COST OF MOTORING. Excuse me while I shed a tear and raise a loud lament; the price of tires has climbed, I hear, some twenty-five per cent. I have to buy four these cost-of-scorching hymns. The cost of gas is rising, too, the gas that boats; and every time my car goes "choo!" it burns up seven groats. And oil is going up with gas, the oil we all must buy; and so I pause to say "Alas!" and say it with a sigh. And sparkplugs cost a bone a throw, that once were fifty cents; and motorists, submerged in woe, are sulking in their tents. They gaze upon the windswept hill they can't afford to mount, for every mile runs up a bill that breaks their bank account. They view the long inviting road where they would like to speed, but they are chained to their abode by cost of things they need. They cannot tour the moorland track, or journey anywhere, unless they're willing to get back to Shanks and his old mare.

Los Angeles April 8—Capt, Lewis O. Shilling, scout and guide, foster son of Kit Carson, associate of Davy Crockett and Colonel James Bowie and member of General John O. Fremont's California expedition, is dead at the national soldiers' home at Sawtelle, near here. He was eighty-eight years of age.

Word has been received of the death of Alexander Stuart, which occurred at the home of his son, in China (Me.), April 2. Mr. Stuart was born in Chat-April 2. Mr. Stuart was born in Chatham (N.B.), the second son of the late Elder Charles Stuart and Ellen Loggie. He was of a family of ten children. He went to Houlton when a young man and married Miss Lily Wilson of that town. They had three children, John W. Stuart of China, Mrs. S. M. Stuart of Houlton, and Ellen Loggie, who died at the age of three years. He is also survived by two brothers, Charles Stuart of Bangor, Robert B. Stuart of Seattle, and also two sisters, Ellen L. and Annie F. Stuart of Bangor.

The death occurred in this city on April 9, of Mrs. Elizabeth Stack, widow of James L. Stack, and daughter of the late James and Mary A. Clancy. She leaves to mourn one son, William Stack, and two brothers, John and William Clancy, all of this city.

The funeral will take place on Sunday afternoon at 2.30, from her late residence, 50 St. Patrick street. Friends are invited to attend.

Arthur B. Bray, commercial traveler for the Reed Company of Moncton, died last night in the city hospital there, at the age of forty nine years.

away from the city so long that most of the young men were strangers to him. There had been nothing done about the harbor since 1906 when the government granted a subsidy of \$25,000. When the Borden government came in in 1911 it promised to nationalize the port, but nothing had been done. The only method was for the people to take the matter up themselves. With regard to daylight saving he was not personally interested. E. Allan Schofield.

E. A. Schofield said if the citizens wanted to see all the improvements they asked for they should expect to pay more taxes and he thought the majority of the taxes and ne thought the majoirty of the citizens were in a position to pay more. He said he would like to see a better community spirit in the city, and pointed to the paving matter as a sample of where the business men would not give the other side the benefit of the doubt of sincerity.

of sincerity.

He favors an early equipment and use of public playgrounds. He asked the voters not to try to run the city from the barber shop, train, hotel or store, but to put in men in whom they had confidence and to take them out when that confidence is lost.

Something would have to be done

about the court house, he said, and there should also be established a prison farm where the criminals could be helped in production instead of loafing and fattening on the public. He thought there should be a give and take spirit in regard to daylight saving.

Electric Map Tells Sales Story Quickly.

Graphically to illustrate the phrase, 'Say It With Flowers," Frank M. Ross, florist, of Philadelphia, Pa., has made good use of his window to instal an ingenious electric map of the United States, tupon which are portrayed the principal cities of every state, connected by wires strung from telephone poles and reaching all over the country.

A small red electric bulb indicates every large city, and by means of an automatic device, the "message" is flashed from place to place, the bulbs lighting up here and there every second or two.

amply justified by the attention it attracted as well as by its value in calling the public's notice to the telegraphic feature of the service. An interesting point brought out by the display was its attraction for children, who, on their way to school, stopped to figure out in advance the day's lesson in geography and to compare notes with each other.

The idea to be conveyed to the public is that flowers may be sent to any city in the United States and Canada at any lime through the Florists' Telegraph Delivery Association. By mertel giving home an unforgettable merchandising home an unforgettable merchandising home an unforgettable merchandising home at the flowers at the proper time. There is no extra charge expense attached to this service, the telegraph tolls being borne by the association's members. Montreal, April 10—(By Canadian Press)—The Montreal Gazette says:

"It may now be stated more or less authoritatively that the long impending and much discussed consolidation of the two principal Canadian steel enterprises, the Dominion Steel Corporation and the Nova Scotia Steel and Coal Company, Limited, is now close to the completion stage. A further extension to include Canada Steamship Lines and several Canadian shipbuilding enterprises is also embraced in the plans of the interests which conceived the scheme, which is one of the most ambitious in the history of Canadian industry. The ultimate ramifications of the enterprise, it is said, will lextend not only to Great Britain but to the outlying parts of the British Empire, including India and Australia, so that the developments here from a part of the comprehensive imperial steel and shipbuilding combination in which the splendid natural resources of the dominion are to play an important part." Favor Dental Inspection to Cover the Whole Province

Results of the Survey — Oral Hygiene Committee Shows Relation of Teeth to Health.

The enormous advantage of dental inspection of public school children was borne in upon the school inspectors of the province at a banquet last night in the King Edward hotel, when they were the guests of the oral hygiene committee. So impressed were the inspectors with what they had seen and heard that Inspector C. W. Mulloy, North York, president of the section, promised, on behalf of his colleagues, co-operation and active support to the oral hygiene committee in its campaign until dental inspection was established in the whole province.

