ST. JOHN, N. B., SATURDAY, MARCH 8, 1902.

SOUTH AFRICA.

Capture of the Notorious Boer, Judge Koch.

is Said Botha Will Join Steyn and Wet-New Convict Prison on an Island in the Indian Ocean.

LONDON, March 5.-Telegrams received here from Klerksdorp, describing the Boer attack upon and capture of 467 British soldiers who were acting as convoy to an empty wgaon train at a point southwest of Klerksdorp on Feb. 24, show that Gen. Delarey laid his plans with consummate

The third Boer attack upon the convoy was delivered from various points and was most determined. By sheer recklessness they sought to ride down and overwhelm the British defence. The British guns shelled the charging Boers, but nothing stopped their onslaught, which was delivered with unusual impetus. The convoy mules were subjected to a heavy fire, and in many cases they were deserted by the native drivers. They stampeded, put many of the defenders temporarily out of action and caused the wildest con-

For two hours the British held out. They then divided and were overwhelmed. A few minutes of confused fighting and all was over. The Boers cials, galloped along the line, firing at every man who showed the slightest tendency to resist until they reached and the Times from Wellington says captured the guns. In the extreme Earl of Hopetoun and the federal rear the Northumberland Fusilier who had been cut off, succeeded in fighting their way out for some distance. When their ammunition became exhausted they charged with bayonets, but were speedily over-

By 7 o'clock in the morning all resistance was at an end. The dead and wounded were scattered all over the field. Broken wagons and panic stricken horses and mules made a scene of indescribable confusion. Not until Gen. Delarey came in person was anything like order restored. He stopped the Boers who were engaged in stripping the British wounded by a free use of a sjambok, but they continued the work of despoiling directly his back was turned.

LONDON, March 4.—A correspondent of the Times, who is with Bruce Hamilton, sends a despatch dated at a point near Amerstoort, Southern Transvaal. He says it is reported that Commandant-General Botha intends to Steyn and De Wet. This statement is made by captured Boers, who also say that Schalk-Burger will try to be present at the meeting. Botha, says the correspondent, has recently withdrawn to Vryheid, southeastern Transvaal district, because of the hustling he has experienced in the high veldt, and has issued orders to various commanders to follow him. Schalk-Burger has moved westward from his headquarters at Roossenekal. The correspondent thinks that Botha may have sought the low country only because the winter is coming. Col. Plumer took twelve prisoners near Standerton last Friday These prisoners include two adjutants and a signalman, who carried a despatch from Britz to Botha.

BOER JUDGE KOCH PRISONER. GRAAF REINET, March 3.-An important discovery has just been made. A month ago a body of the district mounted troops captured some Boers, one of whom stated that his name was Morris, and that he was a Free State burgher. These statements were disbelieved, however, and a diligent search was instituted, with the result that Morris was found to be no other than Judge Koch, who presided at the trial of the policeman, Jones, for the murder of Mr. Edgar at Johannesburg. The person now admits his identity with Judge Koch, and says that he landed at Port Elizabeth from Europe in the latter end of September. He

adds that he was a second-class pas-senger on the Scot, on board of which he went under the name Polinsky. He

is the son of General Koch, who was killed at Elandslaagte. NEW PRISON FOR BOERS.

LONDON March 3.—It has been deded to send all Boer prisoners who sentenced to terms of penal servie out of South Africa, to the Sey-lies Bands. A new convict prison to be constructed there for the pur-

The Seychelles are a group of 30 islands in the Indian Ocean, with a population of 11,000. The chief town is Por Victoria, occupied by a British garrison. They are a dependency of the Mauritius

BOERS AND WAR BALLOONS. LONDON, March 3.-E. H. Stuar Bruce, in an instructive paper on Balloons in War, read before the Society of Arts last night, stated that the Boers had refused balloons offered them by a foreign power, saying that they did not know how to manage them if

they had them. Major Trollope of the Aldershot ballooning department, adding to the war experiences, said that the conquest of Cronje was really due to the Cape boy, who had been taken up in the balloon, and who, beyond the range of English eyes, was able to tell that the artillery was firing at a dummy laager, and that the Boers were hiding in the bed of the river.

WASHINGTON, March 6.-The mis sion of the Boer delegates to the United States government is ended so far as officials know. They presented no credentials and made no effort to embarrass the administration by formal applications for relief. Their future movements are not known to the offi-

LONDON, March 5.-A despatch Earl of Hopetoun and the federal and state premiers have telegraphed warm messages in regard to the bravery of New Zealanders in recent operations against DeWet. Hopetoun's message congratulates New Zealand on the magnificent bravery of her sons, and predicts that their heroic work must end war.

LONDON, March 5.-On the best in formed opinion, the Pall Mall Gazette prophesies the end of all serious hos tilities in South Africa by September This, however, is rather a pessimistic than an optimistic view. Judging from Lord Kitchener's progress this week and the well-founded rumors of General Botha's personal inclination to surren-der, the practical end of the struggle may considerably antedate September.

MAINE WOMAN

DOVER, N. H., March 6 .- Mrs. Esdeath of her husband, Thomas Gero, Oct. 29, 1901, was arraigned in the supreme court today. The selection of a jury and the opening address of County Attorney Durgin occupied all The case will extend through Friday and perhaps Saturday.

The evidence brought out at the preliminary hearing was Gero who lived at Chesuncook came to his death by being stabled in the right leg just below the hip with a hunting knife in the hands of some serson unknown. The femo. al artery was severed and death was almost instantameons. Mrs. Gero was soon arrested and charged with the deed. One of the witnesses named Holt testified that when he entered the door of the Gero house, on the lake shore, Mrs. Gero with a hunting knife in one hand, while Mr. Gero stood over her with blood streaming from his hands and leg. Gibbons, another witness, claims that Mrs. Gero was using her husband's knife to cut meat and that he objected. The knife disappeared and has not

WRECKED ON CAMPOBELLO.

EASTPORT, Me., March 6.—The eleven ton sloop Geo. A. Curran of this city, bound here from Grand Manan with a cargo of frozen herring stranded on the east side of Campobelio Island during the snow storm last night. The vessel and cargo are a total loss. The crew of three men keptheir small boat afloat for four hours before reaching shore and suffered greatly from exposure.

PRINCE HENRY

For First Time in His Life on Canadian Soil.

Copy of the Address From the Ontario Legislature Presented to Mis Royal Highness at Niagara

Mighty Cataract From the D

NIAGARA FALLS, March 5.-Princ Henry spent two hours here this after noon, and was welcomed by Majo eral, and by Hon. Richard Harcourt who headed the delegation appointed the Ontario legislature to welcom the Prince on behalf of the people the province.

ROCHESTER, N. Y., March 5 .-Prince Henry of Prussia travelled from Chicago to Niagara Falls today, cross ed the Canadian frontier for a brief stay, to which he was officially wel-comed by the dominion, and tonight resumed his journey to Boston over the New York Central. His longest stop in almost thirty hours of continuous travelling was at Niagara Falls, which the Horseshoe Falls from Table Rock the American falls from the ledge over rode down the gorge to a point below the lower whirlpool, and then inspect-ed the plant of the Niagara Power Company. He was much impressed by the falls, and, as he stood on Table Rock, looking across at the Horseshoe, said: "It is magnificent; it is grand." He was greatly impressed by the swirl-ing rapids, and when he left his car at whirlpool he stood for several minutes watching the play of the

It was 2.45 o'clock when the special arrived at Buffalo, and fifteen minutes later it was steaming out to Niagara. Falls. At Niagara Falls station the Prince was met by Mayor Butler and a large reception committee and form-ally bidden to the city.

court, minister of education for On-tario, delivered the following address passed by the legislature of Ontario:

To His Royal Highness Prince Henry of Prussia:

Prussia:

May it please your royal highness, we, the legislative assembly of the province of Ontario, in parliament assembled, beg leave to approach your royal highness for the purpose of presenting to you the congratulations of the legislative assembly on the occasion of your visit to this province.

We hail with joy the presence on our soil of so distinguished a descendant of our late beloved Queen, and we assure your royal highness that in no part of the British empire are the cordial relations which exist between the various branches of the Teutomic races regarded with more satisfaction than they are in Canada.

We have in this province many thousands of citizens who regard with praiseworthy affection the German empire as their fatherland, and we have pleasure in assuring your royal highness that they exemplify in this comparatively new country those virtues of frugality, industry and respect for law and order which are characteristic of the race to which they belong.

As Canadians, irrespective of nationality, your royal highness will be pleased to know that we rejoice in the achievements of German leadership in science and research, that we appreciate those elements of national character to which the German empire owes in a large measure its material prosperity, and we are glad to believe that the influence of the empire in the councils of the nations tends to the advancement of the highest civilization, and the liberty of the human race.

We regret that your royal highness' official

race.

We regret that your royal highness' official arrangements will not allow you to make an extended tour of this country. We trust, however, that another occasion may be found for becoming acquainted with the natural resources and political institutions of a country to which we will be glad to welcome your fellow subjects who for any reason might wish to make Canada their future home.

Kark Muller presented an address in behalf of the municipality of Berlin, Ont., and F. Bopp, German consul at Montreal, Samuel Nordheimer, German consul at Toronto, and W. Hespeler, German consul at Winnipeg, were in-

troduced. The Prince thanked the Canadians Thorne's Pure Ready-mixed Paint, for their cordiality, and, leaving his American military escort behind, drove on to the Canadian side. As his carriage turned up toward the falls, Mayor Butler, who, with Admiral Eva combination of pure ans was riding with him, said to him:

combination or soap mixture. Insist on having
There's It is the best crowd with him.

Col. Percy Sherwood, chief of the dominion police of Canada, was on hand with a force of men, and they closely guarded the Prince during his stay on Canadian ground.

After viewing the American falls, the Prince drove on to Table Rock, where he again dismounted. The Horseshoe falls were clear of ice and the Prince got an excellent view of them. There was a large space of clear water below the falls, but midway to the first bridge the ice was still intact and firm.

forced to retreat. A third relief party made a futile attempt. A fourth attempt will be made to reach the bodies of the men who are believed to have perished.

LONDON, March 6.—The civil service estimates, issued this evening, show an increase of £2,810,525 over those of last year, including a grant of £1,800,000 to aid the revenues of the Transvasi and Orange River colonies, The Prince was driven back to the

the of Magara Falls and there transferred to a special electric car for the trip down the gorge. He left the car at the whirlpool rapids, and with his suite walked down to the bank. Returning to Niagara, he was taken to the power house of the Niagara Power Co. and with West Description. Co., and with Wm. B. Rankine, vice resident of the company, as guide, sade a complete tour of the plant. He sked a number of questions about the

wh of Niagara Falls and there trans-

FIVE MEN KILLED

And Several Others Injured by Mine Explosion.

Three Futile Attempts Made by Rescu Parties to Reach the Bodies of

MONONGAHELA, Pa., March 6.-An explosion in the Catsburg mine of the Monongahela River Consolidated Coal and Coke Co. today resulted in the death of five men and serious injury of several others, two fatally. The dead: Robert Howey, mine boss, aged 50 years, married; James Howey, aged 20 years, son of mine boss; Isaac Eastwood of Monongahela, 40 years, married; John Gilder of Charleroi, Pa., single; Wm. McFarland of Monongahela, married. Fatally injured: James Hagger, married, badly burned; James Perrent, married, badly burned.

On Monday a premature explosion of dynamite caused gas to ignite, and since that time the mine has been burn-ing. All the air channels were closed and it was hoped that the flames could be smothered. This morning twenty men entered the mine to investigate. It is not explained what caused the explosion, but it is thought that the turning of the air, which had been shut off by the fan, caused the gas which had accumulated to ignite. A terrible explosion followed soon after the men entered. A relief party, headed by Supt. Seddon and Mine Inspector Lou-titt, made an effort and nearly succeeded in reaching the imprisoned men, but were compelled to return for air.
All were overcome and are tonight in a serious condition. A second relief party, headed by John Coulter, entered the mine by another way, but a second forced to retreat. A third relief party

N. B. LEGISLATURE

Formally Opened by Lt.-Gov. Snowball, Thursday.

The Speech From the Throns-Rev. Mr. Teasdale Elected Chaplain of House for This Session—New Members Introduced - The Bills Presented and Returns Brought Down

FREDERICTON, N. B., March 6.-The Speaker took the chair at halfpast two o'clock. The provincial secsheriff of St. John declaring the election of Dr. Ruddock to be a member of the legislature, and also the return of the sheriff of Kings, declaring the election of Ora P. King. These returns were read by the clerk.

His honor the lieut governor took his place on the throne and read the SPEECH:

Mr. Speaker and Gentlemen of the Legislative Assembly: It affords me very great pleasure to

the discharge of your important legis-Most Gracious Majesty in this prov-

We have recently been honored by the visit of their Royal Highnesses, the Duke and Duchess of Cornwall and York, now the Prince and Princess of Wales, and the government of the province took the necessary measures receive the Royal party in a suita ble manner. The enthusiastic greet-ing accorded to the distinguished visitors was especially pleasing to them, and testified in a marked degree to the oyalty of the people of our province During the past summer His Excelency the Governor General and the Countess of Minto visited various secons of the province and were everywhere most enthusiastically received. Their gracious manner and the deep nterest shown by their excellencies in the industries, progress and welfare of

the people, extended to the United States government through His Excellency the Governor General, an expression of the profound sorrow which we felt, in common with all civilized nations, at the lamentable and tragic

I am happpy to be able to congratulate you upon the prosperous condition of business, and the success which is ance, be conducted with a sole desire attending the efforts of our people in the various pursuits in which they are engaged. The continued and rapid development of the dairying industries of the province, as shown by the increase in the production and exports of cheese and butter by the creameries which have been established under the liberal encouragement afforded by the government, is most gratifying. Being satisfied that there is reason to hope for indefinite expansion in this direction, my government will, with your approval, continue the same vigorous policy as hitherto. The building of improved roller flour mills have given considerable impetus to the growth of wheat and has resuited in saving to our people large sums of money which would otherwise be sent out of the province for flour. I

am sure that you will be gratified to know that the financial assistance which you authorized for the erection of these mills has already been productive of such good results, and that you will approve of this policy being the newly appointed judge of the continued so that all parts of the country may receive the benefit of government assistance in this direc-

Consequent upon legislation passed at the last session to provide for the development of the coal areas of Queens and Sunbury, the railway to the coal fields is now under construction, and it will not be long before the line from Chipman to Fredericton will be completed. My government anticipates a marked stimulus to the industrial life of the province as well as a very considerable addition to the provincial revenue as a result of this un-

The rapid development of the Canadian winter business through the port of St. John is most gratifying. The aid granted some years ago by the province towards the building of wharves and an elevator at that port, and the extremely liberal expenditure on the part of the city, have produced results which cannot but prove of permanent benefit, not alone to the city of St. John, but to the whole province, and to the dominion as well, which is interested in having Canadian business carried on through Canadian

It affords me pleasure to inform you that since you last convened the dominion government has paid to the province the amount of the Eastern province the amount of the Eastern not a right to pass the section referred .xtension award, with the exception of to, but to prevent any difficulty they a small portion which has been withheld pending an arrangement being made between the two governments in respect to a claim regarding certain land taken as part of the right of way

My government has during the rethe various questions in respect to the fisheries outstanding between it and the advisors of Canada, and I have reason to hope that before very long. The house adjourned at 3.15.

