary Digest, November 13.

"We welcome every \$10 check to care for one child, and every hard-earned dollar given by those who can give no more. God sees and blesses 'the widow's mite,' and we earnestly hope that not a single man, or woman, or child will withhold the small gift because it cannot be as large as the loving heart that prompts it. But, oh, to those who can give largely, the appeal is urgent. Do not be satisfied with even so precious a thing as the life of one little child. The lines of hungry children, shivering in tatters in the cold winter's wind are very long. There are three and a half millions of them. That little girl or boy you would gather into your arms and give food and warmth and clothing and another one by the hand, just as hungry and cold, and another was crowding close behind, and another, and another. Will you stop with one jewel when you can have a hundred or a thousand? Will you turn only one cry of suffering into laughter if you are able to put the light of health and happiness into many wan little faces?"

In aid of the Provincial Memorial Home for Children, the L. O. B. A., under the convenership of Mrs. John Silliphant, opened a big fair in Simons hall on Saturday night and the opening night was a splendidly successful one. Mayor Schofield was present and, when he formally opened the fair and wished for it all success, he gave a handsome contribution towards its proceeds in the shape of a substantial check. The hall was gayly decorated and each of the booths was brightly ornamented. The articles offered for sale were tempting

and the large pike had many patrons. There is to be a door prize every night of the week while the fair is in progress. On Saturday the door prize was a basket of groceries and it was won by Mrs. Whelpley, of 139 Adelaide street, holder of ticket No. 3. The bean board prize, a pair of fancy armlets, was won by Mr. Ring. Arrangements were not quite completed for the opening of the country fair booth on Saturday and it is to be opened tonight. Those in charge of the booths were as follows: Fancy work, Mrs. Morrow and Miss Buckley; home cooking, Mrs. A. Long and Mrs. Charles Engalls; tea room and ice cream booth, Mrs. H. Kirkpatrick and Mrs. Ruski; bean board, Mrs. Anderson; side shows, Mr. Whitebone.

The Ladies' Auxiliary of the Temple of Honor conducted a sale of home cooking and of superstitics in the Temple Hall in Main street on Saturday afternoon and realized a comfortable sum for the funds of the society. Mrs. A. Roberts and Mrs. William Kierley were the conveners of the rummage sale and Mrs. Fred Miller and Mrs. F. E. Flewelling were the conveners for the home cooking.

The ladies of the Douglas avenue Christian church conducted a very successful rummage sale in the Sunday school room on Saturday afternoon and in the short space of two hours realized the most satisfactory sum of \$47. Mrs. M. Hudson was the chief convener and the members of her committee were Mrs. Joseph Logan, Mrs. Philip Henry, Mrs. James McEachern and Mrs. Charles McEachern.

PREMIER RETURNS FROM CONFERENCE

Hon. W. E. Foster returned home on Saturday from Halifax, where he attended a very satisfactory conference with the premiers of Nova Scotia and Prince Edward Island and other officials. The premier said last night that more frequent conferences between the heads of the governments of the three provinces would be held in the future.

He added that the press despatches had covered the conference very fully and that little remained to be told. Hon. Clifford W. Robinson, of Moncton, minister of lands and mines, attended the conference, remaining in Halifax until Saturday. The attitude of the conference regarding western school lands, increased subsidies, the transportation problem, the immigration needs and the matter of joint offices for the maritime provinces in London will be brought to the attention of the Ottawa government shortly.

J. C. Tory, M. P. P. for Guysboro, father of a resolution in the Nova Scotia legislature regarding the western lands, said at the conclusion of the conference that it indicated a very encouraging spirit of co-operation on the part of the maritime provinces and is the beginning of conferences of very great importance and which will have much influence on the future of this section of Canada.

URGE CHANGE IN VENDORSHIPS
At a public meeting in connection with Woodstock District held at Hartland on Tuesday, Nov. 16, 1920, the following resolution was unanimously carried: Moved by M. E. Conroy of Woodstock and seconded by H. Miller of Centreville that: "We in district meeting assembled, representing the Methodist people of Carleton and Victoria Counties, petition the provincial government to change its system of vendorship of intoxicating liquors, removing it from the druggists, and giving it to the licensed persons for each town or district, who shall not be engaged in any business which might make more difficult the strict enforcement of the temperance legislation of our province."

BORDER OFFICIAL FREED IN SECOND HOMICIDE TRIAL

(Canadian Press Despatch.)
Skowhegan, Me., Nov. 21.—After deliberating for about four hours and a half yesterday afternoon, a jury in the supreme court returned a verdict of not guilty in the case of the state against John A. Burke, former deputy sheriff, who was charged with shooting and killing Nelson A. Bartley, an hotel man of Jackman, on the line of the Canadian Pacific railroad, on the night of October 15, 1919. Burke was tried last spring for the murder, but the jury disagreed.

