TRAFFIC BADLY TIED UP AS A RESULT OF THE STORM

Some Sections of Intercolonial, and a Number of Smaller Reads, are Completely Blocked—Very Few Trains are Moving.

MONCTON, N. B., March 21.—The story that two children of John Keenan had been lost in yesterday's blizzard proved this morning to be without foundation. The children with others started for their homes at noon yesterday, but on account of the violence of the storm took refuge in the house of a neighbor where late last night they were reported to be anxious parents.

On the I. C. R. today almost complete demoralization exists, affairs on the northern division being in particularly bad shape. No trains have arrived from the north since early yesterday morning and last night's Montreal express, from Halifax, is still here on account of the fearful condition of the road, which in many places is blocked by drifts sixteen to twenty feet in depth.

The Moncton bound Maritime expresses both yesterday and today are still held at Harcourt. Yesterday's train remained for the greater part of the day at Kent Junction and last night progressed as far as Harcourt.

Despite the fact that the train was equipped with two locomotives and a big snow plow, it made only a few miles headway and the trainmen abandoned any attempt to get through, returning to Harcourt after leaving one locomotive and a plow to try and force a way through the drifts.

A north-bound freight was stalled in the snow at McPherson's cutting, three miles from Harcourt, all day yesterday, and by 11 o'clock this morning the train was able to get as far as Harcourt last evening, where it still remains. Yesterday's day express from Campbellton managed to get through Newcastle, reaching that place at two o'clock this morning and there it still remains. It will be completely blocked, but it is not known what time it will reach Moncton.

This morning's train from St. John reached Moncton an hour late, the line being in fairly good shape in that direction. Last night's C. P. R. from the west reached here this morning.

On the eastern division, passenger train are being moved and the morning expresses got through. Matters are at a standstill at the Shediac branch. The Moncton and Buctouche railway will be held up for a couple of days. A big gang started out from Buctouche this morning and found the road in a terrible condition. The storm was a terrific one at Buctouche, last night down the steeple of the Roman Catholic church, clearing away R. A. Irving's wind mill, and doing much minor damage.

Around the city the telephone system was the principal sufferer, damages being so bad that three linemen from St. John arrived here today to assist in repairs. Three hundred instruments are down in every direction. So blinding was the storm last night that several people were lost around town and spent the night in neighbors' homes. Much minor damage was done at various points, chimneys being blown down and windows broken. A big chimney was blown down on the hospital last night, causing much uneasiness among the patients. Maurice Leblanc's barn at Fox Creek was blown down.

SAYS THAW IS ONLY FIT FOR AN ASYLUM

Commission in Lunacy Likely to be Ordered

By Judge Fitzgerald on Application of Jerome—Arguments to be Heard at Once

NEW YORK, March 21.—That Justice Fitzgerald will appoint a commission in lunacy to inquire into the present mental condition of Harry K. Thaw seems a foregone conclusion. This afternoon he will hear arguments of counsel on both sides of the famous case, and he plainly intimated yesterday that he would appoint a commission. That this commission will find that Thaw is now insane is the opinion of most of those who have closely followed the trial.

Dr. Allan McLane Hamilton, one of the country's most famous alienists, has openly expressed the opinion that Thaw is now insane and that he is incapable of conducting his own defence. Dr. Carlos MacDonald and Dr. Austin Flint, also noted alienists, have expressed the same opinion, and affidavits are expected from all three as well as from the doctors who are familiar with the history of the Thaw case and with the insanity which is said to have been present in both sides of his ancestry. The appearance of Allan McLane Hamilton in the case yesterday and district attorney Jerome's appeal to the "conscience of the court," came like bombshells. It was expected that the testimony would be finished yesterday and that this morning the trial would begin. It was the general expectation that the case would go to the jury not later than Saturday.

When Mr. Delmas called Dr. Hamilton to the stand the end was in sight. The shadow of the famous alienist had loomed large in the background ever since the case began. It was known that he believes Thaw to be still insane. The defense did not want him to testify because of this belief. The prosecution could not call him because of his relations to Thaw as physician and patient, and he could not be compelled to testify without a specific waiver.