NO. 20

either a friendly arrangement will be urived at, or that the questions at issue will be submitted to the courts so that the rights of the province may be

By the recent judgment of the judical committee of the Privy Council & has been decided that the fisheries within the territorial limits of the provinces belong to the provinces, and in the opinion of my government it follows that the amount of the Helifer lows that the amount of the Helifax award should have been paid to the province and not to the dominion. My government will press for payment to this province of the portion of the this province of the portion of the award to which it is properly entitled. The legislature at its session in the year A. D. 1888 approved of certain resolutions, which in the month of October of the previous year had been agreed to at Quebec at a conference of delegates and members representing the executive governments of five of the provinces of Canada, called for the purpose of conference when guestions ourpose of conferring upon questions of inter-provincial interest. It seems proper that effective steps should be taken to press earnestly upon the dominion government the desirability of having the British North America Act so amended as to carry out the views embodied in the Quebec resolutions, at least in so far as relates to the readjustment of the allowances by the dominion to the provinces. Your attention will be invited to this important

The unsatisfactory condition of the branch railways in the province connecting with the Intercolonial is such as to call for serious consideration These railways have been constructed largely by means of dominion and pro-vincial subsidies, and are not giving that accommodation to the public which was anticipated when their construction was provided for. If some arrangement could be made by which of the Intercolonial system it would be greatly to the public advantage, and would become valuable feeders of the trunk line. You will be invited to consider whether the dominion authorities might not properly be urged to make arrangements for their operation upon

a fair and equitable basis. I have directed that the accounts of the income and expenditure for the past fiscal year, as well as a statement of the receipts and expenditures of the current fiscal year, up to the opening of the present session, shall be laid bere you. Estimates of the probable income and expenditure for the current year will be submitted to you, and I think you will find the estimates of exegard to economy and the public re-

Act; a bill to provide for the more equitable distribution of estates of in-solvent debtors; a bill to provide a forest reservation; a bill to provide for the importation of horses, and other measures of importance will be submitted to you; and I am sure that your deliberations will, under divine guid-

On motion of the provincial secretary, seconded by the attorney general, the Rev. Mr. Teesdale was elected chaplain of the house.

to promote the public welfare

Dr. Ruddick, the new member for St. John county, was introduced by the attorney general and the surveyor general, and Mr. King, the new mem-

general, and Mr. King, the new mem-ber for Kings, was introduced by the provincial secretary and Mr. Scovil. The provincial secretary presented returns of the indebtedness of the city of Moneton, those of St. John, the city of Fredericton, the municipality of Kings, the bond issue of the school trustees of Chatham, and the deben-ture indebtedness of the town of Chat-The attorney general introduced a

bill to amend the act passed last ses-sion in amendment of the act relating to the court of divorce and matrimonial causes. He explained that at the last session of the legislature an act was passed for the purpose of enabling divorce court to carry to a conclusion cases that had been begun before his predecessors. This act also provided that the evidence taken before the former judge should be used by his successor. There was one section of the act which provided that if the judge of the divorce court had been interest ed in a case either by being counsel for one of the parties or otherwise, he should not sit at the trial, but might appoint another judge to try the case. The minister of justice thought that this section was ultra vires, and to prevent the act from being disallowed we undertook to repeal this section, the minister of justice agreeing to remedy the difficulty by dominion legislation. Mr. Hazen asked if the attor-

ney general had any assurance that such a course would be taken. He referred to a case now before the divorce court, in which a vast amount of evidence had been taken, but which could not be tried by Judge Gregory, the present divorce court judge, because he has been coun-sel in the case. He hoped that the government would urge the dominion government to pass the necessary legislation. The section in the act of last year which was now to be repealed

was clearly ultra vires.

The attorney general said that h was by no means certain that as a matter of procedure the legislature had had agreed to repeal it. He had no doubt that what was necessary to cure the difficulty would be done by the

ENGLAND'S NEW

Mr. Asquith's Statement of Its Policy Brings Out Varied Comment.

LIBERAL LEAGUE.

LONDON, March 3.-Herbert Asquith's letter defining his political position, which is practically that of Lord Rosebery, is the subject of edi-torials in all the morning papers here.

The Chronicle accepts the letter as expressing the policy of the new Liberal League with sobriety and clearness. It rejoices that Mr. Asquith, like Lord Rosebery, has no intention of abandoning work for the liberal

It approves his declarations regarding Irish home rule. It calls the liberalism of the league practical liberalism, and declares there is no reason why liberals should never speak of the empire without a "but," or be prone to find their own countrymen always in the wrong.

The Daily News, which today makes its first appearance under the latest phase of its very checkered career, declares that Mr. Asquith's pronounce ment on home rule is a lamentable change of front, and his pronounce ment that the sanction and sympathy of British opinion are necessary, step by step, for attaining the end is an amazing doctrine for a liberal poli-

tician. With two liberal papers thus opposed, which is only characteristic of the liberal party, the opinion expressed by the rest of the press may be im-

agined. The Telegraph applauds the home rule statement, and then attacks the Oxford Dons for their letter objecting to the trial of Boer leaders by courtmartial. It hysterically stigmatizes the charge that British officers are not competent to try their enemies fairly as an atrocious insult.

The Standard congratulates Mr. Asquith and Lord Rosebery upon recognizing what Mr. Chamberlain and Mr. Goschen recognized sixteen years ago. It says it is the day of repentance for the liberals and repentance is wholesome even if it comes late.

The Morning Post considers the letter an attempt to restate Lord Rosebery's views in such a form as may make them acceptable to the followers of Sir Henry Campbell-Bannerman, but declares that this is impos-sible. It adds: "Lord Rosebery at Chesterfield made an appeal to Caesar. It is disappointing to find that he is satisfied with the Liberal League."

The Times approves Mr. Asquith's letter but contends that his declarations regarding home rule and im perialism merely place him on the same plane with the unionists, not conferring any superiority, even if he had the whole liberal party with him. The paper says it is necessary to see what his social programme is.

HALIFAX BOARD OF TRADE

Urges the Intercolonial to Adopt Atlantic Standard Time In Its Maritime System.

HALIFAX, March 4.-The following resolution was today unanimously by the Halifax Board of

Whereas, the local time adopted through the province of Nova Scotia is Atlantic standard time, while the railways are run on eastern standard time, which is one hour later;

And whereas, this want of uniform ity causes confusion and great inconvenience to the public, and it is mos desirable that the railways should adopt the local time in use throughout

And whereas, it has been stated that the province of New Brunswick is willing to adopt Atlantic time, and that the Canadian Pacific railway would make the necessary change provided the Intercolonial also agrees to do so; Therefore resolved, that this board

urge the Intercolonial authorities to adopt Atlantic standard time on their maritime system, so that the great advantage of one uniform time may be

enjoyed through the province; Further resolved; that copies of this resolution be sent to the honorable minister of railways, and to the various boards of trade in the maritime provinces, asking concurrence and ac-

A TALE OF THE SEA. Rescue of Captain and Crew of Waterlogged Schooner.

HALIFAX, March 4.-A distre tale of the sea was told tonight by Captain F. R. Pendleton of the American schooner Laura. On the 16th of last month, off Hatteras, they were taken off the abandoned and waterlogged schooner by the Norwegian bark Fortuna.

The Laura was owned by Pendleton Bros. of New York, and was 550 tons gross. She had about 300,000 feet of

hard pine on board. The Laura left Savannah for New York on February 1st, and all went well until the 3rd. They were then about 30 miles north of Cape Hatteras. The wind suddenly came up from the northwest, and soon a gale was in full swing, continuing about a week, and the schooner was tossed about like a cockle shell by the raging elements After three or four days the Laura sprang a leak from some unknown cause, probably from coming in contact with floating timber. A hole was punched in the schooner and she filled rapidly, and in half an hour her afterhouse was the only portion above water. When she began to sink everything movable was swept overboard The forward house went over with crash; so did anchors, chain and other gear. The cargo of lumber kept the craft from sinking further. The captain and crew of six mounted the When the leak was after-house. sprung and the schooner began to fill Captain Pendleton made a rush to the berth and the cook, who had a

A few minutes after the schooner was level with the water's edge. The wounded man was wrapped in a blanket and placed in the spanker. As quickly as possible the spanker was cut and a tent made for a cover ing. This tent was placed on the deck house, and here he remained with the captain and crew until rescued.

For seven days and nights captain and crew were in this position. sudden was the filling of the ship that there was no time to get extra clothing, and all they had was what they stood in. Before taking up their quarters on the ship's house they got a barrel of salt beef, four or five pounds of crackers and a water tank. This was all the shipwrecked men had to live upon during their incumbency of the after-house.

On the 16th February the Norwegian bark Fortuna came in sight and took the seamen on board. The men were about exhausted. They belong to Maine. The captain

and crew lost everything.

A PLACE WHERE THE LOSERS LOOK PALE.

'Josiah," asked Mrs. Chugwater, "what is a bucketshop?"

"It's a place, I suppose," replied Mr.
Chugwater, looking impatiently up from his
newspaper, "where they empty the water
out of stocks."—Chicago Tribune.

FUNERAL OF THE LATE F. P.

REID. MONCTON, March 4.—The funeral of the late F. P. Reid took place this afternoon and was largely attended by all classes of citizens. Flags were floated half-mast over the city building, the Y. M. C. A. building, the U. consul's office and many business establishments. A short service was held at the residence for the family, and the members of the Board of Trade and several hundred citizens on foot accompanied the hearse to St. George's church, where Rev. E. Bertram Hooper conducted public service, paying a high tribute to the good qualities of the deceased as a business man and citizen. From the church over sixty carriages accompanied the remains to the Rural cemetery, where interment took place. The floral tributes were numerous and very beautiful, filling a large barouche to overflowing. Among them were: A pillow from Mrs. Reid and family, and other set pieces from Mr. and Mrs. Harry Reid, Mr. and Mrs. D. Carmichael, Mrs. J. W. Smith, the employes of F. P. Reid & Co., the mayor and aldermen, the Curling Club. Keith Lodge, A. F. and A. M., of this city; Mr. and Mrs. W. S. Fisher and Baird & Peters, St. John; also from retail grocers of the city, the Royal Bank of Canada, Mr. and Mrs. F. W. Sumner, Mr. and Mrs. W. F. Humphrey, Mr. and Mrs. C. P. Harris, Dr. and Mrs. E. B. Chandler, Mr. and Mrs. R. W. Hewson, Mr. and Mrs. E. G. Russell, General Manager Pottinger of the I. C. R., Mr. and Mrs. E Givan, Mr. and Mrs. A. O. Hastings, Mr. and Mrs. J. H. Harris, Dr. and Mrs. Geo. L. Parkin, Mr. and Mrs. L. H. Higgins, Mr. and Mrs. H. G. Marr, Mr. and Mrs. A. E. Holstead,

and many others. The pall-bearers were: F. W. Sumner, J. W. Y. Smith, W. C. Paver Capt. R. C. Bacon, Dr. Emerson and

C. P. Harris. Many friends were present from St John, Dorchester, Shediac and other points to pay the last tribute to the nemory of the deceased.

RECENT DEATHS.

DORCHESTER, N. B., March 4.-The death of Miss Ella Smith, younges daughter of the late John Smith, oc curred at her home, Dorchester, Monday evening, after an illness of severa months. She was 17 years of age and leaves her mother, one sister and two

By a despatch received by Miss M C. Foley of 302 Brussels street, it is learned that her brother, John E. Foley, died of pneumonia on the 26th of February, in Boston, leaving a wife and four children. Mr. Foley was bur-

ied in Boston. Miss Mary O'Brien, aged 45, a resident of Queen street, St. Stephen, died very suddenly at her home Saturday morning. Miss O'Brien was talking with her brother, apparently in the best of health, when she suddenly slipped to the floor, expiring almost instantly.

Some people are so good natured they

JAPAN

Gone Wild With Delight Over Anglo-Japanese Alliance,

at Spithead During King Edward's

TOKIO, Japan, Feb. 21, via Victoria, B. C., March 4.—Japan has gone wild with delight over the conclusion of the Anglo-Japanese alliance. There has een an elaborate torchlight procession at Tokio besides the formal interchange of congratulations at a joint meeting held by the two houses of the dlet, at which Sir Claude MacDonald, the English minister, was present. At the various towns in Japan special elebrations have already been held or

are in contemplation. Ex-Minister of Foreign Affairs Kato touched the keynote of popular sentiment the other day when in a speech touching on the proper methods of receiving the news of the alliance, he said that Japan should accept her position with all dignity. There should be no question of using the opportunity for asking England to aid in the introduction of foreign capital into

It would be fitting, Mr. Kato suggested, that Japan signalize the occasion by sending some representative warships to the naval review to be held at Spithead during King Edbroken leg and was not able to help ward's coronation. This idea of Minhimself, had to be dragged through a ister Kato's has taken hold, and toda; it is reported that Premier Katsura has obtained the sanction of the emperor to send a first class battleship and a cruiser to the Spithead naval demonstration

The chambers of commerce through out the country are preparing to send two representative merchants to at tend the coronation ceremonies. Another feature this spring will be

the joint naval manoeuvres by the British and Japanese fleets in the China Sea in honor of the conclusion of the alliance. The British were going to hold manoeuvres there anyway, and it is now proposed that their squadron shall be reinforced from the Japanese fleet. As it happens, Russia is preparing to hold naval manoeuvres in the same region about the same time, and the coincidence has

SMALL BOY'S CLOSE SHAVE.

Little Thomas Latham's Narrow Escape From Being Run Over by a Street Car.

The five-year-old son of Thomas Latham of Hilyard street will live a long while before he has another narrow escape as he experienced last

Shortly after 8 o'clock he was playing with some boys on the sidewalk of Main street apposite the corner of Sheriff, and, actuated by small boy deviltry, just as street car No. 44 was passing along he darted across street just in front of it, evidently trying to see how nearly it would miss across the rails and only a few feet in front of the rushing wheels. The frightened motorman threw power and put all his strength into the brakes, but before the car could stop

clothed with the best rights that pertain to any man. In this faith, I, years old, and oftener defeated than successful, view of the future with erene trust and joy. Yours,

HORACE GREELEY. To E. B. Hill, Jersey City, N. J. Mr. Hill was at that time a citizen of Jersey City. At the time of his was city auditor of Brook-

Children Cry for CASTORIA

QUICK TIME: LARGE FARE. DIGBY, March 3 .- The schooner J. W. Cousins, Captain John Sime, arrived here Saturday from Brown's bank, having run 180 miles in 36 hours, against a heavy northeast breeze and sea, landing at Syda & Cousins' wharf the largest fare of haddock brought to this port, viz., 86,000 lbs., the result of two days' fishing, and valued at \$1.742.67.

WONDERS OF THE HEART. All the blood in the human body passes through the heart in about three minutes. The heart beats 70 hour, 73-4 tons a day. It is only when supplied with pure, rich blood that the heart, an organ 6 inches long by 4 nches wide, can accomplish this enor mous amount of work and rebuild its own wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red corpuscles in the blood and gives it that life-sustaining quality which is necessary to the health of every organ.

BITS OF NEWS.

Respectfully,

A. LINCOLN.,,

NEW HAVEN, Conn., March 3.—
Newcomb M. Bassett, a city official, has found in the effects of his brother-in-law, the late E. B. Hill of Brookline, Mass., this letter from Horace Greely:

New York Tribune, New York,
April 10, 1868.

Leisure moments come to me rarely; so I write this line to say that my faith is strong that ours will soon be a land of true freedom where every man, because he is a man, shall be

NEW ROUTE INTO AFRICA.

Steamers and Perters to Connect the Sea With Lake Tanganyika.

A company has been organized in Germany under the name of the Central African Lakes Company to create a regular transport service from the coast to Lake Nyassa and thence to Lake Tanganyika, employing 8,000 native carriers. The company will carry goods for the German government, for the stations of Congo Free State in the southeastern part of its territory and for the numerous missionary trading posts that are distributed over the country.