Lantern slides were shown and explained by Dr. Wallace Seccombe, and pictures of actual sufferers and the tremendous improvement made in their appearance and health after dental treatment was easily manifest. Some of the worst cases of horrible-looking teeth trouble shown were of Toronto pupils. Dr. Horace Eaton, chairman of the oral hygiene committee, presided, and

OBJECT OF COURT TO HELP CHILDREN

Judge Mott Describes Method Delinquents.

(Toronto Globe.)

(Toronto Globe.)

An interesting address on "The Juvenile Court System" was given by Judge Mott of the Juvenile Court yesterday afternoon at the monthly meeting of the York Pioneer and Historical Society held in the Normal School.

No greater enactment nor one of more benefit to a community had been passed in many years, the judge said, than the Juvenile Delinquency Act which removed the stigma of crime from children under sixteen years of age, and he regretted that all cities of Ontario did not have the benefit of it.

The aim of the court, Judge Mott stated, was to care for the welfare of the child, not to punish, but to correct and prevent, and to make the home, wherever possible, safe for the child. One of the saddest things he had to do, he stated, was to take a child from its parents and its home and turn it over to the care of the Children's Aid Society, which, he said, was doing a great work. What Toronto needed, he considered, was a Detention Home, where juvenile delinquents could be placed until their own homes were fit places for them to live in.

The workings of the court were illustrated by the judge by cases which had come before him, and by which he showed how all the mental, physical and moral tendencies of the offender were analysed and an attempt made to get at the cause of the crime and remove it. The great object of the court, Judge Mott said, was to save boys from coming there, and when they did come to use every known means to save them from becoming criminals.

The bright hopes of holiday makers, which on Saturday seemed so rosy, were dashed to the ground yesterday by the sudden change in the temperature and the showers of snow and sleet which quite put an end to the usual display of new Easter millinery and clothes. Most women returned to fur coats, but there were some courageous enough to venture out to the morning services in suits, these being noticeably in the heavier materials, worn with furs. Dark blue once more seems the favorite color, and the new suits seen yesterday all seemed to be cut on straight lines, the coats in several cases being rather longer than those worn last fall, and having a straight panel at the back, falling from a very narrow belt.

Almost the only touch of spring was the flowers worn by the many women, sweet peas being without doubt the favorite blossoms.

Those who donned new hats chose small, close fitting straw shapes, though several ladies compromised by putting on dainty silk chapeaux. Handpainted ribbons used as trimming were seen on many of the new shapes, and some smart little shapes turned up in

Scratch YES and VOTE NO

Warning to Tax-Payers:

The figures presented as to the cost of Permanent Paving, two-thirds of which is to be collected from the abutters in such streets as the Common Council may determine under the new paving bill sent to the legislature by the Common Council are not accurate or final. No contractor can be held to his tender after thirty days, and there has been a sharp advance in the price of asphalt since the City Engineer's estimates were submitted. A competent authority estimates from recent tenders that the cost of the most inexpensive type of pavement proposed, together with sidewalk and curb, amounts to \$606 per 40-foot frontage. What will it be for granite block pavement and at the increased scale of prices which must be met when tenders are finally awarded? The burden on City Road, Brussels street and Marsh Road property owners will certainly be unbearable and the injustice will not be confined to the tenant and landlord in the streets to be paved. Rentals in other sections of the city will quickly follow the sharp advance forced by the Special Abutters' Tax, and the poor man will pay and pay and pay. Make the adverse majority as large as possible and let us hear no more of this unjust tax. The only real paving progress can be accomplished by bond issue.

Kill This Bill!

Right at the heart of the city's progress and prosperity strikes the new Paving Bill sent to the legislature by the common council and which should be killed by the vote of the people on Monday for the following reasons:

1. It is Wrong in Principle:

Streets used by the people of the city as a whole should be maintained by the people as a whole as are the schools, fire, police and other public services.

2. It Departs from Precedent:

Already eight miles of permanent pavement have been laid and charged to general assessment and why should a group of property owners in these streets seek to impose the burden of paving remaining streets of the city on the abutters in these streets.

3. It Impedes Progress:

Home building and expansion of industrial properties will be penalized by the special abutter's tax which is to be imposed at will of the common council on any street of the city.

4. It is Unworkable in Practice:

Widows and the small property owners whose main income is derived from rentals, will find it impossible to make their property pay the increased tax of at least \$600 to \$1,000 on a 40-foot frontage and the city will be obliged to take over these properties of distribute the cost over the remainder of the street, making the burden unbearable.

5. It Increases Rentals Out of all Reason:

When the special tax is applied the landlord must look to the tenant and on an average house it must mean an extra \$75 to \$100 a year. And this is in addition to what must be added to the constantly increasing scale of prices and rentals.

6. It is Inequitable in the Extreme:

Under the proposed bill the owner of a house worth \$2,000 would have to pay as much per foot frontage as the owner of the most valuable house on the street. Therefore the law is unfair to the poor man and favors the rich while under general assessment every man pays in accordance with his means.

7. It is Altogether Unnecessary:

The present Local Improvement By-law makes ample provision for abuttors sharing in the cost of paving residential streets.

ON THE PLEBISCITE

"Good-bye, St. John"

"If, on my 200 foot frontage I am called to pay a special tax of \$3,000 I cannot do business in St. John," says one prominent resident in speaking of the proposed special tax on Abutters for Paving Purposes. He is not an enthusiastic admirer of Mr. City Booster. In fact he heartily concurs in the spirit of the following poem:

A Booster, who St. John would save
Went to Hell to see how it was paved;
Satan a compact with him did make
The very foundation of St. John to shake.

