PICTURES SHOW

7 KNOCKDOWNS IN FIRST ROUND

Tuesday, July 8.—All doubt concerning the number of knockdowns Dempsey scored in the first round of his heavy-weight championship contest with Jess Willard, July 4, was removed today when motion pictures, exhibited privately to promoter Richard and a party of friends, revealed that the dethroned champion was sent to the canvas seven times. There were no knockdowns in the remaining two rounds, but Willard probably would have been felled if the ropes of the ring had not supported him.

Dempsey, the picture revealed, felled Willard with left hooks to the chin for the first four knockdowns. He upset the defeated champion with right and left swings. The first blow that upset Willard was a short right swing to the head followed by a left hook to the chin.

CIRCUS LIVED UP TO GOOD REPUTATION

Commissioner Thornton said this morning, in speaking of the circus, that both the company and its employees had left a most favorable impression. So far there had been no cases of pick-pocketing or other serious misdemeanors and the deportment of the men was all that could be desired. There was a few claims for damage but these were all satisfactorily adjusted. One case was reported where one of the householders near the circus grounds lost a bottle of milk and one of the circus men confessed to having taken it, and compensation was made. A woman complained that she had lost a pair of shoes which she had left in the circus tent. The ticket seller admitted the fault but she was sold out of half-price tickets. The difference was refunded the woman.

Parliament Prorogued

Canada's Thanks To Army—Speech From Throne—Bills Killed By The Senate

Ottawa, July 7—The dominion parliament after a session running well into the fifth month was formally prorogued this afternoon at 3 o'clock. Both the commons and the senate met this morning to complete their business. The commons adjourned before noon until 2:45 when it convened for the prorogation ceremony. The house did not complete its business until 12:30 o'clock.

The most important occurrence at the final business sitting of the commons was the adoption of a resolution moved by Sir Robert Borden and seconded by D. D. McKenzie, opposition leader, thanking the Canadian army for its splendid achievements to the cause of humanity overseas.

Both leaders drew in eloquent terms not only on the record of the men who fought in France; thanks was also officially extended to those who rendered service in other fields of action and at home. Both leaders spoke in terms of high praise of the services of Sir Arthur Currie.

Several Measures Dropped.

Several measures of importance either fell by the wayside or were not pressed by the government. Senate amendments to the prohibition bill, insisted upon by the senate and as steadily refused by the house, led to its abandonment, for the present session at any rate. The purpose of the bill was to continue the terms of the prohibition order-in-council in effect for twelve months after the proclamation of peace. It also takes into consideration the new situation which has arisen in Quebec as a result of the decision there to permit the sale of beer and light wines. The bill would have permitted the manufacture of beers and light wines in such provinces as permit their sale. With the dropping of the bill, the status under the order-in-council will be maintained. Importation, manufacture and inter-provincial trade in alcoholic liquor remain forbidden until the order-in-council expires with the war measures act, from which it derives its authority—namely, on the proclamation of the peace. The fall session for ratification of the peace treaty will, however, be called before the act expires. Among other bills which failed to pass were:

The bill to create divorce courts; the bill to continue the war purchasing commission in operation; and the bill to disfranchise military service defaulters.

The fall session will probably be called in September or in early October.

When the commons gathered at 8 o'clock in the afternoon they were summoned without delay to the senate chamber where His Excellency the Duke of Devonshire read the speech from the throne, in part as follows:

Having regard to the necessity of avoiding industrial disturbances and with a view to ensuring more stable relations and a better understanding between employers and employees, my advisers intend to summon in the early future a representative conference for friendly and intimate discussion of such questions, and for the consideration of the report of the industrial relations committee and of the proposals therein set forth.

Almost the entire Canadian Expeditionary Force has now returned to our shores and the task of demobilization has proceeded with much greater expedi-

tion than was at first believed to be possible. The work of assisting the returned men in vocational training and in settling upon the land has made rapid advances and it is believed that in this respect Canada stands second to no country in the world.

Rising to a question of privilege Sir Robert Borden made a statement with regard to his investment in the Manitoba Cold Storage Company, to which attention was drawn by Major Thomas A. Vren, in the House recently.

Sir Robert Borden, seconded by D. D.

MacKenzie, moved a resolution of thanks to the Canadian army for its splendid achievements overseas.