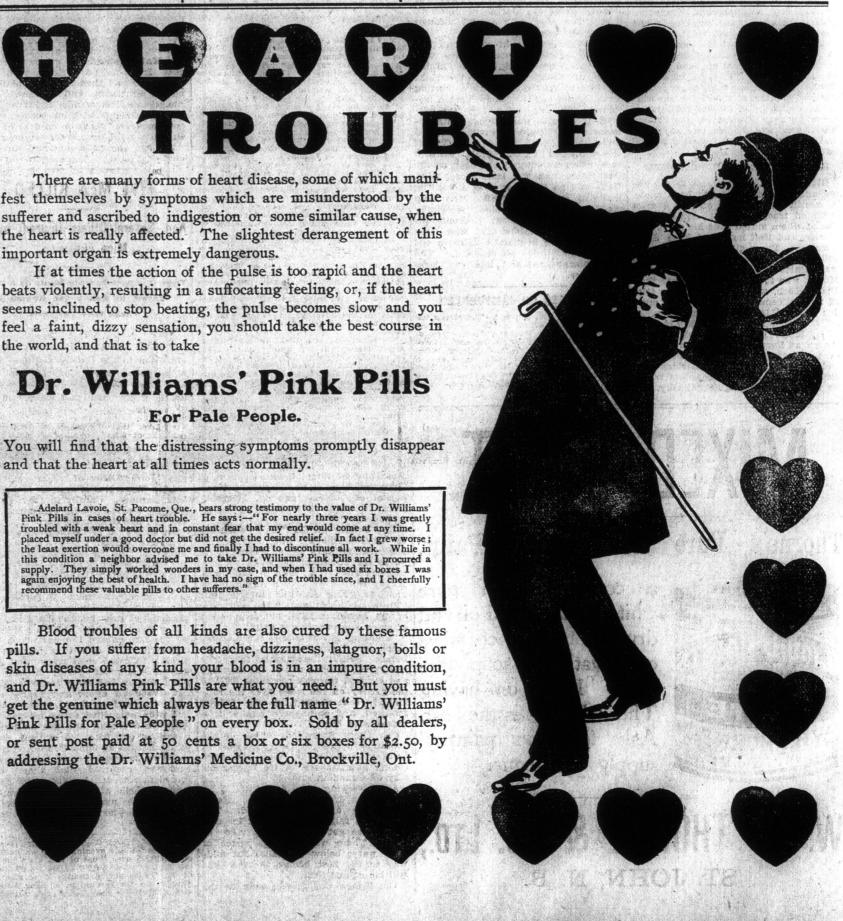

The advantage of this route is the large amount of water transportation it affords. Vessels from Europe may unload their cargoes at Chinde in the Zambesi delta and river boats will carry the freight up the Zambesi and its Shire tributary to the rapids in that

A portage of sixty miles will then be required. At the head of the rapids the freight will be transferred to steamboats bound for the head of Lake Nyassa, 300 miles away. Another portage of 200 miles will then be required to the foot of Lake Tanganvika, whence German steamboats will be able to deliver the freight at ports along the thousand miles of Tanganyika coasts. The land portage along the old caravan route between Zanzibar and Tanganyika is 800 miles in length. The new route will involve only 260 miles of land portage, and will thus affect a large saving of time and expense.

The development of their great ter-ritory in East Africa will doubtless demand from the Germans the building of a railroad straight from the Zanzibar coast to Tanganyika. The route which they now propose to utilize is to be opened because the railroad which the British have completed from the Indian Ocean to Victoria Nyanza threatens to divert to that northern route most of the trade the Germans have been carrying overland to Tanganyika.

It is likely that the sharp competition for the trade of Central Africa will soon compel the Germans to build this railroad, but meanwhile the new route by Lake Nyassa will be much cheaper and better than their caravan road to Central Africa which is now employed.

PARLIAMENT.

Government Refuse to Bring Down Important Correspondence.

Principal Feature of the Bill Respect ing Telegraph and Telephone Com panies -St. John Delegates Have

OTTAWA, March 3 .- Mr. Carroll of Kamouraska, the newly appointed solicitor general, was introduced into the commons and took his seat.

Sir Wilfrid Laurier-The rumor is The appointment has been Mr. Clarke was informed by Hon. Mr. Fisher that the amount paid out to date in connection with the recent cen-

sus of the dominion was \$948,410.

Mr. Ganong learned from Hon. Mr. Sutherland that 146,087 bushels of wheat were handled at the government elevator at St. John for the year ending 31st December, 1961. No grain or other produce was handled at the Halifax elevator in 1901. There are no direct revenues from elevators, elevator charges being included in through rates for carrying grain. The cost of elevator was \$4,989 and the Halifax elevator \$2,016 to January 31st, 1902. Mr. Puttee was told by Hon. Mr. Sutherland that 755 men were employed in the government railway shops at Moncton and 79 at Charlottetown. Ten hours constituted a day's work in

Mr. Monk was informed that the cost of illuminating the public buildings at Ottawa on the occasion of the visit of the Prince of Wales was

Mr. Kemp was informed by Sir Richard Cartwright that the date of the last Anglo-German treaty was May 30, 1865. This was denounced, and there exists at present no regular commercial treaty between the two countries, but England and her colonies, with the exception of Canada and the Barbados, have the benefit of the most favored

nation treatment. Mr. Clarke was told by Sir Wilfrid Laurier that the government has under consideration the question of making Coronation day a public holiday

throughout the dominion.

Mr. Kemp was told by Sir Richard Cartwright that the commercial agent in Jamaica had communicated with the government in reference to the repeal of the law by which Jamaica imposes a tax on commercial travellers from Canada. His communication was dated 9th October last, and was to the effect that the government of Jamaica introduced a bill repealing the tax. House adjourned at 4.20 p. m.

NOTES. The petition of the Canadian Manufacturers' Association for incorporation by parliament was presented to day. Incorporation is sought with the object of promoting Canadian industries and the interests of Canadian manufacturers and exporters, and to render services and assistance to members of the association and to manu-

facturers and exporters generally. Hon. Mr. Fielding is daily expecting a despatch from Marconi announcing

A communication has been received from Prince Henry of Prussia to the effect that he does not want any military reception when he visits Niagara Falls on Wednesday. Accordingly the guard of honor, royal salute, etc., will not take place. Major Maude will greet the Prince on behalf of the gov-

ernor general. After years of delay the government has at last decided to grant pensions or gratuities to officers of the mounted police and to the widows and children of such officers. Sir Wilfrid Laurier gives notice of a resolution

dealing with the question. OTTAWA, March 4.-In the house today Mr. Fraser introduced a bill to incorporate the board of the Presby-

terian College, Halifax. The house then went into committee of supply. On the item of \$50,000 for a new public building, Hon. Mr. Tarte explained that the work was to be done by public tender, and that tenders would be in within two weeks. The building would be used primarily as a custom house, but whatever space was not required for that purpose would be used for other public services.

Mr. Clarke-What is the estimated total cost of the building?

Hon. Mr. Tarte—About \$300,000, with

site. Mr. Clarke-What was the cost of the

Mr. Tarte-\$24,000.-The item passed On the item of \$8,000 for the post office at Marysville, N. B., Mr. Gibson member for York, said it was a place

of 1,900 inhabitants. Hon. Mr. Tarte-And rapidly increasing every day, isn't it? (Laughter.) Mr. Gibson-Oh, yes. I want you to understand that it is not a village at all. It is a town, of which I have the

honor to be mayor. (Applause.)
Mr. Clancy—On what principle were grants made for post offices and other public buildings? Was the expenditure supposed to bear some proportion to the size of the place, or how was it

Hon. Mr. Tarte replied that when he came into office he found a sum in the estimates for a public building at Marysville, and he was therefore only carrying out the wishes of his prede-

Mr. Clancy said he was informed that the sum which was placed in the estimates for this purpose in Mr. Foster's time was put there on the understanding that the town of Marysville would contribute half the cost of the build-

Mr. Tarte said there was no trace of any such agreement in the depart-

Mr. Clarke-What are you paying for the site?

Mr. Tarte-\$1,000. Mr. Clarke-And from whom are you

purchasing it?
Mr. Tarte From the Gibson Company, the sole owners of the town. Mr. Clancy-Oh! you may just as

well give them the post office. (Great Mr. Tarte, answering Mr. Blair, said the population of the town was 2,000

Mr. Clarke-That is the latest report. (Laughter.)—The item passed.
On the Richibucto public building vote it transpired that the population

Mr. Clarke-Evidently the minister spoils. (Laughter.) goes on the principle that the larger the town the smaller the building. Mr. Tarte-The population is largely French, and I do not ask for more than I am giving.

at St. John, Hon. Mr. Tarte said the building would be a most useful one, as St. John "is our winter port." The total cost of the building would be about \$33,000.

Appropriations for public buildings in small places in the province of Quehec were vigorously contested. On the item of \$5,000 for a public building at L'Assomption, Mr. Monk raised the question as to the principle upon which money was granted for such purposes Hon. Mr. Tarte replied that the great difficulty was in resisting pressure for

such grants. R. L. Borden suggested that perhaps the difficulty arose from the circular sent out by the present postmaster in 1900, in which friends of the government were invited to make suggestions regarding places in which public buildings were required. (Laughter.)

Mr. Clancy pointed out several places in which, if regard were paid for population or revenue, new post offic were much more badly needed than in other places which had been supplied

Hon. Mr. Tarte retorted that the kind of member which the constituency might send to the house had something to do with that matter. The conservatives had supplied post offices for ridings which had elected their friends, and the liberals would be mighty big fools if they didn't do the same. The constituency of Bothwell, when it was represented by Mr. Mills, could get nothing from the conservatives, and now that it was represented by Mr. Clancy it could not reasonably expect consideration until more pressing wants had been satisfied. (Liberal applause.) Sir Richard Cartwright endorsed Mr. Tarte's views. Ingersoll and Woodstock, in Oxford county, for years were treated unfairly by the conservatives because they elected liberals to parlia-

R. L. Borden-Argument then amounts to this: That if Bothwell was treated unjustly before and is now represented by a conservative, injustice is therefore to be continued. Such an argument was entirely unworthy of the minister of the crown. Sir Richard Cartwright might well have told his colleagues that when the so called party of purity came into power public money should be expended according to the needs of the country. Surely after 18 years in opposition Sir Richard would have repudiated the observations of Mr. Tarte. The question before the house was not what the conservatives had done in parliament, but what was right to be done today. If Sir Richard could do no better in defending the action of the administration than to would be far better for him to have kept his seat. Mr. Tarte's argument that the conservative government might have been wrong in the past, what had that to do with the government and proper administration at the present time? If a wrong had been permitted in the past, was that any reason why the system should be per-Public moneys in his judg ment should be expended on some broad and systematic policy, according to the needs of each constituency and absolutely aside from the question as to whether it was represented by a liberal or by a conservative. (Hear, hear.) Sir Richard Cartwright said that after the years of injustice inflicted upon them by the conservative party, the first duty of the liberal party was to remedy the injustice which they had suffered, and to give to those constituencies their just rights, which the

It was the duty of a party long in opposition to rectify the injustice don to them in the past. (Ironical cheers.) Hon. Mr. Tarte said politics was a great game. He held that a minister must be guided by his own political friends, because they for the time being represented public opinion. He invited the opposition to take their medi-

ery. It cures diseases of the stom-ach and other organs of digestion and nutrition, and restores perfect health and strength, by enabling the perfect digestion and assimila-tion of food.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yadkin College, Davidson Co, N. C. "Have had no bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings." Dr. Pierce's Pleasant Pellets

leanse and regulate the bowels

Sir Hibbert Tupper said that in Mont-real recently Mr. Tarte stated that the cabinet were fighting each other like blazes. Just now he had enunciated was 1,000 more than Marysville, but the cost of the building to be erected was have been fighting like blazes over the

The entire evening session was spend on appropriations for Quebec public works. The question of day labor came up. Mr. Tarte declared that the government would suit itself on each On the vote for the immigration shed particular case. Messrs. Puttee and Smith (labor) supported Tarte's action. The opposition contended that in many places the government has paid most extravagant prices. Mr. Monk declared the public interest was better served by calling for tenders and inserting the fair wages' clause in the contracts.

The house adjourned at midnight. ST. JOHN DELEGATION AT THE

CAPITAL. The people of St. John want the gov ernment to look somewhat after their narbor. A strong delegation, including Mayor Daniel, ex-Mayor George Robertson, Alds. Baxter and Maxwell and W. M. Jarvis, president of the board of trade, will wait on the mempers of the government tomorrow to ask for additional dredging at the en trance of the harbor and other needed mprovements to better navigation incidentally Mr. Robertson will push forward his famous dry dock scheme

EXAMINING MARITIME MILK. The department of inland revenue has issued a bulletin giving the result of the examination of 182 samples of milk procured in various parts of the dominion. Out of the fifteen samples examined in Nova Scotia ten were genuine, and the other five were either watered, doubtful, or deficient in solids. In New Brunswick eight samples out of twelve were genuine. Of the Halifax samples 8 out of 11 were all right. Of the Moncton samples four were genuine out of six.

PUBLIC ACCOUNTS COMMITTEE. The committee on public account met this morning and secured orders for the attendance of several witnesses and the production of account connected with the public expenditure, including the Charleson accounts in connection with the Dawson telegraph line. The attendance was also ordered of Mr. Pottinger, general manager of the Intercolonial, to explain the expenditure on capital account.

NOTES. The militia department is asking for the war service of all Canadian offi-The dominion board of trade was re-

vived here today. Delegates were present from sixteen toards. OTTAWA, March 5.-In the house today Hon. Mr. Fitzpatrick introduced a bill respecting telegraph and telephone companies. He said as far as telegraph companies are concerned the bill was a consolidation of the law action of the administration than to now in force. The only change with say that because a thing was unjust in respect to telegraph companies is the the past it should be perpetuated, it provision for the control of rates by the governor general in council. This is a change in the law now in force. was a most vicious one. Conceding The bill also makes applicable several provisions of the railway act to teletures of the bill are control governor general in council of rates to be charged both by telegraph and telephone companies, and also regulations for the exchange of business between different companies. His desire was to make this law one of general application, applicable as far as possible to all telephone companies in Canada, and provision had been made in the bill for that purpose. The attempt made to have the provisions of this bill applicable to all telephone companies in this county was one that will necessarily deserve very serious consideration on the part of the house. It was his intention on the second had been deprived of for so many years reading of the bill to ask that it be eferred to the railway committee of the house, because it is apparent that there are interests involved clearly ought to be heard, and it will be desirable to have all information possible, so as to be satisfied that we

> without injuring any special interests.
>
> Mr. Clarke-Will the bill be retroactive in its provisions as far as regards regulation of rates? Hon. Mr. Fitzpatrick-No. The bil provides that a company shall within a certain time prepare the rate of tolls be charged. Then these tolls are to be submitted to the governor gen eral in council to be settled with certain line. Then these rates are applicable throughout the whole domin

are legislating in the general interests

Dr. Sproule-Will the bill apply to mpanies doing business now? Mr. Fitzpatrick-Yes. The bill was read the first time.

Mr. Ganong learned from Hon. Mr Blair that Mr. Clergue had not delivered any steel rails under his contract government.

Sir Wilfrid Laurier declined to pro duce the correspondence. He said Canada was no more concerned with the Nicaragua canal than with the Suez canal.

Sir Hibbert Tupper made a slashing attack on the government for withholding the papers. The motion for the correspondence

was lost on division. phone and telegraph companies, and it also makes applicable to telephone distribution of each section of the companies certain provisions of the auditor general's report as soon as pre-existing telegraph bill. The new feasion was negatived by 99 to 43.

ST. JOHN DELEGATES ARRIVE. Mayor Daniel, Messrs. Baxter, Barnaby, Thomson, Jarvis, Robertson, Elkin and Estabrooks of St. John arrived here today and are to see the ministers tomorrow on matters affecting

the interests of that port. Mr. and Mrs. T. D. Monk and Mr. and Mrs G. W.Ganong were guests of Mr. and Mrs. R. L. Borden, at dinner tonight

The deputation had a preliminary meeting with Hon. Mr. Blair tonigh on the dock scheme and harbor improvements, and are to see Mr. Tarte NOTES

The militia department intends adding to the Canadian military service half a battery of three pompoms Chamberlain has asked the government to secure for him forty qualified lady teachers to go to South Africa to teach in the concentration camps. The period of service is one year, with free passage to and from Canada, and a salary of £100.

IRISH NATIONALISTS

Chicago, Want to Immediatly Annex Canada to the United States.

CHICAGO, March 4.—The woes of Ireland and the wrongs of the Boers were kindred subjects at a meeting of the Irish nationalists in this city tonight. The meeting was held primarily to pay tribute to the memory of Robert Emmet. The chief address of the evening was made by ex-Congressman John J. Lentz of Ohio, who said in part:

"If England can justify the barbarous war she is making against the Boers on the ground that she cannot afford to allow a republic to be ever established across the Vaal River, then the people of the United States cannot afford to allow a monarchial institution to strengthen itself across the Detroit and St. Lawrence rivers. If England is right in South Africa, and if the government at Washington is right in its policy in the Philippine Islands, then much more justifiable will the people of the United States be in insisting immediately upon the annexation of Canada."

WEDDING BELLS.