The attorneys for the defense will make a hard fight to prevent the judge from appointing a commission when court sits this afternoon. It is probable that it will be given up so long as there is the slightest chance that it may be successful. Today's fight is now on. It is believed that Thaw is now insane and he will fight just as hard for the appointment of the commission. Today's fight will be informal the rules of law and evidence will not be enforced and either side may place before the court any evidence that it desires. On the mental condition of the defendant. The jury will not be present and the sole object of the proceedings is to secure an acquittal. It is believed that the judge has decided whether or not he will stop the trial until a legal commission has been appointed. It is in such a condition as to permit his case going to the jury.

The law of New York states specifically that if a person is found to be a mental derangement which makes the person charged with a crime incapable of knowing that it is wrong, or if he is found to be insane at the time of the act, he is not liable for the act. It is in such a condition as to permit his case going to the jury.

Two prominent doctors connected with the Thaw case, were witnesses with the Taschjain trial. Both doctors were convinced that the man was insane but were not convinced that he was not know the act was wrong, as required by the statute.

"I believe the Thaw case and the Taschjain case are similar," said District Attorney Jerome today. Both are insane and both are suffering from jaranola. The trial of Thaw is an outrage. He should be sent to an insane asylum. But under the law I have not been able to show that he is insane. I am bound by the legal aspect of the case, and the moral side I am not allowed to introduce. My very experts, who have testified Thaw's mental condition was such, he did not know the nature and quality of his act and that it was wrong, are ready to testify that they believe him to be insane. I have tried throughout this case to bring in this moral aspect, but I have been balked at every step. Therefore this has been nothing for me to do but to conduct the case along the strict legal lines. I believe Thaw is insane and I believe the insane hospital is the place for him."

Mr. and Mrs. T. B. Winslow will sail this week from St. John by the C. P. R. Empress for a European tour.

HIRED ASSASSINS TO MURDER OPPONENTS

Sensational Evidence Against Russian Party.

Reactionary League Paid from Two Dollars to Fifteen Hundred for Murders—Prominent Men Implicated

ST. PETERSBURG, March 21.—Sensational testimony to the effect that the Reactionary League of the Russian people hired men to murder Ivan Strunskitch the noted liberal member of the first parliament and also contemplated the assassination of M. Raminshwill and M. Dzhaparidge, former members of parliament, in order to terrorize that body, was given at the trial of the murderers of Professor Hertzenstein the members of the league who were killed near Terioka, Finland, July 31 last, which was resumed this week in Finland. The prosecution placed on the stand a soldier named Kriks, who had been a member of the fighting organization of the Reactionary party and who testified receiving various sums of money from M. Yushkevitch, a leader of the league of the Russian people, in order to induce him to kill M. Hertzenstein. The witness implicated Dr. Dubrovin, president of the League of the Russian People, and M. Dulaitze, a St. Petersburg lawyer of high social standing, and the plot to assassinate M. Raminshwill and Dzhaparidge, saying that the prices paid for assassinations ranged from a couple of dollars for minor murders to fifteen hundred dollars for killing Prof. Hertzenstein. The testimony was admitted by the court and the trial was adjourned until April 16th.

FIRE THIS MORNING DOES \$100,000 DAMAGE IN MONTREAL

Canada Printing Co.'s Plant Was Gutted—Morris Co., Wholesale Dry Goods, Lost as Well.

MONTREAL, March 21.—At 5.30 this morning a fire broke out in the premises of the Canada, Tag and Label Printing Company, No. 1000 St. James street, causing \$100,000 damage to the building. The building is owned and partly occupied by the D. Morris Sons and Company, wholesale dry goods merchants. The fire was almost entirely confined to the store but the building was badly weakened by fire along the wooden joists. The Morris stock damage is but a couple of thousand dollars. The building is valued at \$150,000, and the damage to it at \$60,000. Fireman Bennett fought the fire for five hours to the basement, but was unhurt, being saved by a pile of wet rubbish. The loss is fully covered by insurance.

INCOME TAXPAYERS OPPOSE ASSESSMENT BILL

FREDERICTON, N. B., March 21.—The corporation committee met this morning and recommended the bill to incorporate the Sisters of Hotel Dieu of the Trustees of the Presbyterian church in Canada, eastern section, with certain slight amendments. The municipalities committee resumed their consideration of the Fredericton Assessment Bill, Mr. J. H. Dickson appeared on behalf of the taxpayers to oppose the same. He contended that the principal difference between the real estate and income for tax purposes was unfair and unjust, and in support of his argument quoted from the speech of Hon. H. R. Emmerson when a similar bill was before the house in 1900, that the class whom he represented had just cause for complaint. An income tax payer had to provide out of his income what a real estate owner really possessed, that was a place to live in. All the real estate owners were not opposed to a level rate, but many believe that such a rate was only just and fair to all. He asked for nothing but what was fair and hoped there would be no compromise.