Ottawa, July 7—A supply bill of \$162,500,000 was voted by the senate this morning; commons rejection of senate amendments to the sexual offences bill was read; and the government bill respecting electric and power companies, was ruled out of order. Then the senate adjourned to meet at 2:45 for prorogation.

The effect of these actions is that the government gets all the money it has asked of parliament this session, which Senator Bostock said was more than \$700,000,000. The age of consent remains at sixteen years. The commons bill proposed to increase the age to eighteen in all cases where the girl had been previously virtuous and the man was over eighteen and in the case of employer and employee to the age of twenty-one. The amendment of the senate was that where the man was not wholly or chiefly to blame for the offence, the judge might instruct the jury that a verdict to acquit could be found. The answer of the commons to this amendment was that question of "comparative culpability" of the persons concerned cannot be considered.

The concurrence of the commons with the senate on this point has the effect of killing the whole bill for this session and leaving the age of consent as fixed by the criminal code at sixteen years.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Nothing Like Plain Bitter-Phosphate to

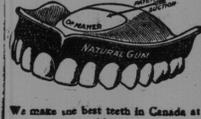

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by the Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by applying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Hiram Where Were You on Sunday

You can always find something to say about us fellows driving our cars so fast on Sunday. Why don't you report the Clothing Houses that's doing business in our city on Sunday and see that the laws of the city are carried out. If these houses cannot compete with other clothing houses during the week, it's no reason why they should have full swing on Sundays, when the rest of us are trying to enjoy what our boys were fighting for, that's Freedom, Not Slavery.

If we all have to open up on Sunday to see that our boys get their money's worth, it will mean as near slavery as we want in this part of the world.

Why not let our boys see that we appreciate what they fought for and try to entertain them in some other way. I am sure they don't mind waiting till Monday.

THE IRRESPONSIBLE SENATE

The Toronto Globe does not mince matters in dealing with the action of the senate in holding up the bill for the issue of responsible government which was fought out eight years ago. Then as now it was a question whether the people were to have responsible government or be governed by appointees of the crown. The Globe says:

"The members of the commons of Canada are contented today with a condition under which a small group of political misfits and failures, appointed to the senate for life by the crown on the recommendation of the ministry, boldly proclaim that they are the rulers of Canada, and that the commons, and the government of the day must accept the senate's decisions as the last word in regard to legislation of the greatest national importance. The viewpoint of this group of irresponsible rulers toward popular government was stated by Senator Crosby in presenting reasons for the rejection of the bill for the extension of war-time prohibition. The members of the commons, he said, were only 'birds of passage, here today and gone tomorrow, while the senate was a life body, composed of hand-picked men, the ablest in Canada.'"

As to Senator Crosby himself the Globe makes these caustic observations: "Adam Crosby, who from his secure place as a legislator for life by the grace of Sir Robert Borden insults the people of Canada and belittles the ability of their elected representatives, sat for Halifax in the commons from 1908 till 1911. The citizens rejected him when he went up for re-election, and thereafter Mr. Crosby ceased to be interested in the 'Bird of Passage' house. He was hand-picked for the 'Upper House' in 1917."

Continuing, the Globe declares that even if Senator Crosby and every other senator who holds with him that the senate is composed of hand-picked men, aristocrats of the intellect, Elder Statesmen who rule Canada by divine right, should prove to be entirely right in the remarkably good concept they have of themselves, that does not settle the question. "The issue of self-government," says the Globe, "remains. There never was a tyrant yet but believed that the sort of government for which he was responsible was incomparably better than any which could be provided by the people over whom he tyrannized. Europe has been engaged recently in driving out its autocrats, and a bloody and horrible task it has been. The senators of Canada cannot be altogether blind to the fact that government of the people, and is not likely to last long as a Canadian institution."

"The mob begins to tire of senatorial arrogance. It does not recognize the divine right of Adam Crosby and his kind to govern Canada in defiance of the wishes of the elected representatives of the people. It is amazed that the government and the commons have taken the floating of their authority with the complaisance shown at Ottawa. It is determined that Prussianism shall not be transplanted from Berlin to the capital of the Canadian Confederation. Sir Robert Borden and his ministers will have to choose between government by the senate and government by the people. If the ministry fails to bring forward a measure to clip the wings of the senate, as Asquith clipped the wings of the British House of Lords in 1910, there can be but one supreme issue upon which, at the next election, the judgment of the country will be passed. Shall the senate rule Canada, or shall the people continue to enjoy the right of self-government?"