Tuesday morning at ten o'clock Rev. L. S. Wainwright, rector of Kingston parish, united in marriage F. B. Gorham of Long Reach and Miss M. E. Tippetts, daughter of John Tippetts of Carleton. The ceremony was perform-ed at the bride's parents' home, Middle street. Miss Tippetts wore a becomin travelling suit of brown and was un-attended. Both principals in the mat-rimonial event have large circles of friends, some of whom were at the train at noon to see them off to their home at Long Reach, which will be arrived at via Rothesay. Mr. Gorham, one of the most popular young men along the river, has recently entered into partnership with H. W. Williams and under the firm name of Williams & Gorham they will conduct a genera

CORONATION VERSE.

Addition to National Anthem Authorized by His Majesty. LONDON, March 3.-The special

verse for the National Anthem to be used at the coronation, and to which the royal sanction has been given, is follows: With England's crown today follows:

We hall our King, and pray God save the King. Guide him in happines Guard him in storm and stress, Then in thy Kingdom bless

And crown our King.

FOUND EMPLOYMENT.

A letter received by Pilot Doherty from his son in Cape Town, states that he has secured a situation at \$25 per month in the largest hardware establishment in Cape Town. He likes the place, and also has a promise of advancement. He had two or three offers of situations. Pilot Stone's boy had also secured a good situation at the florist business, and at the date of writing Pilot Rogers' boy was likely to soon accept a situation, as he had a couple of offers.

Do Seeds Talk?

Yes! So do the people who use them. "Steele, Briggs' Seeds" talk by their bountiful product and the planters who use them talk of their satisfac-

tion and profitable returns. It is the uniform good results that have made Steele, Briggs' Garden, Flower and Field Seeds so popular and in general request by successful growers.

Reliable Merchants who consider the growers' best interest, sell them. When selecting your season's supply ask for Steele, Briggs' Seeds. Should your dealer not carry them, go to the merchant who can supply them, or send your order direct. It pays to use good seeds. Catalogue free to buyers. Send name. Mention this paper.

The Steele, Briggs Seed Co., Limited, Toronto "Canada's Greatest Seed House."

SUN PRINTING COMPANY.

ALFRED MARKHAM.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., MARCH 8, 1902.

PRETTY LOW.

It is believed that Mr. Brunet, the recently elected liberal member for the St. James division of Montreal, is willing to resign to avoid further exposure of the frauds of that election. The Sun has already explained how in one poll a vote of less than 40 cast for Brunet was increased to 90, and a vote nearly as large cast for Bergeron was reduced to 4. But the stealing and forming of ballots was not the meanest thing done in that campaign. There was a concerted attempt to hire students from the universities to assist in the frauds. The following testimony shows the process:

Rodolphe Gagne, a medical student, told how A, E. Brunet had asked him to secure some solid men who were willing to do solid work during the election. He had sugges students and by advice of his brother had turned the affair over to Champigny, another student. He had brought seve to the central committee room of the condi-date Brunet, where they met Arthur E. Brunet, the accused. He had overheard Brunet speak once of telegaphs, but could not re-

Joseph Champigny was the most dire

witness against the accused Brunet. H that Arthur E. Brunet wanted some young men to do solid work. He went with the other students to Delville Theatre. The day before the election he met Arthur E. Bru-net, who told him that he had bought up, or would buy up, the conservative represen-tatives in several polls. He would also fix the deputy returning officers and poll clerks. The liberal representatives would be willing to let everything go. What he wanted to know was whether witness had a few friends who would undertake to put the votes through. They would be allowed to ote at each of the fixed polls as often as He wanted to keep on good terms with Brunet, however, who was one of the organizers of the liberal party, and so he showed his good will by bringing several other students to meet Brunet. He brought them to his room the night before, telling them that they would be paid to work for Mr. Brunet, They remained at his room all night, and next day went to the Ontario littee room, at Beland's store. Brunet came there and went to offer each of the boys fifty cents for each vote they would Witness had already mentioned the offer to Ephrem Lefebvre, a law student, who refused it with scorn. He made the offer to the others, but they were indignant and refused to have anything to do with it. They all left the place without speaking to Alcide Mathieu, a medical student, told of

the offer made by Champigny, in the presence of Brunet. Albert Clavel had gone to the store to meet Brunet, but had been told what was to be done before Brunet arrived and left the

place in anger. Smilien Marcil, notarial student; Joseph Guenette, medical student, and Azarie Foisy, medical student, all testified to the offers made by Champigny, while Brunet was present in the sto

This wholesale attempt to debauch and make criminals of the lads attending college in Montreal is no better than the Rothesay forgery. The accused Brunet is a near relative of the sitting member. He is charged also with paying witnesses, to go to the United States out of reach of the court. - 32 X 424

ANOTHER REMINDER.

An Old Liberal has written to the Toronto Globe, pointing out that the liberal party either has now or shortly will have control of the senate. That will make it possible to carry out the policy of senate reform promised in the Ottawa platform and outlined by the premier in parliament since his party obtained power. Hitherto, as this correspondent says, the tory majority in the senate has made it impossible to carry out the programme. But now there is no obstacle. The liberal writer in the liberal organ adds:

The reason for delay no longer exists. The should now be taken up in earnest. The provincial legislatures have expresse their opinions on the matter, and the party is steeped to the neck in promises to effect reform at the earliest practicable moment The dominion parliament is not very busyat least, a reference to the list of public statutes of the last few years dees not give one the idea of activity. There is no other great question pressing for settlement. The tariff is held to be sacred; insolvency, the banks will not let parliament touch, and of the past.

ere is this one great question of senation form ready to be dealt with. Now, Si filfrid, let us see some of your best work.

If Sir Wilfrid and his comrades were nest in demanding a reform in the onstitution of the senate to bring hat body into a position of responsibility to the people their follower has written well. If the promise and denand were all a humbug, and Sir Wilfrid desired only the control of the senate, it is no kindness to remind the premier of his undertakings.

MINERAL PRODUCTION OF CAN-ADA.

The mineral production of the dominon still increases, notwithstanding a considerable falling off in the gold output, the growth in 1901 being, acording to the preliminary statistical statement just issued by the geological survey department, equivalent to nearly eight per cent. addition to the total value for 1900. This is a much smaller proportional increase than those shown during the previous few years. Leav ing the Yukon districts out of consideration, the permanent metal mining industries show an increase of nearly 37 per centi, and this taken in connec tion with the enlarged value of the output of coal and coke, gives an average increase of over 27 per cent. for the more important industries of th country. The following figures, tabulated by E. D. Ingall, M. E., mining engineer to the geological survey of Canada, give the growth of the various industries for 1901 as compared with

In gold, according to the figures of the United States mints of purchases from the Canadian Yukon, there was falling off of over 12 per cent, in 1901. as compared with the preceding year, the yield being less by \$4,275,000. There was, however, an increase of almost \$1,000,000 in the British Columbia gold output. In the other provinces there were no considerable changes.

. THE SUN AND KINGS.

The senior Fredericton organ of the government represents the Sun as taking an unduly cheerful view of the result of the Kings county election On the other hand the valued Telegraph says that the Sun "is very sore they could get a name to vote under. He would give fifty cents a sote, and they might over the defeat." Our subsidized conmake \$5 or more in the day. Wifness says temporaries are both wrong. This journal of the people is not unduly jubilant, and in fact is not quite satisfied. It would have been better pleased if, instead of reducing the government majority by seven hundred, Mr. Sproul had abolished it alto-gemer. Nor is the Sun "very sore" over a contest which cut down the government margin from 800 to 135. The result is full of promise, though of course the immediate fulfilment would have been still better.

The Moncton Times finds from the auditor general's accounts that election year was a great time for paying old claims for damages against the intercolonial. One man was paid in 1900 for a fence burned in 1896. Another got \$200 and a third \$60 for damages of more than four years' standing. A Nappan man was paid for hay burned in 1894. Mr. Keith was paid \$76 for services as constable during a political partisanship investigation in 1897. Cattle said to have been killed in 1898 and 1895 were paid for in 1900, but the bills were not so high as those for Mr. A. E. Killam's famous cows.

That stalwart grit paper, the Montreal Witness, stands by its colors in the Devlin incident, It says:

In reply to a question concerning a recent nterview with Mr. Devlin, the government mmigration agent in Ireland, printed in the Witness, Mr. Fielding said the government was satisfied with Mr. Devlin's explanation that he did not admit the accuracy of the report and the government would do nothing further. This is carefully worded so as no to make the government responsible for any denial of the accuracy of the report. The government is satisfied in that Mr. Devlin es not admit it. It becomes necessa however, for the Witness to affirm that the report was absolutely and literally in the tery words of Mr. Devlin, and was in no way colored by addition or variation.

Rev. Dr. Minot Savage is not credited with over much faith. But he testifies to his belief in the power of Mrs. Piper as a medium. Mr. Savage says he received through this lady a mess-age from his dead son concerning some papers which the youth desired to have destroyed.

His Royal Highness Prince Henry of Prussia took time by the forelock in visiting Niagara Falls yesterday. According to O. E. LeRoy, B. A., the Niagara river will run dry by A. D. 4902, and the falls will then be a thing

LONDON, March 6.—The loss of the Waesland was due to the dense fog which enveloped the Irish channel during the entire day, seriously delaying all vessels.

LIVERPOOL, March 7.—Fifty-three of the passengers and crew of the Waesland arrived at Liverpool on board the Harmonides at 3.33 this morning. They were received by the agents of the American line here and were quartered at various hotels.

The colliston occurred in a thick fog at half-past 11 o'clock Wednesday night when the agents of the American line here and were quartered at various hotels.

The collision occurred in a thick fog at half-past 11 o'clock Wednesday night, when the Waesland was about 40 miles southwest of Holyhead. The Harmonides struck the Waesland amidships and there was a tenrible shock. Most of the Waesland's passengers had retired for the night. Perfect order and discipline prevailed. The crew of the steamer rapidly turned out the passengers and succeeded in assuring them that their lives were safe. The passengers were greatly influenced by the coolness of the crew and obeyed instructions willingly and quickly. The Waesland's boats were speedily got out, and in less than half an hour the entire ship's company had been transferred to the Harmonides.

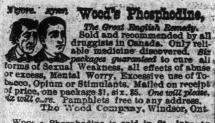

Unfortunately two lives were lost. The dead are a steerage passenger named Dangerfield and a child named Elsie Emmett, the daughter of a cabin passenger.

LIVERPOOL, March 7.—The Waesland sank thirty-five minutes after the collision, The passengers and crew lost all their belongings. The vessel carried no mails. The passengers united in the highest praise of the behavior of Captain Apfeld and his crew. It is expected that the company will send on the passengers by another vessel next week.

SMALLPOX IN HALIFAX.

discovered in the city. This time the patient is a druggist,, who resides on Black street. It can not be ascertain ed from whom he contracted the disease the house has been quarantined, and the patient removed to the hospital.

Grafton street house and went to reston, has smallpox, and is in quarantine in Preston. The residents of that place will all be vaccinated. The smallpox patient in Dartmouth is on a fair way to recovery; there are no new cases, and no danger of a spread of the disease, as every precau tion is being taken. The ferry com mission have ordered the cabins of the ferryboats, and the waiting rooms on Halifax and Dartmouth sides, to be disinfected.

FREDERICTON, N. B., March 6 .-The local legislature was opened by Lieut. Governor Snowball at 2.30 this afternoon with unusual formality and under conditions that promise to the society of the capital city a revival of the ceremonial functions for which they have mourned during the last five years. Large crowds, handsome costumes, brilliant decorations and eager interest were characteristics of the opening ceremonies. His honor the Heutenant governor, upon his arrival at the house, attended by Lt. Col. Mc-Lean, Lt. Col. Coli, and Capt. Lister, A. D. O.'s, and R. S. Barker, private secretary, was received by a guard of honor from the R. C. R. I., commanded by Capt. Leduc. A salute was fired by a detachment from the Woodstock Field Battery under Major Good.

house was adjourned, and His Honor and Mrs. Snowball held an informal reception in the chamber, which was largely taken advantage of by those who wished to be presented to the new An official dinner was given by the sovernor at the Queen hotel in the Those present at the most loyable function were: The members of the government, the chief justice and judge of the supreme court

APPLY THIS TEST TO YOUR NERVES.

and Hon. R. R. Dobell.

If You Have These Symptoms Your Nerves Are Weak and Exhausted-You Can Get Well by Using

Dr. Chase's Nerve Food

Nervous diseases are little understood They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be around again-so insidious is the approach of nervous diseases and nervous collapse. Study these symptoms. They are for your

guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; dizziness and flashes of light, before the see. initiavility and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerv force is greater than the daily income, phys force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not right themselves. They come on gradually as nerve force becomes exhausted, and can only be cured when the nerve force is rstored. No treatment for nervous diseases has ever received such universal endorsement by both received such universal end physicians and people as has Dr. Nerve Food. Crapper, 37 Salem avenue, Toronto,

Mrs. Crapper, 37 Salem avenue, Toronto, says:—

"For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr. Chase's Nerve Food, and can say that this treatment has proven of very great benefit to me. I realize that my allment will not disappear in a few weeks, but I have improved so much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of earnest letters telling of the wonderful benefits derived from Dr. Chase's Nerve Food; 50c. a box, six boxes for \$2.50, at all dealers, or Edmanson, Bates & Co.

those of last year, except that Lieut. CATHOLICS AND THE CORONA-TION.

> (British Parliamentary Report.) Mr. Dillon asked the first lord of the treasury whether, seeing that religious beliefs, passionately held by millions of his majesty's subjects, were denounced in the declaration required of his majesty on his accession to the throne by the bill of rights, the government proposed to take any steps towards the modification of the declaration before the coronation.

Mr. Balfour: The hon, gentleman probably remembers that a bill was brought into the other house for the purpose of modifying the declaration to which he objects. That bill met with very little favor, either from those whom it was intended to please or anybody else.

Mr. Dillon: The right hon, gentleman has not answered my question at all. I asked what are the intentions of the government. (Nationalist cheers.) Mr. Balfour: I am sorry I omitted

corollary which I thought the hon. gentleman would have drawn. It is that we are not likely to renew an attempt which has failed. We have certainly no intention of introducing a bill before the coronation.

You cannot fatten a norse that is out of condition. Give GRANGER Condition Powders, a valuable tonic and blood purifier. The Granger cures Cough, Impure Blood, Worms and all irregularities. It is a true Condition Powder and a fair-sized package, and has the largest sale of any Condition Powder.

HEAVY ENGLISH SNOWFALL. The following is a description of a

recent so-called heavy snow storm in "What has proved to be the heaviest

snowfall of the present winter fell in Southport and district on Saturday. There was an almost entire absence of wind, and fortunately there was little drifting. As it was, the snow continued to fall with one or two short intervals from an early hour till well on in the afternoon, when it reached a depth of about four inches. Notwithstanding the serious nature of the snowfall, vehicular traffic was not much impeded, and tramway and railway traffic suffered little interruption. fround Southport the Lancashire and Yorkshire Railway Company had a force of fifteen men exclusively engaged salting and sweeping the points. In the evening a slight tendency to thaw gave place to a strong frost, and the streets became exceedingly slippery, and some accidents, though happily not of a serious nature, occurred. -Southport Visitor

ANOTHER KICK AGAINST I. C. R (Summerside, P. E. I., Pioneer.)

One of our merchants informs us that he received notice a few days ago of the arrival at Halifax of a quantity of English goods for him and which the I. C. R. authorities there had refused to forward via Sackville. There was no question of freight mates in volved-simply a refusal to accept the goods via Sackville and Cape Tornentine. Through telegrams and other correspondence with the I. C. R. of-ficials, the goods have been started on their way by this route and will doubtless arrive. In the meantime the merchant has to bear the loss of delay and inconvenience caused by this in-explicable antipathy which still exists against sending goods to or from the island by the Cape Tormentine route This is one of the obstacles still remaining in the way of this much obstructed route and appears to be in line with the suppressed tariff rates, which, we regret to find, has not yet been explained. Explanations must come, however, sooner or later, and we have good reason to believe it will

e sooner. NOVA SCOTIAN KILLED. (Anaconda, Mont., Standard, Feb. 25.) The body of the late Charles Miller Olding, who met his death last week as the result of a fall from a telegrap pole, will be shipped to his former home in Nova Scotia this afternoon for interment. At 4 o'clock the service will be held in the Methodist church by the Rev. Mr. Macurdy, J. D. Mc Kay, a relative of the deceased, will accompany the body to Canada.