"Go forth, Mr. Booster," Satan cried with glee,
"You are the very ambassador for me.
The widows and orphans are our meat,
Let them pave the city's streets;
And if their payments you find slow,
To the poor house let them go.

What care we if hearts do break
We, their property will confiscate."
The next you'll find on "Booster's" list
To the man never to be missed
He who built a house with honest toil
Will even be Old Satan's honest spoil.

Boost his taxes; make him pave,
So he can for the Street Railway save
Oh, Mr. Booster, what a pity;
Between the rails should be paved by the city.
Can't you see you are very slow,
Giving property owners such a show.

He, who for old age did save
Should give up all to pave, pave, pave!
Let Mr. Booster and Satan roam
To cut the props from every home;
But they'll find they made an oversight,
For honest citizens can fight, fight, fight!

Let Mayor and Commissioners awake from their trance, And make St. John "Booster" and Old Satan dance Back, back to that secluded spot Where the pavement is ever smooth and hot.

There are forty-four widows in Brussels Street alone who see nothing but the poor-house if the proposed tax goes into effect.

Master John the Gorilla—probably the most intelligent non-human animal in the world—is to continue his education by making a trip to America. He is to stay at the best hotels and there is every prospect that he will be "lionized" at smart receptions.

"I called on 'John' last night," writes a London Daily Chronicle representative, "at his house in Sloane street, and was received, if not with cordiality, at any rate with no small measure of good breeding. Occasionally he was overcome with childish shyness—he is but five—and then he hid his coal-black face on the shoulder of his owner, Mme. Alyse.

"John ought to be in bed at this time of night," said Mme Alyse; 'that's why you may find him a bit sleepy. Yes, he sleeps in an ordinary bed, and under warm blankets.

"I am thinking of taking John to America, and giving him a chance of holding receptions in the best hotels. Over here the hotels would refuse him admittance. In the States they look at things differently.

"He is said to have been captured as a baby of one day old at Cape Lopez in French Gaboon. I've had him for some fifteen months, and would not part with him under thousands of pounds. His intelligence is wonderful. Just watch.

"Most men when they enter a business, particularly a large business, feel discouraged over the slow rate of progdiscouraged over the slow rate of progress they make for a year or two or longer. They are inclined to get it into their heads that it doesn't matter very much whether they do their work better than the other fellow or not, that everybody is treated pretty much the same, the industrious fellow faring no better than the fellow who doesn't exert himself to do his best. Now, if there's one thing life has taught me it is that this way of thinking is all wrong. Sooner or later each man finds his level, just as water finds its level. The Mark that Insures the Result

This trademark is for your protection. It stands for genuine Beaver Board and is plainly printed on the back of every panel of this good wall and ceiling material.

Beaver Board is more than a "knotless, crackless, manufactured lumber"; it is a long-lived and attractive wall and ceiling result.

When you buy Beaver Board for your new home or for remodeling and repairing in the old home, you buy this result, and you can easily be sure you are getting it by looking for the familiar Beaver Board trademark.

Simple directions for use are also printed on the back of Beaver Board. You can do the repair jobs yourself and you'll be surprised at the good results you'll get—all without muss or litter.

When the carpenters tackle the new home you'll find many other Beaver Board advantages beside the durable result. Speed is one. There will be no time lost waiting for plaster to dry. You'll have a greater variety of decorations and you'll never have to contend with cracked wall paper or falling plaster.

Let us send you a copy of our book, "Beaver Board and Its Uses." It is full of helpful suggestions.

Retirement of A. J. Balfour Reported As One of the Possibilities

HE "LAGS SUPERFLOUS ON THE PARLIA-MENTARY STAGE"

The Budget Problem a Big One-The Prince of Wales' Tour-A Tribute to Lloyd George-The German Coup—Events in Busy Life of Empire Metropolis.

(From our own correspondent.)
London, March 18.—Do not be surged at any time if announcement of Balfour's retirement from the government and from political life is forthoming. By this I do not mean to imply hat such an announcement is impending. But it is, I am assured, with difficulty that he is presuaded to remain a member of the coalition ministry. As one of his friends expressed it to me, he would have gone before but for the effort it implies. "The position is," he explained with a grim smile, "that Arthur is really too lazy to retire." Also I imagine, Mr. Balfour would be very reluctant to take any step that would embarrass his colleagues, for he has always shown himself the soul of loyalty. Yet the fact remains that the exforeign secretary is gravely dissatisfied at the manner in which the peace settlement has been carried through in Paris. He was able by his personal influence to prevent some of the diplomatic blunders which were contemplated; but he was not always able to carry his point. He would have retired from politics before now if Lloyd George had not found him a sinecure post which makes little demand on his time. But he feels that his work is done, and that he lags superfluous on the parliamentary stage.

There is, I am told, a great demand for Jazz bands in the provinces, and these disabled officers have on more than one occasion traveled considerable distances to play at dances. I heard them playing this week and they possess a sense of rhythm that has been sadly lacking in some of the bands I have heard elsewhere.

KITCHEN SHOWER.

There was a very pleasant event on Thursday evening when about thirty friends gathered at the home of Mrs. Walter Miller, Chesley street, and tendered Miss Jessie Cunningham a kitchen shower in view of a happy ventil which is to take place at an early date. Much amusement was scaused by the reading of witty verses submitted with the many useful and attractive gifts received. During the evening dainty refreshments were served, after which the happy gathering dispersed.

GOLDEN RULE GROUP.

