THE INSPECTION OF FRUIT.

The Fruit Marks Act, of which Hon. Sydney Fisher, minister of agriculture, was the author, has been but three years in operation, but has already proven of signal value in developing the horticultural industry of this

Before the passage of the act the reputation of Canadian fruit growers and shippers in the British market was not the highest. They were accused of practicing on a wholesale plan the old trick of putting the good apples on the top of the barrel to hide the wretched fruit in the middle. Apples were marked to indicate that they were of the best quality, when in reality they were very inferior, and fruit which was called by one name was of a different variety. All this had the effect of bringing Canadian fruit in the Britwas to guard our export trade, and the whale." result has been to vastly improve the standing of Canadian apples in the market to which most of them are

In the House of Commons recently complaint was made that enough inspectors were not appointed to protect the Western Canada buyer of Ontario apples, and that not a little imposition was practiced. Mr. Fisher pointed out, however, that the act does not contemplate a complete inspection of Canadian fruit. At the same time it is open to anybody who buys fruit to see to it that he receives what he purchases in accordance with the marks defined under the act. To employ an army of competent inspectors for a small portion of the year, to be dropped off when the season is ended, would be practically impossible. Such an inspection would so interfere with the transport of the fruit that the trade could not stand it. During about two months of the year, in an average season, there are from half a million to two million barrels of apples passing through the port of Montreal, and it would be impossible to inspect even specimens of the different lots while they are loading, or to hold them until they have been inspected, without seriously interfering with the progress of that fruit to market. There are other shipping points where it would be almost equally impossible to make such an inspection. Last year the inspectors examined over 41,000 of the 700,000 packages of fruit shipped, or about 2,000 to each inspector. The result was that the department prosecuted a large number of persons for violation of the act. The minister is determined that the law shall be respected.

Frank Etheridge walked musingly owards town. When half-way there he heard his name pronounced behind him in tremulous accents, and turning, saw hastening in his wake the woman who had brought him the message which first took him to Miss Cavanagh's house. She was panting with the haste she had made, and evidently wished to speak to him. He, of course, stopped, being only too anxious to know what the good woman had to say. spected Gentleman. The funeral of the late John Hunt, who died so suddenly at his home in Dorchester last week, took place from the family residence on it for much less than that, and obtain Sunday afternoon. The service, which was very impressive, was conducted by Rev. John Holmes, Methodist minister, at the house, and at the grave by Rev. The very large company of sympa thizing friends and neighbors who marked degree to the high esteem in which Mr. Hunt was held in the community in which he lived.

He was born in Dorchester 51 years ago, and spent the most of his life on the farm on which he died. In 1881 he married Euphemia, eldest daughter of the late Donald McNiven. Their union was blessed with five sons, all of whom survive. They are: A. J., J. C., W. A., F. and S. W. Mrs Alfred Allen, London, and Mrs Bert W. Duffield, of H. Hunt, of Lacombe, Alta., and Arthur, of East London, are brothers. In his very sudden removal the family lose a kind, loving father, and the ommunity an ever-ready friend.

A FINE NEW ORGAN

Instrument at St. Andrew's Handsome and Up-to-Date.

The magnificent new organ of St. Andrew's Presbyterian Church is completed, and will be opened on Monday evening next. It will cost \$10,000, and is the finest in the west. The instrument is the largest of its kind in London. It has four manuals, and the action is electric throughout. A striking feature is the echo attachment, something new to the city.

The echo part is located in the tower played separately or in connection with the main organ. Several of them are in use in England and the United States, and they are excellent. The magnificent new

You Can Remember the Case De-Here and Revitalize the scribed Wasted Nervous System my using Dr. Chase's Nerve Food.

It is so easy to neglect derangements of the nerves until something serious happens.

We say happens because many per sons do not think they are really sick until they are laid low by nervous prostration or some form of paralysis. They overlook the headaches, the nervous indigestion, the irritability and nervousness, the loss of sleep and energy and ambition. They forget that for weeks or months life has been more or less of a drag.

Then when the nervous collapse comes it takes patient and persistent treatment to get you on your feet again. The nerve cells must be gradually built up and a little more energy added to the system each day than is expended.

PAY-AS-YOU-LEAVE CAR IS NOW READY

London Street Railway Company Are About to Put It to

a Test.

Car No. 98, equipped with the payas-you-leave system is now ready for the road, and will be placed on the line within a few days. The system is as near perfect as possible, and it is thought that it can be operated successfully.