Mr. Olding was a prominent member of the local branch of the Good Temp-

dars and was an officer of the organ dzation at the time of his death. Th Good Templars met last evening to arrange for a sultable escort to accompany the remains to the depot.

Mr. Olding was a cousin of Dr. Clara Olding of this city and belonged to New Glasgow, N. S. He was twentyone years of age and was in the em ploy of a telegraph company in Ana-

WEDDING BELLS.

The marriage took place at Newton Mass., on Tuesday, of two young people well known and popular in St. John, The groom is Thomas Upham Hay, and the bride was Miss Carrie Edna Hindon, neice of Geo. W. Parker, with whom she has resided for some years. The ceremony took place at the home of the bride's mother, and the happy pair left at once on a bridal trip to New York. They well return from that city to St. John, and on May 1st will take up their residence in the handsome new block built by Geo. McArthur at the corner of Canterbury and Queen street The best wishes of a very wide of friends go out to Mr. and Mrs. Hav

DEATH OF A SISTER OF CHARITY. Sister Mary Barbara, of the Order of the Sisters of Charity, died in the Mater Misericordiae Home on Sidney street, yesterday. Deceased, who was Miss McGowan, belonged to Kings county, in the neighborhood of Sussex. Burial will take place on Saturday morning.

Sore Throat and Hoarseness with their attendant dangers, may be speedily averted and remedied by the use of Polson's Nerviline. Excellent to gargle with-ten times better than a mustard plaster, and more convenient for the outside. Nerviline penetrates the tissues instantly, soothes the pain, allays inflammation, and cures sore throat and hoarseness simply because that's what it is made for. The large 25 cent bottle of Nerviline is unexcelled as a household liniment. It cure everything.

Avard Anderson, who was a police man on the St. John force for several years, but who recently went to Bridgetown to engage in the livery business, has been appointed town marshal.

The death occurred at his home a Loggieville on Wednesday, of Robert Smith Fowlie, after a brief illness with cancer of the throat. He was 70 years of age, and leaves five sons and three daughters. Sergt. Maj. James Fowlie, of the R. C. R., Fredericton, is a son of the deceased.

IT IS SMALLPOX.

Dr. Morris visited the patient at St. Marys, York County, yesterday, and pronounced the case a mild one of mallpox. He declined to take charge of it, and Miss Clark, a nurse from the Victoria Hospital, Fredericton, was sent over. The patient is Barney Fisher of Stanley, who lately came from the Quebec lumber woods,

The Union Point pulp mill, which has been down for over five weeks. will shortly resume operations, as wel cluding Murray & Gregory's and the new Cushing box and shingle mills. Milford residents, who a year ago were quite discouraged by the prospects are now happy in the anticipation of plenty of work, which state of affairs will be brought about by the building of the Moore & Co. mill on the Barn hill mill site and the resumption of manufacturing in the old Miller & Woodman establishments.

Drugging Will Not Cure Catarrh. This loathsome disease is caused by germs that invade the air passages of he head, throat and lungs, and can be cured only by inhalation of medicated air. Stomach medicines, atomizers, snuffs are ineffectual, because they fail to reach the cause of the trouble. Catarrhozone is successful pecause it is inhaled to every part of the breathing organs, and has power to kill the germ, heals the inflamed tissues and prevents droppings in the throat. Catarrhozone treats more-than one thousand square feet of the mucou surface with every breath taker the inhaler, and affords instant relief. It perfectly cures Catarrh, Asthma and Bronchitis. Sold by Druggists Two months' treatment. Price \$1.00 Small size 25 cts., or by mail from Polson & Co., Kingston, Ont.

BRAVE ACTION REWARDED.

The salvage money awarded to the crew of the steamer Tanagra, for the work done by them in subduing a fire in the hold of that vessel some time ago has arrived. Among those who obtain a share is H. L. Waring of this city, who was at that time third engineer on the vessel. When the fire was discovered in the cargo, volunteers to fight it were called. Mr. Waring re ponded and was lowered down with others. At the risk of their lives they played a stream of water on the fire and finally subdued it. The action of Mr. Waring and those with him was brave in the extreme and they well deserve any reward that might be given to them.

LEPREAU NEWS.

LEPREAU, March 5.-Miss Nellie Reynolds is visiting friends in St. John A. J. Gregory, mother and sister, spent Saturday visiting the Gregory mill and boarding house.

Miss Maggie Hope, of Little Lepreau who has been sick for over a year, is fast recovering under Dr. H. P. Reynold's care. Mrs. D. A. Kennedy, who is in New York for the good of her health, is ex-

pected home about the middle of March. The Allan str. Huronian is out 22 days from Glasgow for this port.

MUCH DISSATISFIED

With the Way Canadians Are Treate in South Africa.

Frank Wilson and J. McDonald, of John, B. K. Bourne, of Woodstock, A. E. Kelly, Vancouver; George Crawford, Winnipeg; and W. J. Fraser, of Ottawa, members of the South African Constabulary, and the S. A. Light Horse arrived in the city yesterday on return from Africa. The men are by no means mild in their complaints cerning ill-treatment and state that considerable feeling exists among the Canadians now in Africa in regard to the manner in which they are being handled. The six men who came on the Corinthian are especially aggrieved over the fact that they were sent from England in that steamer as steerage passengers. They were compelled to live among several hundred Russian and Jewish immigrants, and almost indescribable filth, sickening odors, and dirt of all kinds. They had to sleep on tables in the steerage as the blankets in their bunks were soaked with water from the deck. The passage home from England they consider the hardest of their many experiences while away.

Speaking of Africa, the men say that all the discontent now existing among the Canadians was caused by the first mistake of dividing the men into troops and separating them, instead of permitting the S. A. C. to work together as one corps. The Canadians are scattered all over the country, mixed up with Imperial Yeomanry, who are the laughing stock of the whole army, and whenever a good piece of work is done by them—which frequently hapens they are not given any credit, for the reason that as Canadians they have lost their individuality. Another reason for complaint among the men is that they have not been supplied with horses. They all went to Africa as members of a mounted corps and the fact that some of them have been compelled to act as infantry has created much discontent. On one occasion, when starting from Bloemfontein for the Vet River, a number of the men were ordered to walk behind the mule teams. This they refused to do and were placed under arrest. Their arms and equipment were not, however, taken from them, and when the men were on the train going down country a sharp action took place in which they acquitted themselves well.

They are now awaiting trial.

Some of the Canadians are sore over the fact that they are compelled to the fact that they are compened to pay for their horses and equipment if any part of it happens to be lost. They are sent out in small patrols and often come in contact with he enemy. When, n one of these skirmishes, a scout is pay for it out of his small pay. This regulation the men consider very un-

In regard to the general condition of the war the men say very little. They have been operating in the Free State ally the good work now being done, is being done by colonials. The British soldiers are on garrison duty and the Canadians and Australians are in the

DEATH OF FRANK JORDAN. (Colwyn News, Colwyn Bay, North

Wales, G. B., February 21.) have to record the death of Francis
Thomas Jordan, youngest son of the
late Captain Frederick Jordan, of St.
John New Bunneydok and Captain for the catarrit and becomes the catarrity and the catarrity It is with sincere regret that we Brunswick, and of booth Liverpool. The sad event took place on Puesday, at Gilbertville, in the presence of his sorrowing mother and isters. The deceased your man, who was only twenty-one years of age had been an invalid for three years, and bore his long illness with exemplary fortitude. Prior to his being taken ill, he was in the office of John Porter, architect and surveyor, and was held in high regard by his principal and colleagues. Of deep religious onviction, he was a faithful membe of the English Presbyterian church The funeral takes place on Friday afternoon, leaving Gilbertville at two o' lock, for the Old Colwyn cemetery J. Dicken, Station Road, has charge of the funeral arrangements.

THE KINGS BY-BLECTION

(Moncton Times, 5th.) Fred M. Sproul of Hampton was in town yesterday and was warmly congratulated by his friends on his spiendid fight made in Kings in the opposition; cause against such heavy odds: Mr. Sproul would have been letter pleased if he had bear cleated, has he expressed himself well estisfied with the result, and has no doubt about the opposition winning in Kings when the general election comes around. Mr. Sproul's opponent had a great quantity of the "resources of civilization" at his back, and this was the only thing that saved him. The government party, Mr. Sproul says, had at least \$1,000 at Havelock, and about the same amount at his home in Hampton. All the polls were flooded with such great odds as this against him. Mr. Sproul believes he would have won if the roads had been in a fit condition for many of the older electors to get to the polls.

(Special to the Sun.) DORCHESTER, N. B., March 5.-In the King v. Girouard, the prisoner was found not guilty. Bigelow v. Seaman is by consent to tried in Moncton without a jury. In Ayer v. Alexander the record was

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, inder the guarantee of the proprietors (found in so many catarrh cures), no opium (so common in cheap cough cures), nor any harmful drug. They contain simply the wholesome antieptics necessary to destroy and drive

ANDOVER.

An Inventor Taken to the Lunatic Asylum-Work Stopped on the Bridge-Political Rumors.

ANDOVER, Victoria Co., March 5.— Adolphus Saxon was taken to the Lunatic Asylum yesterday by Charles Leslie of Perth Centre. Saxon was a Swede by birth, and came to Andreer about two years ago with a travelling troupe, but left them and remained here. He got employment as a book-keeper and boarded at John E. I tewart's. He was interested in the invention of a fire extinguisher and got it patented in Canada, and the United States, and interested several residents of Andover and Perth Centre to the extent of applying for a charter at the next session of the legislature to organize a company to place it on the market. It is supposed that the worry and study over this invention affected his mind. He is a man of good appear-

ance and is said to have a wife in sweden. The case is a sad one. The recent thaw has raised the water in the river and weakened the ice so that Mr. Brewer has again been oblige to discontinue the work on the bridge The piers are all built but the one in the centre of the stream. The woodwork of the dam was nearly completed and it is now supposed it will go out with the ice. The steel top on the Narrows bridge is now in place, all ready for the covering. After three years of delay this bridge will be com

pleted in time for next election. The Creamery Company stored a fine lot of fee before the thaw came. Mr. Porter's grist mill is still grind ing wheat, the supply of which keeps

up. C. LeB. Miles, C. E., spent last week at Fort Kent and vicinity, and it is said that he and James Stewart of Perth have taken ten miles of railway to build on the line extending from Ashland to Fort Kent.

Judson C. Manzer has purchased building lot near the creamery, and will put up a residence this summer. Mr. Sutton also proposes building a house adjoining Benjamin Beveridge's

Messrs. Porter and Lawson leave today for the opening of the legislature. Mr. Lawson's daughter Bessie accomies him. It is to be hoped the attorney general will give our members finite instruction as to the meaning of electors being domiciled in the electoral district, and whether it means staying all night at a hotel or getting a dinner at a restaurant.

village today. It is rumored he will be the government candidate for Grand Falls at the pext local election. An opposition candidate for the upper end of the county will be now in order. The county court met yesterday and adjourned as there was no business to transact.

Dutch Girls Are Ready to Marry Members of South African Constabulary.

attach of catarrh.

"Stuart's Catarrh Tablets were highity recommended to me as a safe and
pleasant catarrh cure, and after using
a few fifty-cent boxes which I procured from my druggists I was surprised
and delighted to find that both the
catarrh and headaches had gone for
good."

ley right across country for the past
months. The division recently went up
tar as Kronstadi but only for a round
in which it succeeded in capturing about
my fine which it succeeded in capturing about
no which it succeeded in capturing about Vasi to the Modder rivers. E division being headquarters troop, must keep on hand rations for 30,000 men." At the time of writing only three squads were in camp, all the rest being in the blockhouses. There were lots of Dutch girls there looking for husbands, but the Ottawa trooper says they are too sloppy for his taste. He does not think the war will last much longer, as the columns are doing great work. The squad at the time of writing secupied a blockhouse and practised shooting every day. Duty took up but four hours, two in the day and two at night.

BRIDES WANTED IN NEW ON-

TARIO. Trainlead of Girls Can Find Husbands, Se Announces Mayor Dyke.

TOBONTO, March 5, There was a large and appreciative audience at the Pavilion last night, who listened attentively to the eloquent represen-tatives of New Ontario dilating on the phere, scenery, and opportunities of this new land of promise. It was a strictly New Ontario programme, the speeches, songs and recitation being indigenous to the soil. Mayor Dyke made a strong bid for lady settlers. He said there weregreat opportunities, there for unmarried women. Just before he left Fort William for Toronto: he had been waited upon by 150 bachelors, who instructed him to bring back a whole trainload of ladies.

PROVINCIAL NEWS.

HOPEWELL HILL, March 2.-The news of the sudden death of Fred P. Reid of Moncton caused widespread regret throughout this village, where the deceased was born and where he lived during his earlier years.

The weather continues unsually mild and the snow is about all gone. Shepody bay and river are as open as in summer, in fact navigation may be said to have been scarcely closed at all during the winter.

HOPEWELL HILL, March 3.-The Baptist people here held a successful social this evening, a fair sum being

Gordon Douthrite had one finger cut off and another badly mutilated while at work in a steam saw mill at the Lake a few days ago.

Miss Laura Bishop left this morning for Bangor, Me., where she intends spending some months. Jas. C. Wright, W. T. Wright and Mrs. C. S. Starrat went to Moncton today to attend the funeral of their cousin, the late F. P. Reid. Miss Celia I. F. Peck is visiting

in Hillsboro Deal hauling from the different mills is hung up on account of the roads. BENTON, Carleton Co., March 3 .-The funeral of the late William Speer. whose death occurred on February 20th of pneumonia, took place on Saturday at 1.30 p. m. The services, which were conducted by Rev. George A. Ross, Methodist, assisted by Rev. Mr. Fow-ler, Presbyterian, were held at the late residence of the deceased. The 15th chapter of 1st Corinthians was read by Mr. Ross, prayer was offered by Mr. Fowler, the hymns Rock of Ages and Abide with Me were sung. An address from Benton Court of Foresters was then read. The pall-bearers were

Thomas Daye, Harry Deakin, Albert

Osbourne, Robert Arscott, William Anderson, Beecher McPherson. Interment took place at Oak Mountain cemetery. Deceased leaves a widow, who was Miss Sarah Mackay of Richmond, three sons and two daughters. The sons are Leslie Speer of West Somerville, Mass.; John Speer, who was partner in the large mercantile business in which deceased had been successfully engaged for a quarter of a century, and Laurence, the youngest The daughters are Misses Lizzie and Emma Speer, Lizzie having held the position of station agent here for about eight years. She resigned her rosition in January, and went with ner mother and sister to Candlearice, Nevada, to spend the winter. The sad news was sent to them by telegraph. and they started at once for home, and arrived here on Friday, the funeral having been postponed until their arrival. Much sympathy is felt for the bereaved family, as the circumstance are unusually sad. Deceased was fifty seven years and seven months of age. He was possessed of many excellent qualities, and in business as well as social circles will be much missed. Last autumn he entered the field as a candidate for the county council, and was successful. He took part in the proceedings of the council at the January session. He was a member of the Methodist church of this place, and in

A thaw began here on Friday and still continues. The snow has nearly disappeared from the fields and the roads are in a very bad condition. The oldest residents say they have never

politics a staunch conservative.

year. Arthur Gibson, son of the late Wil liam Gibson, is ill with an attack of pneumonia. Dr. Griffin of Debec is in

Mr. and Mrs. Samuel Arscott of London, Ontario, are the guests of Mr. and Mrs. Wm. Anderson. George Murray of St. John, formerly merchant of this place, was in town on Saturday.

DORCHESTER, N. B., March 4 .-The county court opened today, Judge Wells presiding. The criminal docket was made up as follows: The King v. Stephen Price; The King v. John Jeffries; The King v. Oliver Gerward. A true bill was found in the last case only. For the King, W. H. Chapman; for the prisoner, A. J. Chapman.

The civil docket is as follows: Edward J. Robinson v. Chesley Allen: James R. Ayer v. James Alexander; Henry V. Bigelow v. Samuel A. Sea

The appeal docket is: Herbert Hicks, appellant; James C. Cook, respondent Among the barristers present was Wm. Campbell of Campbellton.