LABOR PARTY LOSES

(Canadian Press Despatch.)
London, Nov. 21.—Although London had no municipal elections on November 1, the result of the by-elections in East Ham, a huge east London industrial municipality, yesterday showed a heavy defeat for the Labor Party, similar to that which occurred in other parts of the country. Seven vacancies were caused by the elevation of Labor councillors to aldermen, but only two Labor candidates were returned, the re-

maining seats being won by Ratepayers Protection Association candidates.

\$30,000,000 WILL CONTEST SETTLED

Canadian Heir Agrees to Pay More Money to Nephew of Edward F. Searles.

(Canadian Press Despatch.)
Boston, Nov. 21.—Charles F. Choate, Jr., counsel for the executors of the will of Edward F. Searles of Methuen, announced that the contest over the estate, valued at more than \$30,000,000, has been settled out of court. Albert V. Searles of Boston, a nephew, contested the will on the ground that his uncle was of unsound mind. Under the terms of the will Albert Searles was to forfeit a bequest of \$250,000 if he should contest the will. The bulk of the estate was left to Arthur T. Walker, a clerk, in the testator's employ. Walker is a Canadian. The terms of the settlement were not disclosed, but it is presumed that Walker agreed to allow Albert Searles considerably more than his legacy.

INDEPENDENT HOCKEY LEAGUE
Unless Players Are Reinstated it is Said One Will Be Formed.
(Moncton Transcript).
From the outside it would appear of the present time as though Moncton will be in the same fast hockey fixtures this season.
Mention has been made of the conference of the Amherst fans with A. W. Covey, president of the M. P. B. of the A. A. U. of Canada, at which conference the Amherst fans stated Mr. Covey endeavored at the Toronto conference to have all men reinstated. The Amherstians put the matter up bluntly and advised Mr. Covey that unless they had definite reply from him or before Dec. 13 next an independent hockey league would be formed, regardless of the A. A. U. of Canada. This league will be composed of Amherst, Moncton, Stellarton, New Glasgow, Charlottetown and a team from Halifax. Should this league not be workable, a three-team league composed of Amherst, Moncton and Charlottetown will be organized and Sussex is welcomed in the league if it sees its way clear to come in. Finigan, Sussex goal tender in 1919-20, will play goal for the Moncton team this year. The other players will probably be Geo. Carroll, "Boss" McLeod, Jack Ingram, Joe Flannery and another yet to be selected, with Fred Carroll a spare man, as he is out of the city on his train on certain nights of scheduled games.
It is stated that the Truro meeting on the 12th was simply to have a chat with

Mr. Covey but he was not present at the meeting. The decision to form an independent league was reached after the Amherst fans had had a conference with him and unless reinstatement of all men on the outside is made on or before Dec. 12 an independent hockey league seems imminent.
The contention of some fans in this city is expressed in a communication to the Halifax Evening Mail by J. J. Condon re amateur hockey and the reinstatement of hockey players. Mr. Condon says follows:
In reference to the question as to whether professional hockey players should be allowed to play again as amateurs I would suggest that all men who have taken payment in the past again be given amateur cards.
Many of these would like to become amateurs once more if given the opportunity to do so. Give them all a clean sheet and if any violate the rules of pure amateurism afterwards then make their banishment permanent.
This seems to me only fair to some of our most brilliant puck-chasers—many of whom have been overseas—and to be the best means of assuring fast hockey the coming winter. Give everybody a chance and let the fight come to an end. The great war has been over for some time now and we are following the ways of peace. So why not end the hockey war and extend the olive branch to the professional hockeyist at present out in the cold.

U. S. IS ASKING ABOUT MANDATES
Washington, Nov. 22—Through dispatch of another note to Great Britain, the U. S. state department has taken another step in its effort to develop a clear definition of the rights of all powers in mandate territories.
The new note is one of a series which had its origin in reports that the British and French governments at the San Remo conference last spring negotiated an agreement by which the oil rights in the British mandate territory of Mesopotamia were to be divided between the two countries. The United States is understood to have taken the position from the first that all the powers should possess equal rights in the exploitation of mandate countries.