A meeting of the Golden Rule Group was held last evening at the home of Mrs. W. C. Good and after a devotional and business session, under the direction of the president of the group, Miss Emily Hope, the meeting adjourned to rehearse their play, "The Quest of the Golden Rule." The mothers of the girls were enterfained in an excellent manner and they expressed themselves as being much pleased with the progress of the organization. Refreshments were served and a pleasant evening came to an end.

SUGAR ADVANCING.

Higher prices for sugar are predicted. New York refiners yesterday paid 17 cents, duty paid, for raw sugar. Canadian manufacturers have been paying 14c. for raw sugar f. o. b. Cuba. At these prices for raws the refined would cost here 20c. to 22c. a pound. The British preferential on West India sugars has practically shut Canada out of that market, and Canadian manufacturers have been able to buy cheaper in Cuba. An increase in the Canadian preferential is being urged. Meantime the present outlook is for still higher priced sugars.

THE BOYS CLUB.

Mrs. A. J. Mulcahy, convener of the Boys' Club, has been faithfully attending to the proper store of the land aday would apologize for the remarks she had made. These were given in due form. The British preferential is being urged. Meantime the present outlook is for still higher priced sugars.

THE BOYS CLUB.

Mrs. A. J. Mulcahy, convener of the Boys' Club, has been faithfully attending to the interests of the lads during the last week. The main feature of the work was a class in first aid under the direction of Fred. Shear who was attached for three years to the overseas medical corps. The boys have taken up this work with wonderful rapidity and received much benefit from it. Mrs. Mulcahy has devoted several evenings to the club, leading them in songs and playing marches for them to drill by. This beneficial work has been made possible through the generous donations of several business men whose names have been previously mentioned.

SUBURBANITES

MAKE COMPLAINT

Suburbanites who use the C. N. R. daily have a grievance, or rather a few grievances as to the service given them. They are hoping for an improvement for the summer months. One of them said today that during the last few months it had seldom been the case that the suburban train, though having a run of only twenty-two miles, had been on time. Many of those who depended upon this train to reach the city were working men who had time clocks to punch on arival at work and they lost from half an hour to an hour various days each week on account of the delay in the train arrival.

Peggy Hyland, a star of two continents on both the legitimate stage and in the motion pictures, is in the city today on her way to her home in England, after assisting in presenting to the public of the United States and Canada several thousand feet of high-class picture films. She arrived yesterday from Los Angeles, Cal., with Fred. L. Granville and Ralph Wells, who will accompany her to the other side of the water. Miss Hyland, who is a native of England, was well known on the stage in London and in the province before she came to America just before the war to play with the Vitagraph company in a series of English play and folk pictures. She has been seen at intervals on the local screen and has a host of ardent admirers. One of the outstanding features of her career in America was nerposing with E. H. Albans, that city named after the British proto-martyr, who experienced the Diocletian persecution. It is a likable place and its proximity to London, a mere twenty-one miles away, has not yet taken off the edge of its essential provinciality.

I can imagine no ramble more pleasant than that which shall bring you, let us say, on some thymy morning in May, when the pink horse chestnuts, which are here a feature, are in bloom, when the air is scented and moist with recent showers and suppressed heat, and a blue haze settles over the landscape, into St. Michaels, an old English village, untouched by any modern developments, save for the injudicious restoration of the church, when Lord Grimthorps, that devastating amateur architect who spoiled St. Albans cathedral, let loose on it, some twenty-three years ago.

The River and the Church.

At the entrance to the village you see the little River Ver crossing the road by a ford or waterfall, still in use when a carter wishes to cool his horses' feet; although for the general convenience, a little red brick bridge was built more than a hundred years ago.

St. Michael's church, standing as it does almost in the centre of the old Roman city of Verulamium, is largely built of Roman brick and tile, the spoils of that vanished place, whose fragmentary walls yet stand lonely in the meadows. The chief interest of the interior is the curious statue of Bacon, in an alcove on the north side of the chancel. It represents him in his habit as he lived, seated in a chair, in an at-At the entrance to the village you see in an alcove on the north sade of chancel. It represents him in his habit as he lived, seated in a chair, in an attitude of chilosophical abstraction. "Sic sedebat," says the inscription beneath, showing us that the work indeed was intended for an intimate, rather than a conventional portraiture. It was placed here as a mark of affection, by his secretary, Sir Thomas Meantys.

There is a right of way for pedestrians through the park of Gorhambury, now a property of the Grimston family, whose head is the Earl of Verulam. The existing mansion is a typical classic building of the eighteenth century, with an imposing peristyle of lofty stone columns. Bacon's old home is equally typical of its age, the Elizabethan Renaissance period. This scene of the great chancelor's pride, and of his retirement, has long been a ruin. That he was housed sufficiently well we can yet see from its best preserved feature, the porch, with its now forlorn panels of marble and its terra-cotta medallion heads of the Roman emperors. The ruins are stayed up now with ors. The ruins are stayed up now with brickwork and iron rods.

Announcement to the Housewives of St. John! Opening of The Busy Bee

An agreeable surprise awaits the public of this city in the opening of our modern crystal palace of a bakery—the Busy Bee, at 143 Charlotte Street. Opening is today, Satur-

We feel that this model and modern bakery will meet with the immediate approval of those who desire the very best in food stuffs; as inquiries by the public directed to us would indicate that they are sure to support this innovation.

We will carry only high class and high quality home made cakes, etc.

A feature which will quickly appeal to the public is the fact that we have been very fortunate in obtaining the services of Mr. Winters, who has been closely identified with the food conservation activities in the United States. Mr. Winters might be termed "the wizard" in the baking line as he has many new discoveries in this art to his credit. This expert has taught many domestic science teachers the tricks of his trade and his products at our store are sure to gain the endorsement of the particular.