The death of Miss Ella Smith, youngest daughter of the late John Smith, occurred at the home of her mother at 10.30 last evening. Miss Smith has been ailing for some time and her death was not unexpected. She was 17 years of age, and leaves a mother, one sister. Mrs. Wm. Shea of this town, and two brothers, Percy of the C. P. R. Telegraph Co., Sydney, and Charles of East Cambridge, Mass. Much sympathy is expressed for the family.

HAVELOCK, March 4.- The Havelock Cheese and Butter Manufacturing Co. held their annual meeting not long ago, at which the following officers were elected for the year: C. B. Keith, president; T. B. Freeze, vice-president; C. F. Alward, secretary-treasurer directors, the above named officers with the following additional: James W. Coates, Thomas Mullet, James Carson, Wilford S. Thorne, Silas W. Thorne Richard Mullin. The cheese maker for the season is R. W. Burns. At present milk is taken to the factory twice a week, amounting each day to 4,000 lbs It will soon be taken three times per week. Cheese making has not yet begun, as during the winter months the cream is separated from the milk and sent to another place to be made into butter. Arrangements are being now made to put in a butter plant, which it is expected will be put into operation this summer. The prospect is good for a profitable season.

It is rumored that Bohemian Keith proposes establishing a cheese factory at New Canaan. The prospect for such an enterprise at that place is good, and whoever undertakes such an industry there will find a promising field for his

Mr. Constantine of Springhill recently returned home from the lumber woods at St. Martins, where C. I. Keith is operating, with the loss of three firgers, which were severed from his hand while working in the mill.

SUSSEX, March 5.—The Free Baptists have great reason to congratulate themselves on the grand success of

their concert last evening. The programme was excellent, the attendance large, and all the performers were in fine condition. Prof. Titus' solos were as usual, good and much enjoyed, and the duet given by Miss Worden and himself, Forever With the Lord, was much appreciated. Master Walter Sherwood's violin solo was well received, and evidenced ability and care ful study. Garfield White's solo was given in fine voice, and he can be sure that the same audience would be pleas-ed to hear him again. Miss Lynds' readings were received most enthusiastically. Her selections were well made and were given most skilfully. Miss Worden gave three organ solos, and well sustained her reputation as a most efficient organist.

A quiet wedding took place today at the residence of Mr. and Mrs. D. P. Gosline, when their eldest daughter, Edna Mae, was united in matrimony to Rev. Joseph Edward Wilson, pas tor of Pine street Free Baptist church, Lewiston, Maine, by Rev. B. H. Nobles. The bride was attired in a very pretty gown of white muslin and lace, with bridal veil, and carried a handsome shower bouquet of tulips, hythisans and smilax. She was attended by her sister, Miss Grace Gosline, who also wore white. The groom was unattended. After the ceremony, the guests, confined to the members of the family, partook of a light lunch, after which the happy couple left by the C. P. R. for their home, 226 Oak street, Lewiston, Maine.

At three o'clock the fire department was called out to a fire in the attic of the house occupied by Mel. Scott. The fire was soon extinguished and no damage done. Miss Annie Folkins is home from

Boston on a visit to her parents. WATERSIDE, Albert Co., March 2-The death of Mrs. David Crawford, who has been in failing health for the past year, occurred this afternoon at the home of her sister, Mrs. Roland Lewis. Through all of Mrs. Crawford's illness she bore her sufferings with Christian fortitude. She had only been married about fifteen months and much sympathy is felt for the

sorrowing husband. March 3rd-Daniel Anderson has sold his residence and property to Green-lief Martin of this place. Mr. Anderson will remove to Hillsboro about the

first of May. Mrs. Walter Carter of Little Rocher is very ill with abscess in the h Mrs. George Cairns, sr., is improving after quite a severe illness.

WOODSTOCK, N. B., March 5 .-Norris Cadman, aged 33 years, and unmarried, died in Quebec yesterday afternoon. The deceased was born at Upper Woodstock and was the eldest son of the late James Cadman. He was a civil engineer by profession and had many friends in this town, where he visited quite often since he made his home in Quebec. He leaves sister, Mrs. T. G. I. Ketchum, and brother, Fred Cadman, both of this town, Mr. Ketchum went to Quebec vesterday afternoon and will accompany the remains to Woodstock. The nterment will be made in the Episco-

pal cemetery. ST. STEPHEN, N. B., March 5 .- The river just below the dam at Union Mills was the scene of a drowning accident at about half past four this afternoon. Lewis, aged six years, son of Game Warden Albert French of Calais, with a young companion, was playing on the ice on the Calais shore when he slipped in and was carried away by the swiftly running current. His body has not been recover-

Bad Accident to Fishermen Near Mouth of Kennebeccasis.

nsend Logan of Strait Shore Lost His Life - Narrow Escape of His Him-Two Hours' Battle With the Ice.

A well known Strait Shore fisherman lost his life Tuesday in the Kenne-beccasis, while in company with other expert fishermen they were trying to land an early run of gaspereaux.

The unfortunate man and friends had their nets set when the sudden thaw came on. They realized that prompt action was necessary to save their property, and it was with this idea in view that the men were at the fishing ground, and it was because of this desire and in this attempt that Townsend Logan's body is now at the bottom of the Kennebeccasis.

With nets set about opposite Ragged Point, Townsend Logan and brother, Rudolph Logan, who reside on Chesley street, started out early yesterday morning to try and rescue their nets (each had two under the ice), which were in great danger of being lost. It was impossible to go on foot on the ice to tend their nets, so a boat was taken from Indiantown. The Logan brothers had a slightly built skiff, flat bottomed and not strongly put to-

There were others fishing in the neighborhood, namely, B. Wilson, S. Fisher, Harry Meed and Robert/Wilon. This party rowed up from Indiantown in a good stiff boat, and forced their way some three-quarters of a mile up river farther than the Logan party. They, too, had nets to look after, and, like, the Logans, feared they might be lost if not attended to

Both parties had to pull their boats for a considerable distance over the ice to where their nets were. As the Wilson party continued their way up river, the Logan boys got to work at their nets, and for a time all went well. The Log ans struck a sheet of open water and were working from their boat. The Wilson party, fully threequarters of a mile away, had saved a couple of nets, which they landed, and had a couple more on board when their attention was called to their

friends down river. Suddenly they realized that the ice had parted and that a large floe had jammed the Logan boat. When the the water. In a minute both were seen on the ice, when suddenly there was another break in the ice and both disappeared again. Shortly afterwards one figure came to the surface and crawled up onto the ice, and slowly made his way toward the Wilson boat, which he reached after a perilous trip, as almost every yard of ice was rot ten. Here he was well taken care of. The Wilsons had tried their best to reach the drowning pair, but had made little headway, having to break away

the ice for every foot gained.

When Rudolph Logan reached the Wilson boat he was in an almost helpless condition. To make room for him prices this season, and operators are in a couple of nets were, thrown over-consequence in a happy frame of board and the men in the boats offered their overcoats, etc. The elder Wilson, however, hit upon the best idea. He gave Logan his coat and insisted that he should work with the others in trying to clear the ice jam and reach the shore. It was hard work and kept all hands fully two hours fighting for their lives. It warmed the blood of the half frozen man and diverted the thoughts of the others quite a good attendance at declaration from the comrade they had seen sink into the icy water of the great river. A landing was made at the next point above Ragged Point, and a milk man named Hannah drove the unfortunate fisherman home. By this time Rudolph Logan was in a bad way, and Dr. McInerney was summoned. He was unconscious for a time, but was in a fair way to recov-

ery late last evening. Townsend Logan, who was drowned was 33 years of age, a son of Alexander Logan, was married and leaves a widow and three children, the youngest of which is but two months old. The deceased's parents are also

alive. While there is little hope of recovering the body on account of the peculiar currents, an effort will be made today by friends of the unfortunate

IN THIS LOCALITY. The medicine dealers in this place say that there is no preparation or the market today that has anything like such an enormous sale as Dr. Chase's Kidney-Liver Pills. Would this extraordinary demand for Dr. Chase's Kidney-Liver Pills continue and gradually increase if people were not being benefitted and cured by their use? Certainly not. One pill a

DR. SPROULE

CATARRHAL DEAFNESS.

There never will be a treatment for Deafness that will cure all cases. Such a thing is ridiculous and impossible. There never will be a treatment that will cure every case of any disease. The treatment that eures the majority of cases of any diseased condition is a great boon and a godsend to

men.

Nearly every case of deafness results from eatarnh. Many, many are the patients afflicted with deafness that I have cured after they had tried ear specialists in vain, simply by curing the catarnh.

Until within a few years most of the diseases of the ear were pronounced incurable, and even today this belief is wide-spread. Fortunately there is an error, for nearly all the diseases of the ear are curable.

Do not listen to the advice of those who tell you that your deafness has lasted so long that nothing else can be done for it. Very many who have been deaf for years can be entirely cured, and still many others who are rendered by their deafness totally unfit to transact business, or have intercourse with their friends, can receive enough benefit to make them useful citizens, and a comfort and a blessing to their homes, and the community at large. the community at large.

Therefore, TAKE NO RISK! Do not let a trouble of the ear of any kind run on from week to week, month to month, or perhaps, year to year, until the parts are so completely destroyed that there is little hope of regaining this valuable and important sense. THE SYMPTOMS OF DISEASE OF THE

Deafness and ear troubles result from eatarrh passing along the Eustachian tube that leads from the threat to the ear.

Is your hearing failing? Are your ears dry and scaly? Do your ears discharge ? Do your ears itch and burn? Have you pain behind the ears ? Is there a throbbing in the ears? Do you have ringing in the ears? Are there crackling sounds heard? Is your hearing bad on cloudy days? Do you have ear-ache occasionally? Are there sounds like steam escaping? When you blow your nose do the ears rack?

Do noises in your ears keep you awake? Hear better some days than others? Do you hear noises in ears? Is hearing worse when you have a cold?

Answer the above questions, cut them out, nd send them to me. I will then diagnose your case free, and will write you out a plain description, and tell you what to do DR. SPROULE, ENGLISH CATARRH SPECIALIST, 7 to 13 Doane Street, Boston.

BELONGED TO BELLEISLE. E. C. Hennigar of this city, a student at Mount Allison University; J. Scrimeour of Amherst, representing Dalhousie College, Halifax, and W. S. Telford of Carleton county, an Acadia (Wolfville) University delegate, arrived in town at noon on the Atlantic express from Toronto, where they had been attending the big volunteer convention of college students from all over sity, reported to have had his skull fractured by being hit with a car in Toronto, is not from Nova Scotia, as published, but belongs to the Belleisle district, Kings county, in this province. The young men were surprised to hear Leonard was so badly injured and would hardly be lieve it, for they were told that he had only sustained a scalp wound or two. As he was to take the same train as they, nothing

ing on a Grand Trunk train—the wrong one—he was hurt.—Globe, 4th. ACCIDENT ON THE CENTRAL RAILWAY.

much could be learned of his (Leon

ard's) injury before the cars started

It is supposed the Belleisle lad had got

mixed up in the big depot, and in jump-

dozen passengers, but none of them were any the worse for their experience. The accident occurred on a trestle which spans a brook about a mile distant from Norton. The water had risen considerably in the brook and men had been keeping a careful watch on the trestle for some time. There was nothing in sight to indicate that the trestle had become at all impaired. When the train approached Canada and the United States. They the trestle four men, a carpenter, secsay Thos. Leonard of Acadia Univer- tion foreman and two section men made an examination of the structure and boarding the train reported the crossing all safe. When the train had got almost across one bent of the trestle settled a couple of feet. It was a new piece of work, and the supposition is that the ice or water must have undermined the piling on which rested this particular section. The passengers were taken to Norton. Repairs have already been made to the trestle, so that this occurrence did not interfere seriously with traffic on the railway.

Children Cry for CASTORIA

A train composed of a locomotive, tender, passenger car, box car and flat car met with a slight accident on the Central railway near Norton Monday morning. There were about a ALBANY, N. Y., March 4.—The memory of the late President McKinley was appropriately honored by the legislature of the state tonight in the assembly chamber. Governor Odell presided. The speaker of the evening was the Hon. Chas Emory Smith, ex-postmaster general.

The Book and the Plan.

I have a new plan-a safe plan, too. Something unique, something uncommon. Something no one else ever ventured to do. Something I believe no one else ever will venture to do. Here it is: You can get for yourself, or for some friend that may need

it, the book shown below. No money is wanted. Simply write me a postal for the book you desire. That is not all. With the book I will send you an order, either for yourself or some sick friend, on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will instruct the druggist to let you take it for a month; and if it succeeds it will cost you \$5.50. If it fails, the dealer will send the bill to me. There is no catch, no deceit. My Restorative must stand this test of merit.

Is not this a remarkable offer? Some have asked me if I actually allow the 30 day test entirely at my own risk. It does seem incredible, but this is just exactly what I do. The book tells how I am able to make such an offer. It tells how I reach with my Restorative deeply seated and chronic diseases that have baffled the treatment and skill of other physicians.

My records show that 39 out of 40 who take this treatment are cured. The record is one I am proud of. I will tell you how I am able to make such a record. I have learned how to strengthen the inside nerves. The

nerves that bring strength or weakness to the vital organs. My ability to do this explains the secret of my success. This is why I am able to assume the entire risk; to offer a plan that absolutely protects the patient against loss unless I succeed. This offer is too fair to need argument. Will you not make this known to some sick person? Your reward will come in knowing you have made it possible for this sufferer to regain his health. Do not let prejudice prevent your learning about my way of curing. Thousands upon thousands need the help I offer. I cannot personally reach them all. Every person know of some sick one. You can help me to place this opportunity in the hands of some such person. Will you do so? Will you do it now, today?

Simply state which book you want address Dr. Shoop, Box 12..... Book No. 2 on the Heart. Book No. 3 on the Kidneys. Book No. 4 for Women. Book No. 5 for Men (Sealed.) Book No. 6 on Rheumatism. and address Dr. Shoop, Box 12..... Racine Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

GOOD WORDS.

An Outsider's Impression of the City of St. John.

One of the most beautiful cities on this continent is St. John, N. B. It is situated on a sort of peninsula formed on one side by its magnificent harbor and on the other by Courtenay Bay. It is almost an island as far as water is concerned. From the harbor a gentle ascent is made until the head of King street is reached. From there north and south the electric cars take one to the north end past Paradise Row, out to the confines of the city. Another line of cars goes to the south end, passing the Custom House, a credit to any city, and returning through another section. St. John has a number of handsome public buildings, institutions and churches. Among the latter is old Trinity, Dr. deSoyres church, and the Roman Catholic cathedral. It possesses also a number of first class hotels, notably the Royal Hotel, kept by mine hosts Raymond and Doherty, and from a personal experience of hotels on the continent there are few that can surpass this. Every possible attention is paid to and nothing is left undone to ensure their comfort. The genial Mr. Raymond makes one feel at home at once, and the kindness and asisduous attention of Harry Doherty is appreciated by all. One of the most interesting sights to a stranger is the 'reversing falls" at Carleton, just opposite St. John. It flows both ways, sometimes one way and sometimes the other, as the tide rises and falls. The splendid bridge of the C. P. R. is of itself a sight worth seeing, as is the Suspension bridge. The Provincial Lunatic Asylum is worth visiting. It is one of the largest institutions of its kind in Canada. The stores compare favorably with any in this dominion There are few stores in Canada that can surpass that of Manchester, Robertson & Allison for dry goods, while that of Thorne & Co. for hardware is first class in every respect. Of news-papers there is no lack. The Sun, under the conduct of Col. Markham, has a large circulation, as has that of the Globe, under the presidency of Dr. Ellis. There are other papers, such as The Star, The Telegraph, and Gazette, who all claim to have a large circulation. St. John can boast of an excellent market, one of the best in this country. It is stocked with first class meat, good poultry, butter, cheese, delicacies of all sorts, and is a credit to the city. The fire depart-ment is an excellent one, and Chief the disease it professes to be able to

Kerr is to be congratulated upon its cure. efficiency. The police is also under a very competent chief, who posses the confidence of the community. As a winter port St. John is rapidly coming to the front. There is perhaps no better harbor in America for heavy draught ships, and, when the contem plated improvements are carried out, it is safe to say that no harbor in the world will be reckoned safer than that of St. John. As to the people, they are kindness itself, and if any stranger leaves St. John with an impression other than this the fault must lie in himself. One of the institutions lie in himself. One of the institutions of St. John is the Union Club, where of St. John is the Union Club, where of St. John is fortunate enough to any one who is fortunate enough to be "put up" as a guest will admit that be "put up" as a guest will admit that be "put up" as a guest will admit that up as incurable by the best physicians.