PUBLIC MEETINGS IN HONOR OF STANFORD WHITE

NEW YORK, March 21.—Friends of the late Stanford White are preparing to hold, as soon as the Thaw trial is over, a series of meetings, at which they will pay tribute to his artistic achievements and genius. Plans for the gatherings have been discussed for several weeks. Meetings will be held by the various societies which form the Fine Arts Association, at which resolutions will be formally adopted and made public. The original plan was to have a large public meeting, but it was deemed better to arrange for a series of special gatherings.

NEW TRANSVAAL PARLIAMENT SAYS THE CHINESE MUST GO

SUFFRAGISTS WON'T PAY; PREFER JAIL. Seventy Six of Them Were Sentenced Today.

Opposition Tactics in British House Necessitate Lengthy Session Which Lasts Till Army Bill Passes

LONDON, March 21.—Seventy-six "suffragists," who were arrested yesterday within the precincts of Parliament, were sentenced today from \$5, or a fortnight in prison, to \$10, or a month's imprisonment. They all elected to go to jail and were taken away in the prison vans amidst the mingled cheers and jeers of the crowds outside the police court.

LONDON, March 21.—The session of the House of Commons, which began yesterday afternoon, is still in full swing. The House has thus sat uninterruptedly for twenty-four hours with every prospect of continued sitting for some hours. The measure under discussion is the annual army bill. It is not controversial, but it is utilized by the opposition to obstruct government business. Premier Campbell-Bannerman, who went home at his usual hour last night, returned to the House at ten o'clock this morning and informed the jaded legislators that the government "had no intention of yielding to the vindictive tactics of the opposition." The measure must be passed before the House is permitted to adjourn.

ATHENIA ARRIVES WITH 638 PASSENGERS

All But Fourteen are for Canada—Had a Rough Time in the Bay During the Storm.

The Donaldson liner Athenia arrived in St. John this morning and docked shortly after noon. She brought 638 passengers—110 first class, 133 second cabin and 395 steerage. All the passengers with the exception of fourteen are to remain in Canada.

The Athenia faced yesterday's storm without mishap, but the officers state that a regular blizzard blew at sea, and a small vessel would have difficulty in sailing against it. FOUND BOTTLE REPORTING SINKING OF STEAMER

HALIFAX, March 21.—The government steamer Lady Laurier, from Sable Island, today reports: "Feb. 19, bottle picked up on east side of island containing slip with words steamer Cavianna, March 18, 1906, sinking." The vessel is not known here.

All Asiatics to be Excluded Under the Old Act—This Policy Not Likely to be Opposed by the Imperial Government

PRETORIA, Transvaal, March 21.—The first parliament of the Transvaal colony under the newly granted constitution met here this morning in the hall in which the late President Kruger presided for so many years over sittings of the Upper Volksraad of the South African republic. In a speech at the opening of parliament, Earl Selborne, high commissioner for South Africa, said: "My ministers are determined that the employment of Chinese in the mines of the Transvaal must cease at the earliest possible moment. As to the Chinese already employed there, my ministers will not take any steps to prevent their repatriation at the end of their indentures, unless they are convinced that such repatriation will have to take place before an effective substitute, either in the form of unskilled labor or improved mechanical appliances, has been found."

The resolution of the new government to exclude all Asiatics from work in the mines is shown by the fact that the "Asiatic ordinance" is again published in the Official Gazette here, indicating that among the acts of the new parliament would be a re-enactment of this measure in spite of the opposition of the imperial government.

LONDON, March 21.—The "Asiatic ordinance" which the Transvaal government proposes to re-enact at the present time aimed specially at British Indians who are ousting the small white traders in the Transvaal, is equally intended to exclude the Japanese or other Asiatics who are emigrating to South Africa in increasing numbers.

Sir Gilbert Parker, who represents the colonies in the House of Commons on this question, is quoted today in an interview as saying that although at present it will, the Transvaal parliament re-enacts the Asiatic ordinance, the imperial government will hardly venture to oppose it.