Passengers enter the car by the front door and leave by the rear one, thus enabling each person to get out his fare without rush. Had the payas-you-enter system been adopted, it would have been difficult to handle any number of people wishing to enter at one stop. By the new system those wishing tickets or change can leave their seats before reaching their destination.

The car will probably be put out on the Dundas line Monday. FOR THE BEAVER ed nearly a foot, and the car is easily entered. The motorman controls the loor, while the conductor handles the turnstile at the rear and gates on the

BOARD OF CONTROL IS BADLY NEEDED

Ald. Stevenson Says the Council Have Not a Proper Grasp of City's Finances.

The probability of a board of control for London is creating more than a little discussion now that the tax rate gives promise of soaring. Under the present system there is a ack of grasp of the city business, it is claimed, by the advocates of the board of control, and until such a scheme is

rought to bear upon the city finances a high rate is inevitable. Ald. Stevenson declares that the council and the spending bodies under it should get together early in the year and agree on a policy.

"There is a lack of cohesion in our present method," he stated today. "All the bodies should have gotten together prize for selling the greatest number early in the year, and outlined a defin-The following prizes were have been looked over, and then some awarded for regular attendance: Firsts, definite idea given to the public. Then if it was considered in the interests of the city that a high tax rate should Gertie Nutkins, Irene Cripps, Pearl be imposed, in order to make the necessary improvements, the council could stand by the board and do the work. If it was in the interests of the city to have a lower tax rate, spending bodies could be told just what the rate was going to be on an economical basis, and they could govern their expenditures accordingly. visiting with Mrs. Maynes, of Lorne do that. The board of control in Toronto does it, and the tax rate is fixed by them."

FIGHT THE CUTS

Do Not Appear To Be Worrving in Regard to a Tax Rate Increase.

There will be a big kick if the proosed cut in the estimates of some of the committees goes through.

The cut will be necessary to bring the rate down to 231/2 mills, but there will be a row over it. The board of works are suffering

more than any other body from the cutting, and they are not in any too good humor over it. Ald. Garratt, chairman of No. 3, is

making a hard kick.

"They cut down the estimates on all of us, except the bodies responsible Miss Annabell Dertinger, of Lon- for the high tax rate," he said. "There don, is spending the Easter holidays is work absolutely necessary to be done, but we cannot do it, because the board of education rates have gone so high. They tell us to cut down, but the board of education are running wild. I am going to object decidedly if they continue to chop down our estimates. The rate for general work, keeping the city in proper condition, is going down each year, although there are more demands than ever on us." Some favor making the rate 24 or 24½ mills, rather than the proposed cut, in order that some necessary work accomplished

It is no easy task striking the rate at this time. THE WHEAT STOCKS

St. Luke's, Emmanuel and St. John's Churches All in Excellent Shape.

The annual meetings of St. John's, Immanuel and St. Luke's Churches, in parish of St. Johns, London Township, were held on Monday, Tuesday and Wednesday evenings, respectively, and the reports presented were most encouraging.

St. John's.

St. John's vestry meeting was held on Monday evening. Ven. Archdeaon Richardson presided, and presented a report showing the work he had done during the year, and spoke briefly of the progress that is being made. The reports of the churchwardens, Women's Auxiliary and St. John's ost satisfactory, and were adopted. Mr. Wm. Graham was appointed rector's warden, Mr. S. Newcombe people's warden, and Messrs. G. Carey, G.

McComb, B. Hodgins and H. Marshall sidesmen. Mr. Carey stated that he had been asked to bring before the meeting that a probable purchaser would like to buy the brick stable and the orchard belonging to the rectory property.

No action was taken in regard to Mr. John Stoneman, Archdeacon cipal of Church street school. Toron Richardson and the wardens were ap- to, was elected president; W. J. Emmanuel Church.

Archdeacon Richardson presided at the meeting of Emmanuel Church, held on Tuesday evening. The churchwardens' report showed that after all expenses had been met \$73 65 remained in the treasury. The report was most satisfactory, and will be printed and distributed among the members of the congregation. The addition of a lecture and others.

The pub will be dealt with later. Mr. F. Fitzgerald was appointed recor's warden and W. H. Freel people's

warden. St. Luke's Church.

The vestry meeting held in St. Luke's Church, Broughdale, last night, was very largely attended, and the reports presented most satisfactory. Archdeacon Richardson presided. Following the reading of the minutes by follows: President, T. W. Standing, of Brantford; secretary, C. B. Edwards Stockwell was appointed rector's war-den and Mr. R. Oke people's warden, Messrs.