The tug Lily came up through the steamer Aurora narrowly escaped destruction at North the Union Club, where of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the only one of the Sewell fleet to winter the on of the most prominent men in this province, and its name for hospitality is world wide. St. John also has a Royal Yacht Club, which has done a great deal to foster this sport among its people. Many warm friends are

Among the industries of this city are cotton mills, lumber mills, fisheries, etc., and a ferry plies between the city and Carleton making ten minute trips, and seems well patronized. The scenery up the St. John River is very picturesque, and during the summer months many steamers run up and down freighted with excursion parties. The residents of St. John are intensely loyal, and this is noticed in the naming of the principal streets, viz.: King, Prince William, Charlotte. Princess street, and so on It is said to be well patronized during the summer months by residents from Boston and other American cities on account of the pleasant weather always to be found here, and ere long it will become noted as a summer resort. To a stranger St. John possesses many attractions, and is well worthy of a visit.

BY RAIL ACROSS AUSTRALIA. A Continuous Line to be Built Across the South Part of the Continent.

A great railroad enterprise is getting under way in Australia. The surveys have been made for a railroad from Port Augusta in the state of South Australia clear across the southern edge of the continent to the mining town of Coolgardie in Western Australia. As Coolgardie is already joined by rail to Perth, on the west coast, the transcontinental road will be com-

pleted when it reaches that point. The road will run quite near the sea, where a telegraph has for years connected the eastern and western coasts of the continent. Nine-tenths of the mileage will be through one of the most barren deserts in the world, but the building of railroads through desert lands no longer offers difficult problems to engineers. The problems have been solved and no one doubts that the stretching of a railroad across this part of Australia will be successfully carried out.

The engineers say that on the limestone plateau to the north of the Great Australian Bight, along whose shores the track will be laid, is the only part of the continent where there are no native tribes. A considerable number of natives, however, live in the western part of the region to be

Until the engineers recently went over this desolate country the region had been crossed only by Eyre, who, while vainly hunting for new pasture lands, made the journey in 1840-41 that cost him so much suffering and the loss of his white comrades.

This railroad will complete the connection by rail of all the important

entres of population in Australia, excepting some isolated settlements on the north and northeast coasts. Heretofore it has always been necessary to travel by sea between Perth, Fre-mantle and Albany, the most important towns in the state of Western Australia, and the well-developed regions of Victoria and New South Wales.

But with the building of this rail road the journey may be made from the southwest corner of Australia through all the southern states of the commonwealth and north along the east coast as far as Rockhampton, on the middle coast of Queensland. Thus, nearly all the great mining regions and agricultural districts will be connected by rail either by the line along the coasts or by branches from it already in operation in eastern Australia, which penetrates into the mining and wool-producing districts of

the interior. Eyre was saved from death when he crossed the continent by the discovery that he would obtain water by digging. It will be remembered with what infinite difficulty the famous overland telegraph line from South to North Australia was carried across the waterless interior to meet the submarine cable on the north coast.

But a great deal has been learned about practical methods for carrying on enterprises in the deserts since the overland telegraph was stretched across the sandy wastes of Australia and there is no reason to doubt that the desert railroad now to be built will be completed without very great difficulty.

EXPERIENCE TEACHES

The Only Valid Argument in Favor of any Medicine is the Resutits

Achieved by its Use. From the beginning of time man has een struggling to overcome disease. The history of his efforts in this direction would be a very interesting

story if collected and arranged. Scientific and theoretical systems of medicines have been devised and promulgated only to be discarded later as unscientific and not practical. Many fanciful remedies and treatments have been and are being put forward only to fail when brought

another to sink into oblivion and be forgotten. There is only one absolute test of the value of a medicine and that is, the

FAMOUS MONKEY DEAD.

Pete Has Milked His Last Cow and Had His Last Drink.

ELIZABETH, N. J., March 2.-New Jersey's most famous monkey, Pete, owned by Samuel Farren, a truck farmer near Tremley, N. J., is dead of

old age and a cold. He withstood the first onslaught of snow and sleet and had much sport in relling up snowballs and throwing them at the chickens and cattle oh the farm and with great glee would shy some of the snowballs at his goodnatured master, who thought the world

of the animal. Then Pete began to sneeze and to cough just like a human being. He was taken to the kitchen fireside and dosed with whiskey, of which he was passionately fond, but it only served to make him make faces and act disorderly. It did not cure him of the heavy cold he had taken, and on Friday last the big fellow died, with both paws up in a supplicating manner to men had of danger was when their

powerless to help him. He once travelled with a circus and was given to Mr. Farren, who taught ered by the life-savers the vessel was him many tricks. Pete could milk a cow, wash dishes, feed chickens, harcow, wash dishes, feet dinner bell fore it was secured and fastened by the farm hands. He could comb those on board. The Annie T. Bailey for the farm hands. He could comb his master's hair, wash his face and lace his shoes. He was fond of all kinds of strong drink, would get drunk

and sleep off the effects. Pete will be buried with the honors due his sagacity and affection for his owner. A slab will be placed at the foot of the grave and the remains will be incased in a hermetically sealed box. Pete was 20 years old.

A TIME OF INTEREST AND GREAT IMPOST-ANCE TO ALL WOMEN

Wrecked health is produced by ne glect during this trying period, and small wonder that women look forward with dread to its coming, for if no properly passed, is but the beginning of an endless chain of troubles.

At soon as the unmistakable signs known to all women make their first appearance, Ferrozone should be used egularly, and if persistently taken will be a guarantee of happy, healthy, old age.

Nothing can bring more pleasure than to know that the days of sickness suffering are over. This can be accomplished by building up the system with Ferrozone, which produces blood, muscle, tissue, and trength to resist and ward off disease Ferrozone increases the appetite strengthens and improves nerve tone digestive processes, thereby strengthening and invigorating the whole system. It gives tone to the heart, regulates its action, removes distressing palpitations, and it lays the sound foundation of perfect health. Ferrozone is a sensible and efficient tonic; it brings back strength very quickly, and few people are so strong and healthy, that they would not be benefited by using it.

Be advised and try Ferrozone. It is very pleasant to take, one tablet after each meal. All reliable druggists sell it for 50c. per box, or three boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont. Recommended and sold by A. Chipman Smith & Co.

SPRING AT INDIANTOWN.

River Boats Rapidly Preparing for the Summer's Work-Early Season Expected.

The work of preparing the river atteamers for the season's traffic is being rapidly pushed forward. The carpenter work on the Victoria and the David Weston is nearly completed, and both boats are now in the hands of the painters being thoroughly coated inside and out. The May Queen is undergoing extensive repairs and renovation New trusses, king posts, new combings are being installed, in addition to numerous minor repairs and painting, which will begin shortly. All the ether river boats are also in the hands of the repairers, being rapidly put into condition

LETTERS FROM THE PEOPLE.

To the Editor of the Sun:

Sir—As I find it impossible to write to each of the very many who have expressed their deep sympathy with us in the great sorrow which has come into our home, will you allow me to convey to them through your paper our sincere appreciation of their thoughtful kindness, and to express the wish that they too may find the truth f the words:

"In every sorrow of the heart Eternal mercy bears a part." Yours respectfully, F. H. W. PICKLES. BOARD OF TRADE

Government Redemption of Worn Silver Coins Requested.

Debate on Empire Preferential Trad bers Elected.

The regular meeting of the St. Joh

board of trade Tuesday evening was scantily attended, several of the mem-Ottawa. On this account very little business was transacted, and some important matters which were to have come before the board were postponed until next meeting. In the absence o President Jarvis, the chair was taken by W. F. Hatheway. The members present were D. J. McLaughlin, G. F. Fisher, C. F. Kinenar, W. L. Waring, Ald. Macrae, S. P. McCavour, W. A. Lockhart, Jas. Oborne and J. A. Seeds. The secretary read the summary of the proceedings of the council during the past month, telling of the visit of Louis Coste, C. E., who read a paper advocating the proposed transportation route from the Northwest to Montreal by way of the French River route, and stated that he believed, if adopted, this route would divert a large portion of the traffic in grain, etc. from the Northwest which now reaches the Atlantic by United States ports, to Montreal and other Canadian seaports. The matter has been referred to the freight and transporta-

tion committee. The council has adopted the report of the subsidy committee recommending the renewal of the subsidy for the St. John-Digby service on the same terms as last year, and also recom mending a subsidy of \$15,000 for a first class freight and passenger service between St. John and Halifax via the south shore, freight capacity to be not ess than 25 car loads, making 35 trips per annum, and service to commence

from 1st to 15th May. The committee on the adoption of that Messrs. Pugsley and Tweedie of the New Brunswick government are favorable to the movement, the C. P. R. are preparing their new time tables with a view to the change, and that Mr. Pottinger of the I. C. R. is personally favorable to the change, and s now awaiting a reply from the department in reference thereto.

Owing to the increasing import and export business at the port this winter the accommodations at the Sand Point terminals has been found insufficient to provide for the traffic. This matter has occupied the serious attention of the Council; a committee has been appointed to consider the question, and a delegation of the board has gone to Ottawa to consult with the government as to the best means to provide additional berths and warehouse facilities in the near future and other matters affecting the port

The Council has adopted the repo were lost or damaged in the same gale, that the board recommend to the favorable consideration of the dominion government the petition of the people of Grand Manan in favor of the erect tion of a breakwater at North Head Grand Manan: (2) that Col Tucker, M. P., be asked to see that an appropriation for the erection of a fog alarm at Negro Head, as promised by the marine department, be inserted in the supplementary estimates; (3) that as the matter of replacing the cable between Westport and Freeport is in the hands of a private company, and as it more particularly appertains to Nova Scotia, and would therefore come more under the care of the member for Digby county, that no action be taken by the Council in the matter; (4) that the ecretary write for fruther particulars in regard to the number of wrecks and loss of life in the Bay of Fundy in the last twenty-five years, and the esti-

mated cost of the proposed sea-wall at Margaretsville, N. S. A communication from the mayor and corporation counsel of Toronto requesting the co-operation of the board in requesting the passing of an not by the dominion government, requiring the Bell Telephone Co. to supply telephones to all persons who require and are willing to pay for the same, and limiting the power of that company in regard to rates. The Council has acceded to the request, and a petition in its terms has been forwarded to the dominion government.

The following communication was read from the Toronto board of trade: TORONTO, February 12th, 1902,

Secretary, The Board of Trade,

St. John, N. B.: Dear Sir—At a general meeting of this coard held on the 12th instant, the following resolution was unanimously adopted: Whereas, according to the press despatches it is the intention at the present session of the Imperial parliament to levy additional taxes in order to meet the heavy expenditure caused by the war in South Africa, and the large additions to the British navy, and amongst other products which may be taxed, wheat has been especially mentioned.

In view of the position so strongly urged by this board for many years, for a preferential treatment of the different products of the Empire exchanged therein, and Canada having granted a tariff preference on the products of Great Britain when imported into this country, one of the results being that Germany has discriminated in her tariff against us by imposing practically prohibitory duties on our cereals, thus closing a valuable market to our farmers; therefore be it

be it

Resolved, That in the opinion of this
board, any tax placed by Great Britain upon
products similar to those produced in this
country should be so levied as to grant a preference to the products produced within the

ference to the products produced within the Empire.

That if Great Britain could see her way clear to adopt such a policy, it would result in the knitting together still closer the various parts of the Empire, and thus materially strengthen our position by diverting to the colonies, a large portion of the emigration from the United Kingdom now going elsewhere, with the result that ere long the wheat and ether food products required could be entirely supplied within the Empire.

And that copies of this resolution be sent to the premier of Canada, and he be requested to cable the same to the Honorabic Joseph Chamberlain, colonial secretary; Lord Curzon, viceroy of India, and the premiers of Australia and New Zealand, and to forward them the full text of the resolution by mail.

It Keeps Them Well.

That is exactly what our Vapo-Cresolene will do for your children. When any contagious disease is in the

in the vapor every night. Not a disease germ can live in this vapor, ret it is perfectly safe. You see it is that little "ounce of prevention" bers being away on the delegations to you have heard so much about. It brings quick relief from croup, colds, coughs and other throat troubles. 19 Vapo-Cresolene is sold by druggists everywhere. forwarded to the different boards of trade and commercial bodies in Canada, and that they be requested to pass similar resolutions and forward them to the proper authorities. Will you kindly bring this matter to the attention of your board, and advise me of any action that may be taken at your early convenience, and oblige,

Yours truly.

On motion of D. J. McLaughlin dis cussion regarding the matter was postomed until the next regular meeting. The committee appointed to look into the matter of the redemption of worn eilver coin reported that a general desire existed for such action by the government as was taken in the United States and Great Britain, and as it was a matter in which the boards of trade in the dominion should move they presented the following resolu

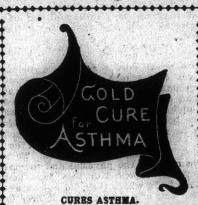

Resolved, that in the opinion of the St. John board of trade the circulation of worn and mutilated coins is demoralizing, and that it is desirable that the several boards of trade in Canada should unite in memorializing the department of trade and commerce asking for the introduction of legislation providing for the calling in and redemption of worn and mutilated silver coins, the mutilated ones to be subject to a discount only large enough to protect the government against fraud.

The following were elected to mempership of the board: Ames Holden Co., W. M. Barlow, Jas. Pender & Co., J. F. Morrison, McClary Mfg. Co., M. Neilson of the St. John Street Raliway Co., C. Flood & Sons. Wm. Hawker & Co., W. E. Mason of the Canada Permanent Loan Association, Reid Bros., Jas. Fleming & Sons, St. John Hide Co., Cushing Sulphite Fibre Co.

CITY AND COUNTY OF SAINT JOHN.

CITY AND COUNTY OF SAINT JOHN.
To the Sheriff of the City and County of Saint John of any Constable of the said City and County—Greeting:—
WHEREAS pine of the Executors of the estate of Robert Stewart, deceased, has filed in this court an account of his administration of the said deceased's estate, and has prayed that the same may be passed and allowed in due form of law;
YOU ARE THEREFORE required to cite the heirs and next of him of the deceased and all of the creditors and other persons interthe heirs and next of kin of the deceased and all of the creditors and other persons interested in his said estate to appear before me at a Court of Probate to be held in and for the City and County of Saint John, at the Probate Court Room, in the Pugsley Building, in the City of Saint John, on MONDAY, the SEVENTEENTH DAY OF MARCH next, at eleven o'clock in the forencon, then and there to attend the passing and allowing of the said accounts as prayed for amd as by law directed.

Hiven under my hand and the Seal of the said Probate Court, this Eighth day (L.S.) of Pebruary, A. D. 1902.

(Sgd.), ARTHUR I. TRUEMAN, OHN McMIELAN, Judge of Probate MACRAE & SINCLAIR,

WASHINGTON, March 2.-A familiar illustration from the barnyard is employed in this discourse by Dr. Talmage to show the comfort and protection that heaven affords to all trusting souls. The text is Matthew xxill., 37, "Even as a hen gathereth her chickens under her wings, and ye would

Jerusalem was in sight as Christ came to the crest of Mount Olivet, a height of 700 feet. The splendors of the religious capital of the whole earth irradiated the landscape. There is the temple. Yonder is the king's palace. Spread out before his eyes are the pomp, the wealth, the wickedness and the coming destruction of Jerusalem, and he bursts into tears at the thought of the obduracy of a place that he would gladly hape saved and apostrophizes, saying, "Q, Jerusalem, Je rusalem, how often would I have gathered thy children together, even as a hen gathereth her chickens under her

wings, and ye would not!" Why did Christ select hen and chickens as a simile? Next to the appositeness of the comparison, I think it was to help all public teachers in the matter of illustration to get down off their stilts and use comparisons that all can understand. The plainest bird on earth is the barnyard fowl. Its only adornments are the red comb in its headdress and the wattles under the throat. It has no grandeur of genea logy. All we know is that its ancestors came from India, some of them from a height of 4,000 feet on the sides of the Himalayas. It has no pretension of nest like the eagle's eyrie. has no lustre of plumage like the goldfinch. Possessing anatomy that allows flight, yet about the last thing it wants to do is to fly, and in retreat uses fool almost as much as wing. Musicians have written out in musical scale the song of lark and robin redbreasts and nightingale, yet the hen of my text hath nothing that could be taken for a song, but only cluck and cackle. Yet Christ in the text uttered while looking upon doomed Jerusalem declares that what he had wished for that city was like what the hen does for her chick-

CHRIST'S SEMPLE TEACHINGS.

