water all aboard and bore away to defend the canal could be transported by ship, but otherwise, in the event of the canal from Zagazig being cut, it would be necessary to abandon the canal to the mercy of Arabi and his army. Therefore the whole situation appears to be the town of Zagazig and the country betwen it and Ismailia, and in order to successfully protect and operate the Suez Canal it is necessary to cocupy Zagazig with a Chalouf. Attack by water is simply out of the question, as the Egyptians of course could do nothing on the Mediterranean side, where the fleets of Europe are assembled in force,

We have received from the publishers a copy of this new Comic Annual, the first thing of the kind ever attempted in Canada. It is decidedly superior to most of the humorous publications of the day. It is profusely illustrated in Grip's best vein, and contains two full-page pictures printed in colours. Amongst the many good things in the table of contents we may specify Mr. Bengough's burlesque narrative of adventure, entitled "Baron Munchisms and contains." In Manitoba," as particularly mirth-provoking. The Grip-Sack may be had at any bookstore for 25 cents.