J. W. E. JOHNSON, OF ST. STEPHEN, DEAD

ST. STEPHEN, N. B., March 21.—J. W. E. Johnson died this morning in the Chipman Hospital where he was taken about ten days ago suffering from paralysis. Deceased came to St. Stephen about forty years ago from Maine. He was a popular barber, but owing to poor health he retired from business five years ago. His family consisted of his wife and two sons who are the well known firm of druggists. Mr. Johnson was a quiet, inoffensive citizen, whose death is regretted by all.

HENRY SEIGEL'S HOUSE RANSACKED BY THIEVES

MAMARONEK, N. Y., March 21.—Henry Siegel's big summer home was completely ransacked last night by burglars. Six or seven valuable oil paintings were cut from their frames and the contents of costly bric-a-brac and the contents of closets and bureaus scattered about the floors.

The head gardener, who was in charge of the house, was unable to determine just what the thieves obtained, until Mrs. Siegel arrives from New York. Yesterday the house had been undisturbed and several persons were employed about the property. There appeared to be no clue to the identity of the burglars. As the house stands on the shore of Long Island Sound, it was thought that the burglars came and departed in a boat. Mr. Siegel is proprietor of several department stores in New York.

Store closes evenings at 8 o'clock. Saturdays 11 p. m.

HOW CONSUMPTIVES ARE ASSISTED IN NOVA SCOTIA

The following is the report on the treatment of pulmonary tuberculosis in the Kentville Sanatorium, presented recently to the legislature of Nova Scotia.

SUPERINTENDENT'S REPORT.

The institution has now been in operation two years and four months, one hundred and thirty-seven patients having taken advantage of its existence. In the past year sixty-two persons have been admitted, and as will be seen by tables appended, they represent all parts of the province, and very many walks and conditions of life.

AVERAGE NUMBER OF DAYS IN SANATORIUM.

| | |
|---------|----------|
| Females | 144 days |
| Males | 53 days |

As will be seen by the report of the visiting physician, we continue to admit entirely too many advanced cases. Two-thirds of all cases admitted last year were advanced, half of these being far advanced with unfavorable constitutional symptoms. Many patients come here in high hopes of recovery, who have heard of others doing well, but on examination the lungs are found so destroyed by disease as to result but an early death or months of invalidism. These poor people are deserving of our heartiest sympathy and help, but, from the view point of the Sanatorium, it is most undesirable that they should be sent to this institution. Such cases, in a few instances, are rendered more comfortable, but for the most part they succumb to the disease while here or soon after being sent to their homes. These instances

appearance of the place. A little more spent in this way would be money well invested.

Permit me, sir, to draw your attention to the fact that a barn would be very much appreciated in connection with the work here. This is practically a country home, with a score of paying guests, who would be much benefited by a certain amount of driving and riding. A barn containing quarters for two horses, one or two cows, carriage house, hay loft, and frost-proof cellar, is an actual necessity. The horses could be used, not only for pleasure, but could do all the express work, and labor in making improvements in the place. We have here eighteen acres, four of which are filled and suitable for small fruits and vegetables, six or seven suitable for an orchard, leaving seven as a pine grove and for purposes of recreation. The property is so situated that a little money and labor expended on it would add greatly to its appearance, as well as to its utility. There is no reason why it should not become, in the course of a few years, one of the beauty spots of Nova Scotia.

Subjoined are the tables of general expenditure—

GENERAL EXPENDITURE, PROVINCIAL SANATORIUM FOR YEAR ENDED SEPTEMBER 30th, 1906.

VISITING PHYSICIAN'S REPORT.

There were 15 patients remaining at the Sanatorium on October 1, 1905. During the past year there were admitted 62, making a total of 77 patients under treatment during the year. Sixty-three patients were discharged, as stated in the subjoined table, leaving 15 under treatment on October 1, 1906.

are the direct cause of that dread, amounting to panic, which seems to be in the minds of many towards the Sanatorium, and will tend to destroy public confidence in the efficacy of the treatment. It must be understood that the Sanatorium is not a home or shelter for incurables, but exists for the purpose of providing facilities for pursuing those methods which the medical profession throughout the world regards as the only rational treatment for lung disease.