Christ was thus simple in his teachings, and yet how hard it is for us who are Sunday school instructors and editors and preachers and reformers and those who would gain the ears of audiences to attain that heavenly and divine art of simplicity! We have to run a course of literary disorders, as children a course of physical disorders. We come out of school and college loaded down with Greek mythologies and out of the theological seminary weighed down with what the learned fathers said, and we fly with wings of eagles and flamingoes and albatrossess, and it takes a good while got the eight children out, John Wes- her wing." Oh, the warm heat of God before we can come down to Christ's ley the last before the roof fell in, the is ready for all similtudes, the candle under the bushel, the salt that has lost its savor, the net thrown into the sea, the spittle on the eyes of the blind man and the hen and chickens.

There is not much poetry about this winged creature of God mentioned in my text, but she is more practical and more motherly and more suggestive of good things than many that fly higher and wear brighter colors. She is not a prima donna of the skies nor a strut of beauty in the aisles of the forest. She does not cut a circle under the sun like the Rocky mountain eagle, but stays at home to look after family affairs. She does not swoop like the condor of the cordilleras to transport a rabbit from the valley to the top of the crass, but just scratches for a

living. I am in warm sympathy with the unpretensious old fashioned hen because, like most of us, she has to scratch for a living. She knows at the start the lesson which most people of good sense are slow to learn-that the gaining of a livelihood implies work and that successes do not lie on the surface, but are to be upturned by positive and continuous effort. The reason that society and the church and the world are so full of failures, so full of loafers, so full of deadbeats is because people are not wise enough to take the lescon which any hen would teach them, that if they would find for themselves and for those dependent upon them anything worth having they must scratch for it. Solomon said, "Go to the ant, thou sluggard." I say, Go to the hen, thou sluggard! In the Old Testament God compares himself to an eagle stirring up her nest, and in the New Testament the Holy Spirit is compared to a descending dove, but Christ in a sermon that began with cutting sarcasm for hypocrites and ends with the paroxysm of pathos in the text compares himself to a hen.

HAWKS OF TEMPTATION.

One day in the country we saw sudden consternation in the behavior of old Dominick. Why the hen should be so disturbed we could not understand We looked about to see if a neighbor's dog were invading the farm. We looked up to see if a stormcloud were hovering. We could see nothing on the ground that could terrorize and we could see nothing in the air to ruffle the feathers of the hen, but the loud, wild, affrighted cluck which brough all her brood at full run under he feathers mads us look again around and above us, when we saw that high up and far away there was a rapacious bird, wheeling round and round and down and down, and, not seeing us as we stood in the shadow, it came nearer and lower until we saw its beak was curved from base to tip and it had two flames of fire for eyes and it was a hawk. But all the chickens were under old Dominick's wings, and either the bird of prey causht a glimpse of us or, not able to find the brood huddled under wing, darted back into the woods. So Christ calls with for all things are now ready." great earnestness to all the young. spirit and the bride say come."

Why, what is the matter? It is bright sunlight, and there can be no danger. Health is theirs. A good home is theirs. Plenty of food is theirs. But Christ continues to call, calls with more emphasis and urges haste and says not a second ought to be-lost. Oh, do tell us what is the Ah, now I see; there are matter. hawks of temptation in the air, there are vultures wheeling for their prey, there are beaks of death ready to clutch. Now I see the peril. Now I understand the urgency. Now I see the only safety. Would that Christ might this day take our sons and daughters into his shelter "as a hen gathereth her chickens under her wing.

The fact is that the most of them will never mind the shelter unless while they are chickens. It is a simple matter of inexorable statistics that most of those who do not come to Christ in youth never come at all. What chance is there for the young without divine protection? There are the grogshops, there are the gambling hells, there are the infidelities and immoralities of spiritualism, there are the business rascalities, and so numerous are these assailants that is is a wonder that honesty and virtue are not lost arts. The birds of prey, diurnal and nocturnal, of the natural world are ever on the alert. They are the assassins of the sky, they have varieties of taste. The eagle prefers the flesh of the living animal; the vulture prefers the carcass, the falcon kills with one stroke, while other styles of beak give prolongation of torture. And so the temptations of this life are various.

PROTECT THE YOUNG.

Fathers, mothers, older brothers and sisters and Sabbath school teachers, be quick and earnest and prayerful and mportunate and get the chickens under wing. May the Sabbath schools of America and Great Britain within the next three months sweep all their scholars into the kingdom. Whom they have now under charge is uncertain. Concerning that scrawny, puny child that lay in the cradle many years ago, the father dead, many remarked, "What a mercy if the Lord would take the child!" And the mother really the thought so too. But what a good thing that God spared that child, for it be came world renowned in Christian literature and one of God's most illustrious servants-John Todd. Remember your children will remain children only a little while. What you do for them as children you must do quickly or never do at all. "Why have you never written a book?" said some one to a talented woman. She replied: "I am writing two and have been engaged on work ten years and on the other five years-my two children. They are my life work." When the house of John Wesley's father burned and they father said: "Let us kneel down and thank God. The children are all saved. Let the rest of the place go." My hearers, if we secure the present and everlasting welfare of our children, most other things belonging to us are of but little comparative importance. ander the Great allowed his soldiers to take their families with them to war, and he accounted for the bravery of his men by the fact that many of them were born in camp and were used to warlike scenes from the start. Would God that all the children of our day might be born into the army of the Lord!

THE MERCY OF GOD.

But we all need the protecting wing. If you had known when you entered upon manhood or womanhood what was ahead of you, would you have dared to undertake life? How much you have been through! With most life has been a disappointment. They tell me so. They have not attained that which they expected to attain. They have not had the physical and mental vigor they expected or they have met with rebuffs which they did not anticipate. You are not at forty or fifty or sixty or seventy or eighty years of age where you thought you would be. I do not know any one except myself to whom life has been a happy surprise. I never expected anything and so anything came in the shape of human favor or comfortable position or widening field of work it was to me a surprise. I was told in the theological seminary by some of my fellow students that I never would get anybody to hear me preach unless I changed my style, so that when I found that some people did come to hear me it was a happy urprise. But most people, according to their own statement, have found life a disappointment. Indeed, we all need shelter from its tempests. About three o'clock on a hot August afternoon you have heard a rumble that you first took for a wagon crossing a bridge, but afterward there was a louder rumbling, and you said "It is thunder!" And, sure enough, the clouds were being convoked for a full diapas-A whole park of artillery went rolling down the heavens, and the blinds of the windows in the sky were closed. But the sounds above were not more certain than the sounds be neath. The cattle came to the bars and mouned for them to be let down that they might come home to shelter, and the fowl, whether dark Brahms or Hamburg or Leghorn or Dominick began to call to its young, "Cluck, cluck, cluck!" and take them under the wagon house or shed and had them all hid under the soft feathers by the time that the first splash of rain struck the roof. So there are sudden tempests for our souls, and, oh, how dark it gets and threatening clouds of bankruptcy or sickness or persecution or bereavement gather and thicken and blacker and some run for shelter to a bank but it is poor shelter, and others run to friendly advisers, and they fail to elp, and others fly nowhere, simp y

ause they know not where to go

and they perish in the blast, but others

hear the a divine call, saying, "Come

NEED OF WARMTH.

The wings of my text suggest warmth, and that is what most folks want. The fact is that this is a cold world whether you take it literally or figuratively. We have a big fireplace aguratively. We have a big included the sun, and it has a very hot fire, and the stokers keep the coals well stirred up, but much of the year we cannot get near enough to this fire-place to get warmed. The world's exemities are cold all the time. Fo not that it is colder at the south pole than at the north pole and that arctic is not so destructive as the anarctic. Once in a while the arctic will let explorers come back, but the antarctic hardly ever. When at the south pole a ship sails in, the door of ice is almost sure to be shut against its return. So life to many millions of people at the south and many millions of people at the north is a prolonged shiver. But when I say that this is a cold world I chiefly mean figuratively. If you want to know what is the meaning of the ordinary term of receiving the "cold shoulder," get out of money and try to borrow. The conversation may have been almost tropical for luxuriance of thought and speech, but thermometer drop to 50 degrees below zero, and in that which till a moment before had been a warm room. Take what is an unpopular position on some public question and see your friends fly as chaff before a windmill. As far as myself is concerned, I have no word of complaint, but I look off day by day and see communities freezing out. and women of whom the world is not worthy. Now it takes after one and now after another. It becomes popular to depreciate and defame and execrate and lie about some people. This is the best world I ever got into, but it is the meanest world that some people ever got into. The worst thing that ever happened to them was their cradle and the best thing that will ever happen to them will be their grave.

What people want is warmth. Many years ago a man was floating down on the ice of the Merrimac, and great efforts were made to rescue him. Twice cause that end of the plank was covered with ice, and he cried out, "For God's sake, give me the wooden end of the plank this time!" and this done, he was hauled to shore. The trouble is that in our efforts to save the soul there are too much coldness and jcy formality, and so the imperiled one slips off and floats down. Give it the other end of the plank; warmth of sympathy, warmth of kindly association, warmth of genial surroundings. The world declines to give it, and here is where Christ comes in, and as on a cold day, the rain beating and the atmosphere full of sleet, the hen clucks her chickens under her wings, and the warmth of her own breast puts warmth into the wet feathers and the chilled feet of the infant group of the barn yard, so Christ says to those sick and frosted and disgusted and frozen of the world: "Come in out of the March winds of the world's criticism, come in out of the sleet of the world's assault, come in out of the world's assault. understand you and does not want to are understand you. I will comfort, and I of will soothe, and I will be your warmth, ney 'as a hen gathereth her chickens under has given the cold shoulder.

CHRIST TAKES THE STORM. But notice some one must take the

storm for the chickens. An, the hen takes the storm. I have watched ner under the pelting rain. I have seen her in the pinching frosts. Almost frozen under the sheltering wing. A to death or almost strangled in the waters, and what a fight she makes for the young under her wing if a deg or a hawk or a man come too near! And so the brooding Christ takes the storm for us. What look of anguish and tears that did not dash upon his holy soul What beak of torture did not pierce his vitals? What barking Cerherus of hell was not let out upon him from the kennels? Yes, the hen takes the storm for the chickens, and Christ takes the storm for us. Once the tempest rose so suddenly the hen could not get with her young back from the new ground to the barn and there she is under the fence half dead. And new the rain turns to snow, and it is an awful night, and in the morning the whiteness about the gills and the beak down in the mud show that the mother is dead, and the young ones come out and cannot understand why the mother does not scratch for them something to eat, and they walk over her wings and call with their tiny voices, but there is no answering cluck. She took the storm for others and perished. Poor thing! Self sacrificing even unto death! And does it not make you think of him who encared at for us! So one wings under w...ch we come for spiritual safety are bood spattered wings, are night shadowe wings, are tempest torn wings. in the Isle of Wright I saw the grave or Princess Elizabeth, who died while a prisoner at Carisbrook castle! her finger on an open sible and point-ing to the words, "Come unto me all ye that labor and are heavy laden, and I will give you rest." Oh, come under the wings!

But now the summer day is almost past, and the shadows of the house and barn, and wagon shed have length ened. The farmer, with scythe or hoe on shoulder, is returning from the fields. The oxen are unyoked. The horses are crunching the oats at the full bin. The air is bewitched of honevsuckle and wild brier. The milkman, pail in hand, is approaching the barnyard. The fowls, keeping early hours, are collecting their young. "Cluck!" "Cluck!" "Cluck!" And soon all the eyes of that feathered nursery are closed. The bachelors of the winged tribe have ascended to their perc but the hens, in a motherhood divinely appointed, take all the risk of a slumber on the ground, and all night long the wings will stay outspread, and the little ones will not utter a sound. Thu at sundown, lovingly, safely, complet ly, the hen broods her young. So, H we are the Lord's, the evening of our life will come. The heats of the day will have passed. There will be shadows, and we cannot see as far. The work of life will be about ended. The hawks of temptation that hovered in the sky will have gone to the woods and folded their wings. Sweet silences will come. The air will be redolent with the breath of whole arbors of

promises sweeter than jasmine or eving primroses. The air may be a little chill, but Christ will call us, and we will know the voice and heed the call, and we will come under the wings for the night, the strong wings, the soft wings, the warm wings, and without fear and in full sence of safety, and then we will rest from sundown to sunrise, "as a hen gathereth her chick-

ens under her wing." Dear me! How many souls the Lord hath thus brooded! Mothers, after watching over sick cradles, and then watching afterward over wayward sons and daughters, at last themselves taken care of by a motherly God. Business men, after a lifetime struggling with the uncertainties of mone; markets and the change of tariffs and the underselling of men who because of their dishonesties can afford to undersell, and years of disappointment and struggle, at last under wings where nothing can perturb them any more than can a bird of prey which is ten miles off perturb a chick at midnight brooded in a barnyard.

UNDER THE DIVINE WINGS.

My text has its strongest application for people who were born in the country, wherever you may now live, and that is the majority of you. You cannot hear my text without having all the rustic scenes of the old farmhouse ome back to you. Good old days they were. You knew nothing much of the world, for you had not seen the world. By law of association you cannot recall the brooding hen and her chickens without seeing also the barn and the haymow and the wagon shed and the house and the room where you played and the fireside with the big backlog before which you sat and the neighbors and the burial and the wedding and the deep snowbanks and hear the village bell that called you to worship and seeing the horses which, after pulling you to church, stood around the old clapboarded meeting house and those who sat at either end of the church pew and, indeed, all the scenes of your first 14 years, and you think he got hold of a plank thrown to him of what you were then and of what and twice he slipped away from it, be- you are now, and all these thoughts are aroused by the sight of the old hencoop.

ne of you had better go back and start again. In thought return to that place and hear the cluck and see the outspread feathers and come under the wing and make the Lord your portion and shelter and warmth, preparing for everything that may come and so avoid being classed among those described by the closing words of my text, "as a hen gathereth her chickens under her wings, and ye would not." that throws the responsibility upon us "Ye would not." Alas, for the "would nots!" If the wandering broods of the farm heed not their mother's call and risk the hawk and dare the freshet and expose themselves to the frost and storm, surely their calamities are not the mother's fault. "Ye would not God would, but how many would not?

When a good man asked a young woman who had abandoned her home and who was deploring her wretchedness why she did not return, the reply "I dare not go home. My father is so provoked he would not receive me home." "Then," said the Christian man, "I will test this." And so he wrote to the father, and the reply came it is written, "He will abundantly pardon." Oh, ye wanderers from God and happiness and home and heaven, come in the Bristol chanel was nearing the rocks called the Steep Holmes, Under the tempest the vessel was unmanageable and the only hope was that the tide would change before she struck the rocks and went down, and so the captain stood on the deck, watch in hand. Captain and crew and passengers were pallid with terror. Taking another look at his watch and another look at the sea, he shouted: "Thank God, we are saved! The tide has turned! One minute more and we would have struck the rocks!" Some of you have been a long while drifting in the tempest of sin and sorrow and have een making for the breakers. Thank God, the tide has turned. Do you not feel the lift of the billow? The grace of God that bringeth salvation has appeared to your soul, and, in the words of Boaz to Ruth, I commend you to "the Lord God of Israel, under whose wings thou hast come to trust."

SHIP NEWS.

PORT OF ST. JOHN.

Arrived. March 4.—Sch Canadian, 108, Musner, from Fajardo, P. R. L. G. Crosby, molasses. Coastwise—Sch Nellie, 59, Comeau, from