Here are just a few of the many things here for your attention:

Palm Beach Cream Layers **Tutty Frutty Cream Layers** Roasted Almond Cream Layers China Cream Layers

Lady Baltimore White Angel Cream Food Golden Angel Cream Food Monte Carlo French Pastry Italian Confections Royal Tarts

Belgian Macaroons Canadian Marble Macaroons American Macaroons Indian Cream Filled Heads Brownies Choc. **Cherry Waffers** Vapilla Waffers Pettie Fours Fancy Iced Pound Assorted Decorated Iced Pound Assorted

With every \$3 purchase Saturday, April 10, a pound of best Pound Cake will be given as a free sample. The following kinds: Genoa-Sultana-Plain-Walnut-Fruit

Don't fail to come and see the master's work—the treat of your life awaits you. Mr. Winters might be styled the artist that paints pictures to perfection in his chosen line

The Greeks who made food fit for the gods must now side-step in favor of Mr. Winters—as he not only makes food fit for the gods—but ingredients to fit the foods!

DOMINION IS BEST CUSTOMER OF U.S. Simply say H.P. (N. Y. Sun.) (N. Y. Sun.)

In the wide field of international trade there always will be foreign markets where we can more naturally buy than sell. There always will be markets where we not only sell rather than buy, sell more than any other foreign trader sells. Jealously must we regard our great selling markets and stoutly must we strive to cling to them, else shall we suffer in our buying markets as well; for the trader that does not sell cannot buy. to your grocer—he will hand you a bottle of the most appetising sauce in the world.

In February this country bought from Canada just short of \$40,000,000 of goods. But we bought from Cuba nearly \$78,000,000—\$33,000,000 more than we bought from Canada. We bought from Japan \$43,000,000—\$3,000,00 more than But be sure you DO say H.P., because you want from Canada. We bought from Argentina, Brazil, Chile and Uruguay, put together, \$50,000,000—\$10,000 more than we bought from Canada. We bought from China, British India and Egypt, put together, \$58,000,000—\$18,000,000 more than we bought from Canada.

But in the same February we sold to Canada \$63,000,000, which was \$32,000,000 more than we sold to Cuba. It was \$29,000,000 more than we sold to Cuba. It was \$29,000,000 more than we sold to Japan. It was \$36,000,000 more than we sold to Argentina, Brazil, Chile and Uruguay put together. On the record of those hard, cold figures can we set up anywhere in the world trade credits more valuable to us in the golden fruits they bring us back than those which enable us to sell our goods right across our northern border as we do sell them, under normal peace conditions to no other nations of the globe with the single exception of the United Kingdom?

Topiary, or the art of tree-sculpture, has experienced a great revival during the last thirty years, and many gardens grown in yew.

IF you are going to erect a home, store, factory, garage or other building with a slanting roof upon which an attractive, permanent covering is desired at a moderate cost you will find that Brantford Crystal Roofing meets your requirements.

This roofing is comprised of felt, asphalt and crushed crystals of quarry slate and weighs 80 to 85 lbs. per square. Its extra weight will give you an idea of its durability and permanency.

Brantford Crystal Roofing is sold in reddish brown and dark green, which are the natural, unfadeable colors of its crushed slate surface. This roofing adds beauty to any roof covered with it. Being in rolls and pliable it is very easily and quickly laid, which is an advantage when the need is urgent, labor so scarce and wages so high

Brantford Crystal Roofing

is non-absorbent and therefore completely water-proof. It makes a solid, permanent roof which is proof against rain, snow, frost and heat. Flying embers and clouds of sparks may fall on its crush-ed slate surface but they harmlessly die out without injuring the roofing

Get Out Your Idle Flashlight

EARCH your cupboard drawers; rummage through that space by the cellar stairway; perhaps you'll find it in the sewing machine, atop the medicine chest, on the highest pantry shelf or on your work-bench in the basement.

Wherever it is, get it out—take it down—have it filled—take it home—PUT IT TO WORK! Remember how useful your Daylo was when you first bought it? You need it worse now than you did then. Tonight, perhaps, its use may prevent a fire, save a life. You

all that your Daylo needs may be a new battery. This is Daylo Battery Week. The idea is to put every idle Daylo and flashlight back on the job of making it easier, safer and surer to go into and look into dark or dimly lighted places. Dealers everywhere have just received a new supply of Eveready Tungsten Batteries—jammed and crammed full of power and pep, fresh as daisies and with a long life of useful service before every battery.

Eveready Tungsten Batteries fit all flashlights. They better every flashlight into which they're put—make it more useful—because they're the most power-full, long-

est-lasting, peppiest batteries made.
Twenty years' experience in making and perfecting flashlight batteries show in the quality of every Eveready Tungsten Battery.

Business houses don't scrap a typewriter because it needs a new ribbon. Don't you lose the valuable services of your Daylo just because it needs a battery. Get it out—take it down—have it filled—take it home—PUT IT TO WORK!

COMING—Another Eveready Contest \$10,000.00 in Cash Prizes. \$3,000.00 First Prize. \$1,000.00 Second Prize. 102 other Prizes, \$500.00 to \$10.00. Ask your dealer for details.

CLEANING UP WASHINGTON. Murder will out, is an old saying, so old that everyone knows the meaning. And it is comforting to know that some of the things whispered about at Washington during the war, and in fact until recently, are coming to the surface and a greater sense of things being done pervades the atmosphere. "Franklin K. Lane," says Forbes Magazine (N. Y.), "has had the courage to utter some wholesome truths about the muddle which characterizes the conduct of government operations at Washington. Here is a simple sentence that characterizes Mr. Lane's indictment. 'Everyone seems to be afraid of everyone. The self-protective sense is developed abnormally, the creative sense atrophies. Trust, confidence, enthusiasm—these simple virtues of great business—are the ones most lacking in government organization.'