We continue to receive cheering and gratifying letters from ex-patients, who regard as the only reason for their recovery that it is the fresh air treatment that put them on their feet, or that is prolonging their lives. One relates having taken a house out of town and driving some miles in to his business every day. He writes—"I am doing my best to get well, and cold and wind and weather seem to be the medicine."

Many who were regarded as past the incipient stage are living comfortable and useful lives by simply devoting some hours of every day to the fresh-air treatment.

During the past summer a few hundred dollars expended on landscape gardening, etc., improved greatly the

HONDURAN FORCES WERE DEFEATED BY THE NICARAGUANS

SAN SALVADOR, Republic of Salvador, March 20.—The following communication was made today to the correspondent of the Associated Press by General Jose Dolores Pera, commander of the Salvadoran force that is engaged with Honduras fighting Nicaraguans:

"We prepared to attack the enemy yesterday in the fortified hills known as the Fortilles de Namasique. "At ten o'clock in the morning our artillery took up positions in front and on the sides of the hills. Reconnoitering parties were sent out and the preparations for the fight were completed. "The battle began at 5 o'clock this morning with a heavy artillery fire. Generals Avellar and Licona operated on the right wing while General Charria conducted the strategic movements on the left. The remainder of our army was in the centre. Our columns with unvalued gallantry carried the front and flanking positions of the enemy by assault. We dislodged the enemy from all their positions excepting the last, where a desperate resistance was made. "The final effort of the engagement will be made at this point. "The enemy is estimated at 5,000 well armed men. "The enemy's losses in killed and wounded were considerable."

A PRETTY WAIST IN DOTTED SILK. 2338.—For a simple waist to be made at home, the round or square yoke effects are very attractive. A suggest ion for one which is tucked to yoke depth is shown. In these soft silks or crepe de chine the tucks may be run by hand and increase the beauty of the waist. The design shows a pretty fulness at the waistline which renders it best adapted to soft fabrics, while the trimmings may be velvet or cloth. The pattern allows of several variations, the long or short sleeve and the plain high neck or the yoke effect in Dutch square or round outline. For the medium size 36 yards of 22-inch material are needed. 2338.—Size, 32 to 42 inches bust measure.

REFUSE TO WORK WITH NON-UNION MEN
Dominion No. 4 Coal Mine Idle All Day Yesterday
Eight Hundred Men are Out on Strike But it is Ho ed That Trouble Will Soon be Settled.

GLACE BAY, C. B., March 20.—Dominion No. 4 coal mine is idle today owing to the refusal of the men belonging to the Provincial Workmen's Association to go below the surface with non-union men. Eight hundred men are out on strike.
At a meeting held by the P. W. A. a fortnight ago a motion was passed that if all men working in the mines were not members of the Workmen's Association by March 19th a strike would be declared. The time was up yesterday and as the full force of non-union men had not come, the men were ordered by their officers to stay at home today.
There was a special meeting of Golden Rule Lodge of the P. W. A. at Dominion last night, at which one hundred and seventy-six members were initiated. The time was up yesterday and it was expected that the remaining one hundred and fifty would join the fold before the gathering dispersed, but this they failed to do and as the non-union men persisted in their determination to kind their support to the P. W. A. there was nothing left for the latter to do but to decide not to work with them. The men refused to become members of the association, which is composed of English, Scotch, native and Newfoundland miners. It was earnestly hoped before the meeting closed last night that outsiders would join, but when it was found that the cajolement proved useless, a motion was taken as to how the men stood on going out. The meeting was decided on the question, many of the older heads advising that caution should be exercised as under the three years' contract entered into between the P. W. A. and the company, the former must have permission from the grand council before ordering the strike. It is understood that this clause in the agreement had not been adhered to. Grand Sec. J. Moffat is also away. The trouble is purely local and will have no effect on other pits. The strike is being anxiously discussed everywhere today, and it is hoped that an amicable settlement will be arrived at shortly. Mr. Moffat is expected to arrive from the capital tomorrow, when a conference will be held to determine if the difficulty cannot be settled.

STERLING BUILDING DAMAGED BY FIRE.

