THE TROUBLE WITH NATAL-AN IMPERIAL CRISIS.

The attitude of the Government of Natal toward the Imperial Government becomes more arrogant as the dispute in regard to the Zulu Chief, Dinizulu, proceeds, and a critical situation has developed.

Ottawa, Aug. 10.-The first step to wards the actual realization of the long-noted scheme of a railway to Hudson's Bay will be taken this week with the departure of a survey party consisting of one hundred men, from Winnipeg to locate the route of the proposed railway. The survey is to be pushed with all possible speed, and it is expected that Parliament will re ceive the report of the surveyors early in January next. This will enable legislation to go through at once so that the work of construction may begin next year. The survey party is now ready to start. Mr. John Armstrong, a well-known railway surveyor, who has had a long experience in railway construction work in the west, will be in charge, with Messrs. When Umpire Bingham was pursued to the bench, T. F. Beidler was called into service. He is a good umpire. There is a story in connection with him that is not right. Survivors Tell the Story of the Wreck of a Fishing Schooner.

THE DENSE FOG

Halifax, Aug. 11.-Leo Farn, of Beloram, Nfld., and Sylvian White, John Mulse and Wm. Mulse, of Eel Brook, Yarmouth, survivors of the crew of the Gloucester fishing schooner Magand sunk by the German schoolship Freya on Saturday night about sixty miles southeast of Halifax, came ashore from the Freya today. They reported to U. S. Consul-General Wilber, who will forward them to Glou- known. cester immediately. When the fishermen landed this morning they were attired in German sailor uniforms.

Leo Farn said the officers and crew of the German ship did everything possible after tht accident to rescue the survivors. He himself caught a lifeline from the Freya, while his three companions were afloat on the booby hatch when rescued. The schooner left Gloucester Thurs-