IRON, STEEL, METAL AND
MACHINERY MARKETS
In its summary of the iron, steel, metal and machinery markets for week ended Nov. 18, Canadian Machinery and Manufacturing News, Toronto, makes the following comments:
Business is quiet in the machine tool, iron and steel market. But in saying that one should take into consideration that at any time this is a quiet season in these lines. Little purchasing is ever done in the steel market during the last half of November and December, and it is hard to say how much this accounts for the present state. Prices are holding firm, though, and if

there is any tendency in the U. S. steel market to let prices sag seriously it is not being reflected here. In some lines the demand is good and deliveries not in keeping with the immediate requirements.
It is doubtful if a decrease in prices would bring much new business into the market just now. As a rule, machine tools are not sold because the price is attractive, but because they are wanted to do a certain work, buyers preferring to pay the high price and insist on the quality being equally high. Some makers have announced reductions, but the movement has not become general. It had been expected that the meeting

of tool builders in New York would be followed by something approaching general announcement regarding prices and prices for the ensuing year, but so far there has been nothing forthcoming apart from the announcement of the president that costs were still very high and would hardly permit of reduction. Tool builders in Canada are in the same position, and it is very doubtful if they can make reductions that would assuage sales.
Buying in the small tool division small, and the territory is being covered for business more thoroughly than any time since the beginning of the war. The scrap metal market is becoming known for the business it is not doing rather than for any volume of trade that is taking place. Prices have been cut to the bone, but the market remains the same, listless and inactive. The big buyers, even at low levels, are not in the market.

RUM-RUNNERS' MERCILESS FOE

Christian Guardian Lends Editorial Support to Inspector Spracklin.

In an editorial entitled "The Real Issue at Sandwich," The Christian Guardian, the official organ of the Methodist Church of Canada, discusses "the regrettable incident of the shooting of the hotelkeeper, Trumble, in connection with the efforts of Rev. J. O. L. Spracklin to enforce the law against the rum-runners."

"For many months there has been an open flouting of the law on the part of those represented by the unfortunate man who was hurried into eternity suddenly. And that open and barefaced and altogether unscrupulous breaking of the law is a very serious matter; indeed it is absolutely impossible to exaggerate its seriousness. The very foundation of our whole social and moral fabric are threatened by the things that have been unblushingly attempted, and, in many instances, carried through, on our western Ontario frontier."

"But regretting these things does not get us anywhere. Respect for the law must be re-established, and its right vindicated, no matter at what cost, even, indeed, at the cost of human life if it has to be. The tragic thing at Sandwich is not that a man was killed by an officer of the law in trying to uphold its dignity and value; the tragic thing is that the law has been shamelessly trampled underfoot and counted an unholy thing. And this must be put a stop to."

"And this cannot be done by lowering the demands that the law makes, and yielding to the men whose greed and thirst make them unblushingly law-breakers. This shooting at Sandwich does not furnish us with a single reason for a new law or regulation that will make less de-

RAPID RISE OF YOUNG CANADIAN.

mand upon the lawless citizen, nor for any weakening of the effort to enforce law; its whole lesson is quite in another direction. To tone and soften down our program because of what has happened would be to be guilty of the veriest moral cowardice, and also of an attempt at moral suicide.

"It is up to our Government, and under them to all loyal and patriotic citizens, to enhance and maintain the dignity and worth of the law, and anyone of us ought to be grateful that the community had in Mr. Spracklin a man of utter courage and devotion, and one who was willing to take his life in his hand every day in order that this might be done. The best that we can do now is to show him that we fully appreciate what he has done, and are ready to stand behind him, intelligently and loyally."

In another article dealing with the details of the Sandwich shooting The Guardian says: "The Government knows only too well the difficulties which surround the enforcement of the liquor law upon the border, and they know better than anyone else, just what it means to have a man like Mr. Spracklin to assist in enforcing the law. Fearless, unshrinkable, and intensely alert, he has made himself a terror to evil-doers, and it is no secret that his life has been in danger more than once. His careless activity has not been agreeable to law-breakers and their friends, and his enemies are many; but we are glad that so far he has escaped all their malice and their bullets. We are sorry for the death of Mr. Trumble, but the general opinion appears to be that Mr. Spracklin was altogether free from blame in the situation. He recognized, as everyone else did, that he is fighting a foe which is both cunning and merciless; and he knows, and we know, that his death would be welcomed by many whom it would leave free to pursue their law-breaking with less fear of molestation; and while he has so far escaped injury it has not been because of the good-will of his enemies."

35c and 65c COUGH REMEDY

A NOTABLE SERVICE.

About twenty-five young men sat in the choir of the German street Baptist church last evening, to lead the singing, and other members of the Y. M. A. acted as ushers. The main body of the church was filled, and a considerable number sat in the balcony. The solos by Paul Cross and Dr. Bonnell, and a duet by Mr. Cross and Stewart Smith. The pastor, Rev. S. S. Poole, preached an impressive sermon on the development and maintenance of Christian character, and the importance of maintaining self-respect as a first essential in all the relations of life. Mr. Poole also urged his people to lend a hand in helping the South End Improvement League to make better provision if possible for the care of the boys of the south end of the city, many of whom were not linked up as they should be with helpful organizations. A similar appeal was made in the other south end churches yesterday.

Even Better than "Man and His Woman."