At 11.45 last night fire was discovered in the two story building owned by William H. Stirling at 23 Water street. The blaze was extinguished in about half an hour. The damage to the building was slight, five or six hundred dollars fully covering all the losses.
The fire was first observed by the policeman patrolling Water street, who rang in an alarm from box 25. The brigade responded promptly and found it unnecessary to use engines, the pressure being sufficiently strong to put out. One stream from No. 3 company and one from No. 1 chemical engine were used. The position of the fire between the ceiling and the floor above made the work rather difficult. The greater part of the damage was done by the necessary tearing of the ceiling. The upper floor was used by W. H. Stirling as a brass foundry, and the lower one by the Archer Maple Cane Syrup Company, represented by Robert Morgan.
There was some stock stored on the ground floor, but being canned goods and well covered by the salvage corps this sustained little damage.
Mr. Stirling is insured in companies represented by Williams, Thompson & Co., Mr. Morgan in A. C. Fairweather's office.

I. C. R. OFFICIALS BEFORE PUBLIC ACCOUNTS COMMITTEE

OTTAWA, Mar. 20.—J. B. Mackenzie, chief engineer and David Pottinger, general manager of the Intercolonial railway, were before the public accounts committee today. They treated the matter as a straight business transaction.
The committee meets with no success, that you should drop it. Keep yourself continually before the public and soon the public will begin to patronize you, provided you give them what you advertise.—Geo. H. Flint, R. H. White Co., Boston.

Premier Pugsley Has No Doubt the Road Will be Required—Budget Speech Ably Continued—Increased Public aid to Several Deserving Objects.

FREDERICTON, March 20.—The house at this time was glad to be established at Sussex and that one was to be established at Woodstock, and glad to be able to state that a movement is on foot for establishing a large cold storage warehouse at St. John. This enterprise will be assisted both by the Provincial and Dominion governments, and will be of incalculable benefit to the farmers of this province. Another enterprise which we hope to encourage is the establishment of starch factories. Such factories have proved of great value in Aroostook county, Maine, for the utilizing of potatoes that are not of the first quality. We think there is a good opportunity of establishing such factories in Victoria Co. and Carleton Co., as well as in other parts of the province and we propose to bonus these factories by the results they achieve and the amount of their output. I am not oblivious of the fact that in the past two or three years there has been an increase in the products of the potato in the upriver counties but the starch factories would not interfere with this trade. I do not wish to refer to the provincial balance sheet on page 6 of the Auditor General's report. Among our assets we have put down the N. B. coal and Railway Co. at the value of \$1,100,000. I do not think it is too high an estimate and as the government owns this railway, its value ought to be placed in the public accounts. In considering the assets of the province no account is taken of either the public buildings or the bridges because they are not revenue-producing, though they are valuable public works and represent a large expenditure, but it seems to me that the credit should be given to the Auditor General's report among our assets. The province owns very nearly 7,000,000 acres, mostly timber lands, of which a large figure would be \$3 an acre or \$21,000,000 in all. I doubt if there is any province in the Dominion which in timber value is equal to the province of New Brunswick. We also might count among our assets the value of our fisheries, which are increasing in production year by year. I have noticed some references in the press to what was said in the public accounts committee that the P. C. B. had become an embarrassment. I do not see why it should not be so placed, for the time will come when the province will be producing steel. We do not count among our assets the 46 steel bridges the province has built, because the steel bridges will be a great asset to the province. Now there is a surplus of steel in the province. GENERAL BOOTH TELLS OTTAWA CANADIAN CLUB OF GREAT WORK THE SALVATION ARMY HAS DONE

OTTAWA, ONT., March 20.—General Booth, the venerable head of the Salvation Army, was today the guest of the Canadian Club at a luncheon at which Earl Grey presided and many members of the government were present. General Booth traced the objects of the army, how its sole mission was to raise men and women from the depths of despair and misery, from vice and drunkenness, from hardship and debauchery and place them on their feet, to teach them that life was beautiful and good if only they would give up their evil habits and the fear of Him was the ruling passion of their lives. The army had succeeded almost beyond the dreams of the general himself. His work and objects had interested royalties, presidents, prime ministers, cabinets, parliaments. All sections of the community were interested in it. It had become a force in the world for the uplifting of men. It was necessary to reach people where they were, and the Salvation Army churches could not. In the great cities of the world thousands of men and women were not born into but damned into it. From their earliest days they were in hell. They were the despair of the churches. Yet these people had to be reached and in the earnest endeavor to reach them the Salvation Army was brought into being. General Booth said he was now on the way to Japan. Unknown to him had opened up the work in Korea and Manchuria and had even gone so far as to open an establishment in Peking. "All that remains for me to do is to follow the flag and do all I can," he added. The speaker then referred to the question of the unemployed which was an ever increasing problem with which the Army had to grapple. In this way the Army had been of some service to Canada. He declared that immigration methods and colonization plans were his remedy for the unemployed. His motto with the man who was out of work was to put him back on the land and enable him by careful cultivation and all possible help to earn his living there. The only remedy for the unemployed was to end their employment. A remedy was not to be found in the city, only in the booming prosperity of England there was no room at the present time for skilled labor in the large towns and cities. "Where are these men to go? I say on to the land."