GOOD ROADS.

With federal aid the provinces will be able to increase from year to year the mileage of durable good roads. It is fortunate that New Brunswick has, in the person of Hon. P. J. Veniot, a minister of public works sincerely desirous of improving to the limit of the funds available the roads of the province, and not to waste the money on mere patchwork or use it for purely political purposes.

All the provinces must yield the path, however, to the province of Quebec when it comes to the question of good roads. A Toronto exchange pays tribute to this tributer.

"The good road policy of Quebec made the province one of the easiest in Canada to travel over, and has already placed many hundreds of thousands of dollars in the pockets of the inhabitants from visiting tourists alone. In the year 1911 legislation was passed to spend \$15,000,000 on main road construction, to be spread over a period of years. When the war broke out the work went on just the same, and in 1919 the \$15,000,000 was supplemented by \$3,000,000 for maintenance. Because of this generous aid to good roads Quebec has today, besides its splendid highways aggregating 1,200 miles running between the principal urban centres, about 35,000

miles of good public roads intersecting every part of the province. The result is that every city, town and hamlet are linked up to one another. The farmers have easy access to the markets, and city people can really get in personal touch with the country life of the province. As an investment the \$20,000,000 voted by the legislature for road construction and maintenance has repaid in the increased prosperity of the people."

The Quebec government adopted a bold and enlightened road policy and the people approved. The people would do the same in every province, for they want good roads.

Toronto Globe: No need for that senator who regards the senate as composed of "hand-picked men, the ablest in Canada," to pray the prayer of the Scott: "Lord, send us a guide content of ourselves."

ATTEMPT TO VISIT FIANCEE COST SOLDIER HIS LIFE

Geneva, June 15.—(Associated Press correspondence).—A French soldier aged twenty-four, who has been at the front since 1914, and won the War Cross, presented himself to the French guard at Neuchatel on the Swiss frontier and said that he must visit his fiancée in Switzerland whom he had not seen for three years. When the guard said that it was impossible to let him pass, the soldier declared "I am going even if you shoot me. I must see her." As he crossed the frontier the guard fired and the soldier fell dead.

MRS. NORMAN GAINS FIFTEEN POUNDS

Tanlac Made Minnesota Woman Well Two Years Ago—Good Health Continues, She Says.

"There's been such a remarkable change in me that my friends, who haven't seen me since I began taking Tanlac, don't know me on first sight," was the statement made by William Porter, a well-known farmer of Hannan City, Illinois, R. F. D. No. 2, while in the Suliff & Case Drug Store at Peoria, recently.

"So many of my neighbors were telling me how well I'm looking these days," he continued, "that I got on the scales to see how much I had gained in weight and was surprised myself to find that I actually pull down forty-three pounds more than I did the day I started on Tanlac—going up from one hundred and seven pounds to one hundred and fifty. Why, even my wife has been astonished and says she can't understand how a medicine could do what Tanlac has done for me."

"My stomach had been all out of whack for sixteen years and, as nothing ever helped me, I had about come to the place where I was ready to quit trying. Many a time after eating I have had such awful cramps in my stomach that I thought I would die. I would swell up with gas, I would be so dizzy for hours that my head seemed to be spinning around like a top, and I couldn't walk. I finally got so I was afraid to eat anything except something very light, as anything the least bit heavy would bring on one of those terrible spells of cramps. I couldn't sleep but little at night, always felt worn out in the mornings, and what little work I did on the farm was a drag to me. I would be so weak and played out by the middle of the day that my knees would knock together as I walked. I was constipated all the time, had sick headaches, and was so nervous, weak and miserable that I just felt like giving up the fight."