A quaint, homely, heart-gripping story that gets under your skin is "Passers By." It's a story of real people—of varied types and philosophies; it's a story of kindly deeds, of everlasting loves and of noble sacrifices. It's the life of the world—this story that turns the searchlight on the lives of the people you pass by.

C. Haddon Chambers is the author of "Passers By."

The thought behind "Passers By" has been developed with virility the pathos is tender and exquisite; the humanity of it is heart-touching; the humor is fresh and bubbling; the romance is true and steadfast, and villainy is greatly in the background. It is an artistic achievement of great beauty and drama.

BECAUSE OF THE ILLNESS OF ANNA CASE no less a world-famous personage than Senor Hipolito Lazaro will sing the LeChateau recital at the Imperial Wednesday night. No announcement in musical circles for a long time has stirred more comment or created more pleasurable anticipation. Lazaro's coming is a personal courtesy to Miss Case who requested that her date be filled by him.

AN AUTHORITY MUSIC PUBLICATION SAYS:
 "LAZARO HAS BEEN TERMED, and rightly, 'the greatest tenor since Rubini' and greater than Gayarre.' Born in Barcelona in 1890, Lazaro at the age of twenty-six possessed the marvellous voice of the generation. His appearances in Spain, Italy, Buenos Aires, London and Havana have swept whole countries into admiration. He can sing out full force, a high D natural, a feat as remarkable as it is rare. Not only is there no voice of greater power but there is no tenor to touch such range and control. In Lazaro the world is listening to a vocal miracle, a voice recalled in future generations as the great world tenor."

A. W. ADAMS DEAD
Prominent Citizen Passed Away This Morning

While Not in Best of Health, He Had Been at His Office on Last Friday—A Man of Many Friends Who Was Most Highly Esteemed.

A host of friends in this city and throughout Canada will learn with regret of the death of Arthur Wellesley Adams, which occurred at the General Public Hospital at 4:40 o'clock this morning. He was one of the most prominent and most highly esteemed citizens of St. John.

Mr. Adams was a son of the late William Henry and Julia Anne Adams and was fifty-nine years of age. He was a well known figure in the business and social life of the city. He was in business first on the North Wharf with his brother, Thomas S. Adams and on the Union Club Company. He was a member of the Knights of Pythias and Masonic fraternity.

Mr. Adams' health had not been of the best since early spring, but he was able to be about his business and was at his office so late as last Friday morning. Yesterday morning he was taken suddenly ill and lapsed into unconsciousness from which he did not recover. He was taken to the hospital yesterday afternoon at two o'clock and passed quietly away this morning.

Besides his wife Mrs. Adams leaves one daughter, William H. Adams, of Montreal, three sisters, Miss Helene and Mrs. Barclay Boyd of this city and Mrs. Ronald Grant of Montreal. The funeral will be held tomorrow afternoon from Trinity church.

MRS. DANIEL HORGAN.
The death of Mrs. Margaret Horgan, wife of the late Daniel Horgan, a former councillor for St. John county, took place this morning at her residence, Golden Grove. She was one of the oldest residents of that community and was well known and highly respected. She leaves four sons, Dr. F. W. Horgan of Washington, D. C., Daniel of Golden Grove, Cornelius and James of this city, and one daughter, Miss Nellie, at home. Three brothers and three sisters also survive—William and Edward Duffley of South Boston, and George of Golden Grove, and Mrs. Bernard McGowan, Mrs. Amy McGovern and Mrs. Mary Desmond, all of South Boston. The funeral will be held on Wednesday afternoon from her late residence.

SAD PLIGHT OF ST. JOHN MOTHER
An Instance of Conditions Met With by Benevolent Organization Workers.

Last April, in this city, a man died. His wife was left destitute in a delicate state of health and with a little daughter about four years old. Two weeks ago another baby was born. Within a week after its birth the mother was out scrubbing for she had now two mouths to feed. This morning between ten and eleven o'clock she appealed to a member of the Children's Aid Society, whose agent was once called in conference. The woman trembled as she talked, and on enquiry it was learned she had had no breakfast. She could get work if she went and professed when it was pointed out to her that for her children's sake she should take them and go for a time to the municipal home.

Disposition of the case will be made in not yet decided. It is one of many pitiful cases with which the benevolent organizations are called on to deal, and the numbers will increase as the winter wears on.

NOT TO RESIGN, SAYS L. R. ROSS

Denies Report Relative to Taking Management of Power Company.

L. R. Ross, local terminal agent of the C. N. R., returned home today from Fort William, where he was on a visit to his daughter, Mrs. James Dickinson. When asked as to a report that he intended to resign from the C. N. R. in order to take over the management of the N. B. Power Company, he said there was absolutely no truth in the report.

He said he understood that Thomas McCauley, manager of the street railway, was resigning from the company.

While en route from the west, Mr. Ross said they encountered considerable snow and there was good sleighing in the west and throughout the province of Quebec.