Note these seven words: 'Everyone seems to be afraid of everyone.' This was brought home disgustingly to almost every dollar-a-year business man who attempted to get things done at Washington. A remark made to the writer in the bitterest tone by one of those men, the head of a huge organization, who has the reputation of being one of the most forceful executives in the country: 'Nobody here has the courage to give you a decision upon anything, except McAdoo, and he will give you a decision upon everything, whether he knows anything about it or not.' a greater sense of things being done per-

gested that the numbering of ballots was inadvisable as it might often provide a means for identification of the ballot. The solicitor-general said that the numbered ballot was necessary because if a fraudulent voter used another man's name in voting the bona fide voter had to be sworn and the identity of his vote established for use in case of a recount. Hon, Mackenzie King objected to a sub-section which provided for the appointment by returning officers during polling day of posses of three or more constables each to be used wherever their services might be required. There was always the danger that these squads of police would be used for terrorizing of electors and there was a danger of corruption and of patronage in the appointment of these police. He moved to strike out that section of the clause, and the solicitor-general was agreeable to that being done.

Discussion of clause 65 was centered around a section which provides that "no spirituous or ferinented liquors (whether or not intoxicating) shall be sold or given at any hotel, tavern, shop or other place within the limits of any polling day."

Mr. Morphy objected. It was so drastic, he said, that a man could not accept from his own wife a small portion of stimulant which might prevent him from going into a collapse after a strenuous election day, between five o'clock and twelve at night. He thought it unwise to make the law too drastic. The public was becoming restive of drastic measures.

Mr. Guthrie was quite satisfied to the benderic provinces and J. A. Barry agreed to be bondsmen for the accused.

The City Booster

For Good Streets Good Citizenship

"FOR OUR CITY"

April 9, 1920

It has tried to show you the folly of our city attempting to do what

other cities equally capable have fallen down on. It has tried to explain to you the principle of equity and of fairness on which the Abutturs' Act is based.

It has urged upon you the importance of seeing that every progressive man and woman in the city shall vote in favor of the Act. Now, "The Booster" will retire. Don't think it is dead, however, for the boosting spirit never dies. There will always be those who will keep

the home fires of boosting burning. IT'S UP TO YOU as Citizens—as Rotarians—as Commercialites—as embers of the Board of Trade—as people who "promote prosperity," to see that the Abutters' Act is carried at the polls-and to see that the right men are elected to enforce it.

It's been a pleasure to The Booster to talk with you. Thank you, Yours for St. John's Prosperity,

THE CITY BOOSTER

P. S.—Be sure to run your pencil through the word "NO" at the bottom of your ballot. Let the "Yes" stand—unless you would be a "promoter of poverty." BYE-BYE, EVERYBODY. VOTE RIGHT. B.

. "GLORY IN EXPANSION"

THERE'S A SONG in Rotary which begins this way: "The Rotary contingent is advancing to the front, We have lots of splendid singers and a few who only grunt." ROTARIANS as citizens desirous of promoting their city's best interests will advance to the front on Monday next. With a reputation to sustain as singers and as workers-not as grunters and kickers-they should make themselves felt.
"He Profits Most Who Serves Best."

Scratch Out "No" at the Bottom of Your Ballot

"PROMOTING POVERTY"

What more expressive slogan could the opponents of the Paving Act employ than the one they use in defining their backward policy—"PRO-MOTING POVERTY!" In following the course they are following they are certainly "Promot-

ing Poverty" and promoting it to the limit.

The mission of "THE CITY BOOSTER" and of those behind it, is exactly opposite. They are "PROMOTING PROSPERITY." Let's look into the arguments that the POVERTY PROMOTERS

1. They say the principle of taxing for benefits received is wrong. They believe that the rate-payer who lives miles away from an improved street, and who might never put his foot upon it, should pay as much for that improvement as the land-owner on the street whose property is improved and enhanced in value. The unfairness of this, the first plank in their "poverty" platform, is easily apparent.

2. They say that the Abutters' Act "departs from precedent." If

a wrong precedent has been set, the sooner the city departs from it the better. The quicker a drunkard acquires the habit of sobriety the better for himself and everybody else.

3. They say that home building and expansion of industrial properties

will be penalized by the abutters' tax. A false idea, surely! St. John has been operating under general assessment for many years. Has home building and expansion moved any more rapidly here than in cities such as Toronto, Hamilton, Brantford, Ottawa, Winnipeg, Calgary, Boston, Baltimore, Chicago, Vancouver, Philadelphia and other places where the abutters' tax has been in force? St. John has not been going forward as it should, largely because of the false and selfish principle of loading every-

1. They say the Abutters' Law is "unworkable in practice." It has worked all right on Germain street, hasn't it? The experience of the cities above named, and hundreds of others as well, has been that IT IS THE ONLY PRINCIPLE THAT IS WORKABLE in practice. Montreal tried the general assessment plan, and the "Poverty Promoters" there succeeded so admirably in their poverty promotion that the government of

Quebec had to come to the city's rescue. 5. Again, they say the abutters' law "increases rentals out of all reason.". It is the prevailing impression that the rent profiteer has already increased rentals beyond all reason. Under general assessment, where the whole load of street improvement is thrown upon the city, proliteering landlords would certainly push rents to the limit. Under the abutters' tax there would be little justification for increased rentals, except in the im-

proved areas where both landlord and tenant would enjoy benefits. 6. They again say the abutters' tax is "inequitable in the extreme,"that it is unfair to the poor man and favors the rich. The inequity of general assessment is that the poor man who is compelled ot live on side and back streets and in the suburbs, where paved streets may never come, is forced to pay additional taxes to improve the property of the rich men on valuable thoroughfares. Could anything be more unfair and inequitable than this? The people who receive benefits are the people who should

7. Finally they say that the abutters' tax is "altogether unnecessary"—that the present by-law makes ample provision. If there is such an effective by-law, why has it not been put in force? Answer—Because the existing law isn't effective, and doesn't meet the situation,-a fact clearly proven by the rotten streets that we find almost everywhere in St. John.