"During those sixteen years I spent close to three thousand dollars for treatment and medicines, but nothing ever helped me until I got Tanlac. I was so discouraged that I couldn't see any hope of ever getting better. One day I said to my wife: 'Do you reckon this Tanlac I read so much about, would help me?' So we talked it over and I got a bottle. 'Well what that bottle and nine others together have done for me has astonished everybody that knew my condition. Why, I don't feel like the same man and look so different that I have to stop my friends who haven't seen me in some time and tell 'em who I am. Things that used to nearly kill me when I ate them don't hurt me now. I sleep like a log every night—never wake up until the birds begin singing around the house—and I feel like a boy again, full of life and energy. I hop out of bed in the mornings hungry as a bear, eat more breakfast than I used to eat all day, and go to work feeling fine, and can do as big a day's work as I ever could in my life. I am now as strong as a horse, and haven't a pain anywhere in the same fix I was in."

"Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative—(Adv.)"

FOREST FIRE PERIL MORE THREATENING TO CALGARY

Calgary, July 7.—The forest fire peril is getting close to Calgary with the outbreak of a fierce fire on the Elbow River on Sunday which has swept from the western boundary of the dominion forest reserve up to the eastern edge of the Sarcee Indian reserve.

A high wind on Sunday caused an equally bad situation in the case of Sheep Creek fire which broke out again on the north side of the stream. The fire also spread east among the ranches in that district and some ranchers had a hard time saving their buildings. The high wind of today caused great anxiety.

A similarly gloomy situation exists in the case of a big fire west of the Indian reserve at Morley, which yesterday jumped the Ghost River and is spreading rapidly.

The Porcupine Hills fire is now under control, but has destroyed between fifteen and eighteen million feet of lumber.

Winnipeg, July 7.—Torrential rain-falls, accompanied by sharp lightning and heavier thunder, featured a storm which broke over Winnipeg at 9.30 a. m. today.

Reports from outside points indicate that the rainfall was general throughout Manitoba and southern Saskatchewan.

CONGREGATIONAL UNION

Captain George Doty, of Yarmouth, conducted the praise service, after which the business session was held.

The treasurer, J. W. Flewelling, submitted a report of finances showing receipts to be \$1,410.06 and expenditures \$1,508.18, leaving a balance on hand of \$56.88.

At the session on Thursday afternoon, officers for the ensuing year were elected:

Chairman—Rev. F. G. Furnell, Brooklyn (N. S.)
Secretary, Rev. E. J. Thompson, Keswick Ridge (N. B.)
Treasurer—J. W. Flewelling, St. John.
Assistant secretary—Rev. J. H. Sutton, Margaree (N. S.)

It was decided that in view of the forward movement to be undertaken by all denominations, that it be urged on all churches to give immediate consideration to the matter of increasing the pastor's salaries in order that they can better meet "the high cost of living." The whole plan of the forward movement, under the leadership of Dr. Day was strongly recommended to the churches.

The closing session of the union took the form of an ordination service, the candidate being Mr. Campbell Taverner, who has recently been called to the churches of Noel, Lower Selwah and South Mallard.

The Maritime Congregational Woman's Board of Missions' fifth annual meeting was held Friday, the president, Mrs. J. W. Flewelling, in the chair. Miss Kennedy was appointed minute secretary. The opening devotional service was conducted by A. W. Brooks of St. John.

The following officers were elected: President, Mrs. J. W. Flewelling, St. John (N. B.); first vice-president, Mrs. G. W. Ball, Pleasant River (N. S.); secretary, Mrs. Densmore, Sterling Brook (N. S.); treasurer, Mrs. H. Dunlop, Liverpool; superintendent of missions and baby bands, Mrs. C. Taverner, Lower Selwah (N. S.); representative to the Woman's Board of Canada, Mrs. J. W. Flewelling.

Under the Soldiers' Farm Settlement Board, which has been established in St. John since February, 146 soldiers have been placed in possession of farms in the province and several more are on the waiting list.

C. Leonard Emerson, B. A., son of John Emerson, assistant post office inspector, has tied for fourth place in the highest honors of third year medicine at McGill University.

WILSON HOME TODAY

Dreadnoughts and Destroyers Out to Sea to Escort His Ship

New York, July 8.—Four dreadnoughts and thirty-six destroyers from the Atlantic fleet formed an escort that met the United States naval transport George Washington with President Wilson aboard, thirty miles east of Sandy Hook early today. The presidential salute from the vessels was the first of the many welcoming ceremonies waiting the president on his arrival here this afternoon. In the harbor were forty-five warships, headed by the flagship Pennsylvania, with Admiral Henry B. Wilson aboard, assigned to join the out-harbor escort.