SUFFRAGISTS MADE ANOTHER BIG RAID

Police However Had Timely Warning and Were Prepared. Demonstration Somewhat Ineffective—Only Result was Amusing Scuffles—Many Arrested.
LONDON, March 20.—The women suffragists attempted today a demonstration raid on parliament more important and more numerous than any of their previous efforts. The police, however, had timely warning and made preparations that resulted in making the demonstration somewhat ineffective. The only result was some amusing and disorderly scuffles and the arrest of nearly seventy suffragists, who were at once liberated on bail. Previous to this demonstration an indignation meeting, which was largely attended by the so-called "suffragettes" and their friends, was held in Caxton Hall, where the speakers denounced the house of commons for stifling the Dickinson woman suffrage bill. The raid was led by Lady Harberton, who was assisted by the most prominent women who took part in the previous raids. The women drove up in wagons and after proceeding before the house of commons, stormed the entrance of the house of commons, where the police reinforcements were drawn up for the occasion, awaited the onslaught and drove the women back. After this first rebuff the women made a second determined attempt to penetrate the police cordon, but all to little purpose. In accordance with instructions the police employed against the women as little force as possible. At a late hour this evening the suffragists reassembled at Caxton Hall, and amid the greatest enthusiasm passed a resolution to send another deputation to the premier and to renew their demonstrations before parliament. Accordingly another move was made against the House of Commons, the disorderly scenes were repeated on a smaller scale and several further arrests were made.

OPPOSITION SCENTS SCANDAL IN ACTION OF GOVT. WHICH PREVENTED G.T.P. FROM GETTING \$162,000

OTTAWA, Ont., March 20.—The committee had been investigated but the committee had declined to investigate the Grand Trunk Pacific accounts, which have been under the investigation of the public accounts committee. In that committee it was found in its statements of construction expenses the preliminary legal expenses. On these as well as the Grand Trunk Pacific dollars which the Grand Trunk Pacific applied for, Hon. Mr. Fielding held that under the terms of the act the promotion and the legal expenses of the incident should be paid by the contractor. The affair is generally taken as an indication of the extreme position taken by the government in the matter. Hon. Mr. Fielding on all matters affecting the treasury of the country, even if the funds involved are only held in trust. The opposition are trying to make a little political capital of the scandal of the incident. That was the purpose to which they consecrated the hour sitting this afternoon, while the Minister of Railways was making his statement of the Intercolonial good time period. When the report of the public accounts committee was brought up in the house Mr. Barker of Hamilton moved in amendment to the motion for its acceptance, that the Grand Trunk Pacific in 1905, presented to the government a statement of expenditure purporting to show the sums expended by the company on the prairie and mainline sections, that these statements of the expenditures were the property of the Dominion and were essential to a full and proper understanding of the accounts and claims dealt with therein and as records were necessary for safeguarding the public interest and the projects are bright for another interesting season of competition. The James Sullivan was re-elected secretary. The following managing committee was appointed: Captain James Manning, A. G. Staples, Geo. A. Dixon, R. A. C. Brown and John Thompson.

MONTREAL TO HAVE ANOTHER BIG THEATRE.

MONTREAL, March 20.—Montreal is to have another theatre in addition to the Bennett Theatre, which is now nearing completion. The new theatre is to be located on St. Catherine street, just across from the Bennett Theatre and it is announced that it will play first class attractions which are independent of the trust. It will be built by a company of local capitalists with a capital of \$250,000. The James Sullivan was re-elected secretary. The following managing committee was appointed: Captain James Manning, A. G. Staples, Geo. A. Dixon, R. A. C. Brown and John Thompson.