IF THE OBJECT of the plebiscite is to "Promote Poverty," and to hold up the improvement of our streets until all the present residents are dead, then by all means vote for the General Assessment plan. But if the object is to "PROMOTE PROSPERITY"—to build up our city as other progressive cities have been built up-to establish a principle that should be permanent, and a policy that should be adopted for all time

-THEN VOTE FOR THE ABUTTERS' ACT.

At the bottom of the ballot which will be placed in the hands of voters at the polls on Monday next, there are these words:

"Are you in favor of owners of properties abutting on streets proposed to be paved being assessed for a portion of the cost as provided for in Bill now before the Legis-

There is another word, "No," immediately below the above words. BE SURE TO RUN YOUR PEENCIL ACROSS THE WORD "NO." Beat it out of existence-unless you would be a "promoter of poverty."

TO THE ELECTORS: Ladies and Gentlemen.

Upon solicitation of many friends, I have decided to become a candidate for the office of Commissioner in the forthcoming civic election. If favored with your support, I promise to devote my full energy to forwarding the interests of the City with a view to making St. John a better place to live in.

To the Electors of the City of St. John:

City of St. John:

LADIES AND GENTLEMEN:—

Having been nominated for the office of Commissioner in the coming Civic Elections, I respectfully solicit your votes and support.

On the question of taxing abutters for paving, my view has not been changed by the alterations made in the proposed Act. I believe as firmly as ever that it would be in the best interests of this city to continue to pave the streets at the general expense. streets at the general expense.
Regarding daylight saving and shorter working hours for clerks in stores, two matters which have been before the Common Council, efforts are being made to effect a settlement by agreement in each case and I hope that, in a give and take spirit, both matters will be settled in this way.

Sincerely yours,
GEORGE FREDERICK FISHER.

To the Electors of the City of St. John:

Ladies and Gentlemen.

Being a Candidate for election on Monday, I would respectfully ask my friends and supporters to go to the Polls and vote. It is quite evident that the number of candidates will divide the vote to a greater degree than ever, and if it is your desire or intention to vote for me, please do so at the Primary election. With nine candidates in the field, five of them must be left at the gate in the Primary election. The field of Candidates is large, and if you have not good government the fault is yours, not theirs. Trusting your interest and support, I am,

Yours truly, JAMES H. FRINK.

The Widow's

TO THE ELECTORS:

On the eve of the election which is to decide the fate of the unjust bill which imposes a heavy special Abutters' tax for paving purposes let me make a last appeal on behalf of myself and several hundred widows owning property in St. John. For many of us this property represents our only source of income. The return from the property is at present scarcely sufficient for many of us to keep body and soul together. If a special tax of from \$600 to \$1,000 is imposed on us we cannot hope to pass this unjust and unwarranted tax on to our tenants, especially in the poorer districts where the rents are higher now than many people can actually afford

If "Yes" carries on Monday the city will have to take my own property and do what they like with it. I cannot bear the burden and there are many more of my unfortunate sisters in the same position. The widow's mite helps to pay the city taxes but the great bulk of the civic revenue comes from the men of wealth and the business interests. These latter escape almost scot free in the paving of the remaining streets of the city if the bill goes through, although the streets they are using have all been paved by General Assessment. Surely this new law is a rich man's law with a vengeance and when the streets are paved, as they should be paved, let everyone pay according to their means. My own house is worth possibly not more than \$2,000 but I must pay as much as the business man who owns a house on my street worth \$12,000, whose teams are carrying loads past my door and who wants paving for the use of his automo-

Another man doing half a million dollars' worth of business a year and using my street for his teams and trucks pays nothing-because he

lives just around the corner. Is this fair? The poor man who has struggled to build a home is in the same position as myself and the other widows. Surely in Lower Cove, Brussels street, City Road, the North End and the West Side, all to come under the operation of the proposed act as the Common Council dictates, there zens to turn out on Monday to vote NO and save

the property of Yours Hopefully,

A POOR WIDOW

KEEP URIC ACID OUT OF JOINTS

heumatism is easier to avoid than to cure, states a well-known authority. We are advised to drest warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatsim is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the idneys to filter this acid from the blood and cast it out in the urine; the pores f the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores re closed thus forcing the kidneys to do buble work, they become weak and uggish and fail to eliminate the uric id which keeps accumulating and cirulating through the system, evenually ttling in the joints and muscles causes stiffness, soreness and pain called eumatism.

At the first twinge of rheumatism get om any pharmacy about four ounces of d Salts; put a tablespoonful in a glass water and drink before breakfast each rning for a week. This is said to minate uric acid by stimulating the lneys to normal action, thus ridding blood of these impurities.

3. Demonstrate the Schafer method of resuscitation and the promotion of warmth and circulation.

4. Swim fifty yards and undress before touching ground.

These two badges are of special interest to maritime scouts. In winter the scouts are enabled to pass for this badge through the courtesy of Mr. Armour of the Y. M. C. A., who is the official examiner. The Y. M. C. A. has also been so kind as to open the swimming tank to a scout class lead by Mr. Campbell for the purpose of teaching boys how to swim. Headquarters is deeply appreciative of the kindness of the Y. M. C. A. authorities.