On Duty for the President's Arrival

On duty for the president's arrival were 1,100 policemen from the Jersey City and Hoboken forces and several thousand school children were formed in River street to greet the president with the "Star Spangled Banner" as he leaves.

Immediately after the welcoming exercises in Carnegie Hall President Wilson will leave for Washington.

Message to Congress

On Board S. S. George Washington—(By Wireless to the Associated Press) July 7.—President Wilson's message to be delivered to congress on Thursday completed. It contains about 5,000 words devoted to the peace treaty and proposals and the work of the peace conference.

It is understood these peace conference subjects are dealt with on broad general lines without taking up the large questions of the treaty in detail as this probably will come later when the foreign relations committee of congress examine the details.

HUGE LOSS ON AMERICAN RAILROADS BEING ADDED TO; FREIGHT DECREASE A FACTOR

Washington, July 8.—Decrease in freight business continues to be an important factor in causing a deficit in the operation of the railroads, Director General Hines said yesterday in estimating that the deficit for class 1 roads, those having at least \$1,000,000 annual income, amounted to \$36,000,000 in May.

DEADLOCK OVER HOURS

Kingston, Ont., July 7.—Negotiations between the metal trades council, representing the metal strikers, and President Wallace, representing the Canadian Locomotive Company, have reached a deadlock. The president has made a final offer of a forty-five hour week at a fifty-four hour pay, and the men have rejected the offer, insisting on a forty-four hour week.

CIRCUS PROVED A REAL GOOD ONE

John Robinson's Show Had Very Large Patronage and All Was of the Best in Entertainment

Business cares went to the winds, the high cost of living faded to a shadow and the trials and tribulations of the last four years of strife were temporarily forgotten yesterday—all roads led to the North End and John Robinson's big tented show. It was a regular peacetime gala day and all ages, and stages of humanity came, saw and were satisfied. Milton must have had John Robinson in mind when he wrote:

And young and old come forth to play On the sunshine holiday. There was everything that a circus must have—its monster street parade with prancing horses, glittering gaily decorated wagons, steam callioles, rube bands, clowns, restless caged wild animals, string of big lumbering elephants, slouching along trunk grasping tall, long-legged, much-behumped camels, ludicrous clowns and Charlie Chaplin. Charlie kept the crowd amused while the big tents were being filled for both shows and his bare-faced intimacies were taken with the usual good spirit of the circus crowd.

In the big main show for two hours and half act followed act with lightning rapidity and the big crowd was kept amused continuously. After the band had played an opening march, the show opened with a parade of all the performers and animals around the big ring and the trained elephants went through their paces, waltzed, and one big fellow delighted the crowd with an exhibition of the Shimmy-shake. A bit of the show was the fine string of horses, every one trained to the minute and ridden by exceptionally clever horsemen and women. One fine black ridden by a woman was particularly clever and met with well merited applause.

The several groups of acrobats and wire artists were more than ordinarily good. Their work away up under the tent roof was watched with interest and suspense and there was each time a great sigh of relief as they were lowered to the floor. Three hair raisers were produced as two ladies who slid from the roof to the ground, the whole length of the big tent, one hanging to the slanting wire by her hair and the other by her teeth, and the Jap wire walker who walked a wire to the roof and did a toe slide to the ground.

An outstanding feature was the work of the Nelson family, one of the finest acrobatic acts ever seen under a big canvas here.

There were more than the usual number of clever, comical clowns, and their antics brought screams of laughter from the kiddies and even the staid adults soon warmed up to their amusing actions and joined heartily with the children in the amusement.

Following the main show came a clever exhibition of horse management, rope throwing and broncho busting of the wild west variety. The star in this part of the show was Nebraska Bill, sole survivor of Buffalo Bill's famous band. He handled his sixty-five foot whip with wonderful dexterity and cleverness, cutting a piece of paper into strips while held in the hand of a girl.

Freaks of nature and remarkable stunts by both men and women were found in the side shows and the peanuts and pink lemonade were not missing. The animal show was particularly good, interest centering around the hippo on one end and the Australian kangaroo on the other. There was everything that a circus should have and it was the opinion of all that they got their money's worth.

"VIRTUOUS WIVES" AT IMPERIAL MAKES A NOTABLE PICTURE

Owen Johnson's Story Given Life on Screen—A Strikingly Effective Presentation

"Virtuous Wives" received its initial presentation on Imperial Theatre's screen yesterday with very satisfying patronage to the management no doubt, as well as satisfying effect upon those who paid to see it, judging from comment. The filmed version gives flesh and blood to Owen Johnson's well known best seller and no amount of money seemed to have been spared in making it a marvel of beauty in every way. As a sermon on modern social conditions it was what some might term a "whizzer"—it certainly spared nobody. Anita Stewart, Edwin Peden, Mrs. DeWolf Hopper, Conway Tearle and the other players were splendid in their respective parts.

Their visit, succeeds in greatly impressing Andrew Forrester with Amy's enhanced beauty and charm against a background of lavish elegance. Irma Delabarre, a social idol and a model mistress of conventional flirtations and diverting "affairs," offers, at her husband's suggestion, to entertain Amy while Andrew is absent in the west—there to win the fortune which is to give his young wife the same luxuries and social latitude that Irma enjoys. Forrester accepts Delabarre's offer, and asks Amy to play both of them while he is away.

Monte Bracken, social writer of the moneyed, intelligent type, falls in love with Amy, to the surprise of Irma Delabarre, who secretly cherishes an affection for him above all other of her conventional admirers. To thwart Bracken's effort to win Amy away from her husband, Irma writes a note warning Andrew, who returns at once to New York. Amy refuses his demands that she pack and go west with him immediately.

The death of Mrs. Mary Gunter occurred yesterday in Fredericton, N. B. She was eighty-five years of age, and is survived by a sister, Mrs. A. Hoyt of Prince William, and two brothers, Charles Couser of Queensbury and John Couser of Prince William.

The death of Frank Burpee Duffy took place on Sunday at the home of his parents, Mr. and Mrs. W. H. Duffy, Hillsboro. Besides his parents, five brothers survive.

After having been in failing health for the last two years, J. D. Lewin Montgometry died yesterday at the home of his parents, Mr. and Mrs. John Montgometry, DeMonts street, West Side. He had been severely wounded with the 26th Battalion in France, where he held the rank of corporal. Besides his parents he is survived by a sister and two brothers.

HEAVY FINE OR PRISON FOR THE PROFITEERS

Decree by King of Italy—Florence Stores Soon Sold Out When Prices Cut

London, July 8.—King Victor Emmanuel of Italy has issued a decree that profiteers will be in future fined 10,000 lire or sentenced to from three months to three years in prison and will in addition suffer confiscation of their goods, according to a Rome despatch on Sunday. The Exchange Telegraph Company. It is said that unauthorized middlemen dealing in food will suffer similar punishment.

The despatch states a general strike was declared in Naples on Monday. After looting outlying stores in that city, a crowd attempted to reach the centre of the place, but was prevented by the police who were occupying the principal thoroughfares. At Palermo, the police have arrested 400 former convicts, who are alleged to be responsible for many of the disorders on Sunday.

Florence, Italy, July 6.—(By the Associated Press)—The business houses were overcast this morning with the presentation of a card from the prefect's office, so that only residents of Florence will be able to benefit from the price reduction.

It was learned that workmen's committees deliberately chose the stores they wished to have ransacked. These included places which were alleged to have violated governmental regulations and were restrictions in selling prohibited food articles at exorbitant prices, thereby making fabulous profits.

The king's commissioner for Florence issued a proclamation today placing the population on rations and decreasing reductions in prices approximating fifty per cent in estates. Restaurants and cafes were ordered to lower their rates thirty per cent.

THE SINN FEIN ORGANIZATIONS ARE DECLARED ILLEGAL

Dublin, July 7.—(By The Associated Press)—A proclamation has been issued from Dublin Castle declaring all Sinn Fein organizations and Irish volunteers in the County of Tipperary unlawful associations.

This announcement is made in a memorandum by the chief secretary for Ireland enumerating a series of crimes and offences in the last year and stating that the measures already taken have failed to check the Sinn Fein's criminal activities, the government is compelled to suppress the organizations.

The refinement and delicacy of the flavor of MORSE'S ORANGE PEKOE

makes it especially acceptable to the palate of the sick or convalescent.

It is the eve of her first big social triumph—a pre-historic ball.