The final lesson of the missioner badge class was taken on Friday evening in Centenary church when Miss Retallick taught a number of boys how to make various sick-room food preparations. The boys who have been taking this class will be examined very shortly on the requirements for the badge, and it is expected that a large number, if not all, will pass.

twenty-nine murderers for the fest of the night.

Lawes was admitted by the death watch a little after ten p. m. When the guards changed shifts at 10.30 they take the cell and door keys of the death house away and leave them in the principal keeper's office in another part of the prison for the rest of the night. This rule was re-established after Oresta Shillitano shot two guards and escaped there late one night in June, 1916.

When Lawes asked the keepers to open the door after midnight they laughed, and one replied: "We can't. Remember we are not allowed any keys on this shift." Warden Lawes laughed when he found himself in a trap of his own vigilance.

The death watch telephoned to the principal keeper's office, and after considerable delay extra guards responded and cautiously unlocked the death house steel door.

wooden troughs and conveyed in buckets on the shoulders with a sap yoke to a central point to be boiled. No sugar bush was fully equipped without snow-shoes, which were frequently found necessary in gathering the sap. The boiling was done in large fron feettles suspended from a pole in the open woods in a sheltered location with no protection from the sun, rain or snow or the ashes, falling leaves, moss and bits of bark that were driven about by the wind.

wind.

The maple products made by this crude method were strong in flavor, dark in color and variable in quality.

Until about fifty years ago there was little improvement made in the methods of sugar makers; but since that time the advance has kept pace with that in other branches of agriculture until it has become a more or less highly organized commercial industry.

Barly Improvement.

An early improvement was the substitution of the auger for the axe in tapping, coopered buckets took the place of the birch bark 'caso" or hewn sap trough, while the kettle gave way to the evaporating pan, which has, in latter years, developed into the modern evaporator with corrugated bottom and separate compartments. Not alone for the conservation of the life of the tree, but also for the cleanliness in sugar making, the wooden spout has almost disappeared in the most advanced sections, in fact the tendency now is toward the use of metal in every article of equipment with which the sap, syrup or sugar comes in contact. Furthermore, the increasing cost of labor is being met by the ingenious inventor, who has provided facilities for taking full advantage of the law of graviation in handling the fluid which is a well-equipped plant flows of its own accord from the collecting tank to the storage vat, from thence to the evaporator and, when boiled to a proper consistency, into the receiving can. Indeed where the profile of the sugar orchard will permit of it, pipe lines are laid to conduct the sap from outlying collecting centres to the camps where evaporation takes place.

With all the advance that has taken place in manipulation, sugar making has not lost its romantic side. "Sugaring off" at the sugar camps in the woods is still looked forward to by young and old, who regard the event as a social feature affording rare enjoyment. The tramp to the woods on a spring day, the aroma of the escaping steam, the partaking from a wooden paddle by means of a chip-like scoop, the hot syrup just on the verge of solidifying into sugar, or the tasting of the "wax" that has been allowed to harden on the clean snow, all serve to inspire the reminiscent story teller and to awaken the amorous instincts of the budding youths. Such was the sugaring off of decades ago, and such it is today, where sugar orchards are operated for from two to four weeks in the spring in certain sections year after year.—J. B. Spenc

one of the modern miracles that I am alive today after all I have gone through," declared Miss Dora Hanson, in the York county court yesterday afternoon. She was being cross-examined by C. D. Richards, after having given her evidence in a case she has brought against Mrs. Elizabeth Coburn for \$200 damages because she alleges the defendant failed to heat a flat which she and when the summer comes I suppose they'll try to heat me out," continued Miss Hanson, unperturbed by attempts of the defendant's solicitor to stop the flow of condemnation of his client. Only because Divine Providence, in Whom she said she had never failed to trust, was always on her side was she allve to tell the tale, she said, for she had been ill with bronchitis and not only her "lungs but whole body had been 'cured."

Mrs. Coburn, a demur little widow with grey, almost white hair, smiled when Miss Hanson told of having been driven from the cellar by the defendant, with grey, almost white hair, smiled who she declared was armed with a slab of wood five feet long and four inches thick.

The accompanying announcement, after our very pleasant and satisfactory engagement at another local theatre, deserves some explanation, and to this end I beg to submit the following details:—

My Show is famed for lengthy engagements, in fact might be termed a Stock Company, and as it was impossible to arrange a protracted stay in the Queen Square Theatre, I would have been compelled to leave St. John two weeks later, even if patronage at that time indicated that I was still wanted. Under these conditions, apparently the only business-like solution for me was to complete my original contract of six days and seek another Theatre where the length of my stay in St. John would depend entirely on public favor, whether that be short or long.

We will offer for your approval a refined, entertaining Tabloid Company, containing not the slightest vestige of anything to offend. It will be our earnest endeavor to earn and retain your approval, and if the reception accorded our little Company in Halifax, Sydney and elsewhere in the Maritime Provinces where we have been for almost a year, is any criterian, St. John should not prove any exception.

Thanking you in anticipation of a generous share of your patronage during my St. John engagement, I am,

Respectfully

Cannon Ball in Tree. vancouver, B. C., April 10—An old fashioned cannon ball, of the 25 lb, variety, used many years ago on this coast by the admiralty ships, caused the False Creek Lumber Company a loss of \$250 the other day. It was embedded in the centre of a huge log cut at Duncan Bay. The tree had grown around the ball and concealed it so well that it was not discovered until the saw struck it. The missile must have been discharged many years ago by a passing warship.