Andrew quickly grasps the extent of her intentions with Bracken. There she unconsciously becomes Irma's victim as her reprisal against Amy for winning Bracken from her. Andrew thwarts Bracken of being a cad, and has his eyes opened by the social parasite to the fact that it is his own conduct toward his wife which has led Amy to the jagged point. Andrew gives Amy an hour in which to make her choice. She seeks the woods

STRANGE AND SAD MIX-UP EXPERIENCE OF ONE OF OUR SOLDIERS

Officially Reported Killed, Wife Re-married and Then Died, Children Taken to States

Fredericton, July 8.—The war has produced numerous strange relations between wives and husbands and their children, but the strangest has recently come to light in this city. A soldier who enlisted here early in the war in a unit of Canadian Mounted Rifles, was after one of the engagements reported killed. The report was official and a pension was granted the supposed widow and her children. In the course of time she married a widower who himself had children, and a child was born of the union. During the severe epidemic of influenza last autumn she died, leaving another child a few days old, which also died. AUTO OWNERS BREAK RULES IN FERNHILL

Numbers of Cars to be Taken—Reports to Quarterly Meeting

The quarterly meeting of Fernhill Cemetery Company directors was held yesterday afternoon. It was reported that automobiles have been running through the cemetery at a rate exceeding the regulation, disregarding signs closing off prohibited avenues for motors and in some cases entering from Rothesay avenue, which gateway is only an exit. This disregard of the rules was reported more apparent on Sunday when the staff is absent, and it was decided to station men to take the numbers of cars breaking the rules and to prosecute the owners.

The accounts and general reports for the quarter were passed. A very satisfactory increase was shown in the number of lots placed in perpetual care. It was announced that the new single grave or small plot section under perpetual care had been completed. It is expected the monument to be erected by the I. O. E. on the naval and military plot will be placed in September.

MR. WIGMORE HOME; SPEAKS ON MATTER OF HARBOR COMMISSION

R. W. Wigmore, M.P., returned to the city on Sunday from Ottawa. Speaking to a Times reporter this morning he said that he was in hope that the St. John people would strongly support the idea of putting the harbor into the hands of a commission. He said that everything had been done to get the highest possible price, and it was now for the people to put the thing through. "The matter is not now a question of price, but of the future development of the port of St. John," said Mr. Wigmore. He said that there had been some legislation put through recently which would be of great benefit, including an appropriation for the erection of grain conveyors at the west side to the berths that were not now equipped. Speaking of the northern boundary of the harbor being placed at Green Head, he said that this was according to the original chart when the harbor was granted by the crown to the city, and it was on the basis of this chart that the boundaries were determined.

KNIGHTS OF COLUMBUS

New Council at Edmundston Fifth Instituted in Maritime Provinces This Year

Members of a degree team of St. John Council 987, Knights of Columbus, returned to the city last night on the Boston train from Edmundston, where they had helped institute a new council of the order, the fifth to be established this year in the maritime provinces. The new council begins its career with a membership of some sixty-five, of whom about fifteen have transferred from councils in Maine or New Brunswick, while the remainder were newly initiated. The first and second degrees were exemplified by District Deputy Bourgeois of Moncton, assisted by Deputy W. P. Broderick, D. D. S., with a team from the St. John council, exemplified the third degree.

The exemplifications were very successful. Large numbers of members from Moncton, Fredericton, Van Buren, Me., and other places gathered. The new council has secured very fine rooms which are nicely fitted. The other new councils established during the jurisdiction this year are at Bathurst, Campbellton, Fredericton and Glace Bay, N. S. This has meant quite an increase in membership in the order in these parts while the number of new knights received into the older councils has also been considerably augmented. Dr. Broderick, who was accompanied by his daughter, Miss Claire, did not return with the others of his staff last evening, but will be home tonight.

There were eleven safety razors and about twenty dozen Gillette blades missing. The case was postponed until Friday morning at ten o'clock. W. Harrison appeared for the prosecution, and E. S. Ritchie for the defence.

A case against Fred Isaacs and Sarah Abraham was resumed. Daniel Mullin, K.C., and S. A. M. Skinner are the counsel in the case. By order of the magistrate, Olive Farwell of Augustus, Me., charged with kidnapping, was deported to her home on the Boston train last evening.
